

## Unparalleled 1961

### Unparalleled After Ten Consecutive Draws

#### Chapter 1961

"Damn it, they've escaped." One of the generals snorted coldly.

Chu Kuangren merely stood by the side, not bothered by it because that was what he intended to happen anyway. With his capabilities, holding Yun Zhongyue back would not be a hard thing for him to do, but he did not wish to do that.

Besides, he was just playing along the entire time, so there was no need to act too seriously.

"Return to the fortress and reorganize the troops," Chu Kuangren said plainly.

Everyone immediately responded firmly, "Roger."

They looked at Chu Kuangren's figure with admiration, not knowing Chu Kuangren's true strength at all.

That was why they had no idea Chu Kuangren was simply messing around in the recent battle.

However, they were truly shocked by the combat power he displayed just now. Without Chu Kuangren, Yun Zhongyue would have wiped them all out.

After returning to the fortress, Chu Kuangren summoned the military adviser of the fortress.

That person's name was An Zhixun.

His cultivation level was not that high, but he was previously Chi Xue's capable right-hand man. After Chi Xue's death, he displayed absolute loyalty to Chu Kuangren.

'He's more like an absolute fence-sitter to me.'

"I've asked for you mainly because I have a task for you to carry out. Do you know how many Immortal Metal ore veins are hidden in the Ninth Continent?" Chu Kuangren asked.

An Zhixun was a little surprised and did not know why Chu Kuangren would suddenly ask about that. However, he replied honestly, "Immortal Metal isn't abundant on the Ninth Continent. There are only seven Immortal Metal ore veins here."

"Alright. Send our men to start mining them."

"Very well."

After An Zhixun left, Chu Kuangren started pondering.

He was inquiring about the Immortal Metal ores for the Great Water Nation Warring Map Formation. If he wanted to set up the whole formation, it would require a huge amount of metallic resources.

That was why he asked about the Immortal Metal ore veins.

"Seven, huh? It's far from enough," Chu Kuangren mumbled.

To set up the Great Water Nation Warring Map Formation on a tremendous scale that encompassed the whole Void Battlefield, mountains of Immortal Metal supplies would be required.

The current amount of Immortal Metal would never be enough.

"I'll have to find out which location has enough Immortal Metal..."

Chu Kuangren took out a jade scroll.

He sent a message to all members of the Heavenly Roundtable in the Void Battlefield, asking them to keep their eyes out for anything similar.

...

Having suffered defeat at the Ninth Continent, Yun Zhongyue frantically retreated behind the Pan Gu Universe's line of defense.

"Sh\*t, I didn't expect the Heavenly Sword to be so powerful!"

Yu Zhongyue could not help but lament. "It looks like the newer generation has indeed replaced the older generation. Pan Gu Universe's Immortal King, Central Heaven Universe's Heavenly Sword... I'm feeling old just by looking at them."

"You flatter us, Senior."

A laugh sounded.

Following that, an astral diagram and a figure appeared in the void.

He was dressed in long green robes and was holding a green jeweled sword.

Vague strands of sword qi were swirling in his green-colored eyes.

A stalk of green-colored grass appeared as well.

"Oh, you're the one that saved me earlier."

Yun Zhongyue said curiously, "It turns out it's the host of the Green Leaf Sword Vision. If I'm not mistaken, you must be Ye Zhu of the Three Clarity Daoist Sect."

"I didn't expect you to know who I am. I'm deeply honored, Senior."

"Ha! Although I've been occupied with suppressing the Dao contamination qi for many years, I'm still privy to the things happening in the outside world. Judging by your cultivation, it seems like you're close to breaking through to the Embodier Realm soon. Perhaps, when it comes to Sword Dao, you and the Immortal King are the only ones in Pan Gu Universe that can go against the Heavenly Sword," Yun Zhongyue said.

Ye Zhu's gaze turned stern at the mention of the Heavenly Sword's name.

"I've encountered this person before. He's the most overpowering Prodigy other than Brother Chu. I'm afraid that even if I break through to the Embodier Realm, I won't have a high chance of defeating him. Only Brother Chu can deal with him."

"I see. The Heavenly Sword is quite a tricky opponent indeed. Oh, by the way, the astral diagram earlier seemed quite mysterious. May I know what that is?" Yun Zhongyue asked curiously.

"That astral diagram is a symbol of the Black Heaven Nine Star. It's from the Black Heaven Star Order," Ye Zhu replied with a chuckle.

"The Black Heaven Nine Stars... What kind of organization is that?"

"It's created by Brother Chu..."

Ye Zhu briefly spoke about it and did not reveal much.

After that, they returned to another continent and arrived inside a city.

That city was a heavily fortified city occupied by Pan Gu Universe's forces.

While Yun Zhongyue was finding a place to recover, two figures approached him.

It was an elderly man and a young man.

The elderly man was dressed in gold lavish long robes, emanating a vague but ancient aura. Meanwhile, the young man was dressed in white and had extraordinary Daoist Rhymes swirling mysteriously around him.

That person was Fuxi's successor of the Human Emperor Sect.

"Oh, it's you, Gu Xi."

Ye Zhu's eyes lit up upon seeing Fuxi's successor.

Gu Xi was the name of Fuxi's successor.

All the years, ever since he lost to Chu Kuangren, he had entered the Void Battlefield to improve himself, hoping to break through to become an Embodier quickly.

Ye Zhu had met him a few times before.

However, he was not very friendly during the times they met.

"Oh, it's Ye Zhu," said Gu Xi with a slight grin, but his expression was emotionless.

"Oh, you two know each other?" Yun Zhongyue asked curiously.

"We've met a few times before."

"Oh, Ye Zhu, I heard you've been helping out Chu Kuangren as his subordinate recently. He even formed that Black Heaven Nine Stars or whatever it's called. Are you really satisfied serving another person?" Gu Xi said lightly.

"It'll have to depend on who I'm working for. I think it's alright to help Brother Chu out," Ye Zhu said confidently.

"Hmph, what a fool!"

At that time, the elderly man in the lavish golden robes beside Gu Xi said coldly, "As a Prodigy, you should be thinking on how to surpass Chu Kuangren, not serve him as his subordinate. It seems to me that you've lost your drive for greatness and power, and because of that, you do not deserve to be a cultivator."

"And you are..." Instead of getting angry, Ye Zhu quickly asked.

"Kunlun Immortal Hall's Myriad Dusk Immortal Emperor!" the Myriad Dusk Immortal Emperor said calmly.

Ye Zhu instantly came to a realization. 'No wonder he's speaking this way. It turns out he's from the Immortal Hall.'

However, when it came to the Immortal Hall's Immortal Emperors, Ye Zhu knew all of them and had not heard of the elderly man before.

'And this ancient aura around him... It looks like he's an ancient Embodier.'

Ye Zhu had heard about the rumors surrounding the ancient Embodiers.

"To each their own, I suppose. Everyone is free to do whatever they wish, so there's no need for you to worry, Senior," Ye Zhu replied.

With that, he was going to leave.

Unexpectedly, the Myriad Dusk Immortal Emperor did not want to let the matter slide. "You stand right there. Today, I want you to tell everyone that you'll quit the Black Heaven Nine Stars. Otherwise, don't think of leaving this place!"

"Don't you think this is too much, Senior?"

Ye Zhu's expression changed slightly.

At that time, the other cultivators around them had also noticed what was happening.

"This is too much, Myriad Dusk Immortal Emperor," Yun Zhongyue, who could no longer stay silent, shouted.

Even so, the Myriad Dusk Immortal Emperor did not care. "What right does a critically injured Embodier like you have to tell me what to do?"

He snorted and unleashed his Embodier aura everywhere. The auras of three types of Dao erupted from within his body!

His Multi-Embodier aura instantly stunned everyone present.

"I can't believe the Immortal Hall still has someone so powerful!"

The crowd of cultivators was a little shocked.

On the other hand, Yun Zhongyue's expression sank, and his Embodier aura erupted. Although it was weaker than that of the Myriad Dusk Immortal Emperor, he still held on forcefully.

When the two auras collided, their invisible Daoist might clashed violently in the air.

However, seeing that Yun Zhongyue was injured and the Myriad Dusk Immortal Emperor's cultivation level was higher, he quickly fell to a disadvantage.

"Back off!"

The Myriad Dusk Immortal Emperor waved his sleeves.

A domineering surge of energy swept out.

Yun Zhongyue was forced back several meters away.

Just then, a figure appeared behind Yun Zhongyue and supported him from the back.

"Ancient Embodier of the Immortal Hall, considering that the Immortal Hall has been kicked out from the Immortal World, what makes you think you can act with such insolence?!"

[Unparalleled After Ten Consecutive Draws](#)

**Chapter 1962: Wonders of the Creation Energy, the Ancient Armament Destruction Planet Enters the Battlefield**

"This voice..."

Yun Zhongyue looked at the person supporting his back.

He was dressed in white robes and had an ancient sword tied to his waist.

The man was none other than Chu Kuangren, who had arrived at the Void Battlefield.

Upon seeing him, Ye Zhu could not help but say with joy, "Brother Chu!"

"Mhm." Chu Kuangren nodded gently.

Then, he looked at the Myriad Dusk Immortal Emperor and said, "It's not up to you to hand out judgment for the members of the Black Heaven Nine Stars."

The Myriad Dusk Immortal Emperor's gaze narrowed as he looked at Chu Kuangren. "So, you're the one who kicked the Immortal Hall out of the Immortal World. I've heard so much about you, but I never thought I'd be graced by your presence."

After saying that, he pointed his finger at Chu Kuangren, releasing an attack that contained a powerful surge of Daoist law energy.

Chu Kuangren let out a soft snort and released a similar attack from his finger. Razor-sharp strands of sword qi surged out while a green lotus bloomed in the air.

