Chapter 2351 Void Prison, Ninth Level, Prepare To Raze The Place

"Sect Leader, help!"

Chu Kuangren was surprised by the message he received.

Who was it from?

At a closer look, it was from the sect, and throughout the entire sect, only a few, mostly the core members of the sect, could contact him directly. "This is... Yang Mei?" Chu Kuangren was more confused than before.

Yang Mei was the oldest being in the Pan Gu Universe, older than the Three Clarities and the Daoist Progenitor, Hong Jun, and was a master of Spatial Dao.

Why would he ask Chu Kuangren for help?

What happened?

Chu Kuangren tried to contact him, but the connection was cut off.

As such, he went to Li Jun to ask about Yang Mei. Unfortunately, Li Jun did not know anything either.

On second thought, Chu Kuangren returned to the Divine Destiny Temple and talked to the Six Eyes Diviner.

The Six Eyes Diviner had the Divine Destiny Seal and the Third Eye, the Ultimate Supreme Treasure of the Six Eyes Tribe.

Since his Deduction Dao was better than Chu Kuangren, he might be able to locate Yang Mei.

After some deduction, the Third Eye on the Six Eyes Diviner's forehead closed. "I saw a black prison floating in nothingness."

Black prison? Nothingness?

Where could it be?

The Six Eyes Diviner said, "Based on my guess, that should be the Void Prison, owned by the Spatial Tribe. It's located in between universes."

"I understand." Chu Kuangren nodded.

In between universes?

If he remembered correctly, there was a Destiny Contract about someone named the Space Emperor, and he, too, was in between universes.

Yang Mei must be trapped in the Void Prison, and the Space Emperor had beef with the Spatial Tribe.

Were they somehow related?

"It seems like I'll have to pay the prison a visit," Chu Kuangren thought to himself.

With that, his figure flashed and disappeared from the temple. In the next second, he reappeared to exit the spatial barrier of the Great Hongmeng Universe and enter the void between universes.

It was a vast void with nothing in sight. It was a chaotic land of the Infiniverse, and if one treaded into that void without sufficient cultivation level, one might be lost forever.

However, the void in between universes held many mysteries since the beginning of time, so the exploration of the void never stopped.

Of all, the Spatial Tribe had the most understanding of the void.

They were masters of Spatial Dao, so the void in between universes gave them a natural advantage.

They even built a prison in the void to hold enemies of the tribe, setting it as an example for the other tribes across the Infiniverse.

"The Void Prison is floating in the void, and it's not easy trying to locate it. I wonder if I can track the Destiny Contract's location."

With that, Chu Kuangren quickly executed his plan.

The Space Emperor had been inside the void between universes for many years. Chu Kuangren believed the man was not here of his own will but was jailed by the Spatial Tribe.

If so, he must be inside the Void Prison as well.

After searching for a while, Chu Kuangren finally located the right direction to go.

...

The Void Prison that floated in the void was actually a high tower with multiple levels. There were many Spatial Tribe cultivators on guard outside the building, and security was exceptionally tight.

On that particular day, Immortal Sparks shone from the void, and a man with light wings emerged.

The guards immediately put on a straight face when they saw the man.

"Spatial One!" The man with the light wings was the Spatial One, the newest Monarch of the Spatial Tribe.

He was the man said to lead the Spatial Tribe to endless glory!

No one dared to disrespect his arrival.

"I'm heading to the ninth level," the Spatial One said as he glanced at the prison.

The guards were surprised by his destination.

The Void Prison held many enemies of the Spatial Tribe. The higher the threat level, the higher the prisoner would be locked.

Originally, the Void Prison only had eight levels, and it was already holding Monarch-level prisoners.

The ninth level was built specifically for one person.

If the Spatial Tribe had to build an extra level in the prison just to hold that particular prisoner, his threat level must be off the charts.

"Yes, sir!"

The guards were curious, but they could not stop the Spatial One from going to the ninth level. Hence, they opened the gates and led the way.

Each level of the prison had countless layers of restriction seals.

The higher the level, the more restriction seals were set.

The restriction seals on the ninth level were strong enough to withstand a Monarch's attack. On top of that, it had all kinds of mechanisms to restrain the target as well.

...

"So this is the Void Prison?"

Someone arrived before the Void Prison quietly.

It was Chu Kuangren. He had located the Void Prison by tracking the Destiny Contract.

"Who goes there?"

A guard spotted Chu Kuangren.

Alerted, he wanted to ring the alarm, but Chu Kuangren subdued him easily.

The guard was crushed into countless shards and scattered into the void.

"Limitless Imitation!"

Just like that, Chu Kuangren transformed into the guard he just killed and strutted into the Void Prison without any hindrance.

The first level of the prison held many prisoners of the Embodier and Primordial Realms.

All of them were shackled with cuffs carved with restriction seals, and all the prisoners were heavily restrained.

"Where would Yang Mei be?" Chu Kuangren muttered.

He asked another guard, "I heard we got a new prisoner lately. Where is he locked up?"

"Oh, you mean that innate being? That guy is like us, a master of Spatial Dao. He's quite well-cultivated. He's currently locked up on the sixth level." The guard spilled the beans without the slightest suspicion.

"What did he do?" Chu Kuangren asked.

He was curious why the Spatial Tribe locked up Yang Mei.

"Huh? Why? We don't need reasons to lock people up. If there's a reason, maybe because he's an innate being, and the higher-ups want to study his Spatial techniques," the guard said casually.

Then, he pointed upward and explained, "You know about the ninth level, right? We're holding an innate being there as well. It's said that his Spatial techniques are so powerful that even the Tribe Leader fears him. The higher-ups have sent many people over to study him over the years."

"I see," Chu Kuangren said with a nod. His eyes, however, were frosty.

It was because Yang Mei was an innate being good at Spatial techniques that the Spatial Tribe captured him and locked him up for study purposes.

As for the one on the ninth level, he already had a hunch who it was.

He should be the Space Emperor, the one who signed a contract with the Divine Destiny Temple.

"I heard the Spatial One is here as well..."

Another guard revealed an interesting piece of information to Chu Kuangren.

However, before he could finish, Chu Kuangren's aura shifted.

He glimmered in Immortal Sparks and reverted to his white robes.

The guards were shocked.

"Who are you?"

"Someone who's going to raze this place to the ground!"

Chu Kuangren smiled as he raised his hand.

The guards were instantly dusted.

Then, he looked at the other prisoners on the first level. He pointed his sword hand sign around and released tens of thousands of sword qi to break them out. All the shackles that restrained them were broken as well.

At that moment, all the prisoners' eyes gleamed with a dangerous glare.

Chapter 2352 Wreck the Void Prison, Slap Black Rage, Save Yang Mei

Chu Kuangren broke into the Void Prison and released the prisoners on the first level.

All the prisoners were delighted.

They had no idea who Chu Kuangren was, but they knew they were finally free from the restraints. They had regained their power and freedom.

"The Spatial Tribe restrained your bodies and sealed your powers, but they can never hold down your free soul! Do you want to stay here and rot or regain your freedom to fight to the end? Make your choice!"

