

## The ultimate husband in Chinese chapter 4366-4370

Chapter 4366

Yue Feng lay there, just pretending not to hear.

But in my heart I couldn't help but secretly underestimate, this Yueqing is really kind, such a senior brother, if he doesn't treat him severely, he will cause more trouble in the future.

Thinking to himself, Yue Feng pretended to mutter: "Oh, I'm so sleepy."

"Brother Ah Feng."

Seeing that it was useless to see the junior sister, Cheng Yi was completely anxious, and the poisonous face showed a deep expression. The entanglement: "Okay, I promise you."

After saying this, Cheng Yi lowered his head deeply, wishing to find a crack to get in.

Seriously, he didn't want to be so shameless in front of his junior sister, but he didn't want to die. Compared with life, what was dignity?

"Okay!"

Seeing his promise, Yue Feng stood up at once, and looked at Cheng Yi with a half-smiling smile: "Before detoxification, I need to know what kind of poison this is, so I feel wronged." The

voice fell, and Yue Feng took off from his body. He took out a dagger and slashed Cheng Yi's face.

In an instant, dark brown poisonous blood flowed out, Yue Feng was quick-witted, and pulled out a burning wooden stick from the bonfire beside him.

Chi...

the poisonous blood dripped on the wooden stick, and suddenly a cold and nauseating poisonous smoke came out. Yue Feng hurriedly asked Yueqing to avoid it in the distance, while he sniffed the smell of poisonous smoke.

Yes, Yue Feng is to identify the highly toxic ingredients through the sense of smell.

At that time, Shennong tasted all kinds of herbs and became the ancestor of medicine admired by the world. However, tasting herbs was only the foundation. Later, Shennong

invented various methods to identify herbs and poisons, and smelling is one of them. When Yue Feng followed Shennong to study medical theory, he also learned this trick.

This chapter is provided by . Visit for daily update.

This...

Seeing this scene, Yueqing, who was hiding not far away, immediately frowned, secretly surprised.

There are still people in the world who use this method to identify poisons.

If you don't see it with your own eyes, who can believe it?

Incredible.

On the other hand, Cheng Yi, who was lying on the ground, was full of suspicion, and his heart was even more disturbed.

Will this kid detoxify?

How can it be like playing?

Yue Feng didn't notice the changes in the eyes of the two, but closed his eyes and slowly felt the smell of the poisonous mist.

The poison of Huanglin snake?

After identifying the highly poisonous ingredient, Yue Feng squinted his eyes and was secretly shocked.

Strange, in a red-ringed centipede, how can there be the venom of the yellow-linn snake? The living environment of the two is completely different, and it is impossible for them to meet.

Is it man-made?

If it is true, then this person must be a master of poison.

Thinking in his heart, Yue Feng turned around and waved at Yueqing: "Help me go to the woods outside and get some herbs out..." With that, Yue Feng reported the names of the herbs one by one.

When he was catching a deer in the woods before, Yue Feng saw that all the herbs he needed were available.

Um!

Yueqing responded and hurried out. After a while, the herbs were picked.

Yue Feng took the herbs, mixed them together according to the proportion, and smashed them together, and then smeared them on Cheng Yi's face.

call!

At this moment, Yueqing stood aside, not daring to let out a breath, but his eyes were full of curiosity and sigh.

This method of detoxification is so unique that even Master may not know it.

Cheng Yi closed his eyes, and only felt that his face was cool and comfortable.

Soon, a few minutes passed.

Cheng Yi only felt that the pain on his face gradually disappeared, and his body was no longer numb.

“Senior brother.”

At the same time, Yueqing also clapped his hands and cheered: “The poison on your face seems to have subsided, it’s really amazing.”

Having said that, Yueqing did not forget to express his gratitude to Yue Feng: “Thank you, Ah Brother Feng, by the way, have you studied medicine?”

“You know a little bit.”

Yue Feng nodded with a smile, then his eyes fell on Cheng Yi, and said lightly: “Cheng Yi, the poison on your face is cured, It’s time to fulfill the promise.”

“I...”

At this moment, Cheng Yi's face flushed red, and his heart was extremely entangled.

How to do?

I promised this kid just now that if I can successfully detoxify myself, I will call him master in the future. Unexpectedly, this kid is really rejuvenating.

But...if you really shouted, how would you meet people in the future?

