

UNIVERSAL JOB CHANGE: I CHOSE JOBLESS INDIVIDUAL

Chapter 2

Following.

The day of the college entrance examination.

On the square of Dongyun High School, thirteen classes have gathered above.

In the middle, I saw a bronze secret realm gate half-suspended in front of everyone.

"When the bronze gate is lit, it will be the copy opened, the official college entrance examination will begin, and you can enter the secret realm gate with your mind in contact. "

Jin Sheng, the head teacher, emphasized to his students.

However, this year's exam questions must not be very simple, the copies of the college entrance examination arranged by Lao Ge before the questioner, one is more difficult than the other, and the students of the class who are responsible for the questions every year are all crying in pain.

It's hard, it's so hard.

"I hope Lao Ge won't work too hard this time. "

Many people hope that Lao Ge will be a person.

Before the bronze gate was officially opened, no teachers and students knew what the exam questions were.

"Ten seconds countdown, ten, nine..... Three, two, one!".

"Here we go!".

At 8:30 a.m., the bronze gate, which was originally dull, suddenly released a brilliant luster.

Under the background of the sun, the glittering bronze gate slowly opened, opening to both sides, and a deep and vast aura suddenly emerged from it.

Every student with a tense expression naturally did not miss the opportunity to answer the question, and immediately let their consciousness communicate with the bronze gate.

[Dungeon Secret Realm: Goblin Dungeon].

[Level: 10~13]

[Difficulty: You can choose Easy, Hard, Nightmare].

[Number of people: 1~5 people].

[Notes: Unknown dungeons are full of goblin settlements, and the fierce and hideous goblins are very fond of human flesh and blood].

When the pop-up window showed the goblin dungeon, everyone's expressions were completely uncontrollable.

"Wait, it's a dungeon..... There won't be a layer structure. "

"Goblins are not scary, what is scary is the scale of numbers, there will not be many dungeons!".

"It's worthy of Lao Ge! Don't think about it easy when this guy asks questions!".

Everyone complained.

But it can be quickly

The entire wide square immediately ushered in many calls for team invitations.

Of course, the role of a nurse like a priest is fragrant, and he doesn't worry about teaming up at all.

Of course, considering in advance that the person who wrote the question is Lao Ge, everyone has already had an old team in advance.

In general, class balance is important, and warriors, mages, and priests are a must.

The warrior front row is the MT to attract hatred, the mage AOE has a high damage output, the priest is crazy in the front row, and the rest of the team classes depend on what needs to be added.

If someone needs to make up the output, you can have another mage, or a magic swordman, a martial artist, a sharpshooter, etc.

The jack-of-all-trades are summoners, mechanics, hunters, and other professions.

However, Yunchen, who had already prepared in advance, chose to place a copy alone.

When his mind communicated with the bronze gate, within a few seconds, his entire figure had disappeared in place.

The college entrance examination has officially begun!

"Yunchen he".

The head teacher, Jin Sheng, had already noticed his behavior of entering the copy alone, and he was immediately shocked.

The more people enter the dungeon, it means that the weight of the score will be reduced, and even the fixed rewards in it may require several points from several people.

If a person clears the dungeon alone, the difficulty of choosing is also high, and the weight of the score is naturally high, and one person can enjoy the boss reward exclusively.

But..... The stakes will also be very high, this is not a real game, once you die in it, it is really a complete fall.

The evil tiger is still afraid of the wolves, he only hopes that this student, who he is quite optimistic about and has a talent for fighting, will know the difficulties and retreat.

The old team had already been prepared, and in less than a minute, all the college entrance examination students in the square had entered the copy without exception.

In the next second, the invigilator in front of the bronze gate immediately waved his hand, and saw a holographic screen directly presented in the sky above the gate, and all the student information and status of Dongyun High School appeared on the screen without exception.

Class 1 and Class 2 naturally attracted much attention as rocket classes, and in addition to the class teachers in the square, there were also principals, sophomores, and first-class students sitting around to watch.

"It's worthy of the rocket class, except for the formation of three teams, basically everyone chooses a single brush dungeon!"

"Wait..... There is also a person in the third key class who chooses to brush the copy alone, and his career information shows 'none!'".

This sentence immediately attracted great attention.

Suddenly, there was a great uproar and controversy emerging from the entire viewing platform.

"Jobless and scattered!".

"Oh my God, he's crazy and chose not to change jobs?".

"What kind of routine is this, I don't really think that it is great for unemployed casual people to master the low-level skills of all professions, you know, scattered people can't learn vocational skills!".

For a while, everyone's attention fell on the 'Yunchen' in the third class, and the blank full-time information could only be said to be unique, too much to attract attention.

The principal of Shinonome High School immediately turned dark, as if waiting for an explanation.

Jin Sheng, the head teacher of the third class, didn't know where to start, and he also seemed a little stunned and shocked.

Yunchen, as a student he values very much, has always been very stable before, and he has always reassured him, for fear of pressure, he basically didn't talk to him much before the college entrance examination.

Who knows, the other party shocked him all of a sudden!!

What does this guy want to do?!

But..... His talent is indeed very suitable for Sanren, but this is not a game, Tu Yile is not good, and Sanren has no future at all.
