

## The ultimate husband in Chinese chapter 2471-2480

### Chapter 2471

At this time, Sun Dasheng laughed loudly, took a step forward, and shouted at Mona: "Congratulations to Queen Mona." The

voice fell, Wen Chouchou also smiled, and said: "Queen Mona, just now, the two sides fought fiercely. The casualties are heavy, let's settle the casualties first, and then negotiate the details."

Well!

Mona smiled and nodded.

"Clean up the battlefield." Wen Chou Chou instructed the surrounding soldiers, and after thinking of something, he pulled Sun Dasheng and said, "Fengzi is chasing Duan Yu, I don't know what's going on, let's go and see."

"That bastard Duan Yu, When escaping, it consumed a lot of internal strength, and Fengzi will definitely be able to deal with it." Sun Dasheng scolded, and then said excitedly: "However, if the three brothers can kill Duan Yu together, that will be the happiest, haha..."

Speaking, the two brothers rushed towards the wild and strange realm.

In the battlefield, under the command of Long Qianyu, Ren Yingying and others, the army began to clear the battlefield.

Not far away, a person did quietly leave in the chaos, heading towards the Kyushu camp, with cunning and viciousness in his eyes, it was Zhang Jiao.

Since being subdued by Yue Feng, Zhang Jiao has always been convinced, and later begged his apprentice Han Bing to help him get the antidote for Tongtian Pill from Yue Feng, but Han Bing tried several times without success.

This made Zhang Jiao very angry.

Just now, seeing that the Rakshasa clan was controlled by Mona, the two sides completely stopped fighting, Zhang Jiao realized that the opportunity was coming, and while everyone was clearing the battlefield, he returned to the camp and searched Yue Feng's camp.

A few minutes later, Zhang Jiao entered the tent where Yue Feng was resting, rummaged through the boxes, and searched carefully.

Ha ha...

Soon, Zhang Jiao found several bottles of medicinal pills, all of which were medicinal pills refined by Yue Feng. In an instant, Zhang Jiao was extremely excited.

This chapter is provided by . Visit for daily update.

Zhang Jiao saw that there were dozens of medicinal pills in several bottles, and it was difficult to find the antidote for Tongtian Pill, but Zhang Jiao was not worried. It will be researched soon.

Yue Feng, you wait for me, I will make a comeback one day.

At this time, Zhang Jiao's eyes flashed with gloom, and he muttered to himself, then turned and walked out of the camp, and in a blink of an eye, he disappeared into the vast mountains and forests.

.....

the other side.

The wind whistled in his ears, Yue Feng held Fang Tianhua halberd tightly and kept stabbing it on the cliff to slow down the speed of the fall, but after all, the internal energy consumption was serious, and he couldn't stand it any longer, and the body fell faster and faster.

What shocked Yue Feng even more was that under the cliff, there was a long and narrow valley, which stretched infinitely on both sides, and he didn't know how long it was. Moreover, when he fell halfway, Yue Feng found that the valley was completely shrouded in green poison.

Made!

Seeing that the end is about to end, Yue Feng cursed secretly, and quickly released Qiong Qi from the spirit beast sack.

Roar!

With a roar, Qiongqi burst out of the air, supported Yue Feng on his back, and flapped his wings to land down. However, the moment he entered the poisonous mist, Qiongqi's balance was still affected.

Dengdengdeng...

At the moment of landing, Yue Feng stepped back dozens of steps in a row to remove the force of the fall. Despite this, his blood was still surging, and a mouthful of blood spurted out. Qiongqi also fell a somersault, but there was no serious problem.

After standing up, Qiong Qi hurried over and stayed beside Yue Feng.

call!

Yue Feng took a deep breath, adjusted his breath, and then looked around, suddenly secretly startled.

I can see that there is a forest around, and these trees have grown for hundreds of years, even thousands of years. , the leaves are dark green.

Yue Feng knew that every leaf of these ancient trees was highly poisonous.

However, Yue Feng has a physique that is invulnerable to all poisons, so he is not too worried.

Chapter 2472

On the other side of the mountain wall, there are some large and small caves, the caves are filled with poisonous mist, and I don't know how deep.

Of course, Yue Feng didn't think about going to the cave to investigate.

The internal energy consumption is so serious, of course, it is the first time to meditate to recover.

Thinking of this, Yue Feng sat there cross-legged, and began to prepare to practice. Suddenly, he thought of something, and looked around, but as a result, he did not see Duan Yu.

Mad, isn't this kid dead?

In his heart, Yue Feng was about to explain to Qiongqi and be vigilant around him.

