

## UATC Draw 2501

Chapter 2501 God Prince's True Power, Devil King Almost Died, I'm Here

"God Prince, you guys are going to lose!"

Shen Qixue cackled. With the blessing of fortune energy, his injuries gradually recovered. He looked at God Prince and the other Primal Gods with utmost excitement.

He never felt so close to victory before.

They might really win the war!

For countless years and at the expense of countless seniors' lives, they would finally accomplish the lifelong goal of many ancients. If they won the Infinity War, the Infiniverse would welcome true peace!

"The final era is where the Infinity War ends!" Shen Qixue cackled.

The other powerful cultivators of the Pan Gu Kingdom released an even more terrifying aura, ready for another round of battle.

"You want to win this war? You speak too soon!"

The God Prince's eyes turned cold. "Now, I shall show you my true power! God Emperor Nine Seals, break!"

Nine runes and restriction seals appeared around his body. They were like shackles holding him down, but after he chanted loudly, the shackles started to break.

"How do you think I was born? I was born from a part of the God Emperor's power and the life essence of the Goddess of Life, who was my mother. "I have never used the true power hidden inside me because it's too powerful, so much so that even I can't fully control it, so I sealed it inside my body. Now, I shall show you what true power is!" The God Prince roared and shattered all nine shackles on his body.

"Kabaam!"

Terrifying God Emperor qi erupted from his body.

It even contained layers of pale green-colored life energy, which rapidly healed his injuries.

It was the power of the Goddess of Life.

Legend had it that the Goddess of Life was the God Emperor's wife.

She was as powerful as the God Emperor but had never shown herself in any battles.

"He has gotten even more powerful!" Shen Qixue reacted grimly.

He could tell that the current God Prince was different from before and had grown even more powerful than any Primal Gods he had encountered.

Ancient Buddha, Primal Flame, and Grim Reaper were all surprised.

"It's so powerful. I didn't know the God Prince had such power hidden inside him. I've never seen it before."

"Part of the God Emperor's power sure is terrifying..."

The God Emperor was invincible, and having a part of such invincibility was terrifying.

Such power could kill Overlords like they were ants.

"Tremble before me!" God Prince scoffed.

Like he said, the power was too powerful for him to control it fully. If he used it for too long, his body would collapse.

In fact, using the power would already take a great toll on his body, but he had to use it now.

He stepped forward and appeared before Shen Qixue with a ferocious punch, unleashing an unprecedented amount of God Emperor qi.

"Bang!"

The defensive Seven Treasured Pagoda shattered under the punch, and Shen Qixue was sent flying backward.

"Die!" Tempest King roared. She then channeled multiple Daoist law energies and concentrated them into one to shoot a terrifying light beam at the God Prince.

The light beam pierced the void and went straight after God Prince.

Following the light beam were the ultimate attacks of Primal Phoenix, Devil King, and the other Overlords.

"Nirvana Flame!"

Primal Phoenix swung her sleeve, releasing a golden flame that could scorch all things and life.

"Vicious Fang!" Devil King channeled the evil of all life and transformed into a ferocious monster to devour God Prince. Her presence alone could overthrow the laws of the universe.

"Radiant River!" "Darkness Tide!"

The Radiant Goddess and Dark Demonic Ruler put their differences aside and joined their Radiant and Darkness energies for a combined attack.

"Immortal Destruction Formation!"

Heavenly Grandmaster channeled his four swords to unleash the strongest sword formation.

Mingyue Wuxia pointed her sword hand sign forward, summoning tens of thousands of swords across the battlefield to form one massive sword that swung down at the God Prince.

Armament Destruction released his blazing energy through his Broken Arm. His blazing energy could leave gods trembling and demons crying.

All ultimate attacks were hurled at the God Prince.

It was so grand that it shook the Infiniverse.

"Kabaam!"

Following a universe-shattering explosion, the stray energy from the collision shattered the realm and forced the entire battlefield to sink into the void.

The stray energy tore the fabric of space, forming countless spatial cracks in the area.

Universes that were caught by the crossfire were destroyed.

Amidst the endless light of Daoist law, a golden figure stood tall and confident. His powerful energy alone could suppress the Infiniverse.

The God Prince was fine!

The combined attack did not even hurt him!

The God Emperor qi had formed a barrier in front of him that blocked all the attacks.

"You people can't break the God Emperor qi," the God Prince stated coldly.

He started to resemble the God Emperor in terms of demeanor. By using the forbidden power in his body, he could overpower the Overlords single-handedly.

"My goodness..."

Chu Hong was shaken when she saw the God Prince unscathed, and so were the others.

"What kind of defense is that? It's strong!"

"How is his God Emperor qi so powerful?"

The failure of the combined attack discouraged them. Then, the God Prince moved.

He raised his hand to gather violent God Emperor qi into a massive golden energy ball.

"God Emperor Art, God's Rain!"

The golden energy ball released countless light beams that rained down on the battlefield.

"Damn it!" The Devil King's expression shifted.

She could feel the terrifying energy contained in the raining light beams. "Evil of all life, protect us!"

She bellowed and stepped forward to protect everyone.

The evil within her exploded and formed a massive black barrier to protect everyone inside.

The energy was sourced from the evil intents of all life. Just a glance at it would leave one shaking.

Yet, such wicked energy was protecting life.

"Bang! Bang! Bang!"

The light beams rained down on the black barrier.

Each hit impacted the barrier violently, and since the barrier was formed using the Devil King's energy, the hits were reflected on her body as actual damage.

"This is nothing compared to being tortured by all evil intents."

The Devil King clenched her teeth and tried to hold on.

"Crack!"

However, the black barrier cracked even more.

Following a massive explosion, the barrier finally shattered.

The Devil King stood in the air with only one wing left. Her beautiful dress was torn, and she bled profusely.

Not a single part of her body remained intact. Even her bones were revealed at her arm. While covered in blood, she looked extremely terrifying.

More importantly, the Great Dao in her had started to break down.

"Devil King!" Everyone called out to her.

Nevertheless, the God Prince stood with his hands behind his back. He looked at the Devil King covered in blood and said, "Devil Bone, you were born from the evil intents of all beings. You should have sided with us and reigned supreme, yet you fight for life itself. You should have seen this coming miles away."

"I do what I like. You are in no place to lecture me."

The Devil King channeled her last bit of energy to release a palm strike, but it was not much.

The God Prince said, "That's why you're dying."

"My death will mean something if we can win this war!"

"Win this war? What gave you the confidence to think you can?" the God Prince scoffed.

The Pan Gu Kingdom was defenseless against the God Prince's power.

"Ha!" The Devil King curled her lips into an alluring smile, and her shaking hand tucked her hair behind her ear. Despite her dying state, each move she made remained alluring and enchanting. "It's because my closest ally is here."

"Bang!"

An explosion erupted in the void all of a sudden.

A spatial rift appeared, followed by a torrential stream of three thousand Daoist law energies that shook the Infiniverse.

A white figure emerged.

"I'm here."

Chapter 2502 Easily Overpower the Primals, Break God Emperor Qi, Only One Slash

"I am here."

As a proud voice echoed in the sky, a white figure emerged from the spatial rift. His boundless aura blanketed the battlefield as he strutted out.

All the cultivators from the Pan Gu Kingdom were thrilled.

"It's the Ruler!"

"The Ruler is back!"

Chu Kuangren was their spiritual support, and the moment he came back, he lifted the spirits of all the cultivation.

However, the Primal Kingdom's cultivators were not too happy to see him.

They looked at him with a frosty gaze, especially the God Prince, who wished he could skin Chu Kuangren alive.

"Chu Kuangren, what have you done to the Primal Kingdom?" the God Prince asked, his tone cold.

"Why are you asking the obvious?" Chu Kuangren scoffed and went to the Devil King. As he raised his hand, his eyes gleamed in a dark golden light.

It was the Primal Infernal Dragon's divine ability, Realm Reversal! As time started to reverse the battlefield, the collapsing Great Dao of the Devil King recovered rapidly, and she quickly reverted to her healthy form.

Even her clipped wing grew back.

With just a thought, Chu Kuangren brought back a dying Overlord.

Such a technique left the Primal Kingdom's cultivators speechless and astonished.

They had no idea how they would fight against such a terrifying ability.

"My Prince, we must retreat and regroup," Primal Flame said as he lost his intention to battle.

However, Chu Kuangren chuckled upon hearing him. "Now that I'm here, where do you people think you're going?"

As his voice subsided, his figure turned vague and vanished from the spot.

When he reappeared again in a fraction of a second, he was right beside Primal Flame.

