

The Unloved Mate Chapter

For all those who think that Damien didn't do anything to the howlers pack for how they treated Isabella, I would like to clarify that in fact he did.

I could not write it accordingly in the chapters but it is understandable. He mostly told Nate to take care of all the stuff. He also threatened Mason to strip him off his title.

As for Benson (his cousin) he never told Damien that it was the howlers pack that killed his relatives. Not till the end at least. So please try to understand, and also I don't like writing all the torturous stuff, I feel like bargaining so please just imagine that Damien had done a lot of damage....

PLEASE!!
