Chapter 2381 Void Ruler Went All Out, Sword Intent From the Past and Present, Take My Sword Twenty-six!

The Sword Great Dao appeared.

Chu Kuangren wielded the Human Ancestor's sword, releasing an endless sword aura across the field, and slashed it at the Void Ruler.

"Damn it!"

The Void Ruler's expression turned grim.

He countered with a punch, unleashing powerful Daoist law energy.

The clash between the Sword Daoist law energy and Spatial Daoist law energy destroyed millions of planets in the process. The shockwave from the clash destroyed everything in its way, reverting the realm back into a state of chaos.

"Bang! Bang! Bang!"

"Void Tribulation!"

The Void Ruler looked at Chu Kuangren, feeling threatened.

He felt more threatened than facing the Primal Infernal Dragon and Devil King together. With that in mind, he channeled his energy to the limit and released endless waves of Spatial Daoist law energy, wiping out everything in its path.

Everything caught in the wave was canceled off.

Chu Kuangren stood high in the sky with Sword Daoist law energy swirling around him. He was unfazed by the terrifying attack.

"Sword Twenty-five!"

With the Human Ancestor's sword in hand, he cast his ultimate attack.

The sword ray from the sword outshone the sun.

The slash connected the past and the present, shedding its brilliance across time.

The domineering power swept the Void Tribulation's wave in half, blasting it back at the Void Ruler.

"Bang!"

Blood splattered in the air as the Void Ruler was blasted away.

His white hair was tainted with his own blood, making him look wretched.

The scene shocked everyone.

From the moment the Void Ruler broke out from his seal, he displayed astonishing power, and no one could match his strength.

Even the Devil King and the Primal Infernal Dragon could not overpower him together.

Now, Chu Kuangren had blasted him away with just one slash.

"Impossible! Impossible! The Void Ruler is the founder of our tribe. He's powerful! How could he be defeated by Chu Kuangren?" The Spatial One could not believe his eyes.

He had thought highly of Chu Kuangren, but he was still shocked again and again.

How could someone so monstrous exist?

"Talented enough to overpower all from past to present? I guess that means you."

"Chu Kuangren, I will kill you!" the Void Ruler bellowed.

His white hair danced in the air as he channeled the Spatial Daoist law energy to the limit, and a black vortex manifested before his chest.

The vortex contained the strongest Daoist law, and it was connected to the Spatial Great Dao.

Once caught, even the strongest Monarch could be crushed.

"Void Grand Calamity!"

The Void Ruler pushed the black vortex at Chu Kuangren.

"Bang!"

The vortex grew more than a hundred times in size. The realm was devoured into nothingness.

The terrifying aura drowned everyone, causing them to shiver. They knew that if Chu Kuangren could not block that powerful attack, even the audience would have to die.

They had underestimated the battle.

"Damn it! Damn it! We're continents away, and still, we're going to die? How terrifying is this battle?"

"Chu Kuangren, please block it!"

"This black vortex is terrifying. There's no way he can block it..."

Everyone was overcome with despair.

Everything was puny before the black vortex that could destroy and consume everything.

Even Chu Kuangren's sword qi felt like dust before the vortex.

He stared coldly at the black vortex. The killing intents in his eyes were intense but clear.

As he raised the Human Ancestor's sword high, the Sword Great Dao trembled strongly.

Further away, the Divine Sword Palace Ruler sensed something, and his sword intent leaked out of his body.

"W-What is going on?" the Palace Ruler was confused.

In fact, not only him but all the swordsmen in the Great Hongmeng Universe who were in the Grand Dao Realm and above were leaking sword intent. Sword intent filled the entire Great Hongmeng Universe, creating a dazzling scene in the sky.

The massive Sword Great Dao formed behind Chu Kuangren as unlimited sword intent came from every direction and fused with the Great Dao.

On top of that, the sword intent of ancient swordsmen who had perished in the river of time manifested from the Sword Great Dao and were converted into Chu Kuangren's energy.

"What kind of sword technique is that?" a swordsman asked.

Even the Sword Monarchs had never seen something so powerful. It was a sword state that no one had ever imagined.

"He's gathering the sword intent of all swordsmen from the past and the present!"

The Sword Monarchs gulped nervously. All who cultivated the Sword Great Dao would have their sword intent registered on it. Even if they died, the sword intent would remain and become a part of the Sword Great Dao.

Chu Kuangren was gathering all the sword intents from the past and present. No one had ever thought of it before; no one except for Chu Kuangren, who wielded the Human Ancestor's sword.

"From past to present, all sword intents have gathered in this sword! Void Ruler, have a taste of my Sword Twenty-six!"

Chapter 2382 Slash the Void Ruler, I Will Be Back

"Void Ruler, have a taste of my Sword Twenty-six!" Chu Kuangren shouted.

He unleashed a slash with the Human Ancestor's sword that contained the sword intent of the past and present. It became the strongest slash in history!

Countless sword intent surged and formed a massive sword in the air, resembling the entire Sword Great Dao. It was as though Chu Kuangren wielded the Sword Great Dao itself.

The boundless Void Grand Calamity clashed with the massive sword, releasing an unprecedented explosion that was similar to the one that started the universe.

Countless energy exploded in a single point, stirring up a scorching energy storm before collapsing rapidly like a black hole.

Daoist law and Daoist law clashed as energy clashed with another energy.

The dazzling light from the explosion, the blinding Immortal Sparks, the brilliant sword rays, and countless astonishing scenes happened before everyone's eyes.

The clash was terrifying. It also contained many astonishing secrets. Those with higher cognizance benefited a lot from the clash.

As two extreme forces clashed, the sword ray and Spatial Daoist law energy fell into a stalemate. The Void Ruler roared as he tried his best to resist the sword qi.

Chu Kuangren, too, grunted and increased his sword intent.

Suddenly, ancient swordsmen appeared behind him, and the massive sword formed by countless sword intents released an even stronger sword aura.

Chu Kuangren was no longer fighting alone. He had gathered the wills of all the swordsmen from past to present.

"Slash!"

A loud shout came from the void. It belonged to an ancient swordsman. "Slash!"

"Slash!"

"Slash!"

As the shouts went on, the sword intent surged higher.

Terrifying energy waves swept the field, and the sword chime buzzed across the universe.

"Slash!" Chu Kuangren bellowed.

His slash had reached the peak of its power.

"Kabaam!"

The Spatial Daoist law energy was torn apart!

Drowned by the sword intent, the Void Ruler felt an unprecedented fear in his heart — something he did not feel even when he fought the Primal Infernal Dragon.

However, he felt it now, and it was the fear of death.

"Damn it! Am I going to die?"

The Void Ruler lost his arrogance, pride, and all sense of control. All that was left in him was anger, fear, and nervousness.

He quickly summoned spatial barriers in front of him, but none worked.

Without a second thought, he attacked with his sword qi again.

"Bang!"

The void exploded, and the Void Ruler fell out with a thump. The Void Ruler glared at Chu Kuangren. "You noticed me? That explains why you can injure me to this extent."

