Chapter 111: Liu Xu's Desire to Untangle the Knot in Her Heart (3)

Liu Xu acknowledged.

She knew very well that her teacher hated using connections the most.

The teacher believed that the Qingyun Academy only provided a platform for the scholars, not a background. Any path needed to be taken by the scholars themselves.

If he thought that the Qingyun Academy was a background, he would not go far. Even if he went far, he would fall off the cliff.

It was already extremely rare to be able to open this road today.

Liu Xu had obtained what she wanted, but she did not leave. She remained where she was, as if she was conflicted about something.

Even someone with poor eyesight could tell that something was wrong with

Liu Xu, let alone Wang Qingfeng.

“Do you have any unanswered questions?” Wang Qingfeng asked.

Liu Xu nodded and gritted her teeth. She seemed to be in a dilemma as to whether she should say it or not.

“I’m your teacher, your guide on the Blue Clouds Road. You have to trust me. If you don’t trust me, then don’t say anything.” Wang Qingfeng said.

Liu Xu took a few deep breaths before finally recounting what she had seen and heard in Sheng County. When she talked about the Limitless Daoist Scripture, her tone became very excited.

“When I entered the profession of a scholar, I began to think that reading was for the common people, for the common people. However, what I encountered before reversed my thoughts and my heart was in a mess.”

Wang Qingfeng’s originally furrowed brows gradually relaxed after Liu Xu spoke her thoughts.

“I was wondering what it was. So it’s about this.”

This meant that he did not take this matter seriously. Instead, he treated it as a small matter.

“Teacher, you mean...” Liu Xu asked doubtfully.

Wang Qingfeng looked straight into the eyes of everyone.” Everyone has a standard in their hearts. You have your own, and I have mine. As long as you don’t take the wrong path and are positive, you just have to stick to the standard in your heart and follow it.””

Liu Xu fell into deep thought.

It was just a short sentence, how could she let go of her thoughts?

” You have to understand that if you can’t even make up your mind, then why bother studying? When I said that everyone’s thoughts are different, I wasn’t lying to you. For example, your Senior Brother Yun, your Senior Brother Yun’s trip to Sheng County this time is...”

At this point, Wang Qingfeng seemed to have realized that he shouldn’t have said anything and quickly shut his mouth.

He thought about it and changed the topic.

‘Go to the library. If I can’t enlighten you, then read the books of the sages. They will tell you what to do, but when you read, read with the standard in your heart.’

Liu Xu nodded her head. Her mind was constantly recalling what her teacher had just said. The emotions in her heart were constantly fluctuating, like the waves on the sea, constantly crashing.

After saying goodbye, Liu Xu also left the room and headed to the Book House. After Liu Xu left, Wang Qingfeng poured himself a cup of tea and took a sip.

“Yun Zihai, sigh...”

Inside the room, Qingfeng Wang sighed.

The county was promoted.

Everyone had their own experiences. When everyone encountered something, how their mentality would change would not be mentioned for the time being.

At this time, the sky was getting closer to the next morning.

There was a saying that the darkest moment was before dawn.

The darkness is like water, like ink, the earth and the sky are shrouded in darkness, some places are vague, some places are so quiet that you can hear a pin drop.

In the county office.

Yun Zihai was sitting on a stool and writing.

There were several oil lamps on the table. The bright oil lamps flickered, illuminating the memorials on the table clearly.

It took him a whole night to sort out all the things that needed to be handed over.

“Cough cough..

Yun Zihai coughed.

Yun Zihai’s originally pale face turned red because of the cough, as if he was dying.

In the room, there was a small stove. Yun Zihai stood up and walked to the small stove. He wrapped a black cloth around the earthen jar on the stove and picked it up.

The light brown Chinese medicine was poured out. After pouring a bowl, he put down the earthen jar and let it fall back onto the stove.

Yun Zihai raised his head and sipped.

The bitter Chinese medicine did not make his expression change at all. After drinking it expressionlessly, Yun Zihai’s cough was finally suppressed.

Looking at the empty bowl of medicine in front of him, Yun Zihai could not help but think of the Jianghu man called Xu Bai he had met in the medicinal shop.

“What an interesting person.” Yun Zihai thought to himself.

He was a good judge of character. Even though it was only the first time they met, he could tell that Xu Bai was unusual.

Putting aside the fact that he was powerful, what Yun Zihai found most strange was Xu Bai's temper.

There were things that people in the martial arts world should have, but there was nothing that they should have.

In short, it was very strange.

Yun Zihai sat on the stool and thought for a long time before putting down his thoughts.

It was already the second day, and it was not long before the sun shone in.

Yun Zihai quickly tidied up for a while and tidied up all the scattered documents on the table before preparing to leave.

However, before he could reach the door, he heard a knock on the door.

"Milord, yesterday you said that you would tour the entire Sheng County today. This lowly one has already prepared the carriage." The bailiff lowered his voice.

Before governing a county, the most important thing was to understand.

Only by understanding the local customs and customs of this county could he better integrate into it..

Chapter 112: Willow Cow Wants to Untangle Her Heart (4)

"Got it. You can go down first." The clouds came from the sea.

The bailiff said yes and hurriedly left.

Yun Zihai came to the door and opened it.

It was dark outside, but when he opened the door, a ray of starlight shone in the night sky.

A long sword with the reflection of moonlight cut through the night sky and headed straight for Yun Zihai's neck.

The person holding the longsword was dressed in black. Even his face and head were covered with a black cloth.

The sword was fast and silent.

If not for the reflection of the moon, the sword would not have been visible.

“Clang!”

A crisp sound of collision rang out.

A piece of paper covered the tip of the sword. On the paper was an article.

This sword was extremely sharp, and it could even break a hair. However, after being wrapped by the paper, it seemed to lose its strength and stopped in mid-air.

Yun Zihai smiled. “I thought you would arrive very early. But you're only here now. I'm really disappointed.”

Hearing this, Yun Zihai seemed to have expected this day to come.

As soon as he finished speaking, the black-clothed man raised his empty left hand and a series of hidden weapons attacked Yun Zihai's face.

Behind Yun Zihai, pages appeared.

The book spun in the air, catching all the hidden weapons.

Immediately after, the word "suppress" floated up from the page and landed on the forehead of the man in black.

"Clang!"

With a crisp sound, the longsword in the black-clothed man's hand fell to the ground. Above his head, a word "Suppress" floated.

Yun Zihai stepped forward and unveiled the mask of the man in black, revealing an ordinary face.