Chu Kuangren's voice echoed across the prison.

Many prisoners who had been locked up for countless years were inspired by his motivational speech. They were aroused and thirsty for revenge.

"Fight!"

"We want freedom!"

"We're born in a free body! Why must we be trapped here?"

"Spatial Tribe, you can never hold me down!"

The speech caused an uproar among the freed prisoners.

The prisoners went after the guards, beating them with punches, kicks, Daoist laws, Primordial energy, and so on.

The prisoners were not particularly strong. In fact, they were weakened after being locked up for so long, but they had the advantage of numbers.

When the warden of the prison noticed the uproar in the prison, his expression turned grim, and he immediately sent his men to suppress the prisoners.

"Ants, how dare you defy the Spatial Tribe? I will show you what we can do!" the warden said with a grin.

He was not overly concerned about the riot.

Ever since the prison was built, almost no one could break out of the prison.

The security of the prison was not just there for decorations.

Besides, the warden was also a powerful Monarch.

Even the one locked up in the ninth level would not be able to escape so easily.

...

Back in the prison, the prisoners of the first level rioted, but Chu Kuangren knew they were not enough to overthrow the security.

He had simply released the prisoners to slow down the guards.

"If the first level isn't enough, let's go with the second," Chu Kuangren said with a smirk.

He made his way to the second floor.

The second floor's security was tighter than the first, but to Chu Kuangren, it was the same.

"Break!"

"I will capture you and cut you with ten thousand Void Blades!" Black Rage grinned.

Then, he stepped forward and unleashed his Daoist law energy.

Rampant energy swept across the floor. It was so powerful that it could kill every prisoner on the sixth level.

"He's dead." The prisoner, who was agitated by Chu Kuangren, gloated at him. It was as though Chu Kuangren was already captured and tortured.

However, Chu Kuangren simply glanced at Black Rage and waved his hand in the air as if he was trying to get rid of a fly.

The power of Daoist law energy was dispersed by his casual slap.

Black Rage, who was deemed powerful by the prisoners, was slapped to death before he could even fight back. All the prisoners were shocked. "A Monarch!"

The man before them was a Monarch.

On second thought, it was only reasonable because if he were not a Monarch, he would not have the confidence to cause trouble here in the Void Prison.

The prisoner who mocked Chu Kuangren had turned pale in the face.

At the thought that he mocked a Monarch, he almost peed his pants.

"Break!"

Chu Kuangren swung his sword hand sign at all the prisoners except for the one who mocked him. All the other prisoners were freed.

The prisoners looked at Chu Kuangren with gratitude and reverence.

"Savior, please tell us your name. If we can escape this prison alive, we'll repay you!" someone said.

"It's fine," Chu Kuangren said as he shook his hand.

After that, he went up to Yang Mei.

Yang Mei asked probingly, "Sect Leader?"

"Who else could I be?" Chu Kuangren said with a smile.

"Sect Leader!" Yang Mei was delighted. He knew Chu Kuangren would come after him, but he did not expect such a huge commotion.

However, given the Sect Leader's personality, it was only normal for him to leave the place in a mess.

"How were you caught?" Chu Kuangren asked.

Yang Mei looked helpless. "I was traveling in the void between universes, searching for Opportunities of Fortune when I ran into the Spatial Tribe. For some reason, they attacked me, captured me, and threw me in here. I managed to send you a message before they confiscated my jade talisman."

"The Spatial Tribe is quite the bully," Chu Kuangren said with a scoff.

As the guard said, the Spatial Tribe simply wanted to study Yang Mei's spatial techniques, so they captured him.

"Sect Leader, are we leaving now?" Yang Mei asked.

"Leave? If we leave now, we would be letting the Spatial Tribe off too easily."

Chu Kuangren was not one who would back down when his people were taken. He ought to teach the Spatial Tribe a lesson they would

Chapter 2353 Void Prison Warden Attacks, Space Emperor And Spatial One, Soul Searcher Needle

"A Monarch has come to the prison and freed the prisoners?"

The Warden of the Void Prison sensed Chu Kuangren's aura when he killed Black Rage, and his gaze turned grim.

Now, Chu Kuangren had released the prisoners on the sixth level, and the Chief on the seventh level would not be able to stop a Monarch either.

As for the eighth level, the Warden was not particularly worried about them.

All the prisoners on the eighth level were powerful, and some of them were Monarchs, so the Spatial Tribe had arranged for extra security to watch over them.

Even a Monarch might not be able to break them out easily.

Nevertheless, the Warden did not underestimate the situation.

The Void Prison had never seen chaos like this before.

If Chu Kuangren continued his act, the whole prison might be incapacitated, and as the Warden, he would be held responsible.

He must stop Chu Kuangren as soon as possible!

With that, the Warden finally made a move.

...

Back in the prison, Chu Kuangren kept Yang Mei in his Pocket Universe and then headed to the seventh level.

The prisoners on the seventh level were all Grand Dao Supreme Honorables. The aura that filled the air was evidently much stronger than the sixth level.

They, too, had noticed the riot happening in the prison, and when they saw Chu Kuangren arriving on their level, their anticipation heightened.

"Fool, how dare you cause trouble at the Void Prison! You must have a death wish!" a cold voice said.

A Supreme Honorable who had manifested his Daoist law glared at Chu Kuangren. Behind him was a group of guards in the Grand Dao Realm.

Still, Chu Kuangren did not take them seriously. "Get out of my way, goons."

He pointed at them and unleashed a wave of Daoist law energy.

One attack was all it took to instill fear in all the guards.

However, before his attack could hit, another powerful Daoist law energy came and canceled Chu Kuangren's attack.

The man who came had a pair of light wings carved with mystical runes. He had black hair and a strict face, and his serious expression spelled brutality.

"Warden!"

"The Warden is here!"

"Now that the Warden is here, that guy is dead!"

"Yeah!"

The man was the Warden of the Void Prison.

"Everyone, you're free to go on a rampage. Raze this place to the ground and take revenge on the Spatial Tribe for locking you up for years and torturing you!"

Chu Kuangren continued to instigate the prisoners, inspiring them to join the riot.

"Kill them!"

"Out! We must get out of this Void Prison!"

"I've had enough of this!"

The prisoners attacked the guards, seized their weapons, and went on a rampage.

A blood massacre broke out as if purgatory appeared in the prison.

Suddenly, the Spatial Daoist energy in the air rumbled and formed a massive black hole in the center of the prison. A massive suction force sucked all the prisoners inside.

Once sucked into the black hole, the prisoners would be ground to death by sheer pressure. Not even the soul could escape!

The Warden emerged from the black hole and glared at Chu Kuangren grimly. "You're going to die here and now!"

The black hole was his Monarch Avatar, and it was extremely powerful.

Not a single prisoner was able to counter him.

Then, he roared and released more Spatial Daoist law energy. A wide domain was summoned to clash with Chu Kuangren's Infinity Domain.

