#### Chapter 1751: The Trinity Flowers Merge, Ascending to the Five Qi Realm? The Inner Universe

Curse techniques were one of the most commonly used techniques in the Nether King Tribe.

As one of the God Kings from the Nether King Tribe, it was no surprise that the Nether Spirit God King was well-versed in that technique.

Furthermore, his curse would not only affect the soul but the victim's body as well. The Cursed Body Totem was one of his most skilled Curse Techniques!

During his time, no one could survive the curse. Hence, even though the Nether Spirit God King felt that Chu Kuangren was an extraordinary cultivator, he did not think the latter would be an exception to the effects of that technique.

That proved to be true... until Chu Kuangren took out a sword.

It was a black metal sword with several mysterious runes carved on it.

The moment Chu Kuangren stabbed the sword at the Cursed Body Totem, the cursed technique that the Nether Spirit God King had always been proud of immediately broke!

"How... How is this possible?!"

The Nether Spirit God King was dumbfounded.

He had spent countless years researching and developing that Cursed Body Totem technique, and no one had ever got rid of it. Yet, Chu Kuangren managed to destroy it effortlessly with a swing of his metal sword.

He was as shocked as when he learned that Chu Kuangren possessed a Twenty-first Grade Soul Flower earlier.

"This is impossible. How did you do it? What kind of sword is that?"

The Nether Spirit God King looked at Chu Kuangren in disbelief.

However, Chu Kuangren did not reply to him. By then, the Nether Spirit God King's soul energy was close to dissipating completely, and he would never get the answer to that question.

Boom!

The Nether Spirit God King's soul form exploded, leaving behind a black cube on the ground.

"Is this the Nether Spirit God King's inheritance?" Chu Kuangren mumbled as he kept the Cursebreaker Sword.

The Cursebreaker Sword was a God-tier item he received from the Fantasy Roulette back then, and it was used to get rid of curses.

It was powerful enough to remove the curse of the Supreme Overlord Soul from the Pan Gu Universe, let alone the Nether Spirit God King's curse. The Nether Spirit God King had chosen the wrong method to deal with Chu Kuangren from the very beginning.

With that, Chu Kuangren walked toward the black cube. As soon as he picked it up, countless pieces of information flooded his mind.

Those were the Nether Spirit God King's cultivation experiences and all his soul cultivation techniques.

Besides that, the black cube was known as the Demonic Soul Cube. It contained a portion of the Nether Spirit God King's cultivation essence, and any cultivator who refined that item could rapidly strengthen their soul energy.

Compared to those cultivation techniques, the Demonic Cube was what Chu Kuangren needed the most.

"With this Demonic Soul Cube, my soul energy should hopefully reach the Twenty-fourth Grade."

Chu Kuangren smiled with satisfaction. Then, he looked at the Nether Spirit Forest Realm, which had started crumbling, and left in a flash.

By then, the Nether King Tribe cultivators had left the forest realm's entrance.

Somewhere outside the forest realm, Wu Tianming continued observing the situation from a distance.

When he saw the forest realm crumbling, he could not help but sigh, feeling a little disappointed. "What a shame. If only I could obtain the Nether Spirit God King's inheritance, it would be a great benefit to me."

Although he missed his opportunity to obtain the inheritance, he was still delighted to see that a great enemy like Chu Kuangren was killed.

That was right. In his opinion, Chu Kuangren should be dead inside the Nether Spirit Forest Realm.

After all, that was the Nether Spirit God King's territory. Seeing that he was going to kill Chu Kuangren at all costs, no matter how powerful Chu Kuangren was, he was not his match in soul cultivation.

"Heavenly Sword, although you're dead, you truly are an opponent worthy to be remembered."

"I'll forever remember your— What?!"

Just when Wu Tianming was lamenting the loss of a powerful opponent, he suddenly saw a white-robed figure slowly walking out from the crumbling Nether Spirit Forest Realm.

Who else could that person be if not the Heavenly Sword?

At that instant, Wu Tianming was stunned!

'Is the Heavenly Sword still alive?'

However, as soon as Chu Kuangren turned to look at Wu Tianming, the latter gasped before he immediately turned and fled.

The other Nether King Tribe cultivators beside him were a little speechless.

'Weren't you mourning the loss of an opponent earlier? Yet, the moment you saw him, you immediately turned and fled?'

'And you call yourself his opponent?'

Everyone else shared the same thought but did not dare to say it out loud. That was because they, too, had turned around and fled!

Like Wu Tianming, they feared Chu Kuangren as well.

"Impossible! This is impossible!"

"Why didn't the Nether Spirit God King kill the Heavenly Sword? Could he not kill the Heavenly Sword too?"

"Does that mean... Has the Heavenly Sword taken his inheritance?"

Wu Tianming thought about it while he escaped. His expression turned grim and terrifying.

He did not know how long he ran for, but after making sure that he escaped from Chu Kuangren, he stopped in his tracks. By then, he was drenched in sweat.

Was he that afraid of the Heavenly Sword?

"D\*mn it. Does that mean even the Nether Spirit God King can't kill him? It looks like I'll have to think of another way."

Wu Tianming pondered and suddenly remembered a cursed technique from his tribe.

It was a forbidden curse technique that could make anyone fall into madness and kill them if they were not careful cultivating it.

However, to be able to match the Heavenly Sword in power, he had no other choice left but to do it.

"Instead of living in the Heavenly Sword's shadow forever, I might as well take this risk and try. Just wait, Heavenly Sword. I shall make you pay tenfold for all the humiliation and disgrace you've inflicted upon me!" Wu Tianming said gravely.

Somewhere far away, Chu Kuangren looked toward the direction Wu Tianming fled. As the latter was already too far away from him, Chu Kuangren did not bother to give chase.

Besides, he had more important things to do now, which was to refine the Demonic Soul Cube right away and raise his Soul Flower to the Twenty-fourth Grade.

Then, he could break through to the Five Qi Arch Gilded Immortal Realm!

With that thought in mind, he found a secluded place on the Ancient Central Heaven Planet. After placing numerous seals and restrictions around the area, Chu Kuangren started refining the Demonic Soul Cube.

It was quite a smooth process for him.

Soon, the power of his Soul Flower successfully reached the same grade as the other two of his Trinity Flowers!

Inside an empty dimension somewhere, Chu Kuangren was sitting with his legs crossed, and three gorgeous flowers bloomed above his head. Each of them had twenty-four petals!

Those were his Immortal's Core Flower, Life's Core Flower, and Soul Flower!

"Alright. Once I merge the three flowers, I can attempt to ascend to the Five Qi realm!"

"How powerful will I become once I merge these three unprecedented Twenty-fourth Grade flowers, I wonder?"

Chu Kuangren was a little curious.

The Five Qi realm had five different qi. They were Taiyi, Taichu, Taishi, Taisu, and Taichi respectively!

That was what the Five Qi realm entailed.

The five different qi represented five stages of a universe's formation and growth.

When the Trinity Flowers merged, their immense energies would be used to open up an Inner Universe within the cultivator's body.

At that time, his Inner Universe was still in an undivided state of yin and yang. However, it was here that the first qi, the Taichi Qi, would be formed.

Building on the Taichi Qi's power, the cultivator would need to continue progressing the universe's evolution. It meant that the cultivator had to advance the universe through the Taisu, Taishi, Taichu, and Taiyi stages in its order, forming the four remaining qi.

Once the five qis were present, the Inner Universe would mature, meaning the user had achieved the Great Perfected Arch Gilded Immortal Realm!

"Let's begin," Chu Kuangren mumbled.

With a thought from his mind, the Trinity Flowers above him entered his body, where they began to swirl and merge inside him.

Boom!

The instant his Trinity Flowers merged, an incomparably terrifying energy instantly erupted!

An unprecedented change was happening inside his body as the three Twenty-fourth Grade flowers merged. It was something the universe had never seen before.

Boom! Boom! Boom!

As if a new world was born, the Sea of Chi that Chu Kuangren used to store his Immortal's Core energy began to expand at an exponential rate, creating an Inner Universe!

#### **Chapter 1752: Except for the Embodier God Kings, Who Else Could Possibly Be His Match? The Central Heaven Temple**

As the three Trinity Flowers merged, terrifying energies with a mysterious aura erupted and expanded inside Chu Kuangren's body!

An Inner Universe began to form.

While the Inner Universe was currently in an undivided state of Yin and Yang, the black and white Taichi Qi, which contained mysterious Yin Yang energy, gradually took shape.

He had succeeded in reaching the Five Qi realm!

However, it was not over. The Inner Universe's evolution did not stop after the Taichi Qi formed.

The next stage after Taichi was Taisu!

The Taisu stage represented the universe in its most primal state.

Once the Yin and Yang energies dissipated, the universe was left with darkness. Only a few lights akin to the light of stars were flickering in the dark.

Suddenly, a mysterious divine light emerged from the depths of the universe!

Taisu Qi was completed!

What followed after would be the Taishi Qi!

What was the meaning of Taishi?

It represented an intangible and invisible stage, an original form of the universe before the creation itself!

Currently, even the flickering light from those stars disappeared into the Inner Universe. Only streams of currents akin to Chaos qi remained, swirling around the Inner Universe.

Chu Kuangren's consciousness wandered about, and all he felt was a sense of chaos.

Suddenly, a divine light appeared as if the dawn of creation had arrived. It was endless and mysterious.

