#### **Chapter 2071: Lil Ai's Evolution Complete, Let's Have A Bet, Want To Be My Ride?**

"Omniscient Spirit evolution complete. Rebooting..."

A familiar voice echoed in Chu Kuangren's mind.

Then, his mind shone in gold, and in that golden flash was a ball covered with countless mystical runes.

"Lil Ai!"

Chu Kuangren's eyes gleamed.

Lil Ai, the Omniscient Spirit, had evolved!

"Reboot complete."

"I've detected that Master's current location is beyond the Infiniverse, and the Daoist law is different from the local rules. Do you wish to make the necessary adjustments?" Lil Ai asked.

"Make the adjustments."

Chu Kuangren had absolute trust in Lil Ai.

The moment he gave the command, a strange energy erupted from his body.

"Adjusting..."

The Daoist law that did not fit the Great Hongmeng Universe's rule rapidly transformed to match the local rules.

High up in the sky, Priest Fei Mai noticed Chu Kuangren's blank look. He frowned but did not hold back his attack and swung the golden sword downward.

"Bang!"

The sword slashed down with a powerful and unrivaled might as if a golden torrent was crashing down at its target.

Right before the sword could strike Chu Kuangren, he suddenly widened his eyes, and a blast of boundless energy erupted from his body.

Tens of thousands of Daoist laws intertwined and swept across the field.

The golden sword was disintegrated by the blast of Daoist law energy.

The blast of energy shocked the Dark Dragon and the Radiant Left Sky King, and they stopped fighting, looking astonished.

"Daoist law? How?"

"That is the presence of a powerful Daoist law! How many Daos has he fused with? Two hundred? Three hundred? Five hundred or more?"

The Radiant Left Sky King's expression shifted.

He had come across many anomalies before who managed to fuse more than ten Daos, but no one had fused more than several hundred like Chu Kuangren.

It was a first! It meant Chu Kuangren must be a high-leveled anomaly!

"If someone like him sided with the heretics, it would become a problem for the Goddess. He cannot be allowed to live. Kill him!" Radiant Left Sky King said to Priest Fei Ma.

Priest Fei Ma nodded. "As the Goddess' decree!"

He looked at Chu Kuangren with intense killing intent.

Chu Kuangren was surrounded by a massive amount of Daoist law energy. On top of that, the strange sense of alienation from the Great Hongmeng Universe was gone.

It was like the mountain that stood in his way had disappeared.

He felt relaxed and easy.

"Lil Ai, it's been a while," Chu Kuangren said with a smile.

"It's been a while, Master. I didn't expect to see you in such a wretched state during our reunion," Lil Ai ridiculed.

Chu Kuangren was surprised by the tease.

It seemed like Lil Ai's emotions had gotten richer.

"Alright. Let's hope your mouth isn't the only thing that has evolved. Help me out here," Chu Kuangren said.

"Yes, Master."

Lil Ai switched to a more serious tone and started to analyze the situation.

"Analyzing the current environment..."

"Swoosh!"

A white spear was hurled at Chu Kuangren.

Priest Fei Ma attacked again.

Chu Kuangren raised his hand and pointed at the spear. The Chaos Green Lotus' Destructive Energy was shot at the spear, breaking it into pieces.

Then, he glanced at Priest Fei Ma.

Information regarding the man appeared in his mind — Primordial Mystic Five Realm, a cultivator of the Radiant Dao, specialized in divine ability, Radiant Spear, Judgement Sword...

Chu Kuangren knew it was Lil Ai's information.

One glance and he could gain insights into a Primordial-level opponent and the techniques that the opponent was good at.

It was a powerful function.

"What happened to him? He couldn't adapt to the Great Hongmeng Universe's rules a while ago, and in just the blink of an eye, he adapted and became skilled."

Priest Fei Mai frowned. He was not mad that his attack was canceled.

On the contrary, he channeled his energy for a stronger attack.

"Judgement Sword!"

Priest Fei Ma gathered the Radiant Daoist law energy and transformed them into the golden sword again. That strike, however, was stronger than the previous.

Having foreseen it, Chu Kuangren pointed his finger forward and unleashed the Chaos Green Lotus' Destructive Energy that transformed into a green sword qi.

"Heaven Reckoning!"

"Bang!"

It was sword versus sword!

When the powerful attacks clashed, the energy blast from the collision struck the entire Radiant Sky King Formation.

However, Chu Kuangren was still standing in the sky, unscathed.

"Hmph. A mere Embodier, how strong can you possibly be?"

Priest Fei Mai channeled his attack again.

"Radiant Divine Light Rain!"

Radiant energy gathered and rained down like a storm.

The attack covered a massive range, and it was almost impossible to dodge.

Chu Kuangren narrowed his eyes. A green lotus bloomed under his feet and shielded him from the light rain.

As the light rained down on the lotus, it caused a series of explosions, but it did not hurt him at all.

Further away, the Dark Dragon roared in pain before he was blasted away.

He fell into a disadvantage in the battle with the Radiant Left Sky King.

"Dark Evil Dragon, die!"

"Divine Light Arrow!"

The Radiant Left Sky King entered an archer's stance, and light particles formed a golden bow in his hand. As he pulled the string back, a light arrow formed.

In just the blink of an eye, the arrow was shot at the Dark Dragon, tearing the void apart in the process.

It was so powerful that it was terrifying.

The arrow had not only locked onto the Dark Dragon.

Once struck and exploded, the entire Thousand Suns City would be leveled to the ground.

The cultivators of Thousand Suns City were mortified.

"Damn it! Is the Radiant Cult going to kill us all?"

"F\*ck! We're not heretics!"

"Why are they trying to kill us?"

The cultivators were enraged but helpless.

As the arrow flew closer, death enveloped the entire city.

"F\*ck! Am I going to die here?" the Dark Dragon roared out of grievance.

It was then that a white figure stood in front of him.

It was Chu Kuangren.

"Punk, move!" the Dark Dragon roared as his expression shifted.

He believed Chu Kuangren was not strong enough to block the arrow.

'Why? Why is he risking his life for me?'

The Dark Dragon failed to understand.

Then, a chuckle sounded.

Chu Kuangren looked at the incoming arrow. The Daoist law energy on him swirled rapidly and formed a torrential energy wave.

At the same time, two different surges of Chaos vital energies swirled around him — one creation and the other one destruction.

"Green Lotus Art, Divine Universal Supremacy!"

Creation was endless, and destruction was boundless.

Together with a few hundred Daoist law energies, the green lotus' energy transformed into a green torrential stream that blasted forward with indomitable power.

The moment the two different energies clashed, the realm trembled, and the entire Thousand Suns City shook violently.

Many of the cultivators were sent flying away.

As the two energies canceled out each other, Chu Kuangren managed to stop the Radiant Left Sky King's arrow.

It shocked the cultivators of the Radiant Church.

Even though the Radiant Left Sky King they summoned was just a projection, it contained the highest power of a Primordial.

Yet, his attack was stopped by a mere Embodier, which was ridiculous.

At the same time, Lil Ai's voice sounded in Chu Kuangren's head.

"Analyze complete."

Chu Kuangren's lips curled into a smile. Then, without turning around, he said to the Dark Dragon, "Let's have a bet. If I can save you from this situation, why don't you become my ride?"

### Unparalleled After Ten Consecutive Draws

#### **Chapter 2072: Powerful Battle Prediction Ability, Break Formation, Leave**

"If I can save you from this situation, why don't you become my ride?" Chu Kuangren's voice sounded.

When the Dark Dragon saw Chu Kuangren defend him from the lethal attack, it somehow reminded him of the Dark Demonic Ruler.

He said with clenched teeth, "If I can leave in one piece, I will be your ride."

Chu Kuangren grinned. "It's a deal then."

The Radiant Left Sky King grunted. "Are you guys so proud of yourselves for blocking just one of my attacks? You overestimate yourself."

"We shall see if I overestimate myself," Chu Kuangren said.

Then, his figure flashed and reappeared above the Radiant Left Sky King.

With a raise of his hand, a massive lotus bloomed and hovered above his palm before he tossed it out.

"Bang!"

The green lotus attack was powerful as it contained several hundred Daos inside.

However, the Radiant Left Sky King grunted and chose not to dodge. Instead, he countered the green lotus with a blast of the Radiant divine light.

When the divine light clashed with the green lotus, Chu Kuangren was blasted several hundred meters away.

The Radiant Left Sky King did not even flinch.

"The difference in strength between us is too huge. You're not my match," the Radiant Left Sky King said with a cold grunt.

He then fired a barrage of Radiant Spears at Chu Kuangren.

