Chapter 2341 The Scary Limitless Transformation Technique, Tempest King Fights Manifa Forefather

After the fists locked and the Daoist laws clashed, Chu Kuangren and the Manifa Forefather were pushed back. "Even though he's only ascended to Monarch recently, his powers are not to be underestimated. He's young, but he possesses unimaginable power," the Manifa Forefather thought to himself. He was in awe of Chu Kuangren's powers, especially when Chu Kuangren used the Universal Genesis Pierce and Universal Violent Barrage back at him, putting him in an embarrassing spot.

Those two cultivation techniques were high-level techniques.

Other than himself, no one else in the Manifa Destiny Sect knew it.

However, Chu Kuangren, an outsider, used it on him, and it felt even more powerful than his. It was pure humiliation to the sect, an indirect way of calling the sect useless.

"For stealing my sect's technique, you shall die!" The Manifa Forefather grunted and channeled the ultimate technique of the sect again.

However, Chu Kuangren also extended his arm and clenched his fists, channeling the Universal Daoist law. He was using the same technique again!

The Manifa Forefather was shocked, and the other Monarchs were similarly surprised.

"Did Chu Kuangren infiltrate the Manifa Destiny Sect? Why can he use the forefather's cultivation techniques? What's going on?"

"Something strange is going on."

Everyone furrowed their brows.

However, the Human Empress, the Earthen Monarch, and other ancient Monarchs stared at Chu Kuangren in disbelief when they were struck with realization. The Manifa Forefather gulped nervously as he also had the same realization. After the Daoist laws clashed, the Manifa Forefather cast all kinds of cultivation techniques to verify his thoughts.

"Abstruse Sword Pierce!" "Heaven Earth Critical Art!"

"Skybreaker Genesis Transformation!"

All kinds of cultivation techniques were cast.

The Manifa Destiny Sect was named after its mastery of various cultivation techniques. The sect had a collection of countless cultivation techniques, and as its forefather, the Manifa Forefather was a master of all kinds of cultivation techniques while majoring in Universal Dao.

With his cultivation level, he could pick up any kind of cultivation technique with just a hint or some practice. It was not difficult for him to master it as well.

The plethora of cultivation techniques captured everyone's attention, but what shocked them was that no matter what the Manifa Forefather cast, Chu Kuangren could mirror it with a more powerful version.

It was mind-blowing!

"W-What is going on?"

"Oh my god..." "No! This is impossible! How is this possible?"

After a few exchanges, the Manifa Forefather bellowed and stared at Chu Kuangren in disbelief and awe.

"Limitless Transformation Technique! He's using the Limitless Transformation Technique!"

"Alright. That's enough!"

The Earthen Monarch and Human Empress finally intervened. After the two stopped fighting, the two Adjudicators looked at Chu Kuangren. They had never been so shocked before.

"Are you using the Limitless Transformation Technique?"

"I am," Chu Kuangren said.

He had just comprehended the cultivation technique, but his cognizance was as monstrous as ever, and he could already master the first level of the technique, the Limitless Cultivation.

As for the second level, the Limitless Imitation, it would just be a matter of time.

"Impossible! How do you know that cultivation technique?" The Manifa Forefather refused to believe what he saw.

At the same time, the other Monarchs exchanged a baffled look.

"It's really the Limitless Transformation Technique," the Supreme Saint said with a hint of jealousy in his eyes.

"What's the Limitless Transformation Technique?"

Some younger Monarchs had not heard of it before.

"The Limitless Transformation Technique is the legendary cultivation technique created by the Human Ancestor. It was said that it could perfectly copy any other cultivation technique with just a glance and make it even stronger than the original. That's the Limitless Transformation Technique," the Supreme Saint explained.

Everyone gasped in shock because it was an outrageous technique!

Copying a cultivation technique that others spent countless years cultivating with just a glance and be better than the original?

Why would such an outrageous cultivation technique exist?

The paradigm shift rendered everyone speechless.

"The Human Ancestor is not someone we can understand," the Buddha Emperor said. They might already be Monarchs, but the more they learned about the Human Ancestor, the tinier they felt.

Compared to the Human Ancestor, their cultivation, power, and methods were like child's play. There was no comparison at all. The Human Empress and Earthen Monarch looked at Chu Kuangren with a mix of emotions.

"I thought the Limitless Transformation Technique is just a legend, but it really does exist," Human Empress said emotionally.

She looked at Chu Kuangren with a conflicted gaze, shocked but delighted all at once.

She thought she had regarded Chu Kuangren highly, but it turned out that she had still underestimated him.

"The tablet! It must be the tablet! You got the cultivation technique from the tablet, right?" the Supreme Saint asked.

"I did," Chu Kuangren said.

Only then did the Monarchs learn that the tablet contained the Limitless Transformation Technique, probably the biggest Opportunity of Fortune in existence!

It was just that they were not qualified to comprehend it.

With the new information, the Supreme Saint went over to the tablet, trying to figure it out.

Chu Kuangren did not stop him either. If it were that easy, the Human Ancestor would not have been the only one to know the technique.

Chu Kuangren got it because he had fused three thousand Daoist laws and possessed the Human Ancestor's body. As for the others, even if they ascended to the Overlord Realm, they could never get it.

"Let the election continue," the Earthen Monarch said after he regained his composure.

"How are we going to proceed? The Tempest King and Manifa Forefather are tied at the moment."

"Why not let them fight?"

Someone suggested.

"It seems like a valid suggestion."

The Tempest King grinned. She looked at the forefather and teased, "You wanted a spar? Now is the chance! Bring it on!"

The Manifa Forefather hesitated.

He was not afraid of the Tempest King, but when he fought Chu Kuangren, he had cast a lot of techniques, and Chu Kuangren copied them all.

If he continued fighting the Tempest King, he would be forced to reveal even more.

Then, even his trump card would be exposed and possibly learned by Chu Kuangren.

The others knew what the forefather was concerned about as well.

They, too, believed the Limitless Transformation Technique was cheating.

"Who else will dare to reveal their techniques to Chu Kuangren now when he can copy everything with just a glance?" said one of the Monarchs.

"What's wrong? Are you afraid?" the Tempest King provoked. "Hmph. You think I'm scared of you?" the Manifa Forefather argued.

He was determined to become the Adjudicator!

"In that case, let's fight!"

The Tempest King raised her brow and started to gather the spiritual qi, earthen qi, and other types of qi from across hundreds of millions of meters of land.

It was the Heaven-devouring Technique!

Her aura rose sharply and boosted her to the Ultimate Monarch Realm, which surprised the others.

The Heaven-devouring Technique was not considered cheating compared to the Limitless Transformation Technique, but it was an amazing Ultimate-level technique when the Tempest King used it herself.

"She's stronger than before."

The Earthen Monarch praised the Tempest King.

After the battle with the Heavenly Sovereign, the Tempest King recovered rapidly and grew stronger than before.

Her potential and her talents far surpassed them all.

Chapter 2342 Tempest King Avatar, Use the Destiny Contract, Re-election

"T-Tempest King!" The Manifa Forefather narrowed his eyes. He was forced to fight the Tempest King again.

This time, he did not hold back anymore. He unleashed the power of an Ultimate Monarch and aimed to defeat the Tempest King in the shortest time possible.

Chu Kuangren watched from the side with his eyes shining.

He had activated the Limitless Transformation Technique, copying all the techniques of the forefather and his disciple! He did not even need to comprehend them. It was just like copy and paste, but he could be better than the original!

It was as good as cheating!

On top of that, it was just the first level of the technique.

Once he had successfully comprehended the second level, the Limitless Imitation, he could transform into anyone in the Infiniverse, like a dragon, god, even the Manifa Forefather, or the Buddha Emperor.

In addition to that, Chu Kuangren had a feeling that the Limitless Transformation still had space to grow. That thought surprised him, and it made him wonder if he was overthinking it. The cultivation technique, which was already crazy powerful, could still grow stronger?

How powerful would it become then?

What would level three be like?

Chu Kuangren dared not even imagine.

However, the feeling in his heart was real. He believed that one day in the future, he would be able to reach that new height.

In the meantime, the Tempest King and the Manifa Forefather continued fighting.

The Tempest King had used the Heaven-devouring Technique to boost her strength to an Ultimate Monarch Realm, rivaling the Manifa Forefather.

All kinds of earth-shattering cultivation techniques were cast in succession.

