Chapter 151: The Prologue of the Full Moon Night Begins

When he was fighting Xu Bai, the cloud was the Cloud Leaping Palm that he had learned.

Xu Bai rubbed his chin and organized his words. He told them the benefits of this matter.

The more he listened, the brighter Zhou Qing's eyes became. When he heard Xu Bai's words, he pounded his palms hard.

"Let's do it!"

If this was done, it would bring many benefits to the Sixth Prince. The biggest benefit was to win the favor of the Emperor.

Qing Xue placed her hand on her forehead, looking helpless.

Another person who had boarded the pirate ship.

She realized that Xu Bai was very good at pulling people onto the boat.

Of course, what she didn't know was that all the escorts of the Dragon Conqueror Bodyguard Agency were pulled onto the ship by Xu Bai. As the few of them chatted, Yun Zihai also reacted from his contemplation.

"Brother Xu, I thought of that piece of paper. From the information you gave me, it's very likely that it's not a map of the outside world." Yun Zihai raised his head.

“I thought of that too. Speaking of the word ‘mausoleum’, this thing is very likely a map of the mausoleum.””

The tombs of Great Chu were divided into many types, especially some large curtains. There were many twists and turns inside.

This also indirectly gave birth to a branch of the Thief Sect, the gravedigger.

The so-called gravediggers made a fortune in this line of work. However, many people felt that it was unlucky and stayed away from it.

When the wealthy families of Great Chu built their tombs, they would leave a map for their descendants. After all, there were many funerary objects in the tomb. Once the descendants were poor, they could take them out.

This was very different from his previous life.

“Brother Xu, please wait a moment.” Yun Zihai said. He immediately turned around and took out a very thick book from the bookshelf.

There were four words written on the booklet.

The History of Shengxian County.

Simply put, this was the history of the county promotion. It described the process of the county promotion from its establishment to its development, from before to now.

“Can you finish reading such a thick book?” Xu Bai frowned.

“Of course, scholars are the most suitable.” Yun Zihai smiled.

As he spoke, he began to flip through the thick book quickly under everyone's gaze. He flipped through the pages extremely quickly. In a second, several pages had been flipped.

Good heavens.

Xu Bai's mouth twitched.

If he had this skill, he would not have to worry about all the exams.

It took Yun Zihai less than the time it takes for half an incense stick to burn to flip from the first page to the last.

A moment later, Yun Zihai stopped. He flipped through it again and finally stopped at a certain page.

"Brother Xu, this place is more complicated than we imagined." Yun Zihai smiled bitterly.

Xu Bai moved closer and looked at the written records. Then, his eyes were filled with surprise.

"The royal family, ascend to King You?"

According to the records of Sheng County, a very powerful figure had died here a long time ago.

King Sheng You, the Emperor's younger brother.

At that time, the Great Chu Country was in a precarious situation and had just been successfully established.

As for Da Yue, it was already a very mature country.

As the saying goes, one mountain cannot accommodate two tigers.

The Great Yue State used all kinds of methods to trick King Sheng You into coming here and sent countless experts to kill him. In the end, King Sheng You died in the wilderness.

Of course, before he died, all the enemies were killed by him. In the wilderness, blood dyed the ground red and did not dissipate for a long time.

On that day, the entire Great Chu Country was in sorrow.

The emperor personally ordered the construction of a huge mausoleum in

Sheng County, so that King Sheng You's body could be buried there forever.

From then on, countless gravediggers tried to crack this mausoleum, but they all died in it. As time passed, this mausoleum became a taboo for the gravediggers, and no one dared to mention it.

"Didn't you think of such an important thing before?" Xu Bai said.

"No, we know that King Sheng You died in battle, but only the older generation knows the exact location where he was buried. The purpose was to prevent more gravediggers from approaching." Yun Zihai said helplessly.

"But who would have thought that the news would still leak out? Countless gravediggers were buried in the mausoleum. As time passed, no one dared to come again, but the burial location was still not mentioned."

"After I came to Sheng County, I paid more attention to the lives of the commoners. I have never read this history book." Speaking of this, Yun Zihai felt ashamed.

Xu Bai stroked his chin and pondered.

Not letting others know the location of the tomb could be said to be to prevent the gravediggers. However, there were no longer any gravediggers, but he still did not mention the location of the burial. It felt like the Emperor of Great Chu was hiding something.

However, these were not things he should be thinking about. Right now, it was more important to solve the problem.

“We don’t have a gravedigger.” Xu Bai said.

It was written clearly in this history book, including the location of the tomb. However, there was still a problem. They did not have a gravedigger.

Especially the imperial tomb, it was even more terrifying. There might be something extremely dangerous inside.

“Brother Xu, you’re right, but I think that if we don’t have it, others do.”The clouds came from the sea.

The meaning behind his words was very simple. They didn’t have it, but it didn’t mean that the mysterious people didn’t. Since the mysterious people’s goal was the tomb, they would definitely bring the gravedigger with them. Otherwise, it would be difficult to move forward..

Chapter 152: The Prologue of the Full Moon Night Begins

“Of course, if we can kill them before that, that would be the best solution.”Yun Zihai said.

It would be best if they could kill them in advance. If they could not kill them, they would have to think of a way to disrupt their operation.

At this moment, the young man in embroidered clothes raised his hand and said,“If you really want to find a gravedigger, I can find one.”

“Who?” Xu Bai turned around and asked.

The young man pointed at himself and said, “It’s me.”

Xu Bai silently took two steps back.

Bad luck.

Not only him, even Yun Zihai and Qing Xue retreated at the same time.

After all, there were rumors that anyone who got too close to the gravedigger would have bad luck.

“The Zhou family, so it’s that Zhou family.” Yun Zihai was speechless. “I heard that when you first started to make a fortune, you relied on this unique skill to make a fortune. If it wasn’t for the chaotic era that followed and all your enemies were dead, you would probably have suffered a storm of revenge now.”

Gravediggers would never let others know their identities. After all, every gravedigger was involved in the business of digging up ancestral graves. If others knew, those who had their ancestral graves dug up would definitely give them a heavy blow.

“After Great Chu was established, we all washed our hands of the golden basin.

It’s just that our descendants still have to learn. After all, it’s our old profession.” Zhou Qing said confidently.

“Did you learn well?” Xu Bai asked.