"What?" Primal Flame was shocked. Before Primal Flame could react, Chu Kuangren raised his hand to gather three thousand Daoist laws energy in his palm.

It was as though a massive hand was crashing down from the sky. The power stunned Primal Flame, and he felt like a bird without wings, unable to dodge the attack no matter how far or fast he fled. "Bang!"

When the palm strike hit Primal Flame, the Daoist law energy wrecked his body, causing him to explode into countless tiny embers.

With just one palm strike, one Primal God was killed.

Such ridiculous power left everyone on the battlefield speechless and astonished.

"Grim Reaper Scythe!"

A scythe ray containing an intense death aura was hurled at Chu Kuangren. Grim Reaper attacked.

His scythe was terrifying as it contained the full potential of the Death Dao. It could even reap the life of an Overlord.

Chu Kuangren countered with a sword hand sign, shooting his sword qi at the scythe ray and stopping the scythe at its tip.

"What?"

Grim Reaper's eyes widened in shock as he stared at the scene, finding it unbelievable. It was not shocking that Chu Kuangren could block his attack, but to be able to do it with just one sword hand sign was absurd. "You may control death, but have you tasted death itself?" Chu Kuangren grinned.

His sword hand sign shook and bounced the scythe away.

Then, the Descendant Self Sword appeared in his hand.

The sword ray it released contained three thousand Daoist laws and enveloped Grim Reaper whole, grinding his body into bits.

However, a burst of light shone in the void, and Grim Reaper reconstructed his body in another spot.

His face looked pale as he looked at Chu Kuangren with utmost horror. "How is he so powerful?"

Chu Kuangren's slash made him feel something he had never felt before — fear of death. It was the first time the god of death felt the fear of dying.

"You didn't die? I see you're stronger than the Samsara King in keeping yourself alive." Chu Kuangren chuckled.

Grim Reaper's expression shifted. "You killed the Samsara King?"

"What do you think?"

Grim Reaper's expression turned grim. There was no way the Samsara King would allow Chu Kuangren to steal their fortune energy.

Hence, if Chu Kuangren could steal all their fortune energy, the Samsara King must have been killed.

"Damn it!" Grim Reaper cried out and channeled his Death Daoist law into a frightening light ray. "Death Silence Slash!"

He chopped the air using his hand.

The presence of death erupted and blanketed the land. All life that was caught in the attack was erased.

The other cultivators of the Primal Kingdom attacked as well.

The Primal Gods used their strongest attack and unleashed their full power.

"Seal of Brahma!" Ancient Buddha channeled the Buddhist Daoist law energy and Source energy inside him.

A massive Sanskrit symbol with endless holy energy was hurled at Chu Kuangren with indomitable force.

The group of Forbidden Guards also attacked with all they had.

Their attacks combined into a violent energy stream with destructive force.

"Useless techniques."

Chu Kuangren swung his sleeve, releasing the power of three thousand Daoist laws. All the attacks hurled at him were canceled when they clashed with the Daoist laws in front of him.

The powerful shockwave sent Grim Reaper, Ancient Buddha, and the others flying backward.

Shen Qixue, Devil King, and the others were thrilled to see that.

"He's so powerful!"

"Is this the true power of the Ruler?"

"He's really powerful!"

Chu Kuangren had consumed all of the Primal Kingdom's fortune energy and fused it with the Pan Gu Kingdom's.

He possessed three thousand Daos at the Unlimited Great Dao Realm, with a few of them having reached the Overlord Realm. With all the powers and buff on him, each move he made felt absurdly powerful.

A sliver of his aura could destroy a world.

It felt like he had become invincible.

"Hahaha! Amazing, Chu Kuangren! Only you are worthy to be my opponent now!" God Prince cackled.

He was not deterred or frightened by Chu Kuangren's ridiculous power. Quite the opposite, he was eager to challenge him. The God Emperor's energy had boosted his confidence.

As he charged toward Chu Kuangren, Grim Reaper, Ancient Buddha, and the rest saw hope.

"Now, only the God Prince can rival Chu Kuangren!"

"Who is more powerful? The God Emperor's power or Chu Kuangren?"

Chu Kuangren did not move or dodge the God Prince's attack. Instead, he swung the Descendant Self Sword at the God Prince's fist.

The God Emperor qi and the sword qi clashed, creating a typhoon of Daoist law energy.

The typhoon tore the void apart and impacted the other universes.

The cultivators from both kingdoms were sent flying away by the energy typhoon, and some weaker ones disintegrated as the Daoist law energy consumed them.

The tremendous clash pushed the God Prince and Chu Kuangren back. "Have a taste of this, Chu Kuangren! God Emperor Art, King's Heaven Calling!"

The God Prince roared and unleashed even more of his God Emperor energy.

Endless spiritual qi gathered from different universes with the God Prince's calling and formed a massive golden ball above him.

Chu Kuangren raised the Descendant Self Sword high.

"I just need one slash to break your God Emperor qi!

"Sword Twenty-seven, Three Thousand Great Dao Slash!"

Great Daos started to appear behind Chu Kuangren, a total of three thousand of them!

The three thousand Daoist law energies gushed forward in a single stream and concentrated in a single blade.

Chapter 2503 God Emperor Arrives, Main Lead of The Universe, Pointing the Sword At God Emperor, Why Don't We Give It A Try

Three thousand Great Daos concentrated into a single blade.

The blade's shine surpassed any other blade from past to present.

In fact, the blade itself had surpassed the concept of a sword as it was the combination of three thousand Great Daos!

When the sword was thrust forward, the ultimate sword intent tore the void apart like it was nothing, and the endless sword ray shot toward the God Prince.

The God Emperor qi and the sword qi clashed in the fiercest way possible.

"Kabaam!"

Having taken the brunt of the attack, the God Prince was sent flying backward.

His God Emperor qi had taken its biggest hit ever, and it started to weaken and crack.

Endless sword qi seeped through, damaging his body.

The sword qi was elusive and unpredictable.

The Five Ways, Yin Yang, Creation, Universal, Time, Spatial, and all kinds of Great Dao were found in the sword qi as it continued to shine.

The God Prince spat out a mouthful of blood as he was sent flying away. His body was damaged to the brink of collapse.

The God Emperor qi lost to Chu Kuangren's three thousand Great Daos!

"H-How is this possible?"

The God Prince was shocked that his God Emperor qi was defeated!

"This is impossible!"

He refused to believe or accept his defeat but was forced to face the facts.

When Chu Kuangren approached him with the Descendant Self Sword, he felt the fear of death looming over him.

"You lost," Chu Kuangren said.

He raised the Descendant Self Sword high. The sword intent of past and present, plus the three thousand Great Daos, shone like the brightest sun. He was surrounded by absurd energy, and his aura alone could shake the Infiniverse.

Chu Kuangren seemed invincible at that moment.

"No, I haven't lost! I am the God Prince. I can never lose!"

The God Prince then got up on his feet and shouted like a maniac. God Emperor qi spread and shook the Infiniverse.

"Chu Kuangren, you're strong. You're the strongest human, and it's an undeniable fact, but you will never be the God Emperor's match!"

The God Prince wore a zealous grin when he seemingly sensed something strange.

His words made everyone feel an instinctive fear, including Chu Kuangren, who narrowed his eyes and gripped his sword tighter. "Bang!"

Somewhere in the Infiniverse, the void, or even a Spirit World, a terrifying aura erupted like the biggest volcano. An energy fluctuation that could frighten one's soul spread across the Infiniverse.

All life across the Infiniverse instinctively bowed down, including Monarchs.

Golden light shone across the Infiniverse and started to ripple, crushing even the void and leaving the spiritual qi rumbling. The universal law was disrupted by an indescribable power.

Even the three thousand Great Daos trembled like never before.

"W-What's going on?"

"The Infiniverse is shaking! What happened? What's causing this?"

The cultivators were scared and confused.

Be it the ancient ones or the younger cultivators, all of them gulped nervously as they sensed the aura growing stronger but could not pinpoint where it came from.

The aura was the most powerful they had ever felt, so strong that it enveloped the entire Infiniverse.

No one could determine where the aura came from, but some of the stronger ones had a hunch.

"It's him! He's awakening!"

"This aura is one of a kind. No one other than him can affect the Infiniverse to this extent! He's back!"

The Overlords were overwhelmed with fear, and even Naraka was shaking.

High up in the Divine Tribulation Mountain, the Tribulation Lord opened his eyes. He raised his hand to release endless tribulation energy to calm his land down.

"He has awakened. The Infinity War has reached its critical point. The fate of the Infiniverse is in your hands, Chu Kuangren. Let me see what you can do before the Supreme Realm Tribulation."

