Damien's pov
```

You see my mom is a typical mother. She is really protective of her children and their mates. She loves everyone, she

is not capable of hating anyone. So I'm sure she will love bella. What I'm worried about, is me. She won't let me off the hook, and i know dad will join her. He is the puppet of her hands. "You don't say. You turn into a love sick puppy when it comes to our bella!" Dom said in my head.

"Same goes for you too Dom"

I sighed and looked back bella and Joey were cuddled on the bed. They must be tired after all the fun they had. That

brought a smile to my face. But i have things to take care of. I have to talk to my mother rst. Oh god, help me. I tell Nate to go, and i will handle things. I write a quick note for bella and exit the bedroom. I don't want to disturb her sleep.

I go to the roof top and call her. Riiiinnnngggg

"Damien Jameson Owen! What the hell is going on! You found your mate and din't tell me!" Mom shouted.

"Mom! I'm sorry i could not tell you right away. The situation was not good and we had some problems here, that's why i had to stay here for a while, but i promise I will bring her there soon." "What is her name" she asked in a much calmer tone. I sighed.

"Isabella" a smile forming on my lips just thinking about her. "Oh, such a sweet name! What is she like?!" I could feel her excitement from here.

"Yes mom that's what u said when i heard her name. And she is so cute! She is very sweet, Caring, kind and basically everything it takes to be a perfect mate and luna. She's the best." I said proudly. My bella makes me proud and i will show her off to everyone.

"Just bring her here ok. I can't wait to meet her. For the time being, atleast send a picture of her" she requested. I

know my mom is really happy. "Of course mom. I'll send you her picture, tell me if you like it"

I send her the prettiest picture of bella. I took this picture sneakily. She was outside in the garden, surrounded by owers and the sun shining on her beautiful face. She looks like a goddess. I waited for a minute before calling again.

"OMG!! She is so pretty! You are one lucky man dammy!" I groaned at the old nickname. "Mom! Don't call me that! And i know she's pretty, very pretty" i said and i knew i had a wide smile on my face.

"Damien your dad wants to speak to you, and you better bring her here this weekend. For you know what" she said the last part in a whisper. It was my parents anniversary on Saturday and she is hosting a surprise party for dad.

"Hello Damien, how are you son" my dad's happy voice always made me smile.

"I will ask her mom, but she is not comfortable around crowds. And if she doesn't want to come, then I won't force her. She's been through a lot" i explained.

"Ok, but please atleast try, i want to meet my future daughter in law. Now I'm giving the phone to your dad" she said.

"I'm perfect dad, how are you?" I asked and paced around the rooftop. I want to check on bella. "Good. I heard you found your mate. And i saw the picture you send, she is really pretty. I'm proud of you son. Keep her happy." He said and i nodded, then i realised he couldn't see me, so i gave him a 'yes'.

"Bye" I hung up and made my way back to the bedroom. I opened the door and saw bella sitting on the bed, staring at the walls.

"Baby? What are you doing? And where is Joey?" I asked and closed the door. Behind me. She looked at me and

smiled slightly. Not a bright smile. I frowned and sat beside her. "She left, saying she has work. I couldn't make her stay"

"Baby, is something wrong? Tell me. Don't hide anything"

Nate strutted in. With an evil smile on his face. Now what?

"This better be good, Nate, or i swear i will break all your bones."

"Rose day?" He was looking at me as if i was an alien.

"Don't worry, your my best friend, i will help you."

"Nate, i know what to do" i said with a smirk

Now time to prepare for the plan ahead....

"She will be attered Damien! This is so going to work!"

He nodded and bro-hugged me.

I rubbed my hands together.

"Come in, it's open"

"Ok then, we will talk to you later, hope to see you soon son. Take care of yourself and Isabella"

"Baby, Don't worry, i will set everything in its place. Everything will be alright. No one will suffer. I promise" i said and hugged her. I shifter her on my lap and burried my head in her hair. Her head rested on my shoulder and i felt her nod.

"I trust you Damien. I love you" my heart soared at her words and my frown was replaced by a big smile.

"I love you too, So much" i give her a small kiss and pull away from the hug.

"Damien, why is everyone so bad here? First they mistreated me, now Joey. Then someone else. This will keep going. I

"Baby, can i ask you something?" "Anything Damien"

"Baby, there is a party at my pack this weekend and my parents want you to come. It's their anniversary. If you don't

feel comfortable you can refuse, no one will force you" i said looking at her face. She seemed to be thinking about it.

"Of course baby, I'll not leave you for a second. I'm so happy you agreed, my parents will be overjoyed that you said

"What?" I asked "Alpha it's me! Nate! Open the door!" I'm sure he does that on purpose. Come on, he always arrives at the wrong time.

"Ok, I'll go. But will you be with me the entire time? I don't want to be alone" she said with a smile.