“It was alright. Since then, the Zhou family has turned into martial artists, but we still haven’t forgotten some unique skills. Because we have already distinguished our priorities, when we learn unique skills, we learn what we are interested in separately instead of learning all of them.” Zhou Qing explained.

In this world, people could cultivate more, but the time cost would multiply, so no one was willing to cultivate more.

Gravediggers needed energy to do what they did. Zhou Qing raised his right hand, and an earthen yellow light flashed on his index finger.

“What I mainly learn is the mechanics of the tomb. We already know the precise location, so we don’t need to divide the gold to fix the acupoints. What we need to do is to guard against the traps in the tomb.”Zhou Qing explained.

As he spoke, he confidently patted his chest, indicating that there shouldn’t be any major problems.

“Is there really no problem? Don’t forget, that mausoleum was an existence that terrified countless gravediggers. “Qing Xue reminded.

King Sheng You’s mausoleum was not something that could be easily dealt with.

Xu Bai patted Qing Xue’s shoulder and said,“Don’t worry. If we can solve it in advance, then we’ll solve it in advance.”

Their goal was not to steal the tomb.

If there were people who understood the mechanism present, they could think of a way to activate the mechanism inside after the group of mysterious people entered and bury them inside. This would be considered complete.

“Then let’s settle it like this first.” Yun Zihai looked at Xu Bai and said, “Shall we set off now?”

Xu Bai nodded.

If there were any clues, they would head over in advance. Of course, they would set off immediately.

Qing Xue and Zhou Qing had no objections to this suggestion.

Yun Zihai came to the window.

There was a pigeon hanging on the window. He took the pigeon out and stuffed a note on the pigeon's leg.

"I'll send a message to His Majesty and ask him to send experts over as soon as possible. We'll stall for as long as we can." Yun Zihai released the pigeon and explained.

He also did not expect that this matter was actually related to the King of Ascending the Underworld. It was already beyond his expectations.

Most importantly, they had yet to figure out the identity of this group of mysterious people.

After doing this, the few of them did not stay any longer. They rushed in the direction marked in the history book.

At this moment, in the wilderness, more than ten men in black were standing on the spot with their heads lowered, not daring to look ahead.

In front of her stood a man with a mask on his face.

The mask had no facial features and was smooth. There were only two holes where the eyes were.

"Ghost Sculptor!"

The masked man coldly shouted.

A man in black walked out of the crowd. He lowered his head and did not dare to make a sound.

The masked man threw the paper in his hand at the man in black's face and said angrily, "Tell me, why is a corner of the map missing?"

The Ghost Sculptor shivered and did not dare to say a word.

"Before I came out, I gave you the most important thing, but you gave me this thing. Aren't you too disappointed?" The masked man's voice was filled with killing intent.

"Master, please forgive me. I don't know why this part is missing. Perhaps I accidentally lost it when I escaped from there." The Ghost Sculptor was shocked by the voice. His legs went weak and he knelt on the ground.

The killing intent grew stronger and stronger.

At this moment, a female voice sounded.

"Since when did our esteemed Eighth Prince become so temperamental?"

Accompanied by this enchanting female voice, a woman with a superb figure walked out of the forest.

This figure made people feel that they were not addicted to it at first glance. Coupled with that enchanting voice, she was simply a seductive beauty.

However, when he looked up, the flames that had been ignited were instantly extinguished.

There was no other reason than that there was actually a fox head on top of this top-notch figure.

Demon.

Fox demon!

It was not the fox tail that ordinary people imagined, but the fox head.

His mouth was full of sharp teeth and his eyes were filled with a fierce light. However, it was embedded in this top-notch figure..

Chapter 153: The Prologue of the Full Moon Night Begins

It was very strange and suited the preferences of some special people, but most people were definitely not into it.

“Thousand-faced Fox, you’re finally willing to come out. I’ve paid such a huge price, but now it’s all for naught. Give me an explanation!” Prince Eight’s tone became even more intense, especially after the Thousand-faced Fox walked out. He almost went berserk.

Who knew that the Thousand-faced Fox would not give him face. When the Eighth Prince said this, the Thousand-faced Fox was also furious.

“Pay the highest price. I’m afraid we’ll be the ones paying the highest price. The most talented clansman of our clan has already become like you as a sacrifice for you to escape.”

Speaking of this, the fox head of the Thousand Face Fox exploded.

Their race was best at imitating the appearance of others.

In order to make the Eighth Prince fake his death, they even paid the price of a genius clansman.

The Eighth Prince was still glaring at the Thousand-faced Fox.

“I know that you’re the eighth prince and we’re all evil, but we can’t let you shout like this because we’re all helping you.”The Thousand-faced Fox continued speaking. She pointed at the Ghost Sculptor and said,“”No matter where he is, he can be free and happy. He came to help you and even put on such a humble appearance. Who do you think you are?” The moment he said this, the entire place fell silent.

After a long time.

The Eighth Prince seemed to have calmed down from his rage.

“The map that I stole from the palace after much effort has lost a corner. We might be in great danger, but we have no choice.”

He just couldn’t hold it in any longer. Now that he had regained his senses, he realized that no matter how angry he was, it would be useless.

The most important thing was to find what he wanted.

“Is it really necessary to pay such a huge price for just missing a corner?”The Thousand-faced Fox frowned.

“The paths inside are complicated and there are as many traps as there are hairs on an ox. Without this map, it’s very easy for danger to occur, but this is the only way we can do it.”the Eighth Prince said.

Everyone fell silent.

Now was the time to go all out. Now that a problem had appeared, he could only face the danger.

“Tonight is the night of the full moon. “the Eighth Prince said.

“Yes, sir!”

Everyone quickly agreed.

The faint smell of blood permeated the forest.

He was promoted outside the county.

At this moment, Xu Bai and the others were running at full speed. Their destination was the location recorded in the history books.

The location marked on it was still very far from the county. It was at the edge of the county.

The sun gradually set, and a full moon hung in the sky.

The moon tonight was rounder than any other time, like a jade plate hanging high above the curtain of the night. When the silver light shone down, it made the jade plate curl up into smoke.

The silver light was like a fairy dancing in the moonlight.

Xu Bai subconsciously looked up at the full moon, then continued his journey.

However, at this moment, Zhou Qing suddenly spoke and asked everyone to stop.

