

Unparalleled 371

Chapter 371: Why Must You Use Clever Skills (3)

His mental cultivation technique was at the sixth rank, his movement technique had reached the fifth rank, and his saber technique had also reached the sixth rank. Although he had also fused other skills, he still had a total of seventeen books!

According to the legend of the Nameless Saber Scripture, after gathering all the parts and comprehending the things inside, one could enter the first-grade realm.

Seventeen books.

If he comprehended all of them, it would not just be first-grade. Even if the mental cultivation method reached first-grade, how much would the Nameless Saber Scripture cost?

Even if Xu Bai's calculation was exaggerated, it would be five books.

Of the remaining twelve books, five were for saber techniques and six were for movement techniques.

What about the other book?

Most importantly, Xu Bai's calculation was a little exaggerated. If it wasn't exaggerated, he would still have a lot left.

"Could it be...There's also a new set of skills?" When Xu Bai thought of this, he couldn't help but feel excited.

Sometimes, he had to find a way for himself. Now that he had a new discovery, he was naturally very motivated.

“Continue!”

Thinking of this, Xu Bai took out another book and continued to check the progress bar. He handed one of the books to Ye Zi and said, “Burn it.”

Ye Zi blinked and obediently took the book. She found a brazier and burned the book that Xu Bai had already finished.

Destroying the evidence. In this world, even the karma had come out. There were also all kinds of feng shui. If he was not careful, he might be able to deduce something from the book that he had already finished. Burning it to ashes was the safest.

A burning smell came from the room.

Ye Zi waited until the book in front of her turned to ashes before she stood up and rubbed Xu Bai's shoulders.

She liked doing these things very much. Of course, there were also people involved.

Back then, when Xu Bai had protected her behind him, she had felt that she had-tar

And now, she didn't go against the family's arrangements for her.

Ye Zi sized up Xu Bai while pinching him.

Time passed by unknowingly. In the blink of an eye, it was already afternoon.

At this moment, Xu Bai was about to put down the Nameless Saber Scripture in his hand and bring Ye Zi out to shop and have a meal. Unexpectedly, there was a knock on the door.

“Who is it?” Xu Bai frowned. Could it be that they were from the government office?

As it turned out, his guess was right. A trembling voice came from outside the door.

“Xu... Lord Xu...Please come with us.”

His voice was trembling. It was obvious that he was extremely afraid of Xu Bai.

Xu Bai thought of something.

The puppet of the Fourth Stage standing guard at the side walked forward and opened the door.

Outside the door, a bailiff stood obediently. When the door opened, he even trembled.

Ever since Xu Bai showed his might last time, they had learned a lot. Now, they were only afraid of Xu Bai. Other than that, they were still afraid.

“What is it?” Xu Bai frowned.

The bailiffs cowered, “Lord Tong says...” We’ve already found a witness and asked you to hurry over. We’ve specially come to invite Lord Xu.” It was still the same sentence. Xu Bai was a very particular person.

People respect me one foot, I respect others ten feet.

This bailiff was now very respectful, so Xu Bai wouldn’t make things difficult for him. And like last time, he didn’t kill him, which was already considered lenient.

“Lead the way.” Xu Bai put the Nameless Saber Scripture back into his bag and carried it on his back. Only then did he stand up and say indifferently.

There was evidence?

He was now very curious about what kind of evidence there was.

Seeing that Xu Bai wasn't angry, the bailiff heaved a sigh of relief. He didn't stay there any longer and quickly led the way.

Xu Bai led Ye Zi and the puppet of the Fourth Stage out of the inn very quickly. They went around the streets and arrived at the government office.

When he first stepped into the government office, he saw that the government office had already set up a large formation. In the main hall, two rows of government runners were standing full of killing clubs.

In the middle of the two rows of bailiffs was a man dressed in ordinary clothes. Xu Bai walked in and naturally attracted everyone's attention. When he walked to the center of the hall, he heard a slap from the Tong Mansion's token.

"Lord Tong, is there a need to make it so grand?" Xu Bai said with interest.

He had been in this circle for so long, but he had never been interrogated in the lobby. He felt that it was quite .

"How dare you!" Tong Fu Ling slammed the table and said, "Xu Bai, I called you here because I found out that you were related to the disappearance of those family members. Now, you better correct your attitude."

"Why?" Xu Bai pointed at the man in ordinary clothes and said, "Is this person the evidence?"

"It is important to have a witness and both physical evidence to handle a case. Although there is only one witness now, Xu Bai, you have to stay in the government office. At the very least, you have to wait until the truth is out before you can leave. "There was a smile on the face of the Tong Residence Magistrate, and his smile contained a hint of pleasure.

At this moment, the man who had been standing at the side finally spoke. He put on a panicked expression and pointed at Xu Bai, shouting, "Milord, it's him!"

He was the one I saw at that time!"

Xu Bai was speechless.

Her acting skills were ridiculously bad.

He was very sure that this man was not there that night. Those people were already dead. It was impossible to leave anyone alive.

"You should be very clear about the consequences of making false evidence. I am also an official of the imperial court. Don't you know what will happen if you use false evidence to frame me?" Xu Bai said indifferently.

The man in ordinary clothes suddenly felt a little scared because he was a little afraid when he heard Xu Bai say that he was an official of the imperial court.

"If you lie and falsely accuse my young master, I will make sure you never return." Ye Zi's beautiful eyes were cold. "Tell me everything you know. I want to see how you can make up a flawless story.."

Chapter 372: Why Must You Use Clever Skills?(4)

She was very angry and wanted nothing more than to break this man in front of her into pieces.

The man in ordinary clothes stammered, but he still told her the whole story.

Xu Bai heard this and frowned slightly.

Ye Zi still wanted to speak, but she did not expect Xu Bai to hold her down and stop her from continuing.

“Since you have a so-called witness, what do you want to do? Do you just want to throw me into prison?” Xu Bai looked straight at the Tong Residence Token and said.

Of course.” Tong Manor Master nodded.” Lord Xu, you can rest assured.

Before that, you won’t be harmed in any way. You’ll just lose your freedom.””

“Let’s go.” Xu Bai turned around and walked straight to the cell without saying a word.

