Chapter 1931

"Damn, Heavenly Sword!"

A roar sounded beneath the rubble at that moment.

Then, a figure leaped into the sky.

It was the Nether God.

Now, he looked disheveled, with blood stains all over him. The Dao inside his body was buzzing, and the Daoist laws were flowing as they rapidly healed his injuries, which surprised Chu Kuangren a little surprised.

After all, ordinary Supreme God Kings would have trouble recovering from the damages he inflicted upon them using Daoist law alone.

However, as a mere Novice God King, the Nether God could accomplish something that ordinary Supreme God Kings could not. He was no doubt one of the most ancient beings in the universe.

Although he had reincarnated and restarted his cultivation journey, he still had a considerable advantage over others.

"Heavenly Sword, I'll tear you into pieces if it's the last thing I do!"

With a grunt, a death intent was released from the Nether God's eyes, and a mysterious rune flowed around his body.

That was the King's Mark!

With the appearance of the King's Mark, the strength of Nether God's aura started to increase tremendously.

He appeared before Chu Kuangren in a flash, and at the same time, a pitch-black sickle rune appeared in his hand. Strange-looking runes were engraved all over its body, and it was inlaid with a blood-red gemstone that emanated an eerie intent.

"Heavenly Sword, behold the Nether God Sickle!"

"Nether God Art, Heaven Earth Crumbler"

With a great slash forward, a powerful aura that tore through the void erupted.

Chu Kuangren was soon enveloped in the blood-red sickle ray.

He stood his ground as his Void Sword unsheathed itself.

With a clang, he blocked the incoming sickle attack effortlessly and then thrust his sword forward, piercing a bloodied hole in his opponent's shoulder.

"B*stard!"

The Nether God grew more enraged.

He continued swinging his sickle, casting technique after technique in quick succession. His attacks were all targeted toward Chu Kuangren's vital points. The strands of Death Daoist law circled the Nether God, every single one of them strong enough to destroy planets.

However, Chu Kuangren managed to see through every single attack of his.

Chu Kuangren swung his Void Sword, his movements were impenetrable, and he blocked all of the Nether God's attacks with ease.

Besides that, he would casually strike back. Seeing how exquisite his swordplay was, even the Nether God was powerless despite trying his best to resist it.

That sword would always appear at the most opportune spot, either repelling the Nether God's attack or inflicting damage to him.

After a while, Chu Kuangren was still unscathed, even though he did not move much.

Instead, the Nether God was now riddled with sword cuts and wounds all over his body. Blood was flowing non-stop all over him.

The difference in their powers was evident!

Chu Kuangren had overpowered the Nether God so effortlessly!

"Six Cursed Seals, Cursed Body, Cursed Grudge, Cursed Spirit, Cursed Life!"

At that moment, the Nether God moved back several meters.

He had unleashed the Nether King Tribe's strongest technique, the Six Cursed Seals.

The Six Cursed Seals was a forbidden technique even in the Nether King Tribe, and anyone who attempted to learn it would have to bear the risk of their souls being destroyed.

Only a handful of individuals had succeeded in cultivating that technique since ancient times.

The last cultivator who learned that technique was the Nether King Tribe's Prodigy, Wu Tianming. Unfortunately, he was killed by Chu Kuangren in the end.

However, the Nether God had no reason to worry as he had cultivated the Six Cursed Seals without trouble. After all, he was the one who created that cultivation technique in the first place.

Facing the incoming cursed seals, Chu Kuangren's body trembled. Waves of Daoist chimes containing vast Immortal's Core energy were automatically released from the Dao inside his body, instantly disintegrating the Nether God's attacks.

"Have you ever wondered how it feels like to be attacked by your very own cursed seals, Nether God?" Chu Kuangren said lightly.

He made a sword hand sign and immediately unleashed a mysterious cultivation technique. It was the same Six Cursed Seals technique the Nether God used!

Cursed Spirit, Cursed Body, Cursed Life, Cursed Grudge...

Several Cursed Seals flew toward the Nether God and immediately landed on his body. The most terrifying cursed energy erupted the next instant!

"You're using the techniques I created against me, huh? You're too naïve, Heavenly Sword!"

The Nether God sneered in disdain. Then, he swung his sickle at himself, releasing a blood-colored sickle ray toward his body.

Just like that, all the Cursed Seals were shattered!

"My next technique will mark the end of this battle!"

The Nether King snorted coldly.

As he narrowed his gaze, a strange light flashed in his eyes, and a sinister energy fluctuation spread everywhere from his eyes.

Meanwhile, on the other side, Chu Kuangren also felt a strange energy coming toward him. In the blink of an eye, he was completely enshrouded by it.

"Oh, it's soul energy."

Chu Kuangren's gaze narrowed upon noticing what it was.

The view of his surroundings changed the next instant.

All light was consumed, leaving behind an endless darkness. From the darkness, there came eerie and frightening roars.

It was as if there were countless ghouls creeping within it.

"Welcome to my Abyss of Darkness, Heavenly Sword!"

An indifferent voice rang out.

The Nether God walked out from the darkness. He was wearing long lavish black robes with a crown on his head, and countless ghouls around were kneeling before him.

It seemed as if he was the true god of darkness itself!

"An enchanted boundary created from soul energy, huh? It's a little interesting," Chu Kuangren said.

"The Abyss of Darkness is my strongest divine ability. As long as you're inside here, your soul will eventually fall under my control!" the Nether God said.

The moment he said that, countless ghouls began to appear from the darkness around him, and they all immediately charged toward Chu Kuangren.

They were seemingly hellbent on tearing his soul into pieces.

"Unfortunately, you have underestimated the Heavens," Chu Kuangren said.

The moment he stepped forward, endless dazzling Immortal Sparks erupted from his body, lighting up the darkness!

That was the soul light!

Under the impact of the soul light, the ghouls were all wiped out without any resistance, like snow melting under the sun.

The very sight of that stunned the Nether God. He could not believe his eyes. "How did your soul realm reach this level?"

"This is impossible!"

He did not know that Chu Kuangren's soul realm was one step ahead of his cultivation level, and it was very close to reaching the Soul Chaos Realm now.

Therefore, using soul techniques against him was a foolish decision.

However, no one could blame the Nether God for that.

Besides Death Dao, he was skilled and took pride most in his soul divine abilities. Furthermore, being one of the individuals with the most powerful soul energy, the Nether God was invincible using that technique back then.

It was no surprise that he would use the same technique against Chu Kuangren.

However, never would the Nether God have imagined that Chu Kuangren's soul energy was more powerful than his.

"Take this!"

Amidst the endless Immortal Sparks, Chu Kuangren made a sword hand sign, and his soul energy formed into a sword shadow. "O' Heavens Witness Me, Beyond Heavenly Sword!"

When the attack was unleashed, the Nether God could not dodge at all.

His soul immediately suffered a grave damage!

Large amounts of dispersed soul energy headed toward Chu Kuangren, boosting his soul energy a little.

He was slightly surprised by that.

"Interesting. So if one's soul is critically damaged here, their soul energy will be absorbed by their opponent?"

Chu Kuangren could not help but laugh.

Would that not mean that the Nether God was offering himself up on a silver platter to him?

He made another sword hand sign and was about to kill the Nether God's soul. However, the surroundings immediately changed, and Chu Kuangren's consciousness soon returned to the Ancient Luo King Planet.

It was the Nether God who dispelled his divine ability when he noticed that things were going south.

He let out a disappointed sigh.

"Arghh!"

Just then, a miserable howl sounded from the other side.

It was the Nether God. Having been seriously injured by Chu Kuangren, he was now holding his head and screaming in pain.

Most of the onlookers were puzzled by that sight. From their perspective, both cultivators were not doing anything moments ago, so how was the Nether God suddenly critically injured?

However, some God Kings had grim looks on their faces, while some had looks of disbelief on faces.

"The Heavenly Sword has critically injured the Nether God's soul!"

Chapter 1932: Refining the Nether God's Memories, a Giant Pair of Purple Doors

"Unbelievable! According to my knowledge, the Nether God is the individual most skilled in Soul Dao in the Central Heaven Universe. How can he possibly lose to the Heavenly Sword in terms of Soul Dao?"

"Does the Heavenly Sword really not have any weakness at all?"

"To think that this universe has produced such an overpowering Outlier!"

Many God Kings lamented as they realized it was getting harder and harder to see through Chu Kuangren.

Meanwhile, Chu Kuangren was sensing the changes in his soul after absorbing some of the Nether God's soul energy.

In his mind, he now had some of the Nether God's memories.

However, those memories were fading away quickly.

He would have to refine those memories fast if he wanted to learn more about them.

"It looks like I'll have to end this battle now," Chu Kuangren murmured.

At that moment, King Luo and Wu Xuelong stepped forward and protected the Nether God.

"Don't take it too far, Heavenly Sword. The Nether God is not only one of the Nine Kings, but he's also a God King. You must not kill him!"

"That's right. Please stand down, Heavenly Sword."

The two of them stared at Chu Kuangren seriously.

The Dao inside their bodies was flowing, emanating waves of Daoist chimes everywhere.

Meanwhile, powerful Daoist law energy suddenly surged into the air from the depths of the Ancient Luo King Planet. The Luo King Tribe's Supreme God King was also prepared to take action at any moment.

"Oh, interesting."

Chu Kuangren sheathed his Void Sword and stopped attacking.

Even if Wu Xuelong, the Luo King Tribe, and some of the guests who had grudges against him, like God King Molin, joined forces against him, Chu Kuangren would not be afraid of them. However, he knew it would take a while to defeat all of them.

Besides, if things got out of hand, the Central Heaven Temple might also step out and interfere.

At his current strength, he still could not undermine the Central Heaven Temple.

