Chapter 2281 - 2281 Bodhi Spirit Light, Who Said I'm Not Familiar With Dharma, Please Enlighten Me, Buddhas

A grand majestic hall stood high on the Divine Thunder Drum Peak.

Inside the hall were thousands of Buddhist statues, emanating dazzling Buddhist Light and a holy aura. Their peaceful presence filled every corner of the hall.

When Gu Chan and the others entered the hall, the Buddhist statues came alive. Their eyes started to move and look at the arriving group.

“Buddhist Brother, how are you?” said a Buddhist statue in the grand hall.

“Greetings, fellow Buddhas.”

“Buddhist Brother, I believe you're here for the Bodhi Spirit Light.”

“I am.”

The Buddhist Dao's Bodhi Spirit Light was one of the most important Opportunities of Fortune on the Divine Thunder Drum Peak. It contained a huge amount of Buddhist knowledge and insights, which were important to any Buddhist cultivators.

Once cultivated and refined, one would be able to reach the threshold of a Monarch.

On top of that, even if the lucky one was not a Buddhist cultivator, it could also protect one's Daoist core from wicked evils and increase one's cognizance.

However, it was not easy to acquire the Bodhi Spirit Light.

One must go through the trials of the Buddhas on Divine Thunder Drum Peak.

The trials of the Buddhas were, of course, related to Buddhism.

One's Dharma would be tested instead of cultivation level.

Anyone who could beat thirty-six of the one-hundred and eight Buddhist statues in the grand hall in a Dharmic debate would get the Bodhi Spirit Light.

"Buddhist Brother, please," said a Buddhist statue.

"After you," Gu Chan said with a smile.

When the two of them started a Dharmic debate, golden lotuses bloomed on the floor, and divine lights shone.

While they were debating, multiple figures arrived at the Divine Thunder Drum Peak.

It was Chu Kuangren and company, as well as Cundi and Receiva.

When the Buddhist cultivators who came with Gu Chan saw Cundi and Receiva, they frowned.

One of them asked, “What are you two doing here?”

“Me and my junior brother are here to have a Dharmic debate with the Buddhas,” Cundi said.

In terms of cultivation, they might be lower than Gu Chan.

However, in terms of Dharma, they were confident enough to beat others.

“You two?”

A monk scoffed. “If there’s no Buddhist Monarch from the Pan Gu Universe, what makes you think you’re qualified to join this trial?”

In other words, they looked down on Cundi and Receiva’s background.

“We’re all equals. Besides, we’ve come to join the trial because we’re qualified,” Receiva said.

He did not want to start a conflict with Gu Chan and his people. However, when he thought of his senior brother isolated in the Heavenly Buddhist Pure Land, he decided to step up and defend themselves.

The saying that people fought over respect and Buddhas fought over incense had basically the same meaning.

Now, with Chu Kuangren as their support, they gained the confidence to stand up against Gu Chan.

“You two trying to get in? Stop dreaming!” said the monk.

“Everyone should be equal before the Buddhas, and no one should be prejudiced against. This Buddhist Brother here is very much so prejudiced against the two of you. I guess his Buddhist cultivation is a waste,” Chu Kuangren said.

He waved his sleeve and released a vast energy wave.

“Kabaam!”

The domineering energy blasted all the Buddhist cultivators away.

“Chu Kuangren! Are you interfering with our internal affairs?”

The shocked monks looked at Chu Kuangren with reverence, but no one dared to stop him.

“Internal affairs? I’m not interested in that, but I do want to have a look at the Buddhist statue in this grand hall,” he said with a smile.

Then, he strutted into the hall.

Cundi, Receive, and the others immediately followed him inside.

“You!”

One of the monks was infuriated, but he did not do anything to stop Chu Kuangren because he knew he was no match.

“Let them in,” said an older but confident-looking monk.

“Even if Chu Kuangren enters the hall, he won’t be able to get anything out of the Buddhas.”

The others nodded in agreement.

The Buddhist world was very specific about the Buddhist fate.

Without the Buddhist fate, one would not be able to get anything, even if the great Opportunity of Fortune were right in front of their eyes.

“Yeah, we should show him the essence of Dharma.”

“We must teach him a lesson so that he will learn not to be arrogant.”

“He should know that power is not absolute, and he can’t do whatever he wants.”

...

Inside the grand hall, Gu Chan’s Dharmic debate with the Buddhas had entered its climax.

“Buddhist Brother, thank you,” Gu Chan said.

A Buddhist statue opposite him chuckled. “The Buddhist world has produced many geniuses, and we’re happy it’s thriving. This is the Bodhi Spirit Light. Take it.”

He released a golden ball of light to Gu Chan.

The ball of light contained a huge amount of runes that felt mystical.

Gu Chan was happy with the ball of light in his hand. “Once I refine this Spirit Light, I will be able to reach the threshold of a Monarch. Coupled with my talents, I’ll be able to break through to the Pseudo-Monarch Realm!”

Suddenly, he sensed the arrival of someone else.

He turned around and saw Chu Kuangren and company walking into the grand hall.

When Chu Kuangren saw the ball of light in Gu Chan’s hand, his eyes gleamed with interest. He smiled and said, “So that’s the legendary Bodhi Spirit Light?”

Gu Chan’s eyes widened in fear, and he quickly kept the Spirit Light away as if Chu Kuangren would snatch it away if he were any slower.

“Brother Chu, how are you?”

Gu Chan put his hands together and bowed with a smile.

“Ha! You looked like you were scared of me taking your stuff. Don’t worry, I’m not a robber.” Chu Kuangren smiled like a gentleman.

Gu Chan simply smiled in reply.

No one knew if Chu Kuangren was serious or joking.

Then, he looked at Cundi and Receiva.

“Buddhist Brothers, you guys are here too.”

“Greetings, Buddhist Disciple.”

Cundi and Receiva bowed.

Gu Chan had a prestigious status in the Heavenly Buddhist Pure Land.

Other than a Buddhist Monarch, the other Buddhist cultivators feared and revered him.

Even if Cundi and Receiva disliked him, they had to be polite and with manners. If Gu Chan held them responsible for disrespect, it would be more difficult for them to continue cultivating in the Pure Land.

“The two of you want to join the trial as well, huh?”

“Yes, that’s right.”

“Please.”

Gu Chan was not bothered by it at all. Even he had to overcome many difficulties to clear the trial, let alone Cundi and Receiva.

However, what happened next shocked him.

Cundi and Receiva started the Dharmic debate with the Buddhas and seemed to be taking it easy. Several hours later, they managed to beat thirty-six Buddhist statues and got their hands on the Bodhi Spirit Light!

“Great!”

Cundi and Receiva were thrilled to hold the Bodhi Spirit Light in their hands.

The Spirit Light would accelerate their cultivation.

“I didn’t expect the two of you to have such deep insights into Dharma. I’m impressed,” Gu Chan said. A strange look flashed on his face.

Chu Kuangren caught the strange look and pondered on it.

Gu Chan seemed to have an ulterior motive.

Should he find a chance to take out Gu Chan?

When the thought appeared in Chu Kuangren's mind, Gu Chan felt chills running down his spine and his hair standing on end.

He looked at Chu Kuangren and said, "I wonder what brings you here, Brother Chu? Are you here to accompany Cundi and Receiva?"

"I have nothing to do with the two of them. I'm here because I'm interested in the Opportunity of Fortune on Divine Thunder Drum Peak," Chu Kuangren said.

"I'm afraid you will be disappointed, Brother Chu. The Opportunity of Fortune here is only for people who have Dharma or Buddhist knowledge, if you may."

"Huh? Who said I'm not familiar with Dharma?" Chu Kuangren chuckled.

Then, he walked over to the Buddhist statues and said, "I, Chu Kuangren, am here to have a Dharmic debate. Please enlighten me."

Chapter 2282 - 2282 Won the Dharmic Debate, Another Ultimate-Level Cultivation Technique, Immovable Enlightenment King's Sword Seal

Gu Chan looked at Chu Kuangren in shock.

Did he have any knowledge of the Dharma?

The Buddhas in the grand hall were also surprised as they did not sense any intense or obvious presence of Dharma in him.

“Are you from the Buddhist world?”

“I am not.”

“If you’re not from the Buddhist world, how are you going to have a Dharmic debate with us?”

“All life is equal. Is Dharmic debate exclusive to those from the Buddhist world?” Chu Kuangren asked.

The Buddhas were left speechless. Chu Kuangren’s words made sense as well.

“In that case, please go ahead,” said one of the Buddhist statues.

Chu Kuangren grinned, and his eyes gleamed with excitement. “Going one by one is too slow. I want to have a Dharmic debate with all of you.”

In other words, he wanted to challenge all the Buddhist statues.

It was him alone versus the one-hundred and eight Buddhist statues in the grand hall.

Gu Chan was shocked.

He looked at Chu Kuangren as if he was looking at an idiot.

