

## **Unparalleled 101**

### Chapter 101: The Spring Flower Pen Conceals Mystery

Therefore, unless it was absolutely necessary, no one in the martial world was willing to do this. After all, they were already at a disadvantage in terms of official positions.

“So I want to ask you, if you really go to the Yin Posthouse, will you have to stay there for the rest of your life and not be able to leave every day?” Xu Bai smiled.”

Liu Xu shook her head.” That’s not the case. There should be two post station chiefs, divided into a chief and a deputy. The deputy will be arranged by the chief and will take turns on duty. However, the promotion to a county was an accident.”

No Flower added,” If we don’t use two, all the salary will be taken by the postmaster alone. Sheng County is a remote and small place. I guess the old postmaster wants to take more salary. After all, he is about to retire and return to the fields.””

“Two people take turns to guard...” Xu Bai’s eyes lit up when he heard this.

Very good, there was still room for maneuver.

In fact, he had been thinking about his future plans.

The Yin Posthouse had opened up a new path for him.

Don’t forget that the people in the Yin Posthouse were all from the martial world.

The courier had to bring goods with him to carry out transactions inside. If he could get a progress bar from the goods, he would definitely earn money.

He didn’t notice it the last time, but that didn’t mean he wouldn’t notice it the next time.

Most importantly, it was not just the posthouse people, but also the people of the martial world who came and went, and even the Heaven Inspectorate.

People who came and went would also bring things. Wouldn't they make a profit if they came and went?

Moreover, he had heard that as long as there were two people, they could take turns on duty. It would not delay him from looking for progress bars elsewhere.

Most importantly, it was relatively safe.

As for finding a person, it was actually very simple.

In this day and age, there was no lack of people.

The choice was not about being far-sighted, but about being suitable.

Going to the Heaven Inspectorate was not suitable for the progress bar, but Yin Posthouse was more suitable.

"You really want to go to the Yin Posthouse?" Liu Xu's eyes widened in shock.

"How can I become a station chief?" Xu Bai asked.

"There's still a month before the station chief of Sheng County will retire and return to the fields." Liu Xu thought for a moment and said.

"I can help you too." No Flower said.

The post of station chief could be done through recommendation, and not many Jianghu people wanted to be this official.

“Thank you, both of you.” Xu Bai said modestly.

“You should be more arrogant. I’m not used to you acting like this.” Liu Xu hurriedly waved her hand.

No Flower also had an expression as if he had seen a ghost.

Humble?

The two of them had never seen Xu Bai being so humble.

“If there’s nothing else, I’ll leave first.” Xu Bai stood up and prepared to leave. It was already very late. He had to go back and rest for a while. Then, he would

Time as soon as possible to the spring Flower Brush.

Liu Xu and No Flower didn’t stay any longer and watched Xu Bai leave.

After Xu Bai left, the room fell silent.

“Patron, why didn’t you persuade him?” No Flower asked.

“Do you think I don’t want to persuade him? But is this useful?” Liu Xu said speechlessly.

No Flower thought about it, and it seemed like that was the case.

With Xu Bai’s temper, he really couldn’t persuade her.

“In short, I believe he has his own plans.” Liu Xu walked to the door and said, “He definitely can’t be a short-lived person. ””

No Flower thought about it carefully and agreed with Liu Xu’s point of view.

“Let’s go.” Liu Xu didn’t turn back and turned to leave.

In the blink of an eye, Liu Xu disappeared into the darkness.

After Liu Xu left, No Flower took out the wooden fish and lightly tapped it.

This time, the sound of the wooden fish was very chaotic, not because of Xu Bai, but because of himself.

His mind was in a mess for this mission.

The chaos in the world of mortals became more and more serious. Just as Yang Chang had said at that time, his heart was completely in chaos.

“After I return, I need to ask Master. Otherwise, my Buddhist heart will completely collapse.” No Flower thought.

On the other side, Liu Xu returned to her room and locked the door.

She took out a book from the bookcase. On it were the words “The Way of Righteousness”.

After flipping through it countless times, Liu Xu was extremely frustrated and flipped through it more and more frequently.

However, the more frequent it was, the more frustrated she became. She put down the book and got up to open the window.

Outside the window, the night was as dark as ink.

Liu Xu thought about what Yang Chang had said about the Ninth Princess and couldn't fall asleep.

The next day.

At the Hidden Dragon Escort Agency.

Morning was the best time to train. Escorts came in from outside and began to practice in the courtyard.

Liu Er was also practicing, but he had not been very stable recently.

It had been more than ten days since Xu Bai had gone missing. In these ten days, he had been managing the bodyguard agency.

Although their reputation had been ruined because of the escort mission last time, they had still received a few escort missions.

After all, in the entire Sheng County, there was only the Crouching Dragon Bodyguard Agency.

After these few escorts, the escorts were all interested. Recently, their business had been slowly recovering, and they were more and more confident.

After all, everything they did was for themselves, unlike the past where they only had one salary.

Working for oneself and working for others were two completely different things.

Therefore, the escorts became more and more enthusiastic.

However, Liu Er was still worried about one thing. Why hadn't Xu Bai returned yet?

To be honest, there was still a lot of fear in the hearts of all the escorts.

However, other than fear, there was more joy in finding a backer.

Chapter 102: The Mystery of the Spring Blossom Brush (4)

"Brother Liu, what are you still thinking about?" One of the escorts saw that Liu Er was in a daze and asked subconsciously.

Liu Er came back to his senses and shook his head." It's nothing. I just don't

know why, but Escort Leader Xu hasn't come back yet.""

The bodyguard scratched his head hard after hearing what Liu Er said. He looked confused.

"Brother Liu, hasn't Escort Leader Xu returned? I was the first to arrive this morning. Then, I saw the escort master walking around in the courtyard. I even went up to greet him."

When Liu Er heard this, he was slightly stunned,

What was that?

He's back?

When did he come back?

“Why didn’t you tell me?”

“I thought you knew, and it’s okay. I went up to ask. If there’s anything you need, I’ll help. “The bodyguard revealed a very innocent look.

Liu Er sneered. He had already seen through this guy’s reputation, and he had seen it very clearly.

In this day and age, one had to hug someone’s thigh early. If he was late, he would only be able to queue to the end. This guy met the escort master in the morning, but he did not tell him. There was definitely something going on.

“Haha.”

Liu Er saw through it, but he did not say anything. He turned around and walked to the backyard. When he was close to the backyard, he stopped and shouted at the backyard.

“Escort leader, is there anything you need me to do?”

As Liu Er finished speaking, the bodyguards who were training stopped. Then, they all understood that the escort master had returned.

Their faces were filled with joy, but they did not put down the weapons in their hands. They seized the time to continue training.

Our escort master doesn’t like lazy people. He has to be more diligent.

