Chapter 1041 Destroying the Nine-Dragon Formation, Killing the Bronze Heavenly Hall Ruler, He's Quite Weak

"Now that I'm here, are you mongrels prepared to face your deaths?"

There was a hint of arrogance in those words!

The fate of the Bronze Heavenly Hall was already sealed in that single sentence.

Everyone's expression turned incomparably grim as terror overcame them. Having lived for so many years, this was the first time they had encountered such a frightening being.

That poise he had was something that they could only dream of possessing!

Even the Grand Marshal, who was a battle-hardened warrior, could not help but take a deep breath. He was trying to suppress the feeling of terror that struck him.

Then, he roared, and a silver spear appeared in his grasp with patterns of light radiating from his green armor.

"It's still too early to know that!" the Grand Marshal yelled and immediately thrust his spear into the ground.

As if some sort of mechanism was activated, countless Daoist patterns immediately appeared and spread across all of Bronze Heavenly Hall.

The turbulent spiritual qi of the universe suddenly gathered towards the Bronze Heavenly Hall and merged with the Daoist patterns, forming nine dragon apparitions!

The dragons' roars echoed throughout the whole galaxy!

"That's... That's the Great Nine-Dragon Formation of Bronze Heavenly Hall!"

Someone exclaimed from the crowd.

"Rumors have it that the Bronze Heavenly Hall possesses a supreme Immortal formation unmatched in both offensive and defensive abilities. However, no one has ever seen it before... until now. I can't believe the Great Nine-Dragon Formation really exists!"

"This formation... It's way more powerful than ordinary Immortals."

"How terrifying!"

"As expected of the Bronze Heavenly Hall. They truly are a powerful orthodoxy. Just look at this great formation. The huge army of millions earlier pales severely in comparison to this."

Everyone was shocked and amazed.

Meanwhile, the Fox Tribe Forefather, Gu Xing, and others began to worry.

"Is Master Chu going to be alright?" Gu Xing asked.

Gu Wuqing, who was standing beside him, smiled. "Believe in Master Chu. He's not going to be hurt by a formation like this."

Among them, he was the most familiar with Chu Kuangren's capabilities.

Even if two, three, or four more similar formations like the Great Nine-Dragon Formation were deployed, Chu Kuangren would still be fine.

Inside the Bronze Heavenly Hall, nine pairs of dragon eyes were glaring ferociously at Chu Kuangren. Their horrifying draconic might immediately swept toward him.

Even an ordinary Immortal would shudder uncontrollably in the face of such terror.

However, Chu Kuangren appeared calm as usual. "I've lost count of how many real dragons I've slain, let alone mere apparitions like these."

As he stepped forth, his vast Immortal's Core energy erupted like a raging tide.

The attacking dragon apparitions instantly shattered upon impact!

That mere eruption of power also affected the Grand Marshal who was controlling the formation, and he instantly spat out a mouthful of blood, looking horrified.

"How is that possible?"

"How are you so powerful?!"

The Grand Marshal was incredibly shocked. He then channeled his full strength and controlled the remaining dragons to charge toward Chu Kuangren.

"Your attack is useless!" said Chu Kuangren as he made a sword hand sign.

A purple sword ray immediately shot out!

It engulfed the remaining dragon apparitions, instantly reducing them into countless sparks of light. The Great Nine-Dragon Formation had fallen!

The cultivators of the Bronze Heavenly Hall were dumbfounded.

'No way! This strength is simply unheard of!'

"What cultivation base is this person at?"

"By the heavens. Judging by his aura, he's also an ordinary Immortal like us. But then... How does this explain his terrifying combat strength?!" Even the most top-tiered Ninth-grade Immortal, like the Bronze Heavenly Hall Ruler, was not so powerful.

It was simply unbelievable.

"W-Who the hell are you? We of the Bronze Heavenly Hall have no ill-intent against you. Why are you attacking us?"

An uncontrollable horror was revealed in the Grand Marshal's eyes.

"I had a friendship with Immortal Gu, yet you guys... You guys went and killed him instead. If that isn't something punishable by death, then what is?" Chu Kuangren said calmly.

He held a sword hand sign up and unleashed the Thousand Lotus Sword Intent. The void was soon filled with a gorgeous display of countless purple lotuses.

However, there was chilling killing intent hidden within those beautiful lotuses.

Just as Chu Kuangren was about to wipe out all the higher-ups from Bronze Heavenly Hall, a powerful Immortal's Core energy fluctuation suddenly appeared from a distance away.

A pillar of light then shot into the sky!

A majestic-looking man in long golden robes slowly walked out from the pillar of light, and the surrounding planets trembled with every step he took!

"It's him, the Bronze Heavenly Hall Ruler!"

"He's out of his closed-door meditation!"

"This aura... He has reached the Earthen Immortal Realm!"

Everyone gasped.

How many years has it been since an Earthen Immortal appeared in Jade Emperor Galaxy? As of now, the whole galaxy heralded the arrival of a new Earthen Immortal!

"Haha, my Master has finally completed his closed-door meditation!"

"Not only that, but it seems like the Master has also reached the Earthen Immortal Realm. In that case, he can surely dispose of this Chu Kuangren."

"You're a dead man now, Chu Kuangren!"

Everyone who had fallen into despair soon saw a light of hope again. They looked at that golden figure with faces full of admiration.

At that moment, the Bronze Heavenly Hall Ruler suddenly opened his eyes. His Immortal Consciousness swept across the scene and got a hold of the current situation.

A cold gaze shot out of his eyes as he looked toward Chu Kuangren. "Chu Kuangren, for your insolence toward my Bronze Heavenly Hall, you deserve nothing short of a painful death!"

As he raised his hand, an incomparable surge of Immortal's Core energy burst forth.

At the same time, the surrounding planets trembled while huge amounts of planetary earth qi erupted from them and headed towards Bronze Heavenly Hall.

The Immortal's Core energy and earth qi merged to form an overwhelmingly gigantic palm, with a presence so devastating that the void started shaking!

At that, the onlookers gulped with shock.

"Is this the power of an Earthen Immortal? How terrifying!"

“It’s so powerful!”

Amidst everyone’s shock, Chu Kuangren merely shot a glance at it and casually raised his hand to unleash his Thousand Lotus Sword Intent.

A purple sword ray shot out once more. Although it did not seem as powerful as the Bronze Heavenly Hall Ruler’s attacks, it tore through that gigantic palm like it was nothing!

“What?”

The Bronze Heavenly Hall Ruler was shocked, and his confidence turned into fear as he quickly took out a defensive Immortal Weapon.

However, that Immortal Weapon immediately shattered with a bang while the Bronze Heavenly Hall Ruler was sent crashing into a nearby planet by the sword qi attack.

Everyone could not believe their eyes.

“H-How is that possible?!”

“Hasn’t the Bronze Heavenly Hall Ruler broken through to an Earthen Immortal? Why is he being beaten up instead? Are Earthen Immortals always that weak?”

Everyone felt as if their worldview was crumbling

Only Gu Wuqing was not surprised at all.

Were Earthen Immortals powerful?

They sure were. In Planquilon Immortal World, they were said to be a top-tiered elite. Even among the Seven Crowns, only one of them, the Sword Crown, was an Earthen Immortal.

The Bronze Heavenly Hall Ruler was unfortunate to have, out of all people, Chu Kuangren as his opponent.

“You guys will never know who you’ve messed with,” Gu Wuqing lamented while looking at Chu Kuangren with admiration and respect.

Just then, the Bronze Heavenly Hall Ruler, who was sent flying by a single attack earlier, quickly rushed out again. This time, he had taken out an ancient talisman.

“Die!” the Bronze Heavenly Hall Ruler yelled while activating the ancient talisman, which blasted out a scorching golden beam of light. It was so powerful that it pierced through the void itself.

The power of that attack was close to a Middle Third-grade Earthen Immortal’s level!

“Oh,” Chu Kuangren uttered when he saw that ancient talisman.

The Descendant Self Sword at his waist unsheathed itself.

As the Descendant Self Sword unsheathed, the Daoist patterns on its body dazzled brilliantly before releasing a purple sword ray so bright that it lit up the galaxy and many more surrounding it.

That attack stunned everyone present.

That attack plunged the galaxy into chaos!

That attack also decimated the golden beam of light and killed the Bronze Heavenly Hall Ruler who had just become an Earthen Immortal on the spot!

That attack destroyed any remaining hope left in the Grand Marshal and others!

Chu Kuangren put his Descendant Self Sword into its sheath and then looked at the Grand Marshal and others, who were dumbfounded. He said apathetically, "Your Ruler... is quite weak, it seems."

Chapter 1042 The Jade Emperor Treasures Appear, All Forces Making Their Moves, the Whirlwind Sword Sect

"Your Ruler... is quite weak, it seems," said Chu Kuangren with a chuckle.

The Grand Marshal and others who were already stunned were at a loss for words as they looked at Chu Kuangren with despair.

Chu Kuangren raised his sword and slashed it forward.

In the blink of an eye, the Grand Marshal and others were killed!

The Bronze Heavenly Hall had fallen!

Chu Kuangren reached into the air and gestured for a grab. The ancient talisman that the Bronze Heavenly Hall Ruler used earlier immediately flew into his grasp.

He inspected it further. "Sure enough, this is the Yang Talisman from the Yin Yang Ancient Talisman. With this, both talismans can finally reunite once more."

Following that, his Immortal Consciousness surged and went on a looting spree throughout Bronze Heavenly Hall.

Most of the items were not that useful to him, but he still kept them. He planned to send the bulk of those items and resources back to Firmament Star to put them to good use.

"I'll leave the rest to you guys," said Chu Kuangren to Gu Wuqing and the others.

"Very well."

The Bronze Heavenly Hall was conquered by Gu Wuqing and the others in no time.

The cultivators who came to watch the battle were utterly dumbfounded.

