Chapter 3291

Hehe...

Earl Howe enjoyed the feeling of being sought after, showing a smile, and said slowly: "Okay, since everyone is so enthusiastic, then I will show my shame once." After

speaking, he rushed. The man behind him waved his hand and asked them to prepare the necessary utensils.

After a while, the alchemy table was ready.

Yue Feng saw that the alchemy platform in front of him was similar to the military forging platform in the Kyushu mainland. It was almost the same. In the Yellow Sea Continent's Famous Sword Villa, Yue Feng had been to the Forging Sword Valley, and the forging platform there was similar to the one in front of him. .

Seeing this, Yue Feng couldn't help but muttered: "This is to cast weapons on the spot?" The

voice fell, and Lolita next to him couldn't help but whisper: "It should be, we Roland Continent, alchemists are very rare, listen to It is very rare to say that this Earl Howell is not only a high-ranking man, but also has a unique accomplishment in alchemy!"

When he said this, Lolita's tone was calm, but there was a bit of admiration in her eyes.

Yue Feng nodded, stopped talking, and quietly looked at the alchemy platform.

At this time, Haowei stood on the alchemy platform, looked around, and said with a smile: "During this time, I have a new understanding of smelting the great sword, so I will make a great sword on the spot." The

voice fell, Howe picked out several metal materials and began to smelt and forge. It can be seen that every step is very smooth, and the movements are more smooth.

Phew...

Seeing this scene, everyone present couldn't help but admire.

"So skilled, His Excellency the Earl is really amazing!"

"It's really eye-opening..."

This chapter is provided by . Visit for daily update.

During the discussion, the eyes of many girls also flickered with admiration.

The discussions of the surrounding people did not affect Earl Howey. Soon, after the metal was melted, it was poured into the embryo mold to form the original sword embryo.

Immediately afterwards, Earl Howey began to forge and strike the sword embryo.

Seeing this, Yue Feng couldn't help but nodded secretly.

This Earl of Howe really knows the art of forging, but it is not as good as the Famous Sword Villa in the Kyushu Continent.

Chi Chi...

At this moment, Earl Howey forged dozens of times and put the sword embryo into water for cooling treatment. With a burst of smoke rising, I saw that the great sword was already formed.

At this time, Earl Howey began to sharpen the blade. After just ten minutes, after installing the hilt, a great sword with a flickering cold light appeared in front of everyone.

Whoa!

At this moment, everyone present was extremely excited and exclaimed in amazement.

"What a great sword!"

"Your Excellency the Count's alchemy has really improved a lot. I admire it."

In admiration, everyone stared at the big sword, almost unable to look away.

At the same time, Lolita, who had been in no mood for a while, couldn't help but praise her: "It is said that Earl Howie's alchemy is very outstanding. When I see it today, it really lives up to its reputation!" As

she spoke, Lolita tilted her head. Directed at Yue Feng: "What do you think?"

Huh!

Yue Feng breathed a sigh of relief and said lightly, "Let's be so-so, it's okay!" When he said this, Yue Feng glanced at the great sword in Earl Howey's hand with a calm expression.

It's no wonder that Yue Feng doesn't like it. In the Kyushu continent, weapons are divided into seven levels of red, orange, yellow, green, blue, blue, and purple.

On Yue Feng, Fang Tianhuaji, who was comparable to a divine weapon, naturally wouldn't put a big sword in his eyes.

Yue Feng's voice was not loud, but many people around him heard it.

Swish!

At this moment, dozens of pairs of eyes converged on Yue Feng, and they were both shocked and irritated.

This door-to-door son-in-law actually said that the great sword smelted by the earl was like a great sword?

Chapter 3292

"Alas!"

Finally, Matsuda was the first to react and mocked Yue Feng: "What right do you have to comment on the great sword of Your Excellency Count, do you know alchemy? I'm afraid it's the first time I've seen the alchemy platform. Right?" As soon as

the voice fell, everyone around him also laughed.

"That's right, a son-in-law who comes to the door is really shameless!"