The backyard was silent. Just as Liu Er thought that there would be no more noise, Xu Bai’s voice rang out.

“Come in, I just happened to have something to talk to you about.”

It was such a simple sentence, but it put Liu Er in a difficult position. He looked at the boundary between the backyard and the front yard, and a conflicted expression appeared on his face.

As everyone knew, there was a locust tree in the backyard. Moreover, the locust tree was especially strange and would bring unimaginable situations to people.

None of the escorts dared to go in, but now the escort master was letting him in. At this moment, Liu Er felt a little afraid.

He tried his best to control his inner thoughts. In the end, he gritted his teeth and walked in.

Enter! He had to enter!

Since the escort master had already spoken, if he did not enter, it would instead cause displeasure in his heart.

Moreover, what the bodyguard did just now had already aroused Liu Er’s vigilance. In this day and age, there were even people who fought to hug someone’s thigh. If Liu Er did not show some extraordinary strength, wouldn’t he be eliminated?

I’ll go all out!

Since it was the escort master who said to go in, then he would go in and take a look.

As Liu Er raised his foot and stepped into the backyard, he gritted his teeth and closed his eyes, as if he was about to suffer a storm-like attack.

However, after waiting for a while, the situation he imagined did not happen. He looked left and right and found that he was unharmed.

“I’m fine!”

Liu Er was overjoyed, but he did not dare to forget that Xu Bai had called him in. He forcefully suppressed the joy in his heart and walked toward Xu Bai’s room.

After reaching the door, Liu Er raised his hand and gently knocked on the door, shouting in a slightly low voice. “Escort leader, what’s the matter?”

“Let’s talk inside.”

In the room, Xu Baixia’s voice could be heard again.

Liu Er no longer hesitated. He carefully pushed the door open and entered. After entering, he turned around and closed the door. Only then did he size up the situation in the room.

The terrifying escort master was sitting on a stool with his hand on the table. He was drinking tea and playing with an ancient brush.

“Escort leader.” Liu Er didn’t know what to say. After shouting, he stood on the spot, raised his head and puffed out his chest, and lowered his gaze to the lowest point.

If the escort master needed him to do something, he would say it. If he didn’t need it, he wouldn’t ask. Some things shouldn’t be too involved.

If he asked too much, it would be easy for him to get into trouble.

Liu Er was very clear about this point and did not dare to overstep it.

Xu Bai put down the teacup in his hand and looked away from the Spring Flower Brush. He sized up Liu Er with interest.

Liu Er looked down at his nose and heart, concentrating and not saying a word.

“I remember that all of you are afraid to enter this backyard. You are very courageous, so why did you dare to enter?” Xu Bai said indifferently.

Liu Er answered quickly, “Because I know that the escort master has something to ask of me. As long as it’s something that requires me, I will do my best without any hesitation.”

This sentence was said loudly and firmly, but it was all flattery.

There was even a hint of flattery.

The so-called highest realm of flattery was to flatter the person, making the person flattered feel comfortable and not embarrassed.

Liu Er believed that he could do it.

“You have guts to come in. I called you out for this reason. Congratulations, you have passed my test.” Xu Bai replaced the teacup with a new one and poured a cup for Liu Er to sit beside him.

Liu Er quickly walked over, carefully picked up the teacup, and took a sip.

Throughout the entire process, he did not even dare to make any big moves.

“I know you. Your parents died early and you didn’t have a family. You grew up with difficulty. In the end, you secretly learned a few moves from a martial arts master and became an escort.” “Oh, right.” Xu Bai said slowly, “The first person who met me this morning told me all this.”

The so-called first person he met was naturally the bodyguard who had spoken to Liu Er at the beginning.

Liu Er gritted his teeth and sighed. That guy had too many schemes and plots. He looked honest, but he did not expect to reveal all his secrets..

Chapter 103: The Mystery of the Spring Blossom Brush (5)

But it didn't matter.

These things weren't secrets, and it didn't matter if they were known.

"It's normal for the escort master to know." Liu Er said.

Xu Bai turned the teacup in his hand and suddenly said,""Do you want to stand out? Or in other words, if you want to be a martial artist, do you want to be a real official?"

These words came too suddenly, and Liu Er did not react for a while. When he reacted, his face revealed a shocked expression.

Then, he made a gesture.

Liu Er knelt on the ground and said in an excited tone,""Escort leader, you... Are you going to nurture me?"

He was a very shrewd person and had long understood the meaning in Xu Bai's words.

"More or less." " But not now," Xu Bai said." I'm just giving you a reminder. Do you agree or not?"

Liu Er nodded vigorously. "From now on, my life belongs to the escort master. The escort master can take it anytime he wants!"

He was excited!

Everyone wanted to become a martial artist and enter the ranks. This was something that ordinary people like them dreamed of.

Now that there was a chance, and it was a huge opportunity, he naturally would not reject it.

“Alright, then you can go down. I’ll tell you when I’m mature.” Xu Bai waved his hand and dismissed Liu Er.

Liu Er didn’t say anything else. He quickly said goodbye and left.

Xu Bai stretched and turned his attention to the Spring Flower Pen in his hand.

“I don’t know how many days Liu Xu said, but let’s hurry up and finish the Spring Flower Brush first.” Xu Bai thought to himself.

The sooner he finished the pen’s progress bar, the sooner he could return it. He would be able to focus on dealing with the broken tree’s progress bar after this matter was settled.

“Begin.” Xu Bai rubbed his forehead and continued to focus on the screen.

Beijing.

In a luxurious room, a woman in her thirties was lying on a soft couch, reading a secret letter that had been sent urgently.

Although the woman was almost thirty years old, she had a mature charm that young girls did not have. Just by lying on her side, the lines at her waist could outline thousands of styles.

Two young maidservants stood at the side, with exquisite silver thorns hanging from their waists.

No matter how one looked at them carefully, one would find that the bearing of these two maidservants was different. Their hands were calluses, and the divine light in their eyes was restrained. They were both experts.

The woman read the letter carefully, then threw it on the ground in boredom and yawned.

One of the servant girls walked forward and carefully picked it up before returning without saying a word.

"My older brothers are really considerate. They deliver letters faster than me.

It's a pity. They thought they could provoke my anger, but it's useless." The woman waved her hand in boredom.

One of the maids walked out, the silver thorn on her waist reflecting light. "Go and investigate, mainly about that Jianghu person." the woman ordered.

"Do you need to deal with it?" Qing Xue asked.

"No need. In this day and age, having one more friend is better than having one more enemy. No matter how strong he is, we can't underestimate him." "You're just going to investigate," the woman continued. "Just don't offend them."

"Yes, sir!" Qing Xue said and left.

"But Spring Rain Pavilion..." another servant girl asked.