They were all her unique cultivation techniques.

"Cosmic Crumbling Yin Yang Strike!"

"Thundergale Heaven Breaker!"

"Tempest Overworld!"

The switch between Yin Yang, Thundergale, and the Universal Creation was smooth.

She used different techniques masterfully and had no problems switching in and out of them.

The Monarchs could not even tell which Great Dao she majored in.

"Monarch Avatar!"

Infuriated by the relentless attacks, the Manifa Forefather used the Daoist laws around him to summon a gigantic mountain behind him. It was his unique Monarch Avatar!

However, that was not the end as Daoist law energy rumbled and swept over the field.

His Monarch Domain was activated as well.

With the avatar and domain activated, two of the strongest techniques that a Monarch could possess, the Manifa Forefather's energy surged.

Even so, the Tempest King remained calm.

She raised her hand to gather her Daoist law and summoned her own Monarch Avatar.

It was the first time Chu Kuangren had seen her Monarch Avatar.

Her Monarch Avatar was a beautiful feminine figure surrounded by a fierce tempest and countless Immortal Sparks. Her face was veiled, but it felt splendor and elegant, like a female ruler descending on earth.

Then, she expanded her Monarch Domain as well.

Thundergale, Yin Yang, Universal, and multiple other Daoist law energies filled the realm, clashing with the forefather's domain.

The clash between domains distorted the void.

Countless void pieces scattered across the battlefield, releasing all of life in the world.

As divine light pierced the sky, Immortal Sparks shimmered across the field.

The battle between the Tempest King and the Manifa Forefather rose to a new height.

Chu Kuangren watched without blinking, capturing every single cultivation technique they displayed. He was able to record them all with his monstrous cognizance.

Only by doing that could he further perfect his Limitless Transformation Technique.

If he could not remember them all, he could let Lil Ai do it for him as well.

"Lil Ai, who do you think will win?"

"It's a 50-50 odds. I can't tell who will win for now." Lil Ai revealed her analysis result calmly. The Manifa Forefather was an Ultimate Monarch, a very old Ultimate Monarch.

He was close to achieving the Unlimited Great Dao Monarch Realm, which would make him closer to the Overlord Realm.

On the other hand, the Tempest King was a Monarch from the previous era, but her outstanding talents and combat prowess excelled and far surpassed her peers. She could even forcefully raise her power to the Ultimate Monarch Realm.

One was a seasoned Monarch, and the other was a new rising star with potential.

It would take some time to determine the winner.

"If it's going to take a while, the forefather might use other ways to get the position of Adjudicator. Then..."

Chu Kuangren grinned. As the Tempest King's Honorable Teacher, he should do something to give his disciple a boost.

There were several Monarchs who owed him a debt.

"The Tempest King is strong, but unfortunately, the forefather has promised me a lot of great deals. I have to vote for him," thought one of the Monarchs.

Suddenly, his body shook, and the dormant Destiny Contract in him started to react.

His expression shifted. He had no idea what had caused the dormant Destiny Contract to be active now.

Could it be the Master of Destiny had arrived?

"Cast your vote again. Vote for the Tempest King, and you will be free from the contract!"

Words started to appear from the contract, and it shocked him.

It reminded him of his past when he went through the most bitter time of his life. He had just ascended to the Monarch Realm, but due to disruption during the ascension, his Monarch's Heart was incomplete.

The defect of the Monarch's Heart hindered his cultivation and might even pull him back from the Monarch Realm at any moment.

However, fate brought him to the Master of Destiny. The latter fixed his defect, but he would have to offer an Ultimate Divine Weapon or serve the Divine Destiny Temple for ten eras.

Since he had no Ultimate Divine Weapon to offer, he was forced to serve the Divine Destiny Temple for ten eras.

Now, he was informed that if he recast his vote for the Tempest King, he could be freed from the contract.

It meant he could regain his freedom!

It was a no-brainer!

The Monarch looked determined.

In fact, not only him but a few more Monarchs looked delighted as well. They looked at the Tempest King, finding it strange.

"The Tempest King is related to the Master of Destiny."

"The Master of Destiny never deals in a losing trade. I wonder what he wants from the Tempest King."

"It's a huge opportunity being noticed by the Master of Destiny, but one misstep and it might be over for her."

The Monarchs thought to themselves.

One must lose something to gain something.

Making a deal with destiny would usually cost more than one could gain, but people always succumbed to temptation.

Unfortunately, the Monarchs had no idea that the Tempest King had never seen the Master of Destiny before, but she was his disciple.

"Tsk. There goes a few Monarch-level contracts." Chu Kuangren sighed.

However, he was totally fine with using the contracts to give the Tempest King a little boost.

Besides, the Divine Destiny Temple never dealt in a losing business.

Using a few Destiny Contracts to exchange for his disciple being one of the three Adjudicators who wielded the highest authority of the human race was quite the bargain.

"Enough! I want to stop the fight!"

The Manifa Forefather shouted all of a sudden.

The battle would last forever if they continued.

"I request a re-election. I want to appeal for myself," he said.

The others exchanged a curious look.

The Human Empress and Earthen Monarch furrowed their brows while they thought about it. They seemed to be measuring the gains and losses.

"Fine. Let's cast the votes again."

It was Chu Kuangren who spoke first.

Soon, the re-election began.

The Manifa Forefather gave an inspiring speech and promised to provide all kinds of benefits. In the end, he managed to get himself four extra votes.

Most of the Monarchs maintained their choices.

"Manifa Forefather, thirty-four votes," the Human Empress said after calculating the votes.

The Manifa Forefather was stunned. Did the calculation go wrong?

He had gotten thirty-two votes before, and now, with the four extra votes he got, he should have thirty-six votes.

How did it become thirty-four?

Where did the two other votes go?

"Tempest King, thirty-eight votes!"

The Human Empress found herself surprised.

Chapter 2343 Tempest King Elected, Limitless Imitation, Someone Wanted To Breach The Contract

"W-What?"

The Manifa Forefather was stunned.

How did the Tempest King gain six more votes?

He was confused.

The Human Empress and Earthen Monarch were similarly surprised.

"It seems like the result is clear," the Human Empress said with a smile.

The result was surprising because no one expected the Tempest King to win the election.

"I refuse to accept this!" the Manifa Forefather shouted.

"Bang!"

Three different auras erupted at the same time and locked onto the forefather.

The first one was from Chu Kuangren.

He looked at the old man coldly and said, "Old man, what are you trying to do?"

The second and third auras were from the Human Empress and Earthen Monarch respectively.

The two of them also stared at the forefather coldly.

"Forefather, the human race election is not a game, and the result is out. Please don't cause a scene," the Human Empress said calmly, but there was a hint of frostiness in her eyes that sent chills down the forefather's spine.

Although the Earthen Monarch remained quiet, he released the strongest aura of the three. His aura pressured the forefather like there were a billion mountains on his shoulder, forcing the old man's body to shake.

The Manifa Forefather had just ended the battle with the Tempest King and had exhausted quite the energy.

With the three of them pressuring him, he could not voice his argument.

With that, the election result was finalized.

Chu Kuangren and the Human Empress pulled many strings to make the Tempest King the new and third Adjudicator, who would be the highest authority of the human race.

After the election, the Tempest King was still confused as to how she won the election.

"Human Empress, how did I get extra votes from the Monarchs? Did you and the Earthen Monarch promise them something?" the Tempest King asked curiously. The Human Empress shook her head. "We did nothing. Those Monarchs had gotten deals from the Manifa Forefather, the Buddha Emperor, and the Supreme Saint, so it wasn't easy trying to gain their votes. I don't know what caused them to change their mind during the re-election."

"Maybe they finally figured it out. Hehe."

Chu Kuangren, the mastermind, chuckled from the side.

As a sudden realization struck, the Tempest King looked at Chu Kuangren and asked, "Honorable Teacher, was it you?"

Chu Kuangren blinked and feigned ignorance. "I'm not that capable."

"That's alright. No matter what happened, the result is desirable." The Human Empress asked the Tempest King to stay to talk about the necessary steps and procedures for becoming the Adjudicator.

Months later, Chu Kuangren and the Tempest King finally returned to the Pan Gu Sect.

...

Inside a forest realm of the Pan Gu Sect, Chu Kuangren sat with his legs crossed and surrounded by Immortal Sparks.

