Unparalleled After Ten Consecutive Draws

Chapter 2161: Entering the Great Dao Spirit World, Heavenly Grandmaster in Trouble

As the Grand Dao Leaderboard and the Spirit World Leaderboard appeared, the entire Great Hongmeng Universe entered a tumultuous state.

It was as tumultuous as, or more than, when the Primordial Leaderboard appeared.

The appearance of the Great Dao Spirit World attracted even more attention.

Countless cultivators were looking for it.

As the widespread search went on, the Great Dao Spirit World was soon located, and it attracted the arrival of many other cultivators.

Some major forces could no longer sit back. They sent their elites to explore the newly discovered Spirit World.

A massive violet vortex appeared in the sky.

Countless mystical runes came from within, and violent spiritual qi gushed out like an upside-down geyser. The mystical aurora shed its light on the realm, making all things look magical and mysterious.

It was the entrance to the Great Dao Spirit World.

"Such dense spiritual qi."

"Yeah. No wonder it's one of the top-ranking Spirit Worlds on the leaderboard."

"Great. Let's go in."

Some of the cultivators wanted to enter the Spirit World, but the violet vortex released millions of light arrows at those who approached, blasting the cultivators away.

"Haha! Do you really think the Great Dao Spirit World is your backyard?"

Someone laughed at the others' foolish attempt. He looked at the Spirit World's entrance and said, "This is the Great Dao Spirit World. It has a natural layer of restriction seal around it. It only allows those below Primordials to enter. Unless someone brings you in, there's no way you can enter."

His words enlightened everyone else.

"Kaboom!"

Then, a domineering dragon roar came from the void.

A giant golden dragon came from the horizon, leaving a trail of golden Immortal Sparks in its wake. He also carried a powerful draconic aura with his arrival.

The dragon roar echoed across rivers and mountains, shaking heaven and earth.

Those at the entrance were in awe.

"What a terrifying aura!"

"It must be someone from the Dragon Tribe! He's Elder Dragon Chengtao!"

Those who recognized the dragon were shocked.

Elder Dragon Chengtao was from the Elder Dragon Tribe and ranked fourth on the Primordial Leaderboard. He might be a Primordial, but someone saw him kill Grand Dao cultivators before, and it was not just one or two.

"He's as strong as a Grand Dao Supreme God, a powerful Outlier. He came here to search for an Opportunity of Fortune to ascend into the Grand Dao Realm.

"He's Elder Dragon Chengtao. Why would he have to worry about ascension?"

"You have no idea. I heard the Great Dao Spirit World contains a treasure named the Grand Dao Heart. It grants the ascending cultivator a chance to reach higher during ascension. After the ascension, the potential and combat capabilities will far surpass the common Grand Dao cultivators."

"I see."

While the crowd was talking, Elder Dragon Chengtao flew into the Great Dao Spirit World.

The restriction seal that stopped a bunch of cultivators from entering was like nothing to him. He flew into the Spirit World with no hindrance.

The light arrows from the restriction seals did not even scratch his body.

"As expected of Elder Dragon Chengtao. He's really something else."

While the crowd was in awe of the dragon's durability, another powerful aura erupted.

A figure enveloped in Immortal Sparks, whose face was shielded from the crowd, arrived and released a domineering aura into the area.

The strength of the aura could compete with that of Elder Dragon Chengtao.

"It's so strong!"

"Who could this be?"

"This aura belongs to a Primordial, but only those ranked high in the Primordial Leaderboard could possess such strong energy. Is it Armament Destruction from the Pan Gu Universe or the Tianchen Chang from the Celestial Divine Universe?"

"Would it be the legendary Chu Kuangren?"

"It must be Tianshen Chang! That's the Celestial Divine Light, and only the Celestial Divine Tribe possesses such power," said someone who identified the glimmering Immortal Sparks around the figure.

The Celestial Divine Light was unique to the Celestial Divine Tribe.

It was so powerful that it allowed their cultivators to stand out from their peers.

Tianshen Chang took a step forward and zipped into the Great Dao Spirit World.

Similar to Elder Dragon Chengtao, the restriction seals did not affect him as well.

Both of them had entered the Great Dao Spirit World.

Other than them, many more powerful Primordial cultivators arrived and entered the Spirit World, searching for the opportunity to ascend to the Grand Dao Realm.

More than half of the names on the Primordial Leaderboard entered.

...

A white figure arrived before the entrance of the Great Dao Spirit World.

It was Chu Kuangren. Compared to other cultivators and their grand entrance, his seemed normal. He did not carry an earth-shattering aura or had powerful followers following along. He was alone in his white robes but looked as elegant as ever.

His arrival attracted some attention.

"He looks decent."

"He has such a profound aura."

Under everyone's anticipated gaze, he walked into the vortex. Countless light arrows fired at him, but an invisible force blocked it

He entered the Spirit World unscathed.

The first thing he saw in the Spirit World was nine massive rivers of fortune that contained endless mystical Daoist laws.

The intertwining Daoist laws merged into Primordial energy.

As the Primordial energy continued to intertwine, it created a unique fortune energy, and when it reached a certain density, it transformed into multiple golden light balls the size of a fist.

A unique energy fluctuation could be felt from the golden light balls.

"So, is this the Great Dao's source?"

Chu Kuangren grabbed one of the light balls for a closer look and found himself in awe.

The Great Dao Source could help cultivate the Grand Dao Realm, and it was useful to all cultivators who cultivated different Daos.

"Interesting."

Chu Kuangren pocketed the Great Dao Source and continued searching for more.

A few Great Dao Sources were not useful enough for him. Only in quantity could they help him ascend to the Grand Dao Realm.

In his search, Chu Kuangren realized the Great Dao Spirit World did not only contain the Great Dao's Source, but it also contained a lot more treasures.

"The spiritual qi here is a lot denser than the Hongmeng Spirit World that I went to. There should be a Hongmeng Supreme Treasure somewhere here," Chu Kuangren thought to himself.

He had acquired a Divine Hongmeng Metal in his previous trip to the Hongmeng Spirit World.

This time, the exploration must be more fruitful than the previous.

As the thought appeared in his mind, a shocking surge of sword qi erupted further away, and it felt familiar to him.

"This sword qi... Could it be..." Chu Kuangren's eyes gleamed before his figure disappeared.

...

Four Immortal Swords floated in the sky of the Great Dao Spirit World, and endless sword qi emanated from them.

The sword qi piled up and formed a peerless sword formation.

Outside the formation was a person in dark Taoist robes, looking impressive as he controlled the sword formation. Inside the formation was a man with a pitch-black sword, fending off the incoming sword qi with a calm look.

"Clank! Clank! Clank!"

Sword qi clashed and exploded everywhere in the formation.

The explosion was so strong that it almost tore the void apart.

"Heavenly Grandmaster, your sword formation is amazing, but your cultivation level isn't as high as mind. Handover the formation prints, and I can spare your life."

The man in black looked at Heavenly Grandmaster coldly.

He swung his sword up, shattering the surrounding sword qi into pieces.

With the sword formation shattered, the Heavenly Grandmaster was pushed back a dozen steps. His expression was cold.

[Unparalleled After Ten Consecutive Draws](#)

Chapter 2162: Kill Dugu Kong, Dugu Bubai's Wrath, The Idea of Creating My Own Force

The Heavenly Grandmaster, one of the Three Clarities from the Pan Gu Universe had an honorable status back in the Pan Gu Universe.

However, after he arrived in the Great Hongmeng Universe, he realized he was not powerful enough.

His senior, Li Jun, had ascended to the Grand Dao realm, yet he remained in the Mystic Seven Primordial Realm.

It made him anxious.

It was the reason why he entered the Great Dao Spirit World in search of an Opportunity of Fortune.

Unfortunately, before he could find anything useful, he ran into a tough opponent.

The Heavenly Grandmaster looked at the man in black with a grim look.

Dugu Kong of the Sword Universe ranked twenty-sixth on the Primordial Leaderboard.

He was Mystic Nine Primordial and had eyes on the Immortal Destruction Sword Formation.

"If you want the sword formation, you will have to take it by force," the Heavenly Grandmaster said.

He pointed his sword hand sign up to control the four Immortal Destruction swords to surround him. Tens of thousands of sword qi surrounded him, granting him a powerful and boundless aura.

Dugu Kong was impressed. "It's indeed a powerful sword formation."

He came from the Sword Universe, a place where everything was closely related to swords.

Swordsmen were the majority in that universe, and cultivation techniques related to swords were the mainstream. There were also a lot of famed sword formations in that universe, but Dugu Kong had his eyes on the Immortal Destruction Sword Formation.

The formation had great potential for growth.

Even in the Sword Universe, only a handful of other formations could rival the Immortal Destruction Sword Formation.

It was the main reason why he wanted to take it for himself.

"Holy Spirit Sword Art, Ninth Sword!"

Dugu Kong performed a powerful slash, unleashing a boundless sword qi that shook the entire Immortal Destruction Sword Formation.