"I don't know and pretend to understand, this guy has a problem with his brain!"

"No? Otherwise, he wouldn't spend 10,000 gold coins to buy a useless jade piece."

Everyone The ridicule, you sent me a sentence, and Lolita was so anxious that she pulled Yue Feng's arm: "Don't talk nonsense!"

This Yue Feng is really unruly, and he judged Earl Howey indiscriminately. The great sword that has just been smelted.

Yue Feng smiled and signaled to Lolita not to be nervous.

"Interesting!"

At this time, Earl Howey looked closely at Yue Feng and couldn't help laughing: "Your name is Yue Feng, right? You said just now that the great sword I just smelted is just like that, why? You know it too. Alchemy?"

When he said this, Earl Howey's expression was indifferent, but his heart was a little angry.

A door-to-door son-in-law dares to question his own alchemy, he really knows nothing.

Yue Feng smiled lightly: "I understand a little bit!"

After saying that, Yue Feng pointed at the big sword and continued: "Your Excellency the alchemy skills of the Count are decent, but he still lacks some experience, this big sword is flashy, just a decoration. The quality is alright, but if you use it in actual combat, I'm afraid it's useless!"

Yue Feng said it right, compared with the weapons of the Kyushu mainland, this great sword is mediocre.

Whoa!

Hearing this, there was another uproar around.

Matsuda couldn't help shouting: "Yue Feng, is your brain sick? It's your turn to comment on the great sword of Your Excellency the Earl, so don't pretend to understand!"

"Listening to what you said, you really have a lot of research on alchemy, so let's smelt a sword on the spot and let everyone see your alchemy."

When he said this, Earl Howey endured it. anger.

This guy, dare to despise his alchemy so much, don't give him some color, what kind of prestige will he have in the future?

At this moment, everyone's eyes focused on Yue Feng.

Dare to question the count's alchemy, this son-in-law will be out of luck.

Everyone present at this time thought that Yue Feng did not dare to agree. After all, he was just a door-to-door son-in-law, so what kind of alchemy did he know?

Lolita was also in a hurry, and hurriedly said to Earl Howey: "Your Excellency, I'm really sorry, Yue Feng is just talking nonsense, he..."

Seriously, Lolita knows that Yue Feng is not an ordinary person, he His medical skills are indeed miraculous, but alchemy, not everyone can do it.

Just before he finished speaking, he was interrupted by Yue Feng!

"Okay!" Yue Feng showed a smile and said to Earl Howell, "Then I'll give it a try!"

When he was in Famous Sword Villa before, Yue Feng had seen the Ye family's skillful craftsmanship, how to forge swords , Moreover, Yue Feng is a famous alchemist in the Kyushu mainland. You must know that refining medicine pills and casting weapons have the same effect.

Under this kind of looting, Yue Feng forged a sword, which was a piece of cake.

What?

At this moment, everyone around was stunned.

This door-to-door son-in-law actually agreed?

“Haha...”

At this moment, Matsuda laughed loudly, looking at Yue Feng's eyes, full of sarcasm: “Interesting, a son-in-law who comes to the door dares to compare alchemy with His Excellency the Earl, I really don't know where your confidence comes from!”

Said, Matsuda did not forget to compliment Earl Howie: “Your Excellency, this kid has a problem with his brain, just shoot it out!”

In Matsuda's heart, he did not think that Yue Feng could smelt swords, and the reason why he had to smelt in public was just because Just grandstanding.

Chapter 3293

How can such a clown be qualified to stay here?

Swish!

At this moment, the eyes of everyone around also fell on Earl Howey, waiting for his response.

Earl Howey waved his hand, not listening to Matsuda's advice. The next second, Earl

Howey looked at Yue Feng quietly, and said with a chuckle: “Very well, I don't see that you are quite courageous, so I will give you a chance.”

Turning around, he continued: “As long as you can also develop a great sword, and it is better than mine, you will be my honored guest in the future, but if you can't smelt it, then you Dumen family, you are not allowed to step into the Pearl City in the future! “

When he finished the last sentence, Earl Howey had a smile on his face, but his eyes flashed coldly.

