

Urban Medical 1261

Chapter 1261: Chance, blood!

Ye Chen laughed. He didn't expect this Tianhu to be afraid of himself, so afraid.

Ten thousand demon heaven?

In fact, many of the powerful mounts were cultivated by the Royal Beast Sect.

It can be said that after the First World War, the Royal Beast Sect gathered in the vast majority of high-ranking monsters in Kunlun Xu. These monsters have gone through three thousand years and have broken through to a high level without any foreign enemies. Their arrogance is normal.

but!

He is here Ye Chen, this Ten Thousand Demon Heavenly Court must be changed to Ye Chen Heavenly Court!

"Big...big...sir...you mean Yaozhi, are they those monster trees?"

"If it is, Lord Demon Sovereign still has thirty-two demon planting gods who will produce a lot of special fruits every hundred years."

"Eat it can increase a lot of soul power, and it can also increase the physical body!" Tianhu hesitated, and finally finished these words, and looked at Ye Chen from time to time, for fear that Ye Chen would be unhappy, and slap him. Went out.

"Special fruit?"

"Demon Zhi?" Ye Chen was quite excited, but he didn't expect that these elixir would be refined.

Generally speaking, the essence of elixir must be below a certain density of heaven and earth aura.

For example, the Holy Grass Temple can definitely turn the elixir into a spirit and become a demon plant, but it will waste a lot of aura if it is used as a medicine to make a pill.

Of course, listening to the blood of Qiye said that in the former Kunlun Xu, some people cultivated a demon plant to fight, but they only cultivated a demon plant.

"Special fruit!"

"Increase the power of the soul and the power of flesh and blood!"

"Maybe I don't have to go to the land of the soul when I come to this place."

Ye Chen calculated that if he wants to break through to the domineering stage, he needs less of the blood of five emperor beasts with five or more levels of the emperor. If he can kill them completely and seize the prototype of their Dao, it is important for cultivating his own Dao. It can be faster.

"Which Demon King does this place belong to?"

"This Demon King, how high is the realm?"

Ye Chen doesn't want to waste time, he must break through the body refining realm as soon as possible, and then go to China!

Monster beasts are no better than human monks. As long as the corpse is preserved after being killed, it is very likely that they will be able to seize the opponent's "Big Dao" by then digesting Ye Chen's way of killing "Big Dao", and they will definitely advance to perfection!

"Yes... It belongs to the Demon King, Lord Demon King also established the Court of the Destiny King, under the Heavenly Court of Ten Thousand Demon!"

"Master Demon King, it seems to be above the fifth level of the emperor's realm. I don't know the specific realm!" Tianhu said as if squeezing toothpaste, it seems that he really doesn't know the situation.

Ye Chen slapped the sky tiger to death, took the demon core, and put it in the reincarnation cemetery. If you want to know the situation here, you have to find another demon beast, at least in Daoyuan, otherwise you don't know the big demon kings. Strength.

He walked quickly, looking down at countless trees, his left hand stretched out, the criss-crossing sword air flowed, the stars flickered, and the star sword emerged!

At this moment, he had recovered to the realm of Daoyuan Realm, and the power given by Xue Qiye had been taken back.

"Ten Thousand Dao Flying Sword!"

Ye Chen gave a soft drink, squeezed the Star Sword, a sword was sacrificed, and the four violent winds gathered, and a sacred pillar rose into the sky and turned into an infinite black cloud.

The devastating sword energy that was practiced on the dark clouds slowly rushed out, like a curtain of rain, hitting the trees.

Boom! !

boom!

Trees burst open!

The monster beasts on the ground, regardless of their level, the future and escape, were swept by the Destruction Sword Qi, and then died, the flesh exploded, the monster cores flew out one after another, turning into streamers to gather towards Ye Chen.

In an instant.

Under Ye Chen's sword, a radius of tens of kilometers was turned into a piece of waste, and many monsters and plants were destroyed.

He put away many demon cores, "only two can be used!"

"We have to find an opportunity to destroy some emperor-level monsters, and then subdue other monsters!"

"According to what Tianhu said, there are at least hundreds of monsters in the emperor realm in this place, of which five monsters and four monsters are the most respected!"

"Take some kills and conquer some!"

Just as Ye Chen was thinking about it.

In the northwest, a blood-colored **** pillar soared into the sky, followed by a turbulent road of gods and might.

I saw that a blood tiger big demon of the size of a hundred meters led hundreds of demon beasts to rush and kill. Each demon beast was dozens of meters in size, and its aura was comparable to that of a monk in the emperor realm. It was an extremely powerful force!

The big blood tiger demon's shell was stiff, as if he was wearing a battle armor, and the stiff bone spurs hit the destructive sword energy around him.

It rushed to Ye Chen and said in human language: "You outsider, why slaughter us?"

"I need essence and blood!" Ye Chen looked at the blood tiger big demon, comparable to the fifth-tier heaven of the emperor, and asked: "Are you the demon king of heaven?"

"I'm not!"

"The Demon King is holding a birthday banquet, I think you are not weak, from which school of Kunlun Xu?"

The icy pupils of the big blood tiger demon overflowed with blood, and the whole body exuded a breath of splitting, which was very terrifying.

It kept looking at Ye Chen, but said in its heart: Who is this?

Kunlun Sect?

Daozong?

Or a member of the Huang family?

No one has known this place since the ancient war.

Why does this young man break in, Master Demon Emperor knows?

No matter, let me first inform Lord Demon King I am from the medical gods! "

"Come from refining the body!" Ye Chenkan can finish.

"Asshole!"

"I want to use our blood and demon core refinement to kill!"

When the Blood Tiger Great Demon heard Ye Chen's body refining, he directly ordered a siege.

It flew over in person, and two blood-colored giant claws, comparable to seventh-grade spirit weapons, slammed on the Star Sword, and each collision caused violent cremation.

Boom! !

boom! !

The Star Sword collided with the giant claw, and although it was harmless, it shocked Ye Chen's mouth.

Ye Chen looked at the Blood Tiger Great Demon, "As expected, it is a monster beast, in the emperor state, and the body is comparable to the late stage of the human emperor state."

"Since you want to kill me!"

"I will kill you first!"

"The Sword Gate shows the world!"

Ye Chen gave a low cry, retreated and opened, holding the Star Sword in both hands, the infinite blood burst out, and the criss-crossing sword aura rose into the sky!

High in the sky, a round of **** sword gates appeared, sacred and mighty, as if the ancient heavenly court came back to the world.

One after another, the sword energy was destroyed, and the straight sword gate rushed out.

In an instant, infinite sword energy burst out.

Whoosh whoosh! !

The monster beasts with terrifying breath were directly blown up.

The Big Demon Blood Tiger was also hit by the pressure of the sword, and his flesh was split apart, and scarlet and hot blood spurted out.

"Damn humans!"

"Anyone who steps into this place must die. You still want to use our blood to refine your body. If I die, it won't be cheap for you!"

The blood tiger demon has ferocious eyes and uses a pair of tiger claws to protect its head against the destruction of the sword energy. The endless blood energy in the body becomes violent, and its flesh swells up. Soon, its flesh bulges like a ball. of.

Wow! !

Unexpectedly, a sword light flashed, and the violent sword aura seemed to tear everything apart! The Blood Tiger Demon hadn't fully reacted yet, he was directly cut in the waist!

Chapter 1262: Public anger!

Ye Chen smashed its head with a sword, took out the demon core, and refined its essence and blood with secret methods.

Soon, Ye Chen extracted a pound of essence and blood, and when he turned to look around, except for the corpses of four emperor-level monster beasts that had just been killed, dozens of emperor-level monster beasts had run away without a trace.

"Fine!"

"Just let you run for a while!"

"I will take this blood and practice for a while!"

Ye Chen collected these corpses, found a mountain peak, slapped the Dao Source Realm fierce beast inside, and occupied the magpie nest!

He took out the essence and blood and the demon core one by one, "First absorb these things, break through the bone consolidation stage, and enter the domineering stage!"

The body refining realm after the bone-fixing period is stronger and more divided. It is generally reduced to nine levels, such as the first stage of the domineering stage to the ninth stage of the hegemonic stage, the first stage of the Huagang stage to the ninth stage of the Huagang stage, and the more The stronger the hind body, the qualitative change will even occur.

For example, Ye Chen, before it was the bone coagulation stage, after the breakthrough, it was the first stage of the domineering stage!

At least it needs to reach the fifth stage of the Dominant Body Stage to be comparable to the body of the gods!

If it reaches the ninth stage of the Huagang stage, the physical body alone is enough to resist the attack of the strong gods!

Ye Chen took out these monster cores one by one.

The monster core is something that stores the power of the soul, and it is also the key to controlling the whole body. It is equivalent to the human brain, but it is useless for humans, but it can be used by monsters!