The Holy Spirit Sword Art was one of the supreme cultivation techniques of the Sword Universe, and it was considered powerful even in the Great Hongmeng Universe.

The cultivation could bring out the full potential of one's Sword Dao.

"Clank!"

The sword qi clashed with the sword formation.

The Heavenly Grandmaster was pushed back again.

The difference in strength between him and Dugu Kong was huge. Although he could keep up with Dugu Kong's attacks using the Immortal Destruction Sword Formation, he was barely holding on.

"The Great Hongmeng Universe is indeed the start of the Infiniverse. Running into someone this powerful in a normal exploration is really unexpected," the Heavenly Grandmaster lamented.

"I'll give you one more chance. Hand over the sword formation prints!" Dugu Kong said coldly.

Then, a terrifying aura descended from the sky.

A figure emerged from the void with Immortal Sparks surrounding him.

It was like the Immortal King had descended.

The Heavenly Grandmaster's eyes widened when he saw the person.

"Brother Chu!"

It was Chu Kuangren.

He came to have a look when he sensed the Heavenly Grandmaster's aura.

"Heavenly Grandmaster, how are you?" Chu Kuangren smiled at the Heavenly Grandmaster.

"Brother Chu, you're just in time!" The Heavenly Grandmaster breathed a sigh of relief upon seeing Chu Kuangren. He felt reassured that everything was going to be fine.

Dugu Kong looked at Chu Kuangren with a solemn gaze and furrowed brows.

"Your aura is unusual. Who are you?"

"Are you good with a sword?" Chu Kuangren asked when he saw Dugu Kong's sword.

"So what if I am?"

"If you survive one slash from me, you can leave," Chu Kuangren replied.

Then, he simply flicked his finger and shot a surge of sword qi at Dugu Kong.

It was just a simple flick, but Dugu Kong's eyes widened in fear. It was because he sensed an unparalleled force crashing on him.

"Damn it! Holy Spirit Sword Art, Thirteenth Sword!"

Shocked, Dugu Kong slashed his sword forward.

When the sword and sword qi clashed, it released a heavy clank.

The sword broke, and the sword qi penetrated Dugu Kong's body.

Everything went silent.

Dugu Kong's body was cut into two, destroying both his body and his Dao.

The Heavenly Grandmaster gulped nervously at the scene. The enemy that he found difficult to deal with died in less than one strike from Chu Kuangren.

It was just a flick of his finger, and Dugu Kong was dead.

"My goodness. Brother Chu, what is your current cultivation level?" the Heavenly Grandmaster asked curiously.

"Mystic Nine Primordial."

"Mystic Nine Primordial? Are you sure?" The Heavenly Grandmaster was confused.

He had seen Mystic Nine Primordials before, but he swore none of those he saw could shoot a sword qi as powerful as Chu Kuangren's.

However, Chu Kuangren was still a Primordial. Was it a joke?

"Is this the Primordial energy of mastering three thousand Daos?"

The Heavenly Grandmaster's eyes glimmered with realization.

Chu Kuangren nodded.

"You did it! You really did it!"

Mastering three thousand Daos was a bizarre thing to do.

The Heavenly Grandmaster never thought someone could achieve it.

The three thousand Daos explained why Chu Kuangren possessed such ridiculously powerful capabilities.

After that, Chu Kuangren teamed up with the Heavenly Grandmaster and continued exploring the Great Dao Spirit World.

They chatted about the past while continuing their search for the Great Dao Source.

...

On the other side, a man armed with a sword was also collecting the Great Dao Source in the void.

Suddenly, the man's body shook, and a frosty killing intent exploded from him.

"Who? Who killed my brother?"

The man was Dugu Bubai, ranked seventh on the Primordial Leaderboard. Similar to Dugu Kong, he was from the Sword Universe as well.

Being Dugu Kong's brother, the two of them shared a telepathic link.

The moment Dugu Kong died, Dugu Bubai sensed it.

He was infuriated, but he quickly calmed down. He triggered his sword's core, trying to locate Dugu Kong with his senses.

"Swoosh!"

Soon, Dugu Bubai arrived at Dugu Kong's location. When he saw the body cut in half, his eyes turned red.

"Damn it!"

He carefully scanned the aura on the body.

"It's sword qi. The one who killed Kong is a swordsman! I'll remember this sword qi. I will find you and skin you alive!"

Dugu Bubai grunted coldly.

The sword qi in him erupted, wreaking havoc across the land as he expressed his grief for his brother. Everything within tens of thousands of kilometers was ground to dust.

...

"Oh? Brother Chu, you want to create your own force?"

The Heavenly Grandmaster was surprised to learn Chu Kuangren's thoughts.

"Yeah." Chu Kuangren nodded.

"The Pan Gu Universe is rather weak and small in the Infiniverse. If we don't team up, we might face more pressure and invasion in the future. That's why I want to gather all the forces from our universe in the Great Hongmeng Universe. It's so that we can adapt to future changes."

He already had the idea a long time ago and had been working on it.

He only made it verbal when he reunited with the Heavenly Grandmaster.

The Heavenly Grandmaster was one of the Three Clarities, a respected figure among the ancient beings of the Pan Gu Universe.

If he could join Chu Kuangren's force, it would automatically attract other Pan Gu Universe cultivators.

"Hm. Brother Chu, your idea is great. I'll support it. I'll tell my seniors when I get back, and we will visit you again."

"Great. I will wait for you at the Feng Domain's Myriad Arms City."

"Myriad Arms City? The city known for its smithing?"

The Heavenly Grandmaster's eyes glimmered with interest.

"Yes. If either of you want to forge any weapon, just let me know. I'll make sure to satisfy your needs."

"I thank you in advance. It's time for me to upgrade the four Immortal Destruction Swords. I hope you won't feel bad about us using your materials."

"Not a problem."

Chu Kuangren laughed.

Materials?

He could just ask Ou Yenuo for the materials, and since they were not his own, why would he feel bad about it?

[Unparalleled After Ten Consecutive Draws](#)

Chapter 2163: Great Dao's Lake, Great Dao's Mountain, Who Dares to Hurt My People From the Pan Gu Universe

In the Great Dao Spirit World, nine rivers of fortune pierced even the horizon.

All the explorers were searching for the Great Dao Source along the rivers.

Chu Kuangren and the Heavenly Grand Master had collected more than a dozen Great Dao Sources.

"I wonder what's at the end of the rivers of fortune," the Heavenly Grandmaster asked curiously.

"We'll find out when we reach the end." Chu Kuangren was rather curious as well.

In fact, they were not the only ones. All the cultivators who entered the Great Dao Spirit World were curious about what lay beyond the nine rivers of fortune.

Time flew.

Chu Kuangren and the Heavenly Grandmaster spent months moving along the river.

At the end, where all the rivers converged, they reached a massive lake consisting of fortune energy.

Countless mystical Daoist laws gathered in the lake, and inside the lake were glimmers from the Great Dao Source.

At first glance, there were at least thousands of Great Dao Sources in the lake, and it was on the surface.

There must be more deep inside the lake.

It was a lake of Great Dao!

"This place where the nine rivers of fortune converge is indeed amazing," Chu Kuangren said in awe.

The creation of the Great Hongmeng Universe was indeed amazing.

"My goodness! There are a lot of Great Dao Sources here!"

"Is this the real treasured land?"

"Don't lay your hands on them! They're all mine!"

Other than Chu Kuangren and the Heavenly Grandmaster, more and more cultivators arrived at the lake.

They went mad when they saw the seemingly endless Great Dao Source. A huge fight broke out as they tried to seize the Great Dao Source for themselves.

The blood they spilled dyed the lake red.

Chu Kuangren noticed that when the blood was spilled into the lake, they were sucked to the center by a mysterious force.

"It seems like there is something else in the center of the lake," Chu Kuangren thought to himself.

He exchanged a quick glance with the Heavenly Grandmaster and decided to find out the truth. Instead of joining the fight, they headed to the center of the lake after transforming into two streams of light.

...

In the center of the Great Dao's Lake was a massive and towering mountain, accompanied by other smaller mountains floating above the lake's surface.

The mountains were surrounded by golden glimmers, the reflection from all the Great Dao Sources it contained. It was a mountain of Great Dao Source!

It was even more amazing than what the lake held inside.

All the cultivators who saw the mountains were in awe, and it fueled their frenzy even more.

"If we can take the mountain back with us, we can easily ascend to the Grand Dao Realm!" said one of the cultivators while drooling.

"Yeah! We don't need to fight. There's a lot here for us!" someone said, afraid that the fight would exacerbate.

With that, the group started to excavate the mountain's resources.

When the excavation started, everything was peaceful. There was an abundance of Great Dao Source, so many that everyone could grab a bunch with their hands.

Gradually, they realized the difference in quality. Some mountains had better quality and more Great Dao Sources than others.

Collecting lower-quality Great Dao Sources would only be a waste of time, and they would lose out on the better ones.

With that, jealousy overtook their sanity again.

"Why don't you share your mountain with me?"

"Go away! Go bug someone else!"

"How dare you speak to me like that? Do you know who I am?"

