Chapter 2451 Blood Eating Technique, Cruel Slaughter King, Puppet Liu Tianxue

The Slaughter King bolted up and attacked suddenly. The Crown Prince was shocked and in disbelief. "You've been hiding your power all along? Why?" Why? Why would the Slaughter King hide his powers from them?

Why lure them to attack him and usurp the throne?

"Child, I do not need to explain it to you," the Slaughter King said coldly.

He then attacked again, and the Crown Prince blocked it with his body.

As an Ultimate Monarch, the Crown Prince was exceptionally powerful, and the clash with the Slaughter King was fierce. They exchanged attacks swiftly, and the powers they displayed were astonishing. "Bang! Bang!"

The whole palace collapsed because of their fight.

After a few rounds, the Crown Prince was blasted away with blood spewing from his mouth.

The Slaughter King seized the chance and grabbed his head. A powerful suction force immediately appeared from his palm, consuming the Crown Prince's cultivation, flesh, and blood. The scene left the others mortified. At the same time, they seemed to understand the situation better.

"Are you absorbing our cultivation and Slaughter Core to free yourself from the Heavenly Deterioration?" Horrified, the third prince said, "That's the Blood Eating Technique!" "Oh? You know about the Blood Eating Technique?"

The Slaughter King was surprised. "I've seen it in the library. The Blood Eating Technique allows one to consume a kin's blood and bones to recover one's vitality. So this is why you lured us to start a rebellion! It's an excuse to absorb our powers and bodies so that you can recover to your prime!" The third prince was a smart one for figuring out the Slaughter King's true intention. If the Slaughter King simply consumed his own blood, he would be labeled as a cruel tyrant, and it would affect his reputation. Therefore, he plotted and lured the Crown Prince to rebel against him with his brothers and sisters. In order to fuel the Crown Prince's confidence, he even put the Crown Prince in

charge of the army. Once the Crown Prince started a rebellion, the Slaughter King would be able to righteously consume him as punishment for treason. That way, the Slaughter King could strengthen his position and recover to his peak form without hurting his reputation.

He practically killed a few birds with one stone. The Slaughter King was a smart schemer and a cruel ruler. Not even a tiger would attack its own cub, but the Slaughter King planned all that just so he could absorb his own blood. "You're pretty smart, but when you started this rebellion, your fate was already sealed," the Slaughter King said with a grin. He grew stronger after absorbing the Crown Prince.

As his white hair turned black and his wrinkled skin grew luscious, he gradually recovered into a healthy middle-aged man.

"Father, you're cruel!"

The third prince was saddened and terrified. He was saddened to find out that he and his peers were merely tools for the Slaughter King to recover; he was terrified because he and his peers were about to die! They were no match for the Slaughter King.

"Father, please let me go!"

"Father, I won't do it anymore! Please let us go! It was all the eldest brother's and the third brother's idea! We have nothing to do with it!"

"Father, I'm your favorite daughter! Don't kill me!" "You old shameless geezer! How are you going to face the people of the kingdom if this gets out?" All the princes and princesses revealed their true nature before death.

Some begged, some asked for mercy, and some criticized the Slaughter King.

No matter what they said, they could not change the Slaughter King's mind.

"How did I produce children as useless as you? Die!" The Slaughter King attacked once again, and the Slaughter Daoist law erupted.

Soon, all the princes and princesses were murdered. "Great! This is a great show indeed!"

At that moment, Chu Kuangren and Liu Tianxue descended from the sky.

He applauded as he descended, but as for Liu Tianxue, she was horrified and in disbelief. She could not wrap her head around the situation. She looked at the Slaughter King and had no idea who the man really was.

"Father, they were all your children!" Liu Tianxue shouted.

The Slaughter King took a deep breath and said, "But they tried to usurp the throne. That's high treason, punishable by death. I'm doing this for you. If I don't kill them, they will be in the way when you ascend to the throne in the future."

He sounded sincere, but it sent chills down Liu Tianxue's spine. "Father, how can you make it sound so lightly? It's like you killed them for me."

"Tianxue, come over here. From now on, you are the second in command of the kingdom. I will teach you how to rule," the Slaughter King said in a heartwarming tone.

However, Liu Tianxue did not move. She was not stupid. She knew the Slaughter King might be just acting in front of her.

If he could kill that many princes and princesses, he could also kill her in the blink of an eye. "Tianxue, are you trying to turn against me as well?" the Slaughter King bellowed upon noticing Liu Tianxue's silence.

"What if she is?" Chu Kuangren spoke. With his hands behind his back, he said, "The Slaughter King has lost himself in cultivation and turned cruel, slaughtering his own blood and flesh. For the sake of the people and the kingdom, the princess of the Slaughter Kingdom, Liu Tianxue, decided to take him down. She then ascends to the throne... What do you think about this?" Chu Kuangren looked toward Liu Tianxue.

Suddenly, the Slaughter King's expression turned grim.

He understood that Chu Kuangren wanted to kill him and aid Liu Tianxue in ascending to the throne.

"I think... it's plausible." Liu Tianxue took a deep breath, and her eyes turned cold.

She had combed through her thoughts, and she knew her father would not let her live.

He said he would give her the throne, but it was just an act to trigger the Crown Prince to rebel against him.

The man only cared about his power and throne.

There was no way Liu Tianxue would be the next king, at least not with him alive.

Liu Tianxue's answer infuriated the Slaughter King. "You are turning against me as well? In that case, you shall join your peers!" Then, he threw a charged palm attack at Liu Tianxue.

After consuming the Crown Prince and the others, he had recovered to his prime or maybe higher. He even broke through Unlimited Great Dao in an instant.

It would be easy for him to deal with Liu Tianxue.

Unfortunately, someone stood in his way — Chu Kuangren.

He pointed his sword hand sign and shot a sword qi forward.

When the sword qi and palm energy clashed, it blasted the Slaughter King several meters away.

He glared at Chu Kuangren.

"She's going to be king, and I'm helping her. I can't let you kill her," Chu Kuangren said as he chuckled.

The people of the Slaughter Kingdom were fierce and courageous, so it would be difficult for him to conquer them with force.

The easier way would be to help a new king ascend to the throne — a king that he could control.

With that, he would be able to control the entire kingdom.

Chapter 2452 The Secret to the God of Slaughter's Ring, Slaughter King Falls, New King Ascends

The Slaughter King was a meticulous man, and he knew what Chu Kuangren was plotting from the start. He glared at Chu Kuangren and said, "Chu Kuangren, you're too naive. You want to take over my kingdom, huh? Well, you'll have to go through me!" He stepped forward and unleashed the maximum power of an Unlimited Great Dao!

With the Slaughter Great Dao manifested in the void, the field turned into a battlefield, echoing with screams and murderous noises. The Slaughter Great Dao was the most offensive one out of the three thousand Daos.

Cultivators who cultivated the Slaughter Dao would have a stronger combat strength than their peers, and the Slaughter King was one of the best Slaughter Dao cultivators.

"Apocalyptic Demon Martial Art, Heaven Punch!" The Slaughter King unleashed a punch, channeling all his Slaughter Daoist law into a massive fist seal that broke the heavens.

Chu Kuangren pointed his sword hand sign forward and cast the Sword Twenty-five!

Sword qi gushed out like a torrential stream.

"Bang!"

The fist seal cracked, and the Slaughter King was blasted away with blood spurting from his mouth.

"Your power..."

The Slaughter King was shaken. He had heard of how powerful Chu Kuangren was but only in rumors.

He had never seen Chu Kuangren fight with his own eyes, so he thought he would be able to take down Chu Kuangren once he recovered his cultivation back to the Unlimited Great Dao.

Unfortunately, he was still overpowered.

"Apocalyptic Demon Martial Art, Demon God's Doom!" The Slaughter King bellowed, and Daoist laws started to intertwine behind him to form a massive demonic avatar that overflowed with intense murderous qi. The entire palace was shaken by its appearance.

On top of that, his murderous qi filled every corner of the realm.

A powerful pressure devoured Chu Kuangren whole.

All kinds of carnage and massacre happened before Chu Kuangren.

It was the Slaughter King's own domain.

Seeing that the Slaughter King was using his avatar and domain together, Chu Kuangren responded with his sword hand sign and summoned the white-robed avatar and domain with his three thousand Daoist laws.

Avatars and domains clashed fiercely. Suddenly, the Slaughter King's avatar and domain started to crumble and collapse, especially after Chu Kuangren drew the Descendant Self Sword.