"Tell me where you came from."

The man in black did not speak, but his face changed.

His face turned from normal to purple. In the blink of an eye, blood flowed out of the black-clothed man's mouth. The black-clothed man had already lost his life.

"Poison?" Yun Zihai frowned.

Their fight naturally attracted attention.

Some of the bailiffs who had stayed behind in the county government ran out and saw the corpse of the black-clothed man in front of them. They shouted that there was an assassin and surrounded Yun Zihai in the middle.

Yun Zihai waved his hand and asked the bailiffs to deal with the corpse. He fell into deep thought.

He recalled what had just happened.

The soundless sword was specialized in assassination, and in the end, the assassination failed, and he committed suicide by taking poison.

This series of actions appeared very professional.

Thinking of this, Yun Zihai called over a bailiff and instructed, "Spread the news of this official being assassinated. Let the people of Sheng County know that this official is injured."

The bailiff was stunned. Although he did not understand why he had to do this, he still nodded and left quickly after agreeing.

After the bailiff left, Yun Zihai returned to his residence.

Since he said that he was injured, he would not visit the county for the time being.

When the first ray of sunlight shone on the ground, Shengxian County turned from quiet to noisy.

All kinds of vendors began to set up stalls, and the deserted streets gradually became filled with people. The existence of people added a lot of noise to the county.

Today's promotion of the county had a different atmosphere, especially the news that surprised all the people.

On the first day of the county magistrate's appointment, he was assassinated by an assassin and suffered serious injuries.

The moment this news spread, it was like a fermented dough that was constantly expanding, and the speed of transmission was getting further and further.

More and more people knew about this. Other than being surprised, they were mostly silent.

This was different from the major events that had happened before. The main character of the major events had already died. However, now that the county magistrate was still alive, they did not dare to casually talk about this matter.

Of course, when Yun Zihai intentionally released the news, even if the people did not talk about it, the news seemed to have grown legs. In an instant, it was like a gust of wind that blew through the entire county city.

The news spread further and further until a messenger pigeon landed at the entrance of the Yin Posthouse.

The old postmaster bent down and picked up the pigeon. He removed the paper tied to the pigeon's leg and opened it.

The Yin Posthouse also needed information. They would not isolate themselves from the world and needed information more than ever.

After all, the Yin Posthouse itself was a transportation hub.

"The county magistrate was assassinated?" The old postmaster was stunned. After he recovered, he turned his gaze to Xu Bai, who was sitting beside the giant tree.

Early this morning, Xu Bai sat in front of the giant tree without moving, as if he was thinking about life.

The old postmaster felt that Xu Bai would be interested in this piece of news, so he walked over and handed the piece of news to Xu Bai.

Xu Bai was still reading the progress bar, but when he saw the old village chief's actions, he subconsciously caught it.

He opened the letter in front of him. When he saw the contents of the letter, he frowned.

"The County Magistrate was assassinated and failed?" Xu Bai muttered to himself.

This news was really unexpected.

Xu Bai knew very well who the county magistrate was.

He was a genius scholar from the Qingyun Academy and Liu Xu's senior brother. Since he came to Sheng County with this identity, he had always thought that there must be an abnormal reason.

Even though Liu Xu had said that it was because Yun Zihai had killed the prince, there was something fishy about it. Xu Bai had been pondering about it.

According to the rules of the Great Chu State, even if he was tortured, he could still be made an official. It seemed like a punishment, but Xu Bai felt that this punishment was not severe enough.

Not long after he arrived in Sheng County, he was assassinated. Now, it seemed that Xu Bai was right.

"Do you want to take a look?" The old postmaster asked. Xu Bai returned the note in his hand and shook his head. "No. This matter had nothing to do with him. He had only met Yun Zihai once, so it would be a little far-fetched for him to go over.."

Chapter 113: Willow Cow Wants to Untangle the Knot in Her Heart (5)

If Liu Xu and No Flower had encountered this, he would have gone over to take a look, but Yun Zihai should forget about it.

The most important thing now was the progress bar. Other than that, everything else could be put aside.

After all, he couldn't carry the giant tree with him, so he couldn't try to dig out the palm print.

He could only fulfill his wish after he finished the progress bar.

"You're right. It has nothing to do with you."The old postmaster felt that he was thinking too much, so he did not say anything more. He returned to his room and went back to busying himself.

Xu Bai stared at the giant tree as usual. The progress bar was slowly increasing.

Time passed slowly, and in the blink of an eye, it was noon.

Even if something major happened at the Yin Posthouse and many of the posthouse men died, there was no lack of people these days.

There were already quite a few people who had come to the Yin Posthouse and started to set up stalls.

The Yin Posthouse, which was originally cold and cheerless, seemed to be a little lively at this time.

Xu Bai walked around for a while. When he didn't see any progress bar, he returned to the giant tree and continued working.

Although those posthouse men felt strange, they still did their own things and did not disturb them.

Time slowly passed. Xu Ben thought that today would be over. He did not expect that a team of people would pass by the Yin Posthouse and stop.

The five of them rode their horses and tied them to the trees outside.

Each of them had a travel-worn smell. In addition, there was also a faint killing intent.

It was normal for people who roamed the martial world to have killing intent.

After the five of them entered, they first looked around the stall. They didn't find anything good, so they sat down in the seats prepared by the Yin Posthouse and took a short rest.

One of them had a fierce-looking face and was looking around.

When the man saw Xu Bai, he paused for a moment and then looked away.

"Third brother, don't cause trouble." The leader was a middle-aged man. When he saw the brawny man's behavior, he hurriedly berated, "Business is more important."

The burly man nodded. His gaze occasionally swept past Xu Bai, and his eyes carried an inexplicable emotion.

After about the time it takes for an incense stick to burn, the five of them had rested and were ready to leave.

The burly Third Brother couldn't take it anymore. He walked up to the middle-aged man and gritted his teeth. "Boss, we've traveled for such a long time, and I haven't caused any trouble at all. It's just a little while, okay?"

The eldest frowned and looked at the third brother, then at Xu Bai. After thinking for a moment, he nodded slightly. "I'll only give you some time. If you can't bring it out, then forget it."

With that, he left with the others.

Third Brother remained where he was. After First Brother and the others left, he rubbed his hands and walked toward Xu Bai excitedly.

Xu Bai was staring at the giant tree attentively. When he heard footsteps behind him, he turned around and saw a burly man walking toward him.