“The one-hundred and eight Buddhist statues in this grand hall represent the seniors of the Buddhist world, the pioneers of Buddhism, yet Chu Kuangren wants to challenge all of them to a Dharmic debate? No matter how many tongues he has, he won’t be able to beat them all,” Gu Chan thought.

Cundi and Receiva also believed it was too risky for Chu Kuangren.

Even the Buddhist Monarch of the Heavenly Buddhist Pure Land could not have a Dharmic debate with one hundred and eight Buddhas.

“You punk! How audacious!”

“Are you here to cause a scene?”

All of a sudden, the holy and harmonious Buddhist Light in the grand hall grew restless.

However, Chu Kuangren was unfazed. “Bring it on, everyone.”

Enlightening words spewed from his mouth, one after another, and the words seemed to trigger the Buddhist Lights in the hall.

He started to shine in Buddhist light, and it formed a light kasaya around him, making him look like a Buddha himself.

Cundi, Receivva, and the others were in awe.

“Does he really know the Dharma?”

“And it seems like his knowledge level is high.”

Chu Kuangren had Dharmic knowledge?

He had them, but to say he was on par with the pioneers of Buddhism would be an exaggeration.

After all, his focus was not on Buddhism.

Where did he get the confidence to challenge the one-hundred and eight Buddhas?

Simple. It was because he had Lil Ai.

Lil Ai, the Omniscient Spirit, had knowledge from countless universes, including all kinds of Dharmic knowledge.

If she wanted, she could be the most knowledgeable being of the Dharma.

As time flew, the expressions on the Buddhas turned grimmer by the minute.

Chu Kuangren's insights and knowledge of Buddhism were thorough and masterful. He knew all kinds of lesser-known Buddhist knowledge, including some even the Buddhas had not heard of.

They might be the pioneers of Buddhism, but they were too old.

Knowledge developed over time and expanded like the sea, and it was the same with Dharma.

Chu Kuangren had the most advanced knowledge and ideals of Buddhism. With the support of the oldest Dharmic knowledge, he could draw references and analogies from every aspect across the Infiniverse.

The Buddhas in the grand hall were all rendered speechless for a while. Gu Chan, who was at the side, had been stunned for a long time.

He did not know what was going on.

How could Chu Kuangren's Dharmic knowledge surpass him so much?

He even started to question whether he was qualified to be the Buddha Disciple.

In fact, he was petrified.

Cundi and Receiva, on the other hand, were astonished as well.

What else could be more outrageous than that?

“The Immortal King is almighty!” Cundi shook his head in awe.

It strengthened his belief in working together with Chu Kuangren.

Chu Kuangren possessed unlimited potential, and it was just a matter of time before he became a Monarch.

With his support, Cundi and Receiva could make a stand in the Heavenly Buddhist Pure Land or even realize their dreams of preaching Buddhism across the Infiniverse.

They wanted to preach their own Buddhism, not the one taught at the Heavenly Buddhist Pure Land.

The two of them wanted to start their own religion.

“Buddhist Brother, your talent amazes us.”

In the end, the leader of the Buddhas put his hands together, and Buddhist Lights erupted from his body. “Buddhist Brother, your research and understanding of Buddhism is far beyond us. Here are the Bodhi Spirit Light and the Immovable Enlightenment King’s Sword Seal. They are yours.”

Within the Buddhist Light was the Bodhi Spirit Light, which shone brighter and denser than the ones Gu Chan, Cundi, and Receiva received.

There was also a tiny golden sword in the Spirit Light, and it exuded a harmonious yet sharp sword intent.

Chu Kuangren was surprised.

When he held the Spirit Light, the golden sword entered his body, and a sea of knowledge surged into his mind.

It was the Immovable Enlightenment King’s Sword Seal!

Gu Chan was overcome with jealousy. “The biggest Opportunity of Fortune on the Divine Thunder Drum Peam is the Immovable Enlightenment King’s Sword Seal!”

Back in the Heavenly Buddhist Pure Land, There were legends revolving around the sword seal.

It was said that in ancient times, the Buddhist world raised a swordsman, and he descended on the world with outstanding power and talents. He even almost ascended beyond the Monarch Realm and created a powerful Ultimate-level cultivation technique.

It merged the mystical teachings of Dharma and the technique of the Sword Dao, which would later evolve into the Immovable Enlightenment King's Sword Seal.

It was probably the strongest divine ability in the Buddhist world. Not even the current generation ruler of the Heavenly Buddhist Pure Land had it.

The cultivation technique was lost in the river of time.

No one would have thought it would be hidden in the Divine Thunder Drum Peak, that one must challenge all one-hundred and eight Buddhas to a Dharmic debate to acquire it.

"Damn it! He has the cultivation technique!" Gu Chan stared at Chu Kuangren with utmost jealousy.

Chu Kuangren's eyes were closed as he savored the mystic power of the sword seal. Then, as he performed his sword hand sign, Buddhist Light swirled around his fingers.

As the Buddhist Light formed a sword shadow, the holy aura and the murderous qi fused perfectly.

The Buddhas were once again shocked.

“What? He just received the Immovable Enlightenment King’s Sword Seal. How could he have access to the mystic power already?”

“His cognizance is terrifyingly high!”

What Chu Kuangren received was not an Embodier or Primordial cultivation technique. It was an Ultimate-level cultivation technique that surpassed even the Hongmeng cultivation technique.

It astonished everyone, including Chu Kuangren himself.

Even though he had a terrifyingly high cognizance, it seemed to have grown lately.

Then, he thought of the Creation Pool. Ever since he bathed in the Creation Pool, his talent and foundation had been boosted, and a certain aspect of his abilities had been amplified.

Gu Linglong’s frost attributes and Lan Yu’s Radiant attributes were the best examples.

After Chu Kuangren came out from the Creation Pool, other than the boost in the Ultimate Almighty Source Physique, there were no obvious improvements.

Now, he realized that his cognizance was the characteristic that was amplified.

The Creation Pool was indeed amazing.

Chu Kuangren was grateful for the Eternal-tier prize once again.

Then, he conserved the Buddhist Light at his fingertip and bowed at the Buddhas. “The Dharmic debate has enlightened me. Thank you, everyone.”

“Buddhist Brother, it is our pleasure.”

The Buddhas were displeased with Chu Kuangren’s arrogance at first, but they were impressed by his capabilities after the Dharmic debate.

Chapter 2283 - 2283 Foreign Cultivator, Immovable Enlightenment King’s Sword Seal’s First Action, Ancestral Tombs Immortal Island

“Now that the biggest Opportunity of Fortune on the Divine Thunder Drum Peak has been given away, we should be going back into slumber soon. This era is everything but simple. Take care.”

Then, the Buddhist light faded, and they returned to their statue state.

After hearing what the Buddhas said, Chu Kuangren pondered and took the Bodhi Spirit Light out.

“Shi Ying, this is for you.”

The Bodhi Spirit Light was extremely useful to someone in the Buddhist world, and he was not one of them.

However, it would be a great gift for Shi Ying.

After all, she was a Buddhist cultivator and one of the Black Heave Nine Stars, who had pledged her loyalty to him.

“Huh?”

Shi Ying was surprised.

She did not hope for any huge Opportunity of Fortune, but Chu Kuangren had surprised her with the Bodhi Spirit Light. She was astonished and delighted.

Staring at the Spirit Light in her hand, Cundi and Receiva were jealous of her.

The Spirit Light she received was much denser than theirs and Gu Chan’s.

Gu Chan felt a mix of emotions after what happened.

He had to go through that difficult trial to get the Bodhi Spirit Light, yet Chu Kuangren simply gave it away. He was jealous and furious at the same time.

“Let’s go.”

Just as Chu Kuangren wanted to leave with Shang Honghua and the others, screaming suddenly came from outside the grand hall.

Everyone immediately rushed out of the grand hall to see a bunch of cultivators fighting the Buddhist cultivators.

Chu Kuangren did not want to be involved in some random conflict, but the cultivators were not humans.

He was curious how they came into the Human Ancestral Land.

“Die, Buddhist cultivators!”

Several Grand Dao cultivators went after Gu Chan together.

Enraged, Gu Chan’s expression darkened.

When he threw a palm strike forward, Buddhist Light shone behind him and formed a golden Buddha Avatar exuding a prestigious aura.

The avatar looked ferocious as it unleashed its evil-subduing powers.

“Kabaam!”

One palm strike was all it took to blast the cultivators away.

“Gu Chan is indeed strong!”

“Look, there are a few more beside him! They have a lower cultivation level!”

The Grand Dao cultivators realized they were no match for Gu Chan, so they switched their target to Shang Honghua, Shi Ying, and the others.

They were vicious and swift as they moved closer. However, when they spotted Chu Kuangren, their eyes widened in fear, and they instinctively stopped.

They forced their legs to stop and retreated immediately.

“It’s Chu Kuangren! Retreat!”

“Why is he here?”

They knew about Chu Kuangren. They knew how terrifying he was, and in just a fraction of a second, they turned around and ran.

Unfortunately, it was too late.

Their appearance had intrigued Chu Kuangren.

“You guys are just the perfect test subjects.”