The Slaughter King was horrified to sense death from the sword.

"Source... That's a weapon connected to the source!"

The Slaughter King gulped nervously, and his eyes widened in shock.

Not daring to take it lightly, he rose to the sky and started to gather the fortune energy of the realm to boost his aura.

"Chu Kuangren, you're strong, but this is the Slaughter Kingdom, and I am its king!" the Slaughter King bellowed.

The Slaughter Kingdom was a kingdom just like the Fortune Kingdom.

The king had unlimited power and authority over anything, like how Chu Kuangren ruled over everything in his Fortune Kingdom.

The Slaughter King raised his palm and slammed it down at Chu Kuangren. The domineering energy from his palm crushed half of the palace, and as the main target, Chu Kuangren was faced with an intense force on him.

Even Liu Tianxue was shaking under the pressure.

"Break!"

Chu Kuangren swung a bright slash upward that glimmered through time and space.

However, when the sword and palm clashed, the palm seal cracked again, and the Slaughter King was pushed backward.

He was in disbelief.

"How? With my kingdom's blessing, I should be the strongest! How did you resist my attack?" The Slaughter King was baffled.

Then, he realized something. He looked at the God of Slaughter's Ring in Chu Kuangren's hand and understood what went wrong.

"The God of Slaughter's Ring? You used it as a medium to also control my kingdom's fortune energy!"

The God of Slaughter's Ring was an insignia from the God of Slaughter. Possessing the ring would grant one the authority of the king in the kingdom, so it explained why Chu Kuangren could control the Slaughter Kingdom's fortune energy.

"The God of Slaughter's Ring is really a fortune treasure," Chu Kuangren said with a grin.

A long time ago, he noticed something strange about the ring. However, it was when he arrived at the Slaughter Kingdom that he got the chance to verify his thoughts.

"Damn it! I ruled the Slaughter Kingdom for years, and it's not something you can do with one ring!" the Slaughter King bellowed.

He then merged the fortune energy and the Slaughter Great Dao, channeling its energy to the limit. "Apocalyptic Demon Martial Art, Realm Destruction!" the Slaughter King shouted and unleashed his strongest attack.

As he punched forward, murderous qi from all over the world gathered, attempting to kill all lives in its way.

At the same time, murderous rays shone.

"Sword Twenty-six!"

Chu Kuangren cast the Sword Twenty-six directly.

Sword intent from the past to present gathered on the Descendant Self Sword and released an unprecedented sword qi that cut through time and space.

Not even the Gods could resist that attack.

The moment the two powerful attacks clashed, the land was in rubles, and the sky cracked.

Amidst the blinding sword ray, a figure was blasted away. It was the Slaughter King.

He was in a sorry state, his body covered in sword marks and blood. He looked at Chu Kuangren in horror and confusion. His expression shifted multiple times, and he had to breathe deeply to catch a breath.

"No! I won't accept this! I have planned this for so long. Did I consume my own blood and give up so many things just to lose to an outsider? No!"

Aggrieved, the Slaughter King glared at Chu Kuangren as if he wanted to kill the latter.

However, Chu Kuangren was unfazed. Instead, he released a few more sword qi. The heavily injured Slaughter King could barely fight back anymore.

After another round of attacks, he lost his limbs and was rendered defenseless.

Losing all limbs was nothing to an Unlimited Great Dao, as regrowing his limbs would only take a thought, but the sword qi at the wound stopped him from regenerating.

"The chance is here. Liu Tianxue, it's up to you to seize it," Chu Kuangren said as he turned around to Liu Tianxue. Liu Tianxue immediately understood what he meant, and her body shuddered as she walked over to the king. "Tianxue, this is treason!" the Slaughter King bellowed.

"Treason? Father, it sounds so ironic when you say it."

Liu Tianxue summoned her sword and raised it high in the air.

"Tianxue, how dare you!" the Slaughter King shouted.

He tried to fight back, but Chu Kuangren's domain immobilized him.

"Tianxue! No! Please, no! Let me go! I am your father! I'll give you the throne and never ask about the kingdom anymore!" Unfortunately, the answer he got was the frosty murderous qi from Liu Tianxue's sword.

After a quick slash, the Slaughter King's head fell to the ground, and all signs of life faded from his body.

The Slaughter King had officially been killed.

In the end, the one who consumed his own children was killed by his own blood.

Chu Kuangren looked at Liu Tianxue and said, "Nicely done. You've taken out the old king. I hereby congratulate you on your new ascension."

Chapter 2453 Ultimate Pill, I Want Obedient Men, To Dragon Tribe

With Chu Kuangren's help, Liu Tianxue finally killed her own father, the Slaughter King.

Since the Crown Prince, the third prince, and other suitable candidates for the throne were dead, there was no more hindrance for her to ascend to the throne.

After going through some procedures, Liu Tianxue officially became the Slaughter Kingdom's new king.

Inside a room in the kingdom, Chu Kuangren was toying around with a white gemstone.

The gemstone contained intense murderous qi and had Daoist law light glimmering around it.

It was the Slaughter Core of the old Slaughter King.

Based on Lil Ai's analysis, the Slaughter Core was something similar to the Great Dao's Source, which could boost one's cultivation, especially for cultivators who cultivated the Slaughter Dao.

It was said that the Slaughter Core could boost one's cultivation level into the Ultimate Monarch Realm in the shortest time possible.

Chu Kuangren was a few steps away from reaching the Ultimate Monarch Realm. If he used the Slaughter Core to continue his cultivation, he would be able to break through to the new realm in no time, but only for the Slaughter Dao.

He cultivated three thousand Daos, and what he wanted to achieve was for all three thousand Daos to break through to the Ultimate Monarch Realm.

"Tsk tsk. A common cultivator might have to spend multiple eras to break through the Ultimate Monarch Realm. Some might not even achieve it in their entire life, but now I'm aiming to achieve that for all three thousand Daos. Cultivating three thousand Daos is really a difficult path," Chu Kuangren thought to himself.

Of course, he could always choose one or a few Daos to focus on.

With his talents, he could easily break through to become an Unlimited Great Dao or even an Overlord in no time. However, it was not his style.

Besides, he got to know a little more about the Infinity War from the Devil King.

He knew countless powerful elites fought in the Infinity War, especially the God Emperor, who was known to be invincible.

In order to fight the God Emperor, he had to walk a different path than others.

He had to conquer all three thousand Daos!

That would be the most powerful and the only way to fight the God Emperor.

With that, Chu Kuangren then started to refine the Slaughter Core.

His plan was to break one Dao through to the Ultimate Monarch Realm first.

A while later, Chu Kuangren exited his cultivation with a brand new and intense murderous intent around him that rivaled that of the old Slaughter King.

His Slaughter Dao had broken through to the Ultimate Monarch Realm.

"One down and two thousand nine hundred ninety-nine Daos left," Chu Kuangren murmured.

He knew it would take him a lot of time to ascend all his Dao to the Ultimate Monarch Realm, even with his talents.

Would he be able to do it before the Infinity War arrived?

He shook his head and put away his concerns for now.

"Congratulations, Host! You've acquired the Ultimate Pill."

On that particular day, Chu Kuangren did a gacha draw, and the prize surprised him.

Ultimate Pill? Could it be related to the Ultimate Monarch Realm?

Chu Kuangren checked the description, and he was right. The Ultimate Pill was a rare prescription that could aid a cultivator enter the Great Dao for comprehension and swiftly break through to the Ultimate Monarch Realm.

With Chu Kuangren's monstrous cognizance and the pill, he could ascend a single Dao to the Ultimate Monarch Realm in just a few years.

However, he was much more ambitious than that.

"Lil Ai, analyze the components for the pill."

"Yes, Master."

He wanted Lil Ai to analyze the components of the Ultimate Pill so that he could mass produce it. With that, he would be able to greatly shorten his cultivation time and break all two thousand nine hundred and ninety-nine Daos to the Ultimate Monarch Realm in the shortest time possible.

While Lil Ai was analyzing the pill, Liu Tianxue came over. "Monarch Chu, what is your next step?" She looked at the man before her eyes with mixed feelings.

It was because of him that she became the new Slaughter King, but at the same time, she would be bound to him completely.

From now on, he would have a leash over her neck, controlling her life and death, and there was nothing she could do.

"You're in charge of the Slaughter Kingdom. I believe you are a smart person who knows what you should do," Chu Kuangren said.

