Chapter 901: Taking Control Over the Berserk Sand Bandits, Next Target, the Flame Demon Bandits

Upon being hit by the purple-red band of lights, both the Berserk Sand Bandit King and the Second Captain were sent flying with blood spurting from their mouths. Chu Kuangren merely stood by and watched calmly in the air, his aura remaining ever so firm.

All of the Berserk Sand Bandits could not help but gasp.

“He’s too powerful.”

“That’s right. So this is the power of the Sword Poem Immortal. I can’t believe that even our Boss and Second Captain can’t defeat him together and were defeated within a single move.”

“How terrifying...”

Chu Kuangren stood where he was, his white robes looking as otherworldly as ever. As the purple-red band of lights dispersed, he looked at both his opponents calmly.

It was as if defeating two Heavenly Daoist Celestials was nothing to him.

Then again, that certainly was the case.

“We submit.”

“From today onwards, the Berserk Sand Bandits shall recognize you as their leader.”

The Berserk Sand Bandit King said after taking a deep breath.

Currently, they had no choice but to accept Chu Kuangren’s demand. After all, Chu Kuangren could have easily killed every one of them if he wanted to. It would just be as simple as crushing mere ants to him.

“Wise decision.”

Chu Kuangren said lightly.

Following that, he said, “Prepare yourselves and then take me to the Flame Demon Bandit King. We might as well gain their allegiance.”

“What about the Heavenly Gale Bandit King?”

The Berserk Bandit King asked.

As the leader, the Heavenly Gale Bandit King was the strongest among the three bandit kings. He was said to even be stronger than the remaining two bandit kings combined.

“I’ll find him next after gaining the allegiance of the Flame Demon Bandits. If he’s smart, he’ll hand over the Black Blood Tower Master obediently to me.”

Chu Kuangren said.

Soon after, the Berserk Sand Bandit King and the Second Captain, two Heavenly Daoist Celestials, led Chu Kuangren to the base camp of the Flame Demon Bandits, the Flame Demon Planet!

On the Flame Demon Planet.

The Flame Demon Bandit King and a few of his captains were enjoying some wine.

Suddenly, one of the bandits quickly rushed into the room.

“Bad news, boss. The Berserk Sand Bandit King and others are here.”

The originally festive atmosphere immediately changed when everyone heard that. The Flame Demon Bandit King’s gaze turned cold. “Hmph, the Berserk Sand Bandit King, huh. Have they finally decided to attack us now?”

“We shall fight to the end, boss.”

“Let’s show them that we, Flame Demon Bandits, are not to be messed with.”

“That’s right...”

The Flame Demon Bandit King raised his hand, silencing his men. Then, he continued asking, “How many of the Berserk Sand Bandits are there? How many warships?”

That bandit replied, “There’s only one warship, with three people on board by the looks of it.”

The Flame Demon Bandit King was dumbfounded.

The other bandits were in disbelief too.

“Only three? Are you sure?”

“I can’t believe the three of them would dare to come to our Flame Demon Planet. I bet Berserk Sand Bandit King has lost his mind. Unless... they’re scheming something...”

“D*mn. What the hell are they trying to do?”

The Flame Demon Planet was the main territory of the Flame Demon Bandits. There were thousands of Flame Demon Bandits here, with countless Emperors and Heavenly Imperials among them.

Not to mention, there was a Heavenly Daoist Celestial like the Flame Demon Bandit King stationed here.

‘Only three Berserk Sand Bandits have come?’

‘Aren’t they coming here to die?’

“Let’s see what they are up to.”

The Flame Demon Bandit King snorted coldly.

He led his men out of the Flame Demon Planet and arrived in space.

A warship was approaching them. Soon, thousands of Flame Demon Bandits filled the space surrounding them.

There were only three people on board that warship.

When the Flame Demon Bandit King arrived, he immediately identified the Berserk Sand Bandit King and the Berserk Sand's Second Captain. Besides that, he could also see a young man in white robes standing in front of them. He had long black hair reaching his waist, exuding an otherworldly feeling about him.

However, the Flame Demon Bandit King was more surprised that both the Berserk Sand Bandit King and the Second Captain were standing behind this young man as if they were his subordinates.

"Who is this person?"

The Flame Demon Bandit King was a little surprised. He had a hunch that the young man had something to do with why the Berserk Sand Bandits had suddenly acted like this.

"What are you doing here, Berserk Sand Bandit King?"

The Flame Demon Bandit King readied his man while asking.

The Berserk Sand Bandit King then rose into the air. "I've come here to offer you a chance. Submit to our Master, and you shall not be dead!"

"Submit?"

The Flame Demon Bandit King and others were taken aback.

After that, they looked at the Berserk Sand Bandit King shockingly.

"Are you kidding me? Why has the Berserk Sand Bandit King surrendered to someone else?"

"Who hell is he?"

"Is it this young man here? Is he the Master that's mentioned?"

"Hmph. Wanting us Flame Demon Bandits to submit? In your dreams."

The Flame Demon Bandit King sneered. "I didn't expect that you, the high and mighty Berserk Sand Bandit King, would actually submit to others. I'm truly disappointed in you."

"My Master will stand at the precipice of power in the Violet Gold Galaxy in the future. Submitting to him is not shameful at all," the Berserk Sand Bandit King replied.

"You might feel that way, but I'm not you. If you want me to submit, you'll have to ask the thousands of bandits behind me whether they agree to this or not!"

The Flame Demon Bandit King said coldly.

His Heavenly Daoist Celestial aura erupted everywhere like a raging tide, slamming forth towards the Berserk Sand Bandit King.

The Berserk Sand Bandit King snorted coldly, and his aura erupted too.

The power of the two bandit kings collided. Both of them seemed to be equally matched.

Following that, the Flame Demon Bandit King attacked first. He took out a long dark red saber and immediately charged toward the Berserk Sand Bandit King.

The Berserk Sand Bandit King took out his long spear and started battling him.

The two of them were similarly powerful. As the long saber and long spear clashed with great power, the two of them found themselves fighting an equally matched battle.

The other bandits were silent as they watched the battle.

While the Flame Demon Bandit King and the Berserk Sand Bandit King were battling it out, a few of the Flame Demon Bandit Captains looked at Chu Kuangren.

"I wonder what this person did to make someone like the Berserk Sand Bandit King submit to him?"

"I'm afraid he's no ordinary person."

"I shall test his strength then."

One of the captains' figures flashed as he said coldly. He immediately turned into a ray of light and charged toward Chu Kuangren.

At that time, another burst of Heavenly Daoist Celestial power erupted. It was the Second Captain who snorted upon seeing that, quickly rushing forth to intercept that person.

As the two Heavenly Daoist Celestials battled, the remaining captains took the opportunity to surround Chu Kuangren, trapping him in a circle.

"Tell us your name, young man." A hulking man holding a mace sneered.

Chu Kuangren did not move and did not answer.

At that, the captains frowned. They then looked at each other before dashing towards Chu Kuangren at once.

Various types of attacks and energies were unleashed toward Chu Kuangren with might that rumbled the surrounding space.

Chu Kuangren stood still. However, just as the incoming attacks were about to hit him, they were all dispersed and disintegrated one by one.

It was as if an invisible and indestructible barrier was in their way.

"What kind of ability is this?"

"It looks like... mind power!"

One of the more knowledgeable captains noticed this and said with a stern face. The mind power was a form that a person's soul energy could manifest.

Soul cultivators were incredibly rare throughout the galaxy as well.

Only a handful of them existed in the Violet Gold Galaxy.

"Hmph. So what if his mind power is strong? Will we lose if we join forces and attack him?" one of the captains said coldly.

The few of them attacked again with more powerful techniques this time.

"A group of cultivators that are not even Heavenly Daoist Celestials, huh? You guys are just too weak. Now, stay down," Chu Kuangren said calmly.

Following that, his Emperor qi and mind power surged, intertwining with his Daoist pattern to form a miniverse. Eventually, all the bandit captains were enveloped within it.

Due to the effects of the miniverse, the bandit captains were rendered immobile. After that, an army of spiritual weapons appeared in the void to pin them directly onto the ground.

From the very start, Chu Kuangren did not bat an eye toward them at all.

However, the strength he displayed shocked the Flame Demon Bandits greatly, and they gasped uncontrollably.

Chapter 902: The Flame Demon Bandits Submit, What if I'm Included Then

"What a powerful strength!"

"The captains were all overpowered effortlessly!"

"His strength is certainly on par with a Heavenly Daoist Celestial at least."

"Wait... That guy... He's..."

Suddenly, someone among the Flame Demon Bandits exclaimed with a trembling tone, "I remember now. That guy is Chu Kuangren, the one that Planet Zi is offering a huge bounty on his head!"

"What? The Sword Poet Immortal, Chu Kuangren?!"

Another person could not help but yell in shock.

The captains were shocked to know Chu Kuangren's exposed identity. Even the Flame Demon Bandit King nearby gulped.

'No wonder the Berserk Sand Bandit King dares to come to the Flame Demon Bandits' base camp with just three people. He has found the support of a powerful cultivator!'

"Quick, everyone attack at once!"

The Flame Demon Bandit King roared.

At that moment, tens of thousands of Flame Demon Bandits attacked. All sorts of techniques surged forth, covering the whole space. A terrifying wave of energy crashed forth with might that caused the whole area to rumble.

Under such a scale of an attack, even a Heavenly Daoist Celestial would not survive.

However, Chu Kuangren remained calm.

He did not even bother to dodge those attacks. Instead, he walked towards the incoming attack with countless mysterious Daoist patterns spreading from his body.

The Daoist patterns lit up and formed a gigantic vortex.

‘Single Thought Series, Ultimate Chasm of Convergence!’

The barrage of attacks was all absorbed and neutralized by the vortex.

Colorful blasts and sparks of light from those attacks surrounded Chu Kuangren as they landed around him, spreading terrifying fluctuations strong enough to shatter the void.

