

Unparalleled 411

Chapter 411: Inadequacies in the Water

Everyone finally understood.

Kong Xu took out the compass excitedly.

He could finally get close to the truth of the matter, and he could also play a role. Of course, he was especially excited.

The white light followed his finger and entered the compass. He closed his eyes and began to calculate with Lin Yong as the clue.

The next moment, the needle began to spin rapidly, but this time, it was different. It stopped at a certain position.

“Just as Lord Xu guessed, he is indeed related to this matter.”

Kong Xu pointed at the direction the needle was pointing at and said, “If we follow this direction, we will be able to find the truth.”

Xu Bai put his wine glass aside and stood up. “Let’s go and see what this guy is up to.”

Everyone nodded and followed Xu Bai in the direction of the needle.

Along the way, they didn’t take a leisurely stroll but quickened their pace. Soon, they arrived at the edge of the Zhile Ship.

However, beyond the border was a huge river.

Xu Bai turned around and looked at the compass in Kong Xu's hand. The needle on the compass did not move and was still pointing in the same direction, but they had already reached the end.

There were no ships behind the ship.

"What's going on? My compass has never been broken." Kong Xu was a little stunned, not understanding the current situation.

Xu Bai stood by the boat and leaned against the railing, looking at the river not far away.

A gentle breeze blew past, causing his black hair to flutter.

After standing there for a while, he suddenly said, "Could it be at the bottom of the river?"

Kong Xu, who was already lost, suddenly reacted and shouted, causing everyone to turn their heads.

"Lord Xu reminded me that it might really be at the bottom of the river." As he spoke, he made a gesture.

Kong Xu slowly rotated the compass, turning it into a vertical position. The needle was slowly moving, pointing downward along with Kong Xu's movements.

Kong Xu tried to move, but no matter how he moved, the needle was pointing below the boat.

What was under the boat was this Xunle River.

"Let's go." Xu Bai turned around and walked toward the stairs at the end.

Everyone hurriedly followed behind him. Not long after, they had already arrived at the lowest level.

However, the needle on the compass was still pointing downwards. It did not move at all, proving that it had to go down.

“Do we have to go down into the river?” Xu Bai frowned and fell into deep thought.

It was obvious that the problem lay in the river.

However, as this problem appeared, a series of problems also appeared.

If they were on land, Xu Bai wouldn't be afraid. But now that they were going into the water, he had some ideas.

He didn't have a cultivation technique suitable for underwater. If he went down rashly, it might be greatly reduced.

“Young Master, if we are underwater and the other party is a demon master, I think it is very likely related to the demons in the water.” Ye Zi displayed her authority as an encyclopedia and explained, “Legend has it that some underwater demons like to build nests in the water. After some demons capture people, in order to maintain their vitality, they won't kill them. Instead, they use a unique method to separate the nests so that people can live inside.”

“Yes, most demons like to eat living people.” Ye Family Head followed.

“Do you have any way to avoid the water?” Xu Bai rubbed his chin and asked.”

Everyone shook their heads in unison, indicating that there was no other way.

“They didn't cause a big commotion, but I have a feeling that they will take advantage of this festival to cause some trouble. Since we can't go down, we shouldn't let them cause trouble.” Xu Bai said slowly.

It was very likely that the reason why the other party had chosen to gather at this time was related to this festival. Moreover, there were so many people participating in this festival. Perhaps the other party's goal was these people.

In such a situation, he definitely could not go down. After all, the enemy was in the dark and he was in the open. Moreover, he was fighting in the water, which he was not good at.

However, it was not his style to let the other party cause trouble here.

"Lord Xu, if we let the people on these ships leave, it won't be done in a day." After all, it's an annual festival."

Indeed, as she said, this festival was held once a year and was extremely grand.

Not only were there many people participating, but it was also very difficult to get these people to leave the river at this time.

If these people didn't leave the river, it would definitely trigger a follow-up situation. At that time, the other party might use this opportunity to do something.

Although Xu Bai was not sure, he could not let the other party off easily.

As the saying went, if the enemy was unhappy, he would be happy.

Therefore, he had to make the other party unhappy.

"Of course there is a way." Xu Bai looked around and said.

"Young Master, what method do you plan to use to make these people leave?" Ye Zi asked curiously."

Xu Bai took a deep breath and walked to the edge of the Zhile Boat. The True Core Strength in his body continued to circulate, spreading his voice to the surroundings.

“Blood Slaughterer macheteman Xu Bai invites all the family heads to go ashore to discuss a major matter. Those who do not come will be punished. In addition, the commoners will also need to go ashore.” After saying this, everyone present was stunned.

“What a simple and direct method. “Everyone thought to themselves. Actually, there was no other way. The simplest method was also the most effective..

Chapter 412: Inadequacies in the Water

Didn't those high-ranking officials and nobles want to curry favor with him? Then he would use the excuse of discussing important matters and call all of them up. If anyone was unwilling, he would add a sentence of punishment at the end, then they would not dare not go.

As for the commoners, the best way was to use money.

What? You said that Wind Chime Manor advocated music, so how could it be tainted with this stench of money?

How could copper coins be smelly?

No matter how noble a person was, he still had to eat.

Xu Bai had already done it anyway. If there were still people who were obstinate and stayed on the ship, it had nothing to do with him.

After saying this, Xu Bai led everyone off the boat and rushed to the shore.

As he said this, a large number of people around him began to surge toward the shore and make sounds from time to time.

“Quick, quick, quick. Lord Xu has something important to discuss. It must be something important. This is an opportunity.”

“What’s wrong with you, the head of the family? Can you walk faster? Don’t delay my discussion with Lord Xu.”

“Bullsh * t. Lord Xu clearly wanted to talk to me about something. How could it be you?”

These words were exchanged between the high officials and nobles, but the exchanges between the commoners were much more honest.

“What? Someone is giving out money? Then hurry up.”

“Hurry up. If you’re late, there might be nothing left.”

“Wouldn’t it be great to take the money first and then continue the exchange on the ship?”

