

An Understated Dominance

Chapter 2426

“Be careful!”

Kassidy was not polite. After giving a warning, she stepped forward suddenly and rushed out like a swallow.

Then she rushed towards Rivka in an irregular trajectory.

Her footsteps' landing points were erratic and unpredictable. This was one of the unique body movements of the Celestial Alliance, the Flying Swallow Step!

The Flying Swallow Step was famous for its agility, both offensive and defensive, especially the acceleration in a small range, which was even more unique.

When it accelerates suddenly, it can often achieve unexpected results.

“Flying Swallow Step?”

Rivka narrowed her eyes slightly and recognized Kassidy's body movement instantly.

She did not hesitate. The blade tip suddenly slashed diagonally, and more than a dozen sword shadows burst out in an instant, sweeping towards Kassidy.

“Swoosh, swoosh, swoosh, swoosh...”

The sword shadows raged, and the strong wind whistled, shocking many in the audience to change their faces.

Her swordsmanship was indeed exceptional, as expected of an elite Sword Union disciple.

Any strike of the sword had such a terrifying power. A single strike would likely defeat an ordinary warrior.

Facing the sword shadow that was coming at her, Kassidy did not choose to resist it head-on. Her body accelerated instantly, leaving several afterimages.

Using the Flying Swallow Step's agility, Kassidy easily avoided the sword shadow's attack.

Kassidy was already close to Rivka, with the half-moon scimitar in her hand, slashing horizontally from the left and right, taking advantage of this gap.

Rivka's eyes condensed, her body suddenly leaned back, and while avoiding the horizontal slash, she slashed down with a sword vertically.

"Clang~!"

The sword and the double swords collided in the air, splashing a spark, accompanied by the agitation of true energy.

The two separated as soon as they touched, taking a few steps back at the same time.

After the test just now, they had a rough inference about the strength of their opponents.

In terms of cultivation, the two of them were almost identical. If they confronted head-on, no one would get the upper hand.

What was tested next was their combat experience, various skills, and, of course, their respective trump cards.

In the end, hidden tricks often hold the key to victory in life-or-death situations.

"Come again!"

Kassidy was very competitive, and after failing to gain an advantage with one strike, she launched another attack.

This time, she performed the Flying Swallow Step even faster, and the whole person turned into a shadow, rushing straight towards Rivka. The scimitar in her hand flashed with silver light, a somewhat chilling glow.
