

Unparalleled 1991

Unparalleled After Ten Consecutive Draws

Chapter 1991

On the Central Heaven Universe's Ninth Continent, Chu Kuangren exited his room and called for the Heavenly Shadow. "Heavenly Shadow, I want you to go to the Central Heaven Universe and visit the Mystic Divination Tribe. Tell them to bring me every record and scripture they have that mentions the Dark Demonic Forgotten Lands. And another thing..."

The Mystic Divination Tribe still owed Chu Kuangren a favor, which would come in handy to him this time.

Besides that, he also gave the Heavenly Shadow another task.

After hearing his orders, the Heavenly Shadow left the Void Battlefield.

Soon, Chu Kuangren received some news.

The Central Heaven Universe was now relocating its defenses and changing the troop deployments on a very large scale.

As for the latest troop deployment, no one other than the top-tiered higher-ups knew the whole picture, and the others could only carry out their orders as told.

The Central Heaven Temple was now managing everything on the battlefield.

Any military arrangements, be it changing defenses or dispatching troops, would have to be approved by the Central Heaven Temple.

Although they would lose out on flexibility, it would greatly enhance the confidentiality of their military activity and intel.

Even by using his connections in the Heavenly Roundtable, Chu Kuangren could only manage to learn a portion of the overall troop arrangements. It was hard for him to gauge the overall picture on the battlefield now.

"Oh, it looks like they've already noticed something, huh? How long can I keep my identity concealed, I wonder?" Chu Kuangren chuckled.

'It's all up to the Heavenly Shadow now...'

As time went by, several years had passed.

The Central Heaven Universe cultivators sent to awaken the Peerless Warlords in the Dark Demonic Forgotten Lands had all returned. Besides the Nether King, who suffered critical injuries and needed a long time to recover, the rest of them could already enter the battlefield.

Following the return of the Peerless Warlords, the situation on the battlefield had gotten even more intense. Even Embodiers and God Kings could die in battle at any given moment.

However, with Chu Kuangren holding the fort over and having another version of him on the other side as a mole, Pan Gu Universe still had not fallen into a disadvantage.

In the Central Heaven Universe, someone dashing toward a location.

That person was a God King from the Central Heaven Temple. He was under orders by God King Sikong to investigate Chu Kuangren, and his name was God King Tianji.

"The Heavenly Sword... To think that the famous Heavenly Sword might be a spy from Pan Gu Universe. This is simply unbelievable."

"If news of this spreads, I can't begin to imagine the chaos that'll ensue. I must carry out this task secretly."

Several months soon passed.

God King Tianji visited many places where Chu Kuangren once went, gathering all sorts of information along the way. He was trying to deduce something from Chu Kuangren's past behaviors.

However, he did not find anything out of the ordinary.

"Alright, now all there's left is the Spiritual Sword Tribe."

The Spiritual Sword Tribe was the Heavenly Sword's home tribe.

If there was anywhere with the evidence he needed, it most likely would be there.

Nowadays, Central Heaven Universe rarely had God King-level cultivators as most of them had gone to the Void Battlefield.

The same thing could be said for the Spiritual Sword Tribe's Sword God King and Galaxy God King.

Hence, God King Tianji's visit to the Spiritual Sword Tribe was a great shock to the tribe.

"Oh, I just happened to pass by this place and recalled that this is the home tribe of the Heavenly Sword. I've been a huge fan of his for a long time, so I thought I'd visit it," God King Tianji said with a laugh.

His investigation into the Heavenly Sword was top secret, so no one could know about it.

That was God King Sikong's order.

The Spiritual Sword Tribe Leader did not suspect anything. After all, the Heavenly Sword had a very high reputation throughout the universe, with many cultivators becoming his fans. Hence, many people had come to visit the Spiritual Sword Tribe to see the Heavenly Sword's home tribe.

Most of them were sword cultivators too.

Even God Kings had visited them in the past as well.

The Spiritual Sword Tribe Leader personally led God King Tianji to tour the historical attractions in the Spiritual Sword Tribe while talking about the Heavenly Sword's deeds.

"That over there is the Thousand Sword Peak, the original location where the Void Sword was placed, and it was later taken away by the Heavenly Sword."

"The instant the Void Sword was pulled out marked the appearance of the Heavenly Sword. At that time, every sword cultivator in the Central Heaven Universe immediately felt its presence, and their swords either shattered, broke in two, or dimmed... "

"The whole Central Heaven Universe was stunned by the Heavenly Sword."

The Spiritual Sword Tribe Leader could not help but become emotional when talking about that scene.

Having also experienced what happened back then, God King Tianji lamented, "The Heavenly Sword's Dao is one which every sword in the universe would submit to. The Heavenly Sword is truly the sword beyond the Heavens."

He then looked at the deserted Thousand Sword Peak. "It's named the Thousand Sword Peak, but why are so few swords here? Could it be that the Heavenly Sword's appearance caused a commotion so great that most of the swords here shattered?"

"You're partially correct. Another reason is due to the Heavenly Sword's battle with the other Heavenly Sword back then. Their battle damaged many swords here."

"The other Heavenly Sword? There are two of them?"

God King Tianji's face turned pale with shock.

The Spiritual Sword Leader merely chuckled. "Well, the Heavenly Sword is the one and only out there. The previous battle proved that the other Heavenly Sword was a fake. He couldn't even hold the Void Sword, even though he was one of the Nine Kings. Hence, he was not the real Heavenly Sword."

Even though the Spiritual Sword Leader's remark might sound casual, it revealed a lot about God King Tianji.

God King Tianji's thoughts flowed.

'There were two Heavenly Swords?'

'One was a member of the Nine Kings, while the other is the current Heavenly Sword.'

'However, the former was killed by the current Heavenly Sword.'

'What if the former Heavenly Sword was the real Heavenly Sword? This means that the current Heavenly Sword is the fake one. Will this be enough to prove that he's the enemy's spy?'

'Not necessarily.'

'He may just be someone that took on the Heavenly Sword's name.'

The further he investigated, the more God King Tianji found that the Heavenly Sword's origin was full of mysteries.

Then, he followed the Spiritual Sword Tribe to the Spiritual Sword's Ancestral Lands.

That location was where the past Prodigies of the Spiritual Sword Tribe went into a deep slumber.

The Heavenly Sword also came out from this place.

Suddenly, God King Tianji thought of something.

All this time, they had been referring to the Heavenly Sword as the Heavenly Sword. However, the name Heavenly Sword was only a mere title. No one even knew what his true name was.

"Tribe Leader, do you know the Heavenly Sword's true name?" God King Tianji asked curiously.

"Let me think about it..."

The Spiritual Sword Tribe Leader had always addressed the Heavenly Sword by his title, but he recalled asking the Heavenly Sword's true name.

"If my memory serves me right, the Heavenly Sword's true name seems to be... Chu Kuang."

'Chu Kuang!'

The moment God King Tianji heard those words, he felt a chill travel up from the soles of his feet, go through his body, and erupt from his scalp!

He immediately froze and had goosebumps all over his body.

It was because he knew that the greatest enemy of the Central Heaven Universe now was a cultivator named Chu Kuangren!

'It's only a one-word difference!

'Chu Kuang, Chu Kuangren...'

'Can the names of these two be due to a coincidence?'

'There can't possibly be such a coincidence!'

'Or perhaps, is Chu Kuang actually Chu Kuangren himself?'

'No, there's no way.'

'This is simply unbelievable.'

God King Tianji's thoughts were a mess right now.

That information had truly shaken him to the core.

"No, I must notify God King Sikong immediately. There's certainly something suspicious going on with the Heavenly Sword!"

Just as God King Tianji wanted to contact God King Sikong, he realized that his message could not be sent out!

It was as if something was preventing it from being transmitted.

'What's going on?'

God King Tianji was a little puzzled.

Following that, he realized that both he and the Spiritual Sword Tribe Leader had been trapped inside a blood-colored enchanted boundary.

Meanwhile, a man in gorgeous black robes with a wickedly handsome and ominous face appeared, slowly approaching them.

The man had a menacing and alluring demonic saber in his grasp.

He was none other than the Heavenly Shadow.

He looked at God King Tianji and the Spiritual Sword Tribe Leader with a chuckle. "I'm afraid the two of you will have to die."

Upon hearing that, God King Tianji's eyes widened. Without a moment's hesitation, he instantly attacked the Heavenly Shadow.

Boom!

A terrifying burst of palm strength erupted, containing immense might.

Surges of Daoist law energy were flowing within that attack.

However, it was shattered by a casual swing of the Heavenly Shadow's saber.

Unparalleled After Ten Consecutive Draws

Chapter 1992: The Heavenly Sword Is Nothing But a Useless Pawn, I'll Deal With Six Eyes Next

Inside the blood-colored enchanted barrier, God King Tianji's expression turned grim when he saw the mysterious attacker and his Daoist law energy erupted with great might.

However, it had no effect before his opponent's terrifying devil power, which easily dispelled his attacks.

God King Tianji looked at the Heavenly Shadow with a serious expression.

"Who sent you? Is it the Heavenly Sword?"

The Heavenly Shadow did not answer.

Instead, his attacks became more lethal and vicious.

As he swung his demonic saber swung forward, razor-sharp strands of saber qi swept forward in every direction.

In just a few seconds, the sword shadow had struck God King Tianji dozens of times, and his body was covered in cuts. The Dao inside him trembled violently due to the attack.

"Devil's Blood Eye!"

At that moment, a bloody ray of light shot out from the Heavenly Shadow's eyes.

The devil energy in him instantly skyrocketed, and he swung his saber across God King Tianji's neck.

"The Heavenly Sword is a traitor!"

At the final moment, God King Tianji looked at the Spiritual Sword Tribe Leader and yelled.