"I understand. From today onward, the Slaughter Kingdom will be the Pan Gu Kingdom's most loyal ally. We stand together through thick and thin," Liu Tianxue said.

"Ally?" Chu Kuangren chuckled. "You're wrong. I don't need allies. I need obedient subordinates. Do you understand?" Liu Tianxue bit her lip. Although unhappy, she nodded reluctantly. "I understand, Master!" "Good."

Chu Kuangren was satisfied with her answer. "Since things are almost done here, I should leave. New King, you should concentrate on ruling your kingdom."

Then, he left without turning back. He was not afraid of Liu Tianxue playing tricks or turning against him.

If he could help her get the throne, he could bring her down and replace her with someone else.

"I might've realized my dream of ascending to the throne, but the kingdom has become a vassal. Is this the right choice? What have I done..." Liu Tianxue murmured to herself after Chu Kuangren left.

However, knowing how Chu Kuangren did things, she took a deep breath and convinced herself, "It's all for the kingdom. If I don't compromise, that man might do something unimaginable. This might be the best outcome. The Infinity War is coming, and maybe by siding with him, we might have a chance to survive it..."

It was a huge bet that she was taking.

She knew the Infinity War would involve all of the Infiniverse, and there was no way the Slaughter Kingdom could stay out of it. In order to survive it, she had to find protection.

Chu Kuangren and the Pan Gu Kingdom might be able to do just that.

...

"Master, I have analyzed the components."

Chu Kuangren's eyes gleamed.

Lil Ai then listed the ingredients in his mind, and Chu Kuangren took a glance at them.

Most of the ingredients were not a problem as there were a plethora of Immortal Herbs on the Immortal Island.

If he could not get a specific herb or ingredient, with his current status, he could just mobilize the entire human race to search for him.

However, there was one main ingredient that was tricky — a dragon's blood. The pill required a high-level dragon cultivator's blood, at least a Dragon Monarch.

"Dragon's blood? It seems like I'll have to visit the Dragon Tribe."

Chu Kuangren pondered as he rubbed his chin.

He recalled the Dragon Tribe being one of the attackers that besieged the Pan Gu Sect years ago.

However, similar to the Spatial Tribe, Six Eyes Tribe, and the others, after the alliance failed to take down the Pan Gu Sect, they all went into hiding, afraid that Chu Kuangren would go after them.

Since Chu Kuangren possessed the Infernal Dragon's energy and could transform into the Primal Infernal Dragon, he could use the bloodline's senses to locate the Dragon Tribe, and it was not difficult at all.

With that in mind, he took immediate action. "Limitless Primal Infernal Dragon!"

Chu Kuangren instantly transformed into the Primal Infernal Dragon.

"It's... in this direction."

...

Meanwhile, in the Dragon Tribe, the Elder Dragon King was in a sulky mood.

The Dragon Tribe had failed multiple times in taking down Chu Kuangren, and it affected his confidence. Now, the entire Dragon Tribe was hiding in a secret realm.

"Chu Kuangren, how could someone like you exist in the world?" Elder Dragon King lamented as he looked up into the sky.

Suddenly, his expression shifted as the sky of the secret realm cracked!

A crimson figure descended from the crack. It's boundless and domineering draconic aura swept across the entire secret realm, frightening every dragon.

Chapter 2454 Dragon Tribe Submits, Craft Ultimate Pill, Guarantee Mission Completion

"That's..."

The Elder Dragon King's eyes widened when he saw the crimson figure descending from the sky.

The crimson figure was surrounded by flames and had a bone mask carved with intricate patterns on his face. His dark golden eyes exuded a strong aura that could make the entire Infiniverse submit to him.

Countless dragons felt their bloodline tremble.

"Primal Infernal Dragon?"

"Why is the Primal Infernal Dragon here?"

"Is he here to save us?"

Some of the dragons were astonished beyond words.

Some believed the Primal Infernal Dragon had come to save them, so they knelt on the ground.

However, some of them were horrified when they recovered from their shock. "He's not the Primal Infernal Dragon! He's Chu Kuangren!"

Chu Kuangren could transform into the Primal Infernal Dragon using the Limitless Imitation.

The Primal Infernal Dragon died ages ago. Even if he could traverse through time, he would not appear without a reason.

In other words, the Primal Infernal Dragon was Chu Kuangren in disguise!

"What is Chu Kuangren doing here?"

The Elder Dragon King ran over.

Chu Kuangren looked at the Elder Dragon King coldly with his dark golden eyes, making him shudder.

"Chu Kuangren, what are you doing here?"

"The Dragon Tribe besieged the Pan Gu Sect, and you ask why I'm here? What a joke." Chu Kuangren scoffed.

Then, an even more domineering dragon aura erupted, forcing a number of Dragon Tribe cultivators on the ground with fear written all over their faces.

"You want to go to war?"

"You have two options: be annihilated or submit to me," Chu Kuangren said.

He needed to be stronger to prepare for the upcoming Infinity War.

Be it the Slaughter Kingdom or the Dragon Tribe, they could be great cannon fodders for the war.

"Chu Kuangren, must you push it so far?"

"You don't have any other choice."

"You..."

The Elder Dragon King took a deep breath and said, "We submit."

The Dragon Tribe did not have a choice before absolute power.

"Empty words. How should I believe you'll truly submit to me?" Chu Kuangren pursed his lips.

"What do you want us to do?"

"I want all Dragon Monarchs to make a Daoist Vow and let me imprint an enslavement mark in your heads," Chu Kuangren said.

"You want to enslave us?"

The Elder Dragon King was furious, and so were the other Monarchs.

"No way!"

"Chu Kuangren, this is too much!"

Chu Kuangren narrowed his eyes at their angry reactions and punched a Monarch, killing him instantly.

The Dragon Monarch did not even have the chance to retaliate.

Chu Kuangren then put his hands behind his back. "You dragons can continue to defy me, and I will continue my killing spree. Believe me. I might not be able to erase the Dragon Tribe entirely, but I can still kill every Monarch I see."

Without the Monarchs, the Dragon Tribe would be weaker than other smaller tribes.

On top of that, everything on a dragon was precious. Be it the blood, flesh, bone, or scales, they could be used for crafting pills and forging weapons.

The Dragon Tribe could thrive because they were protected by their own Monarchs.

Once all their Monarchs were wiped out, given how precious their bodies were, they would certainly be hunted down by the other tribes, such as the Dragon Hunters.

Until then, even if Chu Kuangren did not wipe out the Dragon Tribe, the other tribes might do it.

The thought of the possible future frightened the Elder Dragon King. His expression shifted multiple times before he sighed helplessly and said, "We... accept. From now on, the Dragon Tribe will be a vassal to the Pan Gu Kingdom."

"Wise choice," Chu Kuangren said.

He then imprinted the enslavement mark into the Dragon Monarchs' minds.

It was a cultivation technique that he learned from the Soul Tribe.

It was a strange cultivation technique as it originated from the Heavenly Soul Seal, one of the Nine Heavenly Seals.

With that cultivation technique, Chu Kuangren controlled the life and death of the Dragon Monarchs with just a thought.

If they ever wanted to betray him, he could destroy them down to their souls.

"Right. Now that all of you are my slave, I have something that I need you to do. I need your blood!"

Chu Kuangren said to the Dragon Monarchs, "From today onward, the Dragon Tribe must offer one hundred thousand gallons of Dragon Monarch blood to me every year."

"What are you doing with our blood?" The Elder Dragon King was confused.

"Don't ask. Just do."

"Very well."

The Elder Dragon King dared not defy him either.

After dealing with the Dragon Tribe, Chu Kuangren brought one hundred thousand gallons of dragon's blood back to the Pan Gu Kingdom.

He went to Yue Shanling and told him about the Ultimate Pill.

"Can you craft this pill?"

"It's pretty difficult." Yue Shanling looked at the pill and pondered.

"It's okay. I'll help you with the research."

"My King, do you know how to refine pills as well?" Yue Shanling was surprised.

"I know a thing or two."

Chu Kuangren might not be a master alchemist, but he had Lil Ai.

Lil Ai was the solution to all problems.

In the next few hundred years, Chu Kuangren studied the Ultimate Pill with Yue Shanling.

The pill was a strange one. It could not be replicated so easily, and it was difficult trying to gather all the ingredients.

Chu Kuangren and Yue Shanling tried ten thousand methods, and Lil Ai simulated more than ten billion ways to craft it.

