Chapter 6661

– During the daytime battle, the city lord cooperated with Ji Beiye to act, and the fight was not brilliant, completely degrading the prestige of the water army of Qingyun City, and it was reasonable to punish him.

But Yingkuang did not punish him, deliberately opened favors, and the ultimate goal was to seize military power.

What the?

Hearing this, the city lord's heart was shocked, and he looked at Ying Kuang blankly, unable to speak for a while.

Qingyun City Water Army, but how can he hand over his hard work over the years? More importantly, he has no military power in his hands, how can he cooperate with Ji Kitano Li next?

For a while, the more the city lord thought about it, the more anxious he became, and his forehead was full of cold sweat.

“How?”

Seeing that he did not speak, Ying Kuang's face was full of displeasure, and he said coldly: “Could it be that you want to resist the will and do not plan to hand over military power?” “

Poof!

Hearing this, the city lord reacted, quickly knelt down, and said with a panicked face: “The subordinate does not dare.” When the words fell, he took out the talisman from his body.

Seriously, the city lord at this time wanted to turn his face immediately, after all, this is Qingyun City, his own place, but in the end he held back, because he saw more than a dozen guards standing on the side of Ying Kuang and Shaoyang Wang. One by one, they stared at themselves.

If you oppose yourself, I am afraid that you will die at the hands of these guards.

In this case, the city lord chose to endure for the time being.

Well!

Seeing him hand over the talismans, Yingkuang nodded and signaled the guards to bring the talismans.

Immediately, Ying Kuang waved his hand at the city lord: "Okay, you led the army to fight for a day, and you are tired, go back and rest well, you can leave the water army affairs alone for the time being."

When he said this, Ying Kuang looked indifferent, but he was a little nervous in his heart.

After all, this is Qingyun City, in someone else's place, it is really a bit risky to let the other party hand over the talismans, but fortunately, this city owner is still a person who knows the times.

"Yes, Your Majesty!" The city lord answered, turned around and walked out of the main hall.

Call!

Watching the city lord leave, Shaoyang King and Yue Feng next to him also secretly breathed a sigh of relief.

Like Ying Kuang, when the city lord handed over the military power just now, the two seemed calm, but in fact, they were nervous in their hearts, you know, there are city lord's subordinates everywhere outside, and Shaoyang King and Ying Kuang are around, but there are more than a dozen guards, really want to fight, the end is unpredictable....

"Huh..."

At this time, King Shaoyang smiled and took the lead in speaking: "This villain is quite knowledgeable about current affairs, and he actually handed over the talisman so painfully.

Ying Kuang took a deep breath and said, "This person's city government is extremely deep, and his military power has been seized, so he will definitely consult with Ji Kitano as soon as possible." When he spoke, Ying Kuang's immature face could not hide his worry.

Since the emperor was broken, the appearance of traitors one after another is really tiring.

"Don't worry about this."

At this time, Yue Feng showed a smile and said confidently: "Everything is under our control, and now the good show has just begun."

Speaking, Yue Feng looked at Zheng Chao next to him, and his smile gradually thickened: "The next thing depends on Zheng Weiwei." "Me

?" Zheng Weiwei was stunned and looked puzzled.

At the same time, Shaoyang Wang and Ying Kuang also looked at each other.

Soon, Zheng Chao reacted and couldn't help but say, "Sir, how should I do it?" Huh

....

Yue Feng smiled, did not rush to say it, but waved at Zheng Chao, and then came to the sand table.

Zheng Chao hurried to follow.

Shaoyang Wang and Ying Kuang looked at each other, and also quickly came to the sand table.

The sand table is the terrain of the entire Qingyun City, and there are many wooden models of warships on both sides of the river, at this time, Yue Feng holds the warships on the north bank of the river, connects them with ropes, and then deduces the attack mode.

This.....

Seeing this scene, Shaoyang Wang and Ying Kuang, as well as Zheng Chao, were stunned.

Mr. wants to deduce the war, get the opposite, should use the water army on the south bank of the river to deduce, how to use the rebels on the north bank of the river?

"Sir!"

Finally, Shaoyang Wang was the first to react and couldn't help but ask, "You... What is this for?"

At the same time, Ying Kuang and Zheng Chao also stared closely at Yue Feng, waiting for his answer.