Back in the Pan Gu Kingdom, the golden aura continued to shake the Infiniverse.

Its aura was so strong that countless cultivators fell to their knees.

Even Monarchs could not resist the urge.

"Chu Kuangren, you've lost. My father has awakened. You won't be able to change the outcome now," the God Prince said as he cackled.

Shen Qixue, Devil King, and the others looked solemn.

There was even a hint of fear in their eyes.

However, Chu Kuangren stood firm with Descendant Self Sword in his hand, seemingly waiting for something.

Deep in the void, a golden light shone brightly.

A vague figure then emerged from it, and behind the figure were three thousand chains that represented the three thousand Great Daos.

The chains shook violently as they tried to hold the figure back, but they no longer worked.

The golden figure approached Chu Kuangren and the others, breaking the chains as he walked.

The scene was terrifying because each chain contained the power of an Overlord. There were three thousand of them, yet they were not strong enough to hold the man back.

"God Emperor..."

Devil King's beautiful eyes widened in fear.

Shen Qixue wielded his spear tightly. As the God of War of the human race, he should be fearless, but even he was shaking.

The man before them was the oldest Primal God, the most powerful being in the Infiniverse throughout the ages.

"Crank!"

When the three thousand chains snapped completely, the golden figure approached Chu Kuangren and the others.

His golden hair danced along the wind, and his golden robes sparkled, complementing his handsome looks. The golden light continued to glimmer around him like runes.

His golden eyes looked on with a hint of majesty and superiority.

One glance from him could dim the stars, moon, and sun.

He was dignified, powerful, and honorable!

Every move he made made him seem invincible.

A sliver of his aura was enough to overpower the entire Infiniverse.

"Father!"

God Prince knelt with respect.

The Grim Reaper, Ancient Buddha, and other Primal Kingdom's cultivators got on their knees as well.

However, the God Emperor did not look at them.

His eyes were glued to Chu Kuangren as if, other than Chu Kuangren, no one was worthy of his time.

"The Human Ancestor sealed me away and seized the main lead of the realm. Is it still the human race standing in my way?" the God Emperor said.

He revealed why the human race was the main lead of the realm.

It was because the Human Ancestor sealed the God Emperor, thus seizing the position away.

That was also why the human race's fortune energy was prolonged.

Sealing away the God Emperor created such a huge opportunity for the human race.

It was unbelievable thinking about it.

"If sealing you made us the main lead of the realm, will killing you make the human race invincible for eternity?" Chu Kuangren chuckled.

All living beings were shocked to hear that he wanted to kill the God Emperor. They were astonished by Chu Kuangren's courage because he was speaking to the invincible God Emperor. However, instead of getting agitated by Chu Kuangren's provocation, the God Emperor said calmly, "The Human Ancestor failed to do it. Can you?"

"Why don't we give it a try?"

As Chu Kuangren pointed the Descendant Self Sword at the God Emperor, his rampant qi shook the Infiniverse.

A golden light ray then shot out from his body and transformed into the All Creation Cauldron.

With the sword and cauldron in hand, he was ready to fight the God Emperor.

Chapter 2504 Fight God Emperor, Supreme Treasure Consecutive Destruction, God Emperor Pushed Back

The God Emperor's arrival shook the Infiniverse.

Chu Kuangren summoned his Descendant Self Sword and All Creation Cauldron to challenge the God Emperor.

The God Emperor looked at Chu Kuangren nonchalantly. "The Human Ancestor's sword with a different sword spirit, and the All Creation Cauldron as well... It seems those old ones planned eons ahead just to stop me."

"Do you dare to answer my challenge?" Chu Kuangren said as he pointed the sword at the God Emperor.

"In that case, I shall grant you nothing but defeat," the God Emperor said indifferently.

As he raised his hand, the God Emperor qi gushed forward like a torrential tide, crushing the area entirely.

Chu Kuangren dared not be careless.

He slashed with the Descendant Self Sword and used his newly acquired Sword Twenty-seven!

An astonishing sword shadow rose to the sky with three thousand Great Daos surrounding it.

"Kabaam!"

The sword shadow clashed with the God Emperor qi, causing a tremendous explosion.

Terrifying shockwaves blasted away the cultivators in the area.

The light from the explosion shone across the Infiniverse, and elites from different universes were astonished by the sudden clash.

"This is the battle between the old and new!"

"This is terrifying!" Heavenly Grandmaster gulped nervously. "That's some terrifying aura. The God Emperor has just awakened, yet he already possesses such absurd power."

Shen Qixue had a solemn look on his face. "Yeah. According to what we know, even someone as old as the God Emperor had to spend some time getting used to the universal law before recovering to his full power.

"But I guess the God Emperor is beyond common sense."

As the clash between sword qi and God Emperor qi subsided, the God Emperor could be seen standing proudly and strongly in the sky.

The God Emperor qi around him blocked the sword qi easily.

However, Chu Kuangren was sent flying miles away. He reacted seriously to the clash. "His God Emperor qi is different from the God Prince's! If the God Prince's God Emperor qi is an iron string, the God Emperor's power is like a thousand iron pillars!"

His sword qi could not break through the God Emperor qi.

On top of that, he also noticed something strange.

The ancient cultivators had to spend some time adapting to the current universal law after awakening, yet the God Emperor did not have to go through that process.

The God Emperor was too powerful, so powerful that it was not he who had to adapt to the universal law but the universal law that had to adapt to his presence!

That was the power of the Supreme Realm Tribulation!

"Is that all you have?" the God Emperor asked as he looked at Chu Kuangren. "Haha! This is going to be an exciting fight."

Chu Kuangren's eyes were burning with the intent to fight. It was no doubt that this would be the fiercest and most terrifying battle in his entire life.

He had always overpowered others with his ridiculous powers, but now he felt like he was the one being overpowered by the God Emperor.

Still, he was not deterred.

Quite the opposite, every cell in his body was trembling with excitement.

"My subjects, lend me your strength!" Chu Kuangren bellowed.

The cultivators of the Pan Gu Kingdom released their energies to Chu Kuangren, boosting his energy level to a new high.

He quickly reached the limits of an Overlord.

"I've never seen such ability of a kingdom."

The God Emperor was slightly surprised.

Nevertheless, he raised his hand and channeled his God Emperor qi into a ball of golden light before hurling it at Chu Kuangren. It seemed like a normal attack, but the God Emperor contained in the ball was absurdly powerful. If the ball of light exploded, its power could destroy a dozen universes.

In the face of that power, Chu Kuangren took a deep breath and channeled his three thousand Great Daos. "Infernal Dragon's Eye, Silence Realm!"

His eyes gleamed in dark golden glimmer, and the Infernal Dragon's time ability was activated.

As the powerful time energy blanketed the entire area, the golden ball of light paused for a fraction of a second.

"All Creation Cauldron, go!"

Chu Kuangren sent the All Creation Cauldron out with a thought.

While the cauldron clashed with the golden ball of light, Source energy from the cauldron clashed with the God Emperor qi, causing an explosion big enough to destroy the entire field.

The All Creation Cauldron trembled violently during the clash.

After the explosion subsided, the sky was filled with glimmers of light. Chu Kuangren looked at the God Emperor, who was unscathed. He was not disappointed or discouraged at all.

With another thought, he sent the sword and cauldron forward for another round of attack.

At the same time, he used the Limitless Cultivation to its fullest potential.

All kinds of cultivation techniques were cast, including ancient divine abilities and newer Immortal Techniques.

However, no matter how he attacked, he could not break the God Emperor's defensive qi.

This defensive qi alone would make the God Emperor invincible, which was terrifying.

It was Chu Kuangren's first time fighting someone with such absurd power.

However, he already expected a tough fight due to the God Emperor's powers.

"Go!"

With another thought, tens of thousands of Hongmeng Supreme Treasures started to fly out from his sleeves.

Chu Kuangren used the Thousand Weapon Heart to detonate all the Supreme Treasures at the God Emperor. The consecutive explosions of Hongmeng Supreme Treasures lit up the Infiniverse.

"What the hell? Where did he get so many Supreme Treasures?"

"This is one of his trump cards as well."

Everyone was surprised.

A piece of Hongmeng Supreme Treasure was considered one of the best items in the Infiniverse, yet Chu Kuangren had tens of thousands of them and detonated them all in the God Emperor's face!

It was probably the most costly attack in the history of the Infiniverse.

Tens of thousands of explosions erupted in the sky, but it only caused ripples on the God Emperor's defensive qi.

However, that was not the end of Chu Kuangren's attack.

After the Hongmeng Supreme Treasures, Chu Kuangren started throwing Ultimate Supreme Treasures at the God Emperor!