Finally, on a certain day, the Pan Gu Kingdom was swept over by the aroma of pills.

The qi from the aroma caused different conjurations to appear and even produce Daoist laws.

All the Monarchs in the kingdom were surprised.

"What kind of pill can manifest so many conjurations?"

"The qi from the aroma resonates with the Great Dao in my body."

Everyone looked to the source of the aroma.

High above the palace, the pill's aroma surged into the sky, and a golden pill was floating in the air while surrounded by mystical Daoist laws.

Next to the pill were Chu Kuangren and Yue Shanling.

The two of them looked at the pill with delight, especially Yue Shanling, who cheered and shouted like a little boy.

"We did it! My King, we finally did it!"

"Yeah. We've been through a lot," Chu Kuangren said with a satisfactory smile.

"Phew!" Lil Ai also breathed a sigh of relief.

She had spent quite a lot of energy analyzing the Ultimate Pill and running billions of simulations every session.

"Lil Ai, thank you," Chu Kuangren said.

If not for Lil Ai, it would take Yue Shanling more than an era to study it, let alone craft it.

"It's part of my job," Lil Ai said proudly.

Chu Kuangren smiled and then looked at Yue Shanling.

"Yue Shanling, I want you to focus on crafting this Ultimate Pill. This is the key for me to ascend to Ultimate Monarch. Can you do it?"

Yue Shanling's eyes widened in shock.

He did not expect the pill would be the key to Chu Kuangren's ascension.

"Don't worry, my King! I guarantee you I will complete the mission!" Yue Shanling said.

He would have to get busy after this, but it was for the kingdom.

Chu Kuangren was the pillar of the kingdom, and once he ascended to an Ultimate Monarch, the kingdom would be indestructible.

Chapter 2455 Legend of Shen Qixue, Ming Bujue, Kong Feixing

Following mass production of the Ultimate Pill, Chu Kuangren started another round of cultivation again to push all three thousand Daos to the Ultimate Realm.

He was extremely gifted, and with the boost from the Fortune Kingdom and the pill, he was confident in achieving what seemed almost impossible to others.

Time flew, and several thousand years went by again.

The Pan Gu Kingdom continued to develop, and with the fortune energy's blessing, the kingdom produced another batch of Monarchs.

The first batch of Monarchs, Lan Yu, the Three Clarities, Nuwa, and the others, had become First Step Monarchs.

Some even started to have their eyes on the Ultimate Monarch Realm.

Then, there was the Tempest King.

She was talented and already an Ultimate Monarch. After a few thousand years of cultivation, she managed to enter the Unlimited Great Dao Realm with not just one but multiple Daos!

She was as strong as, or even more powerful than, the Heavenly Sovereign many years ago.

"This is..."

Inside a grand hall of the kingdom, the Six Eyes Diviner opened his eyes, looking surprised.

A moment ago, he sensed a new aura.

That particular aura was closely related to the human race.

"This aura is extremely strong and noble. It's related to the human race, but it doesn't fit in this universe. Could it be that an ancient one has awakened?" the Six Eyes Diviner thought.

He contacted the Tempest King, the Human Empress, and the others and informed them of his findings.

No one dared to take it lightly, so they asked the Six Eyes Diviner to find the exact location of the aura.

"Very well."

The Six Eyes Diviner opened up his Third Eye and started searching.

Suddenly, a formless destiny and vital energy erupted from the void, striking the Six Eyes Diviner.

Having been hurt, his Third Eye bled profusely, and his aura grew weaker by the second.

"Someone is preventing me from locating the aura. This energy should belong to one of the Six Eyes Tribe elites. Not even the tribe leader can do this, so who could it be?"

The Tempest King and the others reacted grimly.

"It seems like this aura is extremely important, or the Six Eyes Tribe wouldn't go to such an extent to stop the Six Eyes Diviner," the Tempest King said.

"The more important this aura is, the more we'll have to take it seriously. Who knows what the other tribes would do to this aura," the Human Empress said.

The Pan Gu Kingdom might thrive and flourish right now after uniting all of the human race, but the other tribes were still eyeing them from the dark like vipers waiting for their prey.

All of them wanted a chance to deliver a deadly blow to the Pan Gu Kingdom.

Now, someone had finally made a move.

"That aura is in the southeast direction of the Great Hongmeng Universe. That's all I can find out for now," the Six Eyes Diviner said feebly.

The Destiny energy that stopped him was extremely powerful.

He suspected that an ancient elite from the Six Eyes Tribe had awakened.

"South-east direction... I think there's an ancient battlefield there named God May Cry. Could it be there?" the Tempest King suggested.

God May Cry Domain was one of the major domains in the Great Hongmeng Universe, but it was unusual because the Infinity War used to take place there.

The ancient Infinity War involved the entire Infiniverse, but the Great Hongmeng Universe remained the main battlefield, and most of the major domains were scorched by the flames of war.

God May Cry Domain was one of them.

It was said that a massive battle happened there. Gods cried and demons sobbed, hence the name that it was given.

"God May Cry... Could it be him?"

The Human Empress pondered. "Legend has it that there was a God of War second only to the Human Ancestor, and his presence made gods and demons cry. His name was Shen Qixue."

The Tempest King and Earthen Monarch were intrigued.

Even though the ancient war was many eras ago, and the details were difficult to learn, breadcrumbs and clues were still available.

They heard of Shen Qixue as well.

"If it really is him, his awakening would be great news to us," the Earthen Monarch said.

"We cannot let the other tribes find him," the Tempest King said sternly.

The other tribes would never allow someone on the human race's side to awaken, especially the tribes who sided with the God Emperor.

"Time is of the essence. Let's go to God May Cry Domain."

"Right."

...

Meanwhile, in the Six Eyes Tribe, a man in white opened his eyes with six glimmering pupils.

"The Third Eye is indeed powerful. He survived my attack, but it's too bad that he turned on us."

The man was an ancient elite of the Six Eyes Tribe — Ming Bujue.

He had just woken, and after getting an understanding of the current situation, he immediately locked on to the Pan Gu Kingdom.

"During the Infinity War, the Human Ancestor was the emperor's strongest resistance. Now that Chu Kuangren has slowly become the second Human Ancestor, he cannot be allowed to live. And Shen Qixue, the God of War of the human race who killed the Primals, must be eliminated as well," Ming Bujue thought to himself.

He looked into the void.

"I alone am not strong enough to handle that many Monarchs from the Pan Gu Kingdom. I have to get help. I believe the others are awakening soon."

At the same time, boundless Spatial energy erupted in the Spatial Tribe.

A silver figure emerged proudly from the energy. He had a pair of light wings on his back and carried the presence of an Unlimited Great Dao.

"Kong Feixing, you've finally awakened!"

Another person emerged from the void.

Chu Kuangren would surely recognize him if he were here.

The man was one of the Forbidden Guards of the God Emperor, Wen Tianfeng.

"Wen Tianfeng, you woke up earlier than me," Kong Feixing said.

"Just a little earlier. Let me catch you up to speed," Wen Tianfeng said.

He then told Kong Feixing everything about Chu Kuangren.

"Interesting. I didn't expect someone like that to be in this final era. I'd like to meet him myself," Kong Feixing said.

"You are no match for him right now."

"It seems like you were defeated badly, but as Forbidden Guards, we cannot accept defeat that easily," Kong Feixing said proudly.

He, too, was a Forbidden Guard.

"There's something else we must take care of before Chu Kuangren. A while back, Ming Bujue woke up and told me that Shen Qixue is awakening soon."

"Shen Qixue?"

Kong Feixing's eyes widened in shock. "That lunatic didn't die on the battlefield? The Human Ancestor is dead, but not him?"

Shen Qixue was a well-known name in ancient times. As one of the beings created by God, he defied his maker and made gods and demons cry.

It was the first time a being created by a God displayed powers that horrified the Primal Gods, which was also one of the reasons that started the Infinity War.

The Primal Gods saw a threat in Shen Qixue, thus giving them the idea of murdering all the beings they created.

"We cannot allow Shen Qixue to wake up!" Kong Feixing said.

"I'm gathering a team. Besides, Lord Primal Flame is already awake. If he joins us, Shen Qixue will die."

Chapter 2456 Shen Qixue's Location, Tempest King And The Others Arrive

God May Cry Domain was one of the major domains in the Great Hongmeng Universe.