Taishi Qi had been formed!

After that came Taichu Qi.

That was a more primitive stage of the universe that came before the existence of chaos. The universe was formless and intangible, with only one thing remaining... the purest strand of qi!

That was the Taichu Qi, which formed naturally.

As the Inner Universe continued evolving and progressing further, it eventually reached the universe's oldest state... the Taiyi stage!

What was the Taiyi stage?

It represented the beginning of all things in the universe, besides also being the source of chaos. That was the start of everything.

Currently, the Inner Universe was vast and boundless, but it was just an empty void. There was no light, no darkness, no sound, no name...

There was nothing there at all. It was true nothingness!

That was what the Taiyi stage represented.

Chu Kuangren's consciousness continued drifting into the Inner Universe until finally, the Taiyi Qi was formed from the void of nothingness!

It was not really a type of qi but a kind of insight!

It was an understanding that Chu Kuangren gained after witnessing the full evolution of the Inner Universe.

From formless to form, intangible to tangible, the non-existence and existence of all things lie in a single thought that determined the life and death of the universe!

Boom!

Chu Kuangren suddenly opened his eyes. The energy from the Trinity Flowers inside him had all been used up, and what took its place were five mysterious Qis within his Inner Universe.

Those were the Five Qis he possessed!

As for the Five Qis, they were all connected like five planets swirling around each other, alive and constantly evolving!

A surge of power that Chu Kuangren had never felt continuously gushed out from his body.

That was the Inner Universe Immortal Core!

Its power was a little similar to the power of Chu Kuangren's Mini Universe. However, it did not possess the transcendental aura like the Mini Universe's power did.

"Great Perfected Arch Gilded Immortal Realm!" Chu Kuangren mumbled.

He never expected himself to break through into the Five Qi realm and achieve Great Perfected Arch Gilded Immortal Realm all in one go after merging his Trinity Flowers!

At that point, except for the Embodier God Kings, who else could be his match?

Chu Kuangren grinned. However, he did not end his closed-door meditation and continued acclimating to his newly obtained power.

Besides achieving the Great Perfected Arch Gilded Immortal Realm, his Invincible Self-empowering Arch Gilded Intent also increased its rank, thanks to the Inner Universe's evolution. It was now a Third Step Arch Gilded Intent!

"Once I've gotten used to this new cultivation level and Arch Gilded Intent, I should learn the Nether Spirit God King's cultivation technique while I'm at it. After that, I'll end my closed-door meditation," he mumbled to himself.

Meanwhile, Prodigy and sky-pride continued searching for treasures and inheritances on the Ancient Central Heaven Planet to improve themselves.

On that very day, the Seven Central Heaven Planets suddenly rumbled. Seven dazzling lights containing millions of starlight-filled runes shot out from the seven planets respectively and intertwined at a certain part of the universe.

The transformation attracted everyone's attention.

"What's happening?!"

"What's going on with the Seven Central Heaven Planets to cause such a movement?"

While everyone was puzzled, a gigantic, magnificent temple suddenly appeared within the depths of the universe where the seven starlights met!

Rays of starlight swirled on the ceilings of the temple, while the temple walls and pillars were carved with pictures of countless dragons and phoenixes.

The gate of the temple was carved with three huge ancient words, which emanated powerful and vast auras. It was the Central Heaven Temple!

Up in the starry sky, the great ones from various tribes also noticed the temple's appearance.

For a moment, the orthodoxies and forces that knew of the Central Heaven Temple were all in an uproar.

Meanwhile, those who did not know of it quickly sent their men to search in the archives and ancient texts. They wanted to gather information and understand the origins of the Central Heaven Temple.

Soon, information about the Central Heaven Temple was displayed before the forces.

The Central Heaven Planet was so ancient that its origins could not be traced. However, it was a known fact that it was one of the most ancient structures in the Central Heaven Universe.

Even the Ancient King Tribes were not as old.

It was said that the Central Heaven Universe's earliest supreme beings constructed the temple. After that, they began recruiting and attracting talented individuals from all walks of life to enter and learn together. Throughout the history of every tribe, there had been many outstanding sky-prides and Prodigies, and some of them eventually become God Kings as well.

However, among those talented groups of cultivators, a huge portion of them would disappear mysteriously, leaving behind the words "Central Heaven Temple" to their tribe and descendants.

Some believed those people had gone and joined the Central Heaven Temple.

The status of the Central Heaven Temple was quite significant, seeing that some God Kings joined them.

"Why has the Central Heaven Temple appeared?"

"Is it trying to announce something?"

Everyone was confused.

At that moment, a magnificent voice sounded from within the Central Heaven Temple and resounded throughout the Central Heaven Universe.

"When the seven stars align, the Nine Kings will return!"

"As a response to the prophecy, the Central Heaven Temple is showing itself to the world and announcing its intention to accommodate talented elites of all tribes. Those who pass the assessment shall be allowed to enter the temple, and successful cultivators will then have the opportunity to comprehend various mysterious techniques and obtain the guidance of the God Kings!"

Upon hearing that, every tribe was shocked!

However, those words made everyone analyze it carefully.

Firstly, the return of the Nine Kings was one of the most ancient prophecies in the Central Heaven Universe.

In other words, nine supreme kings, whose powers would surpass even the God Kings themselves, would appear in this era. Some might even have a chance to break through to the Primordial Realm!

'Who will the Nine Kings be? Which tribe will they come from?'

That was the most sought-after question on everyone's mind.

Secondly, the Central Heaven Temple's appearance was actually to recruit talented cultivators from all tribes, which was nothing short of a great blessing. It was a once-in-a-lifetime opportunity for every tribe in the universe!

As the most ancient existence in the Central Heaven Universe, they had countless great ones. Furthermore, there would also be a myriad of cultivation techniques, cultivation experiences, inheritances, and treasures waiting for those who manage to enter. The treasures found on the Ancient Central Heaven Planet was nothing compared to that.

Besides, the Central Heaven Temple's announcement also mentioned that cultivators who joined would have the opportunity to be guided by the God Kings themselves!

"It looks like the Central Heaven Temple is using this method to spread their area of search for the prophesied Nine Kings."

"Yes, that's right. It's no wonder they've appeared. It seems like those ancient beings can't ignore the existence of the Nine Kings any longer."

The various forces in the universe began to scheme and plot.

However, the Central Heaven Temple had revealed itself. As a force that even God Kings would yearn to join, everyone would surely not let such an opportunity slip by.

For a moment, elites from every tribe quickly made their way there.

Some of them even abandoned the Ancient Central Heaven Planet.

### Unparalleled After Ten Consecutive Draws

#### **Chapter 1753**

The Central Heaven Temple's appearance caused an uproar in every tribe.

The universe, which was already lively due to the opening of the Ancient Central Heaven Planet, was even livelier now.

Inside the Ancestral Land of a certain King Tribe, a Prodigy holding a long halberd rose into the sky, and a dense aura burst out from him.

It was an Ancient Prodigy from that King Tribe!

"Haha, the era of the Nine Kings' return is finally here. It looks like my efforts to reduce my cultivation level and go into closed-door meditation weren't in vain! The opportunity has finally arrived!"

After noticing the difference in the Great Dao aura in this era, the Prodigy could not help letting out a delighted roar.

That Prodigy was not the only one who had awakened.

Following the Central Heaven Temple's appearance and the prophecy of the Nine Kings' return, the slumbering Prodigies within every tribe's Ancestral Land awakened one after another. All of them were prepared to display their strengths in this new era!

Besides them, reincarnated great ones like Feng Qiyu and Di Qianqiu could not wait any longer as well.

On an ancient planet somewhere, Di Qianqiu was sitting crossed-legged with an Emperor Seal levitating before him. Besides the nine dragons carved on the Emperor Seal, surges of Daoist Law were also swirling around it.

It was a top-tier Embodier Weapon.

Then, the Emperor Seal returned to Di Qianqiu's body. He chuckled. "Sure enough, using my personal Embodier Weapon is always the best. Now that I've refined the Divine Emperor Sword and this Nine Dragon Emperor Seal, the next time I encounter the Heavenly Sword, I'll never end up in that humiliating situation again! No, I'm sure I can overpower him!"

A look of confidence gradually appeared in his eyes.

He looked toward the Central Heaven Temple, and his eyes flickered. "The Central Heaven Temple, how nostalgic. I wonder if those old friends of mine are still well?"

Di Qianqiu was a reincarnation of a Supreme God King!

In his previous life, he was one of the higher-ups in the Central Heaven Temple. Hence, he had quite a number of followers and subordinates.

With the Central Heaven Temple's appearance, his subordinates would be of tremendous help to him.

Putting aside everything else, if he were to casually find a few Great Perfected Arch Gilded Immortals as his bodyguard, he would be unstoppable in the entire universe.

"There are still a few items I left behind in the Central Heaven Temple in my past life. I might as well go take it."

Di Qianqiu thought to himself.

...

Countless cultivators had gathered in front of the Central Heaven Temple.

They were all talented elites from their respective tribes. A few Prodigies among them were even ranked on the Heavenly God Leaderboard.

Many sky-prides had noticed something recently. The era they were in... had changed!

The Prodigies on the Heavenly God Leaderboard were no longer the leading elites among the younger generation, especially during the Central Heaven Temple's opening and the prophesized return of the Nine Kings.