He looked wretched covered in blood, and his aura was at its weakest.

It felt like he could die at any moment, but he did not.

The others were, once again, shocked.

The Tempest King and the others immediately turned solemn. They prepared all kinds of cultivation techniques to unleash another round of attack at the Void Ruler.

However, the Void Ruler ignored them all and glued his eyes on Chu Kuangren. "Young Human Monarch, tell me your name!"

"A dying person doesn't need to know my name."

"I admit I'm no match for you, but I am the Void Ruler! I rule over the void and space! You can't possibly kill me!" the Void Ruler said confidently.

He managed to recover the dignity of a Source Being.

Even though he revered Chu Kuangren, he was not as afraid as before. "Your slash is terrifying. If I didn't transfer a part of my energy to the void, I would be dead. However, I am alive, and you won't have the chance anymore! If I want to leave, no one in the Infiniverse can stop me!"

He was right.

The Void Ruler was the strongest in controlling the space and void.

If he wanted to leave, no one in the Infiniverse could stop him, not even Chu Kuangren with the Infinity Domain.

The Void Ruler must have a technique stronger than the Infinity Domain.

"Young Monarch, I will remember you and come back for revenge one day. Until then, not only you, but all the people around you will die! I will make you watch as I annihilate the entire human race!" The Void Ruler cackled.

He then glimmered in white sparks, and a spatial fluctuation spread.

"Run? Think again!"

The Tempest King and the others got nervous.

If they allowed the Void Ruler to escape, he would bring nothing but death and destruction when he came back.

They all used their cultivation techniques to stop the Void Ruler from leaving, but it was useless.

All the cultivation techniques were stopped by the pillar of light from his body, which released a powerful spatial fluctuation.

"See you. I will be back!" The Void Ruler cackled.

With that, the pillar of light merged into the void and disappeared.

However, everyone was shocked because the Void Ruler was still there after the light pillar disappeared.

"What is going on?" The Void Ruler was confused.

He stood on the spot and looked at everyone awkwardly.

Chapter 2383 Killing the Void Ruler, The Future Is In Your Hand, Yue Shangling Joins Pan Gu Sect

The Void Ruler was stunned as he looked at Chu Kuangren and the others in confusion.

He should have left, but he was still on the battlefield.

What was going on?

"It seems like you're going to die here today," Chu Kuangren said.

He was not surprised by the Void Ruler's failure to escape.

"I-Impossible!"

When the Void Ruler channeled his spatial escape technique, he finally realized why he failed.

It was time, the Time energy!

He was surrounded by Time energy! The time around him was frozen, and he was pinned on the spot.

"Primal Infernal Dragon!"

The Void Ruler glared at the Primal Infernal Dragon, the only one on the battlefield who could freeze time.

"I said I traveled across time and space to kill you. How can I let you leave so easily?" the Primal Infernal Dragon said.

His dark golden eyes were locked on the Void Ruler.

Then, a powerful Time Daoist law energy erupted, exploding into countless runes and restriction seals to further seal the space around the Void Ruler.

The runes and restriction seals were connected to the formation in the valley.

It formed a powerful time prison around him.

"Infernal Dragon Eye, Time Seal!"

The Void Ruler was the ruler of space and void, so no one could stop him if he wanted to leave. However, that did not include the Primal Infernal Dragon.

Otherwise, the Primal Infernal Dragon would not have been able to seal him in the first place.

The only thing that could counter space was time.

"No! No!"

The Void Ruler roared as he continued to escape using the same technique, but it no longer worked.

Fear appeared on his face once again. "Die!"

Chu Kuangren raised the Human Ancestor's sword and thrust it forward like a flying meteor, stabbing the Void Ruler in the chest.

Excruciating cries echoed across the valley.

"No!"

Even as a Source Being, being thrust in the chest with the Human Ancestor's sword shattered the Source Great Dao in him.

"Bang!"

An explosion of white particles blasted into all directions.

That would be the Source of the Void Ruler.

Similar to the Monarch's Heart, the Source was precious to all cultivations as well.

A speck of particle was equal to a Hongmeng Supreme Treasure.

With that in mind, Chu Kuangren raised his hand to capture a part of it.

However, most of the particles had disappeared into the void.

This time, the Void Ruler was truly dead.

Chu Kuangren breathed a sigh of relief. Behind him, Mingyue Wuxia collapsed on the ground, and her connection to the Human Ancestor's sword was finally cut off.

When he went over to check on her, he was shocked to see the white hair and aged look on her. Having sacrificed more than a billion years of lifespan to keep the connection would greatly affect her chances of ascending to Monarch in the future.

"I'm fine." Mingyue Wuxia shook her head.

Sacrificing a billion years of her lifespan to kill the Void Ruler and remove a threat to the human race was extremely worth it.

There was no better bargain than that.

"When I first met you, I knew you were more than what meets the eye, but I didn't expect you to be the reincarnation of the Human Ancestor's sword spirit."

Chu Kuangren looked at Mingyue Wuxia with surprise.

"That was my previous life. I'm now Mingyue Wuxia, the Divine Maiden of the human race," she said.

She shot Chu Kuangren a deep gaze. "The Human Ancestor's sword and the techniques are all in your hands. I hope you won't disappoint the Human Ancestor or tarnish his reputation."

"Of course."

Chu Kuangren nodded.

He would use them to achieve more than the Human Ancestor!

"Now that the Void Ruler is dead, I shall leave," the Primal Infernal Dragon said.

His energy was depleting rapidly, and his body was disintegrating into light particles.

He had traveled through time to come to the present from the past.

As such, he was not welcomed by this universe and its rules.

The Infiniverse of this era was rejecting his existence.

"I will leave the future in your hands to complete what we started," the Primal Infernal Dragon said to Chu Kuangren and the Devil King.

Then, his body disintegrated into nothing.

The Devil King felt sentimental all of a sudden. "Sigh. They either die or go into deep slumber, leaving me alone. What can I do alone?"

"What will happen in the future?"

Chu Kuangren was curious.

The Devil King once said that when Chu Kuangren ascended to Monarch, she would tell him everything.

He believed it was time now.

"Little one, are you excited already?" the Devil King said with a chuckle. She stretched her body and continued, "Come to the Devil Territory when you have the time. I'll tell you everything. I am going back to rest now."

She had exhausted a lot of her energy in the battle.

She reached out to the void, grabbed it, and opened up a spatial rift, which she stepped inside and disappeared into. The Human Empress, Earthen Monarch, and the others were silenced when they heard of the conversation.

In fact, as Ultimate Monarchs, they already had a hunch about what would happen in the future, but it was too vague for them to know the exact details.

Only someone like the Devil King would know how things end.

"It seems like I'll have to visit the Devil Territory." Chu Kuangren shook his head with a smile.

Then, he looked at the battlefield and arrived at a particular spot in the void in a flash.

There was a dash of dragon blood floating in the air.