At the same time, it was also one of the oldest battlefields for the Infinity War. The rage qi in the area was so dense that it even affected Monarchs.

Therefore, the entire domain was listed as a forbidden land.

On that particular day, a number of cultivators ventured into the God May Cry Domain.

The cultivators were from different tribes, and they ventured into the forbidden land, looking for something. "No! I can't take it anymore!" A cultivator collapsed on the ground, breathing heavily.

The aura around him was fighting the rage qi and murderous qi in the area.

"The rage qi in the area is too strong. If we stay for too long, we might be in danger. We have to leave."

"But we haven't located our target."

"The target should be in the center of the domain, where the rage qi and murderous qi are the strongest. Only Monarchs could enter there."

"We cannot venture deeper..." Some of the cultivators felt defeated.

Some of them were Grand Dao Supreme Honorables and were supposed to be the elites who could rule a certain area. They were considered the strongest under the Monarch Realm, and no one should be able to rival them.

Yet, they felt extremely helpless for not being able to venture deeper.

"The final era sure is scary. Even as Grand Dao Supreme Honorables, we cannot interfere with this upcoming war," said a Grand Dao Supreme Honorable helplessly.

They were just servants serving the Monarchs.

When the real war happened, they would have no place on the battlefield.

"Many Monarchs were mobilized this time. I heard the ancient beings of some of the tribes have awakened lately. I have no idea what's going on with the current situation anymore," said one of the cultivators.

"But the ancient beings are involved in this operation as well. They seem concerned about the target," said a Grand Dao Supreme Honorable.

He had seen the ancient being of the Spatial Tribe from afar. Just one glimpse at the person could already make him feel like he was suffocating.

For someone as powerful as that to come all the way to the God May Cry Domain, it seemed the ancient being must be afraid of something.

The Grand Dao Supreme Honorable could not imagine what else could frighten the ancient beings to that extent. Could it be the Primal Gods?

Deep inside the God May Cry Domain, a Monarch flew across the sky.

Suddenly, he locked onto a mountain ridge below.

The mountain ridge contained dense murderous qi. It was so dense that the murderous qi swirled around like dragons, releasing growls into the sky.

On top of that, the Monarch also sensed an unusual aura. It was powerful but did not fit the universal law of the Great Hongmeng Universe.

"This aura... It must be him!" The Monarch narrowed his eyes.

Then, he raised his hand, summoning powerful Daoist law energy to blast the mountain ridge. The power he released alone could hit the sun and moon out of the sky.

However, the murderous qi around the mountain ridge released a powerful roar at the attack, canceling the Monarch's attack.

The Monarch was pushed back a few steps. He looked at the mountain ridge in fear. "Is the murderous qi protecting the mountain ridge?"

He then attacked with another of his strongest attacks, but it turned out the same.

His attacks could not even reach the mountain ridge.

"If the person slumbering in the mountain ridge is him, I won't be able to inflict any damage on him with my powers alone. I have to contact the others."

With that, he sent out the message.

A while later, multiple Monarchs came from all directions.

An army of Monarchs gathered above the mountain ridge. There were so many of them that the sheer number would leave others in awe.

"Is this where the human race's God of War slumbers?"

"It should be."

A man in white came over.

The six pupils in his eyes were scanning across the mountain ridge.

"This is the place."

The man was Ming Bujue, the one who identified She Qixue slumbered in the God May Cry Domain.

Today, he ought to end that legend with his own hands.

"Shen Qixue, die!"

Ming Bujue raised his hand and released a domineering aura. In the blink of an eye, the Destiny energy grew so massive that it impacted the void.

The moment he slammed his palm down, Daoist law swirled and transformed into a massive white palm seal.

"Kakroom!"

The land trembled, and the sky shook.

The swirling murderous qi was crushed by the powerful palm strike, and the entire mountain ridge was leveled.

However, that was not the end.

Ming Bujue released another boundless palm energy at the mountain ridge. The other Monarchs also joined him by releasing all kinds of Daoist laws that shimmered.

Unrivaled palm energy flooded the mountain ridge like a tidal wave, shaking the land easily. The murderous qi was crushed, and as the dust settled, the void within the mountain ridge was destroyed and reverted back to chaos. The sight of it was simply terrifying. Ming Bujue grinned coldly. He believed Shen Qixue would not be able to handle the attack in his slumber and might already be heavily injured.

"No. He's Shen Qixue, the one who threatened the Primals! The God of War of the human race won't be killed so easily! Continue!"

Ming Bujue attacked away. He could not allow Shen Qixue to have the slightest possibility to awaken.

Suddenly, Thundergale Daoist law attacked from afar.

Thundering lightning bolts were hurled at the Monarchs, surprising them and forcing them to take defensive measures.

"Kabaam!"

Amidst the explosion, multiple Monarchs were blasted away.

"Who is that?"

"Could it be her?"

The Monarchs were surprised.

Ming Bujue stared into the distant sky with narrowed eyes.

A beautiful and valiant figure dashed over like a comet and arrived before them in the blink of an eye. The domineering Monarch's aura that she exuded swept across the field.

She was stronger than all the Monarchs present.

Her looks outshone the sun, her facial features looked valiant, and her iron-willed and domineering aura made her seem like a peerless empress!

"Tempest King! It's you!"

One of the Spatial Tribe Monarchs recognized her immediately.

Then, multiple auras appeared behind the Tempest King.

As a Taiji diagram appeared and swept across the field, Li Jun stepped out. His aura merged with the realm, and his Daoist law energy felt natural.

Boundless sword qi went on a rampage, followed by the Heavenly Grandmaster's arrival with his Immortal Destruction Formation.

The Divine Primeval Imperial arrived in his jade scepter as well.

Mingyue Wuxia was also there with her sword intent, ready to fight.

With golden dew raining across the field, the Human Empress appeared in her paper umbrella as she stared at Ming Bujue and the other Monarchs coldly. The Monarchs of the Pan Gu Kingdom had arrived.

Multiple powerful and different auras erupted, and it made the Monarchs cautious.

"It looks like they've found this place, too," Ming Bujue murmured.

Even though he managed to stop the Six Eyes Diviner at the last moment, the Six Eyes Diviner was capable enough to read through the clues and breadcrumbs.

"If you want to kill an ancient cultivator of the human race, you will have to go through us!" The Tempest King swung her sleeves fiercely. Her eyes were overflowing with murderous intent.

A battle between Monarchs was about to break out.

Chapter 2457 Pan Gu Kingdom's Combat Strength, Shen Qixue's Fall?

The Tempest King, Human Empress, and the others arrived in the God May Cry Domain to stop Ming Bujue and his army of Monarchs.

A fierce battle between Monarchs would break out at any moment.

Ming Bujue looked at the Tempest King coldly. "Shen Qixue must die today. Your arrival won't change a thing."

The moment he said that, the Monarchs from different tribes behind him released their respective aura.

However, the Tempest King and the others were not deterred.

At the next moment, both sides clashed in a fierce battle.

The clash of Monarch Daoist law energies swept across the battlefield. The Tempest King took the lead by closing her fist in the void, releasing boundless Thundergale energy at one of the Monarchs.

The Thundergale energy that she wielded was a lot stronger than before.

Even a Monarch was shaken by her terrifying powers.

"Bang!"

The Monarch's body exploded.

"She's strong!"

"The Tempest King has grown so strong!"

"How scary."

"She's already an Unlimited Great Dao!"

"She's now stronger than the Heavenly Sovereign!"

Ming Bujue narrowed his eyes at the Tempest King, and his body released endless light. "Woman, you're not bad. You are worthy to be my opponent."

He stepped forward and locked onto the Tempest King. When he punched forward, Destiny Daoist law energy swirled around his fist.

However, the Tempest King was not shaken by the attack. "Such powerful Destiny Daoist law energy. I bet you were the one who hurt the Six Eyes Diviner."

"Thundergale Overworld!"

She countered with a punch of her own, crushing the incoming Daoist law energy.

"Hmph. He's nothing but a traitor. I will deal with him soon." Ming Bujue scoffed.

Then, he continued to fight the Tempest King.

The two of them were both Unlimited Great Dao cultivators who possessed terrifying powers. Each attack and each move they made affected their respective Great Dao. Their fight was so fierce that it turned everything upside down.

Meanwhile, the cultivators from the Pan Gu Kingdom fought the cultivators from different tribes.

In terms of numbers, the cultivators from other tribes had an advantage. However, the fight did not turn out as expected.