However, the most important thing for him now was the Nether God's memory he obtained. Seeing that it was fading quickly, he would have no time to refine them if the battle continued, and he was more curious to see whether he could obtain anything useful from the Nether God's memories. After all, that person was one of the most ancient beings in the universe...

"Stay alive and become stronger, Nether God. The Heavens shall look forward to meeting you next time!" Chu Kuangren said with a slight grin on his face.

'The Abyss of Darkness, huh...'

'If I defeat the Nether God in that place, does that mean I can absorb all his soul energy? Tsk, if I can absorb the Nether God's soul energy when he is at his strongest, will my Soul Realm ascend to the Chaos Realm?'

Chu Kuangren was a little excited for the Nether God to return to his prime.

'No need to rush. Let's take things slowly.'

Then, he turned around and left. Before leaving, he looked at Di Feitian, who was among the crowd nearby, seemingly hinting something to him.

"Luo Xue, are you really leaving the Luo King Tribe?"

King Luo glared at Luo Xue, who was going to leave with Chu Kuangren, and then said coldly, "If you leave now, don't think of coming back here ever again!"

Luo Xue shuddered.

Standing in the crowd, Long Shuijing frowned a little at that sight, and her eyes turned cold as she thought of her father.

Back then, her father allowed outsiders to hunt down her tribe members all for the sake of the Dragon Tribe's benefit.

'What difference is there between the Dragon King and King Luo?'

'What difference is there between Luo Xue and I?'

At that thought, Long Shuijing could not help but sympathize with Luo Xue.

Hence, she walked toward Luo Xue, held her hand, and snorted coldly. "That's fine. What's so special about this wreck of an Ancient Luo King Planet anyway?"

She then grabbed Luo Xue by the hand and left with Chu Kuangren.

"B*stard..."

King Luo was so angry that he was fuming with rage.

The wedding guests looked at each other in dismay.

"I can't believe this marriage alliance has become such a mess."

"That's right. The bride has escaped while the groom has been beaten to a pulp. This Heavenly Sword is really a troublemaker!"

"Troublemaker? Are you blind? Can't you tell that Luo Xue never wanted to get married in the first place? The Heavenly Sword was just here to save his friend. What's so wrong about that?"

"That's right. That's right."

"The Heavenly Sword is just too handsome. If he were to snatch me away at my wedding, I'd surely go with him without a second thought."

"Wake up. That'll never happen to you."

"Can't you let a woman imagine, for heaven's sake?"

Amidst the crowd's discussion, that marriage alliance soon ended in chaos. Standing among the crowd, God King Molin was trying to hold back his laughter. When he finally left the Ancient Luo King Planet, he immediately burst out laughing.

"Haha! Serve you right for ridiculing the Dao King Tribe. Look at who's the one in trouble now. Haha." God King Molin gloated.

The Dao King Tribe was already in a miserable state.

Now that the Nether King Tribe and Luo King Tribes' reputation had crumbled due to the Heavenly Sword, he felt pretty happy.

The Dao King Tribe was finally not the only target of everyone's ridicule.

Soon, news about the Heavenly Sword appearing on the Ancient Luo King Planet, snatching away the bride, and beating the groom to a pulp soon spread throughout the universe like wildfire.

That gossip instantly became a heated topic of discussion for everyone.

Some said that the Heavenly Sword had snatched someone's bride, while some speculated that the Heavenly Sword and Luo Xue were in love with each other and that it was actually the Nether God who interfered...

Various theories started to spread throughout the universe.

No matter what gossip there was, the alliance between the Nether King Tribe and Luo King Tribe was not affected despite the Heavenly Sword's bride-stealing act. Both tribes still became allies as planned.

News about their alliance shook the whole universe. Compared to the gossip earlier, the Nether King Tribe and Luo King Tribe's alliance was a major event that could potentially impact the universe.

Besides, the Central Heaven Universe was now at war with the Pan Gu Universe, and all the Nine Kings had appeared. In times of chaos like that, even the Ancient King Tribes who used to reign supreme were not confident of their own survival.

The Luo King Tribe and Nether King Tribe's alliance seemed to be a signal to everyone.

Each of the tribes also started to consider whether they should find some allies to support each other in such tumultuous times. It could be expected that the distribution of power in the Central Heaven Universe would experience a tremendous change from now on.

Meanwhile, somewhere in the universe, on a warship, Chu Kuangren was refining the Nether God's memories.

As one of the most ancient beings in the Central Heaven Universe, the Nether God's memories were filled with vast information. Even a small portion of it would require Chu Kuangren some time to sort through.

From the Nether God's memories, Chu Kuangren learned many secrets of the Central Heaven Universe, including information about some ancient God Kings.

Those were greatly beneficial to him.

Besides that, there were also the Nether God's soul cultivation techniques, all of which Chu Kuangren soon comprehended and mastered.

Suddenly, from the huge amount of memories came an ancient and simple aura, and a gigantic purple door appeared in the Nether God's memory. An aura that seemed to transcend the ages was emanating from it, occupying most of the Nether God's memory.

That was only a memory.

However, Chu Kuangren still felt inexplicably shocked.

It was as if that gigantic door was right in front of him at that moment.

Countless mysterious runes were engraved on the giant purple door. The power contained within it did not seem to exist in this universe.

Misty streams of purple aura were flowing around in the surroundings of that door.

Chu Kuangren was extremely curious.

'What kind of door is this?'

He tried to trace its source by continuing to refine the Nether God's memory, but he could not find any clues about it.

It was as if the Nether God had only seen that giant purple door once throughout his whole memory. However, seeing it that one time shocked him like never before.

From that door, he sensed an aura that transcended the God Kings and even Primordials, which had made the Nether God extremely obsessed with the world behind that door.

That was the most important reason he decided to destroy his cultivation base to reincarnate and start all over!

In his previous life, he had reached his limit and could no longer comprehend the existence of the giant purple door. However, even if he had reached that level, he still did not know how to open it. Hence, he sought to obtain more power.

Chapter 1933: More Than Half of the Nine Kings Under His Command, Everyone Gathers, A Meeting Is Being Held

Chu Kuangren slowly woke up.

By then, he had refined the Nether God's memories. Among the memories, the one that amazed him the most was naturally that mysterious gigantic purple door.

That door gave him a strong feeling that it might contain the secret of Transcendence itself!

"Interesting."

"I didn't expect to get such a wonderful reward from fighting the Nether God this time. The secrets of Transcendence, huh? Ha! How exciting indeed."

Onboard the warship, the four ladies — Luo Xue, Long Shuijing, Feng Qiyu, and Heaven Maiden You — were gathered together. They looked at each other with a faint hint of competition in the air.

"When did so many women appear by the Heavenly Sword's side? I wonder what kind of relationship they have with him," Heaven Maiden You thought.

"What a guy. The Heavenly Sword's charm is truly irresistible. Moreover, these three ladies before me possess the extraordinary potential to become God Kings in the future."

"There are very few female God Kings in this universe, but how wonderful it is to think that most of them are related to the Heavenly Sword. If we were to fight, who would emerge victorious?" Feng Qiyu secretly compared her strength to the others.

Luo Xue held her snowy-white sword as her sword intent swirled all over her. However, no one around her responded with sword intent. After all, none of the others were sword cultivators.

'On this warship, besides the Heavenly Sword, I'm the only other sword cultivator!'

'This is something I have in common with the Heavenly Sword!'

Luo Xue's head was raised slightly as if she already won against the others.

"Hmph, so what if you're a puny sword cultivator? I, for one, am one of the Nine Kings. Besides, I have control over the whole Dragon Tribe. Our forces are waiting to follow Master's orders at any moment!"

"I should be the most important person to Master."

Seemingly noticing Luo Xue's intention, Long Shuijing let out a soft snort in her heart.

Meanwhile, the Heavenly Shadow was standing beside the four ladies, observing them. There was a playful expression on his face. "As expected of the Devil's Master. He can still make these ladies submit to him without doing anything. It looks like the Devil still has much to learn."

At that moment, Chu Kuangren walked out of his quarters.

The ladies immediately looked at him in unison, surprising Chu Kuangren in return. 'What are they doing sitting with each other like that? Are they having a mental sparring match?'

'How diligent.'

'Very well. That's why they're worth nurturing.'

"Luo Xue, this is for you."

Chu Kuangren took out an ancient rune.

It was the King's Mark.

Upon seeing it, Luo Xue was shocked.

"Heavenly Sword, are you really going to give me the King's Mark?"

"That's right. This item is worthless to the Heavens, but it will be of great use to you. As a friend of the Heavens, I look forward to seeing you grow."

He had decided to do that before he went to help Luo Xue — that he would let her become the bearer of the King's Mark and bring her under his control!

Luo Xue took a deep breath and accepted that priceless item.

She wanted more power.

She had been feeling frustrated for too long for being manipulated and having no control over her own destiny. She never wanted to go through that again. Besides, she knew that only by becoming stronger would she be worthy of standing by the Heavenly Sword's side.

After receiving the King's Mark, Luo Xue started refining it.

Soon, a powerful sword intent erupted from the cabin. It swept up powerful gusts of wind and snow everywhere, causing dozens of nearby ancient planets to be covered in snow.

That was Luo Xue's sword intent.

She had successfully refined the King's Mark.

"All the Nine Kings have appeared," Chu Kuangren murmured.

Besides Luo Xue, the remaining eight cultivators of the Nine Kings were Heaven Maiden You, Tian Xingcai, Ling Fei, Long Shuijing, Lei Shentian, Xuan Yuanfeng, the Nether God, and Luo Yunxiu. Out of the nine of them, five were now under his command!

Meanwhile, the remaining four cultivators had lost to him before in battle.

"The Nine Kings shall rule the Central Heaven Universe?"

"Heh."

Chu Kuangren could not help but shake his head and laugh.

However, the growth potential of the Nine Kings was far beyond that of any ordinary Prodigies as each of them was an Outlier.