His body was shifting form rapidly, from the Tempest King, Manifa Forefather, Human Empress, and more.

Each transformation felt authentic, and even the aura felt exactly the same.

After a while, he reverted to his original look. He opened his eyes and grinned. "I've finally mastered the second level of the Limitless Transformation Technique, the Limitless Imitation!"

It had been decades since he returned from Mount Tsuming.

He spent most of the time comprehending the Limitless Transformation Technique and finally mastered the Limitless Imitation.

From now on, he could become anyone he saw.

Suddenly, Chu Kuangren received a message from the fortune teller, the man he assigned to recover the debts. Someone had tried to breach the contract and refused to carry out the requirements, so the Master of Destiny's instructions were needed.

The one who breached the contract was a powerful Monarch.

"Oh? Interesting. Someone has the nerve to breach a Destiny Contract, huh? It seems like I have to go take care of this."

A hint of coldness flashed in Chu Kuangren's eyes.

...

Meanwhile, in the Celestial Divine Tribe, a Monarch was confronting a man in green robes.

"The fortune teller of the Six Eyes Tribe now runs errands for the Master of Destiny?"

"I am just carrying out my part. It's not that embarrassing."

The man in green was the fortune teller from Myriad Arms City.

"No wonder the Six Eyes Tribe wants you dead. If you become the most powerful fortune teller of this era, I'd feel bad for the Six Eyes Tribe."

The most powerful fortune teller of the Six Eyes Tribe was known as the Six Eyes Diviner, a title given only to the most adept in the Deduction Dao.

One must be able to deduce the future and past without flaw.

However, for some reason, the current Six Eyes Diviner was being chased by his own people and had now become an envoy of the Divine Destiny Temple.

Something strange must have happened.

"Tianshen Yan, I'd suggest you carry out your duty, or you will face severe consequences. You know how serious it is to mess with the Master of Destiny," the Six Eyes Diviner said.

Tianshen Yan was dauntless. He scoffed, "In that case, tell him to come to me himself. I'd like to see how powerful he really is."

The Six Eyes Diviner frowned.

He was curious why Tianshen Yan was so confident in defying the Master of Destiny.

"Breaching the Destiny Contract? You must have a lot of nerves to do that."

A frosty voice echoed across the realm.

A figure in white descended from the sky. His face was veiled by a layer of divine light, shielding his true face from others.

He was surrounded by Immortal Sparks that granted him a transcendental presence.

His presence shook the mountains and rivers and made the stars dim.

"Another Monarch."

Tianshen Yan looked at the person. He could not see the face, but the aura was profound and ever-shifting. He was not able to sense it precisely either.

"So you're the Master of Destiny?" Tianshen Yan asked.

The person was none other than Chu Kuangren.

Chu Kuangren did not answer the question. Before he came, he had used the Limitless Transformation Technique to veil his presence and face.

He looked at Tianshen Yan and said, "Tianshen Yan, you owe the Temple of Destiny twelve Hongmeng Supreme Treasures. Are you sure you don't want to pay up?"

"What if I refuse?" Tianshen Yan scoffed.

Hongmeng Supreme Treasures were precious even to a Monarch.

It was difficult for him to have one or two, let alone twelve.

Therefore, he decided to act shamelessly.

"The contract states that if you cannot pay up, you will serve the temple for life. I suppose you don't want to carry out your duty as well?"

"I was born free. No shackles of freedom can hold me bondage!" Tianshen Yan bellowed arrogantly.

Chu Kuangren scoffed. "I've never seen someone sound so righteous in not paying a debt."

Then, he threw a palm strike forward, releasing a stream of Daoist law energy.

"Bring it on!" Tianshen Yan bellowed. The Celestial Divine Light shone in his hand and released a domineering aura in the area.

The light was shot at the Daoist law energy, and the void shattered upon collision.

"I'd like to see how powerful the Divine Destiny Temple is. Celestial Divine Dragon Flare!"

Tianshen Yan used his ultimate attack.

The Celestial Divine Light was compressed into a blazing flame that blasted forward.

It scorched everything in its path and left a trail of charred void.

"Universal Genesis Pierce."

Chu Kuangren pointed his finger forward, shooting out the Universal Dao energy.

When the two attacks clashed, the void collapsed.

"That's the Manifa Destiny Sect's cultivation technique!" Tianshen Yan's eyes widened.

As a Monarch, he was pretty knowledgeable. He had seen the Universal Genesis Pierce before.

"Dragon God Dominion!"

Then, Chu Kuangren raised his hand to release a surge of dragon qi. He was using the secret technique of the Dragon Tribe.

The dragon qi easily blasted Tianshen Yan away, leaving the man shocked.

"A Dragon Tribe cultivation technique!?"

Chapter 2344 I Control My Fate, Defy Fate, Fate Defiant Masters Appears

"Are you human or dragon?" Tianshen Yan asked in shock. Chu Kuangren did not answer. Instead, he raised his hand and released a more domineering dragon qi to blast the man away.

He might be a newbie Monarch, but he was far stronger than a common Monarch. Tianshen Yan was pushed back again and again by the relentless attacks.

"Damn it!" Tianshen Yan was infuriated.

He roared and channeled the Celestial Divine Light to the strongest.

An astounding and domineering aura was released. The divine light merged with the white flame and Daoist laws, intertwining and fusing in the void, forming a massive figure behind him.

It was his Monarch Avatar!

"Die!" Tianshen Yan attacked with his Monarch Avatar. The Monarch Avatar swung its palm down with indomitable energy.

Faced with the avatar's palm crashing down, Chu Kuangren suddenly glimmered in divine light.

It was the Celestial Divine Light! Celestial Divine Light intertwined and formed a massive avatar that looked exactly like Tianshen Yan's.

The scene shocked not only Tianshen Yan but also the Six Eyes Diviner. What was that?

The avatars looked exactly the same but possessed different power levels.

Upon clashing, the explosive shockwave blasted Tianshen Yan away.

He looked at Chu Kuangren in fear. "W-Who are you? How do you know the Celestial Divine Light? Why the hell can you summon my avatar?"

"The Celestial Divine Tribe's cultivation techniques are nothing," Chu Kuangren said as he shook his head.

The avatar behind him dissipated, and another avatar wielding a great sword was summoned.

The sword qi pierced the sky and possessed boundless sharpness.

"T-That's the Divine Sword Palace Ruler's avatar! You're the Palace Ruler? Wait, no! Who the hell are you?" Tianshen Yan could not believe his eyes.

How could someone change Monarch Avatars at will?

It was absurd to even think about it.

However, Chu Kuangren did not say a word. The avatar swung the massive sword down.

Common Monarchs had to spend a lot of time to break through to the Second Step and manifest the Monarch Avatar, but Chu Kuangren's talent and cognizance allowed him to possess powers that surpassed his peers.

In addition to this Limitless Transformation Technique, even though he had not manifested his own avatar, he could use other people's avatars.

That would be the Limitless Cultivation!

Not only the cultivation technique but everything of the target could also be copied.

The sword was aimed at Tianshen Yan.

If the sword landed, Tianshen Yan would surely be hurt, and the Great Dao in his body might be cut in half.

However, before the sword could land, a large amount of Daoist law energy gathered in the void to form a barrier, thus blocking the sword strike.

Chu Kuangren narrowed his eyes and looked further away, where he spotted several figures dashing toward him. They were so fast that they broke the sound barrier with a bang. All the mountains and rivers in their way were destroyed.

They arrived before Chu Kuangren and unleashed their vast aura on him.

There were three people, and all of them were Monarchs.

The leader was stronger than Tianshen Yan.

Chu Kuangren chuckled. "Since when are Monarchs the common cultivation realm? To think three Monarchs have come out of nowhere!"

"Sending three Monarchs to deal with the Master of Destiny is considered nothing," the leader, an elderly, said.

His aura felt strange, and his fate was in utter chaos, totally unreadable.

More importantly, stars were glimmering in his eyes, and his pupils were star-shaped. They seemed natural and not altered via other methods. The other two Monarchs behind him had three pupils in each eye. They were from the Six Eyes Tribe.

"Ming Bushi? Ming Buyu?" The Six Eyes Diviner recognized the two of them at first glance. They were sent by the tribe to hunt him down.

As for the elderly, he had no idea who the man was.

"Interesting. So I suppose you guys are the Fate Defiant Masters?" Chu Kuangren said as he looked at the star-pupil elderly.

