Chapter 1831: For Being Rude And Disrespectful, You Deserved To Be Slapped

The Human Emperor Sect was shrouded with smoke because of a battle.

Amidst the rumbling smoke, a huge crater appeared, as if a massive planet crashed. A golden-haired old man was forced to his knees by a young man with just a hand on his shoulder.

The scene shocked everyone.

"The forefather has been forced to his knees?"

"How is this possible?"

Everyone refused to believe their eyes.

Fuxi's successor and Xuanyuan's successors were shaking because the power they felt was terrifying.

However, deep down in their hearts, they longed for such power, especially Fuxi's successor.

He was very unsatisfied that the power was not his. Had everything gone well, he should have gotten the unmatched power!

In the center of the crater, when the golden-haired old man realized he was forced to his knees, he was also shocked. His face was flushed red, and he was fuming.

An Embodier was forced to his knees?

His pride was lost, his face was trampled, and his mental state was on the verge of collapsing!

The golden-haired old man channeled all of his energy. Daoist Laws flew into the sky and gathered to form a golden dragon shadow.

"Chu Kuangren, you bastard!"

Slap!

Then, a loud slap sounded all of a sudden.

Chu Kuangren slapped the old man in the face!

"For being rude and disrespectful, you deserved to be slapped." Chu Kuangren's indifferent voice sounded, but it was emotionless.

The golden-haired old man's face was swollen because of the slap.

The golden dragon shadow behind him was so enraged that it threw itself at Chu Kuangren, attempting to tear him apart with dominating power. It even tore the void into pieces.

However, the nine dragons behind Chu Kuangren responded in unison.

All nine dragons lunged forward and bit the golden dragon shadow formed by Daoist laws.

As the nine dragons roared, the Daoist laws broke, and the golden dragon shadow was torn to pieces.

When the golden dragon was defeated, the old man suffered the repercussions, and blood gushed from his mouth.

Chu Kuangren took a step back to avoid the spurt of blood.

The golden-haired old man trembled as he looked at Chu Kuangren. He was fuming, aggrieved, shocked, and... horrified!

He was an Embodier, but he felt so helpless before Chu Kuangren. He was easily overpowered, which was proof of how powerful the Immortal King was.

"Chu Kuangren, what do you want?" the old man bellowed angrily.

Chu Kuangren looked at him and said, "I'm giving the Human Emperor Sect a chance to atone for your crimes."

"Crimes? What have we done?"

"You restricted the human fortune, unlawfully occupied the name of the Human Emperor, and disrespected the Immortal King. Any one of the three crimes is enough for me to eliminate the entire sect," Chu Kuangren said coldly.

He sounded like the blizzard from hell, and it gave everyone chills.

No one doubted his powers.

Moments ago, he showed them a 'vivid' image that he had the power to completely obliterate the Human Emperor Sect.

"You..." The old man's jaw dropped. He wanted to add something, but no words escaped from his mouth.

The life and death of the entire sect were in the hands of the enemy.

All it needed was a thought from Chu Kuangren, and the Human Emperor Sect would be history. They were in no position, nor did they have the right, to negotiate or argue with him.

"What do you want us to do?"

"Be my vanguard and launch a siege against the Immortal Hall," Chu Kuangren said.

He looked into the void and did not care who was watching. He just stated his intention openly.

The void shook.

It was as if all the Immortal Consciousnesses hidden inside were trembling.

"Chu Kuangren wants to attack the Immortal Hall!"

"I knew it! I knew he wouldn't spare the Immortal Hall after he becomes the Immortal King!"

"The Immortal Hall is a lot stronger than the Human Emperor Sect, but would they be able to hold up against the current Chu Kuangren?"

The Immortal Consciousnesses in the void were engaged in a heated discussion.

On the other hand, the golden-haired old man's expression shifted multiple times when he heard Chu Kuangren's request.

A siege on the Immortal Hall as vanguards?

It was an extremely dangerous act that might cause the sect to lose more than half of its resources and manpower.

They might even get wiped out in the conflict.

However, if the old man refused...

He glanced at Chu Kuangren. If the sect refused, Chu Kuangren would obliterate the entire Human Emperor Sect right now.

"I agree to your request!" the old man said with gritted teeth.

Right after he said that, he looked dispirited and discouraged as if he had grown several eras older.

Chu Kuangren said, "After that, the Human Emperor Sect will have done enough to atone for your crimes, and I will not hold you responsible for what you've done in the past."

"Should I thank you for your mercy, Immortal King?"

"You're welcome."

The golden-haired old man's lips twitched. Chu Kuangren did not understand his sarcasm.

After subduing the Human Emperor Sect, Chu Kuangren stayed a little longer.

The Human Emperor Sect took pride in the authenticity of their Human Emperor bloodline and had gathered many inheritances of the Human Emperors. Hence, there might be something Chu Kuangren could use.

When the old man and the others in the sect learned what Chu Kuangren wanted to do, they were shocked by his shamelessness.

How could one be so shameless?

He came to the Human Emperor Sect, absorbed the nine dragon qi, beat up the forefather, and coerced them into becoming the vanguard against the Immortal Hall, and now he wanted to see what treasures the sect had that he could use?

It might be more appropriate to call him a robber than the Immortal King — the most terrifying robber in existence!

"He's too much!"

"He's exploiting us!"

Hua Xi, Xuanyuan's successor, and Fuxi's successor got together. They were angry after learning what Chu Kuangren wanted to do.

Then, speaking of the devil, Chu Kuangren came over to them.

When the three of them saw him, chills instantly ran down their spine.

However, Chu Kuangren simply glanced at them and said, "Don't worry. Taking your life is a piece of cake for me. But I still need you guys to be my vanguard and kill some soldiers for me, so make sure you perform well when the time comes."

After that, he walked past them.

Xuanyuan's successor and company were stunned and furious.

Chu Kuangren making them his vanguard was more insulting to them than killing them.

Not only was he in control of their life and death, but he even crushed their confidence and pride.

After spending a few days in the Human Emperor Sect, Chu Kuangren was disappointed.

"The Human Emperor inheritances are not much of a use," Chu Kuangren said with a shake of his head.

The golden-haired old man, Gu Huang, who was the forefather of the sect, rolled his eyes.

Chu Kuangren should be aware of his current status and cultivation realm.

He was the Immortal King!

Which Human Emperor throughout history was stronger than him? It was almost none! Yet, he was after the Human Emperor's inheritance.

"Huh?"

Suddenly, Chu Kuangren sensed something. He entered the deepest part of the sect and stopped in front of a massive tablet.

The tablet had old runes engraved on it, and they emanated a mystical Daoist Rhyme.

The top of the tablet had a few words carved on it — the Book of Human Emperors.

[Unparalleled After Ten Consecutive Draws](#)

Chapter 1832: Book of Human Emperors, Nuwa Creates Man, The Weakest But Also The Strongest Living Being

Looking at the massive tablet, Chu Kuangren felt something mystical happening in him.

The Ultimate Human Emperor Technique was automatically activated.

"What is this?"

"The Book of Human Emperors. The maker of this tablet is unknown, but it contains the entire history of all the past Human Emperors," Gu Huang said.

Chu Kuangren's lips curled into a smile when he heard the explanation. "Just a history book? Hmph. The Human Emperor Sect is a joke."

"You..."

Gu Huang got furious. Chu Kuangren ridiculed the sect whenever he wanted to, and it enraged him, but there was nothing he could do about it.

"What do you mean by that, Immortal King?"

"This is the real treasure, but none of you know what this is, and you claim to be the sect that has the most authentic Human Emperor's inheritances. Am I wrong for calling you a joke?"

"Real treasure?" Gu Huang looked at the tablet in surprise.

Other than the unusual Daoist Rhyme, there was nothing special about it.

He used to study the tablet a long time ago, but he got nothing from it either.

Yet, Chu Kuangren claimed it was the real treasure.

Chu Kuangren skipped the explanation and walked up to the tablet, which activated the Ultimate Human Emperor Technique.

Then, he put his hand on the tablet.

The moment he touched it, they resonated, and the tablet shone brightly.

Golden runes appeared and surrounded Chu Kuangren like the stars. At the same time, a vast energy erupted.

"What is this?" Gu Huang was shocked.

He could not believe that the tablet was a real treasure!

By then, Chu Kuangren's consciousness had entered the tablet.

He arrived at a beautiful place with mountains and rivers.

A beautiful young girl was standing beside the river, seemingly frowning over something.

When she sensed Chu Kuangren's presence, she turned around to him.

"Who are you?"

"Who are you?" Chu Kuangren asked.

"I'm Nuwa..."

Chu Kuangren's heart skipped a beat.

Nuwa?

Suddenly, he realized something.

The first chapter of the Book of Human Emperors was Nuwa creating man!

To his disbelief, he had entered the Book of Human Emperors and could interact with the past Human Emperors! He could participate in past events that actually happened.

At the thought of that, Chu Kuangren became intrigued.

"I am human."

"Human?" Nuwa looked baffled.

There were countless other races on the land where she stood, but she had never heard of a human before.

She somehow had a feeling that discovering that new race called humans would be the key to her ascending into the Primordial Realm.

With that, she looked at Chu Kuangren and asked, "Tell me, what is human?"

"Humans are you and me, but they don't exist yet."

"If they don't exist yet, where did you come from?"