Even Ling Fei, who possessed average talents, experienced tremendous growth after receiving the King's Mark. According to recent intel from the Spiritual Sword Tribe, he had broken through to the Great Perfected Arch Gilded Immortal Realm.

Those individuals would undoubtedly become the main pillars of support for the whole Central Heaven Universe.

Furthermore, they would also be the main striking force when invading the Pan Gu Universe.

As of now, Chu Kuangren had more than half of them under his command, which meant that he had gained a great advantage in the war against the Central Heaven Universe.

"Seeing that the future will be unpredictable, it's time for the individuals under my command to gather and get to know each other," Chu Kuangren thought.

He then found an unknown ancient planet in the middle of nowhere and sent out a message.

After a while, the individuals under Chu Kuangren's control arrived one after another.

In the void, a vast surge of rage qi erupted.

The person who appeared was holding a pitch-black longsword with serrated edges. Upon seeing him, Luo Xue could not help but frown. "Ling Fei?"

"Yeah?"

"I can't believe you have taken ownership of that sword. Aren't you afraid of being consumed by the rage qi?" Luo Xue asked anxiously.

The sword in Ling Fei's hand was the Calamitous Heavenly Sword Slayer. It was the same one used by the Heavenly Bloodthirst of the Armament Destruction Tribe back then. That sword was known as a true sword of rage!

"I'm the one who's controlling it now, not the other way around!"

Ling Fei let out a confident smile.

Luo Xue looked at him and noticed something. Although the sword rage qi swirling around him was very dense, Ling Fei's gaze was still sharp and clear.

It did not appear like he was consumed by rage at all.

"It looks like you've been cultivating the Demonic Heart Purification pretty diligently," Chu Kuangren said.

"Ha! I still have you to thank for this, Heavenly Sword," said Ling Fei as he expressed his gratitude with a fist salute.

At that moment, a gigantic warship was approaching from outer space.

Many pirates could be seen onboard that warship.

Their leader was none other than Shinra Pirate.

"All of you, wait for me here. I'm going to see the Heavenly Sword."

Shinra Pirate said with a smile before entering the ancient planet alone. He arrived before Chu Kuangren and greeted him with cupped fists. "How are you doing, Heavenly Sword?"

"You're here. Take a seat."

Chu Kuangren waved his sleeves, making a huge round table appear out of nowhere.

There were ten seats around the round table.

Shinra Pirate, Heaven Maiden You, Ling Fei, Feng Qiyu, Long Shuijing, Luo Xue, and the Heavenly Shadow each took a seat.

Including Chu Kuangren, eight out of the ten seats were occupied.

Two seats were still empty.

Shinra Pirate understood that Chu Kuangren would not do anything unnecessary, so the two empty seats must mean that two people still had not arrived.

He then took a look at the others.

'D*mn, all of them are no ordinary cultivators.'

Heaven Maiden You was the Mystic Divination Tribe's Heavenly Maiden.

Long Shuijing was the Dragon Tribe's current Queen.

Feng Qiyu was the Eighth Seat of the Temple Sequence.

Luo Xue was the Tenth Seat of the Temple Sequence, and there seemed to be a faint change in her aura too.

Ling Fei, whose body was overflowing with sword rage qi, was quite frightening indeed.

Besides, there was also the Heavenly Shadow, who was quite a mysterious person. Even a Supreme God King like Shinra Pirate could feel a great sense of threat coming from him.

Then, there was Chu Kuangren, the one who organized this meeting.

Buzz!

Just then, the surrounding stars trembled.

Endless starlight started intertwining in the void, and a gorgeous woman holding a sword appeared amidst the starlight. It was none other than Tian Xingcai.

She bowed before Chu Kuangren. "Greetings, Heavenly Sword."

"Take a seat."

Tian Xingcai nodded gently.

Everyone looked at her and noticed her extraordinary aura.

She, too, was one of the Nine Kings.

'By the heavens...'

'How many of the Nine Kings are present here?'

Shinra Pirate gulped, and deep down, he was shocked.

He had a strong hunch that the meeting would potentially affect the future balance of power in the entire Central Heaven Universe.

"There's one more person left. Who could it be?" The Shinra Pirate secretly thought.

At that moment, golden clouds rolled in from the distance, followed by an incredibly dense Emperor aura. A figure in gold soon arrived.

The person who came was a Supreme God King of the Emperor Tribe and the Left Guardian of the Central Heaven Temple, Di Feitian!

Unparalleled After Ten Consecutive Draws

Chapter 1934

Shinra Pirate's eyes widened upon seeing Di Feitian's arrival.

However, he remembered that Chu Kuangren once wreaked chaos throughout the Emperor Tribe. Although he was shocked, he thought it made sense for that to happen.

When Di Feitian saw everyone, he was just as shocked as Shinra Pirate. He did not expect Chu Kuangren to have gathered so many exceptional individuals.

More than half of them were part of the Nine Kings too.

He took a deep breath and sat down at the last seat.

He knew the mysterious and unfathomable Divine Destiny Temple was behind Chu Kuangren's back. Hence, Di Feitian was very wary of him.

Besides, with his Life Contract on the line, he dared not even defy Chu Kuangren's orders.

"Since everyone is here, let's begin this meeting," Chu Kuangren said.

"All of you should be very clear about the current situation in the Central Heaven Universe. To prepare for any future changes, the Heavens intend to establish a group with all of you as its founding members."

"The reason the Heavens have gathered everyone is for you to get to know one another. After all, we will have to look after each other's backs from now on."

Upon hearing that, Di Feitian replied, "You may be capable of controlling me, Heavenly Sword, but the Ancient God Kings of the Emperor Tribe will return soon. When that happens, the weight of my words in the Emperor Tribe will diminish significantly. If you wish to control the Emperor Tribe through me, I'm afraid you'll only be disappointed."

However, what Di Feitian said did not affect Chu Kuangren much.

"The Ancient God Kings, huh? If they stay out of the Heavens' way, the Heavens shall not seek them out. Otherwise, the Heavens wouldn't mind making them regret their decision to return in this era."

Di Feitian fell silent for a while. He did not doubt Chu Kuangren's words. After all, Chu Kuangren had the Divine Destiny Temple behind his back and the Pseudo Chaos Supreme Treasure Emperor Hammer in his possession. On top of that, he was growing powerful at a very rapid rate.

Someone like him would certainly surpass the likes of the Ancient God Kings in the future.

After that, everyone at the table spent some time getting to know each other.

Di Feitian and Shinra Pirate were silent. 'What a guy!'

'Five of the Nine Kings are here!'

'All of them are under Chu Kuangren's control, yet they say the Nine Kings shall rule the future?'

Both of them found the prophecy somewhat amusing.

"Heavenly Sword, since you have established this group, you should have a name for it, shouldn't you?" Shinra Pirate asked curiously.

Everyone then looked toward Chu Kuangren.

Chu Kuangren pondered for a while as he had never thought of giving the newly established group a name. Looking at the round table in front of him, his eyes lit up. "Since the concept of roundness represents the unity and completeness of the universe, we shall call this group the Heavenly Roundtable."

The others did not object to the name.

"Since the Heavenly Sword proclaims himself as the Heavens and is the person who founded this group, there can't be a better choice than naming it as the Heavens."

"I agree."

"Alright, it's decided. We shall be known as the Heavenly Roundtable."

As of now, the Heavenly Roundtable was established under Chu Kuangren's leadership.

Including Chu Kuangren, there were a total of ten founding members in the group.

"The Heavenly Roundtable and Pan Gu Universe's Black Heaven Nine Stars... They shall be the key for me to control the situation of the two universes in the future," Chu Kuangren thought.

...

Meanwhile, in the Pan Gu Universe, ever since establishing the Black Heaven Nine Stars, Chu Kuangren went into closed-door meditation again. During that time, he managed to break through his cultivation level to the Embodier Realm.

"What a challenge it was. After taking advantage of the link between Heavenly Sword Chu Kuangren and me, I've finally broken through to the Embodier Realm."

"Besides, with this body's unique Green Lotus power, I'm almost on par with the Heavenly Sword's strength. This is not taking into account my various trump cards, of course."

Chu Kuangren was pleased with the results of his closed-door meditation.

After finishing his closed-door meditation, he went on a tour around the Immortal World.

Most of the Immortal World was now under his control, and the citizens of his Firmament Empire had also been successfully relocated into the Immortal World.

Everything had been proceeding in an orderly manner.

On that very day, Chu Kuangren arrived at the Immortal World's Far West Land.

The world of Buddhist cultivation was located here.

He had arrived to obtain one item that was none other than one of the Four Innate Lotuses, the Gold Dharmic Lotus!

Of the Four Innate Lotuses, he had refined the Black Annihilation Lotus and the Red Karmic Flame Lotus. Meanwhile, the White Purification Lotus was still with Yu Zhi, as it was an item that the West Ruler Matriarch bestowed on her. Since Yu Zhi was his best friend, he still had no idea how to obtain it from her at the moment.

As for the Gold Dharmic Lotus, it was used by the Buddhist cultivators to suppress the Dao contamination qi. That was also Chu Kuangren's reason for coming as he intended to settle that matter right away.

The Dao contamination qi was the major source of a great calamity that befell the Immortal World during the ancient Immortal times. It was a potent energy unleashed by the universe's Great Dao when it attempted to recover its strength.

Those strands of qi remained at various places throughout the Pan Gu Universe like a ticking time bomb. No one knew when they would suddenly activate.

For the Pan Gu Universe forces to fight against the Central Heaven Universe in the future, those ticking time bombs must be removed as soon as possible.

Inside the Lapis Lazuli Earth in the Far West Lands, a gigantic Gold Dharmic Lotus was suppressing the Dao contamination qi that was surging from a Spiritual Mountain.

Buddha Jian Xing and a group of elder Buddhist monks were sitting on the Gold Lotus, focused on suppressing the Dao contamination qi. Their radiant Buddhist Light illuminated the surroundings with pure sanctity and harmony.