Gradually, the ship was empty, and the shore was filled with people.

Everyone turned to look at Xu Bai.

Xu Bai was especially calm. He had one hand behind his back and the other on the black sword at his waist. He looked at the huge Xunle River in front of him.

Everyone had already left, but his eyes were still fixed on the Zhile Ship.

Lin Yong stood at the bow of the Zhile Ship, his body wet. He was smiling at Xu Bai with his hands on the railing.

However, there was a hint of hatred in his smile, as if Xu Bai had interrupted his grand plan.

“Master Lin, it seems that it’s not easy underwater. You have to change your clothes. Why don’t you come ashore and change?” Xu Bai shouted.

At this time, the people on the shore also looked in the direction of Xu Bai’s voice. Soon, they found Lin Yong, who was in a sorry state.

“Lord Xu, you’re indeed a high level of a Paragon.” “I never thought that Lord Xu would use such a simple method to lure everyone down,” Lin Yong said loudly.”

At Lin Yong’s waist, a black and white snake was circling, revealing his identity.

“Although it’s a bit of a failure on the verge of success, this is only a failure. We still have many things to do in the future. “Lin Yong reached out and stroked the snake on his waist.

The snake straightened its body and stared at Xu Bai coldly. It slowly spoke in human language,““The Centipede brothers died in your hands. The Monster race will definitely remember this. You won’t be able to leave Wind Chime Manor alive.”

Xu Bai shrugged and hooked his index finger.““Come over here.”

The corner of Lin Yong’s mouth twitched.” Bloody Slaughterer Swordsman would also do such a childish thing. I didn’t expect that. Although I won this time, it wasn’t a complete victory. Look who’s beside me?““

As he spoke, the Prefect Ling was tied up and brought over beside Lin Yong.

Clearly, the prefecture commander had been captured long ago. He did not know what method he had used to actually be restrained.

“Lord Xu, look, you can save these people, but you can’t save the highest official in Wind Chime Manor.” Lin Yong stood on the Zhi Le Ship and looked at

Xu Bai from afar. “It’s a pity.”

“You think you can kill him alone?” Xu Bai asked.

Lin Yong was stunned for a moment, then he subconsciously said, “I can’t.”

Xu Bai suddenly cupped his hands and said, “Your Excellency, you are serving the country and the people. Now that you have fallen into the enemy’s hands, you have sacrificed your life bravely. You are a real man.”

Hearing this, everyone present was stunned. They had thought that Xu Bai would at least say something. After all, this was the highest official in Wind Chime Manor. The highest official had been captured, so they had to think of a way.

But unexpectedly, after waiting for a long time, Xu Bai said something out of courtesy. His meaning was already very obvious.

Your prefecture token has been captured, so you should be prepared to sacrifice yourself. I have no intention of saving you.

Of course, everyone understood what he meant. However, when Xu Bai said it, it seemed very reasonable. He even gave the magistrate a title of heroic death.

The magistrate was tied up and gagged. When he heard Xu Bai’s words, his eyes widened and he looked at Xu Bai in disbelief.

Lin Yong finally recovered from his daze and gritted his teeth, “Lord Xu, I think this matter can still be discussed. We can let him go, as long as...”

Xu Bai waved his hand and said, "There's no need. I believe in Lord Prefect Magistrate's character. He is very willing to sacrifice his life for the country. I will report to His Majesty and ask for a good title for Lord Prefect Magistrate. ""

Lin Yong was speechless.

Why didn't he follow the moves at all?

Why didn't they discuss it? Why were they in such a hurry to send the other party to his death?

Please, can we discuss this?

He tried hard to control his temper, but he couldn't control it no matter what.

He stretched out his hand and slammed it on the railing of the Zhile Boat. "Xu Bai! If you don't help, these people will see you. When the time comes, you won't be able to do well either."

"That's for later," Xu Bai said with a smile. "Who can say for sure after that?"

Maybe I'll kill all of you and gain a good reputation.."

Chapter 413: Inadequacies in the Water

At this point, Xu Bai's gaze became playful. "Speaking of which, why haven't you made a move yet? Don't tell me that this prefecture token is also one of your people. Don't let him go now. If you let him go, I will suspect him too."

After he finished speaking, the scene fell into a strange silence. Other than the occasional breeze blowing from the river, the place seemed unusually deserted.

“Sigh...” The magistrate’s body shook and all the ropes on his body fell off. He took off the cloth in his mouth and sighed.”As expected of the Bloody Butcher Saber Guest. In terms of ruthlessness and irrationality, you’re still better at it.”

“No, no. I just felt that your clothes were still dry, and I sensed that something was wrong. “”‘ If he really tied you up and wanted to hide you, he could only hide you in the water,” Xu Bai said teasingly.” But you did it.””

Previously, on this ship, he had used the power of his divine soul to search everywhere.

He did not find the prefecture token. If the prefecture token really wanted to hide, it would definitely be hidden underwater. However, the clothes on his body were dry. This was suspicious.

As for whether he was on another ship? It was simply impossible.

Even when they left the Zhi Le boat, Xu Bai was still paying attention to the situation here. He didn’t see the boat sailing in the direction of the Zhi Le boat.

Then there was only one ending.

The prefecture commander had used some special method to avoid his divine soul.

The question was, why did he hide?

This was very obvious.

Therefore, Xu Bai had already thought of this and did not make a move.

“A prefecture order and the largest clan in Wind Chime Prefecture.”Xu Bai said slowly, Why did you collude with the Monster Clan?”

At this moment, everyone understood the reason.

They were all relieved. Only then did they know why Xu Bai wanted them to return to the riverside. They looked at Xu Bai with reverence.

Especially those officials and nobles, they were even more respectful in their hearts.

It had long been said that Xu Bai, the macheteman of Bloody Slaughterer, was ruthless and decisive. However, no one said that he was not only decisive and ruthless, but also more resourceful than ordinary people.