Each spear contained power that could kill a common Primordial.

Chu Kuangren narrowed his eyes.

He jumped up and dodged the raining Radiant Spears nimbly.

"Bang! Bang! Bang!"

The Radiant Spears rained down and hit the Radiant Sky King Formation, but the formation was unusually sturdy.

It blocked all the attacks effortlessly.

"How long can you keep this up?" The Radiant Left Sky King dodged.

In the meantime, his attack grew fiercer.

Chu Kuangren continued to dodge the attack with impeccable timing. He was able to dodge the spear in the nick of time as if he knew the trajectory.

"This guy is really strange."

"Other than possessing a power that surpasses an Embodier, his battle prediction ability is ridiculous."

The Radiant Left Sky King frowned.

It felt terrible when his moves were all predicted.

On the other hand, Chu Kuangren was adapting to his condition as he dodged.

He felt amazing.

With the evolved Lil Ai's help, he could analyze the Radiant Left Sky King's attacks, and all the trajectories were mapped out before his eyes.

It was like he could see into the future.

"Divine Heavenly Net!" the Radiant Left Sky King bellowed.

A large amount of Radiant Daoist law energy gathered and formed a massive net to capture Chu Kuangren.

The net was formed by sharp Radiant Daoist law energy, so sharp that it could slice through the void.

"Analyzing for weak spots..." Lil Ai's voice sounded.

In just a moment, a tiny flaw on the net appeared before Chu Kuangren. His figure flashed and jumped forward nimbly like a fish, dodging the net completely.

Everyone else was shocked.

What a ridiculous battle prediction ability!

They could not believe he could spot such a tiny flaw!

The Radiant Left Sky King was shocked as well. His technique contained a tiny flaw, but it was so tiny that the odds of finding it was one to a billion. It was almost perfect.

However, Chu Kuangren could spot it in just a moment and slip through his capture with ease.

"What is the deal with this guy?"

The Radiant Left Sky King grew anxious.

That battle prediction ability was abnormal.

"Battle prediction, eh?"

The Radiant Left Sky King took a deep breath.

Then, he gathered a large amount of Radiant Daoist law energy and formed a massive ball of light above his head.

A powerful aura and pressure swept across the battlefield.

The cultivators of the Radiant Church, who stayed to form the formation, felt like their energies were sucked away when the ball appeared, and it surprised them.

"The Radiant Left Sky King is serious!"

"That guy is dead!"

"This is the Great Judgement of Light!"

Priest Fei Ma looked at the Radiant Left Sky King with an unusual zeal.

There were a few superior techniques within the church that only Bishop-level personnel were permitted to cultivate.

The Great Judgment of Light was one of them.

"I don't care how you read my moves, but this Great Judgment of Light is a few times stronger than the arrow. Even if you can predict its trajectory, you won't be able to block it," the Radiant Left Sky King said with a scoff.

By then, the aura from the ball of light was aimed at Chu Kuangren.

It was like a sun above his hand, shedding blinding light on the land.

The power of that attack, as the Radiant Left Sky King said, was so strong that not even Chu Kuangren could withstand it.

Even if he could, he would be hurt.

"Master, with your Ultimate Almighty Source Physique, there's a ninety-nine percent chance of survival if you take the hit straight on. However, excluding exterior factors, you will need to recover for at least a thousand years," Lil Ai said in a calm tone.

"Don't worry, he won't hit me." Chu Kuangren scoffed.

Then, he stood in the air, and his energy level skyrocketed.

Tens of thousands of Daos were activated, and the Great Dao's energy was blessed upon him.

Then, a massive avatar appeared behind him.

It was the Pan Gu Avatar!

Ancient energy filled the battlefield.

The Pan Gu Avatar summoned the Genesis Axe with its Daoist laws and swung it down with both hands.

"It's useless! You can't stop me!"

The Radiant Left Sky King held the ball of light with one hand while summoning a barrier using his Daoist law energy with his other hand to try to block the axe attack.

However, right before the axe could hit the Radiant Left Sky King, it switched direction and went for the formation instead.

"Bang!"

A massive explosion erupted, and the entire formation trembled.

Massive cracks appeared on the formation and swiftly spread out like a spider web.

"What? How? The formation has been broken!"

Priest Fei Ma's eyes widened in shock.

The Radiant Sky King Formation was one of the strongest formations of the Radiant Church.

It contained massive power and had barely been broken!

Chu Kuangren's attack might be powerful, but he should not be able to break the formation. What was going on?

Suddenly, realization struck Priest Fei Ma, and he was shell-shocked.

"We fell for his trick! He dodged the Radiant Left Sky King's attack not just because he can predict the trajectories, but he was also using the attack to weaken the formation's power!"

"His axe struck the weakest point of the formation! That was how he broke it!"

Having figured it out as well, the Radiant Left Sky King's expression turned grim.

He was the Left Sky King of the Radiant Church, the left-hand man of the Radiant Goddess, yet he was toyed with and fooled by a junior from another universe.

He could not accept it!

"Die!"

Although the formation was broken, it remained standing.

Before the Radiant Left Sky King's attack could be completed, he unleashed it at Chu Kuangren and the Dark Dragon.

"Hmph. I'm done playing."

Chu Kuangren chuckled.

H then took the Timespace Treasure and infused the Spacetime Daoist law energy into it. With the Chaos Supreme Treasure fully activated, spacetime divine light shrouded him and the Dark Dragon whole.

The broken Radiant Sky King Formation could no longer hold them back.

In the blink of an eye, the man and dragon disappeared from the spot.

### Unparalleled After Ten Consecutive Draws

#### **Chapter 2073: Dark Dragon As Mount, Grand Dao Realm's Category, Ruler Amulet's Secret**

"Bang!"

A powerful energy blast exploded above Thousand Suns City.

Radiant energy expanded and leveled the entire city to the ground. In an instant, all the cultivators inside the city were vaporized.

After the blast, Chu Kuangren and the Dark Dragon were nowhere to be found.

The Radiant Left Sky King responded grimly.

"They escaped!"

"The treasure he used is a Spacetime Chaos Supreme Treasure, and a high-level one at that! No, that aura could've exceeded the category of a Chaos Supreme Treasure!"

The Radiant Left Sky King frowned.

The Dark Evil Dragon breaking out from his seal and an unpredictable anomaly who came from another universe were both incidents that demanded his attention.

"Inform all the churches of the Dark Evil Dragon and that human. Once found, kill them at all costs!" The Radiant Left Sky King grunted.

Priest Fei Mai nodded. "As the Goddess' decree."

With that, the Radiant Left Sky King's projection disappeared.

Priest Fei Ma looked at the rubbles of Thousand Suns City and pondered. "Is the battle between light and darkness upon us again?"

...

Somewhere in the Ming Domain of the Great Hongmeng Universe, a flash of spacetime divine light shone.

A dragon and a man emerged from within.

It was Chu Kuangren and the Dark Dragon.

"Damn it, boy! You did it!"

The Dark Dragon clicked his tongue as he looked at Chu Kuangren with the utmost respect.

Even he had no idea how to break free from that heavy encirclement. However, Chu Kuangren, an Embodier whose cultivation level was much weaker than his, managed to do it.

Chu Kuangren had earned his respect.

"This is just the start," Chu Kuangren said.

He knew after the little confrontation that he would be standing against the Radiant Church, and they would surely hunt him down from now on.

Therefore, he had to improve his strength as soon as possible.

He was invincible back in the Pan Gu Universe, but in the Great Hongmeng Universe, the elites of the Infiniverse gathered, and there were transcendentalists around. He was far from being strong enough.

He had to improve his strength.

"This is the first time I've had to escape from a battle," Chu Kuangren muttered.

Even though taking the Dark Dragon away from the heavy encirclement of the Radiant Church was an amazing achievement, given his Embodier Realm cultivation, he viewed it as an escape from battle.

The thought put a smile on his face.

"But this is much more interesting. Radiant Church, I look forward to our next meeting," Chu Kuangren said with a grin.

Then, he looked at the Dark Dragon.

"Remember our little bet?"

Shaken, the Dark Dragon chuckled awkwardly and asked, "What bet?"

"So the Dark Evil Dragon is a dragon who doesn't keep his promise. Forget it. I was wrong about you," Chu Kuangren said as he shook his head.

"Sh\*t! I, Hei Xuan, am a dragon of my word! Be your ride, right? I'll do it!" the Dark Dragon said with a grunt.

"Hei Xuan? Is that your name? Great!"

Chu Kuangren dashed forward and sat down on Hei Xuan's head.