At that moment, Buddha Yun Lan arrived with Chu Kuangren by her side.

The elderly monks were a little surprised.

"What brings you here, Honorable Immortal King?"

"I'm here to deal with the black Dao contamination qi!"

Upon hearing that, everyone was a little surprised.

After all, the Dao contamination qi had existed for many years, and there had been many people throughout the countless years who attempted to get rid of it.

However, none of them had succeeded before.

'Can Chu Kuangren do it?'

Without explaining further, Chu Kuangren stepped forward, ignoring the Gold Lotus's seal, and entered the Spiritual Mountain.

At that instant, seemingly having sensed something, the black Dao contamination qi in the Spiritual Mountain immediately retreated. To it, Chu Kuangren's presence was akin to an overwhelming beast.

The Dao contamination qi suddenly became so agitated that it struck the Gold Lotus's seal violently.

However, it was not effective.

"Where do you think you're going?"

Chu Kuangren let out a low grunt. Several strands of Daoist laws soon appeared from his body and intertwined in the air. Soon, a gigantic net was formed, and it eventually enveloped all the Dao contamination qi within it.

"These... These are Daoist laws! The Immortal King has become an Embodier!"

"I can't believe he has gotten stronger so fast."

Buddha Jian Xing and the others were a little surprised.

Following that, they saw the Dao contamination qi becoming increasingly agitated after being trapped in Chu Kuangren's Daoist law.

It assumed the form of a ferocious beast, violently charging toward the Daoist law. However, its efforts were useless.

Those Dao contamination qis had a powerful suppressive and erosive effect on the Dao that was cultivated by the living beings in the Pan Gu Universe.

Unfortunately, Chu Kuangren's Dao did not belong to this universe.

After all, he was the embodiment of his own Dao!

"Now, shrink!"

His Daoist law swirled and surrounded all the Dao contamination qi before it shrunk rapidly, eventually becoming a black ball the size of a finger.

With Chu Kuangren's Daoist law enshrouding the surface of the black ball, it was then absorbed into his body. He was sealing it using his own body!

After the Dao contamination qi disappeared, a huge gush of spiritual qi appeared within the Spiritual Mountain. The Spiritual Mountain, which was once a Buddhist Sacred Land in the past, gradually returned to its former glory.

Buddha Jian Xing, Buddha Yun Lan, and the others were overjoyed.

"Thank you, Immortal King!"

Buddha Jian Xing gave Chu Kuangren a bow.

Not only had the Spiritual Mountain returned to normal, but Buddha Jian Xing also no longer had to suppress the Dao contamination qi there. He had now regained his freedom.

"I have much need for this Gold Dharmic Lotus. Are there any requirements if I wish to acquire it?" Chu Kuangren asked calmly.

"You're too kind, honorable Immortal King. This Gold Lotus was used mainly to suppress the Dao contamination qi. Now that the Dao contamination qi has been removed, you can have it as a gift, Immortal King," Buddha Jian Xing said with a smile.

Frankly speaking, if Chu Kuangren wanted to forcefully take the Gold Lotus, even Buddha Jian Xing and Buddha Yun Lan could not lay a finger on him in the Immortal World.

Hence, they might as well go along with Chu Kuangren's request. After all, they could stand to foster better relations with him too.

"Well, don't mind if I do."

Chu Kuangren took the Gold Lotus and casually asked Buddha Yun Lan, "By the way, do you know where Shi Ying is?"

"She has gone to the Void Battlefield a few days ago."

"Oh, have they started to act?" Chu Kuangren murmured.

After that, he did not stay in the Far West Land for long. Instead, he set off toward a few other locations in the Immortal World to continue absorbing the Dao contamination qi and sealing all the Dao contamination qi within his body.

Chapter 1935: Returning to the Soul Restricted Area Again, One Person Memorizes While the Other Comprehends

The Dao contamination qi was left behind during the ancient Immortal times. It was suppressed in various locations by the great ones in the past through different techniques.

Within the Immortal World alone, there were two known locations where the Dao contamination qis were sealed. They were the Spiritual Mountain and Nether Abyss Blood Ocean.

The Underworld River Forefather had set up several seals in the past that separated the Blood Ocean and forced it to exist in the Immortal World's spatial rift.

One of the entrances to the Blood Ocean was where the Dao contamination qi was found.

With that, Chu Kuangren visited the Blood Ocean and did the same thing. Soon, he absorbed all the Dao contamination qi contained in that location.

Lastly, he returned to the Imperial Palace, hoping to study and understand the Dao contamination qi further.

Inside the Imperial Palace, Chu Kuangren was sitting with his legs crossed while Daoist laws were swirling around him. Two black beads could be vaguely seen inside his body.

Sealed within the two beads were the Dao contamination qi.

After some comprehension, Chu Kuangren sensed a familiar energy from the Dao contamination qi... It was the Great Dao's energy!

"This Dao contamination qi is a remnant of a deadly calamity brought upon by the Great Dao to recover its strength. I guess it makes sense that the Great Dao's energy is contained within it and that the Dao contamination qi can erode a cultivator's Dao."

"Eroding the Dao of living beings and then absorbing their energy to recover? Damn, the Great Dao is ruthless."

Chu Kuangren chuckled.

However, the Great Dao had no emotion after all. It was like a machine, doing what was necessary to ensure it could operate as usual.

In other words, the Great Dao and the living beings in the universe had a symbiotic relationship.

The Great Dao gave rise to the birth of all living beings.

Meanwhile, the power of living beings could also boost the Great Dao's power to a certain extent. However, it must be done so while not exceeding the Great Dao's control. Otherwise, it would attract the attention of the Great Dao to take action.

An example would be the Chaos Supreme Treasures.

If all living beings could coexist peacefully with the Great Dao, the latter could operate normally. However, if an anomaly were to occur, the Great Dao would send a great calamity as a purge.

"If I want to completely get rid of the Dao contamination qi, I must first focus on repairing the Great Dao. Otherwise, even if I manage to absorb all the Dao contamination qi out there, more will eventually be produced naturally," Chu Kuangren thought.

That reminded him of the Daoist Progenitor. After all, he was a being from the previous ancient Immortal era and the forefather of Immortal Dao. Perhaps someone like him would have a way of dealing with that.

With that thought in mind, Chu Kuangren decided to visit him to learn more.

However, he wanted to clear out all of the Dao contamination qi in the Immortal World before leaving it. After all, there was no way of telling when those things would erupt.

After sealing the Dao contamination qi from two locations, Chu Kuangren felt that he was developing a unique sense of tracking it.

Besides, with his control over the Immortal World, he soon discovered three more locations where the Dao contamination qi was sealed.

Those locations were quite familiar to him.

One of them was located in the Soul Restricted Area!

'Interesting.'

Chu Kuangren became a little more interested in the Soul Restricted Area. After all, Heavenly Sword Chu Kuangren's Soul Realm was now one step away from reaching the Chaos Realm. Perhaps comprehending more things related to Soul Dao would help.

When it came to Soul Dao, the most skilled tribe in the Central Heaven Universe would be the Nether King Tribe, whereas for the Pan Gu Universe, it would be the Soul Restricted Area.

For his visit to the Soul Restricted Area this time, other than dealing with the Dao contamination qi, Chu Kuangren also hoped to comprehend the profoundness of Soul Dao if he could.

His mind was linked with Heavenly Sword Chu Kuangren.

Hence, whatever he comprehended would naturally be comprehended by his other self, and he could do whatever he wanted.

...

Outside the Soul Restricted Area, countless seals and restrictions surrounded that location, preventing anyone from entering. As one of the most dangerous places in Pan Gu Universe, even a Great Perfected Arch Gilded Immortal would never leave that place alive upon entering.

However, to someone like Chu Kuangren, coming here was like a walk in the park.

The surrounding restrictions were non-existent to him.

"Who's there?!"

At that moment, one of the Arch Gilded Immortals from the Soul Restricted Area noticed Chu Kuangren's presence. He immediately yelled and charged toward him.

His Arch Gilded aura swept forward, locking onto Chu Kuangren.

Chu Kuangren merely shot him an indifferent glance. His gaze was so chilling that the Arch Gilded Immortal cultivator felt as if he had fallen into an icy abyss, and shivers were sent down his spine!

"It's... It's Chu Kuangren!"

The Arch Gilded Immortal looked confused.

'What's going on?'

'Why is he here in the Soul Restricted Area? Now that I think about it, we do bear a grudge against Chu Kuangren. Is he here to wipe us all out?'

If that were the case, there was no way they could survive his attacks.

"You should address me as your Immortal King!" Chu Kuangren said indifferently.

Then, his body trembled a little, and an incomparably powerful Immortal King aura erupted at full blast. The Immortal King aura immediately swept across the entire Soul Restricted Area.

Everyone inside quickly noticed it.

In an instant, all of the Restricted Area's elites rushed out and looked at Chu Kuangren with uncertainty on their faces. A feeling of fear began to creep up within them.

They, too, were afraid that Chu Kuangren was here to create trouble.

"Immortal King, can you tell us why you're here?" The Soul Restricted Area's Blue Ocean Tribe Leader took a deep breath and asked.

"I need to study some soul-based cultivation techniques. That's why I've come here to peruse your records. Is that alright?" Chu Kuangren asked.

However, the magnitude of his Immortal King aura was not reduced in the slightest.

Some of the soul cultivators on the ground could not help but shudder with fear in the presence of his power.

The Blue Ocean Tribe Leader sighed helplessly.

'Is that alright? Who are you kidding?'

Chu Kuangren might be asking them. However, the choice was not theirs from the very start. They did not even have the power to reject him.

"Since it's the Immortal King, we will do our best to cooperate."

"Very well."

Chu Kuangren was quite satisfied with their behavior.