“Okay!” Yue Feng nodded without thinking.

When the words fell, Yue Feng breathed a sigh of relief and walked slowly to the alchemy platform!

Subsequently, Yue Feng began to carefully select smelting metals and materials.

Haha...

Seeing his serious look, many people onlookers couldn't help but chuckle.

Obviously don't understand, but also pretend to be the same.

At this moment, Matsuda was also full of sneer, and couldn't help but said to Yue Feng: “The alchemy materials of Your Excellency Count have been carefully selected, you choose slowly, don't be blinded!”

Yue Feng Ignore it and continue to select materials.

Yue Feng knows that casting weapons, like alchemy, requires precise proportions of materials. Not only that, but also the need to control the heat, each of which is essential.

And Earl Howey, who was standing there, saw Yue Feng's serious face, and couldn't help frowning secretly.

Earl Howey saw that every material Yue Feng selected was very serious.

Could it be... This door-to-door son-in-law really knows alchemy?

But... several of the materials he selected are rare metals. These metals are very hard, can they be fused together?

At this moment, Songtian pointed at Yue Feng and shouted again: “I don't think he understands anything. To build a big sword, even adding so many rare metals, the sword embryo cannot be formed, it is a complete waste of materials! “

Although Matsuda does not understand alchemy, he has seen many alchemists smelting weapons.

At this time, Yue Feng was completely foolish in his eyes.

The voice fell, and many people around also nodded!

“Yes, I don't understand at first glance!”

“It's completely messed up!”

“Oh, what a waste of time and materials.” When

everyone’s comments came, Lolita was also nervous, and her heart was about to jump out. .

He really knows alchemy, but he’s still fooling around.

If he really wants to lose, the entire Dumen family will be implicated by him, and they will not be able to come to Pearl City in the future.

Under the strange eyes and discussions of the people around, Yue Feng was not affected at all. After selecting the materials, he began to smelt and then poured into the mold.

After a while, a perfect sword embryo was taken out by Yue Feng.

What?

Seeing this scene, both Earl Howey and the people around them all widened their eyes.

The selection of materials was messed up just now, but in the end, the sword embryo was successfully smelted?

Good luck at this time, Meng, right?

Just when everyone was extremely surprised, they saw Yue Feng brandishing the hammer and starting to forge the sword embryo. You must know that forging is the most critical part of casting weapons.

Chapter 3294

At this time, Earl Howey’s eyes gradually became solemn!

He clearly saw that although Yue Feng Forging’s action of hitting the sword embryo was not particularly professional, the impact of the hammer was accurate and the strength was just right!

Unknowingly, Yue Fengduan struck the sword embryo dozens of times, and at this moment, beads of sweat appeared on his forehead.

call!

Finally, Yue Feng stopped and smiled at Earl Howey: “Your Excellency, can you ask your people to help me get some soil.”

Mud?

Hearing this, Earl Howe was stunned: "What do you want soil for?"

When he said this, Earl Howe couldn't help but look at the sword embryo in Yue Feng's hand, which had already been forged for dozens of times. After many times, only the last step of quenching is left, but he actually wants soil? It's really mind blowing!

Yue Feng smiled mysteriously: "Wait for Your Excellency the Earl to find out!"

At this time, Songtian next to him couldn't help but sneer: "Okay, don't pretend, you still need soil to smelt a big sword, do you think playing the family? "

Yue Feng ignored it!

At this time, Earl Howey reacted and ordered his servants: "Go, get some dirt!"

Matsuda was a little anxious and wanted to stop, but seeing the serious look on Earl Howe's face, he held back. !

After a while, the servants brought dirt.

Yue Feng got some water, mixed the soil a few times, and put it aside.

Afterwards, Yue Feng picked up the sword embryo and began to sharpen the blade.

This....

Seeing this scene, both Earl Howey and everyone around were stunned.

At this time, the sword embryo has just cooled, and it has not been quenched in water before it starts to be sharpened? This is too random.