The clash of spatial energy disrupted the void, causing the entire prison to shake.

High up on the ninth level of the prison, white chains were shaken by the commotion.

At the end of the chains was a blonde man in shackles.

Even though the endless torture over the years made him look exhausted, he still had a hint of his majestic look from before.

"Someone is here causing a problem, and it's quite the commotion. Shouldn't the Spatial One go and have a look?"

The blonde man, or the Space Emperor, said to the Spatial One in front of him.

However, the Spatial One was not concerned. He said, "No one can escape the Void Prison. The Warden will deal with it. Now, can you tell me everything you know?"

"Your tribe has interrogated me for years. Aren't you guys tired?" The Space Emperor scoffed.

"This time, I will get what I came for." The Spatial One then revealed multiple purple needles.

The Space Emperor's eyes widened. He looked frightened when he saw the purple needles. "Soul Searcher Needles? You people are working with the Soul Tribe?"

"The Soul Tribe and Spatial Tribe are forming a union through marriage. Asking for a few needles is nothing difficult."

After that, the Spatial One poked the purple needles into the Space Emperor's head.

He performed a set of mystical hand seals, and strange energy fluctuation came from the needles.

The Space Emperor's eyes turned dull and blank.

"Now, tell me where the Void Ruler is."

Chapter 2354 Beat Void Prison Warden, Eighth Level of Void Prison, Controlled Monarch

The Warden summoned his Monarch Avatar and expanded his Monarch Domain together. The combined energy was so strong that the entire prison trembled.

Although Chu Kuangren was caught in the center of the energy, he remained calm and still.

"Die!" Overflowing with murderous qi, the Warden launched a palm attack at Chu Kuangren.

The large amount of Daoist law energy condensed into a beam of light and was fired at Chu Kuangren.

"Bang!"

The barrier in front of Chu Kuangren trembled violently and started to crack.

The barrier lasted for less than a second before it shattered.

The beam pierced through the shattered barrier and went straight for Chu Kuangren.

Chu Kuangren simply slapped the beam away, dispersing it. "Considering you can break through the barrier created by the Infinity Domain, you're quite strong as a Monarch." The Warden was

considered one of the better ones among the First Step Monarchs. After all, the Warden was assigned to watch over the prison holding some of the most dangerous prisoners. He must be pretty powerful to be able to suppress the prisoners. "Void Crusher Seal!" The Warden attacked again.

Endless Spatial Daoist law erupted and formed a massive rune in the air. It shone blindingly as it crashed down at Chu Kuangren.

However, Chu Kuangren remained standing in his spot.

"Limitless, Void Crusher Seal!" he murmured, casting the same technique.

When the two seals clashed, the Warden was shocked.

"How do you know the Spatial Tribe's cultivation technique?"

Before he could recover from his shock, Chu Kuangren's follow-up attack arrived.

"Universal Genesis Pierce!"

The pierce released Universal Daoist law energy that gushed toward the Warden like the rising tide.

The Warden quickly responded with countermeasures.

"Universal Violent Barrage!"

Chu Kuangren followed up with a barrage of punches.

Then, endless sword intent surged, and a massive sword-wielding avatar appeared behind him.

"Sword Twenty-four!"

It was the Divine Sword Palace Ruler's Monarch Avatar.

The power from the slash shook the prison.

The rampant aura shattered even the void.

All kinds of cultivation techniques were used, and all of them contained a massive amount of Daoist law energy.

Even though Chu Kuangren was within the Warden's Monarch Domain, he was still able to use all the cultivation techniques masterfully.

In fact, the Warden's avatar and domain were starting to show signs of defeat.

Everyone was in awe.

Where did this ridiculous Monarch come from?

"Avatar, manifest!"

The sword-wielding avatar was called off, and another Monarch Avatar took form behind Chu Kuangren.

That avatar resembled a beautiful woman. Each move she made exuded a rampant and iron-willed energy, like a tempest whirling across the realm.

It was the Tempest King's Monarch Avatar.

"Tempest Overworld!"

Chu Kuangren cast the Tempest King's technique.

"Kabaam!"

Yin Yang, Thundergale, and all kinds of Daoist law energies were condensed into one strike that unleashed like a storm.

The storm blasted the Warden away.

The Tempest King was indeed powerful.

Even though the Limitless Cultivation's copy of the avatar was not as powerful as the original, it was terrifyingly powerful.

"I'll kill you!" the Warden shouted.

With his hair in a mess, he had lost the demeanor of a Monarch.

As he channeled his energy to the limit, Spatial Daoist law energy surrounded him like planetary rings.

"Void Grand Devouring!"

The black hole behind him expanded, attempting to devour Chu Kuangren.

However, Chu Kuangren barely flinched at the attack and cast the Heaven-devouring Technique.

The spiritual qi in the void, plus the dead guard's Great Dao fragments, were all absorbed into his body.

While his aura rose sharply, the Tempest King's avatar grew stronger as well, as if she were here in person.

The avatar clenched her fist, gathered Thundergale and Yin Yang Daoist law energies upon her, and shot a beam of light at the black hole, crushing it.

The Warden had never been struck so badly before. Blood gushed from his mouth as he was blasted upward, crashing into the eighth level of the prison.

Chu Kuangren quickly followed him to the eighth level.

The eighth level held some of the strongest prisoners in the Void Prison.

When Chu Kuangren arrived, all the prisoners laid eyes on him.

"Such a powerful aura."

"Tsk, tsk. Look at that, isn't that our dear Warden? Why is he being beaten up like a dog? What a scene!"

"Yeah. He had it coming."

All the prisoners gloated at the Warden.

Chu Kuangren glanced at the prisoners. Some were Monarchs, and even under shackles, they still possessed powerful auras.

"I'm here to give you all back your freedom."

Chu Kuangren pointed his sword hand sign at them and shot sword qi at the cells.

However, restriction seals surfaced and blocked his sword qi.

The eighth level's restriction seals were unlike the previous levels, but it did not stop Chu Kuangren.

The Tempest King's avatar threw a punch at the cells.

"Kabaam!"

The whole prison shook violently as if it was being razed to the ground.

As expected, all the restriction seals on the cells were shattered.

All the Grand Dao Supreme Honorables came out with utmost delight on their faces.

To Chu Kuangren's surprise, the Monarchs were still in their cells and showed no signs of leaving.

He had no idea what was going on.

"Monarchs, you have regained your freedom!"

Then, the Warden got up from the rubble.

He was covered in blood, but he remained ferocious and grim. He raised his hand and summoned multiple Monarch's Hearts using his Daoist law.

All the Monarchs, who were unfazed by the regained freedom, widened their eyes at the Monarch's Hearts.

Chu Kuangren's eyes narrowed. He had a hunch about what was going on. "Kill him! Kill him, and I will give you back your Monarch's Hearts! You guys will then be released from the Void Prison! I swear on my Daoist core!" the Warden announced.

Chu Kuangren finally knew why the Monarchs were unfazed by his arrival.