"Is the Supreme Soul Overlord here?" Chu Kuangren asked as he suddenly remembered something.

"The Supreme Soul Overlord is currently at the Void Battlefield. Because she joined Buddha Lei Yin and the others against you in battle at the Immoral Hall previously, the Daoist Progenitor sent her to the Void Battlefield. I hope you have not forgotten that, honorable Immortal King," the Blue Ocean Tribe Leader replied gently.

"Oh, you're right. If it weren't for you, I might have really forgotten about that," Chu Kuangren replied.

The Soul Restricted Area cultivators' mouths twitched. They even began to wonder whether Chu Kuangren had intentionally said that to mess with them.

"Even an esteemed individual like the Immortal King can be forgetful sometimes."

After that, Chu Kuangren arrived at the Soul Restricted Area's library archives and began comprehending the thousands of cultivation techniques recorded there.

With his level of comprehension, learning those cultivation techniques was second nature to him. Besides, he did not even need to master them.

He only needed to remember them.

As for mastering those techniques, he only needed to leave it to Heavenly Sword Chu Kuangren.

Several years soon passed.

Within that time, he had almost read through the millions of books stored in the Soul Restricted Area's library archives. The scale of what he accomplished was simply astonishing.

Far away in the Central Heaven Universe, Heavenly Sword Chu Kuangren rubbed his brows. "Sheesh, this guy only memorizes whatever he reads. Does he know I have to be the one to comprehend and master all of them?"

Fortunately, he had the Heaven Soul, Hell Soul, and Lil Ai, the wonderful helper with him. Otherwise, he would have a headache by now.

Having said that, he still spent quite some effort doing all that.

However, the results he obtained were great too.

Before this, the Soul Chaos Realm was only a vague concept to him, but he now had a clearer picture of it in his mind.

He already had an idea of how to progress his cultivation further.

Besides, he could also enter the Chaos of the universe at will, so he had eighty to ninety percent confidence in achieving the Soul Chaos Realm within the next thousand years.

If he had more help, that process would take less time.

On top of that, he had learned many cultivation techniques from the Soul Restricted Area.

Among them, there were powerful offensive techniques on par with the Violet Soul Bell, which greatly made up for his shortcoming of possessing powerful soul energy but not having any offensive technique to use it with. That gave him another trump card to use in battle in the future.

Chapter 1936: Soul Restricted Area's Ambition, Soul Materialization, Meeting Daoist Progenitor Again

Back in the Soul Restricted Area of the Pan Gu Universe, Chu Kuangren spent years going through everything in the library and transferred all the knowledge to Heavenly Sword Chu Kuangren.

Anyone else other than Chu Kuangren might suffer an implosion of knowledge when receiving such a massive amount of mystic knowledge and memories.

However, Chu Kuangren was not worried at all.

"Heavenly Sword, you are me. How could you let me down?" Chu Kuangren's lips curled into a smile.

A while later, he exited the library and ventured deeper into the Soul Restricted Area. His actions attracted the attention of the residents.

"What is he trying to do?"

"He's heading in that direction. Could it be... Damn it!"

The Blue Ocean Tribe Master's expression shifted, and he quickly followed Chu Kuangren.

Soon, Chu Kuangren arrived in front of a cave deep inside the Soul Restricted Area. The cave was surrounded by countless mystical runes and restriction seals.

After spending years in the library, Chu Kuangren identified the restriction seals as the strongest and smartest restriction seals in the Restricted Area.

At least an Embodier cultivator was required to set up such a high-level restriction seal.

In other words, there must be an Embodier inside the cave.

Chu Kuangren was not surprised at all.

The Soul Restricted Area was one of the strongest forces in Pan Gu Universe, so it was not convincing enough that they only had one Embodier.

Even the Immortal Hall had a few.

"Immortal King, what are you doing here?" The Blue Ocean Tribe Master caught up to him and asked diligently.

Chu Kuangren did not answer the question. Instead, he looked at the cave and said, "Since I'm here, why don't you come out and welcome my presence?"

He swung his sleeve, releasing the powerful aura of the Immortal King.

Kaboom!

The cave trembled.

"Please forgive my manners," an indifferent voice spoke.

A withered and skinny old man came out from the cave and bowed politely at Chu Kuangren.

"The things you have inside the cave, are they fun?" Chu Kuangren asked.

The old man's expression changed. He feigned a calm look and explained, "I wonder what you might be referring to, Immortal King?"

"Soul Materialization and Soul Dao Contamination."

Chu Kuangren's words surprised the old man.

He stared at Chu Kuangren, seemingly in disbelief.

"Do you want me to explain it further?" Chu Kuangren asked.

"You knew?"

Soul Materialization was the ultimate goal of the Restricted Area. No matter how strong a soul was, a soul was a soul, and it required a physical body to exist.

The Soul Restricted Area wanted to realize the concept of discarding the physical body and existing in the world in soul form.

It was a vast and ambitious idea.

The Soul Restricted Area had been chasing after that ideal for countless years, yet it bore little to no fruit. It was until they discovered the Dao contamination qi.

They grew audacious and came up with the idea of extracting the Great Dao's energy from the Dao contamination qi to realize Soul Materialization. After all, the Great Dao's energy was the most mystical energy source in the universe.

The Soul Restricted Area studied that subject for countless years.

"Your soul has been contaminated by the Dao contamination qi for long enough. Judging from your withered body, your days are numbered," Chu Kuangren said to the old man.

After going through the library of books, he knew about the Soul Materialization and understood the experiment the old man had been conducting.

It was a great idea indeed, but the reality remained harsh.

Even after countless years of studies and experiments, the Soul Restricted Area failed to achieve it.

The Embodier before him used his own body as an experiment subject and forcefully absorbed the Dao contamination qi.

However, his years of research had put his life on the line.

His silence was the most obvious answer.

"You really are arrogant enough to siphon energy from the Great Dao," Chu Kuangren grunted coldly.

Then, he walked closer to the old man.

Daoist laws swirled around him and instantly sealed the entire area.

"What? Have you achieved the Embodier Realm?" the Blue Ocean Tribe Master cried out in shock.

Even the old man was forced to be cautious.

He realized from the moment Chu Kuangren's Dao appeared that the Dao contamination qi inside him grew restless as if they were afraid of him.

He had studied the Dao contamination qi for many years but had never seen such a strong reaction in it.

What was going on?

"You better not resist," Chu Kuangren said.

The Daoist laws around him transformed into chains that restrained the old man.

The old man hesitated for a moment before deciding to do as told as the unusual reaction from the Dao contamination qi intrigued him.

He wanted to know what caused it.

Chu Kuangren stretched his hand at the old man, and an explosive absorption force erupted.

It was the Heavenly Devouring Daoist Art.

The Dao devouring art that was specifically used against the Heavenly Dao worked wonders against the Dao Contamination qi.

Soon, a large amount of black qi erupted from the old man's body. They were then restrained by the Daoist law and absorbed by Chu Kuangren into his body.

The old man instantly felt relieved, as if a mountain was lifted off his shoulder. He felt never felt so relaxed before.

Boom!

Then, black qi rumbled inside the cave.

The Dao contamination qi in the cave sensed Chu Kuangren's arrival and wanted to escape, but the restriction seals were restraining them.

"Open the restriction seals. I'm going in," Chu Kuangren said.

The old man no longer suspected him after what he did.

Once the restriction seals were lifted, Chu Kuangren's Daoist law energy rumbled again.

A while later, all the remaining Dao contamination qi were sealed inside his body.

"Rather than researching the fake hope of Soul Materialization and wasting your Embodier's cultivation here, why not help out at the Void Battlefield?" Chu Kuangren said before he left.

The old man felt defeated while watching Chu Kuangren leave.

He had studied the subject for his entire life, and it was taken away by Chu Kuangren just like that.

However, he was not mad because he knew the topic was beyond his capabilities.

In fact, what Chu Kuangren did saved his life.

"I spent countless years studying something I couldn't control, and the Immortal King took them away like it was nothing. Who are you exactly?" The old man could not help but sigh.

Then, he looked at the cave behind him and said to the Blue Ocean Tribe Master, "I'll leave the Soul Restricted Area to you. I'm going to the Void Battlefield for a little exercise."

"Yes, Forefather," the Blue Ocean Tribe Master said respectfully.

...

After dealing with the Dao contamination qi across multiple locations in the Immortal World, Chu Kuangren left the Immortal World to meet the Dao Progenitor.

They met on the same ancient planet as the last time, and the Dao Progenitor was floating in the sky of the planet with his legs crossed and countless Daoist laws floating around him.

He was a little surprised when he saw Chu Kuangren. Then, his eyes narrowed, and he said with a smile, "Congratulations, Brother Chu."

"It's just a little improvement."

Chu Kuangren did not get carried away by his breakthrough into the Embodier Realm.

He explained, "Dao Progenitor, I'm here to talk to you about the Dao contamination qi."

The Dao Progenitor pondered for a moment before he said, "I already had a hunch about your visit."

He then pointed at Chu Kuangren, inserting a sliver of Immortal Consciousness into the latter's body.

Inside Chu Kuangren's body, the silver of Immortal Consciousness transformed into a sea of information, but some of it was concealed.

Although Chu Kuangren could not read them for now, he could learn about the seals regarding the Dao contamination qi.

Chapter 1937: Unusual Daoist Progenitor, Dao Contamination Qi Disappeared

"After the ancient era was over, many great ones preserved their soul fragments, waiting for a chance to be reincarnated, and some of the Dao contamination qi was suppressed or sealed by the newer generation of Embodiers after the ancient era..."

"I have sent you the locations where they were sealed. Your Dao is beyond this universe, a bane to the Dao contamination qi. Now that you have achieved the Embodier Realm, only you can deal with them."

"I would like to trouble you to do me the favor. As for the other part of the information that I gave you, if everything progresses well, you will find out about them soon enough," the Dao Progenitor said.