However, those attacks could not get past the vortex no matter what. Hence, he was not injured at all.

“How can this be?”

“How powerful is this defensive technique?”

“Why is he so powerful?!”

The Flame Demon Bandits’ eyes widened in shock. They were so mindblown and in disbelief that their heart could stop anytime.

“You guys should leave.”

Chu Kuangren said indifferently.

The moment he said that, a horrifying wave of Emperor qi immediately spread in all directions from him and impacted the surrounding Flame Demon Bandits violently.

One by one, the warships and the Flame Demon Bandits around him were all sent flying out of control in the vastness of space.

“He really lives up to the name Sword Poet Immortal!”

The Flame Demon Bandit King’s gaze was incredibly stern.

After forcing the Berserk Sand Bandit King with a saber attack, he turned into a ray of light and charged toward Chu Kuangren at breakneck speed.

He was planning to cut off the head of the snake!

The Flame Demon Bandit King wanted to deal with Chu Kuangren first.

He struck out with his saber, and a saber shadow with scorching flames around it unleashed. Its high temperature immediately distorted the surrounding void.

“You’re too weak!”

Chu Kuangren raised his hand and punched forth.

‘Invincible Technique, Inverted Universe!’

With a bang, his devastating fist energy immediately broke through the saber shadow and landed on the Flame Demon Bandit King’s body, which was sent flying.

He defeated the Flame Demon Bandit King with a single punch!

“So this is the power of the Sword Poet Immortal!”

The Flame Demon Bandit King slammed into a warship and created a huge hole in it. As he was lying inside it, a look of horror filled his face.

“You’ve only witnessed a fraction of my full strength.”

Chu Kuangren said.

“Allow me to ask you this. Why do you want us to submit? What is your goal here?”

“I seek the annihilation of Planet Zi!”

The Flame Demon Bandit King’s eyes immediately lit up.

He pondered awhile and nodded. “Alright. If it’s to go against Planet Zi, I shall join you!”

“Oh.”

Chu Kuangren was a little surprised.

He never expected his opponent to agree that fast.

He initially thought that he would still need to go on a slaughter-fest to achieve this.

“Like you, I too have a deep-seething grudge against Planet Zi.”

There was a huge hatred in the Flame Demon Bandit King’s eyes when he talked about Planet Zi. “Back then, the orthodoxy I was a part of offended one of the Planet Zi Seats. Because of this, we ended up being wiped out by Planet Zi’s forces. In my frustration, I had no choice but to flee to the Chaotic Starfield. It was because of the chaos here that I managed to stay alive from Planet Zi’s pursuits.”

“Eventually, I created the Flame Demon Bandits, hoping that the opportunity to take my revenge against Planet Zi would come one day. Since you’re going to launch an attack against Planet Zi, I shall help you out.”

Chu Kuangren could not help but chuckle upon hearing what the Flame Demon Bandit King said. “It seems like Planet Zi has made a lot of enemies, huh?”

He shook his head and said, “Very well. We shall go visit the Heavenly Gale Bandits in a few days. I want to look for someone there.”

The Heavenly Gale Bandits were the strongest organization of bandits in Chaotic Starfield.

The Heavenly Gale Bandit King was also known as Bandit King. As such, the two Bandit Kings had a stern look on their faces at the mention of his name.

However, the stern look on their faces vanished when they looked at Chu Kuangren. In the face of someone like Chu Kuangren, what could the Heavenly Gale Bandit King possibly do?

They even thought that Chu Kuangren would be enough to wipe out the Heavenly Gale Bandits alone and that the both of them were not needed at all.

They would most likely be cheering him on over there.

...

Inside the Heavenly Gale Bandits' base camp.

A hulking man was drinking wine with a black-robed middle-aged man.

"Brother Black Blood, don't be discouraged. Although the casualties and damages the Black Blood Tower suffered are very high, you must remember that you, the King of Assassins, are still alive. With time, you'll certainly be able to rebuild Black Blood Tower."

The hulking man tried to console the Black Blood Tower Master. He was the Heavenly Gale Bandit King, the strongest among the three bandit kings, and the ruler of the Chaotic Starfield.

At that, the Black Blood Tower Master's mood improved. "You're right. Although my Black Blood Tower headquarters is gone, I still have many branches all over the galaxy. As long as I'm alive, the Black Blood Tower shall live."

"Haha, now that's the King of Assassins I know."

The Heavenly Gale Bandit King laughed. He then recalled something and said, "Brother Black Blood, seeing that you've fought with Chu Kuangren before, is he really as powerful as the rumors say?"

A horrified look that had never seen before on the Black Blood Tower Master's face appeared. "This guy is way stronger than the rumors say, especially that growth rate of his, which is amazingly fast!"

"Tsk, I really do look forward to a fight with him if there's a chance."

"No, Brother Heavenly Gale, please listen to my advice. Try to steer yourself away from this man if you can. Nothing good will ever come from involving yourself with him."

The Black Blood Tower Master said.

"What's the matter? Don't you want to take revenge?"

"Yes, of course, I want to! But it's hard to do so!" The Black Blood Tower Master sighed. "It won't be long before he becomes the strongest person in the galaxy. I'm afraid I'll never be able to take my revenge anymore."

It was clear that he had a traumatizing impression from Chu Kuangren.

After all, Chu Kuangren was someone who could defeat even Planet Sirius's Heavenly Dao.

What could the Black Blood Tower Master possibly do?

"Alright, let's talk about something else. Let's drink."

The Heavenly Gale Bandit King immediately changed the topic.

However, he suddenly sensed something and quickly looked into the sky. His gaze gradually turned cold.

"This aura... It's those two guys."

The Heavenly Gale Bandit King snorted.

Dozens of figures were approaching them from the sky. All of them were Daoist Celestials, with the ones leading them being the Berserk Sand Bandit King and the Flame Demon Bandit King. The Heavenly Gale Bandits were immediately alerted by their appearance.

“The Flame Demon Bandits and the Berserk Sand Bandits. Why are they here?”

“Hmph. It looks like they’re not being friendly.”

The Heavenly Gale Bandit King snorted coldly as he rose into the air.

He then looked at the two bandit kings and said coldly, “What is this? Have the Flame Demon Bandits and the Berserk Sand Bandits joined forces to take us out?”

“Exactly.”

The Berserk Sand Bandit King replied bluntly.

“I’ll end you!”

The Heavenly Gale Bandit King’s aura instantly erupted. His cultivation level was way higher than the two bandit kings. He was already at the late-stage Heavenly Daoist Celestial!

The Black Blood Tower Master also stood up and sneered at the two bandit kings. “Only the two of you, and you dare go against Brother Heavenly Gale? You must be sick of living!”

“Oh, what if I’m included then?”

An indifferent voice appeared.

Following that, an otherworldly figure was descending from the skies. His magnificent Emperor qi surged forth, slamming into the void violently.

The Black Blood Tower Master’s eyes widened in shock upon seeing him.. Then, he said with a look of horror on his face. “It’s... It’s you!”

Chapter 903: I’m Afraid... Not, Defeating the Heavenly Gale Bandit King and Black Blood Tower Master in One Go

“What if I’m included?”

An indifferent voice came out.

Following that, an unimaginably terrifying eruption of Emperor qi surged towards the whole Heavenly Gale Planet like a tsunami.

At that instant, the surrounding area trembled, and the whole planet rumbled!

A peerless white figure with an otherworldly demeanor then descended from the skies.

The Black Blood Tower Master was instantly stunned. His pupils trembled violently as a look of horror appeared on his face.

“It’s... It’s you... Chu Kuangren!!”

Upon hearing his voice, Chu Kuangren turned and looked at him calmly. "Yo, Black Blood Tower Master. How's it going?"

He greeted his opponent calmly.

It was as if the Black Blood Tower Master was not his enemy but a normal friend instead.

Despite that, the Black Blood Tower was scared out of his wit's end. Once thinking he could recover from the trauma he experienced, his deep fear of Chu Kuangren quickly surfaced the moment he saw him.

Although it was his clone that died back then, his main body's consciousness was still linked to the clone. Whatever the clone experienced, it would be as if he was truly experiencing it himself.

It was especially true since his Heavenly Dao energy got devoured and his position as the Planet Ruler was taken from him. He could never forget that sense of helplessness during that time.

"Chu Kuangren, what do you want?"

The Black Blood Tower Master asked while gritting his teeth.

"What do you think?"

"You killed my clone, stole my Heavenly Dao energy, and almost completely ruined my Black Blood Tower. What else do you f*cking want from me?!"

The Black Blood Tower Master said loudly.

Despite being the King of Assassins, he appeared very woeful now.

"Oh, you know, if I want to get rid of weeds, I've got to pull them from the root, right? Isn't that the main creed that your Black Blood Tower stands by? Why are you making it seem as if I'm the one who's bullying you instead?"

Chu Kuangren laughed as he said.

The Heavenly Gale Bandit King, who was standing next to him, looked at Chu Kuangren with a stern gaze and asked, "I've heard about you for a long time, Sword Poet Immortal, Chu Kuangren. I see you've gathered the Berserk Sand Bandits and the Flame Demon Bandits. What do you plan to do with them?"

"Well, they're not the only ones. I'm planning to talk to you about this too. I'm giving you a chance right now, Heavenly Gale Bandit King. Hand over the Black Blood Tower Master and submit to me completely. If you do so, I can make sure you won't die today." Chu Kuangren said.

"In your dreams!"

The Heavenly Gale Bandit King snorted.

The power of his late-stage Heavenly Daoist Celestial erupted, and a long spear appeared in his hand. "Sword Poet Immortal, show me how powerful you truly are!"

Boom!

The Heavenly Gale Bandit King's figure immediately disappeared from the spot.

The next second, he appeared above Chu Kuangren and thrust forward with his spear. His devastating energy immediately came crashing down with the might of a planet.