Also, what did he use to get people to get dirt?

Just when everyone was secretly suspicious, they saw that Yue Feng put the long sword with an edge on the fire again to burn it red, and then smeared the thin mud on the sword.

That's right, what Yue Feng used was the most miraculous technique of covering the soil and burning the blade in the Kyushu continent. With this process, the degree of the blade of the blade can be enhanced, as well as the rigidity and sharpness of the blade.

What?

However, seeing this scene, everyone around was shocked.

What the hell is this son-in-law doing?

Even smearing the sword with mud, is this considered a play? In Roland Continent, there is no such thing as covering the soil and burning the blade when smelting weapons, so they all felt that Yue Feng was making a fool of himself.

Earl Howe also had a complicated expression, but he keenly discovered that Yue Feng's smearing technique was very particular. The mud on the sword body smeared the shape of waves, which seemed to be very low-end, but it was very beautiful.

Chi Chi...

At this moment, Yue Feng smeared the mud and put the long sword in cold water to quench it. After that, Yue Feng cleaned the mud on the sword and polished it for the last time!

hiss!

At this moment, everyone looked at the long sword in Yue Feng's hand and couldn't help exclaiming.

It was seen that an exquisite long sword appeared in front of everyone, the sword body was sharp, and the blade showed a wavy texture, reflecting a colorful halo in the sunlight.

"Looks great!"

"It turns out that he used soil just now to reduce the different textures on the blade!"

"It's really beautiful!"

Listening to everyone's discussion, Lolita was also trembling, staring at Yue Feng blankly, speechless.

Unexpectedly, he really understands alchemy!

call!

Yue Feng was also secretly relieved.

I didn't expect that the first time I made a sword, the result was not bad.

At this moment, not only Matsuda was stunned, his face was incredulous.

He really succeeded in smelting out a big sword.

Chapter 3295 The

next second, Matsuda reacted and said with a sneer: "What about the appearance? It seems that it has not been used by His Excellency the Earl. I am afraid that it will break if you touch it, and it will be flashy!"

Yue Feng smiled and said nothing!

"Someone!"

At this moment, Earl Howey reacted, called for a servant, and struck the great sword he forged.

I made a bet with Yue Feng just now that as long as the sword that Yue Feng made was stronger than the one made by himself, he would be treated as a guest.

Soon, his subordinates beat the big sword over, and at the same time, Yue Feng also handed over his long sword.

call!

At this moment, the audience was silent, and all eyes were focused on the two swords.

Especially Lolita, she was so nervous that she could barely stand still. Although Yue Feng successfully smelted the sword, it might not be stronger than the great sword of Earl Howell, which is still unknown.

If they lose, the Dumen family will also be implicated.

"Hey!"

At this time, Songtian mocked and shouted at Yue Feng, "Get ready to leave Pearl City!"

Although this Yue Feng had forged a long sword, he was only lucky, and he was the same as the count. Compared with the sword, there is only a disastrous share.

Yue Feng ignored Song Tian's mockery!

Bang...

At this moment, under the signal of Earl Howey, the two servants each held two swords tightly and collided fiercely. They heard a crisp sound, and in an instant, everyone present was dumbfounded. !

I saw that the great sword smelted by Earl Howey was cut in two directly, and the fracture was smooth and flat, like a piece of tofu that was cut open.

However, the long sword smelted by Yue Feng was completely intact, and there was not even a slight crack on the blade.

quiet!

At this moment, the audience was silent, and a drop of a needle could be heard clearly.

Everyone was dumbfounded.

This... the long sword smelted by this son-in-law at the door is so sharp? With such ease, he cut off the Count's sword.

Simply incredible!

If you hadn't seen it with your own eyes, who would have believed it?

At this time, Yue Feng showed a smile, looked at Earl Howey and said, "Your Excellency, you are embarrassed. I won the bet just now!"

This...

At this time, Earl Howey looked very embarrassed.

A few seconds later, Earl Howey forced a smile, nodded and said, "Yes, Mr. Yue Feng won the bet just now. From now on, you will be my VIP!"