It was the blood of the Primal Infernal Dragon. It should be a part of the altar, but when it was destroyed, that was all that was left. Nevertheless, the dash of blood still contained magnificent powers.

"That's the Primal Infernal Dragon's blood! If I can use it to make pills, it would definitely be the most powerful!" Yue Shanling clicked his tongue in awe as he looked at the dragon blood.

However, he knew it was Chu Kuangren who killed the Void Ruler, and the dash of dragon blood should be his. Yue Shanling's words reminded Chu Kuangren of something, and he grinned.

"You want to refine pills with the dragon blood?"

"Huh? What do you mean, Monarch Chu?" Yue Shanling was confused.

It was every alchemist's dream to refine a pill using the Primal Infernal Dragon Blood.

"If you join the Pan Gu Sect, I can give you some to refine into pills. What says you?" Chu Kuangren said.

Yue Shanling was a top alchemist, and the Pan Gu Sect could use his talents. Further away, the Earthen Monarch was left speechless.

Chu Kuangren was trying to take his disciple under his wing!

"Uh..." Yue Shanling looked hesitantly at his master, the Earthen Monarch. The Earthen Monarch looked away and said, "It's your future. You decide." "In that case... I'll join!" Yue Shanling pondered for a moment before deciding to join the Pan Gu Sect.

He did not join solely because of the Primal Infernal Dragon's blood but because of Chu Kuangren's charms as well.

He was deeply captivated by the man.

He wanted to serve the man and see how far he would reach and how high the Pan Gu Sect could go.

The moment Yue Shanling announced he would join the Pan Gu Sect, the Earthen Monarch noticed that the fortune energy on the boy rose sharply.

The Earthen Monarch was left speechless once more.

Those who joined the Pan Gu Sect would be blessed with fortune energy.

However, how much fortune energy did Chu Kuangren and the Pan Gu Sect have?

Chapter 2384 Why Them, Mingyue Wuxia Punished, Thank You Heavenly Saint

Chu Kuangren did not take all the dragon blood. He gave some to Mingyue Wuxia because other than him, she had sacrificed the most in the battle against the Void Ruler.

She even lost a billion years of her lifespan, which turned her silky dark hair to white.

If he did not compensate her, it would be inappropriate.

After that, Chu Kuangren glanced at the battlefield.

The Spatial Tribe and the Dragon Tribes were nowhere to be found. After all, no one dared to mess with Chu Kuangren anymore. Staying on the battlefield would only cause them more trouble.

"Ha! That's quite wise, but I wonder if you people will dare to show up before me the next time." Chu Kuangren chuckled.

That marked the end of the battle with the Void Ruler.

Everyone returned to their respective home.

Following the news of Chu Kuangren killing the Void Ruler spreading across the Great Hongmeng Universe, his reputation reached an all-time high, especially among humans.

Even the three Adjudicators were no longer as reputable as him. With a word from him, an army of people would kneel before him, calling him their king.

However, Chu Kuangren had no plans to rule over the human race yet. He only wanted to focus on expanding the Pan Gu Sect, and from there, the Fortune Kingdom.

Speaking of the Fortune Kingdom, he realized his fortune energy had gotten richer after he killed the Void Ruler. He was one step closer to creating his Fortune Kingdom.

He was curious. The Void Ruler was the founder of the Spatial Tribe, their Source Being.

Killing him would surely affect the Spatial Tribe and even damage their fortune energy. However, was the fortune energy they lost transferred to him?

He could not figure it out since fortune energy was mystical and unpredictable.

It was as profound as destiny.

Therefore, he did not give it much thought.

Richer fortune energy was always a good thing.

The Pan Gu Sect was thriving and producing many Grand Dao cultivators while he was away. The Three Clarities and other ancient beings had already reached the Supreme Honorable Grand Dao Realm.

Their cultivation speed was probably the fastest in the Great Hongmeng Universe.

...

Back at the Heavenly Human Sanctuary, many cultivators welcomed Mingyue Wuxia back.

"Senior Sister, you're back!"

"Senior Sister, why is your hair white?"

"What happened?"

Everyone was concerned over Mingyue Wuxia's white hair.

Mingyue Wuxia simply said, "It's no big deal."

She knew her juniors were worried about her, and explanations would do her no good either. Not only could they not help her, but they would only add to her troubles.

"Senior Sister, I heard something big happened in the Heavenly Void Spirit World. Apparently, the Void Ruler appeared, and Chu Kuangren killed him. Is that true?" one of the juniors asked.

Mingyue Wuxia nodded. "He did."

Everyone was in awe.

"Oh my god! Chu Kuangren is amazing to be able to kill the Void Ruler!"

"It's unbelievable!"

"Could Chu Kuangren be the Human Ancestor's reincarnation? Or else how is he so strong? It's ridiculous."

"It's possible..."

Mingyue Wuxia wore a bitter smile under her face veil as she listened to her juniors.

Reincarnation of the Human Ancestor? Only she knew it was impossible because she saw the Human Ancestor die before her eyes and his soul perished.

Reincarnation was impossible.

Mingyue Wuxia was slightly saddened by the memories.

"Wuxia, a word at the Jade Chamber," said a frosty voice.

It was the ruler of the Heavenly Human Sanctuary — the Heavenly Human Sanctuary Ruler.

"I have to go now."

Mingyue Wuxia made her way to the Jade Chamber.

The Jade Chamber was where the Heavenly Human Sanctuary Ruler lived. When he saw Mingyue Wuxia's white hair, he felt a mix of emotions.

He was shocked, pained, helpless, and angry.

"You've hidden yourself well for many years. No one in the Heavenly Human Sanctuary knows you're the reincarnation of the Human Ancestor's sword spirit."

"I have only awakened the memories recently," Mingyue Wuxia said.

"Let's put that aside for now. No matter what memories you've awakened, you're still the Divine Maiden of the Heavenly Human Sanctuary, and it is a fact. Why did you defy the Heavenly Saint's direct order?" The Sanctuary Ruler was slightly angry when he questioned her.

The Heavenly Saint's words were orders that everyone must follow, including him, the Heavenly Human Sanctuary Ruler. However, Mingyue Wuxia ignored the Heavenly Saint's order, and it offended him.

"The Heavenly Saint wanted me to leave Chu Kuangren alone, but as the human race's Divine Maiden, when a foreign tribe targets the Divine Bachelor of the human race, I cannot sit back and do nothing."

"You should know better than anyone who Chu Kuangren is. He's a Monarch and a madman! Why did you get involved in his matter and defy the Heavenly Saint's order because of him? Do you know he's an enemy of the Sanctuary?"

"Enemy?" Mingyue Wuxia scoffed. "The enemies of the human race are the Spatial Tribe, the Dragon Tribe, the Curse Tribe, the Six Eyes Tribe, and all the other foreign tribes, not another human!"

"You..."

"Hmph! Your answer is clearly grievous against me!"

A frosty voice sounded.

The Heavenly Saint had spoken but not in person.

