Chapter 2441 Fight Reversal God For the First Time, Destiny's Gate That Compiled Everyone's Strength

The arrival of the Reversal God brought forth an indomitable aura that swept across the battlefield.

His arrival shook the Inifniverse, and even Monarchs were horrified by the aura.

Only Chu Kuangren was able to keep his calm before the intimidating presence.

His hands were behind his back as he looked at the Reversal God. "Reversal God, the one behind the Fate Defiant Masters, we finally meet."

"The latest generation of the Master of Destiny, it's a pleasure to meet you."

The Reversal God looked at Chu Kuangren with surprise. "I didn't expect to be summoned even with Doomsday Darkness and Heavenly Sovereign teaming up. Wait... This is... the Fortune Kingdom! No wonder. Now, that makes sense. You constructed your kingdom."

He praised Chu Kuangren at first, but when he noticed the structure around the island, his eyes widened in shock. He was surprised that Chu Kuangren managed to construct his Fortune Kingdom.

That explained why the Four Fate Defiant Kings would ignite their Monarch's Hearts to summon him.

Chu Kuangren was a terrifying foe indeed.

"You should be glad this is just a clone of yours, or I would kill you here and now," Chu Kuangren said.

He could see that the Reversal God before his eyes was just a clone. The real Reversal God should still be in shackles after being sealed by the first-generation Master of Destiny.

"Bold words. Even if I'm a clone, I can kill you," the Reversal God said with a grunt.

He then pointed at Chu Kuangren and blasted forward boundless Reversal energy.

However, Chu Kuangren was unfazed. He, too, pointed his sword hand sign upward and used one of his strongest attacks. "Sword Twenty-four!"

The sword ray outshone the sun.

The moment the sword and finger clashed, the collision of the sword qi and Reversal energy released a massive shockwave.

The Master of Destiny and the Reversal God had officially met and fought in this final era.

Neither of them stepped back, and they fought each other with everything they had.

A sliver of the stray energy from their fight carried unimaginable power that could tear a common Monarch to shreds.

"Fate Defiant Heavenless Art!"

The Reversal God punched forward, and the Reversal energy he released manifested into a palm as big as the sky.

The palm strike contained the power of an entire Great Dao and had surpassed the full strike of an Unlimited Great Dao!

It could already be considered an attack from an Overlord.

Nevertheless, Chu Kuangren pointed his sword hand sign up and activated all kinds of cultivation techniques to boost himself.

With the Heavenly Human Art, Formation Vessel, Heaven-Devouring Technique, the Fortune Kingdom, and the island's spiritual qi, his energy level also skyrocketed and surpassed the Unlimited Great Dao Realm.

"Sword Twenty-five!"

He slashed with the sword qi that swept through the past and present!

The violent clash between two powerful attacks shook the entire Great Hongmeng Universe.

The void was torn to shreds, and the stray energy seeped into the void between universes, causing even more explosions.

All the affected universes were shaken!

As endless light shone across the Infiniverse, all the elites across the Infiniverse sensed the clash.

"That's terrifying!"

"A battle affecting the entire Infiniverse? What kind of powerful elites are fighting?"

"I think they're far stronger than a Monarch."

"Could it be a legendary Overlord?"

Back in the Great Hongmeng Universe, all the other Monarchs paid close attention to the battle.

The battle might be the fiercest in the era, rivaling the battle between the Void Ruler, Primal Infernal Dragon, and the Devil King. In previous eras, a battle of such caliber was almost impossible. Even when Monarchs fought in the previous eras, it did not cause such a huge commotion.

However, in this final era, there were many historic battles and battles between the Source Beings. How terrifying! Everyone was in awe.

"The Fortune Kingdom is really something. In the oldest era, only less than a handful of them could construct and create their kingdom. You are indeed a threat. Even if I have to exhaust all the energy in this clone, I must kill you here and now!"

The Reversal God's gaze was overflowing with murderous intent.

Chu Kuangren swung his sleeve. "Give it your best shot!"

"Fate Defiant Art, Sun Moon Sink!"

The Reversal energy from the Reversal God was extremely powerful.

It was much more powerful than the Four Fate Defiant Kings combined. On top of that, the Reversal energy was also connected to the source, which made it more terrifying than common Reversal energy.

The attack summoned the sun and moon that shone through the past and present.

Chu Kuangren knew the incoming attack was powerful, so he dared not be careless either.

A cold glint flashed in his eyes as he pointed his sword hand sign forward, releasing blinding sword intents.

"Sword Twenty-six!"

Once the strongest sword technique was cast, the Sword Great Dao trembled and released sword qi from the past and present.

Conjurations of past swordsmen appeared behind Chu Kuangren and combined their sword intents into a single slash!

That would be the complete version of Sword Twenty-six!

With the boost from Fortune Kingdom, Chu Kuangren did not need to rely on the Human Ancestor's sword to use that ultimate technique.

The complete version of the Sword Twenty-six, which combined the sword intent from past to present, was the most powerful slash in the universe. It could be considered the most powerful sword technique ever created as it connected the past and the present!

Who could possibly stand in its way?

When the slash clashed with the Reversal God's most powerful attack, the explosion felt like the big bang that started the universe.

Dazzling light, blinding Daoist law energy, sword qi, Reversal energy, and everything else clashed together and painted the universe in different colors.

Although both Chu Kuangren and the Reversal God were pushed back, they managed to hold their balance.

They stood high in the sky and stared at each other fiercely. Their auras felt weaker already.

The clash between the ultimate attacks affected both of them.

"This is the final blow to end destiny!" The Reversal God growled and summoned multiple balls of white flame.

Then, he channeled the clone's energy to the limit.

The sky above him shook.

As the stars gathered above his head, the Reversal energy formed a starry sky that seemed boundless.

Starry light shone through nothingness, basking all things with its brilliance.

It felt like the entire history of the universe was unfolding before the people's eyes.

Everything looked mystical and captivating. Even the Monarchs could not look away.

The Heavenly Sovereign and the Four Fate Defiant Kings put all their hopes into that final strike.

They knew that one would end everything and decide their fate.

Live or die, that would be it!

Chu Kuangren narrowed his eyes. "You want to end destiny? You're still sealed by the first-generation Master of Destiny. What gives you the right to say that?"

After that, he rose into the sky and said, "Lend me your strength!"

Gu Linglong and the others understood him tacitly.

All the cultivators of the Pan Gu Sect channeled their energies, and light started to gather on Chu Kuangren.

"Your kingdom can gather the strength of its people?"

The Reversal God was shocked.

He thought Chu Kuangren had merely constructed the Fortune Kingdom but not mastered it.

Hence, he did not expect Chu Kuangren to be able to use the Fortune Kingdom to draw energy from his subjects!

"Reversal God, you can never win against fate!" Chu Kuangren said.

Then, he channeled the energies he received and summoned the Destiny Great Dao.

The authority of the Master of Destiny was on full display!

"Destiny's Gate! Crush him!"

A colossal Destiny's Gate appeared from the sky.

Its boundless aura shook even the Infiniverse!

Chapter 2442 Kill Reversal God's Clone, Heavenly Sovereign's Regret, You Owe Me One

Unparalleled aura expanded across the battlefield.

The Destiny's Gate rose high into the sky and crashed down on the Reversal God's clone.

It was a terrifying strike as Chu Kuangren channeled his Master of Destiny's authority to the limit. Together with the boost from Fortune Kingdom, the Destiny's Gate contained the power of the Destiny Great Dao!

"Boom!"

The stars in the way exploded.

The Reversal God's eyes widened in fear as an unprecedented force made him shudder! Looking at Chu Kuangren now reminded him of the first-generation Master of Destiny.

"Damn it!"

The Reversal God channeled his Reversal energy to the limit.

The starry sky above his head glimmered beautifully.

Unfortunately, with the boost of the Fortune Kingdom, the Destiny's Gate possessed unrivaled power. No matter how strong the Reversal God was, he could not counter the strike. Following a loud noise, the starry sky above his head was destroyed by the Destiny's Gate.

The moment the gate fell on his back, the tremendous force from the door made him fall on one knee. However, he growled loudly and tried his very best to resist the force, refusing to kneel on both his knees.

"Fate wants me to kneel? Never!" Reversal God roared.

"Kneel!"

Chu Kuangren appeared above the Reversal God and pressed his foot on the gate, putting even more force on it.

"Crack!"

The Reversal God's kneecap was crushed, and he was forced to kneel on his second knee.

His expression turned grim. He, once again, was forced onto his knees and to kneel before fate!

"Like I said before, you're never a match for fate," Chu Kuangren said.

The Destiny's Gate's energy continued to rise sharply. In the end, when the force surpassed the Reversal God's clone limit, it finally crushed his body into pieces.