"Did the Bronze Heavenly Hall get wiped out just like that?"

"Is this Chu Kuangren's strength? How terrifying!"

After that, the other cultivators left one after another.

Meanwhile, Chu Kuangren had also started to sort through the loot from raiding Bronze Heavenly Hall. Obviously, the most valuable item he gained was the Yang Talisman.

Unlike the Yin Talisman, which possessed defensive capabilities, the Yang Talisman specialized on the offensive instead.

That talisman was so powerful that the Bronze Heavenly Hall Ruler could unleash a Middle Third-grade Earthen Immortal's strength despite having just become an Earthen Immortal.

Besides the Yang Talisman, he also found a few Dao Proclamation Seals among the loot.

Whenever an Immortal creates a new Immortal Technique, they would be eligible to obtain a Dao Proclamation Seal. However, most of the Immortals in the Immortal world rarely ever spend the effort to create new techniques, seeing that most of them usually strived to continue the legacy of their predecessors.

## IU

Besides, creating new Immortal Techniques was a time-consuming and challenging process. The newly created Immortal Technique might not even be as powerful as the ones passed down from the previous generations.

As such, most Immortals usually chose to learn and cultivate the Immortal Techniques created by their forefathers, and only a rare few would attempt in creating a new Immortal Technique.

People like the latter usually possess great will and grit to succeed, always striving to surpass their forefathers.

The Sword Crown, for instance, was one of those people. He created the Thousand Lotus Sword Intent technique.

Meanwhile, the Immortals living in the universe mostly relied on creating new Immortal Techniques of their own because they were not in the Immortal World, hence the lack of Immortal Techniques being passed down for them to learn.

As a result, most Immortals here would possess one or more Dao Proclamation Seals.

These Dao Proclamation Seals were extremely useful to Chu Kuangren as he could use them to strengthen his Dao Proclamation Self Descendent Sword by absorbing them.

"I shall hand the Yang Talisman to Gu Wuqing. That way, he can unite the Yin Yang Ancient Talisman to locate the whereabouts of the Jade Emperor Immortal's treasure."

"Meanwhile, I shall merge these Dao Proclamation Seals into my Dao Proclamation Self Descendent Sword. It's also time I raise my cultivation level," Chu Kuangren mumbled.

He was currently a First-grade Immortal. However, he recently felt that he had accumulated enough resources to ascend to the Second Grade.

At that thought, he left Gu Wuqing in charge of finding the Jade Emperor Immortal's treasure and went into closed-door meditation at Bronze Heavenly Hall.

Gu Wuqing accepted that task at once. After all, with Chu Kuangren having his back, he need not fear anyone in Jade Emperor Galaxy.

Several warships arrived at a certain stellar system in the Jade Emperor Galaxy.

It was a barren wasteland void of life.

Although there were planets in the surroundings, there were no signs of life on any of them.

Gu Wuqing walked out of the warship and took out the already united Yin Yang Ancient Talisman. Swirls of light started to appear around the ancient talisman before it trembled as if resonating with something inside the void here.

“Finally, after so many months, I’ve found the spot where the Yin Yang Ancient Talisman has the greatest resonance. The Jade Emperor Immortal’s treasure must be hidden within the void here,” Gu Wuqing said happily.

He then tossed the ancient talisman into the air.

The ancient talisman immediately released two intertwining rays of black and white light into the void. Like a huge rock thrown into a lake, great ripples appeared in the void.

An inexplicably mysterious and profound Dao energy fluctuations spread everywhere like a raging tide. The commotion shocked everyone inside the Jade Emperor Galaxy.

All of the great forces and orthodoxies soon reacted to it.

“What a horrifying energy fluctuation containing Yin Yang intent. Could this be the legendary Jade Emperor Immortal?!”

“It’s the Yin Yang Ancient Talisman. It looks like it has reappeared. This means that someone has found the Jade Emperor Immortal’s treasure. Could it be the Gu clan’s cultivators?”

“Now that the Gu clan has allied themselves with Chu Kuangren, it seems like the rumors about them having the Yin Talisman are true. Now, with the Yang Talisman from Bronze Heavenly Hall, them reuniting the Yin Yang Ancient Talisman and locating the Jade Emperor Immortal’s treasure is no surprise.”

The Jade Emperor Immortal was rumored to be the most powerful Immortal in Jade Emperor Galaxy, and the treasures he left behind had always been the greatest mystery in Jade Emperor Galaxy. Many had attempted to find it all these years, but none were successful.

Now that the Jade Emperor’s treasure had appeared, even those elites who were mostly in hiding or living in seclusion had started to act, much less the great orthodoxies.

All of them soon headed towards the source of that ancient Yin Yang intent.

On an ancient planet somewhere, a white-haired elderly man looked towards the source of the Yin Yang intent, and his eyes lit up with delight. “The Jade Emperor Immortal’s treasure, huh? Rumor has it that the Jade Emperor Immortal was a being at the level of a True Immortal. His treasure could perhaps assist me in breaking through to the Earthen Immortal Realm.”

With that, he stood up and dashed towards the source of the Yin Yang intent.

Somewhere else, a Living Planet suddenly exploded.

Just like that, the entire civilization was destroyed. However, amidst the millions of deaths, an elderly man in blood-colored robes and an evil gaze slowly walked away from the explosion.

That elderly man opened his mouth, absorbing the life essences of the millions of living beings that had died in the explosion into his body.

As a tremendous amount of life essence entered his body, his frail and old physique gradually transformed. His pale face started to have some color, while his dry, cracked skin turned smooth.

Soon, the elderly man turned into a youthful man.

Having absorbed all life from that planet, the blood-robed man looked into the distance and mumbled, "So, the Jade Emperor's treasure has appeared. Perhaps there are some Immortal Herbs or pills amidst his treasures that can extend my life. I'll never have to extend my life by absorbing the life essences of others anymore."

Seeking to live longer and pursue the Dao, the blood-robed man's eyes lit up with determination.

Somewhere else in space, many sword cultivators were gathered inside a palace, with powerful sword intents emanating from them.

Their leader was a green-robed man.

That person was the Sect Master of Whirlwind Sword Sect, the most well-known Sword Dao orthodoxy in Jade Emperor Galaxy. He was also Zhao Wujing's elder brother.

There was a rumor that Zhao Wujing's title as the number one swordsman in Jade Emperor Galaxy was because of his elder brother, who did not wish to fight him for the title and decided to let him have it instead.

However, only those two brothers knew whether the rumor was true.

"My dear brother, I told you that the Bronze Heavenly Hall was not a suitable place for you to stay. Yet, you dismissed my words and joined them to prove that you were stronger than me. Now, your death is in vain."

"Sigh..."

The Whirlwind Sect Master sighed, and a cold glint shone in his eyes. "I don't care who you are or where you're from, Chu Kuangren. But for killing my brother while I was still in closed-door meditation, I shall kindly return that favor to you."

Then, powerful sword intent emanated from his body.

The surrounding sword cultivators gasped at that sight.

'This sword intent... Our Sect Master must have ascended into the Earthen Immortal Realm.'

“The Jade Emperor Immortal’s treasure has appeared. We shall head there at once to get it and then go for Chu Kuangren’s head!”

“Roger!”

With the treasure’s appearance, the great orthodoxies and elites in hiding started to make their moves toward the location of the Jade Emperor’s treasures.

Chapter 1043 The Elites of All Forces Arrive, the Palace’s Seals and Restrictions, Who’s It You’re Taking Revenge On?

Somewhere in the vast universe, a magnificent palace appeared out of thin air, with countless Daoist patterns intertwining around it. At the same time, the countless treasures gleamed brilliantly as an incomparably dense Dao energy fluctuation emanated from it. That palace was many times more amazing compared to the Bronze Heavenly Hall.

Standing nearby, Gu Wuqing and the others were incredibly happy to see that palace.

“So that’s the Jade Emperor’s treasures, huh?”

“Look over there! That artificial hill is full of Immortal Herbs.”

“Not only that but look at those two lion statues over there. I can’t believe they are made of Immortal Metal. Wow, this is simply amazing.”

“We’re going to be rich.”

Everyone was delighted.

However, several auras soon appeared at that moment.

Those were the cultivators who were attracted by the Jade Emperor’s treasures. All of them looked at the palace with coveting eyes.

“Are these the treasures left behind by the Jade Emperor Immortal? This aura is truly extraordinary. Haha! These treasures are mine.”

“None of you guys are allowed to take these treasures from me.”

“Oh, it’s the Gu clan’s people... Oh? Chu Kuangren is not here. This is wonderful news. As long as he’s not here, we’ll certainly stand a chance to get it.”

Someone had noticed Gu Wuqing and the others.

They were incredibly frightened at first, but after scanning through the group and realizing that Chu Kuangren was not among them, everyone breathed a sigh of relief.

If Chu Kuangren were here, ninety-nine percent of the people present would have to give up going after the treasure. Gu Wuqing frowned when he saw that so many people had come.

“It looks like things have gotten a little complicated.”

Although he was sure no one would harm them because of Chu Kuangren's protection, Gu Wuqing knew that he could not stop those people from getting the treasures as well.

People have always been moved by wealth and riches, which has always been the case since ancient times.

Countless people would risk their lives for the chance of getting those treasures.

"Haha! Those are the Jade Emperor's treasures, alright. Well, look at all those Immortal herbs! I can surely prolong my lifespan for a few more epochs with these."

A burst of laughter sounded as a handsome young man in blood-colored robes arrived, and a powerful yet chilling Immortal aura erupted.

Upon seeing him, everyone became wary.

"It's him, the Bloodstrike Immortal!"

"Rumor has it that this person was once a well-known cultivator for many years. However, he later became severely injured from a fight with his arch-enemy and instantly entered the state of Heavenly Deterioration Stage Five. Seeking to prolong his life, he has cultivated an evil technique that allows him to absorb the life essence of others. Every time he uses that technique, he would have to devour a whole planet, killing millions of lives on average. It's indeed very terrifying."