However, it did not bother Mingyue Wuxia. She simply kept quiet.

Her silence meant acknowledgment.

"Don't forget who you are!" the Heavenly Saint bellowed.

"I dared not. I've always known who I am," she said, but with a hint of irony.

"Hmph. Sword spirit's reincarnation I see. Forget it. Since you're related to the Human Ancestor, I just need you to tell me one thing, and I will let you go this time. How can I cultivate the Limitless Transformation Technique?"

Far away, the Heavenly Saint's eyes were burning with desire.

He wanted the magical techniques, the Limitless Cultivation and the Limitless Imitation, so badly.

Having the technique would equal having everything.

"That explains it..." Mingyue Wuxia was struck with realization. She was wondering why the Heavenly Saint would spare her, but it turned out it was because he wanted to learn how to cultivate the Limitless Transformation Technique from her.

She shook her head and chuckled. "I heard you stood in front of the tablet at Mount Tsuming for a hundred years after the election, yet you still didn't get any hint to cultivate it. Can't you see? Normal people can't cultivate the technique."

"In that case, how did Chu Kuangren and the Human Ancestor cultivate it?" The Heavenly Saint sounded impatient and angry.

Why them?

The Heavenly Saint was also a talented cultivator who had overpowered his era.

He believed he rivaled the Human Ancestors in terms of talent and gifts and Chu Kuangren too. Why should he compare himself to a young Monarch?

Why them and not him?

"That's because they're beyond the common sense."

Mingyue Wuxia scoffed. She ignored the Heavenly Saint's pressure and sat up straight.

After a while, the Heavenly Saint said, "Mingyue Wuxia, you defied the direct order of the Heavenly Saint, and that's insubordination. You are hereby punished to the Heavenly Deterioration Land for a million years to reflect on your mistakes!"

"Thank you, Heavenly Saint." Mingyue Wuxia scoffed. After that, she got up and left. Her snowy white hair fluttered along with every step she took.

Chapter 2385 Soul Tribe Cancels the Wedding, Spatial One Furious, Thought of Changing Sword Spirit

Other than Mingyue Wuxia being punished at the Heavenly Human Sanctuary, the other forces were also affected by the aftermath of the Void Ruler's death.

At the Soul Tribe, Hun Meier returned with her people and immediately went to the tribe leader. "Father, I want to cancel the wedding!"

"Cancel the wedding?"

Surprised, the Soul Tribe Leader asked, "The Spatial One is born from the source of the Void. He's talented. Even if the Void Ruler is dead, the Spatial Tribe is still resourceful. Why cancel the wedding?"

"Look at this."

Hun Meier showed her father a Vision Recording Rock instead of explaining.

Scenes were being played from the rock's glimmer.

Most showed how the Spatial One performed in the Heavenly Void Spirit World.

In conclusion, he was not terrible, but with his identity and status, he did not stand out either.

More importantly, the rock also recorded everything Chu Kuangren did. He overpowered the Spatial One, Zhu Yang, fought all the Monarchs, killed them like livestock, and ultimately killed the Void Ruler.

He shone like the sun, while the Spatial One was just a dull rock.

In fact, comparing the Spatial One with Chu Kuangren was an insult. The Spatial One did not even have the right to be put on the same level as Chu Kuangren.

"Father, if we teamed up with the Spatial Tribe, we would surely face Chu Kuangren in the future. Think about it. Why would we make an enemy out of someone so powerful? What can we benefit from the wedding with the Spatial Tribe?" Hun Meier said.

The Soul Tribe Leader pondered.

His daughter was right.

The Soul Tribe was resourceful but not so extensive that they could control the Infiniverse and trample over everything. However, with what Chu Kuangren had done up until now, especially killing the Void Ruler, it would be wise for the Soul Tribe to fear him.

Besides, Chu Kuangren was still very young.

No one knew how strong he would grow in the future.

Making an enemy out of him was not a wise choice.

"Besides, I've noticed that Chu Kuangren is highly reputable among humans. His disciple is the Tempest King, one of the three Adjudicators of the Supreme Council, so the Human Empress and Earthen Monarch were fond of him as well. "Moreover, his Pan Gu Sect is thriving. The cultivators of his sect have seized multiple places on the leaderboards and have promising futures with unlimited potential. The sect has far surpassed a common Monarch force, and we cannot underestimate them. On top of that, he is also more than just the sect leader. "He is also closely related to the Radiant Church, the Radiant Trib, and the Devil King, who is also a Source Being..." The more Hun Meier explained, the more concerned the Soul Tribe Leader was.

Who would have thought Chu Kuangren had so many identities?

"Cancel it! We must cancel the wedding with the Spatial Tribe!"

The shards and the cultivation techniques reignited the Spatial One's hope. "This is great! With the Void Ruler's inheritance, I can be stronger! B\*tch, Chu Kuangren, just you wait!" Even though Chu Kuangren had killed the Void Ruler, the Spatial One believed it was just a fluke. Chu Kuangren had the help of the Primal Infernal Dragon, the Devil King, and the Human Ancestor's sword.

If not for that, Chu Kuangren could not kill the Void Ruler, not even with ten of him.

With the Void Ruler's inheritance, the Spatial One might stand a chance.

The thought delighted him, and he went into cultivation immediately.

After the Spatial Tribe Leader learned about the inheritance, he decided to bite the bullet and invest all the resources into the Spatial One's cultivation.

Having been impacted by the loss of the Void Ruler, the Spatial Tribe were desperate for a higher power to defend themselves.

The Spatial One was born from the void's source, which granted him endless potential.

He was the biggest hope of the Spatial Tribe.

"I believe this is just a minor setback for the Spatial One. One day, he will grow into the second Void Ruler," the Spatial Tribe Leader said.

Meanwhile, in the Pan Gu Sect, Chu Kuangren continued to refine the Human Ancestor's sword.

Since his return from the Heavenly Void Spirit World, he could finally progress in the refinement of the sword.

Maybe it was because of Mingyue Wuxia.

However, since the sword had no sword spirit, it could not be fully utilized, which troubled him.

Despite possessing the strongest weapon, he could not use it.

"I can't let Mingyue Wuxia go back into the sword as its sword spirit, right?" Chu Kuangren said as he shook his head with a chuckle.

Mingyue Wuxia may be the sword spirit's reincarnation, but she was also a human being, and she helped him. He could not just backstab her like that.

No matter how powerful he was, he must hold on to his principles as a human being.

"Wait, if this sword doesn't have a sword spirit, can I find a sword spirit for it?" The spark of the idea hit Chu Kuangren.

He took the Descendant Self Sword out.

The Descendant Self Sword had been with him since the beginning, and the sword spirit had grown extremely powerful.

He trusted this sword spirit more than others.

"Analyzing..."

Lil Ai started to analyze the possibility after learning Chu Kuangren's thoughts.

"The success rate of fusing the Descendant Self Sword's spirit with the Human Ancestor's sword is..."