Hei Xuan felt upset and aggrieved. After so many years, Chu Kuangren was the second person who sat on his head. The first one was the Dark Demonic Ruler.

Now, he really wished he could slap his own face for accepting the bet.

"Let's go. Let's find a safe place to regroup."

"Alright."

Hei Xuan then rose to the sky.

The dark storm whirled as he flew, shaking the mountains and the rivers.

The cultivators who saw the dragon were shocked.

"T-That's a Dark Dragon! It's so powerful!"

"Look, there seems to be someone on the dragon's head!"

"Who's that? How strong is he? How did he make the Dark Dragon his ride?"

Dragons were a common species in the Infiniverse, and the Dark Dragon was the strongest of the kind.

A dragon as powerful as Hei Xuan and possessed Darkness energy was quite rare.

"Lay low. Are you trying to attract the attention of the Radiant Church?"

Chu Kuangren tapped on Hei Xuan's head.

Hei Xuan then conserved his aura as he flew.

A few days later, they left the Ming Domain and settled down on a mountain.

"This place is great."

Chu Kuangren and Hei Xuan set up countless restriction seals around the mountain.

After that, he tossed a Yin and Yang Ring at Hei Xuan.

Inside the ring contained a large amount of herbs and medicines. There were even Chaos-level medicines to treat wounds.

Hei Xuan was in awe.

"You are just an Embodier. how did you get so many treasures?"

"That's not important now. You should focus on recovering," Chu Kuangren said.

His assets mostly came from the Fantasy Roulette. Even though the prizes were mostly useless to him now, once they piled up, it could be a rather sizable amount.

He was certain that he was richer than any of the Embodiers in the Infiniverse or even some Primordials.

"With these medicines, I believe I can recover ten percent of my strength in ten years." Hei Xuan chuckled.

Curious, Chu Kuangren asked, "How strong were you in your prime?"

"Grand Dao Supreme God Realm."

"The Grand Dao Realm is divided into categories?" Chu Kuangren asked, but it was Lil Ai that answered him.

"Master, the Grand Dao Realm has its own category, and so do the Transcendentalists. I have compiled them for you. Do you want to receive it?"

"Receive."

With just a thought, a massive amount of information flooded his mind.

He finally understood what the Supreme God Realm was.

Above the Embodier was Primordial.

Above the Primordial was Grand Dao.

Primordial was categorized into Nine Mystics.

As for the Grand Dao, it was categorized into Life Mastery, Supreme Spirit, Supreme God, Supreme Saint, and Supreme Honorable.

Hei Xue looked at Chu Kuangren strangely.

He was waiting for Chu Kuangren to ask more about the cultivation realm because he knew the young man had a limited understanding of it.

He was about to boast his knowledge to a junior, but Chu Kuangren did not say a word.

'Why? How?'

'Is he not curious?'

"That's it? No more questions?" Hei Xuan asked curiously.

"No more," Chu Kuangren said as he shook his head.

Even if he had questions, he would ask Lil Ai.

Speaking of Lil Ai, he was curious about her current condition.

Lil Ai took most of the credit for helping him break the Radiant Sky King Formation.

Without her, it would be impossible for him to locate the flaw so fast.

"Lil Ai, what can you do now?" Chu Kuangren asked her in his head.

"Many things. After compiling the knowledge of the Infiniverse, I no longer need to connect to a Great Dao to exist. I can exist independently inside you and operate as a single entity."

"I see. In that case, I don't need to worry about you going offline."

Chu Kuangren nodded happily.

After that, he asked Lil Ai for suggestions to deal with the Radiant Church.

"Master, I might be strong now, but you have to deal with the Radiant Church yourself. I am just a support," Lil Ai said helplessly.

"You're right."

"A friendly reminder, Master. You have something on you that will be effective against the Radiant Church."

"What? What is that? I have no idea what you're referring to."

"The Darkness Ruler Amulet."

Chu Kuangren then took the amulet out and looked at it carefully for a while. However, he could not find anything special about the amulet.

"This Ruler Amulet isn't just a token. It's a Premium Chaos Supreme Treasure, and it contains the power to effectively counter the Radiant Dao. Master, if you refine this, it will help you a lot in dealing with the Radiant Church," Lil Ai said.

#### [Unparalleled After Ten Consecutive Draws](#)

#### **Chapter 2074: Goddess' Deduction, Refine Ruler Amulet, Vitality Qi Divine Celestial**

"I see..."

Chu Kuangren toyed with the amulet as he grinned.

He did not expect the Dark Demonic Ruler to have that backup plan.

With Lil Ai's help, he removed the restriction seals on the Darkness Ruler Amulet and started to refine the Chaos Supreme Treasure.

Hei Xuan started to refine the medicine he got from Chu Kuangren so that he could recover his strength quicker.

Meanwhile, the Radiant Church had set up a bounty on Chu Kuangren and listed him as a heretic.

As the top force in the Grand Hongmeng Universe, many interested parties kept their eyes on the Radiant Church.

They understood why the cult wanted to hunt down the Darkness Evil Dragon since he was one of the Eight Great Heretics, the nemesis of the cult, but Chu Kuangren?

A mere Embodier?

It seemed cheap for the Radiant Church.

Although strange, it did not spark a lot of attention.

Some believed that if they were lucky enough to encounter Chu Kuangren, they could kill him for the bounty.

Since Chu Kuangren was just an Embodier, it should be an easy task.

Only a handful of people paid attention to that particular hunt.

Inside a radiant palace that floated in space of the Great Hongmeng Universe, a blonde woman in white robes was sitting before a crystal ball, channeling unimaginably powerful radiant energy for a deduction.

Gradually, the crystal ball was tainted by a strange ink of black.

"Crack!"

The crystal ball burst!

The clergies in the room were shocked when the crystal ball burst into pieces.

The crystal ball was a Chaos Supreme Treasure, yet it had burst.

"Even with the Enlightening Crystal and my cultivation, I can't deduce that person's background. We must be careful of him," said the blonde woman.

The woman was the Radiant Goddess of the Radiant Church.

She was trying to deduce Chu Kuangren's fate but ended up losing her crystal ball.

Even she found it shocking that she failed to deduce the fate of an Embodier.

"Goddess, is the Dark Demonic Ruler behind this?"

A lady came up to the goddess. She glanced at the crystal ball pieces on the floor before she signaled the clergies to clean the place up.

The Radiant Goddess shook her head. "I hurt the Dark Demonic Ruler during the last Hongmeng Era. He shouldn't have the power left to interfere with me."

"In that case, could it be someone else protecting this person?"

"It's possible."

Then, she looked into the sky and said coldly, "I don't care who it is. Those who side with darkness must be eliminated!"

...

Inside an auspicious grand hall decorated with majestic gold, a Buddha was holding a jade talisman in his hand, looking surprised.

"Chu Kuangren is being hunted by the Radiant Church?"

The Buddha was Cundi from the Pan Gu Universe.

"He's a problem magnet, attracting problems wherever he goes, so this isn't too surprising," Receiva, who was behind him, said.

"You're right. The Radiant Church has a lot of believers, and they're in the way of our preaching. Just let Chu Kuangren deal with them."

"Yes. We have to concentrate on the Dharmic Symposium. If we can win, we will secure a high spot in the Heavenly Buddhist Pure Land, and we might even be qualified to branch out to other Buddhism paths within the pure land."

The Great Hongmeng Universe was the start of the Infiniverse.

It contained everything the Infiniverse had, including Buddhism.

Cundi and Receiva were the founders of Buddhism in the Pan Gu Universe, but in the Great Hongmeng Universe, they were just two out of many Buddhas.

...

"Chu Kuangren, you're here as well."

Deep inside a dark underground palace, a man wielding a spear sat with his legs crossed.

Before him was a demonic avatar with eight arms.

It was Luo Hou, the Demonic Forefather.

He was trying to understand the eight-armed demonic avatar.

"I look forward to seeing you again."

Luo Hou's eyes gleamed.

He was an ambitious person.

He had failed to build his Demon Kingdom in the Pan Gu Universe, so he planned to do it in the Great Hongmeng Universe. However, he had to grow stronger first.

The eight-armed avatar was one of the origins of the Demonic Dao in the Great Hongmeng Universe. If he could gain insights from it, his Demonic Dao's cultivation would skyrocket.

Then, he might stand a chance to fight Chu Kuangren.

No, he should not only focus on Chu Kuangren.

He was a man who wish to build the Demon Kingdom, so he had to target the forces and elites of the Great Hongmeng Universe.

He should be after a bigger goal.

...

"The Immortal King is here in Hongmeng."