"So he has come too."

**n**

"It seems like he's after the Immortal herbs among the Jade Emperor's treasures. The treasury of a True Immortal, like the Jade Emperor, surely contains a few Immortal herbs that could prolong the life of an Immortal. If he's lucky, he might be able to break free from the Heavenly Deterioration Stage Five state as well."

Everyone was in a heated discussion.

After the Bloodstrike Immortal's arrival, a white-haired elder appeared from the distance.

That elderly man's demeanor and poise were unlike the Bloodstrike Immortal, who was emanating a surge of nauseating and evil qi.

"Immortal Hao Feng!"

"Another Immortal whose name was once well known throughout the galaxy has appeared. It looks like the treasures have attracted many elites."

Besides the elites in hiding, cultivators from various great orthodoxies soon arrived as well.

One of the groups that stood out the most was a bunch of formidable sword cultivators who had powerful sword intent emanating from their bodies. Their leader, a green-robed swordsman, had a far more powerful sword intent compared to Zhao Wujing.

"It's the Whirlwind Sword Sect!"

"It's Zhao Wujing's brother. Based on his sword intent, it seems that the rumors were true. The Whirlwind Sword Sect Master's Sword Dao prowess is undoubtedly above that of Zhao Wujing."

"That aura of his is as strong as the Bronze Heavenly Hall Ruler... No, it might even be more powerful than the latter. What? An Earthen Immortal!"

Many were shocked by the arrival of the Whirlwind Sword Sect, especially the Whirlwind Sect Master, whose sword intent was so powerful that many reckoned that he was already at the Earthen Immortal Realm.

"Are you people from the Gu clan?"

At that moment, the Whirlwind Sect Master looked at Gu Wuqing and the others and asked.

"So what if we are?" There was a hint of cautiousness in Gu Wuqing's eyes.

He could sense the Whirlwind Sect Master's hostility. Even Gu Xing, the Fox Tribe Forefather, and Hu Sanniang had put up their guards.

"Since the Gu clan has submitted to Chu Kuangren, they shall all die," the Whirlwind Sect Master said.

Then, he attacked Gu Wuqing and the others with his sword.

A surge of sword qi burst through the void. It was so powerful that even an Immortal like the Fox Tribe Forefather felt overwhelmed by it, and his eyes widened in fear.

Just then, Gu Wuqing stepped forth and took out the Yin Yang Ancient Talisman.

The ancient talisman started brimming with light as the Yin Talisman's effects were activated. A runic light barrier soon appeared and shielded them from the attack.

Boom!

As soon as the sword qi landed on the runic light barrier, ripples began to spread on it.

"Oh, so this is the Yin Yang Ancient Talisman that the Jade Emperor Immortal left behind? It's truly extraordinary," the Whirlwind Sect Master said.

He turned silent for a while and stopped attacking before he looked toward that palace. "Once I've obtained the treasures inside, I shall come for your lives next."

Everyone else also began to make their moves.

They charged towards the palace but soon found the palace's restrictions and seals blocking their path, so none of them could enter.

With the treasures right before their very eyes, they could not give up.

Everyone started attacking the seals and restrictions by unleashing one after another Immortal technique. However, despite how much they attacked it, the seals and restrictions did not break.

"D\*mn it."

"D\*mn it. The Immortal Herbs are right in front of me. I won't allow myself to be stopped here!" The Bloodstrike Immortal was incredibly enraged.

He unleashed a palm attack, whose blood-colored energy crashed forward like a raging tide.

However, his efforts were still futile.

The Whirlwind Sect Master attacked right after that.

He struck out with his sword, sending out a dazzling sword ray towards the seals. A loud boom erupted the moment his attack landed on it.

Everyone quickly looked over with hope.

Nevertheless, the seals still remained intact after the sword qi dispersed.

"How is this possible? Even the Whirlwind Sect Master has no way to break it?"

Everyone was disappointed.

Following that, the Bloodstrike Immortal seemed to have recalled something. He looked at Gu Wuqing and said coldly, "The treasures here were left behind by the Jade Emperor Immortal, and the same thing could be said for the Yin Yang Ancient Talisman. Rumors have it that only the one who has the Yin Yang Ancient Talisman shall be granted access to the treasures. In other words, only the person that has the ancient talisman can enter!"

Everyone thought that his words made a lot of sense too.

However, Gu Wuqing and the others could not help but gulp with fear when they noticed the malicious gazes around them. They suddenly felt a bad premonition.

"Hand me the Yin Yang Ancient Talisman!"

The Bloodstrike Immortal was the first to attack.

His Immortal's Core energy turned into a huge blood-colored palm that immediately reached forth, grabbed, and landed on the runic light barrier.

"I initially wanted to get those treasures before dealing with you guys. However, it looks like there's a change of plans," the Whirlwind Sect Master sneered before he attacked.

A sword ray shot out, causing the runic light barrier to tremble non-stop.

Inside the runic light barrier, the Fox Tribe Forefather, Hu Sanniang, Gu Xing, and others looked at each other with determination.

"Wuqing, this runic light barrier isn't going to hold much longer. We'll buy you some time for you to rush into the palace. Once you're inside, you'll be safe with the seals and restrictions protecting you," Gu Xing said.

With that, Gu Xing rushed out with the Fox Tribe Forefather. With his Immortal's Core energy channeled, he aimed it towards the Whirlwind Sect Master.

"You think too highly of your strength!" The Whirlwind Sect Master snickered and then unleashed a sword ray at the two, which heavily wounded them.

Both of them were shocked by his power.

"You have broken through to an Earthen Immortal!"

"Hmph! Today, I'll kill you guys, go get the treasure inside, and then take my revenge on Chu Kuangren for my brother's death!" the Whirlwind Sect Master said with a cold snort.

That was when the void suddenly shook, and the surrounding planets trembled. An apathetic voice suddenly sounded. "Who is it you're taking revenge on?"

Chapter 1044: Killing the Bloodstrike Immortal, My Sword Shall Reign Supreme Throughout the Universe

"Who is it you're taking revenge on?" An apathetic voice sounded.

Following that, an incomparably dense and terrifying aura surged from the void and out walked a figure in white.

That aura shocked everyone at the scene.

"It's him. He's here!"

"I knew it. I knew he wouldn't miss this chance to get the treasures."

Everyone's gaze flickered, and some of the cultivators, who were planning to attack, quickly retracted their auras.

Only the Whirlwind Sect Master looked at Chu Kuangren with some fighting intent. "Such an aura is truly extraordinary."

A glint also flashed in the Bloodstrike Immortal's eyes. "A Second-grade Immortal? No, this aura far exceeds that. He's a Third-grade Immortal!"

However, he had only sensed Chu Kuangren's cultivation level.

As for his combat strength, it was not something that could be measured by cultivation level alone.

Especially those who had witnessed Chu Kuangren's battle at the Bronze Heavenly Hall that day were the only ones fully aware of how terrifying he could be.

"I don't care. The Immortal Herbs among the Jade Emperor's treasures are mine no matter what! I don't care who stands in my way!" A cold glint shot out of the Bloodstrike Immortal as he took out a blood-colored short sword.

That short sword was a very powerful Immortal Sword. Once activated, it could kill even a top-tiered Ninth-grade Immortal!

The only disadvantage was that the short sword could only be used once, and that was why the Bloodstrike Immortal had kept it all the while as his trump card.

"I heard that Chu Kuangren is strong enough to kill the Bronze Heavenly Hall's Ruler. This means that his combat strength is several levels higher than his cultivation level. I'm certainly no match for him."

"Only with this blood sword that I've created by sacrificing millions of living beings can I stand a chance to kill him. Using this sword on someone like you is worth it!"

The Bloodstrike Immortal secretly unleashed that blood-colored short sword.

In an instant, a blood-colored beam of light shot across the void, reaching Chu Kuangren with a speed that could seemingly distort time itself.

"Oh."

Chu Kuangren snorted the moment he sensed something. He subconsciously unsheathed his Descendant Self Sword and slashed it forward into the void.

With a clang, the blood-colored short sword collided with the Descendant Self Sword. After a burst of sparks, the blood-colored short sword shattered in the end!

On the other hand, Chu Kuangren's Descendant Self Sword was trembling from the impact.

"What! He blocked it?!"

The Bloodstrike Immortal widened in fear. Without a second word, he immediately turned and dashed into the distance.

"How decisive."

"Alas, it's a shame. The moment you made that move, your end has been decided," Chu Kuangren said apathetically.

A dragon apparition suddenly appeared in the void and turned into a crimson lasso that wrapped itself around the Bloodstrike Immortal, rendering him immobile.

Following that, a strand of sword qi went past him.

The Bloodstrike Immortal immediately exploded into a mist of blood!

Chu Kuangren kept his Dragon-Binding Lasso away and looked at the Whirlwind Sect Master. He asked, "So, tell me. Who are you going to take revenge on again?"

Having seen Chu Kuangren kill the Bloodstrike Immortal with such ease, the Whirlwind Sect Master's expression turned solemn. "Your combat strength has far exceeded that of your cultivation level. However, it does not mean you're undefeatable."

"Fellow sword cultivators, activate the formation!"

As soon as he said that, all the Whirlwind Sword Sect's cultivators rushed toward and surrounded Chu Kuangren. As sword intent swirled around them, creating a resonance, they transformed into an overwhelmingly powerful sword formation!

Endless surges of sword qi filled the surroundings!

“Chu Kuangren, behold the power of my Whirlwind Sword Sect’s strongest sword formation!” the Whirlwind Sect Master yelled. After that, he stepped into the sword formation and resonated with its sword intent!