Chu Kuangren quickly followed with a punch.

The raw physical strength of his Stellar Undying Body was unleashed with full force!

Boom!

The moment the punch collided with the long spear, a great explosion erupted in space. The Heavenly Gale Bandit King was forced back dozens of meters with the long spear trembling violently in his grasp.

"What a horrifying raw physical strength!"

The Heavenly Gale Bandit King was a little shocked. It was his first time coming across someone with such powerful physical strength. He found it truly unbelievable.

He attacked once more with the spear, waving it strongly thrust after thrust and filling up the sky with gorgeous sparks of spear rays.

Chu Kuangren's mind power surged. Thousands of spiritual weapons formed in the sky before they collided with the multiple spear rays.

"Brother Heavenly Gale, let me help you!"

The Black Blood Tower Master roared, and his murderous qi erupted in the void the next instant, causing a Carnage Vision to appear.

Soon, thousands of ghouls were charging toward Chu Kuangren.

"Very well. Heavenly Big Dipper Tornado!"

The Heavenly Gale Bandit King roared as he joined forces with the Black Blood Tower Master. With Daoist patterns flowing on his body, he unleashed a spear attack that caused terrifying tornadoes and storms to occur. That was a spear attack great enough to destroy planets!

Chu Kuangren chuckled.

With a wave of his arm, his Single Thought Series, Planetary Destruction was unleashed!

The countless purple-red bands of light spread forth in all directions. In one go, it wiped out the thousands of ghouls and spear rays!

"As expected of the Sword Poet Immortal!" The Heavenly Gale Bandit King's gaze became stern. However, a fighting intent was still burning in his eyes.

"Watch out. He still hasn't used his full strength!"

Beside him, the Black Blood Tower Master quickly yelled. Since his clone had fought with Chu Kuangren before, he knew that Chu Kuangren was a Planet Ruler who could summon the power of Heavenly Dao to help him.

'He still hasn't activated his Dao Convergence state yet.'

'God knows how many trump cards this guy has!'

The other bandits were stunned when they heard the Black Blood Tower Master.

'No way. That's not his full power? How powerful is the Sword Poet Immortal? Is he really a Great Daoist Celestial?'

"Everchanging Nine Dragon Rune!"

Chu Kuangren's mind power swirled, crafting a gigantic colorful rune in the void. Nine strands of draconic qi immediately appeared and entered his body.

His aura increased rapidly in that split second.

"Whatever tricks, techniques, and trump cards the two of you have, feel free to use them all. Show me what you've got!"

Chu Kuangren said to both of them.

"D*mn this guy. Is this his full strength?"

The Heavenly Gale Bandit King said with a serious look on his face

"I'm afraid... not!"

The Black Blood Tower Master gulped and said.

'He still hasn't unleashed his Dao Convergence state!'

The Heavenly Gale Bandit King was speechless.

'F*ck me. How powerful is this guy?!'

"Carnage Vision, Ghoul King Avatar!"

The Black Blood Tower Master channeled his Dao and Emperor qi to the maximum before unleashing his three-headed, six-limbed Ghoul King Avatar in the void.

Chu Kuangren raised his hand and unleashed his Almighty Avatar in return. Immediately, as a result, the void trembled with hundreds of Daoist Physique fluctuations.

"Heavenly Gale Art, Hurricane Battlesuit!" The Heavenly Gale Bandit King grunted. As countless strands of Daoist patterns swirled around him, strips of air currents started attaching to his body one after another, forming an armor around him.

Whoosh...

The Heavenly Gale Bandit King immediately disappeared. His speed was so fast that only a few Daoist Celestials watching the battle could keep up with him.

However, with Chu Kuangren's powerful mind power everywhere, he could still see his opponent's movement clearly. His Descendant Self Sword unsheathed itself, struck toward the direction beside him, and collided with the Heavenly Gale Bandit King's spear attack.

Meanwhile, the Almighty Avatar was battling the Ghoul King Avatar.

Chu Kuangren was fighting two Heavenly Daoist Celestials at once!

Even so, it was not that hard for him to do.

He did possess three souls after all.

Taking into account his terrifying soul energy, he could even do dozens of things at once. That, in turn, gave him supreme fighting instincts and reaction time, making him appear like a natural-born warrior.

Clang... Clang... Clang...

By now, the Descendant Sword had collided with the Heavenly Gale's Bandit King's long spear hundreds of times. At the same time, the battle between the Almighty Avatar and the Ghoul King Avatar nearby was equally shocking too. Shockwaves were everywhere during that battle, and it was hard for everyone to get close.

"It's time we end this!"

Chu Kuangren said. Then, a Dao Proclamation Seal appeared above him, its light shining brilliantly.

"Imperial Monarch Sword Art!"

Chu Kuangren slashed forth with his Descendant Self Sword!

With the help of the Dao Proclamation Seal, the Grand Emperor Avatar appeared. Its golden sword shadow immediately came crashing down, locking onto the Heavenly Gale Bandit King with an incredibly menacing surge of sword qi.

"Heavenly Big Dipper Tornado!"

The Heavenly Gale Bandit King thrust forth with his spear, launching a terrifying hurricane towards Chu Kuangren.

However, that golden sword attack was just too powerful!

It tore through the hurricane effortlessly!

The Heavenly Gale Bandit King's Hurricane Battlesuit was the next thing to be destroyed as the gigantic sword shadow landed on him. It almost slashed his whole body into half, and he was sent flying away from the fight.

The Heavenly Gale Bandit King was defeated!

"Brother Heavenly Gale!"

The Black Blood Tower Master's expression changed.

"Don't worry. You'll be next."

Chu Kuangren's voice rang out. Due to the strengthening effects of the Dao Proclamation Seal, his Almighty Avatar was now stronger than before.

The Ghoul King Avatar blew up in the end.

With that, the Black Blood Tower Master was punched into the ground by the Almighty Avatar.. He had been defeated!

Chapter 904: Unifying the Chaotic Starfield, Devouring a Category Nine Planet

The Heavenly Gale Bandit King and the Black Blood Tower Master, the two Heavenly Daoist Celestials were defeated, and Chu Kuangren was standing proudly in the air with his white robes looking spotless as ever. After that great battle, his aura remained extremely firm and terrifying, as if it did not affect him at all.

Everyone was extremely shocked at that.

'How powerful is that guy?!'

He appeared as if he did not use his full strength despite defeating two Heavenly Daoist Celestials. The only beings in the whole Violet Gold Galaxy who could do this were the Pseudo Immortals.

"Please don't kill us, Chu Kuangren!"

At that time, the Black Blood Tower Master yelled, "Having gained the allegiance of the Berserk Sand Bandits and the Flame Demon Bandits, you must be planning something that requires a lot of manpower, right? I'll offer my Black Blood Tower assassins to work under your command!"

He guessed what Chu Kuangren was planning and quickly suggested.

Chu Kuangren got a little interested upon hearing that. "With your Black Blood Tower headquarters already destroyed, how much power can you possibly have now?"

"The Black Blood Tower still has many branches scattered all over the galaxy. With my single command, I can immediately mobilize the tens of thousands of assassins stationed there."

The Black Blood Tower Master said.

"Interesting."

Chu Kuangren's figure appeared before the Black Blood Tower Master in a flash. Forming a sword hand sign, he channeled his Emperor qi and created a mysterious rune in the void!

"Release control of your soul and do not resist. Otherwise, I'll kill you on the spot. After all, your Black Blood Tower forces don't even matter much anyway." He then unleashed the rune toward the Black Blood Tower Master.

That was the Soul-Vanquishing Slave Seal!

The Black Blood Tower Master did not dare to resist and could only obediently receive that Slave Seal.

Soon after, the Slave Seal was then planted onto the Black Blood Tower Master's soul.

“Greetings, Master.”

Now under the control of the Slave Seal, the Black Blood Tower Master knelt before Chu Kuangren respectfully. His demeanor as the king of assassins was completely gone.

“Alright, now. Answer me, Heavenly Gale Bandit King, do you submit?”

Chu Kuangren looked at the Heavenly Gale Bandit King with his bright eyes.

The Heavenly Gale Bandit King took a deep breath and then said with a fist salute, “The Heavenly Gale Bandits will now listen to your orders, Master.”

“Very well. Now, I want the three of you Bandit Kings to join forces and unite all of the bandits in the Chaotic Starfield. You have three months to do this.”

“After three months, I shall gather all of the united bandits in the Chaotic Starfield. Then... We shall march towards Planet Zi!!”

Chu Kuangren said with a chilling grin.

Every bandit’s expression changed.

‘March forth towards Planet Zi?!’

‘By the heavens, Chu Kuangren is planning to go against Planet Zi?!’

‘This guy is just too crazy.’

However, because their lives were now in Chu Kuangren’s control, they could only do as he commanded. There was no way they could resist him at all.

Besides...

“March towards Planet Zi, huh? I’m getting pumped up just thinking about it.”

The Heavenly Gale Bandits were surging with fighting intent.

As bandits, greed and lust flowed in their bones. Marching forth to Planet Zi to plunder their wealth, women, and take over the whole civilization, was something that everyone could not wait to do.

They were not a match for Planet Zi in the first place.

However, now that the bandits in the Chaotic Starfield would be united into a single force alongside the tens of thousands of assassins from the Black Blood Tower with Chu Kuangren at the lead, perhaps they could really fight against Planet Zi.

...

The three Bandit Kings got started in unifying the Chaotic Starfield.

If a single Bandit King could reign supreme over a large territory inside the Chaotic starfield, seeing that they were the most powerful beings there, let alone three Bandit Kings that have now joined forces.

No one in the Chaotic Starfield could stand a chance against them.

Chu Kuangren did not waste time during this period either.

Using his Immortal Body, Chu Kuangren's consciousness once again entered the Source Realm. Inside, he had managed to cultivate another source energy... the Immortal Source!