As the Three Clarities, Lan Yu, and the others were far stronger than common Monarchs, they could take on two to three people a person. In addition to the Human Empress, who was also an Unlimited Great Dao cultivator, the cultivators from other tribes were at a disadvantage.

"They're too strong!"

"Since when did the Pan Gu Kingdom get so strong?"

"It has only been a few thousand years, and this is how strong they've gotten? If they continue to grow, they would be even more terrifying."

The growth speed of the Pan Gu Kingdom's cultivators far surpassed the other tribes' expectations.

Although they knew it must be the effect of the Fortune Kingdom, it was crazy.

"Hmph! The Pan Gu Kingdom must be eliminated!" Suddenly, a frosty voice echoed in the sky.

Two boundless auras erupted from the void as two powerful figures arrived.

One had glimmering Spatial Daoist law energy swirling around him, while the other wielded a black trident and wore black armor.

"Forbidden Guards of the God Emperor!" Ming Bujue was delighted by their arrival.

The Tempest King felt a powerful threat from the two new challengers. The two were also Unlimited Great Daos and not just the common ones. "Be careful!" The Human Empress' expression turned solemn.

As the other Unlimited Great Dao, she could tell the two Monarchs who just appeared were extremely powerful. Hence, she quickly channeled the Creation Daoist law energy within her and shot multiple beams at the Forbidden Guards.

"How many years have you been in the Unlimited Great Dao Realm? How dare you stand against us? What a fool." Wen Tianfeng scoffed and swung the trident, shooting a trident ray forward.

The Human Empress managed to block it, but the blast pushed her away.

After the dust settled, her expression turned grimmer, and she looked rather pale.

"He's strong!"

The Human Empress was shuddering as she stared at them cautiously. However, it did not stop Wen Tianfeng from attacking again.

Many years ago, he fought Chu Kuangren and was defeated. It was a stain that he wanted to remove, and he had been seeking a chance to take revenge.

Since the Pan Gu Kingdom was deeply connected to Chu Kuangren, there was no way he would show mercy.

Besides, he opposed the human race and was an enemy from the start.

"Die!"

Wen Tianfeng swung his trident at the Human Empress when suddenly, earthen qi rumbled like dragons.

The Earthen Monarch intervened.

He teamed up with the Human Empress to block the attack but still fell into a disadvantage.

Yet, despite being overwhelmed by Wen Tianfeng, no one from the Pan Gu Kingdom stepped down.

"The human race is as irritating as ever." Not far away, Kong Feixing scoffed and narrowed his frosty eyes, firing Spatial light rays from all around him. In a split second, the void cracked, and the light rays blasted the Monarchs away.

"I'll be your opponent!"

A vast sword qi was shot forward.

Kong Feixing narrowed his eyes. After he broke the incoming sword qi, he looked at Mingyue Wuxia. "What a familiar presence. Is that the Human Ancestor's sword? It seems like you're the reincarnation of the sword spirit."

"What if I am?" Mingyue Wuxia said indifferently. The Ultimate Supreme Weapon in her hand released an intense aura.

Even though she was not yet an Unlimited Great Dao, with the sword spirit's power, she could rival any Unlimited Great Dao cultivator.

"In that case, you shall die!"

Kong Feixing attacked mercilessly.

The Human Ancestor was the God Emperor's biggest enemy.

Therefore, to the cultivators on the God Emperor's side, anything related to the Human Ancestor must be killed or erased.

"Void Tribulation!"

Kong Feixing shot a dazzling light ray forward, crushing the void and everything in its path.

The technique belonged to the Void Ruler.

As the ancient cultivator of the Spatial Tribe, Kong Feixing used to practice under the Void Ruler for some time and had learned a few techniques from the Primal God.

Hence, when he found out that Chu Kuangren killed the Void Ruler, he resented everyone from the Pan Gu Kingdom and wished he could kill all of them.

"Heavenly Human Yin Yang Sword!"

Mingyue Wuxia knew exactly how strong Kong Feixing was, so she countered with her strongest attack.

The sword ray was blasted forward at blitzing speed, tearing the void in its path with the Yin Yang energy.

"Kaboom!"

When the Spatial Daoist law energy and Yin-yang Daoist law energy clashed, the explosion pushed Mingyue Wuxia back.

"Come here!" Kong Feixing attacked again. "Broken Arms Blazing Flame, Celestial Demon Bloodthirst!"

Just then, blazing flame energy gushed forward and transformed into tens of thousands of broken weapons.

The attack was so strong that it rivaled the attack of an Unlimited Great Dao and blocked Kong Feixing's attack on Mingyue Wuxia.

It was Armament Destruction who came.

However, he had to consume at least half of his total energy to block the attack and might not be able to fight Kong Feixing anymore.

"Kong Feixing, deal with Shen Qixue first!" Ming Bujue shouted.

Kong Feixing also believed that Shen Qixue was much more of a threat than Mingyue Wuxia and the others, so he left and went after his target.

He arrived above the mountain rise and unleashed all kinds of Spatial energy to bombard the entire field.

A while later, the mountain ridge was almost leveled to the ground.

Craters deeper than a thousand meters appeared, and some spots were destroyed until there was nothing left.

"Hahaha! Shen Qixue, how are you going to come back from this?" Kong Feixing cackled loudly, thrilled by his destruction. "Oh, is that so?"

Suddenly, a lazy voice came from deep underground.

Chapter 2458 Shen Qixue Awakens, Human Race's God of War

"Oh, is that so?" A lazy scoff came from deep underground. Then, boundless energy erupted, shaking the ground violently and tearing it in half.

As a massive crack appeared on the ground, light shone from within.

It was so bright that it felt like the sun was rising from underground.

The unparalleled aura from underground shocked all the Monarchs present.

Even the rage qi and murderous qi of the God May Cry Domain grew restless.

Everyone looked at the massive shining crack on the ground, only to see a man in white robes and messy hair, wielding a spear, rose to the sky from the ground. He had a lazy grin on his face.

"Shen Qixue!"

Kong Feixing, Ming Bujue, Wen Tianfeng, and the others were surprised.

The man with the unparalleled aura was their target.

He was the God of War of the human race, Shen Qixue.

"Impossible! You're in slumber, and with that attack, there's no way you can survive. Wait, that's the..."

Kong Feixing's expression shifted when he saw a little pagoda floating above Shen Qixue's head. The little pagoda was shining brightly, and the light transformed into multiple layers of barriers.

"The Seven Treasured Pagoda?"

"That's the Source Weapon of the Great God Baoluo!"

Great God Baoluo was one of the Primal Gods and the one Shen Qixue killed. The Seven Treasured Pagoda was his trusty weapon that was born from the Source.

After Shen Qixue killed Grand God Baoluo, he got his hands on the pagoda. However, Kong Feixing, Wen Tianfeng, and others neglected that little fact.

It was because Shen Qixue refined the Seven Treasured Pagoda that he could use it to block all their attacks, saving him from being killed during his slumber.

"This pagoda sure is useful."

Shen Qixue yawned and then looked at Kong Feixing in the sky. "How dare the Forbidden Guards disturb my slumber? You people must have a death wish."

After that, he stepped forward and thrust his spear forward. "Bang!"

The spear energy gushed forward with endless light.

The powerful attack crushed the void in the area.

Kong Feixing's eyes widened nervously, and he channeled his Spatial Daoist law energy to the limit immediately as a counter.

"Void Tribulation!"

The Void Tribulation clashed with the spear energy.

After a huge explosion, Kong Feixing was blasted away with blood gushing from his mouth, and his face turned pale.

All the other Monarchs were shocked.

Kong Feixing was more than just a common Unlimited Great Dao. As a Forbidden Guard, he was extremely powerful, so much so that not even the Heavenly Sovereign could rival him.

Yet, he was blasted away with just one spear strike.

"Too bad I can't kill you with one strike. I think I need some time to adapt myself to this era's universal law," Shen Qixue said as he shook his head.

He had just awakened from his slumber and had yet to adapt to the universal law. Otherwise, he would have killed Kong Feixing with that attack.

"He's so powerful! Is this the true strength of Shen Qixue?" Kong Feixing gulped nervously and widened his eyes in horror.

The man who killed a Primal God was truly extraordinary.

"Don't be afraid. He has just awakened and isn't not as strong as he used to be. Now is the time to kill him," Wen Tianfeng announced.