Many Prodigies, who were in deep slumber, had now awakened, and some of them were powerful enough to be on the Heavenly God Leaderboard. A few among them could defeat the top twenty or even the top ten Prodigies on Heavenly God Leaderboard!

Their combat strength was simply extraordinary!

Boom!

A terrifying burst of freezing qi erupted and sent a Heavenly God Leaderboard sky-pride flying!

"What a piece of trash!"

Master Han Long looked at that sky-pride and said coldly.

He, too, was one of the slumbering Prodigies. However, he was invited by Di Liufang to join forces against the Heavenly Sword. That battle had caused him to encounter unprecedented setbacks.

All that was on his mind since then was about how he could defeat the Heavenly Sword.

That was until the Central Heaven Temple appeared.

He wanted to test his luck and find out whether any techniques could make him stronger at a faster speed.

Unexpectedly, he defeated all the few sky-prides who challenged him without trouble, and his combat strength shocked many onlookers.

Seeing everyone's stunned gazes, Master Han Long regained some of his confidence.

'Look, I'm still powerful.'

'The reason for my defeat wasn't because I was too weak. It was because the Heavenly Sword was ridiculously strong.'

"What will the Central Heaven Temple's assessment be?" Master Han Long mumbled.

He had been waiting at the Central Heaven Temple for some time now. However, everyone could only linger in the area before the entrance, waiting for the so-called assessment to begin.

"The trial has begun!"

At that time, an indifferent voice came from within the temple.

It was followed by an extremely powerful surge of aura that swept out into the skies. Soon, every Prodigy was enveloped by this aura.

Those with weak cultivation were immediately slammed onto the ground and disappeared as they were sent outside the bounds of the Central Heaven Temple.

"The Central Heaven Temple's assessment is a simple one. If anyone can last six hours under my domineering aura, they shall pass and be qualified to enter the temple to continue their cultivation."

A middle-aged man walked out from the temple.

He was dressed in white robes and gave off an unruly presence.

Di Qianqiu, who was among the crowd, looked at him and grinned. "So, it's him, huh?"

He recognized that middle-aged man.

That man was one of the God Kings in the Central Heaven Temple. In Di Qianqiu's past life, he was not even worth taking seriously at all.

Unexpectedly, Di Qianqiu now had to withstand his aura to pass the assessment, which annoyed him a lot.

However, he did not reveal his identity.

He believed it would be better not to keep his identity to himself, seeing that he had not even entered the temple and gathered his subordinates.

A domineering aura filled the starry space in waves as time went by.

The God King's aura was extremely powerful and not to be trifled with by ordinary cultivators.

In less than two hours, many people had withdrawn from the assessment.

The ones who remained were those with cultivation levels near the Arch Gilded Immortal Realm or Prodigies who were already Arch Gilded Immortals.

Especially the group standing at the very front, each of them was standing proudly with their heads held high and channeling their Immortal's Core energy, unleashing various techniques to resist the aura!

For instance, Feng Qiyu was surrounded by Wind of Void, which caused the surrounding aura to dissipate.

Another example was Xiang Tiancang.

His domineering qi manifested his body into a spear, allowing him to stand proudly while repelling the incoming aura!

The white-robed middle-aged man stood at the entrance, releasing his aura while observing every participant. He wanted to see if any of the Nine Kings worthy of joining the Central Heaven Temple were among them.

However, he shook his head in disappointment — a clear sign that he did not find anyone.

He then looked at the Prodigies and sky-prides with a smile. "It looks like there's quite some Prodigies in this era."

His body trembled, releasing an even more powerful aura.

Upon noticing that, the Prodigies frowned a little. Each of them narrowed their eyes and channeled their internal power once more!

As time went by, the assessment soon ended.

"All of you have passed. Now, enter the temple!" the middle-aged man in white robes said calmly.

Some of the Prodigies who barely passed let out a sigh of relief. Some even slumped onto the ground gasping for air without a care about their images.

Meanwhile, Di Qianqiu and the others were not affected much at all.

With their talents and strengths, it was easy for them to pass the assessment.

"Di Qianqiu, if the opportunity arises after we enter the temple, I will surely come to you for a rematch!" Xiang Tiancang laughed.

"Entering the temple is only the beginning," Di Qianqiu said indifferently. It was as if he was familiar with the Central Heaven Temple.

"Oh, right. Where's the Heavenly Sword?" someone suddenly asked curiously.

That question caught everyone by surprise. Normally, huge events like the Central Heaven Temple opening would surely attract the attention of many powerful sky-prides.

Why was the Heavenly Sword absent?

"Hmph! Why even mention him? It's better that he's absent."

Master Han Long snorted. "What I'm about to say will be harsh, but it's the truth. If he comes, do you guys think you'll have the chance to stand in the spotlight?"

#### [Unparalleled After Ten Consecutive Draws](#)

#### **Chapter 1754: Luo Wusheng, The Ones Behind the Thousand Sword Calamity?**

"What I'm about to say will be harsh, but it's the truth. If he comes, do you guys think you'll have the chance to stand in the spotlight?"

The moment he said those words, every Prodigy's expression turned grim.

Master Han Long was quite frank with his words, but it was true.

After all, everyone present had experienced the Heavenly Sword's power before.

Despite facing off with more than half of the Heavenly God Leaderboard's top ten alone, that person not only won but even became the first on the leaderboard. The Heavenly Sword's power had long surpassed everyone else's.

Even the prideful Di Qianqiu could not help but acknowledge that the Heavenly Sword was his greatest opponent in this life!

"Wow. Now I'm truly interested in this Heavenly Sword whom you guys are talking about," a young man in black robes said with a chuckle.

His name was Ye Hao, and he was an Ancient Prodigy from the Dao King Tribe who had just awakened!

His strength was not to be underestimated too. Although everyone had not seen him fight, they could sense a threat from him.

He was clearly a powerful cultivator.

"Trust me, you don't want to fight him," Wu Tianming said calmly.

His words did nothing to make Ye Hao wary. Instead, it made the latter even more interested in the Heavenly Sword.

Besides Ye Hao, a bunch of Prodigies who had just awakened were also present. They, too, were incredibly interested in the Heavenly Sword, whose fame was well known throughout the Central Heaven Universe.

"The era, in which I went into slumber, is long gone. It seems like everyone in this era has forgotten my glory and might."

"Oh, perhaps this Heavenly Sword can be my stepping stone to something greater. Then, my fame shall be known throughout the whole of Central Heaven Universe!"

"The Heavenly Sword, huh? How exciting."

The Ancient Prodigies were filled with excitement.

They were the trendsetters of their era. Filled with utmost pride, they would never allow anyone else to overshadow them in terms of fame and power.

Even if the world was familiar with the Heavenly Sword's might, they would never give up their intentions of fighting him.

Not only did it apply to the Heavenly Sword, but from their perspective, the sky-prides of this era were also stepping stones for them to build their fame and reach the precipice of power.

Only nine cultivators could become the Nine Kings!

Besides, every era would have its respective sky-prides and Prodigies, and only the best of the best could ever hope to stand out. After all, the path to greatness had always been paved with the skulls of the defeated.

Everyone discussed for a while before entering the Central Heaven Temple.

However, those cultivators were only the first batch to enter. After them, several cultivators also arrived at the Central Heaven Temple to take the assessment.

...

Somewhere on the Ancient Central Heaven Planet, inside a hidden secluded space, Chu Kuangren slowly stood up. He then stepped forward, tearing apart the void and exiting his closed-door meditation.

He traveled to space and released his Immortal Consciousness. Everything happening in the world was clear to his senses, and information about the Central Heaven Temple soon reached him too.

Then, he took out a jade scroll.

The jade scroll contained messages sent to him by Ling Fei, Han Xingyu, Luo Xue, and a few of his other subordinates. Even Feng Qiyu had left him a message.

After all, now that they had become allies, staying in contact was necessary.

"Have they all gone to the Central Heaven Temple? How interesting," Chu Kuangren mumbled.

He was also a little interested and wanted to check out that ancient temple.

Maybe he might encounter a few worthy opponents along the way. After all, he needed a few guinea pigs to test his newly acquired strength.

...

Outside the Central Heaven Temple, in an open space before the entrance, countless sky-prides and Prodigies had gathered and were waiting for the new round of assessment to start.

Luo Xue, Han Xingyu, Ling Fei, and others were among them.

Boom!

At that moment, a powerful aura appeared from afar. It was followed by terrifying bursts of sword qi, so terrifying that the surrounding planets trembled.

"This aura..."

Luo Xue's expression changed.

From that lethal sword aura, she could feel a sense of threat she had not felt for a long time now.

Among the younger generation, no one other than her and the much stronger Heavenly Sword possessed such high Sword Dao cultivation.

However, that sword aura did not belong to the Heavenly Sword.

A swordsman dressed in black robes and holding a black sword gradually approached from the far end of space. His chilling sword aura instantly enveloped the area.

Everyone at the scene could feel that looming aura approaching!

"What a terrifying aura. Is it the Heavenly Sword?"

"No, he's not the Heavenly Sword. However, that sword aura is close to the Heavenly Sword's level."

"That's right. It's just too powerful."

Everyone looked at the arriving cultivator fearfully.

When he arrived, the black-robed young man looked at everyone before his gaze landed on Luo Xue. His figure then disappeared and arrived before her. He said coldly, "Release your sword intent now!"

"Oh, you wish to fight?"