With the endless strands of sword qi at his disposal and his Earthen Immortal cultivation level, the amount of power he was displaying now was incredibly terrifying.

It was as if he could easily crush the planets without lifting his hands!

“Bring it on, Chu Kuangren. Show me what you’ve got!” the Whirlwind Sect Master said arrogantly.

With a swing of his Immortal Sword, sword rays shone with a hundred-meter-tall sword qi attack, crashing down onto Chu Kuangren!

That sword attack was so mighty that the galaxy itself trembled!

Besides, that was only a simple attack from the Whirlwind Sect Master.

Everyone was very shocked by the amount of power he had displayed. At the same time, they were curious as well. Could Chu Kuangren remain undefeatable this time?

Chu Kuangren was very calm in the face of the mighty sword qi attack.

He pointed a sword hand sign forward and activated the Thousand Lotus Sword Intent.

With a raise of his hand, countless lotuses appeared in the void, easily disintegrating the incoming sword qi attack. As such, he was not injured at all.

“Since you want to duel with swords, I shall let you have a taste of my swordsmanship,” Chu Kuangren said indifferently.

He took a step forward.

Suddenly, his Immortal Physique, the Exquisite Nine Orifices Sword Heart, activated while the Invincible Self-Empowering Source within him also activated in the form of Sword Dao Source energy.

At that moment, every sword cultivator located on the planets within a million-kilometer radius felt something, and their expressions shifted.

Their swords had started trembling with an intent to submit and obey!

“This... Who’s Sword Dao is this? How terrifying!”

“By the heavens, does a Sword Immortal like that exist in Jade Emperor Galaxy?”

Many sword cultivators were shocked, to say the least.

Outside the Jade Emperor’s treasure palace, the Whirlwind Sword Sect’s cultivators inside the sword formation gulped in fear as they attempted to control their swords.

However, as Chu Kuangren’s Immortal Physique energy fluctuations grew stronger, the Sword Dao intent to suppress every sword in the galaxy out there also became more intense.

Eventually, one of the sword cultivators lost control of his sword.

Whoosh...

A sword flew into the air, followed by two, three, tens, hundreds, thousands...

Millions upon millions of swords rose into the air and hovered above Chu Kuangren. Their combined sword chants were so loud that every corner of the galaxy could hear them.

Having lost their swords, the Whirlwind Sword Sect's cultivators found that their sword intents were suppressed as well. As such, that sword formation fell apart.

Only the Whirlwind Sect Master was left struggling to hold his own with his sword intent, but he did not look good.

For a moment, there was a look of horror in his eyes.

"This is my swordsmanship!"

"The mightiest and strongest swordsmanship there is. Once my sword is unsheathed, it shall reign supreme throughout the universe!" Chu Kuangren's indifferent voice reverberated through the galaxy. It was as if an Emperor of Swords was speaking with utmost authority.

"No. This is impossible!"

"I have broken through to an Earthen Immortal. No matter how powerful your Sword Dao is, there's no way you can compensate for the gap in our cultivation levels that easily!"

Holding the last glimmer of hope, the Whirlwind Sect Master roared. His sword intent was channeled to the maximum, and his Immortal Sword let out a terrifying sword chant.

"Sword Art, Divine Unending Whirlwind!"

That attack unleashed a barrage of sword qi throughout every direction like a devastating whirlwind!

Remaining in his spot, Chu Kuangren put a sword hand sign out.

His sword intent merged with the millions of swords above him, arranging them to form the shape of a gigantic lotus that blocked the incoming whirlwind sword qi attack.

Amidst the countless swords, Chu Kuangren appeared calm, with his untainted white robes, exuding an air of invincibility.

"Now it's my turn."

Chu Kuangren simply drew with his sword hand sign across the void.

The swords, with sword intent circulating through it, gathered and turned into a mighty torrent of swords that surged forward along with Chu Kuangren's sword qi.

The Whirlwind Sect Master looked at the sky-full of swords. In the face of that attack, he felt incredibly small and insignificant, akin to an ant trying to stop a tsunami.

In the blink of an eye, the Whirlwind Sect Master was buried within the torrential flow of swords. Before he could even let out a scream, he was reduced to nothing.

The Whirlwind Sect Master... had perished!

On the other hand, Chu Kuangren merely waved his sleeves and retracted his Immortal Physique energy fluctuations. Having lost the control of the sword intent, countless swords rained down everywhere.

The surrounding cultivators were silent, for they were stunned!

Chapter 1045: The Earthen Immortal Herb, Divine Azure Solar Flame, and the Weaponsmithing Codex, Serve Me for a Thousand Years

After the Whirlwind Sect Master was killed, Chu Kuangren stood arrogantly in the void. His gaze swept across everyone in the crowd as he asked, "Anyone else?"

His voice echoed amidst the silence.

Everyone had acknowledged that Chu Kuangren was currently invincible in Jade Emperor Galaxy.

None of them was a match for him at all!

"Since there are no objections, the Jade Emperor's treasures shall belong to us," Chu Kuangren said.

Then, he looked at Gu Wuqing. Understanding what he meant, Gu Wuqing handed over the Yin Yang Ancient Talisman to him.

After receiving the ancient talisman, Chu Kuangren walked toward the palace.

The ancient talisman started to emit a black and white light. Under its protection, Chu Kuangren was not affected by the seals and restrictions around that palace.

It did not take long before Chu Kuangren was inside the palace and started looting the place. At first, he came to a herbal garden, where all sorts of elixirs and Immortal Herbs were grown.

Chu Kuangren waved his arm, storing everything in that garden inside his Yin and Yang Ring.

Suddenly, one of the herbal fields caught Chu Kuangren's attention.

That particular herbal field was located amidst countless others. However, it was only after he took away most of the herbs and plants that the Immortal Herbs within the field revealed itself.

Chu Kuangren looked over only to see supreme elixirs colored in yellow growing inside that herbal field. Each of them was gleaming with Immortal Sparks while emanating surges of Earth qi fluctuation.

"Those are... Earthen Immortal Herbs!"

Chu Kuangren's eyes lit up.

Meanwhile, outside the palace, Immortal Hao Feng's eyes widened at that sight.

"It's... It's the Earthen Immortal Herb! Apparently, a single Immortal plant can easily allow a Ninth-grade Immortal to ascend to the Earthen Immortal Realm!"

Despite being very knowledgeable, Immortal Hao Feng could not sit still any longer when he saw a whole field full of the Earthen Immortal Herb.

He had been stuck at the Ninth-grade Immortal level for too long. If he could have one Earthen Immortal Herb, he would surely become an Earthen Immortal right away.

That was something he had always dreamed of.

“That whole field contains at least hundreds of Earthen Immortal Herbs. If I were to ask Chu Kuangren for one, would he allow me to have it?”

“I must be too naïve. Seeing how valuable an Earthen Immortal Herb is, there’s no way he would give it to me that easily. No, I must try at least, no matter how large of a price I must pay,” Immortal Hao Feng thought to himself.

Meanwhile, the others were still shocked by the Jade Emperor’s treasures.

Inside the palace, Chu Kuangren was also shocked to find the Earthen Immortal Herbs. However, he kept all of them nicely before heading to the next location.

Soon, he arrived at a place similar to a workshop.

The moment he entered, he could feel an air of dryness and heat. He then noticed an azure flame burning inside the furnace of that workshop.

“This is the Azure Yang Divine Fire on the Divine Fire List!”

Chu Kuangren’s eyes lit up.

That divine fire was ranked number fifty on the Divine Fire List. It was many times more powerful than the divine fire once owned by the Holy Divine Fire Cult.

His Phoenix’s Flames would surely become stronger if he could refine the Azure Yang Divine Flame.

“Not bad at all.” Chu Kuangren nodded happily as he raised his hand and unleashed his Phoenix’s Flames. The flames surrounded the Azure Yang Divine Fire, and then he absorbed it into his body.

After that, he looked around the workshop. He could see many racks with various weapons hung on them.

Moreover, those were not ordinary weapons but runic weapons instead!

“Combining runes into weapons? This is quite similar to the Ancient Yin Yang Talisman.” Chu Kuangren grabbed one of the swords and studied it until his eyes lit up. “These are all Immortal Weapons.”

Although most of them were ordinary Immortal Weapons that were no use to him, his men could still equip them.

The Firmament Star was lacking in Immortal Weapons anyway.

Other than that, Chu Kuangren had also discovered quite a few weaponsmithing codexes lying around. Those codexes contained the Jade Emperor Immortal’s knowledge in weaponsmithing.

To Chu Kuangren, those codices were more valuable than those Immortal Weapons and the Earthen Immortal Herbs, as they contained vast knowledge.

Knowledge was power, and that saying was very applicable in the Immortal World of cultivation.

Chu Kuangren waved his arm, keeping all the Immortal Weapons and codexes in his inventory. Then, he went to another location in the palace.

Immortal Techniques, Herbal Pills, Immortal Metal...

Chu Kuangren explored every corner of the palace. Having such a huge haul, it was not surprising that he had a delighted smile on his face the entire time.

Outside the palace, everyone almost went crazy with jealousy as they watched Chu Kuangren going on a looting spree inside the palace. However, there was nothing they could do.

Strength was everything indeed!

Since they were not powerful enough, they would not dare to utter a word even if Chu Kuangren had turned the entire palace upside down with his looting.

After looting for three days and three nights, Chu Kuangren walked out of the palace happily and then left with Gu Wuqing and the others.

As soon as they left, the seals and restrictions around the palace dispersed like they had lost their use.

Now that the treasures inside had all been taken, what was the point of the seals and restrictions?

At the sight of the disappearing seals and restrictions, everyone immediately rushed into the palace. They searched everywhere, hoping to find something that Chu Kuangren had overlooked.

Alas, Chu Kuangren did not even leave so much as a single Immortal Crystal behind. Even the two lion statues made from Immortal Metal were taken away. The entire palace had already been emptied out, with nothing valuable left to be found inside.