In addition, the rudiments of these monstrous beasts in the emperor realm are generally stored in the demon core.

Different from human monks, they are generally stored in every part of the body. Once fighting, the prototype of the avenue will fall from behind and rise to the sky to burst out an absolute powerful force!

As for the essence and blood of the monster beast, it is the essence of the body, including the power of blood and the power of heaven and earth.

"Too many kills under the Void King Realm."

"Seventeen heads of Daoyuan Realm!"

"Five heads in the emperor realm!" Ye Chen held five purple demon cores and the blood of the demon beast, "I hope these can make my body refining breakthrough!"

"Xiao Huang, come out!" Ye Chen called Xiao Huang out, thinking about it: "I'm afraid that the rest is also a great tonic for you."

Xiao Huang stepped aside and said, "The flesh of the Emperor Realm has some effect on me!"

"Under the emperor state, it's useless to eat!"

"Hey, there is no prototype of the avenue, no demon core."

"Have you taken it all?"

"Nature!" Ye Chen found a place in the cave, took out a wooden barrel and put the blood in it, then put some elixir into liquid, stepped into it, the blood flowed instantly, and the violent breath penetrated Ye Chen's body.

This method was taught by Xue Qiye to Ye Chen. Only in this way can he stimulate Ye Chen's body!

It may even have a great effect on the blood awakening in Ye Chen's body!

The blood is full of violent blood energy, impacting Ye Chen's physical body, constantly impacting, the physical body is constantly healing, and at the same time absorbing these blood energy.

As long as the physical body reaches a peak level, it can break through the bone consolidation period!

.....

Right now!

To the northwest, a huge boulder piled across the palace, and a white tiger giant monster was sitting on the main hall.

There are also a group of giant monsters sitting on the left and right, but at the moment they are like human beings, sitting on the cushions, tasting various fine wines.

High-level monsters have the ability to transform into humans.

However, once the monster is transformed into a battle, its combat power will be reduced a lot, and it is not its own body, so it usually transforms human limbs to facilitate action!

"Congratulations to the Demon King, longevity!"

"I wish the prince a happy wedding!"

An emperor-level monster stood up, holding a blood-red wine glass in his hand, and said: "Now, my body-building place is getting stronger and stronger. Perhaps in the future, Lord Demon Emperor can lead us to counterattack Kunlun Xu!"

"Yes, Kunlun Xu enslaved me, but was killed by the Blood Spirit Race!"

"The adults of the Blood Spirit Race, let us go. When we have a certain degree of recuperation, we will also destroy Kunlun Xu and repay the seniors of the Blood Spirit Race!"

A tiger demon also raised the cup, congratulating the giant white tiger demon in front of him.

It thought to himself: Thousands of years!

The people of Kunlun Xu dared to use our monster race as a mount!

In the near future, when we attack Kunlun Xu, we must grab humans as mounts, and then grab some beautiful human girls!

"Master Demon King!"

"The Kunlun Void Humans were extremely excessive back then. Fortunately, the predecessors of the Blood Spirit Race moved our Monster Beast and Monster Clan to this space!"

"Even promised us that Kunlun Xu will be destroyed in the future and let us join the Blood Spirit Clan. In that way, our future will be very brilliant!"

This is a demon plant, a big tree turned into a fine, transformed hands and feet, but the main body part is still a big bronze tree, but it shows a bronze face, except for the green branches and leaves on the top of the head.

It is a line of Demon Zhi, there were few Demon Zhi back then, but they didn't want to be moved to this space by the blood spirit clan!

"Well, all gods!"

"Today is my king's birthday banquet, and it is also the wedding of Prince Maple!"

"This kind of thing will be discussed in the future!" A cat demon said slowly: "What's more Kunlun Xu contributes one hundred emperor realm to the predecessors of the blood spirit race every 100 years, it is not enough to be afraid!"

"It's still important for the king's birthday banquet and the prince's wedding!"

"Thank you Hongmao God!" A young man in the center of the hall clasped his fist towards the cat demon, and said: "Today I am overjoyed, and I also invite all the gods to have a feast, to kill the Kunlun Xu in the future, and to take humans as slaves! "

"Hahaha!"

"The maple prince said well, he deserves to be the prince of our destiny court!"

"Prince Maple has a vision, I am not as good as waiting for the gods!"

Many great demon and demon plant **** will praise one after another.

It seems that in the land of body refining, the demon emperor claims to be a god, and the monsters and monsters who enter the emperor state all call themselves gods.

There are dozens of gods in the main hall, and the lowest are the first and second levels of the emperor realm. It is not weak. A single top faction is far inferior!

"Report!"

"It's not good, Demon King, something happened!"

"God Kui Mu will encounter Kunlun Xu people and has already fallen!"

A lion **** will rush into the main hall. It is the person who participated in the besieging Ye Chen. He has the three-tiered emperor realm and is also a powerful person!

"presumptuous!"

"A mere human, dare to enter my body training ground!"

The Destiny Demon King was furious, and suddenly sent a thousand ripples to the left, shattering the ground, his breath was extremely terrifying, and he was not even under the ancestor of the Qingtianmen!

It had a pair of terrifying eyes with strong blood, and it swept across the monsters, saying: "This tiny human, dare to kill my **** on the day of my king's birthday and my son's wedding!"

"Which **** will capture this bold human?"

"This king has many rewards!"

"Great King!" The tiger demon just stood up and said: "Subordinate Tianmu, willing to go!"

"Such an ant human, I can suppress it with one punch!"

Chapter 1263: I look forward to meeting you

"Great King, his subordinates are willing to go!" The demon plant also stood up, clasped his fist and said: "This person can kill the **** general Kuimu, and his strength is bound to be good. It is estimated that it should be the fourth level of the emperor realm. I am willing to go to the fifth floor of the emperor realm!"

The **** general of Kuimu has the real body of a blood tiger!

So, they were all killed!

Then this person must be good at a single kill and felling move. The main body of the **** general is a 10,000-meter willow tree, which can affect the trees around the forest and form an array!

Don't believe it yet, you can't kill this person!

"My lord, I'll come!" Another person stood up and said: "The subordinate has been in the fifth level of the emperor's realm for a thousand years, and the flesh is tyrannical, and he can definitely take this person!"

He smiled secretly in his heart: This happened just right, kill this person and give it to Prince Maple as a wedding gift!

I must be the confidant of Maple Prince!

In the future, I will be able to break through the Kunlun Void and occupy the Kunlun Void.

The Demon King of Destiny glanced at the God General who invited Ying, and smiled disdainfully: "Little humans, dare to provoke my Court of Destiny. Okay, the Willow will kill this person and bring his head together as a birthday celebration. like!"

"Yes, my lord!" The demon plant clasped his fist and said, "I am determined to kill this human being as an adult. Before killing him, I also learned from the seniors of the Blood Spirit Race, so I will cramp him!"

After that, the Willow God will turn to Prince Maple and say: "Please wait a moment, the little one will kill the human being and congratulate the Prince on his wedding!"

It flew out of the hall, and it was a presence with countless auras!

At the beginning, the blood spirit tribe did not destroy the two tribes of Monster Beast and Monster Plant, but killed all the masters of the two races above the God Realm, because those masters listened to the orders of the Royal Beast Sect, but the lower realm monsters in front of them The beast can be subdued!

Everything about the Blood Spirit Race!

Conquered many planes, the strong in the planes generally adopt a policy of slaughter, or half-slaughter and half-conquer.

Although the blood spirit race is strong, the population base of its own plane is comparable to many planes, so it is necessary to continue to accept the strong from other planes, regardless of the human beings or demons, as long as you submit to the blood spirit race to ensure loyalty , You can let these powerhouses join them and help them attack other planes.

In the tomb of reincarnation, a hundred strong!

Thirty people are from Kunlun Xu.

That means that the remaining strong may come from one place or another.

"Venerables, generals, follow this god, and capture human monks!"

The willow **** will call out, and the violent aura is like a tornado towards Ye Chen's direction.

For them, in the huge body refining ground, there are monsters and plants, and human monks can't hide it anywhere!

...

In the cave!

Ye Chen's palms were closed, his body was absorbing the blood in the barrel, and his body gradually turned from yellow to red. A wave of violent blood lingered, the meridians were rapidly expanding, and the bone density was also increasing.

Bone coagulation period!

It refers to bone aggregation to qualitative change. Generally speaking, even if the emperor realm figure does not specialize in cultivating the flesh, as long as the flesh is washed and cut with the blood and the spirit of heaven and earth day and night, a hundred years have passed, and the bone can be reached.

But the domineering stage is different!

What is hegemony?

As soon as the physical body emerges, the body is dominant in the world.