Hearing this, everyone around also responded. Come here, there is an uproar.

I thought that this son-in-law would make a fool of himself in public, but in the blink of an eye, he would become the distinguished guest of Earl Howey.

Especially Matsuda, who stared at Yue Feng closely at this time, his eyes were full of jealousy.

Mad, originally thought of using Earl Howey's hand to teach this guy a good lesson, but he never imagined that he really knew alchemy, and his attainments seemed to be higher than that of Earl Howey.

At this moment, Lolita only felt that her legs were softening, and she looked at Yue Feng without blinking, unable to calm down for a long time.

This Yue Feng has excellent medical skills, and at this time, he also has such high attainments in alchemy that even Earl Howe lost to him. What secrets does this man have that he does not know.

"Haha..."

At this time, Earl Howie came over with a big laugh and grabbed Yue Feng's shoulder: "Mr. Yue Feng's alchemy is really eye-opening, can you tell me what you just did? What is the name of smearing mud on the sword?"

When he said this, Earl Howey put down his arrogance, and his eyes were full of anticipation.

Although he is an earl, Howe has an almost crazy obsession with alchemy. At this time, seeing that the long sword smelted by Yue Feng is so tough and sharp, he naturally needs to ask clearly.

Yue Feng smiled slightly and said, "This is called burning the blade covered with soil."

When he said this, Yue Feng's face was indifferent, but his heart was secretly funny.

Just a piece of earth-covering and burning a blade can make this Haowei so excited. You must know that in the Kyushu mainland, the process of covering the earth and burning a blade is quite common.

The ultimate husband in Chinese chapter 3296-3300

Chapter 3296

Covering the soil and burning the blade?

Hearing this, Earl Howey was stunned.

It was the first time that I had heard of this kind of craftsmanship after being an alchemist for so many years.

Seeing his expression, Yue Feng smiled slightly, and explained the process of covering the soil and burning the blade in detail.

At this moment, Earl Howey was overjoyed and couldn't help but praise again and again: "Amazing, amazing, I really think that Mr. Yue Feng has such high attainments in alchemy." With

that, Earl Howe rushed towards the man behind him. The man ordered: "Quick, prepare the banquet immediately, I want to treat Mr. Yue Feng well!"

Earl Howey was very obsessed with alchemy. At this time, he learned a new smelting technique from Yue Feng, and he was almost overjoyed.

Soon, the banquet was ready, and Yue Feng was directly named as a guest by Earl Howey and sat in the most conspicuous position.

As Yue Feng's woman, Lolita was naturally treated specially.

call!

Seeing this scene, both Matsuda and the other guests present were envious.

At the banquet, Earl Howe kept pouring wine for Yue Feng and asked about alchemy. Yue Feng talked freely and talked about a lot of casting techniques in the Kyushu Continent, and Earl Howe was amazed again and again.

Of course, Yue Feng did not mention the continent of Kyushu, but only said that these casting techniques were all learned from an ancient book.

The banquet lasted for several hours.

After the guests left, Earl Howey deliberately left Yue Feng behind to continue discussing alchemy. It was not until the evening that he personally sent Yue Feng and Lolita out of Pearl City.

...

on the other side, the Sundial Principality.

A few days ago, Miao Ying helped Sunset City defeat the army of the Crescent Principality and kept Sunset City, but Abel, the owner of Sunset City, mistakenly thought it was the goddess of light.

Afterwards, Abel informed the king of Zuri Duchy of the news. The king was very excited and ordered Abel to take Miaoying to the royal city for an audience.

At this time, accompanied by Abel, Miaoying came to the royal city of Zuri Duchy.

When she entered the royal city, Miao Ying didn't feel any excitement in her heart when she saw the splendid building. She didn't want to come, but she thought that she had been searching for so many days by herself, and there

was no clue from Yue Feng. Perhaps with the help of the power of Zuri Principality, she could gain something, so she came here.