As such, his Immortal Body's self-regenerative abilities had become stronger.

"The Immortal Body contains six stages. I'm currently at the fifth stage, which is the Atomic Reconstruction Stage. Perhaps when I can master the Immortal Source in the future, I'll be able to increase it to the sixth stage... Single Thought Reconstruction!"

Chu Kuangren's eyes lit up with excitement.

The Immortal Body's sixth stage was the most terrifying part about it. As long as a single thought of consciousness about him remained, his body could then be regenerated. That had greatly surpassed his body's physical limits.

Ever since he started his journey of cultivation, the Immortal Body was undoubtedly his strongest trump card. Although it was only a God-tier reward, its uses could even be matched to some of the Transcendent-tier rewards he had received.

"Immortal, Flame, Moon, Freezing, and Devouring... I've gained control over a total of five different source energies. If I add the two Dao Proclamation Seals into the mix, how powerful will my combat strength become?"

"I wonder, will I be able to fight a Pseudo Immortal by then?"

Chu Kuangren's eyes lit up brightly.

There was still some time before the whole Chaotic Starfield had been united. After cultivating the Immortal Source, Chu Kuangren set his sights on the planets inside the Chaotic Starfield, especially the largest Category Nine Planet among them.

As the largest planet in the Chaotic Starfield, only a handful of planets in the Violet Gold Galaxy were larger than it.

The next celestial bodies that were larger than planets would be stars.

Chu Kuangren soon made that planet his goal. After the bandits nearby were evacuated, he started devouring it.

Three months have almost passed.

The whole Chaotic Starfield was close to being united as countless bandits were gathered under a single banner under Chu Kuangren's command.

Today, the three Bandit Kings had arrived at where Chu Kuangren was devouring the planet. When they saw the gigantic bundle of light and the lava, crumbling terrain, and messy spiritual qi on its surface, they were shocked.

"Our Master is just too impressive. I didn't expect that he could devour a Category Nine Planet."

The Berserk Sand Bandit King commented.

“Say, do you guys think that our Master can devour a star?”

Suddenly, the Flame Demon Bandit King thought of something and asked.

The other two were shocked upon hearing that.

“Stop kidding. Although Master can devour a Category Nine Planet, stars are on a completely different level compared to them.”

How terrifying was the energy contained inside a star?

It was on a completely different level compared to planets. That was because stars were able to support the presence of civilizations in an entire galaxy.

The energy contained within it was unimaginable.

For example, even beings like Pseudo Immortals would die in the face of a star’s power.

Perhaps only Immortals were able to resist attacks that contain the power of a whole star.

While they were chatting, the gigantic floating ball of light in space started vibrating.

Large explosions were immediately heard soon after.

It was the sound of a... powerful heartbeat!

Following the sound of a heartbeat, a terrifying soundwave appeared, forcing the Bandit Kings back uncontrollably.

“What a frightening heartbeat.”

“Just the sound of a heartbeat was enough to push us back. How powerful has our Master’s physical body become?”

“Can someone train his body to such a level like this?!”

“This is just too overpowering.”

They were stunned in disbelief.

Meanwhile, the ball of light rapidly shrank as its energy was completely absorbed by Chu Kuangren rapidly.

At this time, he was sitting with his legs crossed in space. Swirls of starlight and Daoist patterns could be seen circling him mysteriously.

Suddenly, streaks of white light were emitted by the pores all over his body, gathering and forming a white bundle of mist.

That bundle of mist greatly frightened the Heavenly Daoist Celestials.

“This thing... It feels like... source energy!”

The Black Blood Tower Master gasped.

Chapter 905: The Chaotic Starfield Army Marches Forth, Destination — Planet Zi, Shocking the Entire Galaxy

“This feels like... A source of energy!”

The Black Blood Tower Master gasped.

The source energy was something that all Heavenly Daoist Celestials dreamed of cultivating.

It was because the source energy was related to Immortals.

Cultivating source energy was one of the prerequisites to becoming an Immortal. The Pseudo Immortals were the only ones in the Violet Gold Galaxy that could do this.

As for the others below them, even a Heavenly Daoist Celestial could not do it.

“Our Master has cultivated a source energy! I can’t believe he has accomplished this while not even being a Heavenly Daoist Celestial. Master is just too powerful! I’m sure he’s the only one among the Immortal Progenies in the Violet Gold Galaxy who can do this!”

The Flame Demon Bandit King said admirably.

Meanwhile in space.

Chu Kuangren slowly opened his eyes and looked at the white bundle of mist in his hand. A look of surprise appeared on him.

“Interesting. Devouring the Category Nine Planet this time did not only strengthen my Stellar Undying Body to a peak stage, but it also allowed me to cultivate a Raw Physical Source energy too. With this, I now possess six different types of source energy.”

Chu Kuangren grinned.

The fact that he possessed six different types of source energy was an incredibly terrifying thing.

Ordinary cultivators would already find it extremely difficult to cultivate even one type of source energy, let alone six. Besides, all the source energies that Chu Kuangren cultivated were different too.

“With the peak-stage Stellar Undying Body and this Raw Physical Source energy, the raw physical strength I have is now enough to easily kill a Heavenly Daoist Celestial!”

“I can even fight a peak-stage Heavenly Daoist Celestial with this.”

However, that was only taking into account his raw physical strength. If his other techniques were included, Chu Kuangren would have been even more terrifyingly powerful.

“If the peak-stage Stellar Undying Body is this terrifying, I bet the perfected-stage Stellar Undying Body must be something equivalent to reaching the Immortal Realm!”

“The highest stage of the Stellar Undying Body... Raw Physical Immortality!”

Achieving Raw Physical Immortality was several times harder compared to becoming an Immortal the normal way. However, if one had succeeded in doing this, they would surely become more powerful than ordinary Immortals.

"If I want to achieve Raw Physical Immortality, I wonder how many more Category Nine Planets I will have to devour... Hmm... What if I devour a star instead...?"

Chu Kuangren looked towards the sun that was radiating brilliantly with endless heat and light. He could not help but smack his lips.

"I suppose devouring a star might speed up this process. However, it can't be this one. There are so many civilizations in the Violet Gold Galaxy depending upon it for survival after all, including the Firmament Star[1] too."

"Well, I'll find another one elsewhere then."

After retracting his Raw Physical Source energy and raw physical strength aura, Chu Kuangren returned to his otherworldly demeanor.

"How are the preparations?"

He looked at the Black Blood Tower Master and others nearby and asked.

"The preparations are complete, Master. The one million and eight hundred thousand warships and one hundred and thirteen million bandits of the Chaotic Starfield are ready. We're now awaiting your orders to head to Planet Zi," said the Heavenly Gale Bandit King.

"The seven hundred and sixty thousand assassins of the Black Blood Tower are ready to receive orders too, Master."

The Black Blood Tower Master said.

Although the seven hundred and sixty thousand assassins were not as much compared to the one hundred million bandits, they were all masters of killing and assassination, with most of them being above the level of an Emperor.

"Master, although we've amassed quite a huge force, Planet Zi is no ordinary civilization either. Besides, if we attack with such a huge force, we'll surely be discovered by Planet Zi's forces. By then, I'm afraid we would be held back and attacked by the Planet Zi's and their subordinate civilization's forces before we could get close to Planet Zi itself," the Berserk Sand Bandit King said.

There was a reason why Planet Zi stood at the pinnacle of power in the Violet Gold Galaxy for so many years. Besides having many subordinate civilizations at their command, they also had forces placed strategically around the planet, with fortifications and strongholds all over the place.

Those were enough to make anyone wishing to attack Planet Zi reconsider.

"I'm well aware of this. Don't worry. I have my ways."

Chu Kuangren replied.

The four of them looked at each other, confused about what Chu Kuangren's idea was. However, they noticed that he had no intention to elaborate.

"Alright, let's go," said Chu Kuangren.

"Very well."

On that very day, countless warships filled with bandits emerged from the Chaotic Starfield, heading towards Planet Zi.

There was no way such a huge commotion would not go unnoticed by the forces throughout the galaxy.

Hence, the whole Violet Gold Galaxy was shocked by it.

"By the heavens, what's happening over at the Chaotic Starfield?"

"Why are so many bandits leaving the Chaotic Starfield en masse? What are they planning to do? Are they going to start a great interstellar war?"

"Quick, quick! Send our men to investigate!"

All of the forces in the galaxy did not dare to overlook such a tremendous force.

Just a single Bandit King alone was enough to cause a ruckus in the galaxy, let alone the entire group of bandits in the Chaotic Starfield.

The forces in the galaxy soon realized that there was a reason the bandits of the Chaotic Starfield had mobilized. They seemed to be heading in a certain direction.

What could that mean?

It would prove that someone was commanding those bandits!

Everyone was dumbfounded.

Who could it be?

Who was it that possessed such capability? Who was it that managed to unite the whole Chaotic Starfield? What were their motives for doing this?

"Continue your investigation. Being able to unite the Chaotic Starfield like that, the person leading them must be no ordinary cultivator. Their numbers and forces are just too great."

"With the three Bandit Kings and the countless bandits of the Chaotic Starfield united, their forces could rival even a top-notch civilization!"

"Hold on a minute... That direction..."

Some forces soon noticed it.

The bandits were all heading towards... Planet Zi!

"This is madness, madness I say! Those bandits must be out of their minds! Are they going to war against Planet Zi?!"

“F*ck. This is just too much.”

“Going to war against Planet Zi? Are they even strong enough to do that?”

Every civilization and orthodoxy were greatly shocked by the movement outside the Chaotic Starfield. Everyone could not stand and watch any longer, immediately ordering their men to monitor the situation as it unfolded.

On the other hand, Planet Zi.

The Holy Violet Temple Lord’s face immediately turned grim upon receiving the news. A menacing killing intent soon emanated from him uncontrollably.