"I don't care who you are!"

"Die!"

In order to secure the mountain with better-quality Great Dao Sources, the group broke the fragile peace and fought each other again.

"Hmph. A bunch of fools," Elder Dragon Chengtao said with a cold grunt.

His eyes glowed golden. Mystical runes swirled in his eyes as he started to scan the mountains and the Great Dao Sources they held.

"Compared to the Great Dao Sources, the most precious treasure in this Spirit World is the Great Dao Heart. It's definitely hiding in one of the mountains! My draconic eyes can see through all things. I must find it before anyone else!"

Other than Elder Dragon Chengtao, other powerful Prodigies also joined the search.

To them, the Great Dao Sources might be useful, but it was not as useful as the Great Dao Heart, which would allow one to ascend directly.

"I'm getting my hands on the Great Dao Heart!" Tianshen Chang thought to himself.

He, too, was using his own way to search for the Great Dao Heart.

As for the others, they were still fighting to secure the mountains with better quality Great Dao Sources.

Amidst the fierce fight, a man and woman tried their best to avoid all conflicts.

Anyone from the Pan Gu Universe would recognize the two of them.

They were the two Human Emperors from ancient times, Wahuang and Fuxi.

"Senior, let's take this mountain."

Wahuang stood in front of a mountain. Compared to the other mountains, that one looked a lot worse, hence less conflict happening around it.

It was also the reason why Wahuang chose it — so that they could avoid unnecessary fights.

Wahuang and Fuxi were not exactly powerful in the Great Hongmeng Universe. Moreover, they had no reliable support, so they had to be careful.

Other than that, Wahuang also sensed a connection from the mountain.

Her Primordial Creation Dao was resonating with something inside.

"Your call."

Fuxi nodded.

He drew his sword and started to excavate the mountain, revealing the resources inside.

As the excavation went on, Wahuang sensed a stronger connection in her.

"Buzz!"

A mystical energy fluctuation erupted.

From the excavation path, a blast of Hongmeng spiritual qi erupted with violet light swirling around. Then, a colorful crystal flew out from the mountain.

The clear crystal released a surge of Creation Dao energy fluctuation, and it instantly captured everyone's attention.

"That's... a Hongmeng Supreme Treasure!"

"That inconspicuous mountain has a Hongmeng Supreme Treasure! What the hell? Those two are so lucky!"

Everyone was jealous of Wahuang and Fuxi.

They had to fight for better quality Great Dao Sources, yet those two randomly picked a mountain and got a Hongmeng Supreme Treasure.

It made them feel embarrassed.

"Sister, take the treasure and leave!"

Fuxi knew exactly what the others were going to do.

Hence, he told Wahuang to take the treasure and leave immediately.

Wahuang did not try to argue either. She kept the crystal and wanted to leave, but when she traveled a certain distance, she realized Fuxi did not keep up.

Her brother wanted to secure her escape.

"Brother, no!"

Wahuang's expression shifted.

Fuxi's cultivation was weaker than her. How could he face so many elites alone?

"Leave!" Fuxi shouted.

Then, with a step forward, a massive Bagua diagram expanded from his feet and blanketed the area.

The moment the Bagua diagram appeared, some cultivators were trapped.

They could not break free immediately.

"He's quite capable."

The pursuers were rather surprised.

Then, one of them unleashed a terrifying Primordial aura that formed the image of a golden behemoth in the void.

"It's Bigu from the Beastman Tribe!"

Someone recognized the man and was astonished.

Bigu was fifth on the Primordial Leaderboard.

Originating from the Beastman Tribe, the behemoths were the oldest beastmen.

"Neither of you can escape!"

Bigu grunted, and the golden behemoth threw a punch downward, easily crushing Fuxi's Bagua diagram.

Having been locked by the fist energy, Fuxi could not escape.

"Brother!" Wahuang screamed.

Suddenly, a sword qi flew in from further away.

"Bang!"

The image of the golden behemoth was instantly destroyed, and Bigu was blasted away, crashing through a few mountains.

"Who dares hurt my people from the Pan Gu Universe?"

Unparalleled After Ten Consecutive Draws

Chapter 2164: Behemoth Versus Pan Gu Avatar, Searching For Grand Dao Heart

"Who dares hurt my people from the Pan Gu Universe?"

A frosty voice echoed.

Bigu looked at the source of the void with narrowed eyes. "Did he slash my Behemoth Avatar with just one stream of sword qi? He's strong."

A figure in white walked over. The person had pronounced facial features, his eyes were as bright as stars, and every move he made emanated a transcendental aura.

With each step he took, the void would ripple, and the Great Dao's Lake beneath his feet would follow.

The rumbling energy presence was much more terrifying than anyone present at the scene.

"It's Brother Chu!" Wahuang was delighted to see him.

The people from the Pan Gu Universe had no backup or support in the Great Hongmeng Universe.

However, Chu Kuangren, who had saved the Pan Gu Universe multiple times, was like the pillar of support to everyone there. He was the support that they all needed.

"Chu? Pan Gu Universe? You're Chu Kuangren?"

Bigu identified him instantly.

When Chu Kuangren's name was uttered, it caused an uproar in the crowd.

He, who ranked first on the Primordial Leaderboard, was a well-known person.

"First on the leaderboard, Chu Kuangren, let me see how strong you are!"

Bigu cackled. Then, he rose to the sky with the golden Great Dao light shining around him.

The light manifested into a golden beast behind him.

The beast resembled an ape with golden fur. It had a strong physique and bulging muscles.

It was the ancient behemoth of the Beastman Tribe.

It was said that the behemoth was the God of Creation in the Beastman Universe. It was almighty, and a sliver of its breath could destroy the universe.

"Avatar? How about this?" Chu Kuangren's eyes narrowed.

He raised his hand, summoning his Primordial energy. Endless Chaos qi swirled, and the image of an ancient god emerged.

The swirling energy could destroy galaxies.

It was the Pan Gu Universe's God of Creation, Pan Gu Avatar!

"We shall see which avatar is the strongest!"

When Bigu sensed the power from the Pan Gu Avatar, he got thrilled and eager.

He unleashed a punch.

"Bang!"

The fist energy whipped up a storm that swept the area.

The Pan Gu Avatar narrowed his eyes and countered with a punch of his own.

The clash of the fists was like two planets ramming into each other.

A powerful blast erupted, and the shockwave from the collision swept the lake and caused the water on the surface to crash about.

Following that, everyone witnessed the single palm crushing Bigu's Behemoth Avatar. It staggered backward and fell into a disadvantage.

"It's so powerful!" Bigu's expression changed.

Then, he channeled his Behemoth Avatar's full strength. "Behemoth Crusher!"

The Behemoth Avatar's fist shone blindingly. The powerful energy shrouded the entire area in an instant.

Everyone could feel the endless pressure from the attack.

However, as the target, Chu Kuangren was unfazed. The Pan Gu Avatar behind him unleashed an even more rampant energy.

Countless Daoist law gathered in his palm and formed a massive axe.

The blade of the axe was formed by the Great Dao itself.

"Interesting."

Bigu threw another punch forward.

The Behemoth Avatar's Immortal Sparks shone brightly, releasing a blast of light in the area. Even the water in the lake rumbled.

"Singular Genesis!" Chu Kuangren bellowed.

The Pan Gu Avatar swung its axe down, crushing the void in its way and almost dividing the water in the lake in half.

"Bang!"

The powerful strike chopped Bigu's fist energy in two, and that was not the end.

The axe ray continued forward and landed on the Behemoth Avatar itself.

An earth-shattering explosion later, the Behemoth Avatar disintegrated into countless light particles.

As a result, Bigu was blasted away.

He looked at Chu Kuangren standing in the air and surrounded by Immortal Sparks. His eyes widened in shock. "The first on the leaderboard is indeed extraordinary."

"Who else has the nerve to try?"

Chu Kuangren scanned everyone at the scene.

Those who met his gaze felt immensely pressured and instinctively took a few steps back.

"Even Bigu couldn't last two strikes from him. He's too strong. We're no match for him."

"The Hongmeng Supreme Treasure might be tempting, but our lives are more important!"

Everyone shook their heads in fear.

They were deterred by Chu Kuangren's power and dared not act recklessly.

When Tianshen Chang and Elder Dragon Chengtao saw Chu Kuangren, they were intrigued. Their blood boiled, and their eagerness to challenge Chu Kuangren could be seen in their eyes.

"The first place on the leaderboard, huh? I really want to challenge him! But I must locate the Great Dao Heart first."

Tianshen Chang and the others suppressed their urge to challenge Chu Kuangren.

They all wanted the title of first place, but their priority would be locating the Great Dao Heart First.

Fighting Chu Kuangren before locating the heart was an unwise move.

Chu Kuangren looked at them and pondered.

Wahuang and Fuxi went up to Chu Kuangren with a fist salute to thank him for saving them.

"Thank you, Brother Chu, for helping us."

"It's nothing. We're all from the same universe, and we should look out for each other here. Besides, I am also a Human Emperor," Chu Kuangren said.