People with such chaotic fates who could recognize him at first glance must be the enemies of the Divine Destiny Temple — Fate Defiant Masters.

"We are!"

The star-pupil elder grinned and said, "Who would have thought that this generation's Master of Destiny has grown into a Monarch? You're probably the best one compared to your predecessors. It's definitely worth my time now."

"I was wondering what made Tianshen Yan so confident to defy the Divine Destiny Temple. It was you people," Chu Kuangren said as realization struck.

The Divine Destiny Temple was a mysterious force that even the common Monarchs dared not defy.

Hence, for Tianshen Yan to breach the contract intentionally, he must have gained some support from somewhere or someone else.

Out of all the forces in the Infiniverse, only the Fate Defiant Masters dared to stand against the Divine Destiny Temple.

More importantly, they seemed to be related to the Six Eyes Tribe as well.

"Diviner, hand over the Divine Destiny Seal and the Third Eye, or we will bury you here with this Master of Destiny!"

The Monarch of the Six Eyes Tribe, Ming Busi, warned the Six Eyes Diviner.

Ming Buyu was also in a cautious stance.

"If you want it, come get it," the Six Eyes Diviner said. He did not avoid them this time. He had played hide and seek for many years, and this time, he wanted to fight with them.

"I'll leave them to you," Chu Kuangren said to the Six Eyes Diviner.

"I'm hoping for more explanations after this."

"I will."

With that, the Six Eyes Diviner fought Ming Busi and Ming Buyu.

The three of them were powerful elites of the Destiny Dao.

They fought on the River of Fate. Their offensive methods were strange and unpredictable as well.

Only Chu Kuangren, Tianshen Yan, and the star-pupil elderly were left. Since Tianshen Yan was hurt, he was no longer a threat.

The star-pupil elderly, however, piqued his interest. It was his first encounter with a Fate Defiant Master, and he wondered what they could do.

"Divine Destiny Light."

Chu Kuangren shot a beam of light from the Great Destiny Technique.

Starry light twinkled in the elderly's eyes. When the Destiny energy hit him, it faded like a light breeze.

"Oh? A chaotic fate. Is that why the Destiny energy can't lock onto him?" Chu Kuangren was slightly surprised.

"I control my own fate! I defy fate and reverse the pre-destined!"

"Master of Destiny, this is the Fate Reversal energy. It's a bane to your power!" The star-pupiled elderly cackled.

Then, runes circulated him and scattered into the area.

It formed a barrier around them.

While caught in the barrier, Chu Kuangren lost contact with the Divine Destiny Temple.

"This barrier is formed using the Fate Reversal energy. You can't go back to the temple from here, nor can the temple reach you. You're not a true Master of Destiny, so just die!" the star-pupiled elderly said.

They had been enemies of the Divine Destiny Temple for many years, so they knew what the Master of Destiny could do. They lured the Master of Destiny out with the Destiny Contract and used the Fate Reversal energy to stop the Destiny energy's attack. The barrier was also formed to prevent the Master of Destiny from escaping.

Everything the man did was to target the Master of Destiny.

Chapter 2345 Limitless Heavenly Human, Limitless Fate Reversal, Suppress Fate Defiant Master
"Interesting."

The Fate Reversal energy intrigued Chu Kuangren.

"Unfortunately, if that's all you got, you might not be able to change your own fate," Chu Kuangren said.

His voice was strong, and it echoed across the realm.

It sounded as dignified as god's voice.

"All your predecessors were as arrogant as you, and they're all dead. You will be no exception!" The star-pupil elderly narrowed his eyes and channeled the Fate Reversal energy.

He attacked with his palm.

The palm strike contained a large amount of Daoist law energy within.

Instead of moving or dodging, Chu Kuangren countered with a palm strike.

Dragon roars echoed across the sky as he used one of the strongest Dragon Tribe cultivation techniques.

Daoist laws clashed and shook the universe.

"This Master of Destiny is from the Dragon Tribe."

The star-pupil elderly was surprised to see the Dragon Tribe's technique, and he assumed Chu Kuangren was from the Dragon Tribe.

However, Tianshen Yan immediately said, "Brother, be careful! He's strange! He might not be a Dragon Tribe cultivator!"

"How strange can he be?" The star-pupil elderly was unconcerned.

The Fate Defiant Masters defied the Divine Destiny Temple, and Destiny energy was the strangest and most unpredictable force in the Infiniverse.

They had seen their fair share of strange cultivators.

"Take this!"

The star-pupil elderly roared and unleashed all kinds of cultivation techniques. All the attacks he made contained the Fate Reversal energy, which could disrupt one's fate.

It was that strange energy that killed most of the previous Masters of Destiny.

Chu Kuangren, on the other hand, pointed his sword hand sign and countered with all kinds of cultivation techniques as well.

For example, the Dragon Tribe techniques, Celestial Divine Light, Holy Spirit Sword Technique, the Manifa Destiny Sect's Universal Genesis Pierce and Universal Violent Barrage, and more.

All the cultivation techniques he used were some of the strongest in existence, and he used them with excellent prowess, which was terrifying.

The star-pupil elderly was stunned.

Who exactly was the current Master of Destiny?

How could he use so many different sect's cultivation techniques with such mastery?

Had they all signed contracts with the Master of Destiny and given him their cultivation techniques?

Even so, how did he merge and master all the cultivation techniques that required specific bloodline or requirements?

It was unbelievable.

"This Master of Destiny is quite tricky!"

The star-pupiled elderly frowned.

"Monarch Avatar!"

As the star-pupil elderly summoned his avatar, a large amount of Daoist law energy gathered behind him to form a massive figure of a titan.

The titan possessed an ancient presence and also shared similar starry eyes.

The avatar stared at Chu Kuangren. Monarch Avatars were projections of Daoist laws and should not possess any emotions, but when it looked at Chu Kuangren, it showed hate, as if the avatar had its own mind.

"So this is the true enemy of the Divine Destiny Temple..." Chu Kuangren murmured as he looked at the strange avatar.

The avatar represented an ancient being, the true enemy of the Divine Destiny Temple and the one who founded the Fate Defiant Master.

That explained why the avatar was different.

"Die!"

The star-pupiled elderly ordered the avatar to attack.

A massive hand that could shadow the sky crashed down with indomitable power.

Chu Kuangren narrowed his eyes. At the next moment, the spiritual qi of the realm rumbled and boosted his Daoist law energy further.

"Yin Yang Taiji!"

A massive Taiji symbol spiraled into form behind him. The Taiji symbol contained both strength and tenderness. As the Yin and Yang intertwined, it released an unparalleled defensive energy.

The massive hand crashed onto it but was stopped.

"That's the Heavenly Human Sanctuary's Heavenly Human Taiji and Heavenly Human Art!"

The star-pupil elderly recognized the cultivation technique.

The Heavenly Human Taiji was the Hongmeng cultivation technique of Heavenly Human Sanctuary, and the Heavenly Human Art was their strongest magical technique.

It blended oneself into heaven and earth. As long as heaven and earth existed, the user would not die. It could even boost the user's energy with the energy in the realm.

The first technique was already insane, but the second one, the Heavenly Human Art, was a rare and powerful cultivation technique.

Based on what the star-pupil elderly knew, the cultivation technique could only be used by less than a handful of Monarchs in the Heavenly Human Sanctuary.

"Who the hell are you?" the star-pupil elderly asked.

Chu Kuangren had used more than ten different powerful cultivation techniques, each unique to a certain tribe or force.

No one could tell where he originated from and whether he did it on purpose.

As for the Heavenly Human Taiji and the Heavenly Human Art, he had seen Mingyue Wuxia use it before, so he copied it with the Limitless Cultivation.

It was one of the craziest things about the Limitless Transformation.

One glance was all it took for him to copy it.

"Why don't I show you something even more interesting?" Chu Kuangren said.

He raised his hand at the man. "Limitless Fate Reversal!"

"Buzz!"

A strange energy fluctuation rippled from his hand.

It was the Fate Reversal energy!

The star-pupil elderly was stunned. "No. Impossible. How can you use our God's Fate Reversal energy?"

The Fate Defiant Masters had fought the Divine Destiny Temple for many years, but they had never seen something so ridiculous.

If the Master of Destiny could use the Fate Reversal energy, did that mean the Master of Destiny was also a Fate Defiant Master?

Was the elderly fighting one of his own from the start?