“Everyone, wait a moment. The situation doesn’t seem right!”

After Zhou Qing said this, Xu Bai and the others stopped and turned to look at him.

After Zhou Qing said that, he did not say anything else. Instead, he lowered his head and took out an ancient book from his pocket, flipping through it.

After a moment, his hand stopped on one of the pages, and his expression changed slightly.

“On the night of the full moon, when the tomb changes, you have to be careful to protect your life.”

He slowly read out a sentence.

Zhou Qing raised his head and said, “According to the book, if the tomb of a graceful and noble person appears on the night of the full moon, it will cause a huge commotion. Today happens to be the night of the full moon. I suspect that the other party is not trying to rob the tomb, but...” “Let that person in the mausoleum be in turmoil.”

Zhou Qing shivered.

The person in the mausoleum was the legendary King Sheng You, the emperor’s younger brother.

If there was unrest...

“Corpse Corpse transformation?” Xu Bai frowned and asked.

” That’s just one of the possibilities. I don’t know what he wants to do, but a

huge upheaval will definitely happen. Everyone, we might not have a second plan. We have to solve it before they make a move.” Zhou Qing put away the book in his hand and said.

The so-called second and third plan was to follow the other party into the tomb and think of other ways when they could not get rid of the other party in advance.

They could either destroy the tomb and bury the other party inside, or kill the other party inside.

But now, it seemed that the situation was very wrong and he had to resolve it as soon as possible.

“It seems that everyone should not hold back anymore. Don’t hold back any secret moves. Meeting is a time of life and death.” Xu Bai said.

Everyone present nodded in unison. Without saying anything else, they continued to rush toward their destination.

The moon was getting rounder and was about to reach perfection.

Xu Bai and the others finally arrived at their destination. It was a huge wilderness.

The surrounding forest had disappeared, and all the trees had been cut down, leaving only a wooden stake in place.

From the forest to the wilderness, it was very intuitive here, and they could directly see the situation in the center.

In the middle of the wilderness, there were more than a dozen people, all wearing black robes. They surrounded a masked man in the middle. Beside the masked man stood a woman with a voluptuous figure and a fox head..

Chapter 154: The Ghost Sculptor’s Self-Shaping Transformation

This scene, this situation, was already quite obvious.

Yun Zihai lifted his brush and prepared to attack.

But at this moment, Xu Bai pulled him back and told him not to move for the

time being.

“Don’t you think it’s strange that they don’t seem to see us in this bare land?”

The surrounding trees had been cut down, leaving only tree stumps standing in the soil. This scene had a very high visibility, but the other party seemed to not have seen them.

It was very abnormal.

Yun Zihai put down his brush and fell into deep thought.

“This is a smokescreen.”

Xu Bai nodded and said, “Or rather, it’s a change in the array formation. It’s enough to deceive people who don’t understand this industry.”

“Do you understand?” Qing Xue asked curiously.

Just now, Xu Bai had said it so confidently. She was puzzled. In her opinion, Xu Bai should be a martial artist.

I understand a little, a little.” Xu Bai said humbly.

The Four Steps Technique was not just a movement technique. It also combined the Four Xun Formation Formation. Moreover, when the two were combined, they complemented each other and produced a powerful effect, reaching the level of a third step.

In layman’s terms, Xu Bai knew a little about arrays.

As the saying went, one could infer other things from one instance.

“Xu Bai, your talent is extraordinary and your strength is high. Your talent in martial arts is far beyond ordinary people. I don’t suggest that you divert your attention to learning other things.”Qing Xue reminded.

Out of kindness, she still felt that this kind of thing needed to be explained. After all, many people thought that they were geniuses and chose many ways to cultivate together, resulting in nothing.

This kind of thing was very common in history, and there were even many of them.

Although there were many examples in front of them, there were always some geniuses who were arrogant and thought that they could control them. They ignored the advice of others and forced themselves to cultivate.

The result was that they were slapped in the face. After trying again and again, this conclusion finally came to an end.

The time and cost of cultivating multiple abilities was far greater than cultivating one ability alone. For example, the Zhou family’s main focus was on martial arts.

If he took everything into consideration, the final result would be that he would become a nobody.

Therefore, Qing Xue felt that she had to remind him. She didn’t want to see Xu Bai walk down the same old path.

“Don’t worry, I know what to do.” Xu Bai nodded and said.

After saying this, he slowly lifted his feet and walked towards the group of people.

“Brother Xu, be careful.” The clouds came from the sea.

Xu Bai didn’t answer. He focused his attention on the empty space in front of him.

When he stepped into a certain area, everything in front of him became especially magical.

The surrounding air began to distort, as if he had fallen into a hallucinatory place. It swayed in front of his eyes all the time, trying to guide his thoughts.

Xu Bai closed his eyes and began to walk irregularly.

With every step he took, the surrounding air twisted more violently. At the same time, a faint golden light appeared on his feet.

With the guidance of his True Core Strength and the Four Steps, he was destroying the array from different directions.

From the outside world, Yun Zihai and the others did not see anything unusual with Xu Bai.

They could only see Xu Bai walking around irregularly. As for the distorted air, they could not see it at all because they had not stepped into the range of the array.

According to this pattern, Xu Bai walked for about the time it takes for an incense stick to burn before everything returned to normal.

The distorted air disappeared, and the feeling that constantly misled him also disappeared. However, what replaced it was the change in the surrounding scenery.

The stumps on the ground disappeared in front of everyone's eyes as if they had never been there before. Then, trees suddenly appeared, and the open space became a new forest.

The forest was dense, and under the moonlight, it looked very quiet.

Due to the sudden appearance of the forest, the black-clothed man in front of them disappeared.

It was obvious that it was indeed a smokescreen.

“It broke.” Xu Bai opened his eyes and said to Yun Zihai and the others.

Yun Zihai and Qing Xue looked at each other and prepared to walk into the forest.

Since the array had been broken, it was time to find their target.

“Wait, don’t go in yet.” Zhou Qing did not move. He stared at the forest in front of him. After a while, he spoke slowly.

Just as they were about to head to Yun Zihai and Qing Xue, they stopped. Xu Bai, who was standing in front of the forest, also frowned. Their gazes were focused on Zhou Qing.

Since everyone had temporarily formed a team, they had to respect everyone’s opinions. Now that Zhou Qing was obviously busy, they were not in a hurry.

