### Chapter 5 Alexander

“That was better than anything I’ve ever read about,” Liliana says after a few moments of quiet. “I’m so glad you found me.” I can hear the awe in her voice, and it makes me want to puff my chest with the knowledge that I put it there.

I nuzzle her neck and then take a nip of her skin, and she giggles. The sound sinks into me, making me smile. I didn’t know someone’s laugh could do that to you. The thought of never having it scares the shit out of me. I hold her tighter.

“You belong to me now, little one. I own you.”

I think I keep saying it for her benefit as well as my own. She will always be mine, no matter what, and I want to make sure she understands that. Especially now with my bare cock buried inside her and my cum leaking out of her pussy. I’m sure she’s bred with how much I put into her, but I’ll keep doing it just to make sure it takes root. To make sure I own every part of her. I need it.

“Why were you here all alone and waiting for me?”

I’m sure this is a question I should have asked before I took her, but there wasn’t enough time between seeing her and the need for her hitting me like a fucking truck. I slide my hand between her legs and cup her pussy, not playing with her, just holding it possessively while she tells me her story.

“I was raised by my grandmother. She died a few months ago, and I’ve been here all alone since. We had a few people who lived here and helped take care of the place, but they left the other day and I didn’t know what I was going to do. She never took me anywhere to see how the outside world is. Everything I know, I learned from books, and even that isn’t much.”

She sighs and nuzzles into me.

“I’m so glad you found me, Alexander. I was starting to get scared. I’d never met a man before, and when you walked in and I saw you standing there, I knew you’d come to rescue me.”

I lick the shell of her ear and kiss her just below it.

“If another man had seen you, I have no doubt he’d have tried to take what’s now mine.” Thrusting into her a little, I show her what I mean. “Men are primal, princess. Any man seeing you so young and sweet would have known your pussy was untouched and would have been clawing to get at you. They want a ripe little cunt like yours to sink their cocks into. You’re so beautiful and look so innocent, it’s their darkest fantasy. Having a teenager bouncing on their dicks and filling her with cum.” I feel her shiver, and I nibble on her shoulder. “But I’ve had you first, and you’ll be mine forever. No man will ever get near you.”

“I don’t want any other man.” I hear the smile in her voice, and I can’t wait any longer. I have to take her again. One more time and then we can talk, then I can take care of her. Pulling out, I hate the loss of her cunt, but I roll Liliana on her back and then hover over her.

Kneeing her legs apart I slide back into her tight pussy. She moans when I fill her again, and I can’t help but feel like a god. Her god. I will own her and rule over her body for the rest of her life.

“You’re lucky I’m the one who found you, Liliana. No one will treat you better than I will. You’ll have everything you’ve ever dreamed of and more. All you have to do is ask and I’ll make it appear. You’ll be the one owning me, sweet girl.”

Her bright doe eyes look up at me and she grins. Her hands come up around my neck and she raises her hips in invitation for me to go deeper.

Leaning down, I press my lips to hers. Her sweet taste floods my senses, and I start to thrust. Her slender legs wrap around my waist and I think about how long it’s been since she’s eaten. She’s too thin and needs to gain weight. I’ll take care of that though. I’ll take care of everything.

Moving my mouth down her neck, I nibble and suck the soft skin as I go. When I get to her breasts and see her hardened nipples, I can't help but take them in my mouth. I suck as much of them as I can in my mouth and lick all around it. Her body bucks under me at the sensation, her fingers digging into my back.

"Just once more, little one. I just need you once more and then I can take care of you."

I lick back up her body and rut into her pussy, edging closer to my climax. She's going to have marks all over her from my mouth and beard, but all it does is turn me on more. I don't want anyone thinking she isn't claimed, so I'll make sure she's covered. Breeding her will do that, too.

"Mine," I growl into her neck, feeling her pussy clench at the word.

"Yes."

Her voice is just a whisper as she climaxes on me, clinging to my big body above hers. She shouts my name, and I thrust as far as I can one last time and empty a load of hot cum into her. Feeling each pulse pour inside her makes me grit my teeth. She's unprotected and ripe, which means impregnating her will be so easy.

When I catch my breath, and balance myself on top of her so that my weight doesn't crush her little body, I look down and brush a dark, glossy strand out of her face. Her arms come up to my chest and she pets me, like she wants to make sure I'm real, too.

"How about we get you cleaned up?"

I lean down and kiss the end of her nose, making her giggle. The sound is so innocent and sweet. It makes my cock twitch inside of her.

I wonder what that giggle would sound like with my cock in her mouth.

Chapter 6 Alexander

Picking her up from the bed, I cradle her naked body in my arms.

I'd gotten out of bed and found a bathroom down the hall with an old clawfoot tub. It would be big enough for the two of us, but just barely. I filled it with warm water and some bath oils I found nearby.