Somewhere on a mountain peak high up in the clouds, a woman in traditional robes sat with her legs crossed. Her valiant facial features made her look strong, and the Immortal Sparks around her contained Primordial energy.

Beside her was a girl sitting on a white lotus pad. The girl looked up when she heard the woman.

"My friend is here in Hongmeng? How do you know, Honorable Teacher?"

They were the West Ruler Matriarch Ruler and Yu Zhi.

The West Ruler Matriarch tossed Yu Zhi a jade talisman.

After going through the content, Yu Zhi looked worried. "The Radiant Church is a force to be reckoned with. I wonder if my friend can handle it."

The West Ruler Matriarch said, "Don't worry. Why don't you concentrate on your cultivation? Maybe one day, you will be strong enough to help the Immortal King."

Yu Zhi nodded. "Honorable Teacher, you're right."

...

Most of the people of the Great Hongmeng Universe did not care about the Radiant Church hunting Chu Kuangren, but the ancient beings from the Pan Gu Universe were captivated by it.

After all, as the most powerful Immortal King in the Pan Gu Universe, everything Chu Kuangren did captivate them, and his condition would also directly affect the Pan Gu Universe's position in the Great Hongmeng Universe.

Somewhere in the mountains of the Great Hongmeng Universe, Chu Kuangren had been cultivating for several years now.

With Lil Ai's analysis, he was able to refine the Darkness Ruler Amulet.

The moment he refined the amulet, the Dark Demonic Ruler back in the Void Battlefield opened his eyes. He looked rather serious. "Oh? He managed to refine the Darkness Ruler Amulet in such a short time. It seems like I've underestimated the Divine Destiny Temple Lord."

He thought it would at least take Chu Kuangren a million years to find the secret of the Darkness Ruler Amulet and longer to refine it.

"Interesting. I look forward to your fight with the Radiant Church. And to my idiotic sister, I hope my challenger satisfies you," the Dark Demonic Ruler muttered before he returned to slumber.

...

"So is this the power from the Darkness Ruler Amulet? It's decent."

Chu Kuangren had summoned a stream of black qi on his palm.

It was actually a dense Darkness energy, a new power that he acquired for refining the Darkness Ruler Amulet.

Together with the amulet, it would effectively counter the cultivators of the Radiant Church.

"With this energy, I can be more confident in fighting the Radiant Church," Chu Kuangren thought to himself.

Then, he opened the Fantasy Roulette.

"Congratulations, Host! You've won a Transcendent-tier prize, the Vitality Qi Divine Celestial."

Chu Kuangren was intrigued when he checked the item.

The Vitality Qi Divine Celestial was a type of vitality qi divine ability.

If the Primordial Nine Tribulation Physique was a technique to train his physical body, the Vitality Qi Divine Celestial would be a cultivation technique that allowed him to utilize the vitality qi in his body.

"This is a timely gain," Chu Kuangren said with a grin.

Despite having the Ultimate Physical Body, he was not as adept in utilizing his vitality qi and could not bring out its full potential.

Hence, the Vitality Qi Divine Celestial would make up for his shortcomings.

### Unparalleled After Ten Consecutive Draws

#### **Chapter 2075: The Urge To Surrender, Tempest Palace Appear**

Chu Kuangren planned to exit his closed-door meditation, but he had a change of plans when he acquired the Vitality Qi Divine Celestial and continued his cultivation for several more years.

With Lil Al's help, he was able to boost his strength, not significantly but strong enough to handle sticky situations.

Still, he was not satisfied with the outcome. His short-term goal was to fuse three thousand Daos, which was a difficult path. The further he thread, the harder it would be.

Based on his current cultivation speed, he would at least need another one hundred thousand years to achieve it. Furthermore, it was based on optimistic calculation.

However, that was too long for him.

There were countless Opportunities of Fortune in the Great Hongmeng Universe.

People were figuring out ways to improve themselves every second. If he threaded on his difficult path of fusing three thousand Daos for too long, others might catch up to him.

On top of that, the Radiant Church would not spare him the luxury of time.

"It's no good. I have to improvise as I thread. If things get out of control, I would have to ascend to the Primordial Realm earlier..." Chu Kuangren muttered.

Ascending to the Primordial Realm with a few hundred Daos was also a rare and huge achievement. There might be less than a handful of people who achieved the same throughout the entire Infiniverse.

"Bang!"

Suddenly, an explosion happened outside.

Someone was trying to break into the restriction seals.

"Who could that be?"

He sent his Immortal Consciousness out and soon spotted several black-robed cultivators approaching his cultivation ground rapidly.

It was someone from the group of cultivators who accidentally triggered the restriction seals he and Hei Xuan set up, hence the explosion.

"These auras... Are they from the Darkness Tribe?"

On the other side of the mountain, Hei Xuan, who was also cultivating, sensed the same auras. He exited his cultivation and flew to the group of cultivators.

"You guys are the ones who broke my seal that day."

Hei Xuan was surprised to see the group again.

The group of cultivators knelt before him.

"Lord Evil Dragon."

Hei Xuan nodded. "At ease."

Then, Chu Kuangren arrived.

Alarmed by Chu Kuangren's arrival, the cultivators from the Darkness Tribe got on their feet and entered a defensive stance.

Black flames were ignited on their hands.

However, the flames emanated a strange aura, as if it could ignite one's soul.

"Oh, interesting flame," Chu Kuangren said after a glance at the flame.

The group of Darkness Tribe cultivators stared at Chu Kuangren, and for some reason, their hearts were pounding.

Deep down, they had a strong urge to submit before him. They even had a thought to kneel before him.

Who exactly were they looking at?

"Stop it. He's an ally," Hei Xuan said.

Upon hearing Hei Xuan, the group of cultivators breathed a sigh of relief.

They sensed a powerful pressure when they tried to confront Chu Kuangren.

Hei Xuan was surprised by Chu Kuangren's aura as well.

It had just been a few years of cultivation, yet Chu Kuangren felt like a different person. He even sensed a faint aura of the Dark Demonic Ruler on Chu Kuangren.

How strange.

Hei Xuan suppressed his doubts and then looked at the cultivators. "You're Yu Yan's men."

Other than the Demonic Ruler, the Darkness Tribe had a few more powerful elites.

Yu Yan was one of them, and like Hei Xuan, he was labeled as one of the Eight Great Heretics by the Radiant Church.

"We are."

"Where is Yu Yan now?"

"Lord Yu Yan is in another major domain. He is currently engaged with the Radiant Church and can't meet you, Lord Evil Dragon."

"I see. The Radiant Church is really pesky."

"Yeah. That's why we spent all our effort to break your seal. If you can team up with Lord Yu Yan, the Radiant Church won't be able to ignore us anymore, and the Darkness Tribe will regain its stand with your support."

"Hmph. What about that b\*tch, Radiant Goddess?" Hei Xuan grunted.

He knew neither he nor Yu Yan was the key to the rise of the Darkness Tribe; it was the Dark Demonic Ruler.

As long as the Demonic Ruler remained absent, the Darkness Tribe would continue to be suppressed because of the Radiant Goddess.

"Similar to the previous reset, Transcendentalists above the Grand Dao level won't simply show themselves. The same goes for the Radiant Goddess."

"I understand. Take me to Yu Yan," Hei Xuan said.

The group of cultivators hesitated.

They looked at Chu Kuangren, seemingly concerned.

"Don't worry. He's related to the Ruler."

Hei Xuan's words surprised them, and they looked at Chu Kuangren with disbelief.

Chu Kuangren immediately pulled out the Ruler Amulet to show them.

"T-The Ruler Amulet?"

"What's going on?"

The group was astonished.

They all knelt before Chu Kuangren and then led the two of them to meet one of the Eight Great Heretics, Yu Yan.

Chu Kuangren had no plans at the moment, so he decided to go have a look.

...

The Great Hongmeng Universe was filled with Opportunities of Fortune.

Inside a certain mountain ridge, a grand palace appeared. The palace was massive and shimmering with Immortal Sparks so bright that it caught the attention of countless cultivators from across a million kilometers.

"This aura... It feels like some massive treasure is appearing."

"What an amazing aura. It must be something good!"

Cultivators near the palace went to have a look.

Soon, they arrived at the palace and wanted to head inside.

However, they were stopped by the restriction seals.

That was when someone spotted the signage at the entrance.

"Look, there are words at the entrance."

A golden signage hung over the entrance, spelling "Tempest Palace".

"T-Tempest Palace? Could this be..."

Someone cried in shock when the realization struck. Astonishment filled his eyes.

"Is this place related to the Tempest King?"

Tempest King?

Not all knew what the name meant.

