Chapter 1351: The existence of one without two!

Ye Chenxuan was about to leave a fifth-rank immortal implement and a fourth-rank immortal implement, toss them to the two supreme elders, and said, "Break through. You broke through, and Kunlun Xu is a bit self-protective! "

"I will have something to do later. Use your background to use the fairy to break through. Ten days are almost the time!"

"Thanks to the Lord!" The six top emperors clasped their fists to thank them.

Ye Chen looked at some other guys in the Ninth Floor of the Emperor Venerable Realm, including his ancestors Ye Feng and Ye Wudi, and said, "I will be back in half a month, and then there will be a method of forging fairy artifacts!"

"Thanks to the Lord!"

"Thanks to the Lord!" Everyone clasped their fists to thank you.

"Ye Lingtian, drag Wei Wucheng and his disciples down, and you and Tiantian will be responsible!"

Ye Chen explained all this and went to heal Ye Luoer.

Ye Luoer's injury is not light, but fortunately, the blood is strong, and she will not die.

Feeding Ye Luoer some Daoyuanjing pill can only ensure that the injury will not spread, but it is somewhat difficult to heal.

A god-level pill is needed!

I can only wake up the Lord God Pill!

A day later, Ye Chen left the City of Thousand Jues and stepped into the land of the Huang Family.

Although there are many things in the Palace of Light that he needs to solve, he doesn't have the time, and it is enough to hand it over to the pavilion master Bai Zhan and Han Yun!

Originally, the Huang family disciples were very large, but now they are all included in the Palace of Light!

According to Nie Baijian's guidance, Ye Chen tried to open the other two tombstones in the reincarnation cemetery, and came to a mysterious place!

The formation here seems a bit strange, just like the place where Nie Baijian's former residence is located. It cannot be reached from the ground. It needs to go through the underground river and the help of the underground undercurrent, then look for the passage in the undercurrent, and then use the passage to pass. .

The passage is very long, and Ye Chen walked for a day before exiting the passage.

"Boy, are these places good?"

Nie Baijian said: "At the beginning, it took us a lot of time to find these paradise places as our residence."

Ye Chen was a little embarrassed, they all like to find this kind of place to stay with Nie Baijian?

When I was young, I was fighting abroad!

Come back here to take care of the old when you are old, and be a fisherman?

"Okay!"

Ye Chen simply responded and saw a room surrounded by formations on a mountain peak. When he was about to go up, he was stopped.

An old man stopped Ye Chen and said righteously: "Little brother, you guessed it came from outside. There are gods living here, don't disturb them, they bring us peace, we also hope they can Don't go to the outside world to fight in peace."

Ye Chen didn't know how to respond when he said this.

Simply, a flashing body came to the mountain in an instant, and as soon as he stepped into the range of the house, he felt dozens of powerful auras around him.

In an instant, these twelve breaths locked Ye Chen!

Not a human breath!

It's not even the breath of the monster race!

The breath of a pure fairy!

That's right, at least the twelve celestial artifacts have locked Ye Chen autonomously. It seems that they should be the celestial artifacts left by the forging gods that year. They have arranged a large formation. Once a strong person arrives, they will automatically defend against the lair.

"Twelfth-grade fairy artifact!"

"Six-handed eighth-rank immortal implement, six-handed nine-rank immortal implement, a formation like this, not bad!"

Ye Chen said with emotion, forging the gods should be regarded as the power of gods, the richest one.

The master who specializes in making immortal and divine artifacts.

In Huaxia's terms, this is an arms dealer, so there is no fairy weapon.

"It's all fairy tools!"

"What you think is too simple!" Nie Baijian said with disdain: "He was in the old nest outside the city of Thousand Jue, but he had more than twelve handles of the Nine-Rank Divine King artifact, plus six Hunyuan Immortal artifacts. The sacred weapon is the magic weapon, that formation is powerful!"

"such a pity!"

