Chapter 2331 If I Don't Allow It, Who Can You Kill? Radiant Seed's Power

The Doomsday Darkness disregarded his physical body's limit and used up one-tenth of his power to unleash the power of the Unlimited Great Dao Realm.

He siphoned the energy of the Darkness Great Dao directly from the space between Daos.

Unlimited Darkness energy gushed out and impacted the void. Some universes were instantly drowned by darkness.

It was terrifying to even look at it, and all the Monarchs across the Infiniverse were frightened.

"So this is the power of Unlimited Great Dao Monarch?" "It's so powerful! This is my first time seeing such outrageous power!"

"My god! Unlimited Great Dao! If the Doomsday Darkness can use this power, that means he's already at the threshold of the Monarch."

"No wonder he calls himself Doomsday Darkness."

"Even Chu Kuangren might not beat the unlimited Darkness energy. I don't think he can survive it. In fact, not only him but all Monarchs below the Unlimited Great Dao Realm, or even the Ultimate Realm, might not be able to block it."

A heated discussion broke out among the audience.

Strictly speaking, the power in the Unlimited Great Dao Realm transcended beyond the Monarch Realm, and its user could already gain access to a tad bit of Overlord Realm's power.

Unlimited energy wreaked havoc across the void and different universes.

Even Chu Kuangren felt pressured by it.

At that moment, his Pocket Universe trembled all of a sudden.

“This is...” Chu Kuangren’s eyes gleamed with interest.

“Die!”

The Doomsday Darkness channeled the Darkness Daoist law energy, attempting to drown Chu Kuangren. The power he directly siphoned from the space between Daos was terrifying. It was like the ocean was crashing down on Chu Kuangren alone.

Some Monarchs could not bear watching it either.

“What a pity. The first Monarch of the era is going to die.”

“If he doesn’t die, he’ll probably overpower the entire era.”

“It’s too late now.”

However, some others celebrated Chu Kuangren drowned by the unlimited Darkness energy. They cackled and gloated at him.

“Great! This monster is finally dead!”

“Hahaha! Dying as soon as he ascended to Monarch? Chu Kuangren is the shortest-lived Monarch ever! This is great!”

“Overpower this era? What a joke!”

Most of them who gloated were the foreign tribes.

They knew that once Chu Kuangren overpowered the entire era, the human race might rise to prominence. Then, as the master of the Infiniteverse, the human race’s fortune energy would be stronger.

It was not the outcome many other tribes wanted.

On top of that, Chu Kuangren had made many enemies over the years, especially with foreign tribes like the Celestial Divine Tribes, the Dragon Tribes, and the Spatial Tribe.

All of them wished for Chu Kuangren's death because only then would their respective Monarch Seeds have the chance to gain the fortune energy of the era.

"The Child of Light has fallen?"

Ming Fei looked blankly at the sea of Darkness energy.

The Radiant Goddess refused to believe it as well, and there was despair in her eyes. "Impossible! How could the Child of Light fall just like that?"

She and the Radiant Tribe had been suppressing the Doomsday Darkness for many years.

When she finally found Chu Kuangren, she became more hopeful than ever. However, the horrific scene destroyed her beliefs.

"Our Lord is invincible!"

The Doomsday Sect Master looked at the Doomsday Darkness with a zealous gaze.

"Chu Kuangren was no match for our Lord!"

"Yeah! He should be grateful to die in the hands of our Lord!"

The others from the Doomsday Sect worshiped the Doomsday Darkness with fervor and reverence. They even almost got down on their knees.

"Haha! Arrogant fool! You have paid the price! Chu Kuangren, you can do nothing in the face of doomsday!" The Doomsday Darkness scoffed in delight.

He was finally able to vent his anger, which was relieving to him.

“Next, I would have to recover the rest of my powers,” the Domsday Darkness muttered.

He only had one-tenth of this original power. If he could recover them all, he was confident he could overthrow the entire era.

“I must take control of everything before those b*stard’s backup plans are initiated. The God Emperor Plan must succeed,” the Domsday Darkness thought.

“But before that, I must destroy the Radiant Tribe!”

He then looked at the Radiant Goddess and Ming Fei coldly.

The Radiant Tribe had him sealed for a long time. There was no way he would spare them.

He raised his hand to channel the unlimited energy again.

However, a voice suddenly said, “If I don’t allow it, who are you going to kill?”

The voice came from the sea of Darkness energy, followed by a blast of light that tore the darkness apart.

The sudden twist of events shocked the Domsday Darkness.

“What?” The others were similarly shocked.

The Monarchs who celebrated Chu Kuangren’s fall were also stunned, and their smiles froze. Amidst the Darkness energy, the light grew brighter until it dissipated the darkness around it and shed light across the void.

A white figure emerged from the light, and each step he took dispersed the Darkness Daoist law energy around him.

It was Chu Kuangren!

The three thousand Daoist laws were replaced by bright Radiant energy.

It was so strong and boundless that it rivaled the Doomsday Darkness's Unlimited Great Dao power. One could even say it was just a little bit stronger.

As darkness faded in the face of light, the void lit up as if the day had arrived.

“How is this possible? That’s the Radiant Source!” The Doomsday Darkness could not believe his eyes!

Chu Kuangren possessed the Radiant Source power!

“The Unlimited Great Dao Darkness is no match for the Radiant Source!”

Chu Kaungren stepped forward with white light surrounding him.

The white light was scorching and dazzling, like mini suns circling him.

It was the Radiant Seed!

The Doomsday Darkness was dumbstruck. He was not afraid of anything except for a handful of items across the Infiniverse, and the Radiant Seed was one of them.

Light and dark existed together and constricted one another. The Doomsday Darkness controlled the Darkness Unlimited Great Dao energy, but the Radiant Seed was the Radiant Source.

“He’s not dead!”

“Goddess, he’s not dead!”

Ming Fei was delighted, and the Radiant Goddess's eyes gleamed with hope.

She felt warm basking in the light from Chu Kuangren, and the Radiant Dao in her body became lively. "It's so warm." The cultivators of the Doomsday Sect suffered under the light.

The light that Chu Kuangren released was harmless and beneficial to the Radiant Tribe but deadly to the Doomsday Sect.

The Radiant Seed's light purified the Doomsday Darkness energy in them, together with their Darkness Great Dao.

"This is blinding! What light is that?"

"I'm dying! I'm dying!"

The Doomsday Sect cultivators melted away one after another as the Darkness energy in them was vaporized and purified.

The Doomsday Sect Master immediately transformed into a streak of light and fled the scene, abandoning his Lord without a second thought.

Chapter 2332 Eliminate Doomsday Darkness, Dark Demonic Ruler's True Plan

Chu Kuangren had the Radiant Seed above his head.

As its Radiant energy shone, the Darkness Daoist law energy dispersed.

Chu Kuangren had acquired the Radiant Seed for a long time, but he had never used it to its full potential.

Now, after being triggered by the Doomsday Darkness, the true power contained inside erupted and allowed Chu Kuangren to use it at his will.

The Radiant Seed contained powerful energy that could perfectly counter the Doomsday Darkness.

The Doomsday Darkness, with only one-tenth of his original power, could not resist the brilliance. He channeled unlimited Darkness energy but still could not resist it.

Under the sheer brilliance, his body started to crumble inch by inch.

At that moment, Chu Kuangren stepped forward.

"Bang!"

The Doomsday Darkness was forced down to his knees. His body trembled as it continued to crumble. "I said you will crawl before me," Chu Kuangren said.

Chu Kuangren was shining brightly like the God of Light, dignified, prestigious, and inviolable. The Doomsday Darkness had never been humiliated like that before, and the humiliation forced a grim look on his face.

He was the notorious Doomsday Darkness, a powerful being from ancient times. He had never knelt to anyone but that lord, yet he was forced down to his knees by a petty Monarch.

"Don't get ahead of yourself. I don't know how you got your Radiant Source, but this body holds only one-tenth of my original power. One day, I will make a comeback. I will crush you, the Radiant Tribe, and everyone you know!" the Doomsday Darkness bellowed with his teeth clenched.

"I'll be looking forward to that."

Chu Kuangren then stepped on the Doomsday Darkness's head, and the Radiant Seed's energy erupted. The blast of energy destroyed the Doomsday Darkness's body instantly. The unlimited Darkness Dao energy crumbled as the light purified the Doomsday Darkness's energy.

In the end, everything of the wicked presence was purified into nothingness.

Unfortunately, only a small part of the Doomsday Darkness was destroyed.

He would definitely make a stronger comeback in the future.

However, Chu Kuangren was not afraid at all. Apart from the fact that he possessed the Radiant Seed, once the Doomsday Darkness was strong enough to make a comeback, he would have improved a lot by then.