"Master of Destiny, you and I are not done yet!" the Reversal God bellowed.

"I don't mind making you kneel before me again."

Chu Kuangren stood proud with his hands behind his back, glimmering in Immortal Sparks.

...

Somewhere in space, Reversal God opened his eyes.

Powerful and angry energy expanded across the space around him, destroying planets in its way.

Hundreds of planets were destroyed by his rage.

As he tried to move, the white chains on him clunk and continued to suppress his powers.

The Reversal God was infuriated. Even though he lost only a clone, he shared a link with the clone and could feel what the clone felt.

He could feel his knees hurting.

"Damn it!" he cursed as anger drowned him whole.

Although the chains around him had started to crack, they still managed to hold him down.

"Soon! Soon, I will break free from these chains and skin Chu Kuangren alive! I will burn your soul with the Immortal Flame and torment you forever!"

The Reversal God's angry voice echoed across space.

...

Back in Pang Gu Sect, the Reversal God's clone was destroyed, and it shocked the Fate Defiant Masters.

"The God has fallen..."

"Did Chu Kuangren kill our god?"

"Has our God lost to fate?"

"No! Impossible!"

Chu Kuangren looked at the Fate Defiant Masters coldly and raised his hand, sending the Destiny's Gate after them as well.

The boundless energy froze them.

Even the Four Fate Defiant Kings could not resist the power.

With four consecutive explosions, their bodies exploded into clouds of blood mist.

"All who sieged the Pan Gu Sect today shall die."

His frosty voice echoed across the sky.

Chu Kuangren pointed his sword hand sign forward, releasing tens of thousands of sword qi to obliterate the alliance soldiers, including Monarchs.

His sword qi was like a scythe reaping souls.

"Die!" the Heavenly Sovereign roared.

He had a feeling that today might be his end, but he refused to accept it.

He endured the humiliation, the shame, and the contempt. The human race called him a traitor, and all tribes looked down on him. He refused to die without taking back what was his.

He could not accept it!

"Heavenly Golden Overworld, Supreme Honorable Fist!"

The Heavenly Sovereign channeled his Heavenly Golden Daoist law and unleashed the full power of an Unlimited Great Dao.

He blasted a torrential stream of energy at Chu Kuangren using his fist.

The Heavenly Golden energy rumbled and formed a massive fist seal in the sky, emanating an exclusive and supreme intent.

Chu Kuangren countered with the same punch and the same technique.

However, his version was much more powerful, and the exclusivity and supreme intent were more pronounced.

When their fists locked, the Heavenly Sovereign was punched away, and the Unlimited Great Dao energy in him imploded. Even his Monarch's Heart cracked terribly.

He was considered the strongest human in the human race, yet he failed to take a single punch from Chu Kuangren.

Chu Kuangren's indomitable strength frightened everyone.

"Y-You have grown so strong!"

"I was planning to look for you, but you have saved me a lot of trouble by coming to me." Chu Kuangren chuckled.

He then appeared above the Heavenly Sovereign and stopped in front of the man's face.

With the kingdom's buff, the terrifying Daoist law energy grew stronger and manifested into a giant foot to the Heavenly Sovereign's face. The Heavenly Sovereign was stomped into the ground.

His physical body was damaged and covered in blood, making him look wretched.

"Is this the end for me, the Heavenly Sovereign?"

The Heavenly Sovereign bled profusely and was saddened by the outcome.

His life started to flashback before his eyes. He used to overpower his era and gained absolute authority in the human race. He was once the most respected human, and his life was nothing short of legendary.

Yet, he took the wrong path in the end.

He stole fortune energy from the human race for the sake of his selfish gains. Then, when he was exposed, he worked with the foreign tribes just to regain authority over the human race.

He went from legend to traitor all because of the decision he made.

The Heavenly Sovereign regretted his decision, but it was too late.

Chu Kuangren did not give him the chance to speak.

He attacked with another palm strike, finally killing the Heavenly Sovereign for good.

Chu Kuangren then looked at the rest of the alliance soldiers coldly, especially Doomsday Darkness.

His gaze was overflowing with murderous intent. "Was losing to me once not enough, so you have come to seek your own death? Doomsday? What a bunch of nonsense."

He punched forward. Doomsday Darkness' body exploded, but the Darkness Daoist law swirled and rapidly regenerated the body.

However, Doomsday Darkness was a lot weaker than before.

His energy was almost depleted, and he could barely take any more hits from Chu Kuangren.

Right before Chu Kuangren delivered the final blow, someone with a pure Darkness aura emerged from the void.

It was the Dark Demonic Ruler.

"Temple Lord, can you give him to me?"

"Oh?" Chu Kuangren glanced at him and said, "You and I have an unfinished deal, and I basically owe you one."

He then pointed at Doomsday Darkness, releasing a precise attack at the body.

He heavily injured Doomsday Darkness but kept him alive.

Dark Demonic Ruler was delighted. "Thank you very much, Temple Lord."

After that, he went over to Doomsday Darkness, and a powerful suction force erupted from his body.

"Darkness Devouring Technique!"

Dark Demonic Ruler started to absorb the energy from Doomsday Darkness.

Doomsday Darkness was shocked at first, but he eventually became infuriated.

"A mere Second Step Monarch is after my powers? You will die!" Doomsday Darkness bellowed.

Even though he was heavily injured, his powers remained domineering, and they were not something a common Monarch could absorb and refine.

He believed the Dark Demonic Ruler was trying to court death, but at the next moment, he looked afraid and nervous.

Chapter 2443 Devil King Arrives, God Emperor's Forbidden Guards, Plan Fast

"What? How can you absorb my power?" Doomsday Darkness could not believe that the Dark Demonic Ruler was absorbing his energy!

"Hehe! Doomsday Darkness, I have studied your powers for many years, so I know you inside and out. This Darkness-Devouring Technique was developed to target you specifically, and I will take all of your powers," Dark Demonic Ruler sneered.

Before this, no matter how much he studied or how well he knew Doomsday Darkness, he could not have absorbed the power for himself.

However, things were different now.

Now that Doomsday Darkness was heavily injured by Chu Kuangren and could not use his powers anymore, the man had become a great supplement to the Dark Demonic Ruler.

The Dark Demonic Ruler saw the nervousness in Doomsday Darkness' eyes and somehow found it ironic because the Radiant Tribe had feared Doomsday Darkness for countless years.

Doomsday Darkness was the reason the Dark Demonic Ruler gave up everything, turned on his sister, and fought her for years just so he could study the man's powers thoroughly. He viewed Doomsday Darkness as his nightmare and nemesis.

He even once thought the Primal Being was impossible to defeat. Yet, Doomsday Darkness appeared scared and nervous before him right now!

Doomsday Darkness was afraid of him!

"So you do know fear," Dark Demonic Ruler said coldly and continued to absorb Doomsday Darkness' powers.

Further away, the Radiant Goddess watched with mixed feelings.

She thought of Dark Demonic Ruler's ideals.

"Doomsday Darkness' powers are unbeatable! Sister, what you're doing is wrong! If you keep suppressing it, it will one day backfire! We have to understand him and use him! Only then can the Radiant Tribe beat it! That's the only way! Why can't you understand me?"

Dark Demonic Ruler's words echoed in her ears like it was just yesterday.

Maybe she was wrong.

No, there was nothing wrong with their ideals.

If the Dark Demonic Ruler was allowed to study Doomsday Darkness at will back then, the Radiant Tribe would only be in trouble, and it was the right choice to expel him from the tribe.

However, she was not entirely right either.

Chu Kuangren noticed the mix of emotions on her face but did not say anything.

He simply shifted his attention to the remaining alliance soldiers.

All of them were scuttling away. Chu Kuangren was so powerful that they had lost their intention to fight. In such a hopeless situation, the only thing they could do was flee from the battlefield!

Unfortunately, the entire island was sealed off by the boundary, and it was not something that they could break.

"Die."

Chu Kuangren pointed his sword hand sign forward, releasing tens of thousands of sword qi that reaped lives like a merciless tornado.

All the cultivators were defenseless under the tornado of sword qi. In just a moment, almost all of them were killed.

After Chu Kuangren showed up, the Pan Gu Sect's cultivators were revived. Then, he killed the Spatial One, Zhu Yang, and Dao Lingtian before overpowering and killing the Reversal God's clone, the Heavenly Sovereign, and Doomsday Darkness.

The powers he displayed were far stronger than an Ultimate Monarch.

It was also proof of how powerful his kingdom was.

All the Monarchs watching the battle from afar were silenced.

They could not think of anyone in the Infiniverse who could kill Chu Kuangren anymore.

Maybe only the ancient beings could. "This is the final era. Will the ancient beings wake up?"

"Maybe."