"He took all of them when he played in the battle back then. As a result, the Blood Spirit Race was slapped to pieces in a single slap!"

Nie Baijian was even deliberately ironic.

"Master, you spit out..."

Ye Chen asked: "Well, forging gods back then was very capable of creating fairy tools?"

"That's for sure!" Nie Baijian said slowly: "The forging gods back then threw a lot of Hunyuan artifacts at the start of the war, smashing people overwhelmingly, and even often blew themselves up with Hunyuan artifacts to beat people. , He relies on fairy..."

Hunyuan fairy weapon smashed people?

Hunyuan immortal weapon exploded and hurt people?

Ye Chen felt distressed!

"Back then, we had a lot of mixed origins."

"There are quite a few big families, including the Ye Family in ancient times, and there are many in the Hunyuan realm."

Nie Baijian said in retrospect, "But, a Hunyuan realm may have to work hard for hundreds of years before he can get a Hunyuan fairy artifact. As a result, he forges the gods and makes one in three months, just like wholesale. It's quite expensive when it comes to takeout."

"Many people want to beat him."

"But there are a lot of people who are smashed all over the sky by the Hunyuan Immortal Tool!"

"Boy, wake him up later, you'd better worship him as a master quickly, maybe after a period of time, your whole body, even clothes, pants and shoes, are all Hunyuan artifacts, and then learn how to smash them with Hunyuan artifacts. people."

Smash people with Hunyuan fairy tools?

Ye Chen had thought about this, it was really extravagant, but it is estimated that the refining of Hunyuan Immortal Artifacts must also be in the Hunyuan Realm, and no matter how bad it is, it would have to be in the late Divine King Realm.

It is estimated that there are still some days left to this degree.

Ye Chen stepped into the house without speaking.

Whoosh whoosh! !

Whizzing! !

The sound of breaking through the sky came.

The six-handed fairy sword, and the six-handed fairy sword flying over.

It was Xian Qi Qi Ling that independently controlled and attacked Ye Chen.

As the fairy weapon was dispatched, the surrounding large array also flashed various brilliance, which was a seven-pointed star array.

In a flash.

The halo of the seven five-pointed stars rose into the sky, blessing and killing on the seven-handed immortal artifact.

"I'll give it a try, the fairy weapon attacks independently, how powerful is it!"

Ye Chen's bare-handed fists, a violent wave of air was punched, and a brilliant brilliance broke out on the tip of a fairy sword. Fortunately, the aftermath was enveloped by the formation and did not spread, otherwise the entire mountain would have to sway violently!

Bang bang bang! !

boom!

Ye Chen flashed his body, blasted out with a punch, pure energy and blood, did not use the power of dying.

Every punch is almost Ye Chen's true strength, but he can only hit many fairy weapons backwards, unable to harm the fairy weapons the slightest.

"Eight-Rank Immortal Tools, Ninth-Rank Immortal Tools, indeed powerful!"

"Even if I explode with all my strength I am afraid that I can only break a handle with about ten punches!"

Ye Chen flashed his body, wandering around the house, while avoiding the fairy weapons, while thinking: "It is not worth breaking, these fairy weapons are not a complete set of fairy weapons, but they can be brought back to them for breakthrough!"

He didn't need these fairy tools to break through, nor did he reach this point.

These things may be extremely valuable in the eyes of others to break through!

But in his eyes it is far from qualified!

He is the owner of the reincarnation tomb!

Must be top-level things to match!

He wants to build his own fairy!

Unique existence!

Crush the existence of the blood spirit race!

Chapter 1352: "Ten Thousand Soldiers Forging Decision"

Ye Chen had been using blood spirit weapons during this period.

Although the weapons of the Blood Spirit Race are powerful, they are not suitable for Ye Chen at all.

The most suitable for Ye Chen is the Jiuyou Sky-killing Spear and the Dragon-Splitting Asking Sky Sword he built by himself.