Boom!

A great explosion erupted in the void as if it was being ripped apart.

The two cultivators stood their ground despite the powerful impact of their attacks.

"What a lad."

The Myriad Dusk Immortal Emperor was a little shocked.

'He's strong enough to withstand an attack from a Multi-Embodier!'

"Hmph, try this!"

Just when the Myriad Dusk Immortal Emperor was about to attack, a terrifying aura suddenly erupted, spreading and filling the whole area.

"As I said, if you want to kill him, you'll have to go through me!"

A purple-robed young man appeared, with strands of purple Daoist laws swirling all over his body.

"Zi Jinlun!"

The Myriad Dusk Immortal Emperor's expression shifted.

The person who appeared was none other than one of the Seven Celestial Demon Cultivators, Zi Jinlun.

"Hmph, let's leave." Not intending to have another conflict with him, the Myriad Dusk Immortal Emperor turned around and left with Gu Xi.

Chu Kuangren pondered as he watched as the two of them leave, especially Gu Xi, whose aura seemed incredibly familiar.

"It looks like that guy has obtained some wonderful Opportunities of Fortune."

Chu Kuangren chuckled.

Then, he asked Yun Zhongyue. "Are you alright, fellow Daoist Brother?"

"I'm fine."

Yun Zhongyue shook his head. However, his face instantly turned white as paper the next instant, and he spat out a mouthful of blood right after.

"Senior Brother, you're still critically injured from fighting the Heavenly Sword. Let's quickly find you a place to rest." Ye Zhu quickly went to him and said.

"If you don't mind, allow me to heal your injuries, Senior," Chu Kuangren said.

The two of them froze for a while.

It was usually hard for an Embodier to recover from their injuries, and it would require a tremendous amount of time.

Hence, how did Chu Kuangren intend to heal him?

Chu Kuangren just chuckled and raised his hand, where there was a green ray of light swirling in his palm. Then, he imbued that energy into Yun Zhongyue's body.

A powerful surge of creation energy emanated into the surroundings.

The Embodier's injuries were now recovering at a rapid rate!

It was the Green Lotus's Creation Energy.

Although Chu Kuangren had been using the Green Lotus's Destruction Energy the most, the Green Lotus's Creation Energy should not be underestimated as well.

As the name implied, Creation Energy had numerous wonderful applications.

Healing the injuries of others was only one of those applications.

It could even spark the growth of Spiritual Herbs, create items out of nothing, and many more.

"What an extraordinary power."

Most of Yun Zhongyue's injuries were healed after a short while.

If he were to take his time to heal, it would take him thousands of years to recover from his injuries. However, he was now fully healed after a short while.

That made everyone gasp.

Everyone suddenly looked at Chu Kuangren with an intense gaze.

After all, they were on a battlefield, with numerous casualties appearing by the second. When injured, not even the Supreme Elixirs or Immortal Herbs could heal some of the more top-tier elites, and they could only slowly recover with time...

However, with Chu Kuangren's Creation Energy... they would have nothing to worry about anymore!

It took Zi Jinlun no time to figure out the tremendous value contained within Chu Kuangren's Creation Energy. His eyes lit up with joy like never before.

"Greetings, Senior Brother."

Chu Kuangren then looked at Zi Jinlun with a curious gaze. After all, the latter was one of the Seven Celestial Demon Cultivators.

At that point, there was only one last member of the seven he had not met yet.

"You've done well."

Zi Jinlun looked at Chu Kuangren with amazement.

After that, they found a place to settle in.

Meanwhile, inside the Central Heaven Universe battlefield's Ninth Continent, Chu Kuangren received some news.

It was sent by Feng Qiyu, a member of the Heavenly Roundtable.

The contents mentioned that she knew about a continent with a vast abundance of Immortal Metal ore veins.

It was the Thirteenth Continent, one of the most important locations in the Central Heaven Universe defense line. As that continent contained a vast amount of Immortal Metal, that was where most of the soldier's weapons were forged.

On top of that, Feng Qiyu was one of the generals of that continent.

However, besides her, a few other generals were assigned to that continent too. Each of them was an exceptional cultivator, especially the two ancient God Kings who were recently assigned there.

The two ancient God Kings were very secretive. Besides the generals of that continent, no one else knew about their presence there.

When Chu Kuangren heard of that, his interest grew.

He decided to go and take a look at the Thirteenth Continent.

As for the Ninth Continent, seeing that Yun Zhongyue and the others had failed in their previous attempt, no one would dare to attack for the time being.

So what if there was an attack?

For all he cared, the Ninth Continent could fall into enemy hands.

Chu Kuangren did not even care anyway.

"Then again, if we lost the Ninth Continent, wouldn't that mean I'll be accused of my negligence or something by a certain few? If that's the case, this may have some impact on my future plans."

With that thought in mind, Chu Kuangren secretly contacted someone.

...

In Central Heaven Universe, a large number of troops were guarding and suppressing the Void Battlefield's entrance.

They had seen many people entering and leaving the Void Battlefield the last few days, including some God Kings.

"It looks like the great universal war has started. I wonder what the outcome will be?" one of the soldiers asked.

"Who knows?"

"However, I never knew the Central Heaven Universe had so many God Kings. I've seen quite a few of them in the past few days."

"What an eye-opening experience indeed."

The soldiers chatted leisurely with each other.

However, at that time, one of the soldiers saw something, and his eyes widened.

"L-Look over there! What is what?!"

Everyone turned their heads and immediately gasped.

Among the starlit space, an ancient planet was approaching them at breakneck speed. Veils of black mist surrounded its surface as if there was a mysterious great formation around it.

Within the mist, towering structures were standing upright on the planet's surface.

However, that was not the most shocking thing.

What shocked everyone the most was the overwhelming rage qi circulating the planet, akin to a monstrous Stellar Beast.

Just a glance at it made everyone feel a huge pressure weighing on them. Some of them even felt suffocated.

It was simply too terrifying.

"It's the Ancient Armament Destruction Planet!"

Some of the soldiers were astonished when they recognized that planet.

One of the God Kings of the Central Heaven Temple rushed over, arriving above the Ancient Armament Destruction Planet, and asked loudly. "Armament Destruction Tribe, what are you doing here?"

One of the Arch Gilded Immortals of that planet rose into the air and replied, "We have received an order from the Armament Destruction God to enter the Void Battlefield and join the war!"

'The Armament Destruction God?'

'The Ancient Armament Destruction Planet wants to participate in the war?'

That God King was a little surprised.

After all, the Armament Destruction Tribe was never that proactive before.

Therefore, he quickly contacted God King Sikong from the Central Heaven Temple.

He, too, was pleasantly surprised.

In the end, he agreed and allowed the Ancient Armament Destruction Planet into the battlefield.

The soldiers could also hear faint sounds of weapons clashing from the planet, sending chills down their spines.

As everyone watched the ancient planet leave, they could envision an unprecedented and monumental battle that was about to unfold in the Void Battlefield.

### [Unparalleled After Ten Consecutive Draws](#)

#### **Chapter 1963**

Soon after, Chu Kuangren left the Ninth Continent.

He left the Heavenly Shadow behind to stand guard over his post.

After he left, the military advisor, An Zhixun's eyes lit up. He quickly took out his jade scroll and secretly contacted someone.

"Master, the Heavenly Sword has left the Ninth Continent."

"Oh, where has he gone to?"

"I'm not sure; he didn't say. However, his subordinate has stayed behind. I'm afraid that person will not be easy to deal with either."

"I'm much more aware of that compared to you. That person, huh... Hmph." The person on the other end of the jade scroll spoke as if he was familiar with the Heavenly Shadow.

"Alright, since the Heavenly Sword has left, let's proceed as planned. This time, I want him to feel what it's like to have your reputation plunged down the drain."

The person on the other end of the jade scroll snorted.

A few days after Chu Kuangren left the Ninth Continent, a terrifying aura suddenly appeared and enveloped the place.

Out of nowhere, dozens of people charged from the distance. Since they were all shrouded in Immortal Sparks, their appearances were hidden.

As soon as they arrived, they started wreaking havoc on the Ninth Continent.

It did not take long before one of the generals could not hold his position any longer.

"Heavenly Sword... Where's the Heavenly Sword?"

An Zhixun replied loudly, "The Heavenly Sword is not on the Ninth Continent!"

Everyone immediately fell into an uproar.

'What?'

'The Heavenly Sword is not on the Ninth Continent?'

'Where has he gone to?'

'Why has he neglected his post at a time like this?'

"Haha! The Heavenly Sword, huh? I can't believe he's so irresponsible. Today, the Ninth Continent will be destroyed because of the Heavenly Sword! It's his fault!"

"That's right. He's the one to blame."

The laughter of the attackers sounded from the sky.

At that moment, a figure rose into the sky.

It was the Heavenly Shadow who had taken action.

However, a fiery light blocked his path.

"Oh, this aura... It's you."

Looking at the person shrouded within Immortal Sparks, a glint flashed in the Heavenly Shadow's eyes. That person was none other than the Thousand Flame God King, who fought him in the past.

"As for the other person..."

The Heavenly Shadow's gaze landed on everyone else, and he soon noticed another God King's aura, which he was also familiar with. It was someone present at the God King Meeting. He was the ancient God King from the Dao King Tribe, Mo Tianyin.

Back then, those cultivators expressed intense and obvious hostility toward Chu Kuangren.

The Heavenly Shadow remembered all of them.

Despite how well they concealed their identity, they still could not escape his eyes.

"You lot have taken the opportunity to cause trouble here while the Devil's Master is not around. Then, you'll blame the Devil's Master for neglecting his post. Am I right?"

The Heavenly Shadow quickly identified the attackers' motive, and a chilling look appeared in his eyes.