Chu Kuangren pondered and then asked, "If the Universal Great Dao isn't fixed, the Dao contamination qi will return. I want to know if there is a way to fix it."

"Don't worry about that, Brother Chu. Leave that to me," the Dao Progenitor said with a smile.

Chu Kuangren stared at him deeply before asking, "One more thing. How's the battle between Wu Han and the Central Heaven Universe?"

The battle between Wu Han and the three Primordials from the Central Heaven Universe was ongoing, and no one knew how he was doing.

"You don't need to worry about that. Brother Wu Han is not just any person. I believe he has a way to keep himself safe from the three Primordials."

"Just keeping himself safe?" Chu Kuangren frowned as keeping himself safe was not enough.

However, even he was not qualified to intervene in a battle between Primordials, so overthinking would do him no good.

If Pan Gu Universe was doomed, he would bring the people he knew into his Mini Universe.

Then, no one else would be able to threaten him anymore. However, it was also a last resort that he did not want to use.

It was still too early to surrender.

"I'll deal with the Dao contamination qi first," he said.

"Brother Chu, thank you for your trouble," the Dao Progenitor said. He looked at Chu Kuangren with a glint of hope and embarrassment. He even felt bad about it.

Chu Kuangren shuddered. "Please do not look at me like that."

Then, he turned around and left.

The Dao Progenitor sighed as he watched Chu Kuangren disappear from his sight. "Sigh. It's harsh putting such responsibility on a child's shoulder, but the reincarnations of the Three Clarities and the others have yet to grow strong enough to bear the burden.

"And with Wu Han fighting the three Primordials, I must be here to accept my fate and duty. As for the ancient Embodiers, they aren't fit for the job. I can only count on you, Brother Chu..."

...

Chu Kuangren flew across the galaxy in a stream of light.

As he recalled the conversation with the Dao Progenitor, something did not feel right. The man sounded like he was leaving his last message, and it was strange.

Was something about to happen to him?

It should not be.

The Dao Progenitor was just a soul fragment, but his powers should not be underestimated. He was second only to a Primordial.

No one else in the Pan Gu Universe could threaten him.

Could the threats be from the Central Heaven Universe?

Wu Han was engaged with the three Primordials, and Heavenly Sword Chu Kuangren did not report anything strange lately from the other side either.

What caused the strange feeling that he could not seem to shake off?

What about the message that the Dao Progenitor left him?

The Three Clarities, the Underworld River Forefather, the West Matriarch Ruler, Nuwa, and the other great ones from ancient times had gone through reincarnation when the reincarnation mechanism of the Underworld was rebuilt.

Yet, only the Dao Progenitor had not gone through reincarnation.

What was his plan?

Questions flooded Chu Kuangren's mind. The more he pondered, the more questions he realized.

"The so-called great ones always speak in riddles, and they always want others to guess what their real intentions are." Chu Kuangren pouted and decided to put the matter aside first.

He then headed to the provided location based on the information he received from the Dao Progenitor and absorbed all the Dao contamination qi.

Some locations, which were more important than others, had Embodiers there, watching and suppressing the Dao contamination qi.

The weaker ones were simply sealed off.

Somewhere on an ancient planet, an Embodier elite bowed politely at Chu Kuangren.

"Thank you, Immortal King, for dealing with the Dao contamination qi."

The man was Yun Zhongyue. He was an Embodier from the same generation as Buddha Yun Lan and Buddha Jian Xing. Similar to Buddha Jian Xing, he had been suppressing the Dao contamination qi for many years and finally regained his freedom today.

"You're welcome. Thank you for suppressing the Dao contamination qi."

Chu Kuangren respected them for devoting their lives to holding back the Dao contamination qi.

Not all lives in the universe could endure countless eras of loneliness. Not even he had the confidence to do it.

Those who chose to suppress or seal the Dao contamination qi were truly the pillars of the Pan Gu Universe.

"Haha. If there were more like you in our universe, old folks like me could retire and rest in peace." Yun Zhongyue laughed.

He then stared into the distant sky. "Now then, I should make my way to the Void Battlefield and face the God Kings of the Central Heaven Universe. I heard they have a new favorite God King, named Heavenly Sword, and he's powerful. If I can meet him, I will remove the threat for us."

Chu Kuangren responded with an awkward smile. "He's quite powerful, and I've never seen someone like him in my life. He's like my arch-nemesis. If it's possible, I would like to meet him again and defeat him myself."

"With such high praises from the Immortal King himself, I bet that Heavenly Sword is indeed something else," Yun Zhongyue said and nodded before disappearing.

Chu Kuangren chuckled helplessly.

"I think I've gotten myself into huge trouble. Pan Gu Universe wants to kill other me, and Central Heaven Universe wants to kill me. Me... Am I the common enemy of the two universes?"

Despite his self-mockery, the show must go on since it was reaching its climax. Who would be the last one to stand on the stage?

After that, Chu Kuangren headed to the next location.

However, he missed the next one because the seal of the Dao contamination qi was broken and the Dao contamination qi was gone.

"The seal was broken? Wait a minute..."

Chu Kuangren narrowed his eyes for a better look. The seal was not broken from the inside but forcefully from the outside.

That meant someone else broke the seal before him.

"The seals were set by Embodiers, and those who could break the seals would know how dangerous the Dao contamination qi is. So, who would do that?"

While Chu Kuangren pondered, he scattered his Immortal Consciousness across a dozen galaxies but did not find a trace of the Dao contamination qi.

He then headed to the next location. Those that had Embodiers watching over the locations were all safe.

However, most of them in the unmanned locations were broken by someone, and the Dao contamination qis were nowhere to be found.

"Is someone specifically choosing the unmanned locations for the Dao contamination qi because they're afraid of being discovered? But with that many locations broken, I haven't heard of any contamination across the universe.

"Hm... It could only mean that the one who broke the seals collected the Dao contamination qi but did not use it to infect others. Why?"

Chu Kuangren pondered deeply.

As the Dao contamination qi contained the Great Dao's energy, there were quite a number of elites who would take the risk to draw the Great Dao's energy from the Dao contamination qi, such as the Soul Restricted Area.

Chu Kuangren was out of clues.

"Fine. I have one more location left. Let's just go and have a look first," he muttered to himself.

The last sealed location was in the Jiangshi Restricted Area!

Unparalleled After Ten Consecutive Draws

Chapter 1938: Descending On Jiangshi Restricted Area, Chu Kuangren's Treasured Blood, Legend Of The Hou Beast

The last location where the Dao contamination qi was sealed was in the Jiangshi Restricted Area.

As one of the Restricted Areas, getting inside was not easy, but not for Chu Kuangren.

When he arrived, a powerful surge of energy dispersed.

It was so powerful that it shook the entire Jiangshi Restricted Area.

"Whose energy is that?"

"It's so powerful!"

Some of the Jiangshi came out to have a look.

When they saw Chu Kuangren standing in the air at their entrance, they were shocked.

"The Immortal King, Chu Kuangren!"

"What's he doing here?"

"Strange. What is the Immortal King doing outside the Immortal World? He even came to our Restricted Area! Isn't he afraid of us?"

Some of the elites looked at Chu Kuangren strangely.

Chu Kuangren's name was the embodiment of power to many people because he had the Immortal King's authority.

If he was out of the Immortal World, no matter how strong he truly was, there was a limit to his powers.

Some of the Jiangshi gulped while they looked at him with bloodthirsty gazes.

"His blood smells so good."

"What is his blood made off? If we can drink his blood, it will mean a lot to us!"

Some of the Jiangshis' eyes turned red, and their fangs were showing.

"Oh? Thirsty for my blood?" Chu Kuangren grinned.

Chu Kuangren's blood was precious.

His body was the culmination of many mystical physiques, and even he had no idea what his blood could do or how precious it was.

If someone could refine a drop of his blood, he believed that person might immediately become an unmatched genius in battle.

"Jiangchen Tribe, stand down!"

Then, a female voice rang out.

A woman appeared in between the Jiangshi and Chu Kuangren.

It was the Drought Maiden.

Chu Kuangren knew her. In fact, they had a few encounters back in the Immortal World and even fought each other before.

"So they're the Jiangchen Tribe? No wonder they're thirsty for my blood," Chu Kuangren said with a smile.

There were four tribes in the Jiangshi Restricted Area — the Hanba Tribe, Houqing Tribe, Yinggou Tribe, and the Jiangchen Tribe.

Jiangchen Tribe's Jiangshi were bloodsuckers.

It was said that Jiangchen's Jiangshi could grow stronger by absorbing others' blood, and Chu Kuangren's blood was a huge temptation to them.

"Open your eyes! The man before you is the reputable Immortal King! How dare you lose your manners in front of him?" the Drought Maiden bellowed.

"Immortal King? We're not in the Immortal World."

"Yeah. He's only strong in the Immortal World. This is the Jiangshi Restricted Area. Anyone who trespasses will die. It's the rule, and no one is exempted."

"Stand down, Drought Maiden. I will suck his blood dry!"

Roar!

One of the Jiangshi lost his patience and jumped forward.

His figure flashed as he turned into a bolt of black lightning, zipping his way toward Chu Kuangren.

He widened his mouth, showing off his fangs as he tried to take a bite at Chu Kuangren.

The crimson eyes were a sign of bloodlust.

"Foolish," Chu Kuangren bellowed.

The Immortal's Core energy erupted, followed by a loud bang.

The Jiangshi that jumped on Chu Kuangren was blasted away immediately.

With his bones and tendons crushed, he fell to the ground like a pile of rotten meat.

It was just a blast of Immortal's Core energy, yet it easily destroyed the Jiangshi that rivaled a Great Perfected Arch Gilded Immortal.

Chu Kuangren's strength was terrifying.

The other Jiangchen Tribe's Jiangshis were deterred and dared not act recklessly anymore. They all stared at Chu Kuangren with reverence.