"So what if I do?"

Luo Xue furrowed her brows. She did not expect the man to be so direct about wanting to fight as soon as they met.

He was simply unbelievable.

However, as a sword cultivator, her sword would not allow her to back down!

Her sword intent suddenly swept out!

Boom!

When the two powerful sword intents collided, explosions erupted in the surroundings, releasing powerful shockwaves in the form of countless tiny sword-like needles everywhere.

Everyone felt a piercing pain as if their skin was being torn apart.

"Haha! What a wonderful Swordswoman! From this day onward, you shall belong to me, the Murderous Blade, Luo Wusheng's woman!"

The young man in black robes, Luo Wusheng, laughed loudly.

Upon hearing that, Luo Xue's expression immediately darkened. "How dare you!"

After saying that, her sword intent erupted once more!

While the two sword intents clashed, Luo Wusheng's body trembled slightly. An even more terrifying and overwhelming sword intent gushed out!

Everyone could vaguely make out a scene from hell from that horrifying sword intent.

"How terrifying! Who the hell is he?"

"Luo Wusheng. I haven't heard of that name before. He must be one of the slumbering Ancient Prodigies. However, which tribe is he from?"

Everyone started to engage in a discussion.

Meanwhile, Ling Fei, who was beside Luo Xue, could no longer hold back. Luo Xue was the Heavenly Sword's ally, after all. As the Heavenly Sword's follower, he could not stand by and allow something like that to happen.

With that, he stepped forward, and sword intent erupted from his body!

Having been a follower of Chu Kuangren for a few years, his strength was already at an extraordinary level, on par with the likes of Chen Feihu.

"Oh, a Spiritual Sword Tribe cultivator!"

Luo Wusheng's eyes flickered. He said, "I can't believe the Spiritual Sword Tribe can produce a Prodigy like you after the Thousand Swords Calamity. How surprising."

"The Thousand Sword Calamity? Why did you bring it up?"

Ling Fei frowned a little. He noticed that Luo Wusheng's words seemed to contain a hidden meaning.

"Why... Ha! That's because we're the ones responsible for the Thousand Sword Calamity!"

Luo Wusheng laughed out loud when he revealed that shocking secret!

Following that, his sword intent erupted further. He was now singlehandedly suppressing both Ling Fei and Luo Xue!

"How is this possible?"

Ling Fei's expression sank.

He was shocked by Luo Wusheng's power and even more shocked by his words.

'He's part of the ones responsible for the Thousand Sword Calamity!'

Luo Wusheng was related to the disaster that befell the Spiritual Sword Tribe, causing the tribe to almost lose their status as one of the King Tribes!

Besides Ling Fei, the other cultivators present were also in an uproar.

However, Luo Wusheng had no intention to explain further. His sword intent continued to weigh down upon Luo Xue and Ling Fei.

Just when he was about to crush the both of them, a clear and pleasant sword chant suddenly reverberated throughout the whole area.

It did not take long before Luo Wusheng's vast and mighty sword intent dissipated due to the effects of the sword chant.

"Huh?"

Luo Wusheng's expression turned grim, and he looked into the distance.

A figure in white robes slowly approached from the distance, brimming with Immortal Sparks. His sword intent remained conserved, but it still managed to shock every sword cultivator present without any effort required!

The sword in the hands of every sword cultivator started to tremble uncontrollably.

Only one person in all of Central Heaven Universe could cause such a phenomenon — the Heavenly Sword!

### Unparalleled After Ten Consecutive Draws

#### **Chapter 1755**

Amidst the trembling swords, the ringing sword chant reverberated across the realm!

A figure in white robes shrouded in Immortal Sparks slowly approached from the starry sky. His sword intent spread, stunning everyone present!

Ling Fei, Luo Xue, and the others were overjoyed to see who had arrived.

That person was none other than Chu Kuangren.

"The Heavens shall give you one chance. Tell me everything you know about the Thousand Sword Calamity, and your life shall be spared," Chu Kuangren said calmly.

He was also interested in the Thousand Sword Calamity that happened to the Spiritual Sword Tribe back then.

"Oh, it looks like you're the Heavenly Sword that everybody's been talking about!"

Luo Wusheng looked at Chu Kuangren, and his sword intent surged in response. However, his eyes flickered before his gaze turned serious and grim. "I can tell you about what happened if only you defeat me. Then, I'll gladly tell you everything I know!"

The instant he finished speaking, his sword suddenly unsheathed with a clang!

A burst of sword qi rose into the sky!

Luo Wusheng struck forward at Chu Kuangren with his sword, releasing an endless stream of sword qi. His attack was so powerful that every sky-pride and Prodigy present could not help but raise their brows!

That attack was already on par with the strength of the Heavenly God Leaderboard's top ten Prodigies.

However, Chu Kuangren remained where he was, not evading or fleeing. Instead, he slowly raised his hand.

Clang!

The sound of sword qi clashing rang out.

Luo Wusheng's sword was wedged between and held tightly with Chu Kuangren's two fingers, which blocked the sword qi around the sword's tip from unleashing!

"Using a sword before the Heavens? You're pretty arrogant," said Chu Kuangren calmly.

Upon hearing that, every sky-pride and Prodigies' mouth twitched.

'You're one to say. Who else in this world could be more arrogant than you, the one who refers to himself as the Heavens?'

Everyone shared the same thought.

Luo Wusheng frowned a little. Then, he twisted his grip, hoping to cut Chu Kuangren's finger off with his razor-sharp sword.

Yet, no matter how hard he tried, his sword that had been caught between Chu Kuangren's fingers would not budge!

"How can he possess such terrifying strength?!"

Luo Wusheng looked shocked.

However, he let out a roar, unleashing waves of sword qi from his body that gushed toward Chu Kuangren!

His sword began to tremble violently due to the power of his sword qi.

"Want to get your sword back? Why don't the Heavens help you with that?"

Chu Kuangren exerted a little bit of strength with his fingers, and a burst of sword qi released!

With a clang, that sword immediately broke into two!

The impact from the sword qi sent Luo Wusheng flying backward, and he looked at the broken sword in his hand with shock.

"How is this possible..."

Luo Wusheng gulped in disbelief.

He had always been confident in his capabilities. He even believed he would become the best cultivator among the younger generation in this new era!

Even when it came to Sword Dao, he was confident that only a few could be his match!

Unexpectedly, he was already taught a lesson moments after he awakened in this era!

"Impossible!"

Luo Wusheng's expression sank. Filled with great unjust and unwillingness, he channeled his cultivation to the limit and raised his sword. A tremendous sword intent erupted and spread everywhere!

"Soundless Blade, Bladeless Sound!"

With a swing of his sword, a gigantic sword shadow descended from the sky, silently crushing any planet in its way!

That was the purest form of a murderous sword attack — an attack that lived to kill!

However, Chu Kuangren merely stood still. He slowly put both arms behind his back, taking the full brunt of that attack with his body!

The incoming sword qi collided violently with Chu Kuangren's physical body. Amidst the silence, all everyone could see were gorgeous divine lights radiating from the surface of Chu Kuangren's body, which were actually intertwining sword qis!

He was using his Immortal's Core energy to produce a form of protective sword qi that allowed him to block Luo Wusheng's ultimate killing technique effortlessly!

Compared to being defeated, Luo Wusheng found that even more difficult to accept!

The mere sword qi produced from his opponent's Immortal Core energy could already block his killing technique easily!

If his opponent wished to go for the kill, would he not be killed immediately?

"Your sword has disappointed the Heavens."

Chu Kuangren casually threw the other half of the broken sword toward him.

Whoosh!

The broken sword flew across the sky like a shooting star, seemingly piercing through the heavens itself!

With a 'poof', a mist of blood spurted out!

The broken half of the sword immediately landed on Luo Wusheng's body and went straight through, causing him to howl in pain.

Following that, Chu Kuangren's figure disappeared.

The moment he reappeared, everyone else saw him holding Luo Wusheng by the neck in the air as if he was holding a defenseless chicken.

"You can answer my question now. What happened during the Thousand Sword Calamity?"

"Cough... Cough..."

Luo Wusheng coughed up a lot of blood. However, the blood from his mouth contained strands of sword qi that shot toward Chu Kuangren!

He was using his blood essence as a sword!

Using that sword qi was detrimental to his life essence!

Chu Kuangren frowned a little. Then, a surge of sword qi came out from his body, blocking the blood sword qi without trouble. "Disobedience against the Heavens, huh? What a foolish decision!"

With a thought from his mind, Chu Kuangren's soul energy erupted!

Countless fine soul needles were pushed into Luo Wusheng's head, and he screamed in agony!

"Argh!"

His cries and howls resounded throughout the starry sky. Everyone who heard him could not help but shudder.

"To think that a Prodigy sky-pride was forced to scream in pain like that. What did the Heavenly Sword do?"

"Tsk tsk. I'd better not get on his bad side in the future."

Everyone looked at Chu Kuangren with fear in their eyes.

The screams of agony continued...

Soon, Luo Wusheng's body was so weak that he dangled in Chu Kuangren's grasp like a noodle. By then, he was tethering on the brink of death.

"Soul Scouring!"

Seeing that the time was right, Chu Kuangren immediately used the Soul Scouring Technique!

The Soul Scouring Technique was extremely merciless!

Terrifying bursts of soul energy penetrated Luo Wusheng's severely weakened body without any resistance. The memories and secrets within his soul were laid bare before Chu Kuangren!