“Xu Bai, the matter has already been exposed. We don’t care. Next, we’ll see who will win in the subsequent exchange.” Although Lin Yong failed, he still said, “You can’t do anything to us. If you have the ability, come into the water and try.”

After saying this, Lin Yong and the magistrate dived into the water and disappeared after a moment.

“I’ve seen arrogant people on my way here, but I’ve never seen anyone this arrogant.” Xu Bai looked at the disappearing figures of the two and said indifferently, “Usually, I’ll twist off the head of such an arrogant person not long after.”

A cold wind blew past. Coupled with Xu Bai’s words, it made everyone present shiver.

“Lord Xu, now...” A prefecture token and the Lin family,” Kong Xu said hesitantly. “It seems that Wind Chimes Prefecture is in chaos.”

The highest officials were all traitors, so how could there not be chaos?

“The people from the Heaven Inspectorate are about to arrive. Let’s wait for them to arrive before we talk.” Xu Bai ignored the people around him and turned around to walk toward the Ye family.

The people from the Sky Supervision Bureau were probably on their way here

for the murder case. Xu Bai didn't have to do this. The people from the Sky Supervision Bureau would naturally take care of it.

The people present did not dare to follow him. Xu Bai had saved them. Moreover, Xu Bai's words were very cold. They were afraid that they would make Xu Bai unhappy if they followed him.

Only Ye Zi and the others followed Xu Bai back to the Ye family. As for what the rest of the people wanted to do, Xu Bai did not care. Anyway, they just did not want to go to this river.

After returning to the Ye family, Xu Bai sat on the chair in the room and enjoyed Ye Zi rubbing his shoulders. However, he was thinking about what happened today.

It seemed like a victory, but Xu Bai discovered another weakness.

This weakness was the battle in the water.

If he was good at fighting in the water, Lin Yong wouldn't be able to leave today. However, he didn't make a move today because he lacked this cultivation method.

He was not good at going underwater. If he rashly went to the Zhile Ship to fight, he was afraid that it would cause a bad result.

"Young master, are you not thinking about what happened underwater?" Ye Zi rubbed Xu Bai's shoulders and asked.

"That's right. Do you know any families that are good at underwater combat?"

Xu Bai nodded."

Ye Zi shook her head and said, "If it's in Wind Chime Manor, there really isn't anyone who's good at underwater combat. After all, most of the people here are good at music.'"

Xu Bai nodded.

That was indeed the case. If it was anywhere else, he might be able to find someone who was good at it or find the relevant progress bar, but it was difficult to find it here.

As the saying went, distant water could not quench one's immediate thirst, and it was impossible for him to go out and look for it.

It was impossible for the other party to let him out.

Therefore, they seemed to have fallen into a dead end.

To solve the problem, he had to get into the water.

However, it was definitely not safe to enter the water.

This was a cycle that had to be broken.

Xu Bai picked up the teacup and took a sip, thinking carefully.

At this moment, Ye Zi rolled her eyes and whispered into Xu Bai's ear, "Didn't Young Master want to solve the problem? Ye Zi has an idea.."

Chapter 414: The Progress Bar on the Building

"Oh, tell me." When Xu Bai heard Ye Zi's words, he instantly perked up and stood up from his chair.

It had to be said that the encounter tonight had indeed made him a little speechless. The other party's method was completely to take advantage of his shortcomings, so that he did not dare to go into the water.

Especially when he thought of Lin Yong's arrogant expression tonight.

Although he had won the game this time, not only had he exposed Lin Yong, but he had also exposed the prefecture commander. No matter what, he was especially unhappy that he did not completely kill the two of them tonight. Other than the progress bar, he was thinking about how to capture Lin Yong and twist his head off.

Being underwater was indeed one of his shortcomings, so up until now, he still hadn't thought of a good way.

If he were to find a cultivation technique that was suitable for underwater cultivation, he would need to leave Wind Chimes Manor. However, that was unrealistic. It was obvious that the other party would not let him leave.

Or rather, he could use himself as bait and pretend to leave to see what the other side could do.

This was a good method, but there were still some inappropriate aspects to this method. If the other party came to lure the tiger away from the mountain and first let him leave, then think of a way to carry out his plan, wouldn't he fall into the trap?

For example, if the other party really wanted to use this method to force him to leave, then use other methods to strengthen himself while he left and then turn around to deal with him, then it would be completely in line with the other party's wishes.

Therefore, he could not leave. Moreover, he had to think of a way to deal with those fellows and vent his anger.

Could he endure it? He couldn't bear it.

Ever since Xu Bai entered this industry, he had never enjoyed the feeling of tolerance.

Ye Zi bent down and whispered into Xu Bai's ear, "Young Master, the other party is relying on the water as a cover. What if there is no water as a cover? Then they can't be arrogant."

Interesting." Xu Bai rubbed his chin." Continue. ""

If the other party did not have water to rely on, then it would only be a matter of one slash if he wanted to kill them. It would not be so troublesome at all.

Don't forget, he seemed to only have the ability of a Rank Three, but after he had the Saber Intent, he could totally fight a Rank One. Although he did not know what the result would be if he fought a Rank One, a Rank Two was defenseless in front of him.

"Young Master, what I mean is that if we drain the water, won't we be able to reveal their traces?" Ye Zi giggled.

Xu Bai frowned." I'm afraid it won't be that easy.""

If it was a lake or a river, then this method was indeed feasible. After all, they relied on water. After draining the water, wouldn't the other party be exposed?

However, this idea was good, but there were some difficulties in implementing it because what was in front of him was not a river or a lake, but a river.

The Xunle River was a vast river. If he wanted to drain the entire river, he didn't have to do anything else. He could stay here for the rest of his life and slowly drain the water.

Although he had already reached Level Three, it was extremely difficult to make the entire river disappear for no reason.

Therefore, Ye Zi's method seemed to be very good, but there were some practical problems that needed to be considered. Otherwise, it could not be implemented.

"Young Master, what I mean is that we don't need to drain the entire Jiang Du. Don't you know how to use tricks?" Ye Zi asked.