"Is this how you welcome me? Is this what hospitality is like in the Restricted Area?" Chu Kuangren asked.

Then, his Immortal King's aura intensified.

"Immortal King, please forgive their insubordination and lack of manners." An indifferent voice sounded.

A blue-haired elder came out, carrying a domineering and scorching aura. Daoist Rhymes were resounding from his body.

He was an Embodier from the Hanba Tribe.

"Stand down," he grunted as he glanced at the Jiangchen Tribe's Jiangshis.

Due to their reverence for the Embodier, they were forced to stand down.

"I'm the Tribe Leader of the Hanba Tribe. Now that the irrelevant parties are gone, I wonder to what do we owe the pleasure of your visit, Immortal King?" the man asked.

"I'm here for the Dao contamination qi." Chu Kuangren stated the intention of his visit.

The Hanba Tribe Leader's eyes glinted. The Dao contamination qi had been sealed in the Jiangshi Restricted Area for countless years, and it had always been a ticking time bomb that troubled them.

Now that Chu Kuangren had offered to deal with it, there was no way the Hanba Tribe Leader would decline.

"The Dao contamination qi has many restriction seals around it, so we might need some time to remove it. Please give us a few more days."

"That's fine."

Chu Kuangren did not mind staying for a few more days.

"Drought Maiden, take good care of the Immortal King for a few days."

"My pleasure."

The Drought Maiden licked her lips eagerly.

The Hanba Tribe Leader was rendered speechless. 'Drought Maiden, do you have no integrity as a woman?'

...

"Damn it. Chu Kuangren is still so powerful even after he left the Immortal World!"

The Jiangchen Tribe Leader's expression was grim as he looked at the Jiangshi who had just gotten killed.

"Tribe Leader, Chu Kuangren's blood is indeed tempting. I have a feeling that if we can suck his blood, it will greatly help us with our plan."

One of the Jiangshis recalled the primal bloodlust boiling in him when he saw Chu Kuangren, and a hint of frenzy filled his face.

"I will not miss his treasured blood, but before that, we must think of a way to deal with him first."

Chu Kuangren was too powerful.

The Jiangchen Tribe Leader had heard rumors about Chu Kuangren killing an Embodier back in the Immortal World.

"Tribe Leader, I don't think we need to rush things. The Four Blood Supreme Pill is entering its crucial stage. We should focus on this first," said another withered Jiangshi.

"Yeah, you are right, Advisor. You mentioned that the Four Blood Supreme Pill is lacking one last trigger, right?"

"Yes. The Four Blood Supreme Pill's Yin qi is too strong. We have to use the Hanba True Flame to suppress it, but the common Hanba True Flame can't do the job," said the old Jiangshi.

"What about the Drought Maiden's blood? Is it strong enough?"

"The Drought Maiden is the strongest Prodigy of the Hanba Tribe. If we can get her blood, we can definitely use it as a guide or a trigger in the pill."

"Very well."

A hint of coldness flashed in Jiangchen Tribe Leader's eyes. "Out of the four tribes in the Jiangshi Restricted Area, only we are without an Embodier. In a few more days, the Jiangchen Tribe will be the ruler of this Restricted Area!"

...

Chu Kuangren toured the Jiangshi Restricted Area for a few days.

He saw and met many Jiangshi, which was intriguing.

The four tribes had their own unique power.

The Jiangchen Tribe absorbed blood to strengthen themselves, the Hanba Tribe controlled the true flame, and the Houqing Tribe possessed great speed and excelled in curses.

As for the Yinggoug Tribe, they were known for their vast and substantial undead qi. Moreover, they possessed the strongest physical bodies out of the four tribes.

Other than that, Chu Kuangren sensed a faint connection between the four tribes.

"Legend has it that a beast from the wasteland, named Hou, tormented the past. It was so strong that it was called the forefather of all beasts, and it even feasted on dragons. It was fierce.

"However, it was later killed by Fuxi and Nuwa together, but its soul remained undead. It split into three parts and fused with Houqing, Yinggou, and Hanba's bodies, making them the forefathers of Jiangshi.

"Its body then fused with a divine tree, becoming Jiangchen. Is the legend true?" Chu Kuangren asked the Drought Maiden with a smile.

Chapter 1939: The Most Dao Contamination Qi, Jiangchen Tribe Leader Rises, Four Blood Supreme Pills' Power

"It's an old legend. I don't know if it is real," the Drought Maiden answered with a smile.

"Is that so?" Chu Kuangren, however, did not linger on the topic.

Soon, the Hanba Tribe Leader informed him that the restriction seals around the deepest part of the Jiangshi Restricted Area were lifted and that he could proceed to absorb the Dao contamination qi.

"Thank you for your hospitality for the past few days. I'll be taking my leave," Chu Kuangren said with a smile.

The Drought Maiden sighed as Chu Kuangren left her sight. "What a dull man. His heart is like a stone."

She had been seducing him for days, but he turned a blind eye to all of her tricks.

How irritating! Was it because she was not attractive enough?

The Drought Maiden looked into the mirror. She saw her voluptuous body and beautiful face. "I'm quite the looker."

Then, a Jiangshi from her tribe came. When he saw her winking in the mirror, he cleared his throat to announce his arrival.

The Drought Maiden put the mirror away. "What is it?"

"Drought Maiden, the Jiangchen Tribe has requested a meeting."

"Oh? What is it they want from me?"

Baffled, the Drought Maiden frowned and said, "Is it because of the political marriage again? How troublesome."

The Jiangcheng Tribe was the weakest tribe in the Jiangshi Restricted Area.

They had been trying to propose a political marriage to the Hanba Tribe to strengthen their status and strength, but the Drought Maiden declined it.

"Fine. I'll go see them one last time," she said indifferently.

...

On the other hand, deep in the Jiangshi Restricted Area, Chu Kuangren arrived in front of a massive mountain.

There were rumbling black qis circling the mountain foot.

On the top of the mountain, a person was sitting with his legs crossed.

"That man is the Tribe Leader of Yinggou Tribe, the Restricted Area Supreme Overlord!" the Hanba Tribe Leader said.

Having also noticed Chu Kuangren's arrival, Yinggou Tribe Leader opened his eyes and looked at him.

"Welcome, Immortal King. Please forgive me as I am unable to welcome you myself. I have to stay here to suppress this location."

"It's alright."

Chu Kuangren looked at the Dao contamination qi at the mountain foot.

That location had the most Dao contamination qi among all the locations he visited. Even with his capabilities, he might have to spend a few days to reach its deepest part with Yinggou Tribe Leader's help.

Yinggou Tribe Leader agreed.

"The Dao contamination qi here was the source of the calamity. I have been suppressing it for a long time, so I can spare a few more days. Let's begin," Yinggou Tribe Leader said.

Hanba Tribe Leader watched from the side and decided to guard the two of them.

After a few days, a wretched figure limped toward the mountain from afar.

It was the Drought Maiden.

Her energy presence was weak, and she looked pale. Her Hanba True Flame was badly consumed as if it had been sucked out of her body.

Hanba Tribe Leader was shocked to see her so weak.

"Drought Maiden, what happened to you?"

"Tribe Leader, it's the Jiangchen Tribe! They're collecting the blood of all four Jiangshi tribes to refine the Four Blood Supreme Pill!" the Drought Maiden said feebly.

The Jiangchen Tribe set her up to extract her blood essence and her True Flame. She was only able to escape alive because the elders of the Hanba Tribe risked their lives to cover her escape.

Hanba Tribe Leader's expression turned grim when he learned what happened.

"Such audacity!"

The Four Blood Supreme Pill was a legend circulating the Jiangshi Restricted Area.

It was said that the blood of all four Jiangshi tribes contained a portion of the Hou Beast's energy. If the blood could be fused, one could acquire the power of the Hou Beast, transcending beyond all Jiangshis and becoming an ancient beast-like existence.

The Four Blood Supreme Pill was the fusion of the blood of all four Jiangshi tribes.

However, in order to refine the pill, a large amount of blood from all four tribes was required, and it might not even succeed in the end.

Therefore, the pill remained a taboo in the Jiangshi Restricted Area for a long time.

No one would have thought that the Jiangchen Tribe would take the risk to refine the tabooed pill.

It infuriated Hanba Tribe Leader.

Kaboom!

Then, a terrifying energy presence, followed by endless fiery light, burst into the sky from another corner of the Restricted Area.

The entire Restricted Area was shaken by the blast.

It was the Jiangchen Tribe's base!

"Hahaha! I did it! I finally did it!"

The Jiangchen Tribe Leader emerged from the endless fiery light. The energy that circulated him contained a destructive force.

Even though he was not an Embodier, the power inside him rivaled one.

All the Jiangshis in the Restricted Area trembled as they looked at him. Their bloodline grew restless as if they were afraid of him.

"So is this the power of the Four Blood Supreme Pill? I've planned for this many years, and I finally did it. Now..."

Jiangchen Tribe Leader looked in the other direction of the Restricted Area, where the Dao contamination qi was sealed.

His fangs were unveiled.

"Chu Kuangren, your treasured blood shouldn't go to waste. With your blood and the Four Blood Supreme Pill, I will be even stronger. It's like giving wings to a tiger! Then, I can even beat Yinggou Tribe Leader!"

The Jiangchen Tribe Leader was excited. He could already picture the scene where he ruled the entire Restricted Area.

With that, he made his way toward the sealed location.

"The time is here for the Jiangchen Tribe to rise!"

"That's right. We've been oppressed by the other three tribes for many years, and we can finally come up on top!"

"Follow the Tribe Leader and take over the Restricted Area!"

The Jiangshi of the Jiangchen Tribe had a strange zeal in their eyes. They were excited by the idea that their Tribe Leader promised.

Hence, they followed their Tribe Leader to the sealed location, leaving a trail of destruction in their way.