Yue Feng smiled slightly, and said slowly: "Wangye, you see, most of the rebels in Ji Beiyue do not know water, and if they fight on the river, they will definitely not be able to care about each other. "

Speaking, Yue Feng turned around and pointed to the model of the warships that were connected in series: "But if these warships are connected together, the soldiers will be able to walk on the ground, and when the time comes, they will slowly advance and reach the south bank." This

....

Hearing this theory, whether it was Shaoyang Wang, Ying Kuang and Zheng Chao, they were all stunned, and their hearts were shocked.

This Mr. Yue Feng, really worthy of the genius of heaven, the problem that troubled Ji Beiye, was actually thought of by him to solve the method, so many warships are connected together, similar to land, just can play the advantage of the rebels.

It's just that...

The shocked colleagues, Shaoyang Wang and the three were also puzzled.

Well, why did Mr. Yue Feng deduce the battle situation from Ji Beiye's point of view?

"Zheng Weiwei!"

Just when the three of them were puzzled, Yue Feng looked at Zheng Chao with a smile and said, "The city lord has just lost his military power, in addition to conspiring with Ji Beiye, he will secretly summon you, when the time comes, you will find an opportunity to tell him about my method."

"If he knows this method, he will definitely tell Ji Kitano as soon as possible."

When he said this, Yue Feng smiled and looked indifferent and calm.

What the?

However, hearing this, Zheng Chao's face changed, and he couldn't help but say, "Sir... If Ji Beiye knew about this method, wouldn't Qingyun City be in danger? When

the words fell, King Shaoyang couldn't help but say: "Yes, if Ji Beiye connects the warships, the advantage of our water army will be gone, how can we resist at that time?"

Ying Kuang didn't speak, just looked at Yue Feng thoughtfully.

At this time, Ying Kuang's heart was also chaotic, but he firmly believed that Yue Feng was definitely not trying to give up Qingyun City by doing this, and there must be his reason behind it.

Hehe.

Seeing that Shaoyang Wang and the two were excited, Yue Feng smiled, waved his hand and comforted: "Don't get excited Wang Ye and Zheng Weiwei, I fought with Ji Beiye a few times, how can I help him?"

"This method of chain-chain ships seems foolproof on the surface, but there is a great drawback, once an accident occurs, each warship loses its mobility, and both prosper and lose."

Speaking of this, Yue Feng picked up the candle next to him, ignited the serial ship model, and said slowly: "Once it encounters a fire attack, hundreds of thousands of troops will have no way to escape, and it will inevitably collapse."

Yes, Yue Feng was quoting the famous Red Cliff Battle in Kyushu.

When he first came to Qingyun City, Yue Feng found that the terrain here and the environment of the Red Cliff War were very familiar, and it just so happened that Ji Beiye's army, although strong, was mostly unfamiliar with water, and he thought of this strategy at that time.

However, around the palace, there were many eyes and ears of the city lord, so Yue Feng never said it.

And today, the city lord was taken away from the military power, and he would definitely consult with Ji Beiye, and Yue Feng knew that the time was ripe, so he said the follow-up plan.

Wow!

At this moment, after listening to Yue Feng's overall plan, whether it was Shaoyang Wang, Ying Kuang, and Zheng Chao, they were completely dumbfounded.

This set of serial calculations is really powerful.

With such a meticulous strategy, who could have thought of it, this Mr. Yue Feng is really a god man.

Especially Shaoyang King, his eyes were firmly fixed on Yue Feng, and he couldn't hide his reverence, and while he was shocked, he couldn't help but muttered secretly in his heart, fortunately, this Mr. Yue Feng is his own person, if he is an enemy, it will be terrible.

Call!

Finally, Ying Kuang was the first to react, looked at Yue Feng with adoration on his face, and said with a smile: "Mr. is really resourceful, such a strategy, I'm afraid Ji Beiye can't think of it if he wants to break his head."

When

he said this, Yingkuang's heart was full of excitement, and his previous doubts were swept away.

"Mr. Brilliant!"

At the same time, Zheng Chao also saluted Yue Feng, and said convincedly: "This scheme can be called a divine strategy, just now I misunderstood Mr. and made Mr. smile."

Shaoyang Wang also burst out laughing and praised Yue Feng: "Miao, this strategy is too wonderful, if it weren't for Mr. explaining, I would still be in the dark, it's wonderful..."