Chu Kuangren revealed a crimson saber and hurled it forward.

It was the Dragonslayer, and other than the Dragonslayer, he had a dozen more Ultimate Supreme Treasures ready.

All the Ultimate Supreme Treasures released an energy fluctuation that resonated with each other, forming a massive formation.

The God Emperor was trapped in the center.

Before he could break out, the Ultimate Supreme Treasures exploded in his face again.

The tremendous explosion shook the entire Infiniverse again.

"Did he detonate Ultimate Supreme Treasures just like that? And there are a dozen of them? How many more treasures does he have?"

"He's really rich!"

Everyone was in awe of how costly Chu Kuangren's attacks were, including the God Emperor himself.

The formation formed by more than a dozen Ultimate Supreme Treasures exploded in his face, causing his defensive God Emperor qi to ripple violently.

The momentum pushed him two steps back.

Chu Kuangren was enlightened. "His God Emperor qi isn't indestructible, and it's not an absolute defense either!"

The God Prince and the others were also shocked.

"God Emperor was pushed back?"

"The God Emperor's God Emperor qi was broken?"

"How?"

"Chu Kuangren managed to push the God Emperor back!"

Chapter 2505 Infinite Improvement, Myriad Tribulation Doom Energy, Send God Emperor To The Source

"Not bad. You're the second one other than the Human Ancestor to break the defense of God Emperor qi," the God Emperor said.

Chu Kuangren stood with his hands behind his back. "I won't be the second to break your God Emperor qi; I will be the first to defeat you."

"Bold words. With your little toys?"

The God Emperor looked at the bits and pieces of the broken Supreme Treasures.

The Hongmeng and Ultimate Supreme Treasures that the world sought after were nothing but toys to him.

"No, it's because I am Chu Kuangren!" Chu Kuangren bellowed.

With that, his aura rose sharply, and time energy bloomed into a beautiful flower on his chest.

It was the Infernal Dragon's divine ability, Fleeting Beauty!

"Oh? Siphoning energy from time? Not even the Primal Infernal Dragon dared to do it. You surprise me." The God Emperor looked surprised.

To all the cultivators, the high achievable cultivation realm was the Overlord Realm, which allowed one to control an entire Great Dao.

Chu Kuangren's current realm had started to surpass the Overlord realm.

"God Emperor, can you stop me and my infinite improvement?" Chu Kuangren said coldly.

Fleeting Beauty enhanced his capabilities by disregarding the limits.

He was being corroded by unimaginable time repercussions, but he had also grown unbelievably strong.

Time had no end, so Chu Kuangren, who was stealing power from time, could improve himself infinitely. "I see."

The God Emperor channeled more God Emperor qi in his hand to form a golden spear.

With the spear in hand, his aura grew even more domineering.

"This spear has accompanied me in my conquest and fought countless gods. It represents invincibility itself. You're the second human to see its glare," the God Emperor said.

Then, he vanished on the spot and appeared before Chu Kuangren.

The golden spear thrust forward, piercing the void itself.

However, Chu Kuangren did not dodge it. Instead, he countered with a slash with the Descendant Self Sword.

"Clank!"

When the sword and spear clashed, the void around them collapsed instantly.

"God Emperor Art, Conquest!" the God Emperor bellowed.

As he thrust the spear forward, the tip of the spear shone brightly, releasing a domineering God Emperor qi.

Chu Kuangren swung his sword and countered with another slash.

The slash also contained indomitable force and the power of three thousand Daoist laws.

"Bang!"

The two powerful energies clashed, rupturing the land.

They tore open the void and extended the fight into another universe. The sword qi and God Emperor qi continued to clash, forming an energy typhoon that wrecked the Infiniverse.

Galaxies were destroyed, and even the walls between universes were shattered, causing multiple universes to merge together.

The universes' Great Daos collapsed into one another, crumbling into smithereens as Chu Kuangren and the God Emperor continued fighting.

Their power was unimaginably terrifying.

All the elites who saw the terrifying scene were rendered speechless and astonished.

They were not powerful enough to even get close to the battle, let alone intervene. "Kaboom!"

After another clash, the Daoist law energy typhoon ruptured the entire universe, reverting it back to a chaotic state.

"Crack!"

A loud crack echoed amidst the chaos.

Chu Kuangren's Descendant Self Sword cracked!

The blade buzzed violently, releasing endless sword intent.

It might be hurt, but its will to continue the battle remained strong.

"Your sword is cracked. What are you going to fight me with now?" the God Emperor commented.

He swung his spear down, sending Chu Kuangren flying away.

Chu Kuangren crashed through countless planets in the void, but the God Emperor did not give him a chance to breathe.

With a step forward, he teleported in front of Chu Kuangren and thrust his spear into the latter's chest.

"Timespace Barrier!"

Chu Kuangren performed a quick set of hand seals to summon barriers from the void.

The barrier combined the energy of time and space and was almost indestructible.

When the God Emperor's spear hit the barrier, it was stopped.

"Oh, this is spacetime energy, but it's not enough to stop my spear."

He continued to thrust the spear forward, crushing the barrier layer by layer.

He reigned supreme from the beginning and was invincible across the Infiniverse.

Even though time and space were manipulated, no amount of space, time, or even universes could stop his power.

All Chu Kuangren did was look at the incoming spear instead of moving from it, allowing it to penetrate his body.

"Splat!"

Blood splattered across chaos.

"You have lost," the God Emperor said as his spear penetrated Chu Kuangren's chest.

Further away in Naraka, the Tribulation Lord shook his head as well.

"It seems like no one can stop the Supreme Realm Tribulation."

However, Chu Kuangren grabbed the spear in his chest with both his hands and smiled.

"You speak too soon."

He disregarded his injury and started to channel more Daoist law energy that contained a stream of immense tribulation energy.

The Tribulation Lord bolted up when he sensed the tribulation energy, and his expression shifted.

"That's my tribulation energy!"

A sudden realization struck his mind. "I see. I bet this is that Source Supreme Treasure's function."

The God Emperor saw the overflowing tribulation energy from Chu Kuangren's body and found himself surprised. "The Tribulation Lord's energy?"

"Myriad Tribulation Doom!" Chu Kuangren bellowed.

A black can containing rumbling tribulation energy appeared at his chest.

It was the Tribulation Lord's Myriad Tribulation Doom technique cast using his full power!

"Bang!"

The immense energy blasted even the God Emperor away.

The God Emperor qi around him broke, and his body was struck by the energy, leaving him in a temporarily paralyzed state.

"Haha! This is not the end!" Chu Kuangren laughed.

Then, a massive golden cauldron appeared above the God Emperor's head.

It was the All Creation Cauldron!

This time, the cauldron was not used to smash the God Emperor but to open up the portal connecting to the Source that sucked the God Emperor in!

It was one of the plans that Chu Kuangren had in mind.

Since he could not beat the God Emperor, why not trap him in the Source first?

The Source had faded in this era, so going into the Source via the All Creation Cauldron was like going into prison.

Chu Kuangren believed not even the God Emperor could easily break out from it.

"He has a lot of tricks up his sleeves," the Tribulation Lord praised.

Due to the Myriad Tribulation Doom, the God Emperor could not resist the suction force from the All Creation Cauldron.

He was sucked into the Source, just as Chu Kuangren had planned.

While inside the Creation Source, the God Emperor grinned.

"Human Ancestor, you have raised a decent opponent for me. Using the Source to trap a Primal God born from the Source? Only he can think of such an absurd idea, but how long can this stop me?"

The God Emperor wielded his spear in a flurry.

The God Emperor qi wrecked havoc within the Creation Source as if it was trying to carve a path out.

A while later, he stopped, and his brows furrowed.

Powerful tribulation energy continued to disturb him in his body.

"I have to deal with this tribulation energy first. Tribulation Lord, have you grown restless and joined the war?" The God Emperor was slightly confused but not concerned.

Even if he had to fight the entire Infiniverse, he was not afraid.

Why would he be afraid of the Tribulation Lord?

Chapter 2506 Descendant Self Sword Absorbs All Wishes, God Emperor Returns To Infiniverse

"Splat!"

Chu Kuangren spat a mouthful of blood.

His plan might have worked, and the God Emperor was trapped in the Creation Source for now, but he was badly injured.

When he removed the Fleeting Beauty's effect, the time repercussion further damaged his already weakened body.

His hair turned white instantly, and this time, he could not recover.

"The infinite improvement is powerful, but the side effects are terrible. Not all cultivators can sustain such a heavy repercussion," Chu Kuangren murmured with a bitter smile.

Even an Overlord might be killed by the time repercussions.

He could not recover himself by reversing the time on himself either since it was both from the same source of energy.