After that, a mist of blood erupted. God King Tianji's skull flew into the air as the Dao inside his body crumbled.

The Spiritual Sword Tribe Leader was stunned.

He fell to the ground in a daze, still unsure of what just happened.

'Why did God King Tianji have to die?'

'Why did he say that the Heavenly Shadow is a traitor?'

However, the Heavenly Shadow looked at him with a gaze as cold as ice. Without another word, he raised his hand and unleashed his Daoist law energy.

The Spiritual Sword Tribe Leader was only an Arch Gilded Immortal, so even if he channeled all his power, he could only unleash the power of an Ultimate Arch Gilded Immortal.

He stood a chance against the Heavenly Shadow.

A cloud of blood mist instantly erupted.

Following that, a light flashed in the Heavenly Shadow's eyes, and the blood-colored barrier dispersed.

"Chu Kuang, Chu Kuangren..."

"So, is that Master's hidden secret?"

The Heavenly Shadow was a little surprised.

However, he did not care about Chu Kuangren's identity. At the end of the day, the most important fact was that Chu Kuangren was the Devil's Master.

"It's a good thing Master sent the Devil to the Spiritual Sword Tribe, but it seems he knew someone would come to investigate him. As expected, Master is pretty clever."

He then swung his demonic saber a few more times.

Soon, the entire Spiritual Sword Ancestral Land was reduced to rubble.

Even God King Tianji and the Spiritual Sword Tribe Leader's corpses were destroyed.

After that, he carved a line of words on the ground.

'The Heavenly Sword is nothing but a useless pawn. There's nothing to fear about him!'

The Heavenly Shadow looked toward the Void Battlefield with guilt.

"Although this is to cover my tracks, the Devil has besmeared Master's good name. I must ask Master for punishment after I return."

The reason he wrote that line of words was to send a message to everyone that whoever killed God King Tianji and the Spiritual Sword Tribe Leader was an enemy of the Heavenly Sword.

As the saying went, the more famous one was, the more people would envy them.

The Heavenly Shadow possessed an immense reputation in the Central Heaven Universe.

Hence, many were jealous of him, and they could do something rash to provoke him.

"Time to leave."

The Heavenly Shadow's figure disappeared in a flash.

After he left, the Spiritual Sword Tribe cultivators rushed to the area.

Upon seeing the rubble and the line of words carved on the ground, everyone almost went mad with anger.

"How dare they! How dare they! Such insolence!"

"How dare they provoke the Heavenly Sword!"

"Quick, we must find the Tribe Leader and God King Tianji."

Everyone quickly searched the ruins but could not find the two of them. It was very likely that two of them were dead.

After all, the Heavenly Shadow had caused too great of a commotion.

Even a God King was dead.

For a moment, the news shocked all in Central Heaven Universe. They could not believe that someone would provoke the Heavenly Sword at this point. The man was definitely crazy.

However, the culprit behind that matter was never found.

No clues were left behind either.

In Central Heaven Temple, God King Sikong also received news about God King Tianji's death.

"He's dead?"

"Was it a coincidence? Or was it done by someone with an agenda?"

"God King Tianji's investigation was top secret. No one else except me should know about it."

God King Sikong frowned.

Although things seemed to be a coincidence, he found it weird.

"Who the hell are you, Heavenly Sword?" God King Sikong murmured.

However, with God King Tianji's death, all the clues he had gathered so far were lost, and it would take a lot of time to find someone to continue the investigation.

Furthermore, most of the Central Heaven Temple's efforts were now on the Void Battlefield.

"I should look for Six Eyes. Let's see if he has a way to find out about the Heavenly Sword's origins."

Soon, he found Six Eyes and explained his plans.

Six Eyes stayed silent for a while after hearing his explanation.

"I'll try," Six Eyes answered seriously.

...

On the Central Heaven Universe's Sixth Continent, inside a palace located within the clouds and mists, a man in white robes was sitting with his legs crossed and a mysterious Daoist Rhyme flowing all over him. The man's eyes were closed tightly as if he could not open them easily.

That person was Six Eyes. After receiving God King Sikong's request, he decided to attempt divination into the Heavenly Sword's path of destiny.

"Ordinary divination techniques will be hard to peer into the Heavenly Sword's path of destiny, so the only way is to use the Great Destiny Technique!"

"However, this technique is mysterious and uncontrollable. Even someone like me has only mastered a small part of it. I must prepare a few things to use this technique."

With that thought in mind, he summoned his men and started making preparations.

For some reason, Six Eyes felt uneasy, and he rarely felt that way.

The last time he felt that was when he attempted to peer into a Primordial's path of destiny, hoping to find a clue to becoming a Primordial.

At that time, his attempt was discovered by the Primordial, which resulted in him getting critically injured.

However, after taking account of his contributions, the Primordial decided to spare his life. Otherwise, God King Six Eyes would cease to exist in the universe.

This time, the uneasiness he felt when trying to peer into the Heavenly Sword's path of destiny was stronger than the last time with the Primordial.

'Could he be more terrifying than the Primordial?'

'That's impossible.'

Nevertheless, he decided to prepare some contingency measures for his own safety. He would make sure that even if things went wrong, he would survive in the end.

Meanwhile, on Central Heaven Universe's Ninth Continent, Chu Kuangren was thinking about his next move.

The Heavenly Shadow had just contacted him.

God King Sikong had indeed sent someone to investigate him, so his true identity was almost exposed at one point.

Although God King Tianji had been dealt with, Chu Kuangren knew that God King Sikong would never give up investigating him.

"What will be his next move?"

Suddenly, the figure of a person appeared in his mind.

It was Six Eyes.

He was an expert in divination, specializing in peering into people's path of destiny.

Pan Gu Universe losing two Peerless Warlords in the Dark Demonic Forgotten Lands likely had something to do with him.

Besides, there was a high chance that God King Sikong would ask Six Eyes to peer into his path of destiny.

Although his path of destiny was non-existent and he had no need to be afraid of that, Chu Kuangren's path of destiny was non-existent too.

'If Six Eyes peered into my path of destiny and did the same with Pan Gu Universe's Chu Kuangren, would he notice something?'

Although Pan Gu Universe's forces had made preparations over the years with that in mind, assigning those specializing in Destiny Dao to monitor his movements, Six Eyes's advanced and mysterious techniques made him hard to defend against.

"Six Eyes... Although I have not met him before, compared to people like the Heavenly Rainbow Dragon, this person may pose a greater threat to the Pan Gu Universe."

"Alright, I've decided."

"I'll get rid of you next..." Chu Kuangren murmured while touching his chin.

'But there was no way I can kill him out in the open like that.'

'In that case, what should I do?'

Unparalleled After Ten Consecutive Draws

Chapter 1993

After deciding to deal with Six Eyes, Chu Kuangren started to ponder.

Then, he suddenly thought of something.

"This person is a master in Destiny Dao, but I'm the Master of Destiny. Why don't I use Destiny Dao to get rid of him?"

With that, Chu Kuangren's figure disappeared in a flash.

When he appeared, he was already at the Divine Destiny Temple.

"Welcome back, Temple Lord," the Temple Spirit greeted respectfully.

"Mm."

Chu Kuangren nodded gently. The moment he entered the Divine Temple, he felt the terrifying Destiny Authority surging through his veins. It was as if he could control the destiny of any living being at will.

He could let a poor man turn into a millionaire overnight.

He could let a rich person lose all their wealth in a matter of days.

He could let a talentless person become a cultivation Prodigy.

He could even turn a beggar into an emperor...

It was as if he could do anything and everything. All it took was for him to gently fiddle with the threads of destiny.

Unfortunately, he could only possess that terrifying Destiny Authority inside the Divine Destiny Temple. Once he left, he would have to rely on his own strength.

"Temple Spirit, I wish to cultivate Destiny Dao. Are there any cultivation techniques related to this Dao inside the Divine Destiny Temple?"

"You jest, Temple Lord. The Divine Destiny Temple controls the destinies of countless beings. How could we not have any Destiny Dao cultivation techniques?"

The moment it said that, thousands of words and symbols appeared in the void.

The words gathered, turning into countless books and scriptures in the air. Each of them was a cultivation technique related to Destiny Dao.

"Destiny Altering Technique..."

"Divine Destiny Eye..."

"Life-ending..."

"Destiny Judgement Technique..."

"Destiny Rebelling Art..."

Chu Kuangren glossed through the Destiny cultivation techniques in the air.

He felt that all those techniques were extremely mysterious. Some were even at a higher level than the Embodier Techniques he knew.

Some techniques were even on par with his Dao Delving Technique and Dao Mending Technique in terms of how mysterious they were.

Chu Kuangren was amazed.

It was like a new door of possibilities had opened to him.

"Temple Spirit, with my current abilities, is it possible for me to learn all these Destiny techniques in a short time?"

"How short?"

"Within ten years?" Chu Kuangren asked.

The Temple Spirit went silent for a long time.

It took him a while to say, "Temple Lord, you're funny."

Chu Kuangren, too, knew that it was unrealistic. After all, Destiny Dao was one of the most mysterious Dao out there, with only a handful on the same level as it.

It would be hard for him to cultivate and master them in a short time.

"Someone seeks to peer into my path of destiny. Are there any cultivation techniques that can allow me to counterattack?"

"Don't worry, Temple Lord. Your path of destiny is non-existent. Hence, no one in this universe can look into your destiny," the Temple Spirit said.

It continued, "However, if the Temple Lord wishes to teach those fools a lesson, I can suggest a few techniques here for you."

Seven to eight books immediately appeared before Chu Kuangren.

Chu Kuangren's eyes landed on one of them.

"The Great Destiny Technique?"

Unlike the others, that book was glimmering with golden light.