What a terrible joke!

If it were true, they would have destroyed the temple ages ago. Why go the extra mile? What was going on?

The star-pupil elderly could not wrap his head around the situation and was shocked beyond words.

Chu Kuangren grinned in realization when he heard the man.

"So there's a God you worship? What a joke! Calling yourself God in front of destiny is the most foolish thing you can do!"

Then, Chu Kuangren attacked with the Fate Reversal energy.

"Bang!"

When it struck the star-pupil elderly, his chaotic fate started to reorganize and revert to normal.

Chu Kuangren was surprised.

Could the energy cancel out itself? It was interesting how the chaotic and disrupted fate was fixed by the Fate Reversal energy. "Gate of Destiny!"

Chu Kuangren immediately used the Great Destiny Technique.

A massive door appeared from the void. The door had countless runes on it as if it contained all the fates of the living beings in the Infiniverse.

The door locked onto the elderly's fate and crashed down, crushing him to the ground.

The Monarch Avatar behind him released an unwilling shout before it shattered into pure Daoist law energy.

"What? Even the Fate Defiant Master failed!" Tianshen Yan trembled in fear.

He had breached the contract because the Fate Defiant Master instigated him to do so and provided support. He knew the Master of Destiny was not almighty. However, the Fate Defiant Master had been overpowered, so there was no way he could escape now.

"Run!"

Tianshen Yan turned into a streak of light and wanted to leave.

Just then, a massive surge of spatial energy locked onto him and froze him in place, making it impossible for him to escape.

It was the Ultimate-level spatial cultivation technique, Infinity Domain!

Chapter 2346 Kill Tianshen Yan, Fate Defiant Masters' God, Limitless Six Eyes

"Spatial energy? This is a powerful spatial cultivation technique!" Tianshen Yan gulped in fear and disbelief. Spatial, Overworld, Sword Dao, Yin Yang...

The number of techniques Chu Kuangren could use was staggering. It was no secret that he could use the Infinity Domain, but Tianshen Yan had never connected the Master of Destiny to Chu Kuangren, the first Monarch of this era, before. Since Chu Kuangren had displayed many different techniques, what was one more from the Spatial Dao?

"It's only right to pay what you owe. People who can't fulfill the contract's requirements have no right to live in this world," Chu Kuangren said to Tianshen Yan coldly. Tianshen Yan, who assumed he was superior to the Master of Destiny, finally knew he had hit a snag. Hence, he quickly begged for his life. "Master of Destiny! I know what I did wrong! Please give me a chance! I'll pay what I owe! Please give me some time! I'll find a way to pay the temple twelve Hongmeng Supreme Treasures! Uh... No, I will serve the temple wholeheartedly!" Tianshen Yan said.

He thought that as a Monarch, a rare elite across the cultivation world, he could provide more value to the temple alive than dead.

As a matter of fact, the temple was in need of manpower, and so was Chu Kuangren. Unfortunately, he already had his own plans. He would never use someone who could turn on him easily.

"You breached the contract and turned on the temple. Death shall be your end."

As Chu Kuangren pointed his sword hand sign at Tianshen Yan, sword qi gathered at his fingertips.

"N-No! Wait! The temple shouldn't deal in a losing bargain! If you kill me, you won't get the treasures! It's a sure loss for the temple! Spare my life, and I will create more value for the temple!"

Tianshen Yan tried to argue for one last time.

"Someone else will pay your debt for you," Chu Kuangren said as he swung his finger down at Tianshen Yan.

The vast sword qi slashed Tianshen Yan's body in half, and his Monarch's Heart was crushed instantly. Chu Kuangren collected the fragmented Monarch's Heart, which carried quite some value.

Then, he looked at the star-pupil elderly. The old man was still resisting the oppression from the Destiny's Gate when he glared at Chu Kuangren. "I didn't expect you to be this powerful, Master of Destiny. I may have underestimated you, but don't get ahead of yourself. My God will never let you go!" Chu Kuangren went up to the old man and kicked him in the chest.

"Bang!"

The old man's ribs caved in, and he was forced down on his knees. The Destiny's Gate continued to crash on him, crushing his kneecaps. "You're kneeling before me now, but where's your God? I'm going to kill you, but where's your god then? Do you think you have control over your life? No, I control your life now!" Chu Kuangren said.

After that, he activated the Limitless Transformation Technique.

His body shone with Immortal Sparks and released a mystical aura.

"I had a meeting with your God, but it didn't seem to be a pleasant one. I look forward to our next meeting," Chu Kuangren said before he threw a punch at the old man.

The powerful punch crushed the old man's head into pieces. That would be the first Fate Defiant Master he killed and definitely not the last one.

Next, he made his way to the River of Fate.

The Six Eyes Diviner was fighting Ming Buyu and Ming Busi, and their Destiny Daoist laws swirled and clashed ferociously.

Countless living being's fates were affected because of their fight. It was a disaster for all living beings.

When Ming Buyu and Ming Busi saw Chu Kuangren, their eyes widened in shock. "The Fate Defiant Master has been defeated?"

"We must go now!"

Ming Buyu and Ming Busi knew their limits. They knew Chu Kuangren must be stronger than them since he had defeated the Fate Defiant Master. On top of that, he was also the Master of Destiny.

No one could defeat him in the River of Fate.

However, as they tried to escape, the Destiny's Gate blocked their way.

"Limitless, Six Eyes!"

Chu Kuangren's eyes shone in six different colors!

It was the Six Eyes technique unique to the Six Eyes Tribe.

"The Six Eyes were born from the Destiny Great Dao. No wonder..."

Chu Kuangren could feel that his Destiny Dao's energy had strengthened after he used the Limitless, Six Eyes technique, and the Destiny's Gate shone even brighter than before.

Ming Busi and Ming Buyu looked at each other in awe.

They could not believe that the Master of Destiny was a Six Eyes.

Even the Six Eyes Diviner was shocked, but he did not jump to conclusions. The Master of Fate was too profound for him to understand. He could not see through Chu Kuangren at all.

Chapter 2347 Crush the Path of Destiny, Third Eye, Six Eyes Diviner's Speculations

Chu Kuangren shot a beam of Divine Destiny light at one of them. The Monarch coughed up mouthfuls of blood, and his fate was instantly disrupted.

Refusing to sit back and wait for their demise, Ming Busi and Ming Buyu fought back.

However, their resistance was futile in front of the Master of Destiny, and they were easily suppressed in just a few rounds. Chu Kuangren then reached his hand into the River of Fate and caught two paths of destiny. "That's our path of destiny!" Ming Busi's expression shifted.

Not even the Six Eyes Tribe Leader could, like Chu Kuangren, easily pick their paths of destiny from the massive River of Fate with utmost precision.

Only the Master of Destiny was capable of such an astounding technique.

Ever since he became a Monarch, even if he was not in the Divine Destiny Temple, he could use some of the Master of Destiny's authority, thus achieving many miraculous feats.

"Die!"

Chu Kuangren tightened his fist, crushing the two paths of destiny.

The paths of destiny struggled like two slithering snakes, but Ming Busi and Ming Buyu's paths of destiny had already been affected when Chu Kuangren physically injured them.

As he released his powerful Destiny energy in their direction, two explosions erupted.

"Bang! Bang!"

Just like that, Ming Busi and Ming Buyu's paths of destiny were crushed.

"No!" The two Monarchs were killed on the spot.

Chu Kuangren, who had just killed two Monarchs with a clench of his fists, swung his sleeve and released a huge amount of Destiny energy.

The Destiny energy was infused into the River of Fate, fixing the paths of destiny that got affected by the fight.

He was like a god saving lives.

The Six Eyes Diviner looked at him with respect and awe.

"Now, tell me. Why are the Six Eyes Tribe hunting you down? I believe there's something else other than the Divine Destiny Seal," Chu Kuangren asked.

The Six Eyes Diviner nodded. "Indeed. Other than the Divine Destiny Seal, they are after me for an Ultimate Supreme Treasure of the Six Eyes Tribe — the Third Eye."

A line appeared on his forehead, and then an eye opened up.

There were three pupils in the third eye, and in addition to his six pupils, he had a total of nine pupils!

"Nine is the limit. Once the Third Eye is activated, one can push the art of deduction of the Six Eyes Tribe to the limit. Coupled with the Divine Destiny Seal's cultivation technique, one can access many secrets in the past or future across the Infiniverse.