Then, his aura rose sharply, and a terrifying aura swept across the field.

He was the first Forbidden Guard who woke up in this era. As he had gotten used to the universal law, his power had recovered to its peak, which rivaled an Overlord!

He was confident to kill Shen Qixue on the spot.

However, Shen Qixue laughed at his claims. "Unless the captain of the Forbidden Guard is here, whom I will be scared of, you people are not enough to kill me. Are you trying to kill me by making me laugh?"

Shen Qixue swung his spear forward again.

Domineering and boundless aura caught Wen Tianfeng and the others.

With the spear in hand, Shen Qixue's aura grew as boundless as the ocean.

It contained an earth-shattering battle intent.

The murderous qi and rage qi of the God May Cry Domain gathered upon him and were transformed into tens of thousands of weapons that were blasted forward at Wen Tianfeng and company.

Wen Tianfeng and the others immediately responded by blasting all kinds of attacks with Murderous Dao, Spatial Dao, Destiny Dao, and more.

The combined energy storm was so strong that it shook heaven and earth.

"I'll aid you!"

The Tempest King, one of the strongest Monarchs on the field, joined the fray.

She channeled her Thundergale, Yin Yang, and Universal energies to fight Ming Bujue and the others.

"Great!" Shen Qixue praised the Tempest King after seeing what she could do.

"Shen Qixue, die!" Wen Tianfeng roared as he thrust his trident forward.

The void collapsed as the trident ray crashed forward like the ocean. It contained the most domineering Daoist law energy.

It was Wen Tianfeng's strongest attack.

Seeing that, Shen Qixue narrowed his eyes. He wielded his spear high and then swung it down, carrying with it the might of a million mountains as it crashed down at the trident ray.

Following a tremendous explosion, the trident ray shattered.

Surges of Daoist law energy blasted outward.

Wen Tianfeng's expression shifted when he was pushed back.

"He has just awakened, yet he already possesses such power!

"Is one-tenth of his original strength already so powerful? Shen Qixue is indeed the God of War of the human race." Wen Tianfeng's expression turned grim.

The stronger Shen Qixue was, the more motivated Wen Tianfeng was to kill him.

"Die!"

Wen Tianfeng attacked again by swinging his trident in a flurry.

After nine trident thrusts and swings, the trident rays combined into a dazzling light that shook the Infiniverse.

"Sky Ask Art, Skywalker Nine Strikes!"

He locked on to Shen Qixue with the attack that possessed the power of an Overlord.

It felt like an entire Great Dao was crashing down!

Shen Qixue laughed at the attack. "Nice one! How about this? Battle Sky Art, Demon May Cry!"

He swung his spear forward, releasing unparalleled battle intent that surged into the sky.

Demons' cries could be heard in the void, and it sent chills down people's spines.

The moment the spear and trident clashed, the void around the area collapsed.

Then, someone was blasted away by the collision.

It was Wen Tianfeng!

Even though he used his strongest attack, he was no match for Shen Qixue.

Shen Qixue stood high in the air with unrivaled battle intent. With the spear in hand, he looked like the real God of War.

"Who else dares to challenge me?" Shen Qixue bellowed.

His aura was so powerful that it made the other Monarchs fall back.

They all looked at him with fear and deterrence.

"Even the Forbidden Guard is no match. Is he really someone who has just awakened? How scary!"

"The human race will be stronger with his addition!"

"This is going to be troublesome!"

The humans were exhilarated to have Shen Qixue on their side, and they all looked at him with reverence.

Chapter 2459 Void Ruler Again, Disadvantage, Chu Kuangren Exits Closed-door Meditation

The God of War had awakened and overpowered the Forbidden Guards.

All the Monarchs were shocked and astonished by his strength.

Then, a strange aura came from the void.

"Shen Qixue, don't get ahead of yourself. I still have a trick up my sleeve!" Kong Feixing said out loud.

He quickly performed several hand seals, and Spatial Daoist law energy started intertwining in the sky.

The energy then formed an avatar that released a mystical and boundless aura, which the Tempest King and the others found familiar.

"Could this be..."

The Tempest King's expression turned grave. "Stop him!" The Monarchs from the Pan Gu Kingdom attacked Kong Feixing immediately with everything they had.

"Hahaha! You're too late!" Kong Feixing cackled.

By then, the avatar behind him had taken shape. A familiar face appeared, and when he lifted his hand, Spatial Daoist law energy crashed down like tidal waves. A divine aura immediately swept across the field as well.

"Bang!"

The attacks from the Tempest King and the others were canceled out.

"Void Ruler!" the Human Empress cried in shock.

The avatar that Kong Feixing summoned was the Void Ruler, who should have been killed by Chu Kuangren!

Not only were the Human Monarchs shocked, but even the Monarchs from other tribes could not believe their eyes.

"How is this happening? I thought the Void Ruler was dead!"

"What is going on?"

"This is strange."

"Can the Primal Gods be revived so easily? The same happened to the Primal Infernal Dragon."

Shen Qixue looked at the avatar and said, "This isn't the real Void Ruler. It's just Kong Feixing's avatar with the Void Ruler's willpower, but it's still pretty powerful."

"Not bad, Shen Qixue. You saw through my avatar with just one glance."

The Void Ruler grinned and looked at the Tempest King and the others coldly. "Who would have thought we could still see each other again? You people shall pay for what Chu Kuangren did to me!"

His body might have been destroyed, but many eras ago, he kept a sliver of his willpower in Kong Feixing's body.

The willpower was connected to his real body, so he knew when his real body was destroyed.

He was frustrated that when he finally broke free from the restraints the Primal Infernal Dragon sealed him in for many years, he ran into Chu Kuangren and got killed.

Today, he swore to take revenge on Chu Kuangren and his people.

First, he would destroy everything that Chu Kuangren cared about.

"Die!"

The Void Ruler pointed forward, and the light from the Void Tribulation shot out. The attack was so strong that it broke through the Overlord Realm.

It was even stronger than his real body when he broke out from the seal. After all, his real body at that time contained only one to two percent of his true power, while this current clone of his was buffed by Kong Feixing's own power.

"Hmph! Killing humans before me? You have to get through me first!" Shen Qixue grunted coldly.

He then struck his spear forward.

"Bang!"

When the spear energy clashed with the Spatial energy, the realm shook with the collision.

"I'll have to kill you first," Void Ruler said as he glared at Shen Qixue.

"Yeah. Shen Qixue must die today."

Just then, another cultivator stepped out from the void. He wore black robes and was surrounded by black flames.

The Void Ruler instantly recognized him. "Primal Flame's men?"

The man bowed. "Void Ruler."

In ancient times, Primal Gods had prestigious status. With the Void Ruler being one of the Primal Gods, everyone who knew him would show respect. "Primal Flame has awakened?"

"Yes. My Lord has sent me here to assist everyone to kill Shen Qixue," the man in black said.

Then, he revealed his black saber, which was surrounded by black flame, and swung it at Shen Qixue.

"Hmph!"

Shen Qixue grunted coldly and crushed the saber ray with a thrust of his spear.

The Void Ruler grunted. Compared to the Tempest King, Shen Qixue possessed much more of a threat since he did kill a Primal God before.

Therefore, he switched his attention to Shen Qixue as well.

"I said you must die today!" Wen Tianfeng attacked as well.

The man in black, Wen Tianfeng, and Ming Bujue were some of the strongest Unlimited Great Dao cultivators, with Wen Tianfeng rivaling some Overlords.

The Void Ruler was also extremely powerful.

With all of them teaming up, they managed to overpower Shen Qixue.

The Tempest King, Mingyue Wuxia, and the others wanted to help, but the other Monarchs them.

"Shen Qixue must die today. No one can stop it!"

"After him, you people will be next!"

"Humans, you have been under the spotlight for far too long!"

"Bang! Bang!"

Ultimate Monarchs, Unlimited Great Daos, and elites who rivaled Overlords were engaged in fierce fights.

The entire God May Cry Domain was set ablaze by the flames of war.

Even the neighboring domains were caught in their battle. The battle affected not only the land but also outshadowed the sun and shook the stars.

"Ugh!"

Shen Qixue was struck by a beam from the Void Ruler.

Even with the Seven Treasured Pagoda's protection, he started to bleed.

"If I had more time to adapt to the universal law here, these little bastards wouldn't be my match." Shen Qixue's gaze was cold.

However, Wen Tianfeng and the others continued their relentless attacks.