By then, a black demonic saber was already in his hand.

"I have no idea what you're talking about."

The Thousand Flame God King, who was shrouded in Immortal Sparks, denied that comment.

"Hmph."

The Heavenly Shadow snorted coldly and attacked without another word!

As his Devil energy surged, the skies were lit up by the fiery and black demonic lights that tore apart the surroundings!

Meanwhile, on the other side, Mo Tianyin led the others and continued ransacking the Ninth Continent, leaving destruction and chaos in their path.

"Haha! You're in deep trouble now, Heavenly Sword! Once the Ninth Continent falls, let's see how you'll keep your position as general!"

Mo Tianyin secretly thought.

Just because he wanted Chu Kuangren to suffer, he and the others had gone as far as to attack the Ninth Continent.

However, just when Mo Tianyin was enjoying himself, a huge shadow suddenly appeared on the horizon. An incomparably dense and terrifying aura instantly enveloped all of the Ninth Continent, sending shivers down everyone's spine.

"What... What is this!"

"A planet?"

Everyone looked at the giant planet approaching and could not help but feel confused. Only the Heavenly Shadow alone smiled.

"I see. So the Devil's Master has foreseen that this would happen."

Upon hearing that, everyone was even more confused.

'This planet... Is the Heavenly Sword the reason for its appearance?'

"What is happening?"

Mo Tianyin and the Thousand Flame God King could feel an unprecedented threat from that ancient planet.

In the next instant, countless red dots of light appeared on the planet's surface.

When the countless light beams that had locked onto Mo Tianyin and the others were launched, it felt like the void was pierced open wherever the light beams went.

"This is bad. Move away now!" Mo Tianyin yelled.

Unfortunately, the others were one step too late.

All the attacking cultivators caught within the vicinity of the light beam did not even have the chance to resist and were pierced through mercilessly.

Even a God King like Mo Tianyin was forced back several meters.

"What the hell is that?"

Mo Tianyin looked at the ancient planet with immense shock.

Then, he raised his hand to channel his Daoist law and unleashed a domineering palm attack on the Ancient Armament Destruction Planet.

However, the black mist surrounding the ancient planet blocked the palm attack.

He could not believe he was not powerful enough to destroy the ancient planet!

"Let me try!"

The Thousand Flame God King roared and channeled his Daoist laws into a golden fireball. His attack, which was akin to a gigantic sun, was launched onto the ancient planet.

The size of that gigantic sun was almost the same as the Ancient Armament Destruction Planet. Following the intense collision caused by his attack, an explosion instantly erupted in the void.

Yet, when the smoke and dust settled, the Ancient Armament Destruction Planet was not damaged. On the contrary, it continued moving toward them.

Not only that, but countless red dots of light had lit up on the ancient planet's surface.

It was as if there were countless deadly pairs of eyes staring at Mo Tianyin and the Thousand Flame God King. Then, countless light beams shot out once again.

"Move away!"

Everyone's expression shifted.

However, the light beams were seemingly endless.

No matter how they ran or hid, they could not evade the attacks.

It did not take long before the two God Kings were injured.

"Retreat!"

Seeing the situation had changed, the Thousand Flame God King immediately decided to leave, and Mo Tianyin did not stay too long either.

The two of them quickly retreated.

However, on the Ancient Armament Destruction Planet, the Armament Destruction was looking at both of them. He quietly funneled the Ancient Armament Destruction Planet's power, releasing an even more terrifying light beam toward them.

That attack was locked onto Mo Tianyin.

Boom!

Following a terrifying scream and a huge explosion, the Dao inside Mo Tianyin was destroyed, causing him to die there and then.

The Thousand Flame God King was scared until his face turned pale. He frantically channeled his power and turned into a ray of fiery light, dashing into the distance.

The Ninth Continent's forces were terrified as they looked at the Ancient Armament Destruction Planet.

'What kind of existence is this?'

"Did the Heavenly Sword's subordinate mention that the Heavenly Sword arranged this? Did I hear him right?"

"Damn. So does that mean the Heavenly Sword is capable of controlling something powerful like this? This is simply unbelievable. How did he do it?"

"The Heavenly Sword is truly unpredictable. It seems like with him around, the Ninth Continent is as secure as an impenetrable fortress."

An Zhixun, who was standing in the crowd, looked terrified.

He could not believe the Heavenly Sword had something like that up his sleeve!

'Would he know that I betrayed him?'

'What should I do?'

The Heavenly Shadow snorted softly when he noticed An Zhixun's expression, but he did not care. After all, he would wait for Chu Kuangren to return for him to decide.

...

"Oh, the Thousand Flame God King and Mo Tianyin, huh? I can't believe those two worked together just to deal with me."

"Interesting."

"And also An Zhixun, the Ninth Continent's military advisor, a fence-sitter who sides with whoever gives him more benefits..."

Although Chu Kuangren was not on the Ninth Continent, he still had a clear grasp of the situation there. After all, he was the one who planned the Ancient Armament Destruction Planet's arrival.

He had summoned it to enter the Void Battlefield before he left.

Moreover, An Zhixun's betrayal was also within his expectations.

Although he despised that kind of person the most, someone like that would be useful alive.

"Oh well, I'll deal with it when I get back."

None of those were urgent matters for him. Soon, he arrived at his destination, the Thirteenth Continent.

"You've finally arrived, Chairman."

The Heavenly Roundtable member who was assigned here, Feng Qiyu, had come out to welcome his arrival.

#### Unparalleled After Ten Consecutive Draws

#### **Chapter 1964: The Snow God King, Yuen Teng and An Ye, the Divine Titan Tree**

"The Thirteenth Continent is an important location in the Central Heaven Universe's line of defense. It has a vast abundance of Immortal Metal ore veins, making it the primary source of weapons that we transport to our troops in other locations. Meanwhile, dozens of other Ultimate Arch Gilded Immortals like me have been assigned here. Among them, there are three God Kings, Yuan Teng, An Ye, and the Snow God King."

Feng Qiyu's expression turned sour a little at the mention of the Snow God King. After all, that person was her enemy in her previous life.

Considering she had been assigned to guard the same continent as her enemy, it was obvious that the other person must have used some of her connections to arrange it.

"Perhaps, due to fear of the Heavenly Sword, the Snow God King hasn't done anything to me for the time being," Feng Qiyu uttered with relief.

"Yuan Teng, An Ye... These two are the ancient God Kings that arrived in secret?"

Compared to the Snow God King, he was more interested in the other two.

"That's right."

Feng Qiyu nodded. "Besides us, the others have no idea that the two of them have arrived at the Thirteenth Continent."

"I see."

"Oh, I didn't expect the Heavenly Sword to grace us with his presence."

At that moment, a delicate laugh sounded.

A beautiful snowy-white figure arrived, and her presence caused the surrounding temperature to plummet. It was as if the whole area was turned into ice.

Chu Kuangren looked at her. "You're the Snow God King."

"I am."

The Snow God King was one of the Supreme God Kings of the Central Heaven Temple and was said to possess a part of the Titan Tribe's bloodline. As for Yuan Teng and An Ye, whom Feng Qiyu mentioned, both of them were ancient God Kings from the Titan Tribe too.

'Three Titan God Kings have gathered on a single continent... Now, isn't this a little strange?'

Chu Kuangren was a little concerned about that.

"The Heavens have come to acquire some Immortal Metal to forge a new scabbard for this," Chu Kuangren said lightly.

He took out the Void Sword.

Having been affected by the Void Sword's sword qi all those years, its scabbard was now riddled with cracks and tears.

The Snow God King looked at it and chuckled. "The Thirteenth Continent has nothing else but Immortal Metal. Feel free to take your pick, Heavenly Sword."

"Very well."

Following that, Chu Kuangren started wandering around the Thirteenth Continent.

He was looking for suitable Immortal Metal along the way.

However, he was actually taking note of the Immortal Metal ore veins there.

On top of that, he was also trying to find some clues as to why the three Titan God Kings would gather in such a place.

Meanwhile, the Snow God King and Feng Qiyu followed behind him. The moment their gazes met, a chilling intent came from the two ladies.

"I hear that Feng Qiyu is a friend of yours, Heavenly Sword?"

"That's right. She's also a member of the Heavenly Roundtable. For those who are part of the Roundtable, no one other than the Heavens is worthy to hand out judgment about them," Chu Kuangren said calmly.

He was warning the Snow God King not to harm Feng Qiyu.

The Snow God King understood the meaning behind his words, but she looked a little surprised. "The Heavenly Roundtable, huh? What an interesting organization. I wonder who are the members of this Heavenly Roundtable that you created, Heavenly Sword?"

She wanted to collect some intel on that.

"You'll know when the time comes."

Chu Kuangren did not elaborate any further.

Suddenly, he noticed something and came to one of the mountain ranges.

That location was heavily guarded by restrictions and seals as if it was guarding something priceless inside.

"Oh, these are... natural seals and restrictions?" Chu Kuangren's eyes lit up. "Is it possible that an exquisite Immortal Metal is hidden inside?"

He raised his hand and was about to destroy the seals when the Snow God King's expression changed. "Heavenly Sword, stop!"

"What's the matter?"

"This is where all the Immortal Metal ore veins intersect within the Thirteenth Continent. Once damaged, the whole continent will be plunged into disarray," the Snow God King quickly said while stopping Chu Kuangren.

"Oh, is that so?"

Chu Kuangren's eyes lit up.

He looked at those seals and restrictions. Besides some natural ones, he soon noticed a lot of man-made seals and restrictions among them.

"Since that's the case, the Heavens shall leave this place be."

With that, he retracted his arm and left.

The Snow God King breathed a sigh of relief.

After many days of surveying, Chu Kuangren made up a reason that he could not find a suitable Immortal Metal to stay a few more days on the Thirteenth Continent.