Seeing his tangled face, Yue Feng did not urge him, but secretly pondered the poison on the red-ringed centipede. You must know that the poison of the Huanglin snake is very domineering, and it will poison the red-ringed centipede if it is not done properly.

However, the red-ringed centipede is alive and well. It can be seen that the person who does this, the means of poisoning, has reached a state of ecstasy.

Who is the one?

Chapter 4367 Deng

Deng....

At this moment, Cheng Yi slowly got up, walked to Yue Feng, and whispered: "Master!"

When he called out this title, Cheng Yi lowered his head, The sound is so small that you can't hear it if you don't listen carefully.

In Cheng Yi's heart, he felt extremely humiliated when he called Yue Feng's master, but he had no choice. Just now, he personally promised Yue Feng.

Um!

Seeing that he was finally subdued, Yue Feng nodded: "Okay, the poison on your body has just been removed, you should rest more."

If it was before, Yue Feng would definitely reprimand Cheng Yi and let him know how to behave in the future. But at this time, Yue Feng was thinking about Huang Lin's snake venom all the time, so he didn't bother to bother with Cheng Yi.

At the same time, Yueqing also walked over quickly and said to Cheng Yi earnestly: "Senior brother, don't feel awkward. Brother Afeng did this because you were too much before."

When he said this, Yueqing's tone Complicated, looking at Cheng Yi's eyes, he was also full of helplessness.

Senior brother was really arrogant before, I hope that through this incident, he can learn a lesson.

"I see." Cheng Yi replied in a low voice, much more honest on the surface, but he couldn't tell the fire in his heart.

Mad, I have already admitted my mistake, but my junior sister is still helping this guy to speak.

Why?

Why does this kid make his junior sister face him everywhere?

The more Cheng Yi thought about it, the more unbalanced his heart became. He simply stood up and walked outside, planning to take a walk to calm down.

“Brother!”

Seeing this scene, Yueqing hurriedly shouted: “Where are you going?”

“I can’t sleep.” Cheng Yi responded lightly and walked out of the temple without looking back.

Yueqing was in a hurry and was about to catch up, but was stopped by Yue Feng.

“Forget it!” Yue Feng smiled at Yueqing and said, “Tonight, your senior brother has been losing face in front of you. It’s better to let him go out to relax. If you figure it out, he will come back by himself.”

” Yueqing was very puzzled by these words: “Senior brother is too weird today, he was not like this before.”

Haha...

Yue Feng couldn’t help laughing: “You don’t understand men, he likes you, So seeing you and me so close, I feel uncomfortable, so I have been looking for trouble for me before.”

This Yueqing’s mind is really simple.

Huh.... When

the voice fell, Yueqing’s delicate face suddenly flushed red, and he couldn’t say shy: “Senior brother likes me...this...”

At the same time, Yueqing suddenly woke up.

At this time, Yue Feng didn’t say more, but studied the red-ringed centipede in front of him. When he detoxified Cheng Yi just now, Yue Feng anesthetized the red-ringed centipede.

Seeing Yue Feng’s serious look, Yueqing didn’t dare to ask any more questions, and just watched curiously.

...

On the other side, Cheng Yi was walking aimlessly in the woods.

Mad, the guy with the imprint on his face, not only caught his junior sister's attention, but also asked me to call him master.

Really deceiving.

Cheng Yi originally came out to relax, but the more he thought about it, the more angry he became, and the more he hated Yue Feng.

Shasha...

Just when Cheng Yi was extremely annoyed, he heard strange noises coming from all around him. Cheng Yi was taken aback and looked around, his scalp tingling.

I saw a few red-ringed centipedes in the grass not far away, and they were quickly heading towards the direction of the temple. Some of these red-ringed centipedes were much larger than the one I caught before, and they all had their abdomens. They are also dark brown, and they are obviously highly poisonous.

In addition to the red phosphorus centipede, there are also many poisonous snakes, as well as palm-sized spiders, poisonous scorpions...

why...

why are there so many poisonous insects all of a sudden?

After being stunned for a few seconds, Cheng Yi regained his senses, only to feel that the hairs all over his body stood up, and his brain was buzzing.

Just when Cheng Yi was secretly shocked, several poisonous scorpions had already reached his feet.

Whoops...

But before taking a few steps, Cheng Yi stepped on the air and fell directly into a hole in the ground. It turned out that this area has a special geographical environment, and many natural karst caves have been formed underground.