“Little brother...Can we talk? I have some money here, you...” No. was about to speak.

“Not interested.” Xu Bai’s gaze turned cold.

The three simple words made Third’s expression change slightly.

“What do you mean?”

“I’ve never met you before. You’re here to talk to me about something, but I’m not interested. Do you understand now?” Xu Bai continued to stare at the progress bar.

“You haven’t finished listening to me. It’s like this, I’m new to this place, so I’m not familiar with the terrain. Can you be my guide?” Third Brother said anxiously.

At the same time, he opened the money pouch at his waist and revealed the silver.

“Not interested.” Xu Bai continued.

Third Brother frowned even more when he heard this.

However, he remembered what his boss had said just now and thought about it carefully for a moment. He did not say anything else and turned to leave.

Before he turned around, his gaze swept across Xu Bai’s body with an unknown meaning.

After Third Brother left, Xu Bai stared at the progress bar on the tree for a while. Finally, he sighed and stood up slowly. He came to the door of the old postmaster's room.

"I'm going out for a while. Senior, please help me take a look at this tree."

"Go. I'm an official. I can still manage things here. "The old postmaster's voice rang out.

Xu Bai didn't say anything else. With the Ghost Head Blade at his waist, he walked out of the Yin Posthouse.

Outside the Yin Posthouse.

Third Brother met up with Boss and the others.

"Why didn't I see him? Why didn't you bring him here?" Boss' tone was strange.

No. 3 shook his head, his eyes filled with greed.

"Don't cause trouble at this time, understand?" The boss warned.

"I understand, I understand." The third brother quickly agreed, "You know me too. This kid has delicate skin, tender flesh, and handsome features. I really couldn't hold it in. After this matter is over, I'll look for him. Don't worry, after this matter is over, I'll destroy the corpse. ""

Boss nodded and didn't say anything else, but he seemed to have tacitly approved of Third Brother's actions.

The five of them were very anxious. They did not stay any longer and walked in one direction.

After they left for a while, Xu Bai walked out from the shadows beside him. His eyes were cold. "Soft skin and tender flesh?"

"Beautiful features?" "You still want to come and find me later and destroy the corpse?"

"Then I'll have to keep you.."

Chapter 114: The Green Snow Encountered the Ambush and Broken the Tree

Thinking of this, Xu Bai looked in the direction where those people had left. He held Ghost Head Blade and walked in that direction.

It was still early, and the five of them were running through the forest. They were riding their horses at full speed, rushing to Sheng County.

Surrounded by the forest, it seemed a little lonely. At this moment, the middle-aged man who was the leader of this group of people, who was also called the boss, suddenly stopped.

The four horses behind him stopped as well. The people on the horses looked at their leader in confusion, indicating that they did not understand what was going on.

"I keep feeling that danger is approaching. Everyone, be prepared." The boss thought for a moment, frowned, and turned to the four people behind him.

Hearing their boss's words, the four of them didn't hesitate and quickly went on guard.

They were very clear about their boss's ability.

In the pugilistic world, there was a trade called the Dark Chariot Craftsman.

This profession was extremely good at long-distance travel and transporting all kinds of important things, because they had an ability to seek good fortune and avoid disaster.

Their boss had this ability, and because of this ability, he had pulled them out of life and death many times.

Therefore, when they heard their boss say that they had to be on guard, everyone did not let down their guard and looked around vigilantly.

The surroundings were very quiet, but there were still the sounds of birds and insects. It might have been normal at other times.

However, they did not dare to relax at all. Everyone faced a position that perfectly covered the surroundings.

“Nothing happened along the way, but something happened at this time. Third Brother, it seems that the person you made is not an ordinary person. “The boss was meticulous and quickly reacted.

“Boss, I’ve already killed them all, unless their families come to take revenge on me.” Third Brother looked confused, but after thinking about what his boss had said, he had a terrifying expression on his face. “Are you talking about that pretty boy, the one we met at the Yin Posthouse just now?”

“Shut up!” The eldest chided him harshly. After the third brother shut his mouth, he turned around and looked at the surrounding forest. He said loudly, “We are all in the pugilistic world. This brother of mine has eyes but doesn’t recognize gold and jade. Please be magnanimous.”

The forest was silent. No one answered him.

After about half an hour, there was still no reply.

At this moment, the quiet forest was a little strange. Boss had been in the martial arts world for many years and knew very well what he was facing.

"I have no enmity with you. Perhaps Third Brother started to provoke you, so I sincerely apologize to you here." The boss did not stop and continued.

Still, no one answered him. It was so quiet that it was as if no one was there.

After about half an incense stick worth of time, the five people's emotions were somewhat relaxed.

No. 3 subconsciously turned his head and wanted to ask, but at this moment, a whistling sound suddenly came.

At this moment, No. 3 turned his head. His vision was blocked. When he wanted to turn back, it was already too late.

The copper coins were wrapped in black light as they whistled over. Each of them carried an unparalleled might, and there were many of them.

After Maple Leaf Rain had the augmentation of the Vajra Heart Fiend Body, its power had increased greatly, but it had lost its characteristic of being soundless.

There were always losses. The enemy Xu Bai was facing now was different. He still hoped that there would be a power boost.

Third Brother didn't even have time to make an expression before his entire body was penetrated by the copper coins.

"That position!" Boss's eyes narrowed.

At the spot where the copper coin had been shot, a figure flashed past like a ghost and quickly disappeared into the forest.

The person disappeared again. With the cover of the forest, they could not find any traces.

“Sir, since you have already taken revenge, then let’s forget about this matter. We should forgive people when we can. Now, we should leave it to the front line so that we can meet in the future.” Cold sweat broke out on Boss’s forehead.

He had the ability to seek good fortune and avoid disaster, but he could only use it on himself. He could not protect his subordinates at all.

At this moment, one of his subordinates couldn’t help but raise his right hand slowly. A crack appeared on his palm, and insects with transparent wings flew out from the crack.

Yin Gu Master, a branch of Gu Dao.

Different from ordinary Gu Dao, the Gu that Yin Gu Masters raised were raised from human corpses, and the nutrients they obtained were also obtained from corpses.

“Fourth Bro, don’t!” The boss shouted.

Right now, the strength of the enemy and the enemy was unknown, and the other party seemed to be afraid of the number of people on their side. However, that was under the situation where the other party did not know their strength, so they had to preserve their strength and not attack rashly. However, he had underestimated the patience of his subordinates. After the Yin Gu appeared, it surrounded the fourth brother.