Hehe...

Yue Feng smiled slightly, and then looked at Zheng Chao squarely and said, "Although this strategy is very good, the key depends on you." "

Chapter 6663 –

Poof!

Hearing this, Zheng Chao hurriedly knelt down and said loudly: "Zheng Chao will definitely not fail in his mission." Hmmm

!

Yue Feng nodded approvingly, and then said to King Shaoyang: "When the war starts, the water army of Qingyun City will definitely not be trusted, so when the time comes, the heavy responsibility of setting fire must be handed over to our own talents."

"What the gentleman said is extremely true!"

Hearing this, King Shaoyang nodded in agreement, then looked around and said to the dozen or so guards present: "You have all heard it too, and when the day of the big battle, the task of setting fire to the ship will be handed over to you." Whoosh

!

When the words fell, more than a dozen guards knelt down in unison: "The subordinates will go all out."

Seeing this scene, Shaoyang Wang nodded with satisfaction, and then said to Yue Feng: "Sir, what should we do next?"

Yue Feng smiled slightly, and shook the talisman in his hand: "Next, ask Wang Ye to accompany me to visit the water army camp, the talisman has already arrived, if we don't show up, I'm afraid it will arouse suspicion." "

Haha...

Hearing this, the two looked at each other and laughed.

.....

The other side. City Lord's Mansion Study.

The city lord sat there, looking depressed, and his mood was extremely poor. Without military power, it's like Lao Hu has no minions, how can he cooperate with Ji Beiye?

For a while, the more the city lord thought about it, the more upset he became, so he called the guards in.

"Go, call a few generals from the water army camp." The city lord ordered, and his depressed face also flashed a little sinister at this time.

This little emperor actually took away my military power, then I will not let you have a good time.

"Yes, City Lord." The guards answered, and hurried to the water army camp at night.

Half an hour later, more than a dozen water army generals arrived.

When they arrived at the study, more than a dozen generals saw the city lord with a gloomy face, and their expressions became complicated one by one.

"Lord City Lord."

Finally, one of the generals couldn't help it and stepped forward and said, "What happened?" How did the Water Army Talisman fall into the hands of Mr. Na Yue Feng? Just

now, Yue Feng, accompanied by King Shaoyang, inspected the water army camp together, and the generals present were very puzzled, but it was not good to ask Yue Feng at that time.

At this time, he was summoned by the city lord, and he couldn't bear it anymore.

Well?

Hearing this, the city lord was stunned and looked up, "You all know?"

When

the words fell, another general responded, "Just now, Mr. Yue Feng and Wang Ye inspected the camp together. "Mad

!

At this moment, the city lord's heart was angry, and he couldn't help but slap the table and scolded: "Is it really a villain's will, thinking that with the talisman of soldiers, the entire water army is his?" It's a dream. Seeing

him say this, more than a dozen generals looked at each other, and their hearts became even more puzzled.

Without waiting for them to ask, the city lord calmed down and sighed: "Everyone, during the daytime battle, Your Majesty was very dissatisfied, so he withdrew my military power. Instead, let Na Yue Feng take over! What do you think about this?"

After

saying this, the city lord looked around and noticed the change in the expressions of these soldiers.

What the?

Hearing this situation, more than a dozen generals changed their faces and were unhappy for the city lord.

"How so? Qingyun City Water Army was created by the city lord, how much effort was spent?"

"Yes, I don't know what this little emperor thinks, even if that Yue Feng can use troops, he can't cross the river and tear down the bridge."

"It's just."

During the discussion, all the people present expressed their dissatisfaction with Ying Kuang, in fact, it is not difficult to come to the fore, these generals, all of whom were pulled up by the city lord, were grateful to him in their hearts, and they were indignant when they learned that he had been cut off from military power.

Seeing this scene, the city lord nodded with great satisfaction and sighed: "Hearing you say this, it is not in vain that I have cultivated you for so many years."

At this moment, a general stepped forward and said loudly: "City Lord, what to do next, you say, we will listen to you." When

the words fell, the other generals nodded one after another.

Call!

The city lord took a deep breath and said slowly: "Since the little emperor does not believe me so much, there is no need for me to continue to be loyal to him, it's not a secret, I have already contacted Ji Beiye two days ago." "

"Ji Beiye has already agreed with me to seek a great cause, as long as you continue to follow me, when the time comes, the glory and wealth will be endless."

