Unrivaled Warrior by Ashley Grey Chapter 16

- Marcus turned to his father with a look of confusion when Henry stopped him. "What's the matter, Dad?" he asked.
- Henry gazed at Marcus intently and responded, "This is the most crucial time for our Gray family to go public. We can't afford any major issues. It will only harm our family. Our primary goal now is to succeed in going public."
- Marcus spoke angrily, "But, Dad, Lucian disabled your grandson. How can you ignore it?"
- Quinn Maverick, Tom's mother, couldn't hold back her tears and said with a pained expression, "Dad, Tommy was your favorite grandson. However, the monster Lucian had disabled him. We must seek revenge for him."
- Henry looked at them being emotional and snorted coldly, "What are you all panicking about? Lucian is just a small fry. I heard he has a daughter, right? Hire people from the underground world and eliminate his daughter. It will make him understand the consequences of crossing our Gray family."
- The suggestion to kill Lucian's daughter sent a chill down Marcus and Quinn's spines, but their eyes flickered with fierce determination. "He disabled my son, and I'll kill his daughter," Quinn thought. The plan to make Lucian suffer greatly and drive him insane was met with excitement by everyone. They wanted him to suffer rather than just kill him outright.
- "Dad, this is a great plan. Let's put it into action now," Marcus said, his lips curling up slightly as a bloodthirsty look appeared in his eyes.
- Meanwhile, at the Harrison family's old residence, laughter echoed through the reception room. The Harrison family members were ecstatic upon hearing the news that Lucian had disabled Tom at the investment conference. With the power of the Gray family, getting rid of Lucian was a simple task.
- "Father, this is brilliant. After Lucian is gone, with only Freya left, she won't be able to carry on with this project," said Aaron with a sinister chuckle.
- "Once that happens, we'll go after Freya again. She'll be under immense pressure to hand over the Monsalt City Village demolition project to us," Aaron

continued. Dax couldn't help but smile happily, his eyes shining with excitement at the prospect of their success.

- Lucian, the abandoned son, disabled Henry's beloved grandson. As expected, the Gray family was seeking revenge against Lucian with fury. Once he was out of the picture, with Freya physically disabled, they wouldn't be able to compete with the likes of them. "Just wait and see. Lucian will most likely die a tragic death on the streets before tomorrow night," said Dax, raising his wine glass and laughing.

- ...

- After holding a brief meeting on the second morning, Freya, Lucian, Annie, and Frank wasted no time in starting the demolition project. Their first step was to have the villagers move out before commencing the actual demolition process. Fortunately, the villagers were highly supportive of the demolition work and quickly began to move out one after the other. 300 households out of the 500 in Monsalt City Village were relocated in just one morning. The remaining 200 households were also being relocated from the village within the next two days.

- Later that day, Freya hired numerous construction workers and began the demolition process instantly and efficiently. The Infernal Group's management praised her for her remarkable leadership, despite her physical limitations. If she were not disabled, there would be no limit to her potential success.

- At the end of the workday, Lucian offered, "I'll go pick up Minnie after school and then buy some groceries to celebrate," Freya was delighted and requested to come along, mentioning, "I haven't picked up Minnie from school in a long time." Lucian agreed and proceeded to push Freya to the school.