The Infiniverse was boundless, and no one's name was so famous that everyone knew it.

Only the cultivators who experienced the previous Hongmeng Era knew what the Tempest King meant.

"The Tempest King was the most amazing cultivator during the previous Hongmeng Era. He rose as a Prodigy and went on a conquest across the Great Hongmeng Universe. He never lost a battle."

"It was said that when the Great Hongmeng Universe reset, the Tempest King's cultivation level had surpassed Grand Dao and reached an unknown level."

"What kind of treasures would such a Transcendentalist leave behind? I look forward to finding out."

The Tempest King's name intrigued everyone and aroused their desire to find out more. They wanted to enter the palace but could not break the powerful restriction seals.

No matter how they tried, no one could get inside.

The news of the Tempest Palace spread across the major domains and attracted some of the strongest forces.

#### **Chapter 2076: All Gathered At Tempest Palace, Legend Of The Tempest King**

The appearance of the Tempest Palace attracted the attention of many forces across different major domains.

They were not going to sit back and allow others to snatch the treasures and inheritance of the Tempest King, so they made their way to the palace.

Somewhere in the Great Hongmeng Universe, multiple figures soared across the sky.

It was Chu Kuangren, Hei Xuan, and the group of Darkness Tribe's cultivators.

The group of Darkness Tribe's cultivators was astonished when they saw Chu Kuangren sitting on Hei Xuan's head.

"Oh my god! Lord Evil Dragon became that person's ride!"

"How is this possible? Other than the Ruler, who else can ride Lord Evil Dragon?"

They were astonished.

They believed anyone from the Darkness Tribe would share the same feeling when they saw the scene.

Hei Xuan, on the other hand, was aggrieved and depressed.

Chu Kuangren showed no courtesy or humility at all. Not only did he want Hei Xuan to be his ride, but he really did treat the dragon as his personal ride as well.

He did not even spare Hei Xuan from his people.

Hei Xuan was deeply embarrassed, but he did not argue with Chu Kuangren about that matter.

After all, he was a dragon who kept his word.

"Who is that guy?"

The leader of the group was Fei Peng, a rather capable young man who served Yu Yan. He was chosen to break Hei Xuan's seal because of his capabilities.

He looked at Chu Kuangren sitting on Hei Xuan's head and was deeply impressed.

Then, the jade talisman at his waist blinked.

"The Tempest King's inheritance?"

After he checked the content of the message, his expression shifted.

With a look of disbelief on his face, he stopped everyone.

"Everyone, we cannot meet with Lord Yu Yan now. Something else requires our immediate attention."

Fei Peng continued with a serious look, "The Tempest Palace appeared just a while ago, and the place likely holds the inheritance of the Tempest King."

"Tempest King?"

Hei Xuan gasped in shock. "Damn! That woman tyrant left her inheritance in the Great Hongmeng Universe?"

He revered the Tempest King as well.

When Chu Kuangren heard the name, he suddenly had a strange feeling in his heart. It felt like he was somehow related to the Tempest Palace.

It confused him.

He did not remember meeting anyone named the Tempest King, so why would the Tempest Palace be related to him?

'Wait a minute... Tempest? Lan? The little girl?'

The meaning of the girl's name was tempest, literally.

"Master, we share the same thought," Lil Ai said.

"Impossible. When I left, that girl was not even an Arch Gilded Immortal. How could she be the Tempest King?"

"Master, don't forget about the characteristics of the Timespace Treasure," Lil Ai said.

Chu Kuangren remembered that he went on a few thousand years-long trip, but when he returned to the Pan Gu Universe, twenty thousand years had passed.

When traveling with the Timespace Treasure, the landing point in time and space was random.

Lil Ai had proven it to him before.

"Whether it is the girl or not, we shall find out at the Tempest Palace," Chu Kuangren said.

The appearance of the Tempest Palace sprung a massive chain reaction.

Yu Yan also messaged his men and told them to bring Hei Xuan to the Tempest Palace first, hoping to seize the inheritance.

As for himself, he was still engaged in a battle with the Radiant Church and could not free himself for now.

However, he had sent another assistant to meet up with the group outside the Tempest Palace.

More and more cultivators were gathering outside the Tempest Palace.

The temptation of the Tempest King's inheritance was huge, and it attracted many people.

"Zoom!"

A blast of Radiant aura suddenly appeared from the void. A man in white robes emerged, and the light around him formed a path ahead of him.

He bore a majestic presence, and Immortal Sparks shimmered around him as if he was the embodiment of radiance.

"Oh, that's Bachelor Saint Tao!"

Someone recognized the man.

Other than Priest and Bishop, the Radiant Church also had Bachelor Saints, which were Prodigies they raised through meticulous nurturing.

They all possessed the potential to ascend to the Grand Dao Realm.

Some of the Bachelor Saints were as strong as the Bishops, and Bachelor Saint Tao was one of them.

After the Bachelor Saint of the Radiant Church appeared, another figure came from the sky.

She was a beautiful woman with a powerful aura, similar to Bachelor Saint Tao.

Following her arrival, the air was filled with a faint aroma.

"She's from the Immortal Lust Palace!"

"The Immortal Lust Palace might not be as strong as the Radiant Church, a Monarch-class force, but it's still a well-known Grand Dao-class force."

"The woman's name is Moon Deity. She's well-known and active across many major domains."

"Bang!"

A blast of destructive aura came from the void, causing the clouds to rumble.

As the dark clouds gathered, a black dragon emerged, leaving a trail of destruction and lightning in its wake.

"It's the Black Dragon Tribe!"

The Dragon Tribe was also a Monarch-class force in the Great Hongmeng Universe, similar to or, if not, stronger than the Radiant Church.

As for the branch of the Dragon Tribe, the Black Dragon Tribe occupied quite the status as well.

"The Tempest King's inheritance belongs to me, Heilong Hua!"

The black dragon transformed into a man in black armor, emanating a destructive and rampant aura as he landed.

While everyone was gathering in front of the Tempest Palace, Chu Kuangren and company arrived on a mountain ten thousand kilometers away.

They were waiting for the person Yu Yan sent to meet them.

On the way here, Chu Kuangren had heard more legends regarding the Tempest King.

She was a Crowned-king-level being during the previous Hongmeng Era, and only those who transcended beyond the Grand Dao level were qualified to be crowned king.

Only less than a handful of them qualified during the last Hongmeng Era.

The Tempest King was not only one of them, but she was also the strongest of them all.

She had many legends, and no one knew where she came from.

No one knew who her master was, but she started with an indestructible body and slowly conquered the Grand Hongmeng Universe until she was crowned king.

"Hmph. She's a tyrant, but I have to admit that no one can beat her during the last Hongmeng Era," Hei Xuan said sentimentally.

He revered the Tempest King because out of the few famous battles that the Tempest King fought, one happened in the Dragon Tribe's territory.

The Tempest King fought his father, the Black Dragon King.

That battle lasted for far too long. The void shattered, the stars dimmed, and in the end, the Black Dragon King was beaten

He was forced to surrender to stay alive.

Hei Xuan could never forget the wretched look on his supposedly tyrannical and arrogant father.

He was defeated by a woman from the human race and was forced to beg for his life.

After Chu Kuangren heard the story, he started to believe that the Tempest King was the disciple he took.

"Tempest Palace, I look forward to it," Chu Kuangren muttered.

Further away, a black ball arrived.

The black ball absorbed all light in its path and released a surge of dense Darkness energy.

"He's here, Lord Yu Yan's aid."

"This aura... Could it be..."

### Unparalleled After Ten Consecutive Draws

#### **Chapter 2077**

The black ball arrived before Chu Kuangren and company, and a large amount of Darkness energy erupted.

A figure emerged from within. He looked young and handsome, and the black glamorous robe on him had flaming patterns sewn on it.

On his head was a black crown carved with countless flaming patterns.

The dark eyes looked strong, energetic, and invasive like a blazing flame.

He scanned over everyone but ultimately landed his attention on Chu Kuangren instead of Hei Xuan, who was an elder of the Darkness Tribe.

"Interesting aura."

He sensed a strange energy in Chu Kuangren that made his Darkness energy rumble as if it was being suppressed.

"Who are you?" the young man asked Chu Kuangren.

"Kid, where are your manners?"

Hei Xuan was unhappy with the young man's rudeness. He stared at the young man and released his powerful dragon aura.

Only then did the young man realize he was being rude. He quickly bowed at Hei Xuan and said, "Lord Evil Dragon, my father has missed you a lot. He wishes to reunite with you soon, but he's caught up with the Radiant Church. And with the appearance of the Tempest Palace, he told me to meet you first."