“I’m just defending.””

“Don’t turn around!” The boss said loudly.

However, it was too late.

A figure was like a ghost, approaching from afar. A blade light lit up in his hand.

The saber light was wrapped in the black light of the Tier 4 Vajra Heart Devil Body. Coupled with the armor piercing effect of the Shattering stance, even Yang Chang would have to kneel and call him father if he saw this saber light.

Not to mention a voodoo player?

Heads flew up and blood splattered all over the ground.

The head rolled around, its eyes wide open with a final look of shock.

At this moment, Second Brother and Fifth Brother also moved.

The second brother was an ordinary warrior. He drew his sword from his waist and slashed at Xu Bai.

The fifth brother was also a martial artist. He used a short knife to slash at Xu

Bails legs..

Chapter 115: The Green Snow Encountered the Ambush and Broken the Tree (2)

One above and one below, sealing off all paths.

Xu Bai didn't block, but stomped his feet slightly.

The Four Xun Formation was activated.

Flames rose and enveloped Second Brother and Fifth Brother.

The second and fifth brothers were also quite strong. In addition, the current level of the Four Xun Formation was still slightly low. At most, it could only confuse and hinder them.

‘Sigh, the experiment failed.’ Xu Bai sighed.

He was just testing it out just now. Now, it seemed that the Four Xun Formation was indeed lagging behind.

However, it was not a big problem.

Xu Bai threw out maple leaves like rain and slashed at another person.

Due to the experiment just now, his movements were a little slow. The other party’s attack arrived first, but there was an abnormality.

Xu Bai didn’t do anything, but his opponent’s attack missed.

Even Yang Chang was drooling over the technique of reversing Yin and Yang and disrupting the four directions. The ability to confuse the fake with the real was indeed exquisite.

The knife fell, and the copper coins settled the world.

Second Brother and Fifth Brother turned into two corpses and fell to the ground from their horses.

Xu Bai turned his head and heard the sound of wind. Boss had already disappeared.

“How interesting.”

He thought that the other party would fight to the death. He did not expect the other party to turn around and run. This was in line with human nature.

After all, no one wanted to die.

But... Could he escape?

Xu Bai lifted his Ghost Head Blade and executed the Four Xun Body Movements. With every step he took, he moved like a ghost and chased after Boss.

On the other side, Boss was driving his horse and fleeing at high speed.

He had the ability to seek good fortune and avoid disaster. Just now, he had already sensed that the other party's strength was extraordinary. If he stayed there, he would die sooner or later. Only by running away would he have a chance of survival.

When his subordinates went to stop him, he took the opportunity to run away. This was not his fault. After all, his own survival was the most important thing these days.

At most, he would burn more paper offerings for them when he was free.

Surrounded by the forest, there was only the figure of the boss riding the horse alone and the sound of horse hooves.

However, Boss knew that the feeling of danger lingered.

"He's coming." Boss thought to himself.

Halfway through this thought, he saw a figure flash past his head and land in the distance.

"Phew

The leader hurriedly pulled the reins and stopped the horse. His face was ashen.

He couldn't escape. The other party was determined to kill him.

"Even if Third Brother was disrespectful to you, you shouldn't have killed him. "The boss got off his horse and looked at the man opposite him warily.

"Didn't you say that you would come back to look for me when you're free?" Xu Bai was holding the Ghost Head Blade, which was still dripping with blood.

At this moment, Xu Bai was like a demon that had walked out of hell. His eyes were so cold that they made people shiver.

"I swear, I won't cause you any trouble. Can you let me go?" The boss smiled bitterly.

What answered him was the Ghost Head Blade in Xu Bai's hand.

Boss looked at the approaching Ghost Head Blade, and his heart tightened. He subconsciously retreated, dodging the blade of Ghost Head Blade.

"Eh?" "You can dodge it?" Xu Bai was slightly surprised."

Boss wiped the sweat off his forehead. "I suggest you let me go. The two of us are wasting time here to see who will die first."

Xu Bai didn't listen. He reached into his purse and took out a handful of copper coins. Maple leaves rained down.

The boss took a slight step and dodged by a hair's breadth.

“It’s not a footwork or a movement technique. Your ability is quite interesting.” Xu Bai rubbed his chin and said with interest.

Boss didn’t say anything. He wasn’t stupid enough to say his name.

His mind was spinning rapidly, thinking of a way to escape.

However, after thinking for a long time, he still found nothing. He could only rely on his own ability to delay.

At this moment, Xu Bai spoke.

“You weren’t fast in the two attacks just now, but when I raised my hand, you had already retreated in advance. Could it be that your ability is foresight?”

The boss fell silent.

The other party had guessed his ability, so he gritted his teeth.

Although it wasn’t 100% correct, it wasn’t far off.

Xu Bai smiled.” It’s a prediction, right? I should have guessed it. You’re panicking. ““

Boss wanted to continue speaking, but the other party did not give him any time to react.

A hazy black light rose from Xu Bai’s body. He was like a ferocious beast as he rammed straight into him.

“Dodge, dodge!” Looking at the ferocious attack, the boss muttered crazily in his heart.

But he found that there was no effect.

Boss raised his head, his face full of fear.

” This is an ability that surpasses Rank-7! ”

There was nothing wrong with a Tier 4 Diamond Heart Devil Body corresponding to the abilities of the Sixth Stage.

Dark Chariot Craftsmen had the ability to seek good fortune and avoid disaster, but there was a limit to it. After surpassing oneself, it was useless.

He only had the strength of a Rank-7. How could he avoid the abilities of a Rank-6?

The Vajra Heart Devil Body swept past and slammed into Boss.

Cracks appeared on Boss’s chest. The cracks gradually spread and turned into a rain of blood.

All the blood mist was blocked by the black light. After everything calmed down, Xu Bai returned to normal.

“I have to hurry up with the mental cultivation method. The consumption is too great. ” Xu Bai thought to himself.

After the boss died, the surroundings became quiet and everything returned to normal.

As he had died on the Diamond Heart mo physique, there was no longer a single intact spot.

Fortunately, the money pouch on his waist was still intact. Xu Bai wiped away the blood on it and took away all the money inside..

Chapter 116: The Green Snow Encountered the Ambush and Broken the Tree (3)

After wiping away his traces, he returned to the place where the first few people died. He searched in detail but did not find anything useful. Other than money, there was nothing else.

He destroyed the corpse again before returning to the Yin Posthouse.