The three of them were once Human Emperors during their respective eras.

For that, Chu Kuangren could not sit back and watch them die.

"The Supreme Treasure contains the Creation Dao, and it'll benefit you, Wahuang. Congratulations," Chu Kuangren said after a glance at the crystal.

Wahuang also sensed the power contained in the crystal.

She cultivated the Creation Dao, and the crystal containing Creation Dao complemented her cultivation.

It was the reason why she resonated with it in the first place. Other than that, the crystal seemed to hold more secrets, but she had to refine it first to learn more about it.

"Brother Chu, why don't you take it? If you can refine it, you might be more confident in getting the Great Dao Heart," Wahuang said after some serious consideration.

Chu Kuangren was the pillar of support for the Pan Gu Universe. The stronger he became, the better standing the Pan Gu Universe would have in the Great Hongmeng Universe.

She wanted to help Chu Kuangren to get the Great Dao Heart.

She believed Chu Kuangren was after it as well.

"Haha! It's fate that you found this crystal, Wahuang, I can't take it from you. As for the Great Dao Heart, don't worry. I have confidence in myself," Chu Kuangren said with a smile.

"Wahuang, just believe in Brother Chu."

Then, a voice sounded.

A man with an impressive demeanor walked over. It was the Heavenly Grandmaster.

Chu Kuangren had sensed danger befalling Wahuang and Fuxi, so he hastened his steps to rescue them. However, the Heavenly Grandmaster was slower than him in terms of speed and reaction.

"Heavenly Grandmaster!"

Wahuang and Fuxi were delighted to meet another acquaintance.

"It's no time for a reunion now. We must help Brother Chu locate the Great Dao Heart," the Heavenly Grandmaster said seriously.

He had the same thought as Wahuang.

They believed Chu Kuangren must be stronger, and only then would the Pan Gu Universe have a better foundation in this large universe.

Wahuang and Fuxi nodded and joined the search.

A few days later, the search returned fruitless.

"Could it be that this opening didn't produce the Great Dao Heart?" the Heavenly Grandmaster said with a frown.

Chu Kuangren looked at the Great Dao's Lake and pondered.

Unparalleled After Ten Consecutive Draws

Chapter 2165: Locate With Blood, Great Dao Heart, Bear The Consequences

"Could it be that this opening didn't produce the Great Dao Heart?"

Not only the Heavenly Grandmaster but even Tianshen Chang, Elder Dragon Chengtao, and the others started to wonder the same.

They had yet to find a clue after searching for a long time.

Looking at the mountains, they got anxious.

Could it be that someone had beaten them to it?

"No! The Great Dao Heart is mine!"

Elder Dragon Chengtao looked at the mountains and unleashed a palm strike, venting his frustration. The unlucky mountain was crushed, and it started to rain Great Dao Sources.

"The Great Dao Heart must be hiding in one of these mountains. Since the mountains' special traits prevent me from seeing through them with my draconic eyes, I'll destroy all of them!"

He resolved in the simplest and most brutal way to search for the Great Dao Heart.

In fact, the others did the same after seeing what he did.

"I found it!" someone screamed.

Inside the massive crack on a certain mountain, gold and violet light shone, revealing a ball of light different from the other Great Dao Sources.

The person who got the ball of light was thrilled.

Elder Dragon Chengtao and the others dashed over.

"Hands off! It's mine!"

Elder Dragon Chengtao and the others attacked immediately.

Powerful and domineering Primordial energies swept the place.

Before the cultivator with the violet golden ball of light could react, he was killed.

The ball of light in his hand broke as well.

The golden violet pieces scattered into the lake, causing ripples on the surface.

"This isn't the Great Dao Heart. It's just a better quality Great Dao Source."

Elder Dragon Chengtao shook his head in disappointment.

Everyone returned to their search.

"How unreasonable."

The Heavenly Grandmaster sighed when he saw that Elder Dragon Chengtao and the others had killed the poor cultivator without any scruples.

"I heard Elder Dragon Chengtao came from the Hongmeng Dragon Tribe," Wahuang said.

Dragon Tribes were everywhere in the Infiniverse, but they all shared the same source, which was the Hongmeng Dragon Tribe that originated from the Great Hongmeng Universe itself.

That particular Dragon Tribe was more powerful and talented than other Dragon Tribes.

When the Great Hongmeng Universe reset, they would migrate to another universe, the Dragon King Universe.

However, the Dragon Tribe was not the only exception. Other powerful tribes that originated from the Great Hongmeng Universe also did the same during the resets.

"And that Tianshen Chang, the Celestial Divine Tribe he belongs to is also from the Great Hongmeng Universe. He's only second to Brother Chu on the Primordial Leaderboard," the Heavenly Grandmaster said as he looked at Chu Kuangren.

He wanted to know how Chu Kuangren viewed the two of them.

Chu Kuangren noticed the few of them looking at him, and it baffled him.

"Why are you guys looking at me?"

"Huh? Brother Chu, aren't you concerned about Elder Dragon Chengtao and Tianshen Chang?" The Heavenly Grandmaster was surprised.

"Why should I be concerned?" Chu Kuangren asked frivolously.

The other three exchanged a baffled look before shaking their heads.

"Brother Chu is still as arrogant as ever..."

"Why do I feel like you guys are cursing me?" Chu Kuangren's lips twitched helplessly.

He glanced at Tianshen Chang and Elder Dragon Chengtao. The two of them also noticed his gaze and looked at him.

The three of them met eyes for a moment.

Chu Kuangren did not care at all. He only looked because he heard the Heavenly Grandmaster talking about the other two.

Tianshen Chang and Elder Dragon Chengtao, however, showed brazen eagerness to challenge him.

"Chu Kuangren, are you eager to fight me as well?" Tianshen Chang thought to himself as he stood with his hands behind his back.

"Chu Kuangren, when I get the Great Dao Heart, I will defeat you," Elder Dragon Chengtao said with a scoff.

The two of them seemed to be asking for a fight.

Chu Kuangren shook his head and ignored them.

He continued his search for the Great Dao Heart.

As for how to locate the highly sought-after item, he already had an idea.

Chu Kuangren pointed his sword hand sign at his other hand and cut his hand.

The moment he cut his hand, blood gushed like a geyser and flowed into the lake.

"Brother Chu, what are you doing?" The Heavenly Grandmaster was shocked.

"Heavenly Grandmaster, do you remember what we saw when we first arrived at the lake?" Chu Kuangren chuckled.

When they arrived at the lake, they saw the others fighting for the Great Dao Sources.

The blood they spilled flowed into the lake and was absorbed to the center by a mysterious suction force.

Then, the blood disappeared.

"Brother Chu, you're saying..."

The Heavenly Grandmaster pondered.

"The Great Dao Heart is created from the energy of ten thousand Daos. When cultivators cultivate their Daos, their blood is tainted by the Dao's energy, and that's where the essence is.

"I believe the thing that's sucking away the cultivators' blood is the Great Dao Heart!"

Chu Kuangren's eyes gleamed with interest.

His blood was flowing to the bottom of the lake, but the water was not tainted.

The blood was absorbed by a mysterious force in the center of the lake. Then, Chu Kuangren inserted a sliver of his consciousness in his blood to track its location.

When the blood was sucked into the lake, it was shrouded by a strange energy before it flowed in a certain direction.

"Got it!"

Chu Kuangren stared at a certain spot of the lake and raised his hand. Vast Primordial energy erupted and transformed into a massive hand.

"Splash! "

The hand entered the water, causing a massive splash in the area.

While the others were startled, the massive hand caught a crimson dragon that was more than thirty thousand meters.

The dragon emanated strong vitality energy. It also had Immortal Sparks surrounding its body, making it glimmer brightly.

The dragon shocked everyone.

"How is there a dragon hiding under the lake?"

"I didn't notice it!"

"Me, too!"

While everyone was surprised by the dragon, Chu Kuangren clenched his hand in the air.

"Kaboom!"

The bloody light around the dragon was extinguished as its body started to crack.

It broke down into a blood prism that emanated powerful Great Dao energy fluctuation.

It was similar to the energy presence of the Great Dao Source but much more mystical.

Everyone else was shocked again.

"Is that the Great Dao Heart?"

"That crimson dragon is a disguise by the Great Dao Heart!"

Everyone looked at the crimson crystal with frenzy in their eyes.

Tianshen Chang and Elder Dragon Chengtao's figure flashed as they flew toward the crimson crystal. They channeled their Primordial energy and attacked Chu Kuangren.

"You want to take what's mine? Are you even qualified for that?" Chu Kuangren grunted.

Domineering Primordial energy erupted, stirring up a powerful wave.

The blast of energy pushed everyone back.

Chu Kuangren held the Great Dao Heart in his hand and looked at the others with his hands behind his back. He said, "I will get my hands on the Great Dao Heart. If you guys want it, you can come get it, but it will depend on how strong you are, and you must bear the consequences."

As soon as he said that, his Primordial energy erupted and shook even the sky.

Everyone could feel great pressure pressing on them.