The magistrate was slightly surprised. He had thought that there would be a very intense debate, and he had even prepared many backup plans. However, he did not expect Xu Bai to turn around and leave without arguing.

For some reason, the scene that should have been very satisfying suddenly felt a little angry and even sullen.

It was as if you had set up an inescapable net, waiting for the other party to crawl in, but the other party was taking a stroll in the courtyard as if they were on a vacation.

But since things had come to this, it was like an arrow on the string, and it had to be fired.

“Take Lord Xu away. Wait, Lord Xu. These two can’t follow you.””

These two were naturally referring to the puppet of the Fourth Stage and Ye Zi.

Xu Bai turned his head and said,”Who made that rule?” Is it your rule? Am I already a confirmed criminal?”

He asked three questions in a row, and the Tong Residence was rendered speechless.

The Tong Manor Magistrate felt even more aggrieved. He kept feeling that he had been snubbed instead.

In the end, he still let Xu Bai bring Ye Zi and the others into prison.

The cell door was tightly shut.

After locking the door, the bailiff left immediately. He didn't stop at all. He even ran as fast as he could, afraid that he would be angered by Xu Bai if he stayed here for a while.

"Young Master, Ye Zi doesn't understand. Why don't you argue? Actually, we can ask a lot of things, but that person might not be able to answer." Ye Zi's fair face was filled with confusion. She couldn't figure out what Xu Bai was thinking.

It wasn't that she didn't trust Xu Bai, but she was very curious. After all, sometimes, when her curiosity reached a certain level, she couldn't help but want to investigate.

Xu Bai smiled and found a seat against the wall. Leaning against the wall, he took out the Nameless Saber Scripture and said, "There are some things that you will understand later."

Since she had already said this, Ye Zi also understood that now was not the time to say this. She saw that Xu Bai was still leisurely and relaxed. She ran behind Xu Bai and continued to massage Xu Bai's shoulders.

"If something really happens, Ye Zi will block the path of retreat for Young Master." Ye Zi said gently.

Xu Bai smiled, "If something really happened to the Grand Itinerant, why would I need you to block my escape route? Don't worry, everything is under control."

If he really wanted to go to court, he had a hundred ways to find out that what that person said was false. He could even make that person admit it face to face.

But before that, Xu Bai had to consider something very important.

Just a few days ago, Tong Manor's Magistrate was still gnashing his teeth and could not do anything to him. However, in the blink of an eye, he came up with a trick and even specially found someone to impersonate him and produce fake evidence.

There was a problem here.

It was either the Tong Residence Magistrate had racked his brains and thought of it, or someone had given him a bad idea behind his back and made him do this.

If it was the first type, it would be fine.

But what if it was the second type?

If it was the second possibility, then the people behind it were very likely those who had intercepted him.

Xu Bai would not let go of this opportunity. Even if it was only a possibility, he still wanted to see what tricks the other party was up to.

The enemy was in the dark while he was in the light. In such a situation, he could only wait for the enemy to attack first and then counterattack.

Xu Bai firmly believed that there was no perfect event in this world. As long as the other party made a move, there would definitely be a loophole. It was just the size of the loophole.

The more he attacked, the more loopholes he had, and the bigger the loopholes would be. He would have an opportunity to take advantage of it.

“Just be at ease.” Xu Bai yawned and continued to study the Nameless Saber Scripture in his hand.

Time gradually passed, and in the blink of an eye, it was already night.

At this moment, the moon was bright and the stars were sparse. There were not many dark clouds in the sky. The moonlight sprinkled silver splendor on the dark earth, accentuating the tranquility.

In this dark night, the only sound that could be heard was the sound of the night watch. Other than that, the street was silent.

In the government office.

It was dark here, and only two lanterns were lit outside the cell.

At this time, Tong Manor’s Ling was already asleep.

According to Yun Zihai’s habits, he would probably still be burning the midnight oil at this time.

Everyone’s way of handling things was different, and everyone’s ambitions were different.

People like Tong Ling were already old, and the chances of climbing up were very small. They might as well guard this small piece of land. As long as nothing big happened, they would be happy and carefree. Naturally, they would not work hard to stay up late.

She had already fallen asleep at such a late hour. There was even a slight snoring sound.

In his pitch -black backyard, there was a figure walking carefully..

Chapter 373: Why Do You Have to Use Clever Techniques In The Great

An official of the imperial court had died, and it was an order from a prefecture. Coincidentally, Xu Bai was also involved in this matter. Then, everything would turn into a different perspective.

By that time, when they found out that the wound was similar to Xu Bai's Black Saber Hundred Rend, Xu Bai would not be able to clear his name even if he jumped into the river.

At that time, Xu Bai would be in big trouble even without them doing anything.

This was the best method. He didn't use brute force, but rather, he used a clever move.

However, the only price was that Butler Chen would definitely die because this ingenious explosion was indiscriminate.

The reason why Butler Chen was asked to do it was because Butler Chen was considered to be the close subordinate of the Tong residence order, so he had the opportunity to do it.

"Dong dong dong!"

Butler Chen came to the door and knocked gently.

After waiting for a few breaths of time, Tong Manor's voice came from inside the door.

"Who is it?"

Ling Tong's voice carried a trace of irritation.

"Master, it's me." Butler Chen said in a low voice, "I just thought of a way to let Xu Bai stay in the prison for a few more days to help the master solve his worries. ""

As soon as she finished speaking, the sound of dressing could be heard from the room.

A moment later, the Tong Manor Leader came to the door and opened it. He looked at Butler Chen and frowned.

“A few days is enough.”

After what he had done this afternoon, the Tong Residence Magistrate was actually still feeling a little uneasy.

Although he knew that he could no longer climb up and had already begun to ruin it, he was still a scholar. He still felt a little guilty for a scholar to do such a dirty thing.

So that night, he lay in bed and could not sleep. When Butler Chen knocked on the door, he quickly got up.

“Master, I know you’ve vented your anger, but Xu Bail’s attitude this afternoon was still too bad. If you don’t temper him, you’ll lose face!” Butler Chen said respectfully.