"The Six Eyes Tribe wanted to use this power to locate the Divine Destiny Temple, thus controlling it. However, because of my deal with the Master of Destiny, I was isolated by my tribe. I might bear the title of Six Eyes Diviner, but I don't have its related authority."

"They wanted to kill you for the Divine Destiny Seal and the Third Eye," Chu Kuangren added.

The Six Eyes Diviner nodded.

"A Supreme Treasure that can locate the Divine Destiny Temple? Now that the Six Eyes Tribe is working with the Fate Defiant Masters, if the Third Eye ends up in their hands, it might cause a lot of trouble," Chu Kuangren said as he looked at the Six Eyes Diviner's Third Eye.

He was considering destroying it.

"The Third Eye is bound to me. If it's taken away by force, I will die. Please have mercy on me, Master of Destiny." The Six Eyes Diviner quickly begged as if he saw through Chu Kuangren's thoughts.

It was also the reason why he wanted to escape his tribe.

His Third Eye and the Divine Destiny Seal were not the only things the Six Eyes Tribe wanted; they wanted his life as well.

"Don't worry. Now that you've run into me, it means your life doesn't end here. From now on, you can stay in the Divine Destiny Temple and concentrate on deducing the future. As for the debt collection, I'll find someone else to take your place," Chu Kuangren said.

The Six Eyes Diviner had visited many people and collected a lot of debt from them.

Those who could not pay the debt must serve the temple as compensation.

Since Chu Kuangren would not allow them to freeload either, he thought of sending them to recover the remaining debts.

After exiting the River of Fate, Chu Kuangren glanced at the dead Tianshen Yan. "I have to go to the Celestial Divine Tribe to collect a debt, but I'll send you back to the Divine Destiny Temple first."

"Celestial Divine Tribe? Master, the Celestial Divine Tribe is powerful, and they're good at hiding. They won't pay up that easily."

"Don't worry. They have no choice but to bow before destiny," Chu Kuangren said, glimmering in Immortal Sparks.

In the next second, Tianshen Yan appeared before the Six Eyes Diviner, alive and kicking.

The Six Eyes Diviner was shocked. He could tell based on the aura that the Tianshen Yan before his eyes was real.

It felt strange, but his sanity told him that the person before him was the Master of Destiny.

However, the aura, soul energy fluctuation, cultivation, and even fate were exactly like Tianshen Yan's.

The Six Eyes Diviner had been a fortune teller for many years, so he knew everyone had their own unique fate.

It would be his first time seeing something so outrageous.

It toppled his worldview and defied all that he knew!

Seeing the shock on the Six Eyes Diviner's face, Chu Kuangren grinned.

All living beings were unique, but the Limitless Imitation shattered that rule.

"Well then, off you go to the Divine Destiny Temple."

Chu Kuangren swung his sleeve, releasing Destiny energy to send the Six Eyes Diviner to the Divine Destiny Temple.

After becoming a Monarch, he possessed the ability to send people to the temple. All he had to do was inform the Temple Spirit.

"Now, let's go and have some fun at the Celestial Divine Tribe."

...

White light flashed before his eyes, and the Six Eyes Diviner found himself in the Divine Destiny Temple.

However, he was still in shock from seeing Chu Kuangren transform into Tianshen Yan. Only when the Temple Spirit nudged him did he recover his composure.

"Divine Destiny Temple, long time no see," he murmured.

He had visited the temple once when he made a deal with the Master of Destiny.

Nevertheless, he was still in awe of the mystic presence of the temple.

"I wonder who the current Master of Destiny is."

After all, the Master of Destiny had never shown his face before.

"Temple Spirit, I might have to stay here for a long time, so let's look after each other," the Six Eyes Diviner said as he bowed.

"Dear guest, you're welcome."

"It's a pity I just bought a house in Myriad Arms City. I don't think I'll have the chance to go back there... Wait a minute. Myriad Arms City?"

The Six Eyes Diviner suddenly thought of something.

He met the Master of Destiny in Myriad Arms City, which was Chu Kuangren's turf.

The Master of Destiny revealed his power to the world when Chu Kuangren fought the Curse Tribe remotely. The more the Six Eyes Diviner thought about it, the more astonished he was.

"Temple Spirit, do you know the name of the Master of Destiny?"

"Dear guest, why don't you ask the master himself?" "Forget it. If he could reveal his identity, he wouldn't shield his true face from me," the Six Eyes Diviner said as he shook his head.

However, the thought lingered in his mind.

If he was correct, the Master of Destiny might be more profound than he thought — more than just the master who ruled over fate and destiny.

Chapter 2348 With Interest, Raid The Treasure Vault, A Huge Daoist Mountain

The Celestial Divine Tribe was one of the oldest tribes in the Great Hongmeng Universe with deep roots and an abundance of resources from having gathered countless treasures across countless eras.

All the treasures were placed in a secret treasure vault inside the tribe.

The vault was guarded by many guards, and the weakest among them was a Grand Dao Supreme Saint.

There were also more than a dozen Supreme Honorables. Even Monarchs keeping watch of the vault at all times.

It was safe to say that the treasure vault was heavily guarded.

The treasure vault welcomed a visitor on that particular day.

When the guards saw the person, they bowed and saluted. "Lord Yan!" Lord Yan, or Tianshen Yan, was one of the Monarchs of the Celestial Divine Tribe. However, he had been killed by Chu Kuangren, and the one who had appeared before the vault was Chu Kuangren himself, transformed using the Limitless Imitation.

With the mystical Limitless Imitation technique, Chu Kuangren possessed Tianshen Yan's aura, cultivation technique, fate, memories, and even his soul.

It was not an exaggeration to consider him as the real Tianshen Yan.

"I want to get something from the vault."

"What do you seek, Lord Yan?" the guard asked.

Not even a Monarch enjoyed free access to the vault.

"An Immortal Herb. I'd like to use it for pill-refining."

Other than being a Monarch, Tianshen Yan was also a superb pill-refiner and was quite well-known within his tribe.

The guard lowered his guard and said, "Do you have the Tribe Leader's permission?"

Even with his status, he had to get the Tribe Leader's permission to enter the treasure vault.

"The tribe leader is cultivating, and I am in a hurry. I have to get the Immortal Herb by today. When the tribe leader is done with his cultivation, I'll come back with permission. Move! You wouldn't want to bear the responsibility of delaying my matters," Chu Kuangren said grimly.

Tianshen Yan was a short-tempered person, and the guard knew it. In addition to his Monarch status and prestigious position in the tribe, even the Tribe Leader had to respect him.

With that, the guard granted him access.

The rules were stiff, but the guards there could make their own decisions, and they dared not offend a Monarch.

After Chu Kuangren entered the treasure vault, mountains of treasures entered his sight. There were rare Immortal Minerals, herbs, and more than thirty pieces of Hongmeng Supreme Treasure.

In the center of the vault was a Daoist mountain consisting of a large amount of Great Dao Source. It had the highest quality of Great Dao Source that Chu Kuangren had ever seen.

Its crystal-like body looked amazing surrounded by divine light.

The Celestial Divine Tribe was indeed well-resourced.

Chu Kuangren's eyes gleamed with interest. "Hehe, Tianshen Yan, your tribe will pay the temple on behalf of you and with interest, of course."

The Divine Destiny Temple never dealt in a losing bargain.

Would killing Tianshen Yan reap less value than sparing his life? Not exactly. Chu Kuangren waved at the mountains of treasures, and all the treasures were sucked into his Pocket Universe.

Minerals, herbs, treasures, and everything in sight were absorbed.

Suddenly, Chu Kuangren saw a talisman rune sealed in a crystal rock.

The talisman looked extremely mystical.

His heart raced. "This is one of the Nine Divine Seals!"

The Nine Divine Seals represented the peak of nine different Daos.

Chu Kuangren had mastered the Void, the Weapon, and the Curse Seal and gained all their Ultimate-level cultivation techniques. The Six Eyes Diviner had the Divine Destiny Seal, and now he had found the fifth one in the Celestial Divine Tribe's treasure vault.

"This is a good fine."

Chu Kuangren took it and planned to have a look after he exited the vault.

Soon, he raided the entire treasure vault, leaving nothing behind.

He got twenty-four pieces of Hongmeng Supreme Treasures, twice as much as Tianshen Yan's debt.