"If not, no one will be able to beat Chu Kuangren."

...

Back in Pan Gu Sect, Lan Yu, Gu Linglong, Chu Hong, and the others looked at the constructed Fortune Kingdom in awe, savoring the fortune energy it contained.

"This kingdom is amazing! I feel like my fortune energy is somehow connected to this place. Do you guys feel the same?"

"I do! I do!"

Everyone looked at Chu Kuangren.

Chu Kuangren chuckled and said, "I constructed this Fortune Kingdom using my own and the sect's fortune energy, so of course, it's related to all of you. From now on, the kingdom will grow stronger alongside your fortune energy. Likewise, when the kingdom grows stronger, all of you will be blessed."

Everyone could barely understand Chu Kuangren, but since fortune energy was mystical and profound, they did not need to understand it fully. In short, the better the kingdom, the stronger they were; the stronger they were, the better the kingdom.

Both the kingdom and the cultivators complimented each other.

Chu Kuangren was delighted by his creation.

If the kingdom could develop further, he could grow stronger as well.

It would become a great support in the upcoming Infinity War.

"If this place becomes a kingdom, should we change our name to Pan Gu Kingdom?" Chu Hong asked.

Everyone looked at Chu Kuangren.

He nodded. "Why not."

With that, the Pan Gu Sect officially changed its name to Pan Gu Kingdom.

"Sect Leader, there's one more thing."

Mingyue Wuxia went up to Chu Kuangren and said, "The Descendant Self has come out from the Sword Dao's Eye and fused with the Human Ancestor's sword, but the Heavenly Saint has taken it."

Chu Kuangren narrowed his eyes.

"The Heavenly Saint took my sword?"

"Yeah! That Heavenly Saint is terrible! He ambushed Sister Linglong from the back. If not, Sister Linglong would've been able to overpower Doomsday Darkness, and we wouldn't have lost so terribly," Chu Hong grumbled.

Gu Linglong was about to overpower Doomsday Darkness with the Descendant Self Sword. She even had the chance to kill him on the spot, but due to the Heavenly Saint's ambush, the tables turned.

Since no one could restrain Doomsday Darkness, he went on a killing spree. If not for the Fortune Kingdom's powers, the dead would never resurrect.

"Oh. In that case, I'll have to pay the Heavenly Human Sanctuary a visit to take back my sword," Chu Kuangren said with a cold glint in his eyes.

Suddenly, a figure emerged from the void.

The figure wore a seductive black dress and possessed a slender yet voluptuous body. It was the Devil King.

She looked around and was in awe of the Fortune Kingdom's creation. "Not bad. It really is the Fortune Kingdom."

"Devil King, did you fight someone?"

Chu Kuangren noticed that her aura felt a little messy.

The Devil King was incredibly strong, and she used to be a Source Being.

Chu Kuangren could not think of anyone who would put her in a difficult situation.

"Just a lapdog of the God Emperor," she said.

"Cultivator from the God Emperor? Can you be more specific?"

Chu Kuangren narrowed his eyes.

The God Emperor was the strongest Primal God.

He was the leader of the destruction side and the one who started the Infinity War, so Chu Kuangren dared not overlook the details.

The Devil King then told him what happened.

She explained, "Wen Tianfeng was a member of the God Emperor's Forbidden Guards. He might not be an Overlord, but in his prime, he could rival one. Now that he has awakened, the others who sided with the God Emperor would awake soon as well. Little One, we don't have a lot of time left. We have to plan fast."

The Devil King looked unusually serious.

The final era was moving too fast.

She thought they had at least several billion years more to plan, but based on what just happened, they had to move the schedule up.

Chapter 2444 Arrive At Heavenly Human Sanctuary, As Humans, You Have Two Choices

Chu Kuangren marked down the name — God Emperor's Forbidden Guards.

If just one of them alone possessed powers that rivaled an Overlord, what about the others?

The God Emperor was much stronger than he thought.

"When will the ancient beings on our side awaken?" Chu Kuangren asked curiously.

"I guess soon."

The Devil King pondered and said, "There's someone from the human race who managed to make the Primal bleed. If he awakens, he will be of great help to us, but we don't know where to find him."

"I see."

Chu Kuangren was slightly surprised. He did not know there was someone so strong in the human race.

On second thought, it only made sense because, as the main lead of the realm, the human race must have some trump cards.

Back in ancient times, other than the Human Ancestors, there should be more elites who might be Overlords.

Things might not be as bleak as it seemed.

Chu Kuangren talked to the Devil King for a little while before deciding to visit the Heavenly Human Sanctuary to retrieve his sword.

Besides, it was time to unite all of the human forces.

A hint of coldness flashed in Chu Kuangren's eyes.

...

At the Heavenly Human Sanctuary, the Heavenly Saint was in a pavilion, trying to suppress the Descendant Self Sword with some secret technique. He was trying to force the sword to switch its master.

However, the Descendant Self Sword trembled, and the sword spirit released a boundless and terrifying sword intent to resist the Heavenly Saint.

It put a bitter look on his face.

"Hmph! You're just a sword! Are you going to overthrow the entire world?" the Heavenly Saint said with a heavy grunt.

He released his Daoist law energy that manifested into chains to lock down the Descendant Self's sword spirit.

After suppressing the sword spirit's resistance, the Heavenly Saint cut his palm and dripped his blood onto the blade to use his secret technique.

He had been alive for many eras, so he knew many cultivation techniques. One of them was weapon control by feeding the weapon with one's own blood to forcefully refine it.

However, the technique demanded a lot of energy.

In order to refine the Human Ancestor's sword, he did not care anymore.

Gradually, he started to form a link with the Human Ancestor's sword.

When he wielded the sword and realized it did not reject him as much, it delighted him.

"I did it! I finally did it! The Human Ancestor's sword is mine!" He laughed.

"Next, I just have to wait for the Heavenly Sovereign to deliver the Human Ancestor's blood, and I will be able to master the Limitless Transformation Technique to be the next Human Ancestor! Chu Kuangren, I will be the one to lead the human race!"

The Heavenly Saint delved deep into his fantasy.

Delighted, he took out the jade talisman to contact the Heavenly Sovereign, but there was no reply.

The Heavenly Saint was surprised. Had the Heavenly Sovereign gone back on his words and decided to keep the Human Ancestor's blood for himself?

The thought put a bitter look on the Heavenly Saint's face. "Heavenly Sovereign, are you going to break your Daoist core promise?"

Suddenly, someone rushed into the pavilion.

It was the Heavenly Human Sanctuary Leader, and he looked frightened.

"Heavenly Saint, this is bad!"

"What happened?"

"Pan Gu Sect! They..."

The Heavenly Human Sanctuary Leader spoke quickly about everything that had happened within the Pan Gu Sect after the Heavenly Saint left.

Realm Reversal, Fortune Kingdom, Reversal God's clone...

The Heavenly Saint was shocked after learning what happened. "Chu Kuangren did all that? W-Where is he now?"

"He's on his way here!"

The Heavenly Human Sanctuary Leader looked afraid when he saw the Descendant Self Sword in the Heavenly Saint's possession.

The Heavenly Saint had taken Chu Kuangren's sword, and there was no way Chu Kuangren would spare him or the sanctuary.

Chu Kuangren was coming for his sword!

"Hurry! Initiate the Heavenly Human Defense Formation!" the Heavenly Saint said.

Suddenly, the spiritual qi within the sanctuary rumbled, and a golden light covered the entire sanctuary.

The Heavenly Saint breathed a sigh of relief when he saw the defensive formation.

The Heavenly Human Defense Formation was one of the strongest trump cards of the sanctuary.

It was connected to several thousand earth nodes in the ground, making it a part of the world. Even an Ultimate Monarch could not break it easily.

"Is this how you treat your guests?"

A frosty voice echoed across the sky.

Clouds rumbled in the sky, and the wind grew stronger. A boundless and domineering aura crashed down from the sky and shook the entire sanctuary.

A white figure emerged from the clouds, carrying glimmering Immortal Sparks.

Each move he made felt transcendental.

His arrival scared the Heavenly Saint, whose heart pounded wildly.

"Chu Kuangren, he's here! Everyone, be on your guard!"

All the Monarchs of the sanctuary were mobilized.

They all looked solemnly at the figure in white.

Chu Kuangren descended from the sky and landed on the golden boundary. Although he was on his toes, the boundary felt like it was being pressured by the heaviest weight.

"Boom!"

The golden barrier shook violently, rippling across the surface.

As the formation was connected to several thousand earthen nodes in the ground, the pressure destroyed the earthen nodes underground, and the entire sanctuary trembled like never before.

"Crack!"

The golden boundary could not bear the intense weight and finally cracked. The crack spread from the top, where Chu Kuangren stood, and across the entire surface.