Chu Kuangren pointed his sword hand sign forward, and Buddhist Light swirled around his fingers.

A huge Swastika symbol formed in the Buddhist Light.

It was the Immovable Enlightenment King’s Sword Seal!

“Immovable Enlightenment King’s Sword Seal, wipe out all life!”

The boundless aura instantly filled the realm.

Endless Buddhist light shone as the huge Buddhist Avatar wielding a vajra appeared behind Chu Kuangren with an indomitable aura. In an instant, the aura drowned everyone.

Sword qi containing Buddhist Lights swept forward.

“Damn it!”

The foreign cultivators were killed one by one.

The most peaceful and harmonious Buddhist Light unleashed the most ruthless and vicious power of destruction. It shocked everyone at the scene, especially the Buddhist cultivators.

One of the Buddhist cultivators with a deeper knowledge recognized the technique that Chu Kuangren just used. His voice trembled as he said, “I-Its the long lost Ultimate-level cultivation technique of the Buddhist world, the Immovable Enlightenment King’s Sword Seal!”

His words further astonished everyone from the Buddhist world.

They all looked at Gu Chan to seek an opinion from him, but he stayed quiet.

The silence verified their thoughts.

Chu Kuangren had indeed used the Immovable Enlightenment King’s Sword Seal.

“Oh my god. How is that possible?”

“How did he cultivate the Immovable Enlightenment King’s Sword Seal?”

“Chu Kuangren cleared the Dharmic debate in the grand hall and beat all one-hundred and eight buddhas. That’s why he got the Immovable Enlightenment King’s Sword Seal,” Cundi explained.

He was delighted to see the disbelief on the Buddhist cultivators' faces.

However, Chu Kuangren was not bothered by the Buddhist cultivators' astonishment. Instead, he went over to one of the foreign cultivators who survived his attack.

Judging from the cultivation technique, the man should be from the Celestial Divine Tribe.

"Speak. How did you come inside here?"

"Hmph! Chu Kuangren, you can kill me, but you won't get any information out of me!" the Celestial Divine Tribe cultivators said.

Chu Kuangren chuckled. "Stubborn one, I see."

He was not concerned. After all, he had his own way of dealing with stubborn people.

He performed a set of mystical hand seals and used multiple soul techniques on the Celestial Divine Tribe cultivator.

Excruciating pain tormented the man, and his screams echoed in the air.

Then, Chu Kuangren used the Soul Scouring Technique.

Chu Kuangren's ruthless method frightened Gu Chan and the others.

Chu Kuangren was totally different from when he had the Dharmic debate with the Buddhas in the grand hall.

He looked like a holistic Buddha a while ago, but now, he looked like an Ashura from hell.

Just which one was the real Chu Kuangren?

Gu Chan became more afraid of Chu Kuangren.

Meanwhile, Chu Kuangren gradually understood the situation through the Soul Scouring Technique.

"Interesting. I didn't expect the opening of the Human Ancestral Land to attract the other forces. The Celestial Divine Tribe, the Dragon Tribe, the Beastman Tribe, the Curse Tribe..."

Chu Kuangren's expression turned cold.

He was not overly fond of the Human Sanctuaries, but if a foreign tribe wanted to harm the well-being of the entire human race, they would have to go through him first.

He glanced at the Celestial Divine Tribe's cultivator, whose eyes were blank and dull. Then, he grunted and burned him to ashes with the Infernal Dragon Flame.

“I’ve found out from this person’s memory that multiple foreign tribes have gotten their hands on three Humanity Treasures. In addition to the remaining Humanity Treasures that the Human Sanctuaries possess, I think the Human Ancestor’s inheritance might finally appear this time.”

Chu Kuangren thought of what the Buddhas said back in the hall.

This era was everything but simple. It meant that the Human Ancestor’s inheritance, which had not appeared for countless eras, might finally reveal itself in this era. It was entirely possible.

While Chu Kuangren was pondering, the Human Ancestral Land trembled.

Then, dazzling Immortal Sparks shone in the sky.

A majestic island appeared in the sky and emerged from the clouds.

Countless human cultivators in the Human Ancestral Land looked up at the sky island.

Chu Kuangren could feel his Heaven Divide Sword shaking as if it was resonating with something on that sky island.

“That’s the Immortal Island where the Ancestral Tombs are!” Gu Chan said as he looked at the sky island in shock.

The Ancestral Tombs would be where the Human Ancestor's inheritance was located.

It had not shown itself for countless eras, yet it finally appeared in this turbulent era.

Chapter 2284 - 2284 All Forces Ready, Monarch Seeds Gathered, Foreign Tribe Appears

The Immortal Island's appearance surprised all the cultivators in the Human Ancestral Land.

On a certain mountain ridge, Mingyue Wuxia looked at the Immortal Island in the sky, and a strange look appeared on her face. "The Immortal Island has appeared? It seems like the Nine Humanity Treasures are finally gathered here."

She transformed into a streak of rainbow and flew away.

Meanwhile, Dao Lingtian, in his Violet Cloud Divine Armor, was also flying toward the Immortal Island.

His eyes were burning with eagerness. "Human Ancestor, the first human in the Infiniverse. I must get his inheritance no matter what!"

He was surrounded by a violet misty light that boosted his aura.

"Kaboom!"

A blast of sword qi erupted somewhere, and it was so strong that it could tear the sky apart.

Dugu Budai flew toward the Immortal Island as well. He was excited that Immortal Island had appeared.

“I don’t have any of the Humanity Treasures, but I’m getting the Human Ancestor’s inheritance no matter what!”

Other than the Human Monarch Seeds moving out, the other foreign tribes’ Monarch Seeds who managed to infiltrate the Human Ancestral Land made their moves as well.

“Roar!”

A loud dragon roar echoed across the sky.

A red dragon appeared and transformed into its human form. The dragon breath that followed scorched the land and the Human Prodigies and sky-prides to ashes.

He was the Monarch Seed of the Dragon Tribe.

He did not belong to the Elder Dragon, Yinlong, or the Black Dragon but the most common Red Dragon.

However, his bloodline mutated, and coupled with some Opportunities of Fortune, his potential and talent surpassed that of the Big Three.

He became the strongest Monarch Seed of the entire Dragon Tribe.

His name was Chi Ying.

“The Ancestor Tombs has finally opened. The Monarchs were right. The Ancestor Tombs have finally opened in this era. If I can get the Human Ancestor’s blood, I will be able to end the fate of the humans being the masters of the Infiniverse!” Chi Ying said with a scoff.

All the human cultivators were annihilated by the light.

Tianshen Changyu’s gaze was frosty but confident.

“Hahaha! Human Monarch Seeds, I’m coming for you guys!”

A huge golden behemoth cackled at the Immortal Island. His laugh was as loud as thunder that shook the sky. He was the Monarch Seed of the Beastman Tribe.

Those from the human tribes and foreign tribes were all heading toward the Immortal Island of the Human Ancestral Land, where the Ancestral Tombs were located.

Many streaks of light soared across the sky as they made their way to the Immortal Island. They were afraid they might lose out in the competition or even some important Opportunities of Fortune.

At the same time, a man in black robes and a pair of strange violet eyes stared at the streaks of light in the sky. He laughed ominously.

“Hehe. Foolish humans, gather at the island so that I can kill all of you. Even if I can’t get the Human Ancestor’s blood, I can inflict some heavy damage on the humans and cripple them in this era.”

The man’s eyes had a strange rune.

...

“The Immortal Island has appeared! Let’s go!”

Back at the Divine Thunder Drum Peak, Gu Chan stared at the island with the utmost eagerness and led his Buddhist cultivators to the Immortal Island.

Chu Kuangren did not stop them because he, too, brought Shang Honghua and the others to the island.

The Immortal Island had countless connecting mountain ridges and rivers.

There were countless mountain peaks within sight, all glimmering with treasure light. There were also many strange mythical beasts roaming the place, making the atmosphere grand and majestic.

One quick glance at the mountains and the people could sense an abundance of treasures and Opportunities of Fortune.

“The Immortal Island is indeed magnificent!”

“This island is amazing!”

“Oh my god! The spiritual qi of the island is ten times stronger than the spiritual qi on the land. Cultivating here will definitely be more efficient!”

“The spiritual qi is only one of the benefits. The mountains also have mines, herbs, and all kinds of treasures! It’s astonishing to just look at them.”

“I think the resources of some of the Monarch-class forces combined are less than half of the treasures here.”

Everyone was in awe.

Amidst the astonishing view, the most captivating spot would be the void in the center of the island.

The void in the center was glowing in colorful skyglow, and it exuded a faint but unique energy fluctuation.

“Sect Leader, is that the location of the Ancestor Tombs?” Nuwa asked as she looked at that spot.

The Creation Crystal was also reacting strongly to it.

“It’s likely.” Chu Kuangren nodded.

In fact, they were not the only ones who noticed the void.

The others also sensed a huge Opportunity of Fortune in that particular spot.

Everyone flew toward the center of the island.