"D\*mn it. Chu Kuangren is just too unforgiving!"

"He didn't even leave anything behind for us."

"Despicable, simply despicable."

Everyone complained and vented their anger. They only dared to speak like that because Chu Kuangren had left.

After returning to Bronze Heavenly Hall, Chu Kuangren took out a portion of the treasures and handed them over to Gu Wuqing and the others to be distributed.

As for the remaining items, he planned to send them back to Firmament Star.

No one had any objections to that. After all, they had submitted to Chu Kuangren and were already considered a citizen of the Firmament Star.

If not for Chu Kuangren, they would have lost their lives, let alone those treasures.

"Wuqing, I have a pill recipe with me. Can you bring some men with you to gather the ingredients listed on it?" Chu Kuangren said.

Sure enough, that was the recipe for the Feathered Immortal Pill, which had decided to make a few before returning to Firmament Star.

Since the Jade Emperor Galaxy had far more resources than the Violet Gold Galaxy, it should be easier to gather the ingredients here.

“Very well, Master Chu.” Gu Wuqing nodded.

“Alright. I’ll be going to a star for a closed-door meditation for a while,” Chu Kuangren said as he looked at a star in the distance.

Suddenly, he recalled that his Stellar Undying Body had not been upgraded for a long time, and he just happened to have the chance right now.

He wanted to absorb an entire star and perfect his Stellar Undying Body!

Everyone was dumbfounded.

‘A closed-door meditation on a star?’

‘What kind of cultivation practice is this?’

However, since Chu Kuangren said so, all of them were fine with it.

“Master Chu, someone called Immortal Hao Feng is waiting outside, and he has requested to meet you.”

Just then, the Fox Tribe Forefather walked inside and said.

“Immortal Hao Feng? Let him in.”

“Sure.”

The elegant Immortal Hao Feng soon arrived before Chu Kuangren and greeted him with a fist salute.

“Greetings, Master Chu.”

“Is there anything I can help you with, Immortal Hao Feng?”

“Frankly speaking, I wish to exchange an Earthen Immortal Herb with you, Master Chu.” He took out an Immortal Weapon and said blatantly.

It was just an ordinary Immortal weapon that was not worth the price of an Earthen Immortal Herb. Immortal Hao Feng understood that well, and that was why he added, “If there’s anything else you require me to do, please do not hesitate to speak out, Master Chu.”

Chu Kuangren took a glance at him. ‘It seems like he’s an honest person.’

“I don’t mind giving you the Earthen Immortal Herb, but I don’t want any of the items you have. Instead, I want you to serve me and protect my Firmament Star for a thousand years!”

Chapter 1046: Devouring The Stars, Who Is This? The Firmament Star Is In Danger

“I want you to serve the Firmament Star for a thousand years!”

At that, Immortal Hao Feng’s expression changed as it meant that he should surrender.

"Immortals have a long lifespan. A thousand years pass by in just a flick of a finger, and you can grab this opportunity to break through to the Earthen Immortal Realm. I think this is a great deal," Chu Kuangren continued.

After hearing him, Immortal Hao Feng pondered for a while and then took a deep breath. "Since this is the case, I'll follow you, Master."

"Great. You won't regret it."

With a smile, Chu Kuangren took out an Earthen Immortal Herb and handed it to Immortal Hao Feng. He did not really favor Immortal Hao Feng. It was just that if they wanted to develop further, Firmament Star needed more manpower, especially Immortals.

As such, Immortal Hao Feng was an eligible candidate. He could definitely break through the Earthen Immortal and serve the Firmament Star well after consuming the Earthen Immortal Herb.

Immortal Hao Feng was stunned for a moment, and he looked puzzledly at the Earthen Immortal Herb in his hand. "Master, you're giving it to me just like that? Aren't you afraid I'll renege on my promise after taking the Earthen Immortal Herb?"

He initially thought he had to make some contributions to Chu Kuangren to express his sincerity before getting the herb. However, he did not expect to get it so easily.

Chu Kuangren grinned upon hearing his words. "As the saying goes, I need to trust the person in the position. Besides, trust me. If you dare to go back on your word, I'll search high and low to kill you!"

Immortal Hao Feng shuddered inexplicably. He somehow had a feeling that if he dared go back on his words, there would be nowhere for him to hide even in the vast universe. Of course, he did not intend to do so either.

"Noted, Master."

Next, Chu Kuangren refined the Azure Yang Divine Fire in the Bronze Heavenly Hall, taking the power of the Phoenix's Flame up a notch.

Shortly after, he came to a dazzling star that was only one of the dozens of stars in the Jade Emperor Galaxy. Its scale was considered small among the countless stars in the universe, but it exuded endless heat and spiritual power that constantly radiated outwards.

1

Looking at the huge glowing fireball in front of him, Chu Kuangren could not help but smack his lips. There was a hint of greed in his eye.

"Baby, I'm here to devour you!"

3

His figure turned into a stream of light that dashed into the star, and upon impact, terrifying flame currents erupted.

Those under the level of an Immortal would undoubtedly die under the impact of such strength. However, Chu Kuangren could not care less as his sword intent surged and isolated the fire currents

As he continued to penetrate the star's interior, the terrifying fire currents grew stronger. Chu Kuangren reckoned that if an ordinary Immortal were in his position, he would probably be burned to ashes.

"I'm looking forward to seeing how strong my body will be after absorbing this star."

Chu Kuangren was excited.

Soon after, he went deep into the star's core and activated his Stellar Undying Body to inhale the endless stream of stellar energy into his body.

An indescribable heat then enveloped his entire body, instantly turning Chu Kuangren's physical body powerful, and he felt like he was about to melt.

"Holy moly. This really is stellar energy."

"Keep devouring!"

He ignored the heat, and not only did he not reduce the absorption speed, but he also cast his Stellar Undying Body and Universal Cauldron Physique to the ultimate!

Since he possessed the Immortal Body, he had no problem exerting himself.

The absorption took more than half a year, yet the stellar energy seemed endless. Although Chu Kuangren had absorbed it for that period of time, the star did not seem to have any changes.

There was still a long way to go before his Stellar Undying Body reached completion. Nevertheless, Chu Kuangren was not discouraged as he felt that his physical body was growing stronger.

Besides, he could also feel that his speed of absorbing the stellar energy was accelerating as his physical body continued to grow stronger.

Another half a year had passed.

The star had obviously shrunk compared to when Chu Kuangren first arrived. When many of Jade Emperor's civilizations and orthodoxies noticed the change, they sent someone to investigate.

"Something is absorbing the stellar energy."

Those who went to investigate found an answer that stunned many of the cultivators.

A star was the energy source to maintain civilizations' developments. The energy was unimaginable and highly violent, which was difficult even for Immortals to approach, let alone absorb.

What kind of person could absorb a star's energy for its own use? Moreover, it would have a huge impact on Jade Emperor Galaxy if Chu Kuangren absorbs all of the star's energy.

Although Jade Emperor Galaxy had more than one star, none could guarantee that the existence that had absorbed a star would not absorb other stars.

"The star's energy is so mighty. I guess that being can only absorb some but not all."

“Rest assured, everyone.”

A cultivator expressed his view, so everyone decided to observe but not take any action.

However, what happened next was completely beyond their imagination. Not only did the existence on the star absorb the star’s energy without growing weak, but the absorption speed was getting increasingly faster...

The star had shrunk by a third than when everyone first noticed its abnormality, causing everyone to panic.

‘What the hell is this existence?!’

Only Gu Wuqing, the Yokai Fox Forefather, and others knew the whole story. They were also very shocked as that was not what they expected of Chu Kuangren’s so-called closed-door meditation on a star.

He was devouring the star!

“Master is capable. His cultivation technique is extraordinary and unbelievable.”

Gu Wuqing could not help but smile bitterly.

Immortal Hao Feng, who had obtained the Earthern Immortal Herb and finally succeeded in breaking through to the Earthen Immortal after the closed-door meditation, was also shocked.

Suddenly, he felt that following such an existence might be the most significant turning point in his life.

While the entire Jade Emperor Galaxy was worried about the abnormality of the star, the star suddenly changed again.

On that day, a violet sword ray shot out from the star and headed toward the Bronze Heavenly Hall.

Those elites who were paying attention to the changes in the star noticed the sword ray, and a strange look appeared on their faces because they were very familiar with the sword ray.

“That aura... It’s Chu Kuangren!”

“The existence in the star is Chu Kuangren?!”

“Oh my god. What the hell is he doing?”

The existence in the star had been revealed.

Although everyone was surprised, they thought it was reasonable.

After all, in the current Jade Emperor Galaxy, only Chu Kuangren, an anomaly, could do such an incredible thing like devouring a star.

Everyone was curious about what the sword ray Chu Kuangren emitted meant.

The sword ray was magnificent, but it crossed hundreds of millions of kilometers in a split second and soon reached the Bronze Heavenly Hall.

Gu Wuqing and others who occupied the place had also noticed the sword ray's arrival, and they looked at it curiously.

Then, the sword ray turned into Chu Kuangren, who stood in the sky and said, "The Firmament Star is in danger. Everyone set off immediately to support as fast as possible!"

Chapter 1047: The Firmament Star Is Facing An Interstellar Enemy, Immortal Qing Song, Heavenly Dao Sect

Translation

"The Firmament Star is in danger. Everyone set off immediately to support as fast as possible!"

The news made Gu Wuqing, Gu Xing, Yokai Fox Forefather, and others' expressions change because they knew what it meant.

The Firmament Star was Chu Kuangren's home planet and also the place where they would migrate to in the future.

"Get everyone to head to Firmament Star immediately!"

"Hmph. I wonder who dares to attack Master's home planet. They must be bored of living and have a death wish!"

"Firmament Star is in danger, and we must protect it."

"It's time to show our skills."