“There’s a mechanism.” Zhou Qing said seriously.

As a gravedigger, Zhou Qing chose the profession that he was most interested in.

He majored in martial arts, but he was most interested in mechanisms in the gravedigger profession.

There were many traps in those terrifying tombs. This was a huge challenge for the gravediggers.

As the saying went, “Inferring other things from one instance”, Zhou Qing could see through the mechanisms, even if they were not from the tomb.

When the array in front of him was broken by Xu Bai, Zhou Qing quickly realized that something was wrong.

He hadn't been able to see it because of the array just now. Now that he could see it, of course, he couldn't let Xu Bai and the others walk forward in a daze.

No matter how powerful one was, people who traveled the martial world had to be wary of some despicable tricks..

Chapter 155 Ghost Sculptor's Self-Shaping Transformation

For example, poison, beauty, or heavy traps.

There were countless examples of people in the martial world being killed by despicable tricks, which made many people alert.

"Everyone, walk behind me. I'll help you lead the way."Zhou Qing said.

Xu Bai said,"Okay."

Since Xu Bai had already agreed, Yun Zihai and Qing Xue did not say anything. They formed a long line and walked behind Zhou Qing.

Zhou Qing didn't waste any time. As the leader, he walked into the forest first.

Before he could take two steps, he stopped and knocked lightly on the tree beside him.

A translucent thread sprang up from the ground. If one couldn't see it clearly, they would definitely trip over.

Zhou Qing squatted down and gently plucked the thread. Then, a huge iron plate fell from a high place in the forest. The iron plate was covered with sharp iron thorns.

There was also a color that did not belong to metal on the iron spike. From Xu Bai's current perspective, it was poisonous.

"Hu..." Zhou Qing let out a long breath and turned around. ""Let's continue."

Everyone nodded and continued to follow behind.

Following that, they saw countless traps along the way, but they were all resolved by Zhou Qing.

In fact, these mechanisms were not a threat to Xu. As long as the Diamond Heart Demon Body was activated, the mechanisms would be isolated.

However, he did not know if it would be effective on others.

With Zhou Qing scouting ahead, they walked very steadily. After about five minutes, the forest in front of them finally opened up. It felt like spring had come again.

This time, it was a real open space. Although this open space was not big, there were more than ten black-clothed men standing in the middle of the open space.

The group of men in black had their faces covered, so they couldn't see their faces clearly. However, they stood in the middle, obviously not wanting Xu Bai and the others to pass.

"Kill them."

Among the men in black, one of them, who was obviously the leader, spoke first.

There was no communication, no words, the meeting was about to start.

The man in black rushed over without hesitation.

Xu Bai could see the outline of their footwork and formation.

"Formation, and it's a formation with four people in a group." Xu Bai saw through it at a glance. He drew his Ghost Head Blade and rushed over, his body glowing with a black light.

The group of men in black was divided into four groups, and they surrounded the four of them.

Each of them was not weak, and they even had their own special array formation.

Xu Bai and the others entered a state of battle.

When Xu Bai stepped out and rushed to the front of the four men in black, the scene in front of him suddenly changed.

The ground moved, and in the blink of an eye, he had already changed his position.

"It's a trap!"

Zhou Qing's voice rang in his ears, but in the blink of an eye, Zhou Qing's voice was getting further and further away, gradually disappearing.

Xu Bai was very sure that he had moved a very long distance in that instant. It was as if the soil under his feet had changed greatly.

"The Art of Traps is actually so wondrous. Looks like I have to get a book in the future." He thought to himself.

However, it was obvious that now was not the time to think about this. The sound of the wind became even more intense, and the four people had already attacked him together.

The four of them stepped on a strange formation and cooperated with each other exquisitely. Their power was very strong.

"Brat, you dare to come here at this time. Do you really think that we don't dare to kill you?" One of the men in black said disdainfully.

They all recognized Xu Bai. After all, the Eighth Prince had sent people to assassinate him. If the Eighth Prince had not said that there was no need to carry out the assassination, they might have fought Xu Bai.

As for the assassination of Xu Bai, their thoughts were very simple. The people they had sent out before were all idiots.

Even for the so-called Thousand-faced Poison Lord, once his poison was restrained, everything else would be ordinary.

However, the four of them were different. Each of them was a true Seventh Stage cultivator.

When the four of them combined into one, with the addition of the array, even a Rank-6 would have to avoid their edge.

Killing this Jianghu man in front of him was simply a piece of cake.

As he thought about this, the attack arrived.

These four people were all martial artists, but one of them had a secondary cultivation of array formations.

The dozen or so men in black were divided into four groups, and they were also matched with people who specialized in array formations.

Due to the enhancement of the array formation, the power of their attacks had already increased by a lot.

However...

It had to be said that sometimes, it was not good to be too confident.

Xu Bai didn't even use Ghost Head Blade. A black light rose from his body, blocking all four of their attacks.

The sound of metal clashing against each other could be heard. The four of them felt a powerful backlash and took a step back.

"His defense is very strong. Everyone, be careful."The man in black said to his three companions.

As soon as he finished speaking, he heard Xu Bai's voice.

"How strong are the four of you compared to Thousand-faced Poison Lord?"Xu Bai said mysteriously.

"What do you mean?" The man in black frowned.

"This formation of yours can increase your attack, defense, and speed, allowing the few of you to have the possibility of defeating the strong with the weak. However, your inner self is still the original inner self."Xu Bai reached out his hand and fumbled through the belt around his waist. Soon, he found a small porcelain bottle.

When the man in black saw Xu Bai's actions, he had a bad feeling, but it was too late.

Chapter 156 Ghost Sculptor's Self-Shaping Transformation

Xu Bai opened the bottle cap and a cloud of powder flew out.

Immediately after, his True Core Strength surged as he drew the Ghost Head Blade from his waist and slashed at the four of them.

This was a slash in the air, but due to the support of the True Core Strength, it produced a strong wind that swept the powder in front of him towards the four men in black.

With the array formation and their own strength, they could defend and dodge. However, this was powder. The air contained powder. They could not possibly dodge the air, right?

Back then, Thousand-faced Poison Lord had specially picked a windy day to make his move. From this, one could see the importance of wind.

The poison was affected by the wind and its power increased.

In an instant, the powder of the Hundred Violent Poison had already stuck to the black-clothed man.