After the Doomsday Darkness disappeared, Chu Kuangren kept the Radiant Seed away.

While he made his way over to the Radiant Goddess and Ming Fei, he even wiped out all the Doomsday Sect cultivators who tried to attack him.

"Goddess, Ming Fei, are you two alright?"

"We're fine." The Radiant Goddess nodded.

She looked at Chu Kuangren proudly. "You've finally ascended to Monarch, and it's a lot faster than I expected."

In fact, Chu Kuangren was not just fast; his speed was incomprehensible. "Devil King, are you still planning to sit and watch?"

Chu Kuangren spoke to the void all of a sudden.

After that, a feminine figure came out from the void.

It was the Devil King.

She looked at Chu Kuangren with a smile. "I was so close to making a move, but you didn't let me down. Not even the Doomsday Darkness can kill you."

"What are you doing here?" Chu Kuangren was pretty surprised. As a matter of fact, Chu Kuangren had already sensed the Devil King's presence when he arrived at the scene, which meant she was there earlier than him.

Why would she care so much about the Radiant Goddess?

"It's because of a deal I made with the Dark Demonic Ruler." The Devil King smiled.

The Radiant Goddess narrowed her eyes at the mention of the Dark Demonic Ruler. "What deal did he make with you?" "He wanted me to save you if necessary."

"What?"

The Radiant Goddess was shocked.

She had fought her brother for so many years, so she could not believe he wanted the Devil King to save her when necessary. It seemed like he did not hate her as much as she thought.

For a moment, the Radiant Goddess was confused.

"What did he offer to ask for the Devil King's help?" Chu Kuangren asked.

"Oh? I just told him to find something for me."

"What is it?"

"A weapon I've lost for many years."

"Where is he now?"

"I think he's getting something good," The Devil King rubbed her chin and smiled.

Meanwhile, in a secret earthen realm, a group of cultivators shrouded in Darkness energy was fighting each other.

"Roar!"

A black dragon soared across the sky.

Its domineering power blasted the cultivators away, and some weaker ones died on the spot.

On top of the dragon was a man standing tall.

No matter the dragon's movements, he was able to stand tall as if his feet were glued to the dragon's head.

"Hei Xuan, you've improved a lot," the Dark Demonic Ruler said with a smile.

"Hehe. I have to thank Chu Kuangren for this. He gave me a Dragon Monarch's inheritance from the Dragon Tombs," Hei Xuan said with a smile.

"Chu Kuangren, eh? He's not bad."

"My King, will you confront Chu Kuangren anytime soon?" Hei Xuan asked out of concern.

Chu Kuangren had the Dark Ruler Amulet, yet he became the Child of Light of the Radiant Church. No matter how Hei Xuan viewed it, Chu Kuangren and the Dark Demonic Ruler seemed to be on opposite sides.

If they had to fight, Hei Xuan would not know who to help.

One was his savior, while the other one was his Ling.

Only the two of them were allowed to ride him as a mount.

"I know your concern. Don't worry, I'll confront anyone but him. That boy... is unpredictable," the Dark Demonic Ruler said with a grin.

He knew Chu Kuangren was not just the first Monarch of this era but the Temple Lord of the Divine Destiny Temple as well.

He could offend anyone in the Infiniverse but him.

No one knew what Chu Kuangren would do. "Great!" Hei Xuan breathed a sigh of relief.

"My King, the cultivators of the Doomsday Darkness have all been wiped out."

Shui Qianliu and Feng Qian arrived before the Dark Demonic Ruler with an update on the situation.

The Dark Demonic Ruler nodded. "Nicely done."

Then, he arrived at the deepest part of the Doomsday Sect, where a powerful source of the Doomsday Darkness was kept. Even though it was not as strong as the one at the Radiant Tribe, it was strong enough.

Most importantly, it was the Dark Demonic Ruler's main goal.

"Not bad. Not bad."

The Dark Demonic Ruler smiled at the Doomsday Darkness before his eyes.

He grabbed the energy and absorbed it into his body. The Doomsday Darkness energy was better than those in the bodies of the Doomsday Sect's cultivators. It was even stronger than the one in his body.

A slight misstep and he could be devoured by the Doomsday Darkness.

However, he was not afraid of it.

After a while, the Dark Demonic Ruler's aura grew stronger.

Shui Qianliu and the others were astonished.

"My King, your power has skyrocketed!" "My King has refined the Doomsday Darkness's power!"

"As expected of my King! He has refined the Doomsday Darkness that everyone feared."

Then, a powerful Darkness aura came from further away.

"Demonic Ruler, you little wretched b*stard! Die!"

It was the Doomsday Sect Master who managed to escape from the Radiant Tribe.

When he saw his sect wiped out, he knew what had happened — someone had raided the tribe while he was gone. The only one who could raid his sect behind his back would be the Dark Demonic Ruler.

Chapter 2333 He's In My Way, Doomsday Sect Master Dies, Ridiculous Fortune Blessing

"The Doomsday Sect Master is back!" Hei Xuan, Shui Qianliu, and the others looked further away.

The Doomsday Sect Master was coming in their direction, leaving a trail of Darkness energy that painted the sky black.

"Dark Demonic Ruler, I'll kill you!"

Angry shouts echoed across the sky.

The Doomsday Sect Master threw a punch forward, and the vast Darkness Daoist law energy devoured everything in its path.

Shui Qianliu and the others were no match for it.

Suddenly, a black vortex appeared before everyone and blocked the Darkness Daoist law energy.

It was the Dark Demonic Ruler.

He stepped out and looked at the Doomsday Sect Master with a teasing gaze. "I didn't think you would make it back alive with the Doomsday Darkness dead."

"Dark Demonic Ruler, it was you all along! You used us to siege the Radiant Tribe. While we were tangled up with the Radiant Goddess, you led your Darkness Tribe to attack my sect and snatch the Doomsday Darkness energy from us!"

The Doomsday Sect Master's expression turned grim.

He thought he was using the Dark Demonic Ruler to stall the Radiant Goddess, but he was the one who was used.

In fact, he got trapped so deep in the plan that he only realized when it was too late.

Now, the Doomsday Darkness that was sealed in the Radiant Tribe was destroyed, and the Dark Demonic Ruler had taken the Doomsday Darkness that they had gathered over the years.

The Dark Demonic Ruler had the Doomsday Sect dancing in his palms.

It infuriated and, at the same time, confused the Doomsday Sect Master. "Why? Why did you do it? Aren't you afraid of my Lord?"

The Dark Demonic Ruler should know better than anyone how powerful the Doomsday Darkness was.

After all, the Doomsday Darkness had a huge role in helping him achieve the Monarch Realm, yet he chose to oppose the Doomsday Darkness.

Chu Kuangren had the Radiant Seed, but what did the Dark Demonic Ruler have?

"Why? That's because the Darkness Great Dao needs an Overlord," the Dark Demonic Ruler said.

The Doomsday Sect Master's eyes widened in fear. "How ambitious! You want to use my Lord's power to ascend to the Overlord Realm?"

Overlord was the realm beyond the Monarch.

The Domsday Darkness was the most powerful being who cultivated the Darkness Dao, and with his cultivation, he might already be on the threshold of the Overlord Realm.

Once Domsday Darkness became an Overlord, it would be impossible for others to become an Overlord using the Darkness Dao because he would not allow a second Overlord who cultivated the Darkness Dao to exist. It was the reason why the Dark Demonic Ruler wanted to oppose the Domsday Darkness.

The Domsday Darkness was in his way!

"My Lord will never let you go!" the Domsday Sect Master said coldly.

The Domsday Darkness' power still existed as only a small portion of his energy was destroyed. The Sect Master believed when the Domsday Darkness made a comeback, it would be the end for the Dark Demonic Ruler.

"Ha! Why don't you have a taste of your Lord's power?"

The Dark Demonic Ruler shot a beam of black light at the Sect Master.

Even though the Sect Master blocked it, he was blasted away.

His expression turned grim. "This energy is my Lord's? Wait, no! You've refined my Lord's power! H-How did you do it?"

"If you study a certain energy thoroughly enough, mastering it isn't impossible, and that includes the Domsday Darkness," the Dark Demonic Ruler said.

The Darkness energy gushed outward, forming a massive Monarch Avatar.

It was even more powerful than when he fought the Radiant Goddess!

The Domsday Sect Master was in a disadvantage.

It did not take long before his body was destroyed.

"Thank you for coming back. I'll accept the Doomsday Darkness in your body," the Dark Demonic Ruler said with a smile.

Then, he absorbed the Doomsday Sect Master's Doomsday Darkness.