Xu Bai nodded.

He did know how to use clever techniques, but what did this have to do with draining the river water?

Ye Ziwei said,

"Today, I saw their location, including the location of the entire Xunle River. It's only a few hundred meters long. A few hundred meters long can reveal where their nest is.

If Young Master used the Technique of Manipulation to block the hundreds of meters of distance, he would only need to drain the water. That way, the difficulty would be much lower and we wouldn't need to drain the river.

"Good idea." Xu Bai held Ye Zi's hand and said, "Looks like it's useful. Those families can also play their role. ""

According to Ye Zi's method, Xu Bai felt that he did not even need to do the pumping. He just needed to cut off the upstream, and the downstream would naturally be exposed.

Ye Zi reminded him, "Young Master, you can't just cut off one section. It must be at both ends. Moreover, in the middle of these two ends, you must dig a sufficient canal so that the water flow can be washed away. Otherwise, the pressure will be very great. ""

As she spoke, Ye Zi stood up from Xu Bai's arms and turned to the cabinet. She took out a piece of paper from the cabinet and returned to Xu Bai's arms. She shifted her hips to make herself more comfortable.

Maintaining this posture, Ye Zi began to sketch.

Xu Bai held her waist with one hand and rested his head on her shoulder, looking at Ye Zi from this angle.

Not long after, the painting was done. Ye Zi brought it to Xu Bai as if she was asking for credit.

“Young Master, look at this painting I made. We can completely use this method to intercept the flow. It will be much safer then.”

After all, it was the Xunle River. If he wanted to successfully block this river, he had to be careful. Otherwise, he would fail..

Chapter 415: Progress Bar on the Construction (2)

There was a clear mark on the painting, and it was cut off from both ends. At both ends, there was a deep ditch that could be used to divert the water.

“The only drawback is that if we really do this, it will cause a huge commotion. However, if we cause such a huge commotion and the other party runs away, there’s really nothing we can do.”Ye Zi said.

After all, it was such a big project, so it was impossible to be careful and quiet.

The other party was right under the Xunle River. Once they did this, the other party would definitely sense it. Once they sensed it, they would definitely run. If they didn’t run at that time, they would be too stupid.

Xu Bai said slowly,“Don’t worry, the preparation will be very complicated. If you are really ready, it will be very fast from the beginning. ”“

His Mechanical Puppet Technique was at the maximum level, and he had fused it with the Mechanical Pavilion and the Man-Weapon Technique. Therefore, he was very good at this aspect. As long as he made the right technique, he could instantly cut off the connection. After all, he was not going to draw an entire river. He was still confident in this method.

The only problem was the materials. They didn't need particularly good materials, just slightly sturdy ones.

But was that a problem? That was not a problem at all.

"Tomorrow, ask Patriarch Ye to send a letter to the other families and ask them to come and have a meeting with me. I'll tell them what to do." Xu Bai said with a smile.

Wasn't the clan trying to curry favor with him?

Then he would give these families a chance to curry favor.

If you want to suck up to me, you must prepare the materials for me. The materials I told you are not particularly expensive. It's just that the quantity is relatively large. The entire Wind Chimes Manor can definitely gather them.

"Gongzi, Miao." Ye Zi giggled.

"Just talk?" Xu Bai said.

Ye Zi rolled her eyes and said, "I'm praising Young Master..."

Xu Bai stroked Ye Zi's back and said with a smile, "You can just say it, but you have to change your position."

Ye Zi was stunned for a moment. Then, she reacted and bent down with a charming face.

The next day.

Early this morning, all the families in Wind Chime Manor received a piece of news. It was a message from the Ye family's patriarch.

The message was very simple. There was only one sentence, and that was that Lord Xu had invited him to discuss important matters with the family heads.

As for what it was, the message didn't say, so they couldn't guess. However, at least they had some clues. They guessed that it was related to what happened last night.

In Jianghu, it was rumored that Xu Bai was decisive, ruthless, and capricious.

However, this was only a part of it. There were even rumors that Xu Bai would take revenge for the smallest grievance. As long as he was treated unhappily, he would take revenge on the same day. He would never drag it out.

Therefore, when they thought of this, they all understood that Xu Bai was definitely very dissatisfied with the situation last night. After all, Lin Yong was about to jump on his face. If they still had to endure it silently, it would not fit Xu Bai's character.

These families had their own ideas, but most of them wanted to help.

As for the rest, they were thinking about how to help them and highlight their value so that they would not lag behind the other families.

After all, with their current information gathering ability, they had long known that Xu Bai had invited all the families. If they wanted to stand out among these families and get Xu Bai's attention, they had to put in more effort.

As a result, the clan heads who were like shrewd people began to fight one after another on the way here.

It seemed that there were no waves between them, but in fact, they had already begun to secretly fight. In order to obtain more benefits, they would do anything.

Fortunately, they knew that they couldn't be too obvious now. After all, Xu Bai was still here. They were just bickering with each other to test each other's intentions.

Not long after, the family heads had already arrived at the Ye family. Fortunately, they only invited the family heads of those families this time and did not invite anyone else.

The Ye residence was relatively spacious and could accommodate many guests, especially the guest rooms. Although there were many people, there was still a very wide distance between them.

The Ye Family Head was personally entertaining them. After all, these people were of similar status to him. Although some of them were slightly lower in status, there were still some people with higher status than her. Because there were many people, she was too lazy to be responsible for each of them.

"Patriarch Ye, you're so close to Lord Xu. Do you know why you called us here this time?"

"I think some people just want to ask around. Are there some things that you can ask about? He just needed to shut his mouth quietly and wait for Lord Xu to come."

"You can't say that. They're just asking around for us. Everyone, please be polite. There's no need to be so angry. After all, we're also helping Lord Xu now. "

The crowd seemed to be a little noisy. Some people took this opportunity to discover that their competitors competitors were also present.

Of course, they didn't make a loud noise and maintained a trace of restraint. If they made a noise in this place and caused Lord Xu to be unhappy, they might lose this opportunity..