The entire Restricted Area was plunged into chaos.

Meanwhile, at the sealed location, the Hanba Tribe Leader sensed the Jiangchen Tribe Leader's approach.

He channeled his Hanba True Flame and released the scorching energy, expanding it to surround the entire mountain.

Despite being in a scorching environment, his eyes were cold.

Bang!

The tremendous energy presence had arrived.

The Jiangchen Tribe Leader looked at the Hanba Tribe Leader. "Hanba Tribe Leader, are you sure you want to stand against me?"

"Jiangchen Tribe Leader, the Four Blood Supreme Pill is a restricted item, and you have broken the rules of the Restricted Area. You're the one standing against the entire Restricted Area! You even hurt the Drought Maiden! For that, I will not forgive you!"

"What a joke! The Four Blood Supreme Pill is so powerful, but all of you are so afraid of making a little sacrifice to get it. You have even labeled it as taboo. How outdated and foolish your thoughts are. No wonder the Jiangshi Restricted Area's development has been stagnant for years. Only I have the nerve to do what you dare not!

"Only I have the power to lead the Jiangshi Restricted Area to a new height! Hanba Tribe Leader, bow to me now, and as fellow Jiangshis, I'll allow you to keep the title of Tribe Leader," Jiangchen Tribe Leader said coldly.

He was beaming with confidence.

He had always been the weak and timid one before the other three Tribe Leaders, but things were different now.

"Hmph! Jiangchen Tribe Leader, you're stirring up an internal conflict!" a cold voice said.

A man surrounded by an ominous aura came over. He was the Tribe Leader of Houqing Tribe.

"This isn't an internal conflict. This is a revolution! And bloodshed will follow. Now, I shall show you how powerful I am after I've been changed!"

The Jiangchen Tribe Leader swung his sleeve. His eyes turned crimson, and terrifying undead qi rumbled around him.

He lifted his hand, and the Hanba True Flame blasted forward.

The Four Blood Supreme Pill had allowed him to master the abilities of the other three tribes!

Houqing Tribe Leader and Hanba Tribe Leader had bitter looks on their faces.

Unparalleled After Ten Consecutive Draws

Chapter 1940: Yinggou Tribe Leader Attacks, The Longer The Battle, The Stronger Jiangchen Tribe Leader

While Chu Kuangren was absorbing the Dao contamination qi deep inside the Jiangshi Restricted Area, he also sensed the terrifying energy presence outside and could not help but narrow his eyes.

"It seems like the Jiangshi Restricted Area isn't always united."

He then looked at the Yinggou Tribe Leader with a meaningful smile.

Yinggou Tribe Leader replied indifferently, "I'm sorry about this. Regardless of forces or tribes, there are always black sheep in the community. I believe the human race has experienced similar situations."

"Hmph. Indeed, we have," Chu Kuangren said with a nod.

Outside the mountain, Jiangchen Tribe Leader was fighting with Hanba Tribe Leader and Houqing Tribe Leader. Powerful undead qi swept across the field and shrouded the sky.

All the other Jiangshi were in awe.

"The Jiangchen Tribe Leader is really powerful!"

"He has gotten so powerful!"

"The Four Blood Supreme Pill is indeed scary."

The cultivators of Jiangchen Tribe were excited when they saw their Tribe Leader rivaling the other two Tribe Leaders despite the disadvantage in number.

They believed the Jiangchen Tribe would rise to prominence after that day.

"Hahaha! Houqing Tribe Leader, Hanba Tribe Leader, aren't the two of you Embodiers? Is that all you two got? What a disappointment!"

Jiangcheng Tribe Leader cackled with arrogance.

He threw a palm attack forward, blasting Hanba True Flame at the two of them.

The Hanba Tribe Leader was able to block the incoming flame, but even he felt a little strained.

"He's a Jiangchen Jiangshi, but his Hanba True Flame is as strong as mine. How powerful is the Four Blood Supreme Pill?!"

"Not only the Hanba True Flame, but even his undead qi and physical body rivals Yinggou, and his speed is as fast as mine," Houqing Tribe Leader said with a stern look on his face

Jiangchen Tribe Leader was not even an Embodier, yet the two Embodiers, who had teamed up, felt overpowered.

How terrifying!

"Houqing Curse Divine Seal!"

Houqing Tribe Leader performed a series of mystical hand seals, and strange runes started to appear in the air.

A strange surge of energy emanated.

The energy locked onto the Jiangchen Tribe Leader, and even more runes appeared around him. The energy then started to invade and consume his body.

It was the unique ability of the Houqing Tribe — curses.

"Ha! Break!" Jiangchen Tribe Leader shouted.

A strange curse energy came out from his body and shattered the runes around him.

He then looked at the Houqing Tribe Leader with a grin. "I can use the power of the curse as well. Do you really think it's effective against me?"

"Damn it!"

Houqing Tribe Leader frowned. The Four Blood Supreme Pill was too powerful that it allowed the Jiangchen Tribe Leader to master the unique abilities of the other three tribes.

What they possessed, the Jiangchen Tribe Leader had it too.

However, what they did not possess, the Jiangchen Tribe Leader had.

They were in a disadvantageous position.

"From now on, I will be the supreme leader of the Jiangshi Restricted Area!" Jiangchen Tribe Leader bellowed arrogantly.

The Jiangshis of the Jiangchen Tribe roared as they revealed their fangs at the other tribes. Their eyes and fangs were glaring terrifyingly.

"Oh? Are you trying to usurp the leader position?" a frosty voice said.

A figure in green came from the air, with a vast undead qi expanding from him and scattering across the area.

It was Yinggou Tribe Leader.

"Yinggou Tribe Leader? You left the sealed location?" Jiangchen Tribe Leader's expression shifted.

He knew Yinggou Tribe Leader had been stuck at the mountain for years because of the Dao contamination qi and had never set foot outside.

Hence, it was a surprise to see him away from his potion.

"I knew it. It's Chu Kuangren. I was wondering what he's doing here in the Jiangshi Restricted Area, and he's here to deal with the Dao contamination qi," Jiangchen Tribe Leader said.

There was someone who could deal with the Dao contamination qi?

How unbelievable!

However, it explained why Chu Kuangren came to the Jiangshi Restricted Area and why Yinggou Tribe Leader was able to leave his spot.

"Yinggou Tribe Leader, are all of you going against me because of an outsider?" Jiangchen Tribe Leader said coldly.

He could not understand their motivation and found it irritating.

"We are all Jiangshis, but all of you are standing against me because of an outsider, a human? Don't you think it's a little outrageous?!" Jiangchen Tribe Leader roared. His eyes were bloodshot, and he was bursting with rage qi.

However, the other three Tribe Leaders simply looked at him coldly.

"Jiangchen Tribe Leader, the outsider you're referring to is dealing with the Dao contamination qi that has been troubling our tribes for many years. You, on the other hand, slaughtered your own kind. You're a Tribe Leader, but you broke the rules because of your own desire. You're the outrageous one here," Hanba Tribe Leader said coldly.

"Hmph! I'm starting a revolution!"

"What a joke! You slaughter your own kind for power, and you call it a revolution? Jiangchen Tribe Leader, you're even more shameless than we thought!"

"Shut your nonsense! Let's take him out!" Houqing Tribe Leader said.

His figure flashed as he zipped forward in a bolt of black lightning and led the charge at Jiangchen Tribe Leader with a powerful attack.

Hanba Tribe Leader channeled his True Flame as well.

Yinggou Tribe Leader stepped forward, throwing out a punch that seemed normal but contained rampaging undead qi.

In addition to Yinggou Tribe's unique physical strength, his fist energy was so powerful that it crushed the space ahead.

Kaboom!

The three Embodier Jiangshis attacked together, and the explosive power shook the heavens.

Daoist law rumbled, and undead qi went rampant.

No matter how strong Jiangchen Tribe Leader had gotten, he fell short against the combined attack and was pushed several hundred meters away.

Hanba Tribe Leader seized the chance to follow up with another attack.

Terrifying True Flame gushed forward.

However, Jiangchen Tribe Leader's undead qi surged rapidly. It was so powerful that it extinguished the Hanba True Flame easily.

"He's gotten stronger?"

"How is this possible?"

The three Embodier Jiangshi found it unbelievable.

Jiangchen Tribe Leader cackled with laughter. "Surprised? The Four Blood Supreme Pill is fusing with me as we speak. In other words, I'm still evolving, and my strength is getting stronger!

"The more I fight, the stronger I am. You, on the other hand, will grow weaker as the battle goes on. The outcome of this fight is fixed!"

Jiangchen Tribe Leader continued to cackle.

The three Embodier Jiangshis' expressions shifted.

"I can't believe the Four Blood Supreme Pill is so terrifying?"

"It's really surprising."

Yinggou Tribe Leader said solemnly, "You two hold him down. I will take charge."

Both Hanba Tribe Leader and Houqing Tribe Leader nodded.

After a brief strategic meeting, the four Jiangshis fought once more.

The terrifying energy that they released during the fight shook the entire Restricted Area.

It was probably the worst and the biggest internal conflict in the Restricted Area.

All the Jiangshis knew that the outcome of the battle would determine the future of the Restricted Area.

Kaboom!

Undead qi fluctuated as the Jiangchen Tribe Leader's energy grew stronger.

The other three Tribe Leaders had a feeling that their bloodline was being suppressed, which surprised them.

"Stand down."

Jiangchen Tribe Leader threw a palm attack forward. The undead qi that he launched somehow fused all four of the Jiangshi abilities together.

The palm strike blasted the three Embodiers away.

Jiangchen Tribe Leader looked at them as he said, "Can you feel it? My bloodline has surpassed yours. In time, I will evolve into a being stronger than a Jiangshi! Even I have no idea how powerful I will become when I fully fuse with the Four Blood Supreme Pill!"