If the Doomsday Darkness found out that the Dark Demonic Ruler was using his energy as a supplement, he might be so infuriated that he would side with the Radiant Tribe just to kill him.

"Well then, I have to carry out the promise I made with the Devil King. The devil's Ultimate Supreme Weapon, where should I locate it?" The Dark Demonic Ruler pondered.

...

Back at the Radiant Church, Chu Kuangren was using the Radiant Seed's energy to heal the Radiant Goddess and Ming Fei.

The two of them were severely hurt, but the Radiant Seed worked wonders.

After absorbing sufficient Radiant energy, the two of them recovered a lot. However, the Radiant Goddess frowned as if she was deep in thought.

Ming Fei had served her long enough to know what she was thinking.

"Goddess, are you thinking about the Dark Demonic Ruler?"

"Yeah. I was wondering why he would heal me. I thought it was because we were siblings, but now it seems like I was naive. He must've used me to stall the Doomsday Darkness. In fact, the Devil King's arrival has proved that point. He must be after something in the Doomsday Sect, and that's why he went there."

Sisters knew their brothers the best, and those who knew one best were often one's enemy.

The Radiant Goddess was both of them, and that was why she had a general idea of what the Dark Demonic Ruler was trying to achieve.

"The Dark Demonic Ruler is getting more difficult to deal with," Ming Fei said with a frown.

Chu Kuangren, on the other hand, simply listened. He did not want to be nosy in other people's sibling affairs.

Now that the Doomsday Darkness had been dealt with, the Holy Radiant Church had to rebuild.

Chu Kuangren might be the Child of Light, but he was not fully involved. He was only responsible for ruling the Pan Gu Sect.

...

Back in the Pan Gu Sect, everyone had been having a great time lately.

Their Sect Leader had broken through to the Monarch Realm, becoming the first Monarch in the era, and everyone was thrilled.

As the news of Chu Kuangren's ascension spread across the Great Hongmeng Universe, only less than a handful of the forces were happy for him.

However, what the other forces felt about it did not affect the Pan Gu Sect.

Even Myriad Arms City gave a discount on forging weapons to celebrate his ascension, and it managed to draw many customers to the city.

On top of that, as the first Monarch in this era, Chu Kuangren received the fortune energy's blessing, and the Pan Gu Sect benefited from it as well.

Many cultivators of the Pan Gu Sect saw an increase in their cultivation speed. Those who went on an expedition would run into many kinds of Opportunities of Fortune.

For instance, one of the disciples was chased by enemies, but he managed to ascend just in time and kill the enemies.

There was another case of a disciple entering a dangerous place to cultivate. He got chased by monsters and fell into a cliff, but he survived and got an inheritance from an ancient being.

The more exaggerated ones would be Shang Honghua, Lan Yu, Ye Zhu, and the others closer to Chu Kuangren. They were picking up treasures right at their doorsteps.

Jue Wushen went to a cultivator's trading market and bought a stone, which turned out to be a Cosmic Chaos Celestial Demon Shard.

After he refined it, his cultivation skyrocketed.

All miraculous things happened one after another, and it made all the Pan Gu Sect cultivators happy but the other forces jealous.

The blessing of fortune energy was so good that it sounded ridiculous.

Chapter 2334 Spatial One Ascends To Monarch, A Firefly Can't Outshine the Moon's Brilliance
A powerful aura expanded across the Pan Gu Sect.

Li Jun came out of his room.

He looked at his hands in surprise. "Have I broken through to the Supreme Honorable Grand Dao Realm already? This is too fast..."

Since Chu Kuangren brought back the Immortal Island, Pan Gu Sect no longer had to worry about cultivation resources.

However, resources aside, cultivation would depend on a person's talent and the Opportunities of Fortune.

Li Jun was talented, and his cognizance was second to Chu Kuangren in the Pan Gu Sect.

Still, he thought he would need at least tens of thousands of years to break through to the Supreme Honorable Grand Dao Realm, or even a million.

However, to his surprise, he made it in just a few short years.

The speed was beyond what he expected.

"Has the Pan Gu Sect's recent luck been because the Sect Leader, as the first Monarch of the era, has received the era's fortune energy? Has Pan Gu Sect become the gathering point of all the fortune energy?" Li Jun tried to figure it out.

Besides him, many others also encountered similar situations.

The Three Clarities, Zhen Yuanzi, Nuwa, Fuxi, Wuhan, and so on were the pillars of the Pan Gu Sect, and with the fortune energy's blessing, they were astonished by the gain in their cultivation.

"This is incredible!"

"The Pan Gu Sect's fortune is so dense! Is this the era's fortune energy?"

"With the fortune blessing, Chu Kuangren and the Pan Gu Sect will surely take over the Great Hongmeng Universe in time."

"There have been similar cases with Monarchs who overpowered the entire era, and the Tempest King is one of them. However, I don't recall her getting so much fortune energy when she ascended. What's going on?"

Some people could not understand the blessing of luck.

However, some cultivators who were good at observing qi soon found something.

It turned out that the fortune energy gathered upon the Pan Gu Sect right now was not only from the leaderboards and from Chu Kuangren becoming the first Monarch of the era, but there was also another stream of incredibly dense fortune energy.

It seemed to originate from the human race!

It was the human race's own fortune energy!

At the same time, in the Divine Sword Palace, the Palace Ruler found the situation strange as well.

"How is this possible? The Divine Sword Palace is also a Human Sanctuary. We, too, have the fortune energy blessing, but the Pan Gu Sect's one is a lot larger. It's much larger than the three major Human Sanctuaries!"

In the Heavenly Human Sanctuary, Mingyue Wuxia sensed the changes in the Pan Gu Sect as well. "It seems like he has refined the Human Ancestor's blood, but to be able to gather that much fortune energy, his own fortune must be amazing as well."

All three major Human Sanctuaries grew restless.

As the major Human Sanctuaries, they should possess the most fortune energy of the human race, yet the Pan Gu Sect had beat them to it.

They refused to accept it!

In time, they might be weaker than the Pan Gu Sect!

How could they accept defeat after ruling for so many years?

However, they had no good solution to stunt the growth of the Pan Gu Sect.

With resources?

The Pan Gu Sect had the Immortal Island, which was filled with an abundance of resources.

With combat?

The Pan Gu Sect had the Tempest King and Chu Kuangren, two Monarchs that overpowered an era.

A while ago, Chu Kuangren even defeated the Doomsday Darkness, and it left an impression on everyone.

The Pan Gu Sect was considered young since it was founded just a while back, but before everyone knew it, it had grown into a colossal titan.

Even the other Human Sanctuaries could not make a move against them recklessly anymore.

"With Chu Kuangren around, the rise of the Pan Gu Sect is unstoppable." An ancient Monarch expressed his concern.

Back in the Pan Gu Sect, Chu Kuangren was sitting on a mountain peak.

He was surrounded by rings of Daoist Law energy that resembled planetary rings.

"I have completely refined the Human Ancestor's blood.

"The Human Ancestor's body is indeed outstanding. Although I'm already a Monarch, my cultivation speed hasn't slowed down at all. Not only is it because of the vast fortune energy, but it's also because of the Human Ancestor's body," Chu Kuangren exclaimed.

He, too, had noticed the changes in the Pan Gu Sect in recent years.

He knew it was unusual for the Pan Gu Sect to gather that much fortune energy, and there must be a good reason for it.

The only explanation seemed to be the Human Ancestor's body.

The Human Ancestor was the origin of all human beings, so the human race's fortune was closely related to it.

Now that he owned the Human Ancestor's body, he could consider himself the representative of the Human Ancestor.

Hence, it was only natural that the human race's fortune energy gathered upon him.

"Honorable Teacher."

The Tempest King came.

"Lan, how's your recovery going?" Chu Kuangren asked.

"I'm fine now."

"Great."

Chu Kuangren had learned about the Heavenly Sovereign's betrayal. Never would he have thought that the Adjudicator of the Supreme Council was the one stealing the human race's fortune energy.

A while back, the Tempest King, the Earthen Monarch, and the Human Empress fought the Heavenly Sovereign.

It ended up as a draw, and both sides were hurt. The Tempest King was hurt the least, so after spending some time recovering, she was back to her prime.

The Human Empress and the Earthen Monarch, however, were badly injured.

As for the Human Sovereign, he escaped in the end. It was too difficult to kill a Monarch who was half a step shy from breaking through to the Overlord Realm.

However, he would not be making any big moves lately.

Chu Kuangren chatted with the Tempest King for a while when suddenly, a powerful energy fluctuation rippled across the realm.

The void of the Great Hongmeng Universe trembled for a while.