"But I have bought enough time."

He knew the Creation Source could not trap the God Emperor for long, but a day was a day longer.

"My Lord!"

"Kuangren!"

Gu Linglong, Lan Yu, and the others rushed up to him.

Gu Linglong teared up when she saw Chu Kuangren's white hair.

"I'm fine." Chu Kuangren forced a smile on his face.

After that, they brought Chu Kuangren back to the Pan Gu Kingdom, where he explained the situation to the others.

Knowing that the God Emperor might break out from the Creation Source at any moment, everyone looked grim. "I have to strengthen myself now. I'll go into closed-door meditation for a while and leave the kingdom to you guys. The Primal Kingdom is no longer a threat, but just be careful," Chu Kuangren said.

He then took Descendant Self Sword out.

The blade had a crack on it, and the sword intent had weakened.

The God Emperor's spear was extremely powerful. Not even the Human Ancestor's sword could block it fully.

After a quick thought, an idea came to Chu Kuangren. Maybe he could reforge the Descendant Self into a Fortune Supreme Weapon.

The God Emperor's spear was indestructible, and it could crush any weapon with ease. Even if Chu Kuangren forged a sword using the hardest Immortal Metal in the universe, it might not last a few hits either.

Therefore, he planned to reforge the Descendant Self Sword into a Fortune Supreme Treasure, a Supreme Treasure that was closely related to the Pan Gu Kingdom's fortune level.

Then, as long as the kingdom remained, the sword would remain sturdy.

"I have to think of a way to use the kingdom's fortune energy to repair the Descendant Self Sword," Chu Kuangren murmured.

It was not a difficult task since there were quite some records of the Fortune Supreme Treasures throughout history. Lil Ai also had tens of thousands of ways to forge a Fortune Supreme Treasure.

With that, Chu Kuangren and Lil Ai figured out the best way to achieve the ideal result.

He set up an altar in the kingdom and used formation as its support. The Descendant Self Sword was put on it to absorb the fortune energy so that it could repair itself.

"Descendant Self Sword, I'll wait for you to fight the God Emperor again," Chu Kuangren murmured.

"Buzz!"

The sword buzzed on the altar as if it was responding to Chu Kuangren.

Time flew, and Chu Kuangren had gone into cultivation for years now.

While he was away, the Pan Gu Kingdom continued to grow stronger.

Without the Primal Kingdom, the Pan Gu Kingdom became the strongest force in the Infiniverse. They conquered the Great Hongmeng Universe and started to expand to other universes. The kingdom's fortune energy continued to grow.

While in cultivation, Chu Kuangren sensed the increasing fortune energy and its blessing. He was able to rapidly recover from his injuries, and his cultivation level was rising as well.

Now that he had ascended all three thousand Great Daos to the Unlimited Great Dao Realm, he moved on to the next step, which was to continue breaking them through to the Overlord Realm.

With the blessing of the strongest fortune energy in history, his cultivation speed skyrocketed.

Other than that, he was also gaining insights into the highest level of Limitless Transformation, a new height that even the Human Ancestor could not reach during his time.

However, the Limitless Cultivation was too profound, and the highest level of the technique was mysterious, making it difficult to achieve. Chu Kuangren felt like he was missing a great opportunity.

Many years went by.

On that day, the kingdom welcomed different cultivators from different universes, and they would all pay their respects at the altar by worshiping a sword when they arrived.

A Monarch bowed three times to the crystal sword on the altar with respect.

There was nothing wrong with his gesture because the word was worthy of his respect.

"The fate of the Infiniverse lies on the Ruler, and this sword is the kingdom's ultimate weapon. I hope it can protect the Ruler and all life in the Infiniverse," said the Monarch.

The other cultivators paid their respect as well.

As they paid their respects, they released an invisible wishing power that was absorbed by the Descendant Self Sword.

It was a new kind of energy that was different from the fortune energy.

It was the power of the people's wishes.

Not even Chu Kuangren expected that. He was simply trying to reforge the Descendant Self Sword into a Fortune Supreme Treasure, but due to many reasons, the sword started to absorb the wishing power from the people who paid respect to it.

No one knew how much the Descendant Self Sword had grown.

...

Meanwhile, the Tribulation Lord was watching the cultivator overcome their tribulation to kill time in Naraka.

It was one of his few hobbies that he enjoyed. Suddenly, he sensed a unique energy appearing in Naraka.

It was the Creation Source's energy!

However, why would the Creation Source energy appear in Naraka?

When realization struck, the Tribulation Lord's eyes widened in shock.

"Kabaam!"

Naraka trembled violently all of a sudden.

A massive spatial rift cracked open in the void, releasing a massive amount of Creation Source energy!

What followed was a golden figure emerging from within.

A supreme aura blanketed Naraka instantly.

"It's him!" Tribulation Lord said solemnly.

It was the God Emperor.

"Why am I not surprised that he only used around ten thousand years to connect the Creation Source and the real world?" Tribulation Lord murmured.

Since the source had faded, only the will of the universe existed.

No one could defy or change it.

However, the God Emperor was so ridiculously powerful that he could forcefully open a passageway, connecting the Creation Source and the current world.

As the God Emperor returned to the Infiniverse, his domineering aura spread.

The Infiniverse felt it, and countless powerful cultivators reacted grimly to the pressuring aura.

"His aura is still so scary."

"He was barely hurt in his battle with Chu Kuangren. How terrifying. The God Emperor is indeed invincible."

"A monster..."

Back in the Pan Gu Kingdom, Chu Kuangren opened his eyes in the middle of his cultivation. A powerful aura erupted and expanded across the Infiniverse as well.

The auras of Chu Kuangren and the God Emperor clashed despite them being numerous major domains away, and the entire Great Hongmeng Universe shook.

Back in Naraka, the God Emperor looked in the direction of the Primal Kingdom and narrowed his eyes. "Great. Now, you're qualified to fight me."

Chapter 2507 God Emperor's Wife, I Will Come Back And Marry You, I Must Win

The God Emperor came back from the Creation Source and arrived at Naraka, the Tribulation Lord's territory.

"Why was your power in that human's possession? You control all tribulation in the universe, yet you try to defy the universe's will?" God Emperor asked.

The Tribulation Lord shook his head. "Of course not. Him having my power was nothing but an accident. He tricked me and stole it." He explained to the God Emperor how Chu Kuangren got the tribulation energy.

"Is that so?"

The God Emperor looked at the Tribulation Lord deep in the eyes before he vanished.

"Phew. He's much scarier now than back then."

The Tribulation Lord breathed a sigh of relief. He felt pressured in front of the God Emperor. Although he would never truly die, he did not want to fight the God Emperor as well.

...

After the war with the Pan Gu Kingdom, the Primal Kingdom was in wreckage.

The palace and the buildings remained intact, but it looked bleak and dull, missing the grand and majestic presence of the past.

There was no one in sight.

Suddenly, someone arrived from the sky.

It was the God Emperor.

He looked at the desolated kingdom calmly. He did not feel angry or aggrieved because the kingdom lost.

Instead, he went to the highest mountain of the kingdom.

At the peak of the highest mountain was a boundary, seemingly protecting something inside.

The God Prince was there waiting for him as if he knew his father would come.

"Father, you have arrived."

The God Emperor nodded coldly.

He did not show any emotions toward his offspring. It was as if the God Prince was a stranger.

He then shot a sliver of God Emperor qi at the void.

A mystical space opened up in the mountain, and the God Emperor went inside.

The God Prince wanted to enter but was blocked by the God Emperor qi. "I want to be alone with her." The God Emperor's voice echoed from inside.

The God Prince bowed respectfully and waited outside.

The interior of the cave was covered with countless crystals.

Cultivators who recognized the crystals would be shocked because the crystals were Source Crystals.

The interior of the mountain was actually a Source Realm that had not faded.

In the cave's center was a crystal coffin, forged using the Source Crystals, and inside it was a pinked-hair woman in white robes.

The woman was exquisitely beautiful, so much so that she could outshine the sun and the moon.

Even though eons had passed, her beauty did not diminish. On the contrary, it still made the God Emperor's heart race.

The God Emperor showed a rare softness in his eyes.

"Hua, I'm here to see you."

The God Emperor went up to the coffin to stroke Hua's beautiful face while chanting her name softly. No one would relate that gentle man to the invincible God Emperor who almost wrecked the Infiniverse.

"Just wait a little longer and I will revert the Infiniverse back to the Source era. I will bring you back to life, I promise," the God Emperor murmured confidently.

Hua, or the Goddess of Life, was a Primal God and the God Emperor's wife, the God Empress.

