Chapter 2371 Destroying the Spatial One's Avatar, Ming Wuduan's Action

The Limitless Transformation Technique allowed Chu Kuangren to copy all kinds of cultivation techniques.

It also allowed him to imitate any living being to perfection, including the Monarch Avatar.

As his mastery of the technique grew, the more skillful he got. Copying other people's Monarch Avatar was easy.

On top of that, he could copy more than one Monarch Avatar and summon all of them at once.

He could summon as many as he wanted, and it was not an exaggeration.

If he copied enough and had enough cultivation base, he could summon tens of thousands of Monarch Avatars at one time and become his own one-man army of Monarchs.

It was a terrifying technique.

Even the Spatial One, who had gotten the buff from the Void Ruler, was shocked by the majestic scene.

It was far beyond his comprehension.

"It's the Limitless Transformation Technique!"

The Void Ruler's gaze turned grim. "The Human Ancestor is dead, but his descendant has managed to inherit his cultivation techniques.

Other than the Human Ancestor, the Void Ruler had never seen anyone else use the Limitless Transformation Technique before.

Not only him but all the Source Beings from his generation believed it was a cultivation technique unique to the Human Ancestor.

As for the others, even the Overlords or Primals could never master it.

There was a saying back in his generation — one man could transform into all and overpower all tribes.

That man would be the Human Ancestor!

The Human Ancestor was powerful, and his Limitless Transformation Technique was scary.

"The Human Ancestor is dead, and his cultivation technique should be extinct! It shouldn't exist anymore!" The Void Ruler's intent to kill Chu Kuangren intensified.

Feeling the Void energy in him grow stronger, the Spatial One knew the Void Ruler wanted him to fight Chu Kuangren.

"Fight me!"

With that, the Spatial One attacked without any hesitation.

The avatar behind him swung its fists in a barrage, releasing Spatial Daoist law energy like the raging tide.

Each splash of energy could destroy the universe.

Chu Kuangren, on the other hand, smiled.

With a single thought, all the avatars released dazzling divine light and attacked.

The Celestial Divine Avatar punched with Celestial Divine Light, piercing the void with its energy.

The Black Hole Avatar distorted the void with its suction force.

The Divine Sword Avatar swung the galactic sword that could cut through space.

"I need more power! I need more power to destroy Chu Kuangren!"

He put his hands on the altar and channeled his Infernal Dragon energy, absorbing even more energy into his body to boost himself.

"Hahaha! Nicely done!" the Void Ruler said with delight.

As Zhu Yang absorbed the altar's energy, the Void Ruler felt much lighter. The anticipation of breaking out of the seal rose in his heart.

"Bang!"

Unfortunately, a crimson light erupted from Zhu Yang's body.

His body was engorged, and dragon blood splattered everywhere. He cried in pain as the dragon qi in his body leaked.

"Is he at his limit already?" the Void Ruler said contemptuously. "He's an Infernal Dragon but not Primal. He only has the bloodline."

"Roar!"

Following an excruciating roar, Zhu Yang's dragon blood went out of control and knocked him out.

"Swoosh!"

Multiple Dragon Tribe cultivators arrived.

They looked at the unconscious Zhu Yang on the ground with a grim look. After a brief check on Zhu Yang, they realized he was still alive, and they all breathed a sigh of relief.

"We must leave now."

"We must keep Zhu Yang alive."

He was the rare Infernal Dragon and already a Monarch, so he played a vital role in the Dragon Tribe.

"Dragon Tribe, when I am free, I will kill all of you first before I go after the human race!" the Void Ruler said coldly as he watched the Dragon Tribe cultivators bring Zhu Yang away.

He then looked at the altar that sealed him and tried to figure out a way to break out.

Unfortunately, the altar was still indestructible even though Zhu Yang had absorbed some of its power.

The Void Ruler was sealed for eons, and his energy was diminished to a pathetic level. There was no way he could break free on his own.

"Damn it! Damn it! If I can't break through, this seal will drain my energy and grind my body to nothing!" the Void Ruler said angrily.

The seal had finally seen a crack, yet the Void Ruler could not break free with his powers alone, which devastated him.

"Void Ruler, I might have a way to help you."

Someone else came.

It was Ming Wuduan and the Six Eyes Tribe.

"Six Eyes Tribe? You guys remind me of someone I hate," the Void Ruler said coldly.

"Are you referring to the Master of Destiny?" Ming Wuduan asked.

"It seems like the Divine Destiny Temple is still around, but I believe the Master of Destiny has gone through multiple generations," the Void Ruler scoffed.

"Indeed. Void Ruler, have a look at this."

Ming Wuduan nodded and then showed the Void Ruler a talisman token.

Chapter 2372 Void Ruler Break Out of the Seal, All Ancient Monarchs Moved Out

"The Reversal God's Order?"

The Void Ruler was surprised to see the talisman token that Ming Wuduan showed him. "Haha! It seems like the Reversal God has prepared for this."

He grabbed the talisman token.

Originally, no external energy could enter the seal because of its integrity, but after Zhu Yang absorbed a portion of the energy, the seal was cracked.

It was through the crack that the Void Ruler obtained the Reversal God's Order!

The moment he got the talisman token, he crushed it and released the massive energy from within.

The released energy was the Fate Reversal energy, and it wreaked havoc across the field.

The Void Ruler growled and released his own Void energy.

The two energies intertwined and attacked the dragon blood altar.

Meanwhile, after the Spatial One's avatar was crushed, he looked at Chu Kuangren in disbelief. "W-Why are you so strong?"

He refused to believe there was someone so outrageously powerful.

The power, the cultivation, and the techniques — no aspects of Chu Kuangren could be measured with common sense. The Spatial One was born from the Spatial Source and had the potential to reach the Overlord Realm in the future, yet he was suppressed by Chu Kuangren over and over again.

He refused to accept it.

"You're born in the wrong era," Chu Kuangren said calmly, with his hands behind his back.

The Spatial One was indeed talented. He was born from the source and had the potential to surpass all Monarchs. If he were born in the previous era, he would have overpowered all in the era and gained the fortune energy of the era to become a monstrous presence.

However, he was born in this era — the era of Chu Kuangren!

Other sky-prides and Prodigies were merely stars, complementing the sun, which was Chu Kuangren.

When the sun shone, no matter how bright the stars were, they would never outshine the brightest. The Spatial One was a star, a bright one, but he was still just a star.

"No, no! I refuse to accept it!"

The Spatial One, his eyes bloodshot, released powerful Spatial Daoist law energy that distorted the void. However, his Daoist law suddenly deteriorated rapidly.

"What happened?" The Spatial One was shocked.

The buff from the Void Ruler had disappeared!

Chu Kuangren sensed the deterioration as well. He looked further away, his eyes narrowed. "Oh, it seems like I've underestimated you people."

"Bang!"

An intense Spatial energy fluctuation erupted.

The thought put a big smile on his face.

In the Manifa Destiny Sect, the Manifa Forefather had the same thought as well.

"Tempest King, you took my position, so now you will have to deal with the Void Ruler. And Chu Kuangren, you've wreaked havoc in the Void Prison and made an enemy with the Spatial Tribe. I'd like to see how you'll get out of this."

A wide grin hung on the Manifa Forefather's aged face.