In less than a breath's time, the four men in black suddenly felt an intense pain from their skin. This pain poured into their bodies from their skin and rampaged through their bodies.

They could no longer control themselves and rolled on the ground, screaming as they rolled.

Hundred fierce poison, seven grades of poison will die.

This was the ultimate move of the maxed out Hundred Poisons Dissolution, not a poison that a half-baked poison like the Thousand-faced Poison Lord could use.

Pain followed like a shadow. Then, the group of men in black died completely without leaving any aura behind.

There was blood on the corpse's face, which seeped through the black cloth on his face and soaked a large area.

Xu Bai didn't want to use the Shifting Stars. He wanted to save the True Core Strength in his kidneys for emergencies. Now, it seemed that the Hundred Violent Poison was the best way to break the situation.

After doing all this, the surroundings fell silent again.

Xu Bai looked up at the moonlight.

They had already gotten separated from each other during the operation just now, and they were in the forest. He could no longer tell where they were.

After all, it was the easiest place to get lost in the dense forest. Here, one's sense of direction would be severely weakened.

But... It was not a big problem.

When a person got lost in the wild, as long as they found a reference, it would be easy to get out.

Before he was hit by this mechanism, Xu Bai had already set a position from the moon in the sky. Now, he was a little east from the full moon. He only needed to walk back to his original position.

Thinking of this, Xu Bai pulled out his Ghost Head Blade. After determining the direction, he used the simplest and most direct method to walk in a straight line.

As long as there were trees blocking the way, he would cut them down with a single slash.

Along the way, there were broken trees everywhere. Xu Bai had already cut a path out.

..

On the other side.

Yun Zihai, Qing Xue, and Zhou Qing were also isolated and were also engaged in battle.

Among them, the easiest and easiest to break through was Yun Zihai.

After all, he was a real Level Six expert. After easily breaking the array, he was also a smart person. He used the same method as Xu Bai to rush back to his original position.

Other than Yun Zihai, Zhou Qing did not have a hard time either.

Layers of white mist appeared around Zhou Qing, blocking all vision around him.

The Cloud Soaring Palm, a martial art of the Zhou family, was extremely sinister.

This kind of martial art had a very serious effect on the senses. It was not the kind of martial art that was hard and hard at all. Instead, it was a surprise attack.

The senses included hearing and touch.

In this layer of white fog, the four people on the other side had no place to use their skills.

Their senses were all blocked. They did not even know where the other party was. They had blinded the power of the array formation for nothing.

Then, sounds came from the white mist. When the white mist slowly dispersed, the four men in black had already become corpses.

Zhou Qing wiped away the cold sweat on his forehead. He looked at the deep wound on his arm and let out a long sigh.

"I almost died here. Fortunately, I restrained you."

Thinking of this, he quickly took out a medicine bottle from his pocket and sprinkled the medicine on the wound.

The blood stopped flowing, and the wound slowly healed. This bottle of medicine was much better than the Yin Posthouse's medicine.

After doing all this, he tore a piece of cloth from the hem of his clothes and tied up the wound to prevent it from bursting open.

Next, he used the same method as Xu Bai. He used the full moon in the sky as a guide and rushed toward his original position.

The three of them were no longer in danger. Only Qing Xue's situation was different.

Qing Xue was in danger.

When the four men in black in front of him joined forces and used that kind of array, they could already fight against a Level Six expert, while Qing Xue was only a Level Seven expert.

She didn't have Xu Bai's and Yun Zihai's powerful abilities, nor did she have Zhou Qing's ability to specifically restrain array formations. She could only fight head-on.

However, it was precisely because of this head-on approach that made her more and more dangerous.

The battle had entered a state of anxiety. Qing Xue held a pair of silver thorns and was constantly defending.

In the beginning, she could still attack, but as time passed, she could only defend.

However, blindly defending was the beginning of falling into a disadvantage. Once there was a mistake, it would be beyond redemption.

Cold sweat appeared on Qing Xue's forehead.

She had almost fallen into the other party's trap just now. If she had not reacted quickly and turned around in time, she would have been a corpse by now.

"If this continues, I'll really be buried here." Qing Xue lowered her head and looked at the silver thorn in her left hand.

He had a pair of silver thorns, and he held them in his left and right hands.

The stabbing technique she learned came from the royal family.

However, very few people knew that this stabbing technique had a unique skill.

"Just one." Qing Xue thought.

In the current situation, there was indeed no question of whether he was willing or not. Survival was more important.

Chapter 157: Ghost Sculptor's Transformation

At the thought of this, Qing Xue took a step back and dodged the other party's attack. Then, she raised the silver thorn in her left hand and rotated her wrist.

As she rotated her wrist, the silver thorn on her left hand suddenly exploded. Countless silver needles as thin as cow hair shot out like a fairy scattering flowers.

This pair of silver thorns was actually made of silver needles.

Silver needles covered the sky.

The four black men who were attacking quickly defended themselves.

However, there were too many needles. In just a moment, the four men in black were pierced by the silver needles and fell to the ground in unison.

Qing Xue heaved a sigh of relief. She looked at the silver needles on the ground and smiled bitterly.

If she used silver needles, she would not be able to retrieve them. She only had a handful of silver needles left.

In fact, before she came, when she was assassinated by the Yun family, she was prepared to use this ultimate move, but later on, she thought about it.

That was because the killer from the Yun family was proficient in concealed weapons. After the silver thorn rotated, it turned into a silver needle and was shot out in a concealed weapon technique. It was just that it was replaced by a mechanism as a carrier.

At that time, she wasn't sure if she could deal with it, so she tried to escape first. She didn't expect to succeed, so she didn't use this move.

Now, it seemed that this move had succeeded.

"I have to go find them. If we split up like this, we will definitely be defeated one by one." Qing Xue thought to herself.

With this thought in mind, she looked up at the circle in the sky and used the full moon as a reference to rush towards her original position.

She didn't have Xu Bails destructive power. When she passed by some obstacles, she could only choose to avoid them to save her energy.

Fortunately, with the full moon in the sky as a reference, they were getting closer and closer to their destination.

The four of them were rushing back to their original location. In an empty space not far from them, a black-robed man was standing there with his eyes closed.

In front of the man in black was a jar filled with yellow soil.

The earthen jar was very tall, about a meter tall.