It was because their Monarch's Hearts were controlled by the Warden, who must have used some strange way to take out the Monarch's Hearts without killing them. It seemed the Spatial Tribe was quite capable.

The Monarchs were intrigued by the offer.

Even if they could escape the Void Prison, their lives would depend on the Warden because he could kill them with a thought.

Only by retrieving their Monarch's Hearts could they truly regain their freedom.

"If the Warden swears on his Daoist core, there's no reason for him to go back on his words. Otherwise, he would suffer a huge block in his cultivation."

"Yeah. Kill this person, and we can regain our freedom!"

Multiple Monarchs had their eyes on Chu Kuangren, eager to rip him apart.

The Warden grinned. "I might not be your match, but with so many Monarchs here, how are you going to escape?"

"Escape is another thing, but I'm still capable of razing this place to the ground," Chu Kuangren said.

"Bang!"

One of the Monarchs attacked impatiently. He zipped toward Chu Kuangren like a bolt of lightning and punched forward, unleashing vast Lightning Daoist law energy.

The Tempest King's Monarch Avatar countered with a punch.

"Bang!"

The Monarch was blasted away with blood gushing from his mouth.

"Let's get him!"

The other Monarchs teamed up.

Some used Hongmeng cultivation techniques, some summoned their own avatar, and some used their Monarch Domain like the Warden.

Chapter 2355 Doing His Dirty Work, Monarch Miscalculated, Identity Revealed

When the Monarchs teamed up, their combined aura shook the entire Void Prison.

However, Chu Kuangren was calm and unfazed.

The Daoist law energy around him swirled, and universal energy started to gather upon him.

It was merging with the Heaven-devouring Technique!

As his power level rose higher, Daoist law energy erupted and blocked the Monarchs' attacks.

"Heavenly Human Art?"

"The Heavenly Human Art of the Heavenly Human Sanctuary can only be cultivated by core members of the sanctuary. Is he one of them?"

The Monarchs were shocked.

Chu Kuangren's energy continued to surge and grow stronger.

"You think that's it?" Chu Kuangren chuckled.

Suddenly, his body glimmered in Immortal Sparks and divine light, and the numerous formation patterns on his body released a terrifying energy fluctuation.

It was the Formation Vessel! With more than half of the nine hundred and eighty-one formations on his body activated, his energy surged higher.

"Have a taste of my power!" Chu Kuangren said.

He raised his hand in the air and clenched his fists. As he punched forward, all nine hundred and eighty-one formations on his body shone brightly from being activated.

With buffs from the formation energy, the Daoist law energy, and the universal energy, Chu Kuangren's punch got so powerful that it surpassed all the other Monarchs.

The power was extremely close to an Ultimate Monarch's level.

"Bang!"

The Hongmeng cultivation techniques were smashed, the avatars collapsed, and the domains were dispersed. All the Monarchs were blasted away like ragdolls.

Blood gushed from their mouths as they ended up in a wretched state.

They all looked at Chu Kuangren in awe and confusion.

"What happened? How did his energy level rise all of a sudden?"

"What kind of cultivation technique is that?"

"Damn it! How did he do it?"

Even the Warden, a First Step Monarch, gulped nervously, feeling threatened by Chu Kuangren.

It was the fear of death. "Who are you?" the Warden said with a trembling voice.

He had never heard of such a terrifying Monarch before.

Where did he come from?

Was he a human? Or was he one of the Celestial Divine Tribe? Could he be a dragon?

No one knew who he was.

Chu Kuangren did not answer any of the questions. Instead, he stepped forward and appeared before the Warden. He threw a palm attack, his speed as fast as lightning.

"Bang!"

Blood spurted from the Warden's mouth. The Great Dao in his body was shaken, and his Monarch's Heart was almost crushed.

However, Chu Kuangren did not hold back his punches.

The other Monarchs wanted to help, but one of them held the rest back. "Are you guys stupid? Let him kill the Warden, and we can get our Monarch's Hearts back!"

The others were hit with instant realization.

If the Warden was dead, they could get back their Monarch's Hearts.

"Getting him to do the dirty work, I see."

The others expressed praise for the Monarch who voiced the suggestion.

Chu Kuangren's fight with the Warden had reached the end. When the Warden realized that the Monarchs wanted Chu Kuangren to kill him, his gaze turned grim.

"A bunch of prisoners trying to get rid of me? You can dream on!"

He took all the Monarch's Hearts out and crushed them, absorbing all the energy into his body.

He was forcefully absorbing their Monarch's Heart energy!

The sight of it stunned all the other Monarchs.

They did not expect the Warden to show no mercy.

"No!"

The Monarchs were horrified, but it was too late.

With their Monarch's Hearts crushed, their Great Dao, which was connected to their Monarch's Hearts, started to crumble, followed by their bodies.

Moments later, all the Monarchs died on the spot. The Warden's energy level rose to a terrifying level, almost reaching that of an Ultimate Monarch.

"Now, die!" The Warden roared and used his Monarch Avatar and Monarch Domain together.

The boundless Daoist law energy flooded the entire eighth level.

Having been caught by the energy, some of the Grand Dao Supreme Honorables were crushed on the spot, and their Great Dao crumbled into pieces.

The Warden punched a black hole at Chu Kuangren, who channeled all nine hundred and eight-one formations on his body and countered with a fearless punch.

"Bang!"

The moment their fists locked, the shockwave from the clash damaged the walls of the prison, causing it to crack.

The prisoners and guards were shocked.

"It's so powerful! What is going on?"

"Who is fighting?"

"This energy is terrifying!"

The guards were scared.

The prisoners were concerned but mostly delighted. They wished the Void Prison would be razed to the ground so that they could escape.

Back on the eighth level, Chu Kuangren's fight with the Warden continued.

The Warden channeled his Spatial Daoist law energy, throwing punches and kicks that unleashed the fullest potential of the Monarch Avatar and Monarch Domain.

On the other hand, Chu Kuangren's attacks were elusive and fascinating. He used every technique masterfully and showed no flaws in executing them.

All the attacks he used were extremely powerful.

As they continued to fight, exchanging punches and kicks, the shockwaves from the exchange slowly stripped the light veil off Chu Kuangren's face, revealing his true face.

He did not use Limitless Imitation to transform into someone else as he could only use his powers to the fullest in his true form.

"You're... Chu Kuangren?" The Warden was shocked to recognize Chu Kuangren.

He had never been to the Great Hongmeng Universe, but the prison would receive news from there occasionally, so he knew about the first Monarch of the era.

He did not expect Chu Kuangren to cause so much commotion at the Void Prison.

"What are you doing here?"

"That's an interesting question to ask. You captured my people, and you ask what I'm doing here?" Chu Kuangren snickered, but his gaze turned cold. Since his identity had been exposed, he did not bother to conceal it anymore.

With that, he did not need to hold back as well.

He summoned the Dragonslayer.

The rumbling rage qi filled the prison. Ever since Chu Kuangren ascended to the Monarch Realm, he could use the Dragonslayer more effectively and unleash more of its power.