He believed Chu Kuangren, who was not even an Ultimate Monarch, could never stop a Source Being like the Void Ruler. No matter how weak the Void Ruler was, he should not be underestimated.

At the Heavenly Buddhist Pure Land, the Buddha Emperor sighed. "Manifa Forefather, Heavenly Saint, fame and power are just temporary, yet you two are still obsessed with it."

He wore a kasaya and wielded a crystal scepter. As he walked forward, golden lotuses bloomed in his trail. He, too, made his way to the Heavenly Void Spirit World.

The Spatial energy fluctuation had reached the Devil's Territory as well.

The unpredictable Devil King sensed the Void Ruler's energy presence, and it put a serious look on her face. "This one is much more troublesome than the Doomsday Darkness, and it's faster than I thought. "The little one might not be able to handle this. I think I have to go support my little ally."

She wielded the Devil's Edge and entered a darkness vortex.

"Roar!"

A dragon's roar echoed across the sky. A golden elder dragon rose from the deepest part of the Dragon Tribe, releasing domineering dragon qi that was more powerful than the Elder Dragon King.

That would be one of the oldest Dragon King.

"Elder Dragon Wudao!"

"For countless eras, he had never shown himself. What woke him up?"

"It must be the Void Ruler!"

Countless dragons were in awe.

The roar of Elder Dragon Wudao echoed across the entire Dragon Tribe.

"All Dragon Tribe, activate the defensive formation and be battle-ready!"

"King Wudao, what are you trying to do?"

The current Elder Dragon King had his guesses, but he needed more confirmation.

"I'm going to kill the Void Ruler!"

Elder Dragon Wudao's roar shook mountains and rivers.

He jumped into the sky and headed to the Heavenly Void Spirit World.

The Void Ruler was sealed by the Primal Infernal Dragon. Hence, once the Void Ruler broke free, the Dragon Tribe would be the main target.

The ancient Dragon King could not just sit back and do nothing.

Chapter 2373 Tempest King Arrives, Not Just Her, There's Us Too

The awakening of the Void Ruler startled all the ancient Monarchs.

With his awakening, the whole Great Hongmeng Universe fell into turmoil.

Inside the Heavenly Void Spirit World, the Void Ruler's energy continued to surge.

"He has broken out of his seal."

Mingyue Wuxia looked at the dragon blood altar with a grim look.

High in the sky, Chu Kuangren looked down with a frosty look and his hands behind his back. Immortal Sparks surrounded him, but he wore a serious expression, which was rare.

"You people are much more capable than I thought."

The Void Ruler breaking out of the seal was not expected.

The seal was not easy to break; not even an Ultimate Monarch could do it.

Some higher power must have intervened and released the Void Ruler.

As the Void energy fluctuation grew stronger, a pillar of light burst from the dragon blood altar, and a white figure emerged from it.

The man had white hair and a pair of light wings.

The light wings were surrounded by dazzling Immortal Sparks.

His aura was one with the void of the world. Every move he made carried an indescribable aura and energy that made all living beings tremble.

Some Grand Dao cultivators with sharp senses noticed that the Spatial Great Dao in the space between Daos started to tremble as if it was resonating with its ruler.

It must be resonating with the Void Ruler!

"How many eras has it been? I'm finally free. Primal Infernal Dragon, you've lost!" the Void Ruler said with his hands open.

His aura expanded and shook the entire Spirit World.

He did not move, but his aura alone was powerful enough to overwhelm all the Monarchs at the scene.

The Void Ruler and the other Monarchs were on two different levels.

"Hail Void Ruler!"

The Spatial One knelt on the ground.

The other Spatial Tribe cultivators also knelt with a hint of zeal on their faces.

They were more excited than the others at the scene.

As the Source Being of the Spatial Tribe, the Void Ruler's return held a significant meaning. They might even overpower this era and countless eras to come with their ruler back.

"Spatial Tribe, the tribe that I created! On your feet! Your ruler is back! From now on, the Spatial Tribe will bask in endless glory, and all beings will kneel before you," the Void Ruler said.

His tone was calm but indubitable.

Upon hearing that, the Spatial Tribe cultivators were thrilled.

"Void Ruler, this man wreaked havoc at the Void Prison and is the tribe's arch-enemy! Please destroy him!" the Spatial One said as he pointed at Chu Kuangren.

The Void Ruler looked at Chu Kuangren and narrowed his eyes. "Human Monarch, tell me where you got the Limitless Transformation Technique."

Even without the Spatial One's request, the Void Ruler would never spare Chu Kuangren.

A young Monarch who mastered the Limitless Transformation Technique possessed unlimited potential, and he might grow into the next Human Ancestor, which would be a threat to the Void Ruler.

"That's none of your business," Chu Kuangren said.

"Fine. I'll investigate after I kill you."

The Void Ruler pointed at Chu Kuangren. His fingers contained intense and boundless Spatial Daoist law energy. Its power was so strong that Chu Kuangren felt like he was surrounded by countless planets trying to crush him.

The void collapsed silently around him.

Chu Kuangren dared not be careless this time either. He activated all the formations on his body and channeled the three thousand Daoist laws. He even summoned the Dragonslayer in his hand.

His sword intent rose sharply, and he cast his ultimate sword technique — Sword Twenty-five!

Sword Twenty-five clashed with the Void Ruler's pierce.

The moment they clashed, endless energy exploded and shattered the void in the Heavenly Void Spirit World like a mirror as the energy shockwave rippled.

All the shattered void also reflected Chu Kuangren and the Void Ruler like a mirror.

Under the impact, Chu Kuangren was blasted away. His bones cracked as if they were broken.

"Void Ruler, you're indeed powerful," Chu Kuangren muttered.

The Void Ruler had just broken out of his seal and was severely weakened, yet the power he possessed far surpassed a common Monarch.

Chu Kuangren had fought the Void Spirit King before, an Ultimate Monarch, but the man was nowhere close to the Void Ruler's level.

"So, is this the power of an Overlord?"

"Even though his power has weakened, he still has the power to overwhelm everything. I like that," Chu Kuangren murmured.

One day, he would grasp the same or even greater power.

"You blocked my attack? Human Monarch, you really are something. You've surprised me," the Void Ruler said.

The stronger Chu Kuangren was, the more intense the Void Ruler's murderous intent.

The Daoist law energy around him erupted and opened a massive crack in the void behind him.

From inside, a terrifying Spatial Dao energy erupted.

The crack was actually a portal connecting directly to the Spatial Great Dao, and the Void Ruler was drawing energy from the Spatial Great Dao!

It was the Unlimited Great Dao Monarch's technique!

Up until now, Chu Kuangren had only seen it on the Doomsday Darkness, but it was not surprising that the Void Ruler could do the same.

As an ancient Source Being, the Void Ruler might be stronger than the Doomsday Darkness. Hence, it was only normal that he could use the same technique.

"Go!"

The Void Ruler pointed his finger forward again.

However, the pierce was stronger than the previous one, and the Unlimited Great Dao energy that it contained was fearful.

Chu Kuangren narrowed his eyes and activated the Infinity Domain.

The Spatial Daoist law energy was used to form spatial barriers in front of him, attempting to block the Void Ruler's piece.

"Using Spatial energy in front of me? How foolish!" the Void Ruler scoffed.