Further away, Daoist Rhymes echoed, and there were conjurations of golden lotuses blooming.

The aura attracted much attention from the Monarchs.

"Has someone broken through to the Monarch Realm again?"

"Who is it?"

"Another Monarch has been born!"

"Damn. This Monarch is one step slower. If not, he would've been the one to gain the era's fortune energy, not Chu Kuangren."

"That direction... It's the Spatial Tribe!"

Inside the Spatial Tribe, the Spatial One finally manifested his Monarch's Heart and had Daoist laws surrounding him.

"I've finally become a Monarch," he murmured.

The Spatial Tribe Leader congratulated him. "Congratulations, Spatial One."

"Too bad I'm one step slower."

The Spatial One felt discontent with his progress.

Knowing what the Spatial One was referring to, the Spatial Tribe Leader also felt displeased. "Yeah, one step slower. Chu Kuagren is a monster!"

"It's fine. This era is an unusual one. The first Monarch may be able to get the era's fortune energy, but overpowering the entire era might not be that easy. Besides, who says fortune cannot be changed?"

The Spatial One took a deep breath and narrowed his frosty eyes.

As long as the owner of the fortune energy died, it would be transferred to someone else.

The Spatial Tribe Leader read his thoughts, but he was concerned. "Chu Kuangren is ridiculously strong. It's not going to be easy."

"I was born from the Spatial Source. I am not afraid of him!"

The Spatial One knew how strong Chu Kuangren was, but he did not want to discourage himself.

He, too, was confident in himself.

Back in the Pan Gu Sect, Chu Kuangren and the Tempest King both looked in the same direction.

"The Spatial Tribe has gotten their Monarch. It must be the Spatial One," the Tempest King said after some thought.

"Oh? That guy who didn't die after taking one hit from you?"

The Tempest King nodded.

Even though she was hurt back then, the Spatial One was strong enough to take a hit from the Monarch and survive.

"I wonder how he compares to me," Chu Kuangren said with great interest.

"Honorable Teacher, you must be joking. How can a firefly outshine the moon's brilliance?"

Chapter 2335 Fortune Kingdom, Kingdom's Core, The Idea of Snatching Other Tribes' Fortune

The Spatial One broke through to the Monarch Realm, becoming the second Monarch of the era, second only to Chu Kuangren.

Both had ascended just recently, and many people felt bad for the Spatial One because he was one step behind Chu Kuangren.

Just one step earlier, and the era's fortune energy would not go to the human race and the arrogant Chu Kuangren.

Time flew by.

Instead of traveling around the universe, Chu Kuangren had been staying in the Pan Gu Sect and focusing on mastering his Monarch power.

From time to time, he would spar with the Tempest King.

Only the Tempest King was worthy to be his sparring partner.

"Congratulations, Host! You've won an Eternal-tier prize, Fortune Kingdom!"

On that day, Chu Kuangren did a gacha draw, and the prize he got surprised him.

It was another Eternal-tier prize, making it the third Eternal-tier prize he had received.

He was beyond excited about it.

He checked the so-called Fortune Kingdom, which was actually a cultivation technique related to fortune energy.

The user could gather the realm's fortune energy to create a divine kingdom at will!

The user could control everything within the kingdom, including the life and death of all its people.

One thought and one person could die or live.

At the same time, the people in the kingdom could also enjoy a boost of fortune energy. As the people's cultivation level increased and strength grew, Chu Kuangren, as the ruler of the kingdom, could also gain fortune's blessing. They complemented each other and helped each other's growth.

Chu Kuangren's breathing became heavy as he read through the description.

The value of the Fortune Kingdom was huge! It was much more valuable than the Creation Pool!

If Chu Kuangren had a billion people or subjects in his kingdom, how terrifying would it be if he acquired the blessing of fortune from all of them?

If he continued to expand the kingdom and conquer all of the Infiniverse, he would be invincible!

The legend of the Fortune Kingdom had been around for a long time, but even after countless eras, no one had created it.

Now, the technique of creating the Fortune Kingdom was within Chu Kuangren's reach.

"This is terrifying! But I like it!" Chu Kuangren smiled brightly.

However, trying to create his Fortune Kingdom would not be easy. The first requirement would be fortune energy and a massive amount at that.

Since Chu Kuangren ranked first on multiple leaderboards and was blessed with the human race's fortune of this era, he had an abundance of fortune energy at hand.

If there was someone with the most hope of creating the Fortune Kingdom, it would be Chu Kuangren.

After getting the cultivation technique, he entered closed-door meditation to cultivate the technique immediately.

By now, people were not surprised by his frequent closed-door meditation.

Every time he exited his closed-door meditation, there was a huge change in him.

The first time he exited his cultivation, he ascended to the Grand Dao Realm and secured the first place on the Grand Dao Leaderboard.

The second time, he ascended to Supreme Honorable and secured the first place on the Supreme Honorable Leaderboard.

The last time he exited, he fused three thousand Daoist laws and became the first Monarch of the era, acquiring the era's fortune energy.

Each time he exited his cultivation, he would shock the world with his massive changes.

Therefore, everyone was curious as to what changes he would bring this time.

...

Inside a forest realm, Chu Kuangren was gathering the fortune energy to create his Fortune Kingdom. The first step would be manifesting the Fortune Kingdom's core and then fusing it into his body.

The first step alone required a massive amount of fortune energy.

A common cultivator, or even a Monarch, might not complete the first step despite cultivating for life. However, it was extremely easy for Chu Kuangren.

He had an abundance of fortune energy and a monstrous cognizance. With Lil Ai's assistance, he was able to master the cultivation technique quickly.

With the fortune energy sorted and the technique mastered, fusing the core would be a piece of cake.

All it took was a few years to achieve it.

"So this is the Fortune Kingdom's core?"

Chu Kuangren had a perfectly cut crystal floating in his hand, and it emanated mystical Daoist law light.

The crystal was the Fortune Kingdom's core that he had manifested.

Then, he tried to fuse it into his body.

He could feel the abundance of fortune energy in him gushing rapidly into the core as if it had found a new home.

Unlike how the Heavenly Sovereign stole the fortune energy of the human race, Chu Kuangren creating the Fortune Kingdom would not harm the human race's fortune energy.

In other words, the Heavenly Sovereign absorbed the fortune energy and converted it into his own, whereas Chu Kuangren would reform the fortune energy and utilize it to its fullest power.

The two were fundamentally different and could not be generalized.

While Chu Kuangren infused all his fortune energy from the human race and the leaderboards into the core for reformation, the Immortal Island started to undergo some changes as well.

The cultivators realized that the Immortal Island's spiritual qi had gotten denser, causing all kinds of treasures to appear.

It felt like the island had been favored by the universe.

Meanwhile, the fortune teller in Myriad Arms City sensed something and looked at the Immortal Island floating in the sky.

He opened his eyes, which gleamed with interest.

He could see a large amount of fortune energy enveloping the entire island.

Golden dragons danced in the air, and palaces and pavilions were erected from the ground. Divine light shone and intertwined, forming a grand and majestic kingdom that lasted through time.

The fortune teller bolted up in shock.

"Fortune Kingdom? How is this possible?"

He was shell-shocked.

Then, the grand image of the kingdom disappeared all of a sudden, as if it were just an illusion.

However, the fortune teller knew it was not an illusion. He was so shocked that he felt goosebumps all over his body.

"Why did it disappear so suddenly?"

The fortune teller was baffled. "Could I have seen a small part of the Immortal Island's future?"

In other words, the island would become the Fortune Kingdom in the future.

It was simply unbelievable!

At the thought of the possible future, the fortune teller was too shocked to react, but he knew it must be related to Chu Kuangren.

He was even more intrigued by Chu Kuangren, the Pan Gu Sect Leader, the Divine Bachelor of the human race, and the first Monarch of the era whom he had never met before.

"Should I request a meeting with him?"

On second thought, he shook his head. "Forget about it. I'm still in a lot of trouble. I shouldn't get others involved."

...

Back in the Pan Gu Sect, Chu Kuangren had fused the Fortune Kingdom's core into his body.

Endless fortune energy was infused into the core and then released from it. The reformed fortune energy became the energy that formed the kingdom.

However, it was difficult for others to identify it.

"Not enough. It's still not enough."

He thought the fortune energy he possessed was more than enough, but it seemed he was far from meeting the requirement. His fortune energy was not enough.

Although the fortune energy of the human race was massive, it was scattered across the Infiniverse. Each human possessed his or her own fortune energy, and each human force possessed an exclusive pool of its own fortune energy.

It was not easy trying to gather all of them in one place.

If he did it, he would become the common enemy of the human race.

If the fortune energy came to him willingly and naturally, no one would say anything, but it would be a different story if he raided others for it.