Hissing...

However, before Yue Feng could speak, he heard a special sound coming from the cave behind him, which made one's scalp tense.

Hearing this voice, Yue Feng was startled.

broken.

Yue Feng could never forget this sound, because he had just encountered a giant python on the top of the cliff before, and this sound was made by the giant python.

Roar!

Qiong Qi also sensed the danger, let out a roar, and locked his eyes tightly in the direction of the cave. Yue Feng also quickly stood up, holding Fang Tianhua halberd tightly.

In the next second, Yue Feng's heart skipped a beat, and he couldn't help but curse.

Nima? so much?

I saw that dozens of giant pythons quickly swam out of the cave. The giant pythons were about the same size as the one Yue Feng encountered before, and the smallest ones had the thickness of the mouth of a bowl, and they all had black scales.

Obviously, it is of the same kind as the one encountered before.

hiss..

Seeing Yue Feng, these giant pythons did not hesitate, let out a terrifying neigh, and all rushed over at once. He didn't appear to be afraid at all because of the presence of Qiongqi.

Roar!

At this moment, without any hesitation, Qiong Qi let out an earth-shattering roar, and threw himself up to fight with those giant pythons.

This scene, Yue Feng was shocked and anxious at the same time.

Mad, if he didn't consume too much internal energy, how could he be afraid of these big bugs? But fortunately, thanks to himself, there are still poor and strange spirit beasts.

Just when Yue Feng was secretly rejoicing, a strong wind suddenly came from behind him. Yue Feng thought it was another giant python, and hurriedly turned around, suddenly startled.

This is a black fierce tiger, more than three meters long, the fifth stage of the Martial Saint realm, and the speed is extremely fast.

Nima!

Yue Feng was completely angry, did he really think I was easy to bully? First a pair of giant pythons, and now a tiger? Cursing, Yue Feng held Fang Tianhua halberd tightly and went up to him.

Chi!

The battle lasted for a few minutes, and Yue Feng finally found an opportunity. Fang Tianhua halberd stabbed the tiger in the belly, and blood sprayed. However, the tiger was also very fierce, and when it was dying, the tiger claws waved and directly stabbed Yue Feng's right side. On his face, three bloody openings with deep visible bones were scratched.

At this time, the battle on Qiongqi's side also ended. More than a dozen giant pythons, without exception, all died under its sharp claws and fangs, but Qiongqi was also injured, and the surrounding poisonous mist was too strong, Poor and huge body, shaky, very weak.

Yue Feng looked very distressed, touched Qiongqi's big head, and put it in the spirit beast bag. The spirit beast sac is an independent space, so there is no need to worry that Qiongqi will continue to absorb the poisonous mist.

call!

Putting Qiongqi away, Yue Feng took a deep breath and simply dealt with the wound on his face. He held Fang Tianhua halberd tightly and walked forward.

Nima!

Where is this place?

After walking for an unknown amount of time, Yue Feng's head was swollen. The valley was really huge, with dense forests and countless ferocious beasts hidden in it.

Chapter 2473

What makes Yue Feng more depressed is that because the poisonous mist is too thick, he can't tell the direction at all.

At this time, Yue Feng didn't know that the place he was in was a very dangerous area in the wild and strange realm. It was turned into a death valley by the Rakshasa tribe. The death valley stretched for thousands of miles. The bravest warriors of the clan did not dare to break in rashly.

However, for Yue Feng, such an environment was a cruel test.

Unknowingly, Yue Feng wandered in the valley for three days. During these three days, Yue Feng found Duan Yu's body. When he found it, Duan Yu had already changed beyond recognition, and had been corroded by the poisonous mist.

The Kaitian Axe was not seen either, and it was estimated that it was taken away by the beast.

Yue Feng didn't care about this. He just wanted to get out of here and find the giant python that swallowed the dragon ball. However, the Valley of Death was too big, there were countless beasts, and there were also countless giant pythons. If he wanted to find it, he would be looking for a needle in a haystack.

Perhaps because of the environment and the poisonous fog, the speed at which Yue Feng's internal strength recovered was very slow.

At first, Yue Feng was very anxious, but slowly, he got used to this state.

Time flies, time flies.

Three years passed in a flash.

In the past three years, the Kyushu continent has regained its tranquility, the people live and work in peace and contentment, and the Rakshasa people have settled in the border area of Kyushu through peace talks and live in peace with the Kyushu continent.

Under this background, many forces in the Kyushu continent, after stable development, began to gradually explore the wild and mysterious realm. For a time, a special occupation different from the sect appeared, such as mercenary groups, bounty hunters, and various Expeditions, etc.