"The first on the Primordial Leaderboard is indeed a tough opponent."

"But I have to get the Great Dao Heart for myself!"

"Hmph. There are so many of us here. Why are we afraid of one guy?"

Everyone was ready to start a fight to snatch the Great Dao Heart.

At that moment, another powerful surge of sword qi came from the horizon with domineering and boundless energy.

The sword qi was aimed at Chu Kuangren.

Unparalleled After Ten Consecutive Draws

Chapter 2166: The Difference Between Others and the First, Killing Dugu Bubai, Tianshen Chang Attacks

The powerful sword qi locked onto Chu Kuangren. It tore open a massive crack in the void, and the water from the lake splashed everywhere.

Chu Kuangren pointed his sword hand sign forward and slashed it at the incoming sword qi.

"Bang!"

The sword qi shattered and dispersed on the spot.

Everyone traced the source of the sword qi and saw a man armed with a sword standing on one of the mountains.

He stood tall and firm like a sword and even had many sword qi surrounding him.

His keen eyes were locked on Chu Kuangren with strong killing intentions.

"It's him, Dugu Bubai!"

"This sword qi's strength... No wonder he's ranked seventh place on the Primordial Leaderboard."

Everyone was surprised by Dugu Bubai's entrance.

Dugu Bubai said coldly, "You! You're the one who killed my brother, Dugu Kong!"

Everyone was even more surprised.

"Chu Kuangren has beef with him."

"No wonder his sword qi is so intense!"

"We're in for a good show!"

Dugu Bubai flashed and appeared before Chu Kuangren. His black sword was buzzing, releasing intense killing intents.

Chu Kuangren tilted his head, confused at Dugu Bubai's claims.

"Dugu Kong? Who is that? Do I know him?"

"Don't try to deny it! I saw the sword qi on my brother's body, and it's exactly the same as yours! If not you, who else could it be?"

The Heavenly Grandmaster then went over to Chu Kuangren and whispered, "Brother Chu, the one you killed to save me, that's Dugu KONG."

Only then was Chu Kuangren struck with realization.

"Oh! It's him. Yeah, I killed him." Chu Kuangren nodded.

"In that case, you shall pay with your life!" Dugu Bubai was infuriated by Chu Kuangren's nonchalance.

He attacked with his strongest skill.

The sword in his hand spun and released frosty killing intents.

"Holy Spirit Sword Art, Fifteenth Sword!"

Dugu Bubai slashed his sword forward.

The Holy Spirit Sword Art was a supreme sword technique from the Sword Universe, and it was divided into twenty-three forms.

Dugu Kong had only cultivated up to the Thirteenth Sword, but Dugu Bubai had cultivated up to the Twenty-first.

The Fifteenth Sword's sword qi soared across the air in the shape of a crescent moon.

However, Chu Kuangren simply pointed at the incoming attack, and the sword qi disintegrated into countless light particles. It did not even scratch him.

The scene shocked everyone else, including Tianshen Chang and Elder Dragon Chengtao.

"I wouldn't dare to take the hit so casually either. The first on the Primordial Leaderboard is indeed something else," Tianshen Chang said with a grim look. Deep down, he was starting to feel uneasy.

"You want to kill me to avenge your brother, while you guys want the Grand Dao Heart. Why don't you guys come at me together?" Chu Kuangren asked.

He wanted to challenge everyone at the scene.

"What? He's so arrogant!"

"Does he know what he's talking about?"

Everyone felt challenged by Chu Kuangren's arrogance.

Elder Dragon Chengtao scoffed and said, "First on the Primordial Leaderboard, it seems like you've gotten ahead of yourself. If so, I will be the one who will crush your delusion!"

A domineering draconic aura erupted from him, crushing the void around him.

"Dragon King Claw!"

The golden Primordial energy transformed into a golden dragon claw with mystical runes surrounding it.

When Elder Dragon Chengtao attacked, Dugu Bubai joined the fray as well.

Based on his first attack, he knew Chu Kuangren was a lot stronger than him, and fighting Chu Kuangren alone would not be wise.

Therefore, he teamed up with the others to attack.

"Holy Spirit Sword Art, Nineteenth Sword!"

"Kaboom!"

The vast sword qi converged into a massive sword shadow.

As it struck forward, it left a black trail in its wake.

Other than Elder Dragon Chengtao and Dugu Bubai, the other cultivators also targeted Chu Kuangren for the sake of the Grand Dao Heart.

Everyone attacked with their Immortal Techniques and divine abilities.

It was like a storm crashing down at Chu Kuangren.

With the sword shadow and the Dragon King Claw in the lead, a sea of energy crashed toward Chu Kuangren.

The massive power shocked the Heavenly Grandmaster, Wahuang, and Fuxi.

Not even a Grand Dao Supreme Saint could escape unscathed from that.

"Hmph. It's like a fireworks show," Chu Kuangren said with a chuckle as the colorful sea of energy came crashing down on him.

He pointed his sword hand sign forward.

A surge of sword qi gathered at the tip of his finger and started glimmering.

Then, mystical energy started to expand into the void. As though something disrupted the void or even caused it to collapse, the void trembled like it was afraid.

When he unleashed the attack, the sword qi he released distorted the void, crushed it, and left a massive black crack in the middle of the sky. It was like he had slashed the realm in half.

The black crack spread and devoured all the incoming attacks.

Some of the cultivators failed to react in time, and the void sword qi devoured them. As they fell into the distorted space, they disintegrated into countless particles.

"What?"

"What kind of sword qi is that?"

Terrified, the others retreated immediately.

In the end, only Elder Dragon Chengtao, Dugu Bubai, and a few who ranked top thirty on the Primordial Leaderboard survived.

All the others were devoured.

The survivors looked at the pitch-black crack in the void with nothing but fear.

Dugu Bubai gulped nervously.

Before he fought Chu Kuangren, he truly believed that even if Chu Kuangren was stronger, the difference in strength would not be too huge since they were both top ten on the Primordial Leaderboard.

Now, he realized he was wrong, terribly wrong.

They were both ranked top ten on the Primordial Leaderboard, but the one ranked first was ridiculously powerful.

The difference in strength was heaven and earth apart.

"You people are disappointing. Is this the strength of the top ten on the Primordial Leaderboard?" Chu Kuangren shook his head.

In the next second, his figure disappeared.

He reappeared before Dugu Bubai.

Dugu Bubai was mortified. He roared anxiously and slashed his black sword forward.

"Twenty-first Sword!"

The extreme sword ray shone across the realm, but Chu Kuangren countered with a simple punch.

The fist energy from his punch could tear the realm apart.

"Kaboom!"

The fist energy crushed the sword ray.

Dugu Bubai's body exploded on the spot, and the Dao in his body was almost destroyed.

He was known to be undefeated, but in front of Chu Kuangren, he could not even last a hit.

"Next."

Chu Kuangren locked onto the next target.

He pointed his sword hand sign and shot more sword qi forward.

The unlucky cultivator did not even get to react before he exploded into a cloud of blood mist.

"Damn it! Beast King Roar!" Bigu roared.

His body rapidly enlarged and transformed into a massive behemoth. The roar he released impacted not only the earth but the sky as well.

"You're noisy."

Chu Kuangren punched forward.

The soundwaves from the roar were intercepted by the fist energy and crushed.

When the behemoth was punched in the chest, golden runes appeared on his chest surface, seemingly trying to hold back Chu Kuangren's fist energy.

However, the powerful rebound force caused his chest to collapse, and blood gushed out like a geyser.

"Chu Kuangren, don't be too confident!"

Following someone's shout, a powerful pillar of white Immortal Sparks, containing a massive amount of Daoist laws, was shot at Chu Kuangren.

It penetrated even the void.

It was the Celestial Divine Light!

Tianshen Chang, second only to Chu Kuangren on the Primordial Leaderboard, had attacked.

[Unparalleled After Ten Consecutive Draws](#)

Chapter 2167

Tianshen Chang unleashed an Immortal Spark beam at Chu Kuangren, tearing even the void in its way.

The power of that strike had reached the level of a common Grand Dao Supreme Saint.

Only less than a handful of Primordials in the Great Hongmeng Universe could wield the power of the Grand Dao. If not for Chu Kuangren, he would have been ranked first on the leaderboard.

He might even be a Monarch in the future.

It was also the reason why he hated Chu Kuangren.

Chu Kuangren had taken what was supposedly his.

"Oh, this isn't half bad."

Chu Kuangren was rather surprised by the incoming Celestial Divine Light. He did not expect there to be such an anomaly among the Primordials.

He pointed his sword hand sign.

"Bang!"

The Celestial Divine Light shattered.

It made Tianshen Chang worry even more.

He did not hold back in his attack, yet Chu Kuangren managed to break it easily. It was obvious that Chu Kuangren was a lot stronger than himself.

"Celestial Divine Lance!"

As he raised his hand, countless light particles gathered at his hand and transformed into a silver lance.

The lance's body was covered with runes, and it emanated a powerful aura.

"Oh, a Hongmeng Supreme Treasure."