"I only have ten percent of the human race's fortune energy. In addition to the era's fortune energy and the leaderboards, it's still far from enough to fuel the Fortune Kingdom. In that case, can I go after the other tribes' fortune energy?" Chu Kuangren thought to himself.

As the masters of the realm, the human race possessed a large amount of fortune energy, but the other tribes across the Infiniverse possessed their own fortune energy as well.

Chapter 2336 Hurt the Heavenly Sovereign, Hongmeng Wisdom Leaderboard, First Place
Omniscient Spirit

Just when Chu Kuangren was thinking about taking the other tribes' fortune energy, he realized a sliver of fortune energy that had gathered upon him disappeared. He was extremely sensitive about the flow of fortune energy while manifesting the Fortune Kingdom's core. Others might not notice the disappearance, but not him.

The fortune energy, in general, would not disappear for no reason. It could only be transferred from one to another or a force to another. Disappearing was rare and almost impossible. It reminded Chu Kuangren of the Heavenly Sovereign stealing the fortune energy of the human race.

"Could it be the Heavenly Sovereign? First, he steals the human race's fortune energy for his own selfish use, and now he's stealing mine. I shall let him know who's the boss here!" The fortune energy gathered upon Chu Kuangren in multiple streams like a river.

Hence, Chu Kuangren searched for the missing fortune energy by going upstream on each of them. There, he noticed one of the streams had branched out and headed somewhere else.

"Heavenly Sovereign, is it? Why don't you have a taste of this? Fortune Kingdom Stability Pillar!" The mystical Fortune Kingdom did not only include methods of creating and building a kingdom of fortune energy, but it also included some cultivation techniques that utilized fortune energy.

Chu Kuangren thought he could learn and benefit from all of them, which he did.

...

Meanwhile, a man in golden robes and a mystical jewel above his head was cultivating in the void.

He was surrounded by Daoist law energy, and invisible fortune energy was absorbed into the jewel above his head and then converted into his body.

He was the Heavenly Sovereign, and he was indeed stealing Chu Kuangren's fortune energy.

"Chu Kuangren is too much. I can't believe refining the Human Ancestor's blood has given him so much fortune energy!" The Heavenly Sovereign was jealous.

He had worked hard for countless years, yet he could not get his hands on as much fortune energy as Chu Kuangren.

He refused to accept it! "If I have all the fortune energy, I will have no problems ascending to the Overlord Realm!" The Heavenly Sovereign was both jealous and eager to progress.

With that, he accelerated his absorption and cultivation.

The jewel on his head was an item acquired for an Opportunity of Fortune.

It allowed him to convert fortune energy into other energy, like cultivation, healing, and so on, working wonders. It was all thanks to the jewel that he could steal the human race's fortune energy.

Now, he was stealing fortune energy from Chu Kuangren to heal himself, hoping to return to his prime as soon as possible.

Once he recovered, the Earthen Monarch and the Human Empress, who were still recovering, would be no match for him! No one could stop him from seizing the highest authority of the human race again!

Most importantly, no one could stop him from refining the human race's fortune energy!

The thought of Chu Kuangren made the Heavenly Sovereign snort. Chu Kuangren was nothing but a lucky bastard.

Besides, Chu Kuangren was just a newly ascended Monarch, which was no match for him. Chu Kuangren might still be relishing in his delight after the ascension and had no idea that his fortune energy was being stolen.

The Heavenly Sovereign grinned. However, the jewel above his head suddenly shook violently as if a powerful energy was attacking it from the inside. Then, it started to crack. "Crack!"

"What's happening?" The Heavenly Sovereign could not believe it.

He had been using the jewel for eons, and it had been working just fine.

Why would it break now?

Before he could react, the cracked jewel released a huge amount of fortune energy that formed a golden pillar crashing down on him.

"I-Impossible!" The Heavenly Sovereign was shocked.

How could someone use the fortune energy as an offensive method to attack him?

"Kabaam!"

His body, which was already hurt from the battle with the Earthen Monarch, the Human Empress, and the Tempest King, sustained even more damage from the ambush by the golden pillar. Even if he was the Heavenly Sovereign, he was in shock when he was blasted away.

The repercussion of the fortune energy caused him to cough out a mouthful of blood. The attack was not fueled by the Great Dao energy or the Daoist law energy, but by fortune energy.

Before he could catch a breath, the jewel he used to convert the fortune energy broke into pieces, and he lost a large amount of fortune energy. The multiple fortune energy stream then went in the opposite direction and flowed back to Chu Kuangren, fueling his already vast pool of fortune energy.

The Heavenly Sovereign was not only injured, but he had lost his fortune energy as well.

He was furious.

He did not have to think to know who did it.

"Chu Kuangren! How many more tricks do you have under your sleeves?" The Heavenly Sovereign was frightened. At that moment, he dared not underestimate Chu Kuangren anymore.

However, he had lost his jewel and got hurt in the process. For that, he swore he would take revenge on Chu Kuangren one day.

"Chu Kuangren, Earthen Monarch, Human Empress, and Tempest King, just you wait! Do you really think that I, after being the human race's Supreme Council Adjudicator for many years, have no more trump cards? I will make a comeback soon!"

...

Back in the Pan Gu Sect, Chu Kuangren was surprised by the new streams of fortune energy flowing into his body.

"Oh, this is a surprise."

Even though the new stream of fortune energy was not enough for him to create the Fortune Kingdom, it was better than nothing.

It was a pity that he could not create the kingdom right away, but he was not discouraged. He knew he would be able to do it in the future.

"Now, I must figure out a way to deal with the Heavenly Sovereign, the Doomsday Darkness, and other looming threats first," he murmured.

Then, he thought of the Divine Destiny Temple and the contracts he saw there.

"I should start there."

Other than the Heavenly Sovereign and the Doomsday Darkness, he must also be careful of the Fate Defiant Master.

He should start by finding more help for the Divine Destiny Temple.

With that in mind, he ended his closed-door meditation.

Lan Yu, Shang Honghua, and the others found themselves surprised that their Sect Leader did not cause any huge commotion this time. As soon as the thought appeared in their minds, a Hongmeng Leaderboard appeared in the sky.

It was something called Wisdom Leaderboard, and those who ranked on it were the smartest people in all of the Great Hongmeng Universe.

The appearance of the leaderboard attracted much attention.

Even though cultivation was the most important thing, wisdom and knowledge should not be neglected. As the saying goes, knowledge equals power.

"Wisdom Leaderboard, eh? Those who rank high must be ancient beings who have lived long enough to gain enough experience, which the current era cultivators don't have."

"I believe so."

Names started to appear on the leaderboard.

There were knowledgeable scholars, Monarchs who traveled universes, and ancient beings who pulled strings from the dark since eons ago.

Soon, it was time to reveal the first place.

Everyone stared at the appearing name.

Ranked first on the Wisdom Leaderboard was the Omniscient Spirit.

The people were shocked.

"Omniscient Spirit? What an arrogant name!"

"So, does he know everything?"

"Who is he? I've never heard of this name before."

Some ancient Monarchs were also surprised because no one knew who the Omniscient Spirit was.

Chapter 2337 The Delighted Lil Ai, Debt of Destiny, Human Race Election

The Wisdom Leaderboard appeared, and the first place was the Omniscient Spirit.

Many ancient Monarchs had not heard of the name before.

Then, the fortune energy from the leaderboard scattered away to the respective owners. The largest portion of the fortune energy attracted the most attention because everyone wanted to know who the Omniscient Spirit was. They watched as the largest portion of the fortune energy flowed toward the Pan Gu Sect!

Everyone, including the cultivators of the Pan Gu Sect, was surprised.

Was the Omniscient Spirit in the Pan Gu Sect?

Since when did the Pan Gu Sect have someone called the Omniscient Spirit?

Following that, a large amount of fortune energy flowed into Chu Kuangren, adding to his already large pool of fortune energy. Everyone was shocked to find out that Chu Kuangren was the Omniscient Spirit and that he ranked first on the Wisdom Leaderboard.

How was it possible that his knowledge and wisdom surpassed those ancient beings who had lived for countless eras? Everyone was confused.

No one expected the first place to be Chu Kuangren.

"How did he do it?"

"Another first place? He's a beast!"

"Scary b*stard." Compared to the others' dismay and shock, Chu Kuangren was not surprised because the Omniscient Spirit referred to Lil Ai.

Lil Ai had access to all knowledge of the Infiniverse. After she studied the history of the human race in the Human Ancestral Land, her knowledge pool grew even more.

"Nicely done," Chu Kuangren praised.

"Hehe. Thanks." Lil Ai sounded delighted.

...