"Bang! Bang! Bang!"

The barriers did not even last a second before they were destroyed one after another.

The pierce energy had locked onto Chu Kuangren, and there was no way he could escape.

At the same moment, another domineering Daoist law energy erupted, and a massive ball of energy was hurled forward.

Thundergale, Universal, Yin-yang, and all kinds of Daoist law energies were contained inside.

"Bang!"

The ball of energy clashed with the Void Ruler's pierce energy.

The moment the two energies collided, it caused an intense energy storm.

Chu Kuangren was pushed away by the storm.

Then, he grinned. "She's here."

"Oh?"

Intrigued, the Void Ruler looked at the distant sky.

A feminine figure in elegant robes, with iron-blooded and intense qi, had arrived. Her unrivaled valiant look captured everyone's attention.

"You must go through me before you can hurt my Honorable Teacher."

It was the Tempest King!

She arrived before Chu Kuangren. With a swing of her sleeve, the spiritual qi in the entire Spirit World was absorbed into her body, boosting her cultivation level higher.

She managed to surpass the Ultimate Monarch and showed signs of reaching the Unlimited Great Dao Monarch Realm.

The surge of energy surprised the Void Ruler.

He chuckled, and his gaze remained proud as he said, "Petty Monarch, you are nothing to me."

"She's not the only one. There's us too!"

A frosty voice echoed across the sky.

Multiple powerful auras arrived and shook the heavens. Auras that surpassed common Monarchs erupted.

Chapter 2374 Adjudicators Arrive, Buddha Emperor Arrive, Fight Void Ruler

Golden rain nurtured the land and brought life to all beings.

Then came a woman in yellow robes, holding a paper umbrella, with mystical Daoist law energy around her.

"Kakroom!"

The earth trembled as mountains rose from the ground.

Terrifying earthen qi rumbled as though an earthen dragon was awakening.

A towering figure emerged and strutted forward.

It was the Human Empress and Earthen Monarch.

Along with the Tempest King, all three Adjudicators of the Human Supreme Council had arrived.

"Hmph. Two weaklings," the Void Ruler said after a contemptuous glance at the Human Empress and Earthen Monarch.

Weakling?

Chu Kuangren was intrigued by what the Void Ruler called the Adjudicators.

It seemed like the Human Empress and Earthen Monarch had yet to recover from the fight with the Heavenly Sovereign.

However, as the Adjudicators, they must see to the situation themselves.

"Human Empress, Earthen Monarch, I'm here to help."

Dazzling Buddhist light shone from the sky, and a holy and peaceful aura blanketed the field.

The Buddha Emperor emerged from the holy light.

He wielded the crystal scepter and stood beside the Human Empress and Earthen Monarch.

"Master, you're here."

The Human Empress nodded. She was not surprised by the Buddha Emperor's arrival.

Even though she voted for the Tempest King during the election, the Buddha Emperor was a merciful person. He could not just sit back in the face of a crisis against the human race.

As for the Heavenly Saint and Manifa Forefather not showing up, it was expected as well.

"Hmph. How cowardly. Trying to benefit from the conflict."

The Human Empress had nothing but contempt for the two of them.

"Hahaha! So you people are the strongest humans. In that case, I shall use your blood to announce my return to this universe!" the Void Ruler shouted arrogantly with an unrivaled presence.

His vast Spatial Daoist law energy erupted, sweeping away all the Monarchs.

Other than the Human Empress, Earthen Monarch, and a few other powerful ones, all the other cultivators and common Monarchs were forced to leave the battlefield.

"The Void Ruler is terrifying!"

"This is beyond us! We can't handle this!"

"This is scary!"

The Human Empress, Earthen Monarch, Buddha Emperor, and Tempest King reacted grimly to the situation.

The Human Empress channeled her Creation Daoist law energy and pushed the energy forward, forming an endless river.

At the same time, the Earthen Monarch channeled the earthen qi and blasted tens of thousands of mountains forward.

The two attacks flanked the Void Ruler from left and right.

The Void Ruler grinned without any intention to dodge them.

"That's it?"

The Spatial Daoist law energy around him converged into a massive hand and countered the attacks.

The mountains were crushed, and the Creation River was pushed back.

The two ultimate attacks of the Adjudicators were ineffective against the Void Ruler.

"Grand Dragon Elephant Force!"

This time, the Buddha Emperor attacked

He was surrounded by endless sanskrit runes that transformed into a dragon and an elephant.

The dragon roared, and the elephant trumpeted, shaking even the stars.

The Grand Dragon Elephant Force was vast and boundless.

It was even slightly stronger than the Human Empress and Earthen Monarch's attacks since they were still recovering while the Buddha Emperor was in his prime.

The Dragon Elephant Force was blasted at the Void Ruler.

"A Buddhist technique? Too bad. If it's the source of all Buddhism, it might be a little interesting, but you're not the source, and you will be destroyed!"

The Void Ruler grunted coldly and channeled his Daoist law energy. The Unlimited Great Dao energy was blasted forward, crushing the dragon and elephant projections into pieces.

The energy continued forward at the Buddha Emperor.

The Buddha Emperor was shocked. He quickly channeled his Buddhist light to form a Buddha's avatar behind him.

The avatar countered with its palm strike, trying to block the vast Spatial energy.

Unfortunately, the moment the palm and the Spatial energy collided, the palm cracked.

The avatar could not block the Spatial energy at all.

At the critical moment, multiple Daoist law energies were blasted at the Spatial energy.

It seemed the Tempest King had intervened.

A massive explosion later, the Tempest King and Buddha Emperor managed to block the attack, but the powerful blast sent them flying away with blood gushing from their mouths.

"He's really powerful!"

As the Buddha Emperor's Buddhist Light dimmed, he widened his eyes in shock.

The Tempest King wiped the blood off her mouth and forcefully cast the Heaven-devouring Technique again. She absorbed even more energy to boost herself stronger.

She looked eager for battle.

"No matter how strong he is, we must fight!"

"You're right!"

The Buddha Emperor's Buddhist Light shone once again, and countless sanskrit runes circulated his kasaya, ready to be blasted at his target.

"Chu Kuangren cannot die. He possesses endless possibilities, and he will be the pillar of support for the human race. Even if we have to reverse our Great Dao, we must protect him," the Human Empress said.

She was ready to give her life away.

Although the Earthen Monarch hesitated, he quickly made up his mind.

After observing Chu Kuangren for a while, he could see the talent and possibilities in Chu Kuangren. The young Monarch did indeed have the potential to support the entire human race.

"This era is undergoing a huge shift. Our powers might have been able to protect the human race before but not in this era. We are at our end, and he still has unlimited potential. You're right. Even if we have to reverse our Great Dao, we must protect him," the Earthen Monarch said.

The two Adjudicators had made up their minds.

Chu Kuangren narrowed his eyes when he heard them. He knew the two Adjudicators would give their lives away if he did nothing.

If they died, the human race would suffer a great loss.

"Buddha Emperor, Adjudicators, you guys don't need to give your lives away. Just buy me some time," Chu Kuangren said to them telepathically.

His request surprised them.

It sounded like Chu Kuangren had a way to deal with the Void Ruler.

After all, it was the Void Ruler they were facing, a Source Being that transcended beyond the Monarch Realm!