He acted as if he was giving advice to the Tong Residence’s magistrate in order to obtain a better reward.

Tong Manor Magistrate frowned. After pondering for a moment, he said, “Tell me, what is your method?”

“Master, look at this. This is the evidence.” Butler Chen raised the wooden box in his hand and slowly approached the Tong Residence Token.

Tong Fu Ling’s eyes were filled with curiosity as he came over.

The distance between them was getting closer and closer. Butler Chen counted silently in his heart, and a ruthless look appeared in his eyes.

There was a button above the wooden box. Just as Tong Fuling was at the closest angle, Butler Chen placed his hand on it and pressed it hard.

“Crack! ”

A soft voice sounded.

The surroundings were quiet and everything was normal.

Butler Chen was speechless.

Tong Fu Ling was puzzled, “What is this thing?” Why is there a mechanical sound when I press it?”

Butler Chen was stunned. He continued to press the button.

“Kacha! Kacha!”

The sound continued, but the wooden box was still the same wooden box. There was no sound at all.

“This... How is that possible?”

Butler Chen was dumbfounded.

At this moment, Tong Manor Leader finally noticed something unusual. He felt that there seemed to be something wrong with this butler’s expression.

“Show me your wooden box. What is it?”Tong Fu Ling extended his hand.

Butler Chen looked at the hand that the Tong family’s magistrate had extended. He suddenly raised the wooden box in his hand and prepared to throw it fiercely on the ground.

However, in the next moment, a gust of strong wind came from afar and chopped off both of his hands. The wooden box did not fall heavily to the ground. Instead, it fell to the ground with gravity and was not damaged at all.

Butler Chen screamed and rolled on the ground.

The Tong Residence Magistrate revealed a surprised expression as he turned his head to look at the darkness not far away.

Xu Bai walked out of the darkness with Ye Zi and the Fourth Stage puppet, yawning.

“I heard the sound of a machine beating in prison. I shouldn’t have done that.

Why did you choose a machine?”

The faint voice was filled with regret.

“Xu Bai, you actually dare to escape from prison. You’re simply...” Tong Manor Magistrate came back to his senses and pointed at Xu Bai, ready to question him.

In the next moment, Xu Bai slapped the face of the Tong Residence Magistrate. A Rank-4 against a Rank-5 was so direct that the Tong Residence Magistrate did not even have time to react.

“Idiot, from now on, if you dare to speak any more nonsense, I’ll let your soul return to the underworld..”

Chapter 374: The Real Purpose of the Veil Woman (1)

This slap was very loud and clear, especially ear-piercing in this dark courtyard. The Tong Residence Magistrate touched his face and was already dumbfounded.

He was suddenly stimulated by this and could not come back to his senses for a long time. After all, this slap came too suddenly, so he kept maintaining this position for a long time.

Why did Xu Bai appear here, and why did the wooden box lose its effect? In fact, all of this was very simple. It was because this wooden box was cleverly used.

When Butler Chen passed by with the wooden box, Xu Bai heard the sound of the mechanism inside the wooden box.

If a Rank-4 unspecialized couldn't even hear such a thing, how could he be worthy of this title?

If a martial artist had not reached the Second Stage, his Genuine Qi would not be able to flow out of his body, but that did not mean that other professions did not have this function.

Xu Bai was not a martial artist, and his Refined Qi was not True Qi.

Clever mechanisms and the like could all be controlled from afar. Otherwise, how could some mechanisms be activated from the air?

The only difference was that the person who made it was more familiar with it.

To make a very simple analogy, if two people knew the art of mechanics, one of them would be able to make a move, but it would be very difficult for the other to control it because the person who made the move was more familiar with it.

However, Butler Chen was not clever.

Xu Bai was at the max level.

Comparing the two, everything seemed logical.

When Butler Chen walked to the door of the Tong Residence, Xu Bai had already deciphered the important thing inside, so the wooden box did not play its role.

Taking advantage of the fact that the Tong family magistrate had been slapped and had yet to react, Xu Bai did not say anything else and directly kicked Butler Chen in front of him.

Butler Chen had lost his hands, but Xu Bai had no intention of keeping him.

Instead, he wanted to get rid of him immediately.

The reason was simple. Since the other party had sent someone, they must have planted a seed in his mind. It would be useless to ask anything. Not only would it be useless, but it would also cause Butler Chen to die immediately.

Most importantly, Xu Bai wasn't sure if Butler Chen would know if he triggered the seed and killed him.

He still had follow-up plans, so he couldn't afford to have any problems in this aspect.

Housekeeper Chen was kicked away by Xu Bai and flew into the air with a miserable cry. At this moment, Xu Bai raised his other foot and kicked the wooden box into the air at the same time. His True Core Strength surged and the mechanism in the wooden box was activated.

“Boom!”

The moment the mechanism was activated, the wooden box suddenly exploded. Countless fragments exploded, piercing Butler Chen's entire body.

He died.

The shards were an area-of-effect attack. Some of them flew toward Xu Bai and the others, but due to the distance, their power was greatly reduced, so they were easily blocked.

“Swoosh!”

The black saber returned to its scabbard.

Xu Bai turned his head and looked at the Tong Residence Magistrate. His tone carried a hint of mockery. “Do you understand now? Why should I slap you?”

Even if I were to slap you again, you wouldn’t dare to stop me.”

The Tong Manor Magistrate had already recovered, but after seeing this scene, he fell into a daze again. His entire person was like a rotten wood that could not move, standing on the spot for a long time.

If he still couldn’t see the subtlety of this, he wouldn’t have been able to reach his current position.

It was obvious that the other party only wanted to kill him, and the reason why he wanted to kill him might have something to do with Xu Bai.

After all, Butler Chen’s plan was to frame Xu Bai. He was just using him as an excuse.

“I was wrong.” The Tong Residence Magistrate finally lowered his head, his hands hanging by his sides. He looked as if he had aged several years, and he no longer had his previous arrogance.

He often thought that since he was a scholar, he would not be interested in these wild Jianghu people, and Xu Bai himself was born in Jianghu.

Therefore, he didn’t like Xu Bai. As for the reward, he just thought that Xu Bai was lucky.