Gu Wuqing and others gathered their people, took the warship, and headed toward Firmament Star in Violet Gold Galaxy.

Fortunately, the distance between the Violet Gold Galaxy and Jade Emperor Galaxy was not too far away and only a few thousand light-years away.

It might be challenging for the cultivators in Violet Gold Galaxy to go to Jade Emperor Galaxy, but with a lot of advanced technology and even Immortals, it was not difficult for those in Jade Emperor Galaxy at all.

The moving speed of the most brilliant warship in the Jade Emperor Galaxy was dozens of times faster than the one in the Violet Gold Galaxy.

While Chu Kuangren was still in the closed-door meditation, Gu Wuqing and others went to the Violet Gold Galaxy to give the Firmament Star support.

At that moment, Chu Kuangren had reached the final moment and was only a step away from achieving the last level of Stellar Undying Body.

Besides, the Firmament Star was not yet in a desperate situation. Although there was a danger, the Five Ways Divine Shadow Army that he had left behind was enough to support Gu Wuqing and others.

"As for the forces that dare to covet the Firmament Star, regardless of who you are, I'll crush you into ashes once I'm out from this closed-door meditation!"

A cold look appeared in Chu Kuangren's eyes.

He began to accelerate the absorption of the stellar energy.

Meanwhile, thousands of light-years away in Violet Gold Galaxy, in Firmament Empire on Firmament Star, the Sword Daoist Celestial, Chaos Daoist Celestial, Transcendental Daoist Celestial, Luo Shui, and other cultivators familiar to Chu Kuangren had gathered.

They were all worried, and it showed on all their faces.

"Our enemies this time are nothing like the Blood Tribe as they come from an Immortal civilization that is much stronger than Blood Origin Star. I heard they are even an immortal orthodoxy because they have Immortals!" Transcendental Daoist Celestial said in a bitter tone.

Although the Firmament Star had grown a lot over the years, and the Daoist Celestials present had also broken through to a Great Daoist Celestial and even Heavenly Daoist Celestial, it was still a little ridiculous for them to face off an Immortal.

An Immortal was the highest realm that countless cultivators in the Firmament Star aspired to achieve, and in the eyes of many cultivators, that was the endpoint of cultivation.

Yet now, they had to face off an Immortal!

"Does the King know the situation we're in now?"

"I reckon he does. After all, there's a wisp of the King's consciousness in the Heavenly Daoist Celestial Combat Unit," said Elder Ruyan.

"But even if the King returns, can he handle the Immortal?" asked the Buddhist Daoist Celestial in a golden-red Kasaya hesitantly.

Although everyone present had the utmost confidence in Chu Kuangren, they were facing an Immortal that, in their view, was the endpoint of cultivation and the ultimate realm a cultivator could reach.

'No matter how powerful the King is, can he face the ultimate?'

"Yes, he can!"

At that moment, a loud voice sounded, and Gu Linglong walked in.

She looked at the crowd and said, "My husband has created many miracles, so we should believe him. Just now, the consciousness he had left told me that he'd return as soon as possible.

"What we should do now is to hold our ground!

"Protect the Firmament Star!"

She took a deep breath and looked at the sky, "My husband said that Immortals aren't invincible. Moreover, everyone has seen the combat strength of his Five Ways Divine Shadow Army. Together, the five commanders are sufficient to contend with the Immortal."

Everyone's eyes lit up at the mention of the Five Ways Divine Shadow Army because the army that Chu Kuangren had left behind was just too miraculous.

They had never seen those people cultivate, but all of their cultivation bases kept on rising. Currently, the Divine Shadow Army's five commanders were far superior to a Heavenly Daoist Celestial, and they could even rival the rumored Pseudo Immortal.

When the five commanders joined forces, they were invincible in the Firmament Star.

The Firmament Star had been, to a large extent, relying on the Divine Shadow Army's power to resist the extraterrestrial visitors thus far.

"Besides the Divine Shadow Army, we have trump cards," said Gu Linglong.

Everyone was curious.

"What trump cards?"

Before Gu Linglong could say anything else, a violent turmoil suddenly came from beyond the heavens, and circles of ripples started appearing on the Detaching Heaven Megaformation.

It was hit by an extraterrestrial impact.

"The people of Heavenly Dao Sect have attacked us again."

The Transcendental Daoist Celestial's eyes turned cold after knowing that the Heavenly Dao Sect was the Firmament Star's interstellar enemy this time.

"Prepare to fight the enemy," said Gu Linglong grimly.

She quickly arranged the manpower and combat strength configuration in the shortest time before she dashed beyond the heavens with her people.

There were many warships outside Firmament Star's Detaching Heaven Megaformation, and countless cultivators were standing in the air.

On the leading warship, an elder in a gray robe was radiating with Immortal Sparks. He was the army commander and the biggest threat to the Firmament Star.

He was also an Immortal!

The elder, Immortal Qing Song, looked at the Firmament Star strangely. "It's really strange that the Firmament Star could produce such powerful Heavenly Dao without any Immortals.

"If I can occupy the Firmament Star and find out the secret, it'll be helpful to my promotion in the Heavenly Dao Sect. I may even get Daoist Kun Tian's attention," Immortal Qing Song thought to himself.

He came from the Heavenly Dao Sect, one of the most powerful forces in the universe that dominated countless galaxies. The sect grew stronger by absorbing other Living Planets' Heavenly Dao, hence its name... Heavenly Dao Sect!

Immortal Qing Song was an Immortal of the Heavenly Dao Sect's Earthen Bloodline. He had been traveling in the universe to look for potential Living Planets for the Earthen Bloodline's Daoist and then occupying them to allow the Daoist to strengthen himself by absorbing the planet's Heavenly Dao.

Now, he was eyeing the Firmament Star, a strange planet with powerful Heavenly Dao but weak cultivators and no Immortals. That puzzled him a lot.

Logically, such a powerful Heavenly Dao should have produced a few Immortals throughout the years.

There must be something fishy about the Firmament Star for not having any Immortals.

“It’s impossible for the Heavenly Dao to grow in just a few short years.” Immortal Qing Song smiled as he shook his head. Such a thought was absurd.

Even the Heavenly Dao Sect, the orthodoxy most adept at utilizing the Heavenly Dao energy in the universe, did not have a record like that.

“I must study the secrets once I occupy this planet,” Immortal Qing Song thought to himself.

“Master Planet Hunting, those people are here.”

At that moment, a cultivator approached Immortal Qing Song and said.

Being the Planet-Hunting Leader was the Heavenly Dao Sect’s duty. It referred to cultivators who specialized in finding Living Planets for the sect and occupied the Heavenly Dao.

Immortal Qing Song was one of the Planet Hunters.

“Alright.”

Immortal Qing Song looked at the Daoist Celestials approaching rapidly from the Firmament Star with a cold glint in his eyes. “I suffered a slight loss the last time as I didn’t expect their army to have such strength.

“Let’s see who can stop me this time!”

Chapter 1048: The Great Five Elements Formation Against Qing Song, Gu Linglong’s Confidence, It’s The King’s Aura

Gu Linglong, the Transcendental Daoist Celestial, Chaos Daoist Celestial, and others all rushed out of the Firmament Star while looking at the warships in front of them solemnly.

“The scale is bigger than last.”

“It seems like they’re determined to overtake the Firmament Star. Hmph. How can we allow them to do so?!”

“Indeed. No way!”

Transcendental Daoist Celestial and others looked determined.

Behind them, thousands of Divine Shadow Army lined up in a row with a powerful aura and Five Ways energy surrounding them, causing the universe and the stars to tremble.

The leader of the Five Ways Commanders looked at Immortal Qing Song coldly while Immortal Qing Song looked at the Five Ways Divine Shadow Army and said with admiration, “What a Divine Shadow

Army! To think a planet that doesn't even have an Immortal has such a miraculous army! It must have a lot of secrets."

Seeing how powerful the Firmament Star was, Immortal Qing Song was more eager to occupy it and dig out all its secrets.

He had a hunch that the Firmament Star might be the most impressive planet he had encountered throughout his career as a Planet-Hunting Leader.

"Kill those stubbornly resisting people on the spot!"

Immortal Qing Song could not wait any longer.

With a wave of his hand, countless energy light rays shot out from the warships. In retaliation, the Firmament Star's warships also began to bombard their opponent.

In an instant, the countless energy light rays lit up the cold and dark universe, creating a dazzling scene while cultivators from both sides were battling.

After years of development, there were now many more Daoist Celestials in Firmament Star. On top of the Five Ways Divine Shadow Army, the Firmament Star was able to withstand Immortal Qing Song's attacks.

However, everyone knew that Immortal Qing Song was the most significant threat!

"Let's see how you guys can get through this fight," said Immortal Qing Song indifferently.

Then, he took a step forward.

A surge of majestic Immortal's Core energy suddenly swept out and shook the starry sky.

Such power made all Daoist Celestials feel an unparalleled sense of pressure that made them want to kneel.

Even though they had experienced Immortal Qing Song's power the last time, they still felt an indescribable shock upon facing it again.

"This is an... Immortal!"

The Transcendental Daoist Celestial, Chaos Daoist Celestial, and others felt that a wisp of such strength could kill them easily!

At that moment, the five commanders of the Five Ways Divine Shadow Army took action.

"Form the Great Five Elements Formation!"

"Alright!"

Each of the five commanders occupied one side, and different source energies — namely Gold, Wood, Water, Fire, and Soil — began to emerge from their bodies!

The Five Ways energy circulated and interweaved in the void, forming a colorful Five Ways enchanted boundary that covered Immortal Qing Song within it.

With that, the vast Immortal's Core energy was also isolated in the enchanted boundary.

The Five Ways Divine Shadow Army was a God-tier army linked to Chu Kuangren's strength. As long as Chu Kuangren's power was strengthened, the army's power would also strengthen.