Even if he was severely weakened, the other Monarchs would have to be ready to give their lives away just to threaten him a little.

What could Chu Kuangren do?

No one knew what Chu Kuangren was trying to do.

However, recalling all the miracles he had created, they somehow trusted him. They put away their questions and chose to work with him.

The Human Empress and Earthen Monarch also temporarily dismissed the thought of reversing their Great Dao.

Who would want to sacrifice their lives if they could live?

"Humans, you are still too cowardly."

The Void Ruler scoffed. He, too, sensed the Human Empress and the Earthen Monarch's resolution, but that resolution was gone now.

He could only assume they were afraid to sacrifice themselves.

"If you don't have the resolution to sacrifice, how are you my match?"

The Void Ruler narrowed his eyes.

Then, Spatial Daoist law energy rose and transformed into a massive vortex that caught the four of them.

The four of them felt immense pressure from all directions.

The Great Dao in them was shaking violently.

"Stalling someone like the Void Ruler won't be easy," the Human Empress thought helplessly.

However, her eyes narrowed, and she channeled even more Creation Daoist law energy in her to activate the Creation Domain!

Not only her, but the Earthen Monarch also channeled his boundless earthen qi and summoned his domain.

The Buddha Emperor and Tempest King did the same.

Buddhist Light shone brightly, and Universal and Yin-yang energy rumbled.

All four of them activated their respective domains.

Chapter 2375 Elder Dragon Wu Dao, Void Terror, the Devil King Arrives

The four strongest human cultivators fought the Void Ruler in the Heavenly Void Spirit World.

The Human Empress channeled her Creation Daoist law energy, expanding rings of golden halo around her to create her domain.

Inside her domain, the withered was brought back to life, and all beings felt energetic and lively.

The Creation energy was boundless. It could attack and defend at the same time, but it also buffed the powers of the Tempest King and the others.

On the other hand, the Earthen Monarch's domain was an endless mountainous terrain. Earthen qi rumbled fiercely, so fierce that it could crush the void instantly.

The earthen qi rumbled in the forms of dragons and mountains, looking livelier than ever.

The Buddha Emperor shone in Buddhist Light as the Daoist law energy surrounded him. The sanskrit runes on his kasaya erupted, and Buddhist chimes rang across the realm. A holy and peaceful aura filled the area, cleansing all evil.

Lastly, the Tempest King's domain was much more complicated compared to the others.

Yin-yang, Universal, and Thundergale Daoist laws were all combined into one. She cultivated multiple Daos at once, and each was at an extremely high cultivation level. Fusing all of them created a terrifying power.

Each move she made could destroy universes.

While being in her own domain, her demeanor was unmatched.

"Fight!"

With her command, the four of them attacked with their domains, attempting to overpower the Void Ruler with boundless energy.

The combined attack distorted the space around the Void Ruler, yet he remained calm and nonchalant.

"Domain? Petty tricks."

He raised his hand and unleashed endless Unlimited Great Dao energy.

One strike and he was able to blast the incoming domains, shaking them terribly.

"Heaven Trembling Tempest!"

"Cosmic Crumbling Yin Yang Strike!"

The Tempest King channeled Yin-yang energy on her left hand and Thundergale on her right.

When the two energies combined, they transformed into a torrential energy stream.

The Buddha Emperor also cast his ultimate attack.

He swung the crystal scepter forward, unleashing tens of thousands of Buddhist Light beams.

The Human Empress and the Earthen Monarch attacked as well.

With their respective domains activated, their powers were greatly amplified. The combined attacks shook the entire Spirit World.

"Void Annihilation."

The Void Ruler punched at the void.

A massive black vortex appeared and unleashed endless Spatial energy. It was so powerful that it could devour the entire galaxy.

All attacks and energies were weakened by the Spatial energy and eventually canceled.

The Void Ruler's power shocked everyone.

"No way! How is he so powerful!?"

"Oh my god! Some of the strongest human cultivators have to team up to fight him, yet they can't even hurt him! How are they going to beat him?"

"Is defeating him possible?"

The ridiculous power of the Void Ruler sparked a debate among the other cultivators.

While the Tempest King and the other three regrouped with grim looks on their faces and prepared for another round, a powerful dragon roar came from the horizon.

A middle-aged man in golden armor arrived, carrying domineering dragon qi.

The man was stronger than any dragon Chu Kuangren had seen or fought, which intrigued him.

The man wore a golden chainmail and wielded a massive cleaver carved with ancient runes.

When the man arrived, his dragon qi and Daoist law energy erupted, forming a terrifying domain around him.

"Elder Dragon Wudao, here to take the Void Ruler's life!" Elder Dragon Wudao looked at the Void Ruler coldly.

"Oh? Dragon Tribe? You pesky snakes have brought yourselves to me," said the Void Ruler.

Another Ultimate Monarch had arrived, but the Void Ruler was unfazed.

As a Source Being, he was extremely powerful and ancient.

To him, Monarchs were like ants, and even an Ultimate Monarch was nothing but a stronger ant. There was nothing for him to be afraid of.

"Dragon King's Slash, Heaven Shine!"

Elder Dragon Wudao swung the giant cleaver behind his back, releasing a powerful saber ray at the Void Ruler.

The slash carried unparalleled power and could cut the sky in half, but still, it did not threaten the Void Ruler.

Daoist law energy swirled around him, and he simply unleashed a palm attack that easily shattered the saber ray.

"The Void Ruler is indeed powerful!"

Elder Dragon Wudao knew the Void Ruler was powerful, but when he faced the Source Being himself, the horror exceeded his expectations.

However, he was prepared to give his life away in this battle.

No matter how strong the Void Ruler was, he would never back down.

"Heavenly Dragon Blood!"

Elder Dragon Wudao's dragon qi swirled around him, and his dragon blood boiled.

His energy rose sharply and reached the threshold of his current realm. He was one step away from reaching the Unlimited Great Dao Realm.

"Dragon King's Slash, Cosmic Break!"

Elder Dragon Wudao swung his cleaver, and boundless dragon qi gushed out.

However, a stronger saber ray was unleashed.

The Tempest King and the others quickly joined the battle with their respective attacks.

The barrage of attacks and domain suppression could easily destroy an Ultimate Monarch.

Despite that, the Void Ruler stood in the air with Daoist law energy surrounding him like planetary rings.

He opened his arms and said, "Feel the horror of the void."

Rings of silver light were blasted forward, annihilating everything it touched. The boundless Spatial energy was like the endless wave on the ocean.

Wave after wave, the Spirit World shook.

All energies and attacks were crushed by the endless waves of Spatial energy, and they continued to expand outward.

The Tempest King and the others were blasted away.

"Bang! Bang! Bang!"

After multiple explosions, the Tempest King, Human Empress, and others were sent flying with blood gushing out from their mouths. Their Great Daos were greatly shaken.

Their bodies might collapse at any moment.

The Void Ruler was the only one who remained in the sky. He glimmered with Immortal Sparks as his white hair danced with the wind, making him look like a god.

Further away, the Spatial One and the Spatial Tribe were thrilled as they watched the scene.

"This is the Void Ruler's power! This is the power of the source of our tribe!"

"The Void Ruler isn't even at his prime. If he had time to recover, I can't imagine how powerful he would become."