Chapter 2386 Dragon Blood Pill, Ancient Sarira, Visit Devil King

"Three percent..."

Chu Kuangren was not surprised by the ridiculously low success rate.

The Descendant Self's sword spirit was powerful, but it was not on the same level as the Human Ancestor's sword.

It was not easy trying to fuse them together.

"I have to think of a way to make the Descendant Self's sword spirit stronger."

Chu Kuangren pondered.

Fortunately, he was not in a hurry.

A while later, he recovered the energy he exhausted in the Heavenly Void Spirit World.

He then summoned Shang Honghua, Elder Dragon Huang, and Yang Mei.

"These are for you."

Chu Kuangren gave them a part of the dragon blood and the Source of the Void Ruler.

The dragon blood was beneficial to Shang Honghua and Elder Dragon Hua. As for the Void Ruler's Source shard, it would help Yang Mei, a Spatial Innate Being, a lot. It would be enough for him to break through to the next cultivation level.

They accepted Chu Kuangren's gifts humbly.

"Thank you, Sect Leader!"

"Kabaam!"

Suddenly, a loud explosion went off further away.

A certain part of the sect exploded, and a burst of herbal fragrance filled the air.

Chu Kuangren appeared at the place of the explosion in a flash and saw Yue Shanling climbing out from the rubbles.

"Thank you, Sect Leader!"

They accepted Chu Kuangren's gifts humbly.

"Kabaam!"

Beside him were several pills glowing in crimson light.

"I did it! I have finally refined the Dragon Blood Pill!"

Yue Shanling looked like a mess, but he was thrilled and excited. He held the pills in hand and laughed hysterically.

Chu Kuangren went over to him to ask what happened.

That was when he learned that Yue Shanling had successfully developed a new pill using the Primal Infernal Dragon's blood, named the Infernal Dragon Pill.

The pill could boost one's talents, ease one's body, and recover injuries. It could even prolong one's lifespan, and it was precious even to a Monarch.

"Even a Monarch can benefit greatly from the pill," Yue Shanling said as he looked at the pills proudly.

Less than a handful of people since the beginning of time could craft such pills. Not even the first place on the Alchemy Leaderboard could do it.

"Handsome guy..."

The succubuses on the street tried their best to seduce Chu Kuangren.

Compared to the first time he walked the streets, things had changed a little. It was less chaotic than the first time, and things were more organized.

In addition, the place thrived and looked more lively. It could be because the Devil King had returned to her throne, so all the forces within the territory started to behave.

Of course, the law of survival of the fittest still applied to them, but it was less brazen.

"Punk, you're quite popular with the ladies."

A tall minotaur got in his way.

He was pissed because Chu Kuangren was favored by the succubuses. He wanted to teach the human a lesson and show the succubus who the alpha male was.

"Are you asking for a fight?" Chu Kuangren asked.

"What if I am?"

"Hey, you better leave."

"You should be the one walking away, little punk! Beware of my fist!"

The minotaur threw a punch at Chu Kuangren.

However, before the punch could touch Chu Kuangren, the minotaur was blasted away by an invisible force and crashed into the walls of the city.

An alluring succubus appeared beside Chu Kuangren.

All the other devils knelt on the ground when they saw her.

"Succubus Archduke."

She was one of the three Archdukes of the Devil Tribe — Succubus Archduke.

"Impudent fool. How dare you stand in Monarch Chu's way? You should be punished by death."

The Succubus Archduke grunted coldly before she looked at Chu Kuangren with a smile. She bowed and said, "Monarch Chu, I'm pleased have you here. The King is waiting for you. Please come with me."

Only then did the other devils realize that the human punk was a powerful figure.

"Let's go," Chu Kuangren said, unconcerned about the little interruption.

As the two of them walked off, a heated discussion sparked among the devils.

"Who was that man? Why did the Succubus Archduke welcome him herself?"

"It seems like the King's VIP."

"Monarch Chu? Wait, is he ranked first on the Divine Bachelor Leaderboard?"

When some of the smarter devils realized who Chu Kuangren was, they gasped in fear.

As the Divine Bachelor of the human race and the first Monarch of the era, his name was well-known across the universe. Everyone knew he was a powerful person and that he killed a Source Being a while ago.

"Oh my! It must be him! That explains why the King treats him as an important guest."

"If he wanted it, he could level out the entire Devil Tribe."

Chapter 2387 Primal Gods, Ancient God of War, First Hearing of God Emperor

On the throne inside the Devil Palace sat a slender figure.

"My King, Monarch Chu is here."

The Succubus Archduke brought Chu Kuangren to the Devil King and bowed.

"Alright, you can go now."

"Yes, my King."

With that, the Succubus Archduke left the court.

The Devil King looked at Chu Kuangren and said, "You've recovered rather quickly. The Human Ancestor's body sure is astounding."

Judging from her tone, she was not surprised that Chu Kuangren acquired the Human Ancestor's body. Then, she pointed at a seat beside her throne and said, "Have a seat."

"Thank you."

Chu Kuangren skipped the courtesy and sat down. "I came as promised, so please tell me everything from the beginning."

"Rather telling you the story, why don't I show it to you?"

The Devil King pointed at his forehead.

The tip of her finger shone, and a sea of images appeared in Chu Kuangren's mind.

All the images and scenes were of battles that shook the universes.

It would be more fitting to call them wars instead of mere battles.

In the wars, Chu Kuangren saw something strange. There was a darkness that devoured all Daoist laws and plunged the Infiniverse into eternal darkness.

There were unparalleled elites that slashed the universe with a saber, dispelling the darkness.

There was the Infernal Dragon whose eyes opened and closed, representing the day and night. He was a master of time itself.

There was a beautiful lady who fought valiantly, channeling the power of thunder and gale to crush planets.

Amongst all those astounding beings, a particular person captured Chu Kuangren's attention.

It was a man in white robes. He had a crystal sword at his waist as he transformed into different shapes and sizes to overpower his opponents. No matter how strong his opponents were, he was able to slaughter them like pigs.

The man was fighting another person in dark golden robes and had a crown on his head. His emperor aura was like nothing Chu Kuangren had seen before. Just one glance at the emperor figure and Chu Kuangren could feel the pressure already. It felt like it could travel through time just to frighten those who laid eyes on him.

Such a powerful being, despite being only a fragment of the Devil King's memories, possessed unpredictable powers.

All the wars that happened were terrifying.

They almost crushed the Infiniverse.

Monarchs were nothing but expensive cannon fodders in the wars.

Only the Unlimited Great Dao could keep themselves alive.

The strongest Overlords could turn the tides around.

After a while, Chu Kuangren finally came back to his senses. He looked at the Devil King. "What wars were those? What are you guys fighting?"

"That would be Infinity War."

The Devil King further explained, "During the ancient Hongmeng era, the Great Hongmeng Universe wasn't as it is now, where it resets after a certain time. The reason why the universe resets is because it is broken."

Chu Kuangren's eyes widened in realization.