A violet streak of light arrived, and violet Immortal Sparks erupted. Dao Lingtian was the first who made it to the void.

As he stared at the skyglow in the void, the Violet Cloud Divine Armor buzzed strongly.
“Interesting. Let me see what is inside here.”

He channeled his Great Daoist law energy and punched the void.

“Kaboom!”

The void trembled.

His powerful Great Daoist law energy punctured a hole in the void, but it did not affect the skyglow.

On the contrary, strong rebound energy blasted Dao Lingtian away.

“Dao Lingtian, stop wasting your energy. This should be where the Ancestor Tombs are located. If you want to go inside, you must first gather the Nine Humanity Treasures,” a faint voice said.

A black figure emerged — it was Dugu Bubai.

Dao Lingtian narrowed his eyes as he knew the person. “Isn’t this the notorious Sword Demon? I heard you were defeated.”

Dugu Bugo was not affected by Dao Lingtian’s sneers. “Save your words and think of a way to open this space.”

“I see you’ve grown more mature. Is it because of Chu Kuangren?” Dao Lingtian said.

“It’s none of your business.” Dugu Bupo did not answer his question.

As a matter of fact, ever since he was defeated by Chu Kuangren, although devastating, he had gained a lot from the battle. At least, he knew he was not the strongest.

Moreover, his Sword Core had strengthened after the battle.

“Daoist Brothers, long time no see.”

A pleasant voice sounded in the air.

A slender figure emerged from the void — it was Mingyue Wuxia.

Dao Lingtian’s reacted with fear.

Among all the humans in the Infiniverse, other than Chu Kuangren, whom he had never met yet, he feared the mysterious Mingyue Wuxia the most.

Then, Buddhist Light shone, and Gu Chan arrived with the Violet Golden Gowl.

A few more Human Monarch Seeds arrived.

All of them looked at each other cautiously.

“Everyone, how long are you guys planning on hiding? Just show yourselves.”

Minyue Wuxia could sense multiple presences in the void and simply urged them to reveal themselves.

“Haha! Woman, you are sharp.”

The air suddenly became extremely hot as a red figure emerged. He carried a domineering scorching dragon qi with him.

Other than him, Celestial Divine Light shone, and a handsome young man came out.

Another tall, golden figure that carried a barren presence jumped out as well. Each step he took could shake mountains and lands.

There was one more person who had a pair of silver wings behind his back. The space around him was distorted following his arrival.

Dugu Bupo and the others widened their eyes in shock when they saw the strange figures emerging from the void.

“Dragon Tribe, Celestial Divine Tribe, Beastman Tribe, and Space Tribe?”

“How? How did the foreign tribes enter the Human Ancestral Land?”

“How did they infiltrate this place?”

Chapter 2285 - 2285 One Slash At the Behemoth, Team Up With Foreign Tribes, Are You Guys That Afraid of Me?

The foreign tribe's Monarch Seeds appeared outside the Ancestor Tombs on the Immortal Island.

The Human Monarch Seeds responded grimly to their arrival.

Foreign tribes entering the Human Ancestral Land was news to them, and they arrived at a critical moment.

“Hahaha! Don't worry. I am Kong Chunyuan of the Space Tribe, here to seek cooperation with all of you,” Kong Chunyuan said with a smile.

His words put a frosty look on the other Monarch Seeds.

“Cooperation? Is this a joke? This is the Human Ancestral Land. Why would we humans work with foreign tribes? What's in it for us?”

“Yeah! Exactly!”

“How did you people get in here?”

The humans were not happy with the answer, and frosty killing intentions flooded the area.

“Oh? You guys want to fight? I’d be glad to fight!”

The Beastman Tribe’s golden behemoth grinned and released a powerful Grand Dao aura that trembled the land.

The Golden Behemoth Tribe was the oldest bloodline in the Beastman Tribe.

Their powers far surpassed their peers.

The golden behemoth might be a Grand Dao Supreme Honorable now, but his powers rivaled that of the top Grand Dao Supreme Honorable cultivators on the Supreme Honorable Leaderboard.

His explosive aura scared everyone.

“Look at you! You’re neither human nor a beast. What an eyesore!” A frosty voice echoed across the sky.

Dazzling Immortal Sparks came from the horizon as a figure in white approached. Each step and move he made exuded a transcendental presence.

Behind him was a flare of fortune’s light, granting him a noble presence.

Dugu Bupo held his sword tightly and entered a cautious stance.

“What nonsense!”

The golden behemoth was furious when he heard the sneers. His Grand Dao energy erupted as he threw a punch at the white figure.

The energy manifested into a golden fist seal that flew across the sky to hit that person.

“Animal, how dare you cause a scene at the Ancestor Tombs?”

Chu Kuangren grunted and pointed his sword hand sign at the fist seal.

Tens of thousands of sword qi were summoned and merged into a silver-white sword shadow in the air, containing endless sharp qi.

He unleashed the slash with destructive energy, cutting the golden fist seal into half upon contact.

The golden behemoth widened his eyes in fear. With the sword shadow locked onto him, chills ran down his spine immediately.

A fear of death that he had never felt before made him roar loudly.

“Beast King Roar!”

The golden behemoth clenched his fists and unleashed a barrage of punches.

The barrage of punches shattered the void and shook the realm.

The terrifying energy felt like it could destroy worlds, but it was useless in the face of the sword shadow.

The sword qi broke the fist energy easily. To the slash, the golden behemoth's tenacious body was like a piece of paper.

He was slashed in half upon contact.

A huge amount of blood and Great Dao fragments spewed from his body.

Just like that, the Monarch Seed of the Beastman Tribe was dead.

His death silenced the entire field.

Chu Kuangren's slash had instilled fear in everyone.

The golden behemoth's power was more powerful than some of the Monarch Seeds, yet he failed to take one slash from Chu Kuangren.

How terrifying was Chu Kuangren exactly?

“He’s no doubt ranked first on the Supreme Honorable Leaderboard.”

“That power is outrageous!”

The other foreign tribe’s Monarch Seeds looked afraid.

The humans were also in awe, but they were delighted that Chu Kuangren killed the golden behemoth.

“So he’s the first place on the Divine Bachelor Leaderboard?” Dao Lingtian stared at Chu Kuangren seriously.

It was his first time meeting Chu Kuangren in person, and the slash that killed the golden behemoth left a strong impression on him.

“You’re finally here.”

Mingyue Wuxia looked at Chu Kuangren with interest. Compared to her previous meeting with Chu Kuangren, she had a stronger urge to challenge him right away.

“What a strong Divine Bachelor of the human race. It’s an honor to witness it with my own eyes,” Kong Chunyuan said as he applauded.

He did not seem affected by the golden behemoth’s death.

Chu Kuangren looked at him coldly.

He raised his sword hand sign, and sword qi gathered at his fingertips.

Before he released the sword qi, the foreign tribes’ Monarch Seeds, except Kong Chunyuan, were already afraid.

Chu Kuangren’s slash had deterred them, and no one had the confidence to take his slash without suffering some serious damage.

“Brother Chu, I’ve stated my intention to seek cooperation with the humans.”

Kong Chunyuan then revealed a supreme treasure in his hand.

It was the Galaxy Seal, one of the Nine Humanity Treasures.

The Red Dragon Chi Ying and Tianshen Chuangyu also revealed the Spirit Scorching Spear and the Sky Piercer Bow respectively.

Everyone was shocked.

“What? Three of the Humanity Treasures are with them?”

“No wonder they could enter the Human Ancestral Land! They used the Humanity Treasure’s energy to protect them! Is this why they wanted to seek cooperation?”

No one acted recklessly anymore.

Kong Chunyuan continued, “If you want to open the Ancestor Tombs, you must use the Nine Humanity Treasures, and the three of us have refined the three Humanity Treasures. Without our help, you guys won’t be able to open the tombs forever.”

Upon hearing him, Dugu Bupo and the other Human Monarch Seeds were silenced.

Chu Kuangren, however, chuckled. The sword intent around him grew stronger. “Do you really think killing all of you and taking the Humanity Treasures is difficult for me?”

His brazen killing intentions made Kong Chunyuan’s heart skip a beat.

Kong Chunyuan quickly calmed himself down and said, “Brother Chu, even if you kill us and refine the treasures, it will take you a lot of time. The most efficient and effective way at the moment is to work together.”

After that, he looked at Dugu Bupo and the others, who looked back at him.

With just a few tacit gazes, they seemed to have reached an agreement.

“I’ll work with them,” Dugu Bupo said.

His words surprised his fellow human cultivators.

“What? Dugu Bupo, you want to work with the foreign tribes?”

“Are you out of your mind?”

What happened next was even more outrageous.

“I’m willing to work with them as well,” Gu Chan said.

“This is indeed the fastest way.” Lu Wuheng nodded and agreed.

“I guess you foreign tribes wouldn’t have the nerves to play tricks on us,” Dao Lingtian said after a cold grunt, expressing his willingness to work together.

The other Monarch Seeds of the other sanctuaries agreed as well.

It shocked the rest of the human cultivators.