When he said this, the city lord's eyes were full of expectation.

He firmly believed that these subordinates he brought out would never betray him.

This...

At this moment, more than a dozen generals looked at each other, and they were all shocked in their hearts.

The city lord actually secretly united with Ji Kitano, which... But what a great rebellion. But... These people, even if they continue to serve the Dayan royal family, after all, they are the concubines of the city lord, and I am afraid that they will be suspected by the little emperor at that time.

Poof!

Soon, after some thought, a general took the lead in kneeling down and said loudly: "Subordinates swear to follow the city lord to the death." When

the words fell, the other guards also knelt down and shouted in unison: "Swear to follow the adults." Haha

...

Seeing this situation, the city lord was in a very happy mood and laughed: "Good, good, good!" He has accomplished great things every day, and I will not fail you.

The guards nodded one after another.

Then, one of the guards said, "My lord, what to do next, you say." "

Phew!

At the same time, the other guards were also staring closely at the city lord, waiting for his instructions.

The city lord took a deep breath, thought about it, and smiled mysteriously: "Don't worry, I will see someone first and probe the wind." You guys hide behind for now.

With that, the city lord opened the secret door of the study, and there was a secret room inside. At this time, although more than a dozen generals had doubts, they did not ask, but followed the orders of the city lord and entered the secret room one after another.

The city lord closed the door and called the guards again: "Please Zheng Chao's guards come, remember, don't be discovered."

"Yes, City Lord." The guard nodded and left quickly.

Ten minutes later.

The guards took Zheng Chao back to the study.

When he arrived, Zheng Chao saluted the city lord: "City lord." The

city lord smiled and raised his hand: "It's all your own people, so don't be so polite." After speaking, he let out a long sigh.

"City Lord!"

Seeing him like this, Zheng Chao made a sympathetic look and asked, "Your Majesty collected military power before, what is the city lord's plan to do?" When he said this, Zheng Chao was calm on the surface, but his heart was indescribably excited.

Mr. Yue Feng is really like a god, this city lord really came to me.

Call!

The city lord took a deep breath and said with a bitter smile: "I really didn't expect that this little emperor acted so decisively and dared to accept my military power today, but it doesn't matter, I will inform Ji Beiye of the situation later, and he will be able to respond quickly." It's just...."

Speaking of this, the city lord looked at Zheng Chao: "Where is the little emperor, but what is the latest news?"

Hearing the inquiry, Zheng Chao responded: "Before I came, the little emperor was discussing the battle situation countermeasures with Yue Feng and King Shaoyang in front of the sand table.

"What do you say?" The city lord instantly became excited and quickly asked.

Zheng Chao pretended to look outside the door and said in a low voice: "Na Yue Feng has won the military power, very happy, plus Qingyun City's unique geographical advantages, he is ready to defend for a long time." Huh

....

Hearing this, the city lord couldn't help but sneer: "Qingyun City Water Army, I have been operating for more than ten years, fighting on the water, and I am invincible. Na Yue Feng gained without hard work, and he was naturally happy.

Speaking, the city lord looked at Zheng Chao tightly: "Brother Zheng, is there any other news?" This

....

Zheng Chao pretended to think about it and scratched his head: "Let me think.... By the way, at that time, the little emperor asked Yue Feng how he would attack Qingyun City if he was the Ji Bei Ye military division.

At this moment, the city lord instantly became interested and quickly asked, "Then how does Yue Feng answer?" "Speaking of which, Qingyun City is easy to defend and difficult to attack, otherwise Ji Beiye would not have waited until now.

In this case, the city lord was very curious to know how he would attack Qingyun City if it were Yue Feng.

Seeing that he was fooled, Zheng Chao's heart was very excited, and he immediately said the strategy of the iron chain ship as Yue Feng explained.

Hiss!

After listening to Zheng Chao's words, the city lord couldn't help but take a deep breath, shocked in his heart.

This Yue Feng is really resourceful, and he can even think of connecting all the warships with iron cables.....

The ultimate husband in Chinese chapter 6665

....

Shocked, the city lord couldn't help but laugh: "Yue Feng, Yue Feng, I'm afraid you would never have thought that Ji Beiye would use your methods to attack Qingyun City."