....

Death Valley, in a dense forest in the southwest.

In a simple thatched hut, Yue Feng sat there cross-legged, opened his eyes slowly, and exhaled a suffocating breath at the same time.

In the past three years, Yue Feng has fully recovered his strength very early, but he has not left because of the search for Dragon Balls. Moreover, when he was just trapped here for three months, Yue Feng encountered a Rakshasa warrior who broke in by mistake. Knowing that the Rakshasa clan and the Kyushu continent had negotiated peace, and the war was completely stopped, Yue Feng's worries were completely put down.

Of course, in the past three years, Yue Feng has almost understood the environment of Death Valley.

It's time to go back.

At this moment, Yue Feng walked out of the hut, looked at the sky in the distance, and muttered in his heart.

During this time, Yue Feng tried to find the giant python that devoured the dragon ball again, but still found nothing. Yue Feng knew that he couldn't stay any longer.

Dragon Ball is important, but it's not as important as family reunion.

After making up his mind, Yue Feng left the hut and walked towards the exit of Death Valley.

Swish...

Not long after walking, I heard footsteps, Yue Feng frowned, looked up, and was stunned for a moment.

I saw more than a dozen people, walking cautiously towards the depths of Death Valley. These people were all wearing camping equipment, and they were not low in strength.

One of the women, twenty-five or six-year-old, was wearing a red fur coat, which set off her sexy figure, yet she was wild and beautiful.

Yue Feng couldn't help taking a few glances, feeling a little surprised at the strength of the woman.

It turned out to be a piece of Martial Emperor strength.

During the three years that he was away, has the cultivation world in the Kyushu continent developed so rapidly? A girl in her twenties has actually reached the strength of a Martial Emperor?

At this time, the other party also discovered Yue Feng, and all of them gathered around at once.

"Rakshasa people?"

"Made, why do you look like savages?"

These people were arguing with Yue Feng, with contempt and disgust on their faces.

Only the leading woman looked at Yue Feng curiously.

Listening to their words, Yue Feng was a little unhappy, but when he saw his clothes, he couldn't help laughing. After staying in Death Valley for more than three years, his

clothes had long been corroded by the poisonous mist, so Yue Feng simply did it. He wore a set of animal skin clothes, and there were three scars on his face, which were once scratched by a fierce tiger. At first glance, he really looked like a savage.

## Chapter 2474

“Hello!”

Finally, the leading woman asked Yue Feng, “Who are you?” The

woman’s name is Hua Ling, the captain of the Bloodthorn mercenary team. , everything has returned to calm, and the mainland cooperates with the above to promote development together, and with the development, many people’s eyes are aimed at the vast and boundless wild and strange realm.

Speaking of which, the environment in the wild and strange realm is harsh and almost inaccessible. Back then, only the Rakshasa tribe could survive in such a place, but in the end, they still tried every means to climb over the Chaos Mountains and return to the Kyushu Continent, which shows that the environment here is harsh.

But then again, the harsh environment has also created incomparably rich resources. More importantly, there are countless types of beasts inhabiting the wild and strange areas, and many beasts are descendants of some wild beasts, such as the three-headed blood python. , Xuanming Black Tiger and so on.

Because of environmental factors, the beasts here are much more powerful than the spirit beasts in the Kyushu continent, and the inner core in the body is also the most pure.

As we all know, the spirit beast inner pill can improve the strength of the practitioner, and even if it is not used, it can be sold at high prices in the auction house or the black market.

Therefore, under such circumstances, many practitioners from various continents have formed various organizations, ventured into the wild and strange realm, hunted wild beasts, and obtained inner pills, either taking them by themselves to improve their strength, or selling them to the black market. , to make huge profits.

The Bloodstab mercenary team formed by Hua Ling is such an organization.

“Me?”

Facing Hua Ling’s question, Yue Feng scratched his head and smiled slightly: “I am from the mainland of Kyushu and came here to hunt.”

When he said this, Yue Feng deliberately hid his strength. I have a special identity, so it is better not to be known.

hunt?

Hearing this, the team members behind Hua Ling couldn't help laughing.

"Looking at your outfit, it's almost as good as food for the beasts here." "

Haha... anyone dares to come here to hunt. I

don't know whether to live or die."

Individuals have ridiculed and ridiculed them successively, and they are all contemptuous of Yue Feng. It is no wonder that in the recent period of time, there have been too many expeditions from the Kyushu Continent to the wild and strange realm. In addition to some mercenary organizations and expeditions, there are many unique people. Those who come and go all want to come and get benefits.