“Where did you go wrong?” Xu Bai continued to ask.

“The mistake is that I shouldn’t have listened to calumny and done things that go against the principles of scholars.”“Lord Xu, if you want to kill me or cut me up, do as you please.”“

He had already admitted defeat. If this matter was brought to the Emperor, he would not have a good ending. However, since he had already done it, there was no room for redemption. He could only choose to silently bear it.

He knew very well what the consequences of listening to calumny, plotting against an official of the Imperial Court, or even going to the capital to receive a reward would be.

Death was considered the lightest punishment. He might even be thrown into prison and suffer endless pain.

Xu Bai smiled and said calmly,““Actually, I don’t want you to suffer a heavy punishment, but all of this depends on whether you can atone for your sins.”

Commander Tong had been prepared to receive Xu Bai’s storm-like attacks, but after hearing these words, he suddenly raised his head, his eyes filled with disbelief.

He wondered if he had heard wrongly. Xu Bai was actually letting bygones be bygones and trying to atone for his crimes?

“Understood! Understood!” “ Yes.” Tong Manor Master nodded his head vigorously.” I’ll definitely do as Lord Xu says, as long as Lord Xu gives me a chance.” ‘

He finally understood that the man in front of him was not someone he could offend. Even with his personality, he had to lower his head now.

King Sheng You wanted him to lower his head, and now, Xu Bai wanted him to lower his head as well..

Chapter 375: The Real Purpose of the Veil Woman (2)

“From now on, you are already dead. “Xu Bai suddenly asked, “According to the procedure, if a prefecture’s prefecture is dead, how should we investigate?””

The Tong Residence Magistrate was slightly stunned, but he quickly reacted and instantly understood what Xu Bai meant.

Good plan!

He wanted to beat them at their own game and lure out the real mastermind. Then, he would follow the clues and get rid of the mastermind.

At the thought of this, the Tong Residence Magistrate also began to answer one by one, “It depends on what kind of situation it is. In a situation like this, it’s obvious that the Heaven Inspectorate will be sent to investigate.”

“Very good.” Xu Bai said, “You go deal with it. Oh right, why isn’t there anyone in your government office?””

There was no sound even after such a huge commotion, which made Xu Bai very puzzled.

Tong Manor Magistrate was also confused. Under such circumstances, someone should have rushed over long ago.

His first wife had passed away, and his only son had been sent to the Academy of Jiangnan Road, so the place was full of servants and bailiffs.

“Let’s look for it.” Xu Bai said.

The few of them began to search the government office. Soon, they discovered that these people had been drugged in advance and had all fallen asleep.

Seeing that these people were fine, Xu Bai dispelled his doubts and continued the previous topic. "From now on, follow your procedures. I'll continue to return to the prison cell. When the time comes, you can casually convict me.

For example, the crime of murder. Of course, all of this had to be done very carefully. Only people you trusted could do it. You couldn't even let the person from the Heaven Inspectorate know."

He had already thought it through. Wasn't everything that the other party had done just to frame him? Then let the other party frame him.

After he framed the other party, he would see how the other party attacked. Then, he would counterattack. Wouldn't that be beautiful?

He wasn't like Qin Feng, who couldn't even catch a fish. He was an excellent fisherman.

"Good!" The Tong Residence Magistrate quickly agreed.

This was a good opportunity for him to redeem himself, so he didn't want to let it go.

Xu Bai looked around and saw that it was already late. He turned around and brought Ye Zi towards the prison cell.

Tong Manor Master gritted his teeth and finally began to follow Xu Bai's instructions.

Although Xu Bai had arranged a general direction, he had to deal with the details. For example, he had to find a corpse that was exactly the same as him.

He just had to make it look like he was killed in a wooden box.

At this time, the night was getting deeper and deeper, and even the night watchmen were dozing off.

The night was long, and time passed unknowingly until the next day.

The next day.

The clay house exploded!

According to the news from the government office this morning, the head of the Terracotta Manor, the Tong Manor, was assassinated last night. His body was beyond recognition.

It was said that the assassin had also been found and was locked up in the cell.

Once this news spread, it was undoubtedly a heavy bomb to the people of the clay mansion.

After all, they were all ordinary people. Now that they had heard such explosive news, everyone in the clay mansion was discussing this matter. Whether it was after dinner or in the streets and alleys, the voices of discussion became more and more frequent.

“I heard that the murderer who was arrested was also an official of the imperial court.”

“I also heard that this murder happened because of the hatred between the two of them.”

“Our prefecture order is gone. I reckon the Imperial Court will send a new person over again. Moreover, that person is still locked up in prison. They will definitely wait for the new person to come before dealing with him.”

Discussions rose and fell from the streets and alleys. Among these ordinary people, there was an ordinary-looking person who was quietly listening. After listening, he did not stop and walked in a direction.

This ordinary-looking man walked around the streets and alleys and finally arrived in front of a hidden house.

The man looked left and right. After confirming that there was no tail, he pushed the door open and entered.

The room was pitch-black and the windows were sealed shut. In the corner of the room, a woman in a light veil was tidying her hair.

“Master, the plan has succeeded.” The man bowed respectfully and said.

When the veiled woman heard the voice, she put down the wooden comb in her hand and nodded. Her tone was gentle. “Alright, I got it. Now do you know why I didn’t let you go to the government office last night?”

“Yes.” “The woman beside Xu Bai has a special skill in the soul,” the man said. “If I go, I’ll be easily discovered. That’s why Master didn’t let me go.”

He was very good at hiding. If it was any other time, he would definitely go and see it with his own eyes. However, there was suddenly a woman beside Xu Bai, and she had some achievements in the aspect of the soul. If he was discovered, all his previous efforts would be in vain.

“Yes.” The veiled woman gave a soft grunt of acknowledgment and walked up to the ordinary-looking man with a lazy air.

As she walked, her slender thighs rubbed against the light gauze, bringing about a fine sound.

“Next, it’s time for the next step of the plan.”

“This subordinate will send someone to assassinate Xu Bai in the prison.” the man said hurriedly.

Who knew that he had just finished speaking? Not only did he not receive the woman’s praise, but he also received a stern shout.