Chapter 4368

"Ah..." In the

cave, Cheng Yi's body kept falling, and in panic, Cheng Yi let out a burst of howl, and his heart was even more frightened.

Damn, I'm really dead this time.

But fortunately, this cave is not straight up and down, but curved, which slowed down a lot of strength for Cheng Yi's fall.

Pfft...

After a few minutes, Cheng Yi finally reached the bottom of the cave, smashed his body on the wet ground, and let out a dull sound.

Didn't he fall to his death?

Cheng Yi took a deep breath and was indescribably excited, but when he fell just now, there were many bruises on his body, and the severe pain caused him to gasp for air.

hiss!

The next second, Cheng Yi Ninja looked around in pain and was stunned.

I saw the cave in front of me, extending in all directions. I didn't know where to go. It was like a huge ant's nest. There was groundwater flowing slowly under my feet, which was indescribably cold and damp.

Seeing this kind of environment, Cheng Yi wanted to cry without tears.

Mad, he was so reckless, humiliated by the guy with the mark on his face, and now he has fallen into such a ghost place again.

Swish...

Just when Cheng Yi was extremely depressed, he heard a dense voice, which made his scalp tingle.

Cheng Yi didn't have time to think about it, he quickly followed the voice, and he was shocked.

Poisonous scorpion!

I saw that hundreds of scorpions came quickly. Each of these scorpions was as big as the mouth of a bowl, and the whole body was dark red, obviously containing highly poisonous.

Obviously, these scorpions also fell from the entrance of the burrow.

It's over, this time it's dead.

Seeing these poisonous scorpions, Cheng Yi's face was ashen, and he could hardly stand still.

Hiss..

At this time, a poisonous scorpion quickly crawled over, jumped on Cheng Yi, and took a bite on his leg. At that time, Cheng Yi let out a miserable cry, feeling extremely desperate in his heart.

It's over, it's over, it's definitely dead after being bitten by this venomous scorpion.

Hissing...

Just when Cheng Yi was desperate and frightened, the other poisonous scorpions swarmed up and bit him.

For a while, Cheng Yi only felt numbness and pain all over his body, but soon, he was surprised to find that the numbness disappeared quickly, leaving only the pain of being bitten.

These poisonous scorpions are useless to me?

Soon, Cheng Yi realized something, but he didn't have time to think about it at the time, so he gathered up his courage, picked up the stone at his feet, and smashed it at the poisonous scorpions.

At this time, Cheng Yi still didn't know that the antidote that Yue Feng had taken before could not only detox the Huanglin snake venom, but also had the effect of immunity to other poisonous insects.

It can be said that now Cheng Yi is almost invincible.

Of course, the medicinal effect only lasted for twelve hours. After twelve hours, the medicinal effect in Cheng Yi's body disappeared, and any poisonous insect could kill him.

Clap, crack...

For a while, Cheng Yi kept waving the stones, and saw that many poisonous scorpions were directly killed, the carapace cracked, and the venom splashed everywhere.

.....

On the other side, Yue Feng studied the red-ringed centipede for a while, and suddenly thought of something, slapped his thigh and stood up.

“Big Brother Ah Feng!”

Seeing this, Yueqing’s delicate body trembled, and he quickly asked, “What’s wrong? What did you think of?” As

he said, Yueqing couldn’t help but glance at the red-ringed centipede. When Cheng Yi was poisoned just now, she also felt very strange. After all, the environment of this place should not have the red-ringed centipede.

However, not only did one appear, but it was also highly poisonous, which was really suspicious.

call!

Hearing the question, Yue Feng looked solemn and said slowly: “In the entire Kyushu, there are countless sects that can use poison, but there is only one that can transfer the Huanglin snake venom to the red-ringed centipede, and that is the Five Poison Sect. “

Speaking, Yue Feng looked at Yueqing seriously: “I suspect that this red-ringed centipede was sent by Ji Hongshang. Ji Hongshang is the master of Fengzhuang, or the master of the Five Poison Sect.”

What?

Yueqing’s delicate body trembled, and on her delicate face, she couldn’t hide her panic and anger: “Brother Ah Feng, you mean, that abominable woman knows where we rest and wants to kill us with poisonous insects?”

Chapter 4369

Yueqing was so angry when he said this.

That Ji Hongshang is really hateful. Not only did he arrest Master, but he also used poisonous insects to harm people.

Swish....

just as he was talking, he heard a burst of dense sounds from outside.