And Yue Feng, who was in front of him, was dressed in rubbish.

Yue Feng didn't take the crowd's discussion to heart, smiled and said nothing. Then, Yue Feng said to Hua Ling, "If you want to explore Death Valley, you'd better be careful. These two days are the period when

the black sand python is active."

Gu's environment is already well understood. The black sand python is the black giant python that Yue Feng encountered when he first came. cultivators can provoke.

fool.

As soon as he finished speaking, a man with a black scarf on his neck walked out and sneered at Yue Feng: "Hey, tell you, we are here to hunt black sand pythons, if it wasn't for their active period, we would not Come here." His tone was cold and arrogant, with a lofty attitude.

The man's name is Liu Hua, he is the vice-captain of the Bloodthorn mercenary team, and he has the strength of the Fourth Martial Saint.

Seeing his arrogant look, Yue Feng was too lazy to have a regular meeting.

Hua Ling couldn't stand it any longer and frowned, "Liu Hua, say a few words." After speaking

, Hua Ling looked up and down at Yue Feng: "Listen to you, are you familiar with the environment here?"

Yue Feng nodded.

"Then... can you be our guide? We are very short of a guide right now." Hua Ling came over with a little bit of anticipation in her eyes.

Speaking of which, the Bloodthorn Mercenary Team was the first time to come to the Wilderness and Strange Realm, intending to kill some beasts, obtain the inner core, improve their own strength, and make some money at the same time.

As the captain, Hua Ling is a little arrogant, but she understands that she is not familiar with the environment and faces too many unknown dangers. At this time, she wants to let Yue Feng block the guide.

Yue Feng hesitated.

Chapter 2475 I am

about to return to the Kyushu mainland, how can I be a guide for you.

Seeing that he hesitated, Hua Ling hurriedly said: "Don't worry, as long as you show us the way, I will give you a commission when we kill the black sand python."

Seeing her sincere expression, Yue Feng couldn't bear to refuse, so he ordered it Nodding: "Okay."

"Captain!"

However, as soon as he finished speaking, Liu Hua couldn't help shouting: "This person looks like a waste, what way can he lead? I'm afraid he hasn't found the black sand python yet, It disappeared without a trace."

The other team members around also nodded in agreement.

"That's right, look at his outfit, how can he help?"

"Let's investigate it ourselves."

Hua Ling frowned, very displeased, and scolded: "Are you the captain, or am I the captain? I have already decided. Now, shut up."

Seeing Hua Ling's anger, everyone in Liu Hua didn't say anything, but looking at Yue Feng's eyes, there was still disdain.

A few minutes later, under the leadership of Yue Feng, a group of people slowly marched towards the depths of Death Valley.

For the first time in such a harsh environment, Hua Ling and others were both novel and apprehensive.

“Hey, I still don’t know your name.” Hua Ling followed, walking side by side with Yue Feng, and couldn’t help asking.

“Fengtao!”

Yue Feng thought for a while, and said lightly, this fake name was used to it before, and Yue Feng said it almost without thinking.

To be honest, Yue Feng wanted to reveal his true identity, but he held back when he saw how he was dressed. The person who was famous in Kyushu back then is now like a beggar, what a shame.

As he spoke, he arrived at the area shrouded in poisonous fog.

Yue Feng hurriedly stopped, and at the same time reminded Hua Ling and the others that Yue Feng could withstand these poisonous mists, but the blood stabbing mercenary team generally had the strength of Wu Sheng, and they would die if they breathed it.

In the next second, Yue Feng was about to open his mouth to remind him, but when he saw the movements of Hua Ling and others, he was stunned.

Seeing Hua Ling and others, they all took out their special anti-virus helmets from their backpacks and put them on.

Haha..

Seeing this scene, Yue Feng couldn’t help laughing. Unexpectedly, in the three years he was away, the technological development of the Kyushu Continent had been closely integrated with cultivation. Yue Feng sensed that these helmets were used for Made of special materials, it is no problem to resist these poisonous mists.

Of course, the poisonous mist is corrosive, and despite the helmet, it can’t stay for too long.

At this time, Hua Ling took out a helmet and handed it to Yue Feng: “Put this on.”

In Hua Ling’s eyes, Yue Feng’s strength is not comparable to their weakest team member, but she doesn’t know , Yue Feng’s strength does not need a helmet at all.

Yue Feng took the helmet and put it on without hesitation.

Hiss...

At this time, I heard a strange sound from the woods ahead, and then, a black shark dream appeared in front of everyone.