It did not seem like an ordinary book at all.

"Excellent choice, Temple Lord. This Great Destiny Technique is the highest-level technique among the thirty-six Destiny cultivation techniques."

"It is classified as a Great Dao-level technique."

"If you achieve Ultimate mastery of this cultivation technique, Temple Lord, you can rule beyond the universe's Great Dao with Destiny Daoist law alone," the Temple Spirit explained.

Upon hearing that, Chu Kuangren's eyes flickered.

'Beyond the universe's Great Dao?

'Does it mean transcendence?'

'It seems that the Temple Spirit is quite knowledgeable.'

'I'll have to talk to it more when I have a chance next time.'

"With my talents and learning speed, how long will it take me to learn this Great Destiny Technique?" Chu Kuangren asked.

"If you remain in the Divine Destiny Temple, with the Destiny Authority bestowed upon you here, it should take you ten years to master a small portion of this technique."

Chu Kuangren decided to learn the Great Destiny Technique.

Suddenly, information about that technique erupted inside his mind, filling it with countless mysterious runes and symbols.

An odd look appeared on his face.

That was because the Great Destiny Technique was not created by humans. It was a cultivation technique created by the Destiny Great Dao itself.

Those that possessed a mastery of that technique were all known as Six Eyes. They were a tribe of beings favored by the Destiny Great Dao, so they were born with the ability to use the power of destiny.

Those beings were extremely rare.

Sometimes, a universe would only produce a handful of those beings.

"Well, isn't this a coincidence?"

"I was just thinking about dealing with Six Eyes. Alright, I'll learn this technique. Then, let's see which one of us can have a better mastery of the Great Destiny Technique."

Chu Kuangren chuckled and started cultivating that technique.

As time went by, three years had passed.

On that day, Chu Kuangren opened his eyes. A strand of mysterious destiny aura flashed within his eyes before it was concealed.

"Congratulations, Temple Lord."

The Temple Spirit was slightly shocked.

If a Primordial were to attempt to comprehend the Great Destiny Technique, they might not make any progress after millions of years.

From its perspective, even with the support of the Destiny Authority, Chu Kuangren would need at least ten years to do it.

However, he only took three years.

It meant that his talents were beyond its expectations.

"The Great Destiny Technique is truly mysterious," Chu Kuangren uttered with amazement.

That technique was the most mysterious technique he had ever come across.

Furthermore, he had barely touched the surface of that technique.

"I have to go."

"All the best, Temple Lord."

...

On Central Heaven Universe's Ninth Continent, the Heavenly Shadow was resting outside Chu Kuangren's room.

He had been doing so for three years.

However, there had been no sign of the Heavenly Sword.

Hence, he waited for three years.

At that moment, a wave of energy fluctuation emerged from inside the room. It was Chu Kuangren who had returned from the Divine Destiny Temple, and the Heavenly Sword beamed with joy.

"Master, may I enter?"

"Yes."

The Heavenly Shadow entered the room. He did not ask how Chu Kuangren appeared in his room out of nowhere.

Without another word, he immediately fell to his knees before Chu Kuangren with a thump.

"I deserve to be punished, Master."

"Huh? What did you do wrong?"

Chu Kuangren was stunned for a second.

"The Devil has besmeared Master's good name. Although it had to be done, the act was an insult to Master's pride and reputation. The Devil is wrong for doing so."

He then told Chu Kuangren everything he did at the Spiritual Sword Tribe.

"The Heavenly Sword is nothing but a useless pawn? Oh, you're quite good with words." Chu Kuangren chuckled and did not reprimand him.

He would never be affected by something so insignificant.

However, the Heavenly Shadow seemed to be brooding over that matter.

Upon seeing that, Chu Kuangren changed the topic. "What about the task I asked you to do at the Mystic Divination Tribe?"

"That task has been completed." The Heavenly Shadow took out a jade scroll. "Every record about the Dark Demonic Forgotten Lands is in here."

"Not bad."

"It's all within the Devil's ability."

Several days later, Chu Kuangren retracted his consciousness from the jade scroll.

'As expected of the Mystic Divination Tribe. They have gathered more information about the Dark Demonic Forgotten Lands than anyone else.'

'To think that the Mystic Divination Tribe has even attempted to conduct divination on the Dark Demonic Forgotten Lands.'

Alas, that divination attempt resulted in a great setback for the Mystic Divination Tribe, and three God Kings lost their lives doing so.

According to the last words left behind by the God Kings before they died, they spoke of a deep looming darkness during their divination process.

They saw a coffin amidst the darkness.

A person was lying inside the coffin, and darkness wasn't emerging from his body as if he was the source of all calamity, the ruler of all darkness.

All it did was open its eyes, and the three God Kings conducting the divination suffered a backlash that killed them.

Besides that, one of the Primordials of the Central Heaven Universe had also visited the Dark Demonic Forgotten Lands before. He was Demon Feng, the one Chu Kuangren killed.

However, he went into closed-door meditation for millions of years upon returning.

From then on, he remained secretive about the Dark Demonic Forgotten Lands.

Unparalleled After Ten Consecutive Draws

Chapter 1994: Six Eyes Starts to Act, Encounter in the Path of Destiny

"A coffin, the ruler of darkness, source of all calamity?"

"Even a Primordial was secretive about it."

"Well, this has peaked my curiosity of the Dark Demonic Forgotten Lands even more..." Chu Kuangren grinned with curiosity in his eyes.

The universe was big and filled with wonders everywhere.

Previously, he thought that a Primordial possessed the ultimate power in the universe and could explore anywhere in the universe as he wished.

However, it seemed like he was a little too naive.

Regardless of the Dark Demonic Forgotten Lands or the giant purple pair of doors that existed in the Central Heaven Universe and Pan Gu Universe, those were locations that even a Primordial could not explore.

Perhaps the secrets of transcendence were hidden there.

Even the universe's Great Dao could not influence or control them.

"After winning this war, I must go to these places and find answers!" Chu Kuangren thought.

...

Inside a palace on the Central Heaven Universe's Sixth Continent, Six Eyes had completed the preparations to peer into the Heavenly Sword's path of destiny. He even asked the Heavenly Rainbow Dragon to stand guard for him.

"Heavenly Rainbow Dragon, seven lamps will be lit around me later. You mustn't allow any of the lights to go out. If all seven lights go out, you must incinerate my body immediately," Six Eyes said to the Heavenly Rainbow Dragon seriously.

"Alright, I understand."

Heavenly Rainbow Dragon nodded.

Six Eyes then took a deep breath and sat in the circle formed by the seven lamps. With a thought from his mind, all seven lamps lit up.

Those seven lamps were extraordinary. Six Eyes had spent several years collecting the necessary materials to create them, all for the sake of peering into the Heavenly Sword's destiny.

"Set alight thy life and manifest thy paths of destiny!"

Six Eyes formed several mysterious hand signs.

Countless runes began appearing in the air.

The light of the lamps illuminated the runes, which were surrounded with Immortal Sparks. A huge amount of Destiny auras was summoned amidst their presence.

Far away, in Pan Gu Universe, several elites specialized in Destiny Dao looked toward the Central Heaven Universe with a serious expression.

"It's Six Eyes!"

"He has started to act. What is he trying to predict this time?"

"No matter what, we must stop him!"

Those elites quickly channeled their Destiny auras as well.

However, before they could unleash their Destiny techniques, they vaguely saw seven blazing bundles of flame burning in the dark.

Terrifying waves of fire gushed out from it.

Those elites, who were masters in Destiny Dao, were all knocked to the ground.

"Those are... Destiny Flames!"

"To think that Six Eyes have set alight his Destiny Flame. What is he trying to find out? Why is he taking such a huge risk?"

The Destiny Flame was a flame created by a person's destiny.

Setting alight one's Destiny Flame to conduct divination into another's destiny was a dangerous and risky technique among the Destiny cultivators. If the Destiny Flame was extinguished, regardless of whether the user was an Embodier or a Primordial, they would all end up dead.

Six Eyes was the strongest Destiny cultivator they had ever seen.

If someone like Six Eyes had to resort to setting alight his Destiny Flame, he must be trying to find out a shocking secret, which the Destiny cultivators were very curious about.

"Wait a second. The target of Six Eyes' divination is not Pan Gu Universe. It seems to be one of theirs instead."

One of the Destiny cultivators sensed the direction of the Destiny Flame and could not help but become confused.

'Is there anything more important right now than the war between our two universes?'

On Central Heaven's Ninth Continent, Chu Kuangren sensed something and smiled.

"Oh, he's finally starting to act."

...

Every living being possessed their own path of destiny.

Going along that path could show elite Destiny cultivators the past, present, future, life, and death of those living beings.

Six Eyes was from a tribe of beings favored by the Destiny Great Dao.

Hence, his method of divination into the path of destiny was very different compared to most Destiny cultivators.

The others could only observe the destiny paths of living beings, whereas Six Eyes could directly enter the path of destinies.

Inside the intricate and jumbled-up river of destiny, countless paths of destiny converged. Some were parallel to each other, some were intersecting, while some were entangled together like a ball of yarn.

Six Eyes soon found the path of destiny that belonged to the Heavenly Sword.

Unlike the other paths of destiny, the Heavenly Sword's was thick and long, as if it traversed the whole river of destiny.

The other paths of destiny were different in length, but that one seemed to be endless on both ends.

Besides that, the other paths of destinies could more or less be peered into. However, the Heavenly Sword's path of destiny seemed to contain nothing.

"Such a peculiar path of destiny. This is the first time I'm seeing something like this."

When Six Eyes' consciousness arrived at the river of destiny, he looked at the Heavenly Sword's path of destiny with immense curiosity in his eyes.

It was his first time seeing such a path of destiny.