However, when Chu Kuangren landed on the ground, he released an even more rampant energy across the sanctuary.

The ground cracked, creating valleys from underground.

The sliver of his aura felt like a cataclysmic storm that could wipe out all things.

All the cultivators were blasted into the sky, and even Monarchs could not hold themselves against the blast.

When the dust settled, the entire sanctuary was almost destroyed.

No one could handle Chu Kuangren's wrath.

"Chu Kuangren, we're humans too! You're crossing the line!" a Monarch shouted at Chu Kuangren after the latter destroyed almost everything.

Chu Kuangren simply glanced at the Monarch, and a sword ray shot out from his eyes.

The Monarch was blasted away, and the Great Dao in him shattered, which almost killed him.

The fact that Chu Kuangren could kill one Monarch with one glance made everyone gasp in fear and instinctively step back.

"Humans?"

"As humans, Mingyue Wuxia once helped me to fight the Void Ruler, yet you imprisoned her and tortured her with Heavenly Deterioration.

"As humans, when the Pan Gu Sect was besieged, not only did you people stay back, but the Heavenly Saint teamed up with the traitor and ambushed my wife.

"How dare you call yourself humans after what you people did?"

Chu Kuangren snickered and released a terrifying aura.

The Monarchs who were closer to him trembled under the pressure.

"Thump!"

They suddenly fell onto their knees and knelt before him.

Chu Kuangren grunted and swung his sleeve at them, sending them flying away.

Then, he looked at the Heavenly Saint and said coldly, "They're not even the accomplices, just a bunch of pitiful fools. I'm here because of you.

"You have two choices. You take your own life, which will be quicker, or I kill you and destroy every bit of your soul!"

Chapter 2445 Retrieve Descendant Self, Kill Heavenly Saint, God Emperor's Forbidden Guards, Wen Tianfeng

Chu Kuangren descended onto the Heavenly Human Sanctuary and gave the Heavenly Saint two options.

The Heavenly Saint looked at him with a grim gaze and felt he was in danger.

Never would he expect that the man before him would grow into such a monster in just tens of thousands of years.

Chu Kuangren had grown so strong that even he was afraid.

"Chu Kuangren, do you think I'd go down without a fight?" The Heavenly Saint scoffed.

With his expression cold, he wielded the Human Ancestor's sword and infused even more Daoist law energy into the blade. The blade then shone in red.

"Have a taste of this sword's power!"

The Heavenly Saint slashed with the sword, unleashing a sharp and boundless sword ray that shook even the heavens.

Chu Kuangren was slightly surprised. He did not expect the Heavenly Saint to successfully control the Human Ancestor's sword.

Nevertheless, he channeled three thousand Daoist laws behind him and summoned a white-robed avatar to throw a punch at the slash, crushing it.

"I see. You've sealed the sword's spirit..."

Chu Kuangren was struck with realization after observing for a while.

The Heavenly Saint attacked once again.

Sword rays were aimed relentlessly at Chu Kuangren.

Each sword ray was exceptionally powerful, containing the power to kill common Monarchs.

The Heavenly Saint swung the Human Ancestor's sword in a flurry, thrilled to be wielding its unlimited power, and infused even more Daoist law energy into it.

"Chu Kuangren, see this? The Human Ancestor's sword is mine now! I'm the ruler of the human race! You're not qualified!" the Heavenly Saint announced.

The white-robed avatar behind Chu Kuangren punched and crushed the sword rays.

While Chu Kuangren stood tall and unwavering, the Heavenly Saint roared with the sword in hand. Then, his figure seemed to transform into a stream of light as he thrust the sword at Chu Kuangren.

"Are you using my sword against me? You are really naive."

Chu Kuangren pointed his finger at the sword, touching the tip of the sword with his fingertip.

"Clank!"

Upon collision, a bright light erupted. Then, Chu Kuangren bellowed, "Break!"

With the Thousand Weapon Heart activated, the Descendant Self Sword sensed its master's arrival and instantly released a boundless sword intent, breaking the chains around it.

The sword spirit broke out from its shackles effortlessly.

The moment the sword intent erupted, the Heavenly Saint could no longer wield the sword.

He was struck by the repercussions and was blasted away with blood gushing from his mouth.

The Descendant Self Sword floated around Chu Kuangren happily before landing in his hand.

The sword and man became one.

All swords in the Great Hongmeng Universe buzzed as if they were cheering for the birth of a Sword God!

"No! This can't be happening!"

The Heavenly Saint could not believe his eyes. How could Chu Kuangren snatch back the sword he fed with his blood so easily?

Why?

Was he not worthy to be the sword's master?

"You think you can use some trick to control the Descendant Self Sword? How foolish."

Chu Kuangren shook his head.

Fed the blade with blood?

It sounded powerful, but Chu Kuangren had the Thousand Weapon Heart, which allowed him to control all weapons in existence.

Coupled with the special link he shared with the sword spirit, it was easy for him to get the sword back.

The Heavenly Saint had only gotten the sword for days, while Chu Kuangren wielded the Descendant Self Sword for millions of years. There was no way the Heavenly Saint could control the sword before Chu Kuangren.

If Chu Kuangren wanted to, the Heavenly Saint would not even be able to touch it.

"Let me show you the true power of this sword," Chu Kuangren said.

He wielded the Descendant Self Sword up and swung it down.

Dazzling sword ray crashed down like a comet.

Its power was ten times stronger than the Heavenly Saint's!

"No! The realm's energy, bless me! Heavenly Human Union!" The Heavenly Saint roared as he cast the strongest technique of the Heavenly Human Art.

The realm's energy boosted his strength. Tens of thousands of earthen nodes under the sanctuary released even more energy to the Heavenly Saint, allowing his aura to skyrocket.

His power surpassed the threshold of an Ultimate Monarch and reached the Ultimate Great Dao Realm!

"Heavenly Human Sun Moon Rush!"

The realm's energy was blasted forward in the shape of a sun and moon.

However, even the sun and moon were no match for the sword ray as it easily crushed the realm's energy.

The Heavenly Saint was cut in half, together with the Heavenly Human Sanctuary behind him.

A sword mark of more than a billion kilometers extended across the land, and the sword qi that lingered in the deep trench formed a horrifying scene.

The sword's power was on full display.

Moreover, it was just a casual slash from Chu Kuangren.

It was hard to imagine how powerful he would be if he fought his fullest with the sword.

"You're too weak," Chu Kuangren said.

Then, he punched into the void, hitting the Heavenly Saint out of hiding.

The slash may have injured the Heavenly Saint, but it did not kill him. The mystic of the Heavenly Human Art was no joke.

"Why? Why is the sword so powerful in your hands?"

The Heavenly Saint was shocked. The sword felt like two different swords when he and Chu Kuangren wielded it. Their powers were heaven and earth apart!

"Like I said, no tricks can control the Descendant Self Sword. Don't be naive."

Chu Kuangren raised his sword again.

The Heavenly Saint roared and activated his domain.

The starry sky enveloped Chu Kuangren whole.

"What can this bubble-like domain do?"

Chu Kuangren swung his sword and easily destroyed the domain.

"Chu Kuangren, spare me! I will serve you! I'm an Ultimate Monarch, a powerful support to the human race!" the Heavenly Saint shouted.

He was truly afraid.

He no longer wanted the Human Ancestor's sword or the cultivation technique.

He did not want to die.

"We're in dire need of firepower, but no matter how poorly we're doing, we don't need a traitor."

Chu Kuangren swung his sword at the Heavenly Saint's neck, beheading him.

Then, he closed his fist in the void and crushed the body and the head together, causing them to burst into clouds of blood mist.

The Great Dao and Monarch's Heart were crushed. Even the soul disintegrated.

"I said I would crush even your soul, and I meant it."

Chu Kuangren stood proud with his hands behind his back.

The Heavenly Human Art was indeed mystical, but it was no match for Chu Kuangren.

He had improved a lot since he exited the Fortune Earth World. Even if he was outside of his kingdom, he was ridiculously powerful.

"The Heavenly Saint is dead..."

The Monarchs of the sanctuary were stunned by the scene.

The Heavenly Saint was the true ruler of the sanctuary, yet he was destroyed by Chu Kuangren until there was nothing left of him.

"Tsk. Killing an Ultimate Monarch just like that, huh? You really are decisive. Who would have thought that someone like you would exist in the human race in this era?"

A voice echoed across the sky.

From the void emerged a middle-aged man with stalwart facial features, in black armor and wielding a pitch-black trident.

He did not reveal a terrifying aura, but Chu Kuangren could keenly sense that the man's aura was even more terrifying than the Heavenly Saint.

He was certainly an Unlimited Great Dao and not just a common one.