Chapter 416: Progress Bar on the Construction (3)

Seeing this situation, the Ye family head quickly stopped their open and secret struggles and said helplessly, "Everyone, don't look at how Lord Xu is staying in my residence. Actually, it's all because of Ye Zi. I don't know what happened today, so don't ask me."

It had to be said that these people were as smart as monkeys. Even their tone of voice could be analyzed for a while.

Just like what the Ye family head said just now, it seemed like he was explaining to everyone, but he also brought out Ye Zi De as a warning to everyone present.

She just wanted to let the other families know that she was very close to Xu Bai now, so everyone had to give her some face in the future.

How could the people around her not understand what she meant?

They hurriedly cupped their hands to express some flattery. Some even wanted to cooperate.

Those families usually looked down on the Ye family. Although the Ye family was also a prominent family here, they had some problems with their methods. With Xu Bai's return, more and more people were working with them.

Xu Bai hadn't arrived yet, so they started chatting with each other.

In addition to the beginning of the fight, there was a lot of tension in the back. No one wanted to lose their impression at this time. After all, they were going to see Xu Bai soon.

After about the time it takes for an incense stick to burn, Xu Bai slowly walked out and went to the living room.

Seeing Xu Bai walk in, the family heads slowly turned their heads and looked at Xu Bai.

They saw clearly that Xu Bai was holding a stack of paper. Although it didn't look very thick, there were still a few pages. This situation made them very puzzled. They didn't know what would happen next.

"Sorry for the long wait. I was preparing these things when I came, so I was a little late. I didn't make everyone wait too long, right?" Xu Bai waved the paper in his hand and smiled.

He looked very amiable. Compared with the fierce god on the river last night, Xu Bai looked like a civilized man at this moment. He didn't have the shadow of last night at all, which made people dumbfounded.

This was not an illusion, so they quickly replied that it was not long at all.

Xu Bai found a seat and sat down. Then, he smiled and looked at the Ye family head. "'Divide these materials into a portion, and the number of each material is also marked on it.'

The paper recorded the materials he needed to make. Not only did it have the names of the materials, but it also had the quantity he needed. This was what he had communicated with Ye Zi overnight.

Including which family was suitable for making which materials, he asked them one by one and marked them.

Although the Ye family head was confused, he still followed Xu Bai's method and gave everyone a card.

After everything was done, Xu Bai slowly said...

"Everyone, take a closer look. I hope that you can gather all these things within three days and send them to the Ye family."

When the family heads heard this, they lowered their heads in unison and looked at the contents recorded on their fingers. After about the time it takes for an incense stick to burn, they looked up in surprise when they finished reading.

“Lord Xu, do you want all these things?” A clan head asked in surprise.

Although the other family heads did not speak, their expressions were the same as this family head. They were all very surprised.

They couldn't be blamed for being surprised. The materials on the list didn't look expensive, but there were so many of them that it made their scalps go numb.

They didn't know what it was used for, so they didn't ask about it. They shouldn't ask. If they did, they would get burned.

“We have to find all of them. No one can be left behind. I'll leave this matter to you. I'll rest assured.” Xu Bai took a sip of tea and said slowly.

Although his tone was very slow, his words were absolute. He meant that he had to do this for him. If he did it well, he would be rewarded. If he did not do it well, it would depend on what happened next.

Since he had a deal with the Emperor, the Emperor would definitely reward those who helped him along the way. This was without a doubt, so Xu Bai could make a bold promise without worry.

After Xu Bai said this, all the family heads present fell silent. After about ten breaths, one of the family heads stood up and cupped his fists at Xu Bai.

“Lord Xu, don't worry. I'll definitely do what you said. If there's a missing material, you can hold me accountable.”

With him taking the lead, all the family heads present cupped their fists and agreed.

Xu Bai nodded and put down the teacup in his hand. “Everyone, do as I say. I said within three days, the sooner the better.”

The clan heads hurriedly nodded in agreement. They did not stay here and left as soon as possible.

These things were not expensive, but there were a lot of them, so it would take time to gather them.

“Lord Xu, you are...” Ye Family Head hesitated.

Xu Bai glanced at them indifferently and said, “Ask what you should ask, and don’t know what you shouldn’t know. The less you know, the better.”

When the Ye family head heard this, he hurriedly responded a few times before leaving.

“Let’s go back and continue reading.” Xu Bai stood up and returned to his room with Ye Zi accompanying him..

Chapter 417: Progress Bar on the Construction (4)

After that, there was nothing else to do.

Xu Bai was in his room, waiting for the materials from the families.

In the past few days, the family heads of the family had been sending materials one after another. Every time they sent something, Xu Bai would tick an item on the list and mark who sent it at the back.

The materials had not been gathered yet, but the Nameless Saber Scripture in Xu Bai’s hands was full over the past few days.

[You have comprehended the Nameless Saber Scripture and comprehended the 24 Steps of Armor Penetration (Incomplete).]

“Movement technique again.” Xu Bai thought to himself.

After the light blue words appeared, before they could turn into information and enter Xu Bai's mind, they turned into smoke again.

The smoke did not completely disappear. Instead, it flowed in the air and transformed into the latest words.

[Fusion option found. Fusion in progress.]

[24 Armor Penetration Steps (Incomplete)+ Rank 3 Path Penetration = Rank 4

Path Penetration.]

[Fusion successful!]

At this moment, the light blue smoke completely disappeared and turned into a message that quickly entered Xu Bai's mind.

Xu Bai closed his eyes and absorbed the information in his mind. Then, he opened his eyes again and looked at the latest panel.

[Name: Xu Bai]

Realm: Third-stage unspecialized.”

“Five Sword Moves (Level 7): Maximum level.] [Reversing Purple Cloud Squall Yin Yang Song (Level 7-5):[Maximum level.]