"Slash!" Chu Kuangren slashed with the saber.

The saber ray and Daoist law filled the space.

The Warden's Monarch Avatar and Monarch Domain were destroyed altogether.

"Splat!"

The Warden even lost an arm to the slash.

Chu Kuangren's gaze remained cold as he quickly followed up with another slash.

Horried, the Warden quickly dodged the second slash.

Chu Kuangren missed the Warden, but the saber ray struck the wall of the prison, leaving a huge crack in the wall.

Chaotic void torrents gushed in, further messing up the already desolated prison.

"Chu Kuangren, the Spatial Tribe will not forget this!"

"The Spatial Tribe is already one of my biggest enemies, you idiot."

From the moment the Spatial Tribe targeted the human race, they had already made enemies with Chu Kuangren.

There was no way they could be on good terms anymore.

If so, why not cause more trouble and deepen the grudge?

Chapter 2356 Spatial One Overpowered, Ultimate Monarch, One Pierce Versus One Slash

"What happened? What caused the commotion?" On the ninth level of the Void Prison, the Spatial One was interrogating the Space Emperor using Soul Searcher Needles, trying to find vital information from his mind. However, the commotion from the lower levels disturbed him, and it put a frosty look on his face. "They still haven't got rid of the one causing the commotion? What is the Warden doing? I think it's time for him to retire," the Spatial One said coldly. "Bang!"

At that moment, the walls between the eighth and ninth levels collapsed, and a person emerged from the rubble. Shrouded in glimmering Immortal Sparks, the Spatial One was forced to narrow his eyes.

Then, the person tossed something at the Spatial One. At a closer look, the Spatial One's eyes widened. It was the Warden's head!

"I suppose you are the Spatial One?" Chu Kuangren said as he looked at the Spatial One. When he saw the blonde man shackled in chains behind the Spatial One, he was intrigued.

"Lil Ai, analyze."

"Right away." Lil Ai started to analyze the Space Emperor. "Master, the purple needles on the Space Emperor's head are related to the soul. It can disrupt and delude one's mind," Lil Ai said.

Chu Kuangren pondered. Disrupt and delude one's mind?

Was the Spatial One trying to excavate information from the Space Emperor?

Since the Spatial One had come here and done it himself, the information must be vital.

"Chu Kuangren, how dare you kill a Monarch of the Spatial Tribe? You're going to die for this!" Chu Kuangren no longer tried to hide his identity. The Spatial One paid close attention to news about Chu Kuangren as well, so he recognized him at first glance. Without wasting time, he channeled Spatial Daoist law energy and attacked Chu Kuangren with it.

The Spatial One was gifted and had once survived a hit from the Tempest King.

Now that he had ascended to Monarch, his powers were much more terrifying. Common Monarchs were no match for him. Unfortunately, he was fighting Chu Kuangren. As the Tempest King said, the firefly would never be as bright as the moon's brilliance.

Chu Kuangren swung a slap forward, unleashing three thousand Daoist law energies.

The Spatial One's Spatial Daoist law energy was easily crushed, and the slap sent him flying away. "W-What?" The Spatial One turned pale.

Before he met Chu Kuangren, he thought his power was on par with Chu Kuangren's.

However, what just happened before his eyes made him question his entire life.

One slap was all it took for Chu Kuangren to send him flying away!

How was it possible?

The Spatial One was drowning in disbelief. As a proud person who could not accept defeat, he channeled more Spatial Daoist law energy and cast his strongest attack. "Void Divine Gale!" Spatial Daoist law intertwined and summoned a storm.

It was so powerful that it could easily obliterate Third Step Monarchs. Still, Chu Kuangren barely glanced at it. He simply swung his saber forward, releasing a saber ray that canceled the void storm.

After the slash, the Spatial One's body was badly injured, and he was bleeding profusely. He was blasted to the walls of the prison, his Great Dao shaken. "I-Impossible! I'm the Spatial One, born from the Spatial Source! I am the future Void Ruler! How could I lose so badly?"

The Spatial One's face was ashen, and he refused to believe it. Both Chu Kuangren and the Spatial One were newly ascended Monarchs, yet their strength difference was heaven and earth apart! Chu Kuangren swung his saber forward for a slash again. This time, he did not aim at the Spatial One but the Space Emperor who was shackled by chains. The slash broke some chains around the Space Emperor, but not all. Before Chu Kuangren could break the remaining chains, a boundless aura arrived from outside the prison.

The Void Prison shook violently, and a void storm gushed in through the cracks and openings. In just a blink of an eye, more than half of the prisoners were dead.

"This aura..."

Chu Kuangren narrowed his eyes. It was an Ultimate Monarch!

Only an Ultimate Monarch could possess that powerful energy.

"Chu Kuangren, causing trouble at the Void Prison is the biggest mistake of your life!" a frosty voice echoed in the void. Divine light shone, and an elderly emerged. As he stepped forward, the void rippled and split to both sides of him, as if even the void was afraid of him.

The elderly man was an Ultimate Monarch and one of the oldest beings of the Spatial Tribe.

"Void Spirit King! You're just in time!"

The Spatial One was delighted to see the elderly. Then, he glared at Chu Kuangren and said, "Kill him! If he isn't killed, he will threaten the entire tribe!"

Even though the Spatial One wanted to defeat Chu Kuangren with his own hands, he knew he could not do it with his current power level. Allowing Chu Kuangren to live would only threaten him more in the future.

Why not borrow the strength of the Ultimate Monarch and eliminate Chu Kuangren?

Such a monstrous Outlier should not be allowed to live.

"Very well!" The Void Spirit King nodded and said nothing else.

He had come specifically for Chu Kuangren's life.

"Ultimate Monarch, huh? Interesting."

Chu Kuangren was eager to challenge one.

He was not afraid of any Monarchs under the Ultimate level.

In fact, he wanted to know how far he was compared to the Ultimate Monarch. "Void Sky Seal Pierce!"

The Void Spirit King condensed Spatial Daoist law energy at his fingertips. The boundless energy was targeted at Chu Kuangren, and there was no escape.

Chu Kuangren felt like the sky was falling on him as he stood before the pierce attack.

He felt as tiny as an ant.

"An Ultimate Monarch is indeed powerful." Chu Kuangren chuckled.

As he wielded the Dragonslayer, his eyes were as frosty as an icy lake. There was no emotion in him, but the saber intent was strong and violent.

Once the nine hundred and eighty-one formations on his body were activated, his body shook and released a boundless and dazzling divine light.

Coupled with the power from the Heaven-devouring Technique and Heavenly Human Art, Chu Kuangren became the strongest Monarch second to the Ultimate Monarchs.

Sensing the surge of Chu Kuangren's aura shocked the Spatial One. In fact, he was jealous.

They had both ascended to Monarch just recently, yet Chu Kuangren was ridiculously powerful! It did not make any sense!

"Sword Twenty-five!"

Chu Kuangren attacked using the saber as a sword. Unmatched sword intent rose into the sky and went on a rampage through time.