"Black armor and trident... I guess you're Wen Tianfeng, one of the God Emperor's Forbidden Guards that the Devil King mentioned," Chu Kuangren said.

He tightened his grip on the Descendant Self Sword and unleashed even more sword intent. "You have just awakened from your long slumber, and you're already here for your death?"

Chapter 2446 Chu Kuangren Has Been Overpowered? Chu Kuangren's Domain

"Are you here for your death?" Chu Kuangren asked Wen Tianfeng coldly.

At the same time, Lil Ai was analyzing the foe.

Other than his cultivation level being in the Unlimited Great Dao Realm, the armor and the trident he had were also Ultimate Supreme Weapons.

Ultimate Supreme Weapons were rare. One might not even appear in a single era, yet Wen Tianfeng had two.

Coupling those weapons with his cultivation level, no wonder the Devil King had difficulties dealing with him.

"For my death? No. I'm just here to see how strong the person even the Reversal God can't kill is," Wen Tianfeng said coldly.

Then, a cold glint flashed in his eyes.

"Swoosh!"

His figure vanished and appeared before Chu Kuangren, where he swung the trident down fiercely as if he were swinging an entire Great Dao down at his target.

His attack was countless times stronger than that of Doomsday Darkness and Heavenly Sovereign.

Seeing that, Chu Kuangren raised the Descendant Self Sword as a counter.

"Clank!"

When the sword and trident clashed, it released a powerful shockwave across the battlefield.

Chu Kuangren was pushed more than ten steps back, which shocked the other cultivators of the Heavenly Human Sanctuary.

"Who is that that overpowered Chu Kuangren?"

"He's too strong!"

"Chu Kuangren has been overpowered? That's unbelievable!"

Everyone got into a heated discussion. Chu Kuangren, who had displayed incredible power that killed the Heavenly Saint with one slash just a moment ago, was now being overpowered by a stranger.

How could the other cultivators not be surprised?

High up in the sky, Wen Tianfeng grinned. "That explains a lot. Now that you're out of your kingdom, you're just a Monarch."

Without the Fortune Kingdom's buff, Chu Kuangren's power was greatly weakened.

To the others, he was still ridiculously powerful, but to Wen Tianfeng, it meant the possibility of killing Chu Kuangren.

That point alone made it worthwhile for him to take his shot. "For him to be able to construct the Fortune Kingdom in this era, he must have remarkable skills, and his potential threat far surpasses Devil Bone. He will be a hindrance to the emperor's descent. He must be removed as soon as possible," Wen Tianfeng thought.

With that, he attacked again.

He wielded the trident in a flurry, releasing dangerous trident rays.

The trident rays contained terrifying powers that could easily kill an Ultimate Monarch.

However, Chu Kuangren blocked the attack with the Descendant Self Sword.

"Monarch Avatar!"

The white-robed avatar appeared behind Chu Kuangren and threw a punch at Wen Tianfeng.

Three thousand Daoist laws crashed down like a tidal wave, crushing even the void.

Still, Wen Tianfeng was unfazed. He swung his trident forward, unleashing the full power of an Unlimited Great Dao.

"Sky Ask Art, Celestial Demon Extreme Starburst!"

His Daoist law converged into a massive planet and crashed down fiercely.

The planet contained an ancient and profound aura.

"Bang!"

The three thousand Daoist laws were destroyed, and the white-robed avatar was pushed back.

"You've mastered three thousand Daoist laws? You're the second one after the Human Ancestor to achieve that. You truly are a great threat."

With a frosty gaze, Wen Tianfeng stepped forward, shaking the earth with his footsteps. The trident was swung down at Chu Kuangren once again, and the indomitable power it contained disrupted the void, turning it into pure chaos.

"Sky Art Art, Skywalker Nine Strikes!"

His initial attack shook mountains and rivers.

The second attack disrupted the clouds and wind.

The third stirred up a storm that wiped out all things in its way.

After nine consecutive strikes, even the stars in space shook.

Each strike was stronger than the previous, and more importantly, the power that he was able to unleash with the nine strikes combined was unimaginably powerful!

Even the Infiniverse was shaken by its force.

The power of all nine strikes was extremely close to an Overlord's attack.

However, even without the Fortune Kingdom, Chu Kuangren took all the strikes calmly and was unfazed by the overwhelming and destructive powers.

He looked up and deflected his sword.

"Even without the kingdom's buff, I can kill you!"

His indifferent voice echoed, and the Sword Great Dao manifested in the void.

Sword intents from past to present gushed out and combined into one strongest sword attack. It was his unrivaled sword technique, Sword Twenty-six!

Sword Twenty-six attacked with an indomitable aura that swept across the realm.

The sword and trident clashed in the fiercest way possible!

The stars in the sky exploded, and the mountains and rivers on the land were leveled.

The land across tens of millions of kilometers was ruined by the shockwave alone.

The void was disrupted by the power and returned to a chaotic state.

It was safe to say that the whole Heavenly Human Sanctuary was wiped out.

The blinding sword ray and trident ray continued to clash, releasing sparks that shone across the Infiniverse.

The clash was horrifying, and it caught many people's attention, including the Devil King.

"Wen Tianfeng, you really do have the nerves."

She grinned as she made her way to the Heavenly Human Sanctuary to assist Chu Kuangren.

Chu Kuangren was her dearest ally, and she could not afford to lose him.

Back in the sky above the Heavenly Human Sanctuary, dazzling light continued to clash, and the burst sent both Chu Kuangren and Wen Tianfeng back.

Wen Tianfeng looked at Chu Kuangren grimly. He did not expect Chu Kuangren to be able to take his attack. His attack had reached the level of an Overlord, yet Chu Kuangren could take it even without the kingdom's buff.

"It's that sword and that sword technique. In fact, I think it's the strongest slash throughout time," Wen Tianfeng said.

He knew the Devil King was making her way there.

If he could not get rid of Chu Kuangren quickly enough, he would have no chance to do so anymore.

Worst of all, if the Devil King and Chu Kuangren teamed up, he might even die.

"You're afraid."

Chu Kuangren chuckled.

"Afraid? You're nothing for me to be afraid of yet."

Wen Tianfeng tightened his grip on his trident and increased his energy.

Chu Kuangren raised his hand and said, "I don't want to waste time with you either. Let me show you this little trick I have."

"Kabaam!"

Three thousand Daoist laws erupted into the void, where they intertwined and merged into a massive sphere.

The Daoist laws contained inside rumbled like the fiercest waves.

An unprecedented pressure shocked Wen Tianfeng.

"Is this your Monarch's Domain?"

"That's right. This is my domain."

During his latest closed-door meditation, other than constructing and creating the Fortune Kingdom, Chu Kuangren also manifested his domain and successfully entered the ranks of First Steps Monarch.

He was half a step shy from achieving Ultimate Monarch's status.

"I'll test the domain's powers on you," Chu Kuangren said.

Then, he grabbed the void, and three thousand Daoist Laws intertwined into a colorful energy tornado.

Wen Tianfeng swung his trident forward but was blasted away.

"It's powerful!"

Wen Tianfeng's expression turned grave.

The domain of three thousand Daoist laws was extremely powerful and probably the strongest domain he had ever encountered.

"Can you escape before the Devil King arrives?" Chu Kuangren chuckled.

Wen Tianfeng was starting to worry.

He was one of the oldest beings and one of the God Emperor's Forbidden Guards, yet he was forced to retreat by a young Monarch.

How humiliating!

Unfortunately, it was a fact. If he stayed, he would not be able to make it out alive when the Devil King arrived and teamed up with Chu Kuangren.

Chapter 2447 Wen Tianfeng Escapes, Unite the Human Race, Overpower Sword Saint Forefather

"Kabaam!"

Dazzling Daoist laws exploded.

Wen Tianfeng was blasted away multiple times. Before he could regain his balance, another ray of Daoist law struck him.

"Bang!"

He spat out a mouthful of blood.

"Damn it!"

His expression turned grim.

"What's wrong? Are all the Forbidden Guards like you? If so, the God Emperor doesn't seem that threatening." Chu Kuangren snickered.

Wen Tianfeng did not look happy. "How dare you insult the Emperor?" Wen Tianfeng roared.

A rampant Great Dao energy wave erupted from his body.

"Oh? You reversed your Great Dao?"

Very few knew how strong an Unlimited Great Dao could get after reversing the Great Dao because, to begin with, those people already had terrifying strength. Barely anyone could force them to such an extent.

Now, Wen Tianfeng was forced to reverse his Great Dao.

Following a roar, he turned his Daoist law into multiple trident rays, attacking the domain around him.

"Kabaam!"

Explosions erupted in the void exploded, and the realm trembled.

Wen Tianfeng went all out with the attack and managed to tear an opening in Chu Kuangren's domain.