The Snow God King did not deny his request either.

That night, the Snow God King turned into a ray of light and dashed into the distance.

Upon noticing that, Chu Kuangren went and followed her in secret.

He noticed her arriving at the mountain range filled with countless seals and restrictions. She then made a mysterious hand sign, opened the seals, and walked inside.

"Sure enough... There's something hidden in there."

"Besides, the two ancient God Kings, Yuen Teng and An Ye, are here too. Although they're on the Thirteenth Continent, I've never seen them in public. Are they hiding inside this mountain range too? What are they doing?" Chu Kuangren thought out loud.

...

Inside the mountain range stood a gigantic Immortal Tree.

It was shrouded in layers of Immortal Sparks while its leaves shimmered brilliantly with exquisite light. Many fruits were also hanging from the tree, with Daoist laws swirling around them.

When the Snow God King came to the place, her eyes were burning with desire as she looked at that Immortal Tree.

"What's the growth progress of the Divine Titan Tree?" the Snow God King asked.

Two figures were under the tree.

It was the other two ancient Titan God Kings on the continent, Yuan Teng and An Ye.

The two of them were sitting under the tree with Daoist laws swirling inside their bodies, and a huge amount of Immortal's Core energy was channeled into that Immortal Tree.

"You arrived just in time. The Divine Titan Tree is about to fully mature. Come and lend us a hand," Yuen Teng said.

"Alright."

The Snow God King walked up to the tree. The moment she channeled her Immortal Core energy into the Divine Titan Tree, the Immortal Sparks of the tree shone even brighter.

"Once the Divine Titan Tree matures, its Divine Titan Fruits will benefit us tremendously in our cultivation. When that time comes, you'll have no trouble breaking through to become a Multi-Embodier, Snow God King." Yuen Teng chuckled.

A hopeful and yearning look shone in the Snow God King's gorgeous eyes.

"Thanks a lot, the both of you."

"Ha! Don't worry about it. We're all cultivators from the Titan Tribe. Besides, you were the one who discovered this Divine Titan Tree in the first place," Yuen Teng said.

The Divine Titan Tree was a divine tree mentioned in the Titan Tribe's ancient legend. The fruits of that tree contained large amounts of Daoist Rhymes.

Even an Embodier would benefit greatly from it if they consumed it.

It was one of the top-tiered treasures in Central Heaven Universe, and their value was far greater than the Premium Source Supreme Treasures.

When the Snow God King came to the Void Battlefield, she relied on her Titan bloodline and discovered the tree. Then, she used her connections as a Supreme God King of the Central Heaven Temple to be assigned to the Thirteenth Continent.

However, the Divine Titan Tree was still not fully matured and required Titan power to advance its growth. With her current abilities, it would be extremely hard for her to do so. Hence, she sought the help of Yuen Teng and An Ye.

The two of them were ancient God Kings of the Titan Tribe. With their help, they could advance the Divine Titan Tree's growth, making it fully mature in a short time.

"By the way, how's the Heavenly Sword doing?"

"He said he came here in search of Immortal Metals and almost entered this place by mistake. Fortunately, I found a reason to convince him to stay away from here," the Snow God King said.

"The Heavenly Sword... Of all the times he could've come, why now? It's making me worry," Yuen Teng said.

"Hmph, what are you afraid of? Even if he's the Heavenly Sword, do you think he'll be a match for the three of us? Besides, this is the Thirteenth Continent, the place we've been assigned to stand guard over," God King An Ye said plainly, with a profound power of darkness surging within him, making him the strongest among the three.

Others might be afraid of the Heavenly Sword, but he was not!

"I hope everything goes well..." Yuen Teng mumbled.

However, the moment he heard that the Heavenly Sword had arrived on the Thirteenth Continent, the feeling of unease inside him grew as the days went by.

It was like a ticking time bomb, ready to explode at any moment.

### Unparalleled After Ten Consecutive Draws

#### **Chapter 1965**

Outside the Thirteenth Continent, Chu Kuangren was still observing that strange mountain range.

He instinctively knew that something was hidden there, so he told Lil Ai to analyze the whole mountain range.

After some time, he already knew all the techniques to unlock the seals and restrictions. However, he did not take action immediately.

If he did now, it would only alert the others inside.

Besides, if the three Titan Tribe God Kings were around, it would take him a considerable amount of time to defeat them in battle.

"I'll let you guys off the hook for now."

With that, Chu Kuangren turned around and left.

After returning to his residence, he continued thinking about how to deal with the Snow God King and others. At that moment, a message from his Green Lotus counterpart suddenly appeared in his mind.

His eyes immediately lit up.

"Ha! What a pleasant coincidence."

...

Within Pan Gu Universe forces' line of defense, a few Embodiers were having a strategy meeting. The Myriad Dusk Immortal Emperor, Yun Zhongyue, Zi Jinlun, Dragon Shadow Immortal Emperor, Supreme Soul Overlord, and others were all present.

Of course, Chu Kuangren was present too.

They were all Embodiers, after all.

"I think we should take down the Thirteenth Continent first," said the Myriad Dusk Immortal Emperor.

A gigantic map was displayed before him.

That map was created by the Pan Gu Universe's intelligence department and contained every piece of information they had collected about the Central Heaven Universe.

Some of the Central Heaven Universe's stationed troops were also included in it.

When the Myriad Dusk Immortal Emperor proposed taking down the Thirteenth Continent, Chu Kuangren's eyes lit up. However, he did not say a word and silently listened.

"The Thirteenth Continent is crucial to the Central Heaven Universe's defense. Countless Immortal Metal ore veins are located there too. According to my intel, many of the Central Heaven Universe's forces have their weapons forged there."

"If we can occupy this place, it will not only deal a great blow to the Central Heaven Universe's troop morale but also provide us with a wealth of resources."

The Myriad Dusk Immortal Emperor chuckled.

Upon hearing what he said, everyone looked at each other.

They seemed to be thinking about his proposal.

"What do you think, honorable Immortal King?" someone asked Chu Kuangren.

However, Chu Kuangren remained seated and replied nonchalantly, "I'm fine with it too. You guys are free to do whatever you want."

"Hmph, don't tell me you're afraid of going to the frontlines? I didn't expect the famous Immortal King to be such a cowardly person." The Myriad Dusk Immortal Emperor snorted coldly.

"Where did you find the courage to speak like this, homeless mongrel?" Chu Kuangren chuckled.

Those two words, "homeless mongrel", instantly made the Myriad Dusk Immortal Emperor erupt with rage, and his rage qi swept out.

"Chu Kuangren, you'd better stop this insolence!"

"Who's the insolent one, huh?" Zi Jinlun uttered indifferently.

His Celestial Demon qi surged, instantly suppressing the other person.

The Myriad Dusk Immortal Emperor was helpless.

With Zi Jinlun around, he did not even dare to act rashly. Besides, Chu Kuangren's strength was likely on par with his too.

"Alright, let's calm down, everyone. We didn't gather here just to fight with each other." At that moment, an Embodier spoke out.

"I agree with the Myriad Dusk Immortal Emperor's plan. However, who's going to be the one to lead the attack on the Thirteenth Continent?" the Supreme Soul Overlord asked.

"Whoever proposed this should be the one to lead our troops, I suppose," Chu Kuangren said lightly from the side.

Everyone then turned to look at the Myriad Dusk Immortal Emperor.

The Myriad Dusk Immortal Emperor pondered.

According to his intel, the one in charge of the Thirteenth Continent was a person known as the Snow God King, who was only an Expert-stage Embodier.

With his cultivation level, it would be more than enough to deal with someone like that.

"Very well, I shall set out then." The Myriad Dusk Immortal Emperor snorted coldly.

"I'll go with you," said the Dragon Shadow Immortal Emperor.

"Heh, just the two of you? Please, I hope you're not trying to make it easy for our enemies. Do you really think the Snow God King is the only Embodier on the Thirteenth Continent?" Chu Kuangren chuckled.

"The intel I have is from the Immortal Hall's intelligence department. Are you saying there's a more accurate source of intel than my intelligence department?" the Myriad Dusk Immortal Emperor asked coldly.

Although the Immortal Hall had been exiled from the Immortal World, many of them still remained loyal. Those cultivators had scattered across the Void Battlefield, collecting all sorts of intel and laboring silently for the rise of the Immortal Hall in the future.

The Myriad Dusk Immortal Emperor refused to believe that Chu Kuangren possessed a more accurate source of intel than them unless he was a higher-up from the Central Heaven Universe.

However, was that even possible?

"The Thirteenth Continent is one of the most crucial locations in the Central Heaven Universe's defense line. There's no way their defenses are that weak. Seeing that we're all cultivators of Pan Gu Universe, let me give you some advice: bring more men with you," Chu Kuangren said lightly.

Of course, he knew what kind of combat force the Thirteenth Continent currently possessed — a total of three Titan Tribe God Kings, two of which were Multi-Embodiers.

If the Myriad Dusk Immortal Emperor and Dragon Shadow Immortal Emperor were the only ones to go, they might as well send their heads to their enemies on a silver platter.

It would be meaningless.

However, he did not give them that advice out of kindness. Truth be told, he needed the Myriad Dusk Immortal Emperor to help him keep the Snow God King and others occupied.

That would allow him to carry out his plans better.

"Hmph, there's no way you'd be so kind."

"Believe it or not, it's up to you."

"Myriad Dusk Immortal Emperor, the Immortal King is only speaking with good intentions. How about this? Let's see who else here is willing to participate in the attack on the Thirteenth Continent," the Supreme Soul Overlord asked.

"Why don't I tag along as well?"

At that time, an indifferent voice sounded.

A black-robed man appeared at the meeting. He had swirls of terrifying aura emanating all over his body, revealing an ancient presence at the same time.