Before he could finish, he was interrupted by the woman.

"How can a branch of Spring Rain Pavilion in a remote county be compared to a genius? Moreover, he is a person that the genius disciples of Jingang Temple and the Academy are willing to make friends with."

'Yes, Ninth Princess!' The servant hurriedly bowed."

On the soft couch, the smile on the Ninth Princess 'face grew wider and wider.

Time continued to pass.

The days passed as usual. To the commoners, they did not know about the important events that had happened a few days ago.

It was also because of this that they continued to live as usual and were not affected at all.

The martial world had its own romantic life, and the people had their own daily necessities. Everything went their own way.

In the past few days, other than going to the Yin Posthouse once, Xu Bai had been working on the Spring Spring Brush.

When he went to the Yin Posthouse, he had specially gone to see the broken tree. He had not expected that the broken tree was still there. Moreover, according to the old posthouse chief, the imperial court had specially sent people down to inspect it. After that, they had allocated a sum of money for him to rebuild it.

As for this tree, the old postmaster did not touch it. At that time, the official of the imperial court said that there was no big problem and had carefully checked it. If he wanted to tear it down, he could do it himself.

However, the old postmaster was about to retire and return to the fields. He did not want to cause any more trouble, so he simply left the broken tree behind. After all, if he discovered an accident during the process of dismantling, he would really suffer a huge loss.

As for construction, it could be done in the surroundings.

This saved Xu Bai a lot of trouble. Therefore, Xu Bai stayed in Sheng County in peace for the next few days and continued to improve the progress bar.

Today was an important day because the progress bar was finally full.

Looking at the golden progress bar in front of him, Xu Bai smiled.

Light blue smoke appeared..

Chapter 104: The Kidney Hammering Technique Is Gone(1)

Light blue smoke curled up and gathered in the air.

Xu Bai stared at the smoke without blinking.

This time, the smoke was obviously different. The time it took to gather was slightly slower.

Xu Bai made a rough comparison. It was similar to the nameless Buddhist scripture from back then.

The Nameless Buddhist Sutra was written by the young Jingang Temple's presiding over, and the Spring Flower Brush Brush was used by the Academy's dean when he was young. The two had something in common.

"Yes... Common points...No, you can't do this."

He felt that it was strange, so he didn't want this similarity.

As he thought about this, some time passed, and the light blue smoke finally took shape.

A line of text appeared before his eyes.

A stream of information entered Xu Bails mind. Before he could react, the smoke in front of him began to change again.

This scene was familiar. Xu Bai had seen it before. Only when similar skills needed to be fused could this smoke change like this.

As expected, before he could rest, the smoke in front of him changed again.

New words appeared before his eyes.

[Discovered possible fusion option. Fusion in progress.]

[Body-strengthening Book + Kidney Hammer Technique = Kidney

Strengthening Technique.]

[Fusion successful.]

Before the old message had even passed, a new message came.

After a large amount of information surged in, Xu Bails interface also changed.

[Name: Xu Bail

' Realm: Eighth Stage unspecialized.'"

[Breaking One Style, Level 2: Maximum level.] [Reversal Heart Technique (Level 2.5):[Maximum level.]  
[Maple Leaves Like Rain (Tier 2): Maximum level.] [Four-Xun Movement Technique (Level 1): Maximum level.]

[Four Xun Formation (Level 1): Maximum level.]

[Diamond Heart Devil Body (Level 4), max level.]

[Kidney Strengthening Technique (Level 4): Maximum level.) ]

[Comprehension (max level)]

Hiss...

Xu Bai gasped.

Tier 4 skill, as expected.

After absorbing all the information in his mind, Xu Bai had already figured out the use of this skill.

In conclusion, there was only one sentence.

“I’m invincible below Rank-6.

It was simple and easy to understand!

Xu Bai finally understood what the so-called Body Strengthening Chapter was.

He took out the Spring Flower Pen and looked at the tiny words on it.

The words on it were the Body Strengthening Chapter.

It was written by the Dean of the Academy in his early years and was specially engraved on the Spring Flower Brush.

The chapter on strengthening one's body also gave a general summary of the reason the dean wrote.

In his early years, when the Headmaster was still a little errand boy, he often lamented that the weak body of scholars was a huge drawback.

If it couldn't be alleviated, the disadvantages would be magnified.

Therefore, the dean researched it and the body-strengthening chapter came into being.

Any scholar who read this book could obtain the method to strengthen their body from it, although for martial artists, most of the things in it were superficial.

But after so many years, the Principal had gradually perfected it, turning the superficial into exquisite.

A scholar who had learned the Body Strengthening Chapter only needed to do a set of movements according to the book every day to slowly improve his physical fitness.

The speed of improvement was very slow, but he only needed to practice for the time it takes for an incense stick to burn every day, which was already very fast.

It wouldn't put the cart before the horse, and it would still be effective.

Of course, there was a limit. The limit was around the Sixth Stage.

“This Principal is truly a peerless talent.” Xu Bai sighed inwardly.

To be able to make a scholar’s body slowly become stronger, the dean could be considered to have broken through all the obstacles and opened up a new path.

The Body-strengthening section also stated that in order to not distract the scholars, the Rank-6 and below would not tell them.

Now, after fusing with the Hammer Kidney Technique, it had become the Kidney Strengthening Technique. It had completely changed its appearance.

First of all, he had the physical fitness of a sixth-grade martial artist.

Although his Refined Qi had not changed, his speed, strength, and endurance had all improved tremendously.

Secondly, his kidneys had changed.

There was a cup of tea on the table.

Xu Bai picked it up and took a big gulp.

As he drank the tea, his elemental energy started to surge. Immediately after, a warm current lingered in his kidneys.

A trace of True Core Strength fell into it and no longer appeared.

Storage function!

The Kidney-Strengthening Technique allowed the kidneys to transform the essence of the food they ate into True Core Strength and store it inside.

As long as he didn't use it, it wouldn't decrease.

Originally, he needed to cultivate slowly. At the beginning, he had stored very little, but this was the maximum level of the kidney strengthening method.

According to Xu Bai's estimation, it could store the True Core Strength of a Sixth Stage expert.

What did this mean?

Mobile power bank!

He no longer had to worry about not having enough True Core Strength.

Those below the Sixth Stage relied on the Kidney Strengthening Technique and the Diamond Heart Devil Body to fight one by one.

As for Rank-6...Xu Bai didn't have a standard to measure his strength.

"Since I have this skill, I have to prepare." Xu Bai rubbed his chin, planning to replenish the True Core Strength required for the kidney strengthening technique in case of an emergency.

Thinking of this, he walked out of the backyard and left the bodyguard agency after letting Liu Er guard it with peace of mind.

After leaving the Bodyguard Agency, Xu Bai went straight to Sheng County Restaurant.