"So that's what happened..."

Chu Kuangren soon understood everything that had happened.

Luo Wusheng came from a mysterious secret tribe that was known as... the Armament Destruction Tribe!

This tribe was quite a strange one.

Their members could absorb the rage qi and ferocious qi of various weapons to strengthen themselves. Many years ago, that tribe just happened to set their gazes on the Spiritual Sword Tribe to become stronger!

As the Spiritual Sword Tribe members were all sword cultivators, they were faithful to their swords!

If they could destroy the Spiritual Sword Tribe, the rage qi and ferocious qi that came from the swords would greatly benefit the Armament Destruction Tribe!

Hence, they plotted the disaster, which was later known as the Thousand Sword Tribe!

The Spiritual Sword Tribe suffered unprecedented losses due to that calamity, while the Armament Destruction Tribe managed to gather a tremendous amount of sword rage qi and ferocious qi. Using that, the Armament Destruction Tribe created several terrifying Prodigies!

The Prodigies were known as the Armament Destruction's Bloodthirsty Blades!

Those individuals would awaken during this era to bring destruction to the Spiritual Sword Tribe!

Then, the Armament Destruction Tribe would gather more sword rage qi and ferocious qi to become even stronger!

Chu Kuangren sneered upon learning that. "Well, well, well. So, they've taken the Spiritual Sword Tribe as a bunch of crops, huh? Harvesting every cultivator as they wish?"

The Spiritual Sword Tribe was still useful to him.

Therefore, he naturally would not sit idly by and let that happen. Besides, he was interested to face the Armament Destruction's other Bloodthirsty Blades.

'The Heavenly Sword versus the Bloodthirsty Blades?'

'Perhaps this might prove to be something fun in the future.'

"The assessment has commenced. Killing is not allowed here on this premise!"

At that moment, an indifferent voice rang out. A man in gold armor slowly walked out from the Central Heaven Temple, with a surge of Emperor qi exuding from his body.

That man was an elite from the Emperor Tribe!

### Unparalleled After Ten Consecutive Draws

#### **Chapter 1756: Killing Great Perfected With One Spear Strike, Heavenly Sword Is The Strongest**

"Heavenly Sword, let go of him. You either join the trial or leave!" said the man in golden armor who came out from the Central Heaven Temple.

He seemed to be targeting Chu Kuangren.

In fact, Chu Kuangren also sensed hostility from the man, but where did it come from?

Was it because of his Fully Realized Overlord Physique?

The Overlord Physique and Emperor Physique were nemeses, to begin with. Was it the reason why the man targeted him?

Chu Kuangren scoffed.

He moved his arm, and Luo Wusheng exploded into a cloud of blood mist that splattered in the sky.

The man in golden armor forbade him from killing, so he decided to do the opposite.

The more the man targeted him, the more arrogant he would be.

"How dare you!" The man glared at Chu Kuangren as he said coldly.

A powerful energy presence erupted from him, and only then he revealed himself to be a Great Perfected Arch Gilded Immortal.

"There is nothing Heaven dare not do. What Heaven does is the Heavenly Dao!"

"So killing is part of Heavenly Dao?"

"It's because my Dao is the Heavenly Dao!" Chu Kuangren stood with his hands behind his back.

A sword aura erupted and spread into the air. He was not afraid even though the man was a Great Perfected Arch Gilded Immortal.

He spoke with utmost arrogance as if the Heavenly Dao was not above him but that his Dao was above the Heavens.

Luo Wusheng blocked his Dao, so in other words, he blocked the Heavenly Dao.

"This is the trial venue of the Central Heaven Temple. I'm the invigilator, and I'm in charge here. I hereby announce your disqualification to enter the trial. You are never to enter Central Heaven Temple for life!"

His words surprised the rest of the people present.

Chu Kuangren was the first and the only one among the crowd to be targeted.

Ling Fei and Han Yuxing's expressions changed.

The Central Heaven Temple contained massive Opportunities of Fortune, and cultivating inside would be twice as effective as outside. It was an irresistible perk to every sky-pride out there.

Forbidding the Heavenly Sword from entering would mean taking away his Opportunities of Fortune.

"The invigilator is from the Emperor Tribe, and he seems to be targeting the Heavenly Sword because of his Fully Realized Overlord Physique."

"Yeah. The Emperor Physique and Overlord Physique have always been enemies. His actions are understandable."

"The Heavenly Sword is really unlucky this time."

Chatters sparked among the crowd, who all looked at Chu Kuangren and sighed.

The Heavenly Sword should be the most powerful one out there. If he could enter the Central Heaven Temple, even if he could not become one of the Nine Kings in the future, he would possess powers that rivaled the Nine Kings.

Now, his future was ruined.

"What is this trial that you're referring to? Is it to defeat you? Or to kill you?" Chu Kuangren asked indifferently.

His words made everyone's jaw drop, and they gasped.

How arrogant was he?!

The man in golden armor was a Great Perfected Arch Gilded Immortal and an invigilator from the Central Heaven Temple, yet the Heavenly Sword decided to defy him.

"How dare you!" the man in golden armor bellowed fiercely. His cultivation energy was channeled to the limit.

His burst of aura pressured the Prodigies who came to take the trial. Their bodies trembled, and they were almost forced to the ground.

A Great Perfected Arch Gilded Immortal was the strongest, second only to God Kings.

"You disregard the rules of the trial, defy the invigilator, and disrespect the Central Heaven Temple. On behalf of the Central Heaven Temple, I announce your punishment, which is death!"

The man in golden armor took a step forward and activated his Emperor Physique.

Vast Emperor qi crashed down from the sky and attempted to overwhelm Chu Kuangren. It was like standing under a massive golden waterfall!

"Defying the Heavens is also punishable by death!"

Chu Kuangren also took a bold step forward, and his Fully Realized Overlord Physique erupted.

Then, violet-red domineering qi gushed forward like a torrential river, crashing into the vast Emperor qi.

It was the violet-red domineering qi versus the golden Emperor qi!

The clash between two different energies caused a blast of dazzling divine light.

At the next moment, the golden Emperor qi showed signs of defeat and was pushed back by the domineering qi.

It then hit the man in golden armor and blasted him backward.

"What the hell? What did I just witness?"

"A Great Perfected Arch Gilded Immortal was blasted away by the Heavenly Sword?"

"How is this possible?"

The scene shocked many of the sky-prides and Prodigies.

A Great Perfected Arch Gilded Immortal was not just any cultivator.

Even the great ones who watched from the dark were surprised as they all looked at Chu Kuangren in disbelief.

"The Heavenly Sword's cultivation..."

"His energy presence... Could it be..."

Even the great ones found it unbelievable.

"You're also a Great Perfected Arch Gilded Immortal!" the man in golden armor shouted. His eyes were filled with disbelief because he could not believe that someone in the younger generation had broken through to the Great Perfected Arch Gilded Immortal Realm!

His words stunned the entire galaxy.

Chu Kuangren had just manifested all three of his Trinity Flowers a while ago, and it was no secret. It was also evident that he had not fused all three of his Trinity Flowers, which made him a Trinity Flower-realm cultivator.

However, he skipped the Five Qi realm and broke through to the Great Perfected realm immediately!

Not only was it rare to see such a breakthrough speed, but it was unprecedented!

"How did the Heavenly Sword do it?"

"Did he go from a Trinity Flower to the Great Perfected-realm cultivator? Is he still human?"

"This is unprecedented! Unprecedented!"

The Prodigies looked at Chu Kuangren in despair.

They thought they would have a chance to surpass him by entering the Central Heaven Temple, but now, reality pulled them back from their fantasy.

The Heavenly Sword had broken through to the Great Perfected realm, which was two realms higher than all of them!

"Emperor Dome Canopy!"

"Emperor Seal!"

"Emperor Decree!"

Right after the man realized Chu Kuangren's cultivation level, he immediately activated all three divine abilities of the Emperor Physique.

The golden Emperor qi grew stronger and shook the universe.

Planets that were caught by the Emperor qi were instantly destroyed.

"Your Emperor Physique is too weak."

The violet-red domineering qi circulating Chu Kuangren manifested into the Overlord Spear in his hand, and it was surrounded by mystical runes.

It was not just the divine ability of the Fully Realized Overlord Physique. It also contained the power of a Great Perfected Arch Gilded Immortal.

Its power was not something common Great Perfected Arch Gilded Immortals could handle.

"Go!"

With a shout, Chu Kuangren tossed the spear at the man.

Bang!

The Emperor Decree shattered, the Emperor Seal exploded, and the Emperor Dome Canopy perforated.

The spear continued forward with unyielding force, striking the man in the chest. It pierced his armor and continued forward, piercing through a dozen planets.

Then, the Overlord Spear exploded.

The terrifying explosion blasted the man into a cloud of blood mist, leaving only pieces of his golden armor floating in space.

Chu Kuangren killed a Great Perfected Arch Gilded Immortal with one hit!

His power was countless times stronger than what he displayed back on the Central Heaven Ancient Planet.

If the Prodigies still had a thin line of hope of reaching or surpassing his level of power, after Chu Kuangren killed the Great Perfected Arch Gilded Immortal with just one hit, they were completely devastated.

"Is there anyone in the universe who could defeat the Heavenly Sword?" asked one of the sky-prides.