"Oh, the Grand Darkness Celestial Demon, you're here."

Zi Jinlun looked at him.

'The Grand Darkness Celestial Demon...'

Chu Kuangren looked like he was deep in thought.

He had an idea who that person was.

Although he had not met that person before, he once read about the person from some ancient texts.

According to the texts, he was the most terrifying demonic cultivator in Pan Gu Universe after the ancient Immortal era. He was so powerful that he could easily overpower top-tiered Embodiers.

From the looks of it, he seemed to be another Multi-Embodier.

"Having been asleep for so long, I've been aching to exercise my bones and muscles. Myriad Dusk Immortal Emperor, I hope you don't mind me fighting alongside you." The Grand Darkness Celestial Demon looked at the Myriad Dusk Immortal Emperor and said.

"Of course, I won't."

The Myriad Dusk Immortal Emperor would never reject help from someone as powerful as the Grand Darkness Celestial Demon.

Following that, everyone continued discussing a few other specific matters.

Finally, they agreed that the Myriad Dusk Immortal Emperor, Dragon Shadow Immortal Emperor, and Grand Darkness Celestial Demon would lead the attack on the Thirteenth Continent.

The others would be in charge of cutting off any possible support routes to the Thirteenth Continent, ensuring that no aid would arrive there.

Soon after, everyone started to take action.

Meanwhile, on the Thirteenth Continent, Chu Kuangren was enjoying a cup of tea at his leisure.

Feng Qiyu, who was sitting beside him, asked curiously, "Chairman, didn't you say you wanted to look for Immortal Metals? What have you been doing the past few days?"

"I'm waiting for an opportunity to arise," Chu Kuangren said mysteriously.

Just then, a Central Heaven Universe cultivator rushed in a panic.

"Bad news! I have bad news, General Feng. The forces of Pan Gu Universe are attacking us!" that cultivator said loudly.

"What?"

Feng Qiyu's expression changed.

She quickly got up and said, "Activate the great defensive formation and send someone to notify the Snow God King as fast as possible!"

Just as she was about to head out to fend off the enemy, she looked at Chu Kuangren weirdly.

"Chairman, could this be the opportunity you were talking about?"

"Well, who knows?"

Chu Kuangren chuckled, neither admitting nor denying the statement.

Feng Qiyu did not think much about it and hurried outside to fend off the enemy.

"It looks like the real show is about to start."

Chu Kuangren looked at the battle, which was about to unfold, with a playful smile.

### **Unparalleled After Ten Consecutive Draws**

#### **Chapter 1966: Three Embodiers Attack, Internal Conflict Between The God Kings Of Titan Tribe**

On the Thirteenth Continent, a massive round barrier shrouded everything within it, and countless mystical runes were swirling around it, making it look indestructible.

It was the Thirteenth Continent's defensive formation.

On top of the formation were the Myriad Dusk Immortal Emperor, Dragon Shadow Immortal Emperor, and Grand Darkness Celestial Demon. Three Embodiers were there followed by countless other Gilded and True Immortals, plus many other common Immortals.

They had besieged the defensive formation of the Thirteenth Continent, and the fierce attacks shook the entire continent.

"Damn. This shell of a turtle is really sturdy."

Myriad Dusk Immortal Emperor had been attacking relentlessly for a while now, yet it did not even leave a scratch on the defensive formation, which put a frown on his face.

"Let us take over," the Grand Darkness Celestial Demon said coldly.

Then, a dark light shone in his eyes.

As he raised his hand, Daoist law energy rumbled.

A massive black palm seal fell from the sky. It was so massive that the entire sky was shaking.

The Myriad Dusk Immortal Emperor and Dragon Shadow Immortal Emperor exchanged a quick look.

"Since Grand Darkness Celestial Demon has done it, we shouldn't just stand and do nothing either," Myriad Dusk Immortal Emperor said.

Then, Daoist Rhymes sounded from his body. Two different Daos' Daoist law energies swirled and merged into a massive spear.

When the spear was thrown forward, the void cracked into pieces.

Meanwhile, the Dragon Shadow Immortal Emperor channeled his power as well.

A dragon shadow was summoned, and it roared viciously.

The three Embodiers launched three different but extremely powerful attacks at the defensive formation of the Thirteenth Continent.

After the combined attack landed, the formation barrier finally cracked.

"Charge!" Myriad Dusk Immortal Emperor roared.

The army charged into the continent through the crack that the Embodiers opened.

However, a sudden freezing gale gushed outward, freezing everything it touched.

The cultivators who were caught were instantly turned into ice statues.

A woman emerged from the crack. It was the Snow God King!

She glared at the invaders coldly, but deep down, she was afraid. Other than the Dragon Shadow Immortal Emperor, which she had the confidence to fight against, the other two were Multi-Embodiers.

She was no match for them.

"Ha! There's only one Embodier here. Chu Kuangren was talking nonsense when he commented that this wouldn't be an easy spot for us to take," the Myriad Dusk Immortal Emperor scoffed.

Then, he threw a punch that carried a terrifying Daoist aura forward.

Snow God King reacted by revealing a Supreme Treasure, an armor made out of ice. It allowed her to increase her defense to take the hit from Myriad Dusk Immortal Emperor.

However, she was still blasted away with blood gushing from her mouth.

They were too strong, and she was in no position to block an attack from a Multi-Embodier.

"You may have been able to block my attack with the Supreme Treasure's power, but can you block it the second and the third time?" Myriad Dusk Immortal Emperor said coldly.

Then, he raised his hand to conjure the Daoist law energy spear again to throw at the Snow God King!

That attack perforated her armor and punctured her shoulder.

"No. I can't let this continue, or I will perish here!" Snow God King was horrified.

She used a jade talisman to contact Yuan Teng and God King An Ye, but neither of them responded.

Deep in the Titan Divine Tree located in the mountains, Yuan Teng and God King An Ye were sitting with their legs crossed.

Before them was a massive light screen, showing them the battle between the Snow God King and Myriad Dusk Immortal Emperor.

The two of them barely reacted when the Snow God King was forced into a desperate situation and showed no intentions of helping.

"I was just thinking about how to remove the Snow God King to get her Titan Divine Fruit. But now that the folks from Pan Gu Universe are here, they're doing me a favor by removing her," God King An Ye said.

"A b\*stard wants to share the Titan Divine Fruit with us? She thinks too highly of herself," Yuan Teng said with a chuckle.

The Titan Tribe had always prioritized bloodline and inheritance.

The Snow God King only possessed a part of the Titan Tribe's blood, and to the pure-bloods, she was just a b\*stard — a sinner who had tainted the noble blood of the Titan Tribe.

Even if she was a Supreme God King, nothing changed.

They may have offered to share the Titan Divine Fruit with her, but secretly, they were plotting to kick her out of the game.

The timely attack from the Pan Gu Universe was doing them a favor.

"The attackers... One of them has merged two Dao, and the other three. As for the last, he's just a Peak Embodier, so none of them are real threats. When they're done with the Snow God King, we will strike and wipe them out. Then, we can come back and split the Titan Divine Fruits," God King An Ye said after estimating their enemy's strength.

He was quite a meticulous planner.

Meanwhile, Chu Kuangren also noticed the Snow God King's desperate situation and that her life was on the line, but Yuan Teng's and God King An Ye's refusal to help made him frown.

"Yuan Teng, An Ye, you two are heartless! You're sitting this one out just because you want the Titan Divine Fruit for yourselves! You two are despicable!" the Snow God King roared furiously.

She knew what Yuan Teng and God King An Ye were trying to do to her.

When the Myriad Dusk Immortal Emperor heard her, it alarmed him and made him cautious.

Were there any other God Kings on the Thirteenth Continent?

Back at the Titan Divine Tree, Yuan Teng and God King An Ye reacted coldly to Snow God King's words.

"How dare that wretched hag exposed the Titan Divine Tree just like that?"

"It's fine. Since we're exposed, just let it be. No one would know where the Titan Divine Tree is once she's dead. Once the Titan Divine Fruit is ripe, we'll split it and be out of here."

"That's not a bad suggestion."

...

"Oh? Internal conflict? The Titan Divine Fruit really exists..." Chu Kuangren's eyes gleamed as he pondered.

After some thinking, he was able to grasp the general situation. He grinned playfully and said, "This show is really getting interesting."

On the other side, the Myriad Dusk Immortal Emperor prepared the lethal blow.

This time, there was no way for Snow God King to avoid it.

She hated the people from the Pan Gu Universe, but she resented Yuan Teng and God King An Ye who betrayed her and left her to die.

"If I survive, I will do whatever it takes to make sure the two of you pay for what you did to me!" Snow God King roared.

However, she knew her odds of surviving from a Multi-Embodier were slim.

"Die!"

Myriad Dusk Immortal Emperor shot a spear at her.

In retaliation, Snow God King channeled her Daoist law to form an ice mountain, but it was quickly shattered by the spear's momentum, breaking into countless ice shards.

The spear continued forward with indomitable momentum aimed toward the Snow God King.

It was over!

The Snow God King's beautiful eyes were filled with despair.

Then, a strong hand stretched out from her left and grabbed the spear just in time.

The spear was crushed by the rampaging power from the hand and disintegrated into many Daoist law energy shards.

The Myriad Dusk Immortal Emperor was surprised.

Did someone crush his Daoist law energy-formed spear with bare hands?

The power of that hand was a force to be reckoned with.

He looked at the person who had white robes, black hair, and a black sword at his waist.

He looked aloof, and his eyes were as bright as the first star in the sky, deep and unpredictable.

"He's... the Heavenly Sword?" Myriad Dusk Immortal Emperor squinted.

Intelligence was vital during a war.

The Immortal Hall's intelligence department had done their research on the elites from the Celestial Heaven Universe, and the Heavenly Sword was one of them.