“Nonsense, who told you to assassinate him? That’s just a boorish way of doing things. If I really did that, what difference would there be between me and those idiots from the Purple Wood Mansion?”

The man was stunned, clearly unable to react..

Chapter 376: The Real Purpose of the Veil Woman (3)

If he didn’t kill Xu Bai, would he still be useful?

If Xu Bai could successfully enter the capital, the Emperor would have another right-hand man by his side. Wouldn’t everything he had done before be in vain?

“If I wanted to kill him, why would I do such a thing? He spent so much effort just to get someone on his side.”The veiled woman picked up the long hair on her shoulder and gently wrapped it around her index finger.

“Think about it carefully. Xu Bai has no way out now. His crime is almost confirmed, and his only way out is us.”

“As long as he is willing to join us and let me plant the seed, then I will help him clear his identity. At that time, the important people around the emperor will be our people. Isn’t this better than killing him directly?”

At this point, the veiled woman seemed to think that her plan was perfect. She couldn’t help but cover her mouth with her hand and laugh softly.

The man was speechless.

He did not expect his master to make such a decision. It was indeed unexpected.

“Then...Does Master mean that our next step is to save him?”

The veiled woman nodded and said, "Actually, I wanted to kill him in the beginning, but I don't want to anymore. If you save him, he can only go with you. If he doesn't go, he will die. If he leaves, it will be a road of no return." "Yes, sir!" The ordinary-looking man nodded and said, "I'll deal with it now." The veiled woman waved her fair arm and told him to hurry up.

After the man left, the veiled woman returned to the dressing table. She looked at her face in the bronze mirror and couldn't help but smile gently. "I'm planting the seeds...Such a man should be very strong."

She thought to herself as she clenched her legs.

Everything that happened in this world would inevitably cause great or small turbulence, but all turbulence could not be compared to the passage of time.

Time would never wait for anyone. No matter what happened, it would move forward without stopping.

For the entire day, the entire clay mansion was in constant discussion. The lively sound lasted until night before it gradually disappeared.

The night returned to its usual tranquility. Other than the sound of the night watch, there was no one else wandering the streets.

A lonely kitten was in the corner of the street, rummaging through the remaining trash.

At this moment, the kitten suddenly raised its head and looked warily at a corner. All the fur on its body stood on end.

More than ten figures flashed across the street. They were dressed in black, their faces covered with cloth, and they were holding all kinds of weapons in their hands.

The deserted streets became their best cover, and they walked fearlessly.

Their target was the government office, or more accurately, Xu Bai in the cell.

Xu Bai stayed in the cell and yawned. He leaned his head on Ye Zi's thigh and let Ye Zi press his head.

The puppet of the Fourth Stage picked up the Nameless Saber Scripture and held it right in front of Xu Bai's line of sight. The progress bar was slowly increasing.

The plan during the day was very successful. At this time, the Tong Residence Magistrate had already hidden himself well. He found a death row prisoner in the prison cell. His figure was similar to the Tong Residence Magistrate's, and he made it look like he was riddled with holes. He had already deceived many people.

As for the other details along the way, Tong Manor Magistrate had also done it perfectly. Xu Bai did not ask about it. After all, if he could not even do these things well, he would not be qualified to be a Manor Magistrate.

"Young Master, rest early." Ye Zi's hand gently brushed across Xu Bai's forehead as she lowered her head and said.

Her long black hair fell on Xu Bai's face, making it itch.

From Xu Bai's angle, he could only see Ye Zi's eyes. As for why he couldn't see her entire face, it was because it was too big.

"No need." Xu Bai suddenly stood up and stared at the corridor outside the cell.

At this moment, Ye Zi also noticed something and subconsciously turned her head to look.

In the dark passageway, a dozen figures suddenly appeared.

“It seems that there are still many people who can’t sleep in the middle of the night. “Xu Bai narrowed his eyes and placed his hand on the black blade, Hundred Break.

At this moment, the leader hurriedly said, “Lord Xu, don’t do anything. We’re here to save you.”

Xu Bai narrowed his eyes.

He had thought that these people were here to kill him again. After all, his plan had already been spread out, so someone would definitely come. However, he did not expect that they were here to save him.

“What do you mean?” Xu Bai asked.

Seeing that Xu Bai didn’t make a move, the leader heaved a sigh of relief and said, “Lord Xu is already on the cliff and has no way out. If you stay here, I’m afraid you’ll die. Why don’t you come with us?”

“Who are you?” “Are they the ones who specifically want to deal with me?” Xu Bai asked with a frown.’

To save him instead of killing him, he first had to figure out the identities of these people.

“To be honest, we can’t stand Lord Xu being wronged like this. “The leader made up an excuse and said, “The people behind us have found some clues that can prove Lord Xu’s innocence. However, before that, we need time, and Lord Xu can’t wait at all, so he asked us to take Lord Xu away first.”

Xu Bai raised his eyebrows but didn’t say anything.

There were many things worth pondering about the reason that the other party had given.

There are two kinds of possibilities. The first is the person who told the truth. They are not the ones who killed him behind the scenes. The second is the person who killed him. They have another purpose..

Chapter 377: The Real Purpose of the Veil Woman (4)

Xu Bai was more inclined to the second option. There was no other reason than that he didn't know anyone in the clay mansion, nor did he have any so-called connections.

What the leader said just now could be treated as nonsense.

However, if it was the second possibility, what was the purpose of the other party doing all these things?

After thinking about it, Xu Bai suddenly thought of a possibility.

Could it be that he wanted to pull her to the other party's side?

The more he thought about it, the more likely it was.

Since things had already happened, it was better to follow the other party's rhythm.

"Open the door." Xu Bai said.

The leader found it hard to accept such straightforwardness.

Xu Bai looked at the man and said, "Just like you said, I'm at the end of my rope now. If you have a way to help me clear my name, then what's the harm in me following you for the time being?"

The leader finally recovered and said, "Alright, then let Lord Xu come out."

The lock outside the door was broken by a knife, and Xu Bai walked out from inside.

After he left, he saw that the bailiffs in the corridor had already fallen to the ground.