“I can’t believe the Heavenly Buddha Pure Land and the Manifa Destiny Sect have agreed! What are they doing? How could they work with the foreign tribes in the Human Ancestral Land?”

“Damn it!”

“They must have lost their minds!”

Some of them were enraged, but they dared not express their anger.

They might be Monarch Seeds themselves, but they were no match for Dugu Bupo and those who agreed in terms of background and power. Therefore, they could not interfere with people’s choices.

Chu Kuangren revealed a mocking grin after Dugu Bupo and the others agreed to work with the foreign tribe. He said softly, “Are you guys that afraid of me? To think all of you have agreed to work with the foreign tribe just to stand against me...”

Chapter 2286 Nine Humanity Treasures Gathered, Ancestral Tombs Open, Bring Them All Here!

Outside the Ancestor Tombs in the Human Ancestral Land, several Monarch Seeds of the Human Sanctuaries agreed to work with the foreign tribes.

The other human cultivators condemned their action but were helpless to change it.

The Monarch Seeds were generally much stronger than the common cultivators.

However, when they heard Chu Kuangren, they could not help but ponder.

Were the Monarch Seeds teaming up with the foreign tribes just to stand against Chu Kuangren?

That was correct.

The strongest at the scene was undoubtedly Chu Kuangren, the first place on the Supreme Honorable Leaderboard and the strongest person below the Monarch Realm.

How could others not fear him?

In order to stop Chu Kuangren from acquiring the Human Ancestor's inheritance and growing stronger, Dugu Bupo and the others decided to work with the foreign tribes to stop him.

"Chu Kuangren, we only agreed to work together to open the Ancestor Tombs. This has nothing to do with you," Lu Wuheng said. Although they did team up with the foreign tribes to fight Chu Kuangren, no one wanted to make it verbal. They simply kept the thoughts to themselves.

"Interesting. Let me see how far you people can go," Chu Kuangren said with a chuckle.

He conserved his aura.

Kong Chunyuan and the other foreign tribe Monarch Seeds felt an instant relief.

“Now that we’ve reached an agreement, let us all take out our Humanity Treasures and open the Ancestor Tombs!” Kong Chunyuan said as he started to activate the Galaxy Seal.

The others took their treasures out as well.

They were Dao Lingtian’s Violet Cloud Divine Armor, Gu Chan’s Violet Golden Bowl, Mingyue Wuxia’s Moon God Ring, Nuwa’s Creation Crystal, Chu Kuangren’s Heaven Divide Sword, Tianshen Changyu’s Sky Piercer Bow, and Chi Ying’s Spirit Scorching Spear.

However, there were only a total of eight Humanity Treasures.

One last piece was missing, which surprised everyone.

“Aren’t all of the Nine Humanity Treasures here?”

“Impossible. Without all nine treasures, why would the Ancestor Tombs appear? It doesn’t make sense.”

“What is the last treasure?”

“The Sky Demon Cauldron.”

While everyone wondered where the last Humanity Treasure was, Chu Kuangren looked into the void and said, “How long are you planning on hiding, Demonic Forefather Luo Hou?” The void started to ripple in response to his words.

Then, a figure in pitch-black armor and holding a black demonic spear emerged from the void.

The demonic qi around him far surpassed the common Grand Dao Supreme Honorable.

It was the Demonic Forefather of the Pan Gu Universe, Luo Hou!

He chuckled and said, “Sect Leader Chu, I just couldn’t escape your eyes.”

Then, he revealed a pitch-black cauldron in his hand.

It was the final Humanity Treasure, the Sky Demon Cauldron.

Chu Kuangren already had a hunch when Luo Hou fought Cundi and Receiva. If Cundi and Receiva had borrowed the aura of the Violet Golden Bowl to enter the Human Ancestral Land, what about Luo Hou? The only explanation was that he, too, had one of the Humanity Treasures.

“Let me give you guys a hand,” Luo Hou said.

He was wondering if he should show himself.

However, since Chu Kuangren had spotted him, there was no point in hiding anymore. Besides, many others were cautious against Chu Kuangren.

He felt more or less safer with that many Monarch Seeds on his side.

“Let’s begin.”

Kong Chunyuan infused his Grand Dao energy into the Galaxy Seal.

The Galaxy Seal shone dazzlingly, and a starry galaxy appeared in the sky.

Chi Ying swung the Spirit Scorching Spear forward. A domineering and powerful Grand Dao energy formed a flaming spear energy that could scorch everything in its way.

“Go!”

Tianshen Changyu drew the string of the Sky Piercer Bow and shot a white arrow into the sky.

The Moon God Ring that circled Mingyue Wuxia released a silver light.

Dao Lingtian's Violet Cloud Divine Armor vibrated strongly as he punched forward.

Chu Kuangren and Nuwa used their respective Humanity Treasures as well.

In just a moment, the Nine Humanity Treasures were activated, forming nine streams of divine light to attack the void in front of them.

Nine streams of divine light intertwined and merged into a torrential energy wave that impacted the void.

Following a massive explosion, the void was shattered, and a massive spatial crack tore open. Inside it was a dark and gloomy world with coffins floating around. The coffins had many mystical runes carved on them.

It was the Ancestor Tombs of the Human Ancestral Land, the legendary place that contained the Human Ancestor's inheritance!

"It's opened! Let's go!"

Kong Chunyuan was delighted. However, when he tried to retrieve the Galaxy Seal, his expression shifted. The Galaxy Seal froze in mid-air, and he lost control of it.

He felt a strange energy controlling the seal.

“What is this feeling?”

Kong Chunyuan looked at the others. The other Humanity Treasures also left their owners’ control as if something was stealing them away.

“What is going on? I can’t control my Violet Golden Bowl!”

“What happened?”

Everyone was confused.

Then, someone looked at Chu Kuangren. “Thousand Weapon Heart!”

Ever since Chu Kuangren successfully killed the four Monarchs, all the forces had been studying and investigating him, openly and secretly, so they knew what he was capable of.

They found out that he had the Thousand Weapon Heart.

The cultivation technique allowed one to control all weapons in existence, and it was similar to the current situation, where all of them had lost control of their Humanity Treasures.

Everyone looked at Chu Kuangren, hoping for an explanation.

Chu Kuangren chuckled. The Great Dao energy erupted from him and impacted the void, the entire island trembled.

“You people teamed up with the foreign tribes. What right do you have to own the Nine Humanity Treasures? Therefore, I will be taking all of them.”

Chu Kuangren bellowed and channeled his Thousand Weapon Heart’s power to its maximum.

A strange energy wave expanded from him, making all the Humanity Treasures buzz.

“No!”

“You want to take our treasures? No way!”

The others refused to surrender their Humanity Treasures without a fight.

Hence, they channeled their respective energies to try and regain control of their Humanity Treasures.

“Infinity Domain!”

Another Ultimate-level cultivation technique was activated.

Spatial energy spread and caught everyone on the field within it. While their Great Dao energies were disrupted, Chu Kuangren seized the moment and channeled his energy to the limit.

Eight Humanity Treasures immediately flew toward him. Even the Violet Cloud Divine Armor on Dao Lingtian unattached itself automatically.

“Interesting.”

Mingyue Wuxia looked at the Moon God Ring that flew over to Chu Kuangren. She could stop it, but out of a certain consideration, she did not.

With that, all Nine Humanity Treasures were in Chu Kuangren’s possession.

“Damn it!”

Kong Chunyuan was terrified when he sensed the spatial energy in the area.

The Infinity Domain was mysterious and mystical. Even he, a Spatial Tribe member, had never seen such high-level spatial cultivation technique before.

He looked into the Ancestor Tombs and then the Nine Humanity Treasures in Chu Kuangren’s possession.

A quick thought later, he made up his mind to give up on the treasure. His priority should be the master plan instead of taking back the Humanity Treasure.

The Humanity Treasures were merely a tool that served their master plan.

Since the Ancestor Tombs had opened up, they should move on to the next phase. As for the Nine Humanity Treasures, they were no longer important.

“Enter the Ancestor Tombs now!” Spatial energy enveloped him instantly, and he forcefully broke away from the restraints of the Infinity Domain to fly inside the Ancestor Tombs.

Chapter 2287 Power in the Nine Humanity Treasures, Combine the Power, Crystal Sword

Kong Chunyuan transformed into a streak of silver light and darted out of the Infinity Domain’s effect. He managed to enter the Ancestor Tombs.

The others did the same and surrendered the Humanity Treasures.

They were more concerned about the Opportunities of Fortune inside the Ancestor Tombs.

“Chu Kuangren, just you wait. I will be back to take the Violet Cloud Divine Armor from you!” Dao Lingtian said coldly.

“You will pay for what you did!” Gu Chan, the Buddhist cultivator, warned Chu Kuangren.

“Brother Chu, if you like the Moon God Ring so much, it’s yours. I’m going into the Ancestor Tombs. I’ll see you inside,” Mingyue Wuxia said.