The restaurant was as lively as ever, and there was an endless stream of customers.

After Xu Bai arrived, he ordered a table full of dishes and began to eat and drink.

As long as the food entered his stomach, his kidneys would start to work. Then, the food would be converted into essence and absorbed by his kidneys.

Of course, the prerequisite was that the food had to satisfy the daily consumption before the excess would be converted into essence.

Therefore, if Xu Bai ate too much, it would be gone after it entered his stomach.

Xu Bai ate very quickly. He didn't even feel the taste of some of the dishes..

Chapter 105: The Kidney Hammering Technique Is Gone

(2)

The surrounding customers were dumbfounded. It was their first time seeing such a big eater, so they couldn't help but gather and watch.

However, after sizing up Xu Bai's Ghost Head Blade, they became accustomed to it.

It was normal for people in the martial arts world to be able to eat.

Some customers even started to boast that they had once seen a Jianghu man who ate twenty bowls of rice in one go.

Of course, he was soon mocked by others.

Inside the restaurant, the atmosphere of the marketplace was even more lively.

Xu Bai finished the last bite of the dish and wiped his mouth expressionlessly.

Although he didn't seem to care, he was already speechless in his heart.

Sh \* t! Huge pit!

There was only less than 1% of the dishes on the table.

Reality proved that it was impossible for ordinary people to improve their food by too much. Otherwise, anyone who ate it would become a martial artist. At this rate, he would have to eat a hundred tables of such dishes.

Was it edible?

The money seemed to be enough.

However, it might become a legend on the streets tomorrow.

Everyone was probably going to say, "Look, that person came last night. I heard that he cooked a hundred tables in one night."

Xu Bai thought about it and decided not to eat it for now.

However, he had only taken two steps when he stopped.

Wait a minute!

Food!

He thought of something and could not help but think to himself, "As expected, reading more fantasy novels is useful."

The essence of food could be transformed, but what about medicinal herbs?

In terms of essence, there were even more in the medicinal herbs.

Wasn't that how it was written in novels?

If this method worked, then he wouldn't have to eat a huge amount of food.

The more he thought about it, the more likely it was. Xu Bai saw that it was still early. After paying the bill, he rushed straight to the medicinal herb shop in Sheng County.

Sheng County was located in a remote area, and many businesses were unique, such as the medicinal herb business.

In Sheng County, the medicinal herbs business had always been monopolized by a wealthy businessman surnamed Qian.

The herbs collected by the herb gatherers were sold to the Qian family's medicinal herb shop, and then resold to those who needed them.

The Qian family was famous in Sheng County.

It was truly a well-known name, and there was no need to mix it with water.

There was no other reason than the fact that the Qian family was very conscientious in doing business.

It had already reached the point of monopoly. In fact, the price was all up to him. After all, in the entire Sheng County, only his family owned a medicinal herb shop.

However, the Qian Clan was not like that. They were like middleman and only charged a small fee.

Nowadays, the poor were most afraid of getting sick. With the Qian family doing this, it was naturally supported by many commoners.

As for the middle fee, it was ignored.

They didn't have much money, and it was convenient to buy them. Without the Qian family, the medicinal herb business would be chaotic. Sometimes, they wouldn't even be able to buy the herbs they needed. After all, not every herb gatherer was there every day.

Therefore, no one dared to destroy the medicinal herbs.

Competition was one thing, and whether they dared to or not was another. The Qian family did not earn much, but they were still a rich family.

Today, a guest came to the Qian Clan's medicinal herb shop with a Ghost Head Blade hanging at his waist.

Qian Yu was a branch family member of the Qian Family and was in charge of the branch store.

Although Sheng County was remote, it still had a lot of land. Opening a medicinal herb shop naturally wouldn't be able to supply it.

Qian Yu muttered to himself as he looked at the young man in front of him. This was the first time he had met him.

The first thing Xu Bai did when he came in with Ghost Head Blade slung on his waist was to ask if there were any medicinal herbs related to the kidney, which confused Qian Yu.

Was the health of young people nowadays that bad?

Out of kindness, Qian Yu reminded him.

“Sir, you don’t even have this prescription. I don’t know what medicine you want to boil.’

Most people came with prescriptions from doctors. After all, the pharmacy was in the business of selling medicine.

He also had a doctor here, but he had taken leave today, so only he and a few helpers were left.

“As long as it’s related to the kidneys.” Xu Bai didn’t wait for Qian Yu to say anything and said directly.

Since the kidney strengthening method referred to the kidney, then he should eat herbs related to the kidney, right?

Qian Yu felt troubled when he heard this.

He doesn’t dare to sell too much in the face of the pressure

The head of the Qian family had said before that the most important thing in doing business was integrity. Secondly, reputation was also needed.

The Qian family’s business wasn’t easy. If he really gave it to him and let this young man eat it, wouldn’t it ruin their family’s reputation?

By then, they would know that it was the Qian family’s problem. Even if they explained it clearly, it would still cause losses to their business.

This couldn’t be messed around!

Besides, if he had kidney problems at such a young age, he might have played around too much. If he ignored the dosage, it would be even easier for him to be finished.

"I can't write it if I don't have a prescription." Qian Yu gritted his teeth."

Only with the prescription could he write it, and the doctor would be the main responsibility.

Xu Bai frowned when he saw Qian Yu's timid look.

Why was it so troublesome to prescribe medicine?

There were a few doctors in Sheng County, so there was no harm in taking a look.

Thinking of this, Xu Bai prepared to turn around and leave.

But at this moment, a voice sounded from behind.

' Shuhuang, Chinese yam, dogwood, peony bark, oriental waterplantain, and poria cocos. The amount is..."

This voice clearly stated the weight of each portion.

Xu Bai turned around and saw a young man in a purple robe.

The young man's face was pale and bloodless. His figure was thin and weak, as if a gust of wind could blow him over.

Especially when he was walking, he would cough from time to time.

“I’m sorry, I’m sorry. My health is very poor.” The young man also noticed Xu Bai looking at him and smiled apologetically.

Xu Bai felt that with his looks and his delicate temperament, this young man had the attributes that rich women would like..

Chapter 106: The Kidney Hammering Technique Is Gone

(3)

“Sir, are you a doctor?” Qian Yu was slightly stunned.

The young man nodded and said, “I guess so. Because I’m weak and sickly, I often study the prescription myself. If you write it like this, it won’t be wrong.”

Qian Yu was still hesitant.

At this moment, the young man spoke again.

“This medicine isn’t randomly prescribed. With Shuhuang as the main medicine, it can replenish essence and nourish the marrow, nourish yin and nourish the kidney. Dogwood and Chinese yam are common herbs. The combination of the two can not only nourish the liver and kidney, but also benefit the spleen. Peony bark can clear deficiency heat, Alisthema aquarius can clear kidney turbid, and poria cocos can strengthen spleen and promote dampness. The three are used as auxiliary medicines.”