"It's delusional of the Tempest King and the others to think they could beat him!"

The Void Ruler peered down at his opponents with a majestic demeanor.

They were like ants to him.

"My current strength is only one or two percent of my prime, yet it's already enough to overwhelm all of you. Human race, Dragon Tribe, what are you going to fight me with?"

"The Human Ancestor is dead, and the Infernal Dragon is eliminated. Only the Void remains undefeated!"

The Spatial Daoist law around the Void Ruler manifested into a massive void blade.

Right before he could slash at the Tempest King and the others, a voice sounded.

"Void Ruler, you look amazing," a feminine voice said with a gentle chuckle.

Enormous evil intent rose in the realm, and a pair of massive black wings shrouded the sky.

In the center of the wings was a feminine woman in glamorous robes. Her arrival attracted everyone's attention.

"It's you... Devil Bone!"

The Void Ruler finally got serious when he looked at the feminine figure.

"Devil Bone? That's a nostalgic name, but now, you can call me the Devil King!"

Chapter 2376 Devil King Versus Void Ruler, I Think I Should Intervene

The Devil King arrived in the Heavenly Void Spirit World. Her arrival put a serious look on the Void Ruler's face, and it surprised everyone. The Void Ruler was an ancient Source Being. Although the Devil King's powers had always been a mystery, the Devil Tribe was not exceptionally strong. In fact, there was quite a difference when compared to the Dragon Tribe and Spatial Tribe. Amongst the known Monarchs, the Devil King was the one and only Monarch of the tribe. Why would her presence scare the Void Ruler? Chu Kuangren glanced at the Devil King and clicked his tongue in awe. "She's indeed unusual. Even an ancient Source Being is somehow scared of her." He never dared underestimate the Devil King, yet she always surprised him. The Dragon Tribe and Celestial Divine Tribe feared her, and she looked down on the Doomsday Darkness. She could even keep calm before the Void Ruler, a Source Being. To think the Archdukes of the Devil Tribe, who were not even Monarchs, tried to take her down, what a joke! "Devil King... The Devil Tribe? Isn't it the toy you made?" the Void Ruler scoffed.

His words shocked everyone even more. The Devil Tribe was created by the Devil King!

The Devil King was just a title, and many had withheld the title before. However, it turned out that the Devil King was also the creator of the Devil Tribe.

In other words, the Devil King was also a Source Being!

Everyone was shocked.

Some of the devils were shocked to learn the truth as well. "Wait, you are... Hahaha! You're not the Devil Bone that I used to know. I was wondering how you survived that battle. Not even the Human Ancestor and Primal Infernal Dragon escaped. This body of yours is just a reincarnation." The Void Ruler cackled as a realization struck him.

If the Devil King were at her prime, unless the Void Ruler was also in his prime, he would lose, without a question. However, she died in that battle many years ago, and the current Devil King was just a reincarnation.

If so, why would he be afraid of her? The thought helped him regain his arrogance.

He threw a palm strike at the Devil King, and the domineering Spatial Daoist law attempted to drown her like a storm.

"Even if I'm just a reincarnation, you can't kill me that easily."

The Devil King slashed forward with the Devil Edge in her hands.

The boundless evil intent skyrocketed. Everyone thought they heard the most wicked words that ever existed in their ears and saw the most terrible things with their eyes. Their minds were so shaken that they started to show signs of losing consciousness. "Awake!" The Buddha Emperor bellowed, releasing holy and peaceful Buddhist Light to protect everyone. Everyone managed to regain consciousness under the Buddhist Light's protection. They looked at the beautiful and seductive Devil King in fear, their bodies shaking.

The Buddha Emperor looked worried as he stared at the Devil King. "She's the root of all evil. Should someone like her be allowed to exist in this universe?"

If the Devil King wills it, she could drag anyone into evil with just a thought, turning them into a devil that she could control.

The Buddhist world could not tolerate such a wicked method. The Devil King slashed her sword forward. The massive evil intent formed a massive saber shadow and crashed down at the Void Ruler, crushing the void in the process.

The Spatial Daoist law energy storm could not hurt her.

The Void Ruler chuckled. "As expected of Devil Bone, the root of all evil. Your powers are still amazing. No matter how many times I witness it, I always believe you should be on our side." "I choose whatever side I want to be, and you can't change my mind." The Devil King pursed her lips and raised her hand, summoning a pitch-black hand from the Devil Daoist law that echoed with excruciating cries and wails. It was as if it contained all the evil of the universe.

One glance at it could drive a common cultivator mad.

However, the Void Ruler's eyes narrowed. He raised his hand to summon a massive finger from the Spatial Daoist law to counter the palm.

"Bang!"

When the finger and palm clashed, the void shattered into countless pieces like a mirror. Each shattered void shard was covered with evil intent, reflecting the most horrendous things.

"Devil Avatar!" The Devil King raised her hand again and summoned a pitch-black avatar behind her. The massive physique and wings shadowed even the sky.

The eyes of the avatar were like two bottomless vortexes that could suck one's soul in with a glance.

The avatar flapped its wings, releasing countless black sharp-as-blades feathers. The feathers turned into a storm that was blasted at the Void Ruler. "Hmph. You're just a Monarch. Even if you have all the evil intent in the universe, how much power do you have left?" The Void Ruler scoffed and unleashed his Unlimited Great Dao energy.

The storm of endless feathers was canceled immediately.

The impact blasted the Devil King away, shocking the Tempest King and the others.

"Not even the Devil King is his match?"

"We're in huge trouble now."

The Tempest King and the others tried their best to suppress the injuries so that they could continue to fight.

At the same time, the Devil King looked at Chu Kuangren and said to him telepathically, "Little one, leave this place immediately." She came because she wanted to protect Chu Kuangren. She deemed him as her closest ally, but she had yet to regain her strength.

It was a stretch for her to fight the Void Ruler in her current condition, so the best way would be to send Chu Kuangren away.

"Leave? I think I should intervene," Chu Kuangren scoffed.

He then stepped forward and dashed toward the Void Ruler.

Everyone else was shocked by his sudden move.

"What is he doing?"

"What the hell? Not even the Tempest King, Earthen Monarch, and Devil King can stop the Void Ruler. What is he going to do?"

"He's mad!" The Spatial One cackled. "Chu Kuangren, I didn't expect you to be so stupid as to not conserve your energy for another battle. If you have a death wish, you can die now!"

Resolution and hatred were obvious in his eyes. He was eager to see the Void Ruler kill Chu Kuangren.

Hun Meier, however, looked at Chu Kuangren differently. "As the humans say, there's always an opportunity with risk. Chu Kuangren is not only handsome, but he's brave and bold as well."

With the thought in mind, she looked at the Spatial One, who was cackling hysterically. She could not help but be disgusted by his ugly personality. Compared to Chu Kuangren, her future husband looked sad. He had the talent, but his personality was hideous.

She already had second thoughts about the marriage with him. If she could go back alive, she would reconsider the union with the Spatial Tribe. However, the Spatial One had no idea his fiancée was disgusted by his personality. Instead, he stared at Chu Kuangren, hoping to see him die on the spot.

Chapter 2377 Primal Infernal Dragon Appears, Travel Through Time and Space To Kill You

Chu Kuangren dashed toward the Void Ruler. The Void Ruler was slightly caught off guard by the sudden approach.