The physical body alone is enough to kill any powerful emperor realm, and even a drop of blood to destroy the cultivator of the source realm, even if the blood is shocked, it is enough to severely damage the emperor realm. Compared with the bone-fixing period, there is a great qualitative change, and the strength of the physical body has to be increased several dozen times!

Especially the gap between the ninth stage of the bone consolidation stage and the first stage of the domineering stage!

Comparable to the gap between heaven and human, once you enter, your combat power will increase tenfold.

"This kid!"

"Almost, this time the blood of the beast is not good!"

In the tomb of reincarnation, Xue Qiye was looking at Ye Chen, thinking: "Ye Chen needs at least the blood of five emperor-level fierce beasts to enter the first stage of the hegemonic stage. Or the blood of the emperor-level monster beast, at the fifth stage of the domineering stage, it is not much worse!"

Mo Ning'er nodded thoughtfully:

"That's true!"

"The tallest place here is the Monarch Beast!"

"If he gets the blood of a beast into the gods, he is very likely to enter the ninth rank of the domineering stage!"

She knew the difference between the emperor's state and the god-entering state, whether it was a human or a monster.

If you don't enter the realm of gods, even if a hundred emperor realms work together, it is difficult to fight a person who has just entered the realm of gods. As for monsters, the difference in the power of blood in the body is greater than that of humans. The blood of the beast's essence is much more powerful than the blood of the nine-layer monster beasts of the ten emperor realm.

"This time, Ye Chen took one step forward at most!"

"Hey, another monster is coming. No, it's Yao Zhi!"

Xue Qiye found that the **** Liumu had been killed, and awakened Ye Chen who was tempering his body.

Ye Chen woke up from his practice and sighed, "It's still not enough. Maybe, suppressing their Four Great Demon Kings and Demon Emperor, it's almost the same!"

He got out of the wooden barrel. The blood qi was shaken and the impurities were driven out, and the whole body was surrounded by blood qi.

Then, he suddenly raised his head, his icy eyes were like stars, and the way of killing directly overflowed his body!

Extremely violent!

"My time is limited. Anyone who prevents me from going to China must die."

...

At the same time, China, Beijing International Airport.

A young girl in a peaked cap walked out of the airport.

Her peaked cap is very low and her face can't be seen clearly, but her temperament makes every visitor present feel terrified.

Because it was a kind of coldness, like a fairy coming from above the nine heavens!

There was a little girl next to the girl in the peaked cap, with a lollipop in her mouth, her eyes full of excitement.

"Sister, Huaxia wants a lot of delicious food, I will take you to eat it all!"

Ji Siqing glanced at Ji Lin and shook his head: "Don't forget the purpose of our trip. Find Xia Ruoxue. Now, take me to Ye's house first. I want to find out about the situation."

Ji Lin's smile disappeared: "I see, sister."

Some paparazzi squatting at the airport thought it was obvious to Ji Siqing, and just wanted to take pictures of Ji Siqing and Ji Lin with the camera, but for some reason, they just pressed the camera, but there was a burst of electricity in their hands.

In the next second, the camera fell directly on the ground, breaking into pieces.

Countless cameras were scrapped.

Strange to the extreme.

Ji Siqing left the Beijing International Airport and took out a photo from his pocket. The photo showed a young girl in an evening dress smiling like a flower.

Looking at the girl in the photo, Ji Siqing Bingham also showed a smile.

"The bloodline on Ye Chen's body is special, and his fate is logically impossible to be related to the mortal woman, but you have become his inverse scale. I think things are definitely not that simple."

"Xia Ruoxue, I am looking forward to meeting you."

Chapter 1264: Is this impossible?

An abandoned factory in the west of the capital.

There are no people around the abandoned factory.

Most people will never notice it.

But if Ye Chen were here, he would definitely find that a formation was circulating under this seemingly ordinary abandoned factory!

And the operation of this formation comes from a drop of blood!

The blood from Ye Chen!

This abandoned factory is Ye Chen's back road left to the Huaxia Secret Palace.

When he left China at the beginning, he had imagined that something might happen to the dark palace.

Although the dark palace at the time was not afraid of everything, he still made this plan.

There is an extremely strong shielding formation outside the abandoned factory, which is difficult for the general strong to find!

At the same time, there is still a world under the abandoned factory!

Technology and spiritual stones are piled up!

It is extremely difficult to break open.

The sixth floor of the abandoned factory.

Lu Lingfeng, the guardian of the dark hall, paced back and forth outside a gate.

After the palace lord Ye Chen and Ye Lingtian left, the news of the two seemed to sink into the sea.

At the beginning, Ye Lingtian went to Kunlun Xu to find the Lord, and he promised Lu Lingfeng that he would send a letter back every month.

But after so long, there is not a single letter.

The key is now that everything around has changed.

Lu Lingfeng thought that his strength plus the guardian, and even the official power, the Ye Family and the Dark Palace, were unmatched.

No one is qualified to shake.

But now, he found himself wrong.

There are people outside, and there are heaven outside.

A group of powerful men suddenly arrived in China, and the auras of the elderly men headed by them were even more terrifying!

With a wave of hands, some dark palace strong will be suppressed!

This group of people ruthlessly occupied the entire Huaxia Ye Family!

Not only that, but also looking for all the news about Ye Chen!

The official side had promised Ye Chen to protect the Ye family, but in the face of such a top powerhouse, they could only compromise.

Those guardians contended, but the final result was a blood mist!

It's not a level at all!

This is the biggest crisis he has encountered since Lu Lingfeng took charge of the dark palace.

He knew what his mission was, so he immediately brought Xia Ruoxue and others here, and let people bring the information to Kunlun Xu.

All he can do now is wait!

But how long can this place last?

he does not know.

"Crack!" With a sound, suddenly, the door behind opened.

A girl who seemed to walk out of the painting appeared in front of Lu Lingfeng.

The girl frowned slightly, her facial features seemed to be God's most satisfying existence.

"Miss Xia, what's the matter?" Lu Lingfeng said cautiously.

He knew the relationship between the girl in front of him and the palace master.

Xia Ruoxue's eyes flowed: "I have been here for a week, do I want to stay any longer? Can you tell me what happened? I should have the right to know."

"Besides, my cultivation is pretty good. I can protect myself."

Lu Lingfeng shook his head like a rattle: "Miss Xia, these people are very likely to come to you this time. The key is that their strength is extremely strong. Hundreds of people have died in the dark hall. The loss of the dark hall is not much, but Miss Xia must not have an accident."

"This is what the palace master told me at the beginning."

Xia Ruoxue's pink fist immediately loosened when he heard the words of the Lord of the Palace, turned around, and walked towards the house: "I know, but I am not a person who is greedy for life and fear of death. I will wait a few more days. If the storm hasn't When it's over, I will go find him myself."

"I will go to Kunlun Xu to find him."

"I hope he... is still alive."

The door closed and everything returned to silence.

...

At the same time, the place of refining the body.

Ye Chen had already walked out of the cave and appeared in front of everyone.

His whole body exudes billowing devilish energy and blood energy, and his arms are entwined with lightning, which is extremely frightening.

He glanced condescendingly at everyone in front of him, and said lightly: "Are you all here to die?"

When the words fell, I was furious!

"Asshole!"

"You human being is extremely arrogant, dare to kill the **** general Kui Mu!"

"Today, my God Willow will personally capture you and hand it over to the Demon King!"

God Liu Mu was furious, and he came over murderously, but the other party had such an attitude!

What qualifications does this human ant have!

provocative!

Extreme provocation!

A small waste of Daoyuan Realm used some treasures to kill the **** general Kui Mu!

Do you think there is no one in my destiny?

But what made Liu Mu Shen the most jealous was Xiao Huang next to Ye Chen.

After all, the aura circulating in Xiao Huang's body was far above the emperor's realm.

"Everyone, go together!"

"You besieged and killed that beast, this **** will personally deal with this ignorant boy!"

The willow **** will shook his whole body, and countless branches stretched out from the body to connect the surrounding trees.

In an instant, thousands of branches flew out, connecting countless trees. These trees grew rapidly, reaching a height of 100 meters, forming a trapped formation, surrounding Ye Chen and Xiao Huang outside the cave!

It committed suicide with bare hands, and faintly made a crackling sound!

"court death!"

Ye Chen also punched out of thin air, and the infinite vitality rushed out, as if to sweep through the nine heavens one layer of strength and one layer of strength, layered and layered, as if to cover everything around!

Ye Chen violently fisted along the way, hitting three emperor-level **** generals, as well as many Daoyuan-level venerables.

boom! !

Boom! !

A demon plant burst open in the air, and the origin of life in the body spilled out, one after another falling outside the cave.