"The strongest Prodigy in the Central Heaven Universe, the Heavenly Sword! Shouldn't you be on the Ninth Continent? Why are you here?"

#### Unparalleled After Ten Consecutive Draws

#### **Chapter 1967: Seize The Chance, Titan Divine Fruit, Severely Injuring Myriad Dusk Immortal Emperor**

"Heavenly Sword..."

The Snow God King looked at him in disbelief and awe. She never would have thought that the Heavenly Sword would save her.

Answering Myriad Dusk Immortal Emperor's question, Chu Kuangren simply replied, "The Heavens don't have to inform you of the Heavens' whereabouts."

"Haha! You're here just in time. Now, I can wipe you all out together," the Myriad Dusk Immortal Emperor roared.

Daoist law energy gushed out from his body and soon flooded the entire area.

Ever since Chu Kuangren expelled the Immortal Hall from the Immortal World, the Immortal Hall's Embodiers had been working on regrouping and recovering their reputation.

This Void Battlefield would be a great chance for that.

Only by achieving a great victory and leaving his name on the battlefield would be able to create a positive reputation for himself and the Immortal Hall. It was not entirely impossible to return the Immortal Hall to its former glory.

In order to create a strong reputation, he must first win with positive results.

It was the reason why the Myriad Dusk Immortal Emperor volunteered to lead the attack on the Thirteenth Continent.

"The Thirteenth Continent and the Heavenly Sword... If I can win this, the Immortal Hall will be famous on the Void Battlefield!"

Without further ado, Myriad Dusk Immortal Emperor conjured the sharp spear again and hurled it at the Heavenly Sword.

The spear soared across the sky, containing a power stronger than before.

Chu Kuangren stood firm with the Void Sword in his hand. As the Emperor Overlord qi erupted, he cast the O' Heavens Bear Witness technique.

"Emperor Overlord Dominion!"

Bang!

Following a massive explosion, the field shook.

Chu Kuangren and Myriad Dusk Immortal Emperor were both pushed back.

"The Heavenly Sword is indeed powerful." Myriad Dusk Immortal Emperor narrowed his eyes and prepared for another attack.

On the side, Grand Darkness Celestial Demon and Dragon Shadow Immortal Emperor tried to help when they saw the fight broke out, but Myriad Dusk Immortal Emperor stopped them.

"You two should go ahead and take down the Thirteenth Continent. Leave him to me."

"Alright."

The two of them nodded.

"You want to take over the Thirteenth Continent? Keep dreaming!"

The Snow God King ignored her injuries and attacked the two Embodiers, but the Dragon Shadow Immortal Emperor stopped her attack without effort.

The Grand Darkness Celestial Demon then continued to make his way to the continent, where the army of cultivators was.

With a grin, he raised his hand and released black mist to corrode the land.

"Realm Devouring Demon Tide!"

The black mist devoured everything in its way, transforming living beings into mindless monsters that would attack each other furiously.

The entire continent was instantly plunged into chaos.

At that moment, Yuan Teng and God King An Ye at the Titan Divine Tree started to feel uneasy and restless.

"If the Thirteenth Continent falls, the Central Heaven Temple will put the blame on us, and if we make the Primordial mad, things won't be good for us."

"You're right. We should act now."

The two of them set up heavy restriction seals in the area before they disappeared.

Further away in the mountains, a white figure emerged from the shadow.

He smiled as he watched Yuan Teng and God King An Ye fly away. "Now, let me see what you've been hiding."

It was Chu Kuangren, the Green Lotus Chu Kuangren from Pan Gu Universe.

He arrived on the Thirteenth Continent with the Myriad Dusk Immortal Emperor and the others, but he had been in hiding ever since. No one was able to discover him.

He laid low because he wanted the secrets hidden in the mountains.

He used the Myriad Dusk Immortal Emperor and the others to draw the attention of Yuan Teng and God King An Ye so that he had the chance to sneak inside to find out the truth.

Even though the process was not entirely smooth because Yuan Teng and God King An Ye left the Snow God King to die, the final outcome turned out just fine.

Looking at the heavy restriction seals around the mountains, Chu Kuangren did not feel discouraged. Heavenly Sword Chu Kuangren had used Lil Ai to analyze the restriction seals for a weak spot and transferred the information to him.

A while later, he arrived at the deepest part of the mountains.

When he saw the Titan Divine Tree glimmering in Immortal Sparks, even he was in awe.

"A great treasure!"

The Titan Divine Tree had thirty-six divine fruits hanging on it, each sparkling beautifully with mystical Daoist Rhymes circulating them.

However, he did not pluck the fruits as he knew the fruits were not ripe yet.

"It seems like the three God Kings of the Titan Tribe were gathered here because of this tree, but I guess it's mine now."

He raised his hand at the tree, and the mystical creation energy of the Chaos Green Lotus rumbled before he infused it into the tree to help it grow.

The creation energy was mystical and acted as a catalyst to boost the tree's growth.

Suddenly, the tree shone brightly.

The fruits were almost ripe because the three Titan Tribe God Kings had been nurturing them with their power.

Now, with Chu Kuangren's creation energy, the fruits were fully ripe.

The juicy divine fruits fell off the tree one after another.

Each fruit that fell made the tree wither a little.

All thirty-six of the fruits seemed to contain the essence of the tree, so when the last fruit fell off, the tree started to shrivel.

Chu Kuangren was not overly bothered by it and went up to pick all the fallen divine fruits.

When he picked up the last one, a mischievous idea rushed into his mind.

He looked at the fruit in his hand and grinned meaningfully. Then, he put it back on the withered divine tree and left it there.

He had a total of thirty-five Titan Divine Fruits in his pocket, and when he left, he did not trigger any of the restriction seals.

Yuan Teng and God King An Ye had no idea that Chu Kuangren had ransacked their base while they were fighting the invaders outside.

"Hmph. How dare mere Embodiers cause a scene here?"

"Outrageous!"

Yuan Teng channeled his Daoist law energy and blasted the Grand Darkness Celestial Demon away.

God King An Ye narrowed his eyes. Multiple Daos instantly appeared around him, and the energy swiftly caught and enveloped Grand Darkness Celestial Demon.

"Four Daos?" The Grand Darkness Celestial Demon was shocked.

However, he was not afraid. Instead, he revealed a skeleton saber in his hand and slashed the incoming Daoist law energy into pieces.

"He has four Daos, one Perfected and three Expert, while I have three Dao, two Perfected and one Expert. In terms of combat capabilities, I can still fight him, but..."

Grand Darkness Celestial Demon pondered and scanned over the battlefield.

Dragon Shadow Immortal Emperor was engaged with Snow God King, while Myriad Dusk Immortal Emperor fought the Heavenly Sword. Yet, he had to face two Multi-Embodiers.

His odds were underwhelming.

"Damn it. Chu Kuangren was right. The Thirteenth Continent really does have reinforcements!"

Myriad Dusk Immortal Emperor looked at Yuan Teng and God King An Ye and started to regret his decision. He was a little afraid as well.

Without Dragon Shadow Immortal Emperor and Grand Darkness Celestial Demon, he would probably be killed on the spot. He might not even escape alive.

"How dare you get sidetracked while fighting the Heavens?" a cold voice said.

Chu Kuangren rose into the sky, and the Daoist chime in his body rang loudly. The power of the Ultimate Almighty Source was infused into his Daoist law energy.

"O' Heavens Bear Witness, Beyond Heavenly Sword!"

The powerful Beyond Heavenly Sword technique was unleashed.

The rampaging sword qi swept across the field, shattering the void in its way. Even the Myriad Dusk Immortal Emperor was shocked.

"This power..."

His expression changed as he channeled all his energy to block the incoming attack.

Kaboom!

The terrifying explosion pushed the Myriad Dusk Immortal Emperor away.

The Dao in his body was deeply shaken, and it was not the end.

Chu Kuangren revealed the Eight-Faced Emperor Hammer for another swing at him.

The hammer attack was so powerful that it crushed the void.

Having taken the hammer attack head-on without any effective defense, the Dao in the Myriad Dusk Immortal Emperor's body buzzed violently as if it was going to break.

Gu Xi was also on the battlefield.

When he saw Chu Kuangren inflicting heavy damage on Myriad Dusk Immortal Emperor, his eyelids twitched.

"How is there such a powerful Prodigy in the Central Heaven Universe? I don't think even Chu Kuangren is his match."

### Unparalleled After Ten Consecutive Draws

#### **Chapter 1968: The Last Titan Divine Fruit, Titan God Armor, Turn On Each Other**

"This b\*stard..."

The Myriad Dusk Immortal Emperor looked at Heavenly Sword Chu Kuangren in anger and regret. He then glanced at Yuan Teng and God King An Ye.

He knew they could not afford to continue the fight, or they would all perish.

"Retreat!"

Myriad Dusk Immortal Emperor made an immediate decision to leave.

Upon seeing the situation, the Grand Darkness Celestial Demon and Dragon Shadow Immortal Emperor retreated as well.

"Leave? Not so easy!"

Yuan Teng and God King An Ye wanted to pursue, but a sudden blast of Celestial Demon qi and a violet gold wheel appeared from the sky, crushing the battlefield with its massive power.

"What?"

Yuan Teng and God King An Ye immediately shifted to a defensive state to block the sudden blast.

The entire continent shook.

"It's so powerful! It's someone from the Celestial Demon Tribe!" God King An Ye grunted.

They were no strangers to the Celestial Demon Tribe. In the previous universal war, the Celestial Demon Tribe foiled many of their plans.

Further away, Zi Jinlun stood in the air and grunted. "If it's not because of the overall situation, I would never save you people."

He did not have a good impression of the Myriad Dusk Immortal Emperor.