"I'm here for the human race," Chu Kuangren said. Then, he squatted down and grabbed a ball of mud by the river.

He molded it into the shape of a human and infused it with his Immortal qi.

The mud figure immediately turned into a living human being.

Seeing the mystical scene unfold before her, a sudden epiphany rushed into Nuwa's head. She had been enlightened.

"Human... Human... I see. No wonder my Genesis Dao Intent hasn't been improving. The Genesis Dao is mystical, and the epitome of it would be creating life!

"If I can create life, I will be able to master the Genesis Dao and reach Primordial Realm!"

Nuwa looked eager.

She dug up a ball of mud by the riverside, molded them into human figures, and infused them with the Genesis Dao's energy.

The mud figures turned into humans, but they were like the human that Chu Kuangren created, mindless. Like walking corpses, they had the bodies but not the mind to control themselves.

They could not be considered a living being.

Nuwa frowned. "I failed. This isn't what I want."

She rolled her sleeves and remodeled the mud figures. However, she then looked at Chu Kuangren. "Do you have any advice?"

"Maybe you can change the material."

"Material?" Nuwa pondered, and an idea appeared in her mind. She took out a pile of colorful soil, which contained the mystical creation energy.

It was the Living Soil, the Innate Supreme Source Treasure!

"Ha! Maybe this will do it!"

Nuwa fused the Living Soil and the mud to remake the mud figures.

Chu Kuangren watched from the side and found it interesting.

Was he witnessing the process of Nuwa creating humans?

"Do you need help?"

"Thank you!"

Chu Kuangren went over and helped Nuwa remodel the mud figures.

With their combined effort, several mud figures were made. However, compared to the mud figures that Nuwa sculpted with her skillful hands, the mud figures Chu Kuangren sculpted with his hands looked terrible.

He prayed for the mud figures he sculpted.

'I'm sorry I can't make you look any better.'

However, Nuwa did not care about the looks of the mud figure. She simply activated the creation energy and infused them into the mud figures.

The mud figures then started to transform into humans.

Men and women were born, and they were all naked. They looked at each other and curiously sized up their surroundings like curious babies.

"I did it!"

Nuwa was delighted when she saw her mud figures come to life.

She could already feel that she was breaking through the bottleneck of the Genesis Dao after her success.

With that, she continued to make mud figures.

After a while, she decided to speed up the progress.

She stripped a vine from the tree, dipped it in the muddy water, and flung it forward.

The mud that flew out landed on the ground and transformed into humans.

However, the humans made with the vine did not look as meticulous as those she made with her hands.

Still, Nuwa did not care. She continued making humans with the vine. With one fling or whip of the vine, she could create tens of thousands of humans.

The process slowly increased the level of her Genesis Dao to the peak.

In the end, she finally mastered the Genesis Dao.

By combining her Genesis Dao with other Daos, she succeeded in breaking through to the Primordial Realm.

"I've finally broken through..."

Nuwa looked at the humans she created in the barren land. Her eyes were filled with love and a sense of achievement.

However, she frowned and looked worried. "The living beings are too weak."

Compared to the beasts that roamed the land, the humans were weak. Even the weakest beasts could devour them all.

"Yes, they're weak."

Chu Kuangren went up to Nuwa. His gaze was deep as he said in a deep tone, "They're weak. Strong wind, strong rain, or even a flood could take their lives away. The clash between two innate living beings could cause repercussions and kill tens of thousands of them."

"However, they're also strong. They'll learn how to shelter themselves from the wind and rain, how to grow strong from stronger living beings who try to hurt them, and create tools that other living beings could never imagine. They would do anything to extend their civilization, even if it cost them their lives."

"They will be the strongest race that will survive through tens of thousands of tribes or species. They will rise to the top and become the supreme ruler. They are humans, who are weak but also the strongest living being."

Chapter 1833: Repair The Sky, Bagua Deduction, Testing a Hundred Herbs, Wheel of History

"Humans... They are humans."

Nuwa's eyes glinted. She smiled and repeated, "Yeah, they're humans."

It was the birth of the humans!

Then, the scenery before Chu Kuangren shifted drastically.

A massive crack appeared in the sky. Rampant storms, scorching fire, and destructive meteors fell out from the crack and wreaked havoc across the land.

The land lost its balance, and a massive tide came crashing from the sea.

Countless living beings and humans died in that disastrous phenomenon. It was like the end of the world.

"Is that the... Heaven's Crack?" Chu Kuangren muttered as he looked at the massive crack in the sky.

The Book of Human Emperors had records regarding this event.

It was named 'Nuwa Repairing the Sky'!

Further away, a streak of light flew through the storm and fire, the tide and rubbles, and charged toward the massive crack in the sky. The streak of light was surrounded by five-colored stones.

The streak of light was actually Nuwa.

Compared to the Nuwa Chu Kuangren seen by the river, the current Nuwa looked more mature, and she seemed compassionate and holy.

She must have grown more mature after becoming the Mother of Humans and the first Human Emperor.

Seeing that the sky had cracked and the humans she had created were suffering from the disaster, Nuwa could not sit back and watch her creation die before her eyes. Therefore, she refined the five-colored stones to repair the crack in the sky.

Nuwa flew to the massive crack in the sky, where she raised her hand and hurled the five-colored stones at the crack. The stones that contained endless creation energy started to reshape the universe.

With that, the massive crack started to shrink.

The meteors that flew out from the crack hit Nuwa. However, she had to concentrate on repairing the sky and could not dodge them in time.

When Chu Kuangren saw it, his figure flashed and reappeared beside Nuwa.

He swung his sleeve, releasing his massive Immortal's Core energy to destroy the incoming meteors.

"Thank you." Nuwa glanced at Chu Kuangren and expressed her gratitude.

However, she did not seem to recognize him from earlier.

Chu Kuangren was not surprised either because the world that the Book of Human Emperors created was not real.

It was just a chapter in the book — a scene that would replay over and over again.

It was not connected to the real river of history.

Chu Kuangren watched Nuwa repair the sky while keeping the meteors away from her.

The power of the meteors was terrifying.

Some of the bigger ones were strong enough to threaten him. One meteor hit him in the chest, and it almost made him bleed.

He started to wonder if he was teleported to a fictional realm or was just thrown back in time, where everything was happening for real.

If the meteors killed him, would he die for real?

However, he did not stop protecting Nuwa because he, too, was a Human Emperor.

The humans, who were suffering from the calamitous disaster, were all his subjects. Regardless whether it was real or not, he could not stand by and do nothing.

Hence, Chu Kuangren stayed by Nuwa's side and shielded her from countless meteor strikes, allowing her to concentrate on repairing the sky.

Through the massive crack in the sky, Chu Kuangren saw the vital force of chaos. It was as if countless living beings were roaring frantically.

A surge of energy that did not belong to this universe emanated from inside the crack.

Chu Kuangren's eyes shone.

Did that mean another universe had already attempted an invasion before Nuwa repaired the sky?

Could the massive crack be a portal that allowed another universe to enter the Pan Gu Universe?

Was the event of Nuwa Repairing the Sky actually a means of stopping the invasion from another universe by closing the portal?

As Chu Kuangren pondered, many thoughts flashed across his mind.

A while later, the Heaven's crack was repaired, and the remaining five-colored stones scattered in multiple directions, merging with the land and sea.

After the sky was repaired, the land returned to harmony and peace.

"Thank you for your help," Nuwa said as she bowed to Chu Kuangren.

Then, the scenery before Chu Kuangren changed once more.

This time, he saw a man with a bamboo in his hand and was carving something on it.

Chu Kuangren went closer for a look. The man was actually carving mystical runes on the bamboo.

The runes seemed to represent nature, heaven, and land. It even contained the deduction of the galaxy and even the universe. It felt mystical just by looking at it.

"Is that... Bagua?" Chu Kuangren muttered.

When the man heard his voice, he looked up and sized up Chu Kuangren curiously. "Hey, friend. What did you say?"

"No. Nothing. What are you drawing?"

"I'm drawing heaven and earth."

"Heaven and earth?"

"Yeah. This symbol here represents the mountain, and this one is lightning."

Chu Kuangren had a good look at the man's face and recognized the man immediately. The man was Fuxi!

Fuxi was deducting the Bagua diagram!

The diagram contained countless images and deductions of the galaxy, as well as infinite secrets and changes.

He was the first in history to start the art of deduction.

"However, it feels like the diagram is not complete. I wonder what's missing," Fuxi said in frustration.

Chu Kuangren took a glance at it. He, too, knew a thing or two about Bagua.

After all, he was an expert in formations, and the changes in formations were usually related to the changes in the Bagua diagram.

"You can add some symbols here..."

Chu Kuangren gave his advice based on his memories.

Then, the incomplete Bagua diagram was completed! It was the icing on the cake! It felt like the diagram had come alive as it looked even more mystical.

"I see. I see..." Fuxi was delighted by the completion of the diagram.

He bowed and cupped his fists into a fist salute. "Thank you for your advice, friend."

"You're welcome," Chu Kuangren said with a fist salute as well.

Then, the scenery changed again. Chu Kuangren found himself in an entirely new environment.

This time, he was on a grassland.

A young man was twitching and foaming on the grassland further away.

Chu Kuangren glanced over and knew that the young man was poisoned because there were some herbs in his hand.

The herbs looked strange, and a normal person would not take them under any circumstances.