Monster plants are different from monster beasts. They are all plants and trees. The source of life in the body is liquid. In other words, these liquids are all the original water, and a small bottle is enough to extend the life of ordinary people for a hundred years.

For monks, it is an excellent treasure for tempering the internal organs.

It's just that Kunlun emptiness is extremely rare. At this moment, Ye Chen exploded three emperor-level demon plants and ten Dao-source level demon plants, and the overflowing water of the source was so much!

"Good stuff!"

"Take this thing back, and it can fool many cultivators with little life span!"

In the sky, the fist mark was getting faster and faster, directly colliding with the fist of the willow **** general.

Boom! !

A loud noise!

God Liu Mu burst open his left hand and looked at Ye Chen in amazement. How could a human being in the source realm break my branches?

I am an emperor! Even under the explosion, the strength can reach the fifth level of the Emperor Realm!

"Five heavens?"

"Just use your demon core to temper the power of the soul!"

Ye Chen shot out with the Jiuyou Heaven-killing Spear, and with one shot, the power of the source and the power of blood burst out, turning into two great lights to tear everything apart, blocking the retreat of the willow **** general, and one of them was in the middle of the willow **** general The body.

boom! !

Like a sledgehammer, the willow **** will be directly punched through, leaving a green hole in his chest.

God Liu Mu looked at all this in amazement, still in a panic.

Dao Yuan Realm severely injures the Emperor Realm?

This, this is impossible?

Chapter 1265: Sure to die!

It has been three thousand years since the establishment of Body Refining Land!

Nothing like this happened!

"Still in a daze?"

"The ten geniuses are not as bold as you!"

Ye Chen joked, and came to the front of God General Liu Mu, and punched his left hand violently, as if the Yangtze River was endless, the blow God Liu Mu exploded in many places on his body, and the water of green origin spurting out!

The fifth heaven of Emperor Zun realm?

It is no different from waste!

Even the elders of the same level at Qingtianmen could at least block me a few moves.

This demon Zhi didn't even have the concept or idea to fight back!

This kind of fighting consciousness, no wonder it can only be turned into a refined one.

"One shot!"

Ye Chen snorted and squeezed the Jiuyou Skykiller, the gun body was flooded with magic light, and a destructive force erupted.

A shot pierced it, hitting the willow **** general's neck, and the power of destruction instantly destroyed his soul!

Boom! !

There was a burst of bursting sound, and the Bailaidao spear gang broke out from the body of the willow god!

King of Heaven!

Another **** will fall!

Three tricks!

Three moves were killed by Ye Chen!

"run!"

"Run, run!"

"The Lord has fallen, run away!"

The remaining seven or eight demon plants turned their heads and ran away, and all the gods in the emperor realm were dead.

Their level of cultivation of Dao Source Realm looks great, they don't fight at all, and they have already run dozens of kilometers in the blink of an eye!

"run?"

"It just so happens that the Demon King who informs you will come in person!"

"This time, if I kill your Demon King, I can enter the dominance stage!"

Ye Chen smoothed the trap of the willow **** general with a sword, and grabbed the corpse and returned to the cave. The aftermath of this battle spread directly through the many monsters and monsters nearby, and soon the other three kings will also know .

At that time, demon will definitely be sent over!

If you kill yourself, you might as well wait for them to come!

Back in the cave, Ye Chen took out the demon cores and the original water of these demon plants, and began to refine them to enhance the power of the soul.

Now, Ye Chen feels that this place of body refining is completely a treasure. There are monsters and plants everywhere, and there are a large number of emperor-level demon races, slaughtering a few groups at will, and the power of his soul and body refining level, Can break through quickly.

...

There was peace in the court of the Heavenly Mandate.

A crocodile demon stood beside the Destiny Demon King, staring at the maple prince and princess in the center of the hall, and shouted joyfully: "The wedding has officially begun!"

"With a bow, worship the demon emperor, the land of body refining, and thank the demon emperor for ruling the ten thousand demons. His achievements are overwhelming!"

"Second bow, thanks to the seniors of the Blood Spirit Race, save all monsters from fire and water!"

"Three bows, thank your parents for their kindness!"

As the main marriage great demon, he is full of blood, and he is also a **** general of the sixth-tier heaven of the emperor realm!

It solemnly said: "Li Cheng, from now on, the prince and the princess will help each other. They should take the massacre of humans as their main task, and they should do their part for the land of body refining, and take the massacre of Kunlun Xu and even the extinction of Chinese humans. Your responsibility!"

The Yaozu has been enslaved by humans for a long time.

"Father!" Prince Maple took a glass of blood wine and said: "This is the wine made from human blood in the place where the body was once refined!"

"Erchen uses this wine to toast his father!"

"Yeah, from now on, we will not share the heavens with human beings. My monster race should take the responsibility of destroying the human race!"

"Wang'er has this heart, this king is very happy!" The Destiny Demon King also raised his wine glass. The wine in it was made from human blood drawn from the land where humans were exterminated for thousands of years. The taste is unique. To the delight of the monster beast, there is not much left in these years, and it is basically only taken out for drinking when major events happen!

Just as the day ordered the Demon King and the Maple Prince to drink human blood and wine, another **** would rush into the hall.

"Great King, it's not good, the human monk is too strong!"

"The willow **** will die in battle, three gods will die in battle, and ten of the 17 venerables will die in battle!"

"Bang!" The Destiny Demon King suddenly put down his wine glass. It was already angry. Today, on his four-thousand-year-old birthday and his son's wedding, this human monk has repeatedly killed his subordinates, which is simply disgusting!

"Great King! I request to play!"

"My lord, I request to play!"

The two beings full of violent aura stood up one after another.

They looked at each other, dismissive of them.

The tiger demon sneered and said, "Great King, I am willing to lead the gods to kill that human monk!"

That waste Liumu has become the fifth-tier heaven of the Emperor Realm for a thousand years, and it is normal to be killed without making any progress!

I stayed in the emperor realm for 1,500 years, and I have already touched the threshold of the sixth heaven, several times stronger than willow. It is definitely feasible to kill that human warrior, and I can even show it in front of the king!

"The King!"

"I am willing to play too!"

"I will lead the generals to destroy this human warrior!"

Many gods and generals have invited them, many of them are in the fifth or sixth level of the emperor realm, and the prototype of the avenue is almost fifty or sixty percent perfect.

In addition, their physical bodies are far better than the gods of Kuimu and Liumu, and once they fight, they are even better than the monks of the seventh-tier human emperor!

Monster Beasts and Monster Plants are generally very large, and the blood contained in them is also stronger than human monks of the same level!

Moreover, the monster body contains pure blood qi and brain nuclei.

Demon Zhi will condense all kinds of strange demon fruits from time to time, which is also of great help to the completion of the prototype of the Dao. Demon races of the same level and the same age can almost crush humans.

In the ancient times, if it weren't for the Kunlun Xuhe Dao realm with a lot of powerful people who could overwhelm the demon race and take them into mounts and slaves, I am afraid that the loss would be even more serious after the battle with the blood spirit race.

The Demon King of Destiny has a cold expression, and a rudimentary road emerges faintly behind it. There are endless monsters standing in it, welcoming them, congratulating in unison: "The Demon King is invincible, the Demon King is invincible!"

"The demon king shakes the sky, and will destroy the Kunlun Void..."

"The Demon King is invincible..."

The phantoms of monsters and beasts are all the sights of the people in the rudimentary form of the avenue. This is the kingly way.

Whenever you enter the emperor state, no matter the person, monsters, or ghosts, it is determined by the perfection of the prototype of the dao. 10% completion is the first level of the emperor state, and 30% is the third level of the emperor state. , And so on, until ninety-nine percent of the completion is completed, and the power of the immortal tool is integrated, with the help of it as a bearing, a avenue can be perfected, and a direct avenue can be perfected.

At that time, as soon as the avenue came out, heaven and earth wept, and they were in the realm of gods!

"Father!"

"My child is getting married today, this human monk dared to be so presumptuous!"

"The boy asked to lead the Heavenly Mandate Army to strangle this person, and then smashed out of the demon world, attacked Kunlun Xu, and annihilated the human race!"

The maple prince said solemnly and firmly said: "The wedding has been saluted. From now on, I have taken the destruction of the human race as my own responsibility. I also asked my father to allow him to lead the 200,000 destiny army to fight!"

Two hundred thousand fate army!

One hundred thousand monsters, one hundred thousand monsters!

No matter how strong a human warrior is, he will undoubtedly die!

Chapter 1266: The origin of that guy

There is a leader for every hundred demons, and the leader is the Void King Realm!

There is a thousand generals for every thousand demons, and the thousand will be the source of Dao!

For every ten thousand demons, there is a **** general, and the **** will be the emperor!