In Myriad Arms City, the fortune teller was sitting at his stall, waiting for the next customer, when someone from further away caught his attention.

The man wore pure white robes that granted him a transcendent presence. His shining demeanor overshadowed everything as if he was the only light in the realm.

The fortune teller narrowed his eyes.

The man must be someone extremely important!

Unbeknownst to him, the man in white was Chu Kuangren!

Chu Kuangren was searching for the people who had signed a contract with the Divine Destiny Temple, especially the Grand Dao Supreme Honorables and Monarchs.

To his surprise, there was a target within the Myriad Arms City, and he seemed to be a Monarch.

When Chu Kuangren saw the fortune teller, the divine seals in his body buzzed as if they resonated with him.

He looked at the fortune teller. It seemed like the man also had one of the Nine Divine Seals. "Sir, what do you want me to read for you?"

Chu Kuangren had a faint spiritual veil on his face, blurring his looks, so the fortune teller did not recognize him at first sight.

Chu Kuangren sat opposite him and said, "I'm not here to have you read my future."

"No? In that case, why are you here?"

"I'm here to collect a debt."

"A debt?" the fortune teller asked, seemingly confused.

What Chu Kuangren said next shook him.

"The debt you owe the Divine Destiny Temple. No one can escape it, even if you're a Six Eyes and a master of Fate Dao."

The fortune teller was shocked when he finally realized who Chu Kuangren really was. "Y-You're the envoy of the Divine Destiny Temple?"

"No."

"No? Then, you are..." The fortune teller gulped nervously and asked, "The Master of Destiny?" Chu Kuangren did not answer. He simply stared at the fortune teller until the man trembled like a little boy.

"Before your Six Eyes grew mature, you were bullied by your own people. It was fate that opened your eyes, allowing you to grow. Your contract states that you will serve the temple with your life, and now it's time for you to carry out your duty."

"I knew you would come for me one day," the fortune teller bitterly said with a smile.

From the moment he sensed the power of the Master of Destiny, he knew his days of freedom were limited.

"So, what should I do?"

"Collect the debts for the temple."

There were a lot of people who had signed a contract with the Divine Destiny Temple. However, Chu Kuangren did not have the time to find them one by one. It would take too long, so he decided to find a proxy to do the work.

The fortune teller was the best candidate.

"I'm being chased by the Six Eyes Tribe. I'm afraid I can't reveal myself," the fortune teller said.

He had the Divine Destiny Seal, a treasure that the Six Eyes Tribe had been looking for for years. It was the reason why he was a fugitive.

"You now serve the Divine Destiny Temple. A bunch of people who think they can control fate or destiny won't lay a finger on you," Chu Kuangren said.

Opposing the Temple of Destiny was a bad idea. Not all were so ferocious like the Fate Defiant Masters.

The fortune teller pondered. He knew he could not escape the temple's control, so he sighed and agreed. "I promise you."

"Very well."

Chu Kuangren summoned a stack of contracts.

There were a few hundred of them.

"Like you, these are people who owe the temple a debt. Go find them and make them pay up," Chu Kuangren said.

The fortune teller glanced at the contracts and was in awe.

There were a lot of contracts, and all of them had a cultivation level above the Grand Dalm Realm. Some were even Monarchs like him.

The Divine Destiny Temple was indeed powerful.

"I understand." The fortune teller nodded.

After Chu Kuangren walked away, the fortune teller stared in the same direction and pondered. "Are you who I think you are? If so, you have hidden yourself really well."

The fate of the Master of Destiny was hidden, but the fortune teller already had a hunch about Chu Kuangren's identity.

He shook his head and then looked at the stack of contracts. "Whatever. I should be locating these people first. Time to work for no money..." ...

"Human Race election?"

Chu Kuangren pondered as he looked at the invitation in his hand.

He got the invitation from the Human Empress. The election would elect three new Adjudicators to take control of the Supreme Council. The Supreme Council was run by the three Adjudicators, and they made many decisions for the human race.

Now that the Heavenly Sovereign had turned on them, only the Earthen Monarch and the Human Empress were left.

If they got into an argument, it would affect the functionality of the Supreme Council.

Therefore, a third Adjudicator was needed. "Interesting."

The election would be held at the Human Sanctuary, Mount Tsuming. All the Monarchs of the human race would be there, and they would vote for the third Adjudicator. "Let's go have a look."

With that, Chu Kuangren and the Tempest King headed to Mount Tsuming.

Chu Kuangren was not interested in being the Adjudicator, but if he could have control of it, it would provide him with a lot of convenience in the future.

Unfortunately, it was unrealistic.

The Human Monarchs would never elect him as the Adjudicator.

First of all, he was a newbie.

Second of all, he had made a lot of enemies.

Chapter 2338 Manifa Forefather, All-Buddha Emperor, Heavenly Supreme Saint

Mount Tsuming was one of the holy mountains of the human race, similar to the Nine Ways Mountains. They were one of the origins of the human race. It was said that the Human Ancestor had once cultivated here in Mount Tsuming. Therefore, in honor of the Human Ancestors, all the important meetings were held here, including the election.

Following sparkling Immortal Sparks shimmering across the peak, the human Monarchs arrived one after another.

Some of them were ancient Monarchs who had been in slumber for a long time, and some were from the current Human Sanctuaries.

All of them were the elites of their respective era and forces. Otherwise, they would not be Monarchs.

"Brother Tianyi, how have you been?"

"I didn't expect to see you here, Brother Yang."

"This era is extremely lively. How could I not wake up to have a look?" While the Monarchs were greeting each other, Chu Kuangren and the Tempest King arrived as well.

Their arrival attracted all the attention. Some looked at them in fear, some were curious, and some revered them, especially those Monarchs who had just woken up. Chu Kuangren and the Tempest King were the most famous human Monarchs of the era. "So he's Chu Kuangren? He's indeed different."

"Yeah. The amount of fortune energy he possesses is scary." Chu Kuangren, in his signature white robes, shimmered in Immortal Sparks. His looks and demeanor alone trumped most of the Monarch at the scene.

On top of that, he now possessed the body of the Human Ancestor and was blessed with the fortune energy of the entire human race. His vast presence surpassed that of a common Monarch.

"Lil Ai, analyze all the Monarchs here."

Chu Kuangren glanced at the Monarchs at Mount Tsuming.

Lil Ai started her analysis immediately.

All the Monarchs' information was being recorded.

Some Monarchs frowned as they felt something watching them but could not pinpoint exactly what or from where. Other than getting Lil Ai to analyze the Monarchs, Chu Kuangren himself was also observing the Monarchs.

Suddenly, he sensed something that caught his attention.

Some of them signed contracts with the Divine Destiny Temple.

In other words, they were people who benefited from the temple.

Chu Kuangren took an extra glance before he looked away. If everything progressed well, the fortune teller that he assigned would seek them out soon.

Then, he looked at the center of the mountain, where a golden tablet was erected.

On the tablet were many strange and mystical runes. It was said that the Human Ancestor cultivated before the tablet for a long time, and as it had absorbed a sliver of his energy, it contained some kind of Opportunity of Fortune. However, no one had been able to decipher it.

Many cultivators tried to pry into the secret of the tablet, but none had succeeded over the years.

Chu Kuangren went over to the tablet and had a closer look at it. He, too, started to analyze the runes on it, attempting to decipher the meaning for the Opportunity of Fortune.

His actions made others curious.

"Is he trying to comprehend the tablet?"

"No one has been able to do it for many years. Can he do it?" "Who knows?" No one was surprised that Chu Kuangren wanted to decipher the tablet. Anyone who first arrived at Mount Tsuming would want to try to understand what the tablet holds, but no one had ever succeeded, not even Monarchs.

However, Chu Kuangren was talented, and everybody knew that.

They had higher hopes for him, hoping he could understand the secrets that lay within.

No one dared to disturb him.

In fact, with the Tempest King beside him, they would think twice before acting.

At that moment, countless mystical runes filled the air and intertwined.

Each rune represented a cultivation technique, and with that many runes appearing, it seemed like tens of thousands of cultivation techniques had arrived.

The runes then formed a cultivation Dao in the sky, bridging the void and the mountain peak.

An elderly approached from the end of the bridge with an extraordinary presence. He looked proud as he had mastered all the cultivation techniques that the runes represented.

Everyone was in awe at his arrival.

"The Manifa Forefather is awake!"

"Tsk, tsk. He's probably the oldest Monarch here. I think his cultivation is as strong as the three Adjudicators." "It must be something important for him to wake up from slumber. He might be here to fight for the third Adjudicator's position."

"The Manifa Destiny Sect is already a titan among the Human Sanctuaries. If its forefather became the Adjudicator, it will become the most prominent sanctuary there is."