It's a pity that with the improvement of Ye Chen's strength and the powerhouses he faced, the ranks of Zhanlongwen Tianjian and Jiuyou Tianjian were not enough.

Right now, only with the inheritance of the forging gods can you be qualified to build your own weapons!

What's more, the powerhouses around Ye Chen need top-level weapons if they want to be qualified against the blood spirit race.

These weapons must be made by him!

Ye Wudi and Han Yun have accumulated thousands of years of existence at the level of old monsters. Once they break through with the Ninth-Rank Immortal Weapon, they are estimated to be directly promoted to the third and fourth levels of the God Realm, increasing their combat power by at least ten times!

This is the foundation, accumulated for thousands of years.

They were also Tianjiao when they were young, but they didn't have any fairy weapons, and they didn't dare to break through.

Once the Ninth-Rank Immortal Tool is used, the combat power will surely increase. After one year, the blood spirit tribe will dare to come, and I am afraid they will suffer heavy losses.

Shattering!

Wow! !

The seven-pointed star array is also the main defensive array method, flashing auras of debut, and when one of them hits Ye Chen's body, only a metal collision sound is heard, the aura automatically bursts, unable to shake Ye Chen's golden body.

"Don't bother!"

"Fist in the Buddha country!"

Ye Chen yelled, fisted out, and all directions shook.

Qi and blood surged wildly, and the fist prints condensed and hit the center of the formation behind the room.

Bang bang bang! !

Boom!

The dots burst one by one.

The seven-pointed star array was broken.

Ye Chen suppressed the twelve-handed immortal weapon again at an extremely fast speed. The immortal weapon was alive and could not stop moving because the formation collapsed.

He took a long breath and put the fairy in the reincarnation cemetery, and then opened the door of the house. It was very simple at first glance, but it felt extremely luxurious when it looked closely. The wooden stools are all made of thousand-year-old flame red heart wood. of.

The wooden table is actually made from the trunk of the Ten Thousand Years Star Tree.

The messy wooden bed is made of top quality wood, and the quilt is also made of top quality silk.

"What a luxury!"

Ye Chen slapped his tongue, but saw a rusty long sword beside the bamboo wall.

When he was able to pick up the long sword, the cemetery of Samsara trembled violently, the tombstone forging the gods shattered, and the spiritual thought was released, and then a thrilling word came from his ear, which was extremely shocking.

"For thousands of years, who can compare with me?"

"There are so many immortal weapons, I am the leader, the world's weaponry, nine out of ten are my own hands!"

A bold word lingered in Ye Chen's ear.

Listening to the sound is extremely shocking, but listening carefully, it feels like showing off wealth.

The sword of the world came out of his hands in all likelihood.

This is largely true.

Reincarnation cemetery.

A white robe figure emerges, not a long figure, nor long hair fluttering, but a white-robed Taoist man with a halo floating behind her. Under the halo, it is actually eighteen swords. They are all Hunyuan fairy artifacts!

Ye Chen frowned slightly, and looked at this forging god, an invisible coercion enveloped him.

Ye Chen didn't talk nonsense, and immediately clasped his fists and said: "Here is Ye Chen, the tomb owner of the reincarnation cemetery, I have seen seniors here!"

"I also hope that seniors wish me a helping hand. Now that Kunlun is weak and weak, I can no longer forge an immortal weapon!"

"The predecessors accept me as a disciple, I will make Kunlun Xu strong and calm the Blood Spirit Race!"

Forging the **** for a moment, looked at Ye Chen, and then at Nie Baijian, and said: "You think I will definitely accept you as a disciple? I forged the gods, and accepting disciples is extremely harsh."

"No garbage, no waste, no mediocrity."

"And looking at you now, I seem to satisfy these three."

"You haven't even entered the emperor's realm. I really can't figure out where your confidence comes from."