Then, a silver-white sword shadow that could cut through time and space shot across the sky and clashed with the Void Spirit King's pierce.

The entire prison shook violently.

Cracks appeared from the ninth level and spread down all the way to the first level.

The Void Prison felt like it was falling apart!

The terrifying aura sent shivers down everyone's spine.

The Void Spirit King frowned and retracted his hand only to see a cut at the tip of his finger, which meant he had been hurt! "This young one

Chapter 2357 You Neglected Someone, Space Emperor Freed, Bring Him Away

The Ultimate Monarchs were extremely powerful as they were at the peak of the Monarch Realms. Chu Kuangren may be powerful, but he had just ascended to the Monarch Realm recently. With all the hidden trump cards he had, most of the First Steps Monarchs were no longer his match. As for the Ultimate Monarchs, he might have a way to counter them too. When the attacks clashed, even with the plethora of buffs and power-ups, Chu Kuangren was pushed back.

The Void Spirit King looked at Chu Kuangren coldly. "I didn't think you could hurt me, but that just proves you're a monster. You cannot be allowed to live."

It was just a cut on the finger, but as an Ultimate Monarch, his body was almost indestructible. Even if he allowed other Monarchs to attack him freely, he would not be hurt.

Yet, his finger was cut during the clash with Chu Kuangren.

It had been countless years since he was hurt, and it fueled his intent to kill Chu Kuangren.

"Hmph. Old man, you think you can kill me?" Chu Kuangren scoffed.

The Void Spirit King snickered back at him. "Chu Kuangren, no matter how many tricks you have under your sleeves, you cannot escape the grasp of an Ultimate Monarch."

After that, he threw a palm strike at Chu Kuangren.

With a bang, the void trembled violently.

Countless runes and restriction seals were unleashed, and endless Spatial Daoist law energy filled every corner of the collapsing prison, forming a seemingly boundless domain.

It was the Void Spirit King's Spatial Domain, which was much stronger than the Warden's Monarch Domain since it was from an Ultimate Monarch.

When the domain expanded, the entire field was locked down by a massive boundary, and Chu Kuangren was pinpointed on the spot.

The Spatial One scoffed. "This is the domain of a Spatial Ultimate Monarch! Even other Ultimate Monarchs can barely rival his domain! Chu Kuangren, you can't escape now!" He wanted Chu Kuangren to die.

"Now, die!" The Spirit Void King raised his hand to gather Spatial Daoist law energy before channeling his strongest attack again to eliminate the threat once and for all.

However, the void started to tremble violently. All the Spatial Daoist law energy that the Spirit Void King gathered at his hand grew restless and volatile as if an external force was affecting it.

Chu Kuangren grinned. "You guys seemed to have neglected someone."

As soon as he said that, a loud howl echoed across the void. "Hahahaha! Spatial Tribe, you people can no longer hold me down!" Boundless Daoist law energy erupted and rumbled the void.

The Void Spirit King and Spatial One's expressions shifted.

They turned around to the Space Emperor and noticed that the purple Soul Searcher Needles on his head had been removed.

The Monarch aura he released grew stronger by the moment, and soon, it started to match the Void Spirit King's domain.

The sudden twist of events put a serious look on the Void Spirit King's face.

"Space Emperor!" The Space Emperor was an arch-enemy of the tribe. It had cost the Spatial Tribe dearly to put the Space Emperor under restraints. Now, the man had broken out of his shackles.

"His Monarch's Heart should be confiscated... Wait, could it be..." A sudden realization struck the Void Spirit King.

All the Monarch prisoners in the prison had their Monarch's Hearts confiscated to make sure they could not escape the prison.

The Space Emperor was no exception to that.

However, the warden had been killed, so the Space Emperor's Monarch's Heart must be in Chu Kuangren's possession. When Chu Kuangren fought the Void Spirit King, he managed to seize a tiny window to return the Space Emperor his Monarch's Heart, thus giving him his powers back.

The Space Emperor's aura grew stronger after he regained his freedom.

At the same time, the collapsing prison finally reached its limit and started to crumble level by level.

All the prisoners seized the chance to escape.

Spatial One, Void Spirit King, and the prison guards responded grimly to the situation.

The prisoners of the Void Prisons were all enemies of the Spatial Tribe. Once they escaped, they would surely go after the tribe for revenge.

Even though the Spatial Tribe was not afraid of them, it would give them quite a headache.

"Void Spirit King, are you happy with this new opponent?" Chu Kuangren said with his hands behind his back. "Crack! Crack!"

The remaining chains holding the Space Emperor broke one by one.

Then, he took a step forward and appeared beside Chu Kuangren. He glanced at the young Monarch who freed him, and a hint of surprise flashed in his eyes. "A familiar presence."

"Space Emperor, are you prepared to clear your debt to the Divine Destiny Temple?" Chu Kuangren said.

The Space Emperor's eyes widened as realization hit him.

"That explains it."

He then looked at Void Spirit King with a wide grin. His blonde hair, which resembled a lion's mane, danced in the air, granting him a majestic presence.

"Void Spirit King, long time no see."

Many years ago, when he stood against the Spatial Tribe, he had fought the Void Spirit King a few times. Now, Void Spirit King was his first opponent after he regained his freedom.

"Space Emperor, you've been locked up for many years. Even if you've gotten your Monarch's Heart back, how much is left in you?" Void Spirit King said coldly.

Without wasting more time, Void Spirit King clenched his fist and released his domain's fullest power.

As Spatial Daoist law energy crashed toward the Space Emperor and Chu Kuangren, attempting to drown them, the power of the blast collapsed and distorted the void.

The Space Emperor channeled the same Daoist law energy. As he narrowed his eyes, he expanded his domain as well.

Two Monarchs who peaked in the Spatial Dao clashed in the collapsing prison. The dazzling Immortal Sparks from the collisions outshone everything in the area.

The clash caused an unprecedented disruption to the void.

Even Chu Kuangren felt the pressure from the side.

Ultimate Monarchs were indeed powerful.

He might be able to rival one, but in order to truly defeat an Ultimate Monarch, he would still have to cultivate to the next level.

He must at least manifest his own Monarch Avatar and Monarch Domain.

"Void Sky Seal Pierce!"

Void Spirit King pointed his finger forward and unleashed his attack at the Space Emperor.

The Space Emperor countered with a punch, causing a powerful ripple in the void.

When the pierce and punch clashed, the Spatial Daoist laws around exploded.

The shockwave pushed both Monarchs back.

While the two of them fought, Chu Kuangren seized the chance to channel his strongest attack. He gripped the Dragonslayer tightly and released his sword intent, which tore through the void.

"Sword Twenty-five!"

He unleashed a slash at Void Spirit King.

"Hmph? Ambush? You're too naive!"

Void Spirit King grunted, and his body distorted in a strange way as he merged into the void, thus avoiding Chu Kuangren's slash.

The slash tore open the void and caused a large amount of Spatial Daoist law energy to leak.

However, the Void Spirit King was unscathed. Even so, Chu Kuangren was not overly bothered. His slash was not to hurt the Void Spirit King but to rip that domain based on the Void Spirit King's Daoist law energy.