It was reasonable and convincing.

Qian Yu was the innkeeper of the inn, so he naturally knew some medicinal properties.

After careful consideration, she felt that her words made sense.

Seeing that Xu Bai was carrying the Ghost Head Blade on his waist, he didn't look like he was someone to be trifled with. Then, he remembered that he had the prescription, so he simply gritted his teeth and turned to get the medicine.

"Wait, help me get these herbs. This is the prescription." The young man hurriedly handed over another prescription.

Qian Yu replied and turned to leave.

When Qian Yu went to get the medicine, only Xu Bai and the young man were left in the room.

"I'm Yun Zihai. May I ask your name?" Yun Zihai's face was pale as he cupped his hands at Xu Bai.

Even though he was doing this Jianghu action, he still had the temperament of a sickly person.

"My name is Liu Wu Chang." Xu Bai said.

As the saying went, he lied through his teeth, and Xu Bai did it.

This name was derived from Liu Xu, Wu Hua, and Yang Chang. For the first time, Xu Bai felt that his naming skills were quite superb.

Since he was traveling in the martial world, it was better to use an alias.

Yun Zihai was slightly stunned, then he smiled bitterly and said, "Brother Xu is really a wonderful person. His ability to lie is really perfect."

"Hmm?" Xu Bai pressed his right hand on Ghost Head Blade's hilt and narrowed his eyes. "You know me?"

Killing intent emerged from Xu Bai's body. In the blink of an eye, Xu Bai had already decided to kill.

"Don't misunderstand. I'm Senior Martial Brother Liu Xu. Before I came, I went to the Liu Residence. Liu Xu said that she wanted me to take care of you." Yun Zihai hurriedly waved his hand. As he waved his hand, he could not help but cough repeatedly.

Xu Bai frowned.

Senior Martial Brother Liu Xu?

Qingyun Academy?

This was not a small background.

Thinking of this, Xu Bai temporarily put down his killing intent.

He, Liu Xu, and No Flower had experienced life and death. Since Liu Xu had told Yun Zihai about her situation, there was a deeper meaning behind it.

"You want to stay in Sheng County?" Xu Bai asked.

Just now, Yun Zihai had said that Xu Bai had deduced this result.

Yun Zihai nodded and said without hesitation, "I am not talented, so I will take up the post of county magistrate tomorrow."

Xu Bai was speechless.

Good heavens, the county officials had finally arrived, but he didn't expect to meet them in such a way.

At this moment, Qian Yu took the herbs and walked over.

The two of them didn't say anything. They paid their bills and left.

After they left, they tacitly found a remote alley.

The blue clouds come out of the academy, I'm willing to stay in this poor village, I'm willing to stay in this poor village, I'm willing to open my eyes. "Xu Bai said with a smile.

As one of the top academies in Great Chu, the Qingyun Academy would not assign anyone who could enter the academy to a remote county even if they had to take the examination.

Only the small academy on Nanhua Road could enter a remote county.

At the mention of this, Yun Zihai sighed. "If it wasn't for a special reason, why would I come here?"

His tone was filled with a sense of loneliness.

However, looking at Yun Zihai's intentions, he was not too willing to mention it.

Yun Zihai quickly changed the topic. "'Today, I came to see what the person who can make Junior Sister Liu look up to looks like. I have nothing else to do,

so I'll leave first. If there's anything in the future, come to the county government to look for me."

Xu Bai stroked his chin and nodded. "'Alright."

The two of them had only talked for a short while, and Xu Bai didn't know the other party's background. It would be a waste of time to talk more here.

He thought about it and decided to ask Liu Xu.

There was very little sunlight in the alley, and there were many shadows.

With Yun Zihai's sickly appearance, he was not even willing to bask in the sun.

When he left, he even specifically walked through the shadows.

After Yun Zihai left, Xu Bai thought for a moment and walked toward the Liu residence.

It was time to return the Spring Flower Pen. He could use this opportunity to ask Liu Xu and No Flower about Yun Zihai's background.

Liu Manor.

It was broad daylight, so the Liu residence was still very lively.

Xu Bai climbed over the wall and came to Liu Xu's room.

Just as he was about to knock on the door, the door opened from the inside.

Liu Xu was stunned for a moment before returning to normal." You came at the right time. Wu Hua is preparing to leave. I was just about to look for you to ask about the Spring Flower Brush. If you're done looking, I'll leave with Wu Hua and go to the relay station before leaving. "

As she spoke, she subconsciously looked at Xu Bai's left hand, which was holding the medicine she had just bought.

Liu Xu's nose was very sharp and she frowned slightly."Are you injured? How do we buy medicine?"

“I’m in the escort agency,” Xu Bai said awkwardly. “This is for escorts.””

He couldn’t possibly say that he went to buy herbs to nourish his kidney, right?

“You must be hiding something from me.” Liu Xu asked suspiciously.

Xu Bai quickly waved his hand. “I, Xu Bai, never lie. Forget it, I won’t mention this. Let’s go to Wu Hua’s place. I happen to have something to ask you.””

Liu Xu was wearing a white veil, but it was obvious from her eyes that she did not believe Xu Bai was lying.

However, Xu Bai’s change of topic was very successful. When Liu Xu heard that something was up, she was very quickly distracted.

The two of them didn’t linger and headed straight for No Flower’s room.

As the most special room in the Liu residence, the sound of wooden fish could be heard from time to time even during the day..

Chapter 107: The Kidney Hammering Technique Is Gone(4)

But today was different. The sound of the wooden fish had disappeared.

In Wu Hua’s room.

After Liu Xu heard Xu Bai’s words, she said helplessly, “It’s true. Senior Brother Yun is upright and not a bad person. I just want him to take care of each other in Sheng County.””

No Flower was also at the side. After hearing what Liu Xu said, he instantly understood."So it's Benefactor Yun Zihai."

"Is he very famous?" Xu Bai frowned."

Looking at No Flower's emoji, Yun Zihai seemed to be very famous.

However, before No Flower could explain, Liu Xu spoke first.

"Senior Brother Yun is also a talented person in the Academy. A year ago, he wrote an article on governing the world. Even His Majesty praised him."

At the mention of this, No Flower nodded repeatedly. It was obvious that he had read it before.

"But he looks like a sickly person."Xu Bai stroked his chin and said.

Liu Xu revealed a bitter smile and explained," Senior Brother Yun was born prematurely. It was the root of his illness since he was young. The body of a scholar is not strong to begin with. In addition to the mental and physical exertion he put in while studying, he has not shown any signs of improvement."

"I see."