The Yin Posthouse was still normal. The posthouse staff didn't know that so many things had happened outside the Yin Posthouse, so they still carried on with their original lives.

The old postmaster was still repairing the damaged room. The sound of the hammer hitting the nails became the only loud sound in the Yin postmaster.

Xu Bai returned to the giant tree and continued to observe.

Time passed unknowingly. In the blink of an eye, the progress bar was halfway through.

During this period of time, it was rather peaceful.

"Squeak..."

A tooth-numbing sound rang out as the door of the Yin Posthouse was opened. The old postmaster walked out with a piece of paper in his hand.

"The matter of the station chief is done. After I leave my post, you will become the new station chief. However, there will be some variables in the process." Xu Bai took the note and glanced at it. It was from Liu Xu.

The message note said that Liu Xu and No Flower had already settled his matter. They had their respective teachers in charge of recommending them, so this matter was more or less settled.

However, there was a problem. Even if someone had recommended him, they still needed to investigate. The officials of the imperial court were responsible for investigating Xu Bai's background.

After all, he was an official, so it was necessary to go through this process. Xu Bai did not have any objections to this.

"You'll know the process of sending and receiving these messages when the time comes. Is there anything else you need me to tell her?" The old postmaster asked.

"I need to go out today. Senior, please help me pass a message to him. Tell him if he can pass on the disguise technique and the method to change his voice to me." Xu Bai thought for a moment and said.

At that time, he had been quite envious of Liu Xu's ability. Moreover, from what Liu Xu had said, ordinary people would be able to understand it after learning it. Moreover, they would be able to learn it.

However, a lot of things had happened in the middle. Coupled with the Spring Flower Pen and Liu Xu's imminent departure, he had forgotten about it.

"Disguising technique?" The old postmaster nodded, indicating that he understood. "Oh right, you've been copying something these days. It seems that you want to give it to someone else."

"A friend needs it." Xu Bai stood up. He didn't want to talk about this matter anymore. "Then I'll leave first. I'll have to trouble Senior with this matter."

"Sure." The old postmaster agreed.

Xu Bai left the Yin Posthouse and headed to Sheng County.

Nothing else happened in between, and everything was as stable as usual.

After returning to Sheng County, he first went to the bookstore.

The one-month deadline was up. According to the previous agreement, the bookstore owner should have exchanged new books from the imperial court.

As usual, there was almost no one in the bookstore. Other than one or two people picking out things that were not related to books, the books on the shelves were displayed on them. It seemed very deserted.

The bookstore owner sat at the counter, bored. When he saw Xu Bai walk in, his eyes lit up.

“Boss, have you replaced the new book?” Xu Bai asked.

The bookstore owner pointed at the bookshelf beside him. “Of course, I’ve replaced all of them. I’ve followed your request and didn’t leave a single book behind.”

Xu Bai came to the bookshelf. There were indeed different books on the bookshelf. Even the position of the books had changed.

It was still early, so he had time to flip through the books one by one.

He skimmed through each book and stopped when he reached the book in the middle.

A golden progress bar appeared above the book. This book was useful.

“My luck is pretty good. I really managed to get one.” Xu Bai was very happy. He picked up the book and flipped through it gently.

The progress bar was slowly increasing, and the contents of the book were also jumping on the paper.

This was an article describing ancient wars. He had read one or two pages of the contents.

The writing was excellent, and the huge battle scene was vividly described, especially the battle scene. It was placed in the opening position and was enough to attract people.

Holding the book in his hand, Xu Bai continued to check the other books, but he didn't find any progress bars.

However, it was a good thing that he found a book. Xu Bai took the book and paid the bill at the bookstore owner before leaving.

Before he left, he once again reminded her that he had to replace another batch next month.

The owner of the bookstore was happy to sell the book, so he agreed happily.

After leaving the bookstore, Xu Bai did not rush back to the Yin Posthouse. Instead, he went to the Dragon Conqueror Bodyguard Agency.

Since the matter of the station chief had been largely settled, he had to carry out his next plan, especially the Bodyguard Agency. He had to deal with it properly.

As soon as they arrived at the agency, Xu Bai's figure attracted the attention of the bodyguards. They put down their work and looked over.

It had been a few days since they last saw the escort master. Now that they saw him again, everyone was shocked.

Especially Liu Er. Other than shock, he was ecstatic.

Liu Er hadn't seen Xu Bai during this period of time, so he had been managing the escort agency by himself. Now that he was Xu Bai's favorite, the escorts naturally listened to him.

However, Liu Er knew very well that the Bodyguard Agency was just a small matter. What was really important was what Xu Bai had said to him a few days ago.

He would become an official and then a true martial artist.

Liu Er did not doubt what Bai Xu said at all. Instead, he firmly believed it..

Chapter 117: The Green Snow Encountered the Ambush and Broken the Tree (4)

Even though he hadn't seen her for a few days, he didn't relax at all. He did his best to keep the agency in order.

"Escort leader." Liu Er walked forward.

"Come to the backyard." Xu Bai said indifferently.

After saying that, he walked straight to the backyard.

Liu Er was stunned for a moment before he reacted. His face was filled with ecstasy.

He knew better than anyone else what Xu Bai had said just now. It meant that he was about to step into that mountain, a mountain that he had never dreamed of.

Liu Er followed behind him respectfully, maintaining a distance of one meter from Xu Bai.

Before he left, he even glanced at the bodyguard who wanted to snatch his position. He raised his head and put on a proud expression.

Did you see that? This was the correct way to hug someone's thigh. Even when walking, you had to pay attention to your words and actions.

Details, what is a detail? This is a detail!

Liu Er followed him to the backyard and then followed Xu Bai into his room.

The room was very clean. It seemed that Liu Er often ordered people to clean it while he was away.

Xu Bai sat on the stool and touched the teapot beside him. It was still warm.

"Every morning, I will make a cup of hot tea for you. If you come back, you will be able to drink it in time." Liu Er said respectfully.

Details!

Xu Bai smiled and did not drink the tea. Instead, he took out a book and handed it to Liu Er.

This was what he had copied in the Yin Posthouse during this period of time.

Bone Breaking Saber Technique, Bone Breaking Heart Technique.

This was a skill from the wall of the Ferocious Tiger Fortress. Its level was not high. It was only at level one, and it was not very high among level one.

However, it was enough for a martial artist to enter level nine.

Although his skills had already been fused into a higher level skill, it did not mean that he could not separate other originally low-level skills.