[Wind Snow Return (Level 5): Maximum level.] [Breaking through rank four (level 6): Maximum level.] [Shifting Stars (Level 4): Maximum level.] [Diamond Heart Devil Body (Level 4), max level.] [Kidney Harvester (Level 5): Maximum level.] [Hundred Poison True Clear Rank 3]: Full Rank.] [Clever Puppet

Technique (Level 6): Maximum level.] [Indestructible Body (Incomplete)(Level 5):[Maximum level.] ”
Comprehension: Maximum level.”

Xing PO's fourth-tier technique had reached the sixth rank, which was equivalent to the fourth rank. He suddenly felt that after he had absorbed all the information in his mind, there seemed to be something extra.

As for what was extra, he could not say.

It was like an eagle that was about to break out of its shell, but it was blocked and could not break out completely.

Xu Bai stood up and tried to execute the Four Revolutions of Breaking Down. With a move of his feet, he disappeared from where he was. When he reappeared, he was already in another place.

Whether it was speed or speed, there was a qualitative improvement, but he felt that something was missing.

In the past, when his level was low, he could not sense it. Now that his level was getting higher and higher, he could clearly sense it.

The feeling of being about to undergo a qualitative change lingered in his heart, but he was bound by something.

“Perhaps when the seventh rank is reached, it will be the time for a qualitative change, just like the Five Styles of the Knife. “Xu Bai thought to himself.

When the Five Moves of the Chess Blade reached the seventh rank, it would produce blade intent. He wondered if his current movement technique would produce the same effect when he reached the seventh rank.

Thinking about it carefully, it was very likely. However, there was no new progress bar now, so he could only guess.

Thinking of this, Xu Bai took out a new Nameless Saber Scripture and began to study it carefully.

There were still fifteen books left, which was a massive project.

However, sometimes, the more you wanted to do your own things quietly, the harder it was.

Just as he was about to continue, Ye Zi walked in from outside the door.

“Young Master, the last item has been delivered. Do you want to come and take a look?”

Ever since he started to check the progress bar, Ye Zi had been in charge of it. At this moment, Ye Zi had already brought the general list to Xu Bai, and it was filled with her notes.

Xu Bai took it and glanced at it briefly. He put the Nameless Saber Scripture back before standing up and walking out.

“Let’s go take a look.”

In the Ye family’s warehouse.

The warehouse was originally very big, but it was now full.

Not only that, but even the front and back yards were filled with these materials.

During this period of time, Xu Bai did not hide these things. After all, he could not hide these things.

However, he had the puppet of the Fourth Stage wait by the river and observe the situation.

At least on the surface, there was nothing unusual about the Xunle River. It looked no different from usual.

Xu Bai didn't care if the other party had run away. Even if he wanted to run, he could only run in the river. If he was caught on land, he would die.

Run? It didn't matter.

The things he made with these materials could be recycled. If the other party really ran away, he would put these things away. After putting them away, he would take them out the next time he encountered them and instantly intercept the other party.

So running or not running or speaking to him, it's just a matter of time.

"Lord Xu, it's all here." Ye Family Head stood guard outside and was especially careful, afraid that something would happen to these materials.

"Thank you for your hard work, Patriarch Ye." Xu Bai replied politely and began to tidy up the materials on the ground.

The ground was piled up like a mountain. As long as the Ye family had spare space, they would all be piled up.

Patriarch Ye, Kong Xu, and the others were all curious as they watched from the side.

Even though Ye Zi knew about Xu Bai's clever skills, she was also extremely curious when she encountered such a situation.

Xu Bai began to move. He was like a focused old master. His hands did not stop, and he continued to piece together and polish the materials..

Chapter 418: Progress Bar on the Construction (5)

This time, he needed to polish it, but Xu Bai was very familiar with it. After all, he was at the maximum level.

During this period of time, he had also chatted with Ye Zi and knew the approximate depth of the Xunle River.

It was just two simple interception objects that were not used for anything else, so there was no need for high-end techniques.

Time gradually passed. Although it did not require high-end techniques, it was still a huge project, so it was quite time-consuming.

It was not until the afternoon that a huge pile of components appeared on the ground.

Xu Bai didn't immediately put them together. Instead, he made them into components one after another. When the time came, he would bring the components over and put them together on the spot. Otherwise, it would be too big to put them together and it would be difficult to carry them around. After all, he was still in Wind Chime Manor.

"Patriarch Ye, I'll have to trouble you to bring these things over." Xu Bai said.

Even though he had divided it into many smaller components, there were still a lot of them. He had to let someone carry them.

The Ye family head was also very straightforward. He immediately asked the servants to bring the things and follow behind Xu Bai.

When she did not have enough manpower, she went to the family next door to borrow people. Anyway, they were all involved in this matter, and the other party was quite willing.

Then, something that shocked the entire Wind Chime Manor happened.

A group of people carrying all kinds of strange toys was passing through Wind Chime Manor and rushing towards Xunle River.

The commoners all knew who Xu Bai was. After all, Xu Bai had performed exceptionally well during the Music Water Festival some time ago. Therefore, even the commoners knew who Xu Bai was now.

They moved very quickly and soon arrived at the side of the Xunle River.

Standing by the river, Xu Bai began to make the final combination. This speed was very fast.

A moment later, two incomparably huge, door-like machines were formed.

Not only that, but there was also an extra long strip.

Don't misunderstand. This strip was used to dig out tributaries. After all, it was very likely that it would fail if it was blocked by just two door panels. With an additional tributary, it would be much more convenient.

"Lord Xu, I'll get someone to put this down." Ye Family Head said.

At this moment, she finally understood what Xu Bai wanted to do. If she still didn't understand, she would be really stupid.

However, it was especially difficult to put down two such big things, so she asked the servants to prepare to do it.

Xu Bai shook his head. "If I need you to do it, why would I make these things?"

The Ye Family Head was stunned for a moment before he reacted and stood quietly at the side.

Then, Xu Bai activated his True Core Strength.

The first thing that moved was the huge, long machine.

This huge machine rose into the air and started from one end of the Xunle River. It circled around and landed on the other end before sinking into the ground.