He helped the young man.

"Ah! I'm saved!"

The young man stood up and was glad that he made it.

"What were you doing?"

"I was eating grass. I found out that some grasses have a strange effect and could be used to cure sickness, but some grasses might poison or cause discomfort to the body once taken. I'm testing them all using my own body so that I'll know which type of grasses or herbs are good and bad for the human body," the man said with a tilted head, looking innocent and sincere.

Chu Kuangren exclaimed to himself. The man was Shennong, and he was testing a hundred herbs.

"The world is huge, and many types of herbs exist. How are you going to test them all? Let me help you."

"Really? Thank you, Brother!"

Shennong was delighted.

With that, Chu Kuangren spent a long time testing herbs with Shennong. The effects of all the herbs were written down and compiled into a book.

Then, he was brought to a battlefield.

There were two armies at war.

The leading men of both armies were wielding weapons — one a golden sword and the other a bronze halberd.

"Chiyu, for the sake of the people, I must win!"

"Hahaha! Xuanyuan, skip the chatters, and let us fight with our hearts!"

The sword and halberd clashed, stirring up a dust storm around them.

It was the Battle of Chasing Deer.

Chu Kuangren watched them fight. He did not know who to help, so he stayed out of that battle.

Then, the scenery changed again.

Chu Kuangren experienced the major events throughout the history of humans through the Book of Human Emperors.

He helped Nuwa create Humans and protected her while she repaired the sky. He guided Fuxi in developing the Bagua diagram, helped Shennong in testing a hundred herbs, and witnessed the Battle of Chasing Deer. He also discovered fire with Suiren, cured the flood with Yu the Great, killed Xiangyu and Wuzhiqi, two wild beasts that terrorized the world, divided the land into nine provinces, and more.

Time flew as the wheel of history rolled forward.

Chu Kuangren participated in all the major events throughout the human race's history and witnessed the rise and fall of the entire race.

Chapter 1834: The Origin of the Book of Human Emperors, Heavenly Xing Tribe, Golden Opportunity

Back in the Human Emperor Sect, golden runes from the Book of Human Emperors surrounded Chu Kuangren, with a holistic and inviolable aura emanating from it.

Even Gu Huang, an Embodier, could not help but have the urge to bow and worship Chu Kuangren.

Suddenly, Chu Kuangren opened his eyes, and a vast energy presence overflowed.

Dragon qi gushed out from the tablet and rushed into the sky.

The golden dragon qi swirled above the Human Emperor Sect for a while, their roars echoing across the universe.

The dragon qi was the culmination of human fortune.

It was a lot stronger than the nine dragon qi that the Human Emperor Sect constrained before.

All the cultivators of the sect were shocked. They gulped nervously as they watched the golden dragon qi paint the entire sky gold.

"Oh my god! What's with this scale of dragon qi?"

"What is going on?"

"It's Chu Kuangren! It must be him!"

Gu Huang was stunned since he was just beside the Book of Human Emperors.

The tablet contained such a large scale of human fortune, yet he never knew.

On top of that, he could sense an ancient presence contained in the dragon qi. It was the human fortune but not from this era.

The dragon qi was actually the culmination of the ancient human fortune.

"Roar!"

The terrifying dragon qi then gushed down toward Chu Kuangren.

Chu Kuangren stood still. With his Ultimate Human Emperor Technique activated, all the dragon qi were absorbed into his body.

The True Emperor Dragon in his body grew a few times stronger.

"The Book of Human Emperors, huh?" Chu Kuangren looked at the tablet before him and exclaimed.

The tablet contained all the major events that the Human Emperors experienced in the past, and it had collected the human fortune from ancient times until this day.

It was a real treasure — a treasure that was closely related to the human fortune!

Every time a Human Emperor was crowned, a dragon qi would be produced.

The tablet was actually the remaining five-colored stones that Nuwa used to repair the sky with in ancient times.

However, following the fall of the Human Emperors, the tablet, together with the human fortune and the dragon qi contained in it, entered an endless slumber.

That was until Chu Kuangren, the Human Emperor, found it.

The resonance activated the tablet and put Chu Kuangren on a trial, which was the major events he experienced inside the tablet.

After he cleared the trials, the tablet deemed him worthy, and as a qualified Human Emperor, it presented him with the ancient human fortune.

Chu Kuangren put his hand on the Book of Emperors and muttered, "I will not let you down. I will bring the human race back to its former glory in this era!"

He then turned to Gu Huang and said, "Be prepared for the war and wait for my order."

He sounded indubitable.

Gu Huang was forced to obey him like a subject bowing to the king. "I understand."

When he straightened him back, Chu Kuangren had left.

Gu Huang walked up to the tablet and looked at the flowing Daoist Rhymes. No matter how he looked at it, he could not understand the secret behind it.

A long while later, he exclaimed, "The glory of the Human Emperor will return in this era."

His heart raced.

After all, the blood of the humans was flowing in him!

...

After Chu Kuangren left the Human Emperor Sect, he headed to his next destination.

It was an ancient mountain peak, where a terrifying battle intent lingered in the mountains, making the entire mountain feel like a living warrior.

In fact, based on an ancient legend, the mountain was home to an ancient master's head.

The great one was named Xing Tian.

He used to fight the Immortal Hall, a formidable opponent.

Throughout history, the Kunlun Immortal Hall's Thirty-Three Heavens were punctured twice.

One of them was caused by the Ape Forefather, Zhan Tian.

The other time happened a long time before the Ape Forefather's event, which was the battle between Xing Tian and the Immortal Hall.

However, similar to the Ape Forefather, Xing Tian failed as well. His head was cut off and thrown into the Immortal World before fusing with a mountain.

The mountain was the one before Chu Kuangren, the Every Goat Mountain.

Chu Kuangren was here to look for the tribe on the mountain — Heavenly Xing Tribe.

After Xing Tian and Zhan Tian failed to wage war against the Immortal Hall, the Heavenly Xing Tribe hid at Every Goat Mountain for as long as they could to prevent the Immortal Hall from hunting them down.

They would be one of the strong allies of Chu Kuangren when he waged war against the Immortal Hall.

Swoosh!

A figure arrived before Chu Kuangren.

The man wielded a great axe and a shield. When he saw Chu Kuangren, he was surprised. "It's you?"

The man was Xing Wangu, who once fought on the Immortal King Arena.

"What are you doing here at Every Goat Mountain?" Xing Wangu looked at Chu Kuangren cautiously.

He was afraid that Chu Kuangren was here for revenge.

"Lower your guard. I come in peace today," Chu Kuangren said.

"Xing Wangu, allow the Immortal King to enter," an elder's voice sounded from the deepest part of the mountain.

Then, Xing Wangu led Chu Kuangren into the mountains. After they passed through the spatial restriction seal, they arrived at the Heavenly Xing Tribe's home base.

Stone houses were built neatly next to each other in an orderly fashion, and they were lined up in a straight line on both sides of the main road.

Every residence of the place contained a wild and primal aura, and in the aura contained a strong vital force and battle intent.

It seemed like living in seclusion for as long as they did had not blunted their edges.

Chu Kuangren grinned as he believed he might be able to achieve his goal here.

If the Heavenly Xing Tribe wanted to stay away from the conflicts of the world, his journey here would be wasted.

They arrived at a stone palace.

Upon entering it, Chu Kuangren met a white-haired elder. The man's hair was white, but his body remained buff and strong. His muscles bulged through his white robes, and his aura was countless times stronger than Xing Wangu.

If Xing Wangu were a lion cub, the old man would be a full-grown lion who had conquered the wild lands.

"I'm the Heavenly Xing Tribe Leader, Xing Cangfeng. Greetings, Immortal King," the old man, Xing Cangfeng said with a fist salute.

"Greetings, Tribe Leader. I'll skip to the point. I believe you already know why I'm here. I'd like to invite you to join me in waging war against the Immortal Hall."

Xing Wangu's eyes glinted when he heard Chu Kuangren. He was eager to join.

Xing Cangfeng, however, remained calm. He said indifferently, "The Heavenly Xing Tribe has lived in seclusion for many years and stayed away from mundane conflicts. Going against the Immortal Hall is too risky."

"Is that so? In that case, I shall be on my way."

Chu Kuangren stood up and wanted to leave immediately.

Xing Cangfeng was stunned.

Was that it? Was Chu Kuangren not even bothered to persuade him? How sincere was he?

"Ahem! Hold on, Immortal King," Xing Cangfeng said.

"It's risky to go against the Immortal Hall, but since you've asked, it's not an absolute no from us either..."

"Tribe Leader, you don't need to force yourself," Chu Kuangren said with a smile.

When he saw the Heavenly Xing Tribe, he knew his trip here was more or less a fruitful one.

The Heavenly Xing Tribe was forced to live in seclusion because of the Immortal Hall.

Other than Chu Kuangren, they would be the ones who wanted to topple the reign of the Immortal Hall the most.

"It's not that... Very well, the Heavenly Xing Tribe will join you in your siege on the Immortal Hall," Xing Cangfeng said.

A strong battle intent erupted from his body, and everyone in the tribe sensed it.

Warcries sounded outside the stone palace.

"War! War! War!"

They already knew what Chu Kuangren wanted from them, and they were prepared to fight the Immortal Hall.

They had been waiting for countless years for this golden opportunity for them to overrun the Immortal Hall. They would never miss it!