Every one hundred thousand demons is a great leader, and the great leader is the fifth heaven of the emperor realm!

Such a powerful Destiny Army, with a total of 200,000 people, has a combined attack and formation method with each other, and they still don't believe that they can't kill this human warrior!

Even if he can't kill him face-to-face, he can be killed by being sleepy alone. How can the huge court of Destiny make a human warrior show prestige!

"it is good!"

"My son is in the realm of the emperor. It is difficult for people of the same generation to compare with you in this physical training ground!"

"Two hundred thousand Destiny Army, if this person cannot be shaken and killed, this king must carefully consider the role of the existence of the Destiny Army!"

The kingly majesty of the Destiny Demon King spread out in all directions, giving the demons a feeling of dark clouds covering the world, pressing them out of breath.

It stared at the distant backs of the monsters, thick fingers, and beat the tabletop rhythmically, and secretly thought: Humans? Can't wait?

Hmph, in the ancient times, I waited for the mount to be such an insult and never died!

Now the four great royal courts have trained millions of kings to conquer your Kunlun Xu!

It's just around the corner!

This king also needs to think about it.

Do you need to wait until the five thousand years time limit arrives before attacking Kunlun Xu!

Five thousand!

After the end of the ancient war, the blood spirit tribe moved 95% of Kunlun Xu's monsters to the place of refining the body, so that they could replenish their vitality, and gave orders to counterattack Kunlun Xu after five thousand years. Except for the sect family that returned to the blood spirit race, all other humans were slaughtered!

For five thousand years, one hundred per hundred years means that five thousand monks of the emperor realm are to give the blood spirit tribe a basic amount of slaughter!

In five thousand years, Kunlun Xu will have a few emperors left, and there are no monks in the gods, so he can block the place of body refining. After the slaughter of Kunlun Xu, he will completely take down Kunlun Xu and become the blood spirit clan. Convey soldiers and beasts!

King of Heaven!

Dispatch troops and generals, 200,000 destiny troops are dispatched!

More than a hundred Dao Origin Realm, ten Emperor Sovereign Realm gods, plus some affiliated Beast Realm gods, a total of more than 20 gods, jointly shot to kill Ye Chen!

What's more, the two hundred thousand destiny troops set up a combined attack formation, even if they are the top powerhouses in the emperor realm, they will never escape!

When they were dispatching troops, Ye Chen was already quickly absorbing the demon cores and blood of the monsters, tempering the power of the soul and the body!

...

On the other side, in the palace of Lianyuan!

The Lianyuan Demon King was hosting many gods and generals in the main hall, and the place where he was located was the former site of the Hundred Sword League. In the first battle of the ancient times, all the factions of the Hundred Sword League were destroyed, and these demon kings and **** generals established their own royal courts on their old sites.

As for the former site of Royal Beast Sect, it seems that it was occupied by the 'Demon King'.

"All gods!"

"The training of the Lianyuan Army is complete, wait another two thousand years!"

"A hundred years ago, I received a voice from the seniors of the Blood Spirit Race. As long as the 5,000-year period arrives, Lord Demon Sovereign will lead our Ten Thousand Demon Heavenly Court into

Kunlun Void!" Lianyuan Demon King is excited. With that said, it was surrounded by a gray luster, and it seemed that a 'gypsophila' had become refined.

This 'gypsophila' has not only become a fine, but also under the Ten Thousand Demon Heavenly Court, created one of the four great royal courts, Lianyuan Royal Court.

As Yao Zhi, his cultivation is extremely terrifying.

Lianyuan Demon King and dozens of gods greeted a cup of human blood wine, and said slowly: "In the future, after we break through the Kunlun Void and destroy the human race, Master Kui intends to arrange to mobilize us to the Northern Star Territory to participate in the battle of the Big Dipper! "

"Listening to Master Kui, the Big Dipper Protoss stands on the Big Dipper Continent. It is considered a Zhongwu plane, and among them is the master of the Hunyuan realm!"

"Moreover, there are many first-grade immortal artifacts, and even second- and third-grade immortal artifacts!

"In the future, when we step into the realm of the gods, and then climb into the realm of the gods, it is completely feasible, the opportunity is ahead, and we will be brilliant in the future!"

Big Dipper Protoss?

What's that? The seniors of the Blood Spirit Race have been preparing for three thousand years, and our Lianyuan King's millions of troops have come out to help the Blood Spirit Race, and they are still worried about attacking them!

"Lord!"

"The King's Court of Destiny has mobilized two hundred thousand destiny troops!"

A **** general entered the main hall and reported: "It seems that a human monk came to the place of body refining, and he killed the **** general Kuimu and the **** Willow with a few moves. The maple prince mobilized the army, it may be necessary to cut Destroy that human!"

"Humanity?"

"Can you detect the human condition?"

The Lianyuan Demon King looked calm, but said in his heart: Is it possible that Kunlun Xu is going to counterattack our body training place?

But that's impossible. Kunlun Xu has been suppressed by the blood spirit tribe for three thousand years, and the fallen emperor realm exceeds two thousand. How can he still have the strength to counterattack my body refining place?

So what does this human monk mean when he enters the place of my body training?

"Report to the lord, I learned from the demon plant near the human monk!"

"The human warrior came in through the passage as soon as it came in, it was a move that killed the **** Kui Mu!"

"Following, the Lord of Destiny sent the Willow God General to avenge him, but he was blown up by the human monk's three tricks again!" The God General was a little nervous and whispered, "The human beings even want to kill Lord Demon Sovereign!"

"presumptuous!"

"Arrogant!"

"Asshole!"

Immediately, several gods stood up suddenly with indignation!

For so many years, our monster race has always devoured human beings, eating human flesh and drinking human blood and wine. The little human race dares to speak like this. It is absolutely rebellious, contrary to the heavens, and will definitely be destroyed by the heavens!

"Lord, this human dare to provoke my monster race, I must shoot him!"

A **** will be indignant, and in his eyes, human race is equal to food, food can bear the Lord, let alone eat the Lord!

"Lord, this person is arrogant. I will take his skin, make a bone cup with his skull, and make his blood into human blood wine!" Another human rose **** will be equally indignant and tremble all over.

"Then human warrior, what cultivation base?"

"How old is it, and which school do you come from?" Lianyuan Demon King asked slowly, it was relatively calm, but not agitated.

It is a big demon born in ancient times. It is often seen that the big demon is cramped by humans and made a variety of delicacies. It is used to it. It is not like the two gods who were born in the last three thousand years. same.

"According to the Venerable's return!"

"The human being is very young, it seems that he is only in his twenties. From the aura, it is about the fourth or fifth level of the Dao Source Realm, but the combat power is at least comparable to the fifth level of the Emperor Realm!"

"As for which faction you are from?" The **** general was somewhat difficult, and said: "From the perspective of the moves, it seems to come from the **** night gate, but it also seems to come from the shattered Indestructible Sword Sect. It seems very complicated, but Very pure and powerful!"

Chapter 1267: Just waiting for you

"Blood Night Gate?"

"Indestructible Sword Sect?" A look of doubt appeared in front of the Demon King Lianyuan, and he whispered: "A sect that has been destroyed, a sect that is about to die! Is it possible that this person is the descendant of the Lord of Immortality and God of Seven Nights?"

"Or, this person is from the Kunlun Xu sect, sent in to explore the way?"

"Kunlun Xu, want to take action on my body training place?"

After pondering it, it always felt that something was wrong, "According to Master Kui, there are not a few people in Kunlun Xuzhong. Knowing the existence of the body refining place, it is impossible to attack my body refining place!"

"Fine, Meteor God General, Hundred Flowers God General!"

"You led the Five Thousand Lianyuan Army to rush to accompany the Destiny Army to strangle the human warrior together!"

"Remember, it's mainly on the sidelines. The main force to kill the enemy is to leave it to the Destiny Army!"

Lianyuan Demon King showed a wicked smile, and said: "This old man, Destiny, loses several gods all at once. It is enough for him to feel distressed for a while. However, depending on the combat power of this human monk, he can kill at least 30,000 or 40,000 Destiny. military!"

"Also, weaken the combat power of the landing Destiny Army!"

"Furthermore, Meteor General, you two pay close attention to the situation of the passage, so as not to have Kunlun imaginary strong people and lead the army to enter!"

At this point, the two gods commanded one after another.

They went out to mobilize the army, but the other ten **** generals in the hall were puzzled. A human warrior mobilized so many monsters and monsters to kill, it was the first time in the place of body training.

"Lord!"

"In the future, we will attack the Big Dipper Continent. I don't know if I will wait for the vanguard, or?"
Another **** said slowly: "If we are the vanguard and wait to enter the Big Dipper Continent, we can **** a lot of fairy tools and advance to the gods!"