The reason he agreed to God King Sikong's request to peer into Chu Kuangren's path of destiny was not only for the benefit of the Central Heaven Universe. Besides going in to see whether Chu Kuangren was a traitor, he was doing it mostly out of curiosity.

"Let's enter and see what's inside."

Six Eyes's consciousness delved deep into Chu Kuangren's path of destiny.

However, all he could see was void and emptiness.

He continued traversing through the nothingness, with seven lit Destiny Flames surrounding him. Despite that, the Destiny Flames could not reveal anything in that void of darkness.

"This is very weird indeed."

Six Eyes continued venturing deeper along the path of destiny.

However, suddenly, his heart began to race.

An inexplicable terror started to creep up within him.

Following that, three out of the seven Destiny Flames around Six Eyes extinguished immediately.

His expression changed, and he opened his eyes abruptly.

There were three pupils in both of his eyes respectively, totaling up to six.

At that moment, a bright light emerged from all six pupils, followed by a powerful Destiny energy that spread everywhere.

The remaining four Destiny Flames, which were on the verge of going out, were suddenly stabilized. However, that was only temporary.

Six Eyes could feel that terror growing greater and greater as if it was limitless and never-ending!

Six Eyes was a little afraid now.

When he thought of his contingency measures, he regained some confidence. "Let's see what kind of horror is hiding within the Heavenly Sword's path of destiny!"

"Perhaps I might find some clues to improve my Destiny Dao to the Ultimate stage and ascend as a Primordial!"

With that thought in mind, Six Eyes became more determined to explore the place.

An even brighter light emerged from his six pupils, and an even more powerful Destiny energy spread everywhere, stabilizing the Destiny Flames once more.

However, as he took a step forward, another two Destiny Flames extinguished with a boom!

It was more terrifying than Six Eyes could ever imagine.

He looked at the remaining two Destiny Flames. At that moment, the confidence and bravery he had worked so hard to muster were gone.

"Great Destiny Technique!"

Six Eyes formed many mysterious hand signs.

As the Six Eyes Tribe's inherited cultivation technique was unleashed, a mysterious divine light emerged, shrouding him and his Destiny Flames within it.

"Oh."

At that moment, he heard a chuckle.

That chuckle made all six of Six Eyes' pupils widen. He could not help but shout, "Who's there?"

However, there was a hint of panic in his voice that he did not even notice.

In all his years of using the Great Destiny Technique and the power of the Six Eyes Tribe, he had entered and left many paths of destiny countless times but had never encountered a situation like that before.

Besides him, no one else could enter the path of destiny!

There was no way!

"As the one who has come to spy on the Heavens, how dare you ask who the Heavens is?"

A chilling voice sounded.

Amidst the endless darkness and nothingness, a burst of Immortal Sparks suddenly erupted!

A figure in white robes appeared along with brilliant divine might!

"It's you, the Heavenly Sword!" Six Eyes uttered with shock and disbelief.

'The Heavenly Sword can enter and leave his path of destiny at will?'

Unparalleled After Ten Consecutive Draws

Chapter 1995: A Clash of the Great Destiny Techniques, The Long and Vast River of Destiny, Six Eyes' Death

Six Eyes was in slight disbelief as he looked at Chu Kuangren standing before him.

After all, Destiny Dao cultivators could easily peer into the destiny of others. However, it would be incredibly hard for them to do the same thing to themselves, just as it would be hard for a doctor to examine himself.

The same concept could also be applied here.

Even so, he could not believe that Chu Kuangren had appeared right inside his path of destiny. To him, it was simply unbelievable.

'Is the Heavenly Sword also proficient in Destiny Dao?'

'Hasn't anyone noticed this?'

Six Eyes was dumbfounded.

However, Chu Kuangren ignored his reaction. With a swipe of his sword hand sign, the whole path of destiny immediately trembled.

Following that, a huge wave of Destiny power erupted and turned into terrifying strands of sword qi that were launched toward Six Eyes!

The gush of sword qi was horrifying and unstoppable.

It immediately tore a huge tear on the light barrier formed by Destiny energy surrounding Six Eyes.

"Great Destiny Technique!"

Six Eyes could no longer stand by and watch.

He unleashed the Great Destiny Technique, gathering the surrounding Destiny energy to stabilize his Destiny Flames. He then turned that energy into a massive divine light ray and launched it toward Chu Kuangren!

The power of his divine Destiny light beam was terrifying.

Upon seeing that, Chu Kuangren's gaze narrowed.

"Talking about destiny before the likes of the Heavens, what a massive fool you are!"

He raised his hand, and waves of Destiny energy flowed out.

In that instant, a light barrier formed and blocked the incoming divine Destiny light beam!

Six Eyes gasped when he sensed the energy fluctuations coming from Chu Kuangren's body. He uttered with disbelief, "That's the Great Destiny Technique!"

That was right!

Chu Kuangren was now using the Great Destiny Technique — the same Great Destiny Technique the Six Eyes Tribe knew!

"Where did you learn this power? This is impossible!"

Having cultivated Destiny Dao for many years, Six Eyes had seen the destinies of many people throughout his life. However, he had never been as shocked as he was today.

At that moment, Chu Kuangren took action.

He raised his hand, unleashing the Great Destiny Technique again.

Following that, a powerful divine light beam shot out.

Six Eyes let out a grunt and channeled the power of his Destiny Flame. Dense waves of Destiny energy burst out from his eyes, and he retaliated with a divine light beam of his own.

When the two divine light beams clashed, the surroundings trembled.

Ripples began to appear across the river of destiny.

Due to the battle between the two, the surrounding paths of destiny were shifted slightly, causing the destiny of the living beings affected to change.

Some lost their cultivation progress overnight.

Some fell off a cliff, ending up in a pile of bones, instead of encountering a fortunate opportunity, turning the situation around, and becoming a powerful cultivator.

Some evildoers went rampant with their evil ways and were supposed to live a life of freedom. However, a thunderbolt suddenly descended from the sky, striking them to death.

Some who were compassionate were wrongfully imprisoned...

As for the two who were in battle inside the path of destiny, they had no idea of the lives they were affecting.

As Chu Kuangren's and Six Eyes' divine light beams clashed, they both were in a stalemate.

"Heavenly Sword, I have the power of Six Eyes and the Destiny Flames on my side. Even with the Great Destiny Technique, there's no way you can do any harm to me. It's time to stop now," Six Eyes shouted.

However, Chu Kuangren ignored him and kept attacking.

"For attempting to peer into the destiny of the Heavens, only death awaits you!"

Chu Kuangren chuckled.

"There's no way you can kill me."

"Where do you think you are right now?"

Chu Kuangren chuckled again.

Suddenly, the whole path of destiny trembled.

An inexplicable force of terror emerged from the endless darkness, shattering Six Eyes's divine Destiny light beam.

The remaining two Destiny Flames around him soon got extinguished due to this.

The divine Destiny light beam landed on him directly.

That attack almost shattered his original destiny itself!

"Oh no!"

Six Eyes' expression changed to that of horror.

Meanwhile, inside a palace on the Central Heaven Universe's Sixth Continent, Six Eyes' true body was sitting cross-legged while his consciousnesses drifted in the river of destiny. However, all seven lamps lit with Destiny Flames around him started extinguishing one after another.

At the sight of that, Heavenly Rainbow Dragon's expression darkened.

"Six Eyes is in great danger."

Without a moment's hesitation, he acted according to plan.

The instant the seven Destiny Flames were extinguished, he immediately unleashed a bundle of dragon flame onto Six Eyes's body, burning it into ash.

A wooden puppet appeared within the ashes.

It was swirling with Immortal Sparks and strands of Destiny energy. There were even several thin threads formed by Destiny energy, penetrating the void as if they were connected to something.

Inside the path of destiny in the river of destiny, Six Eyes was hit by Chu Kuangren's Destiny light beam. By right, when the Destiny Flames surrounding him were all extinguished, he should have died on the spot.

However, several threads of destiny appeared on his body, forcefully dragging him out from the river of destiny.

"Oh, it looks like he had a backup plan prepared for this," Chu Kuangren murmured.

Then, he chuckled. "But do you possibly think that an attack from the Heavens can be dealt with so easily?"

After he said that, his consciousness arrived at the river of destiny.

Seeing the paths of destiny that were slightly thrown out of adjustment due to his battle, Chu Kuangren started pondering.

Then, he reached out both his arms and started readjusting the paths of destiny that were affected by his battle earlier.

However, he did not readjust them all.

For the paths of destiny that belonged to good, righteous people, he would ensure they received the proper ending they deserved.

The same thing was done with the paths of destiny for evil people. They, too, would receive the punishments they deserved.

"These paths of destiny represent either ordinary people or cultivators. That was why they were affected so easily."

"If they were powerful cultivators, their paths of destiny won't be affected."

Chu Kuangren stared at the river of destiny.

Some of the paths of destiny were clear, with their ends easy to read. However, some of the cultivators' paths of destiny were concealed by elite cultivators, making them appear murky and hard to peer into...

Besides, what he saw was just the tip of the iceberg for the river of destiny. There were countless more unknown paths of destiny within the depths of the river of destiny.

"Even if I cultivate this Great Destiny Technique to the Ultimate stage, I'm afraid I won't be able to see everything in the river of destiny," Chu Kuangren mumbled.

Destiny Dao was simply too mysterious. Perhaps only when he became the true ruler of destiny would he dare to proclaim that he was truly in control of his destiny.

Chu Kuangren laughed. Then, his figure disappeared in a flash.

...

On the Central Heaven Universe's Sixth Continent, the wooden puppet suddenly transformed into Six Eyes. He looked at his remains that were burned into ash before him with lingering fear in his eyes.