Since the two universes were at war, all Embodiers were considered precious assets, and they should not be simply wasted or sacrificed.

The same went for the Embodiers of the Immortal Hall.

Not to mention, the Grand Darkness Celestial Demon was one of them as well.

...

Back on the Thirteenth Continent, after the cultivators of the Pan Gu Universe retreated, the battlefield was left with nothing but a desolate scene.

The Snow God King's expression was grim.

She looked at Yuan Teng and God King An Ye with an even colder gaze. She asked, "Why did you two wait so long to show up?"

Yuan Teng answered casually, "I thought you could handle it."

"Could I have handled three Embodier God Kings? You two have overestimated me! Were you two trying to take the Titan Divine Fruit for yourselves? Was that why you two left me to die? You two are vicious!"

Snow God King berated the two of them. She was trying her best to hold the urge of fighting them because she knew she was no match for the two of them.

"Hmph. I do not want to continue this conversation," God King An Ye grunted.

With that, the two of them disappeared and headed back to the Titan Divine Tree, while the Snow God King stayed back to deal with the aftermath of the battle.

Chu Kuangren watched as Yuan Teng and God King An Ye flew away. He grinned and muttered, "I hope you like the gift I left you two."

...

Yuan Teng and God King An Ye returned to the Titan Divine Tree.

When they lifted the restriction seals, they were stunned. The expressions on their faces froze before they were replaced by disbelief, helplessness, and anger. In the end, they lost their minds.

"What the hell happened?"

"Who did this?! Show yourself!"

The two of them roared.

They released their Immortal Consciousness to scan a radius of tens of thousands of kilometers. They searched almost the entire Thirteenth Continent but got nothing.

When they left, the Titan Divine Tree was fine and filled with growing fruits.

Yet, when they came back, they saw nothing but a withered branch, and most of the fruits were gone.

Seeing that made them furious.

They had nurtured the tree day and night with their Titan energy and had not slacked at all, only for someone to step in and reap their fruit away right before their success.

How could they accept that?

They felt nothing but anger and fury.

The two Titan God Kings were engulfed in the flames of wrath, and it almost consumed their sanity.

They scanned the entire continent again and again.

They swore they would rip the person who did that into a million pieces if they found him.

Unfortunately, no matter how many times they searched, they did not get a clue.

The Snow God King, who also noticed their raging Immortal Consciousness scanning the continent, was confused.

"What are they up to now?"

She then told the commander to take charge of the battlefield before she headed to the Titan Divine Tree to find out what happened.

Chu Kuangren grinned when he saw her flying in the same direction. "Haha! Another good show is about to begin. The Heavens shall not miss this."

As the director and writer for that amazing show, he wanted to be the audience in the first row as well.

...

Yan Teng and God King An Ye continued to scan the entire continent.

Unfortunately, they got nothing and were forced to stop.

Although they had stopped scanning, it did not calm them down.

"Oh? There's one more."

Yuan Teng then spotted the one last Titan Divine Fruit on the withered tree.

It was surrounded by a mystical glow and smelled good and alluring.

"This Titan Divine Fruit is ripe!"

"Impossible. Other than the Titan energy, what else can boost the growth of the Titan Divine Tree? Could it be one of us who took the fruits? This person boosted the growth of the tree before he took the fruits away!"

The two of them were in doubt. However, other than them, who else on the Thirteenth Continent was part of the Titan Tribe?

With that, the two men started to have different thoughts.

"Hmph! This person is vile and vicious. He took most of the Titan Divine Fruit and left one behind. This is obviously a trap. This person wants us to fight ourselves," Yuan Teng said coldly.

He was able to provide a logical and calm analysis of the situation.

Then, he looked at God King An Ye. "You won't fall for it, right?"

"Of course not," God King An Ye said with a grunt.

He looked at the fruit and said, "The person might be vile and vicious, but the last fruit must go to someone. I contributed a lot to nurturing the tree, so I should get it."

With that, he tried to grab the fruit, but Yuan Teng stopped him.

"An Ye, you're being selfish. You weren't the only one who contributed. I did as well! I should be the one taking the last fruit."

"Do you want to fight me for it? Do you have what it takes?" God King An Ye's expression turned gloomy.

He channeled the Daoist law energy from his body.

A substantial aura erupted and swept across the field.

"An Ye, how dare you!"

Yuan Teng's expression looked just as gloomy, and he revealed a violet-black armor on himself that glowed mystically.

"That's the Titan God Armor! So, it was you! The treasures that the Titan Deity lost back then are in your hands! I must say, you've hidden it well!"

"Hmph! I definitely had to be careful in front of someone as sinister as you. With this armor, I have the power to fight you," Yuan Teng said with a grunt.

The Titan God Armor was the Titan Tribe's Supreme Treasure, and only the strongest was qualified to possess it.

The strongest Titan Tribe, the Titan Deity, was defeated in the Void Battlefield, and the Supreme Treasure went missing.

No one knew that Yuan Teng had it, but he had been hiding it ever since.

"Hmph! I, An Ye, am the strongest in the Titan Tribe, so this Titan God Armor is mine as well! Hand it over!" God King An Ye grunted coldly and attacked.

As the two fought, the terrifying energy shockwaves destroyed the mountains.

When the Snow God King arrived and saw the fight, she was stunned.

"What happened? Why are you two fighting?"

Then, she saw the withered Titan Divine Tree.

Her expression turned grim. "Didn't you two leave one fruit for me? Do you really think I'm someone you can simply brush off? Damn it!"

Then, she spotted the last Titan Divine Fruit on the withered tree.

While the two of them fought, she quickly flew toward the last fruit.

"Stop!"

"How dare you!"

**Chapter 1969: Enjoy The Show, Doubts For One Another**

"Stop!"

"How dare you?"

Yuan Teng and God King An Ye paused their fight when they saw the Snow God King flying toward the last Titan Divine Fruit.

The two of them launched a palm strike at her.

Startled, the Snow God King quickly dodged the incoming strike.

"You two b\*stards! I found the Titan Divine Tree and invited you two to share it with me! Now, you two didn't even leave one for me? This is absurd!"

The Snow God King was furious, and her delicate face showed nothing but anger.

However, both Yuan Teng and God King An Ye were furious too.

"You b\*stard, are you even worthy of sharing the fruit with us?!"

"Yeah, you have no right!"

Snow God King was further infuriated.

Yuan Teng immediately thought of something.

"Only the three of us know this place, and only we can lift the restriction seals. Snow God King, be honest. Have you taken the Titan Divine Fruit?" God King An Ye asked with overflowing killing intent.

"What are you talking about?" Snow God King was confused.

She was so furious that she cackled. "Now I see. You two were trying to use the enemies from the Pan Gu Universe to kill me but failed, so now you're coming up with an excuse to remove me?"

"Cut the nonsense. If not you, who else?"

"What a joke. I was fighting the enemies on the front line. What do you expect me to do, clone myself?" Snow God King roared.

To her, the two of them simply wanted an excuse to kill her, hence the self-directed farce.

"Clone? It's not entirely impossible!" Yuan Teng's expression turned grim.

There were countless cultivation techniques in the universe, and many of them could create a clone.

"Me? Clone? What a joke! Why didn't you suspect it was An Ye who created a clone to steal the fruits?" Snow God King scoffed.

"It's also possible." Yuan Teng looked at God King An Ye with a hostile gaze.

"Oh? I'm the one who should be suspecting you of creating a clone to commit this crime," God King An Ye said with a scoff.

"Only the three of us know this place and can lift the restriction seals without setting off the alarm. We also possess the power to nurture the Titan Divine Tree. Other than the three of us, who else on the Thirteenth Continent can sneak into this place unnoticed, hasten the growth of the tree, and steal all the fruits?"

The more Yuan Teng thought about it, the more he believed either God King An Ye or Snow God King stole the fruits and he was the one being deceived.

God King An Ye shared the same thought.

Snow God King, on the other hand, believed it was a self-directed farce to kill herself or one of them tried to set this up to wipe them all out.

She was the innocent one.

The three God Kings confronted each other with doubts and anger.

Soon, the confrontation escalated into a fierce fight.

"Hand over the fruits!"

"You're the thief calling someone else a thief! You shameless b\*stard!"

Chu Kuangren enjoyed the showed.

"This is good. I should sit down and enjoy."

He got to a beautiful spot and sat down to watch the show. All he lacked was some snacks.

Then, Snow God King was blasted away by a palm strike. Her face turned as pale as paper.

She was no match for the two of them.

Fortunately, the two of them did not pursue her but continued to fight each other.

They suspected each other the most.

Snow God King was the weakest among the three of them, and they had been trying to kick her out of the game. Hence, she was probably the least suspicious.

It was either one of them.

"Where is your clone? Call him out!"

"Hmph! You should be the one calling your clone out, you shameless jerk! You call yourself the strongest in the Titan Tribe, yet you commit such a despicable act!"

All kinds of Immortal Techniques and Daoist law energies clashed in the air.

The collision shook the entire Thirteenth Continent.

God King An Ye was the strongest as he had fused four Dao, but Yuan Teng had the Titan God Armor to boost his strength.

Both of them were evenly matched.

Chu Kuangren watched from the side, hoping that both of them would perish together, but he knew it was highly unlikely.

The fight went on for three days and nights.

Everyone on the continent was stunned.

"Why is the Titan Tribe always fighting against themselves?"

"Yeah. A few days ago, they left the Snow God King to die, and now they're fighting against themselves."

"I have no idea what the higher-ups are doing."

"We gave our lives in the front line, yet they're here, fighting against themselves. Damn it, what about us?"

Some enjoyed the show, while some were unhappy with the situation.

Chu Kuangren yawned as he grew tired of watching.

He looked at the last piece of fruit on the tree before his figure flashed and headed toward the withered tree.