"You are only at the sixth level of the emperor realm, don't worry!" Lianyuan Demon King let out a long sigh.

"Lord, two thousand years later, I am almost the nine-tiered emperor realm!"

Lianyuan Demon King thought for a while, and said slowly: "According to Lord Kui, the blood spirit race is so large and incomparable, it is a high plane!"

"Pillaging the resources of the middle and low planes, and at the same time nurturing the middle and low-level powerhouses, and then using war to support the war, so that these powerhouses can grow to the high planes!"

"As far as I know, the Blood Spirit Race has already waged war on the eight planes at the same time, taking a lot of resources."

"Okay, let's not talk about it for now!" Lianyuan Demon King smiled and said, "You tell me, what is the reason why the human martial artist, the fourth-tier heaven of Daoyuan realm can destroy the fifth-tier heaven of the emperor's noble realm, even if it is In ancient times, this king had never heard of such a human being against the sky!"

One of them pondered for a moment, and said: "According to the conditions of the blood spirit race's predecessors and my body refining place, the fourth-tier heaven of Dao Source Realm can fight against

the heavens and the sixth-tier Heaven of Emperor Sovereign Realm. As a result, the physical body must be strong. Secondly, the attack power is unparalleled!"

"At least, this person's body is also in the bone-condensing stage for the last time, which can be comparable to a god!"

"Secondly, the attacking powerlessness may be due to the inheritance of the Seven Night Gods and the others, so the attacking power is extremely strong!"

Generally speaking, the blood strength of the ordinary emperor realm is about one million catties, and at most it can shred a layer of powerful formations.

Dao Source Realm is between 100,000 and 500,000. If you have a million catties of blood energy in Dao Source Realm, coupled with the flesh body in the bone consolidation stage, it will be a monster that can kill the Emperor Realm against the sky.

Generally speaking, Kunlun Xu and Body Refinement places both cultivate four powers.

One is the power of the soul. After entering the divine realm, you will also practice the soul secret method, attack the enemy with the power of the soul, or use the power of the soul to form a sword seal of the universe, block the enemy's soul, and achieve control. aims.

A power of blood energy, the power of blood energy is strong enough to shred nine layers of void, and even punch a monster beast into a martial art.

The third type of physical power is divided into the broken body stage, the bone-fixing stage, the domineering stage and the transformation stage, the incorporeal stage, the divine body stage, the supernatural power stage, the broken soul stage, and the immortal stage. The body of each stage, There will be qualitative changes.

The fourth type is the prototype of the avenue. The prototype of the avenue is built from the source of the source until the ninth level of the source of the source is perfect. After being promoted to the emperor realm, they will be transformed and perfected again, until they become their own way, or 'Sword Dao', 'Indestructible Way' and so on.

There are three thousand avenues, countless, and everyone has his own way.

The four powers complement each other to break the mirror. If the time of breaking the mirror is not reached, and the power of blood and body is extremely strong, it is also feasible to cross a large realm to kill the enemy, but it is difficult for a low-level person to do it.

For example, the willow **** general, the power of the soul is fragile and can be ignored, and the strength of the blood is only seven or eight hundred thousand catties. Against the 1.7 million catty Ye Chen, he will undoubtedly lose, the willow **** general's body is in the ninth stage of the broken body stage, Ye Chen was in the ninth stage of the bone congealing stage.

"Let's take a look!" The Destiny Demon King began to think.

However, on the other side, a large army of demon beasts and demon plants was attacked.

And their target is outsiders, Ye Chen!

The maple prince led a 200,000 destiny army and completely surrounded the cave. Next to it stood more than a dozen gods, such as the gods of Tiansu and the gods of silver carp, and there were 25 gods who participated in the battle. There are twenty-five emperor-level monsters, and they are all above the fourth-level sky of the emperor-level realm!

With such a lineup, if it is replaced by other humans, it will definitely die.

"You rebellious human beings, dare to go against the sky You cannot die!"

"Besides, if you dare to kill the two gods of my dynasty, you must pay the price of blood!"

"Come out quickly, this Wang Xing may consider giving you a happy one!"

The Maple Prince shouted for a while, but Ye Chen was very calm with his hands behind him.

His eyes were indifferent, like looking at a fool.

Seeing that Ye Chen had no intention of compromise, the maple prince burst into a violent blood, and shouted angrily: "Destiny Army, set up an array, kill this person!"

"Yes, Prince!"

In an instant, the 200,000 Destiny Army took action and turned into three circles, surrounding the cave layer by layer.

Each demon beast and demon plant are arranged according to a special formation position, and suddenly there is a burst of luster under their feet, and the luster rises to the sky, connecting each other, with every thousand people as a group, a full 20 groups of brilliance rushes into the sky. , As dazzling as twenty suns!

Click! !

Click~~

A group of light groups shattered, and among them came out a **** general, holding a battle spear, with a terrifying aura. It was the 20 war generals that gathered 200,000 monster races, and each of them had an emperor state. breath.

Every thousand people are a team, and the captain is just the Daoyuan Realm, but at this moment, he is the **** general who condenses the Emperor Realm!

In addition, the original ten thousand **** generals were also the emperor's cultivation base.

Calculating at this moment, after the formation of 200,000 monster races is condensed, plus 20 gods for every 10,000 people, there are forty emperor realm powerhouses. With such a momentum, even Dao Sect does not have that many. Emperor Zun realm.

Moreover, this coordinated formation should come from the blood spirit race, which can better play the advantage of the number of people.

"Twenty emperor-level monsters?"

"Do you really think you can siege me?"

The corner of Ye Chen's mouth outlines an evil smile.

But soon, the smile faded.

Only Bingham is left.

Chapter 1268: Don't provoke!

Ye Chen Bingham's gaze swept across the Destiny Army, and he thought about it: "There are so many emperor-level monsters, although there are no monsters above the sixth-level emperor-level level, but they are enough to make me enter the domineering stage!"

His eyes suddenly fell on Prince Maple, and his expression was cold and said: "You think I shouldn't be there?"

"Not bad!"

"God generals are the generals of the gods, and you, a humble human being who dare to kill, are rebellious!"

"Since ancient times, the human race has looked down on my monster race. It is normal for my monster race to kill and eat people, but it is a treason for the human race to dare to kill us!"

At this moment, the maple prince was full of domineering, black hair dancing wildly, like a madman, and his blood exploded. He was a fellow of the sixth-tier emperor realm, but he seemed not very old.

Otherwise, I can't say this.

"God?"

"Do you mean your Demon Emperor?" Ye Chen was interested.

"That's right!" The Maple Prince took out a bone cup, with an evil smile on the corners of his lips, and said: "Humans, take a good look. This is a bone cup made from the skulls of your ancestors. You humble people. Human beings are only worthy of being our slaves, and we may not be worthy of you!"

He took out another pot of wine, slowly poured it into the bone cup, overflowing with a rich **** smell, "Humans, this is blood refined from the blood of your people, how, I don't want this kind of fate, so I surrender quickly. !"

Hmph, this prince is deterred, this human being dare not speak!

It seems that he is just a fledgling kid!

My bone cup is made of the skulls of Daoyuan realm human monks, and it exudes the original breath, which is enough to shock him.

"Hey! The prince is too reckless!" Tiansu God General sighed. Prince Maplewood used that human race to threaten people. He was indeed a little bit reckless. If he is the timid, he might have surrendered, but the person in front of him, It's not a timid person, maybe even a stubborn one.

Otherwise, how could it be possible to kill the fifth-tier Heavenly Willow God General in the Daoyuan Realm?

"surrender?"

"Fine, you have no need to survive!"

Ye Chen stabbed a shot, and the world changed color in an instant.

A spear pierced out, returning to the basics, and the power of a million catties was contained in it. It did not spread to the surroundings, and went straight to the maple prince, with an aura of destruction, coming from the immortal sword.

"Prince be careful!"

"This person is very strong!"

The silver carp **** will quickly rush and transform into the body, and a hundred-foot silver carp emerges and stands in front of the maple prince.

The moment the gun touched the ground, the power of violent blood directly covered the silver carp, and then a blood-colored cave appeared. Before he hit the maple prince, he shot directly at the five gods.

Bang bang bang! !

Boom! !

A series of crackling sounds came out.

The five gods will all be pierced into the flesh and transformed into their bodies.

The three monsters and the two monsters were all annihilated, their whole bodies exploded, and even their souls were wiped out!

"Help, help, help me!"

"Uncle Tiansu, save me!"

The maple prince was directly locked by the breath of the gun, staring at the flying gun, as if seeing a big mountain flying, there is no stop, no escape!

At this moment, it realized that it seemed to provoke someone who shouldn't be provoked!

The emperor state of the monster beast is fundamentally different from the human emperor state!