Hearing this voice, both Yue Feng and Yueqing realized something, and when their expressions changed, they hurriedly walked towards the door.

hiss!

As soon as they arrived at the door, seeing the situation outside, both of them couldn’t help gasping for air.

Through the moonlight, I can see countless poisonous insects crawling in from the broken walls of the monastery. These poisonous insects include many red-ringed centipedes, not only that, but also pieces of poisonous snakes, poisonous scorpions and poisonous spiders...

The darkness was like a tide, which instantly flooded the dilapidated yard.

“Eat it now!”

Seeing this, Yue Feng didn't have time to think about it, he quickly took out a red medicinal pill from his body and handed it to Yueqing.

The elixir is called 'Ling Sheng Dan'. It is a poison-removing elixir that Yue Feng has recently researched. After taking it, it will not invade a hundred poisons. At that time, when he was recuperating in Jianzong Thatched Cottage, Yue Feng refined a few pills in his spare time.

“Brother Ah Feng!”

Yueqing took the medicine pill, but instead of taking it immediately, he said worriedly, “I've taken it, what should you do?” She was so smart that she knew without asking that the medicine in her hand could dispel poison.

But she was not far from Yue Feng being bitten by those poisonous insects.

Feeling Yueqing's worry, Yue Feng showed a smile and comforted: “I'm fine.”

After being reborn with the help of the Faye Red Lotus, Yue Feng is already a system that is invulnerable to all poisons. You must know that the Faye Red Lotus absorbs the innate aura, and the poison in the world is useless to him at all.

Hearing this, Yueqing no longer hesitated, and hurriedly swallowed the medicine pill.

Swish...

It was at this time that many poisonous insects had already begun to pour into the room. At that time, Yue Feng didn't have time to think about it. He stimulated the power of Yuanshen, raised his hand and waved, and suddenly a wall of fire formed, blocking those poisonous insects from the outside. .

After doing this, Yue Feng said to Yueqing: “With this wall of fire, those poisonous insects can't get in for the time being. I'll go out and have a look. You just stay here and don't move.” When the words

fell, Yue Feng rushed out.

At this time, Zheng Chunqiu and those Pill Sect disciples were also awakened by the movement outside and quickly walked out one by one.

What?

When he came out and saw the scene in front of him, whether it was Zheng Chunqiu or those Dan Zong disciples, they were all shocked.

Just saw the darkness outside, all terrifying poisonous insects, thousands of them.

Swish ...

Just when Zheng Chunqiu and the disciples were stunned, the poisonous insects hissed for a while, and then rushed towards them quickly.

“Ah...” The speed of the

poisonous insect was very fast. In the blink of an eye, many disciples were bitten and let out a scream. Some disciples even died of poisoning before they even had time to scream.

Mad!

Seeing this scene, Zheng Chunqiu was furious and shouted at the remaining disciples and elders: “Quickly counterattack and block these poisonous insects.” As he spoke, Zheng Chunqiu took out a poison-repelling pill and swallowed it directly. down.

Afterwards, Zheng Chunqiu pulled out his long sword and slashed at the surrounding poisonous insects.

Hearing your order, the remaining disciples and elders also took the medicinal pills one after another, and then fought with the surrounding poisonous insects.

Pill sects are good at refining medicine pills, so everyone has a lot of poison-repelling medicine pills on them. However, these poisonous insects domesticated by the five poison sects are very different from those that grow naturally. Not only are they extremely fast, they are also more toxic.

Bang bang bang...

During the fierce battle, I saw a lot of poisonous insects, which were completely beheaded by Zheng Chunqiu and others. The whole dilapidated temple was full of the remains of poisonous insects, and there was also a disgusting smell in the air. odor.

As for Zheng Chunqiu and others, although there were no casualties for the time being, dealing with so many poisonous insects made them a little tired.

Huh..

Seeing this scene, Yue Feng didn't have time to think about it. He activated the power of his primordial spirit and joined the battle. I saw that Yue Feng's fists and feet were condensed with purple flames, and once those poisonous insects touched, they were directly burned to ashes.

This...

Seeing this scene, whether it is Zheng Chunqiu, or those disciples and elders, are secretly shocked.

Chapter 4370

This person looks so weird, and his internal strength is so strong that he can form a flame with any random move.

Moreover, this flame is so special that it is purple-red.