Right before he could grab the fruit, Yuan Teng and God King An Ye saw him and immediately tried to stop him.

It was the last Titan Divine Fruit, and both of them were determined to get it.

"Hmph."

Chu Kuangren grunted and swung a slash at them.

The terrifying sword shadow was hurled forward.

Kaboom!

Their attacks were destroyed easily.

Chu Kuangren held the last piece of fruit and said, "You two revealed your true faces just because of one fruit."

The two of them looked eagerly at the fruit in his hand.

Then, Yuan Teng thought of something and bellowed, "Heavenly Sword, were you the one who took the fruit? After you arrived, the people from Pan Gu Universe came, and the fruits disappeared. I refuse to believe you have nothing to do with this!"

Chu Kuangren's arrival on the Thirteenth Continent gave Yuan Teng a bad feeling, and now things had gone terribly wrong.

He suspected that Chu Kuangren was pulling the strings.

"I have reasons to believe you're a spy from Pan Gu Universe," Yuan Teng said.

Snow God King scoffed. "You're ridiculous. The Heavenly Sword is a spy of the Pan Gu Universe? Why don't you say he is the Immortal King or an Immortal Emperor there? You fool!"

"The Heavenly Sword fought by our side and even saved me. If he is really a spy, why would he save me? If he didn't intercept the Multi-Embodier, we might have lost this continent."

Snow God King's words rendered Yuan Teng speechless.

Besides, the Heavenly Sword was not a Titan Tribe member. He should not have the power to nurture the Titan Divine Tree.

The three of them remained the most suspicious.

Could it be that the Heavenly Sword's arrival was purely a coincidence?

"Hmph. I don't care. Heavenly Sword, hand over the Titan Divine Fruit!" God King An Ye said as he stared at the fruit in Chu Kuangren's hand.

"One fruit is not enough for the three of you. The Heavens noticed you three have been fighting a while now, so the Heavens have decided to be a good guy for once and take the fruit away from you. Then, you three would have no reason to fight anymore."

Chu Kuangren smiled as he kept the fruit away.

The three of them were stunned when they heard him. They had never seen someone steal something so righteously.

It was like he was taking the fruit away for their sake.

"Heavenly Sword, stop talking nonsense. Handover the fruit or we will make you do so, with force!" God King An Ye bellowed.

"Bring it on. I'd like to see how you would make me do it."

Chu Kuangren stood with his hands behind his back.

His sword pressure swirled and assaulted Yuan Teng and God King An Ye.

### Unparalleled After Ten Consecutive Draws

#### **Chapter 1970: Fight Yuan Teng And An Ye, Snow God King Joins the Heavenly Roundtable**

Chu Kuangren fought Yuan Teng and God King An Ye on the Thirteenth Continent.

He and his sword stood firm against them and insisted on taking away the last Titan Divine Fruit.

The two God Kings also would not let him go without a fight.

Their Daos buzzed strongly as they confronted each other.

"Heavenly Sword, I once fought you when I wasn't fully recovered, but this time, I will show you what my true strength is!" Yuan Teng, who was equipped with the Titan God Amor, said coldly.

When Chu Kuangren heard him, he said coldly, "Give it your best shot."

"Cut the nonsense. Let's go!" God King An Ye launched an attack.

The Daoist law energy gushed out from his body and transformed into a cloud of darkness that attempted to envelop Chu Kuangren.

The darkness contained something terrifying inside as if countless vicious beasts would jump out at any minute.

Chu Kuangren narrowed his eyes as he gripped the Void Sword tightly.

As he slashed it forward, Daoist law energy intertwined with the Emperor Overlord Qi, activating the technique, O' Heavens Bear Witness, Emperor Overlord Dominion!

Following a powerful explosion, the sword ray slashed the darkness into nothingness.

The explosion was so bright that it felt like it was daytime.

Then, Yuan Teng followed up with his attack. With the Titan God Armor equipped, his power was boosted to match that of God King An Ye.

The moment he unleashed a palm attack forward, his golden Daoist law energy transformed into a massive palm seal.

Instead of dodging, Chu Kuangren swung the Void Sword at the massive palm.

O' Heavens Bear Witness, Beyond Heavenly Sword!

The slash was infused with his Ultimate Almighty Source power. It was so powerful that it was astonishing.

It even injured the Myriad Dusk Immortal Emperor.

Although the massive golden palm seal was crushed, the sword qi continued forward and struck Yuan Teng. However, with the Titan God Armor's protection, he was not severely injured.

Yuan Teng breathed a sigh of relief.

"The Heavenly Sword is powerful. Without the Titan God Armor, I might've been heavily injured," Yuan Teng muttered as he stared seriously at Chu Kuangren.

Chu Kuangren smiled since his sword qi could not land a scratch on either of them. Then, he revealed the Eight-Faced Emperor Hammer.

When the Pseudo Chaos Supreme Treasure was summoned, its aura crushed the void, and the space around him started to crack.

The domineering aura terrified the Snow God King, who was watching from the side.

"What a terrifying treasure."

She clicked her tongue in awe.

She was thinking about helping Chu Kuangren, but now it seemed unnecessary.

Coupling the Pseudo Chaos Supreme Treasure's presence with Chu Kuangren's cultivation base, one strike from the hammer could crush realms!

The terrifying Daoist law energy flooded the field like the sea and attempted to drown Yuan Teng and God King An Ye.

They were pushed away effortlessly by the hammer.

"Damn it! The Heavenly Sword has too many tricks up his sleeve. Even if we teamed up, we might not be able to take him down," God King An Ye said with a gloomy look on his face.

The fight went on for one day and one night.

Chu Kuangren relied on the Pseudo Chaos Supreme Treasure to stand strong against the two Multi-Embodiers, matching their power and overpowering them at times.

God King An Ye and Yuan Teng knew that if the battle continued, it would be difficult to determine the winner. In fact, they might be defeated as well.

Therefore, the two of them decided to leave.

"Let's go."

Both of them exchanged a quick look before they each threw a palm attack at Chu Kuangren.

Chu Kuangren countered with a hammer strike and defeated their palm attack, but the two of them were nowhere to be found.

He chuckled. "They can really run."

However, he did not pursue the two of them.

He was just curious whether they would continue to suspect each other and continue the fight after they left.

"Heavenly Sword, thank you for saving me earlier."

Snow God King went up to him and expressed her gratitude.

She was referring to Chu Kuangren saving her from the Myriad Dusk Immortal Emperor's lethal blow a few days ago.

"We're all cultivators of the same universe. You don't need to thank me," Chu Kuangren said.

"How kind of you, Heavenly Sword. You're a lot better than An Ye and Yuan Teng. I'm deeply impressed," Snow God King said.

She was either being sincere or courteous, but Chu Kuangren did not care.

He continued, "You might have escaped alive, but the injuries you've sustained are quite severe. The Thirteenth Continent is an important location, and the Central Heaven Temple will not allow a heavily injured God King to take charge of this place."

Snow God King frowned when she heard him.

Truth be told, she did not want to leave the Thirteenth Continent. Even if she lost the Titan Divine Tree, there were still a lot of cultivation resources on the continent, and the Immortal Metals were one of them.

Hence, she would be able to secure many benefits for herself.

"The temple might send someone here to replace you, such as Yuan Teng or An Ye," Chu Kuangren continued.

"Impossible!" Snow God King bellowed.

She was in charge of the Thirteenth Continent. If someone else replaced her, it would equate to giving the new person in charge access to all the resources she had gathered so far.

She could not accept anyone taking her place, let alone Yuan Teng or An Ye.

"They came here for the Titan Divine Tree. Now that the tree is gone, they won't come back anymore."

"I won't be so sure if I were you. There are a lot of resources on the Thirteenth Continent. Even if they are Multi-Embodier God Kings, you can't say for sure that they're not tempted. Besides, you made an enemy out of them, and in order to get back to you, they might try to seize the position from you."

Chu Kuangren paid close attention to the Snow God King's reaction as he explained.

Her expression shifted multiple times.

Seeing it was time, Chu Kuangren added, "If you don't want to lose your current position, the Heavens have an idea..."

Snow God King's eyes lit up. "Please enlighten me, Heavenly Sword."

"The temple wants to remove you because you're heavily injured, but what would happen if they find out you're healthy?"

"Heavenly Sword, it's not easy for a God King to recover from severe injuries," Snow God King said with a bitter smile.

"Says who?" Chu Kuangren then revealed the Titan Divine Fruit.

"With this, do you think your injuries will remain a problem?"

"I..." Snow God King was delighted when she saw the fruit, but her sanity pulled her back to reality.

There was no reason for the Heavenly Sword to present her with the last Titan Divine Fruit. As such, she pondered and asked, "May I ask what the conditions are? If it's within my capabilities, I will do it."

"Join the Heavenly Roundtable," Chu Kuangren said.

The Snow God King pondered. With her current situation, there was no way she could continue to be with Yuan Teng and An Ye, and she had no idea when they would fight again in the future.

Even though she was part of the Central Heaven Temple, the temple only cared about the outcome, not the process.

As long as the war between the two universes and the Central Heaven Universe's own benefits were unaffected, they usually never interfered with personal vendettas.

Besides, the temple consisted of a group of people from multiple tribes and forces.

It would be difficult for them to guarantee a single entity's safety.

For the sake of her future, she might have to join a new organization for protection, and the Heavenly Roundtable might be a decent choice.

"Very well. I'm in," Snow God King said.

"Good."

Chu Kuangren then tossed the fruit to her.

"Are you giving it to me just like that?" Snow God King was surprised.

Even an Embodier God King would kill each other for the fruit, yet Heavenly Sword gave it to her just like that.

He was really generous!

Little did she know that Chu Kuangren could give her the last fruit because he got the rest, so giving one away was nothing to him.