He also got other rare minerals and herbs as well.

"Tianshen Yan owed the temple for ages. I think I can take all of these to compensate for the late payment," Chu Kuangren said with a content smile.

The Divine Destiny Temple earned a lot from Tianshen Yan's deal, including an interest. Not even a loan shark could reap so much return in one deal.

"Let's go."

Chu Kuangren originally wanted to wreak havoc on the Celestial Divine Tribe to teach them a lesson for messing with the human race, but he ultimately suppressed the urge to do so.

After all, the Celestial Divine Tribe had a few old men in hiding, so he had to be more careful.

"Lord Yan, I'll see you off," the guard said respectfully.

"That won't be necessary. Just carry on with your duty."

"Take care, Lord Yan."

After Chu Kuangren left, another Monarch came.

"Lord Yi."

Lord Yi was Tianshen Yi.

He revealed a scroll carrying the Tribe Leader's permission. "I want to get something from the vault."

The guard was baffled. "Is this the Tribe Leader's permission scroll?"

"What? Are you suspecting me?"

"No, my Lord. I thought the Tribe Leader was cultivating."

"Who said that?"

"Lord Yan. He just left."

"Tianshen Yan... Bring me inside now!" Tianshen Yi instinctively noticed something was wrong and immediately went into the vault.

What he saw inside the vault was shocking.

There was nothing inside.

Tianshen Yi and the guard were stunned.

The minerals, the herbs, the Hongmeng Supreme Treasures, the huge Daoist Mountain — everything was gone!

Petrified, the guard started to shake in fear. He knew he would be punished for that.

"Are you sure Tianshen Yan came before me?"

"Yes, it was Lord Yan!" The guard looked devastated, but Tianshen Yi attacked him with a palm strike, killing him.

After that, he took out a jade talisman.

Soon, the news of Tianshen Yan stealing the entire treasure vault spread across the whole tribe.

Multiple Monarchs were mobilized to hunt him down.

Countless runes were summoned across the tribe's land, forming a massive boundary to put the place in total lockdown.

The sudden commotion surprised many people.

"What is going on? The Earthen Monarch is here again?"

"I thought he attacked before! What does he want now?"

One of the cultivators recalled the fear when he saw the Earthen Monarch attacking their tribe.

Chu Kuangren narrowed his eyes at the boundary. "Oh, they've found out already? What a surprise."

He grinned at the terrified cultivators. It seemed like the Earthen Monarch's attack had traumatized a lot of them.

"Tianshen Yan, there you are!"

A loud shout and a blast of Monarch aura erupted.

Then, a figure arrived before Chu Kuangren.

"You're quick," Chu Kuangren said with a smile.

It was Tianshen Yi.

"Tianshen Yan, why did you betray us?" Tianshen Yi asked coldly.

"Skip the chatter." Chu Kuangren threw a palm strike forward. The Celestial Divine Light transformed into a fiery attack, which was Tianshen Yan's signature attack.

Tianshen Yi countered with his own attack.

When the attacks clashed, they were both pushed back.

Chu Kuangren pursed his lips.

"Tianshen Yan's power is really disappointing."

His Limitless Imitation was powerful but not perfect. When he transformed into the target of imitation, the power he could use would depend on how powerful the target was. He could not use other powers while he was in other forms.

However, compared to what it could do, the little flaw could be ignored.

Chapter 2349 Why Mess With Me, Celestial Divine Forefather Attacks, Divine Formation Seal

"Bang! Bang! Bang!"

Chu Kuangren exchanged a few attacks with Tianshen Yi.

The powerful energy shockwave and Monarch's aura shook heaven and earth.

All the cultivators in the area were forced to retreat.

"Monarch Avatar!"

Tianshen Yi roared and summoned his Monarch Avatar after a few exchanges. The massive avatar formed above him, glimmering in divine light.

Seeing that, Chu Kuangren also summoned Tianshen Yan's Monarch Avatar.

The two avatars fought, releasing an even more terrifying aura that shook the realm.

"If this continues, the other Monarchs will be here soon."

Chu Kuangren sensed multiple powerful Monarch auras approaching rapidly. Once they arrived, they would be able to overpower Tianshen Yan.

On top of that, he still had to escape from the boundary.

The boundary that sealed the space above the tribe was a strange one. Not even a Monarch could escape easily, and breaking it by force would be difficult as well.

"I thought I would leave quietly, but you guys just had to mess with me," Chu Kuangren said as he shook his head helplessly.

"Bang!"

Multiple Monarch's aura erupted and locked onto Chu Kuangren.

Chu Kuangren's Monarch Avatar was destroyed in an instant.

Before he could do anything, he was surrounded by multiple Monarchs.

"Tianshen Yan, surrender the treasures you stole and come back with us! You might be spared if you surrender," Tianshen Yi said coldly.

He had no idea why Tianshen Yan would betray the Celestial Divine Tribe when he showed no obvious signs of betrayal before.

"I'm leaving, and no one can stop me."

"In that case, don't blame us for being rough!"

Multiple Monarchs attacked together. Daoist law energy erupted and flooded the place, drowning Chu Kuangren like a crashing tide.

"Kabaam!"

The void exploded upon crashing.

"We did it?"

"He must be dead, if not injured, by our attacks."

Suddenly, a stronger Daoist law energy flooded the place like the ocean.

Endless Daoist law energy then transformed into dragon qi and swept the area.

All the Monarchs were blasted away by the dragon qi blast.

"The Dragon Tribe's energy?"

"What's going on? Tianshen Yan's aura disappeared and was replaced by a dragon aura! Was Tianshen Yan a fake?"

The Monarchs were stunned.

When the energy faded, a figure shrouded in Immortal Sparks appeared.

His white robes were obvious, but his face was veiled by spiritual light.

His aura was thin and almost undetectable.

Some saw Buddhist Light.

Some saw dragon qi.

Someone even sensed the same Celestial Divine Light!

No one knew who the person was or where he came from.

"Who is he?"

"Why is his aura so complicated?"

Tianshen Yi was baffled.

The person before them just now appeared to be Tianshen Yan, be it his looks, aura, or cultivation.

However, Tianshen Yan had now transformed into a complete stranger.

What kind of transformation technique was that?

It was strange but brilliant.

"Bang!"

The sky shook all of a sudden.

A dazzling Celestial Divine Light burst into the sky from the deepest part of the tribe, and a boundless Monarch Daoist law energy blanketed the field.

The realm shook as Celestial Divine Light and Daoist law transformed into a massive hand that tried to grab Chu Kuangren.

The massive hand crushed the void in its way, causing galaxies to explode.

That attack was definitely from a First Step Monarch.

"Elusive one, stay and reveal yourself," an aged voice echoed across the field.

"The Forefather is here!"

"The Forefather is here! This person can't escape now!"

Tianshen Yi and the others exclaimed in delight.

However, Chu Kuangren rose into the sky and said coldly, "I said I'm leaving, and no one in the universe can stop me."

His voice was as loud as rumbling thunder, like he was a god that descended from the heavens.

Then, he revealed several Hongmeng Supreme Treasures, which he had looted from the treasure vault earlier.

"Go!"

One of the Hongmeng Supreme Treasure flew toward the huge hand while the other scattered in all directions.

As terrifying energy fluctuations emanated from the Hongmeng Supreme Treasures, all the Monarchs gasped in fear.

"Damn it!"

"Stop him!"

The Monarchs knew what Chu Kuangren was trying to do.

They wanted to stop him, but it was too late.

The Hongmeng Supreme Treasures shone brightly and exploded with terrifying energy shockwaves. As a result, the entire Celestial Divine Tribe was caught in the blast.

The blast crushed the land and the void, and even the huge hand was destroyed.

Countless Celestial Divine cultivators were killed.

To detonate all the Hongmeng Supreme Treasures, Chu Kuangren used the Thousand Weapon Heart, so the explosion from the detonation was terrifying.

Not only did the explosion stop the forefather's attack, but it even blasted the other Monarchs away, inflicting heavy damage on the Celestial Divine Tribe.

The boundary even cracked under the explosion.

"I said no one can stop me."

With a swoosh, Chu Kuangren disappeared.

The moment the boundary cracked, no one could stop him.

In just a blink of an eye, he was back in the Divine Destiny Temple.

The Celestial Divine Tribe was razed to the ground.

"Damn it! Damn it! Who was that person?"