Now that Chu Kuangren had ascended into an Immortal, the Five Ways Divine Shadow Army's strength had also grown by leaps and bounds. The worst was even at the Heavenly Daoist Celestial Realm.

Moreover, the five commanders had each mastered a source energy, so a commander's combat strength was comparable to a Half-immortal. With the five of them combining to form a mega formation, their strength would be even more powerful.

"The five of you have almost the same cultivation base. Each of you cultivates one of the five elements but cooperates tacitly. The Five Elements Formation you've formed is the most perfect one I've ever seen. I'm curious. Are all of you really from this little Firmament Star?" asked Immortal Qing Song curiously, but the Five Ways Commanders did not speak to him.

"Attack!"

Commander Rui Jin snorted. He raised his hand to gather the Golden Source energy, turning it into a sharp sword shadow that struck down.

However, Immortal Qing Song was like an unmovable mountain. He unleashed a palm attack, smashing the sword shadow with his Immortal's Core energy and sending Commander Rui Jin flying backward.

The other four commanders also took action.

The endless growth of wood, the aggression and fury of fire, the impermanence of water, the thickness and stability of the soil, and the sharpness of gold — the five commanders brought the Great Five Elements Formation into full play to attack Immortal Qing Song.

Surge after surge of terrifying energy fluctuations erupted.

After a fierce battle, the five commanders had pulled out almost all of their techniques. However, the Immortal's power was difficult to break, and Immortal Qing Song did not suffer much damage.

"Hmph! The last time I was careless and I suffered some loss. This time you will not hurt me again with any of your techniques!" Immortal Qing Song sneered.

At that, the five commanders' faces turned extremely solemn.

The gap between an Immortal and one who was below an Immortal was huge!

"As long as we're still standing, you will not step foot into the Firmament Star," said Commander Rui Jin indifferently.

Protecting the Firmament Star was the mission Chu Kuangren had given them.

Therefore, they would sacrifice everything to carry out the mission.

Immortal Qing Song smiled in disdain, and as he raised his hand, a wooden sword appeared in his grasp.

Although it was a long wooden sword, it was filled with an incomparably terrifying might.

Moreover, it was an Immortal Weapon!

“How long do you think your Great Five Elements Formation can last under my Second Wood Sword?” asked Immortal Qing Song with murderous intent.

“Oh, what if I join in?!”

Just then, a cold voice sounded.

A beautiful figure stepped into the Great Five Elements Formation.

It was Gu Linglong!

“It’s the Queen!”

“It’s dangerous here. Please leave now, Queen!”

The expressions of Commander Rui Jin and others turned grim.

Although Gu Linglong had made a lot of progress in recent years and had also reached the Heavenly Daoist Celestial Realm with the help of various resources, there was still a gap in strength between her and the five commanders, let alone an existence like Immortal Qing Song.

“I know what I’m doing,” said Gu Linglong while waving her hand.

Immortal Qing Song could not help but sneer at that scene. “Queen? So you’re the one who’s in charge of Firmament Star? A mere Heavenly Daoist Celestial wants to change the direction of the battle, huh? You’re crazy to think that!”

“It may not be so.”

“Stop lying. By the way, since you’re the Queen, where is your King? Has he chickened out?”

“He’s on his way.”

Gu Linglong then took out a puppet.

“A Combat Unit?”

Immortal Qing Song was stunned for a moment. He glanced at it and noticed the Combat Unit was only of a Heavenly Daoist Celestial level which would not affect the battle at all.

The five commanders, Transcendental Daoist Celestial, and others were also puzzled.

They knew that it was a Combat Unit left by Chu Kuangren and had a wisp of Chu Kuangren’s consciousness. However, it was just a Heavenly Daoist Celestial Combat Unit. How could it possibly be Immortal Qing Song’s match?

Gu Linglong’s next move surprised everyone. She had unleashed a palm attack to crush the Combat Unit!

“What are you doing, smashing the Combat Unit?” Immortal Qing Song frowned.

Then, without thinking any further, he raised the Second Wood Sword. "It doesn't matter what you're doing. Go to hell!"

A magnificent sword qi swept out with a wave of the wooden sword.

Those who were not an Immortal would die under that sword attack!

"Queen!"

"No!"

The crowd exclaimed anxiously.

However, at that moment, a terrifying force suddenly erupted from Gu Linglong's body, sweeping across the universe like a raging storm!

Gu Linglong raised her hand and punched out, casting the Invincible Technique, Inverted Universe!

That one punch contained an incomparably powerful surge of Heavenly Dao energy that completely shattered the sword qi.

For a while, the whole area fell silent!

Everyone was dumbfounded.

"That aura... It's the King!"

Chapter 1049: Pushing back Immortal Qing Song, The Two Great Immortals Attack Again

"That aura... It's the King!"

The entire battlefield fell silent.

The Chaos Daoist Celestial, Sword Daoist Celestial, Luo Shui, and others stared blankly at Gu Linglong as if in a trance. For a moment, they thought they saw their King standing in the sky.

It was their faith, their King!

At that moment, Gu Linglong's eyes were indifferent and contained unfathomable heavenly power that made Immortal Qing Song feel uneasy.

"Who are you?" asked Immortal Qing Song solemnly.

"Death is the only option for those who attack my Firmament Star!" Gu Linglong said in an indifferent tone. Her pose of looking down on the world below her was exactly the same as Chu Kuangren's!

In other words, Gu Linglong was Chu Kuangren at that moment!

The wisp of Chu Kuangren's consciousness had transferred from the Heavenly Daoist Celestial Combat Unit to Gu Linglong's body and reappeared in her!

"Hmph! Regardless of who you are and what tricks you're playing, with your body's cultivation base, how can you defend yourself against an Immortal's strength? Go to hell!"

Immortal Qing Song attacked once again by slashing down the wooden sword in his hand, and a surge of terrifying sword qi erupted, filling hundreds of millions of meters with terror.

He did not hold back on his attack.

Due to the powerful sword qi fluctuation, the surrounding Five Ways enchanted boundary shook as if it would be destroyed in the next instant.

However, looking indifferent and unafraid, 'Gu Linglong' raised her hand. An even more terrifying Heavenly Dao energy erupted and attacked along with the Invincible Techniques, which had been upgraded to Immortal Techniques.

The punch blasted across the starry sky, trembling the sword qi!

Even though 'Gu Linglong' had the help of the Invincible Techniques, her body cultivation base was indeed far inferior to that of an Immortal. Despite that, the Firmament Star's Heavenly Dao energy was not to be messed with. As Chu Kuangren had been devouring a lot of other Heavenly Dao, the Firmament Star's Heavenly Dao power had long achieved the level of an Immortal.

Boom, boom, boom...

The moment the punch and the sword qi collided, the universe trembled, and the void shattered.

When 'Gu Linglong' raised her hand, a large golden seal appeared in the air, filled with infinite power, and made its way toward Immortal Qing Song!

It was the Firmament's Humanity Fortune Treasure, the Human King Seal!

The seal was closely related to human fortune. The stronger the human race in Firmament Star was, the stronger the seal.

After all the years of development, the power of the Human King Seal had long exceeded what it was back in the day. It was not even inferior to an Immortal Weapon anymore.

Immortal Qing Song lifted his hand and struck down with his wooden sword. When the wooden sword collided with the Human King Seal, a thunderous sound echoed in the void.

The Human King Seal was flung out, while Immortal Qing Song was also blasted away with the wooden sword in his hand trembling, his arms numb.

"What powerful Heavenly Dao energy and Fortune Treasure. I don't think I can take her down in a short while.

"Besides, the five commanders are watching over the Great Five Elements Formation. If we continue fighting, I'm afraid we'll suffer a loss." Immortal Qing Song thought to himself.

After that, he snorted. "Retreat!"

The cultivators began to retreat upon instruction.

"I shall spare your life today. The next time I come will be the day I step onto the Firmament Star," said Immortal Qing Song coldly.

Then, he slashed forward with his wooden sword to break through the Great Five Elements Formation and left.

After the enemies were gone, the Sword Daoist Celestial, Chaos Daoist Celestial, and others approached 'Gu Linglong', looking at her with doubt.

"You're... the King?" asked Chaos Daoist Celestial curiously.

'Gu Linglong' nodded. "Yes. The Combat Unit's body can no longer withstand all the Heavenly Dao energy, so my consciousness has temporarily borrowed Linglong's body. However, I'm afraid that my consciousness will dissipate soon."

That wisp of Chu Kuangren's consciousness was left behind when he was not yet an Immortal. Therefore, its strength was not as strong and had almost been consumed when he used Linglong's body to cast the Heavenly Dao energy.

"What shall we do when the Heavenly Dao Sect attacks next time? Please guide us, King," said the Chaos Daoist Celestial.

"Don't worry. The people I've sent are already on their way, and it won't be long before they arrive. Till then, all of you should stay within the Detaching Heaven Megaformation while waiting for support," said 'Gu Linglong'

Following that, she summoned the Human King Seal and injected the Heavenly Dao energy into it before throwing it into the Detaching Heaven Megaformation, making the mega formation even more stable.

After that, Chu Kuangren's consciousness gradually dissipated.

On the other hand, Gu Linglong's consciousness returned to her physical body, and she said, "Since my husband has issued the instructions, let's go back to set up the defense first."

"Alright."

Everyone nodded and then returned to the Firmament Star.

Immortal Qing Song, who had left, was extremely annoyed at that moment, and the corner of his mouth twitched with anger. "Good god! A Firmament Star with such strength? It is indeed very surprising."

As an Immortal, he was furious for being repeatedly defeated on an Immortal-less Living Planet.

Immortal Qing Song took a deep breath to suppress his anger temporarily. Then, he took out a communicating crystal. "It looks like I'll have to contact the Planet Hunters nearby. Although I'm unwilling to do so, this is the only way to take down the Firmament Star and study its secrets quickly."