Xu Bai was still wondering if this person really had kidney deficiency, but it turned out that there were other reasons.

People who gave birth prematurely had congenital deficiencies. Coupled with the fact that they worked hard while studying, the root of the illness was left behind. From the looks of it, Yun Zihai's illness was actually not an illness, but a physical defect.

But there was still a problem. Why did Yun Zihai come to upgrade the county?

It was unreasonable for the Qingyun Academy to be promoted to a county, and it was even more unreasonable for them to be officials. Would the Academy let a talented person do something like banishing to the border?

Liu Xu smiled bitterly." Actually, this matter has always been talked about by scholars. Senior Brother Yun did something big, so this is the only way?

Xu Bai's interest was piqued.

He had done something big, so he came to Sheng County.

What was the status of the Qingyun Academy?

Confucianism, Buddhism, and Daoism were the three most outstanding sects in Confucianism.

They could even run to a remote county and there was no way to solve it, unless...

"It has something to do with the people in the Imperial City." Xu Bai's eyes narrowed." I guessed correctly."

"Yes." "Senior Brother Yun killed a prince." Liu Xu didn't hide anything."

On the other side, Xu Bai was just about to drink the tea when he suddenly stopped.

"Kill a prince? Wait a minute, he killed the prince and was sent to Shengxian County?"

According to Xu Bai's understanding, Yun Zihai should have gone to the underworld.

After all, in Great Chu, the imperial family was the strongest force.

At this moment, No Flower gave an explanation first.

“The prince saw that Yun Zihai had the ability to govern the world, so he wanted to recruit him. However, Yun Zihai was unwilling, so the prince moved his family, hoping that Yun Zihai would agree. In the end, he accidentally killed his entire family.”

“The cause was the prince, and the one at fault was the prince. His Majesty had previously stated that the prince was guilty of the same crime as the people. Yun Zihai did this, but he should not have done it himself. He should have gone through the legal process, so he was...”

No Flower didn't finish his sentence, but Xu Bai already knew.

Yun Zihai's problem was that he didn't follow the procedure and chose to do it himself.

“So he was transferred here?” Xu Bai muttered.

“Shixiong was originally the county magistrate of a prosperous county and was deeply loved by the people. His future should have been boundless.” “Before I left, Shixiong had no complaints.” Liu Xu sighed.

Xu Bai stopped talking.

He felt very strange. He had killed the prince, but because he did not follow the rules, he seemed to have been punished and transferred to a remote county. However, he felt that something was wrong.

There was something wrong with this punishment. He didn't say much and changed the topic.

“I'll leave tomorrow.” Xu Bai said.

No Flower shook her head.”

“Why are you in such a hurry?” Xu Bai was slightly surprised.

“The Academy and the Heaven Inspectorate are busy, so we have to rush back early. It’s okay, you don’t have to send us.” Liu Xu waved her hand.

Xu Bai was stunned.

Liu Xu immediately became alert.”

“We are all people of the martial world, so don’t mind these details.” Xu Bai waved his hand and put on a heroic look.

Liu Xu was speechless.

No Flower was speechless.

In the end, Xu Bai still sent them off.

After all, they had experienced life and death together, so sending them off was not a big deal.

Of course, when the two of them left, Xu Bai still felt a little regretful.

He asked Liu Xu if she could take a look at her appearance. They were about to part ways, but he still didn’t know what Liu Xu looked like.

In the end, her hair was almost cut off by Liu Xu’s attack.

It was already late at night when he returned home.

Xu Bai didn't sleep. He took out the medicine he bought from the pharmacy and ate a small piece raw without doing anything else.

This was an experiment, so he didn't buy much.

In the end, this pill was indeed much more than eating.

With this experiment, Xu Bai ate all the remaining herbs. The True Core Strength in his kidneys increased a lot.

"Tomorrow, I'll go to the medicinal herb shop and at least fill up my kidneys." Xu Bai made up his mind and went to bed.

The next day.

Xu Bai went to the medicinal herb shop again. Under Qian Yu's surprised gaze, he bought a large pile of medicinal herbs for the prescription.

The expenses were also quite high, but the medicinal herbs were not very expensive. The silver taels from the Ferocious Tiger Camp could still support them.

After buying the herbs, Xu Bai returned to the Bodyguard Agency and ate all the herbs he had bought. Finally, his kidneys were filled with True Core Strength.

"This is the safest. It feels good to be at ease." Xu Bai could not help but sigh when he felt the changes in the True Core Strength in his body.

With this mobile supply warehouse, he felt a little more at ease. Sometimes, the effect of his obsessive-compulsive disorder would make him desperately want to replenish his kidneys. Now, he felt much more comfortable..

Chapter 108: The Kidney Hammering Technique Is Gone

(5)

One sentence.

"I'm invincible below Rank-6.

Xu Bai stretched his back and walked to the window.

After all this trouble, it was only noon. He thought about it and decided to make a trip to the Yin Posthouse.

There was also a tree in the Yin Posthouse, which he regarded as a treasure.

The progress bar was still hanging on it, waiting for him to retrieve it at any time. However, before that, he had to ensure the safety of the broken tree.

Now that there was nothing else to do, he thought that he might as well go straight to the Yin Posthouse and seize the time to pull down the progress bar of Broken Tree.

Thinking of this, Xu Bai went out and told Liu Er to take care of the escort agency before rushing to the Yin Posthouse.

Liu Er agreed very quickly. After all, he had been dead set on Xu Bai after the last conversation with him.

Xu Bai also in wait to send catkins without flowers leave rise county time, catkins incidentally mention a mouth, let him here wait for news, they will as soon as possible and their teacher say a bit, see can not recommend him up up.

While waiting, it was more important to focus on the progress bar.

After leaving the agency, Xu Bai did not stop midway. When he arrived at the Yin Posthouse, it was already afternoon.

After such a long period of rest, the Yin Posthouse had already been repaired by the old Posthouse Master. Only the broken tree in the middle had not changed.

The last battle had killed many posthouse men, all of whom were killed by the black-robed man. Now, the Yin Posthouse was empty, and no new posthouse men had come.

“You’re here.” The old postmaster was hammering nails into the door of the room. The knocking sound echoed in the space.

Even if he was about to retire, he had to do what the imperial court had given him.

Xu Bai had come once a while ago, and the old postmaster was already used to it.

He did not want to offend this young man. After all, even the genius disciples of the Titanium Temple and the Qingyun Academy were friends with this

young man.

As for why this young man asked him to take care of the broken tree, he didn’t ask. Sometimes, it was better to ask less. He just wanted to get through this period of time in peace and get the money from the imperial court to return home and live the rest of his life in peace.

After staying in the martial world for a long time, he was envious of the

dL1nospnere 01 Lile 111dLKeL.