[Unparalleled After Ten Consecutive Draws](#)

Chapter 1835: A Proclamation, War, One Slash At The Heavenly Thirty-Three Layer Formation

"After the Immortal Hall is destroyed, you can choose one of the fertile lands in the Immortal World as your new home. You can also have two percent of the spoils from the battle against the Immortal Hall," Chu Kuangren said.

A great reward would bring forth a brave man.

Chu Kuangren had to give the Heavenly Xing Tribe some sweet incentive to motivate them.

"Haha! I thank you in advance, Immortal King," Xing Cangfeng said with a laugh.

He was reluctant at first not because he was afraid, but because he was trying to get some incentives from Chu Kuangren.

Now, he had achieved his goal.

"I look forward to fighting side by side with you."

"Same here."

After a quick discussion with Xing Cangfeng and the others, Chu Kuangren left Every Goat Mountain and returned to Hundred Academy.

"Chief, I've come up with a proclamation. What do you think?" Cao Yun came to him and showed him the proclamation.

After a quick glance at it, Chu Kuangren was impressed. He praised, "This is great!"

The siege on the Immortal Hall was inevitable, and if a public proclamation was released, it would only make the attack more widely known.

A while later, the proclamation that Cao Yun came up with was distributed across the Immortal World. It was also an official call to arms for everyone.

"The malevolent Immortal Hall has oppressed the human race for long enough. Now, with the Immortal King elected, the Human Emperor will be back in power to suppress the Immortal Hall's oppression. Peace will be returned to the world.

"The first crime of the Immortal Hall was brutally oppressing the human race. Second crime was its tyranny and dictatorial. Third was selfishly monopolizing cultivation resources. Fourth was being arrogant and treating people's lives with no respect. Fifth was unlawfully amassing wealthy... sixth crime... seventh crime..."

The proclamation stated eighty-eight crimes of the Immortal World, and it incited the humans' anger.

"The crimes of the Immortal World are too many to record."

"Yeah! That Great Deitification Tablet is already a terrible act. Who would've thought they have committed that many other crimes? They are unforgivable!"

"Damn it!"

"Now that Chu Kuangren is the Immortal King and also a Human Emperor, with him around, the human race shall rise again!"

"Yeah! I've decided to answer the call to arms and contribute to the future of the human race."

"That's right, Brother! Let us go together!"

Human cultivators from all over the world gathered and started a rebellion, waiting for Chu Kuangren's order to launch a siege at the Immortal Hall.

Meanwhile, at Kunlun Immortal Hall, the Eternal Immortal Emperor saw the proclamation, and it infuriated him.

"Nonsense! All nonsense! If they want to add more crimes on us, they can always find a something"

"Yeah! Eighty-eight crimes? Those people from the academy can really come up with nonsense when they get a brush in their hands. Eighty-eight? If they want to, they can charge us with eight hundred and eighty-eight crimes! They can distort the truth and turn what's right into wrong!"

"Look at this! Abducting women? What I did wasn't abducting. It was allowing those women to worship a God! It's their honor to be able to serve me!"

"Let them come. I'd like to see how they're going to strike us!"

The Arch Gilded Immortal elites of the Four Divisions and Six Imperial Commanders under the Eternal Immortal Emperor discussed the proclamation.

Everyone was infuriated.

No one had ever challenged the pride of the Immortal Hall for many years.

Now, a proclamation incited the anger in the humans, and with the Hundred Academy fueling the people's anger, the Immortal Hall's reputation had fallen to a historic low.

They were like rats and insects to the humans now.

"Chu Kuangren! He's trying to destroy us physically and mentally!"

"Yeah! We can't let him succeed!"

The more they read the proclamation, the angrier they got.

The Eternal Immortal Emperor ordered them to get prepared for the incoming attack as well.

Then, an energy presence arrived. A man in black robes and mystical Daoist Laws around him walked over.

Everywhere he went, his domineering aura forced the other cultivators to their knees.

"Black Cloud Immortal Emperor, you're here," the Eternal Immortal Emperor said as he looked at the man.

"That's right. I'm here."

"What are your thoughts on it?"

The Eternal Immortal Emperor tossed the proclamation to the Black Cloud of Immortal Emperor.

However, the Black Cloud Immortal Emperor did not even look at it. He simply raised his hand and unleashed his Immortal's Core energy.

Bang!

The proclamation disintegrated.

"There's nothing to read. If they want a war, we'll give them war. The Immortal Hall has stayed strong for so many years. A piece of proclamation won't do anything to our status."

"Chu Kuangren is the Immortal King. With the Immortal King's authority, plus the army that the proclamation might gather, the Immortal Hall might face its biggest challenge yet," the Eternal Immortal Emperor said.

"If one Immortal Hall is not enough, how about two?"

"Do you want to team up?"

"Chu Kuangren has grown too strong. Only when the two Immortal Halls team up can we take him down."

"I understand..." the Eternal Immortal Emperor nodded.

Time flew by, and a month had passed.

On that auspicious day, a fleet of warships steered out of the Hundred Academy and were heading toward the Immortal Hall's territory.

Not only the Hundred Academy, but the Human Emperor Sect, the Heavenly Xing Tribe, and Holy Violet Emperor Planet also sent fleets of warships out.

The Immortal World shook.

Chu Kuangren had made his move.

Other than the forces Chu Kuangren gathered, the human cultivators from all over the Immortal World formed a volunteer army as well.

They had never dared to go against the Immortal Hall before that.

Yet now, under Chu Kuangren's lead, the volunteer army charged toward the Immortal Hall bravely, enraged but hopeful.

The power of the combined army was so strong that it could shift the world's hierarchy of power forever!

Outside Kunlun Immortal Hall, the Heavenly Thirty-Three Layer Formation had been activated. Countless mystical runes formed a barrier around the Immortal Hall, making it a formidable fortress.

Chu Kuangren, however, was not surprised by the formation.

"The Heavenly Thirty-Three Layer Formation is indeed a strong one, but it's far from enough from stopping me."

He pointed his sword hand sign forward, and endless spiritual qi from the realm gathered at the tip of his finger. Then, the Immortal King's authority and his Immortal's Core energy fused into a massive sword shadow that he slashed forward.

A deafening blast erupted upon collision and tore the void apart.

The fragments of the shattered formation were all over the realm.

The dazzling energy from the formation painted the sky in rainbow colors. It was beautiful to the eyes but contained intense killing intent.

The soldiers of the Immortal Hall behind the formation instantly disintegrated.

The Heavenly Thirty-Three Layer Formation was destroyed!

The Eternal Immortal Emperor was shocked when he saw the scene, and his eyes widened in fear. "Such a terrifying power! So, is this the power of the Immortal King?"

"One slash was all it took for him to destroy the Heavenly Thirty-Three Layer Formation? Not even Xing Tian or the Ape Forefather could do it back then."

"Chu Kuangren is much more dangerous than the two of them combined."

"He has only destroyed the defensive part of the formation. When he sets foot in the Immortal Hall, he will have to face the true power of the Heavenly Thirty-Three Layer Formation," Immortal Emperor Wu Ming said.

Beside him were the Embodiers from both Immortal Halls.

Each one of them could lead a strong force on their own, but now, they had gathered just to fight a single person.

Today would be the most important day for the two Immortal Halls!

Chapter 1836: The Heavenly Gate Garrisons, The Immortal-Slaying Platform, You Guys Can Kill No One

Outside the Kunlun Immortal Hall, Chu Kuangren smashed through the Immortal Hall's Thirty-Three Layer Heaven and caused the thirty-three-layered line of defense to explode!

The might of the sword attack was so powerful but exciting at the same time!

Many cultivators gained their confidence after seeing the power of the sword attack.

"As long as the Immortal King is here, we will surely win the battle!"

"You're right. The Immortal King is invincible!"

"I'd like to see who can go against the Immortal King!"

"Attack!"

Standing on a warship, Chu Kuangren retracted his Immortal's Core. Then, he raised his hand and waved.

Gu Huang, who was not far from him, understood what he meant and yelled, "All men of the Human Emperor Sect, kill them for the sake of the human race!"

All Human Emperor Sect's disciples dashed forward and led the battle!

Although Chu Kuangren had destroyed the thirty-three-layered line of defense, many of Immortal Hall's soldiers managed to survive.

Those people immediately organized their troops to fight with the Human Emperor Sect's disciples.

The two parties were like two torrents colliding with a great force before they started to attack each other. The rays of various Immortal Techniques and divine abilities were reflected in the void.

"The opportunity for the Heavenly Xing army to avenge their founding forefathers has come!" Xing Cangfeng roared angrily.

With that, the Heavenly Xing Tribe people rushed out. Xing Wangu was the first to dash out with a huge axe swinging in his hand. A terrifying energy fluctuation spread and shook the stars.

A large number of cultivators fell when the axe was swung down.

Apart from the people from the Human Emperor Sect and Heavenly Xing Tribe, the human volunteer army also made their move.

"Want to destroy my Immortal Hall? In your dreams!"

The Immortal Hall's Four Division Army dashed out.

Wind, thunder, flame, water, and the energies of several attributes erupted, forming Four Mystical Formations that were mighty powerful.

Besides the Kunlun Immortal Hall's Four Division Army, the East Sovereign Immortal Hall's Imperial Spirit Army also arrived at the scene.