The knights in armor stood respectfully on both sides. On the throne in the hall, sat a middle-aged man, dressed in golden robes, with a powerful aura!

It is the king of the Sundao Principality!

Swish!

At this moment, as soon as Miao Ying appeared, the eyes of everyone in the hall converged.

beautiful!

so beautiful!

Even the king stared at Miao Ying blankly, his eyes straightened.

At this time, Miao Ying, dressed in a pure white dress, under her graceful posture, was indescribably extraordinary and refined, like a white lotus that was not stained with mud, so that she could not afford the slightest blasphemy in her life.

“Your Majesty.”

At this moment, Abel stepped forward and said respectfully: “Respected goddess of light, I have brought it here! Thanks to the help of goddess of light, Sunset City was able to defeat the army of the Crescent Principality!”

“Okay, too All right..”

The king showed a smile and nodded excitedly: “It is an honor for me to be favored by the Goddess of Light!”

After speaking, the king stepped down from the throne very excitedly, came to Miaoying, and said politely: “Dear Goddess of Light, what can I do for you?”

At the same time, many knights in the hall also bowed 90 degrees to Miao Ying.

Chapter 3297

Call!

Seeing this scene, Miao Ying bit her lip lightly and said, “Your Majesty, in fact, you have misunderstood, I am not the goddess of light! Before, I was just passing by Sunset City and saw the soldiers of the Crescent Principality, mutilating the people, so I just Ca n’t help but help!”

What?

When the voice fell, whether it was the king or Abel and others, they were all stunned!

She.. she is not the goddess of light?

“This...”

Finally, Abel was the first to react, looking at Miao Ying puzzled: “Dear Goddess, please stop joking, you killed the commander-in-chief of the Crescent Army, Eli, with one move. Ke, many people saw it at that time. Besides you, who else has such a powerful power?”

“I’m really not the goddess of light!” Miao Ying’s delicate face was very serious: “My real name is Miao Ying, What you cultivate is a power completely different from holy power, so in your eyes, it looks a bit bizarre.”

Miaoying is kind-hearted and does not want to pretend to be the goddess of light all the time, so she clarified in public at this time.

call!

At this time, the king also reacted and smiled slightly: “It turned out to be a misunderstanding, but it doesn’t matter, this beautiful lady helped us to defend the Sunset City, and is our friend of the Sunzhang Principality.”

Although a little embarrassed, the king is also a big man. Those who are saved are not angry!

Hearing this, Miao Ying breathed a sigh of relief, and then asked: “Your Majesty, I have been looking for a person named Yue Feng recently, but I have no clue. I beg your Majesty to help!” The

king pondered, his eyes flickering. Continuously, smiling: “I can promise you, but you also have to promise me a condition.”

Great!

Seeing the king’s agreement, Miao Ying was very happy, and quickly said: “What conditions does Your Majesty have?”

“

The king laughed: “My condition is very simple. I want you to follow my army of the Sun-Driving Principality to conquer other principalities in the name of the Goddess of Light!”

When he said this, the king had a smile on his face, but a twinkle in his eyes. cunning.

For hundreds of years, the six principalities of the Roland Continent have been fighting against each other constantly. No matter which principality is the ruler, they want to unify the entire continent, and the same is true for the king of the Daily Principality.

However, the strength of the six principalities is equal, and it is too difficult to unify.

However, if there is the support of the Goddess of Light, it will be different. You must know that the entire Roland Continent believes in the Goddess of Light. At that time, as long as the Goddess of Light appears in the army, it will be easy to sweep other principalities.

What?

Want me to pretend to be the goddess of light?

At this moment, Miao Ying's delicate body trembled, and her delicate face could not hide the resistance.

The goddess of light, but the goddess of justice that this continent believes in, has a detached status, and she is just a fairy from other worlds. If you continue to pretend, it will be inappropriate.

But if he didn't agree, the king would not help him find Yue Feng.

"Beautiful Miss Miaoying!"