He suspected Chu Kuangren was trying to get himself killed. "Ultimate Monarchs are like ants to me, and you're weaker than ants. Even if you want to die, what's the rush?" He scoffed and responded with a palm strike.

Boundless Spatial Daoist law energy locked onto Chu Kuangren.

The attack could kill an Ultimate Monarch.

However, Chu Kuangren summoned a crystal sword in his hand. The sword glimmered with endless Immortal Sparks, and sharp sword intent spread rapidly. "Sword Twenty-five!" Chu Kuangren bellowed coldly.

The crystal sword in his hand shone as it released a sword ray.

The sword intent contained in the slash could cut through time and space, past and present. "Bang!"

The slash and the Spatial Daoist law energy clashed, shaking the entire Heavenly Void Spirit World. Cracks even started to appear in the sky as the impact pushed the Spirit World to the brink of collapse.

It was a frightening scene.

When the Void Ruler took a closer look at the sword Chu Kuangren wielded, his eyes widened in fear. "That's the... Human Ancestor's sword!" Chu Kuangren was wielding the Human Ancestor's sword. He had never used it before until now, and its power was even stronger than the Dragonslayer.

However, he felt like the sword was missing something as he could not bring out its full power.

"With the Human Ancestor's technique and the Human Ancestor's sword, you really are the Human Ancestor's descendant!" The Void Ruler stared viciously at Chu Kuangren.

Frosty killing intent rose and seemingly froze everything in the area.

"Little one, you are no match for him! Even if you have the Human Ancestor's sword, it won't be enough! Leave now!" the Devil King said.

The Human Ancestor's sword was powerful, but the difference in strength between the Void Ruler and Chu Kuangren remained huge.

Even with the weapon in hand, Chu Kuangren would not last long.

"Who said my final trump is the Human Ancestor's sword?"

A smile played out on Chu Kuangren's lips.

With a thought, the entire valley trembled as runes and restriction seals appeared.

When the strange beasts in the Spirit World that contained the dragon qi sensed the commotion, they started to make their way to the valley, or more precisely, the Void Ruler. Countless strange beasts charged at the Void Ruler, trying to rip him apart. "These strange beasts were created by the Primal Infernal Dragon's dragon qi," the Void Ruler said with a grunt. "But the Primal Infernal Dragon is dead, and the strange beasts that his dragon qi created are nothing! Die!" After a powerful roar, Spatial Daoist law energy gushed forward. The powerful attack easily obliterated the strange beasts.

Some unlucky Monarchs who were caught in the crossfire got heavily injured.

"It's so powerful!"

"The longer he fights, the stronger he is!"

"I understand now. The Void Ruler has just broken out of his seal and hasn't familiarized himself with this universe's rules and laws. But now that he has adapted himself, he's gotten stronger. How terrifying!"

The others were terrified by the realization.

The Tempest King and the others' expressions were grimmer than before.

"So this is the power of an Overlord?" Horror filled Elder Dragon Wudao's eyes as he wielded his sword.

"Human Monarch, you're trying to activate the formation left behind by the Primal Infernal Dragon, aren't you? That's why the strange beasts created by the dragon qi are attacking me at your order. Unfortunately, you've underestimated me. "So what if you can control the formation? This formation's core is the dragon blood altar, and I have destroyed it. What are you going to do? Seal me again?" the Void Ruler said confidently with hands behind his back.

"No. You're wrong." Chu Kuangren shook his head and took out an ancient mirror. "I'm not trying to seal you again. I'm going to kill you!" "Lunatic! I have no interest in your nonsense!"

The Void Ruler channeled even more Spatial energy, so much that it formed an ocean behind him.

The boundless Spatial energy crashed forward with enough power to wipe out a bunch of Ultimate Monarchs.

The Devil King and the others wore grave expressions, but Chu Kuangren remained calm.

The ancient mirror in his hand shone brightly and released a mystical aura.

It was the Ultimate Divine Weapon that he acquired earlier.

As the mirror shone in Immortal Sparks, it resonated with the formation in the valley and somehow connected to the river of time.

A powerful dragon roar came from the mirror and echoed across the sky.

Following that, a burst of boundless dragon qi erupted, pressuring everyone at the scene. The ocean-like Spatial energy was crushed by the eruption, and it shocked the Void Ruler.

His eyes were wide with fear.

"This aura..."

The ancient mirror was connected to the river of time.

From within, an ancient figure that carried a boundless dragon qi emerged.

He wore crimson robes and a white mask with golden patterns on it. His dark golden eyes released a boundless aura.

All the dragons at the scene, regardless of cultivation level, trembled when they saw the figure.

Even the Dragon Monarchs knelt on the ground out of instinct.

"This presence... it can't be wrong!"

"It's the source of the Dragon Tribe, the Primal Infernal Dragon!"

Everyone at the scene gasped in astonishment. The Primal Infernal Dragon, the source of the Dragon Tribe, had appeared! The series of events that had happened today were shocking, to say the least.

First, the Spatial Tribe's source and the Devil Tribe's source, and now the Dragon Tribe's source?

No one knew what other absurd things might happen next.

"Primal Infernal Dragon? Impossible! You are dead! How are you here?"

"Wait... This aura... You crossed the river of time and traveled to the present from the past?"
Having been struck with realization, the Void Ruler became afraid.

What he said was beyond appalling.

Traveled to the present from the past?

What kind of technique was that?

"Legend has it that the Primal Infernal Dragon is the source of both Fire and Time. He might be able to just pull it off!"

"Oh my god. How can he do something this absurd? If he can travel from the past to the present, does it mean he is indestructible, unkillable, and omniscient?" Everyone was shocked by the alleged time travel.

They were so stunned that their jaws dropped.

Even though they already thought highly of the Source Beings, they realized they themselves were not on the same level as the ancient ones. The Primal Infernal Dragon stood high in the sky and peered down at the Void Ruler. He said, "I have traveled through time and space just to kill you!"

He sounded calm, but his tone contained immense killing intent.

Dragon qi swept the field and shook the Spirit World again.

Suddenly, time froze at the moment. Only the crimson figure remained, engulfed in burning flames.

He seemed to have mastered time itself.

Chapter 2378 Primal Infernal Dragon Versus Void Ruler, Heavenly Void Spirit World Collapse

The Primal Infernal Dragon was dead? Yes. According to the Void Ruler, he died many eons ago. The Primal Infernal Dragon who appeared from the river of time was him in the past, the one that was alive.

"Impossible. Even if it's you, there's no way you can cross the river of time and travel to the present from the past! How did you do it? Wait... I know. I understand now! It's the formation!"

A sudden realization struck the Void Ruler. As he looked at the countless runes and restriction seals across the valley, he finally knew what was happening.

"This formation. This formation did not only seal me, but it also contains the power of time and acts as a coordinate, a medium for you to pinpoint the exact time to appear! That's why you can time travel! But the core of the formation..." The Void Ruler wanted to bring up the dragon blood altar that he destroyed, but before the words could escape his mouth, he swallowed them. He looked at the mirror Chu Kuangren held, and his gaze turned grim. Chu Kuangren smiled. "You're right. The dragon blood altar isn't the core. It's this mirror. This mirror is the Infernal Dragon Eye, and it's made out of the other eye of the Primal Infernal Dragon." "I see. That explains it. Primal Infernal Dragon, you've planned for this since the beginning, but how did you know all of this?" the Void Ruler asked Chu Kuangren.