Liu Er himself was a tool. Giving him a Tier 1 book was about the same. It would not be good to give him a higher one.

What if something unexpected happened?

Even if it was a Tier 1 skill, it was like a treasure in Liu Er's hands.

Liu Er squeezed it tightly like a rare treasure, unwilling to let go.

"Don't be agitated. I have conditions." Xu Bai said.

"Even if you ask me to go up a mountain of knives and go down a sea of fire, I will die for you." Liu Er knelt on the ground and shouted.

"There's no need for that. The conditions are very simple. Rather than calling it a condition, it's more like a standard. If you can't enter the grade when I'm about to do something, then you're not qualified." Xu Bai said slowly.

If he could not enter the rank, Liu Er would not be able to take this position.

"I will do my best to enter the rank as soon as possible." Liu Er's gaze was firm as he nodded his head vigorously.

Based on Xu Bai's understanding, people like escorts had already tempered their bodies very well.

The only thing missing was a mental cultivation technique, so Xu Bai felt that there should be no big problem.

"Remember to hurry up." "I'll be leaving first," Xu Bai said. "The next time I come back, it'll be the time to test your ability and also the time to take you on the path of your dreams.""

“Yes, sir!” Liu Er lowered his head and used his strength.

Xu Bai didn’t say anything more. He left Sheng County and headed to Yin Posthouse again.

This time, he wanted to return to the Yin Posthouse and finish the progress bar of the giant tree before he started reading the book in his hand.

The giant tree’s progress bar was already halfway, and he only needed time to succeed.

After leaving the Bodyguard Agency, Xu Bai soon arrived at the city gate of the county town.

However, before he could leave the city, he met someone in the middle of the road.

Yun Zihai was dressed in casual clothes like an ordinary citizen. He was wandering around the city gate, his eyes looking around from time to time.

When Xu Bai approached, he saw him too. Xu Bai immediately walked over.

‘What a coincidence. I didn’t expect to meet Brother Xu here,’ Yun Zihai greeted and bowed slightly.

Scholars could be said to have achieved the extreme in terms of etiquette and law.

“Lord Yun, why aren’t you sitting in the yamen? Why are you wandering around?” Xu Bai frowned.

To be honest, he didn’t want to have anything to do with this new county magistrate. Because in his mind, this guy’s purpose for promoting to a county was definitely not simple.

If it was really the court who punished him, why did they let him be an official?

Therefore, Xu Bai felt that it was better to stay as far away from these troubles as possible. He just wanted to silently watch the progress bar and then surprise everyone.

“In order to govern a county, one must first understand the county. I just happened to visit the city gate and bumped into you.” “Are you leaving the city?”

Yun Zihai asked with a smile.”

“I heard that you were assassinated some time ago.”

“It’s just a small character. I was still waiting for their follow-up actions, but I didn’t expect that after waiting for so long, there was no movement at all.” Yun Zihai smiled.

Perhaps he spoke too quickly, but he couldn’t help but cough twice, and his pale face was particularly eye-catching.

“I’m sorry, I’m ill and can’t control it.” Yun Zihai said in shame.

Xu Bai raised his head and looked at the distant sky.” “It’s getting late. I’ll leave first.”

“Alright, if there’s anything, come to Shengxian County to find me.” Yun Zihai did not try to persuade him to stay.

Xu Bai casually agreed and left Sheng County, heading towards the Yin Posthouse.

Yun Zihai kept staring at the direction Xu Bai had left. When Xu Bai’s figure disappeared at the end, he shook his head. “He’s very vigilant.”

After saying this, he did not stay at the city gate and continued to patrol other places..

Chapter 118: The Green Snow Encountered the Ambush and Broken the Tree (5)

Along the way, Xu Bai hurried back to the Yin Posthouse.

In the beginning, the contents of his conversation with Yun Zihai were also thrown to the back of his mind.

“Everything is based on the progress bar. Everything else can be postponed. “Sitting in front of the giant tree, Xu Bai stared at it without blinking.

While he was checking the progress bar, a woman in ordinary clothes was rushing toward the Yin Posthouse in the suburbs not far from the Yin Posthouse.

The woman was very young, about twenty years old. Although she was dressed normally, she was very beautiful.

However, if one looked at the woman’s hands, they would find that there were calluses between her fingers. Clearly, she was trained.

The woman had a pair of silver thorns hanging from her waist. Under the sunlight, they shone with a cold light.

As the Ninth Princess’ personal maid, Qing Xue, who was at Level Seven, had always followed the Ninth Princess’ lead.

In fact, if she was really a personal guard and maid, her strength would be far beyond Level Seven. However, many things in the royal family could not be judged by common sense.

She was loyal to the Ninth Princess.

This time, the Ninth Princess had sent her here not only to investigate the Spring Rain Pavilion, but also to find out more about the Jianghu man.

The secret letter was delivered to the Ninth Princess by another member of the royal family. The contents did not mention anything about Yang Chang of the Spring Rain Pavilion.

What was the reason? Actually, it was obvious.

The Imperial Family was already famous for their scheming. Everyone's words could only be trusted half, and the other nine and a half could not be trusted at all.

Only by seeing and understanding it with his own eyes would it be true.

Even though the Ninth Princess had found out the real reason behind the Spring Rain Pavilion incident, she still seemed to be very interested in that Jianghu man.

Qing Xue had also come for this reason.

"At most two days, I will be able to reach the Yin Posthouse. Once I reach the Yin Posthouse, I will rest for a while before going to Sheng County to investigate." Qing Xue thought to himself as he rode on his horse.

She knew very well that the ninth princess wanted to recruit him. She had to investigate the identity and background of that person. Of course, if she could not recruit him, there would not be any other conflicts. After all, the ninth princess had already told her the details.

The members of the royal family had to be cautious. There was no such thing as being killed directly if the recruitment failed. This kind of thing would always only exist in fantasy.

Even a small mistake could be easily discovered by the opponent. Moreover, after a little use, the weakness would be infinitely magnified.

"Sigh, compared to the other members of the royal family, the ninth princess is still too kind."

Thinking of this, Qing Xue quickened her pace again.

As a personal maid, she knew a little about many things, especially horsemanship.

They sped up and got closer and closer to Sheng County.

Just as she was about to reach Sheng County, a person suddenly appeared in front of her and blocked her path.

Qing Xue tightened the reins and stopped the horse. Her eyes were cold as she stared at the person in front of her.

This person was dressed in black and wore a bamboo hat on his head. There was also a black veil under the bamboo hat, so his appearance could not be seen clearly.