Seeing Miaoying's hesitation, the king smiled slightly and said slowly: "You have also seen that the six major duchies are constantly fighting, and the people have been living in dire straits. Only when the entire continent is completely unified can this be achieved. Complete tranquility, you pretended to be the goddess of light, it seems disgraceful, but you are also doing good things for the people of the whole continent."

Phew!

Hearing this, Miaoying pondered, nodded and said, "Well, I promise you!"

Haha...

Seeing her finally agreeing, the king was very excited, and immediately ordered Abel: "Quick, spread the word immediately. When the news came out, it was said that the Goddess of Light fully supported the Sunrise Principality, and also, immediately prepare the army to march towards the Crescent Principality."

"Yes, Your Majesty the King!"

Abel responded quickly, and then quickly exited the hall.

Chapter 3298 On the

other side, Yue Feng and Lolita left Pearl City and returned to the Dumen family.

Um?

As soon as they returned to the family manor, Yue Feng and Lolita were stunned.

I saw that the entire family was terrifyingly silent, and the faces of every servant could not hide the sadness.

what happened?

Seeing this scene, Yue Feng suddenly had a bad premonition, and hurriedly took Lolita into the front hall!

Swish!

As soon as he entered the front hall, when he saw the scene inside, Yue Feng's body trembled, and his whole body froze completely. Lolita's body trembled even more, and she almost fainted.

I saw that in the center of the front hall, there was a crystal coffin with a figure lying in it, motionless.

It was Dumen.

Yue Feng saw that Du Men was swollen all over, his face was pale, and he had long since lost his breath.

"Grandpa....Grandpa...." Lolita shouted, threw herself in front of the crystal coffin, sobbing so hard that her tears kept streaming down.

At this time, Lolita never thought that she and Yue Feng just went to Pearl City, and something happened to her grandfather.

Yue Feng stood beside him, and he was indescribably sad. He clearly felt that Du Men's corpse was soaked in water so badly that it was almost unbearable to see.

"How could this be?"

Finally, Yue Feng reacted and looked around with red eyes: "What happened to the old man?" The

voice fell, and a servant said cautiously: "The old man was found in the pond, we are here. At that time, the old man was already drowned."

"Sir City Lord, Captain Thea, who sent the guards, specially came to check the scene and said... that the master was killed by someone!"

Killed by someone?

Hearing this, Yue Feng was stunned.

“How could this be? ... Who killed my grandfather, I will never let him go!” Lolita was even more grief-stricken, her tears kept flowing, and she cried uncontrollably.

At the same time, the delicate body also kept shaking!

“Lolita... don't, don't be too sad...” Yue Feng couldn't help but gently comforted her, while secretly clenching his fists, no matter what, he must find the real culprit.

The next second, Yue Feng suddenly discovered that there was a trace of black residue between the nostrils on Du Men's pale face.

Yue Feng was highly accomplished in medical theory, and he could tell at a glance that Du Men had inhaled special drugs before his death.

Made!

Discovering this, Yue Feng's inner anger was instantly ignited, and his eyes were blood red!

Obviously, Du Men was drugged before he died, and then drowned!

“Old man, I will definitely help you get justice!” Yue Feng said coldly, and then signaled his servants to take good care of Lolita, and strode out of the front hall!

A few minutes later, Yue Feng came to the place where the Pearl City guards were.

Swish!

At this moment, all the members of the guard team suddenly focused on Yue Feng.

The son-in-law of the Dumen family?

Du Men just died, what did he come here for?

Yue Feng ignored everyone's gaze and walked in directly.

At this time, Thea was sitting there, with a topographic map of the Dumen family spread out in front of her, and she was studying the cause of Dumen's death.

As the captain of the guard, Thea is in charge of this case.

“Yue Feng?”

At this time, seeing Yue Feng coming in, Thea quickly stood up, her delicate face showed a trace of complexity, and then politely said: "You sit first!"

Said, Thea directed at the few people at the door He waved his hand: "You go out first!"

What?

Seeing this scene, the guard soldiers present were all stunned.

You know, Thea is the only female knight in Pearl City, and she has a very proud personality, but at this time, she is so respectful to a son-in-law who comes to the door.