Chu Kuangren glanced at the lance and identified it.

If the Celestial Divine Tribe was willing to give Tianshen Chang the Hongmeng Supreme Treasure as a means of protection, the tribe must think highly of him.

Hence, the Celestial Divine Tribe would probably be mad if he killed Tianshen Chang.

Chu Kuangren pondered as he scratched his chin.

"Swoosh!"

Tianshen Chang lunged toward Chu Kuangren.

"Celestial Divine Crush!"

He swung the lance at Chu Kuangren like the galaxy crashing down.

Chu Kuangren punched upward, releasing a crimson dragon into the sky.

It was the ultimate skill of the Vitality Qi Divine Celestial, Rising Dragon.

"Kaboom!"

An explosion erupted in the void.

The crimson dragon clashed with the lance ray.

When both domineering auras clashed, the void cracked like a web, and the water in the lake rippled violently.

"Elder Dragon Art, Universe Quake!"

Elder Dragon Chengtao attacked as well.

Domineering draconic aura erupted from all directions and formed a massive golden dragon that roared at Chu Kuangren.

Chu Kuangren was flanked by Tianshen Chang with his Hongmeng Supreme Treasure and Elder Dragon Chengtao with his powerful Elder Dragon attack.

However, he blocked Tianshen Chang's lance with one hand and simply punched Elder Dragon Chengtao's golden dragon.

The shockwave from the clash destroyed the mountains in the area.

As the endless Immortal Sparks exploded, two figures were blasted away. They were Tianshen Chang and Elder Dragon Chengtao.

The powerful shockwave from the clash sent them flying.

They looked at the epicenter and saw a white figure standing tall and elegant.

It was Chu Kuangren.

His white robes remained clean, and his black hair fluttered. There was an extra hint of arrogance in his expression.

Despite being flanked by two extremely powerful attacks, he was unscathed.

"What..." Elder Dragon Chengtao was terrified by the outcome.

The two of them attacked with all they had, yet they could not lay a scratch on Chu Kuangren.

With such ridiculous power, was Chu Kuangren even a Primordial?

"Not bad, but that's it," Chu Kuangren said to Elder Dragon Chengtao and Tianshen Chang.

He had not even drawn his sword.

He simply raised his hand, and a surge of sword qi gathered at his fingertip. The void around him started to distort again.

When the Void Divine Slash was cast again, the sword qi broke the void and even the realm.

The massive black crack easily shrouded Tianshen Chang and Elder Dragon Chengtao within.

The two of them were so mortified that they were shaking.

"No!"

Elder Dragon Chengtao roared. His body rapidly expanded and transformed into a golden dragon. He tried to attack the incoming black crack with his domineering draconic aura.

The draconic energy scattered in all directions as he tried to escape the sword qi.

Unfortunately, the sword qi was too powerful, and his body was shrouded by the terrifying void energy.

As his body started to distort and crack, countless dragon scales fell off his body, with blood gushing everywhere.

His bones were crushed, his scales were broken, and his dragon blood exploded into blood mists.

In the end, the Dao inside Elder Dragon Chengtao disintegrated before the void sword qi. Just like that, Elder Dragon Chengtao was dead.

"No!"

A fierce roar came from further away, followed by an even more terrifying draconic aura.

A golden dragon rose to the sky and glared at Chu Kuangren fiercely, emanating frosty killing intents.

"Swoosh!"

Another Celestial Divine Light was shot, and it struck the sword qi Chu Kuangren released, disintegrating the black hole-like attack.

Tianshen Chang was saved, but he was in terrible shape.

He was covered in blood, looking wretched.

He had lost his right arm to the void as well.

A lance floated in the air.

It was the Celestial Divine Lance.

Chu Kuangren reached out to take it. The spoil from the battle made it a worthy one to fight.

Then, he looked into the void and saw a man shrouded in Immortal Sparks.

The man also had powerful Celestial Divine Light swirling around him. He glanced at Tianshen Chang's terrible state and reacted grimly.

"It's Elder Dragon Feng and Tianshen Yue!"

Those who recognized the two were shocked.

"They are ranked top ten on the Grand Dao Leaderboard!"

"Top ten on the Grand Dao Leaderboard? If the top ten on the Primordial Leaderboard possess the power to fight a Grand Dao, how powerful would the top ten on the Grand Dao Leaderboard be?"

"The Grand Dao Leaderboard only lists those below Supreme Honorables, but to be able to rank top ten means they are powerful, even if they aren't Supreme Honorable yet. They have powers to counter one and are more unpredictable."

Their appearance sparked a hearted conversation among the crowd.

Some started to gloat at Chu Kuangren.

"Chu Kuangren might be the first on the Primordial Leaderboard, but those two are top ten on the Grand Dao Leaderboard. He's going to die."

"I think he's already dead."

"He's not a Grand Dao cultivator, after all."

The golden dragon, Elder Dragon Feng, attacked with his dragon claw without saying anything. The terrifying draconic aura locked onto Chu Kuangren.

"Die!"

A dragon's roar echoed across the sky.

The dragon claw attack was powerful, at least a few times more powerful than Elder Dragon Chengtao's.

"The power of his attack can rival that of a Supreme Honorable," Chu Kuangren thought to himself.

That attack was much stronger than those of Black Wing, Shui Qianliu, and the others who were almost a Grand Dao Supreme Honorable.

The top ten on the Grand Dao Leaderboard were indeed powerful enough to rival a real Supreme Honorable.

Chu Kuangren did not move or dodge the incoming horrific attack. Instead, he drew the Descendant Self Sword, and a blinding light shone.

When the sword ray clashed with the dragon claw, a massive amount of dragon blood burst out after the collision.

It was because one of Elder Dragon Feng's claws was cut off by the sword ray, and it crashed into the Great Dao's Lake like a crashing mountain.

The dragon blood tainted the lake.

An excruciating roar echoed across the universe.

Elder Dragon Feng looked at his missing claw. He was furious, and flames were bursting from his nostrils.

"Haha. A five-clawed golden dragon becomes four-clawed," Chu Kuangren laughed.

[Unparalleled After Ten Consecutive Draws](#)

Chapter 2168: The Battle Should Be Over, Killing Elder Dragon Feng, Slap Tianshen Yue

Elder Dragon Feng was infuriated by Chu Kuangren's tease about his claws.

"I will kill you! I will!"

Enraged, his draconic aura expanded, causing the entire lake to boil.

Chu Kuangren faced the enraged dragon and his powerful dragon aura with the Descendant Self Sword. He looked tiny before the dragon, but no one dared to underestimate him.

He had just cut off one of Elder Dragon Feng's claws.

"Dragon King Art, Scorching Heaven!"

Elder Dragon Feng roared, releasing a blast of soundwave at Chu Kuangren.

Then, he attacked with his claw again, but this time, there was a layer of golden flame around it.

An ember from the golden flame was enough to crush the void.

"Heaven-Slaying Sword Drawing Technique!"

Chu Kuangren swung his sword forward, releasing endless sword qi that tore the void around him apart.

The Hongmen Supreme Treasure and the Hongmeng-level sword technique allowed Chu Kuangren to release an explosive power.

The moment the sword ray and dragon claw clashed, a large amount of dragon flame scattered.

Some of the slower cultivators were caught by the stray embers and burnt to cinders on the spot.

"Damn it! Leave now!"

"We're not strong enough to watch a battle of this scale!"

The other cultivators immediately retreated.

On the other hand, Tianshen Yue looked at Chu Kuangren and said to Tianshen Chang, "Leave. I will take the Celestial Divine Lance back for you."

Then, he joined the fight as well.

"You dare hurt one of us? Chu Kuangren, die!"

Tianshen Yue covered his palm with a layer of Celestial Divine Light as he arrived before Chu Kuangren. The palm strike he unleashed was like a planet falling from space.

The palm strike contained a rumbling Grand Dao energy fluctuation.

Chu Kuangren reacted in time and countered with a punch.

His domineering vitality qi energy exploded with full potential.

When the palm and punch clashed, both of them were pushed back.

"What?" Tianshen Yue was shocked.

He assumed that his charged attack would kill Chu Kuangren or at least heavily injure him. However, it was blocked with just one punch.

Was Chu Kuangren really just a Primordial?

"If he ascends to the Grand Dao Realm, things will get out of hand."

That fueled Tianshen Yue's intention to kill Chu Kuangren.

After the collision pushed Chu Kuangren back, he sensed another boundless draconic aura coming from his back.

It was Elder Dragon Feng!

"Elder Dragon Art, Star Crusher!"

The attack hit Chu Kuangren, blasting him away. He crashed through multiple mountains and caused a huge splash on the lake.

Everyone was shocked.

"Chu Kuangren is no match for the two top ten on the Grand Dao Leaderboard."

"He's going to lose."

The Heavenly Grandmaster, Fuxi, and Wahuang looked worried.

Chu Kuangren was the pillar of the Pan Gu Universe.

If they could, they would protect him with their lives. However, the battle that happened before them had far surpassed their capabilities.

"We're still too weak," the Heavenly Grandmaster muttered.