Magnificent spiritual chimes reverberated through the realm.

The Imperial Spirit Army and the Four Division Army once again joined hands to fight against the Human Emperor Sect, Heavenly Xing Tribe, and various human volunteer armies.

"Sure enough, the two great Immortal Halls have joined forces," Chu Kuangren said calmly. He was not surprised at all.

Jue Wushen walked forward and approached him. "King, I'll make my move."

"Alright."

Chu Kuangren nodded.

With that, Jue Wushen stepped forward and arrived on the battlefield.

The Holy Violet Crown appeared above his head and the Celestial Demon qi started surrounding him as he channeled the Chaos Celestial Demon Physique's energy to its limit.

The attack was so terrifying that everywhere it struck, everything in the universe was reduced to ashes!

Following Jue Wushen's attack, the Holy Violet Emperor Planet's army that came with him also made their attacks.

An even more brutal killing broke out!

However, it was not the end yet.

Chu Kuangren raised his hand and punched the void. Horrifying Immortal's Core energy gushed out like a raging torrent and hit that particular void, causing the realm to crack inch by inch.

Amidst the treacherous Yin qi, a majestic Hell's Gate emerged!

Countless Underworld Soldiers charged forward, while millions of troops in the Underworld Terracotta Army, Ten Hellion Temple Kings, Taishan Magistrate, and many more joined the battlefield.

However, that was not the most shocking scene.

At that moment, three figures walked out of Hell's Gate proudly!

Each of them was surrounded by Daoist law energy so powerful that the cultivators on the battlefield almost suffocated.

The three of them were Embodiers!

"There are three Embodiers in the Underworld!"

"My goodness. Chu Kuangren has been hiding them too well."

The trio that walked out of the Hell's Gate was the Underworld Embodiers, namely the High Priest, Luyou, and Yanluo Forefather.

As soon as they made a move, a terrifying aura instantly filled the universe.

Even the Immortal Hall's Embodier could not help but widen his eyes in fear.

"Chu Kuangren's hidden power is not to be underestimated."

"Indeed. Not to mention the Celestial Demon Tribe, but he has three Embodiers obey him as the Underworld Ghost Emperor!"

"The Living World and the Underworld were separated, so it was difficult for the Underworld Embodiers to enter the Living World. However, things are different now that Chu Kuangren is the Underworld Ghost Emperor and the Immortal King. He controls both the living and dead worlds, so he can allow the Underworld Embodiers descend into the Living World."

"Yeah. Things are getting trickier."

A few of the Immortal Hall's Embodiers looked at each other solemnly.

"Don't worry. The Immortal Halls have a powerful background. If he dares to attack us, we will give him a taste of our power!" Immortal Emperor Wu Ming snorted.

The rest of the people felt a little more relieved when they thought of the preparations they had made.

The battle was in full swing, but the three Underworld Embodiers did not join the battle immediately after they appeared.

Their eyes glowed like lightning as they stared at the depths of the Immortal Hall.

As Embodiers, their senses were incredibly powerful. They could sense that in the depths of the Immortal Hall, there were several existences whose cultivation level was not inferior to theirs. In fact, those people might be even more powerful!

Once they made a move, the opponents would act too.

"The Immortal Hall's background is indeed extraordinary."

"Yeah. There are at least five Embodiers hidden in the Immortal Hall!" Yanluo Forefather said solemnly.

Then, he looked at Chu Kuangren, wanting to see his reaction.

However, Chu Kuangren seemed to have expected it. Instead of being shocked, he watched the battlefield calmly while calculating the casualties.

"Lan Yu, Lil Red, and Honghua, go help out Wushen and speed up the process of invading the Immortal Hall," said Chu Kuangren.

"Alright."

Lan Yu and company took action. With their current strength that was comparable to a Great Perfected Arch Gilded Immortal, they would be three great killing weapons once they joined the battle.

They were invincible whenever they went, and none could stop them.

On top of that, Chu Kuangren released the Desire Flower and Hua Wuai to help them.

They were the most terrifying existences under the level of an Embodier, and the victory seemed to be Chu Kuangren's with them joining the battle.

"Go to hell!"

As Shang Honghua thrust her dragon lance forward, the extremely violent Twin Dragon power swept out and killed several Arch Gilded Immortals in an instant!

Lan Yu and Chu Hong were not to be outdone as well.

Their Holy Light energy and Phoenix Flame energy raged on the battlefield, and only a few people could take the attacks.

The battle was fierce, but the human volunteer army was constantly advancing. Soon, they arrived before an incomparably huge Heavenly Gate, which was the entrance to the Immortal Hall!

As soon as they entered the gate, they could attack the Golden Dragon!

Two men in silver armor were standing under the Heavenly Gate. One of them was holding a sword with an imposing aura of an Great Perfected Arch Gilded Immortal, while the other man was holding a huge saber with a body full of ferocious qi!

They were both the Heavenly Gate Garrisons!

"Those who invade the Immortal Hall will die!"

The man holding the sword yelled, and the terrifying sword qi gushed out like a raging wave!

The other man also yelled angrily before slashing his saber to release a surge of majestic saber qi.

Then, the saber qi and sword qi interweaved in the void and transformed into a platform engraved with countless mysterious runes.

It was the Immortal Hall's Supreme Treasure... The Immortal-Slaying Platform!

Boundless murderous qi spread as soon as the Immortal-Slaying Platform emerged. The platform was vaguely surrounded by all kinds of evil ghouls and unjust souls that were howling and roaring!

The scene took everyone aback.

Even Embodiers were afraid when they sensed the energy that the Immortal Hall had released.

"You guys can kill no one without my permission!"

Unparalleled After Ten Consecutive Draws

Chapter 1837: All Forces, Nine Embodiers, The Real Gift

As soon as the Immortal-Slaying Platform emerged, boundless murderous qi filled the universe!

It was a top-notch Murderous Supreme Treasure and also a place where the Immortal Hall killed criminals. Since ancient times, it had been contaminated with many Immortals' blood, including the Arch Gilded Immortals and Embodiers!

The murderous qi locked onto the volunteer army when the Immortal-Slaying Platform appeared. If the platform fell, at least thirty percent of the volunteer army would be wiped out.

Even a Great Perfected Arch Gilded Immortal might not be spared!

"You guys can kill no one without my permission!"

At that moment, an indifferent voice suddenly sounded.

It was Chu Kuangren.

Just when the Immortal-Slaying Platform was about to fall, Chu Kuangren's Immortal Core energy turned into a huge palm to grab the entire platform.

Kaboom!

The terrifying murderous qi instantly hit Chu Kuangren's huge Immortal Core hand and tried to break free!

However, Chu Kuangren snorted, and an even more domineering power erupted from it!

Then, the murderous qi in the air was released, and the Immortal-Slaying Platform fell to the ground after gradually losing its Immortal Sparks!

The impact of the Immortal's Core caused the two Heavenly Gate Garrisons to fly backward, and their face turned extremely pale.

"He managed to grab the Immortal-Slaying Platform with one hand. This is the Immortal King's power!"

"Chu Kuangren, what a terrifying existence!"

The Heavenly Gate Garrisons gulped, and their eyes filled with horror.

At that moment, Chu Kuangren's figure slowly descended from the sky.

The frightening aura covered all directions like a tide, and the entire battlefield fell into a dead silence due to his arrival. No one dared to speak a word.

As Chu Kuangren landed on the Immortal-Slaying Platform, the murderous qi immediately subsided and dared not reveal itself for fear of disturbing the supreme Immortal King!

Although the Immortal-Slaying Platform could slay Immortals, none of the weapons in the Immortal World dared to aim itself at the Immortal King!

Chu Kuangren looked at Jue Wushen next to him and said indifferently, "Wushen, I ruined your dais during the Celestial Demon Crowning, and I said I would pay you with an Immortal-Slaying Platform."

Upon hearing that, Jue Wushen was stunned.

Memories of decades ago slowly emerged in his mind, and he smiled.

"Thank you for the reward, my King."

"Haha. It's not a reward but an apology." Chu Kuangren laughed.

Soon, a proud look appeared on Jue Wushen's face. In the Immortal World, he was probably the only one who had gotten an apology from the Immortal King.

At the thought, he was even more devoted to Chu Kuangren's.

It was worth it for him to follow a king who remembered a casual remark until today and made sure he fulfilled his promise.

"Everyone, let's flatten the Immortal Hall now!"

As soon as Chu Kuangren said that, he stepped forward to release a surge of terrifying Immortal's Core energy. In just a moment, the impact of the Immortal's Core turned both the Heavenly Gate Garrisons into mists of blood, and their blood splattered on the Heavenly Gate!

Chu Kuangren took the lead and stepped into the Immortal Hall!

The cultivators rushed in one by one. Awaiting them ahead was a larger army with better weapons!

"It looks like you guys are ready to fight."

Chu Kuangren stood with hands behind his back. Then, he rose into the sky, and his berserk Immortal's Core surged with the will of the Immortal World, which made every Immortal Hall soldier feel pressured.

Now, they were facing the Underworld Ghost Emperor, the Living World's Human Emperor, and the Immortal World's Immortal King!

Only a few people throughout the ages could compare to such an extremely noble existence.

"Chu Kuangren, you have finally come!"

Several figures were standing in the air before the army, and their bodies were filled with endless Immortal Sparks.