"What a close call. If it weren't for this Substitution Puppet, I would've died in the river of destiny."

The Substitution Puppet was a life-saving item he spent a much time and effort making. It was because of that item that he dared to peer into Chu Kuangren's path of destiny.

"How did it go? Did you manage to find out the Heavenly Sword's origin?"

The Heavenly Rainbow Dragon went up to him and asked.

"No, I did not. However, the Heavenly Sword should not be taken lightly. He can—"

When Six Eyes was about to speak, his expression suddenly changed.

A surge of Destiny energy suddenly erupted from within his body, and a dazzling divine light beam shot out following that.

"What?!"

Six Eyes was extremely terrified.

Despite using the Substitution Puppet, he could not escape from Chu Kuangren's divine Destiny light beam!

The divine light beam had followed him to the Substitution Puppet instead.

"This is bad!"

Seeing the divine Destiny light beam erupting from Six Eyes' body, Heavenly Rainbow Dragon's expression sank. As a hint of fear crept up within him, he instinctively took a step back.

At the same time, Six Eyes' body began to swell and expand like a balloon. At his final moment, he yelled, "It's the Heavenly Sword! He's the one doing this to me!"

Boom!

Six Eyes exploded!

Not even a trace of his blood was left.

Only a dazzling divine light erupted like fireworks.

The Heavenly Rainbow Dragon walked over and could not find a trace of Six Eyes. Even his Dao was wiped off the face of this earth.

It was as if Six Eyes never existed in this universe.

The Heavenly Rainbow Dragon was filled with terror and fear.

"Heavenly Sword... What the hell have you done?!"

Unparalleled After Ten Consecutive Draws

Chapter 1996: Dissatisfaction At The Heavenly Sword, Deduce The Future, Lose More Than Win

On the Central Heaven Universe's Sixth Continent, Heavenly Rainbow Dragon stared at the empty palace with a grim look.

Six Eyes was dead! He was killed by the Heavenly Sword!

The Heavenly Sword was much more capable than anyone could imagine.

Even Six Eyes, who was extremely good at deduction, was killed when he tried to deduce the Heavenly Sword's destiny.

It was unbelievable!

Killing someone with destiny?

How could the Heavenly Sword possess such an outrageous power?

"I must let the others know as soon as possible!"

...

On the Ninth Continent, Chu Kuangren opened his eyes.

He looked into the distant sky with a smile. "I guess I have removed yet another big obstacle for Pan Gu Universe."

Without Six Eyes' clairvoyant abilities, the Central Heaven Universe's movements in the Void Battlefield would be greatly restricted.

"As for the other plans, they have started to make progress," Chu Kuangren muttered.

He had almost gotten all the materials to set up the Water Nation Warring Map Formation and could already set it up physically.

Pan Gu Universe was making its move as well, everyone was progressing in an orderly manner.

...

A meeting was held at the Central Heaven Temple.

The topic of the meeting was inevitably about Six Eyes' death.

"God King Sikong, the Heavenly Sword owes us an explanation! What right does he have to kill Six Eyes?"

"Yeah! Why?"

The attendees were displeased with the Heavenly Sword's action.

God King Sikong was having a massive headache because of the matter. He told Six Eyes to have a peek at the Heavenly Sword's destiny, but he indirectly sent the Peerless Warlord to his doom.

The thought forced a bitter expression on his face.

Six Eyes, as a Peerless Warlord from the previous universal war, had done a lot for the Central Heaven Universe.

Hence, his fall displeased many, especially Heavenly Rainbow Dragon and the other ancient God Kings. They all wanted an explanation from the Heavenly Sword, or they would never let this slip.

"I will inform the Temple Master about this and ask for his opinion."

The only solution to the situation was to ask the Primordial to intervene.

God King Sikong alone could not deal with all the ancient God Kings alone.

"Hmph! I will see the Heavenly Sword myself and make him give us an explanation!" a cold voice said.

It was the Titan Deity.

Then, his projection vanished.

God King Sikong sighed helplessly. After the meeting, he went into the palace and headed to Shen Tian's chambers to report the matter.

"Temple Master, Heavenly Sword has made a grave mistake and become the common enemy. Do we still keep him?" God King Sikong asked.

"Keeping the Heavenly Sword or not depends on the Nine Kings," Shen Tian said.

"Temple Master, you're saying..."

"If the Nine Kings can deal with Chu Kuangren, we do not need to keep the Heavenly Sword anymore; if they cannot, we cannot go against the Heavenly Sword as we like. We need an anomaly to fight an anomaly," Shen Tian said.

God King Sikong pondered.

"A while ago, I deduced that there will be a secret realm opening in the Void Battlefield. Send the Nine Kings there. I believe Chu Kuangren of the Pan Gu Universe will not just sit back as well. We can arrange for them to fight in the secret realm. If the Nine Kings win, we kill the Heavenly Sword," Shen Tian suggested. His tone grew colder as he spoke.

To him, the Heavenly Sword was just a tool to fight Chu Kuangren, but it was not a good tool.

Not only was it a double-edge blade, but it was difficult to use as well.

If there was a better tool, they would not choose the Heavenly Sword either.

"I understand." God King Sikong nodded.

...

A massive and boundless aura descended on the Ninth Continent.

A buff man with two followers descended from the sky.

Inside the General Residence, Chu Kuangren narrowed his eyes at the arrival of the uninvited guests.

It was Titan Deity, Yuan Teng, and An Ye — the God Kings from the Titan Tribe.

"Heavenly Sword, you must give us an explanation today! Why did you kill Six Eyes?" Titan Deity bellowed.

Chu Kuangren barely responded to the question. "How amusing. For trying to peek into the Heavens' destiny, the only result for him is death."

"Do you know how important Six Eyes was to our universe?" Titan Deity said coldly.

"What does that have to do with the Heavens? He takes a peek at the Heavens, and that is what he deserves."

Titan Deity's aura grew stronger and attempted to crush Chu Kuangren, or at least suppress him.

Unfortunately, his strength alone was not enough to make Chu Kuangren submit.

Right before a fight broke out, God King Sikong emerged from the void.

"Stop it!"

"God King Sikong, what is the meaning of this?"

"The Temple Master has spoken. This is over!"

"What?" Titan Deity was furious.

"He killed Six Eyes. Are we supposed to let this slip?"

"It's the Temple Master's words. Titan Deity, are you trying to disobey the Temple Master's order?" God King Sikong's tone grew colder as he warned Titan Deity.

"Tsk..."

Titan Deity left with regret.

After he left, God King Sikong went up to Chu Kuangren. "Heavenly Sword, a lot of people are unhappy with you killing Six Eyes."

"The Heavens said he had it coming."

"Even so, he's a Peerless Warlord. If you don't do anything in response, the people will not just let this go."

"What do you want the Heavens to do?"

"War achievements. With that, other people will be convinced."

"The Heavens understand."

"When are you going to do something?"

"When it's time, the Heavens will make a move."

God King Sikong pondered.

"I heard the Heavenly Sword is hurt from the battle with Nether God, and it seems like you're still recovering. I shall wait until you're ready."

He looked at Chu Kuangren pensively.

It was obvious what he was trying to say.

It meant he had eyes on Chu Kuangren and that he was trying to pry for more information.

Chu Kuangren understood what he meant as well.

It seemed like the Central Heaven Temple had lost its patience with him.

In reality, he was not hurt. The fake news was actually released by An Zixun, which was part of his plan.

How many people did An Zixun sell the news to?

"In that case, just wait."

Chu Kuangren then returned to the General Residence, and God King Sikong left as well.

The soldiers and generals dispersed after the brief meeting.

An Zixun sighed. "Too bad they didn't fight."

After he returned to the General Residence, Chu Kuangren told Heavenly Shadow to protect him while he activated the Great Destiny Technique to deduce something.

The Central Heaven Temple had started to suspect him. All the Peerless Warlords were unhappy with his actions, and he found himself in a difficult position.

The reason why he was still safe was because they all feared Chu Kuangren and he was the key to deal with his other self, at least to them.

If he wished to continue to be a spy in the Central Heaven Universe, his other self, Green Lotus Chu Kuangren, must be safe so that the Central Heaven Universe would continue to fear him.

"Let's see if there's anything that will threaten me."

Chu Kuangren used the Great Destiny Technique to deduce the future.

The future was shrouded in mist, and it was difficult to see anything.

He tried deducing for a while but was fruitless.

Was there anything that could threaten his existence?

There should not be.

Those who could threaten his existence or safety must be far beyond his reach for now since he had not mastered his ability yet.

Or maybe there was no way he could see his own destiny, even with the Great Destiny Technique.

He then continued to deduce the outcome of the universal war.

The future was ever-changing.

He saw more than ten million and eight hundred thousand possible outcomes.

As for the result, Pan Gu Universe lost in some timelines and won in others.

Unfortunately, the losses were more than the victories, and the ratio was ten to one.

The outcome was not looking good for Pan Gu Universe.

Unparalleled After Ten Consecutive Draws

Chapter 1997: A Spy In Pan Gu Universe, Meet The Peerless Warlords

Chu Kuangren deduced the outcome of the universal war and got ten million eight hundred thousand outcomes.

Pan Gu Universe lost in the majority of the outcomes, with a win-lose ratio of ten to one.

Most of the losses were caused by the Primordials joining the battle.

It seemed like the key to victory would be dealing with the Primordials.

"I have to hurry up in preparing the Water Nation Warring Map Formation."

In all the foreseeable outcomes, the Water Nation Warring Map did not appear.

It was maybe because the formation was a mystical one that he could not deduce its future with a super God-Tier prize and his current cultivation level.

Other than that, Chu Kuangren also noticed something interesting in his deduction. There seemed to be a resisting force in Pan Gu Universe.