If it is the same realm, human beings will be blessed with gong, it will definitely be crushed!

Six gods!

In an instant, all fell!

"Save the prince!"

"Quickly turn around and save the prince!"

"The Transforming God will take action to resist this spear!"

Many gods screamed, desperately rushing to Prince Maple, and at the same time they slammed all kinds of sword auras and sword auras in an attempt to resist Ye Chen's guns!

They don't know whether they want to fight, they only know that Prince Maple is the only son of the Destiny Demon King. If he dies, he and others will be abandoned!

In the distance, everyone in the Royal Court of Lianyuan was so shocked that they couldn't close their mouths!

Especially the Hundred Flowers God will look at Ye Chen, who is like a killer **** at the side of the cave, and murmured: "The Palace of Heavenly Mandate, what kind of strong man has been provoked!"

Facing the 200,000 Fate Army alone, there is no fear!

He even took the initiative to attack, killing six gods with a gun!

No, that spear gang killed two more gods!

Is this still Daoyuan?

"This human being is not only strong in physical body, but the power of blood reaches at least 1.8 million kilograms, otherwise the explosive power will never be so!"

"Even, he seems to have practiced the Three Great Spears!" The Meteor God looked venomously and saw a lot of Ye Chen's origins.

"Three great spears in the sky?" Hundred Flower God General was taken aback and asked: "What martial skill is this?"

"In ancient times, Kunlun had the martial arts of a strong human race!"

"As soon as the spear gun came out, it shattered the nine-fold void, even in the Harmony Realm, it was absolutely difficult to resist!" The Meteor God General has survived for thousands of years, and he has seen the ancient wars of the year. There are a total of nine powerful blood spirit tribes under the Heavenly Sanjue Gun twenty-seven Hunyuan realms..."

"very powerful!"

"We are the best,"

"This person is most likely the inherited disciple of the strongest!"

After hearing these words, the Hundred Flowers God General was disapproving, snorted coldly, and said: "Is it impossible, the strongest back then can survive!"

Just as they were talking, there were a few more pops!

Destiny!

Three more gods will fall, and they will also fall under that spear!

Eleven divine generals were killed before and after the battle, including the silver carp God general, the elder big demon of the sixth-tier emperor realm.

All were shot through the heart and wiped out the soul, but the demon core was not broken.

"Did I let you go?"

"Little Monster Beast, still want to be the main objective and reverse the theory of the Great Way?"

"My existence is rebellious? It's ridiculous!" Ye Chen's eyes were deep, and his whole body was lingering in the light of reincarnation, like a demon, his eyes scanned the 200,000 destiny army, one person opposed the 200,000 army, pressing every step!

He said: "Originally, I meant to subdue your four great royal courts, and even your formation of the Ten Thousand Demon Heavenly Court!"

"Unexpectedly, you dare to ruin the remains of my ancestors!"

"So, all of your 200,000 monster races are dead!"

"No, all the demons in your body refining place must die!"

The blood spirit race is not so excessive, it is still torturing the living!

These monster races don't even let go of the dead, and if they ruin the remains of those seniors, they will die!

Even if I, Ye Chen, were severely injured, I would slaughter this Ten Thousand Demon Heavenly Court!

"Sword Gate!"

"Manifest!"

Ye Chen gave a soft drink and took out the Dragon Slashing Question Heaven Sword. One sword smashed through the triple void, and the infinite sword aura shot out, turning into stars in the sky, twinkling stars, forming a hundred-zhang sword gate in mid-air, with pressure. Power to frighten the heavens and ups, can slaughter gods and destroy Buddhas!

Chapter 1269: Heaven of the land of refining!

At this moment, Ye Chen's killing intent was like a strong wind covering everything!

He tightly held the Dragon Slashing Question Heaven Sword with his five fingers, and pointed at Prince Maple.

"If you don't die, you won't die."

The faint words just fell.

How has the Maple Prince ever been so embarrassed! How ever was so insulted by an ant!

His eyes are filled with endless anger!

"Damn human!"

"You had better think it over for me, I'm the Prince of the Royal Court!"

"Even if my status is not honorable enough, but my royal court has a million destiny army, a total of 200 gods, and thousands of monsters, you must dare to kill me!"

"If I die today, the King's Court of Destiny will break the Kunlun Void!"

The Maple Prince was also reckless, and when he saw that Ye Chen wanted to kill himself, he didn't care to jump out and shouted, thinking that Ye Chen would definitely take care of the overall situation and not kill himself!

Ye Chen shook his head helplessly, and directly spit out a word: "Cut!"

The sky was full of sword energy, and as Ye Chen's voice fell, it was like a curtain of rain pouring down!

Countless sword auras have wiped out a monster beast. Under Dao Source Realm, if they are touched by sword aura, they will be destroyed on the spot!

Ye Chen's face was a little pale, and the power of Qi and blood in his body had been used too much, but he needed to add something.

He took out two bottles of emperor-level monster essence blood and drank them directly to absorb the power of blood. After all, this sword skill of Jianmen Revealing is extremely expensive, it can be used once, and it consumes most of his power. At this level, it is comparable to the sixth-layer heaven of the emperor, and it is a full blow!

Boom! !

Boom! !

The body of a monster beast burst open.

Even if Demon Zhi transforms into his body, he can't do his best to go back, showing that the body is fast, but the goal is also big.

Two hundred thousand destiny army, twenty **** generals that emerged, were pierced by the sky full of sword energy in an instant.

Pieces of monsters burst open. It took only thirty seconds. The mountains and forests were originally stained with blood red, countless pieces of meat were stained on the trees, and the dry soil on the ground turned blood, still more than 20,000. The head monster beast and the vegetation of 20,000 slaying monsters were smashed to death!

"Humanity!"

"You...ah, my destiny army!"

"Let go of me, I will fight him to the death!"

The maple prince's eyes were splitting, and he personally mobilized the gods to build the destiny army. After this battle, immortality must be abolished!

More than 50,000 monsters were destroyed, and 30,000 monsters were severely damaged!

Even if you fight with other royal courts, even if you fight for a month, you can't lose so many demons!

This human warrior!

It's a devil!

"Prince, go!"

"Prince, this person is at the level of the Demon King, we can't stop it, you go!" Tiansu God will cry out, clutching his chest.

The face of Tiansu God was pale, his body was severely injured, the blood-colored holes in his chest spewed a lot of blood, and even his whole body was lingering with the spear intent of the world, unable to disperse for a long time, even its own roots were affected!

This is just a shot!

It didn't touch the real gun body, but was pierced by the gun gangway shot out by the tip of the gun, and was swept over the body by that tyrannical spear intent, which couldn't be ruled out! It is hard to imagine how terrifying this young man is!

Even if the Supreme Destiny Demon King makes a move, there is no such horror!

"Prince, go away!"

"Hurry up and report to the lord, this person is too strong, please notify if possible—"

A spear pierced through the whole body of this monster strain, exploding countless original water, and large tracts of leaves flew out.

This is a willow tree turned into a demon plant, and also the honor of the **** general. At this moment, he was wiped out by Ye Chen's sword, his soul was completely annihilated, and his blood and energy burst out, as if the waves swept away, instantly obliterating the surrounding seven or eight. Venerable monster!

Venerable Monster Beast!

They were all powerhouses in the Daoyuan Realm, and they were shocked and killed by the aftermath of the explosion.

Two hundred thousand destiny army, the venerable is a thousand generals, a full two hundred thousand generals, there is no qualification at all!

Ye Chen shot with one sword!

A total of fifteen gods were wiped out, which meant that the fifteen monster races that arrived in the emperor realm were destroyed!

"devil!"

"The devil, the devil is here!"

"Run, don't care about anything, run, this human being is the devil!"

For a while, panic sounded all over the Destiny Army.

They thought they were the Destiny Army that took over the Destiny. The quaint army that once swept up and down the Destiny King's court actually made a panic sound. Ye Chen standing in front of them was like the Lord of Destiny. Thousands of people would not be able to approach at all. The aftermath was shocked and killed.

The rest of the monsters, the Void King Realm and the Saint Realm, couldn't even mention a trace of war intent.

This person in front of me!

One person suppressed the 200,000 Fate Army!

The Destiny Army who fought so hard couldn't look up!

The point is, dealing with a human being in the Daoyuan Realm, at best, it is a Venerable!

"Lost!"

"Lost, hahaha, lost, what the **** is the so-called taking over the destiny and sweeping the Kunlun Xu!"
A **** will stand on a giant tree, watching the fleeing destiny army, grief and anger It even gave birth to extreme emotions, "200,000 elites of the Million Destiny Army!"

"Unable to defeat a human!"

"Sweep Kunlun Xu dominate everything? It's ridiculous, extremely ridiculous!"