Compared to the others, who were aggrieved, Mingyue Wuxia's reaction was unusual. She did not seem unhappy with Chu Kuangren snatching her Moon God Ring. She was indeed a mysterious woman.

As the Monarch Seeds entered the Ancestor Tombs, Chu Kuangren called off the Infinity Domain. Using two Ultimate-level cultivation techniques was stressful even for him. It was the reason why he did not stop them from going inside. It was unfortunate that they were not in the Feng Domain. Otherwise, he could easily kill them all with the Water Nation Warring Map Grand Formation.

On top of that, the Human Ancestral Land forbade the existence of Monarch power, so he could not use the Dragonslayer, an Ultimate-level weapon.

However, he was not overly concerned.

He looked at the Nine Humanity Treasures with a strange look.

When he controlled the Nine Humanity Treasures with the Thousand Weapon Heart, he sensed a strange and unique resonance between the treasures.

It felt like something was hidden in the treasures and was using the Thousand Weapon Heart to combine itself.

“Oh my god! Chu Kuangren took all nine of the Humanity Treasures!”

“Using the foreign tribe to open the Ancestor Tombs and then snatching everyone’s Humanity Treasures is something only he can do.”

“Hahaha! This is amazing!”

“It’s ridiculous that the so-called human Monarch Seeds worked together with the foreign tribes in the Human Ancestral Land. They’re not worthy of the Humanity Treasures.”

“But now that Chu Kuangren has all Nine Humanity Treasures, once he exits this place, the other Human Sanctuaries won’t let him go so easily.”

“Why should he be scared of them? He has the Tempest King as his support.”

“You’re right.”

Chu Kuangren stood in the sky with the Nine Humanity Treasures circling him. They shone dazzlingly and complemented his status as an Immortal King.

The others looked at him with respect and reverence.

“This is what a Divine Bachelor should look like!”

“Quit dreaming. Let’s head into the Ancestor Tombs!”

The others entered the Ancestor Tombs eagerly. “Sect Leader...”

Nuwa, Shang Honghua, and the others went up to Chu Kuangren, but he waved at them and said, “You guys, stay away.”

While the others were baffled, Chu Kuangren smiled and said, “Nuwa, I’ll compensate you with another Hongmeng Supreme Treasure when we go back.”

Nuwa was confused as to what Chu Kuangren meant.

Before she got the answer to her question, Chu Kuangren performed a set of mystical hand seals and activated the Thousand Weapon Heart.

He no longer tried to suppress the strange energy in the Nine Humanity Treasures.

“Bang! Bang! Bang!”

Everyone stared in awe as the Nine Humanity Treasures shone blindingly and exploded one after another.

The terrifying explosion shook half of the Human Ancestral Land.

“What?”

“Did the Nine Humanity Treasures explode?”

“What happened?”

Nuwa and the others were in disbelief.

The Nine Humanity Treasures were Hongmeng Supreme Treasures.

Any piece of the Humanity Treasures could start a war outside, tempting even a Monarch. However, the Nine Humanity Treasures exploded after Chu Kuangren got control of them.

When the Nine Humanity Treasures exploded, nine different energies erupted and gathered upon him.

They formed a silvery-white sword ray that shot into the sky. Sword Immortal Sparks exploded and shook the realm.

Within the sword ray floated nine pieces of crystal that started to form a crystal sword.

A strong Sword Great Dao energy fluctuation rippled across the land, shaking the entire Human Ancestral Land.

Countless swordsmen sensed the energy fluctuation, and it triggered the sword intent in them.

Even the swordsmen outside of the Human Ancestral Land sensed it.

The swordsmen in all of the Great Hongmeng Universe sensed the energy fluctuation, which triggered their sword intent. Their swords buzzed as if they were responding to the arrival of something powerful.

Outside the Human Ancestral Land, the Divine Sword Palace Ruler stared at the entrance in disbelief and fear.

The sword in his hand buzzed uncontrollably.

“What feeling is this?”

“The swords buzzing, the sword intents triggering, and the Sword Great Dao revealing itself in the universe... Could it be that a certain Supreme Treasure is appearing? What kind of Sword Supreme Treasure could affect the entire universe?”

Could it be an Ultimate-level sword?

It should not be because history recorded multiple Ultimate-level swords' appearance and the phenomenon they caused. Even the Ultimate-level swords did not cause such a phenomenon.

The Divine Sword Palace Ruler looked eagerly at the Human Ancestral Land.

As a fellow swordsman, he was curious about the origin of that strange energy fluctuation.

“Tempest King, do you have any idea what’s going on?” Wine Honorable asked the Tempest King.

Even the Tempest King had no idea what caused the commotion.

“I guess it’s something primal, or else it shouldn’t cause such a commotion. I think it’s something related to the origin of swords,” the Tempest King said.

She had no idea what caused it, but she had a feeling that Chu Kuangren was behind it. Her honorable teacher was a person of many surprises.

Inside the Ancestor Tombs, Dugu Bupo also sensed the strange sword energy that triggered the sword intent in him, and his thirty-six Demon Swords buzzed as well. They seemed to want to bow to that strange energy.

“This energy is from outside the Ancestor Tombs... Forget it. The Human Ancestor’s inheritance is more important,” Dugu Bupo thought to himself, deciding to snatch the Human Ancestor’s inheritance first. He stared at a certain violet coffin in the void with a burning gaze.

The other cultivators were flying toward that particular coffin as well.

Mingyue Wuxia, too, had sensed the sword energy, and her lips curled into a smile. “Chu Kuangren, you have indeed lived up to my expectations. With Nine Humanity Treasures together, the Sword Progenitor has appeared!”

She seemed to know about the crystal sword and intended for it to happen. That was why she did not try to take back her Moon God Ring when Chu Kuangren controlled it.

Instead, she played along and gave it to him.

Outside the Ancestor Tombs, a crystal sword formed above Chu Kuangren’s head.

It shone brightly, and its vast sword intent shook the heavens.

Forged out of crystals, the sword’s body was clear and had many runes carved on it. The energy it gave off was ancient.

Chu Kuangren found the sword familiar as he looked at it.

The picture of a mural appeared in his mind.

Back at the Nine Ways Spirit World, the Jiufang Tribe had a cave with murals explaining the history of the Human Ancestor.

The sword was on the mural!

It meant that the crystal sword was the Human Ancestor's sword!

The concept of the sword started with this because it was the Sword Progenitor, the first sword in all of the Infiniverse!

Chapter 2288 Inside the Ancestor Tombs, Human Elders, Violet Coffin

"I see..."

Chu Kuangren was hit with a sudden realization when he saw the crystal sword.

His guesses were right.

The mural in the cave back at Jiufang Tribe had recorded the Human Ancestor wielding the crystal sword, but when the Nine Humanity Treasures were created, the sword's image was gone.

He made a guess that it was the sword that created the Nine Humanity Treasures.

He was right. The Human Ancestor broke the sword into nine pieces and infused the parts into the Nine Humanity Treasures.

As for why, there was no answer to it yet. However, anyone who gathered all nine of the Humanity Treasures could reforge the broken sword.

“The fragments of the sword were hidden in the Nine Humanity Treasures, and no one had noticed it for countless eras. The Human Ancestor was indeed wise. “If not for my Thousand Weapon Heart that allowed me to control all Nine Humanity Treasures, I wouldn’t be able to make them resonate with each other. Even if I have all of them, I might not notice the sword’s fragments,” Chu Kuangren said with a chuckle. “If not for my Thousand Weapon Heart that allowed me to control all Nine Humanity Treasures, I wouldn’t be able to make them resonate with each other. Even if I have all of them, I might not notice the sword’s fragments,” Chu Kuangren said with a chuckle. He looked eagerly at the crystal sword, the first sword in all of the Infiniverse that started the concept of swordsmanship.

That point alone was enough to prove how outstanding the crystal sword was, and its level must be even higher than the Ultimate level.

Its value was on par with the Eternal-tier prize, the Creation Pool.

He reached out to wield the crystal sword. When he touched it, the sword buzzed but did not reject him. Instead, it transformed into a streak of light and entered his body. The sword ray and sword intent then disappeared, but Chu Kuangren could feel its amazing power inside him.

Unfortunately, he could not use the power yet.

“I guess this alone has made the trip to the Human Ancestral Land well worth it.”

He was satisfied with the sword. The Buddhist Ultimate-level cultivation technique he got previously was nothing compared to the crystal sword.

“Next would be the Ancestor Tombs,” he muttered.

He was happy with the sword, but he could use more. No one would reject an abundance of treasures and Opportunities of Fortune.

He wanted the Human Ancestor's inheritance as well.

“Everyone, let's go inside.”

Chu Kuangren did not bother to explain the sword, and neither did Shang Honghua and the others ask. They simply followed him into the Ancestor Tombs.

Inside the Ancestor Tombs, many coffins floated in the air.

Each coffin represented a human elder. The coffins also had countless runes carved into them, telling the story of the human elder. “Chang Zi, the First of the Ancient Humans, the One who preached Dao. Before humans gained intellect, culture and words had no medium. In order for the humans to develop, Chang Zi studied for many years and finally created ‘words’, allowing civilization to develop...”