That resisting force would eventually backstab the Pan Gu Universe and would be one of the main reasons for Pan Gu Universe's loss.

"It seems like I'm not the only player in the spy game. The Central Heaven Universe has also joined the fray, but who is it?"

He could only get so many clues through deduction, and it was far from precise.

It was like looking into the future through many layers of mist.

No matter how good a cultivator was in the art of deduction, it was impossible for him to know everything about the future with utmost precision.

"It seems like I have to inform the other side to take note of this."

He had to find out the resisting forces in the Pan Gu Universe to prevent the worst outcome.

...

In the Imperial Palace on the Third Continent, Chu Kuangren got the message from the Heavenly Sword.

"Oh? We have a spy here as well?"

Multiple names appeared in his mind, but he could not pinpoint who the spy was.

Fortunately, he had control over all the military deployment, and only he himself was aware of the complete deployment plan.

Even if there was a spy, he or she would not be able to get much information.

Swoosh!

Then, a figure in red robes and a spear appeared before him.

It was Shang Honghua, one of Chu Kuangren's closest people and the Left Chancellor of the Black Heaven Nine Stars.

"Honghua, what is it?"

"My King, the items that you have requested are ready. Is there anything else?" she asked.

Chu Kuangren's eyes gleamed.

The items that he requested were part of the ingredient list for the Water Nation Warring Map Formation.

He did not have the time to gather and refine the items himself.

He had to oversee the overall situation, so he contacted Elder Ruyan a while ago and ordered her to find someone to run the errand for him.

The items were sent to him after they were completed.

Then, he secretly assigned people to put the items in specific spots as part of the Water Nation Warring Map Formation.

With his total control over the Pan Gu Universe, it was not a difficult task, at least a lot easier than the Heavenly Sword.

The Heavenly Sword only had control over the Heavenly Roundtable, whereas Chu Kuangren had the entire universe's resources and power at his disposal.

After receiving her orders, Shang Honghua left.

Then, someone else visited the Imperial Palace.

It was Li Tu, Lu Jun, and the other three Peerless Warlords.

One of them was Immortal Emperor Luo Tian from the Immortal Hall, another was a drunkard with a wine gourd tied to his waist, and the last one was a little girl.

The girl was tiny, only around 145 centimeters in height, but she had a pair of bunny ears and snow-white skin. She looked adorable.

Chu Kuangren glanced at the girl and thought it was strange.

A girl with rabbit ears?

"What are you looking at? Are you looking down on me?"

The girl with the rabbit ears glared at Chu Kuangren, but it was not threatening by any means.

Quite the opposite, her puffy cheeks looked even more adorable.

Gu Linglong, who was beside Chu Kuangren, saw the girl and had the urge to hug her into her arms as well. Hence, she smiled and said, "Miss, my husband didn't mean that. You're just too adorable, hence the glance."

"Oh... Okay..."

The girl with rabbit ears calmed down and blushed when she heard Gu Linglong call her adorable.

"Immortal King, this is the spirit beast from ancient times, the legendary Moon Rabbit," Lu Jun introduced the girl.

Chu Kuangren was even more surprised.

"Moon Rabbit? The Moon Rabbit that lives with Chang'er in Yin Moon?"

"Yes." Lu Jun nodded.

The mystical beasts from ancient times were either dead or reincarnated, so there was less than a handful of them who had made it until this era.

Yet, a rabbit did it and somehow became a Peerless Warlord in Pan Gu Universe.

She was probably the most amazing rabbit that ever existed.

"Immortal King, we're here to inquire how you're going to deploy us," Li Tu asked.

"All of you are amazing warriors, and I cannot simply arrange your deployment. I will think of a plan and inform all of you at a later date."

"If that's the case, I have a suggestion."

Then, Immortal Emperor Luo Tian said, "The Immortal Hall has an abundance of manpower, and we can take charge of more than thirty continents at once. I have prepared a list of names and hope you can put us in charge of those continents. I assure you they will be defended from any intrusion into our universe."

Chu Kuangren took a look at the list.

All the listed continents were vital locations with an abundance of resources.

Not only that, but they were close to the mainland, and once the Immortal Hall was put in charge of those continents, they could form their little nation.

The Immortal Hall's ambition was exposed under the spotlight.

Chu Kuangren narrowed his eyes and suddenly remembered the resisting forces from the deduction.

Could it be the Immortal Hall?

He was not stereotyping by labeling the Immortal Hall as a spy, but the Immortal Hall was his biggest nemesis in the Immortal World.

"I will make the arrangements. As for the continents on this list, I can tell you that I will not put them in your charge," Chu Kuangren said.

"Immortal King, are you looking down on the Immortal Hall?"

"I don't like you, but that's not why I declined your request. I simply believe that the Immortal Hall doesn't have the capabilities to take charge of that many continents."

"The Immortal Hall..."

Immortal Emperor Luo Tian wanted to explain, but Chu Kuangren sent him out.

"Damn it!"

Immortal Emperor Luo Tian grunted coldly after exiting the Imperial Palace.

He looked at his fellow Peerless Warlords. "Are you guys willing to take orders from this junior? Where are your pride as a Peerless Warlord?"

"If we can win this war, I don't mind throwing away my pride." Li Tu laughed. He actually preferred Chu Kuangren.

The drunkard took his wine gourd from his waist and pointed it at Li Tu. "Good grief! I salute you for being able to throw your pride away for the sake of the universe! Here's a toast!"

"I've seen what the Immortal King can do, and his power and capabilities make him the best candidate to lead the Pan Gu Universe," Lu Jun said.

"He's that awesome? Here's another toast!"

The drunkard pointed his wine gourd at the Imperial Palace before taking another sip.

"If the Immortal King can lead us to end this war as soon as possible, I don't care what arrangements he has for us. Too many lives have been lost in the war," Moon Rabbit said compassionately.

"To the souls that lost in the war! Here's a toast!"

The drunkard took another sip.

The others rolled their eyes at the drunkard, who simply wanted an excuse to drink.

"Drunkard, it has been so many years, but you haven't changed a bit," Li Tu said with a smile and a shake of his head.

"I can say the same about you guys as well. To the forever unchanged!"

The drunkard laughed and drank more from his bottle.

Then, the group left the Imperial Palace, and the war continued.

Time flew by in the blink of an eye, and several decades went by.

In the next several decades, Pan Gu Universe and Central Heaven Universe were in a stalemate.

The soldiers from both sides could defend whatever attacks from each other and refused to give in.

Unparalleled After Ten Consecutive Draws

Chapter 1998: Immortal Emperor Luo Tian's Suggestion, A Way To Find The Spy

On a scorched battlefield, an adorable girl with rabbit ears channeled her terrifying Daoist law energy and released freezing Yin qi across the battlefield, freezing all the incoming enemies.

It was the Moon Rabbit, and she was fending off the enemies.

As a Peerless Warlord, she possessed astonishing power.

Common Embodiers were not her match at all.

She was fighting another Peerless Warlord from the Central Heaven Universe, a buff man equipped with lapis lazuli armor.

It was the Titan Deity.

"Hahaha! Moon Rabbit, it's been so many years, and you haven't changed at all. Aren't you embarrassed?" Titan Deity laughed.

Infuriated, Moon Rabbit swung her arms forward, unleashing a stronger Daoist law energy at Titan Deity.

The two continued to fight, and no one could seize the upper hand.

Then, two explosive energies were blasted at Moon Rabbit from the left and right.

Two more Multi-Embodiers had joined the battle.

They were Yuan Teng and An Ye.

"Hahaha! Moon Rabbit, are you in charge of this continent? If so, the Titan Tribe will be able to seize this continent with ease." Titan Deity laughed.

Then, a sword shadow was fired at them with tremendous power.

It cracked the void as it traveled across space.

Titan Deity was slightly surprised when he saw the incoming sword shadow. He channeled multiple Perfected Dao in him and overlapped them to form a rainbow light.

Kaboom!

The sword shadow shattered, but Titan Deity was blasted several hundred meters away.

He looked in the direction the sword shadow was fired in astonishment.

A figure slowly emerged into his sight.

It was Chu Kuangren.

He was surrounded by dazzling Immortal Sparks and a powerful aura, so powerful that even Titan Deity was in awe.

"Retreat."

Titan Deity retreated without a second thought.

There were many powerful elites in the Void Battlefield, and the Peerless Warlords almost matched each other in terms of strength.

The only one that could heavily injure a Peerless Warlord was Chu Kuangren and no one else.

Therefore, the Central Heaven Universe came to a common consensus after multiple encounters with Chu Kuangren.

Whenever anyone encountered Chu Kuangren, they would abandon the mission and retreat.

However, Chu Kuangren did not chase after Titan Deity and the others either.

He was capable of inflicting heavy damage on the Peerless Warlord, but it was not that easy to kill one.

Even though he was a lot stronger than he was more than ten years ago, nothing had changed.

He went up to Moon Rabbit and used the creation energy of the Chaos Green Lotus to rapidly heal her injuries.

Moon Rabbit quickly recovered to her peak.

"It's amazing!"

Moon Rabbit was in awe of the creation energy.

Chu Kuangren nodded.

He raised his hand to release even more Immortal Sparks. Each spark contained a sliver of powerful creation energy.

All the cultivators from Pan Gu Universe recovered rapidly.

"Thank you, Immortal King!"

All the soldiers looked at Chu Kuangren with gratitude and admiration.

After decades of fighting another universe, Chu Kuangren had built a grand and majestic image in everyone's heart.

It was because of Chu Kuangren's lead that Pan Gu Universe could fight back from a disadvantageous position.

"Moon Rabbit, I'll leave the rest to you," he said.

Central Heaven Universe had started launching fiercer attacks at Pan Gu Universe, and the fierce battle that Chu Kuangren had just stopped was not the first.