This black sand python is thicker than the mouth of the bowl, and it is the realm of the fifth stage of the Martial Saint.

Hua Ling's eyes lit up and she immediately drew out her long sword.

"Don't act rashly." Yue Feng couldn't help but said, his eyes flashing with dignity.

Yue Feng knew that there was more than one black sand python inhabiting the nest of a black sand python in this area. You must know that black sand pythons have different habits from other giant pythons, and they live in groups.

At this time, there is one, which represents its companion, which is nearby.

## **The ultimate husband in Chinese chapter 2476-2480**

### Chapter 2476

Hua Ling's eyes flickered, resisting the urge to shoot.

However, Liu Hua next to him couldn't bear it any longer.

"Captain, this bastard doesn't understand anything, why do you listen to him?" After shouting, Liu Hua held a long knife tightly and rushed forward.

The few players around him glanced at each other and followed closely behind.

In their eyes, the black sand python is a middle-class spirit beast, and the inner alchemy is the dream of practitioners, and it is also very popular on the black market.

The purpose of their coming is to kill the black sand python. Now that they have finally come across one, how can they miss the opportunity?

What a bunch of idiots.

Yue Feng's expression changed, and he couldn't help but cursed in his heart, and then shouted at Hua Ling: "Quickly let your people be alert to the surroundings, Heisha pythons live in groups, not only one will come out, it also has companions. "

What?

Hearing this, Hua Ling's delicate body trembled. She only knew that the black sand python's inner alchemy was very cost-effective, and she didn't understand its habits at all.

"Everyone pay attention to your surroundings." Hua Ling couldn't help shouting, but it was too late.

sizzle!

Just as Liu Hua and a few team members were besieging the black sand python, they heard a frightening hissing sound from around the woods again, and then four or five black sand pythons swam over quickly.

Seeing this scene, Hua Ling stomped her feet in a hurry, rushed up, and at the same time did not forget to shout at Yue Feng: "Fengtao, you hide aside, be careful."

Hearing this, Yue Feng smiled . , I can't see that this Hua Ling is quite kind. In this case, she did not forget to worry about the safety of others.

This chapter is provided by . Visit [for](#) daily update.

Thinking to himself, Yue Feng responded, and then pretended to be afraid and hid behind a tree.

Speaking of which, at that moment, Yue Feng thought about helping out, but after thinking about it, he held back. These young people act too impulsive one by one, so let them sharpen them.

Facing five or six black sand pythons, Hua Ling and the others were able to cooperate with each other at first, but gradually, they couldn't bear it anymore. After all, these black sand pythons were too fast, especially the power of their tails.

Swish swish...

Seeing Hua Ling and others in danger, Yue Feng did not hesitate, picked up some small stones from the ground, turned with internal force, and flexed his fingers, and saw a few small stones whizzing out like bullets.

The next second, these small stones were impartial, and they were three inches above the heads of these black sand pythons. The black sand pythons were different from other snakes. The weaknesses of other snakes were all seven inches from the body, while the flaws of the black sand pythons, is on the top of the head.

Yue Feng shot quietly, Hua Ling and others did not see it.

The weak point was injured, and within a few days, the black sand python was successfully killed by Hua Ling and others.

Haha...

At this moment, when the inner alchemy was taken out, the entire Bloodstab mercenary team cheered.

“Fengtao!” Hua Ling walked over excitedly, her beautiful face was full of excitement, she said to Yue Feng: “As you say it, you brought us to the black sand python, this inner elixir is for you, as a reward.” As

he spoke, he was about to hand over an inner alchemy.

However, at this moment, Liu Hua suddenly stood in front of her and shouted: “Captain, why do you want to give him the inner alchemy? When we dealt with the black sand python just now, this kid was so frightened that he hid to the side, with no strength at all. If you don’t show up, how can you be entitled to get paid?” The

voice fell, and the other members nodded, looking at Yue Feng’s eyes with disgust.

“That’s right, we got it so hard, why should we give it to him?”

“Yes, and we came across these black sand pythons, he didn’t bring us to find them at all.”

“Captain, such a waste, It’s useless, just blow it away.”

Hearing these people’s words, Yue Feng was a little angry, Nima, if I hadn’t helped me secretly, all of you have been swallowed by the black sand python now, but I still hold back.

Hua Ling was very determined, looked around and shouted: “Don’t talk about it, let’s talk, and Feng Tao reminded me just now.” After speaking

, Hua Ling put the inner pill in Yue Feng’s hand.

## Chapter 2477

Yue Feng was not polite and put it away directly. In fact, Yue Feng didn’t care about the inner core of a black sand python, but if he didn’t accept it, he would be suspected. After all, he said he was hunting.