“Great, this is f*cking wonderful. It seems that Planet Zi’s reputation has really gone into the mud. Even a bunch of bandits are brave enough to find trouble with us now.”

“Do they think Planet Zi has been weakened and could not do a single thing against them because we suffered heavy casualties previously? Order all the subordinate civilizations to attack. So, those bandits are trying to fight Planet Zi? Hmph. I’ll bring them to their graves in the vastness of space before they could even set their sights on Planet Zi!” said the Holy Violet Temple Lord with a terrifying expression.

The Planet Zi Sky Guardian, who was standing next to him, frowned. “Someone must be behind this sudden movement from the Chaotic Starfield. Who could it be? We must investigate this matter seriously.”

“I’ve sent my men to find out about this. I believe we’ll be receiving some news soon,” said the Holy Violet Temple Lord.

At that time, several lightyears away from Planet Zi, millions of warships had arrived at Planet Zi’s first line of defense.

It was a gigantic stronghold built in space with a top-tier Great Daoist Celestial stationed inside.

A mere Great Daoist Celestial was nothing in the face of the Bandit Kings. However, the trickier part was the great defensive formation contained within this stronghold. When activated, even a Heavenly Daoist Celestial could not break through it.

If the great bandit army was stopped here, the troops from Planet Zi’s subordinate civilizations would be dispatched. When those troops arrived, a great battle would happen with the bandit army.

If things were not handled correctly, the mighty bandit army would have been wiped out before they could even see Planet Zi.

If something like that happened, the Chaotic Starfield would instantly become a joke throughout the whole Violet Gold Galaxy.

“What are you going to do next, dear bandits of the Chaotic Starfield?”

Everyone was watching attentively, looking forward to seeing how things would transpire.

Chapter 906: Slashing The Stronghold, Worn-out Planet Zi

With Planet Zi in the center, countless defense lines were built across a 7 lightyears radius. Among them, there were eighteen strongholds that stood out and were known across the galaxy.

In order to attack Planet Zi, one must first go through all eighteen of the strongholds.

Ancient Frost Strong Hold, which was the first in the line of eighteen, and its owner was a Grand Daoist Celestial. He stood on the walls of the stronghold and gazed upon the armada of bandits with a disdainful look.

“Ignorant fools trying to attack Planet Zi? They are ahead of themselves. There are eighteen defense lines across 7 lightyears and you scoundrels won’t even make it through the first one!” the owner of Ancient Frost Stronghold, Ancient Frost Daoist Celestial, said.

Planet Zi devoted a lot of effort and resources to building the eighteen strongholds. Each of them was equipped with countless formation seals that made them indestructible.

“These bandits will never take down Ancient Frost Stronghold. Now, all we need to do is wait for the elites from the other civilizations to arrive and we can wipe them out altogether,” thought Ancient Frost Daoist Celestial.

All the major players had their eyes on the bandits as well, they were wondering what the bandits would do. If they were stopped right at the first stronghold, Chaotic Starfield would probably end up as the biggest joke of the Violet Gold Galaxy.

Among the millions of warships, three Bandit Kings were staring at the Ancient Frost Stronghold further away. They frowned at the countless formation seals that were swirling around the stronghold and they seemed like they were out of options.

“What should we do next?”

“Let’s put it on hold,” Heavenly Gale Bandit King said. “If we go any closer, we might ram into the formation seals.”

“We don’t need to stop.”

A voice came from the inner part of the warship.

All three of the Bandit Kings and the Black Blood Tower Master looked at each other in confusion upon hearing the voice.

If they continued forward, they would ram straight into the formation seals.

“Listen to the master,” Flame Demon Bandit King said with clenched teeth.

Millions of warships pressed forward to the stronghold and their action left all the major players in awe and shock.

“What are they trying to do?!”

“Any closer and they will clash with the formation seals of Ancient Frost Stronghold. Are they on a suicide mission?”

“Seems like someone is going down with his ship.”

“These bandits are lunatics who disregard their lives.”

Inside Ancient Frost Stronghold, Ancient Frost Daoist Celestial was also surprised by the scene. He said with a scoff, “Trying to force your way through? Fools!”

He then said loudly, “All hands on deck! Once the scoundrels are within firing range, blast them to bits!”

“Aye aye!”

Those in charge started to activate the formations to prepare for the siege.

A moment later, countless formation seals around Ancient Frost Stronghold started to glow and swirl. All kinds of offensive formations, trap formations were being activated en masse.

The millions of warships did not stop despite countless formation seals standing in their way.

Right before the warships clashed with the formation seals, a rampant and unparalleled energy exploded across the space. A vast amount of Emperor qi burst from one of the warships, the qi intertwined above that particular warship and formed the Grand Emperor Avatar.

A huge amount of golden sword qi was gathering at the palm of the Grand Emperor Avatar and the Immortal Technique emanated a powerful ripple, so powerful that it could shake space itself.

“This energy...”

The elites who had their eyes on the situation had their pupils shank and all of them shared the same thought almost instantaneously.

The golden sword qi in the Grand Emperor Avatar’s palm converged and formed a golden sword shadow that was as wide as the horizon and as tall as the sky.

The golden sword shadow tore apart space wherever it touches.

All the stars across a billion yards trembled upon its appearance.

The golden sword collided with the countless formation seal of Ancient Frost Stronghold.

The formation seals broke and shattered one after another and the whole stronghold was trembling violently.

As the stronghold trembled, the cultivators fled.

The other stars within the proximity paled in comparison to the collision between sword and stronghold.

Countless cultivators who witnessed the collision were astonished.

Ancient Frost Daoist Celestial stared blankly as the sword descended upon the stronghold and tore all the formation seals into pieces.

As the ripples of the sword qi wreak havoc along its trail, Ancient Frost Daoist Celestial was smitten into dust before he could even react.

After the slash, the grand Ancient Frost Stronghold was slashed in half. Countless warship debris floated in space.

“Eliminate the rest,” the icy cold voice said.

It was then the three Bandit Kings and Black Blood Tower Master regained their composure.

“Fire!” Heavenly Gale Bandit King bellowed.

Countless energy beams were fired from the warships and they rained down like a storm on the remains of Ancient Frost Stronghold.

The cultivator guards of Planet Zi were terrified, no one was able to recover from the fear and regroup to fight back.

Soon enough, the number of casualties piled up. Those who were able to stand fled, and those who could not, died.

Ancient Frost Stronghold has fallen!

The bandits cheered loudly.

In the void, the cultivators who watched the terrifying scene slowly regained their composure but the remains of Ancient Frost Stronghold left them in shivers.

“If I’m correct, that golden sword is Sword Poet Immortal Chu Kuangren’s Immortal Technique,” said one of the cultivators with a trembling tone.

“It must be, it can only be him!”

“Oh my goodness, how powerful has he become? A single slash and he destroyed an entire stronghold?”

“He’s outrageously powerful!”

“Sword Poet Immortal Chu Kuangren once said that he swore to let Planet Zi have a taste of their civilization being annihilated. It seems like he meant it! I just did not expect him to gather all the bandits of Chaotic Starfield!”

“Planet Zi has offended someone beyond their league now.”

Discussion rose among the cultivators.

All the major players realized almost instantly that Chu Kuangren was the mastermind behind Chaotic Starfield’s conquest.

The elites who had a bounty placed on them by Planet Zi saw this situation as an opportunity. Their eyes glimmered and the urge deep down started to grow stronger.

“Planet Zi once ordered Black Blood Tower to hunt us down. They wouldn’t stop if they didn’t see our bodies.”

“Hehe, here’s a way to keep them off our tails, once and for all.”

"If we help Chu Kuangren to take down Planet Zi, it would mean taking revenge for ourselves. We won't need to worry about Planet Zi hunting us down anymore!"

"Planet Zi, let's settle our score!"

Those elites who were once hunted by Planet Zi started to make a move.

Meanwhile back at Planet Zi, after realizing it was Chu Kuangren who was behind this siege, Holy Violet Temple Lord was furious. The look on his face was as black as coal.

"Chu Kuangren! Chu Kuangren!"

"It's him again! I still haven't settled the score with him last time and now he's here again! Great! Just great!"

"That's it, I'm settling this with him once and for all! Gather the men, I'll lead the troops myself and go to war with this bastard!" Holy Violet Temple Lord bellowed coldly.

Planet Zi Guardian then said, "My lord, Chu Kuangren has gathered all the forces of Chaotic Starfield, he's not to be underestimated anymore. If you are leading the troops, it might not be suitable. Why not wait it out?"

"Wait it out?"

"Yes my lord. No matter how strong Chu Kuangren is, he would probably lose 90% of his troops if he wants to make it through all eighteen defense lines. While he is doing that, we can gather our troops and take him and his ragtag group of armies out once and for all when the time is right," Planet Zi Guardian said coldly.

"You're right.. We shall wait for his arrival then," the Holy Violet Temple Lord said coldly.

Chapter 907: Operation Start, Alone? Widen Your Eyes and Look

Chu Kuangren led countless bandits of Chaotic Starfield on a siege at Planet Zi.

The news spread like wildfire across the entire Violet Gold Galaxy.

All civilizations and orthodoxies were shocked by the news. The name Sword Poet Immortal, Chu Kuangren once again got pushed to the forefront.

"Sword Poet Immortal, Chu Kuangren, he's really a lunatic! He really did it! I thought he was just saying, I never thought he would go to war against the whole of Planet Zi!"

"Not only war, he even dragged all the bandits of Chaotic Starfield into this mess! Damn it, I don't think anyone would want to get on his bad side from now on!"

"Good grief...Tsk..."

"It seems like the party is coming to Violet Gold Galaxy."

Compared to the onlookers who wished things were messier than it already was, Planet Zi's affiliated civilizations took this siege seriously.

Should Planet Zi fall, they would suffer the consequences as well.