In order to form a plan to counter the fierce attacks, Chu Kuangren summoned everyone into the Deep Mind Dimension for a meeting.

Three days later, Chu Kuangren had drafted the final version of the soldier deployment plan.

He did not unveil the plan at the meeting. Instead, he planned to make the arrangements and deployments by himself, one by one.

It would ensure the secrecy of the battle plan, and the others had gotten used to it, so no one said anything.

"Immortal King, about my previous suggestion, what is your verdict on it?" Immortal Emperor Luo Tian asked.

The suggestion he was referring to was the one he mentioned decades ago, where the Immortal Hall would take charge of more than a dozen continents.

Immortal Emperor Luo Tian had mentioned it multiple times across meetings, but Chu Kuangren declined his request every single time.

"I said the Immortal Hall doesn't have the capability to take charge of that many continents."

"You won't know if you don't try."

"Are you questioning my judgment?" Chu Kuangren said coldly.

Immortal Emperor Luo Tian refused to back down this time. "Immortal King, my plan can help conserve manpower, so why not?"

The two of them argued.

Then, Chu Kuangren thought of something and said, "If you want me to agree to your suggestion, the Immortal Hall has to prove it's capability. If you can take down the Eleventh Continent of the Central Heaven Universe, I can approve ten of your suggestions, let alone one."

The Eleventh Continent was the hardest continent to take.

With a Peerless Warlord defending that continent, it would be difficult for Pan Gu Universe to attack it.

Immortal Emperor Luo Tian pondered before saying coldly, "If that's the case, you've got yourself a deal."

"Of course," Chu Kuangren said. It was a good chance to test whether Immortal Emperor Luo Tian was a spy or not.

Emperor Skylord, who was in charge of the Eleventh Continent, was as strong as Heavenly Rainbow Dragon.

If Immortal Emperor Luo Tian could take it down, there was a high chance that he was the spy.

With that, everyone left the Deep Mind Dimension.

Chu Kuangren smiled as he muttered, "Immortal Emperor Luo Tian, I look forward to your performance."

...

On the other hand, after Immortal Emperor Luo Tian left the Deep Mind Dimension, he entered a secret room and set up multiple layers of restriction seals.

He carefully took a bead out and channeled his Immortal's Core energy.

The bed glowed brightly, and the projection of a person appeared.

It was God King Sikong!

"Immortal Emperor Luo Tian, it's been a while," God King Sikong said.

Immortal Emperor Luo Tian skipped the chatters and explained the bet he made with Chu Kuangren. "I must take the Eleventh Continent. Then, my men can take charge of a large portion of the defense line. From there, I will gain more power and provide you guys with more convenience."

God King Sikong fell into deep thought after he heard Immortal Emperor Luo Tian's suggestion.

"The Eleventh Continent is an important place. If you take it, we will suffer quite the loss, but..." God King Sikong pondered for a while before saying, "I'll let you take it."

Immortal Emperor Luo Tian was the mole in Pan Gu Universe.

The stronger he was, the better it would be for the Central Heaven Universe.

The Central Heaven Universe could risk the Eleventh Continent.

After all, only with great risk came great reward.

"Very well. You won't regret the decision." Immortal Emperor Luo Tian grinned.

His eyes were overflowing with ambitions.

Since the previous universal war, he had been in contact with the Central Heaven Universe.

God King Sikong promised him that as long as the Central Heaven Universe successfully conquered the Pan Gu Universe, he would not only gain insights to break through to become a Primordial, but they would also give him half the Pan Gu Universe.

He knew it was a dangerous decision, but he was forced to take that route.

The Celestial Demon Tribe had grown so strong that it threatened him.

As long as the Celestial Demon Tribe existed, the Immortal Hall would continue to suffer.

Chu Kuangren's appearance proved his point.

The Immortal Hall was expelled from the Immortal World, a first since it was founded.

"Chu Kuangren, when this universal war is over, you and the Celestial Demon Tribe will cease to exist! The Immortal Hall will be at the top of both universes!"

Immortal Emperor Luo Tian hung up the call with God King Sikong.

Then, he led the elites of the Immortal Hall and marched toward the Eleventh Continent of the Central Heave Universe.

Unparalleled After Ten Consecutive Draws

Chapter 1999: Sneer And Teases, Emperor Skylord Match-Fixing, Why Is He There

On the Ninth Continent of the Central Heaven Universe, Heavenly Sword Chu Kuangren had ended his cultivation.

He had been in closed-door cultivation for decades and did not participate in any of the conflicts between the two universes.

Right after he came out, he received a message from God King Sikong to attend the meeting.

"Hey! Isn't that the infamous Heavenly Sword who killed Six Eyes? It's been a long time," Yuan Teng sneered at Chu Kuangren when he appeared.

Not only he but the others who saw Chu Kuangren looked displeased as well, especially the ancient God Kings.

They were close friends with Six Eyes as they had fought in the same war before.

"We fought our *sses off in the front line, and you're enjoying all kinds of resources in the back. You live a great life, I see," said another God King.

It was Luo Yunxiu, another God King, who was one of the Nine Kings.

He was already qualified to join the meetings of the higher-ups.

"Heavenly Sword, I don't know how powerful you used to be, but war merits speak louder on the battlefield. Your performance is disappointing," said Wu Mian, the disciple of the Primordial.

He was deeply disappointed in the Heavenly Sword.

"Come on, cut him some slack. Maybe he's still hurt from the battle with Nether God. Why give him the sour face?" An Ye sneered.

He got the fake news that Chu Kuangren released as well.

It made Chu Kuangren curious about how many people An Zixun sold the news to.

Most of the meeting attendees sneered and mocked Chu Kuangren.

Some called him a leech, enjoying the resources of the universe but did not participate in the war.

Meanwhile, Luo Xue, Ling Fei, Long Shuijing, and the others from the Heavenly Roundtable stood behind him as they took the sneers and mockery with him.

God King Sikong sighed helplessly.

Heavenly Sword might have been absent from the battlefield, but he was considered a precious asset since there were not many combatants left in the universe.

If the Heavenly Sword were the spy, it would be extremely troublesome.

"Are you guys done?"

Chu Kuangren then said, "Ever since the Heavens have taken charge of the Ninth Continent, the defense has been solid. No one has been able to penetrate our defense line yet, and isn't that enough?"

"Hmph! If it's not for us fighting in the front line, the Ninth Continent would've fallen ten times over!" Yuan Teng grunted.

"Enough!" God King Sikong intervened to stop the argument.

The meeting was held to summarize the gains and losses in the past few decades.

Those who contributed a lot would be rewarded as well, and those who attended the meeting contributed a lot to the war, except for the Heavenly Sword.

He had not appeared in the Ninth Continent for decades, which fueled the displeasure of others.

"He's strong, but he's just a leech."

"Too bad."

"What's too bad? He killed Six Eyes. It's great that he doesn't have any merits so that we can kill him in the future. If he achieved massive war merits and built a reputation for himself, we might need to reconsider killing him."

The attendees of the meeting communicated among themselves.

After the meeting, God King Sikong held Emperor Skylord back.

"Emperor Skylord, I need you to lose the Eleventh Continent."

"What? Why?" Emperor Skylord was stunned.

God King Sikong then told him about the mole he planted in Pan Gu Universe.

Emperor Skylord was an ancient Peerless Warlord of the Central Heaven Universe and the founder of the Emperor Tribe.

God King Sikong had absolute trust in him.

"I see." Emperor Skylord was struck with a realization.

"This is important. Do not leak the information."

"I understand."

...

On the Eleventh Continent of the Central Heaven Universe, the soldiers were well-equipped and veterans on the battlefield.

A loud rumbling sounded in the sky above them.

Then, an army appeared within their sight.

The leader was a man in armor and wielded a large sword. He had a crown above his head, which emanated a superior and prestigious aura.

It was Immortal Emperor Luo Tian and his Immortal Hall army.

"Enemy attack!"

"Hmph! Stupid! This is the Emperor Tribe's defense line! How dare they try to invade us?"

"Yeah!"

The soldiers of the Eleventh Continent scoffed.

To them, no one could break their defense with the Peerless Warlord in charge of the Eleventh Continent.

Hence, Immortal Emperor Luo Tian's attack would be futile.

"Charge!"

Immortal Emperor Luo Tian gave the command for the siege.

The soldiers from both sides soon engaged in a fierce fight.

The terrifying energy from the clash shook the entire continent.

Then, a massively powerful Emperor qi erupted in the sky.

Emperor Skylord had arrived.

"How dare you invade the Eleventh Continent? Die!"

Emperor Skylord grunted. His golden hair danced along the energy wave as he stared at Immortal Emperor Luo Tian with sharp eyes.

He was like a golden lion with a majestic aura.

He charged toward Immortal Emperor Luo Tian immediately.

Even though he was ordered to lose the continent, he had to put up a fight, or it would look too fake.

"Fight!"

Immortal Emperor Luo Tian grunted.

Multiple Dao in his body buzzed violently as he swung his giant sword at Emperor Skylord. Even the void was cut in half.

Emperor Skylord used all his strength in blocking and feigned a strenuous reaction.

"He's powerful!"

"Emperor Skylord, I am taking this continent!" Immortal Emperor Luo Tian said with delight.

The two of them fought fiercely.

Each clash released explosive energy that crushed mountains and shattered heavens, and the energy storm from the clash destroyed everything in its way.

The battle was fierce. It could be considered one of the fiercest battles in the Void Battlefield.

The soldiers were in awe of the battle.

Bang!

Then, Emperor Skylord was struck down from the sky, crashing onto the ground.

Everyone gasped when they saw the unbelievable scene.

What?

