

An Understated Dominance by Marina Vittori

Chapter 2028

If this spreads out, will the world be shocked?

“Good, good! Good fight!”

Lily Zhang cheered for joy, her beautiful eyes shining.

He is handsome, young and promising, powerful and has a bright future.

“I am afraid that such a young talent will never be found again in the world. She must seize the opportunity and use all means to gain Dustin’s favor, even if she regrets her marriage to Kevin Snow.

“Damn it! Let him pretend again!”

Leo Alexander’s face was gloomy, his eyes full of fear.

The stronger the strength Dustin shows, the slimmer his hope of revenge.

Now, he has completely given up the related thoughts.

Now, he just hopes that Dustin will not cause trouble for him.

“We agreed to give up three moves, but in the end, I couldn’t withstand one move. It seems that the leader of your Feixue Sect doesn’t have any real ability.”

Dustin spoke calmly, with a bit of sarcasm in his words.

As soon as these words came out, the necks of the masters of Feixue Sect turned red and their faces showed indignation, but they dared not speak in anger.

Even the leader has been defeated, and these people are even less impressive.

Now, their only hope is Yan Kang.

As the number one master in the southwest, only top experts like Yan Kang have the possibility to defeat Dustin.

“Master Yan, this kid is really bullying others. Please teach him a lesson and help us regain some ground!”

Yes, Master Yan! This guy just made a sneak attack and won by luck. As long as you are willing to take action, you will definitely win! ”

“Master Yan! Please uphold justice for us!”

At this moment, all the Feixue Sect disciples bowed their hands and tried to ask Yan Kang for help.

Facing the expectant eyes of everyone, Yan Kang at this moment felt a little overwhelmed.

Because he couldn't see Dustin's depth, he was not sure of winning.

If he loses accidentally, his reputation will be destroyed in one day.

The title of the number one master in the southwest will no longer exist.

The problem is, with so many people watching now, if he doesn't take action, he will easily be criticized.

For a moment, he was in a dilemma.

“Master Yan, there is no grievance between you and me. There is no need to go to war. How about we follow my previous proposal and divide it in half?”

Seeing that the time was ripe, Margaret began to try to smooth things over.

She could see that Yan Kang was already thinking of retreating. Giving the other party a step down might help resolve the war and save him some trouble.

“Hmph! You hurt someone and you still want to negotiate terms with us, do you think it's possible?” Yiyu Longzong Dharma Protector shouted sternly.

Although Dustin's strength is somewhat unexpected, he still firmly believes that his head can win.

"Shut up! You have no place to speak here!"

Yan Kang turned around and glared, then turned to Margaret and said with a smile: "You are right what you just said. Rather than fighting to the death, it is better to be rich and prosperous together. Therefore, I agree to your terms."

"Headmaster Yan is really kind and righteous, and I admire him." Margaret nodded politely.

"Master! Do you really want to negotiate terms with them?" The Guardian of the Wandering Dragon Sect was a little dissatisfied.

"What? Are you capable of defeating the opponent's martial arts master?" Yan Kang said angrily.

"I..." The protector of Youlong Sect was speechless for a moment.

"That man is very strong. Even if I can win, I will probably be injured. There are many dangers here, and monsters appear frequently. If I am injured, if I encounter any danger, will you be able to withstand it? In the end, you still have to rely on me.?" Yan Kang said confidently.

"The master is absolutely right, but I didn't think it through well." The protector did not dare to say any more.

At this time, if you continue to refute the leader's face, you will undoubtedly be asking for trouble.

"Leave half of the ectoplasm and jewelry, and you can leave."

Yan Kang waved his hand, looking magnanimous.

In fact, I breathed a long sigh of relief.

Fortunately, the other party gave me a step up, otherwise if we really got into a fight, I would probably capsize in the gutter today.

That boy is so evil!