This speed was very fast. In the blink of an eye, a branch appeared in the Xunle River, and the water flowed along this branch.

With the strength of a third-grade, using the sixth-grade mechanical puppet technique was simply too simple. It was also not some complicated mechanical skill, so it was naturally very convenient.

In terms of difficulty, Black Blade Hundred Rend was a little more difficult.

After doing all this, he turned his attention to the other two huge door panels.

Under his control, the door slowly rolled to the side of the river. One of the pieces landed on one end of the diversion, and in the next moment, the Xunle River was cut off.

Taking advantage of this time, he controlled another piece and landed on another end.

When the two pieces sealed both ends, the entire Xunle River was empty. This section of the river had disappeared.

Other than the fish on the riverbed, there were only some aquatic plants.

Xu Bai walked closer and looked at the empty riverbed. He found that the people inside had already run away.

In the middle was a very simple building.

Although it was simple, it was very large and could accommodate up to a hundred people.

This was Lin Yong's habitat in the water, but there was no one there.

Seeing this, Xu Bai fell silent.

Seeing Xu Bai's current state, the Ye Family Head couldn't help but comfort him, "Lord Xu, we still have other opportunities."

She thought that Xu Bai had suffered a setback, so she wanted to comfort him.

Kong Xu also said, "Don't worry, Lord Xu. I can take this opportunity to do a divination. Maybe we have other discoveries."

Everyone present thought that Xu Bai had been dealt a blow, but Ye Zi was different.

"Young Master, did you discover something new?" Ye Zi shook his head.

She was the only one who knew Xu Bai the best here, so she didn't believe that Xu Bai would be affected by such a small matter.

Xu Bai smiled and said, "You think you can beat me? I think you will run when you think you can beat me. So next, let Kong Xu calculate the fortune. But before this, they gave me a big gift."

The other party was not a fool. It would be strange if he did not run when he saw him doing these things. He had already prepared for this.

Kong Xu was proficient in divination. Even if the other party ran away, he could use this opportunity to see if he could calculate anything useful.

This was one of his plans.

But he didn't expect that there would be gains beyond his plans.

Looking at the enormous building below, Xu Bails lips curled up slightly.

“Lin Yong, Lin Yong, if it's really what I think it is, then you might really die a miserable death.”

On the building, a golden progress bar was slowly increasing..

Chapter 419: Water Dividing Altar's Water Assimilation Method (1)

Yes, it was the progress bar.

Xu Bai stood on the bank of the river and stared at the simple but huge building below. His eyes were filled with excitement.

Although the water here had dried up, it was still a little wet. Only the progress bar floating above the building made him feel unusually eye-catching.

The progress bar could not be triggered by books alone. This could be seen from his first time in the Ferocious Tiger Camp.

Now that the clues were gone, he could only rely on Kong Xu's divination. This was not important. What was important was the new progress bar. This was the biggest gain for him.

The progress bar was in the water, and if it didn't go well, it would have a relationship with the water. If he didn't guess wrong and it really did have a

relationship with the water, then Lin Yong's future days might not be good.

In the beginning, Lin Yong's so-called reliance was because he could move freely in the water. If Xu Bai went into the water, his combat strength would be greatly reduced, so this was the capital of Lin Yong's arrogance.

However, if the progress bar was not the same, and they could really learn water-related skills, then the so-called arrogant capital would be gone.

At that time, Xu Bai could jump into the water and blow Lin Yong's head off.

Thinking of this, Xu Bai rubbed his hands, looked at the distance, and jumped down from the edge of the river bank.

This height had no effect on his current strength at all.

As he jumped down, he heard the whistling of the wind. Not long after, he had already landed steadily at the bottom of the river.

The bottom of the river was a little slippery, but it didn't affect Xu Bai at all. When he jumped into the river, the Ye family's head and the others looked at each other and followed Xu Bai to the bottom of the dried river.

Although they didn't understand why Xu Bai jumped down, they didn't hesitate to follow him.

After Xu Bai came down, he walked straight to the huge building. When he reached the edge of the building, he realized that there was still some distance to the progress bar.

When looking from above, the progress bar was at the top of the building. There was definitely nothing related to the progress bar at the edge, and it even blocked the progress bar.

At the thought of this, Xu Bai exerted strength in his legs and leaped high into the air. Like a soaring eagle, he landed steadily on the roof of the building.

The progress bar appeared in front of him again. Xu Bai, who was standing on the roof, walked over quickly without hesitation.

A gust of wind blew from time to time. After all, this place was very deep and there was no water. Moreover, it was in the wilderness, so it was normal for there to be wind.

The wind blew from time to time, mixed with the coldness unique to the bottom of the river. It was like a bone-scraping steel knife that passed through Xu Bai's body. However, Xu Bai did not feel it at all. He walked step by step in front of the progress bar.

The golden progress bar was particularly eye-catching. After crossing the golden progress bar, Xu Bai realized that there were a few strange patterns below the golden progress bar.

He could not understand what the pattern was, but it did not mean that Ye Zi could not understand it.

Ye Zi had always been by Xu Bai's side. When she and Xu Bai came to the roof and saw the words left on it, she could not help but exclaim in surprise, "Young Master, it's the demon language."

When Xu Bai heard this, he turned to look at Ye Zi beside him and said, "What do these demonic characters mean?"

Humans had their own language, and the demons definitely had their own language as well. These two principles were not contradictory.

However, he didn't know Xu Bai. After all, he hadn't been in this industry for long. It would be strange if he knew him. That was why he asked.

Ye Zi walked closer and carefully identified it for a while before saying, "Water Dividing Altar. "

Xu Bai didn't have much of a reaction when he heard this. This was the first time he had heard it, but Kong Xu's expression changed and he couldn't help but shout.

"What? Water Dividing Altar?"

"What is this?" Xu Bai frowned. Is he very famous?"

Water Dividing Altar?

Never heard of it.