The people outside the fence envied the people inside, but sometimes they didn’t know that the people inside the fence wanted to go outside the fence more.

“Senior, just give me a stool. “Xu Bai was very humble.

The old postmaster pointed to the side, where there was a wooden stool that he had personally made.

Seeing how polite Xu Bai was, he couldn't help but nod.

He was used to many things. Young people nowadays were very arrogant. It was rare for them to be as low-key as this young man in front of him.

“This person, given time, will be like a flying dragon, soaring through the nine heavens.”As the old postmaster thought about it, he quickened his movements.

Xu Bai didn't know what the elder was thinking. He naturally pulled the wooden stool beside him, walked to the broken tree, and slowly sat down.

In front of him, the golden progress bar was slowly growing.

Time slowly passed. Xu Bai maintained this position, not moving at all.

On the other side, the old postmaster had finished his work. Seeing Xu Bai in a daze, he seemed to have thought of something. He took out two cups of tea from his room, walked over to him, and handed him a cup.

“Thank you.” Xu Bai took it.

“Young man, there's something I don't know if I should say. “The old postmaster pondered for a moment before saying.

Xu Bai was stunned for a moment before he smiled and said,“Please speak.”

“The female Abbey Dean is extremely talented. Even in that turbulent era, she was one of the best. “The old postmaster said word by word.

Xu Bai reacted and understood the meaning behind the old postmaster’s words.

She probably saw him in a daze and thought that he was shocked by the female Abbey Dean’s demeanor that day, causing his state of mind to be unstable.

“You must have a good mentality. I believe that you will definitely amaze the world with a single feat. All you need is time.”The old postmaster continued.

“Don’t worry, I won’t have any other thoughts. By the way, you’re about to leave your post soon. If I want to be the postmaster, can you help Bai first agreed, then changed the topic and talked about the Yin Posthouse.

The old postmaster was stunned, but he did not persuade Xu Bai like Liu Xu did. Instead, he nodded.”When the time comes, I’ll write a recommendation letter to the higher-ups. There shouldn’t be too much of a problem.”

After living for a long time, although his strength was not strong, there was no problem with his horizons.

This young man was not simple, but he wanted to stay in the Yin Posthouse. It was obvious that he had other intentions.

This was her choice, and he didn’t want to interfere.

However, it was not a problem to help out. It was just a form of goodwill.

Xu Bai thanked him again.

After that, the old postmaster didn't say anything else and went back to his own business, leaving Xu Bai alone in a daze.

Time slowly passed, and the progress bar had increased quite a bit, but it was still far from perfection.

The sky gradually darkened. Xu Bai got up and prepared to go back.

' Please take care of this tree for me. I want to use it to show my ambition. When I can surpass the female Abbey Dean, I'll destroy it myself,' Xu Bai said seriously. No one could see his fake expression.

Since the old postmaster had given him a reason, he would use it at his own game.

The old postmaster nodded and agreed.

"Farewell." Xu Bai cupped his hands.

He turned around and prepared to leave.

However, at this moment, something strange happened to the broken tree in

Chapter 109: Willow Cow Wants to Untangle the Knot in Her Heart (1)

Originally, it was a broken giant tree, formed by the intertwined roots of the tree. There was a palm print on it.

However, just as Xu Bai was about to leave, a special change occurred.

The palm print was still the same, but at the place where the tree broke, it was like a withered tree that had returned to spring, sprouting green sprouts.

This new sprout was green and full of vitality. This touch of green added a layer of vitality to the originally broken giant tree.

It might not be right to describe it as full of vitality, but the tiny sprouts gave people a vigorous and upward force.

The old postmaster was also at the side. When he saw this scene, his expression was dull as if he had seen something strange and strange that he could not explain.

Perhaps in the eyes of the old postmaster, this was something that could not be explained, but in Xu Bai's eyes, he saw something on another level.

His progress bar had changed completely.

Today, when he came over, he had been on the progress bar for a while and had made some progress. However, ever since the green sprouts sprouted like bamboo shoots after a rain, everything began to regress.

The so-called regress referred to the progress bar regressing. Although it was not obvious, it was indeed regressing.

This was the first time it had happened. Xu Bai was also surprised, but he soon figured out the reason.

It was impossible that there was a problem with his progress bar. It could only be that there was a problem with the broken giant tree, and the giant tree itself had changed.

Previously, when he was observing, he was also calculating the time it would take for the progress bar to be completed. According to his calculations, it might be slightly worse than the Nameless Buddhist Scripture and the Spring Flower Brush.

After all, the female Abbey Dean had only casually pressed the palm print on it. Compared to the Nameless Buddhist Sutra and the Spring Flower Brush, the degree of seriousness was not even worth mentioning.

The nameless Buddhist scripture was handwritten by the abbot of the Jingang Temple, and the words on the Spring Flower Brush were also carved by the dean of the Qingyun Academy. Just the quantity was very different. However, it was still a progress bar. It was just a little short, so he did not mind.

Now, it seemed that he had thought too much. This time, there was a change. The progress bar had decreased, indicating that the palm print on the tree had become stronger.

Xu Bai carefully stared at it until the dust settled, the new sprouts stopped growing, and the progress bar stabilized.

He roughly estimated the time. It was higher than the Nameless Buddhist Scripture and the Spring Flower Brush.

“That’s more like it.” Xu Bai thought to himself.

At this moment, the voice of the old postmaster came from the side.

“Revival of the Dead Tree is simply not something that ordinary people can do.

After the disappearance of the female Abbey Dean, her strength is still growing rapidly.”

This scene of a withered tree reviving in spring was indeed breathtaking.

Xu Bai stared at the tree in front of him and suddenly said, “Senior, prepare a room for me.”

The old postmaster was still amazed, but after hearing Xu Bai’s words, he was obviously stunned.

“You plan to live here?”

Xu Bai nodded. He was certain that he would stay here tonight and in the future.

The change of the tree gave him a reminder.

The journey from Yin Posthouse to Sheng County would waste a lot of time. It was better to finish the liver here first. As for the bodyguard agency, Liu Er was naturally in charge.

The old postmaster did not say anything else.

Since he wanted to stay, then he would stay. After all, he had saved his people. This request was not a problem.

Thinking of this, the old postmaster went to arrange a place to stay.

The night was like water. Xu Bai looked at the broken tree in front of him and the new shoots on it. The progress bar was slowly increasing, and his heart was burning.

After a few days of rushing, Liu Xu and No Flower returned to their own places one after another and reorganized themselves.

Titanium Temple.

This was one of the ten great temples in Great Chu.

Inside the temple, monks came and went. Unlike other temples, the monks here were very murderous.

Every monk who passed by had a faint murderous aura on them. It was not something that could be produced out of nowhere by reciting scriptures.

