

Unassailable CEO Daddy

Chapter 56

Xing liehan looks at the kitchen unfathomably. He can't see the mood. The fire food cost of 100000 yuan a month. If this woman is useless, he may cancel it at any time.

Tang Siyu looks at a pair of father and son sitting at the table. She comes out with a bowl of chopsticks and hands over a bowl of rice for her son. She picks up the bowl and fills it for herself. As soon as she sits down, the rice in front of her is snatched by a strong arm.

"Hello Why don't you have your own hands and feet? Are you also my son? "

Tang Siyu raised his eyebrows.

In an instant, a cold and cold look glared at her, and Tang Siyu immediately felt numb. Does this man need to use murderous eyes?

"Mommy, how could daddy be your son? He's almost your husband. " The child's tender voice retorted.

Tang Siyu said, "it's impossible."

Xing liehan eats elegantly, and puts the dishes into his son's bowl. "Eat well."

A meal was silent and even depressing. The little guy's bowl was always full of vegetables. Tang Siyu had a good appetite, but the opposite man affected her appetite. After eating half a bowl of rice, she found that she could not eat it.

But the opposite man had a good appetite. He had a meal with his son. Tang Siyu drank soup and wiped his son's mouth with paper from time to time.

Finally, the two father and son finished eating. Tang Yixi's little friend was going to help Mommy clean up the bowl. Tang Siyu stopped him and asked him to practice the piano when he was free. The little guy took Xing liehan.

When Tang Siyu washed the dishes, she heard her son's piano. She was in a good mood. She planned to cultivate her son's artistic atmosphere. In the future, even if she could not read, she could have a talent.

Of course, my son's literacy is amazing, and the communication between Chinese and English is not a problem at all.

"Daddy, can you play?" The little guy asked the man sitting next to him curiously.

"For a long time, it's strange." Xing liehan answers.

"Daddy, play it. I'll listen." Little guy wants to know more about Daddy!

Xing liehan sits next to the piano, and a fashionable crystal lamp sprinkles on his head, which makes his whole body seem to be covered with a layer of silver white light, like the incarnation of a piano prince.

In the kitchen, Tang Siyu, who has just washed her hands, comes out. She is shocked. This man is playing her piano?

A string of melodious and melodious notes reverberated in the hall. From the perspective of proficiency and difficulty, this man can play so well?

Then, as if the steel ball were spilling into the ice, it was clear and bone deep. However, in a moment, it turned into a strong voice, which was as loud as the roar of the deep sea, and shook people's hearts and souls. Finally, it was silent, especially in the middle of the night, while the reverberating ear seemed to have a constant force shaking the soul.

Tang Siyu's face is fixed, and the little guy next to him is also slightly opening his mouth. Daddy plays the piano well!

Xing liehan looked back at his son's stunned expression. He reached out and stroked his soft short hair. "Do you want to take a bath with daddy?"

The little guy turned to look at his mother. Tang Siyu happened to be inspired by the man who just played a song. She said to her son, "take your clothes! Mommy's going to practice music in a moment. "

Even if the man moved in, he could not stop his son and his emotional development, she let it go!

The little guy immediately went back to his room, took his pyjamas and pajamas and walked to Xing liehan. Xing liehan took his hand, opened the fingerprint lock and left with the little guy.

Behind her, Tang Siyu sat at the piano and thought of Xing Yexiao's playing. She couldn't see that such a cold man could play the piano?

Playing piano needs full emotion and delicate mind. How can this man have it?

This evening, Tang Siyu practiced piano for a long time. When she went to bed at night, she didn't have the habit of being locked inside. But after opening the door, Tang Siyu had to be locked inside. The man said that he had no sexual interest. Who knows if he was abnormal?

Men like him who came here in disorder five years ago don't know how many women they have played in these five years! She will not allow her son to take a bath in his place. In case of any disease on his body, won't his son be infected?

Thinking of this, she did not sleep for half a day, until about two o'clock in the morning, she fell asleep in a daze.

Anyway, this man will take charge of sending her son to school. She can sleep until she's full, but a phone still wakes her up.

After she felt it vaguely, she took a look at sushi. She put it in her ear and vaguely picked up, "Hello, Xiaoxi."

"Are you still sleeping?" Asked sushi, a little surprised.

"Well! Still sleeping! Are you back? "

"Don't send Xiaoxi to school!"

"He was sent."

"Who is it!"

"Xing liehan."

"What? You're growing so fast? Living together so soon? " The laughter of Suzie came.

Tang Siyu immediately sat up in shock, "how can I live with him!" "It's not cohabitation. Why does he come here to see your son in the morning?"

"Don't mention it. Do you know who is the abnormal owner of the three suites across from me? It's him. " Don Siyu complained to her angrily.

When sushi heard that, he said with a smile, "it's him! That's no accident! He has money. "

"Now, what's more, he has opened a door to my wall. Now, I am separated from him."

"Wow! So, you and he are living together! Just sleeping in separate beds! " Susie said with a smile.

"All right! Don't mention him. I have a headache. Are you back? " Tang Siyu hoped that she would come back, so that she could ask her out to relax.

"No! I have a few days to go! I'm calling to ask you if you have seen today's news. Murphy and Tang Yiyi's engagement has been cancelled. "

"I knew it yesterday. Tang Yiyi called me and said I broke up her engagement with mufei." Tang Siyu looks angry.

"She's ridiculous, too! Siyu, you can ignore her and don't get angry. "

"I see it now. She and mufei love have nothing to do with me." Tang Siyu's tone was very calm.

"That's what she deserves. Who told her to rob other men? They won't last long." Sushi summed it up there, and then asked, "how is your score? When are you going to practice singing with Ye you? "

"I'll call her today and ask her." Tang Siyu stroked a small face that had not been awake.

"Come on! Eight days, I may not have time to see it, but I'm looking forward to it! "