"So, you're Yu Yan's son?"

"I am. My name is Yu Nie."

Fei Peng and the others knelt down immediately.

"Second Young Master."

"We didn't expect the Second Young Master to meet us here."

The group showed their respect, with a hint of fear and reverence.

"On your feet. You guys did well in helping Lord Evil Dragon break free from his seal."

Yu Nie then looked at Chu Kuangren. "And you are..."

"Chu Kuangren."

"Chu Kuangren, what are you doing here?"

Fei Peng then explained why Chu Kuangren was with them and emphasized the Ruler Amulet that the latter possessed.

When Yu Nie heard about the Ruler Amulet, he stared at Chu Kuangren with an insolent gaze.

For a moment, Chu Kuangren felt like a greedy beast was looking at him.

The gaze lasted for a second before Yu Nie regained his composure.

"Master, this person is hostile," Lil Ai said.

Yu Nie hid his hostility well, but he could not fool the Omniscient Spirit, Lil Ai.

"It's okay. Let's just play along."

"Alright. Let's play."

No one knew Chu Kuangren was talking to Lil Ai.

After meeting with Yu Nie, the group headed to the Tempest Palace.

On the way there, Hei Xuan talked about the Tempest King again.

"The Tempest King is a fierce and murderous person. According to the rumors, she had killed at least three thousand Grand Dao-level opponents."

It was obvious that Hei Xuan feared the Tempest King.

More precisely, those who experienced the previous Hongmeng Era more or less revered the Tempest King.

Chu Kuangren was shocked.

'Killed at least three thousand Grand Dao-level opponents?'

It was a little exaggerated.

Even Chu Kuangren had only encountered less than a handful of Grand Dao-level opponents.

"If we can get the Tempest King's inheritance, the Darkness Tribe will be more confident in fighting the Radiant Church!" Yu Nie said with a hint of greed in his eyes.

The Radiant Church, Dragon Tribe, Immortal Lust Palace, and other forces gathered in front of the Tempest Palace.

They all wanted to enter to seize the inheritance, but the restriction seals cast over the palace were too strong.

No one could remove it or break it.

"Damn it! Just how tough are the restriction seals?"

Heilong Hua attacked furiously with his black halberd, unleashing a relentless fury at the restriction seals.

"Bang!"

Huge explosions erupted, but when the halberd ray faded, the restriction seals were still intact.

"Radiant Divine Arrow!"

Bachelor Saint Tao unveiled a white bow. He pulled the string, and a large amount of Radiant energy gathered to form an arrow.

When the arrow was released, it drew a white stroke across the air, carrying indomitable power.

The attack was stronger than a common Primordial.

However, the arrow shattered upon hitting the restriction seals.

The restriction seals were unscathed, and Immortal Sparks glimmered, protecting the entire Tempest Palace.

"Damn it!" Bachelor Saint Tao cursed.

"Out of the way!"

A cold voice came from the clouds.

Then, a sharp white spear was hurled at the restriction seals.

"It's the Grand Priest from the Radiant Church!"

Everyone looked forward to the attack of the Grand Priest, but the spear failed to break through as well.

"Let me have a go!" said another cold voice.

A massive dragon claw emerged from the cloud, carrying intense destruction energy as it crashed at the restriction seals.

The dragon claw was a few times more powerful than the white spear.

Following a deafening explosion, the dragon claw collided with the restriction seals.

To everyone's surprise, the dragon claw managed to challenge the restriction seals' integrity.

The collision formed a strange and unprecedented stalemate situation.

"Is it going to go through this time?"

Everyone looked hopeful.

However, a burst of Immortal Sparks erupted from inside the restriction seals, and an even more terrifying energy exploded, crushing the dragon claw completely.

A heavy grunt came from the sky. It was as if the owner of the dragon claw was hurt by the rebound.

"Cast the Radiant Sky King Formation!"

Then, someone came from the clouds. It was Priest Fei Ma, the man who attacked Chu Kuangren a few years ago.

As he grunted, cultivators from the Radiant Church came out and set up the Radiant Sky King Formation.

Following a burst of dazzling Radiant aura, the Radiant Left Sky King was summoned again.

"The Tempest King's inheritance? Interesting!" the Radiant Left Sky King said coldly.

He raised his hand and channeled the Radiant energy to the limit. A ball of light as bright as the sun appeared.

It was one of the superior techniques of the Radiant Church, the Great Judgment of Light!

"Bang!"

The massive light ball shimmered in countless Daoist laws and crashed on the restriction seals with an indomitable force.

A terrifying shockwave erupted, and a blast of blinding light robbed everyone's sight.

Following that, a scorching heat wave spread outward. It was so hot that it felt like it could vaporize the crowd in an instant.

Everyone retreated more than ten thousand kilometers away and used whatever they had to block the blast.

When the blast finally calmed down, the land around the Tempest Palace was scorched. It was caused by just the stray energy shockwaves from the collision.

However, the restriction seals that took the direct hit were still unscathed!

"Tempest King!" The Radiant Left Sky King grunted coldly.

Everyone was disappointed.

If the Radiant Left Sky King could not break the restriction seals, how would the others go in?

"Does the Tempest King want anyone to get her inheritance?"

"Yeah. Who could break such sturdy restriction seals?"

"It shouldn't be. If the Tempest King didn't want anyone to get her inheritance, why would she leave behind the palace? And if she wanted others to get her inheritance, why would she make such indestructible restriction seals? It doesn't make sense."

Everyone shook their heads, feeling helpless.

Then, a loud cackle came from the sky.

"Radiant Left Sky King, how useless are you? You can't even break the restriction seals? Watch and learn!"

A loud dragon's roar echoed across the sky, and a blast of Darkness Dragon Flame burned the restriction seals.

#### **Chapter 2078: Can't Break Through The Restriction Seals? Chu Kuangren Entered The Tempest Palace**

A loud dragon's roar echoed across the sky.

Then, a Darkness Dragon Flame burst and burned the Tempest Palace's restriction seals. A scorching energy melted the land along the way and even distorted the void.

The powerful energy shocked everyone.

"Damn! Who attacked?"

"This voice... Could it be..."

As soon as the dragon flame struck the restriction seals, an unprecedented energy shockwave exploded and swept over tens of thousands of kilometers.

The land was scorched, and the air was burning.

However, despite the scorching land and smokey air, white Immortal Sparks glimmered.

Everyone looked at the Tempest Palace and was not surprised to see the restriction seals unscathed.

"Damn it! That female tyrant's restriction seals are really something," Hei Xuan said with puckered lips.

Chu Kuangren, Yu Nie, and the others were behind him.

When the Radiant Church spotted them, their cultivators were alarmed and immediately drew their weapons. They looked eager to seize Chu Kuangren.

"It's you guys again," the Radiant Left Sky King said with a scoff.

Then, he looked at Hei Xuan with surprise.

Although not in his prime, Hei Xuan was countless times stronger than the encounter at Thousand Suns City.

"What's wrong, Radiant Left Sky King? Do you want to have a go? I'm not scared of you now," Hei Xuan said with a chuckle.

He had recovered part of his strength and could easily deal with the projection of the Radiant Left Sky King.

He wanted payback.

"Hei Xuan, it's been a while."

Another voice came from the cloud.

A black dragon head emerged from the cloud and stared at Hei Xuan.

The dragon was an elite of the Black Dragon Tribe.

Hei Xuan simply grunted at the dragon and said, "Hmph. Here I was, wondering who had the audacity to call my name, and it's Heilong Mingshang's lackey."

The black dragon head said, "My name is Heilong Kong, and you should address my master as Third Brother."

"Third Brother? I've cut ties with the Black Dragon Tribe a long time ago."

"Indeed. You're no longer one of us since you've fallen into the dark side. Besides, what are you doing here? You just got out of your restraints. Shouldn't you be resting somewhere?"

"It's none of your damn business."

The dragon's conversation was quite a scene to look at.

Some who knew better started a discussion among themselves.

"I heard the Black Dragon King was a playboy when he was younger. He had many children and mistresses across the Infiniverse, but other than the stronger ones, he never cared about his children. Hei Xuan was one of them, and he joined the Darkness Tribe in the end."

"Hei Xuan was nothing at first, but after he joined the Darkness Tribe, he grew stronger and made a name for himself during the last Hongmeng Era. Even the Radiant Church named him one of the Eight Great Heretics."

"Indeed."

While Hei Xuan and Heilong Kong were arguing, another cold voice said, "Why don't you two figure out a way to remove the restriction seals first?"

Since the Immortal Lust Palace had spoken, everyone decided to put their differences aside and focus on the problem.