However, there was a long saber hanging at his waist, which was particularly eye-catching.

“Who are you?” Qing Xue pulled out the silver thorn from her waist, her words filled with killing intent.

The black-clothed man did not speak. He reached his hand into his waist and raised a handful of copper coins. A unique hidden weapon technique was used to scatter them towards Qing Xue.

Qing Xue’s eyes widened as she waved the silver thorn in her hand, picking the copper coin off.

At this moment, the man in black moved again. He drew the long saber at his waist and rushed towards Qing Xue.

The two sides instantly engaged in a battle, and the sounds of soldiers clashing rose and fell.

In addition to his superb saber skills, the man in black also threw out a handful of copper coins from time to time. His hidden weapon technique was also extremely brilliant.

Moreover, every move was filled with killing intent. The goal was to kill Qing

Xue.

“What an exquisite hidden weapon.” Qing Xue frowned.

Her strength was at Level Seven, and so was the other party.

However, on the contrary, she was proficient in silver thorns, while the other party was proficient in saber techniques and hidden weapons.

As the two of them came to an equal, she gradually fell into a disadvantage and was on the verge of losing.

Due to a moment of carelessness, the long saber slashed across her right arm and left a wound.

“Giddyup!”

Qing Xue’s reaction was very fast. She turned around and rode her horse, wanting to escape from here.

She knew very well that she could not defeat the other party, so there was no need for her to fight to the death here. After all, she had a mission.

The sound of horse hooves rose and fell. The horse gradually moved away from the black-clothed man.

The man in black took a step and chased after Qing Xue. His speed was not any slower than Qing Xue’s.

Seeing that it was about to get close, Qing Xue suddenly turned around and scattered a handful of white ash.

The man in black stopped and waved his sleeves to disperse the white ash in front of him.

At this time, he had already missed the opportunity. Qing Xue had already run away and disappeared.

The man in black stood in place as if he was thinking. After a moment, he disappeared into the wilderness.

In the blink of an eye, another two days passed.

For the past two days, Xu Bai had been sitting in front of the giant tree, staring at it intently, just to fill up the progress bar as soon as possible.

Other than his daily life, there would be people bringing new things over every day. He would also take the time to take a look. Unfortunately, there was still no new discovery. The progress bar did not find anything new.

Other than the giant tree in front of him, there was only the book he got from the bookstore. At present, he only had these two progress bars to work on.

Without a new progress bar, he was not very interested.

Fortunately, today was different. It was a new beginning.

The reason was that the progress bar was almost full..

Chapter 119: The Situation Is Up (1)

If there was one thing Xu Bai was looking forward to, it would be the progress bar.

Nothing else could compare to the progress bar, especially since it was left behind by the crazy female Abbey Dean. He was very curious about what skills were waiting for him.

After this period of crazy work, there was only a little left, and it was about to be completely perfected.

Some of the posthouse people who were setting up stalls in the surroundings would occasionally cast their gazes toward Xu Bai's position. They were already used to seeing Xu Bai often sitting in front of the giant tree in a daze.

At first glance, he thought it was strange, but the longer he looked at it, the more normal it felt. In the end, he was used to it.

There were many strange people in Jianghu, and they were just new to him. After a long time, he felt that it was boring. Their indifferent attitude made Xu Bai let go.

As time passed, the progress bar gradually became complete. After a few minutes, the progress bar finally finished.

A blue mist appeared out of thin air and gradually gathered in the air. Slowly, it gathered into a line of light blue words and appeared in front of Xu Bai.

[You observed the Human-faced Ancient Tree and comprehended the Boundless Dao Scripture (Incomplete)]

After this line of text appeared, it quickly dispersed and slowly faded until it disappeared. However, a new line of text appeared in front of him. [Fusion option found. Fusion in progress.]

[Limitless Dao Scripture (incomplete)+ Four Xun Formation = Revolving

Stars.]

[Fusion successful.]

New words appeared and disappeared after appearing. A stream of information surged into Xu Bai's mind like an ocean, occupying his mind.

A moment later, Xu Bai had finished reading the text message and understood the general usage of Shifting Stars.

A light blue interface appeared, and his latest information appeared.

[Name: Xu Bai]

' Realm: Eighth Stage unspecialized.'

[Breaking One Style, Level 2: Maximum level.] [Reversal Heart Technique (Level 2.5):[Maximum level.]
[Maple Leaves Like Rain (Tier 2): Maximum level.] [Four-Xun Movement Technique (Level 1): Maximum level.]

[Shifting Stars (Level 4): Maximum level.]

[Diamond Heart Devil Body (Level 4), max level.]

[Kidney Strengthening Technique (Level 4): Maximum level.]]

[Comprehension (max level)]

The Four Xun Formation had disappeared and was replaced by Shifting Stars. The strength of Shifting Stars was simply the strongest of all his skills. At the beginning, the incomplete version of the Boundless Daoist Scripture, which was used by the female Abbey Dean, could imitate the abilities of others for her own use. However, because it was an incomplete version, it could only reach the level of Level Six at most.

Not only that, but the side effects were still there.

However, after the fusion of the Four Xun Formation, it had become a brand new skill called Shifting Stars.

Although Xu Bai felt that the name of this skill was very similar to a man who was called cousin, this was just a detail. He did not care about these details.

The so-called Shifting Stars was based on the Limitless Dao Scripture and supplemented by the Four Xun Formation. Together, it was to give the other party a taste of his own medicine.

It was more like grass (a type of plant).

Xu Bai cursed in his heart. He really wanted to know who gave this progress bar a name. This inexplicable sense of déjà vu was simply unbearable.

However...It was fine as long as he was strong.

Shifting Stars was no longer like the Limitless Scripture, which forcefully imitated the opponent's skill for its own use. Instead, it was a kind of rebound ability.

All in all, he could bounce back everything below Rank-6, including Rank-6.

Even if the other party used a hidden weapon, he could simulate it through the Limitless Dao Scripture and use the Four Xun Formation as a guide to buffer it.

Very strong, really strong.

However, there was a price to this strength. The only price was that his True Core Strength was not enough.

Even if he had the Kidney Strengthening Technique, which stored Sixth Stage Refined Qi, he still had two Fourth Stage skills to nurture.

The Vajra Heart Devil Body could be used for both offense and defense, and its offensive power was even above the Shattering stance.