Chapter 3299 is

simply incredible.

Yue Feng was not polite, walked over, sat down opposite Thea, and asked, "Is there any clue to the death of the old man?"

"Yes!" Thea bit her lip lightly and responded, "It's just Not sure yet!"

Speaking of which, Thea originally didn't like Yue Feng, but since she experienced the Alcatraz incident, she changed her previous views. Later, at the wedding, Yue Feng abused Maddie in public, which made Thea even more impressed. .

uncertain?

Yue Feng frowned and couldn't help but say, "Tell me!"

Xia breathed a sigh of relief and said slowly, "I investigated the scene before, and the murderer didn't directly break into the Dumen family's manor, but sneaked in and avoided it. The next person, go directly to the old man Du Men!"

Speaking of this, Thea's delicate face revealed a bit of complexity: "Being able to sneak into a family manor quietly, the entire Roland Continent, except for the powerful Blood Hand Organization. , there is also a newly emerging killer organization, and the Hall of Living Beings has this strength."

Yue Feng nodded silently, thought about it, and said, "It looks like it is the Hall of All Living Beings."

Olina, the leader of the Blood Hand Organization, and himself The relationship is so close that it is absolutely impossible to assassinate Du Men.

At this moment, Thea was stunned; "Why are you so sure?"

Yue Feng didn't answer, but smiled, got up and said goodbye to Thea.

Leaving the guards, Yue Feng went directly to the private manor where Olina was.

.....

half a day later!

Located dozens of miles away from Pearl City, by the seaside, there is a hidden castle.

This ancient castle is the main altar of the Hall of Living Beings.

The leader of the Hall of Living Beings, called Moloch, was only thirty-five years old, strong and decisive.

At this time, Moloch was sitting on the main seat of the ancient castle hall, and there was a hint of a smile on his sinister eyes.

In front of him, neatly placed several large boxes filled with gold coins and jewelry.

On both sides, Leng Feng and several other elite killers stood there quietly.

"Haha!" At this moment, Moloch smiled slightly, and said

to Leng Feng, "I didn't expect that the young master of the Maiwei family would be willing to pay for it. Du Men's life would cost so much money!"

Locke thought of something, and continued: "By the way, the second target, is the investigation clear?" The

voice fell, Leng Feng took a step forward, and responded: "I investigated, a month ago, suddenly appeared in Pearl City, claiming to be a pharmacist, and later saved the life of the eldest lady of the Du Men family, and was recruited by Du Men as her son-in-law."

Speaking of this, Leng Feng looked disdainful: "Speaking of which, there is nothing special about this Yue Feng, and yesterday I went to participate with the eldest lady of the Du Men family. The auction is over, I should be back today, I'll take action later, kill him, and get the rest of the pay back."

Hmm!

Hearing this, Moloch nodded approvingly.

However, at this time, a loud noise suddenly sounded outside, and the gate of the ancient castle was smashed by a powerful force.

Immediately afterwards, a cold voice came: "No need to act, I'm here!" The voice fell, and a figure was seen, striding towards the hall.

It is Yue Feng!

At this time, Yue Feng's eyes were blood red, and his body was full of murderous aura!

Two hours ago, Yue Feng found Olin and asked her to use the power of the Blood Hand Organization to investigate the situation of the Hall of Living Beings, and learned that the main altar of the Hall of Living Beings was in this ancient castle. Yue Feng politely refused Olym's request. Help, a man rushed over.

Although Du Men and Yue Feng didn't know each other for a long time, in Yue Feng's heart, Du Men was a respectable elder. His sudden death made Yue Feng unforgivable!

Today, Yue Feng not only wants to avenge Du Men, but also to find out the messenger behind the scenes!

Um?

Who is this person?

At this moment, whether it was Moloch or other elite killers, they were all stunned!

"Good boy!" In the

next second, Leng Feng reacted and said coldly to Yue Feng: "I was looking for you, and you will be delivered to the door!"

In this world, is there still a white flame?