Kong Xu came back to his senses and said, "I've heard of this name before. It's said that when the humans and the demons were fighting, the demons were beaten to a pulp by the humans. They were in a constant state of panic, so they were like rats on the street at that time."

"In the past, it was the demon race that ruled this land. However, with the gradual development of the human race, they took the initiative in this world. If it were anyone from the demon race, they would also feel that it was unbearable. Therefore, this huge psychological gap caused them to develop a serious mentality of revenge."

"A portion of the demons wanted to die together with us, so they set up the Five Elements Demon Altar, which is divided into five types: metal, wood, water, fire, and earth. If they succeeded, they would exterminate the human experts."

"This Water Dividing Altar is one of them. It's only one of the Five Elements Demon Altar's arrays, but it has already been destroyed. It seems that what we're seeing now is a fake."

Following Kong Xu's explanation, Xu Bai finally understood the situation.

Counterfeit?

Was it related to water?

It didn't matter, as long as it was related to water. He was determined to get this progress bar.

Xu Bai rubbed his chin and thought about what he should do next.

There was still a lot to be said about whether he should live here or tear this thing down.

Previously, when Xu Bai met the female Abbey Dean, she had left a palm print on the tree, and he had obtained the Revolving Stars Transposition.

At that time, he did not dig out the bark of the tree to preserve the integrity of the progress bar..

Chapter 420: Water Dividing Altar's Water Treatment Method (2)

After all, he had never tried to see if the progress bar would disappear if he dug it out.

This wasn't something he needed to gamble on, and there was no need for him to gamble on it. Therefore, after thinking for a long time, Xu Bai decided not to take this thing with him. Instead, he decided to stay here. "You guys go back first. I'll be fine by myself." Xu Bai said.

Everyone was stunned.

They didn't know what Xu Bai was thinking.

There were indeed many things worth pondering over after discovering a fake in this place.

The other party was a monster in the water. Coincidentally, this place was related to water and had created a fake.

It seemed that the other party's actions were definitely not petty, but there was no need to stay here forever. Without clues, staying here would be a waste.

However, since they had already said this, no one wanted to ask. After all, it was better not to know something than to know. The less they knew, the safer they would be.

Ye Zi was very obedient and sensible. She knew that Young Master must have his own thoughts if he didn't want her to stay here, so she didn't force herself to stay.

"Lord Xu, should we do a divination now?" Kong Xu asked."

Xu Bai nodded and said," Let's do a divination first. After that, you can leave immediately. Oh right, you still have to arrange for someone to send me some food and drink during this period of time. ""

Kong Xu replied and began to carefully calculate the items he used to do divination.

This time, he didn't use a compass. Instead, he took out a tube for drawing lots.

Xu Bai couldn't understand what kind of technique or subtlety was involved in the divination.

However, since Kong Xu wanted to change the method, he must have his own ideas, so Xu Bai did not interfere.

There were lots of sticks made of wood in the bucket. Kong Xu shook it for a while and dropped a stick on the ground. When he picked it up, his expression changed slightly.

"Strange, strange. It was a bad omen before, so why is it changing in the direction of good fortune now?"Kong Xu raised his hand and scratched his head in confusion.

Just from the divination, it was extremely complicated.

From the big fierce to good luck things, Kong Xu also did not see.

After all, any small matter would cause a huge change. However, the current situation was that the only thing that caused a huge change was the few demonic characters in front of him.

Other than that, there was nothing else. Could it be that these demon characters were not simple?

Kong Xu carefully examined the few special characters in front of him, but after looking at them for a long time, he still found nothing. He even felt that they were very ordinary.

“Don’t dwell on the divinations. I want clues.” Xu Bai said.

Great misfortune turned into good fortune?

The others didn’t understand the reason, but Xu Bai looked at the golden progress bar in front of him and understood what it meant.

Looking at the situation, the things in the progress bar should not be too different from what he had imagined. At that time, it would definitely be the best method to defeat the enemy.

Thinking of this, Xu Bai became more and more excited.

After hearing Xu Bai’s words, Kong Xu knew that his old habit was acting up. After all, as a fortune-teller, he had to predict good or bad luck at the first moment. He had fallen into an occupational disease.

He put away the bucket again. He didn’t take anything else and just raised his index fingers.

There was a faint glow on his body. At the same time, his forehead was covered in sweat. The temperature was lower than usual. After all, he was under the river. However, Kong Xu was doing divination, and the burden on his body was increasing.

After the time for an incense stick to burn, Kong Xu opened his eyes and placed his hand on the ground.

Faint light intertwined on his hand and finally gathered into a word that fell on the ground not far away.

– Strange.

This simple word seemed to drain all of Kong Xu's strength. Kong Xu stood up with Elder Sun's help, his face pale.

"Lord Xu, I didn't see their exact location, but I calculated their ultimate goal. It's very similar to the word in front of me." Kong Xu said weakly with a pale face.

Xu Bai stared at the word 'devious', and his frown deepened.

Strange?

Strange?

Or something else?

It was hard to associate the word 'bizarre' with anything else.

"Lord Xu, it's all my fault. They probably erased a lot of things when they left, but they left in a hurry and left behind some clues. However, these clues are not complete, and I can only see this." Kong Xu said in shame.

Xu Bai said, "Don't blame yourself too much. It's already very good that you can find some clues. Alright, you guys go first. I still have to think about it here.""

Normally, he might have fallen into a bottleneck. After all, he still needed to find other clues.

However, it was different now. With the progress bar, he could completely focus on his work first. Perhaps he could have a qualitative breakthrough after he focused on his work.

If he could increase his combat strength underwater, the other party would have nowhere to hide.

At that time, he would be reckless and search everywhere along the river. He would always find the other party, and once he found him, Xu Bai would not leave anyone alive.

“Yes, sir!”

When everyone heard Xu Bai’s instructions, they also understood. Therefore, they did not stay there any longer and turned around to leave.

“Young Master, if you need me to come over, just call me.”Ye Zi said.

Xu Bai nodded. After they all left, he turned around and sat cross-legged on the roof, staring at the progress bar..