The Great Hongmeng Universe was the origin of the Infiniverse, so countless other universes were born from the Great Hongmeng Universe.

Yet, the Devil King said the Great Hongmeng Universe was broken?

"Is it because of Infinity War?"

"Yes."

The Devil King nodded. "During ancient times, back when the Great Hongmeng Universe was born, the three thousand Great Daos had yet to manifest or take form. It was the era of origins, and the Sources that everyone sought now were everywhere in that era.

"A group of Source Beings were also born in that era, such as the Void Ruler, the Primal Infernal Dragon, the God of Slaughter, Human Ancestor, Beast God, and more. They were all beings of that era, and they called themselves Primal Gods.

"They're the oldest beings of the Infiniverse. After that, as the Sources slowly faded and the three thousand Great Daos began to manifest, a number of Great Dao Beings were born. They were stronger than the current Monarchs but not as strong as the Primals, so they chose to obey the Gods.

"I am a Great Dao Being."

The Devil King yawned at Chu Kuangren and continued, "Devil Bone is my original name. I am actually a bone that has absorbed countless evil intent. In time, more and more beings were born, and the evil intents made me stronger. Even though I am a Great Dao Being, I can stand against the Primal Gods, making me one of the few Great Dao Beings who could rival them."

Primal Gods and Great Dao Beings.

Chu Kuangren pondered at the thought of the Primal Gods and Great Dao Beings.

It seemed like that era was filled with grandness and miracles.

The Devil King continued, "Many years later, the Great Hongmeng Universe stopped giving birth to beings, so the Primal Gods went silent after that. However, some of them started to be the creator of their own tribes.

"The human race, the Dragon Tribe, the Spatial Tribe, the Celestial Divine Tribe, the Soul Tribe, and more were all created then."

"The Primal Gods invested their love and feelings into the tribes they created, but as time went by, more and more tribes were born, and so did the negativity of living things. The Great Hongmeng Universe's resources were finite, but the Primal Gods' desire for creation was endless. So, a war broke out.

"It started from tribal wars and slowly escalated to wars between Gods. Then, a living being, who was created by one of the Gods, killed a God. That person possessed the potential to surpass the Gods, and it was then the Gods knew fear for the first time.

"Some of the Gods decided to wipe out the living beings they created and reset the universe back to its primal state, but the other Gods disagreed. As the argument continued, the scale of the war grew, and it slowly developed into the Infinity War," the Devil King explained.

Chu Kuangren was amazed by the story. "So you're telling me the Infinity War might happen again in the future?"

"That's right."

The Devil King nodded. "The Infinity War lasted for an entire era back then. Some of the Gods fell, some of them went into slumber, and some reincarnated. However, the Infinity War never ended. The Master of Destiny once said there would be a final era in the future that would put an end to this endless war. Now, this era will be the final era.

"Be it reincarnation or slumber, all the ancient Primal Gods are awakening. The Infinity War will happen again. It is a war across universes, and everyone is part of it."

The Devil King's expression turned grim.

Only then did Chu Kuangren realize the Devil King was eagerly raising elites and recruiting allies because she was preparing for the impending war.

"So, you, the Primal Infernal Dragon, and the Human Ancestor are on the side of protection, while the Doomsday Darkness, Void Ruler, and the others are on the side of destruction. They want to reset the world back to its primal state."

"That's right."

"May I know which side is stronger?"

"The destruction side is stronger. During the Infinity War, several powerhouses of the protection side, like the Primal Infernal Dragon, died while the Human Ancestor sacrificed himself to seal the God Emperor. As for the destruction side, aside from the others, the strongest one, the God Emperor, is still alive," the Devil King said.

"God Emperor..." Chu Kuangren murmured.

An image of the God Emperor, the strongest Primal God, appeared in Chu Kuangren's mind.

It was just the memories of the Devil King, but a peek at the God Emperor gave Chu Kuangren a terrible headache. It was as if a mountain fell on his head.

"The Human Ancestor gave up his life to seal the God Emperor, not kill him. Hehe! It seems like it's going to be a tough fight."

Chapter 2388 Devil's Liquid, Can't Drink It, A Discount

Chu Kuangren's heart felt a little heavy after listening to the Devil King's story.

Compared to the Infinity War, the Void Ruler and the Doomsday Darkness were just appetizers. Even the Human Ancestor fell during the war.

Once it arrived, the loss of lives would be an understatement as countless universes would be destroyed. If the Pan Gu Universe was caught in the flames of war, it would be ruined.

Chu Kuangren took a deep breath. He could not allow it to happen!

"Maybe it's still too early to tell you this," the Devil King said with a sigh when she saw the grim look on Chu Kuangren's face.

Even she, a Great Dao Being who had lived for many eras and could rival a Source Being, was worried about the future, let alone the young Monarch.

"No, it's okay. I can be prepared for it," Chu Kuangren said.

The Devil King looked at him with relief.

Back in the day, the Human Ancestor was one of the leaders of the protection side, and the Devil King saw endless potential in Chu Kuangren to become the second Human Ancestor.

Before this, she simply assumed he could be an ally to her. Now, he could become more than just an ally.

"Oh, right. If the Void Ruler and the others on the destruction side want to wipe out all life, the Spatial Tribe and the tribes they created are also targets. Is it possible to persuade them to stand with us and resist the Gods?"

Chu Kuangren might have a grudge against the Spatial Tribe, but rather than wiping them out, he might as well try to make them cannon fodders in the war.

"It won't work. The beings created by the Gods have the potential to surpass their Gods, but only a handful of them can. Most of the beings can't defy their Gods. Besides, the Void Ruler and other Gods can easily open up an individual space to keep their own creations. When the Infiniverse resets, they can just bring them back out," the Devil King said.

Chu Kuangren was left speechless to learn that the Gods on the destruction side wanted to wipe out all lives but their own creation. Double standard much?

In simpler words, the reset of the Infiniverse might be just an excuse. They wanted to wipe out other beings who stood against them and then share the resources of the universe with those who shared the same ideals.

"My King, the Dark Demonic Ruler is requesting a meeting."

The Succubus Archduke came in with a message.

"Bring him in."

A while later, the Dark Demonic Ruler came in, and when he saw Chu Kuangren, he was stunned. He said with a smile, "It's been a while, Master of Destiny."

"Huh?"

The Devil King was surprised when she heard the Dark Demonic Ruler. She looked at Chu Kuangren in shock and asked, "You're the Master of Destiny?"

Since Chu Kuangren did not need to hide his identity anymore, he nodded and admitted it. "I am."

It was the first time Chu Kuangren was trying it, so he picked up the glass, and the aroma of wine charmed his nose.

It smelled amazing, like a woman's bodily scent.

However, right before he could take a sip, Lil Ai's voice rang in his mind. "Master, don't drink it!"

Chu Kuangren's eyes narrowed. "It's poisoned?"

"No."

"If not, why can't I drink it?"

"The wine is a little special. It's made with the succubus' bodily fluid. If you can accept it, please go ahead."