yes." I said and kissed her cheeks. And before i could say anything else there was a knock.

"Ok" bella said and got off my lap. I gave her a last kiss and she left. Much to my dismay.

"Damien, you know what is today?" He asked avoiding my statement. "Today is 7 February 2018"

"Rose day! Valentine's week!" Then it clicked. It's valentine's week. Oh god, how could i forget! "Oh god! What do i do now! I totally forgot! Nate help me;" i said. I have always wished to celebrate valentine's with my mate, and when the chance nally arrived, i forgot!

Then we spend an hour sur ng through the internet about ideas. It was absolutely useless. Then i

want to make bella feel special, i should do something original. And i know exactly what to do.

"And what might that be?" He asked narrowing his eyes suspiciously . I leaned closer and whispered in his ear. After the narration of the plan, i saw a smile forming on his lips.

Isabella's pov. I left Damien and Nate to talk and went to the kitchen. I love cooking, so lets make something. Gathering whatever was needed, i started to cook. As i was stirring some vegetables i felt a presence behind me.

"So, what did Damien get you?" A voice said behind me. I turned around to face Morgan. I decided to ignore her.

"I'm talking to you! Hello!" She tried again. I nally graced her with my attention. Damien said that i was a princess, so i should behave like one. Not to take poop (s\*\*t) from anyone. But now she will not let me do my work unless she is done. "What?" I asked. She raised an eyebrow and scowled.

"I'm your Luna, you can't speak to me like that." She said and for a second i was afraid of what she might do, then i

remembered, even I'm a Luna. Not of this pack, but the nightfall pack (Damien's pack), she should respect me too.

"That goes for you too, Luna Morgana, even i am a Luna, Luna of Nightfall pack. You will adress me with respect too." I

said in a con dent tone. I won't let them step over me, not anymore. I will make Damien proud to call me his mate. "Hmm, so what did Damien get you?" She asked.

He saw me approaching and smiled. His eyes roamed over my body. "You look like a doll, baby, so cute." He came and hugged me. His sent was so intoxicating. Heavenly, like fresh rain. He was wearing dark jeans and red button down shirt. He managed look like a runway model even in simple shirt

Damien had some business to take care of, so we didn't see each other the whole time. I came out of the bathroom

I was ready. I was wearing a simple pink dress. I tied my hair in a messy bun, and i was done.

"We are nearly there, baby" Damien said and i huffed. It's been like this for so long and now I'm getting hungry. "Ok, we are here" Damien announced and i instantly perked up. I tried to look outside, but damien din't let me. "Wait baby, rst we need to tie this around your pretty eyes" he said and revealed a long piece of clothing. A blind

roses. "The surprise is not yet over, sweetheart" i looked at him, there is more?

"What..so..funny" i said, still struggling to breathe. "Nothing, just really happy." "Oh"

"Hmm?" "You know today is rose day, start of valentine week. Guys get their girls roses and make them feel special." She said and giggled or i think she attempt to giggle. "No he didn't get me anything, he doesn't need to, out relationship is based on love, it's not materialistic." I said, she just shrugged and smirked. "Mason got me dozens of roses, all different colours, isn't that romantic, he is so cute! He is the best mate ever!" She said and before i could reply, she left. I know what she is doing, she wants me to feel jealous. Jealous that she has Mason, and that he showers her with gifts. But that it won't work. I don't need mason now, i dont want him. I have a much better mate, Damien is everything i could ask for, and he is the best gift. I continued to cook, not thinking too much about her. Strong arms wrapped around my waist and i knew it was Damien. He burried his face in my neck and inhaled. Then he kissed my cheek and rested his chin on my shoulder. "I'm so proud of you. I heard your conversation with Morgana. You are so con dent now, and it's a very good thing. And you are right, you are the Luna of the Nightfall pack, you are to be respected, and those who don't, they will have another thing coming" he said. I leaned into his touch and closed my eyes. "Hmm" "And, i think we should go out, change of scenery will lift your mood. You know just a small picnic outdoors. How does that sound?" I liked the idea. "Yes, that will be good" i said and he leaned in for a kiss, but before our lips could meet, a clashing sound made us jump apart. I looked around and saw a innocent looking Nate standing over a broken plate. He looked up and blinked. Then

walked away. "Umm, so be ready at 5, we will spend some time, without interruption and have dinner. Okay" i nodded and he kissed my head. "Love you baby" "Love you too"

the driver seat and started driving. "Where are we going?" I asked curiously. "Umm not telling, it's a surprise" he said with an amused smile gracing his lips. I became excited. This will be my surprise. I never received surprises from anyone. I squealed and mumbled an 'ok' which only made him laugh. \*\*\*\*\*\* An hour later. I hate surprises! We are on the road for an hour now and Damien won't tell me where we are going. My patients is wearing off now and I really want to know where we are going.

A small ruby pendent was wrapped around my neck in a golden chain. It was simple and elegant, i loved it.