"Let's go," Chu Kuangren said with a smile.

He grabbed Space Emperor and contacted the Divine Destiny Temple as soon as he ripped a hole in the domain.

"I'll see you soon."

"Whoosh!"

A blast of light enveloped Chu Kuangren and the Space Emperor from above. When the light faded, both of them disappeared, leaving the Void Spirit King speechless and helpless.

"Damn it! They escaped!"

The Space Emperor was powerful, but after a few exchanges, the Void Spirit King knew that the man had not recovered to his peak.

He was confident that he could defeat the Space Emperor.

Chu Kuangren must have noticed it and decided to flee instead of continuing the fight.

All that was left was the Void Prison, ruined and in shambles.

Chapter 2358 Void Ruler, Infernal Dragon Energy, Mess Things Up

"Damn it!" The Spatial One was furious that Chu Kuangren fled. In fact, he even felt scared to a certain extent.

The power that Chu Kuangren displayed in the prison break was so ridiculously powerful that it threatened the Spatial One.

He started to fear his next meeting with Chu Kuangren.

"Thankfully, I've gotten the information about the Void Ruler. Now, I just have to locate him." The Spatial One's eyes burned eagerly.

If he located the Void Ruler, he would certainly become more powerful.

Then, he would not have to be afraid of Chu Kuangren.

With that thought in mind, he placed all his bets on locating the Void Ruler.

Meanwhile, in the Divine Destiny Temple, Chu Kuangren and the Space Emperor arrived together.

The Space Emperor sized up Chu Kuangren curiously. "So you're this generation's Master of Destiny? Are you human?"

Chu Kuangren's aura was confusing. Even though the Space Emperor was an Ultimate Monarch, he could not see through Chu Kuangren and determine his origin.

"I am." Chu Kuangren nodded. "You saw what I went through to get you out of the Void Prison. I hope you won't let me down."

The Space Emperor nodded. "I know why you broke me out of prison. Don't worry. I'm a man of my word, and I will fulfill the Destiny Contract as promised."

"Great." Chu Kuangren nodded and asked, "What does the Spatial Tribe want with you?"

The Space Emperor's expression turned grave. "The Spatial Tribe locked me up because they wanted to know where the Void Ruler was."

"The Void Ruler?" Chu Kuangren was intrigued.

Just from the name itself, Chu Kuangren knew the person was not easy to deal with.

"That's right. The Void Ruler is the ancestor of the Spatial Tribe, and he's the reason they exist. The Spatial Tribe has been wanting to find him for countless eras to get his power and make the Spatial Tribe the master of the Infiniteverse..." the Space Emperor explained.

The Void Ruler was a name as old as the universe itself.

The man was on the same level as the Human Ancestor, Primal Infernal Dragon, and other ancient beings.

"It has weakened a lot."

The Space Emperor released a sliver of energy.

It was not as strong as a Monarch, which did not fit the image of the powerful Void Ruler.

"When I first got this power, it was really powerful. But after all these years and all the trouble that I've gone through, the power has weakened, and this is all I have left," the Space Emperor said.

Chu Kuangren sensed spatial energy from it, but it was strangely impure. It contained another source of energy in it that was somewhat familiar.

It was the time energy, or in other words, the Primal Infernal Dragon energy!

"Interesting. This is really interesting. What does the Dragon Tribe have in common with the Void Ruler? Why does the Void Ruler have the Primal Infernal Dragon energy in him?" Chu Kuangren was interested. It seemed he had gained a lot from the prison break.

Not only did he save Yang Mei, but he even got Space Emperor out, which could be a great assistant to him.

He even got to know about the Void Ruler and the connection he shared with the Primal Infernal Dragon.

"How did you get this energy?"

"To be honest, I don't know. I got into danger when I entered the Spirit World, and while I fled, I got into a mysterious place. I managed to flee the Spirit World, but I realized the energy was already with me."

Now that he recalled the process, the Space Emperor found it strange as well.

While Chu Kuangren pondered, the Space Emperor asked, "Master of Destiny, now that the Spatial Tribe has gotten the location of the Void Ruler, what are you planning to do?"

The Spatial Tribe was Chu Kuangren's enemy. Now that he had found out about the Void Ruler, he could not just sit back and allow them to seize the power to grow stronger.

His involvement was inevitable.

The Space Emperor was curious as to what he would do too.

"Let's just mess things up first," Chu Kuangren said.

"You're saying..." The Space Emperor's eyes gleamed with interest.

"We leak the news of that Spirit World and attract more attention. The Void Ruler is a Source Being, and I believe his existence will attract actions from other forces," Chu Kuangren said with a smile.

The Human Ancestor, Primal Infernal Dragon, and Void Ruler were all Source Beings, so the other forces would not let it slip just like that.

After all, they would not want the Spatial Tribe to grow stronger either.

Chapter 2359 Soul Tribe And Spatial Tribe's Discussion, Hun Meier, Spatial One's Confidence

"What? The Void Ruler?"

The Celestial Divine Tribe Leader bolted up in shock. He looked at the jade talisman in his hand in disbelief. "The Source Being has appeared?" He had a hard time believing it.

The Void Ruler was a Source Being from ancient times, so he would at least be an Overlord. The slightest blessing from him would be a huge Opportunity of Fortune.

"The Spatial Tribe is really lucky that their Source Being has appeared! As for our founder, the Celestial Divine Ruler, we don't even know whether he's alive or dead," the Celestial Divine Tribe Leader lamented.

The Celestial Divine Ruler was the founder of the Celestial Divine Tribe, but like other Source Beings, he had disappeared for a long time.

There were only so many records of the Source Being in the Celestial Divine Tribe, and they had no idea if he was still alive.

"Wait a minute. If the Void Ruler is in that Spirit World and someone got inside and received a huge Opportunity of Fortune, it might be for us as well," the Celestial Divine Tribe Leader thought to himself.

There were debates about whether the Void Ruler was in that Spirit World, but from the news he had gotten, there must be huge Opportunities of Fortune in the Spirit Worlds.

The Celestial Divine Tribe had gone down the hill lately. They were raided by the mysterious thief and had lost their entire treasure vault, so they were in dire need of replenishing their resources.

The Spirit World might be a great chance.

Why would they let the chance go to the Spatial Tribe and not get it for themselves?

With that in mind, the Celestial Divine Tribe Leader started to gather a team of trusted men.

Meanwhile, the Elder Dragon King got the news as well.

"The Void Ruler? Interesting. Based on the records of the Dragon Tribe, the Primal Infernal Dragon once had an astounding battle with him. "Now that the clues of his whereabouts had appeared, would the Spirit Worlds hold secrets of the Primal Infernal Dragon as well? Even if there are no secrets, we might find a clue or two," the Elder Dragon King thought to himself.

He, too, gathered the elites of the tribe to form an expedition team to explore the Spirit World.

Other than the Celestial Divine Tribe and Dragon Tribe, some ancient tribes also responded to the news. They all wanted a share of the big pie. ...