Many eras ago, before the God Emperor grew to what he was today, he was ganged up by other Primal Gods and almost lost his life.

It was the Goddess of Life who revived him using her powers, but she also fell into an eternal slumber.

In order to bring her back, the God Emperor had the idea of reverting the Infiniverse back to its original state, hence bringing back the Source era.

Only then could Hua's Source recover.

As such, the God Emperor secured a mountain from the Source era to keep Hua's body intact and maintain her body functions.

"Hua, I met an interesting human this time. Like the Human Ancestor, I admired him, but it's too bad he's against me. He's strong, probably stronger than the Human Ancestor, but for you, I will beat him, even if I have to fight the universe. I will destroy everything," the God Emperor chanted.

After that, he stayed in the cave to accompany her, talking about his encounters or just staring at her quietly.

Years later, the God Emperor exited the mountain.

"Father."

"Stay here and watch over your mother."

"Yes, Father."

The God Prince nodded.

Then, the God Emperor vanished from the spot.

The destruction of the Infiniverse had started!

...

Meanwhile, in Pan Gu Kingdom, Chu Kuangren and Gu Linglong were hugging each other on a mountain peak, watching the sunset.

Chu Kuangren said, "Linglong, let's have a baby after this battle."

"Sure." Gu Linglong nodded.

"After this whole thing ends, we'll travel the Infiniverse. We'll go wherever you want to go. Lan Yu can come too."

"Sure. Whatever you say."

Lan Yu happened to come up behind them at that moment. When she saw them flirting with each other, she was slightly stunned. "Is this a bad time?"

"No, you're just in time." Chu Kuangren opened his other arm. Lan Yu followed her heart and went over to his embrace. She, too, hugged Chu Kuangren and leaned on his firm chest. She murmured, "Master, you must win. I'll wait for you to come back. I'll follow you until the end of time."

"Sure. I'll come back and marry you," Chu Kuangren said gently.

Lan Yu blushed and nodded. "I'll wait for you."

Chu Kuangren looked at Lan Yu and Gu Linglong, the two most important women in his life, and was determined to win. He must win, no matter what.

He wanted to marry Lan Yu and have a baby with Gu Linglong; he wanted to travel the Infiniverse with his loved ones.

How could he allow the God Emperor to destroy everything? He had to win!

...

"Kabaam!"

God Emperor qi wreaked havoc across the universe.

In just a blink of an eye, the God Emperor qi destroyed the stars, moons, and suns of the universe.

The entire universe was forced back to chaos when the Great Dao was shattered.

He had lost count of how many universes he had destroyed.

Countless lives screamed in agony before him.

At first, he felt bad for killing so many people. However, his heart slowly died out, and he was left with one firm belief.

He had to destroy the Infiniverse and revert it back to the Source era so that Hua could come back to him.

Even if he had to kill until no one was left but him, he did not mind.

With a step forward, he ventured to another universe.

In that new universe, he felt a familiar aura.

"Is this the universe of that human?"

The God Emperor could tell that the universe was Chu Kuangren's home universe.

"Pan Gu Universe? This universe is feeble, yet it produced a gifted man like him. How surprising."

The God Emperor then raised his hand to destroy the Pan Gu Universe.

Suddenly, the void rippled, and unparalleled spatial energy fluctuation erupted. In just a blink of an eye, the entire Pan Gu Universe, including its galaxies and stars, disappeared.

Nothing was left, only the pure void that was more quiet than chaos.

Chapter 2508 One And Only, One Man's Madness Through Time, Descendant Self Sword's Transformation

"You moved an entire universe with just one thought? Your spatial technique is as good as Void Ruler's," God Emperor said.

After that, blinding Immortal Sparks shone from the silent void, and a white figure emerged.

It was Chu Kuangren!

However, the God Emperor was not surprised by his arrival.

"So it is you who stands before me at the end," God Emperor said.

"It has always been me."

"Before I kill you, human, tell me your name."

Chu Kuangren swung his sleeve, releasing three thousand Daoist laws and a rampant qi that swept over the void, shaking even the Infiniverse.

The rampant qi felt like it could penetrate time and shake space itself.

"I am Chu Kuangren, the one and only madman throughout time! God Emperor, are you prepared to die?"

Chu Kuangren stood with his hands behind his back, releasing his rampant aura to pressure the God Emperor.

The God Emperor laughed upon hearing Chu Kuangren. "Hahaha! Not even the Human Ancestor dared to claim that he could kill me. Chu Kuangren, you're the first and only human who has the nerve to do that. Very well, one and only Chu Kuangren. I will remember you. After I kill you, I will erect a tomb for you until the end of time."

Then, his God Emperor qi spread and shook the entire Infiniverse.

The clash of their auras alone shattered the universal wall of the Pan Gu Universe and formed a terrifying distortion field.

Like a black hole, neighboring universes were sucked in and molded together like a piece of dough.

Multiple universes' Great Daos shattered, and more than a dozen universes molded into a chaotic universe due to their clashing auras.

That chaotic universe would be the new battlefield for Chu Kuangren and the God Emperor.

Their battle was reflected across the Infiniverse, so all cultivators could watch it from a safe distance.

Back in the Great Hongmeng Universe, countless cultivators watched the battle solemnly.

"Master's sword isn't repaired yet. Isn't it a little too rushed for him to fight the God Emperor now?" Lan Yu glanced at the Descendant Self Sword on the altar.

"The God Emperor is already in the Pan Gu Universe. There's no way Kuangren would sit back and do nothing," Gu Linglong said.

Their second meeting was fated, and Gu Linglong looked nothing but worried.

"Kuangren, you have to come back safely."

Devil King, Shen Qixue, Tempest King, Chu Hong, Shang Honghua, and the others also watched the battle with a pounding heart.

That would be the most important battle throughout history as the fate of the Infiniverse and the lives of all living beings depended on it.

Back in the chaotic universe, the God Emperor stared at Chu Kuangren and decided not to hold back anymore.

With his hand raised, God Emperor qi erupted, and a spear dropped from the sky. Powerful rage qi emanated from the spear.

One glance at it and the intense rage qi could hurt one's eyes.

"This is the final battle. Where is your sword, Chu Kuangren?" the God Emperor asked as he wielded his spear.

"It will come."

Chu Kuangren then hurled the All Creation Cauldron at the God Emperor. The vast Creation energy could easily destroy an Overlord.

However, the God Emperor swung his spear in a flurry, and rampant energy erupted from its tip.

"Bang!"

The cauldron was blasted away.

Chu Kuangren flew high up to catch the cauldron and followed up with a sword hand sign.

Multiple Overlord Great Dao energies erupted, and together with the Unlimited Great Dao energy, they formed a massive sword shadow that attacked the God Emperor.

"Three Thousand Great Dao Slash!"

That strike was terrifyingly powerful.

Unfazed by its overwhelming power, the God Emperor countered by releasing his God Emperor qi.

"God Emperor Art, King's Heaven Calling!"

When the spear was thrust forward, disaster befell. Upon collision with the sword shadow, the chaotic universe, formed by molding a dozen universes together, almost shattered.

Amidst the blinding explosion, Chu Kuangren was sent flying away while the God Emperor was pushed back two steps.

"Not bad. You're stronger than the Human Ancestor, but not all three thousand of your Great Daos have reached the Overlord Realm. You can't beat me," the God Emperor said.

He then raised his spear high, and his God Emperor qi shone brightly. He released another unparalleled attack that distorted the chaotic universe again.

Chu Kuangren simply stood there in the void. "We'll see about that."

A massive amount of fortune energy rushed into his body.

It was the blessing of the kingdom's fortune energy!

The Pan Gu Kingdom was currently the strongest kingdom in the Infiniverse. Its fortune level was even higher than Chu Kuangren's fortune level when he first started the kingdom. With the blessing of such a massive fortune energy, Chu Kuangren's powers surged to a new height.

At the same time, Gu Linglong and all the other cultivators in the kingdom raised their hands.

"Take our powers! You must win!"

Their energies flew across time and space to reach Chu Kuangren, and it boosted his energy level higher.

His aura skyrocketed, almost matching the God Emperor's, but it was still not enough! Chu Kuangren's white hair danced wildly in the wind as he shouted, "Fleeting Beauty!"

He used the time ability again to siphon endless power from time itself.

Time had no end, so his powers had no limit either.

Chu Kuangren's eyes gleamed with determination, and he said coldly, "I won't deactivate the Fleeting Beauty before I defeat you."

"Great! Ever since I destroyed all the Primal Gods, I saw no rival anymore. But now, I've finally met you, someone who I can fight to my fullest with!"

The God Emperor laughed boldly and gripped his spear tighter.