They were the Immortal Hall's Embodiers, namely the Kunlun Immortal Hall's Immortal Emperor Wu Ming, Eternal Immortal Emperor, and Dragon Shadow Immortal Emperor!

The East Sovereign Immortal Hall's Black Cloud Immortal Emperor and White Moon Immortal Emperor were also there.

The one who spoke was the Immortal Hall's Immortal Emperor Wu Ming, the person who tried to kill Chu Kuangren during the Ji clan's battle.

"Are there just a few of you? What about the rest? Why not ask them to show up too?" Chu Kuangren asked indifferently while standing with hands behind his back.

Who?

Who else?

Everyone was slightly puzzled.

The Underworld Embodiers behind Chu Kuangren, namely the academy's Mister Zhang, the Human Emperor Sect's Gu Huang, and Xing Cangfeng's expressions were solemn.

It was because as soon as they entered the Immortal Hall, they noticed several unusual auras hidden in the void.

These auras were so well hidden that they did not notice them until they entered the Immortal Hall.

"Amitabha. Immortal King, do you know you've committed a heinous sin for attacking the Immortal Hall?"

An indifferent voice sounded.

In the void, a Buddha dressed in a golden cassock was sitting down with his legs crossed on a golden lotus altar.

A pure, holy, and peaceful aura soon permeated the air.

"It's someone from the Buddhist world!"

The High Priest furrowed his brows.

The Buddhist Light on the person's body made those from the Underworld uncomfortable.

However, Chu Kuangren stared in another direction after glancing at the person.

In another part of the void, another figure walked out slowly and looked at Chu Kuangren with extreme hatred in his eyes.

"It's you, the Ji clan's Embodier!"

Mister Zhang recognized the person, and his expression became stern.

The man was the Embodier who escaped from the Ji clan back then.

Besides that, a charming woman with a pair of strange violet eyes walked out beside the Ji clan's Embodier, releasing an eerie aura.

She was an extraordinary Embodier.

Chu Kuangren was very familiar with the aura. "Supreme Overlord Soul, does your Soul Restricted Area want to intervene in this battle too?"

The Supreme Overlord Soul smiled charmingly. "I have no choice. My group of kids begged me to take action, saying that you can't be the Immortal King, or the Soul Restricted Area will never be in peace. Their nagging gave me a headache, so I have to come."

"Not only the Supreme Overlord Soul but I, the Heavenly Dao King, am here too!"

A majestic Heavenly Dao aura descended from the sky.

Soon, a domineering-looking middle-aged man walked out of the void. He was the Heavenly Dao King from the Heavenly Spirit Restricted Area!

In the past, Chu Kuangren had destroyed the Heavenly Dao Sect, which was the force cultivated by the Heavenly Dao King. Then, he killed the Heavenly Spirit Restricted Area Young Overlord, Shi Jiuqiao.

There was great enmity between Chu Kuangren and Heavenly Spirit Restricted Area, so the Heavenly Dao King came at the invitation of the Immortal Hall.

Seeing several Embodiers emerge one after another, everyone immediately felt pressured.

"The Buddhist world, the Restricted Areas, and the Ji clan's Embodier... With the four more Embodiers, the Immortal Hall has nine Embodiers now! How can one fight in this battle?"

"Can the Immortal King handle it?!"

Everyone looked at Chu Kuangren, but his expression was calm. "Very well. Everyone should be here, and it's just in time for me to... wipe them all out at once!"

As he stepped forward, endless Immortal Sparks surged from his body, and the terrifying Immortal King's aura spread!

Then, a long dark-colored robe fell on Chu Kuangren's body, a crown landed on his head, and a huge seal suspended in the air. The three treasures of the Immortal King had appeared!

At that moment, Chu Kuangren revealed the full Immortal King's aura!

He seemed to be as powerful as the nine Embodiers.

Everyone gulped at the scene.

"This is the real Immortal King!"

"We may probably win this battle!"

Immortal Emperor Wu Ming sneered. "Chu Kuangren, so what if you possess the Immortal King's authority? Have a look at the real gift that my Immortal Hall has prepared for you!"

[Unparalleled After Ten Consecutive Draws](#)

Chapter 1838: The Immortal King's Authority Is Disconnected, The Blood Ocean Descends

"Have a look at the real gift that my Immortal Hall has prepared for you!" Immortal Emperor Wu Ming grunted.

Following that, countless runes emerged in the void one after another, instantly covering the universe with them.

Powerful isolation energy erupted!

In a split second, the thirty-three layers of Void Barricade emerged and enveloped the entire Immortal Hall, isolating the Immortal World's laws outside it.

Chu Kuangren felt that his Immortal King's authority was rapidly weakening, and he could not maintain the power of the three Immortal King's treasures.

"Chu Kuangren, under the Heavenly Thirty-Three Layer Formation, your connection with the Immortal World's laws will be deactivated. Let's see how you can fight us now!" Immortal Emperor Wu Ming said while laughing.

Upon hearing his words, everyone's expression sank. They quickly looked at Chu Kuangren and noticed his three treasures were faintly visible and his Immortal King aura was weakening rapidly.

The scene terrified everyone.

After all, the Immortal King's authority was their most important reliance in the battle against the Immortal Hall!

How could they fight without the Immortal King's authority?

"Chu Kuangren, are you satisfied with this gift?" Immortal Emperor Wu Ming asked while looking at Chu Kuangren.

He was eager to see Chu Kuangren panic and afraid.

Unfortunately, to his disappointment, Chu Kuangren grinned and said indifferently, "Is this your final trump card?"

"Heh. Chu Kuangren, stop acting. Without the Immortal King's authority, you're just an Arch Gilded Immortal, and any of our Embodiers can defeat you!" Immortal Emperor Wu Ming raised his hand to channel his Immortal's Core energy before he pushed his palm down!

Soon, Daoist law emerged, and a domineering aura flowed in the air!

At that moment, the High Priest stepped forward and released the same Daoist law energy. "You'll have to ask for our permission first before hurting the Ghost Emperor!"

Kaboom!

When the two Daoist law energies collided, explosions immediately erupted in the surrounding area.

The rest of the Embodiers followed suit.

Meanwhile, the Buddha sitting on the lotus altar, who was the Great Thunder Temple Ruler, slowly spread his palm open. Soon, many monks rushed out from the towering palaces that emerged in his palm. They were monk soldiers that possessed the Gilded Immortal cultivation base.

"Buddhist Kingdom In the Palm!"

A glint flashed in Chu Kuangren's eyes as he recognized his opponent's cultivation technique.

The Buddhist world's Buddhist Kingdom In the Palm and the Daoist School's Enchanted Sleeve were the two well-known spatial cultivation techniques in the Immortal World.

"You're quite sharp. In the current Buddhist world, I, Buddha Lei Yin, am the only person who can cultivate the Buddhist Kingdom In the Palm to such a level," Buddha Lei Yin said with a faint smile.

Then, he raised his hand and slammed it toward Chu Kuangren. His huge golden hand was so powerful that it came crashing down like a spiritual mountain!

However, Luyou took action by releasing a majestic Yin qi to block Buddha Lei Yin's attack.

The Ji clan's Embodier dashed toward Chu Kuangren but was stopped by Mister Zhang!

The three Embodiers, namely Xin Cangfeng, Gu Huang, and Yanluo Forefather fought against their respective Immortal Hall Embodiers.

Only six Embodiers were on Chu Kuangren's side, but the Immortal Hall had nine Embodiers.

None from Chu Kuangren's side could stop the remaining three Immortal Hall's Embodiers, who were Eternal Immortal Emperor, Black Cloud Immortal Emperor, and White Moon Immortal Emperor.

In order to prevent more troubles in the future, Eternal Immortal Emperor took the lead and slammed his palm at Chu Kuangren!

"Green Lotus' Destruction Light!"

Chu Kuangren mobilized his Immortal's Core and the remaining Immortal King's authority in his body to activate the Chaos Green Lotus to block the blow.

However, the great force from the Embodier's attack still pushed him back more than a dozen kilometers.

Seeing that, the eyes of the Eternal Immortal Emperor and the others lit up.

"Without the Immortal King's authority, you are like a cattle waiting to be slaughtered. Chu Kuangren, go to hell!" Eternal Immortal Emperor sneered.

In the meantime, a light display screen was suspended somewhere in the void in the universe.

The light display screen was displaying the fierce battle in the Immortal Hall at that moment, and two figures were watching the battle from the light display screen.

One was in a long green robe and was surrounded by chaotic currents, whereas the other was in a violet Daoist robe with Daoist Rhymes circulating him like he was an Immortal Dao thought form.

Those two people were the Celestial Demon Tribe's most powerful cultivator, Wu Han, and the strongest man who originated from ancient immortal times, the Daoist Progenitor!

At that moment, the elite of the current era and the elite of the past era were watching the fierce battle in the Immortal World. After seeing Chu Kuangren falling to a disadvantage, the Daoist Progenitor smiled and said, "Are you Celestial Demon Tribe planning to just sit back and watch Chu Kuangren fight against the Immortal Hall?"

"This is his request," said Wu Han.

"It seems like he's in a disadvantageous position."

"He should be better than this."

"Without the Immortal King's authority, he is no different from an Arch Gilded Immortal."

"He won't fight uncertain battles."