"Damn it! Damn it!" Furious, the Spatial Tribe Leader unleashed his Spatial Daoist law energy to vent his emotions, shaking the void around him.

Their acquaintance also brought the Soul Tribe and Spatial Tribe closer, and they eventually got engaged.

It was by using his relationship with the Soul Tribe that the Spatial One got the Soul Searcher Needles to use them on the Space Emperor.

"Spatial Tribe Leader, I'm here today because of the Void Ruler." The Soul Tribe Leader noticed the Spatial One and Hun Meier's flirtatious gaze at each other. He knew what young people were thinking, so he pulled the Spatial Tribe Leader aside for a discussion.

The Spatial Tribe Leader nodded. "I'm aware of that. I need the help of the Soul Tribe."

"Spatial Tribe Leader, you don't have to ask so politely. However, many pairs of eyes are currently on you, and the Soul Tribe dare not make a reckless move."

"I know this might put the Soul Tribe in a difficult position, so I have prepared something for your trouble. Please have a look."

The Spatial Tribe Leader tossed a Yin and Yang Ring to the Soul Tribe Leader.

Even though the two tribes would be united soon through the Spatial One and Hun Meier's marriage, the Soul Tribe would never help for free. When the Spatial One asked the Soul Tribe for the Soul Searcher Needles, he paid them a handsome price.

The Soul Tribe Leader took the Yin and Yang Ring and glanced at it before a contented smile broke out on his face. "Spatial Tribe Leader, you really are kind. We'll be one soon. No matter how difficult this matter is, we Soul Tribe would never sit back and do nothing."

The Spatial Tribe Leader smiled but cursed to himself. The Soul Tribe would always agree to help, but they would always ask for a reward.

"I'm grateful for the Soul Tribe's assistance. Don't worry. When we get the Void Ruler's powers, I assure you that the Soul Tribe will be our equals in this era. We will both enjoy the fortune of this era and rule over the Infiniverse!" the Spatial One said confidently.

Hun Meier looked at him with admiration. "I believe you can do it. I will be waiting for the day to come."

"Princess, don't worry. I won't let you down."

After the brief discussion, the Soul Tribe Leader and Hun Meier left.

On the way back, Hun Meier yawned and grumbled, "It's really tiring acting in front of that arrogant fool. Rule over the Infiniverse? Him? Father, I think we should reconsider my marriage and the union of both tribes."

"The Spatial One is born from the Void Source and possesses unlimited potential. He is certainly worth our time," the Soul Tribe Leader said.

However, when he recalled the Spatial One's recent performance, he had second thoughts. "But his personality and abilities might not meet our expectations. Meier, you are to go with him to search for the Spirit World and keep an eye on him."

"I understand..."

Chapter 2360 Gather At Green Sky Island, Infernal Dragon Zhu Yang, Six Eyes Ming Wuduan

The news of the Void Ruler's possible appearance spread across the Great Hongmeng Universe like wildfire, and it was all because of Chu Kuangren pulling the strings from the dark.

He had used the Divine Destiny Temple to accumulate a lot of power, but he had never used it before. Spreading the news was not difficult for him.

Back in the Pan Gu Sect, Chu Kuangren was resting and recuperating.

After breaking in and out of the Void Prison, albeit not hurt, he had consumed quite the energy during the battle with the Warden and the Ultimate Monarch.

"I've recovered..." Chu Kuangren opened his eyes. Based on his calculations, although his speed of recovery was incredible, he needed at least a few years to recover the consumed energy.

Yet, to his surprise, he recovered to his prime in just days.

Even he was surprised by the recovery speed.

"Is this because of the Human Ancestor's body?" Chu Kuangren thought to himself.

The Human Ancestor's body was mystical and profound. Other than providing Chu Kuangren with amazing cultivation gifts, even his recovery speed was greatly boosted. It was truly a unique gift.

"Now that the entire Great Hongmeng Universe knows about the Void Ruler, if everything goes well, the human race might make the first move," Chu Kuangren thought to himself.

A while later, the Tempest King came to him with the matter.

"Honorable Teacher, there are rumors about the Void Ruler appearing soon. After a talk with the Human Empress and Earthen Monarch, we've decided to send a group of people out to investigate."

The human race might be the masters of the realm, but even they dared not underestimate a Source Being like the Void Ruler, a being on the same level as the Human Ancestor.

"Sure. I'll go have a look as well."

Chu Kuangren nodded.

He had messed things up by leaking the news, but he was still interested in the Void Ruler and the Primal Infernal Dragon energy that it contained.

He wanted to find out the relationship between those two.

...

Multiple streaks of light flew across the vast ocean and hovered above an island.

The island's name was Green Sky Island. People arrived on the island not because of the island itself but because of a Spirit World connected to the island.

"Based on the information I got from the Space Emperor, the Heavenly Void Spirit World is located on this island," said the Spatial One with a hint of anticipation.

He had brought a number of his tribesmen, including Kong Chunyuan, the Monarch Seed, and a few other Monarchs.

Due to how important the Void Ruler was, he was given authority to mobilize the Monarchs.

Other than the Spatial Tribe, the Soul Tribe came as well, and the leader of the group was Hun Meier.

"A great one!"

Zhu Yang did not dodge the attack.

His blood boiled, and his dragon qi erupted. His eyes gleamed as he released the Infernal Dragon Breath.

When the palm strike and dragon breath clashed, both of them were pushed back.

The Spatial One looked at Zhu Yang in surprise. "Oh, as a new generation Monarch, you are quite decent for being able to take my attack." "Hmph. Is the Spatial One only capable of bluffing?" Zhu Yang scoffed.

"Pissing me off will do you no good," the Spatial One said with narrowed eyes that revealed his intent to kill.

Their auras clashed and Daoist law energies collided, causing a tsunami on the sea.

Everyone was intrigued by their argument.

"Are they going to fight?"

"The Infernal Dragon versus the legendary Spatial One. Their fight will be legendary!"

"You're right."

Even Hun Meier's interest was piqued.

"Spatial One, be careful!"

She did not miss the chance to add oil to the fire. The Spatial One's aura erupted when he heard Hun Meier. He was ready to fight Zhu Yang.

"Bring it on!" Zhu Yang was also eager to fight the Spatial One.

However, before they could throw punches at each other, a voice stopped them.

"Stop it!"

A white-robed young man appeared and said, "We're here to search for the Heavenly Void Spirit World. Why not put your grudges aside and focus on the common goal?"

Everyone was surprised by the young man's intervention.

"Who is he? He sure has the nerves to stop two Monarchs from fighting."

"Look at him. His eyes are closed."

"Closed eyes... Could he be a Six Eyes?"

That was when the realization struck.

Legend had it that the Six Eyes Tribe was born from the Destiny Great Dao, and their eyes with six pupils would never open easily, which became their signature of sorts.

"Six Eyes? Interesting. Name yourself," the Spatial One said.

"Six Eyes, Ming Wuduan," said the young man.