A few months later, the army led by Immortal Qing Song met with another army. The leader of that other army was a strong, domineering man with a saber on his back.

"How are you doing, Immortal Iron Saber?"

Immortal Qing Song approached him to start a conversation. Like him, the Immortal Iron Saber was an Immortal from the Heavenly Dao Sect's Earthern Bloodline. Hence, they had a good relationship.

He briefly explained the Firmament Star's matter, which surprised Immortal Iron Saber. "Oh, such a strange Living Planet exists? This has certainly piqued my interest."

"Indeed. That's why I'm here to look for you. Let's take down the Living Planet together and share its secrets," said Immortal Qing Song.

"Ha! Sounds good." Immortal Iron Saber nodded.

"Come on. You've come a long way. I've prepared a banquet to welcome you, so let's go."

Both of them were talking and laughing, not taking Firmament Star seriously at all.

In their opinion, how could the Immortal-less Firmament Star be a match for two Immortals?

It would be easily destroyed.

After the two Immortals completed their meeting, they led their respective armies toward the Firmament Star.

Although Gu Linglong, the Chaos Daoist Celestial, Luo Shui, and others were all mentally prepared for the arrival of a much larger-scaled army than before, they were startled to see the two Immortals.

"Two Immortals?!"

"What strength does the Heavenly Dao Sect possess? What a terrifying background they have."

"The Heavenly Dao Sect is probably one of the best orthodoxies in the universe, and it has its eyes on Firmament Star."

"We're in trouble."

Outside the Firmament Star, the two Immortals arrived together and instructed their warships to attack the Detaching Heaven Megaformation.

However, under the blessing of the Human King Seal, the battle seemed to be impregnable, and the attacks of the warships did not affect the Firmament Star.

"Firmament Star, huh? How interesting."

With a smile, Immortal Iron Saber stepped out into the void, and the long saber behind him suddenly unsheathed.

When the long saber landed in his hand, a surge of chilly saber energy broke out.

"Kill them!"

The moment the saber attack was unleashed, a vast saber shadow carrying the Immortal's Core energy shook the entire Detaching Heaven Megaformation and put the whole Firmament Star in turmoil.

Chapter 1050: The Five Ways Divine Shadow Army Is Wiped Out, Coming To Support Upon Master's Order

Immortal Iron Saber and Immortal Qing Song attacked the Firmament Star together, trying to break the Detaching Heaven Megaformation outside the Firmament Star.

Immortal Iron Saber took the lead.

As he struck out with his saber, the mighty saber energy shook the Firmament Star and put the entire Detaching Heaven Megaformation in turmoil.

However, the Detaching Heaven Megaformation was still shining without damage when the saber qi dissipated.

That scene surprised Immortal Iron Saber.

“Oh, the mega formation is quite stable.”

“Wait, the mega formation contains Heavenly Dao energy. Someone has injected the Firmament Star’s Heavenly Dao energy to protect this area. Who has done such a thing?” Immortal Iron Saber frowned.

The Heavenly Dao Sect specialized in using the Heavenly Dao energy. Although they were only Heavenly Dao Sect’s Planet Hunters and were not qualified to utilize the Heavenly Dao energy, they had seen the Heavenly Dao users of the Heavenly Dao Sect using the Heavenly Dao energy.

Therefore, they had an understanding of the Heavenly Dao Technique. Even so, those high-level Heavenly Dao users could not master the technique of utilizing the Heavenly Dao energy in a formation.

“Immortal Qing Song, are you sure there are no Immortals here?” asked Immortal Iron Saber.

Immortal Qing Song nodded affirmatively. “I’ve done a few scans with my Immortal Consciousness. There are indeed no Immortals in Firmament Star, but among them, there should be someone good at using the Heavenly Dao energy.

“Perhaps they’ve obtained some techniques of using the Heavenly Dao energy by chance and built the mega formation in front of us.” Immortal Qing Song made a guess.

“Really? It seems like there are some secrets on this planet.”

Immortal Iron Saber also scanned the Firmament Star with his Immortal Consciousness and was relieved upon finding that there were no Immortals on Firmament Star.

What if there were Immortals on Firmament Star?

They were from the Heavenly Dao Sect, an orthodoxy that had existed since the ancient Immortal times!

It was one of the most powerful forces in the universe with many Immortals in their backing.

How could they be afraid of a small Firmament Star?

“Let’s join hands and break the formation first,” said Immortal Iron Saber.

“Alright.”

Immortal Qing Song nodded and held the Second Wood Sword in his hand. As both of them joined forces to cast their Immortal Techniques, a vast Immortal’s Core erupted into the void.

Surges of sword qi and saber qi swept out while the entire Detaching Heaven Megaformation roared!

The Detaching Heaven Megaformation energy was quickly exhausted under such an attack. Only the golden-yellow Human King Seal was suspended above the Firmament Star, glimmering with billion light rays, and the Heavenly Dao energy mobilized to protect the Firmament Star.

“What a good Fortune Treasure! But how long can it last?” Immortal Iron Saber sneered.

The two Immortals attacked together again.

After a while, the billions of light rays turned dim.

In the Firmament Star, the Five Ways Divine Shadow Army could no longer sit still.

“Everyone, we’ll step forward to defend Firmament Star,” said Commander Rui Jin.

Unlike others, even if the Divine Shadow Army perished in battle, their souls would return to the Five Ways’ Core and be resurrected after a while.

They were considered an undead army and were not at all afraid of death!

“Thank you.”

Gu Linglong and others knew about that fact, so they did not stop them.

Soon, thousands of the Five Ways Divine Shadow Army rose into the sky and fearlessly launched an offensive attack. Under the leadership of the five commanders, they formed a gigantic Great Five Elements Formation that covered the starry sky!

Having been enshrouded in the Great Five Elements Formation left the two Immortals frustrated for a moment. Nevertheless, as Immortals, they quickly adjusted their state from the formation and began to fight back, trying to disintegrate the formation.

However, the Five Ways Divine Shadow Army was unafraid of death, and all their offensive attacks were frighteningly deathly.

Although the two Immortals were fine and did not suffer any injuries, the warships behind them were destroyed.

“You must have a death wish!”

“Hmph. Even if you do your best, you can’t stop us from stepping onto Firmament Star. It’s just a pointless struggle,” said Immortal Qing Song coldly.

He then joined forces with Immortal Iron Saber and channeled his Immortal’s Core energy to its fullest potential. Eventually, the saber ray and sword qi disintegrated the Great Five Elements Formation.

The Divine Shadow Army fell one after another, and even the Five Ways Commanders could not escape death. All of them were dead.

“How courageous of them, but that’s useless. Now, it’s your turn.” Immortal Qing Song looked at the Firmament Star that the Human King Seal was guarding.

At that moment, the radiance on the Human King Seal dimmed. He believed they could break that treasure with just a few moves.

“Is it too late?” murmured the Transcendental Daoist Celestial in Firmament Star.

They did not expect Immortal Qing Song to have found another Immortal and accelerated their fall.

‘Perhaps we can’t wait for the reinforcements to arrive,’ everyone thought bitterly in their hearts.

Just when the two Immortals were about to start attacking, they halted, seemingly having sensed something.

They looked into the distance with surprise.

“That aura... What’s going on?!”

“Someone is approaching, and there are a lot of them. There are even Immortals among them. What the hell is happening?!”

Further away, several warships were approaching.

Each of the warships was densely packed with cultivators, most of them from the Yokai Tribe and a small number of humans.

An extremely powerful aura filled the void.

“We, the Heavenly Yokai Planet’s Fox Tribe, have come to support the Firmament Star upon Master’s order,” announced the Fox Tribe Forefather as he stepped out into the air.

His terrifying Immortal’s Core energy shook the starry sky.

“We, the Heavenly Yokai Planet’s Lion Tribe, have come to support the Firmament Star upon Master’s order!” A Lion Tribe’s Yokai Immortal also emerged in the sky.

“We, the Heavenly Yokai Planet’s Eagle Tribe, have come to support the Firmament Star upon Master’s order!”

“We, the Heavenly Yokai Planet’s Bear Tribe, have come to support the Firmament Star upon Master’s order!”

“We, the Heavenly Yokai Planet’s Wolf Tribe...”

The arrival of countless Yokai cultivators filled the universe with powerful and tyrannical yokai qi that stunned everyone present.

“We, the Jade Emperor Galaxy’s Gu clan, have come to support the Firmament Star upon Master’s order!”

Gu Wuqing and Gu Xing also stepped forward.

‘Upon Master’s order...’

These words shook the starry sky and echoed in everyone’s ears.

Gu Linglong, the Chaos Daoist Celestial, Daoist Celestial Luo Shui, Elder Ruyan, and others were extremely excited.

They knew who the Master that those people mentioned.

Meanwhile, Immortal Iron Saber and Immortal Qing Song were dumbfounded as they could sense the strength of that group of people.

Among them, there were at least ten Immortals whose cultivation base was no weaker than theirs.

A few of them were even stronger than them both.

Compared to those who had just arrived, both their strength was too weak, and they were on a completely different level.

“I’m here to support the Firmament Star upon Master’s order.”

Just then, another voice sounded.

As an elder with white hair and a white robe walked out slowly, an incomparably powerful Earthen Immortal energy fluctuation swept out.

It was Immortal Hao Feng.

“An Earthen Immortal!”

“F\*ck me!”

Immortal Iron Saber and Immortal Qing Song gasped in shock.

‘What the hell is going on? Even an Earthen Immortal is here!’

“There are so many Immortals, including an Earthen Immortal! Immortal Qing Song, you told me there were no Immortals on Firmament Star!”

“You’re f\*cking killing me!” Immortal Iron Saber was shocked and furious as he glared at Immortal Qing Song, wishing to rip him apart and devour him alive.