Seeing this scene, Liu Hua and others were all indignant, but they didn’t say anything anymore.

“Fengtao!” At this moment, Hua Ling looked at the depths shrouded in the poisonous mist in front of her, and said to Yue Feng, “Are there still many black sand python’s nests inside? Wait for you

to continue to lead the way, okay?”

Killing a few black sand pythons was far from Hua Ling’s goal.

What?

Yue Feng was stunned for a moment, not knowing whether to laugh or cry. This Hua Ling is really not afraid of death. The more you go into this Death Valley, the more dangerous it is. There are not only black sand pythons, but also other powerful beasts. no.

Thinking to himself, Yue Feng smiled and said: “Yes, but we have to discuss the reward again. No matter how many beasts you kill, the inner alchemy will give me 30%, otherwise, I will not lead the way.

”, Yue Feng’s face is resolute, there is no doubt.

Yue Feng knew that if he told them the truth directly, they would definitely not listen to him, so he deliberately raised his salary so that they could retreat in spite of difficulties.

Whoa!

As soon as the words fell, Liu Hua and others exploded immediately.

“Nima, what are you talking about?”

“You want 30%? What do you think of yourself? Do you really think we can’t do without you?”

“Captain, this is an insatiable greedy person. It’s because you are so good to him that he actually The lion opened his mouth.”

Hua Ling was also very angry, and said to Yue Feng: “Fengtao, 30% is too much, let’s discuss it.”

“No!” Yue Feng shook his head, very determined.

As far as Hua Ling’s people’s strength is concerned, in the edge area shrouded in the poisonous fog, it’s okay to kill wild beasts casually, but if they go deep, they can’t hold it back at all.

“You...”

Hua Ling got angry and stomped her feet: "Okay, I really saw the wrong person. If you don't want to be a guide, we can also find the black sand python." This person is so hateful, I thought he was a To be honest, I didn't expect to be so greedy.

Saying that, Hua Ling waved her hand: "Let's go."

Liu Hua and the others glared at Yue Feng and walked towards the depths of the poisonous mist with Hua Ling.

What the fuck?

Seeing this scene, Yue Feng frowned and couldn't help saying: "I advise you not to go, you will regret it without me."

Hahaha...

Hearing this, Liu Hua and others couldn't bear it. She burst out laughing, and then sneered.

"This piece of trash can't get any benefit from us, so be anxious."

"Mad, if you don't follow, we'll regret it? Just a joke..."

"Don't pay attention to him."

Seeing them all unmoved, Yue Feng sighed and had to follow slowly.

To tell the truth, if ten years ago, Yue Feng would have been too lazy to take care of these murderers, but now, Yue Feng really can't bear to watch them go to death.

At this time, seeing Yue Feng following, Hua Ling's face was full of frost, and she said tenderly, "Don't follow us, get out of here."

This man, he treats him well, but he opens his mouth like a lion, the more he sees it. more annoying.

Yue Feng smiled bitterly and was about to respond when he frowned when he saw Hua Ling behind everyone.

Chapter 2478

Seeing the change in Yue Feng's expression, everyone in Hua Ling quickly turned around, and all of them were shocked.

I saw that another expedition, with a total of fifteen or six people, was slowly approaching, and each of them was not low in strength. The weakest was also the fifth-rank Martial Saint, and the strongest was the second-rank Martial Emperor.

Moreover, these people are also fully armed, and even wear anti-gas helmets, which are more advanced than Hua Ling's.

"Tsk tsk."

When they got to the front, the bald-headed group of people looked at Liu Hua and the others, and finally their eyes fell on Hua Ling. The accomplices around also looked straight.

After the fierce battle before, Hua Ling still had beads of sweat on her forehead, and with her beautiful face, she was indescribably charming, and the red leather jacket that set off the perfect curve was looming.

"I didn't expect to meet such a beautiful woman in such a bad place." The bald head looked at Hua Ling and said with a smile.

The voice fell, and the companions behind him all laughed evilly.

The bald-headed Wang Qiang is the head of the Snow Wolf Expedition Group. The expedition group is actually a group of robbers. Recently, various forces have prospered to explore the wild and strange areas. Wang Qiang also took his hands to try his luck, but no beasts were found. I met people like Hua Ling.

Swish!

Being stared at by Wang Qiang like this, Hua Ling felt uncomfortable, but she didn't get angry. She was the captain of the Bloodstab mercenary team, and her strength was only a Martial Emperor, and many of these bald people were in the Martial Emperor realm. , especially this bald head, the strength has reached the third stage of Martial Emperor, really fighting, not an opponent.