“Lord Xu, don’t worry. We didn’t harm their lives. After all, our goal is to help Lord Xu clear his name.”the leader said.

Master had said that if he wanted to act, he had to do the whole thing. If he killed those bailiffs now, it might arouse Xu Bai’s suspicion.

“Please lead the way,” Xu Bai said with a smile.”

The leader hesitated for a moment, then looked at Ye Zi and the puppet of the

Fourth Stage, and said,“”Lord Xu, are the two of them following us?”

“My young master and I will not be separated. Wherever my young master goes, I will go.”Ye Zi stretched out her hand and pulled Xu Bai’s arm as she said firmly.

The leader looked at Xu Bai. Seeing that Xu Bai did not say anything, it was obvious that he had agreed.

He hesitated for a moment before nodding and leading the way.

Before he came, his master had already told him that if these two people wanted to follow him, then let them follow.

It was very dark outside. Xu Bai walked out of the cell and followed these people along the street.

After Xu Bai left, the Tong Residence’s commander walked out from a secret place.

He took out a brush and wrote in the air.

A moment later, a map appeared in front of him.

There was a small dot on the map that was moving quickly.

“Hu...” “I didn’t expect a dignified scholar like me to do such a thing.”

Xu Bai had told him to leave a tracking device on Xu Bai’s body at the beginning of the plan. If anything unusual happened, he could use this method to track Xu Bai.

No matter what, Tong Manor Master was also a Rank-5 scholar and could be considered to have combat strength.

Commander Tong looked at the moving light spot and took out a face cloth to cover his face. He chased after the light spot.

There was no communication along the way. Xu Bai followed behind them, passing through all kinds of streets and alleys, and finally arrived at a secret room.

The clay mansion was very big, and there were many houses like this. If they were to go through the houses, it would take a lot of time. Also, if they made too much noise, the other party might find an opportunity to leave. Therefore, Xu Bai didn’t waste his time.

“Lord Xu, please come in.” The leader pushed open the door and said. Xu Bai nodded. He stood at the door and looked around. It was very dark inside, but he saw a graceful figure.

He brought the puppet of the Fourth Stage and Ye Zi, and under the lead of the leader, he directly entered the room.

“Pa!”

Behind him, the door moved without any wind and closed automatically.

The next moment, Xu Bai twitched his nose and seemed to smell a strange fragrance, but it was not particularly obvious.

His gaze passed through the darkness and saw the graceful woman in a light veil.

“Lord Xu, I am Xiao Ai.” Xiao Nuan bent over slightly, and under the light veil, she was faintly discernible.

With a smile on his face, Xu Bai sized up the woman and said, “They said that you have a way to help me clear my name. What do you think?”

“Them?” Xiao Nuan smiled. “Lord Xu, you may need to stay here for a few days. I will naturally help you think of a way.” “How long will it take?” Xu Bai asked. “Three to five days,” Xiao Nuan replied gently.

After saying that, she waved her hand gently.

The men in black left, leaving only Xu Bai and the others.

Xiao Nuan came to the table and lit the oil lamp on it. The light from the oil lamp illuminated the surroundings and dispelled the darkness.

During this process, Xu Bai did not care, but Ye Zi kept staring at the woman with a vigilant expression.

As a woman, Ye Zi could sense that this woman named Xiao Nuan looked gentle like water and had the appearance of a young lady from a wealthy family. However, there was a seductive force in her bones.

Ye Zi was trained by the Ye family. Of course, she knew very well that her feelings were real, so she became more and more vigilant.

“You’re from the Ye family, right?” Xiao Nuan suddenly said, “I’ve long heard that a woman from the Ye family ran out and is still being searched for. It seems that you ran to Lord Xu’s side.”

Ye Zi didn't answer. She tightened her grip on Xu Bai's hand.

Of course, Xu Bai could feel it. He smiled and said, "I think it's very awkward now."

It was indeed very awkward. After being brought here for no reason, he said that he would stay here for three to five days. Anyone would feel awkward..

Chapter 378: The Real Purpose of the Veil Woman (5)

"I only need three to five days. If Lord Xu can't clear his name, you can take my head." Xiao Nuan walked to the door of a room and opened it.

"This is the accommodation I prepared for you. It's all made according to the best standards."

The facilities in the room were very complete. Whether it was the furnishings of the furniture or the layout of the surroundings, they were all very exquisite.

Xu Bai rubbed his chin, walked to his room, and lay down on the bed.

The faint fragrance was still there, and it made people feel very comfortable.

"I'll wait for three to five days." Xu Bai said.

"Then I won't disturb Lord Xu anymore." Xiao Nuan didn't waste any time. She excused herself and turned to leave, closing the door behind her.

After she left, Ye Zi opened her mouth and wanted to speak, but she was interrupted by Xu Bai.

Xu Bai came to the table and sat down. He poured out the water on the table and dipped his hand in the water to write on it.

The meaning was simple. It was safer to communicate in this way.

Ye Zi also understood. She came to Xu Bai's side and sat down. She imitated Xu Bai and dipped her hands in water to write on it.

"Young Master, why didn't you make a move?"

Xu Bai wrote, "We haven't confirmed her identity yet, so we won't do anything."

He wasn't a saint, so he couldn't predict everything, nor could he do it perfectly. Before he confirmed his identity, if it wasn't the mastermind, but was really as they said, it would alert the enemy.

"Mm," Ye Zi replied softly. She also understood Xu Bai's plan.

Xu Bai looked at the quiet room and narrowed his eyes slightly. He took out the Nameless Saber Scripture and continued to check the progress bar.

Since the other party wanted to make him wait for three to five days, then he would see what would happen after three to five days.

After Xiao Nuan closed the door, she left the room.

After leaving, she walked out of the house and wandered around the street.

After a while, she arrived at a hidden place that was far away from the house.

At this moment, the sound of footsteps could be heard. The first dozen masked men in black appeared and said respectfully, "Master."

“Well done.” Xiao Nuan said slowly.

“Master, why don’t you plant the seed for him now?” asked the leader.”

“He has a poison spell. The medicine must be used slowly for three to five days. “Xiao Nuan slowly said,” Oh right, you guys did a good job this time. I must reward you.””