"Shen Qixue, our attacks earlier worked. You are already hurt when you are slumbering." Wen Tianfeng cackled.

He could tell Shen Qixue was suppressing his injuries and that the latter was already on his last stretch.

"Die!"

Wen Tianfeng and the others channeled their Daoist law energies for their strongest attack.

Suddenly, another boundless aura erupted from further away.

It was so powerful that it shook the entire Great Hongmeng Universe.

The God May Cry Domain, which was tens of thousands of domains away, felt the aura.

"That direction..."

The Tempest King and the others were delighted because it was coming from the Pan Gu Kingdom!

"Could it be..." Wen Tianfeng's expression shifted.

The Void Ruler grinned with anticipation. "You're finally here, Chu Kuangren. I can finally get my revenge!"

Back in the Pan Gu Kingdom, spiritual qi rumbled, and golden lotuses bloomed.

As auspicious conjurations appeared in the sky, a pillar of white light shone from the palace, and an unrivaled aura filled the land.

It was Chu Kuangren, and he had finally exited his closed-door meditation.

While he savored the boundless energy in his body, he narrowed his eyes. "So this is the power of three thousand Ultimate Daos. It sure is scary. I wonder how strong I can get if I fight with my all."

He was eager to test it out.

Then, he scanned the entire universe with his mind and noticed the terrifying battle at the God May Cry Domain.

"Oh? A big battle is going on. What happened?"

"Master, the God of War of the human race, Shen Qixue, has awakened," Lil Ai said.

She quickly updated him on what happened in the past few years.

Chu Kuangren was unaware of what happened in the outside world while he was cultivating, but Lil Ai could monitor the world in real-time.

"I see. I'm just looking for a battle to test my strength," Chu Kuangren said with a playful glint in his eyes.

After that, he vanished from the spot.

Chapter 2460 Stomp Void Ruler, Kill Wen Tianfeng, Monarchs Falling Like Rain

All the Monarchs in God May Cry Domain sensed the terrifying aura further away. Their expressions turned grim, and some of them looked scared.

"It's Chu Kuangren! He has exited his closed-door meditation!"

"Damn it! He's coming! What should we do?"

"Oh my god! Should we leave?"

Chu Kuangren's name alone deterred them.

In the past several thousand years, he defeated the Doomsday Darkness, killed the Void Ruler, and almost annihilated every other tribe in the Fortune Earth World. He also created his Fortune Kingdom and became invincible.

Even all the Monarchs were afraid of him.

"It seems like a powerhouse of the human race." Shen Qixue clicked his tongue in awe. He was fascinated to see the other Monarchs horrified. "What are you guys afraid of?"

One of the Monarchs scoffed. "Chu Kuangren may be invincible in his kingdom, but we're not in his kingdom. Besides, we have the Forbidden Guards, the Void Ruler, and so many of us here. Why should we be afraid of him?"

His words helped some of the Monarchs regain their confidence and calmed down the tumultuous crowd.

"Yeah! We shouldn't be afraid!"

"With the Void Ruler and the Forbidden Guards here, we shouldn't be afraid! It's Chu Kuangren and his people who should be afraid of us!"

"Yeah!"

"I'll kill Chu Kuangren if he comes!" the Void Ruler said with a cold glint in his eyes.

He could vividly remember how Chu Kuangren destroyed his true body.

"I have no idea what gives you the confidence to say something like that when I've destroyed your true body."

A frosty voice echoed across the sky.

Chu Kuangren emerged from the void in his snowy white robes and with Immortal Sparks around him. Each move he made felt transcendental.

"Haha! He looks like an Immortal King!" Shen Qixue was excited to see Chu Kuangren. He praised, "It seems like the human race is still the main lead of this era!"

"Chu Kuangren!" On the contrary, the Void Ruler was furious when he saw Chu Kuangren. The scene of him dying to Chu Kuangren's powerful slash replayed in his mind.

"I will kill you!"

The Void Ruler channeled his Spatial Daoist law energy to the limit.

The moment the Spatial Great Dao appeared, an intense and domineering aura locked onto Chu Kuangren.

"Loser. Barking is all you can do," Chu Kuangren said condescendingly. Then, he stomped on the Void Ruler.

"Bang!"

With the power of three thousand Daoist laws contained in the stomp, the void was crushed into nothingness. As endless divine light shone, the Void Ruler's Great Dao was destroyed into smithereens. The Void Ruler's eyes widened in fear.

"W-What?"

Along with his Great Dao, his clone was squashed by the stomp.

Kong Feixing was blasted away with blood gushing out from his mouth. The defeat had left him in a sorry state.

He looked at Chu Kuangren in disbelief. "W-What? How? How can you be so powerful? You're just an Ultimate Monarch!"

He could tell Chu Kuangren was just an Ultimate Monarch.

However, Chu Kuangren possessed power far beyond a common Ultimate Monarch.

That was when Shen Qixue noticed something, and his eyes gleamed with interest. "Could it be... Great! This is great!"

When the Void Ruler was squashed, the other Monarchs fell into an uproar.

Even Wen Tianfeng could not believe his eyes.

"How? He wasn't so strong back then. He was just a First Step Monarch! How did he break through to become an Ultimate Monarch in just a few thousand years? How did he improve so fast?" The thought of it made Wen Tianfeng gulp nervously. Chu Kuangren scanned his eyes across the field and locked onto Wen Tianfeng. "Oh, Wen Tianfeng of the Forbidden Guards, we meet again. Here, have a taste of my pierce attack!"

Chu Kuangren pointed a finger at Wen Tianfeng, releasing a terrifying surge of Ultimate energy at him.

The energy frightened even an Unlimited Greate Dao!

In fact, he might be the most terrifying Ultimate Monarch to ever exist!

As a massive finger shadow descended from the sky, Wen Tianfeng roared fiercely and hurled his trident forward. However, it felt like he was throwing a toothpick at a mountain. The powerful rebounding force crushed his arms and sent the trident flying out of his hand.

The pierce landed on his chest, striking the black armor that he wore. With that, the black armor buzzed and started to crack like a mirror.

The armor was an Ultimate Supreme Treasure, yet it broke because of one hit from Chu Kuangren!

Horried, Wen Tianfeng was blasted away with blood spurting from his mouth as he crashed through multiple mountains.

The Great Dao in his body almost collapsed.

"What a monster!"

"How could such a terrifying Ultimate Monarch exist?"

Wen Tianfeng stared into the sky blankly as he lay on the rubble.

He wondered if he was dreaming, but the pain all over his body told him that it was real.

He could not even take one pierce attack from Chu Kuangren, who had outgrown him in just a few thousand years!

"So this is how weak you are, huh?" Chu Kuangren's voice sounded nearby. Wen Tianfeng's eyes widened when he realized Chu Kuangren had appeared before him without his knowing, and Chu Kuangren's foot was on his chest.

"Chu Kuangren!" Wen Tianfeng shouted.

He quickly channeled the remaining Great Dao in his body, but due to his injuries, he could no longer fight back. All he could do was shout to vent his grievance.

"Shut up," Chu Kuangren said as he pressed his foot down on Wen Tianfeng's chest.

"Bang!"

Wen Tianfeng's chest caved in, and a massive crater appeared around him, with cracks expanding further.

Following that, his body exploded into a mist of blood.

Wen Tianfeng was stomped to death by Chu Kuangren!

The glimmering fragments of his Great Dao scattered beneath Chu Kuangren's foot. The Monarchs from different tribes were horrified. They thought, with the Void Ruler and the Forbidden Guards on their side, they would be able to contend Chu Kuangren since they were not in his kingdom.

Yet, to their surprise, Chu Kuangren was still terrifyingly powerful without his kingdom.

All it took was one stomp for him to destroy the Void Ruler and another to kill the Forbidden Guard.

He was invincible!

"How could he grow so strong? He's been cultivating for a few thousand years, but it feels like he's been cultivating for ten thousand eras!"

"What monstrous ability does he have?"

"We're no match for him!"

"Run!"

All the Monarchs started to flee, but Chu Kuangren quickly channeled his Spatial Daoist law energy and activated the Infinity Domain.

With that, the Monarchs felt like they were trapped in a massive swamp and could not free themselves.

"Did I give you permission to leave?"

Chu Kuangren then closed his fist in the void.

"Bang!"

Multiple massive vortexes appeared and started to grind the Monarchs into bits.

Broken body bits started to rain down from the sky.