Was Emperor Skylord not Immortal Emperor Luo Tian's match?

"Immortal Emperor Luo Tian, as expected," Emperor Skylord said with a slightly pale face.

Back in the Central Heaven Temple, God King Sikong was watching the battle from a light screen.

He grinned. "Emperor Skylord is really a good actor."

Emperor Skylord then bellowed, "Retreat!"

The show was over. It was time to leave!

"No! We shall defend this continent with our lives!"

Someone charged out from the crowd and shouted loudly.

It was Di Feitian. He, too, was on the Eleventh Continent.

"The Eleventh Continent is an important land to the Central Heaven Universe. If the Pan Gu Universe takes it, we will suffer an unimaginable loss! We shall fight to the end!" Di Feitian roared with bloodshot eyes.

The other soldiers were infected by his morale and responded to his battle call.

"Yeah! We will fight!"

"We would rather die than run away!"

Emperor Sky Lord was stunned.

What was Di Feitian doing? Retreat!

However, he could not reveal the plan regarding the spy, so he said loudly, "Everyone, it's more important to stay alive! Retreat! We will figure out a way to retake the Eleventh Continent!"

He tried persuading the soldiers to retreat, but some insisted on staying.

"Forefather, you take the other soldiers away. I will stay back to cover you!" Di Feitian said solemnly.

God King Sikong watched the scene with a frown. "Since when did Di Feitian become such a righteous person?"

"Hmph! I will grant you your death!" Immortal Emperor Luo Tian grunted coldly.

For the sake of the grand plan, he must get the Eleventh Continent. All who stood in his way must die!

Emperor Skylord must be informed, hence the fake loss. As for Di Feitian, he was just a stupid young man, so his life and death would not matter.

Immortal Emperor Luo Tian raised his sword and aimed his terrifying Daoist law energy at Di Feitian.

However, another sword shadow pierced through the clouds.

Kaboom!

The two sword shadows clashed and shattered together.

"Who allowed you to be arrogant in front of the Heavens?" a cold voice said.

Back in the temple, God King Sikong jumped to his feet in shock. "Why is he there?"

[Unparalleled After Ten Consecutive Draws](#)

Chapter 2000: Defeat Immortal Emperor Luo Tian, Plan Ruined

Back inside the Central Heaven Temple, God King Sikong looked at the screen and saw Heavenly Sword Chu Kuangren appear on the battlefield.

He was shocked. Why would the Heavenly Sword be there?

If the Heavenly Sword decided to intervene, would Immortal Emperor Luo Tian be strong enough to take down the Eleventh Continent?

Should he inform the Heavenly Sword?

No. If Heavenly Sword was the spy, informing him would only expose them.

God King Sikong was forced into a difficult situation.

He hoped that Immortal Emperor Luo Tian could find a way to deal with the Heavenly Sword.

Immortal Emperor Luo Tian was a Peerless Warlord, after all.

Back on the Eleventh Continent, Immortal Emperor Luo Tian was stunned when he saw Heavenly Sword Chu Kuangren.

What happened?

He thought he was supposed to take the Eleventh Continent.

Why would the Heavenly Sword intervene?

Immortal Emperor Luo Tian was confused.

Emperor Skylord was baffled as well, but the others were excited to see Chu Kuangren.

"It's the Heavenly Sword! He's here!"

"Can he defeat a Peerless Warlord?"

Even though Chu Kuangren was resented by the higher-ups of the Central Heaven Universe, he was a hero to the common soldiers with a great reputation.

The title of Heavenly Sword lived up to its name.

However, not all agreed on the same opinion.

"I don't think so. Even the Forefather has lost. The Heavenly Sword is strong, but is he stronger than the Forefather?"

"You're right."

Regardless, Heavenly Sword proved to be a strong support.

Everyone held high hopes for him.

Immortal Emperor Luo Tian looked at Chu Kuangren coldly. "The infamous Heavenly Sword? I shall see what you are made of!"

Swoosh!

He vanished.

He reappeared above Chu Kuangren as he swung the giant sword down. The swing contained at least four Dao energies.

Chu Kuangren narrowed his eyes.

The Void Sword was drawn.

Clack!

Blade and blade clashed loudly.

The explosive Daoist law energy crushed the void instantly.

"Using a sword in front of the Heavenly Sword? You are not qualified!"

The Void Sword was slightly tilted to the side and a sword qi was fired, carrying boundless Daoist law energy.

It had reached Perfected Dao!

It was one of the improvements he made in the past decades.

Other than that, he also completely refined the Yin Yang Withered Wood that he won from Heavenly Rainbow Dragon and mastered the Yin Yang Dao.

He was officially a Multi-Embodier.

"You are indeed something else."

Immortal Emperor Luo Tian had a heavy look on his face after being blasted back, but he was not afraid.

He had to take the Eleventh Continent!

The Dao in him buzzed strongly and Daoist law energy erupted. The energy formed a massive sword shadow, which contained multiple Dao.

At the tip of the sword, a terrifying murderous aura could be felt. It was the energy presence of the Murderous Dao.

"Immortal Emperor Onslaught!" Immortal Emperor Luo Tian bellowed.

The massive sword was swung down.

The Murderous Dao was the main while the other three Dao acted as ancillary support.

It was swung down from the sky and aimed at Chu Kuangren.

This strike was so powerful that even Emperor Skylord must take it seriously.

"O' Heavens Bear Witness, Beyond Heavenly Sword!"

Chu Kuangren swung another slash at the incoming slash with his Void Sword.

The sword shadow was far superior to other attacks.

Following a deafening explosion, the two sword shadows clashed.

Both Chu Kuangren and Immortal Emperor Luo Tian were blasted away but Chu Kuangren was only pushed back two steps.

Immortal Emperor Luo Tian was blasted away, crashing through a dozen mountains.

The difference in power was obvious!

Everyone was shocked by the outcome.

Not even Emperor Skylord was Immortal Emperor Luo Tian's match, yet Heavenly Sword Chu Kuangren easily overthrow him.

The Heavenly Sword was indeed powerful.

Back in the temple, God King Sikong watched through the light screen with a helpless twitch.

"Heavenly Sword... It seems like he has recovered. Not even a Peerless Warlord is his match now. He's too strong."

...

Immortal Emperor Luo Tian felt depressed and annoyed after being blasted away.

What the hell happened?

This was not part of the plan!

Could it be that the temple wanted him to win a clutch victory?

A sudden thought rushed into his mind and struck him with realization.

"That's it! It must be! If I win too easily, it will definitely attract Chu Kuangren's suspicion! God King Sikong has taken everything into consideration!" Immortal Emperor Luo Tian muttered to himself.

Assuming that he has everything figured out, he discarded his concerns and flew back to Chu Kuangren.

He swung his big golden sword at Chu Kuangren but was blasted away with a single slash.

The fierce battle continued.

It started from the ground before it went up to the sky.

Every corner of the continent became their battleground and everything in their way was destroyed.

The power of a Peerless Warlord was on full display.

On the other hand, Di Feitian fought the other Immortal Hall experts.

A few hours later...

"Immortal Emperor Stardust Slash!"

Immortal Emperor used another one of his powerful attacks.

Multiple Dao gathered in his big sword, causing it to glimmer in starry light.

As he slash, the sword qi that carried the energy of stars and planets was unleashed.

That slash was a lot stronger and more horrifying than the previous ones.

However, Chu Kuangren remained unfazed.

"O' Heaven Bears Witness, Yin Yang Discord!"

A massive amount of Yin Yang Dao's Daoist law energy gushed. When it fused with Chu Kuangren's main Invincible Self-empowering Dao, it distorted the void around him.

The Yin Yang energy turned the world upside down. It was a brand new attack in the O' Heaven Bears Witness series!

Baam!

The slash destroyed Immortal Emperor Luo Tian's sword shadow and severely injured his body.

Even though his Dao recovered his body, his Dao was still shaken violently.

He looked like a man made out of blood, looking terribly gorey.

Chu Kuangren raised his hand for another attack.

He did not hold back at all.

Immortal Emperor Luo Tian's expression turned grim.

It had gone over his expectations.

He had played along to this extent and he still could not take down the Eleventh Continent!

The Heavenly Sword was too carried away by his role!

Immortal Emperor Luo Tian continued to fight the Heavenly Sword.

As his Daoist law energy slowly depleted, he sensed chills running down his spine.

It was the killing intent he sensed from Chu Kuangren!

The killing intent was real!

He finally understood that the Heavenly Sword was not playing along! The Heavenly Sword was there to kill him!

How? What happened?

That was not part of the plan!

Had the plan been changed? He was not informed at all!

A few more rounds later, Immortal Emperor Luo Tian was severely injured again.

He had a strong and bad feeling that if the fight continued, he might really perish.

"I must retreat!"

Immortal Emperor Luo Tian clenched his teeth in anger.

The Dao in his body buzzed as it released multiple Daoist law energy.

A rainbow stream of energy scattered and flooded the area.

Chu Kuangren was forced to retreat!

"Retreat!" Immortal Emperor Luo Tian ordered.

The army of the Immortal Hall immediately retreated from the Eleventh Continent.

"We won!"

"The Heavenly Sword is indeed amazing!"

Di Feitian and the others were thrilled.

They looked at Chu Kuangren with zealous admiration.

Not even Emperor Skylord was a match for Immortal Emperor Luo Tian, yet the Heavenly Sword was able to defeat him without suffering a scratch.

Chu Kuangren's image skyrocketed in their hearts.

Emperor Skylord reacted bitterly to the situation.

It was not that he could not beat Immortal Emperor Luo Tian but for the sake of the plan, he decided to take a step back.

Why would the Heavenly Sword decide to intervene?

His intervention has completely disrupted their planning as the Heavenly Sword was not part of this plan!