“They’re all dead.” The Ghost Sculptor looked at the soil in the bamboo basket and sighed. “Good death.”

A strange language came out of his mouth. He didn’t do anything, but he just reached out and took out the soil from the earthen jar.

The soil in his hands seemed to come alive. As he continued to pinch it, in the blink of an eye, sixteen little people appeared on the ground.

These little people were very crudely sculpted, and they didn’t even have facial features. If they didn’t look like humans, they might not be able to tell.

The Ghost Sculptor looked at the clay figurine on the ground and stood up. He bowed in a direction and said, “Eighth Prince, I will repay your kindness today. If I die, I hope that you will remember me in the future and burn an incense stick for me.”

Not far away, the Eighth Prince and the Thousand-faced Fox looked at each other and nodded at the same time.

“If you die and my plan succeeds, I’ll make you a hero in history.”

“That is the best.” “I’ll leave my daughter to you, Eighth Prince,” said the Ghost

Sculptor.”

The Eighth Prince nodded again, indicating that there was no problem.

After the Ghost Sculptor received the answer, he did not say anything else. He picked up the earthen jar and the sixteen clay figurines in front of him and walked in the direction of Xu Bai and the others.

When he walked further and further away until his figure disappeared, the Thousand-faced Fox could not help but chuckle.

“What’s so funny about this?” The Eighth Prince frowned.

“I was just laughing. I was kept in the dark by you until the end.” The Thousand-faced Fox smiled. “You were the one who killed his entire family and saved his daughter. What a good plan to get a loyal person. Unfortunately, he still doesn’t know that his daughter has already entered the coffin.”

“This is the true art of an emperor. If one is not ruthless, how can one succeed?” The Eighth Prince’s tone was calm.

“What a good art of the Emperor. I originally thought that the Emperor was too ruthless to the members of the Imperial Family, but at least he still cared about the people.” The Thousand-faced Fox’s tone was filled with mockery.

“Isn’t this exactly what you demons want?” The Eighth Prince also mocked.

The Thousand-faced Fox didn’t want to say much here and quickly let him prepare.

The Eighth Prince felt bored when he saw that the Thousand-faced Fox was not arguing with him. He looked up at the full moon in the sky and waited for time to arrive.

In the forest.

Xu Bai met up with the other three. After confirming that no one was injured and that only Zhou Qing was injured, he felt relieved.

Especially when he saw that there was only a silver thorn left at Qing Xue's waist, he revealed an expression that said, "You really have a backup plan."

"Let's continue moving forward." Qing Xue stretched out her fair and slender fingers and rubbed her forehead.

She also understood Xu Bai's personality. Sometimes, he would be too jumpy, so she didn't want to change the topic at this time.

Xu Bai did not chat. He was just teasing her. After hearing Qing Xue's reply, he looked at the forest in front of him.

"It shouldn't be far, right?"

This sentence was directed at Yun Zihai.

Yun Zihai recalled the place described in the history of Sheng County. He pointed ahead and said, "This is the direction. After walking for about half an incense's time, we will reach our destination."

"Then let's go. When we find that guy, we'll show him how powerful we are." Xu Bai retracted his gaze and prepared to move in that direction. However, at this moment, voices rang out in the surroundings.

"Hua...Whoosh... Whoosh...."

Chapter 158: Ghost Sculptor's Self- Shaping Transformation

The sound came from all directions, as if someone was walking in the forest, causing friction.

“Be careful.” Xu Bai placed his hand on the hilt of Ghost Head Blade and narrowed his eyes.

Yun Zihai and the others did not hesitate. They all took a vigilant stance and looked around.

The strange sound only sounded for a moment. After a while, the sound stopped, and the person who made the sound appeared in front of them.

The 16 men in black were the ones who had split up to fight with them.

These men in black had already lost all signs of life. They had all become corpses, but they still retained their human movements.

There was a clay figurine hanging around their necks. The clay figurine was penetrated by a red line and swayed left and right as they walked.

After the men in black appeared, they stopped where they were and surrounded the four of them.

After a while, a voice sounded.

“You might not be able to leave.”

The Ghost Sculptor walked out of the darkness with the earthen jar.

At this moment, the Ghost Sculptor had already changed his appearance.

His body was no longer clean. Instead, a thick layer of soil floated on his body. The earthen jar in his hand was empty. There was no soil inside.

“Ghost Sculptor!” Yun Zihai looked at the soil and thought of the identity of the person in front of him. He frowned.

The Ghost Sculptor didn’t even want to say another word. He raised the earthen jar in his hand and smashed it on the ground with a bang.

With a cracking sound, the earthen jar shattered and exploded on the ground.

At this moment, the corpses of the men in black moved.

The clay figurines hanging around their necks were melting.

The melted clay figurine fused into the body of the corpse and wrapped around the chest of the corpse.

In just a few moments, a thick layer of mud had appeared on their hearts. A sinister aura emanated from the corpse, causing one to shudder in fear.

“Capture the leader first!”

Xu Bai would not wait for his opponent’s ultimate move. He reached into his money pouch and took out a handful of copper coins, using the Maple Leaf Rain Technique.

The copper coin was wrapped in a black light and pierced through the Ghost Sculptor’s entire body.

Fresh blood flowed down and onto the soil on his body.

The next moment, Xu Bai took two steps forward and chopped off the Ghost Sculptor’s head.

Everything happened too quickly. In a flash, the Ghost Sculptor had already fallen to the ground, lifeless.

The headless corpse was bleeding, and the head was rolling around with a strange smile on its face.

It was fast and easy.

However, all of this happened too easily, causing Xu Bai to frown. He felt that something was wrong.

There was always an order to everything, and it was also important to have a

clear hierarchy.

This person had appeared later than the group of men in black, so he was obviously stronger. However, his head had been cut off so easily. This was too abnormal.

As expected, just as he had this thought, the headless corpse on the ground moved.

Fresh blood and mud mixed together and separated from the headless body. It was as if there was a life of its own on the ground.

Then, the bodies of the men in black began to move, but they did not attack Xu Bai and the others. Instead, they collided with each other.

After the initial changes, the corpses of the men in black became especially fragile, like porcelain.

After a violent collision, a clump of soil came out from the cracks. Then, as if it had a life of its own, it fused together and quickly surged toward the soil on the headless corpse.