The Daoist Progenitor smiled and said, "Although the Immortal Hall is guilty, it's a mess both in and out of the Pan Gu Universe. It can't suffer any more losses."

"I've made some arrangements for them."

Wu Han pointed at a huge whirlpool in the universe. "That is the most suitable place for them."

"We can make full use of it."

The Daoist Progenitor nodded and continued watching the battle.

Somewhere in the Immortal World, a figure in white was approaching an altar engraved with countless mysterious runes and emanating an extraordinary energy fluctuation.

Moreover, the location of the altar was right below the Immortal Hall.

"Oh dear, Immortal Hall. The Heavenly Thirty-Three Layer Formation is indeed mysterious and extraordinary, but I wonder if it can withstand the impact of the... Blood Ocean!" the figure in white murmured.

He was Chu Kuangren's clone.

He raised his hand and took out a mirror filled with faint white Immortal Sparks. It was one of the Ten Great Godly Weapons, the Kunlun Mirror!

"Rise!"

As the clone raised the mirror high up into the sky, majestic spacetime energy erupted!

The runes on the altar were filled with endless blood rays, and a blood-colored light beam shot up into the sky, penetrating the void to attract those existences in the dark.

Soon, a blood-colored whirlpool emerged in the sky above the Immortal Hall.

In the whirlpool, countless runic seals appeared and attacked the Immortal Hall's Heavenly Thirty-Three Layer Formation!

As soon as the two forces collided, the entire space in the Immortal World trembled!

In the Immortal Hall, those Embodiers who were fighting looked at the huge blood-colored whirlpool high up in the sky with grim expressions on their faces.

The blood-colored seals were floating in the whirlpool. They could vaguely see the ferocious qi and the boundless... Blood Ocean!

"This is the... Nether Abyss Blood Ocean!"

"How is this possible? Why is the Nether Abyss Blood Ocean here?!"

The Eternal Immortal Emperor and others were baffled.

Then, they looked at Chu Kuangren, who appeared to calm, unbelievably.

"Chu Kuangren, what have you done?!"

"Look below the Immortal Hall!"

Someone noticed the altar below the Immortal Hall and also the clone above the altar that looked exactly like Chu Kuangren.

Everyone instantly confirmed that the matter had something to do with Chu Kuangren.

"Why is there another Chu Kuangren?"

"It can't be him. That is his clone!"

"The altar is connected to the Nether Abyss Blood Ocean and the Kunlun Mirror!"

"How on earth did he do that?"

The Embodiers had no idea how Chu Kuangren managed to make the Blood Ocean appear.

Moreover, why the Blood Ocean?

What was he going to do?

"That's bad. The Heavenly Thirty-Three Layer Formation is about to be destroyed!"

Soon, the Blood Ocean attacked the Heavenly Thirty-Three Layer Formation insanely. No matter how powerful the formation was, it still disintegrated and collapsed under the impact of the Blood Ocean!

[Unparalleled After Ten Consecutive Draws](#)

Chapter 1839: The Real Green Lotus Destruction Energy, Killing Three Embodiers With One Move

The impact from the Blood Ocean shattered the Thirty-Three Layered Heaven!

Following the explosion of the Heavenly Thirty-Three Layer Formation, the connection between Chu Kuangren and the Immortal World Laws formed again. With that, the Immortal King's domineering might swept outward!

"The real battle begins now!"

Chu Kuangren looked at Eternal Immortal Emperor and others and took a step forward. An endless domineering aura gushed out like a tide and covered all directions!

As the Blood Ocean rushed into the Immortal Hall frantically, countless Blood Divine Daoists and Ashura Tribe soldiers appeared one after another.

"We're here to assist the Blood Ocean Ruler!"

The four Ashura Kings soared into the sky.

Boundless ferocious qi filled the space with the strength of a Great Perfected Arch Gilded Immortal.

There were also the Four Great Demonic Generals of the ancient Immortal times. Compared to the Ashura Kings, their strength was close to the half-step Embodier.

The two great Immortal Halls felt even more pressured against those eight people who led four hundred and eighty million Blood Divine Daoists and the countless Ashura.

"The Blood Ocean Ruler? Chu Kuangren is also the Blood Ocean Ruler!"

"My goodness. How many identities does he have?"

"The Underworld Ghost Emperor, the Living World's Human Emperor, the Immortal World's Immortal King, the Blood Ocean Ruler... Any one of these identities is highly honorable, but they belong to one person now. I can't imagine how Chu Kuangren did it."

"Don't forget he's the Celestial Demon King too, and he has the Celestial Demon Tribe's support!"

The expression of the Immortal Hall's Embodier was grim.

They could defeat the Human Emperor in the past, but now, they were facing someone more than just a Human Emperor!

He was the Ghost Emperor, the Blood Ocean Ruler, and the Immortal King...

F*ck!

Several Embodiers cursed secretly.

"Let's think of a way to kill Chu Kuangren first!" Eternal Immortal Emperor said coldly.

The current situation was extremely unfavorable to them as Chu Kuangren had not only regained his Immortal King's authority but also obtained the Blood Ocean's help.

They had to kill the king before exterminating the thieves!

As long as they killed Chu Kuangren, it would be easy for them to deal with the rest.

However, it was not easy to put words into action because it was difficult for them to deal with Chu Kuangren, who had regained the Immortal King's authority.

Soon, Eternal Immortal Emperor unleashed a punch, and Daoist law energy emerged.

Unfortunately, Chu Kuangren dispelled the punch attack easily by activating his Immortal King's authority.

However, the Black Cloud Immortal Emperor and White Moon Immortal Emperor also made a move.

Daoist law circulated in the air, and their Embodiers' might erupted at its limit.

"Black Cloud Suppressing Heavenly Star!"

The Black Cloud Immortal Emperor formed a mysterious technique with his hand. Soon, the Daoist laws interweaved and turned into a large black cloud that charged forward. The energy contained in it could almost crush a galaxy.

Instead of retreating, Chu Kuangren punched forward and shattered the black clouds all over the sky!

On top of that, the punch landed on the Black Cloud Immortal Emperor's body and blew half of it into pieces!

Countless Daoist laws started escaping from his body.

"What a terrifying blow!"

The Black Cloud Immortal Emperor's face was ashen.

Then, Daoist laws emerged on his body again, and his blasted body soon returned to normal.

That was the mystery of the Embodier Realm.

As long as their Dao existed, they were almost immortal. To kill an Embodier, one would have to destroy a Dao.

Therefore, it was easy to decide the winner in an Embodier battle but not kill them.

"Chu Kuangren, we're Embodiers! Although you possess the Immortal King's authority, you're not an Embodier, and you can't kill us!" Eternal Immortal Emperor said.

That was their greatest confidence in being Embodiers.

"Are you sure?"

Chu Kuangren stepped forward and appeared before Eternal Immortal Emperor. Then, he smashed out the Immortal King Seal in his hand!

The Immortal King's authority did not hold back its power!

With a bang, the seal blasted Eternal Immortal Emperor away, turning him into countless Daoist laws that dispersed outward.

Just when he wanted to recover himself, he noticed that the Immortal King Seal energy was suppressing and wearing away his Dao!

"How is this possible?!" Eternal Immortal Emperor was frightened.

His Dao was wearing away rapidly, and it would not be long before it was completely destroyed!

Chu Kuangren possessed the power to kill Embodiers!

"This is bad. Stop him!"

Black Cloud Immortal Emperor and White Moon Immortal Emperor joined forces to attack Chu Kuangren. Soon, their Daoist law energies converged into a powerful torrent that gushed out.

Following a deafening explosion, the Immortal King Seal was temporarily repelled.

Eternal Immortal Emperor seized the opportunity to escape by taking the form of a human. He looked at Chu Kuangren with lingering fear.

"Be careful. Don't allow his Immortal King Seal to suppress you. Otherwise, even an Embodier will run the risk of dying!" Eternal Immortal Emperor said.

The other two nodded. They, too, were afraid when they saw the scene of the Immortal King Seal wearing down Eternal Immortal Emperor's Dao just now.

"Pass me the sword!" Eternal Immortal Emperor grunted coldly.

In the depths of the Immortal Hall, a divine sword shot out from the void and landed on his palm.

It was an Embodier Weapon with countless Daoist laws engraved on it.

The moment Eternal Immortal Emperor held the Embodier Weapon, his aura rose to a higher level.

Black Cloud Immortal Emperor and White Moon Immortal Emperor also revealed their trump cards.

The three of them joined forces to attack again.

"Have you ever seen the real destruction energy?" asked Chu Kuangren.

Immediately after, mysterious Daoist Rhymes emerged from the Green Lotus Mark on his forehead. Then, an incomparably terrifying Green Lotus' Destruction Energy erupted!

Under the buffs of the Immortal King's authority, Chu Kuangren cast the real power of the Chaos Supreme Treasure for the first time!

The destruction energy was mighty.

Everywhere the attack struck, the void collapsed silently. Just a sliver of the energy made everyone present feel as if it was the end of the world.

Eternal Immortal Emperor, Black Cloud Immortal Emperor, and White Moon Immortal Emperor took the brunt of the attack!

At that moment, they, who had been Embodiers for many years, sensed the fear of death for the first time!

"No!"

"Run now!"

The moment the three Embodiers noticed the destruction energy, they lost all thought of defending themselves and wanted to escape!