Lil Ai's comment silenced Chu Kuangren.

A moment of silence later, he put the glass down.

The Devil's Liquid was, as its name suggested, the bodily liquid of the devil!

The Dark Demonic Ruler enjoyed it as if it was the best wine in the world. "The Devil's Liquid is great! It's rich, aromatic, and sweet down the throat. It really does live up to its reputation!"

Chu Kuangren did not say anything. As long as the man was happy, it was fine. "What's wrong, little one? You don't like the wine?"

"I have my own, and I'm quite used to the flavor already. I can't get used to drinking other wine."  
Chu Kuangren smiled and took out a jar of A Fleeting Dream.

Even though the succubuses were beautiful and their bodily fluid was considered the rarest dew by others, Chu Kuangren just could not accept it.

"Is that so?"

The Devil King looked at his profound smile but did not say anything.

After the meal, Chu Kuangren left the Devil's Territory.

Before he left, the Dark Demonic Ruler asked him about the Radiant Goddess.

"Are you worried about your sister?"

"I'm worried that if she died, I'd lose a rival. Wouldn't that be lonely?" the Dark Demonic Ruler said.

"Don't worry. She's fine. And this, I think I should give it back to you."

Chu Kuangren gave the Dark Ruler Amulet back to the Darkness Demonic Ruler. "Master of Destiny, the deal between you and I isn't done yet." the Dark Demonic Ruler said with a grin. "You said you would help me look for something to heal my injuries, but you've taken the benefits I gave you without fulfilling your promise. That's not nice."

"Destiny is always fair and never owes anyone. If there's another deal, I will give you a discount," Chu Kuangren said.

"Haha! It's a deal."

Chapter 2389 Mingyue Wuxia's Situation, How Can You Treat The Human Race's Benefactor Like This, Chu Kuangren's Wrath

After leaving the Devil's Territory, Chu Kuangren pondered where he should go next.

There were two places he must go — the Heavenly Human Sanctuary and the Heavenly Buddhist Pure Land.

He had to go to the Heavenly Human Sanctuary to give Mingyue Wuxia the Infernal Dragon Pill and ask her how to boost the power of the sword spirit.

Even though Lil Ai had many solutions, he wanted to ask the sword spirit of the Human Ancestor himself.

She was considered the first and the oldest sword spirit that ever existed.

The concept of the sword began with her.

The next place he had to go to was the Heavenly Buddhist Pure Land to retrieve the Devil King's Ultimate Supreme Weapon. The Devil King was a promising ally, and she had helped a lot, so he did not mind running an errand for her.

Since the Heavenly Human Sanctuary was nearest, he decided to head there first.

A while later, Chu Kuangren arrived at a mountainous place. There were many pavilions and structures built along the mountains, and all of them were glimmering with Immortal Sparks.

Its grandness far surpassed a blessed land.

"Who goes there?"

Someone arrived before Chu Kuangren.

The person was a Grand Dao cultivator, and he seemed to be one of the young ones in the sanctuary. He looked cautious and alarmed when he saw Chu Kuangren.

Chu Kuangren put his hands together and said, "I am Chu Kuangren, here to visit Mingyue Wuxia. Please deliver the message."

"Chu Kuangren?"

The young man was shocked at first, but he eventually looked hesitant.

"The Divine Maiden is not receiving guests now."

"Not receiving guests? Is she hurt from the battle in Heavenly Void Spirit World?" Chu Kuangren frowned.

No. It did not sound right.

Mingyue Wuxia was hurt but not physically. She had sacrificed her lifespan, but she was not so weak that she could not see anyone else.

Besides, Chu Kuangren did not conceal his presence.

The Monarchs of the Heavenly Human Sanctuary should have noticed his arrival, yet no one came.

He was not trying to brag, but with his current status and power, even the Adjudicators would have to welcome him themselves if he visited the Supreme Council.

Yet, the Monarchs of the Heavenly Human Sanctuary ignored him.

It was obvious that they did not welcome him.

However, he was not concerned. He was here to see Mingyue Wuxia, and only she mattered.

"The Divine Maiden's right. Chu Kuangren was fighting the foreign tribes, yet as the Divine Maiden of the human race, she was punished because she helped. What wrong did she do?"

"Shh! Don't let others hear you. If the ruler hears you, no one can save you!"

Chu Kuangren heard a lot of gossip along the way, so he more or less knew what happened to Mingyue Wuxia.

The Heavenly Deterioration Stage Five was the heaviest punishment for a cultivator. Once the deterioration started, one would be moving toward death.

A cultivator would lose the Immortal's Core, Daoist law, and everything he or she cultivated. One's appearance would age rapidly, the body would be weakened, and the soul would lose its sanity until one was dead.

It was normal to the mortals, but to a cultivator who had a lengthy lifespan and powers, it was more terrible than death.

Many cultivators would choose death over being tortured slowly.

Inside the Heavenly Human Sanctuary was a special Spirit World named the Heavenly Deterioration Land. It was a place for cultivators to experience the Heavenly Deterioration Stage Five again and again.

Common cultivators feared the deterioration, let alone going through it endlessly.

However, Mingyue Wuxia was currently being tortured endlessly in that Spirit World.

Chu Kuangren's eyes turned cold.

He was not particularly close with Mingyue Wuxia, but in the battle with the Void Ruler, she had sacrificed a billion years of lifespan not just for him but the entire human race.

How could a benefactor of the human race be locked up as punishment in her own sect? Instead of being rewarded or praised, she was locked up to suffer the Heavenly Deterioration Stage Five.

Moreover, she was already terribly exhausted from the battle.

"Hmph. Heavenly Human Sanctuary, you've done it this time. And you, Heavenly Saint!" Chu Kuangren scoffed furiously.

One of the juniors noticed the expression on his face and could not help but wonder. "Senior, what's wrong with you?"

Then, Chu Kuangren stepped forward and started to glimmer with Immortal Sparks.

In just a breath's time, his looks changed, and his aura skyrocketed.

A boundless aura flooded the sanctuary immediately.

"Bang!"

The entire Human Sanctuary trembled.

All the Monarchs within the Sanctuary were shocked.

"What? Why did he come back?"

"What a domineering aura! Who made him mad?"

"This is going to be troublesome."

The Monarchs were afraid.

They could no longer sit back and ignore him.

Not even the resourceful and influential Heavenly Human Sanctuary could handle Chu Kuangren's wrath.

Chapter 2390 Human Race's Benefactor, Not Someone You Can Insult, Overwhelm the Heavenly Human Sanctuary

Chu Kuangren released his aura across the Heavenly Human Sanctuary. The entire sanctuary trembled.

Monarchs came out from every direction and surrounded Chu Kuangren.

All of them feared him.

"Chu Kuangren, what are you doing here?" the Heavenly Human Sanctuary Ruler said coldly.

"The benefactor of the human race is not someone you should be punishing! I want you to release Mingyue Wuxia right away," Chu Kuangren hissed.