Laughing, the city lord patted Zheng Chao's shoulder: "Brother Zheng, you really made a great achievement this time, haha." This

iron chain method is really good, it is simply invulnerable.

For a while, the more the city lord thought about it, the more excited he became, speaking of which, he had been guarding Qingyun City for many years and was good at fighting water fights, and at this time, when he learned of the iron lock chain ship proposed by Yue Feng, he couldn't think of a way to crack it for a while.

At this time, the city lord did not know that all this was Yue Feng's strategy.

Call!

At this time, seeing him so excited, Zheng Chao was also secretly relieved, and his heart was indescribably excited.

Sir is really brilliant, this thief is really fooled.

Thinking about it, Zheng Chao pretended to hesitate: "City Lord, do you plan to inform Ji Beiye of this law?"

"It's nature!"

At this time, the city lord was in a very happy mood, and nodded with a smile: "Ji Beiye's army is brave and good at fighting, but the soldiers below are mostly ignorant of water, and now there is a method of iron lock chain ships, and the army is on the linked big ship, like walking on the ground, when the time comes, it will be easy to cross the river and break through Qingyun City."

After

speaking, the city lord praised Zheng Chao again: "Okay, you quickly return to Shaoyang King's side, continue to investigate, and be careful not to show the stuffing."

"Yes, Lord City Lord."

Zheng Chao nodded and did not forget: "The city lord also takes care of yourself." The

city lord replied and watched Zheng Chao leave.

Crash!

As soon as the front foot left, the city lord opened the door of the secret room, and suddenly, more than a dozen generals hiding inside walked out one after another, and their faces were very excited.

“The adult is so powerful, he actually subdued this Zheng Chao.”

“Yes, it is said that this Zheng Chao has been following King Shaoyang for many years, it can be said that he is a confidant, and the city lord can actually subdue him...”

For a time, more than a dozen generals were amazed, looking at the eyes of the city lord, and they also flashed with adoration.

Hehe...

At this moment, the city lord said with a smile: “Everyone has heard the situation just now, this Zheng Chao is now our people, and he is paying close attention to the every move of the little emperor and the Shaoyang king.

“Wait until I tell Ji Kitano the method of chaining iron cables, when the time comes, when Ji Beiye’s army attacks, you will pretend to be invincible, scatter and flee, and remember to preserve your strength.”

Speaking of this, the city lord’s face turned gloomy: “When Qingyun City is broken, I will settle the account with the little emperor and Na Yue Feng.”

“The subordinates understand.”

Hearing the order, more than a dozen generals responded in unison, and then quickly left and returned to the water army camp.

.....

On the other side, the altar is divided from the Heavenly Dao.

Shao Lingfeng sat in the main hall, brewed a pot of tea alone, and drank it slowly. It seems calm, but in fact, I am very irritable.

A day had passed, and all the disciples of the entire altar had been sent out, but there had been no news of Yue Feng.

“Senior Brother Shao!”

At this moment, a disciple walked in quickly, sweating profusely, but his eyes flashed with excitement: “There is news.” “

Phew!

Hearing this, Shao Lingfeng immediately stood up and couldn't hide his excitement: "Caught that Yue Feng?" "As long as you catch Yue Feng, you can not only avenge the Lord of the Deer Altar, but also vent the hatred in your heart.

At that time, if the sect master knows about this, he may be happy and can give some rewards.

Shao Lingfeng in this matter still didn't know that Yue Feng had already become brothers with Gu Qianqiu.

The disciple took a deep breath and shook his head, "No! "Mad

!

Hearing the answer, Shao Lingfeng was inexplicably angry, and couldn't help but scolded: "What did people do if they didn't catch you back?" Pastime me?

The disciple wiped the sweat from his head and said carefully: "Senior Brother Shao, that Yue Feng really didn't catch it, but we have detected his whereabouts, do you know why there has been no news of him?" It turned out that this person was a royal guest, and after leaving that day, he went directly back to the palace, of course, we couldn't find it. A

distinguished guest of the royal family? Still living in the palace?

Hearing this, Shao Lingfeng secretly exhaled, and immediately thought that Yue Feng had escorted the little emperor before, and it was reasonable to be treated by the royal family, but he never expected that the royal family would treat him a lot, and he could live in the palace.