He then flew out of the domain through the opening in a crimson light streak.

Chu Kuangren called off his domain.

He smiled as he watched the crimson streak dash away. "We'll meet again, God Emperor's Forbidden Guards. I look forward to it."

Wen Tianfeng was but a member of the Forbidden Guards.

Chu Kuangren looked forward to fighting them and eliminating them all.

He wanted to clip the wings of the God Emperor before the real war started.

"Swoosh!"

The Devil King arrived. When she sensed the fierce aura in the area, she was shocked. "You beat him off?"

"It's just one Forbidden Guard. How scary could he be?" Chu Kuangren said nonchalantly.

If he could not deal with one Forbidden Guard, he would not be able to stand against the God Emperor.

"You go, Little One!"

The Devil King praised him and got a little sentimental. "The boy I had to protect many years ago has grown into such a titan. I don't know if that should make me happy or sad."

"Let's just focus on Infinity War," he said.

He had gotten used to the Devil King's lame jokes on him.

Seeing that Wen Tianfeng had left and Chu Kuangren was fine, the Devil King breathed a sigh of relief and returned to her territory. She has to be prepared for the Infinity War.

That encounter with the Forbidden Guard was just the start of everything.

Wen Tianfeng's awakening meant that the ancient ones would soon awaken, and their existence would change the era.

In other words, the prologue of Infinity War had begun, and they did not have a lot of time left.

...

Back in the Pan Gu Kingdom, Chu Kuangren concentrated on mastering the powers of the Fortune Kingdom.

As for the others, they also progressed well with their cultivations. With the buff from the kingdom, Lan Yu and the others saw a massive boost in their cultivation speed.

Chu Kuangren also visited the Manifa Destiny Sect and Heavenly Buddha Pure Land.

He was currently the strongest human cultivator.

The Pan Gu Kingdom had all the elites of the human race and was also supported by the Tempest King, Mingyue Wuxia, Human Empress, Earthen Monarch, and so on.

In addition to the Fortune Kingdom's characteristics, it made the kingdom the strongest force in the human race.

As such, Manifa Destiny Sect and Heavenly Buddha Pure Land chose to submit to the kingdom.

As for the Heavenly Human Sanctuary, Chu Kuangren incorporated the remains into the kingdom.

The other sanctuaries, such as the Divine Sword Palace, submitted as well.

The human race was united by Chu Kuangren's absolute powers.

Somewhere in the kingdom, three figures stood high in the sky.

It was Chu Kuangren, the Sword Saint from Divine Sword Palace, and the Manifa Forefather from Manifa Destiny Sect.

They had come forth to challenge Chu Kuangren.

Even though Chu Kuangren was uniting the human race, there ought to be disagreements.

There were always two sides to a coin, and the Manifa Forefather and Sword Saint were chosen as representatives to challenge Chu Kuangren.

"Chu Kuangren, you are strong, and so is your Fortune Kingdom. However, don't you think you're expanding too quickly?" the Sword Saint said coldly.

The expansion was so quick that all the other forces failed to react in time.

In just a few days, Chu Kuangren had visited all the Human Sanctuaries and made them submit to the Pan Gu Kingdom, which was uncharacteristic of him.

Before that, he even visited the Heavenly Human Sanctuary and killed the Heavenly Saint in one strike.

No one dared to disobey him, so the rest of the sanctuaries pledged their allegiance immediately.

However, although the other sanctuaries had pledged their allegiance, some were still unhappy to be under Chu Kuangren's rule.

After all, each sanctuary controlled a part of the universe, and even the top three Human Sanctuaries could not unite everyone. Yet now, Chu Kuangren had forcefully united everyone under a single banner with his iron fists.

There ought to be voices of disapproval.

"Submit to the kingdom and unite all of the human race. This ought to happen in time, and it is the only way we can face the upcoming Infinity War. There's actually more benefit to joining the kingdom than staying away, and they will thank me very soon," Chu Kuangren said.

The Manifa Forefather and Sword Saint did not believe Chu Kuangren.

Being under someone else's command was unacceptable, especially for someone as strong as them.

Even if they could benefit from it, what good would it do?

"Today, we represent our respective sanctuary to challenge you. If you can defeat us, we will honor you as the Human Overlord," the Sword Saint said coldly.

"Bring it on."

Chu Kuangren stood with his hands behind his back. "For fairness' sake, I won't be using the Descendant Self, the kingdom's powers, or even the Limitless Transformation."

The three restrictions limited more than half of Chu Kuangren's powers.

However, the Sword Saint and Manifa Forefather were unhappy with the handicap because they felt they were looked down upon.

"Sword Twenty-four!"

Without another word, the Sword Saint attacked with his strongest technique.

Chu Kuangren, unfazed, raised his hand to unleash three thousand Daoist laws, crushing the sword attack in an instant.

Then, a burst of Universal Genesis Daoist law was blasted at Chu Kuangren.

"Break!"

Chu Kuangren pointed at the stream of energy, dispersing it and pushing the Manifa Forefather back a dozen steps.

"Domain expansion!"

The two Monarchs expanded their domains.

"Avatar, on!"

Chu Kuangren channeled his three thousand Daoist laws and summoned his avatar!

It was the avatar versus the domains.

When the two extraordinary powers clashed, the two domains were crushed by the white-robed avatar.

Chu Kuangren stood high in the sky. His avatar had a starry sky above his head and Yin-yang and Heavenly Golden energy beneath his feet, and it controlled the cycle of rebirth in his hands. It shone brightly like a supreme Immortal King that peered down on the Infiniverse.

"Sword Twenty-five!"

The Sword Saint roared and unleashed his full powers.

The sword in his hand buzzed violently.

As he slashed his sword down, two different sword intents of life-death and creation-destruction merged beautifully, forming a substantial yet sharp sword qi.

However, Chu Kuangren was not surprised.

"You have mastered the Sword Twenty-five."

He pointed his sword hand sign forward and used the same Sword Twenty-five but with a different sword intent.

When the sword clashed, the realm basked in endless light.

The blast sent the Sword Saint flying away.

Chu Kuangren, on the other hand, stood tall and strong in his pure white robes, looking transcendental.

The Sword Saint could no longer challenge the man, even if he had the Sword Twenty-five because Chu Kuangren had Sword Twenty-six!

Chapter 2448 Human Race's Fortune Energy Belongs To The Kingdom, Chu Kuangren's Ambitions, To Slaughter Kingdom

Lan Yu, Chu Hong, Armament Destruction, and the others were watching the battle between Chu Kuangren, Sword Saint, and Manifa Forefather.

After a while, Armament Destruction turned around and left.

Curious, Jue Wushen asked, "Don't you want to know who would win?"

"The outcome has been decided when the match started," Armament Destruction said.

He glanced at Chu Kuangren with ambitions in his eyes.

Chu Kuangren was too powerful, and the current Armament Destruction was no match for him.

After the battle against Doomsday Darkness, which killed him, he gained new enlightenment on his own Dao and had to seize the time to cultivate.

Maybe then he would have a chance to catch up to Chu Kuangren.

With that thought in mind, Armament Destruction left.

Up in the sky, Manifa Forefather and Sword Saint teamed up against Chu Kuangren.

Sword qi and palm energy were unleashed relentlessly, yet they could not lay a scratch on Chu Kuangren.

"Universal Violent Barrage!"

As Manifa Forefather punched with his full Ultimate Great Dao power, Chu Kuangren's white-robed avatar countered with another punch.

"Bang!"

The little clash made Manifa Forefather cough up a mouthful of blood.

On the other hand, Sword Saint was covered with sword marks, looking extremely wretched.

"Do you want to continue?" Chu Kuangren said.

The two of them exchanged a quick look and smiled bitterly.

Continue? With what?

Chu Kuangren was too powerful — almost invincible, in fact.

"We concede."

"Chu Kuangren, even though we lost, many still refuse to obey you. You better watch out," Sword Saint said.

"Time will prove it all."

Following the loss of Sword Saint and Manifa Forefather, the voices of disagreement were suppressed.

Sometime later, the cultivators who joined the Pan Gu Kingdom realized their fortune energy had risen sharply.

The discovery drove many cultivators into a frenzy.

The news of receiving the blessing of fortune by joining the kingdom spread like wildfire.

"Bang!"

Somewhere else in the universe, a powerful aura erupted as an elderly man walked out from a cave.

It was a cultivator from the Manifa Destiny Sect, and he was thrilled by his achievements. "I've finally broken through to the Monarch Realm!"

He was an apostle and had broken through to the Supreme Honorable Grand Dao Realm many eras ago.

Unfortunately, he was still one step shy from ascending to the Monarch Realm.

No matter how hard he cultivated, he did not get the opportunity to ascend.

He knew he was lacking one.