"Yeah. His powers are ridiculously powerful."

"Not just his powers but the speed of his growth is also unbelievable. He was just in the Trinity Flower realm a while ago, and now he's a Great Perfected Arch Gilded Immortal. That's terrifying!"

After seeing Chu Kuangren's achievement, Ling Fei, Han Xingyu, and the others were even more convinced that the Heavenly Sword was the strongest in the universe!

### Unparalleled After Ten Consecutive Draws

#### **Chapter 1757: The God Kings' Argument, Heart-Asking Path, God King Ashamed**

"How dare you, Heavenly Sword! How dare you kill the Temple's invigilator?!" a cold voice shouted.

With that, a boundless aura erupted from within the temple, followed by an Emperor qi mixed with Daoist law. The burst of combined energy was aimed at Chu Kuangren.

The Emperor qi and Daoist law meant that a God King from the Emperor Tribe was present.

Given Chu Kuangren's current power level, unless he used the Chaos Supreme Treasure, the Chaos Green Lotus, he would not be able to defend himself against a God King.

However, the Chaos Green Lotus originated from the Pan Gu Universe, and he could not reveal it unless necessary. Despite that, he had no intention to use it.

Facing the incoming Emperor qi, he stood with his hands behind his back, looking calm.

Then, another powerful aura erupted from within the temple. This time, it was a surge of domineering qi.

When the domineering qi and Emperor qi clashed, Daoist laws intertwined and collided, causing the collapse of the galaxy.

However, it barely affected Chu Kuangren because he knew someone would do something about the God King from the Emperor Tribe.

On second thought, the temple was named Central Heaven Temple, not Emperor Temple. There was no way the Emperor Tribe was fully in charge of the place.

"Di Hong, this is the Central Heaven Temple. Who gave you the permission to intervene and threaten an examinee?" An elder's voice sounded.

Despite sounding old, the voice contained a domineering and powerful intent.

"Overlord Liu, the Heavenly Sword killed the invigilator and challenged the temple openly. Should he not be punished?" Di Hong said with killing intent overflowing from him.

"Hmph! The invigilator from your tribe was unfair for targeting him. You can't blame anyone for his death."

"Even if he treated the Heavenly Sword unfairly, he shouldn't be killed. The Heavenly Sword killed him, so he's in the wrong!"

"Oh? So the Emperor Tribe can kill others, but it's wrong when others kill someone from your tribe? What nonsense are you spewing?"

The two voices were arguing fiercely, and neither one of them was backing down.

The aura that their voices released was suffocating to everyone present.

"As expected of the God Kings. Even the aura they release in an argument is so terrifying," Ling Fei clicked his tongue in awe.

Only some Prodigies and sky-prides were fine under the intimidating aura.

"Enough."

Another voice came from within the temple.

When the third voice sounded, the two God Kings immediately stopped their argument and dispersed their aura.

The sky-prides were shocked.

Who was it? Who had the power to quash the arguments of two God Kings?

"It's the invigilator's fault this time. The Heavenly Sword is not wrong," the indifferent voice said.

The voice sounded like it was from a middle-aged man, and the way he spoke was pleasant to the ears.

Suddenly, an image of an elegant scholar appeared before everyone.

"God King Sikong, if he's left unpunished, it will tarnish the temple's reputation." Di Hong was insistent on punishing Chu Kuangren.

"In that case, what do you propose?"

"Deny his entry to the temple!" Di Hong said.

"Nonsense! We've announced that we will accept everyone from all backgrounds. If someone as good as the Heavenly Sword is denied entry, how would the others qualify? That Di Qianqiu from your tribe? He was defeated by the Heavenly Sword even when he teamed up with the others."

"You're the one spouting nonsense!" Di Hong argued back angrily.

The sky-prides and Prodigies were somewhat nervous. Would the two God Kings end up fighting each other?

If the God Kings fight, would they be able to flee in time?

"Enough. You're both God Kings of the temple. Where are your manners and dignity?" God King Sikong spoke and stopped the two of them again.

After that, he continued, "How about this? I will set up a Heart-Asking Path. If the Heavenly Sword can make it through, he will be granted entry to the temple."

"God King Sikong, I don't think that's appropriate. The Heavenly Sword did no wrong." Overlord Liu objected to the suggestion.

"God King Sikong, the Heart-Asking Path is not enough. I think you should add the Void God-Killing Formation!"

"The Void God-Killing Formation? The sixth of the top ten murderous formations in the Central Heaven Seven Planets? Are you trying to test a God King or the Heavenly Sword? Di Hong, your shamelessness surprises me."

"Enough!" God King Sikong spoke again before the other two could start another argument.

"One Heart-Asking Path and that's it!"

The other two God Kings were forced to accept the suggestion.

Chu Kuangren stood in the starry sky and listened to the voices from within the temple. He pictured the amusing scene of three God Kings arguing because of him.

"You're the reason we're arguing, and there you are, watching the show," God King Sikong said with slight displeasure in his tone.

"The Heavens do not care about going into the temple, but your Heart-Asking Path has intrigued the Heavens."

"In that case, set foot on the path," God King Sikong said.

In front of the Central Heaven Temple, a flight of white jade stairs appeared. Each step had countless mystical runes carved into it.

"Oh? Is this the Heart-Asking Path?"

"The Heart-Asking Path only allows those with a clear conscience to tread. It's a path that tests a person's mental state and reflects what you've done in the past. Should you be guilty of any crime, you won't be able to make it."

It sounded easy but was actually extremely difficult.

No mortals could live a life with a clear conscience, let alone cultivators.

Cultivators lived ten times longer than a mortal and did a lot more things that might have crossed one's conscience, so one dared to call themselves guilt-free.

"From the day God King Sikong started the Heart-Asking Path, only less than a handful of cultivators made it through. The Heavenly Sword would never make it," Di Hong said.

"I wouldn't be so sure if I were you. If he dares to call himself the Heavens, his mental state must be strong," Overlord Liu refuted.

"Heart-Asking Path that tests one's mental state? How boring."

Chu Kuangren shook his head and took a step forward.

It was at that moment that countless illusions attacked him and challenged him mentally.

However, his mental state was as strong as an immovable monolith.

It had been many years since Chu Kuangren's Daoist core was tested.

He walked forward leisurely.

From the moment he set foot onto the Heart-Asking Path, his expression never changed. Even after he made it through halfway, his steps remained firm, and his pace remained steady.

Di Hong was somewhat shocked.

The firm mental state of the Heavenly Sword was shocking.

A while later, Chu Kuangren completed the Heart-Asking Path.

He stood in front of the entrance of the Central Heaven Temple and said, "The Heart-Asking Path asks the heart of a mortal, but the Heavens are unpredictable and aren't something you can test at will."

With that, the flight of stairs cracked.

The crack spread across the entire flight of stairs and ultimately disintegrated into glittering dust, scattering into space.

God King Sikong fell silent before he sighed quietly. "Even I can't test the Heavenly Sword's Daoist core."

His words silenced everyone present.

Everyone thought they had heard wrongly.

The God King was embarrassed and ashamed!

### Unparalleled After Ten Consecutive Draws

#### **Chapter 1758: A Man's Power Can Be Exhausted, The Heavens Have No Limit**

"Even I can't test the Heavenly Sword's Daoist Core!"

When everyone heard God King Sikong's words, they were shocked.

They gasped in astonishment and stared at the figure in front of the gate. Somehow, he looked much mightier than before.

"Even a God King can't test his Daoist core? How terrifying is the Heavenly Sword's mental state?"

"The Heavens is talented and powerful. Even his Daoist core makes the God King feel ashamed. He's flawless!"

"Yeah! His powers are astonishing!"

"How far can the Heavenly Sword go? I dare not even imagine."

The crowd was engaged in a heated discussion.

They looked at Chu Kuangren with reverence, admiration, and also fear.

Chu Kuangren did not care about the passionate gazes on him. He just looked at the gate of the Central Heaven Temple calmly and went inside.

As soon as he set foot inside, the scenery around him changed.

A vast and boundless realm appeared before him.

A golden and sparkling palace floated above beautiful mountains, and rivers with mystical beasts roaming the land and sky appeared. Even the sky was filled with colorful light.

However, none of those were as astonishing as the massive starry sky above the palace's dome.

It was not exactly a starry sky but a massive sphere with countless glimmering Daoist laws inside, twinkling like stars in the night sky.

The Daoist laws were turned into stars that lit up the sky!

It was not something one or two God Kings could achieve.

The Daoist law starry sky was the combined effort of all the God Kings in the Central Heaven Temple.

Each of the stars contained a different and mystical Daoist law.

Chu Kuangren smirked. "Interesting place. I wonder if I can meet someone interesting today."

With his hands behind his back, he headed toward the temple.

Everyone who entered the temple would seek a place to settle down.

The place for one to settle down was divided into three categories as well. The higher it ranked, the better the place because it would be closer to the Daoist laws' starry sky.

However, the domineering aura of the Daoist law would also be stronger as one approached the sphere.

Not all were capable of living on the highest floor.

Chu Kuangren found a floating mountain under the starry sky. The mountain was more than ten thousand feet tall and had countless starlight surrounding its peak.

It was one of the closest points to the Daoist law's starry sky.

After he picked his spot, he pointed his sword hand sign and carved three words on the mountain — Heavenly Sword Peak, for where the Heavenly Sword lived.

