

UNIVERSAL JOB CHANGE: I CHOSE JOBLESS INDIVIDUAL

Chapter 10

Generally speaking, in order to maintain neutrality, invigilators are naturally not allowed to make random remarks.

However, Yunchen's performance was so good that he couldn't help but blurt out words of praise.

Second, he has been an examiner for many years, so he naturally knows that this person has a probability of more than 90% being the first person in the college entrance examination of Dongyun High School.

Dongyun High School, as a key college entrance examination, is not outstanding in Jiangnan Province, but it is not weak.

If the students in the follow-up level can go further, not to mention the top ten in the province, the chances of competing for the top prize may be very large.

In this way, it is not bad to have a good relationship with Shinonome High School and form a good relationship.

"Feng Shui takes turns..... It's time for us to have a great from Dongyun High School

."

"Hahaha.....

."

Principal Fang was already smiling at this moment, quite happy, and there was no trace of displeasure at all.

Since the establishment of the school, the most powerful college entrance examination student in Dongyun High School is only the eighth in the province.

Now it coincides with the first batch of results of the Xuanlong State's ten-year compulsory education support plan released this year, and the scale of the college entrance examination has expanded many times compared with the past.

More qualified applicants than in the previous three years combined.

Everyone is like a dragon!

Everyone has the opportunity to be promoted!

No matter how you look at it, the competitive pressure of this session can be called epic, hellish difficulty, the top ten, and the gold content of the champion can be said to be much higher than in the past.

"I think this Yunchen guy is determined to win the top five in the province. "

"Lao Yuan, you are conservative, there are definitely the top three. "

"The best record in school history should have been broken this year. "

The teacher on the side was already a little flattering.

"Xiao Jin, come and sit down here.....

Principal Fang's attitude can be described as a 180-degree change, and now he is kind of talking.

There was originally a vice principal sitting next to the principal, but now he deliberately gave way to Jin Sheng, the head teacher of the third class.

As the old saying goes, a mother is more expensive than a child.

Now he, the head teacher, is covered with light from Yunchen.

Not though

This kind of half-time champagne is somewhat discrediting.

Jin Sheng smiled, but he was still cheering for his proud student in his heart.

Those who travel a hundred miles are half ninety.

Under the difficulty of the nightmare, the exam may be more than halfway, and there will still be some difficulty in the future, he only hopes that Yunchen must be stable.

Seeing that Jin Sheng was a 'guest of honor', the two rocket class teachers smiled bitterly.

Although helpless, they also knew that the students in the first and second classes would probably not be as good as him.

"In the end, I only hope that the two brothers Xiaowen and Dawen, who were the first to be pinned on high hopes, can fight for me. "

The teachers were talking.

Naturally, the students in the audience were also full of discussions.

"Sanren is too showy, hundreds of low-level skills of all professions can be played. "

"Teacher, I also want to be a jobless person, don't turn to a mage, and follow the example of Senior Yun. "

"It seems that the unemployed scattered people are the version of the answer!".

Many of the first-year high school students nodded their heads.

As soon as he finished speaking, the student who coaxed him not to become a mage was scolded.

"I asked you to learn Yunchen to learn his monster-killing skills and ideas, and to learn how he subtly used his skills to make it exert one hundred and five percent of the effect, but you didn't grasp the point. "

"Aside from the top combat awareness, you can use a dagger and a hidden blade as a mage?"

"Do you know how to use a sword?".

"Can you use two guns?".

"Do you know how to fight?".

"Let's put it this way, if you also follow the trend and play scattered, then you may not be able to pass the college entrance examination, let alone the grades, whether you can survive or not is another matter. "

The

teacher in the first year of high school poured a basin of cold water on these brain-based students.

This is not a game.

The

strength of skills at the same level varies from person to person.

If you don't master the weapon, it's really fatal.

If you want to fully master hundreds of primary skills, you must have a good grasp of the weapons used in various professions, at least with a good level of proficiency.

It's so hard to ask for, it's just a trick.

In this way, it seems too difficult to disperse without a job. "

"I'm still honestly a mage.....

."

This moment.

Those students who were shown off and wanted to follow suit were finally hit by their own shortcomings.

Is this road only accessible to this senior Yun?

'He who learns from me lives, and he who resembles me dies!'

Some students had this phrase in their minds.

What they have to learn is the fighting skills and awareness of the other side.

Instead of blindly following the trend and choosing to scatter people.

Someone was not convinced.

One of them muttered in a low voice, "I see that Senior Yun still has a gun on his body that is useless, does he still have a top-notch marksmanship with accurate headshots?"

"And the spear and shield on the back.....

."

"And the power gloves of both hands, there won't be a one-handed fighting technique!".

"That's an exaggeration..... He's also human, so I don't believe he can fight spears, and he can also fight and grab warriors and martial artists!!".

Before this, everyone had already noticed that the equipment worn by Yunchen was not ordinary and complicated.

Now that I think about it, if this guy still has a very exaggerated and accurate headshot marksmanship.

At this moment, even the teacher who opened his mouth to refute may not be able to accept it.

Even if this young man is cultivating in his mother's womb, he won't be so exaggerated.

"I think it's gone.....

."

"After all, he is more than halfway through the exam, and he has not seen any use, so his proficiency may naturally be far inferior to his own kendo, assassination skills, and even magic casting. "

The senior one teacher said firmly.

It's just that for some reason, in the end, his heart is inexplicably a little empty.

"It's over. "

"So fast..... The hall was completely cleared, and all the support was gone. "

In this short period of chatting and discussion, all the goblin monsters on the screen and in the hall have been killed.

"It's still so precise, so beautiful, and doesn't make a superfluous sword. "

"Huh.....

."

He walked to the next underground level, not intending to rest. "

At this time.

Principal Fang and the other teachers, who were still smiling just now, also looked pale, frowned, and couldn't help but sit up straight.

"Messing around

."

"Why did this kid suddenly lose his breath. "

Principal Fang was a little displeased.

"This

".

Jin Sheng, who had been worried all the time, made his heart beat a lot faster inexplicably.

It's time rush!

But..... Wouldn't it be too hard?

After all, this is the college entrance examination, and there is a score after clearing the customs.

As long as the top students in the province rush to the top 100 in the province, they will basically choose the single-player nightmare difficulty mode, and the rest depends on the time of the dungeon clearance!

Now..... Yunchen, who had just been touted to the sky, did not choose to rest, and directly pushed the door of the next level.

This directly made all the teachers and students who had a much more relaxed atmosphere quickly nervous.

.....

.....