They had received strict orders from Planet Zi to hold Chu Kuangren and his armada of bandits outside Planet Zi.

They were ordered to kill as many bandits as they could.

It was obvious that Planet Zi simply treated them as cannon fodders but they could not do anything about it.

As Planet Zi's affiliated civilization, their fates were in the hands of Planet Zi. Should they disobey the order, Planet Zi could annihilate them anytime.

At this time, all the civilizations started to gather their troops and marched majestically towards where Chu Kuangren was.

That would be the prelude to an intergalactic war.

Meanwhile, at the second of the eighteen strongholds, Chu Kuangren unleashed his powerful slash again and the gigantic sword cut the entire stronghold in half, similar to Ancient Frost Stronghold.

The heaven-shaking slash struck fear in many who witnessed it.

"Chu Kuangren's powers are terrifying. Not even a Heavenly Dao at his peak can unleash such a powerful slash."

"He's a monster!"

Countless were in awe.

The powers that Chu Kuangren displayed did not match his actual age at all, it has surpassed everyone's comprehension.

A loud bang marked the collapse of the second stronghold.

As the stronghold fell apart, a large number of cultivators appeared and charged towards the bandits.

"Charge!"

"Whoever kills Chu Kuangren will be awarded 100 billion spirit marrow!"

Some of the cultivators came from Planet Zi's affiliated civilization and some of them were the guards from the second stronghold.

A bloody war broke out among the stars.

Chu Kuangren remained calm before the scene. His mind power conjured an army of spiritual weapons and swept across all directions.

Every cultivator who got close to him was blasted to death.

The battle lasted for one full day and night.

In the end, Chu Kuangren and his armada of bandits emerged victoriously.

“Master, we have lost 1.68 million men in this battle and the Emperors...” Heavenly Gale Bandit King wanted to report the casualties but Chu Kuangren simply waved his hand.

He simply said, “I don’t need to know that. As long as they are not dead, continue forward.”

The Bandit Kings quivered upon hearing their master’s words.

It was at that moment, they realized they were just tools for Chu Kuangren to use against Planet Zi. Their death meant nothing to him, he did not even bother to act like he cared.

“I know you don’t like me, you can hate me or whatever. None of that matters, I just want to destroy Planet Zi and you people want the planet’s wealth. Am I right? I have what it takes to make it a reality and that’s all you need to know,” Chu Kuangren said nonchalantly.

“But master, if this continues. When we reach Planet Zi, we won’t have enough men, how are we supposed to go to war with Planet Zi then?” Berserk Sand Bandit King asked after a deep breath.

“I said, you people do not have to worry about this. Just do whatever I tell you,” Chu Kuangren said.

“But... Fine.”

No matter what they felt about Chu Kuangren, there was no way back for them anymore. Greed was branded in the bones of every bandit of Chaotic Starfield and at this moment, all their minds could think of was the wealth of Planet Zi.

Even more so when Chu Kuangren displayed his strength, it showed them that it was really possible. It was not possible to tell the bandits to turn around and return to Chaotic Starfield anymore.

The armada of bandits continued forward.

The third stronghold, the fourth stronghold, the fifth stronghold...

...

In front of the eighth stronghold, the armada of bandits led by Chu Kuangren had lost more than 20% of its men and as they moved closer to Planet Zi, the retaliation got stronger and fiercer.

Even Heavenly Daoists had joined the battle.

Every force in Violet Gold Galaxy knew that this siege across eighteen defense lines was almost impossible to the bandits. In order to truly reach Planet Zi, the bandits might have to lose more than 90% of their men.

How should they go against Planet Zi if they had less than 10% of men in the end?

No matter how the Bandit Kings viewed it, it almost seemed impossible.

Heavenly Gale Bandit King and the others were getting anxious because it was their men who died in the battles and yet they dared not disobey Chu Kuangren.

After a huge battle, the bandits secured a tiny resting window.

Chu Kuangren gazed upon the stars and mumbled, “This should be close enough. Let’s begin then.”

Begin? Begin What?

The Bandit Kings were confused.

“You guys wait here,” Chu Kuangren said.

His figure flashed and disappeared from his spot.

A moment later, he traversed across several lightyears and arrived at the space above Planet Zi.

Then, as he utilized his mind powers, the space behind him started to tremble vigorously and ripples spread across the void.

Every elite of Planet Zi sensed the incredibly powerful space fluctuation. They gazed up into the sky and utilized their Emperor Thought to have a peek at the source of the fluctuation.

“Such a powerful space fluctuation, who could it be?”

“It’s him!”

“Sword Poet Immortal, Chu Kuangren! He came to Planet Zi alone! What is he doing now?”

All the elites were shocked.

A few lightyears away, where the armada of bandits rested, two light rays flew by the warships after Chu Kuangren disappeared.

The two light rays were actually two Chu Kuangren!

Heavenly Gale Bandit Kings and the rest were shocked by the scene.

“No, it’s the astral body!”

“But why is the master’s astral body here? There are even two of them! What is going on?”

Everyone was confused but Chu Kuangren’s Hell Soul and Earth Soul did not bother explaining.

“The main body has already made his move.”

“Let’s do this then.”

The Hell Soul and Earth Soul exchanged a quick gaze before they took a silver-white round plate out and tossed it into the air.

The round plate shone brightly and spun around nine times. As it spun, it formed a solid structure and powerful space fluctuation spread outwards swiftly.

It was the Timespace Treasure!

The space fluctuation enveloped every star in the area and the ripples started to spread across the void, forming a gigantic Space Transfer Tunnel.

“Everyone, into the tunnel right now!” Chu Kuangren’s Hell Soul said.

Heavenly Gale Bandit King and the others immediately knew what was going on.

“All ships, into the tunnel right now!”

Meanwhile, at Planet Zi, countless elites came out to space and stared at Chu Kuangren.

Holy Violet Temple Lord was also there and the chilly killing intent in his eyes was brazen. “Chu Kuangren, how dare you come to Planet Zi alone? Are you having a death wish!?”

“Alone? Open your eyes and take a look. I am not alone,” Chu Kuangren said with a faint smile.

At the space behind him, warship after warship came out from the void and there was no end to it.

Soon, an armada of warships and ferocious bandits appeared above the airspace of Planet Zi.

“After today, Planet Zi’s civilization will be history,” Chu Kuangren said in a calm tone.

Chapter 908: Beginning of the War, He Has Improved So Much

Warship after warship appeared from behind Chu Kuangren.

Countless bandits and their warships clouded the airspace. The overwhelming scene left everyone in awe.

A moment ago, Chu Kuangren was the only person in the airspace and now countless more appeared in the blink of an eye. How did he do it?

Swoosh!

Two rays of light flew across the space and entered Chu Kuangren’s body.

Hell Soul and Earth Soul returned to his body, together with the Timespace Treasure.

“Spatial technique!” Holy Violet Temple Lord glared at Chu Kuangren with a gloomy look.

He knew Chu Kuangren possessed spatial technique but the way Chu Kuangren used it exceeded his wildest imagination.

Chu Kuangren traversed several lightyears and transported an armada of bandits to Planet Zi! It was beyond anyone’s imagination.

How powerful has he become?

The question baffled everyone who witnessed the scene.

Little did they know, it was not an easy task transporting this many warships and cultivators to Planet Zi.

Even Chu Kuangren had to rely on the Timespace Treasure’s help to make it happen and there was a limit to the distance.

That was the reason why he led the bandits of Chaotic Starfield on a siege through the defense lines, he had to get close enough to transport the whole armada to Planet Zi.

If his cultivation was one rank higher, the bandits of Chaotic Starfield did not even have to leave the starfield because he could possibly transport them all to Planet Zi directly without going through any of the strongholds.

“Holy Violet Temple Lord, it’s time to settle the score between you and me,” Chu Kuangren said.

A hint of chill appeared in his eyes.

Ever since Planet Zi sent men to destroy Firmament Star, Chu Kuangren was destined to become enemies with the entire planet.

It was either he die trying or destroy the whole Planet Zi.

“Hahaha, Brother Chu, don’t leave us out of the annihilation of Planet Zi!”

Then, a burst of loud laughter sounded across the void.

Further away, flying figures flew closer towards them. The one in front of the group was none other than Godly Moon Daoist Celestial.

Behind the man was Yang Xiao, An Tian the wandering cultivator, Daoist Celestial Shi Ling, and many other Daoist Celestials who once aided Chu Kuangren.

“Godly Moon Daoist Celestial, why are you guys here?” Chu Kuangren was surprised by their arrival.

“Planet Zi ordered Black Blood Tower to assassinate us. We won’t let this go that easily,” Godly Moon Daoist Celestial said with a grin.

The other Daoist Celestials stared at Holy Violet Temple Lord and his men with a cold gaze. It was safe to say that they had beef with Planet Zi as well.

“Yeah, that’s right. We were around this corner of the galaxy a while ago. We actually wanted to see how many men you brought to the fight, Brother Chu. If it’s a suicidal mission, we won’t interfere; but if you have the numbers, it might be worth a shot,” Yang Xiao said with a smile.

He had a glance at the countless bandits behind Chu Kuangren and was impressed by the sheer number.

“This is beyond our wildest imagination. We did not expect Brother Chu to gather this many men! You really surprised us!”

“With this number, we might stand a chance against Planet Zi”

“Ha! Bring it on!”

“Planet Zi, you sent someone to assassinate me and now it’s time to settle the score, once and for all!”

The crowd was excited, they were eager to fight and their morale was high. Some of them were prepared to go all out in this fight against Planet Zi.

Holy Violet Temple Lord said with a grin, “Annihilate Planet Zi? Let’s see what you got!”

He then tossed a token up into the sky and it transformed into a dozen rays of light that flew towards different places in Planet Zi.

Powerful energies then erupted from the places that the rays of light hit.

“Who dares invade Planet Zi?”

“Having a suicide wish I see?”