While everyone was busy wondering why the Manifa Forefather came out of his slumber, a huge amount of Buddhist Light shone from the sky.

Holy Buddhist Dao appeared, and a figure came riding a giant condor.

The person wore a red kasaya and wielded a crystal Buddhist staff.

He wore a harmonious look and a calm smile.

"It's the Buddha Emperor of the Heavenly Buddhist Pure Land!"

"All-Buddha Emperor? He's awake, too?"

"I bet he's here for the same reason as the Manifa Forefather."

"Now that the Manifa Forefather and the All-Buddha Emperor are here, I wonder if the Heavenly Human Sanctuary's Heavenly Saint would be here. He wouldn't want to miss this event."

As soon as people started wondering, Daoist Rhymes sounded in the realm.

A figure emerged from the void. He stood still and quiet, and his presence was vague and inconspicuous as if he blended in with nature.

He was the Heavenly Saint that people were talking about.

"Forefather, Emperor, it's been a long time."

The Heavenly Saint nodded at the other two ancient Monarchs, who smiled and nodded at him.

Then, the Manifa Forefather stared at Chu Kuangren, who was analyzing the tablet. "I believe you're the Sect Leader of Pan Gu Sect."

His voice sounded as loud as rumbling thunder.

It would certainly disturb Chu Kuangren's analysis of the tablet.

However, before the voice could reach him, it was stopped by an invisible barrier.

The Tempest King had intervened by standing behind Chu Kuangren and staring coldly at the Manifa Forefather. "How rude of you."

A blast of Daoist law energy was released, and it shattered the void easily.

The Tempest King did not hold back with her warning.

The Manifa Forefather narrowed his eyes and channeled his Daoist law energy. Divine light shone and formed barriers in front of him, blocking all of the Tempest King's Daoist law energy.

"You're the Tempest King? The one who overpowered the previous era? Do you know you weren't even born when I overpowered my era?" The Manifa Forefather stared at her angrily.

Then, a Daoist law sword shot out from his eyes, aiming at the Tempest King.

"Hmph!"

The Tempest King grunted and shattered the Daoist law sword. "That's too bad. Otherwise, I would've crushed you as well."

"Young Monarch, very energetic I see."

"Don't just rely on your seniority. You smell like rotten wood."

"Haha..."

The Manifa Forefather chuckled, but his eyes gleamed dangerously.

Everyone was worried about the Tempest King for crossing the line.

The Tempest King was astoundingly strong, but before her was one of the oldest beings in existence.

He possessed powers that rivaled the Adjudicators.

"It seems like I'm just in time."

A delightful voice sounded.

Golden dew descended from the sky as the Human Empress came holding her paper umbrella. Behind her was earthen qi rumbling like a dragon. It seemed the Earthen Monarch had arrived as well.

Everyone bowed at the two Adjudicators.

"Adjudicators."

"Adjudicators, how are you?"

Chapter 2339 The Election Starts, Tempest King As An Adjudicator? Limitless Transformation Technique

More than half of the human Monarchs gathered at Mount Tsuming.

The Manifa Forefather, the Buddha Emperor, the Supreme Saint, and the two existing Adjudicators were all there.

"Manifa Forefather, Tempest King, today is the day of the election. Please, for my sake, calm down and try not to argue," the Human Empress said with a smile. Since the Adjudicator had spoken, no one dared to argue with her. "Human Empress, it's not an argument or anything serious. The Tempest King and I are just sparring. There's no grudge involved," the Manifa Forefather said as he stroked his long beard.

"Spar? Yeah. If I have the chance, I'd like to have a real spar with you, Senior." The Tempest King scoffed. She even emphasized the word 'senior' to mock the forefather for being old and relying on his seniority to command others.

The Manifa Forefather narrowed his eyes. His lip pursed and twitched, but he managed to suppress his anger. As a matter of fact, he was targeting Chu Kuangren and the Tempest King because they had been under the spotlight recently, and he wanted to blunt their confidence. He did not expect the Tempest King to fight back.

"Enough. Skip the chatter. I supposed those who should be here are here," the Earthen Monarch said as he glanced at everyone. He paused for a moment when he saw Chu Kuangren, but he did not say or do anything.

All the invited Monarchs attended the election.

"Since everyone is here, let the election begin," the Earthen Monarch said.

The election process was simple. All everyone had to do was vote for the candidate.

"The Manifa Forefather is the most seasoned and experienced Monarch, and his cultivation is enough to fill the position. I vote for him," said a Monarch.

"I vote for the Buddha Emperor. The Buddhist world is merciful, and he's just. We all know that. He's the best candidate for the Adjudicator."

"The Supreme Saint is unbiased and unaffected by sentimental emotions. He can be righteous in dealing with the human race's matters. I vote for him."

All the Monarchs voiced their choice of candidates.

A scribe beside the Human Empress started to take notes of the votes.

Most of the Monarchs voted for either the Heavenly Saint, the Manifa Forefather, or the Buddha Emperor.

The three of them were the most reputable Monarchs of them all. They had even made deals with other Monarchs to vote for themselves.

"I vote for Tempest King," said a Monarch.

Tempest King was surprised someone would vote for her to be the Adjudicator.

She looked at the person who voted for her, and it was the Goldwing Monarch. The man had fought her in the past.

Everyone also looked at him curiously.

The other Monarchs found it strange that the enforcer of the Supreme Council was voting for the Tempest King, but they had a hunch why the Goldwing Monarch would do so. "I vote for the Tempest King as well." Another one had cast his vote, and similar to the Goldwing Monarch, he was also an enforcer of the Supreme Council.

The second vote verified the people's thoughts.

The Supreme Council, or rather the Human Empress and the Earthen Monarch, wanted the Tempest King to be the third Adjudicator, so they hinted at the enforcers to vote for her. The two of them

were trying to manipulate the election result openly! "Adjudicators, I don't think that's appropriate." The Manifa Forefather frowned and voiced his displeasure.

The Human Empress chuckled and said, "What's wrong with it? This is an election, and everyone can vote. They're Monarchs as well, and they have their rights."

"Manifa Forefather, you've misunderstood us. We've voted for the Tempest King because we admire her. When the Heavenly Sovereign turned on us, she stood with the Human Empress and Earthen Monarch to fight him. If not for her, the human race might already be in ruins," the Goldwing Monarch explained.

He looked at the other Monarchs with sincerity.

Everyone else was speechless.

Admire her? The Tempest King literally robbed him of resources, and he admired her?

What a blatant lie!

However, no one could deny them either, even if the Adjudicators wanted to cast votes for the Tempest King. It was an undeniable fact that she fought the Heavenly Sovereign with the Adjudicators.

She did the human race a great deal and was powerful enough.

In addition to that, she has a reputation among the people.

She, too, was qualified to be an Adjudicator.

"In that case, we shall see who has the most votes," the Manifa Forefather thought to himself.

He had made deals with other Monarchs before he arrived. Even though the Tempest King's entry was unexpected, he was confident he would win.

With that, the voting continued.

Since the Tempest King had joined the election, there were four candidates competing for the position.

"Human Empress, why would you want me to be an Adjudicator?" the Tempest King asked the Human Empress via telepathy. "I have confidence in you," she said.

She knew all the Monarchs well.

The Manifa Forefather was arrogant and biased.

The Buddha Emperor was too merciful at times, and it might affect his judgment.

The Supreme Saint might be unbiased and unaffected by sentimental emotions, but if it was true, he would not be here competing for the position. He was not who the others claimed to be.

More importantly, the three of them each represented a powerful force.

Once they became the Adjudicator, they might use the highest authority of the human race to seize more benefits for their own forces, which would be worrisome.

Rather than making either one of them Adjudicator, they might as well give the position to the Tempest King.

She had helped the Human Empress investigate the Heavenly Sovereign, did the human race a great deal, and never hesitated in delivering the killing blow. Besides, she was still young and had a bright future ahead.

The Tempest King was rendered speechless by the Human Empress's explanation.

"I'm sure there is another reason."

The Tempest King scoffed. "You think you can take control of me."

"What?"

The Human Empress blinked at her as if she did not know what the Tempest King was talking about.

The Tempest King snickered at her. "The two of you haven't recovered from the battle with the Heavenly Sovereign, so if either one of them gets the position, the two of you won't have enough confidence to control them. That's why you want me to take up the position. It's because I'm still young and inexperienced." The Human Empress smiled and refused to comment on the answer.

The Tempest King knew she was right.

However, she did not care about the position. It did not matter to her whether she would get it at all, so she simply waited for the result.

While the voting process was going on, Chu Kuangren was busy analyzing the golden tablet.