They looked at the restriction seals around the Tempest Palace with furrowed brows.

"The restriction seals are too difficult to break. I think it'll require a Grand Dao-realm elite to break the restriction seals and get the inheritance inside."

"Why don't we combine our attacks?"

"That seems like a good idea."

The Radiant Left Sky King, the elites from Immortal Lust Palace, Hei Xuan, Heilong Kong, and the others joined forces to unleash their energies at the restriction seals around the Tempest Palace.

After a deafening blast, the Tempest Palace trembled violently. However, it still stood as sturdy as a rock.

Everyone was rendered speechless.

"What the hell? This is too hard."

"I don't think even the strongest Grand Dao-realm elite can break the restriction seals."

"Do we need someone higher than the Grand Dao Realm?"

"But those people rarely show themselves to the world. Does that mean no one can take the inheritance?"

Everyone looked at the palace with dissatisfaction.

They came all the way here, and it seemed like they would have to leave empty-handed.

In the crowd, Chu Kuangren saw the restriction seals and had a strange feeling telling him he could go in.

The feeling was groundless, but it felt real and inviting.

However, he did not make any rash moves. He told Lil Ai to analyze it, and the conclusion was that no one present at the scene could break or remove the restriction seals.

It seemed like it really required someone beyond the Grand Dao Realm to challenge it.

"Is that so?" Chu Kuangren muttered.

Then, he walked toward the Tempest Palace.

Everyone's eyes were on the Tempest Palace already, so when Chu Kuangren walked closer, they noticed him immediately.

"What is he doing?"

"Is he trying to walk in just like that?"

"What a joke. So many elites teamed up, and they failed to break the restriction seals. What makes him think he can go in just like that? Who is he anyway?"

"Is he from the Darkness Tribe as well?"

No one believed Chu Kuangren and simply took him as a clown.

Even Hei Xuan was surprised.

What was Chu Kuangren doing?

When the crowd teased and sneered at Chu Kuangren, Hei Xuan grunted and released his dragon aura.

"Shut up! You people are annoying!"

His roar silenced the crowd, but they continued to gloat at Chu Kuangren.

Hei Xuan stared at Chu Kuangren's back with furrowed brows.

Similar to the others, he did not believe in Chu Kuangren. Even though Chu Kuangren was resourceful, he was just an Embodier.

What made Chu Kuangren think he could break through the Tempest King's restriction seals?

Soon, Chu Kuangren arrived in front of the restriction seals.

Just when the crowd thought Chu Kuangren would be blasted away, they saw him step into the restriction seals.

However, the restriction seals did not react to his intrusion!

Everyone was stunned.

"What? Why? How?"

"What is going on?"

"How did he do it?"

Everyone was confused.

No one could break the restriction seals, but all Chu Kuangren did was walk through it.

It confused and baffled them.

"Who is he? Is he related to the Tempest King?"

"He must be. Otherwise, how could an Embodier go in just like that? Damn it. He's going to take the inheritance!"

"No! How can we just sit here and watch him take the inheritance?"

With that, everyone ran toward the entrance, hoping they could get through as easily as Chu Kuangren.

However, when they got close, they were all blasted away by the rebounding force from the restriction seals.

"Damn it! Why was he granted entry?" Bachelor Saint Tao was aggrieved.

The others shared a similar feeling.

"Hahaha! No wonder the Ruler has high hopes for him. He's indeed a man of secrets!"

Hei Xuan was surprised that Chu Kuangren could enter. He laughed loudly and became more intrigued by Chu Kuangren.

"Hei Xuan, who is he?" Heilong Kong asked.

"It's none of your damn business!" Hei Xuan would not say a word, and his harsh words brought a grim look to Heilong Kong's face.

In fact, Hei Xuan had no explanation for it either. Even he had no idea who Chu Kuangren was or where he came from.

### Unparalleled After Ten Consecutive Draws

#### **Chapter 2079: Master And Disciple Reunion, Tempest King's Treasure, Comprehend Three Thousand Dao Compass**

Chu Kuangren walked through the restriction seals and arrived inside the Tempest Palace.

He was in awe.

"This palace was left behind by that little girl, who wasn't even an Arch Gilded Immortal back then but eventually grew into someone so powerful."

When he traveled to Lan's universe using the Timespace Treasure, the time was actually during the previous Hongmeng Era!

Even Chu Kuangren was in shock.

The Timespace Treasure exceeded his imagination.

It was definitely not just a common Chaos Supreme Treasure.

At the same time, he was glad that only twenty thousand years had gone by when he returned to the Pan Gu Universe.

If it were two million years, he would not have known what to do either.

However, he shifted his attention back to the Tempest Palace.

The palace was not exactly glamorous, but in the center stood a crystal statue.

The statue resembled a girl with unmatched temperament and beauty, and it looked alive.

Chu Kuangren took a glance at the statue, finding the face familiar.

It was indeed his disciple, Lan, or rather, the Tempest King.

As though the statue had sensed Chu Kuangren's arrival, it started to shine brightly.

Then, it came alive!

The Tempest King appeared in white robes and long black hair. Her skin was fair as snow, and her eyes were as bright as the stars.

She solemnly walked to Chu Kuangren and knelt before him with a thud.

If any elites from the previous Hongmeng Era saw that scene, their jaws would drop.

To think the unmatched, powerful Tempest King who conquered the entire era, the woman who never bowed to anyone, not even the Gods or demons, was kneeling to a person!

What a joke!

"Honorable Teacher, we finally meet again!"

The Tempest King knelt and kowtowed sincerely before Chu Kuangren.

She respected no Gods or Demons in her life, except for one man.

That one man that she would kneel before sincerely was Chu Kuangren.

No one knew that the Tempest King, who conquered the entire era, was hunted multiple times when she was young and almost lost her life.

If not for Chu Kuangren, there would be no Tempest King.

If not for Chu Kuangren taking her as his disciple, teaching her his technique, and providing her with an abundance of cultivation resources during her early days, she might not make it today.

Chu Kuangren not only saved her but also raised her, indirectly.

"Honorable Teacher, since my true self isn't here and I can't bow to you myself, my willpower thought form will have to do the honor. Please forgive my manners," the Tempest King said.

"Please stand."

Chu Kuangren looked at the Tempest King with a gratified smile.

She did not forget her master even after becoming strong.

Her character and nature justified his decision to take her as his disciple back then.

"Honorable Teacher, after you left, I managed to avenge the Yao Tribe, and then I traveled the Infiniverse to search for you. However, my journey led me to a fruitless end. I even entered the Great Hongmeng Universe to look for you, but my efforts still fell short.

"I suspected you must be traveling in the river of time, so I left this Tempest Palace here in the Great Hongmeng Universe, waiting for the day you would arrive."

The Tempest King then raised her hand and summoned two items from the void.

One was a Yin and Yang Ring and the other was a compass.

Chu Kuangren did not know what the Yin and Yang Ring held inside, but the compass looked magical.

It had many Great Dao patterns carved on it, and from it, Chu Kuangren could sense the aura of the Infiniverse.

There were precisely three thousand Daos' auras inside it.

Chu Kuangren had a hunch of what it was.

"Honorable Master, I didn't know where your cultivation would be at this point, so I tried my best to leave something useful for you. This Yin and Yang Ring contains the resources to cultivate the Nine Primordial Tribulation Physique.

"I knew you were an Embodier back when we first met, and judging from the plethora of auras I sensed in you, I had a bold guess that you're trying to fuse three thousand Dao and walk that difficult path.

"Therefore, I killed three thousand Grand Dao Realm cultivators of different Daos, extracted their Daos, and carved them all into this compass — the Three Thousand Dao Compass. I hope it'll be useful to you," the Tempest King said.

Chu Kuangren finally understood that the Tempest King had killed more than three thousand Grand Dao Realm opponents just for him, and he was touched.

"How thoughtful of you," Chu Kuangren said sentimentally.

As for the Grand Dao Realm cultivators, he apologized to them in his heart.

"Compared to what you did for me back then, where you saved me, raised me, and granted me a new life, this is nothing," the Tempest King said.

After that, she transformed into a ball of light and said, "Honorable Teacher, the appearance of the Tempest Palace will attract trouble. My willpower thought form contains a portion of my powers, and I can kill all below the Monarch Realm. If you encounter an opponent you do not wish to fight, you can summon my willpower thought form, and I will deal with it for you."

"You are really considerate," Chu Kuangren said.

An opponent that he did not want to fight?

He could not even fight most of the opponents now.

It was evident that the Tempest King was trying to protect his dignity as her master.