All of this happened too quickly. It only took less than a breath of time from the moment they moved to the moment they fused together.

In the blink of an eye, a huge clay sculpture of three meters in height appeared.

“Be careful, the Ghost Sculptor’s Life-Changing Technique. Before he runs out of soil, he will keep killing the life in front of him.” Yun Zihai shouted.

He had read many books and understood more. Naturally, he knew what was going on.

The so-called method of life exchange was a method to drag the enemy into death when faced with a desperate situation.

The Ghost Sculptor was already dead.

This was the secret technique of the Ghost Sculptor.

This kind of secret technique was already extremely rare.

Only when it was a life-and-death situation, when there was no chance to escape, would the Ghost Sculptor use this secret technique to perish together with the enemy.

“You want to die first as a sign of respect, right?” “It seems that he is quite loyal.” Xu Bai smacked his lips.”

When the three-meter-tall enemy in front of them took shape, a huge pressure pressed down on everyone. It was like an avalanche, making their hearts heavy.

This was a clay figurine that had fused with all the men in black. It had even fused with the Ghost Sculptor’s strength when he was alive.

At this moment, the strength of this mud man was increasing at an extremely terrifying speed.

Rank-9...Rank-8...Rank-7...Sixth grade!

Rank-6 was the peak.

This was the true strength of Peak Rank-6, and not something that was randomly made up by relying on the so-called array.

“Everyone, don’t try to hide anything anymore. “The clouds came from the sea.

Peak Rank-6. Even with Yun Zihai’s Rank-6 strength, he felt a huge pressure sweeping over.

Yun Zihai threw the book in his hand into the air, and the pages circled around him.

Qing Xue pulled out her silver thorn and was on guard.

Zhou Qing raised his hands. Clouds and mist surrounded his body.

Xu Bai circulated the True Core Strength in his body, and a black light appeared on his body. The Vajra Heart Devil Body was activated to the extreme.

He looked around and said slowly, “Go!””

Chapter 159: All All of Xu Bai (8000)

As soon as Xu Bai finished speaking, the first person to move was Zhou Qing.

“I used the clouds to cover its senses.”

Zhou Qing pushed the Cloud Galloping Hand to its limit. The clouds expanded and surrounded the three-meter-tall clay figurine, trapping it within.

On the other side, Qing Xue entered the clouds. Under Zhou Qing's deliberate arrangement, Qing Xue would not be disturbed by the clouds and was ready to find an opportunity at any time.

Yun Zihai kept writing in the sky at the fastest speed in his life.

Huge characters appeared on the book one after another. The pages of the book revolved around him and rolled continuously. They combined in the sky and formed the shape of an incomparably huge brush.

Yun Zihai tossed the brush in his hand into the huge brush that was formed by the combination of the book pages. The two merged with each other, and a huge Noble Spirit surged out from the brush that was formed by the combination of the book pages.

The huge brush turned into a sharp sword and shot straight into the clouds.

“Boom!”

A loud explosion sounded out as the mud figurine was pierced through by the huge brush. However, this did not affect its movements at all. It took a step forward and attacked Xu Bai and the others.

The three-meter-tall mud man raised his right fist and punched Xu Bai.

Xu Bai moved his feet slightly and nimbly moved out with the Four Steps, dodging the powerful punch.

In the next moment, his fist struck the ground, and a huge pit appeared. If this punch hit, the power would be unimaginable.

“Ha!”

Qing Xue's voice rang out from the clouds. Qing Xue seized the opportunity when the clay figurine attacked and jumped up from the ground. She waved her silver thorn and cut off the clay figurine's left hand.

However, before Qing Xue could land on the ground, the severed arm seemed to have its own consciousness and hit Qing Xue fiercely.

“Puff!”

Qing Xue was hit, but before it hit, Yun Zihai peeled off a page from the huge brush and blocked it in the middle, reducing the force by a lot. But even so, Qing Xue still spat out a mouthful of blood and fell to the ground.

At this moment, Xu Bai also moved. He jumped up high, as if he had turned into a shooting star, and crashed straight into the face of the clay figurine.

“Bang!”

There was a dull sound, and the mud man’s face was smashed into pieces. However, before Xu Bai could pass through, the surrounding soil began to gather again, wrapping the failure inside.

From the outside, Xu Bai’s figure could no longer be seen. It was as if he had been eaten alive by a clay figurine.

“Brother Xu!” Yun Zihai shouted anxiously.

At this moment, the clay figurine finally broke free from the clouds. It only needed to turn its body forcefully, and the layer of clouds naturally spread out.

Zhou Qing took two steps back. His face turned pale. He was obviously injured.

He was the one who had activated the cloud and mist. Now that the cloud and mist had dispersed, he was also indirectly injured.

“Brother Xu, wait for me!” Yun Zihai was furious.

He controlled the huge brush and smashed it heavily at the clay figurine. The clay figurine's hand, which had been cut off by Oing Xue, gathered again. It

raised its hand and stopped the brush.

"Boom!"

The loud noise made people's ears hurt. The huge brush was held in the palm of the clay figurine.

Yun Zihai widened his eyes and tried his best to push the Noble Qi in his body.

However, the next moment, the clay figurine's other hand slammed into the huge brush. The huge brush scattered and turned into pages that fell to the ground.

Yun Zihai covered his chest with his hand and spat out a mouthful of blood. The pages still surrounded him, but he could no longer receive the huge brush.

"Sigh, Brother Xu, it's my fault." Yun Zihai sighed.

Ever since Xu Bai was swallowed by the enemy's soil, there had been no movement. At this time, Yun Zihai could also see that Xu Bai seemed to have disappeared.

No matter what, he was the one who called over. Now, he had caused the other party to lose his life in vain. He was extremely ashamed and vexed.

"If I can't avenge you today, I will follow you down the dark path. When the time comes, I will come back to drink with you and apologize." Yun Zihai raised his index finger.

The floating pages and brush once again gathered together, but this time it was no longer the huge brush. Instead, the brush was the bone and the pages were the skin, forming the shape of a sharp sword.

Yun Zihai bit the tip of his tongue and spat out a mouthful of blood. His face turned extremely pale, but he still held on.

On the other side, Zhou Qing and Qing Xue had also recovered a little. They were ready to go forward.

“Let’s go.” Yun Zihai turned his head and said, “Go around this clay figurine and see if you can find the mastermind behind this. If you can stop it, then go and stop it.”