"He stole our treasures and almost obliterated our tribe! How are we going to recover from this!?"

"The treasure vault has been emptied, and the tribe is badly damaged. He's really done it!"

"Bang! Bang!"

Deep in the Celestial Divine Tribe, multiple mountains exploded.

An energy that pressured the entire Celestial Divine Tribe erupted.

The oldest Monarch of the Celestial Divine Tribe had awoken, and he was infuriated.

"Find out who did it!"

"Call Tianshen Yan back! We must find out who he is!"

An aged voice echoed in the sky.

A while later, the tribe finally got some news, not about who raided them but about Tianshen Yan's death.

The Monarchs of the tribe were all silenced.

Although they had expected it, they were still devastated by the news.

"First, the Earthen Monarch wrecks our place, and now a mysterious person raids our treasure vault and kills a Monarch. What's wrong with this era? Why is our tribe so unlucky?"

"It must be the humans! It must be!"

"Yeah! They must be taking revenge on us for what we did to them! Damn it! I'll kill them all!"

"You have no evidence. Besides, now that we are heavily damaged, what are we going to fight the humans with? The other tribes won't allow it either."

The Monarchs were having a heated discussion. They were frustrated and wanted revenge.

However, they did not know who to take revenge on.

Meanwhile, in the Divine Destiny Temple, Chu Kuangren was counting the spoils he got.

The Divine Seal was his biggest reward from the raid.

After he comprehended the crystal stone, the Divine Seal revealed itself to him.

"Divine Formation Seal? This seal is about formation! But now that I'm ranked first on the Formation Leaderboard, this doesn't seem useful... Huh?"

At the thought of it, Chu Kuangren saw the core cultivation technique in the seal, and it intrigued him. "This is not bad."

Chapter 2350 Daoist Vessel, Wine Honorable Ascends To the Monarch Realm, Sect Leader Help!

"Formation Vessel! This core cultivation technique is rather interesting."

Chu Kuangren checked the cultivation technique contained in the Divine Formation Seal and was rather intrigued.

Formation Vessel, as its name suggested, was when the body of one was used as a vessel to carry the formation. The formation could be carved on the body, hence enhancing one's combat capabilities.

That Ultimate-level cultivation technique was a powerful one. It was as powerful as the Thousand Weapon Heart.

Chu Kuangren's formation level was high, and learning the Formation Vessel was nothing difficult. It did not even cost him a lot of time.

The only consideration would be which formation to carve on his body to use the cultivation technique to its full potential, hence enhancing his combat capabilities.

He left Lil Ai to analyze which formation was the best. With her capabilities, she could provide a tailored formation for him in no time.

"Temple Lord."

The Six Eyes Diviner came over.

He looked at Chu Kuangren in hesitance.

He was still curious, so he came to ask for an answer. "Temple Lord, who exactly are you?"

His words silenced the room.

Chu Kuangren did not answer. Instead, he looked at the Six Eyes Diviner quietly. Behind his glimmering eyes was filled with darkness.

The Six Eyes Diviner felt uncomfortable from the stare.

"Temple Lord, if you don't want to talk about it, just forget it."

"No, I was just trying to figure out how you haven't figured it out by now. How are you a Diviner?" Chu Kuangren said.

The Six Eyes Diviner gulped. "Should I have guessed by now?"

"Say my name. You should have an answer already."

"I don't know if I'm right."

"Say it."

"Chu Kuangren..."

The Six Eyes Diviner stared at Chu Kuangren.

The moment he revealed his answer, the light veil on Chu Kuangren's face disappeared, revealing his true face.

He smiled at the Six Eyes Diviner.

"Bingo, you're right."

The Six Eyes Diviner's heart pounded wildly.

It was indeed Chu Kuangren, the first Monarch of the era and the one who possessed almost endless fortune energy and could build the Fortune Kingdom!

He was the Master of Destiny of the generation!

Even though the Six Eyes Diviner already had a hunch, he was shocked when he saw Chu Kuangren's face.

"Alright, then. You shall stay here and deduce the future. If there's anything, tell the Temple Spirit to contact me."

After that, Chu Kuangren disappeared.

The Six Eyes Diviner stared at the spot where Chu Kuangren stood. His mind went blank as he murmured, "He will rule in the future..."

...

The news of the Celestial Divine Tribe's treasure vault being emptied somehow got leaked, and it sparked a huge debate across all tribes in the Infiniverse.

It was the treasure vault of the Celestial Divine Tribe, guarded with tight security and multiple Monarchs watching it at all times.

Who could have emptied the entire vault before their eyes?

All the tribes were afraid and alarmed.

They were afraid that the magical thief would visit them and steal all their treasures.

Therefore, all tribes reinforced their security. Some even named the mysterious thief, calling him the Phantom Thief or God of Thieves.

As for who it was, no one knew.

It became one of the biggest mysteries in the Great Hongmeng Universe.

...

"God of Thieves? Not a bad name."

Chu Kuangren grinned when he heard the rumors.

"Master, the analysis on the formation is out," Lil Ai said.

"Great." Chu Kuangren nodded.

He then carved the suggested combination of formations onto his body.

The formations he carved on his body shone brightly. The formation patterns and restriction seals flickered around it, looking amazing, and the aura they released was shocking.

Time flew by, and a few years passed.

By then, Chu Kuangren had carved nine hundred and eighty-one formations on his body, the limit of the Formation Vessel.

If he used all nine hundred and eighty-one of them together, he would receive a huge boost in power.

His power was already terrifying.

No common Monarchs were his match. Now, with the Formation vessel, he was like a tiger with wings. He could even rival a First Step Monarch with that.

"If I use all my strength, I can beat anyone except the Ultimate Monarchs!" Chu Kuangren was confident.

With that, he exited his cultivation.

He did not do anything in particular in the upcoming months. He spent time with Gu Linglong in the Pan Gu Sect.

He also helped Lan Yu, Shang Honghua, and the others to cultivate.

On top of that, he also took care of the sect's affairs.

...

His time was well spent.

With a large amount of fortune energy blessing the tribe, the sect improved a lot and grew rapidly.

"Bang!"

"Bang!"

Multiple energy explosions erupted in the Pan Gu Sect, followed by a rich aroma of alcohol filling the air.

Everyone who smelled the aroma became drunk, and many cultivators noticed the commotion.

"Oh, he's ascended to the Monarch Realm.'

"This aroma... There's no one other than him."

"Wine Honorable..."

The Wine Honorable stood high on the mountain, laughing graciously.

All spiritual qi in the area gathered above him and formed a cloud, which rained down on him. However, it was not water but wine.

Wine rained down the land, nourishing Mother Earth, and made all beings drunk.

The aroma of alcohol filled every corner of the realm.

The Wine Honorable opened his mouth and drank as much as he could. "This is great! This is awesome!"

He was stuck at Supreme Honorable for many years, witnessing Chu Kuangren, Spatial One, and other youngsters beat him to the Monarch Realm. Due to that, he was depressed and anxious for a while.

Now, he had finally ascended himself.

The depression cleared, and he could bathe himself in endless wine.

At that moment, Chu Kuangren and Lan Yu had come to the mountain as well. Lan Yu was holding an umbrella for Chu Kuangren, shielding him from the wine rain.

Chu Kuangren loved to drink, but he did not want to be soaked in wine.

Gu Linglong would scold him if he went back reeking of alcohol.

"If this continues to rain, my Pan Gu Sect will be flooded," Chu Kuangren said.

"Hahaha! Flooded with wine? That's the best thing that could happen!" the Wine Honorable joked.

Despite joking, he conserved his Monarch aura, and the wine rain stopped.

With the cloud of wine dispersed, the sun shone on the land again.

"Thank you, Sect Leader."

The Wine Honorable looked at Chu Kuangren and called him Sect Leader wholeheartedly. "I could ascend to the Monarch Realm all because of the Pan Gu Sect's fortune energy. From now on, I will serve the Pan Gu Sect with all my heart," the Wine Honorable said seriously.

He might be unruly at times, but he always kept his promise.

"Haha, you make it sound too serious."

Chu Kuangren smiled. He, too, was happy for the Wine Honorable.

The Wine Honorable's ascension was a good thing for the sect. The sect had finally welcomed its third Monarch, and it would surely boost the sect's status.

The Pan Gu Sect was in a celebratory mood for days until one day, Chu Kuangren received a strange message.

"Sect Leader, help!"