They were regarded as the superior beings in the Pan Gu Universe, but here, in the Great Hongmeng Universe, they were nothing.

They felt a huge sense of defeat.

At the same time, it strengthened their determination to become stronger.

Being weak was not scary. It would only be scary when one lost the will or determination to become stronger.

"This feeling..."

Elder Dragon Feng looked at his dragon claw and frowned.

He did not feel like he had hit Chu Kuangren with the previous strike. On the contrary, it felt more like hitting an Immortal Metal.

He looked at the crushed mountain further away.

A figure covered in blood emerged from the rubbles.

It was Chu Kuangren, and he was covered by a layer of blood-red armor.

It was the defensive move of the Vitality Qi Celestial Divine, Blood Congelation Armor!

The armor allowed Chu Kuangren to negate most of Elder Dragon Feng's attack, and he was able to withstand the rest with his body's defensive capabilities.

In short, he was not badly hurt.

"His physical body and vitality qi is on par with the Tempest King back then," Tianshen Yue said with a grim look.

He, too, was from the previous Hongmeng Era, so he knew a thing or two about the Tempest King.

The Nine Primordial Tribulations Physique was indeed an interesting technique.

"The successor of the Tempest King is indeed a tough opponent." Elder Dragon Feng grunted.

He was not fond of the Tempest King either.

The ruler of the Black Dragon Tribe, a branch of the Hongmeng Dragon Tribe, was once defeated and insulted by the Tempest King, which embarrassed the entire Hongmeng Dragon Tribe.

It would be strange if they thought highly of the Tempest King after that.

"No matter how strong his physical body is, there must be a limit. He's just a Primordial," Tianshen Yue said. He was confident in killing Chu Kuangren.

However, in the next moment, he sensed a massive Grand Dao energy fluctuation from Chu Kuangren.

It shocked the two of them.

"Grand Dao Realm?"

"How is this possible?"

Chu Kuangren's black hair turned white, while his black pupils turned into a divine golden color.

He had activated his Radiant form.

He looked at Tianshen Yue and Elder Dragon Feng, speaking as if he were a God. "It's time to end this fight."

"What a joke. Even if you have a secret technique to push yourself to the Grand Dao Realm, you are just at Life Mastery. How could you be our match?" Tianshen Yue grunted coldly.

He then channeled the Celestial Divine Light and shot another beam at Chu Kuangren.

However, Chu Kuangren casually raised his hand.

The Radiant Dao energy fluctuation, combined with the Primordial energy, transformed into a massive hand that crushed the beam.

It was so powerful that it felt unbelievable.

"I said, it's time to end this fight."

After that, he channeled the Radiant Dao in him.

"Radiant Three Thousand Worlds!"

The Primordial energy contained in the light transformed into three thousand Daos, as though three thousand worlds had merged and blasted at Tianshen Yue and Elder Dragon Feng.

Blood gushed out from their mouths while their Daos were damaged.

They had heard of how strong Chu Kuangren was, but they had not seen everything yet.

Chu Kuangren wielded the Descendant Self Sword, now a Hongmeng Supreme Treasure, and rose to the sky.

The Heaven-Slaying Sword Drawing Technique was cast again.

There was no fancy technique or excessive energy. He simply concentrated on a single point and attacked with the purest intention.

Time, space, heaven, earth, and all things in existence, form and formless, shall be cut by this slash.

It was aimed at Elder Dragon Feng.

"No!"

Elder Dragon Feng roared. He channeled his Dao's energy to the limit and engulfed himself with the golden flame.

The golden flame was hot enough to distort the void around him.

He wanted to use that technique to stop Chu Kuangren's attack, but it was useless.

As the sword qi grazed past Elder Dragon Feng, the flame on his body was extinguished, and his massive dragon body was cut in half.

Dragon blood rained down like a waterfall.

Then, the body crashed into the lake.

"What?"

Tianshen Yue was horrified when he saw the scene. Fear drowned him completely.

He turned around and wanted to leave.

"Destiny's Gate!"

Then, a massive white gate appeared from the void.

An ancient energy emanated from the gate.

It was the Destiny's Gate!

Once the gate locked onto its target, even if the target escaped to another universe, the gate would still catch him. There was no way Tianshen Yue could run.

"Boom!"

As the gate came crashing, Tianshen Yue's destiny was severely affected. While he was trying to withstand the power of the gate, Chu Kuangren appeared before him and stared at him with his frosty golden eyes.

He raised his hand.

Radiant Dao's energy enveloped him whole as he slapped Tianshen Yue's head.

Just like that, Tianshen Yue was killed on the spot.

Unparalleled After Ten Consecutive Draws

Chapter 2169: Move The Great Dao's Mountain, Absorb The Great Dao's Lake, Heaven Kills

A dead dragon's body, cut in half, was floating on the Great Dao's Lake, and the blood tainted the water red.

At that moment, another figure fell into the lake, right beside the other half of the dragon's body.

It was Tianshen Yue, or at least what was left of him.

Those who witnessed the scene were shellshocked.

The ninth and the tenth on the Grand Dao Leaderboard, two Grand Dalm Supreme Saint cultivators who possessed powers that could rival even a common Grand Dao Supreme Honorable, died in the hands of a Primordial.

It was unbelievable.

"Am I dreaming?"

Some cultivators suspected that they were in a dream or an illusion.

"Chu Kuangren is a monster!" someone said in a trembling voice as they stared at Chu Kuangren's back.

Further away on a mountain peak, a figure in white watched the battle between Elder Dragon Feng, Tianshen Yue, and Chu Kuangren.

He was Shi Long, the tenth on the Primordial Leaderboard.

He was in awe. "Chu Kuangren is indeed scary. His strength and talent can only be rivaled by the Time Tribe's Son of Time."

He pondered. "When he used the Destiny's Gate, that technique seemed like the Great Destiny Technique of the Six Eyes Tribe. How did he master the technique? Does he have something to do with the Six Eyes Tribe as well?"

He realized Chu Kuangren was a man of many mysteries.

...

In the Dragon Tribe's territory, a massive golden dragon was curled up on a huge pillar.

Another dragon entered the hall and said, "Elder Dragon King, Elder Dragon Chengtao and Elder Dragon Feng's vital signs have disappeared."

As soon as it was announced, a terrifying draconic aura erupted, shaking the entire land.

The Elder Dragon King roared, "Find out who killed my sons! He shall pay!"

"Yes, my lord!"

...

Back inside the Great Dao Spirit World, after Chu Kuangren killed Elder Dragon Feng and Tianshen Yue, he did not conserve his aura as he normally would.

Quite the contrary, he expanded it even more like pushing a crashing tide outward.

"Who else wants trouble?" Chu Kuangren bellowed, his voice echoing across the mountains.

Everyone exchanged a troubled look, and no one dared to speak a word.

Seeing how Elder Dragon Feng and Tianshen Yue, who both had power that rivaled a Supreme Honorable, were killed by Chu Kuangren, the others dared not challenge him anymore.

Seeing no one else stepped up to challenge him, Chu Kuangren conserved his aura.

Then, he looked at the mountains floating above the lake.

With a thought, he swung his sleeve to summon a massive suction force.

All the mountains were sucked into his Enchanted Sleeve.

Everyone else was shocked by the scene.

"He already has the Grand Dao Heart, and now he's taking the mountains as well? He's really greedy!"

"Damn it! The treasures hidden in the mountains cannot be kept in common storage space. How is he absorbing so many mountains into his sleeves?"

"I think it's some kind of spatial technique."

"Even if it's true, absorbing that many mountains is ridiculous."

The mountains were not just any mountains; they were the Great Dao's Mountains.

The Great Dao energy fluctuation the mountains released would disrupt the space in the storage items. It would also affect certain personal spaces created by spatial techniques.

It was the reason why the cultivators spent time excavating instead of moving all the mountains back.

"Is that the Enchanted Sleeve?"

The Heavenly Grandmaster identified Chu Kuangren's method at first glance.

Legend had it that once the Enchanted Sleeve was used to a certain extent, it could even hold an entire galaxy. It was considered one of the best spatial techniques in the Pan Gu Universe.

"Even if the Enchanted Sleep can't store all the mountains, Brother Chu's mastery of Spatial Dao is much more impressive," Wahuang said with admiration.

"Indeed. His mastery of Spatial Dao can rival that of Yang Mei already, or maybe even better," the Heavenly Grandmaster said.

Ever since Chu Kuangren got the Divine Void Seal, his mastery of the Spatial Dao skyrocketed, and the Enchanted Sleeve he used had far surpassed the creator of the technique.

However, even with his upgraded Enchanted Sleeve, he could not absorb all the Great Dao's Mountains. After taking in a hundred or so, he started to sense a disruption in the Enchanted Sleeve's space.

"I can't take anymore."

Chu Kuangren stopped.

He looked at the remaining mountains and pondered.

The others breathed a sigh of relief when he stopped.

"I knew his spatial technique has a limit!"

"He took more than a hundred mountains in. He's a monster! One-tenth of the mountains is gone."