At this time, Zheng Chunqiu didn't know that the person in front of him was Yue Feng. Moreover, Yue Feng was reborn through the red lotus of the law, and after integrating the power of the red lotus, he was reborn.

"Quick!"

After being stunned for two seconds, Zheng Chunqiu reacted and shouted at the people around him, "First eradicate these poisonous insects." With that, he clenched his long sword and rushed into the poisonous insect swarm again.

Crash...

Hearing the shout, several elders and the remaining disciples rushed forward.

Boom!

The fight was fierce, and suddenly, a loud noise was heard. The gate of this dilapidated monastery was smashed abruptly, and at the same time, a special whistle sounded.

Hearing the whistle, the poisonous insects who were besieging Zheng Chunqiu and others quickly retreated outside the temple.

what's the situation?

Seeing this scene, whether it was Yue Feng, Zheng Chunqiu and others, they were all stunned.

Soon, Yue Feng was the first to react, and quickly walked out.

Zheng Chunqiu and everyone from Danzong also followed with great strides. When Yueqing heard the movement, he hurried out of the room and followed everyone outside.

Mad!

As soon as he arrived outside, when he saw the scene in front of him, Yue Feng frowned and cursed secretly.

Zheng Chunqiu and others were even more shocked and angry.

I saw that nearly a thousand disciples of the Five Poison Sects surrounded the monastery, like an iron barrel! In front of the shattered door, Ji Hongshang was wearing a dark red dress, suspended in mid-air, charming and evil, with a dignified aura.

call!

Seeing Ji Hongshang, Zheng Chunqiu's face was extremely gloomy, and his heart was even more angry.

Obviously, the poisonous insects just now were arranged by Ji Hongshang.

"Zheng Chunqiu!"

At this moment, the corners of Ji Hongshang's mouth twitched, revealing a charming smile, but her tone was incomparable: "Didn't you expect it? You could have escaped, but who told you not to leave? Rest here?"

Hehe!

Hearing this, Zheng Chunqiu sneered and sneered: "Ji Hongshang, you are only capable of this. You fought against me in the daytime, and you failed to defeat me, so you secretly used this despicable method.

"In your hands, it will be destroyed sooner or later."

Swish!

Hearing this, Ji Hongshang's seductive face instantly sank, and her heart was filled with anger.

This Zheng Chunqiu really doesn't know whether to live or die. In the face of such a disadvantage, he dares to mock himself.

However, Ji Hongshang did not have a seizure, but took a deep breath, suppressed her anger, and looked at Zheng Chunqiu with a half-smiling smile: "Zheng Chunqiu, I don't want to argue with you, you know the current situation in your heart. Many of my subordinates were bitten to death by poisonous insects, and the rest were exhausted. If you continue to fight, you will only lose your life in vain."

"In this way, as long as you are ready to capture and promise to surrender to me, I promise that you will never hurt you again. Anyone."

When saying this, Ji Hongshang's face was full of treacherousness.

To be honest, Ji Hongshang originally interrupted to kill Zheng Chunqiu and the others, but suddenly changed his mind just now. You must know that the Five Poison Sects have been wandering since they left Xicang Continent. If they want to grow, they need to absorb them. fresh blood.

And Zheng Chunqiu, ten good candidates.

"Hahaha..."

As soon as the words fell, Zheng Chunqiu couldn't help laughing up to the sky, looking directly at Ji Hongshang and cursing: "Ji Hongshang, you are really whimsical and want me to want you to surrender, you do What daydream?"

"I will die today, and I will not bow to you." The words were sonorous and forceful, beyond doubt.

Seeing his answer, Ji Hongshang frowned and was very annoyed.

At the same time, Yuan Tong, who had been behind her, took a step forward and scolded Zheng Chunqiu: "I really don't know how to praise. My sect master has given you a chance to live. Don't be shameless."

Ji Hongshang waved her hand. , motioned for him to step back, then looked at Zheng Chunqiu and said, "Zheng Chunqiu, I know you are not afraid of death, but have you ever thought about it, after you die, what about Dan Zong?"

"Dan Zong has been passed down for thousands of years, and you don't want to completely Destroyed in your hands, right?" Phew

... Hearing this, Zheng Chunqiu's expression changed, and he suddenly became entangled. Yes, Dan Zong has been inherited for so long, and it has always been one of the top sects in Dongao Continent. If it is destroyed in one's hands, how can one face the ancestors of Dan Zong?