His golden hair danced with the wind, his God Emperor qi rumbled, and his golden Immortal Sparks shone blindingly like the sun, shining its light across the Infiniverse.

"Let's fight!"

Both of them shouted and locked eyes before darting out at each other at the same time in golden and white streams of light.

It was the God Emperor qi versus three thousand Great Dao.

Two of the most powerful energies in the Infiniverse clashed in the fiercest way possible.

Universes were destroyed as they fought.

However, they did not use any kind of divine abilities.

At their level, Immortal Techniques and divine abilities were no longer as effective or efficient as pure energy.

"Bang! Bang!"

The clash lasted for some time, and their battle continued to wreck the Infiniverse.

"Bang!"

When the All Creation Cauldron clashed with the spear again, it started to crack, and a massive amount of Creation energy leaked out.

Due to the crack, Chu Kuangren was blasted backward by the spear.

"Admirable opponent, it's time to end this," the God Emperor bellowed.

He raised his spear high and wanted to deliver the final blow when a loud sword chime from the Pan Gu Kingdom suddenly reverberated throughout the Infiniverse.

The Descendant Self Sword had repaired the crack on its blade!

With the blessing of the kingdom's fortune energy and the people's power of wishes, the Descendant Self Sword had transformed completely and grown a lot stronger.

At that moment, all the swords in the Great Hongmeng Universe buzzed to its chime and rose to the sky.

The Descendant Self Sword then flew across the universal barrier and headed to the chaotic universe. Right before the God Emperor could deliver the final blow, endless sword qi tore apart the chaotic universe's barrier, and swords rushed inside in the form of a dragon.

The sword dragon dashed toward the God Emperor, attempting to crush him.

"Hmph."

The God Emperor grunted and channeled his God Emperor qi, forming an indestructible barrier to block all the swords from attacking him. Chu Kuangren's eyes gleamed. "Descendant Self Sword, to me!"

Chapter 2509 Perfected Invincible God Emperor, Chu Kuangren's Fall, Human Ancestor's Backup  
"Descendant Self Sword, to me!"

Chu Kuangren grabbed the Descendant Self Sword.

The moment he held it, he could feel that it was different.

It was not just a sword. It was a weapon that contained the kingdom's fortune energy and the power of wishes from the people, and its purpose was to protect the Infiniverse.

"God Emperor, have a taste of my sword!"

With the Descendant Self Sword in hand, Chu Kuangren turned into a sword ray as he lunged toward the God Emperor with a thrust.

The sword thrust into the God Emperor qi barrier, and upon collision, a loud bang erupted.

The God Emperor qi was the strongest defensive method in the Infiniverse.

To date, the God Prince had been able to use it defensively to block all the Overlords' attacks. Since the God Emperor was countless times stronger than the God Prince, his God Emperor qi was indestructible.

For as long as Chu Kuangren fought the God Emperor, all his attacks were blocked by the God Emperor qi, and he could not inflict actual damage on the God Emperor.

However, this time, the Descendant Self Sword managed to pierce the God Emperor qi's defense and hit the God Emperor's chest.

The boundless sword qi damaged his body.

"What?"

For a moment, the God Emperor was shocked that his God Emperor qi was penetrated. He looked at the sword at his chest and grinned. "The weapon that contains the kingdom's fortune energy and the power of the people's wishes?" With a shake of his body, more God Emperor qi erupted and shook Chu Kuangren away.

"Cough!"

The God Emperor held on to his spear as he coughed out mouthfuls of blood from his mouth.

The powerful sword qi damaged his body. He had never been hurt to this extent, even after he defeated the Primal Gods.

"God Emperor, you've lost!" Chu Kuangren said coldly.

He raised the Descendant Self Sword high and started to channel his three thousand Daoist laws.

The God Emperor replied with a chuckle, "Me? Lose? No, I am the invincible God Emperor, the Supreme Realm Tribulation. No one can defeat me!"

As he roared, he extended his hand to grab into the void and pulled the God Prince out.

The God Prince was universes away when he was grabbed, and when he saw his father pulling him out from the void, he was utterly baffled.

"My son, you have done well all these years."

The God Emperor looked at his son mercifully. "Father, what's going on?"

The God Prince had a bad feeling about it.

Then, the God Emperor put his hand on the God Prince's forehead.

The God Prince's body exploded instantly, and the God Emperor absorbed his God Emperor qi.

"What?"

The shocking scene left all the cultivators across the Infiniverse speechless.

At the next moment, an even more terrifying God Emperor qi erupted.

Its presence alone destroyed multiple universes.

"He absorbed the God Prince's God Emperor qi!" Shen Qixue cried.

The God Prince was the combination of the God Emperor's power and the Goddess of Life's life essence.

By killing the God Prince, the God Emperor would retrieve his powers back.

"The God Emperor killing his own son? What a father you are," Chu Kuangren scoffed.

"As long as I can revert the Infiniverse back to its original state and bring Hua back, I can even give my life away in a heartbeat," the God Emperor said.

Chu Kuangren had no idea who Hua was, but he knew that the God Emperor was stronger and more difficult to defeat.

"Descendant Self Sword, go!"

Chu Kuangren charged toward the God Emperor with the Descendant Self Sword, and the God Emperor swung his spear in a flurry.

In the blink of an eye, the two strongest weapons had clashed countless times, causing explosive shockwaves with each clash.

After numerous rounds, the God Emperor's spear cracked and shattered.

The Descendant Self Sword was quickly thrust toward the God Emperor.

Unfortunately, it failed to penetrate the God Emperor qi this time.

The God Emperor had absorbed the God Prince's God Emperor qi and perfected his powers, so the God Emperor qi's defense had risen to another level.

Although the Descendant Self Sword could break the spear, it could no longer cut through the God Emperor qi.

"Chu Kuangren, you can't beat me."

The God Emperor roared and channeled his God Emperor qi to the limit. Then, he punched the Descendant Self Sword on the blade.

Following a sharp screech, the Descendant Self Sword broke into pieces.

The unprecedented blast sent Chu Kuangren flying.

The God Emperor seized the chance to follow up with an attack.

"King's Heaven Calling!"

He punched again and struck Chu Kuangren.

It was the strongest punch in the Infiniverse, and no one could take it without being hurt, not even Chu Kuangren.

His body cracked instantly and exploded into a cloud of blood mist.

On top of that, the God Emperor qi continued to vaporize the blood mist, disintegrating everything about Chu Kuangren into nothing.

The three thousand Great Daos in his body shattered as well.

"No!" Gu Linglong screamed.

Lan Yu collapsed on the ground with a pale face and tears trickling down her cheeks. "You said you will come back and marry me. You can't lie to me..."

All the cultivators of the Pan Gu Kingdom plunged into despair following Chu Kuangren's demise.

The Infiniverse was over.

...

'Am I dead?'

That was the only thought in Chu Kuangren's head, but no, he was not dead.

At the very least, his consciousness remained.

If his consciousness remained, where would he be now?

Chu Kuangren looked around and saw nothing but white.

"Lil Ai? Lil Ai?" He tried calling Lil Ai, but no one responded.

"We finally meet, young savior of the Infiniverse."

Suddenly, a voice came from the white space.

A gentlemanly figure in white appeared before Chu Kuangren with an elegant smile.

In the next second, Chu Kuangren's consciousness manifested into his own body.

He looked at the man before his eyes. "Human Ancestor."

The man before Chu Kuangren was none other than the Human Ancestor.

"Tell me what is going on," Chu Kuangren asked.

"Remember the pearl you got from the Tribulation Lord?" the Human Ancestor asked with a smile.

"Of course." Chu Kuangren nodded. The pearl had entered his body, but he could not find it after that.

Now, it seemed like this whole thing was the pearl's doing.

"That pearl contained my powers, but you were not strong enough back then to refine it yet, so it lay dormant in your body. Now that the God Emperor has completely disintegrated your body, it has

injected my powers into your body, causing both our powers to fuse together," the Human Ancestor explained.

"We can defeat the God Emperor by fusing our powers?" Chu Kuangren asked.

"No. My powers are just a little push. You still have to defeat the God Emperor yourself. You're our only hope, after all."

"The God Emperor is powerful, more powerful than anything I've ever faced. Can I really beat him?" For the first time, Chu Kuangren felt uncertain.

"If you don't trust yourself, the Infiniverse is over," the Human Ancestor said sternly.

Chu Kuangren's expression turned serious. He took a deep breath and thought of Gu Linglong, Lan Yu, and the others. "I understand."

The white space then shone colorfully.

It was the Human Ancestor's powers fusing with Chu Kuangren's powers.