“Shi Tian, the Buddhist Progenitor. By perceiving the origin of Buddhism through natural phenomena and creating the Buddhist world, he preached and led people to kindness...”

“Tian Zhenzi, an observer of nature, the stars, the moon, and the sun. After ten thousand years, he created the Formation Dao, allowing the humans to fight the strong...”

“Bao Pu, tasted all the herbs in existence and created the Pill Dao...” “Chang Tianfeng. The humans were once weak and a target for the foreign tribes. During the Battle of Black Sea, the foreign tribes led an army of millions to siege the human race’s city. Chang Tianfeng stood against the army alone, armed only with his spear, and covered his people while they retreated.”

“Master Daoist Guyue...”

“Yang Ye...”

Everyone saw the stories carved on the coffins and could not help but show respect to the human elders.

They were the ones who created, invested, fought, and resisted in the past so that the humans could grow and ultimately become the main lead of the Infiniverse.

Humans were weak, but they were strong.

“Lil Ai, record all the stories carved on the coffins. These can be passed down as histories and for us to know more about our ancestors,” Chu Kuangren said.

She would never miss the opportunity to study the ancient human elders.

“Sect Leader, look there!”

Nuwa pointed at a certain spot.

A huge coffin floated in the void. It was violet compared to other coffins and exuded a faint Hongmeng spiritual energy. It had no runes but paintings drawn on it.

There were mountains, rivers, and land with animals bowing and worshiping; there were also stars, moon, and sun in the sky.

“The humans honor the color violet, and it carries the densest Hongmeng spiritual qi. The paintings on the coffin are signs that it’s different from the others. Sect Leader, that might be the coffin of the Human Ancestor,” Nuwa said.

Chu Kuangren narrowed his eyes. He was skeptical.

The Human Ancestor’s coffin?

The Human Ancestor was dead?

Nevertheless, he led them over to the violet coffin.

The violet coffin was already surrounded by the other cultivators — human and foreign tribes together.

Kong Chunyuan, Tianshen Changyu, Chi Ying, and the others were there as well.

“This could be the Human Ancestor’s coffin. The blood must be in there! If we can get the Human Ancestor’s blood, our plan will progress greatly!” Kong Chunyuan stared at the coffin eagerly.

The foreign tribes came prepared. He, too, had a secret treasure of the Spatial Tribe.

Once he got his hand on the Human Ancestor’s blood, he would use the secret treasure to escape the Human Ancestral Land in an instant. Not even a Monarch could stop him.

“Open the coffin!”

Kong Chunyuan attacked with a palm strike, but the restriction seals around it blocked the attack.

“Restriction seals. This is tricky.”

Chi Ying, Tianshen Changyu, and the others attacked as well.

However, their powerful attacks did not move the coffin, not even one bit. “Don’t tell me you need the Nine Humanity Treasures to open this.”

Tianshen Changyu frowned. Since the Nine Humanity Treasures were needed to open the tomb, getting the Human Ancestor’s inheritance might require the same step.

They found themselves in an awkward situation.

Chu Kuangren had taken all the Nine Humanity Treasures.

Must they really fight him to take the treasures back?

Aside from whether they were his match, it would take them a lot of time, and things would only snowball out of control.

While Kong Chunyuan was in a dilemma, Dugu Bupo and the others arrived.

Kong Chunyuan's eyes lit up when the others arrived. "Everyone, this coffin is protected by restriction seals. Let's work together to open it."

"Hmph!" Dugu Bupo grunted and ignored him.

He threw a slash at the coffin instead. As Sword Twenty-three hit the restriction seals, the sword qi could not even land a scratch on them.

After that, Dao Lingtian, Lu Wuheng, and the others attacked, but none of them were able to damage the restriction seals.

They found themselves in a difficult position.

“Everyone, let’s work together,” Kong Chunyuan said with a smile.

After a quick thought, Dugu Bupo and the others agreed once more.

Since they had worked together to open the tomb, they might as well work together again.

“Let’s do this.”

Kong Chunyuan channeled the Spatial Great Dao energy in him, and a silvery-white torrential energy stream appeared in the void. It attacked with an indomitable force, crushing even the void.

Chi Ying roared and unleashed his dragon breath.

Bathed in Celestial Divine Light, Tianshen Changyu hurled a ray of divine light at the coffin. His power far surpassed the common Grand Dao Supreme Honorable.

The other human Monarch Seeds attacked as well.

With Dugu Bupo’s destructive sword qi and Lu Wuheng’s Taiji symbol containing the creation energy of Yin and Yang, they combined into a single energy stream.

At the same time, Dao Lingtian attacked with a violet palm energy.

Chapter 2289 Human Ancestor’s Blood Decision, One More Step, I Control My Destiny

Mingyue Wuxia did not join the attack. Under the veil, her lips curled into a scornful smile. “Humans teaming up with the foreign tribes, huh? If the coffin really holds the Human Ancestor, he would probably be infuriated.”

“Boom!”

Terrifying energies struck the restriction seals.

The void around the coffin started to shake, followed by the restriction seals breaking.

“We did it!”

“We don’t need the Nine Humanity Treasures to open it!”

The relentless attacks forcefully shattered the restriction seals.

The coffin trembled, and its lid was blasted away from inside.

Crimson light shone from within, and the strange energy fluctuation made all the humans at the scene restless as if they desired what was inside the coffin. “That’s the Human Ancestor’s blood!”

Kong Chunyan was delighted. His figure flashed and flew toward the coffin.

“Don’t even think about it!”

Dao Lingtian and the others would not just surrender the blood to him. All kinds of cultivation techniques were instantly blasted at Kong Chunyuan.

However, Kong Chunyuan grinned wickedly.

“It’s too late!”

“Swoosh!”

He flashed in silver, and a spatial energy fluctuation erupted. His figure disappeared from the spot and appeared right next to the Human Ancestor’s blood.

He reached out to the blood with one hand while activating the spatial treasure inside him with the other. The moment he got the blood, he would teleport himself away.

Not even a Monarch could stop them then.

He almost got the blood!

He was one finger away from the blood, and the thrills were already on his face. He could already imagine the Monarchs praising him for acquiring the Human Ancestor’s blood.

“No!”

Mingyue Wuxia’s gaze turned frosty as her eyes gleamed like crystals. She seemed to be channeling some sort of power.

The human Monarch Seeds felt helpless. They could no longer stop Kong Chunyuan from getting the Human Ancestor’s blood. Suddenly, the void rippled.

“How dare you lay your hands on the blood?” a frosty voice said.

The space around the violet coffin was instantly sealed.

Kong Chunyuan was frozen in the air. Then, the Human Ancestor’s blood grew restless as if it sensed something.

A streak of crimson light flew out from the coffin. Kong Chunyuan watched as the blood flew away from his hand and headed to Chu Kuangren, who was walking over.

Even Chu Kuangren was shocked that the Human Ancestor’s blood chose him.

Was it because of the Sword Progenitor in him?

The others were stunned by the sudden twist of event.

Mingyue Wuxia's crystal eyes faded and returned to normal.

She looked at Chu Kuangren deeply.

Meanwhile, Dugu Bupo, Dao Lingtian, and the others regained their composure and reacted to the situation by immediately surrounding Chu Kuangren.

All of them looked frosty as they channeled their Great Dao energies.

The other foreign tribe Monarch Seeds also reacted bitterly, especially Kong Chunyuan, who was one finger away from the blood.

“Damn it! Damn it! I was so close!”

He was inches away from the blood, and if Chu Kuangren was one second slower, he would have gotten the blood and teleported away.

Unfortunately, he failed.

The blood that was right in front of him flew away! It destroyed his patience and mentality.

He discarded his gentlemanly look and exuded frosty killing intentions. He led the other Monarch Seeds to surround Chu Kuangren as well.

Just like that, Chu Kuangren was surrounded by human and foreign tribes altogether.

Many other human cultivators who saw the scene condemned the Human Monarch Seeds.

“What are Dao Lingtian and the others doing? Have they lost their minds to work with the foreign tribe? Why are they helping the foreign tribes to steal the Human Ancestor’s blood?”

“Benefits triumph all. All they care about is getting the Human Ancestor’s inheritance.”

The twist of event sparked a heated debate among the human cultivators.

The void was filled with a strange tension.

“Chu Kuangren, hand over the Human Ancestor’s blood, and I will spare you from taking my Violet Cloud Divine Armor,” Dao Lingtian said coldly.

“Hmph. I’ve already taken your armor, just like how the blood chose me. You people have nothing to do with it anymore,” Chu Kuangren said.

“What did you do? Why would the Human Ancestor’s blood choose you?” Lu Wuheng was drowning in jealousy.

Chu Kuangren had taken all the good things and benefits.

He was ranked first on multiple Hongmeng Leaderboards and had multiple Monarchs as support.

He also had Ultimate-level divine weapons, Ultimate-level cultivation techniques, the Nine Humanity Treasures, and Mingyue Wuxia's admiration.