Not even he had realized what the Primal Infernal Dragon had planned, yet the young Human Monarch saw through everything.

Chu Kuangren had only been in the Heavenly Void Spirit World for a few days.

"Good question." Chu Kuangren stood with his hands behind his back. "Behold, the first place on the Formation Leaderboard stands before you."

Chu Kuangren possessed an extremely high mastery of formations, and when he arrived at the valley, he already noticed that the formation that sealed the Void Ruler had another function.

When he saw the Infernal Dragon Eye, all the dots were connected.

It was the reason why he asked the Tempest King and the others to buy him time.

He had to analyze the formation and take control of it so that he could summon the Primal Infernal Dragon to the present.

"I have underestimated you."

The Void Ruler glared at Chu Kuangren.

He thought Chu Kuangren was just a young Monarch who could never threaten him, yet Chu Kuangren had summoned his greatest adversary from the past.

"Void Ruler, you're too full of yourself. This isn't your era anymore. You should disappear," Chu Kuangren said.

Then, he slashed forward with his crystal sword.

The domineering sword qi went straight for the Void Ruler.

He must kill the Void Ruler in this valley by all means necessary.

Chu Kuangren's eyes gleamed coldly. Next to him, Elder Dragon Wudao shuddered. Suddenly, he realized that making enemies with Chu Kuangren was a bad idea. "Kabaam! Bang! Kaboom!"

The Void Ruler and the Primal Infernal Dragon continued to fight.

Their battle was terrifying.

Each move they made contained powers to destroy universes.

As Spatial Daoist law and Time Daoist law clashed fiercely, time and space collapsed, and with it, the Heavenly Void Spirit World.

"This Spirit World is collapsing! We must leave now!"

"Damn it! This battle is terrifying! Even Monarchs might get caught in the crossfire and die!"

"So this is the battle between those above the Monarchs?"

Everyone gulped nervously as they retreated from the Spirit World.

After they escaped, the whole Heavenly Void Spirit World collapsed into smithereens, and a massive explosion of Spatial energy erupted.

The blast wiped out more than a billion kilometers of land.

"Come over here!" When the Spirit World collapsed, the Void Ruler was delighted to see the massive explosion of Spatial energy. He roared and released a powerful suction force that rapidly sucked all the Spatial energy into his body.

Following that, his energy presence skyrocketed.

"He's absorbing the Spatial energy caused by the collapse of the Heavenly Void Spirit World!" the Devil King said with a frown.

The Void Ruler was an Overlord of the Spatial Great Dao, so he could easily control the Great Dao and absorb even more Spatial energy to boost himself.

The Heavenly Void Spirit World was enormous. As one of the biggest Spirit Worlds in the Great Hongmeng Universe, the Spatial energy created by its collapse was unimaginable. The blast could easily destroy an Ultimate Monarch, yet the Void Ruler was absorbing the energy.

"Primal Infernal Dragon, even if you can time travel, you're dead. The era you're still alive in is too far away from now. I wonder how much power is left in you."

The Void Ruler grew stronger after absorbing the collapsed Spirit World and cackled at the Primal Infernal Dragon. "I regret not being able to kill you myself, but lucky for me, you have traveled through time to the present just to fulfill my wish!"

Chapter 2379 Devil King Recovers Fully, Three Unlimited Great Dao Powers

The Void Ruler's energy surged.

However, the Primal Infernal Dragon was unfazed by his opponent's power-up. "You won't kill me this time!" He raised his hand, prompting Time Daoist law energy to swirl and manifest into a saber engulfed in blazing dragon flame before releasing a slash at the Void Ruler. The slash disrupted time. A twig that caught a sliver of its flame grew into a plant and withered rapidly. The flame burned time itself! The Void Ruler growled and pointed his finger at the incoming slash.

When time and space, the two similarly powerful attacks clashed, the collision created a massive energy vortex.

As the vortex grew, it devoured everything in its path.

"Infernal Dragon Eye, Silence Realm."

The Primal Infernal Dragon rose to the sky, and his dark golden eyes gleamed.

The clouds rumbled, and dragon qi rose.

In the sky, a massive golden eye opened up.

As its golden brilliance shone, time stopped.

Only the Void Ruler and his Spatial Daoist law energy could resist the time freeze.

"Infernal Dragon Eye, Heaven Earth Darkness!"

The Primal Infernal Dragon used the divine ability of the Infernal Dragon again.

Suddenly, heaven and earth turned dark.

The day turned into night in an instant.

Endless dark and freezing energy gushed toward the Void Ruler, attempting to freeze his time and locking him in eternal darkness.

The Void Ruler channeled his Spatial Daoist law energy in retaliation. The Spatial Great Dao trembled, unleashing endless Daoist law energy that turned into silver-white flames.

"Void Sky Fire!"

Spatial flames burned the void around him, leaving nothing but scorched earth in its wake.

The Void Sky Fire was the Void Ruler's strongest attack.

It was the Infernal Dragon's divine ability versus the Void Sky Fire, and upon collision, Immortal Sparks exploded. The mystic of time and space was on full display. Everyone was captivated by the battle.

Chu Kuangren was also watching and copying the techniques with his Limitless Transformation.

He recorded everything he saw. When he was strong enough, he could also become the Void Ruler or the Primal Infernal Dragon.

The battle benefited him a lot.

"Bang!"

Unlike the darkness the Primal Infernal Dragon summoned, the domain that the Devil King constructed was filled with evil intents.

The evil intents were horrifying, and they attempted to affect the Void Ruler's mental state.

"Devil Bone's domain? I've seen it now."

The Void Ruler bellowed and released halos around him. The halos constructed an independent space around him to block the evil intents away.

Even so, the Devil King could not be stopped so easily.

With another thought, the evil intent bloomed into black flowers within her domain and then withered, causing a chain of explosions.

The extreme explosions bombarded the Void Domain.

"I'll give you a hand," the Primal Infernal Dragon said. He stepped forward, and crimson flames expanded outward, carrying Time Daoist law energy.

The Infernal Dragon Domain was activated, and it impacted the Void Domain.

The Devil King seized the chance to hasten her corrosion of the Void Domain.

The three Source Beings fought using their respective domains. The fabric of reality in the Great Hongmeng Universe was torn by the force, and the stray energy leaked into the Infiniverse, shattering planets and galaxies.

The clash between Source Beings, albeit not at their primes, was terrifying. Even the slightest clash could destroy multiple universes.

They were the most terrifying powers in the Infiniverse.

Under the joint attack of the Infernal Dragon Domain and Sinful Night, they managed to take it down.

However, the Void Ruler siphoned even more Spatial Daoist law energy from the Spatial Great Dao.

Seeing that, the Primal Infernal Dragon and the Devil King activated their respective Great Dao as well. They were connected to the Time Great Dao and the Devil Great Dao in the space between Daos.

Unlimited Great Dao energy boosted their strength.

"Kaboom!"

Three domains and three Unlimited Great Dao energies clashed together.

To the Monarchs, it felt like the end of the world was here. As heaven and earth collapsed, their Great Daos and Monarch's Hearts trembled violently.