"Big brother!"

At this time, Liu Hua squeezed out a smile and flattered Wang Qiang: "Since fighting is all about exploring and hunting beasts, we should take care of each other..."

At this time, Liu Hua was flattering and flattering, and completely lost the arrogant attitude he had towards Yue Feng before.

Just before he finished speaking, he was interrupted by one of Wang Qiang's subordinates.

“Whose special code is your eldest brother?” A strong man walked over with a fierce face, slapped Liu Hua without warning, and slapped Liu Hua on the face: “Don’t get close to us.”

Slap!

With a crisp sound, Liu Hua snorted, and the whole person was beaten around in a circle, and finally sat on the ground with his buttocks.

Liu Hua covered his face and wanted to cry without tears.

Nima, who did you provoke? Can you be beaten for talking?

This is, Wang Qiang looked around, his eyes swept over Hua Ling and others, and sneered: “Look at your appearance, you have just experienced the battle, what kind of beasts did you kill?” The

voice fell, and the big man beside him followed. Shouted: “If you get the inner alchemy, call it out quickly, otherwise don’t blame us for being rude.”

This gang of robbers.

Hua Ling and a few team members looked at each other, and they were all angry. She had just killed a few black sand pythons with great effort. Why should the inner alchemy be given to them?

Thinking to himself, a Bloodthorn team member cautiously opened his mouth and said, “Brothers, how can we kill beasts, we just came in out of curiosity to have a look. We did encounter some black sand pythons just now, but we couldn’t beat them. No, just now. Run here.”

Hua Ling and the others quickly nodded in agreement.

Wang Qiang frowned and was suspicious.

“Several big brothers.”

At this moment, Liu Hua raised his finger and pointed at Yue Feng: “This guy is familiar with this area and knows where to find the black sand python.”

When he said this, Liu Hua’s eyes flickered with cunning. He knew that Wang Qiang and the others would not get any benefit and would not easily let them go. It would be better to turn their attention to Yue Feng. Hua Ling and a few, it is also easy to get away.

What the fuck?

Yue Feng was stunned for a moment, and couldn't help but glance at Liu Hua, a little angry, Nima, why did he turn the topic to himself all of a sudden? This kid is very insidious. He wants to use me as a shield?

Chapter 2479

Swish!

At this moment, the eyes of Wang Qiang and the others converged on Yue Feng.

In the next second, Wang Qiang walked over and looked at Yue Feng up and down: "Do you know where to find the black sand python?" Mad, this kid is dressed in animal skin and has a scar on his face. long time.

At this moment, Yue Feng's mind quickly turned, and then he smiled: "I know." To

be honest, Wang Qiang's group, in the eyes of others, are very powerful and can't be provoked, but they are not a threat to Yue Feng at all, but in order not to After revealing his identity, Yue Feng restrained the urge to take action.

"Very good!"

Wang Qiang showed a smile and said coldly: "Hurry up and take us there."

Then, he pointed at Hua Ling: "This beauty, let's go too. Don't try to refuse, I don't have a good temper. , annoyed me and killed all of you. I didn't scare you, you'd better not offend me."

Feeling Wang Qiang's ferocity, Hua Ling's tender body trembled, she was very panicked, and she didn't dare to refuse.

Yue Feng said with a smile: "Yes, let the beautiful women follow, it will be pleasing to the eyes."

Haha... Let you not listen to the advice before, but now you are being targeted by the bad guys, let's see if you have a long memory.

"You!"

Hua Ling glared at Yue Feng, she was so angry that this bastard, just because she had just rejected his request for compensation, is now schadenfreude, knowing that she should not have asked him to be a guide in the first place.

At this time, Hua Ling didn't know that Yue Feng did that for their safety.

"go!"

This is, Wang Qiang was too lazy to talk nonsense, ordered his subordinates to blast several Liu Hua away, and then forced Yue Feng and Hua Ling to walk towards the woods ahead.

At this moment, Liu Hua and the other team members stood there, crying and grimacing. They wanted to rush over and rescue Hua Ling, but they didn't have the courage.

On the other side, under the guidance of Yue Feng, Wang Qiang and the others walked towards a special area in Death Valley, the Lost Forest and Flower Sea.

Along the way, because of anger, Hua Ling didn't even look at Yue Feng, her face was pretty and charming.

Yue Feng didn't take it to heart.

Half an hour later, when she arrived at the place, Hua Ling's delicate body trembled when she saw the scene in front of her, and she was stunned.