He couldn't just not use this skill, right? But now, with the addition of Star Transposition, two fourth rank skills, he only had one sixth grade true essence energy and one eighth grade true essence energy. No matter how he dismantled them, they wouldn't be enough.

All in all, it was an urgent matter.

"I have to seize the time to do mental cultivation. I'm a little too biased now." Xu Bai thought.

The true essence was still the mental cultivation method.

To make a simple analogy, even if a man knew hundreds of tricks, he only had a lot of tricks.

It would be useless no matter how fast he was or how many tricks he had.

Therefore, in the end, he still had to improve his essence in order to last longer.

Thinking of this, Xu Bai didn't move. He took out the book from the bookstore and read it carefully.

Calm down, don't panic.

He had to wear his clothes one by one and eat his meals one mouthful at a time. He couldn't abandon what was near and seek what was far away. He had to settle the things in front of him first.

However, he was still in a good mood after the giant tree had been conquered by him. He felt that the progress bar on the book in front of him was no longer as boring as before. It had even become very cute.

Sitting on the stool, Xu Bai was like a scholar, reading his book attentively.

The surroundings were still the same. Everything looked normal.

Everyone wanted to live a peaceful life, and no one was an exception. Coupled with the peace and money, he wanted to live that kind of life even more.. Who had nothing to do and wanted to fight and kill all day?

Chapter 120: Multi-sided (2)

Therefore, Xu Bai felt that he had been living a very comfortable life recently, especially that sense of satisfaction that could not be described with words.

However, sometimes, a comfortable life might not last long and could be easily broken.

“Da da da...”

The sound of horse hooves rang out from afar and finally arrived at the Yin Posthouse.

Xu Bai heard the sound of hooves and stopped instinctively. He looked up and frowned.

Outside the Yin Posthouse, there was a handsome and fast horse, and on the back of the horse sat a beautiful girl dressed in ordinary clothes.

The beautiful girl's face was pale, and there were large beads of sweat on her forehead. Her left hand was especially bleeding.

Blood was flowing down his left hand, wetting the clothes on his arm. Blood was still dripping from the fingertips of his left hand.

‘Where is the station chief?’ The beautiful girl shouted as soon as she appeared.

The old postmaster heard the sound and quickly came out of the room. When he saw the scene in front of him, he also felt that something was wrong.

‘You’ll know when you see this.’ the beautiful girl said.

As she spoke, she took out a token from her waist and waved it at the old postmaster. When the old postmaster saw this token, he was slightly stunned, but he quickly understood.

Due to the distance, Xu Bai knew what was happening here, but he couldn’t see what was written on the token.

‘What do you need?’ The old postmaster asked.

‘Injury medicine. Also, let me use your house for the time being.’ the beautiful girl said.

‘Alright.’ The old postmaster pointed at the house behind him. ‘There’s no one inside. The medicine for external injuries is in the cabinet. Look through it yourself.’

The pretty girl didn’t say anything else. After getting off the horse, she limped into the wooden house and closed the door with a bang.

When she entered the house, Bai Xu quietly leaned over and asked in a low voice, ‘Senior, who is this person?’

‘The Ninth Princess ‘men.’ The old postmaster said in a low voice.

The Ninth Princess?

Xu Bai was obviously stunned for a moment after hearing the answer, but then he returned to normal.

He lowered his head, thinking about the stakes, and slowly moved away from the house.

In his understanding, the Ninth Princess should be very shrewd. Now, she sent people to Sheng County for no reason. Was it because of him?

It was very possible. Although the possibility was not high, Xu Bai still had to be vigilant.

While Xu Bai was thinking, in another room, Qing Xue closed the door. After locking it, she raised her fair arm. There was a shocking wound on her arm.

In the cabinet in the room, there was medicine for external injuries and white cloth for bandaging.

Looking at the wound on her hand, Qing Xue opened the medicine and poured it on the wound. A sharp pain immediately attacked her.

Qing Xue grunted, but she forcefully endured it and did not make too much

noise.

The bleeding was stopped. The medicine was very effective. Qing Xue let out a long breath after the pain from the medicine subsided and bandaged the wound with a white cloth.

Qing Xue wiped away the cold sweat on her forehead. Her eyes were filled with anger.

Especially when he thought about how he had almost lost his life when he was attacked. If the horse had not run faster, he might have really died.

“Who is that person? He is proficient in saber techniques and hidden weapons, but why did he attack Xue narrowed her eyes and thought of some of the things that had happened.

Saber techniques, hidden weapons.

These two things seemed to be very similar to that Jianghu person.

Thinking of this, she returned the sleeve on her arm to its original state. Although it was still stained with blood, she did not even frown.

He opened the door and prepared to leave without saying a word.

But sometimes, certain things were very attractive.

For example, the giant tree in the middle.

It would be difficult for such a huge tree to not be attractive.

Just now, Qing Xue was injured and was in a hurry to get treated, so he didn't pay too much attention to it. Now that her injuries had recovered, he could tell at a glance.

Under the giant tree, the young man who was reading naturally attracted Qing Xue's attention because of the giant tree.

He was dressed in simple clothes, and Ghost Head Blade was slung at his waist.

Ghost Head Blade?

Huh?

Qing Xue was stunned for a moment before she reacted.

Wasn't Ghost Head Blade the most obvious characteristic of the person the Ninth Princess had asked her to find?

"Was he the one who launched the sneak attack?" Qing Xue thought for a moment and walked over.

Xu Bai was reading quietly when he heard footsteps. He turned around and saw the woman approaching him.

He frowned, put the book back into his arms, and stood up.

It seemed like something was up.

He really just wanted to read quietly.

Qing Xue walked up to him and suddenly pulled out the silver spike from her waist, stabbing it at Xu Bai.

The speed was very fast, and there was no sign at all.

This action was very obvious and naturally attracted the attention of the surrounding posthouse people. They all looked at the two people on the field with a lively gaze.

Xu Bai's eyes were dazzled by the silver thorn, and then he flew into a rage.

I was just reading a book here and didn't provoke anyone. Why did you suddenly attack me?

Do you think I'm honest and easy to bully?

He couldn't bear it.

The silver spike stabbed into Xu Bai's chest, but under the guidance of the Yin-Yang Disorder, that was the strongest point.

Xu Bai stretched out his hand and pressed it on Qing Xue's wrist. Then, his True Core Strength surged.

The pair of silver thorns seemed to have been possessed by something. They actually went around Xu Bai in a roundabout manner and stabbed toward Qing Xue.

This scene was as if Qing Xue was about to commit suicide..
