

## UNEXPECTED TEMPTATION: BILLIONAIRE LOVE STORIES CHAPTER 191

Luke Hastingson

I looked at her disbelief as I saw her wearing a black turtle neck crop top and black tight jeans that shows her curves perfectly.

She smirked to us as she entered the lift, she stood right in front me and I swear I can't stop staring at her.

"What are you wearing?" I asked and that got out from my mouth unconsciously but she ignored me. She gave me a cold shoulder. She walked out first from the lift and I swear I wanted to touch that bare skin so badly.

"What did you do to her dude?" Max asked and I shook my head.

"Looks like someone trying to hold the magnet." Kennet teased and we entered the meeting room. Hailey was talking to Janet and I sat on one of the chairs to start the meeting.

Suddenly a guy came to the meeting room, Hailey sat beside Janet and the guy sat across her and I sat right beside that guy.

As the meeting starts, I can't focus my head on the meeting. My eyes was stuck to Hailey, it's not because she dress like that. There's something about her.. that is not right.

She suddenly looked straight and started to wink and smirk to the guy beside me. She bit her lips completely flirting with that guy in front of me. My chest was burning and ready to kill the guy beside me so badly.

"This is a meeting room not a place to flirt or to f\*\*\* here!" I bursted angrily and stood up. I looked at her angrily and she smirked.

"I'm sorry Mr. Hastington. I'll take that note. I'll flirt and f\*\*\* outside next time." She said and I didn't believe she just say that. What the hell! Is this really Hailey? I was beyond mad and my body was just burning with anger.

"Do you come here to work or what? Try to wear a decent clothes!" I said and she glared at me.

"No I'm here flirt and f\*\*\* just like you said" She said, seeing her flirting with someone else already makes me want to kill the guy. If she's really f\*\*\* the guy, I'll cut the guy into pieces and feed the sharks with it.

"Do you want to be fired?" I asked.

"Go and fired me! You always like it when I'm failing right?" I looked at her disbelief.. who said that I like her when she's failing?

"Hailey!" I've had enough.

"Wow you got my name right this time, Luke." She said in a sarcastic tone.

"Enough!" Sky stopped and I took a deep breath. I walked out from the meeting, I don't know what will I do to her if I still there. I pressed the lift and went down to the lobby.

My anger took over me and I walked to the toilet to wash my face. My body was burning so badly, I never have this so much anger before. It's killing me!

I walked out from the toilet and saw her walking out, I quickly caught her arm her. Just like before, it didn't turn out good. I followed her.. at first, I lost the sight of her taxi but I memorized the number of that taxi.

I looked at the club and walked inside to find her. I walked through the sea of people dancing and found her kissing with some blonde guy and that guy was cupping her ass. My anger blew up and can't stand to look at that view anymore.

I was mad 3 times than before, I quickly walked to her and pulled her away from that guy. I punched him to let out my anger. She was mad too but I carried her out.

She really tested my anger today, never in my life I was mad like this. Today was pretty historical.

Hailey Anderson, was the first woman who got me mad like a crazy guy. She makes me to mad until I can't control myself and my anger.

Now she's beside me, looking out the window. I'm still trying to calm my anger. I drove to her apartment.. don't ask me how I know it.. I know.

She just stayed silent all the time, thank God she didn't say anything to make me mad again or else I don't know what to do. She's really getting on my nerves and my system these days.

2 weeks not seeing her, no messages, no breakfast, no annoying calls, no annoying whines.. felt weird. It's like I lost something.

Maybe I was used to her presence for the past 2 months and then suddenly she disappeared that habit is gone. The weirdest thing that I do was staring at my phone.

I admitted it, I stared at my phone quite a lot and everytime it rang I always get excited like a stupid boy. Honestly that's not the only thing.

I stopped in front of her apartment, I took her phone from the back and handed it to her. She didn't say anything, she just took her phone from me and gestured me to open the door.

I got out from the car and opened the door from her, she just looked at me blankly.

"Thanks." She said and walked away. I saw her walking inside.

I stupidly hoping for something else beside her saying thankyou.. but.. what's wrong with me?