However, when Chu Kuangren united the whole human race, and the Manifa Destiny Sect joined the kingdom, the blessing of fortune gave him the opportunity to finally ascend.

"That explains it! So this is one of the benefits of joining the kingdom. No wonder Chu Kuangren wanted to unite the human race! He's doing the best for the human race! What a virtuous cause!"

Manifa Forefather also noticed the birth of a new Monarch in his sect. It reminded him of Chu Kuangren saying everyone would thank him soon.

"Is this part of your plan, Chu Kuangren?" Manifa Forefather murmured.

He had completely given up the idea of standing against Chu Kuangren.

If he could not beat Chu Kuangren, he should join the man.

The news of joining the Pan Gu Kingdom and being blessed with fortune spread across the universe.

It caused a lot of commotion among the human cultivators.

Previously, they were unhappy with Chu Kuangren's rule because they thought they had lost their freedom under his command and would receive no benefits.

Now that they finally realized the benefit of joining the kingdom, they no longer resisted being under Chu Kuangren's rule. Quite the opposite, many of the cultivators were grateful for it.

"I've misunderstood Monarch Chu all along!"

"He's trying to help the entire human race by sharing his fortune energy from the Fortune Kingdom."

"Such generosity. Who else would be as virtuous as him?"

"With his Fortune Kingdom in the picture, I believe no one would disagree with electing him as the Human Overlord. I, for one, agree." "Me, too." Back in the Pan Gu Kingdom, Chu Kuangren was savoring the fortune energy in the Fortune Kingdom's core.

Multiple fortune energy streams gushed in from all directions and went into the core before it was distributed across the kingdom.

The endless streams of fortune energy were the fortune energy of the entire human race.

"Uniting the human race can actually absorb more fortune energy," Chu Kuangren murmured.

He had united the entire human race and gathered their fortune energy into the Fortune Kingdom's core, making the kingdom even stronger.

The kingdom, in turn, would redistribute its fortune energy back to the cultivators, which could be shown in their increase in cultivation speed and so on.

In short, the fortune energy of the human race would strengthen the kingdom, and the kingdom would bless the entire human race.

As the human cultivators grew stronger, their fortune energy would increase and go back into the Fortune Kingdom.

The kingdom and its people formed a perfect cycle that complemented each other.

Chu Kuangren was delighted.

"This is just the fortune energy of the human race. If I can unite all the tribes, the kingdom will only be stronger, and I will be able to gain powers from all the tribes using the kingdom. I might be able to fight the God Emperor then," Chu Kuangren murmured.

He had a new ambition.

Not only did he want to unite all of the human race, but he also wanted to rule over all the tribes and place the Infiniverse under the kingdom!

Suddenly, he sensed a visitor in his kingdom, and his eyes narrowed.

"It's her."

...

"Monarch Chu."

Liu Tianxue was surprised to see Chu Kuangren suddenly appear before her eyes.

She quickly bowed and saluted at him.

Chu Kuangren looked at her indifferently. "You came. Are you going to bring me to the Slaughter Kingdom?"

Liu Tianxue was the princess of the Slaughter Kingdom.

The Slaughter Kingdom was the kingdom constructed by the God of Slaughter, one of the Primal Gods. The kingdom had been hiding in the dark ever since some incident happened.

Chu Kuangren, however, possessed the God of Slaughter's Ring, an insignia to the Slaughter Kingdom.

With it, Chu Kuangren had the right to rule over the Slaughter Kingdom and was interested in roping in the kingdom under his wing.

On top of that, he had gained some new understanding about the God of Slaughter's Ring after he constructed his Fortune Kingdom and would like to verify it at the Slaughter Kingdom.

"Monarch Chu, after learning about the God of Slaughter's Ring in your possession, my father would like to invite you to our kingdom for a meeting. I wonder if you would follow me back," Liu Tianxue said.

She was astonished after a quick glance at the palace.

She, too, did not expect someone in this era could construct a brand-new kingdom.

"Of course."

After leaving Gu Linglong in charge, Chu Kuangren followed Liu Tianxue to the Slaughter Kingdom.

...

The Slaughter Kingdom was ancient. It could be dated back to ancient times when Primal Gods used to roam the universe. They had tons of resources but had been hiding in the dark, avoiding people's attention.

The kingdom was located in a secret realm somewhere in the Great Hongmeng Universe.

Chu Kuangren entered the secret realm under Liu Tianxue's guidance.

Similar to the people outside, the people of the Slaughter Kingdom resembled humans, but their bodily structures differed a little.

Instead of a heart, they had something called the Slaughter Core, which was also their source of energy.

Chu Kuangren felt a little buzz from his ring when he arrived. "I see..." His eyes gleamed.

He then followed Liu Tianxue to a palace, where the king of the kingdom lived.

Chapter 2449 Slaughter Kingdom, Kingdom's Union Through Marriage? Old Fool?

Chu Kuangren followed Liu Tianxue to a palace in the Slaughter Kingdom.

Inside the palace, he saw the current King of the Kingdom — a white-haired elderly man who looked like he was on his dying breath. With just one glance, Chu Kuangren knew that the man was at the final stage of Heavenly Deterioration.

He would die soon.

"Father."

Liu Tianxue bowed and fist-saluted her King while Chu Kuangren stood proud and simply nodded with a calm look on his face.

His nonchalance angered some of the people in the hall.

A young but buff man stood up and shouted, "Audacious! Why aren't you on your knees before the King? Men, take him down!"

Before the soldiers moved out, the King bellowed, "Halt!" He coughed and continued feebly, "Monarch Chu is an important guest of our kingdom. No one shall disrespect him."

The Slaughter Kingdom might not be part of the world, but they were forced to reveal themselves due to the final era.

They got news of the recent rumors of the outside world, and the King knew that the man before his eyes was highly reputable and a difficult opponent.

"Father, this man is being rude!"

The young man tried to argue, but Liu Tianxue explained, "Monarch Chu is also a king of a kingdom. Strictly speaking, he doesn't need to bow."

"Hmph. It's just some random kingdom."

"It's a Fortune Kingdom."

"What?"

The young man looked at Chu Kuangren in shock and disbelief. "He created the Fortune Kingdom? How?"

Not only he but the other princes and princesses in the hall were similarly shocked.

"Someone created a kingdom in this era?"

"Is it true?"

"It must be a lie."

"Silence!"

The King silenced everyone and then invited Chu Kuangren to his seat.

Chu Kuangren was not shy to sit down. He originally wanted to take control of the Slaughter Kingdom. Similar to how he took control of the Heavenly Human Sanctuary, he would use force if the others did not obey him.

In addition to his God of Slaughter's Ring, he was confident he could do it.

Now, he changed his mind.

He believed there might be a show he could enjoy before taking full control of the Slaughter Kingdom.

"Tianxue mentioned you have the God of Slaughter's Ring, Monarch Chu. That is the symbol of our kingdom, created by the first King. I wonder if you will be so kind as to return it to us? Of course, I'm not asking you to give it back unconditionally. What do you seek in return?" the King asked.

"Is that so? If I said I want the Slaughter Kingdom to submit to the Fortune Kingdom's regime, would you agree?" Chu Kuangren said with a grin.

His words stunned everyone in the hall.

Then, multiple frosty murderous intent erupted.

"How bold!"

"You bastard! How dare you look down on us when we treated you as a guest? What a disgrace! Men, kill him!"

"Seize him!"

Even Liu Tianxue was shocked.

Submit to the Fortune Kingdom's regime?

Even though Liu Tianxue had a rough idea of Chu Kuangren's intention, she did not expect him to make it clear in front of the princes and princesses.

He was arrogant!

"Hahaha! A bold and heroic move indeed!"

Surprisingly, the King was not angry. He laughed and looked at Chu Kuangren with nothing but praise.

Everyone else was stunned once again.

They thought their King, their father, had lost his mind.

"You want the Slaughter Kingdom? Impossible. We'd rather die in war than submit to someone else's regime," the King said.

His words boosted the morale of his soldiers, making them stand tall and lift their chests proudly. The murderous qi on them grew stronger.

Upon hearing that, Chu Kuangren smiled. "How impressive."

"I admire your capabilities, Monarch Chu. If you're willing, we can unite our kingdom together. My daughter, Tianxue, is beautiful, capable, and a Monarch. She'll be a good match for you. I can marry her to you, and it will forge a union between our kingdoms. What do you say?" the Slaughter King said.

Not only Liu Tianxue but even the others were shocked to hear their father say that. Chu Kuangren was disrespectful, and instead of being angry, the Slaughter King wanted to marry his daughter to Chu Kuangren just to form a union between the two kingdoms.

It was absurd, and it made everyone suspect that the King had lost his mind.

"Father, I don't want to marry him," Liu Tianxue said immediately.