Then, the ball of light entered Chu Kuangren's body.

Chu Kuangren found out that he could easily control the willpower thought form.

That would make his killer trump card for now.

Following that, he looked at the Yin and Yang Ring and the Three Thousand Dao Compass.

He checked the compass first.

His path of fusing three thousand Daos would take him at least one hundred thousand years. However, with the compass and the Tempest King's help, he could significantly shorten the time.

"Did I just get a mother for myself?"

Chu Kuangren realized the Tempest King took good care of him, and it gave him a strange thought.

However, he quickly put the strange thought away and told Lil Ai to analyze the compass before starting to comprehend the Daos contained in it.

Outside the Tempest Palace, many other forces were waiting for him.

Once he stepped out, he would definitely be surrounded.

Even though he had the willpower thought form of the Tempest King, as the master, he should not rely on his disciple and embarrass himself.

"The palace is protected by the Tempest King's restriction seals, so it's safe here. Why don't I fuse all three thousand Daos in here before I go out?" Chu Kuangren thought to himself.

The Three Thousand Dao Compass contained the essences of three thousand Grand Dao Realm elites. Not only was it priceless, but it could be the best treasure for Dao enlightenment in the Infiniverse.

When his consciousness entered the compass, countless Great Dao patterns appeared before him.

He observed the patterns, and his mind entered a state of pure concentration.

His cognizance was unmatched since the dawn of time. With the help of Lil Ai and the Great Dao patterns the Tempest King provided him, he rapidly absorbed and fused the Daos into his body.

He was on a final dash toward his goal of fusing three thousand Daos!

Outside the palace, time flew.

Chu Kuangren did not come out after a long time, and the crowd grew restless and impatient.

Knowing that Chu Kuangren was enjoying the treasures inside while they were waiting helplessly outside, losing precious treasures by the second, they felt terrible.

"Damn it! Are we just going to wait here forever?" Bachelor Saint Tao bellowed.

"I have asked for Master Chen's presence. Please calm down," Priest Fei Ma said.

Master Chen was a famed formation master in the Great Hongmeng Universe. He was an elite of all kinds of restriction seals and formations, so he might be able to break the restriction seals left behind by the Tempest King.

It reignited hope in everyone's heart.

#### **Chapter 2080: Master Chen, I'm Going To Use My Ultimate Attack, Kill On Sight**

Soon, a white-haired elder arrived before the Tempest Palace.

The old man looked proud and showed no respect to the servant leading the way. People could see his arrogance from miles away.

"Master Chen, you're finally here," Priest Fei Ma said as he went up with a fist salute.

Master Chen waved his hand. "Enough. Cut the nonsense. Where is this Tempest Palace and the restriction seals? Let me have a look."

Priest Fei Ma's lips twitched as he was rendered speechless.

However, he had to comply because everyone was relying on Master Chen's help.

With that, he brought Master Chen outside the Tempest Palace.

Master Chen glanced at it and chuckled. "Is this it? A restriction seal like this stopped all of you? You people are useless."

The crowd reacted bitterly to his harsh words.

How could the man be so arrogant?

Other than being a specialist in formation and restriction seals, could he also be an elite in combat?

Someone observed carefully, but the more they observed, the grimmer their expressions.

Master Chen was a Primordial but only at Mystic Three Realm. What fueled his confidence and arrogance?

"How dare he?"

"You don't say."

Someone who knew better said, "Based on what I know, Master Chen has some background. He's from the Heavenly Formation Palace."

"Heavenly Formation Palace? A Monarch-class force?" someone cried out in shock.

The Heavenly Formation Palace was as powerful as the Radiant Church, and the people there were good at formations and restriction seals.

Their palace ruler was crowned king for his attainments in Formation Dao.

The title Formation King was well-known in the previous Hongmeng Era.

He managed to suppress many, and some even compared him to the Tempest King.

Although he faced a terrible defeat in his battle with the Tempest King, not all were as strong as the Tempest King.

The Formation King remained a force to be reckoned with.

"No wonder Master Chen is so arrogant. That's why!"

"Not only that, but Master Chen's formation expertise is quite good as well. Compared to his cultivation, his formation skills are the most terrifying. I heard he set up a formation that killed three Mystic Five Primordials."

"He has the background and the power. No wonder he's arrogant."

Priest Fei Ma had heard of Master Chen's temper before, but the latter was still a difficult person to deal with.

Unfortunately, they required his help, so Priest Fei Ma suppressed his anger and asked the man to remove the Tempest Palace's restriction seals.

Master Chen did not waste any time and went up to the restriction seals.

He took a compass out from his sleeve and tossed it into the sky. Mystical runes flowed out from the compass before landing on the restriction seals.

The restriction seals swirled but did not reject contact with the runes.

As soon as the runes touched the restriction seals, the restriction seals started to disintegrate.

Everyone was delighted by the scene.

"Master Chen is really something!"

"Not bad!"

They were no longer as angry with his arrogance as before. It seemed like people would usually forgive the arrogance of an able person.

"We should really let the professionals work."

"This is what you call a professional."

Everyone was impressed, and it fueled Master Chen's pride.

He channeled his Primordial energy to infuse them into the compass.

Then, the compass shone brightly and released even more runes on the restriction seals.

However, the Tempest Palace's restriction seals reacted violently this time.

The disintegrated restriction seals started to rebuild itself.

They released a stronger blast of energy and destroyed the runes released by the compass.

The blast also knocked the compass out of the air.

"What? How?"

"Not even Master Chen can remove the restriction seals?"

Everyone was shocked.

Master Chen, on the other hand, felt embarrassed. He took a deep breath and forced himself to calm down. He said, "The Tempest King is really something, but I'm not done yet! I'm going to have to take it seriously this time!"

He revealed three more compasses, or four, including the one on the ground.

The compasses released a powerful energy that shook the restriction seals, but it was still useless.

The restriction seals no longer disintegrated.

It was even more mystical and unpredictable before Master Chen's arrival.

"Damn it! I can't believe the restriction seals can automatically shift and change their combinations. There are endless arrangements in this. What kind of monster designed these restriction seals?"

"Did the Tempest King have such high attainments in restriction seals?"

Master Chen's expression shifted.

"Bang!"

At that moment, the restriction seal released a blast of light.

All four compasses were struck off the air and fell to the ground with cracks all over them.

The people looked at Master Chen with less confidence than before.

"All that talk, and that's it?"

"I guess he's a professional at talking."

Master Chen felt even more embarrassed as the crowd began to discuss his failure. He roared, rose to the sky, and unleashed all his Primordial energy.

"Take this! Formation Breaking Spear!"

He revealed a black spear carved with countless mystical runes, and it released a powerful surge of energy from its body.

It was Chaos Supreme Treasure, one specifically used to break formations by the Heavenly Formation Palace.

Only a handful of people of the Heavenly Formation Palace could wield the Formation Breaking Spear. It was due to Master Chen's strong support that he could get his hand on it through some effort.

He rarely used it, but it always worked wonders.

"Break!"

Master Chen wielded the Formation Breaking Spear and thrust it at the restriction seals.

"Bang!"

The black spear energy burst forward with rampaging energy. It contained strong energy that was specifically used to dissolve formations.

However, the restriction seals countered with even strong power.

In the blink of an eye, the spear energy dissolved, and Master Chen was blasted away with blood gushing from his mouth.

"H-How?!"

Master Chen looked at the restriction seals in disbelief.

Did his triumphant Formation Breaking Seal fail?

The Chaos Supreme Treasure failed?

The crowd shook their heads in dismay.

"Sigh. It seems like that's all to Master Chen."

"He's not reliable at all."

Priest Fei Mai, Heilong Kong, and the others looked at Master Chen coldly. They were no longer courteous to the man.

Then, a mystical aura came out from inside the palace.

It was shifting and unpredictable.

The crowd was surprised once again.

"Is this the aura of the Daoist law?"

"Wait, there are too many!"

The Daoist law's aura contained many complicated Daos. It was as if the Great Dao was fused in many of them.

The number of Dao was so overwhelming that it was unbelievable.

"Is this the Tempest King's inheritance?"

"It must be! That punk is taking the Tempest King's inheritance!"

"Damn it!"

The crowd grew impatient. They wanted to charge into the palace, but the restriction seals denied them.

Priest Fei Ma looked at the Tempest Palace coldly and said, "Everyone, stand by. When that person comes out, kill on sight!"

"Yes, sir!"

The cultivators of Radiant Church were ready and on the lookout.

It was not only because Chu Kuangren was labeled as a heretic by the Radiant Church but because they were after the Tempest King's inheritance.