Only those who had experienced actual combat and experienced the confrontation between life and death would have this kind of invisible killing intent.

This was also what the Titanium Temple had advocated over the years.

The world of mortals was chaotic. Entering the world of mortals, cutting off the world of mortals, seeking the world of mortals, and breaking away from the world of mortals, one would then reach the true great realm.

It was their duty to vanquish demons and devils. When they encountered evil spirits, they would turn into angry Vajra.

No Flower walked in the temple. After returning to his own territory, every step he took was relaxed and comfortable.

The senior brothers and junior brothers who passed by greeted him, and he answered them one by one.

However, some sharp-eyed monks had already noticed that something was wrong. No Flower seemed to have something on his mind.

No Flower was indeed busy, and it was not a small matter.

After passing through the halls, No Flower finally came to a side hall. After entering, he walked for a while and entered a room.

Inside the room, there was antique furniture. In the middle of the room, there was a middle-aged monk who was reading a Buddhist scripture carefully.

In the Kong generation of the Titanium Temple, it might not be certain who was the strongest, but Kong Chan was the best teacher.

After so many years, the outstanding disciples that Kong Chan had taught could be said to have come one after another.

No Flower was Kong Chan's last disciple, and he was also known as the last disciple.

When No Flower walked into the room, Kong Chan put down the Buddhist scripture in her hand. After her calm eyes swept across No Flower's face, she frowned slightly.

The middle-aged monk Kong Chan's face turned solemn." "Wu Hua, your heart is in a mess."

If he couldn't even see this, he wouldn't be called the best teacher..

Chapter 110: Willow Cow Wants to Untangle the Knot in Her Heart (2)

"You have entered the path of desire." Kong Chan said straightforwardly.

No Flower was stunned, thinking that before he could say it, his master had already pointed it out, and he also knew the reason why he came. Very quickly, he told him everything that he had encountered in Spring Rain Pavilion.

Especially when that prostitute sat on him and her red lips were imprinted on his neck, his mentality changed.

The room fell silent. After a while, Kong Chan only said a few words.

"Some things, the more you resist, the more repetitive it will be. If you go in the opposite direction, when you taste what true desire is, you will know how to resist. "Kong Chan put her palms together.

No Flower was slightly stunned.

He repeatedly pondered over the meaning of this sentence and already understood the deeper meaning.

“Master, are you saying that you want me to experience it?”

“Entering the mortal world is the process of experiencing, withdrawing, and leaving. Fortunately, this is only the predicament of desire, not love.”Kong Chan’s words carried a hint of luck.

No Flower fell silent and did not speak for a long time.

As a teacher, Kong Chan’s most astute ability was his vision, not to mention his teaching methods. No disciple could hide anything from him, let alone Wu

Hua.

“You still have some messy matters, why don’t you tell me all of them and I’ll answer them for you.  
“Kong Chan continued.

No Flower had a conflicted expression on his face and didn’t know what to say.

Kong Chan didn’t urge him. She just waited quietly at the side.

Some things could not be forced. Only when the students asked themselves would it be the best time to solve them.

The room fell silent again. The sandalwood fragrance floated in the air, bringing with it a refreshing smell.

After a moment, No Flower seemed to have finally made up his mind. He took a deep breath and told her everything he had done in Sheng County.

“Master, I don’t understand. Great Chu regards protecting the people as its duty, but why is Your Majesty... However, he wanted to release the Boundless Daoist Scripture and cause some of the people to suffer. Of course, this disciple understood the principle of exchanging fewer for more, but that was life. Every single one of them was a living human life.”

This was the thing he could not understand the most.

He had always buried it deep in his heart. It was only natural for students to ask their masters if they had any doubts.

Kong Chan’s eyes, which were originally as still as an old well, finally changed. He showed a look of compassion. “Did you chant Buddhist scriptures for the dead commoners so that they could leave in peace?”

No Flower nodded, indicating that he did.

At this moment, Kong Chan stood up and slowly walked in front of No Flower. She reached out and patted No Flower’s shoulder.

“I can’t give you an answer to this matter either because I once had the same confusion as you, but the solution was different.”

No Flower was stunned like a wooden statue.

Kong Chan walked back and forth for a few steps before finally stopping in place. She turned around and said, “Go to the Sutra Library. Many of the Buddhist scriptures inside are copied by predecessors. The strokes carry the insights of predecessors. Perhaps you can find your own path.”

No Flower recovered from his daze and said that he would go over and take a look.

He thought of Xu Bai again and again, and explained the cause and effect of the matter, especially about the recommendation, he emphasized.

“Posthouse chief?” Kong Chan fell into deep thought. After a moment, she said, “I will write a letter.”

This meant that he agreed.

No Flower didn't ask any more questions. He said goodbye and left the room, heading to the Sutra Depository.

He had to solve the doubts in his heart, otherwise, the inner demons would breed and the Buddha's heart would be unstable.

Kong Chan said before leaving.

“The path of desire is easy to understand, but the path of love is hard to find. If you haven't reached the 100th level, it's best that you don't get involved.”

After No Flower left, Kong Chan returned to her original position and flipped through the scriptures in her hands.

But for some reason, the frustration in his heart was so deep that he could not calm down.

“Sigh.

Kong Chan took out the wooden fish and tapped it lightly.

There was a sachet on his waist. There were thin words embroidered on the sachet.

Inside the room, the sound of the wooden fish knocking could be heard.

Green Cloud Academy.

Nanhua Road was a place where all kinds of academies gathered. The smell of calligraphy and books was very strong.

As a place where scholars gathered, although it was only a Dao, it was more prosperous than ordinary state capitals.

As one of the top schools in Nanhua Path, Qingyun Academy was naturally the place with the most scholars.

At this moment, Liu Xu was still dressed in the same way. She walked into the Academy with a veil over her face.

There was an endless stream of scholars coming and going in the Academy.

Some scholars frowned and pondered, some scholars stood still, and some scholars even held books in their hands and did not forget to read even as they walked.

Liu Xu walked inside and did not cause any commotion until she came to a room and knocked on the door.

“Enter.”

A loud voice came from the room.

Liu Xu heard the sound in the room and gently pushed open the door.

The furniture in the room was simple but lively. In the middle of the room sat a

middle-aged man.

The middle-aged man was dressed in white. Although he was middle-aged, his appearance and temperament were completely different.

Seeing Liu Xu enter, the middle-aged man put down the book in his hand and frowned.

“Teacher, this student has completed the task that teacher assigned to me, but there is something that requires teacher’s help. “After Liu Xu entered, she first told him about Xu Bai.

She especially emphasized the recommendation letter.

Wang Qingfeng’s frown deepened. After a while, he said slowly, “I’ll help you with this, but don’t use any tricks because of that Jianghu person..”