When he read through the runes, his body, or the Human Ancestor's body, resonated, and his heart raced.

The three thousand Daoist laws in him were activated.

At the same time, something also happened to the tablet.

The tablet lost its original shape, and the runes on it transformed into stars that floated in the sky.

Each star represented a Dao.

The countless stars contained mystical wisdom and were ever-shifting.

Slowly, the stars formed the shape of a human.

The figure had stars as eyes, and the acupoints of his body were represented by nebulae. The stars also intertwined into countless Daoist laws.

The Daoist law energy swirled in the figure's body. The Flame Daoist law, Yin Yang Daoist law, Spatial Daoist law, and all kinds of energies were contained inside.

Chu Kuangren knew the starry figure was the Human Ancestor!

Like him, the Human Ancestor had also mastered three thousand Daoist laws!

"A-Amazing! This is amazing! Who would have thought that the tablet contained such a mystical cultivation technique? I've made the right choice to come here!" Chu Kuangren was in awe.

He had succeeded in comprehending the tablet's secret.

The tablet contained an unparalleled cultivation technique!

Its level surpassed that of the Grand Dao, Hongmeng, and even Ultimate! It was so powerful that it left him shocked.

It was the cultivation technique created by the Human Ancestor, named the Limitless Transformation Technique!

Chapter 2340 Are You Threatening Me? I'm Scared, Fight the Manifa Forefather

Chu Kuangren did not know how to describe the Limitless Transformation Technique.

When he completed his comprehension of the cultivation technique, he had nothing but praise and admiration for the Human Ancestor. If he could comment on the cultivation technique, he would say it was crazy!

The Limitless Transformation Technique had two levels. The first level was Limitless Cultivation. It allowed the user to completely copy any technique he or she saw and do it better than the original caster. That point alone made the cultivation technique crazy or even ridiculous. Others cultivated a single technique for ages, but the user of the Limitless Transformation Technique could copy it with just one glance and do it better. No one would be able to survive or even walk away with a sane mind.

The second level of the Limitless Transformation Technique was even crazier. The second level was Limitless Imitation. It allowed the user to transform into any living beings that he or she had seen before and possess their cultivation technique, divine abilities, and even memories. Once the technique was mastered, it allowed the user to create a Monarch out of nothing or even a being above the Monarch Realm.

However, cultivating the crazy technique required extremely harsh requirements, which was to fuse three thousand Daoist laws.

Only then could one perfectly use that cultivation technique.

Since the beginning of time, only less than a handful of people had managed to fuse three thousand Daoist laws.

The Human Ancestor was one of them, and Chu Kuangren was also one of them!

"No wonder no one had been able to comprehend the tablet for so many years! Fusing three thousand Daoist laws isn't easy at all!"

"This cultivation technique is made for me!" Chu Kuangren was beyond thrilled.

...

"Tempest King, thirty-one votes."

"Manifa Forefather, thirty-two votes."

"Buddha Emperor, nineteen votes."

"Heavenly Saint, nineteen votes."

The Human Empress announced the voting results from the scribe's record.

The Manifa Forefather grinned.

The Tempest King remained calm. The Buddha Emperor felt a great pity.

The Heavenly Saint looked fine, but there was a hint of fierceness in his eyes.

"It seems like the result is out," the Manifa Forefather said with a chuckle. He was also glad it was over because he had won by just one vote! He did not expect so many Monarchs to vote for Tempest King. It seemed the Human Empress and the Earthen Monarch had done their homework to make the Tempest King the Adjudicator.

"Human Empress, announce the result now," the Manifa Forefather said to the Human Empress.

"Why the rush? I still haven't voted," a cold voice said.

Chu Kuangren, who had just comprehended the Limitless Transformation Technique, came over.

The Monarchs were curious when they saw him.

"Did he do it? Is it over?"

"I don't know."

"Nothing happened, so I guess he failed."

"Tsk. No one has ever comprehended the tablet. It must be just a tablet to fool people."

"Chu Kuangren is voting. Who is he going to vote for?" One of the Monarchs asked the stupidest questions, causing another Monarch to roll his eyes. "Duh? Isn't it obvious?!" "I vote for Tempest King," Chu Kuangren said.

Who else would he vote for if not his disciple?

"Tempest King, thirty-two votes," the Human Empress said.

The smile on the Manifa Forefather froze. He stared at Chu Kuangren coldly and said, "Chu Kuangren, do you really want to go against the Manifa Destiny Sect?"

He even released his aura to intimidate Chu Kuangren.

He controlled his aura to only target Chu Kuangren, so it escaped some Monarchs' senses. Only a few sensed it, and they curled their lips into an interesting grin. "Are you threatening me? I'm scared."

Chu Kuangren feigned a scared look and then swapped it with a frosty expression. He released rampant sword intent that could shake the heaven.

"Old man, are you out of your mind? The grudge between me and the Manifa Destiny Sect is not news. "Besides, what makes you think you can use your seniority to oppress others and threaten me? If you have the nerves, do it!" Chu Kuangren filled the void with his aggressive Monarch sword intent without concealing it.

Everyone sensed it, and some of the Monarchs gasped in shock.

They never thought Chu Kuangren would choose to confront the Manifa Forefather face to face.

However, the Tempest King grinned. That was the Honorable Teacher she knew — straightforward and domineering.

His arrogance could never be controlled!

"You! You..." The Manifa Forefather was shaking and twitching. "What about me?" Chu Kuangren bellowed.

He then pointed his sword hand sign forward, gathering the sword qi around him into the indomitable Sword Twenty-three!

The sword qi from the slash flooded the heaven.

The Buddha Emperor and Heavenly Saint immediately drew distance from the Manifa Forefather.

The Buddha Emperor's mount, the giant condor, freaked out when it sensed the power in the slash. It flapped its wings and rapidly retreated.

The Manifa Forefather bellowed, "How unreasonable!"

He shouted and unleashed a palm strike that clashed with the sword qi.

It was Daoist law versus Daoist law!

The moment the two energies collided, the void collapsed.

An energy storm swept across the mountain, forcing the Monarchs to retreat.

"Damn! The Manifa Forefather is one of the oldest Monarch, and Chu Kuangren has attacked him!"

"He's crazy!"

"He's just out of his mind!"

"He fought the Doomsday Darkness when he just ascended into the Monarch Realm, and now he's fighting the Manifa Forefather. He has been fighting opponents beyond his level, and this is probably the first time I've seen someone so arrogant!"

The other Monarchs were in awe.

The Earthen Monarch glanced at the Human Empress. "Should we do something?"

The Human Empress shook her head. "Let's just observe first."

"Very well."

The Earthen Monarch wanted to find out how powerful Chu Kuangren was as well.

"Bang! Kaboom!"

The clash between Daoist laws caused the spiritual qi in the realm to boil and the Great Dao to tremble.

"Sword Twenty-four!"

Chu Kuangren pointed his sword hand sign again and used a stronger version of the sword technique.

The slash shook the entire realm.

"Universal Genesis Pierce!"

Infuriated, the Manifa Forefather channeled his Universal Daoist law energy.

The realm trembled fiercely, and a large amount of Daoist law energy gathered at his fingertip before shooting forward.

The clash between two extremely powerful techniques pushed both of them back.

However, Chu Kuangren did not want to stop. His aura rose sharply, and he released even more Daoist law energy that could shatter the realm.

He had beef with the Manifa Destiny Sect, and now the forefather had threatened him.

On top of that, the man even tried to disturb him when he was comprehending the tablet. He knew what was happening around him even when he was comprehending.

If not for Tempest King, he would've been disturbed.

How could such an old man be so rude?

As such, Chu Kuangren decided not to hold back.

"Limitless, Universal Genesis Pierce!" Chu Kuangren pointed his finger forward and channeled the Universal Daoist law around him.

He used the same technique as the Manifa Forefather!

The others were shocked when they saw it.

"What? Chu Kuangren can use the Manifa Destiny Sect's cultivation technique, too?"

"It seems he has quite the mastery as well!"

The Manifa Forefather may have blocked it, but he was similarly shocked. "Impossible! How do you know the Manifa Destiny Sect's cultivation technique? Where did you learn it?"

"Where did I learn it? You just showed it to me." Chu Kuangren grinned.

"Nonsense!" The Manifa Forefather grunted and channeled his Daoist law energy again.

He reached into the void and clenched his fist.

"Universal Violent Barrage!" Chu Kuangren rose to the air, reached into the void, and clenched his fist, channeling the same Daoist law energy. "Limitless, Universal Violent Barrage!"

With the same technique and Daoist law, Chu Kuangren was like a mirror that copied the Manifa Forefather's technique exactly!