I saw that there was a huge sea of flowers in front of me, surrounded by mist, sparse shrubs, dotted among them, clusters of flowers competing for beauty, completely a sea of flowers, just like a paradise.

Hua Ling was stunned for a moment, and couldn't help but muttered: "It's so beautiful." I thought that the wild and strange realm was a harsh environment like hell, but I never thought that there is such a beautiful place.

Wang Qiang and others next to him were also dumbfounded.

Yue Feng stood aside with a deep smile on his lips.

The 'Lost Forest and Flower Sea' in front of you seems to have beautiful scenery, but it is also the most dangerous place in Death Valley. The exotic flowers and plants here look beautiful, but they are actually highly poisonous. Comatose odors, these odors can cause hallucinations.

The mist shrouded in the surroundings was formed by the convergence of these hallucinogenic smells.

"Come into my arms."

At this time, Yue Feng silently used his internal force to form an invisible protective gas shield around his body, and then whispered to Hua Ling. This hood can keep out those hallucinogenic mists. Yue Feng brought everyone here because he wanted to use these hallucinatory mists to deal with Wang Qiang and others, and naturally he didn't want Hua Ling to be recruited.

Swish!

Hearing this, Hua Ling's face flushed, she was embarrassed and angry, she glared at Yue Feng: "Despicable and shameless, get out!"

This bastard is not only greedy for money, but also lustful. He wants to take advantage of himself, which is really hateful.

Chapter 2480

When she said this, Hua Ling couldn't hide her contempt and distanced herself from Yue Feng.

At this time, Hua Ling only felt that the person in front of her was getting more and more disgusting.

However, while pulling the distance, Hua Ling accidentally inhaled the mist.

broken!

Seeing this scene, Yue Feng was speechless, alas, he wanted to protect her by letting her hide in his arms, but in the end, he was kind-hearted as a donkey's liver and lungs.

"Boy!"

At this moment, Wang Qiang and others finished admiring the beautiful scenery, and they reacted and shouted angrily at Yue Feng.

"Where's the black sand python?"

"Made, you won't play with us, right?"

"This kind of place is so clear at a glance, how could there be a black sand python's lair?"

While questioning, Wang Qiang and the others slowly surrounded Yue Feng. come over.

While paying attention to Hua Ling's situation, Yue Feng squeezed out a smile and looked very panicked: "Brothers, I really didn't lie to you, this is the lair of the black sand python."

"The black sand python is very cunning, It's hidden in these bushes, by the way, have you seen the fog? Where the fog is thick, it proves that there is a black sand python lurking."

Hearing this, Wang Qiang and others did not doubt, they all pulled out their weapons and turned towards the fog. The rich place rushed over, one by one couldn't wait.

"Haha, I must hunt and kill today."

"Boss, when we get the Black Sand Python Inner Pill, let's take a break and play with that beauty..."

"Haha, that's exactly what I mean."

Saying unbearable words, Wang Qiang and others also entered the depths of the fog, that is, at that moment, they all inhaled the fog, dizzy, and their eyes were instantly congested.

Immediately afterwards, Wang Qiang's group, like crazy, clenched their weapons and began to kill each other.

"Heisha Python, I saw Heisha Python, haha, go to hell..."

"Huh? Dare to grab the inner alchemy with me? Looking for death..."

"The inner alchemy is mine..." I

have to say, the hallucinogenic effect in these mists is too strong, Wang Qiang and others are getting more and more crazy, and their shots are getting more and more ruthless.

For a while, roars kept coming, blood was flying, and screams kept coming.

Seeing this scene, Yue Feng's face was expressionless, but his heart was secretly frightened.

To be honest, these scumbags die when they die, and they don't feel a pity at all, but seeing them killing each other, such a tragic scene, is still moving.

This...

Seeing this scene, Hua Ling's delicate body trembled, and she was indescribably shocked.

What's the situation? Are they not their own? Why did it start suddenly? And it's so ruthless.

At this time, Hua Ling's brain was still somewhat awake because she inhaled less mist.  
call.

Seeing her look of astonishment, Yue Feng took a deep breath, his eyes flickered, and slowly said: "There are no black sand pythons here. I brought them here to use the mist to deal with them."

"This mist is poisonous, and It has a hallucinogenic effect, and the more people inhale it, the more people will lose their minds and lose their minds completely."

Hearing this, Hua Ling was stunned, staring blankly at Yue Feng, speechless.

This person seems to be ordinary, but he knows so much, but he is not strong, it is impossible for him to explore such a dangerous place by himself. How does he know this?