Chapter 2510 Understand All, Limitless All Time, All Time Undefeated

Chu Kuangren was fusing with the Human Ancestor's powers inside the colorful space.

As the process went on, his attainments on the three thousand Great Daos grew, and he gradually perfected his three thousand Overlord Great Dao.

Suddenly, a realization struck, and his consciousness exited the colorful space.

He arrived in a deeper space of his soul.

There was a colorful roulette before him.

It was the Fantasy Roulette, his ultimate trump card that made him the person he was today.

"I see. So this is the real last hope," Chu Kuangren murmured as he looked at the roulette.

The Human Ancestor's understanding was correct.

The Supreme Realm Tribulation was born from the will of the universe, but in all things lay a glimmer of hope. Chu Kuangren was destined to be the last hope against the Supreme Realm Tribulation, so he was reincarnated with the Fantasy Roulette.

"This was where it all began. Ha!"

Chu Kuangren chuckled and swung his sleeve.

The Fantasy Roulette scattered into countless light particles and entered his body.

Now that he had been enlightened, he was one with the fantasy roulette. ...

Chu Kuangren had fallen.

The scene shocked all the cultivators of the Infiniverse, plunging them into despair. The cultivators of the Pan Gu Kingdom felt like the universe was over.

In Naraka, the Tribulation Lord sighed. "He failed."

In the chaotic universe, the God Emperor looked into the void and shook his head. "The will of the universe cannot be defied. It is the universe's will to return to the origin. Nothing can stop it."

The God Emperor wanted to continue his destruction of the Infiniverse when suddenly, the void glimmered, and the Infiniverse started to shake.

Three thousand Great Daos appeared from the void, intertwining. At the intersection, a white-robed and white-haired figure emerged, and his aura was too profound for anybody to see through. Even the God Emperor felt slightly afraid.

"You're not dead?" The God Emperor's eyes widened in disbelief.

On the other hand, the Pan Gu Kingdom's cultivators were overwhelmed with joy.

"The Ruler is alive! He's alive!"

"This is great!"

Gu Linglong, Lan Yu, and the others shed tears of joy.

"I knew it. Master would never lie to me." Lan Yu rubbed her eyes, laughing as she continued to cry.

Back in the chaotic universe, the God Emperor looked at Chu Kuangren, and a sudden realization struck. "This aura belongs to the Human Ancestor. You've fused with his powers."

Then, he punched with his God Emperor qi.

The punch was extremely powerful, even more powerful than the punch that killed Chu Kuangren earlier.

However, Chu Kuangren lifted his hand and bellowed, "Descendant Self Sword!"

In the next instant, the pieces of broken blade in the void flew toward Chu Kuangren and reformed the Descendant Self Sword.

The sword was reforged using the kingdom's fortune energy. Although the God Emperor could break it, it could not be destroyed.

With the sword in his hand, Chu Kuangren threw a slash containing the three thousand Great Dao energies, or more precisely, three thousand Overlord Great Dao energies!

"Kabaam!"

When the sword qi clashed with the God Emperor qi, the God Emperor's fist energy shattered, and the sword qi sent the God Emperor flying.

The indestructible God Emperor qi tore as well.

The God Emperor's expression turned grim. "So this is the power of three thousand Overlord Great Daos? Not even the Human Ancestor could achieve this back then. It's indeed powerful."

Again, he channeled his God Emperor qi. As his golden hair danced in the wind, his aura rose to a new height.

"God Emperor Art, Infiniverse Collapse!"

He used a technique no one had seen before. The God Emperor qi he released contained the power to make the Infiniverse collapse.

Seeing that, Chu Kuangren raised his hand and summoned three thousand Great Daos before him, forming three thousand layers of barrier to block the attack.

The defensive capabilities were far stronger than those of the God Emperor qi.

"God Emperor, I shall let you have a taste of the Limitless Transformation's full potential," Chu Kuangren said.

He then stepped forward and activated Limitless Transformation.

Countless time and spatial Daoist laws intertwined to form an ancient river of time that connected the past and present.

From the river of time, multiple figures emerged, such as the Primal Infernal Dragon with his bone masks, the Creation Lord with the All Creation Cauldron, and the God of Slaughter who emanated endless murderous qi.

One after another, ancient beings walked out from the river of time.

"Long time no see, God Emperor," someone said with a soft chuckle.

An elegant man stepped out from the river of time and looked at the God Emperor as if he was a friend.

"Human Ancestor!"

Mingyue Wuxia and Shen Qixue were surprised to see the Human Ancestor.

Mingyue Wuxia was baffled because she saw, with her own eyes, the Human Ancestor's soul disintegrate from sealing the God Emperor away.

How could the God Emperor appear again?

What about the Primal Infernal Dragon, the first-generation Master of Destiny, and many others?

They should have died a long time ago.

All the cultivators across the Infiniverse were confused.

Even the God Emperor was shocked. "What technique could transport the ancient Primal Gods from past to present through the river of time?"

"This is the ultimate level of the Limitless Transformation — Limitless All Time!" Chu Kuangren said with his hands behind his back.

Limitless All Time was the new ability he gained after he broke through all three thousand Great Daos into the Overlord Realm.

It could summon a river from time and then bring back ancient beings throughout history who were ridiculously powerful.

It was probably the most absurd technique in the Infiniverse.

"Limitless All Time? Limitless All Time!" The God Emperor laughed.

He clenched his fists tightly, and the battle intent in him was ignited. "If I can defeat you people once, I can do it again forever!"

The God Emperor faced an unprecedented challenge, yet he remained arrogant, proud, and fearless.

"Die!"

With a leap forward, the God Emperor fought all his old rivals that he killed before.

The Human Ancestor, Creation Lord, Master of Destiny, God of Slaughter, Primal Infernal Dragon, and a few more pounced toward the God Emperor.

All kinds of techniques, divine abilities, and Daoist laws shone in the void.

The battle left all the cultivators across the Infiniverse in awe.

It was a miracle to be able to bring ancient beings back from time and have them fight the God Emperor to protect the universe.

"Break!"

God Emperor broke the All Creation Cauldron with one punch and then blasted the Human Ancestor, Creation Lord, and the others away.

"You people can't defeat me!" he shouted.

"They can't, but I can!" Chu Kuangren shouted.

He wielded the Descendant Self Sword and concentrated three thousand Great Dao energies on its blade.

In addition to the three thousand Great Daos, there were the powers of the Human Ancestors, Primal Infernal Dragon, and the others.

All the powerful Primal Gods who had died in the past lent their powers to Chu Kuangren at that very moment.

"God Emperor, take this! All Time Undefeated!"

Chu Kuangren slashed forward with his sword, releasing a sword ray that outshone the past and present.

The sword contained three thousand Great Daos and the powers of all the ancient beings, plus the kingdom's fortune energy and the power of the people's wishes.

That slash was evidence of Chu Kuangren's invincibility and the mark of his undefeated legend!

The God Emperor shouted and channeled his God Emperor qi to the limit to form barriers around him, but they could do nothing before the strongest slash throughout history.

The God Emperor qi was destroyed, followed by the God Emperor's body!

When the sword qi struck the God Emperor, more sword qi was released from the cut.

After the biggest explosion in history erupted, everything returned to its peaceful state.

As the God Emperor used every ounce of his power to suppress the sword qi, he looked at Chu Kuangren deep in the eyes and said, "You won."

Then, his figure vanished.

Chu Kuangren did not chase after him because he knew the God Emperor would die soon.

However, he was curious about where the God Emperor would go in his dying moments.

Even the Human Ancestor and the others shared the same question, so they followed the God Emperor back to the Primal Kingdom their Immortal Consciousnesses. They saw him enter a mountain.

"Hua, I'm back."

The God Emperor looked at Hua in the coffin with the gentlest gaze.

He stroked her face softly and said, "I'm sorry. I've failed you."

After he sighed, he lost control of his injury, and the sword qi exploded from his body.

The explosion destroyed the last Source Realm in the Infiniverse, burying the God Emperor with the God Empress.

Chu Kuangren performed multiple deductions to find out the reason behind the God Emperor's crusade and finally understood everything.

He sighed and said, "Even the God Emperor couldn't escape the shackles of love."

The Human Ancestor and the others shared the same feeling.

Then, the Human Ancestor looked at Chu Kuangren with nothing but praise.

"You did great, and now, you're invincible. What are you going to do next?" the Human Ancestor asked.

"What am I going to do next?" Chu Kuangren chuckled and looked in the direction of the Pan Gu Kingdom. He saw his family and friends waiting for him to go home.

He had a million words to say and countless emotions to express, but in the end, he chuckled softly.

"What else can I do? I'm going home to marry my loved one and make babies!"