The masked men raised their heads at the same time and swept their eyes over Xiao Nuan, their eyes burning with passion.

“Heh...Men.” Xiao Nuan chuckled and said, “Have you forgotten how I planted the seeds in the first place?” You’re still as thirsty as before.”

She slowly took off her veil, not caring that her body was exposed to the air.

More and more of the masked men’s expressions became fiery. At the same time, their eyes turned red. They took a few steps forward and were about to extend their hands.

Seeds required a specific method.

And this method was Xiao Nuan’s body.

Back then, Xiao Nuan had used this method to recruit this group of people.

She looked at the group of people’s fiery eyes and sneered.

Just as the dozen or so hands were about to approach, an anomaly suddenly appeared.

The masked men in black all stopped, their eyes dull as they looked in Xiao Nuan's direction, fear growing in their eyes.

The seeds in their minds exploded.

One by one, the men in black fell to the ground, losing all signs of life.

Only the leader was strong and lasted for a while.

He was very puzzled. Looking at the gentle-looking woman in front of him, he gulped and said, "Why do you want to harm us when we are so loyal to you?"

Xiao Nuan looked at the leader with a calm expression. Her tone was as gentle as ever, as gentle as water. "Because...I hate living like this."

The leader was stunned. He pointed at Xiao Nuan and shouted, "You want to escape, but that's impossible, okay?"

"In the past, it was indeed impossible. I also wanted to kill Xu Bai with all my heart, but now everything is possible. "Xiao Nuan bent down and held the leader's chin with her hand. She said gently, "As long as I plant a seed in Xu

Bai's mind and pretend to be that woman, I can escape my current life forever." She stood up.

The leader had already died and could no longer hear the rest of her words.

However, she continued to speak as if she did not know fatigue.

"As for the woman beside Xu Bai, I will make her become me and die here forever. Then, I will die forever and have a different life.'

“What exactly are we after? The Great Chu is so powerful that even if we use a hundred or a thousand years, we won’t be able to shake it.”

“Instead of that, why don’t you become one of them, leave your original identity, and live forever in peace?”

“From now on, I will be the only one here. No one will discover my plan.”

Xiao Nuan seemed to have gotten tired of talking. She turned around and walked back into the darkness.

A sentence slowly floated out from the dark alley.

“As long as he stays in that room for another three to five days, he will completely become my slave...”

After a long time, there was no one else in the alley..

Chapter 379: I i ve Made the Transmigrator Look Good (1)

The street fell silent. Ever since Xiao Nuan left, there was only darkness and corpses on the ground.

After about the time it takes for an incense stick to burn, there was the sound of light footsteps. Magistrate Tong walked out of the darkness with a brush in his hand. He looked at the corpses on the ground and his eyes revealed shock. “What’s going on? Did a battle happen here?”

He had just come out and had not encountered the previous scene. Therefore, when he looked at the corpses in front of him, he could not figure out what had happened.

Along the way, they followed Xu Bai’s trail and happened to pass by this street. Although the Tong Residence Magistrate did not see clearly who killed him, his expression became even stranger when he saw the corpse on the ground.

He had also seen the group of men in black when they left with Xu Bai. Now, these corpses were dressed exactly the same as those men in black. He only needed to think a little to figure out the identities of these people.

Why did he die? Who killed him? These two mysteries kept flashing in his mind.

“Should I tell Xu Bai directly? But Xu Bai said before that if there’s no fight, I don’t need to expose myself.” Tong Manor Magistrate’s face was covered, but he was thinking about what Xu Bai had told him.

After hesitating for a long time, he still decided to follow Xu Bai’s instructions and hide in the surrounding area first. Then, he would wait and see.

At the thought of this, the Tong Residence Magistrate was no longer there. He continued to stay, turned around, and left the street. He found a place not far from Xu Bai and quietly hid there.

Time flew by, and in the blink of an eye, the night had passed. The sun once again hung in the clouds, illuminating the earth, filling the clay mansion with warmth.

The commoners began a new day of life. The streets returned to their usual hustle and bustle. The cries of hawkers rose and fell. Passers-by stopped or stopped, or hurried on their way.

Xu Bai, who was in the hidden house, frowned when he heard Xiao Nuan’s words.

“What did you say? All your men are dead, killed by an unknown person?”

Just this morning, she suddenly found Xu Bai and told him what had happened. Basically, she said that all her people had died and that she didn’t know who killed them. The situation had become very complicated and she told Xu Bai not to go out.

Xiao Nuan nodded and said in a serious tone, "Lord Xu, this must be done by those people who wanted to kill you behind your back. They must know that I sent someone to kidnap you, so you must not go out during this period of time.

At least before I clear your name, you can't leave the house."

As she spoke, she casually took a few steps forward, the veil on her body swaying, faintly discernible.

Xu Bai didn't say anything. Instead, he looked at the woman carefully.

Xiao Nuan did not flinch at all. She looked at Xu Bai openly as if everything she did was fair and aboveboard.

"Alright, I promise you, but... If I still haven't succeeded after three to five days, I'll leave this place." Xu Bai said.

Xiao Nuan nodded. "If you don't succeed, you can take my head. I won't have any complaints. Then, you guys stay here for the time being. I'll go out for a while. "

Xu Bai nodded and did not say anything else.

Xiao Nuan left cleanly, as if she was really running errands for Xu Bai.

After Xiao Nuan left, Ye Zi suddenly reached out with both hands and grabbed Xu Bai's palm. She used her fingers to gently slide across his palm and wrote down one word after another. "I keep feeling that there's something wrong with her."

Xu Bai nodded but did not respond.

In fact, he could see that there was something wrong. From the beginning to the end, this woman always looked very enthusiastic, as if she was trying to help him.

He had just picked her up last night, and all her subordinates were dead today. If there was no problem, it would not make sense.

However, Xu Bai was thinking about something else.

Was this woman the mastermind? Was there anyone else behind them?

If it was the mastermind behind the scenes, Xu Bai would be able to act boldly now. However, if it was just a small fry and there was a real master behind it, he planned to put it aside for the time being and wait until he caught the big fish behind the scenes before taking action.