"The Void Ruler is finally being overpowered."

The Human Empress and the others were pleased to see the table turned. With the Devil King and Infernal Primal Dragon teaming up, they finally overpowered the Void Ruler who had just broken out of his seal.

Victory was within sight!

Then, the Void Ruler roared and channeled even more Spatial Daoist law energy. The Void Sky Fire burned fiercer as his aura rose sharply.

"I might not be at my prime, and using this technique is a little troublesome, but if I can kill you both, it's worth it."

The Void Ruler's gaze turned cold as his body started to merge with space itself, not the space of the realm but the Spatial Great Dao!

Chapter 2380 I Can Kill You, Spirit Body As One, The Real Human Ancestor's Sword

"Great Dao Fusion? The Overlord's power!"

The Devil King narrowed her eyes.

The Unlimited Great Dao allowed one to siphon energy from the Great Dao. However, the Great Dao had unlimited energy, and no matter how one siphoned energy from it, it was impossible to bring out its full power.

The Overlord, however, had total control over the Great Dao. An Overlord could fuse with the Great Dao itself and control the Great Dao's energy with a single thought.

That ability was the true Overlord's power.

One level higher and the Overlord would be able to control Source energy, which was the energy of the Source Beings like the Void Ruler and others at their prime.

However, they could not achieve it now, not even Great Dao Fusion. Using the Great Dao's energy to boost the Overlord's power demanded a lot of energy.

"Primal Infernal Dragon and Devil Bone, one of you traveled through time, and the other is a reincarnation. There's no way you can use the Overlord's power now. Even though I have only one to two percent of my power left, I'm still alive and kicking. I hereby fuse with the Great Dao and have control over all! You two are no match for me!"

As the Void Ruler fused with the Spatial Great Dao, the Unlimited Great Dao energy surged higher, reaching near infinity. His energy could drown a whole universe.

Each move he made could destroy universes.

The energy he possessed now was unimaginably terrifying.

Further away, Chu Kuangren narrowed his eyes. He was already counting how many Hongmeng Supreme Treasures he had to blast the Void Ruler.

He was even prepared to detonate the Dragonslayer.

The detonation of an Ultimate Supreme Treasure was terrifying, and its blast could easily kill an Ultimate Monarch.

Such firepower should be able to damage the Void Ruler and create a chance for the Primal Infernal Dragon and Devil King.

However, just as he wanted to take action, someone came to him.

It was Mingyue Wuxia.

Chu Kuangren was surprised. Before he could say a word, Mingyue Wuxia said, "I have a way to help you kill the Void Ruler."

Chu Kuangren was intrigued. "I'm all ears."

...

"Void Sky Edge!"

The Void Ruler channeled unlimited Daoist law energy and unleashed a massive saber shadow glimmering with Immortal Sparks.

Now that he had fused with the Spatial Great Dao, his powers were unimaginably powerful. Even the slightest move from him could destroy the world.

The saber shadow glimmered brightly, slashing even the realm as it went after the Primal Infernal Dragon and Devil King.

Both their domains were shaking violently.

"Sin, Raging Flame Slash!"

The Devil King swung her Devil's Edge in a flurry, releasing a beautiful saber ray to counter the incoming attack.

The black flame in the slash carried the rage of all beings.

"Silence Realm!"

The Primal Infernal Dragon narrowed his eyes and channeled the Time energy.

He froze the Void Ruler's slash, allowing the black saber ray to crush it.

However, the explosion from the clash pushed them back.

The Void Ruler, on the other hand, did not even flinch.

He scoffed. "So what if you can block one attack? Can you block ten? A hundred? Or infinity? Your fates are sealed!"

"I can block not only ten or a hundred, but I can even kill you!"

Suddenly, a frosty voice spoke.

Chu Kuangren stepped out wielding the crystal sword, surrounded by Immortal Sparks and sword aura as if he were the God of Swords.

His sword aura, having reached an unprecedented level, blanketed the field.

The Void Ruler was shocked when he sensed the aura. "That's the Human Ancestor's sword! W-What?"

The Human Ancestor's sword was the origin of all swords.

The power it contained was far stronger than an Ultimate Supreme Weapon.

It was safe to say that the sword was as strong as the Void Ruler in his prime.

The Human Ancestor's sword was powerful, but only the Human Ancestor could use its full power.

The Void Ruler and the others believed that even if Chu Kuangren wielded the sword, his cultivation was not enough for him to use the sword's power. There was no way he could be as powerful as the Human Ancestor.

However, the scene proved the Void Ruler wrong. In fact, he was shocked.

The sword aura reminded him of the Human Ancestor.

Even though Chu Kuangren was still not as powerful as the Human Ancestor, he looked similar to the Human Ancestor with the sword in his hand, and it felt like he could overpower all in the Infiniverse.

"How did you bring out the sword's power?"

The Void Ruler was baffled.

The Primal Infernal Dragon and Devil King, however, noticed another person behind Chu Kuangren — Mingyue Wuxia.

She was surrounded by sky-shattering sword intent, and it was being infused into Chu Kuangren, creating a resonance with the Human Ancestor's sword.

It was because of her that Chu Kuangren could bring out the power of the Human Ancestor's sword.

"I see..."

The Primal Infernal Dragon was struck with realization.

"It's a little trick that the Human Ancestor left behind." The Devil King chuckled.

They used to be on the same side as the human race, so they knew the man better than others.

Others might not know what happened, but the two of them had a more educated guess.

"Chu Kuangren, my current strength can't allow me to resonate with the Human Ancestor's sword for long. Make it quick," Mingyue Wuxia said telepathically.

"Got it." Chu Kuangren nodded.

He pointed at the Void Ruler, and an unprecedented sword aura gushed out. "Void Ruler, are you prepared to die?"

"Human ant! You're full of yourself!" the Void Ruler bellowed coldly.

Then, he unleashed his Spatial Daoist law energy to form a massive saber shadow that swung at Chu Kuangren.

Chu Kuangren raised his sword, releasing an endless sword aura. He countered with a dazzling sword ray, and it crushed the saber shadow.

On top of that, the sword ray even pushed the Void Ruler back.

"Impossible! Impossible! How can you possess the Human Ancestor's power?"

The Void Ruler found it difficult to believe.

However, Chu Kuangren ignored him and continued with another slash at the void.

A massive tear appeared in the sky, and inside it was endless Daoist law energy.

The tear was actually a connection to the Sword Great Dao, which meant Chu Kuangren was also using the Unlimited Great Dao energy!

It was unbelievable that a Monarch, who had yet to manifest his own avatar and domain, could use the Unlimited Great Dao energy.

It was only made possible because of the Human Ancestor's sword!

The sword was the origin, the source of the concept of swords.

When Chu Kuangren got it, he tried refining it using the Thousand Weapon Heart, but he felt like the sword was missing something, thus unable to bring out its full power. That was why he could not fully refine it.

Now, he finally realized what the sword was missing.

The sword was missing a sword spirit!

When the Human Ancestor possessed the sword, the sword had its own sword spirit.

Chu Kuangren only got the sword but not the sword spirit.

It was Mingyue Wuxia who filled the hole by becoming the sword's spirit!

With her help, the sword fused with a sword spirit, thus forming the true Human Ancestor's sword!