Voice after voice came from Planet Zi, followed by more than 10 figures flying towards them. Every one of them was a Heavenly Daoist Celestial.

“Oh? So this is the ace card Planet Zi has been hiding under its sleeve. As expected it’s different from my expectation,” Godly Moon Daoist Celestial said with a heavy look.

They knew better than anyone that Holy Violet Temple Lord had a bunch of Heavenly Daoist Celestial in his arsenal and he has been keeping it a secret. The only question would be was this all he has been hiding?

“Be it Chu Kuangren or Chaotic Starfield, or anyone who waged war against Planet Zi, everyone who tries to invade Planet Zi, dies today!” Holy Violet Temple Lord said coldly.

The moment his words subsided, rays of light shot up from Planet Zi and warships after warships appeared in the sky.

Both the Chaotic Starfield armada and Planet Zi’s armies were ready to go to war with each other.

“Let’s see who will emerge victorious!” Chu Kuangren swung his hand.

The armada of bandits charged towards the army of Planet Zi.

The cultivators of Planet Zi also engaged their enemies.

Rampant enemies burst one after another across the void. The warships were firing beams at each other endlessly as if there was a downpour of energy beams in the sky.

The airspace above the planet was caught in heavy turbulence.

The war began.

“Charge!”

“Take down Chu Kuangren first!”

Soldiers versus soldiers, generals versus generals.

The clash of both armies felt like two torrential waves collided together.

The Heavenly Daoist Celestials got themselves a matching opponent as well.

There were more than ten Heavenly Daoist Celestials from Planet Zi’s side but Chu Kuangren had a number of Heavenly Daoist Celestials on his side as well. They were the Godly Moon Daoist Celestial, Yang Xiao, Lady of the Lunar Palace, the three Bandit Kings, and so on.

Chu Kuangren himself took on four Heavenly Daoist Celestials at once!

“Kid, you are young but you caused torrential waves. If you are allowed to live, Planet Zi will be in danger,” said a white-haired elderly coldly.

The Emperor qi on the man was erupting. Daoist patterns swirled around him and the lights of the stars gathered on him to form a torrential starry river that crashed towards Chu Kuangren.

It was Planet Zi's Immortal Technique, Galactical Starlight Immolation!

"Today will be Planet Zi's last. There's no future for you to talk about anymore." Chu Kuangren remained on the spot and simply threw a punch.

His terrifying fist energy exploded when it collided with the stream of the starry river. Galactical Starlight Immolation was crushed to pieces!

Then, he took a step forward and appeared in front of the white-haired elderly. He clenched his fist and threw a punch.

The punch felt dull and maladroit, but it was that punch that caused the elderly's pupils to shrink in fear. He felt threatened like never before.

"Starlight Shield!"

The elderly's Emperor qi swirled and formed a light shield.

Bang!

A loud bang later, the shield formed out of light was smashed to pieces by Chu Kuangren. It disintegrated into light particles in the sky.

The shield did not stop Chu Kuangren's punch at all. It hit the elderly on the arm and then his chest.

The elderly spat blood as he was sent flying backward. He crashed through several warships and then was left floating in space. His left arm was left swinging helplessly and his chest even caved in. His powerful Emperor qi was halved.

He looked at Chu Kuangren in fear.

"W-What kind of strength is that?!"

A single punch managed to heavily wound a Heavenly Daoist Celestial!

If it was not for the Starlight Shield taking most of the damage, the punch alone would probably kill him on the spot.

He had never heard of Chu Kuangren's strength before.

"His powers had grown so much!"

Holy Violet Temple Lord was shocked.

Godly Moon Daoist Celestial and the others were left in awe as well.

"Since the battle of Ancient Godly Moon Kingdom, Brother Chu has not changed much but his powers have grown significantly."

"His cultivation level remains the same but this power, it's outrageous. How did he do it?"

"No wonder he's able to tame those arrogant bandits from Chaotic Starfield and make them his pet.."

Chapter 909: Breaking Tri-mordial Mystic Formation. Killing Four Heavenly Daoist Celestials

“He is not to be underestimated!”

“No single Heavenly Daoist Celestial could match him! To formation!”

The other three Heavenly Daoist Celestials’ expressions changed when they saw what happened. The Daoist pattern around them started to swirl as they each formed a triangular formation and surrounded Chu Kuangren.

“Oh? A formation?”

Other than cultivating the orthodox Dao, Chu Kuangren also cultivated a lot of other ancillary Dao, such as formations, alchemy, weapon refining, runes, and more. He was a master at everything that he cultivated.

It took only a glance for him to know what kind of formation the three Heavenly Daoist Celestial was casting.

“Heaven, Earth, Hell. The Tri-mordial Mystic Formation!”

All three Heavenly Daoist Celestial shouted en masse.

The Daoist patterns around them started to resonate with each other and formed a formless energy field in the void that enveloped Chu Kuangren whole.

“You are not trapped in Tri-mordial Mystic Formation. Even a peak-stage Heavenly Daoist Celestial will be forced down two realms, let alone you, a mere Great Daoist Celestial,” said one of the Heavenly Daoist Celestials coldly.

Further away, Planet Zi Guardian and Holy Violet Temple Lord grinned at the scene where Chu Kuangren was cornered.

“I know the power to Tri-mordial Mystic Formation. With the Supreme Elders casting this together, not even a Pseudo Immortal could withstand this!”

“I’d like to find out how he escaped this.”

Godly Moon Daoist Celestials and the others slightly furrowed their brows.

“Hurry up and break the formation!” Yang Xiao said.

The others wanted to help but Holy Violet Temple Lord and the rest got into their way. They were not given a single chance to get close.

“You people better look after yourself first.”

“That’s right. Do you people think you have the extra attention to spare? Today, not only Chu Kuangren, all of you here shall die!”

Compared to the others, Chu Kuangren was a lot calmer despite being trapped in Tri-mordial Mystic Formation. He looked like he did not realize he was in danger.

Matter of fact, the situation barely stressed him out, let alone put him in danger.

"You think this formation alone is enough to defeat me? You overestimate yourselves," Chu Kuangren said.

"We shall see!" one of the Heavenly Daoist Celestials said with a scoff. Chu Kuangren's nonchalance and arrogance irritated him.

"Now!"

The three Heavenly Daoist Celestials made their move together.

With the support of the formation, not only could they suppress their enemy's power, they could also use it to boost their own.

Each of them activated their Immortal Techniques.

The sea of stars within the airspace started to converge on them and formed three streams of dazzling starlight rivers.

The terrifying energy waves burst and all three starlight rivers, in addition to the powerful Daoist patterns and Emperor qi, gushed towards Chu Kuangren.

Chu Kuangren remained stagnant on the spot. He utilized his mind power to drive the Emperor qi around him and formed a vortex out of the void.

All three starlight rivers were sucked into the vortex and disintegrated instantly.

However, Tri-mordial Mystic Formation was indeed powerful, it was able to limit the power of Chu Kuangren's technique. A part of the starlight river was able to hit him.

All three Heavenly Daoist Celestial grinned at the scene.

"So what if you have absolute defensive technique? With the limitations from Tri-mordial Mystic Formation, how much could your techniques possibly do?"

"DIE!!"

The three of them expedited their Emperor qis.

The power of the starlight rivers got stronger and it swallowed Chu Kuangren whole. No one was able to see what happened inside.

However, everyone knew what was going on. Throughout the Violet Gold Galaxy, only a handful could survive such a powerful attack.

Even Chu Kuangren himself might not make it out alive.

"Hmm! I bet there's nothing left of him," Holy Violet Temple Lord said with a grin. There was a hint of delight on his face.

"It's over."

"It is."

The three Heavenly Daoist Celestials exchanged a quick gaze. They believed even a Pseudo Immortal could not escape their attack unscathed, let alone a mere Great Daoist Celestial.

He would have died a thousand times by now.

“Over? You wish!”

A calm voice suddenly echoed throughout the vast space. As the starlight energy dissipated, everyone saw a peerless figure in white, standing inside the Tri-mordial Mystic Formation.

Light glimmered around him, making him look transcendent.

Chu Kuangren scanned over all three Heavenly Daoist Celestial and said calmly, “That’s all you got? What a disappointment.”

All three Heavenly Daoist Celestials widened their eyes in shock.

“How is this possible?”

“How did he withstand our attack?”

“And he’s not even hurt!”

Not only the three who set up the formation, but all the other Daoist Celestials of Planet Zi gasped in awe.

The power Tri-mordial Mystic Formation cast by the three Heavenly Daoist Celestial was unmatched throughout Planet Zi’s history and it has never once lost a battle.

Now, it could not even harm Chu Kuangren!

“How? What did you do?” asked one of the Heavenly Daoist Celestials.

“Is it that difficult?” Chu Kuangren answered with a question.

One thing worth noting was that his body has reached the peak-stage Stellar Undying Body, common Heavenly Daoist Celestials could no longer harm him.

On top of that, he had Ultimate Chasm of Convergence and a Heavenly Daoist Weapon defending him. The three starlight rivers did not even break his defense, let alone harm him. Even if his defense was broken, he still had the Stellar Undying Body.

“It’s rude of me to not return the favor. You guys should try one of mine,” Chu Kuangren said nonchalantly.

His mind power swirled and a huge colorful talisman formed out of the void. The talisman transformed into nine Dragon qi and gushed into his body, causing his energy to multiply.

Then, Phoenix’s Flame, Freezing qi, Emperor qi, mind power, and Daoist patterns appeared out of the void, transforming into purple and crimson-colored bands of light that burst outwards.

With a single thought, heaven and earth crumbled!

Kaboom!

The void exploded!

Tri-mordial Mystic Formation was crushed by the purple and crimson-colored bands of light!

The three Heavenly Daoist Celestials took the blast head-on. The purple and crimson-colored bands of light sent them flying backward as blood spurt from their mouths.

