An Understated Dominance by Marina Vittori Chapter 2171

Chapter 2171

“Hmph! How can it be so easy to lift a 50,000-jin cauldron? There are hundreds of people signing up every day, and there are only a handful of people who can lift a 50,000-jin cauldron!”

The strong man’s words aroused many people’s doubts.

A ten thousand catty cauldron and a fifty thousand catty cauldron are completely different concepts.

Many people can easily lift a 10,000-jin cauldron, but when faced with a 50,000-jin cauldron, they cannot move an inch.

In particular, you have to lift the cauldron above your head to be considered successful. The difficulty is self-evident.

“Everything should be done within your ability. It is not an easy task to lift a 50,000-pound cauldron.” the referee reminded.

“I have been practicing hard for more than ten years just for today. I have decided to lift the 50,000-pound cauldron. Just watch my performance!”

After the strong man said something confidently, he walked directly to the second cauldron.

The second cauldron is twice as big as the first cauldron, nearly three meters high.

Just looking at it makes one feel powerless.

The strong man walked to the 50,000-pound cauldron. After carefully observing it up and down, left and right for a moment, he finally reached out and grabbed the base of the cauldron.

“rise!”

The strong man shouted loudly, his muscles tensed instantly, and his hands suddenly lifted up.

The three legs of the bronze tripod rose slowly and gradually lifted off the ground.

“F*ck! Did you really lift it up?!”

Seeing this scene, everyone’s expressions changed and they were surprised.

However, the next second, the bronze cauldron that had just risen one centimeter fell to the ground with a “boom”.

Obviously, the strong man failed the first challenge.

“It’s a pity that I could barely lift it.”

“Hmph! You don’t overestimate your own capabilities. I already told you that you can’t do it. You have to show off your strength.”

“No matter what, if you can lift it a little, it’s pretty impressive.”

A group of players pointed and pointed, some were happy, some were sad.

“Huchi...huchi...”

The strong man was breathing heavily, and his eyes were bloodshot due to excessive exertion.

Although he had only lifted one centimeter just now, it had already consumed a lot of his energy.

The fifty thousand kilogram bronze tripod is indeed a huge challenge.

“Contestant No. 844 failed to challenge the 50,000-jin tripod.” The referee announced the result expressionlessly.

These days, many warriors who have passed the 10,000-jin test have tried to challenge the 50,000-jin cauldron, but most of them have failed.

A strong man who can barely lift a centimeter is considered pretty good.

“Wait a minute! Let me challenge you again, I will definitely do it this time!” The strong man looked unwilling.

It’s already lifted up a bit. As long as you perform well and try your best, you should have a chance to pass the test.

“Enough is enough. You can’t carry a fifty thousand kilogram cauldron.” The examiner shook his head.

“I’m not convinced! I want to try again!”

Without waiting for the examiner’s response, the strong man started directly.

I saw him spitting twice into his palms, then holding the base of the cauldron, and at the same time lowering his legs into a horse stance, all his energy poured into his arms.

In an instant, the strong man’s arms expanded in a circle, his muscles bulged, and his veins popped out.

“Wake it up for me!”

The strong man gritted his teeth, his face turned red, and he raised his hands suddenly.

“Buzz~!”

The bronze cauldron trembled slightly, then slowly lifted off the ground and rose slowly.

As a result, it rose less than two centimeters, and the strong man’s legs were shaking, his eyes were bloodshot, and his whole body had reached its limit.

Two seconds later, the strong man was finally overwhelmed. He spat out a mouthful of blood and fell to the ground.

He passed out on the spot.