"He even got the Grand Dao Heart!"

Everyone was jealous of him. Chu Kuangren was the biggest winner on that trip to the Great Dao Spirit World.

"Come on, let's go search for the treasures. We can't come here for nothing."

"Yeah."

The others planned to resume their exploration.

Even without the Grand Dao Heart, the treasures in the mountains could compensate for their losses.

Since Wahuang had gotten a Hongmeng Supreme Treasure in one of the mountains, there might be more hidden in other mountains.

If found, it would be a harvest.

However, right before the cultivators moved out, the mountains started to shake again, and they all flew up into the sky.

They were being sucked into Chu Kuangren's body!

Everyone else was stunned.

Again?

"Is he trying to take the mountains from us?"

"He has crossed the line!"

"Don't worry, I don't think he can take all the mountains away."

Everyone felt nothing but heartache as they watched Chu Kuangren absorb all the mountains, but no one dared to do anything to interrupt him.

As time passed, the expression on their faces started to shift to horror.

Chu Kuangren was still absorbing the mountains.

He had absorbed more than half of the existing mountains.

"Is he done?"

"Does he have a universe in his body?" someone asked, not knowing that he was right.

"If the Enchanted Sleeve can't hold them all, I'll keep them in my Pocket Universe," Chu Kuangren thought.

He got a hint from Lil Ai. He could use his upgraded Spatial Dao to open a passage to the Pocket Universe so that he could transfer the mountains there.

It was much easier than the Enchanted Sleeve.

No matter how big the Enchanted Sleeve was, it could only hold a galaxy, but the Pocket Universe was a mini universe on its own.

Slowly, thousands of mountains that floated on the lake were all absorbed into the Pocket Universe. Countless cultivators were jealous and furious.

Chu Kuangren alone took all the Great Dao's Mountains.

It made them jealous.

Then, the water in the lake beneath their feet started to boil.

"No way! No freaking way!"

One of the cultivators realized what the boiling water meant and gulped anxiously.

"Boom!"

"Boom!"

"Boom!"

Water pillars rose from the lake and converged into a strong current in the air. Together with the Great Dao's Sources, it headed toward Chu Kuangren.

Similar to the mountains, he was absorbing it into his Pocket Universe.

Not only did he want the mountains, but he wanted to take the entire lake away with him as well.

"This b*stard!"

Everyone was shocked, angry, and helpless.

Unparalleled After Ten Consecutive Draws

Chapter 2170: Prepare To Ascend To Grand Dao Realm, Mystery Prevails, Three Clarities Arrives

Chu Kuangren alone absorbed the Great Dao's Mountains and Great Dao's Lake.

It was an unimaginable harvest for him.

The others could not get anything because of his selfish act, and it was driving them crazy.

They looked at Chu Kuangren, curious. Their eyes were bloodshot due to jealousy, and they were fuming like angry beasts.

However, when Chu Kuangren looked at them, they quickly averted his gaze. They were too afraid to show a hint of anger on their faces.

Some even swapped their jealousy with a flattering smile.

On the other hand, the Heavenly Grandmaster, Wahuang, and Fuxi were impressed.

"Brother Chu is vicious."

"How could he not be? He's just a Primordial, and he has killed two of the top ten on the Grand Dao Leaderboard. He's really talented, wicked even."

"No wonder the others are so afraid of him."

After Chu Kuangren gathered the mountains and lake water, he appeared before the three of them. "I'm almost done here. Let's go."

The three of them nodded and left with him.

After Chu Kuangren and company left, the rest of the cultivators were left with a massive crater with no mountains.

They cursed at Chu Kuangren's back as they stared at the desolate land.

"F*cking sh*t!"

"Damn!"

"Chu Kuangren is really selfish!"

"I couldn't even get my hands on enough of the Great Dao's Sources before he snatched all of them. He's a wicked person indeed."

Some even wanted to cry.

Some were furious. "Chu Kuangren isn't going to end well with his arrogance. Now that he has killed Elder Dragon Chengtao, Elder Dragon Feng, and the other two from the Celestial Divine Tribe, the two tribes would not let him go just like that."

"There's also Dugu Bubai, the anomaly Prodigy from the Sword Universe. Now that he's dead, the second on the Grand Dao Leaderboard, Jue Jian, will not let this go either."

"Jue Jian... I heard the man is brutal, and those who fought him ended up dead or crippled. Not even a Supreme Honorable could escape. I hope he can do something about Chu Kuangren and avenge us!"

...

Chu Kuangren and company left the Great Dao Spirit World.

He told Fuxi and Wahuang about his intention of starting his own force in the Feng Domain so that it would be easier for him to unite all the cultivators from the Pan Gu Universe.

The two of them agreed and joined him.

The Heavenly Grandmaster had agreed to inform his senior brothers as well.

"Brother Chu, I'll head off now."

"Alright. I will be waiting for you at Myriad Arms City."

Chu Kuangren bid the Heavenly Grandmaster farewell with a fist salute before he brought Wahuang and Fuxi back to Myriad Arms City.

He also helped the two of them to settle down.

Then, he got his men to spread the news, hoping for more of Pan Gu Universe's cultivators to join his force.

"Next will be breaking through to the Grand Dao Realm," Chu Kuangren muttered.

He found a secluded place in the city and started his closed-door meditation.

Inside an artificial forest realm, Chu Kuangren took the Grand Dao Heart out. The crimson crystal had mystical light surrounding it, and it emanated an ancient presence.

The Great Dao Spirit World had existed for many years, but it was difficult to produce a Grand Dao Heart. It would take at least a hundred million years, which explained the rarity of the crystal.

"I'll start refining this."

Chu Kuangren held the crystal in his hand and started to channel his cultivation energy.

Powerful refining energy gushed forward and enveloped the Grand Dao Heart.

Instantly, the Grand Dao Heart energy entered his body.

Chu Kuangren could feel that his insights of his own Dao had increased and his mental consciousness was absorbed into a mysterious world.

He found himself in a blank and white space.

At a closer look, he found countless old runes glimmering in the space, like the tens of thousands of Dao in the universe.

"Where am I?" Chu Kuangren thought to himself.

He tried to speak, but his voice could not escape his mouth. He could not even contact Lil Ai.

He was like a soul, wandering in the white space. Strangely, he could feel his Dao getting stronger.

It was as if being in the space would grant him endless power. It was an unbelievable feeling.

Where exactly was the place? Why would his consciousness arrive in that space while he was refining the Grand Dao Heart?

Chu Kuangren had many questions but no answers.

Suddenly, he thought of the rumor regarding the Grand Dao Heart.

It was said that when refining the Grand Dao Heart, the user would not only reach the Grand Dao Realm, but there was also a chance for the user to upgrade his own Dao.

Could that space be related to the upgrade?

At that thought, the white space started to move.

Ancient runes appeared in the void and started to glimmer. The light particles they produced flew toward Chu Kuangren.

Soon, the light particles formed a vortex, with him in the center.

He could feel an endless stream of knowledge entering his mind while being in the center of the vortex.

His insights into his own Dao increased rapidly.

Could that be the upgrade?

Chu Kuangren absorbed everything in the center of the vortex as if he had become an omnipotent God.

He knew everything, he saw everything, and he mastered everything.

He knew it was just an illusion of the upgrade, but it was still an amazing and intoxicating feeling.

...

While Chu Kuangren was cultivating to break through to the Grand Dao Realm, many cultivators from the Pan Gu Universe came to Myriad Arms City after learning Chu Kuangren's plan.

Some of them were Chu Kuangren's peers, brother-in-arms, and many reincarnations of the ancient ones.

They gathered together while Fuxi was in charge to help them settle down.

Suddenly, a mystical emerald light shone in the sky.

Three figures emerged from the clouds. One was in long black robes, looking sharp, and had sword qi surrounding himself. The other one was in white robes, looking young and like a deity. He even had a jade scepter in hand.

The last one looked like an elegant scholar, and his energy presence was the strongest.

Many of the cultivators from the Pan Gu Universe could not see through him.

"Oh, it's the Three Clarities."

The others quickly recognized them.

Fuxi went up and greeted them.

When he saw Li Jun, he made a fist salute and smiled. "Congratulations on breaking through to the Grand Dao Realm. You're currently the one with the highest cultivation level among us."

"Haha, I'm still not as good as Brother Chu." Li Jun smiled.

He might be a Grand Dao cultivator whose name was listed on the leaderboard, but he was just a Supreme Spirit with the possibility of challenging a Supreme Saint.

However, he knew very well that his power was not enough to live a free life in the Great Hongmeng Universe. He was not the strongest among the Pan Gu Universe cultivators either.

At the very least, Chu Kuangren had killed two of the top ten on the Grand Dao Leaderboard, but he could not.

"Where is Brother Chu and Sister Wahuang?" the Heavenly Grandmaster asked.

"They're cultivating," Fuxi said.

Chu Kuangren was ascending to the Grand Dao Realm while Wahuang was cultivating to refine the Hongmeng Supreme Treasure she got in the Great Dao Spirit World.