One of the Heavenly Daoist Celestials suffered the strongest blast, his body could not take the damage and burst into a cloud of blood with a bang!

"It's not over yet!" Chu Kuangren chuckled after breaking the formation.

His figure disappeared from the spot and then reappeared in front of one of the Heavenly Daoist Celestials who was sent flying backward. The Descendant Self Sword at his waist unsheathed itself.

A violet sword ray slashed through the sky, splitting the defenseless Heavenly Daoist Celestial into two.

"Second one!"

Chu Kuangren chuckled.

His mind power swirled once more and an army of spiritual weapons converged before they rained down on the last Heavenly Daoist Celestial.

"Starlight Shield!" The man shouted and the starlights around him formed a shield in front of it.

It was useless. The shield was shattered upon collision and the army of spiritual weapons ground him down into a cloud of bloody mist.

"Third one!" Chu Kuangren chuckled.

"Violet Star Divine Slash!"

It was then, the first Heavenly Daoist Celestial, who was punched away by Chu Kuangren at the start of the battle, elevated his Emperor qi to the maximum and unleashed his strongest sword strike.

Stars across the space converged into a giant sword with enormous power.

"I will show you what a sword is!"

Chu Kuangren held Descendant Self Sword in his hand and his Emperor qi swirled. The Grand Emperor Avatar then appeared with thousands of sword qi on its palm. The sword qi then converged into a rampant golden sword shadow before he slashed with it.

Rampant! Sharp! As it was the only sword that could bear such a title throughout heaven and earth!

It was the Emperor Sword!

Imperial Monarch Sword Art reigned across the galaxy!

The two sword shadows collide violently. The starlight sword shattered without any resistance and when the golden sword shadow slash the Heavenly Daoist Celestial, he was killed instantly.

"Fourth one!" Chu Kuangren said.

He stood proudly. His robes were as white as snow.

He broke the formation, killed four Heavenly Daoist Celestial and it all happened within a spark.

Chapter 910: Bow and Arrow? Let's Play. Killing Dark Arrow Daoist Celestial

Four Heavenly Daoist Celestials were killed with a spark!

It shocked everyone at the scene.

They were Heavenly Daoist Celestials! The strongest combatants throughout the Violet Gold Galaxy, not some common cultivators that could be found at every corner of the galaxy, and yet they were killed just like that.

It was inconceivable!

Holy Violet Temple Lord, Planet Zi Guardian, and the others all had a heavy look on their faces. The way they looked at Chu Kuangren was like they were looking at a never before seen arch-enemy.

"He shall face my clones!"

Holy Violet Temple Lord released several combat units. Each of them undoubtedly possessed the powers of a Heavenly Daoist Celestial.

On top of that, the combat units had possessed the Emperor qi of Holy Violet Temple Lord and as he claimed, they were indeed the clones that shared a link with him.

"As expected of Planet Zi, you even possessed Heavenly Daoist Celestial Combat Units."

Godly Moon Daoist Celestial and the others were in awe but they were not afraid of the combat units.

It seemed like Chu Kuangren's display of powers boosted their confidence a lot.

The combat units were not afraid of dying and they were no weaker than the four Heavenly Daoist Celestials before.

Further away, a pair of eyes, as keen as a hawk, was staring at Chu Kuangren.

The owner of the keen eyes was a middle-aged man with a robust body and a black longbow in his hand. He stood among the soulless planet.

"Chu Kuangren, you are powerful but as the saying goes: it's easy to avoid an attack in the open but difficult to dodge an arrow from the dark. Can you avoid my arrow from the dark?!"

The middle-aged man was also a Heavenly Daoist Celestial and compared to the others, he excelled at assassination with his bow and arrow. Therefore, in Planet Zi's records, he was known as the Dark Arrow Daoist Celestial.

Dark Arrow Daoist Celestial drew the string of his bow and a pitched black arrow formed. He took aim at Chu Kuangren, who was engaging the combat units.

Swoosh!

The arrow was let loose and it flew into the void!

That's right, the arrow disappeared as soon as it left the bow!

It was a so-called Dark Arrow, a difficult-to-notice attack, hence the name.

(If you have problems with this website, please continue reading your novel on our new website myTHANKS!)

Chu Kuangren was engaged with the combat units a few million miles away, and he had no idea that the arrow was coming for him.

When he finally sensed something, the arrow was only a yard away. Given the arrow's speed, a yard's distance was nothing. It would just be the time of one-thousandth of a blinking eye.

"Oh? Interesting."

With a single thought, formless vortices appeared and converged on Chu Kuangren.

With the next thought, Ultimate Chasm Of Convergence!

The moment the vortices converged, the Dark Arrow was already there. Any slower and he would be hit by the arrow.

Although it might not inflict any damage on him, having someone shooting an arrow at his back was not a good feeling. He was irritated.

Chu Kuangren had a glance at the black arrow caught in the vortices. His eyes were cold. "You want to play with a bow and arrow? I'll play along!"

A single thought was all it took to crush the black arrow into pieces.

He then threw several consecutive punches and blasted the combat units away and at the same time, he utilized his mind power to track the trajectory of the arrow but he did not see the archer at the other end.

"Hoho? He's no longer there? But, where do you think you could possibly go?" Chu Kuangren scoffed.

He expanded his mind power to blanket the entire battlefield to search for the archer. It was then a combat unit jumped on him.

"Get off from my sight!"

Chu Kuangren clenched his fist and the power from his body reached its peak. He threw a punch and crushed the combat unit into pieces.

"Got you!"

All of a sudden, Chu Kuangren squinted his eyes at a soulless planet a few million miles away. A middle-aged man was taking aim at him with a bow.

"Oh? He found me?" Dark Arrow Daoist Celestial was slightly surprised. "I heard he knew how to utilize his Spiritual mind power but it seems like his sensory abilities are powerful as well."

“But, what could you possibly do? I’m a few million miles away and my firing range covers more than half of the battlefield. Even if you can sense me, what can you do about it?” Dark Arrow Daoist Celestial scoffed.

As an archer, he was confident because range combat was his forte.

“Wait... What is he doing?”

All of a sudden, Dark Arrow Daoist Celestial looked shocked. He saw Chu Kuangren raising the left arm and then the right arm to the same height.

“This stance is...” Dark Arrow Daoist Celestial’s pupils shrank in fear.

He was familiar with the pose, it was the pose of pulling the string of a bow.

A violet-red longbow appeared in Chu Kuangren’s hands. There were swirling Daoist patterns around the bow body, stating that it was not an ordinary bow.

At least, to the Dark Arrow Daoist Celestial, Chu Kuangren’s bow was far stronger than his own.

He was surprised that Chu Kuangren knew archery.

Then, he felt peerless Immortal Technique ripple from Chu Kuangren.

“This is...”

Dark Arrow Daoist Celestial’s heart throbbed and a bad feeling rose from within.

“Four Mystical Art Solar Shot, Scarlet Phoenix!”

Buzz!

The string was let go and a violet-red arrow was shot through the void. It soared across the battlefield in the blink of an eye and went straight after Dark Arrow Daoist Celestial.

“Damn it!” Dark Arrow Daoist Celestial sensed the power from that arrow. It caused his pupils to shrink further in fear.

He wanted to flee the planet but that arrow suddenly transformed into a violet red Scarlet Phoenix. The Scarlet Phoenix flapped its wings and millions of fiery feathers transformed into arrows that rained down on him, cutting off his escape.

“Damn it! This is Planet Sirius, Li clan’s Four Mystical Art Solar Shot! How does he know this technique?”

He had heard of the Li clan’s Four Mystical Art Solar Shot and also witnessed its power before. He did not expect that Chu Kuangren knew the technique as well.

On top of that, Chu Kuangren used the technique better than any Li clan members that he saw.

“Four Mystical Art Solar Shot, Azure Dragon!”

After the Scarlet Phoenix cut off Dark Arrow Daoist Celestial’s escape, Azure Dragon came through the void with a ferocious roar.

Looking at the incoming strike, Dark Arrow Daoist Celestial drew the string on his bow and cast his own Immortal Archery Technique.

“Dark Arrow, Fallen Moon!!”

The arrow flew out from his bow with chilly and dark energy to it. It collided with the Azure Dragon and caused a huge bang in the void.

“Four Mystical Art Solar Shot, White Tiger!”

However, before Dark Arrow Daoist Celestial could recover his composure, another arrow was let loose by Chu Kuangren.

A ferocious White Tiger roared as it leaped across the battlefield.

This time around, Dark Arrow Daoist Celestial failed to set up his defense in time and was blasted away by the White Tiger. His injured body burst on the spot.

Chu Kuangren killed another Heavenly Daoist Celestial with only three shots of arrow through a few million miles. The first arrow he fired was to cut off the escape, the second arrow was to mitigate the attack and the third arrow was the killing blow.

The scene left everyone astonished.

No one knew Chu Kuangren knew archery!

“How many more ace cards he had hiding under that sleeve of his?”

“What a terrifying shooting technique! That bow of his is not just an ordinary Heavenly Daoist Weapon, especially that string. It gives me the chills. It seems like it’s a... Immortal Tendon!”

“He’s too powerful! Ridiculously powerful! How many more techniques has he not shown?!”

Everyone’s eyes at Chu Kuangren were filled with astonishment.

A powerful enemy might be terrifying but a powerful enemy with almost endless ace cards was true despair.

Chu Kuangren was the latter.

Even Holy Violet Temple Lord could not help but feel afraid before such an enemy. However, things were beyond redemption, there was no way he and Chu Kuangren could simply walk away from this.

All he wanted now was to destroy Chu Kuangren.

“Chu Kuangren, you shall die today!”

Holy Violet Temple Lord took a step forward and the peak-stage Heavenly Daoist Celestial energy erupted.

The strongest Daoist Celestial on the battlefield finally went up against Chu Kuangren!