Now, even the Human Ancestor's blood chose him and entered his body. He got all the benefits to himself without doing anything.

Lu Wuheng was jealous.

However, Chu Kuangren simply smiled at Lu Wuheng's question. He put his hands behind his back and shone in Immortal Sparks like the Immortal King that he was. He said loudly, "What did I do? If you want an explanation, I would have to say I was chosen by destiny!" He was chosen by destiny?

Was that why all kinds of Opportunities of Fortune and treasures flocked to him eagerly?

Was that why different Monarchs supported him and offered a helping hand when in need?

Was that why he had to face countless trials and shoulder responsibilities?

The three words “chosen by destiny” echoed across the void as he stood tall and proud.

His Immortal presence flattered the female human cultivators. They all looked at him with utmost infatuation.

“Everyone, I’ll say the same thing again. Let’s work together,” Kong Chunyuan said coldly. Dugu Bupo and the others nodded. They did not reject the suggestion. All of them knew very well that they were no match for Chu Kuangren if they challenged him one-on-one.

Teaming up was the only plausible outcome.

“I guess you people have gotten used to working with foreign tribes. Having you people as Monarch Seeds is a disgrace to the human race. How sad,” Chu Kuangren scoffed as he shook his head.

“Chu Kuangren. The Ultimate-level cultivation technique, Buddhist’s Bodhi Spirit Light, the Nine Humanity Treasures, and the Human Ancestor’s blood, you’ve taken them all. You are the biggest vermin of the human race!” Gu Chan said coldly.

As a Buddhist cultivator, even he was enraged and had the intention to kill.

Chu Kuangren scoffed at his words. “Outrageous.”

He got all the Opportunities of Fortune and treasures because he was capable. Why must he give them away?

The others were just jealous of him. At least he did not team up with the foreign tribes.

Chapter 2290 Monarch Seeds Combine Attack, All of You Shall Not Disturb the Elders' Peaceful Rest

Dugu Bupo started his attack.

His sword was eager to fight Chu Kuangren once more.

His last defeat was imprinted in his mind.

This time, he wanted to see how much he had grown and how big the gap between him and Chu Kuangren was. "Sword Twenty-three!" He used the strongest attack of the Holy Spirit Sword Art.

The destructive energy locked onto Chu Kuangren instantly.

"To me, your sword is no longer surprising," Chu Kuangren said.

He pointed his sword hand sign forward and used the same Sword Twenty-three, but the power was drastically different.

The rampant energy tore Dugu Bupo's Sword Twenty-three in an instant, and with an indomitable force, it continued forward to the user.

“Sword Dao Demon!

Dugu Bupo was shocked that his Sword Twenty-three was canceled just like that.

He quickly channeled the sword qi around him and summoned an avatar of the Sword Dao Demon behind him.

The Sword Dao Demon wielded the sword and slashed it forward with the power that contained a whole galaxy.

The slash managed to block Chu Kuangren’s Sword Twenty-three, but Dugu Bupo’s sword and hands were shaking after the clash.

“He has grown so powerful!”

Dugu Bupo knew Chu Kuangren would grow a lot stronger after he ascended to Grand Dao Supreme Honorable Realm. However, he did not expect Chu Kuangren’s casual attack to force him to use two of his strongest attacks just to barely block it.

Chu Kuangren was stronger than any Supreme Honorable he had fought or seen.

“Now!”

Kong Chunyuan and the others attacked.

When he attacked, the spatial energy manifested into a stream of stars resembling the Milky Way. The attack could crush space itself and destroy the realm.

Chi Ying roared as he reverted to his dragon form — a massive red dragon with crimson scales that glittered in red. There was boiling lava moving under his skin.

“Chu Kuangren, feel the power of my Level Six Celestial Divine Light!” Tianshen Changyu grunted as he released the Celestial Divine Light that shone across the field.

The divine light crushed the void and all things in its way.

The endless divine light then converged into a white beam that was shot at Chu Kuangren.

“Chu Kuangren, I will get the Human Ancestor’s blood!”

Dao Lingtian clenched his fists and launched a barrage of punches. The violet qi gathered from all directions and formed a torrential stream of violet energy.

Gu Chan performed a set of Buddhist hand seals, and Buddhist light shone behind him.

The golden palm seal that he summoned contained demon-subduing power.

Mingyue Wuxia, however, did not join the battle. She simply stepped aside.

All the human race, Celestial Divine Tribe, Dragon Tribe, Spatial Tribe Monarch Seeds attacked together.

The terrifying attacks could destroy the entire realm in an instant.

It was like the apocalypse was happening.

The other cultivators gasped in shock.

Nevertheless, Chu Kuangren stood in the air with Immortal Sparks circling him. He swung his sleeve and kept Shang Honghua and the others in his Pocket Universe.

Then, he pointed his sword hand sign forward.

Endless and boundless sword intent was unleashed.

There was even a hint of Daoist law energy in it.

Before he unleashed his attack, a sudden thought rushed into Chu Kuangren's mind. He canceled his attack, conserved his sword intent, and decided to face the world-ending attack unarmed. The scene shocked many other cultivators.

“What is he doing?”

“Why isn’t he attacking?”

Everyone was confused.

With so many Monarch Seeds teaming up, the combined attack was so powerful that no one below the Monarch Realm could withstand it.

Yet, Chu Kuangren did not dodge, move, defend, or even counter.

Had he lost his mind? Was he trying to get himself killed?

Mingyue Wuxia frowned at the scene as she was baffled.

“Freeze!” he bellowed.

Chu Kuangren compressed the spatial energy of the Infinity Domain into a layer of barrier. The combined attack struck the barrier, causing a tremendous explosion. The terrifying combined energy attacked Chu Kuangren’s spatial barrier ceaselessly, causing the void and space around the barrier to collapse.

However, the combined attack was too strong!

The spatial barrier started to crack.

Half of his body was devoured by a terrifying crack in the void.

The strange thing was that the terrifying energy was contained around a few kilometers around him, and it did not leak or expand further away.

Chu Kuangren seemed to be doing something.

With that, he sustained almost all the damage from the combined attack with his body.

His suicidal act left everyone baffled.

“He’s lost his mind.”

“He took all the attack with his body? No matter how strong he is, he will be severely injured, if not dead.”

“Chu Kuangren, what are you trying to do?”

Then, the void crack expanded around him and started to devour the energy from the combined attack.

Everyone saw the void crack and collapse like a mirror.

“You asked for it.” Kong Chunyuan grunted.

He believed that the combined attack would leave Chu Kuangren heavily injured, if not dead. Then, he would just have to go into the void and kill Chu Kuangren for the Human Ancestor’s blood. He did not even need other people’s help.

However, before he could execute his thought, a figure emerged from the collapsed void.

The white robes on him were pure as snow, untainted by a speck of dust.

Immortal Sparks shone brightly around him, complementing his outstanding demeanor.

It was Chu Kuangren.

Kong Chunyuan was shocked when he saw Chu Kuangren. “What? How is this possible? You took our attack, and you seem fine!”

“No! His Great Dao must have been damaged!”

“Yeah, it must have been damaged!”

They still could not figure out why Chu Kuangren canceled his attack and took the attack with his body.

Was it to show off his defensive capabilities?

“Could it be...”Mingyue Wuxia had a hunch, and admiration swiftly filled her eyes.

Chu Kuangren swung his sleeve and expanded Infinity Domain across the Ancestor Tombs.

All the floating coffins were then moved further away.

Not one of the coffins was damaged in the process.

Everyone finally understood why he did not counter with an attack.

Kong Chunyuan refused to believe the scene. “You took our combined attack because of a bunch of dead people?” “These people are the elders of the human race. I cannot allow you and your filthy hands to disturb their eternal slumber,” Chu Kuangren said.

It was the reason why he canceled his attack.

If he countered with his strongest attack, the explosion and the energy shockwaves from the clash, which could destroy hundreds of galaxies, would destroy the coffins in the Ancestor Tombs as well.

Therefore, he used the Infinity Domain to control space and concentrated all the energy onto himself. He was forced to take the combined attack with his body.

As a sudden realization struck everyone's mind, the human cultivators looked at Chu Kuangren with respect.

"Chu Kuangren, you are virtuous!" "You're the real Human Divine Bachelor!"

"Compared to Dao Lingtian, Dugu Bupo, and the others, Chu Kuangren is much more benevolent. I have to look at him in a different light now."

Mingyue Wuxia looked at Chu Kuangren with praise, admiration, and respect. "You are worthy to be my most important opponent!"

As the crowd cheered on and praised Chu Kuangren, Lu Wuheng grunted coldly and said, "Chu Kuangren, is this how you win people over? What a hypocrite! What use is there to protect a bunch of dead men?"

Then, he channeled the Yin Yang Great Dao energy, but before he could unleash his energy, Chu Kuangren appeared before him in a flash.

"That is why I said you people are a disgrace to the human race," Chu Kuangren said coldly.

He raised his hand, and endless spatial energy gathered at his palm. His palm contained the power of billions of mountains!