He decided to settle down on the mountain peak that he had chosen.

Opposite him was a golden mountain peak, and a person walked out from the cave. When the person saw the name carved on the mountain, he was shocked before his expression turned gloomy.

"Heavenly Sword Peak. Heavenly Sword..."

"Oh? Is someone calling the Heavens?"

Chu Kuangren stood at the peak of Heavenly Sword Peak and looked down at the person in golden robes.

It was Di Qianqiu!

Fate had brought them together again, and Di Qianqiu was his neighbor in the Central Heaven Temple!

"Heavenly Sword, I see you're here in the temple as well," Di Qianqiu said coldly.

"This is an interesting place. The Heavens would not miss it."

"Interesting? Heavenly Sword, you might not know that times have changed. When the seven stars align, the Nine Kings will return. Now that the Central Heaven Temple has appeared, there will only be more and more Prodigies appearing in this era. Do you really think you can continue to be invincible forever?" Di Qianqiu said.

"The Heavens are always at the top of the hierarchy of power, waiting for his next challenger." Chu Kuangren stood with his hands behind his back. His eyes were calm, but his words were so arrogant and confident that it could shake one's soul.

"How arrogant!" Di Qianqiu grunted coldly. His eyes flickered in hesitation, wondering if he should fight Chu Kuangren.

Just then, another golden figure flew toward Di Qianqiu.

It was a man in golden robes. When he arrived before Di Qianqiu, he saw Chu Kuangren in the opposite direction and was shocked. "Why is he here?"

"What is it?"

The man was a Great Perfected Arch Gilded Immortal elite, but even he lowered himself before Di Qianqiu and spoke to him respectfully. "My Lord, Di Jiu is dead."

"Who did it?!" Di Qianqiu was shocked.

Di Jiu was one of his men from his previous life.

Now that he had just returned to the temple, he needed his men to strengthen his position, and one man more would give him more strength. He valued and had to consider every manpower he had.

"It's..."

The man in the golden robes glanced at Chu Kuangren further away. "...The Heavenly Sword!"

Chu Kuangren watched scornfully from further away.

He caught a glimpse of Di Qianqiu's shocked expression. It looked as if the latter was having doubts about the authenticity of the news.

When Di Qianqiu regained his composure, he glanced at Chu Kuangren with a grim gaze.

Di Jiu was a Great Perfected Arch Gilded Immortal.

Even Di Qianqiu was not confident enough to defeat the man with his Embodier Weapon.

However, Chu Kuangren killed him with one hit!

"Tell me what exactly happened."

"Yes."

Di Qianqiu began to feel distressed when he learned what happened.

The Heavenly Sword had broken through to the Great Perfected realm, yet Di Qianqiu was still in the Five Qi realm.

"How did you take jump from Trinity Flower to the Great Perfected realm?"

Despite being the Supreme God King's Reincarnator, Di Qianqiu could no longer remain calm. Even though he knew Chu Kuangren would never reveal how he did it, he could not help but voice the question.

"The Heavens aren't something you can speculate or deduce, but the Heavens are merciful. I can tell how I did it."

Di Qianqiu looked at Chu Kuangren with surprise.

Was he really going to reveal how he jumped from the Trinity Flower realm to the Great Perfected realm?

Or was it a trap of some sort?

Even the God Kings that lived in the Daoist law's starry sky above the Central Heaven Temple's temple were intrigued as to how Chu Kuangren did it.

"When all three of your Trinity Flowers reach the Twenty-fourth Grade, fuse them together and you can skip the Five Qi realm to break through to the Great Perfected realm directly."

Chu Kuangren revealed the truth, but when they heard what he said, they were all rendered speechless.

"Is that even possible?"

"Reaching the Twenty-fourth Grade with the Trinity Flowers is impossible. No Outlier in history has done it before."

Di Qianqiu could not help but frown. "How did you get to the Twenty-fourth Grade with the Trinity Flowers?"

He asked again. He even lowered himself to ask humbly because it was a secret that he was dying to know.

"Hmph. A man's power can be exhausted, but the Heavens have no limits," Chu Kuangren said before he returned to the Heavenly Sword Peak.

It was unnecessary to keep it a secret because no one else in history other than him could reach the Twenty-fourth Grade with all the Trinity Flowers.

In that case, so what if he revealed it?

No one else could achieve it anyway.

"A man's power can be exhausted, but the Heavens have no limits... Is he really the Heavens above all?"

Di Qianqiu stared at Heavenly Sword Peak blankly after Chu Kuangren left.

In fact, he was moved after learning the truth.

"My Lord, please snap out of it!" the man with the golden robes bellowed.

Di Qianqiu shuddered. He looked scared because he almost fell into a blockade.

"Hmph. Heavenly Sword, is this all part of your plan as well?" Di Qianqiu asked seriously.

#### Unparalleled After Ten Consecutive Draws

#### **Chapter 1759: Master Han Long Completes His Closed-door Meditation, What Am I Doing?**

"He distracted me with the secret of breaking through to the Great Perfected realm to lower my guard unconsciously. He also revealed the secret of the Twenty-fourth Grade Trinity Flowers and said that a man's power could be exhausted but not the Heavens. It was to discourage me and make me fall into a Demonic Blockade. Heavenly Sword, you really are a man full of schemes!"

Di Qianqiu put his hands behind his back and stared at the Heavenly Sword Peak seriously.

Why would anyone reveal their secrets in cultivation?

It must be a trap to distract or disrupt other people's cultivation and Daoist core.

The more Di Qianqiu pondered, the more he found it believable.

"But if you went through all that just to trick me, it means you're afraid of my Fully Realized Emperor Physique.

"The Emperor Physique and the Overlord Physique are nemeses. Heavenly Sword, it looks like you're still afraid of me."

Di Qianqiu burst into laughter, and it somehow made him feel much more relieved.

"Heavenly Sword, just you wait. I, Di Qianqiu, will one day surpass you and stomp you over!"

Then, Di Qianqiu said to the man beside him, "Di Qi, bring me some of the resources from my previous life. I'm going to cultivate to break through to the next realm."

"Yes, my Lord."

Di Qi nodded.

Chu Kuangren had no idea what Di Qianqiu was thinking or planning, but even if he knew, he would not care about it.

He sat with his legs crossed on the peak and stared into the starry sky, pondering.

How many God Kings were there in the Central Heaven Temple? Was there someone above the God Kings?

He had been traveling the Central Heaven Universe and had gotten a general understanding of the tribes in the universe.

At first, he thought that if Pan Gu Universe and Central Heaven Universe went to war, both sides would be evenly matched.

However, his thoughts changed when the Central Heaven Temple appeared.

The temple housed many elites, and the Nine Kings had yet to show themselves.

"It seems like the pressure on Pan Gu Universe is huge," Chu Kuangren muttered.

He pulled a jade talisman out that he had been using to record all the information he got on the Central Heaven Universe.

"If I can send this jade talisman back to Pan Gu Universe, it would definitely help them to prepare. However, how am I going to do it?"

He still had no idea how the Central Heaven Universe broke through the walls between universes and traversed back and forth.

The God Kings must have been involved, and they must have invested a lot of resources to achieve it.

Hence, it was highly unlikely for them to open another portal between universes in the foreseeable future.

He also learned that there was a fixed passage between the universes, but it was heavily guarded, and no one could approach it easily.

More importantly, an elite was guarding the other side of the passage, which was also the main reason the Central Heaven Universe had yet fully invaded Pan Gu Universe.

Chu Kuangren believed the elite would be the strongest of the Celestial Demon Tribe.

He believed if he took that passage back to Pan Gu Universe, he would be killed as an invader before he could even make it out.

"Can I make my own passage or portal?" Chu Kuangren pondered.

It was difficult.

The God Kings had used countless resources to build the passageway, so how would he do it alone?

"Right..."

A thought popped up in his mind, and he thought of the God-tier prize, Timespace Treasure.

With it, could he open up a passage back to Pan Gu Universe with his Great Perfected Arch Immortal Realm cultivation?

The more he thought about it, the more likely it sounded.

"Lil Ai, what do you think?"

Lil Ai was his consultant whenever he ran into problems.

"Analyzing... There's a sixty percent chance that you would fail to open the passage, a thirty percent chance that you'd be lost in the unknown void, and unforeseen circumstances would make up nine percent. You only have one percent or less to return to Pan Gu Universe," Lil Ai said.

Chu Kuangren was discouraged when he saw the statistics. The odds were almost zero.

"However, it's worth a try. What if I succeed?" Chu Kuangren said.

He did not give up on the thought. Instead, he discussed with Lil Ai how to get back to the Pan Gu Universe.

Several days later, he came up with a conclusion, and it still revolved around the Timespace Treasure.

The better he could master the power of the Timespace Treasures, the higher his odds of going back.

As such, studying the Timespace Treasure became his priority in his cultivation.

Other than that, he had to forge another clone.

That clone had to possess the strength to enter the open passage and perform experiments inside. It was to prevent himself from getting lost in the unknown void.

It was pure luck that he made it through the unknown void and arrived in the Central Heaven Universe.

Several days later, while Chu Kuangren was studying the Timespace Treasure, someone arrived.

"Master."

A beautiful woman in a glamorous dress appeared in front of him. It was Long Shuijing, his newest follower.

"You're here as well?"

"Yes. Ling Fei, Han Xingyu, and the others can't come up here, so they told me to send their regards," Long Shuijing said.