“Let’s wait another three to five days and see what this woman wants to do.” Xu Bai grabbed Ye Zi’s hand and wrote.

Ye Zi hummed softly and did not continue speaking.

After experiencing such a small episode, time continued to pass, and everything returned to normal.

Xu Bai didn’t feel anything, but he could feel that the strange fragrance in the room was getting better and better.

As time passed, this strange fragrance gradually faded.

At first, he felt that there was nothing wrong with the smell, but then he realized that something was wrong.

Even after this woman left, this fragrance still existed. Could there be something fishy going on?

Thinking of this, Xu Bai had a plan.

There was a window in this room. He opened the window from morning to night every day to blow away the fragrance.

As time passed, the room returned to normal.

During that time, Xiao Nuan came by once and saw Xu Bai's actions. However, she did not show any reaction. It seemed that she was not interested in the things that Xu Bai made.

When Xu Bai asked when she could clear her name, Xiao Nuan only said that the time was almost up.

Just like that, the deadline of three to five days was getting closer and closer. It was not until the last day that Xiao Nuan rushed to her room..

Chapter 380: I've Made the Transmigrator Look Good (2)

"Let's go see someone. Don't stay here anymore. That person can help you clear all your grievances." Xiao Nuan had changed into a pink dress instead of a muslin dress. After she entered, she said confidently,"

The pink dress was tailored appropriately, accentuating her perfect temperament.

"Who do you want me to see?" Xu Bai asked."

"Lord Xu, it's not convenient to say now. We can't guarantee that there are no other people's ears and eyes here." Xiao Nuan said seriously.

Xu Bai turned around and exchanged a glance with Ye Zi."Alright."

He did not ask any more questions and decided to go over to take a look. Seeing Xu Bai's simple reply, Xiao Nuan didn't have any doubts. She turned around and led the way.

During this period of time, she had also seen Xu Bai's actions, such as opening the window and blowing away the fragrance in the room.

This fragrance was not poison, but medicine. It was a true tonic. Even an expert would be aroused by it.

It did not mean that the longer one stayed in this environment, the deeper one would be affected. When one inhaled the first breath of the fragrance, it had already buried its roots. For this root to grow strong, it needed time to cultivate.

Hence, when she saw Xu Bai open the window to let the fragrance go, Xiao Nuan did not stop him. She even acted very normal because she knew that all she needed was time.

Now, the time is just right

At this time, it was already close to night.

There was no one on the street. It was abnormally quiet.

Xiao Nuan led the way in front, swaying her soft waist. Xu Bai and the others followed behind. They left the clay mansion together and finally arrived at a forest.

At this moment, Xiao Nuan stopped in her tracks and stood there silently.

She turned around, her gentle eyes carrying a trace of mystery.

"What's wrong? Is there something on my face?" Xu Bai touched his face and said.

"Lord Xu, it's actually very simple to clear your name." Xiao Nuan said as she undid the belt around her waist.

The red dress fell to the ground. It was empty inside and white.

This scene happened very quickly. It started in less than a breath's time. Clearly, Xiao Nuan's movements were very skilled. This was not the first time she had done this.

"Slut!" Ye Zi snapped out of her daze and cursed. Her slender and fair index finger clenched into a fist, and her face was filled with disdain.

Xu Bai sized him up without any scruples and clicked his tongue. "I thought there would be some foreplay. I didn't expect it to happen so quickly. Tell me, could it be... Do you want to sleep with me here?"

This was the first time he had encountered such a situation. He had thought that he was here to fight a battle, or perhaps an ambush, but he had never expected that the other party would take off his clothes as soon as he arrived. What kind of strange move was this?

"Lord Xu, the moonlight is very beautiful tonight." Xiao Nuan walked over gently and said, "You... Isn't it hot at all?"

These words were as gentle as the river, but they were filled with words of tigers and wolves.

The next moment, Xu Bai was about to make a move when he suddenly felt a burning sensation in his lower abdomen.

"What's going on?" Xu Bai was slightly stunned. Then, his eyes turned red. He felt the heat coursing through his entire body, making him dizzy.

"What else could it be?" Xiao Nuan took another step forward and said slowly, "This is the happiest way. After all...The fox clan's method is to bring you happiness."

As Xiao Nuan spoke, a shadow suddenly flashed behind her. The shadow gradually stood up and turned into the shape of a fox.

“Demon?” Although Xu Bai’s consciousness was a little blurry, he could still see clearly.

The so-called evil and strange naturally meant that there were demons. As mentioned before, the demons in this world were demons. There was no difference between good and bad. There was only the difference between races.

“Young Master, it’s not a demon, it’s a shaman.” Ye Zi supported Xu Bai’s arm and said, “A branch of a spirit medium. They are willing to be slaves of the demon race and obtain their abilities. They are like rats, fleeing everywhere in the corners of the world and being hunted by everyone.”

Witch?

This was the first time Xu Bai had heard of this profession, and it seemed rather .

“You, a woman of the Ye family, really know a lot, but it’s not a big problem.

You still have to live. After I plant the seed for him, I’ll take your skin.” Xiao Nuan approached Xu Bai step by step and said, “At that time, I will become you, and you will become me to die.”

A strange fragrance rose from Xiao Nuan’s body, exactly the same as the one in the room before.

When this strange fragrance appeared, Xu Bai felt the heat on his body grow stronger. At the same time, his blood boiled and he couldn’t control himself. He wanted to move forward.

However, he still retained a trace of clarity as he said, “I didn’t expect that in the end, I didn’t even see the person behind the scenes, but I fell into your hands.”

Xiao Nuan was stunned for a moment before she laughed out loud, “Lord Xu, should I say it or not? You’re really cute sometimes. I’m the mastermind behind this, and my ultimate goal is to leave my current organization.”

“What organization?” Xu Bai’s gaze became blurry as he slowly walked towards Xiao Nuan.

As for the puppet of the Fourth Stage, it just stood there motionlessly.

“Young Master!” Seeing this, Ye Zi wanted to reach out and pull Xu Bai back.

But at this moment, Xiao Nuan suddenly raised her middle finger and flicked it at Ye Zi..