Unfortunately, the horrifying destruction energy had locked down on the particular space, and howls sounded everywhere.

Having taken the brunt of the impact, the Eternal Immortal Emperor, who had just escaped from the Immortal King Seal, could not avoid death in the end. His Dao was rapidly worn down by the destruction energy and turned into countless orbs that eventually dissipated.

At the same time, the Black Cloud Immortal Emperor and White Moon Immortal Emperor were also shrouded in the Green Lotus's Destruction Light. Just like the Eternal Immortal Emperor, their Dao was also rapidly worn down until they eventually perished!

Chu Kuangren had killed three Embodiers with one move!

Upon witnessing the scene, the entire battlefield instantly fell silent!

The rest of the Embodiers who were fighting stopped and looked at Chu Kuangren with fear in their eyes!

Embodiers were the top-notched existences in the Pan Gu Universe and were difficult to be eliminated. Ever since the ancient Immortal era, only a few Embodiers had been killed.

However, three Embodiers were dead before them.

"W-What kind of power is this?!"

The Embodiers present gulped in panic.

The two remaining Kunlun Immortal Hall's Imperial Emperors, Imperial Emperor Wu Ming and Dragon Shadow Immortal Emperor looked at Chu Kuangren with intense horror.

"It's your turn next."

Chu Kuangren looked at the remaining Embodiers with an indifferent gaze.

However, the entire Immortal World trembled at that moment.

An eerie energy fluctuation spread from the depths of the universe and swept across the entire universe.

Unparalleled After Ten Consecutive Draws

Chapter 1840

In the depths of the universe, an eerie energy fluctuation spread and shook the entire Immortal World.

"This fluctuation..."

As Chu Kuangren narrowed his eyes, his gaze penetrated the Immortal World Barricade and looked into the depths of the universe.

The rest of the Embodiers also explored the source of the change with their own methods.

In the depths of the universe, a huge whirlpool was expanding outward and releasing terrifying spacetime energy.

In the blink of an eye, the whirlpool had expanded to the size of a galaxy.

"What a familiar aura!"

Chu Kuangren's eyes narrowed as he looked at the pitch-black whirlpool. He managed to guess something, and so did the rest of the Embodiers.

"It's the aura of the Void Battlefield!"

"The Void Battlefield is open. This day has finally come!"

"Chu Kuangren, we can't continue fighting like this. If the people from the Alternate Universe take advantage of it, you and I will be sinners of Pan Gu Universe!" Immortal Emperor Wu Ming said loudly.

At that moment, bursts of purple brilliance flowed in the void, while mysterious Daoist chimes reverberated across the universe.

Soon, a figure in a purple Daoist robe appeared before everyone. It was an apparition filled with a vast power!

Everyone was shocked by the scene.

"Who is he?"

"Such an ancient aura... Could he be an existence from the ancient Immortal era?"

While everyone was in doubt, the purple-robed Daoist said lightly, "My name is Hong Jun, and I'm here to mediate the dispute."

Hong Jun?

Everyone gasped at the name.

They were all familiar with that name because the man was the Daoist Progenitor of the ancient Immortal era and an Immortal Dao's existence!

He could be regarded as the greatest existence besides Pan Gu, the pioneer of Pan Gu Universe.

"Greetings from us, Daoist Progenitor."

Immortal Emperor Wu Ming, Dragon Shadow Immortal Emperor, Xing Cangfeng, and even the Supreme Overlord Soul bowed and greeted the Daoist Progenitor.

No one dared to disrespect the ancient supreme existence of the past era.

It was rumored that the seven Primordials of the ancient Immortal times were all his disciples.

He was a well-deserved Daoist Progenitor!

"The Void Battlefield is open, and everyone should work together to deal with external threats. Immortal Emperor Wu Ming and Dragon Shadow Immortal Emperor, the Immortal Halls have been

bullying the human race for so many years. Are you all willing to enter the Void Battlefield now to atone for your sins?" asked Daoist Progenitor.

"Well..."

Immortal Emperor Wu Ming and Dragon Shadow Immortal Emperor furrowed their brows.

The Void Battlefield was extremely dangerous, and even an Embodier had the risk of dying in there. However, they dared not disobey the Daoist Progenitor's order.

Moreover, that was their only chance to survive.

Chu Kuangren could kill them right away if they refused to go to the Void Battlefield!

"We'll obey your order, Daoist Progenitor," said Immortal Emperor Wu Ming.

Chu Kuangren watched from the side and did not interrupt because he received a message from Bei Ming just now, saying that the Daoist Progenitor represented Wu Han's intention.

Wu Han, the Celestial Demon Tribe's strongest elite, was the person who had been supporting Chu Kuangren. Hence, Chu Kuangren must give him the proper amount of respect.

"The Ji clan's Embodier, Supreme Overlord Soul, Heavenly Dao King, and Buddha Lei Yin, you guys have crossed the line by intervening in the battle between the Immortal Halls and Human Emperor. The four of you should go to the Void Battlefield too." The Daoist Progenitor looked at the Supreme Overlord Soul and others.

The four of them dared not object and could only nod in agreement.

"Immortal King, do you have any opinions?"

Daoist Progenitor looked toward the exit.

Chu Kuangren said, "I have no objection to them going to the Void Battlefield, but I have one request."

"Please say it."

"From now on, the Immortal World will no longer have the Immortal Hall. I want the Immortal Hall to leave the Immortal World and never step foot in here!"

As soon as Chu Kuangren said that, Immortal Emperor Wu Ming and Dragon Shadow Immortal Emperor were in an uproar.

Chu Kuangren wanted to remove the Immortal Hall's roots!

The Immortal Hall had been based in the Immortal World for countless years, and almost all of its resources were located in the Immortal World.

The Immortal Hall would exist only in name if it left the Immortal World!

"Chu Kuangren, don't take it too far!"

"Am I?"

Chu Kuangren grinned. "Compared to you guys who have been oppressing the human race for so many years, I don't think it's too much at all. On the contrary, I think I've let you go easy."

"You!"

Immortal Emperor Wu Ming wanted to say something, but he then looked at Daoist Progenitor. "Please say something fair, Daoist Progenitor."

"This is a dispute between the Human Emperor and the Immortal Hall, so I should not intervene too much. Asking the Human Emperor to spare your lives is the most I can do."

Upon hearing that, Immortal Emperor Wu Ming and Dragon Shadow Immortal Emperor were fuming.

It was bullsh*t!

If the Daoist Progenitor intended to help the Immortal Hall, Chu Kuangren could only obey even though he was the Immortal King.

It was clear that the Daoist Progenitor sided with Chu Kuangren!

His intention of saving their lives was nothing more than trying to send them to the Void Battlefield to be conscripted.

With that thought in mind, Immortal Emperor Wu Ming and Dragon Shadow Immortal Emperor could not help but feel sad.

It was awful.

They did not expect their Immortal Halls to end up in this predicament.

"Chu Kuangren, you really are impressive!" Immortal Emperor Wu Ming said in a grim yet helpless tone.

Since the Daoist Progenitor also supported Chu Kuangren, what else could they say?

They could only accept their fate.

Soon, the people of the Immortal Hall evacuated from the Immortal World, while Chu Kuangren and others took all the resources that the Immortal Hall left behind.

Chu Kuangren had won the battle, and the Immortal Hall had become a stepping stone for him to forge his supreme prestige!

In addition, he wanted to reward the Heavenly Xing Tribe, Human Emperor Sect, Nether Abyss Blood Ocean, and other forces for their merits.

As the Immortal King, he also needed to sort out other matters in the Immortal World, such as the affiliated forces left behind by the Immortal Hall. He had to decide whether to eliminate or incorporate those forces...

A series of thoughts ran through Chu Kuangren's mind.

Fortunately, he did not have to handle those matters alone as Gu Linglong was assisting him.

As the Queen of the Firmament Empire, she could handle those matters with ease.

"Next, I shall make arrangements for the Firmament Empire's entry."

Chu Kuangren thought to himself.

Besides, he needed to settle the Void Battlefield, which was the main battlefield for the Central Heaven Universe to invade the Pan Gu Universe. For countless years, many battles between the Central Heaven Universe and Pan Gu Universe had broken out in the Void Battlefield.

Now that the Void Battlefield had been opened, the Central Heaven Universe would surely make its moves.

"Heh. I don't have to worry about this as I can leave the matter to the other me. Other me, I look forward to seeing you again."

Chu Kuangren grinned.

The news of the Void Battlefield opening spread across the entire Pan Gu Universe and all forces were alarmed by it.

Everyone knew that the clash of the two universes was inevitable, and no one dared to be careless as it concerned the survival of the universe.

However, some people did not think the same.

"The Void Battlefield is a place where two universes fight. There must be many Opportunities of Fortune hidden there as many great ones have died there. Perhaps I can find some Opportunities of Fortune to level myself up and compete with Chu Kuangren."

"The current Immortal World is dominated by Chu Kuangren, and there's no chance of winning if I confront him in the Immortal World. Maybe the Void Battlefield is an opportunity."

"I have a hunch that the Void Battlefield may be the place where I improve by leaps and bounds!"

"Only battles can improve my strength!"

Some people wanted to find techniques in the Void Battlefield to compete with Chu Kuangren, while some wished to improve their strength through experiences on the battlefield...

All in all, the emergence of the Void Battlefield attracted all Prodigies and sky-prides.