Chu Kuangren's Heavenly Sword Peak was too close to the Daoist law's starry sky, and the place was filled with the Daoist law aura. Not anyone could make it up there.

Han Xingyu and Ling Fei were much stronger than before, but they still could not make it.

"Since you're here, get yourself a place and settle down."

"Yes, Master."

Long Shuijing found a nearby mountain and claimed it for herself. She then did what Chu Kuangren did and carved the name Rainbow Peak on it. It was to represent the Heavenly Rainbow Dragon's bloodline in her.

After Long Shuijing, Luo Xue made it up there as well.

She also claimed a mountain for herself and named it Snowy Peak.

Rainbow Peak and Snowy Peak were beside the Heavenly Sword Peak, sandwiching it in between like its guardians.

The news spread across the temple and attracted many's attention.

"Tsk, tsk. Two Heavenly Maidens are willingly staying by his side and guarding him."

"Yeah, he must be great with women."

...

On a frosty mountain peak filled with freezing qi, someone flew out from the cave and filled the air with terrifying freezing qi.

The void was frozen following his emergence.

It was Master Han Long.

"Haha! I have finally broken through to the Five Qi realm!" Master Han Long was thrilled.

He had been cultivating day and night since he entered the Central Heaven Temple.

With the help of the Daoist law's starry sky and his hard work, he managed to reach the Five Qi realm and boost his strength greatly.

The first thing he thought when he became stronger was Chu Kuangren.

"I wonder how strong I am now compared to the Heavenly Sword," muttered Master Han Long.

With that, he spotted a mountain peak named Heavenly Sword Peak further away.

"It's the Heavenly Sword! He's here too. Great, I can test my strength on him," Master Han Long said as his eyes glinted.

Then, his figure flashed and flew toward the Heavenly Sword Peak, which he raised his voice at.

"Heavenly Sword, I, Han Long, am here to spar with you. Please enlighten me."

"No way. Someone has the guts to challenge the Heavenly Sword?"

"Yeah. Doesn't he know that the Heavenly Sword is already in the Great Perfected realm?"

The others were shocked and in awe of Master Han Long's courage.

After hearing the chatters, Master Han Long gasped in shock.

The Heavenly Sword had achieved the Great Perfected realm?

How was it possible?

He looked at the Heavenly Sword Peak and felt like he was standing before the checkpoint to hell.

What was he doing there?

### Unparalleled After Ten Consecutive Draws

#### **Chapter 1760: Kill Master Han Long, Snatching The Daoist Law's Pearl, Incite Public Outrage**

Master Han Long came out of close-door meditation confidently and wanted to challenge Chu Kuangren.

However, when he learned that Chu Kuangren was already in the Great Perfected realm, he instantly got disheartened and discouraged. He stood outside the mountain peak and shuddered.

Despite cultivating the Frost Dao, he could feel chills running down his spine and reaching every inch of his body. He had goosebumps all over his skin, and it made him feel sick.

"Oh? Is someone here to challenge me?"

A voice came from the Heavenly Sword Peak.

Master Han Long gulped nervously. He cupped his fists into a fist salute and said, "It's a misunderstanding! Please excuse me!"

After that, he turned around and fled, but a sword qi shot out from the mountain peak.

It was so fast that he could not even dodge it.

"No! Quintuple Frost Dao Art, Godly Ice Lance!"

Master Han Long was horrified when he sensed the sword qi chasing him. Hence, he channeled his cultivation to the limit and formed a lance using his freezing qi.

The lance was hurled at the sword qi.

Bang!

The clash between the two energies released a powerful shockwave that shook the surrounding mountains.

However, the sword qi continued forward with indomitable power, crushing the ice lance before hitting Master Han Long.

He burst into a cloud of blood mist in the air.

"This is the price to pay for challenging the Heavens." The indifferent voice echoed in the air.

Countless other Prodigies were stunned and horrified by the scene.

"He's really scary."

"Master Han Long was in the Five Qi realm, yet he couldn't even block one slash from the Heavenly Sword. He's indeed a Great Perfected Arch Gilded Immortal and an unusual one at that."

"The Heavenly Sword is really terrifying."

After killing Master Han Long, the Heavenly Sword Peak returned to its peaceful state.

Chu Kuangren continued studying the Timespace Treasure.

The Eighteen-cycle Trinity Soul Refinement that he cultivated allowed him to split his souls into three.

Therefore, he used two souls to study the Timespace Treasure while the remaining one would observe the Daoist law's starry sky above him to gain insights into the Daoist law so that he could boost his Arch Gilded Intent.

A few days later, the Daoist law's starry sky suddenly trembled.

Stars in the Daoist law's starry sky suddenly shone brightly.

The starlights contained mystical and dense Daoist law energy fluctuation, and as they shone, pearls started to emerge.

It was the Daoist Law's Pearl!

"The Daoist Law's Pearl has appeared!"

"The pearl is a manifestation of the Daoist law's starry sky. Absorbing it and refining it will boost one's Arch Gilded Intent greatly."

"My Arch Gilded Intent has reached a bottleneck at the Third Step. If I can get the pearl, I might be able to reach the Fourth Step!"

The Prodigies and sky-prides in the Central Heaven Temple looked at falling pearls with an unusual zeal in their eyes.

There were countless Opportunities of Fortune in the temple, and the pearls were one of them. A new batch of pearls would appear every once and a while, and one pearl alone was enough to boost one's strength greatly.

The cultivation conditions in the temple were so good that even a pig could reach Gilded Immortal by merely cultivating.

Swoosh!

Multiple figures jumped toward the sky, attempting to snatch the falling Daoist Law's Pearl.

It was then that a massive palm rose from one of the golden mountain peaks, trying to snatch all the Daoist Law's Pearls.

It was Di Qianqiu!

The pearls were useful to him as well.

Swoosh!

Suddenly, it became windy.

The wind stirred the Daoist Law's Pearl around and moved them toward a certain mountain peak surrounded by an endless storm.

The Storm Queen, Feng Qiyu, had made a move as well.

Other than the two of them, the other Peerless Prodigies and even Outliers joined the competition.

Immortal Sparks shone blindingly under the starry sky for some time, and dazzling energies shone, painting the sky in various colors.

However, right before anyone could get the pearls, a terrifying sword shadow rose from Heavenly Sword Peak and released a tornado that swept everything away.

Sword qi swept across the starry sky.

Bang! Bang!

The Emperor's Palm and the Storm Energy were all negated.

The sword qi destroyed all the other Immortal Techniques, and the Daoist Law's Pearls scattered into the sky again.

Then, a massive suction force appeared from the Heavenly Sword Peak and sucked all the Daoist Law's Pearl away like a black hole.

The massive suction force shocked everyone.

"What is he trying to do?"

"Is he trying to take all the pearls for himself? How greedy! He's being unreasonable!"

The expressions on the faces of Di Qianqiu and the others changed.

The Daoist Law's Pearls were one of the most important cultivation resources in the temple, and no one dared to take all for themselves.

Chu Kuangren's action would make him a public enemy of all the Prodigies in the temple.

"Heavenly Sword, stop this madness at once and return the Daoist Law's Pearls."

A cold voice came from one of the mountains.

It was a Peerless Prodigy, and as soon as his words faded, an endless aura erupted and surrounded the entire Heavenly Sword Peak.

However, before it could get there, a sword aura erupted from Snowy Peak and blocked the incoming aura.

It was Luo Xue!

"You're in no position to question the Heavenly Sword!" Luo Xue said.

Even she did not notice that she had sided with Chu Kuangren.

"Hmph! Heavenly Sword, this is too much!"

Another explosive aura came, followed by a bloodthirsty dragon qi that made one shudder.

It was Chi Longying!

Then, another terrifying dragon qi exploded from Rainbow Peak. The dragon qi felt dignified and noble, and it easily blocked Chi Longying's aura.

"You used to flee from the Master. What gives you the right to raise your voice here?" Long Shuijing said indifferently.

Chi Longying's eyes widened in disbelief when he heard the voice. "Long Shuijing, aren't you dead? Did you call the Heavenly Sword your master?"

"What's wrong? Are you disappointed that I'm still alive?" Long Shuijing scoffed.

Chi Longying's expression shifted as shock overwhelmed him.

How could this be?

He had absorbed Long Shuijing's Crystal Dragon bloodline, so she should be nothing but a normal person now. How did she regain her powers and even become stronger than before?

On top of that, he had a strange urge to submit to her dragon qi.

It was the Heavenly Rainbow Dragon!

Chi Longying suddenly thought of the Heavenly Rainbow Dragon Opportunity of Fortune that he saw on the Ancient Central Heaven Planet.

Did that mean Long Shuijing got it? Did she profit from the tragedy and got the inheritance of the Heavenly Rainbow Dragon?!

Damn it!

Chi Longying was furious.

Just then, another aura erupted from within the Central Heaven Temple, attempting to shroud the entire Heavenly Sword Peak.

"Heavenly Sword, hand over the Daoist Law's Pearls!"

"You can take some of it but not all! You're crossing the line!"

"Yeah! You have already drawn ire from the other Prodigies. You don't want to make any more mistakes!"

Voices sounded one after another, and they were trying to stop Chu Kuangren from taking all the Daoist Law's Pearls.

No sky-prides and Prodigies in the temple could face the wrath alone, but they did not dare to as well.