Qing Xue and the other two were stunned.

They could tell that Yun Zihai was planning to risk his life.

The blood that Yun Zihai spat out surrounded the sword formed by the book pages and the brush. The book pages gradually turned red, and it was filled with a demonic beauty.

Yun Zihai took off the hairpin on his head, letting his long hair flutter in the wind.

Blood dyed his clothes red, but he didn’t know.

“I use my Noble Qi as a sword that can destroy all evil.”

“Noble Qi, listen to my orders. With my body, heaven and earth will submit!”

Waves of righteous energy surrounded Yun Zihai’s body, and his face began to turn from white to green.

If he wanted to temporarily increase his realm, the price was his life. With the noble spirit as a pen, you can write the righteousness of heaven and earth.

Using the Noble Spirit to make a sword, it could kill all kinds of evil.

“I’ll use this sword to take revenge on Brother Xu. Then, I’ll drink with Brother Xu until we’re drunk!”

Yun Zihai roared.

However, just as he was about to forcefully increase his cultivation realm, a voice sounded..

Chapter 160: All 'ro xu Bal (8000)

“Your grandpa, die for your grandpa.”

“Shifting Stars, spin, spin, spin, spin!”

This voice came from the head of the clay figurine.

Yun Zihai was stunned.

Qing Xue and Zhou Qing, who were about to leave, were also stopped.

Immediately after, they all revealed looks of surprise, which then turned into joy.

He didn’t die?

Xu Bai was not dead!

Qing Xue heaved a sigh of relief and said with a complicated expression, ““1 knew it. How could he die so easily? This is not him.”

She couldn't help but think of the demonic figure she had encountered in the Spring Rain Pavilion, which had given her a strong shock.

How could such a person die here?

"This person has to be a friend. I have to go back and make it clear to the Sixth Prince that we can't be enemies." Zhou Qing thought to himself.

As long as they weren't enemies, everything was negotiable,

Even if they couldn't work under the Sixth Prince, it was good to be friends.

"He seems to like the saber technique. I'll talk to Prince Six next time and give him a few more books." Zhou Qing thought to himself.

A powerful friend could sometimes save a life. Zhou Qing knew this very well.

"Brother Xu, are you alright?" Yun Zihai shouted.

When Xu Bai's voice rang out, he felt as if a heavy burden had been lifted off his shoulders and he finally heaved a sigh of relief.

It was good that he was not dead.

If he died, how could he face Xu Bai underground?

Although he had paid, Yun Zihai still felt very uncomfortable.

Of course, Xu Bai couldn't hear what they were saying, and he didn't give them any reply.

In this dark forest, the silver moonlight shone down on the three-meter-tall clay figurine.

Sounds kept coming from the enemy's head.

"Come, come, come. If you have the ability, kill me."

"Shifting Stars, Shifting, Shifting, Shifting!" "Yo, your strength has decreased a lot this time."

Everyone was speechless.

For some reason, what was originally a particularly serious scene had now become somewhat humorous.

"Has he always been like this?" Zhou Qing asked in surprise.

"Should be?"

Yun Zihai pondered and said, "Brother Xu is really a wonderful person. No wonder he can get the high opinion of Wu Hua and Liu Xu. He really has his own abilities."

The three of them had their own ideas.

Along with Xu Bails voice, the three-meter-tall clay figurine also underwent a special change.

One after another, huge bags bulged out of the mud man's body. Then, these bags shattered.

The mud man turned into mud and disappeared into the forest. Xu Bai fell from the sky and was still cursing.

An expert in everyone's eyes seemed to be cursing, making everyone feel a strange sense of disparity.

Xu Bai had suffered.

When had he ever suffered this?

Just now, when he was swallowed by the clay figurine, he felt that the world had turned dark.

The powerful pressure caused the black light of the Diamond Heart Fiend Body to shatter.

Moreover, it had happened in an instant, catching him off guard. If it weren't for the golden silk soft armor on his body, he would have been injured.

He had been wearing the Golden Silk Soft Armor ever since he got it from the Ferocious Tiger Camp. It was just that he had not been able to unleash its effects. This time, it had.

Of course, even without the Golden Silk Armor, he would only be slightly injured.

Taking advantage of that gap, he hastily propped up the Diamond Heart Demon Body again and used Stellar Transposition to divert all his strength to the surroundings.

Both were Tier 4 skills, corresponding to the Sixth Stage.

The defense of the Vajra Heart Devil Body was transferred by the Stellar

Transposition. Under the coordination of the two, although the True Essence Energy in his kidneys was rapidly consumed, he was still able to kill the enemy.

Reverse Wound Armor, are you afraid?

Xu Bai patted the soil off his body. In the blink of an eye, he saw Yun Zihai and the others.

“Why are you guys so miserable?”

This sentence was said out of emotion, not out of ridicule or mockery.

Even when he was swallowed into the mud man’s brain, he was not as miserable as Yun Zihai and the others.

“Brother Xu, not everyone is as strong as you.”

Qing Xue and Zhou Qing nodded in agreement.

“Then can you still move now?” Xu Bai asked again.

Zhou Qing and Qing Xue checked the room and nodded to show that it was still alright.

Xu Bai turned to Yun Zihai.

Yun Zihai was the most miserable. If Xu Bai had not spoken up in time, Yun Zihai would probably have used that kind of one-for-one method to perish together with the mud man.

“It’s fine. I’ll recover soon after taking the medicine.” Yun Zihai took out a bottle of pills from his bosom, poured out two pills, and swallowed them.

He seemed to have sensed Xu Bai’s gaze, so he explained as he ate.

“It can replenish the energy consumed in the body and recover from injuries.” As he spoke, he gave one pill each to Qing Xue and Zhou Qing.

After Zhou Qing and Qing Xue consumed it, they indeed had a significant boost in their health, and their faces gradually turned rosy.

Xu Bai's eyes lit up. He suddenly covered his chest with his hand and pretended to be extremely weak. "Give me one too."

From what Yun Zihai said, this thing was a great tonic!

In the battle just now, he had spent a lot of Refined Qi, especially in the position of his kidneys.

Eating herbs could nourish both kidneys. He only thought that eating herbs related to the kidneys would replenish them faster, so he went to buy herbs to nourish the kidneys..