"Nonsense! Mingyue Wuxia is our Divine Maiden! Who are you to tell us what to do with her?"

"It's because I'm her ally!"

"Even so, you have no right to interfere with the sanctuary's matter."

"In that case, should I tell my disciple, the Tempest King, to demand you to release Mingyue Wuxia using her Adjudicator's right? Is that enough?"

"You..."

The Heavenly Human Sanctuary Ruler's expression turned grim.

The Supreme Council had the highest authority of the human race.

Even the sanctuary must obey them.

If they were to interfere, the sanctuary would be put in a tough spot.

However, the Heavenly Human Sanctuary Ruler refused to compromise. He said coldly, "Even if the Supreme Council is here, they have no right to interfere with our internal affair!"

"If so, don't blame me."

Chu Kuangren released a powerful wave of spirit energy to scan the place for the Heavenly Deterioration Land.

Since the sanctuary refused to release Mingyue Wuxia, he ought to do it himself and by force.

"Chu Kuangren, how dare you!"

The Heavenly Human Sanctuary Ruler knew what Chu Kuangren wanted to do.

It had been many years since anyone challenged the authority of the Heavenly Human Sanctuary, let alone take someone away before the sanctuary's Monarchs.

As such, the Heavenly Human Sanctuary Ruler was forced to attack.

He attacked with a punch, releasing the mystical art of the Heavenly Human.

A massive Taiji diagram crashed down from the sky.

"I don't even take Ultimate Monarchs seriously, and you think you can scare me?"

Chu Kuangren pointed his finger upward and slashed it across the air.

"Clank!"

The massive Taiji diagram was cut in half.

An explosive surge of energy destroyed the mountains.

Under the sword qi's attack, the Heavenly Human Sanctuary Ruler was struck in the shoulder and blasted a few hundred meters away. He looked at Chu Kuangren in shock.

He was a First Step Monarch, yet he was defeated with just one move.

He had heard how powerful Chu Kuangren was, but when he faced the monster himself, he felt suffocated. He was no match for Chu Kuangren at all.

"Chu Kuangren, do you really think the sanctuary has no one else?"

A Monarch stepped forward. He was an ancient Monarch, and his cultivation level had reached the First Step. In the sanctuary, he was second only to the Heavenly Saint.

The moment he stepped into the battle, he summoned his avatar immediately.

The avatar resembled the Taiji diagram.

However, the Yin-yang energy contained inside released a boundless aura.

Chu Kuangren, too, narrowed his eyes and summoned an avatar behind him.

It was the Tempest King's avatar!

"Cosmic Crumbling Yin Yang Strike!"

The ultimate technique of the Tempest King was cast, releasing a stronger Yin-yang energy.

With just a blast, the Taiji avatar was crushed, and the ancient Monarch was pushed more than several hundred meters backward. Still, he roared and expanded his domain.

The moment his domain expanded, rumbling Yin-yang energy filled the realm and released black and white beams at Chu Kuangren.

"Domains won't stop me!"

Chu Kuangren had not manifested his own domain or his avatar, but his strength far surpassed his common peers. Monarch Domains were useful against other Monarchs but not him.

"Sword Twenty-five!"

Chu Kuangren pointed his sword hand sign forward, and sword qi swirled around him. When Sword Twenty-Five erupted, sword qi that shadowed the sky flooded the realm and shook the mountains.

As the waves of Yin-yang energy were shredded by the sword qi, the ancient Monarch was blasted away again.

Following that, his domain exploded.

The others gasped in shock.

Not even the First Step Monarchs were Chu Kuangren's match anymore, and his power frightened everyone. "Damn it! Get him together! We can still suppress him if we team up!"

"Yeah!"

The Monarchs surrounded Chu Kuangren and attacked together.

Terrifying Daoist law energy shadowed the sky and flooded the land.

All the other disciples of the sanctuary were frightened by the fight. They felt like the end of the world was happening.

"Fools."

Chu Kuangren scoffed at the Monarchs who attacked him together.

Then, all kinds of Daoist law energies glimmered behind him.

Radiant Daoist law, Darkness Daoist law, Spatial Daoist law, Sword Daoist law, and all the different Daoist law energies manifested into different Monarch Avatars!

It felt like ten Monarchs had arrived!

The Tempest King's avatar punched while Thundergale energy shook the universe.

"Bang!"

A Monarch was blasted into the sky.

The Sword Avatar wielded the massive sword for a slash. The sword qi felt like it could cut through the sky and land, causing one of the Monarchs to lose his arm.

The Radiant Avatar, Darkness Avatar, Manifa Avatar, Heavenly Human Avatar, and all different avatars attacked with their respective techniques.

All the Monarchs of the sanctuary were overwhelmed by the barrage of attacks.

Chu Kuangren had single-handedly overpowered every Monarch of the Heavenly Human Sanctuary!

The Monarchs looked at Chu Kuangren, who was surrounded by his different avatars. Their eyes reflected nothing but fear and disbelief. It felt like they were looking at the most unbelievable thing in the world.

"That's the Manifa Avatar."

"The Limitless Transformation Technique is really terrifying!"

"What kind of freak is he?"

The Monarchs were beaten into submission.

They were no match to him at all.

Just then, a powerful aura erupted from the deepest part of the sanctuary.

"Chu Kuangren, do you really think no one in the sanctuary can stop you?"

A frosty voice echoed in the sky, and a person strutted over.

He was the Heavenly Saint, the strongest Monarch of the Heavenly Human Sanctuary.

He looked at Chu Kuangren coldly and locked onto the latter with the Ultimate Monarch's aura that also contained the energy of the realm.

Chu Kuangren sneered and said as he stood firm, "You're finally here. I thought you were a coward."

Strictly speaking, he had no grudge against the Heavenly Saint.

Both of them had only met once during the human race's election.

However, the fact that the Heavenly Saint had Mingyue Wuxia locked up left a bitter impression on Chu Kuangren. That was why the first thing he said to the man was to provoke him.

"You're just a junior. I don't want to fight you. You have one last chance to leave this place at once," the Heavenly Saint said.

"Release Mingyue Wuxia and I will be on my way."

"Impossible."

"Then, what nonsense are you on?"

Chu Kuangren swung his sleeve, releasing his Monarch aura that prompted the avatars behind him to release their respective energy and blast it at the Heavenly Saint.

"You're full of yourself!"

The Heavenly Saint's gaze turned cold as he gathered the energy of the realm and summoned a massive Taiji diagram, breaking the avatars one by one.

He stood with his hands behind his back, looking confident. "You have a lot of avatars, but that's nothing before an Ultimate Monarch.

"Is that so?"

Chu Kuangren channeled his Daoist law energy, and his aura started to turn vague.

He was using the Heavenly Human Art to boost himself with the realm's energy.

Then, he used the Heaven-devouring Technique to absorb the spiritual qi of the realm.

Not only were the Nine hundred and eighty-one formations on his body activated, but the Manfa Indestructible Physique was also activated via the Limitless Cultivation.