"A human being in Kunlun is enough to suppress a great royal court. What are you talking about a thousand years later!"

The talking monster stared at Ye Chen, and his body trembled suddenly.

It saw Ye Chen like a **** of death, and murmured: "Perhaps Kuimu and Liumu shouldn't provoke you! Your strength makes us unable to fight. I only ask you to spare Maple Prince, because... ..It is the only prince in the royal court!"

"What do you want, maybe, the king will give it to you!"

"Just begging seniors to allow..."

"Allow? Prince Maple? Use the remains of my ancestors to make a wine glass, fine wine, how can I let it go!" Ye Chen ignited violent blood, rushed into the sky, dyed the sky blood, he took a step, like a mountain peak The tremor instantly exploded thousands of monsters.

Ye Chen, the flesh body in the bone consolidation stage, the blood qi in the body burst out, it was too strong!

The **** moons flowed in his eyes even more.

There was an accident in China, and Xia Ruoxue was in danger, he couldn't go to China immediately!

This makes him very angry!

And these people can only endure this anger completely!

No matter who it is, they will be killed on the spot!

The blood exploded. On the ground, countless monsters shattered, blood flowed everywhere, and countless monsters couldn't bear the blood and exploded!

The once glorious and invincible Destiny Army slayed valiantly and arrogantly, but in the end it gave Ye Chen a demon core and blood!

Two hundred thousand fate army!

Just now, the blood qi broke out, and 30,000 people have fallen!

The Destiny Army is not all in the Daoyuan Realm and the Void King Realm. The realm of most monster races is not the True Primal Realm or the Divine Wandering Realm. As far as they are concerned, Ye Chen is the demon **** who destroys the world, and it is also its body refinement. Heaven of the land!

Chapter 1270: Blood Dragon Mutation

"Want to run?"

"You are not good enough!" Ye Chen felt that he was not strong enough, otherwise, the 200,000 monster army would dare to attack him!

He stretched out his left hand, blood burst out, and a big hand condensed in mid-air, pressed down like a **** cloud, and directly squeezed the maple prince. The blood spurted out, even the demon core and the blood. Leave it.

"what!"

"Human, you have never left the Queen of the Mandate of Heaven!"

"Human, say your name, I will never let you go!"

The **** general who was still begging for perfection just now became completely mad, his blood exploded, killing like a blood man, passing by countless monsters, and being smashed into blood mist by it, seemed to burn his blood and soul. Fight for life!

Boom! !

boom!

The disintegrated Destiny Army fled towards the east one after another.

It killed it from the west and dared to block it. Both the venerable and the leader were killed.

"Remember, my name is Ye Jitian, your body is good!"

Ye Chen saw that this **** smashed and killed hundreds of monsters in succession.

He lifted his right hand slightly, an invisible force directly imprisoned it, grabbed it out of thin air, and said flatly: "You are no more than a layer of the emperor realm, maple wood is killed, and other emperor realm monsters are fleeing, only You are going to explode desperately!"

"You can be considered a loyal minister!"

"It's just that you shouldn't ruin the remains of my ancestors!"

Ye Chen waved his hand, and the blood burst shot, and the **** general burst open.

At this time, Ye Chen's physical body had already begun to metamorphose, and he had even reached the ninth stage of the Bone Consolidation Stage, which was twice as powerful as before.

"His physical body is much stronger again!"

"The prototype of the avenue."

Xiao Huang looked at the sixteen emperor-level monsters that died under Ye Chen's hands, and thought: "If the rudiments of their avenues are stripped out, maybe Ye Chen can quickly perfect the two ways."

"But the rudiments of these monster beasts are so weak!"

"It's too weak, it doesn't help Ye Chen much, and it may even weaken the power of indestructible swordsmanship and the way of killing!"

"Forget it!" Xiao Huang flew out, grabbing a head of Emperor-level monsters, "I'll help him take out the demon core and collect blood! So many Emperor-level monsters are enough for him to break through to the physical refinement stage. Domination period!"

Every time it thinks about Ye Chen's arrival in the Domination Stage, it laughs unconsciously. It is very clear about how strong the Domination Stage is!

Once Ye Chen reaches the first stage of the Domination Stage, even if his realm does not improve, relying solely on the strength of his physical body and blood will be enough to smash the powerful emperor realm!

As long as Ye Chen's physical body is strong enough, even if he fights Han Yun in the emperor realm, he is qualified!

A year later, Ye Chen resisted the blood spirit race's immersion into the gods, and mainly relied on the body and the prototype of the Dao!

In the future, if the opponent's body is not strong against the Divine King Realm, the power of the soul will attack and kill!

The body and the prototype of the road are the main defense.

The power of blood and soul, the main attack!

Boom! !

boom! !

Spears and sword intent fell from the sky one after another!

Pieces of monster beasts were destroyed, and many destiny troops turned into prototypes to escape. For a time, many birds and monsters appeared, trying to escape into the air, but they did not know who ran fiercely, and the faster they ran, the faster death would come.

Another fencing gate manifested!

If this scene were not narrated, it would be a painting. Ye Chen is like a demon slaughtering the Heavenly Mandate Army. The corpses all over the ground are almost piled up on the ground. There is no dirt. The scarlet animal blood and the demon plant exploded and overflowed with green blood. , As a

paint, the main body destroyed more than 30,000 flying monsters, and fell on various trees, scent of blood for a while.

It will pass soon!

Ye Chen closed his hand and returned to the cave. He turned around and looked at the endless flat bottom. All the trees were flattened by the monster beasts of the Destiny Army when they escaped. However, the corpses of the monster beasts all over the ground, until the end of the vision, a strong smell of blood seems to have happened. The ancient war is as tragic!

This battle!

Ye Chen hit two hundred thousand!

Smashed a hundred thousand enemies, killed 17 emperor-level **** generals and monsters, over a hundred in Daoyuan realm, countless under the Void King realm.

The 200,000 Heavenly Mandate Army was completely crippled, and only three gods and no more than thirty Daoyuan Stage Venerables escaped. Even if they fought against the other three kings, it would be impossible to achieve such a record!

Ye Chen's eyes were cold, and he glanced at everything in front of him.

There was a trace of blood at the corner of his mouth.

Although strong, but he has also been injured a lot.

Fortunately, he has demon energy and blood energy protection all over him, plus the existence of the blood dragon phantom, otherwise he is not qualified to stand now.

He stared at the phantom blood dragon above the sky.

The blood dragon absorbs endless blood, and its body is constantly growing.

Not only that, but the surface of the blood dragon was covered with layer after layer of scales.

The scales even carried golden streamers.

"Is this the blood dragon turning into an entity?"

Ye Chen murmured.

Many powerful people in the reincarnation cemetery have said that the reincarnation cemetery is not his ultimate trump card.

The blood dragon is.

The blood dragon came out of his body and was the source of his killing.

If it completely transforms and becomes the nine-day dragon, the biggest beneficiary must be Ye Chen, but the blood dragon has absorbed the blood here, but it seems that something is missing, which makes it impossible to transform into an entity.

The combat power has also dropped a lot.

While Ye Chen was thinking deeply, Xiao Huang came to Ye Chen's side and said:

"Your physical body is very strong!"

"This time I harvested fifteen emperor-level demon cores. Two of the emperor-level demon beasts were directly blown by you. There is no way to collect them!"

"As for the essence and blood, the slightly usable essence and blood are enough for you. They are all above the emperor's level!"

"You go to retreat, and the blood dragon and I will protect you!"

"I look forward to your physical body entering the domineering stage, maybe you can touch my physical body!"

Ye Chen glanced at Xiao Huang and nodded: "Okay."

His biggest purpose in coming to the place of body training is to train the body.

Break through the body refining, also should leave.

Deep in the cave!

Ye Chen soaked in the wooden barrel full of essence and blood, he wanted to use the essence and blood of these emperor-level monsters to temper the internal organs.

His whole body has already been tempered in the bone consolidation stage, but to enter the domineering stage, he must temper his internal organs into golden color, so that even if he encounters a powerful attack, the internal organs will not be broken.

Human beings are not monsters. Even if the upper body or lower body is blown up and turned into blood fog, it can be reproduced quickly by the power of Qi and blood. Even if Ye Chen is in the ninth stage of the bone consolidation stage, once he encounters a strong attack, the internal organs are shattered, and it is difficult to survive.

However, entering the dominance stage will not, the internal organs are covered by a layer of golden light!

As soon as the golden body came out, it became a domineering body, powerfully capable of overwhelming the world. Of course, this was only possible in Kunlun Xu.

If you are a strong person against the blood spirit race, if you are a little careless, you will lose all the games!

Zi Zi Zi~~

Essence and blood cooperated with the movement of the exercises and quickly penetrated into Ye Chen's internal organs.