It was not that she disliked Chu Kuangren, but she knew that once she married someone else, she would not be able to inherit the throne.

She, too, was an ambitious person.

Despite her admiration for Chu Kuangren, she would sacrifice everything for the throne.

However, what the King said next continued to shock her and the other princes and princesses in the hall.

"Tianxue, I'm old. I won't live for long now. Before I die, you are my only concern. You are stubborn but in a good way. Your talents and skills match mine, but you're just a woman. You have to find someone reliable to take care of you. "I have high hopes for Monarch Chu. For him to be able to construct the Fortune Kingdom on his own, I believe he will be a great match for you. If you and he team up to rule the two kingdoms, brace through thick and thin, our kingdom will surely thrive."

At first, everyone did not think much of it because the King sounded like a father who was concerned about his daughter's future. However, everyone eventually realized the King's true intention.

Rule two kingdoms?

What did that mean?

Had the King considered giving the throne to Liu Tianxue and marrying her to Chu Kuangren?

The stakes suddenly got high.

The princes who heard the King reacted grimly, especially the Crown Prince, whose eyes were frosty.

He, too, was after the throne, but now it seemed he was not the King's candidate.

"Has the old man lost his mind? Marrying Liu Tianxue to an outsider and giving away the kingdom? How can he do that? "He has lost his mind! He definitely has!"

The Crown Prince cursed to himself. Then, Chu Kuangren said, "I thank you for your offer, Slaughter King, but I am a married man and cannot wed your daughter."

"Is that so? Such a pity."

The Slaughter King shook his head regretfully before adding, "Since you're here, Monarch Chu, why don't you stay for a few days so we can show you our hospitality?"

"That I can accept. Thank you."

Chu Kuangren smiled and accepted the invitation.

"Men, prepare the banquet."

The Slaughter King ordered a banquet to welcome Chu Kuangren.

Most of the princes and princesses did not care about the banquet as their thoughts were still on what the King said. It seemed like the King had considered giving the throne to Liu Tianxue and making her the future king.

The thought robbed them of their appetite and mood.

After that, the Slaughter King did not mention anything about the God of Slaughter's Ring anymore.

Chapter 2450 In For A Show, Crown Prince's Rebellion, Infuriated Slaughter Kingdom's King

After the banquet in Slaughter Kingdom ended, Liu Tianxue brought Chu Kuangren to his room.

The other princes and princesses went back as well.

Soon, only the Crown Prince and the King were left alone in the hall.

No one knew what they talked about.

However, that night, an extremely powerful aura erupted from the palace but only for a moment.

Then, someone saw the Crown Prince leave the hall with a grim look.

Back in the hall, the Slaughter King sat on his throne, his aura dwindling.

He scoffed. "They can't hold it in anymore, but that's good. If they're too patient, I'm the one who has to go through a lot of trouble. It's almost time. Chu Kuangren's appearance may be unexpected, but he won't be much of a problem. "Once I recover, I will take the God of Slaughter's Ring from him and then send my troops to annex his kingdom. Then, the Slaughter Kingdom will thrive further," the Slaughter King murmured, and his cloudy eyes gleamed. On the other hand, Liu Tianxue was alone with Chu Kuangren.

Knowing that her father had the intention to marry her to the man before her eyes, she blushed but only for a second. She said, "I'll get someone over to serve you. Please excuse me."

"Hold on."

"Is there anything else, Monarch Chu?" Liu Tianxue asked.

"What do you think about what your father said earlier?"

Liu Tianxue was slightly stunned.

"Are you referring to the marriage?" she asked. "No. Your father said he wanted to give you the throne. Do you really think he will do that?" Chu Kuangren asked.

Liu Tianxue's expression shifted when she heard Chu Kuangren.

"Monarch Chu, what are you trying to say?"

"You should know your father better than me. Do you think your father would say something like that in front of an audience?"

Liu Tianxue pondered and realized it was highly unlikely.

Even though the King had been acting unusually in recent years due to his aging problem, he would not announce his decision to give the throne to someone else or his daughter's marriage.

It was unbelievable.

Even though Liu Tianxue wanted the throne, she found what happened earlier strange.

"Monarch Chu, you can just speak your mind."

"Believe me when I say your brothers will start a rebellion soon and then be apprehended for treason by your father." "Monarch Chu, mind your words."

"Don't you think so?"

Liu Tianxue went silent because she suddenly realized her eldest brother had control over more than half of the soldiers of the kingdom and her third brother was the commander of the palace's Forbidden Guards, both of whom she was close with.

What the King said earlier must have triggered her eldest brother, who was hellbent on getting the throne, so it was not surprising that he would go to extreme lengths to achieve his goal.

"We're in for a show." Chu Kuangren smiled.

...

"That old fool!"

The Crown Prince remained infuriated after he went back to his place. "I can't believe he wanted to give Liu Tianxue the throne. That girl is talented, but she's not as talented as me! "In terms of cultivation, she's just a Second Step Monarch, while I'm almost an Ultimate Monarch. In terms of influence, more than half of the court officials are my people. In terms of war credits, I expanded our kingdom to more than half of the secret realm, and no one can beat me!"

"What does she have that I don't? "How could that old fool give her the throne?"

Beside him, the Third Prince narrowed his eyes and said, "Since things have come down to this, I don't think we have the time to hesitate anymore, Brother."

"You're saying..."

"It's time we remove him!"

"That's treason!" the Crown Prince bellowed.

"Brother! It is for the kingdom's sake! You're the chosen king of the kingdom! Are you going to sit back and watch Liu Tianxue get the throne? Father is old and isn't thinking straight. We cannot be a fool like him!"

The Third Prince knelt on the ground and said respectfully, "Brother, for the sake of our people and kingdom, you have to ascend to the throne no matter what!"

The Crown Prince pondered for a while with his eyes closed. He frowned but then he took a deep breath and said, "If that's the case... Fine! We remove him!"

Soon, the entire kingdom grew restless.

The other princes and princesses gathered under the Crown Prince's summon.

"Brothers and sisters, Father has entered Heavenly Deterioration Five Stage for too long and isn't fit to rule anymore. For the kingdom, I have decided to usurp his throne! Brothers and sisters, for the sake of the people and our kingdom, I need your support," he said.

The other princes and princesses exchanged glances.

Some of them had thoughts about the throne as well, but the Crown Prince was the strongest.

If he had decided to usurp the throne, they would not be able to walk out the door if they disagreed.

"I stand by your side, Brother."

"Yeah! Why Liu Tianxue? She's not worthy of the throne! Other than our brother, no one else is fit to be the next king!"

"I agree, too."

After getting his brothers' and sisters' answers, the Crown Prince started the rebellion.

The Third Prince mobilized the palace's Forbidden Guards, and the Crown Prince mobilized his army outside the palace to march in.

The other guards in the palace were no match for them.

After a fierce fight, the palace's guards lost to the Forbidden Guards.

High above the palace, two figures looked down at the rebels taking over the place.

Liu Tianxue was silenced by the reality that her eldest brother had rebelled. "I have to go save Father."

"He doesn't need you to save him."

Chu Kuangren scoffed. "None of the Forbidden Guards, the capital's guards, and more than half of the soldiers under your eldest brother's command have the courage to rebel against your father's regime. Your father is afraid that your eldest brother doesn't have the nerves, so he gave him a reason."

All rulers of kingdoms should be wary of concentrating too much authority in the hands of a single individual, be it a general, prince, or any other figure.

However, in Slaughter Kingdom, the King acted as if he did not know about it. He gave the Crown Prince command over the soldiers and made the Third Prince the commander of the Forbidden Guards.

The Crown Prince finally brought his soldiers to the court, where the King was.

"Father, I'm here to ask you for the throne."

"Ask? You're asking?" The King glanced at him and scoffed, "You led the troops into my palace and marched into my court, yet you're 'asking' me to give you the throne?"

"Father, there's no need for argument now. Just step down."

"What makes you believe you will succeed?"

"Father, there is no need for bluffs. I have command of the soldiers, and more than half of the court officials are my men. You're at the last stage of Heavenly Deterioration. Your cultivation base is weakening, and your body can't last any longer. How are you my match? Father, step down on your own will, and you can still leave with dignity."

"In that case, I will have to thank you for that."

Immediately after, red runes started to appear behind the King and formed a boundary around him, boosting his aura.

In just the blink of an eye, his powers skyrocketed.

"Come here!"

The King bolted up and grabbed one of the princes.

The moment he seized the prince by the neck, the prince's flesh, blood, and Slaughter Core were sucked away.

Then, the Crown Prince disintegrated into ashes.

The sudden twist of events shocked everyone.

"I have fed you and raised you for so long. Now, it's time for me to harvest what I sow!" the King scoffed.