When Nie Baijian heard the words of the forging god, he still stood up and spoke for Ye Chen: "You say that to him. I don't agree. The seventh-tier heaven of the Dao Source Realm is slaughtered into the fifth-tier heaven of the Divine Realm! You can't find many in the ancient times One!"

The forging **** is slightly surprised: "Oh? This is so powerful?"

"The seventh-tier heaven of the Daoyuan Realm is even qualified to face the fifth-tier heaven of the Divine Realm!"

"It's sixteen small realms!"

Forging God Lord's eyes changed slightly, he naturally didn't think Nie Baijian would deceive him on this matter.

"Not bad, not bad!"

"There was no such genius back then!"

He suddenly smiled and said: "Isn't it just accepting disciples? I accept me!"

He played with a rapier and said with a smile: "The situation in Kunlun is now at this level? My disciple, there is a sword outside the house called a fishing sword, which was used by the teacher for fishing. Become a teacher!"

"Don't think that the teacher is surrounded by immortal artifacts!"

"But it's simulated by divine mind, it's not real, I can't give it to you!"

The forging **** said with a smile: "I used to be old Chen, there was not much, there were so many immortal artifacts, king artifacts and Hunyuan artifacts, too many to fit in the house. If you were in ancient times, you would be my apprentice. Lao Tzu gave you a hundred and eighty gods and immortals. When he met someone who was not pleasing to the eye, he threw it over and blew himself up, killing him."

Ye Chen was a little stunned, the master seemed to be extremely confused.

When the other masters came out, they were quite ostentatious, but later they were convinced by themselves, but this master did not take the usual path!

As for the fishing sword!

The third-class artifact is really luxurious for fishing!

Forging **** Chen Anping should be regarded as the richest person in Kunlun Xu.

The king artifact is a harpoon, and Hunyuan fairy artifacts are thrown everywhere.

If this is passed to the current Kunlun Xu, it is estimated that Han Yun and the others would have wiped their necks and committed suicide. They have accumulated hard work for one or two thousand years, and they have not even been able to obtain a first-grade immortal artifact. This new master is So extravagant.

Ye Chen performed the apprenticeship.

On the side, Nie Baijian explained the current situation to Chen Anping, the forging god.

After a long time, Chen Anping filled with indignation: "Back then, I used the Hunyuan Immortal Tool as a bomb The blood spirit clan, these kings and eighties, actually abolished the Kunlun Void body refining line, and also brought the Laozi refining sect to the capital. It's gone!"

"These bastards!"

"Ye Chen, you are now Lao Tzu's chief disciple!"

"Lao Tzu passed you the "Ten Thousand Soldiers Forging Decision". You remembered it for Lao Tzu. Make more immortals. If you encounter the blood spirit tribe, don't fight for blood, flesh, and just take the immortal tools to me."

Sure enough, Ye Chen sighed.

Before Ye Chen could react, Chen Anping had already used the method of soul to transmit the technique to Ye Chen!

"Ten Thousand Soldiers Forging Decision"

Not only the name is powerful, but the content is even more powerful.

There are methods for forging weapons ranging from ordinary long swords and long knives to large cauldrons. There are even methods for forging weapons such as weapons fusion, special soul weapons, and special weapons designed to break the flesh. Law has it all.

Chapter 1353: luxury

This is simply an encyclopedia of weapon manufacturing.

As long as the strength and materials are enough, there are records on what weapons they want to build.

What kind of weapon, what formation to be depicted, and how to describe the formation, and even the forging situation before and after are clearly recorded.

At the same time, this exercise is also fivefold.

weapon forging.

The second layer: the method of forging fairy artifacts.

The third layer: the method of forging the fairy king.

The fourth layer: The forging method of Hunyuan Immortal implements.

Fifth layer: The forging method of Hedao artifact!

Everything!

This exercise alone is enough to revive Kunlun Xu's refining device.

It is no wonder that Chen Anping was known as the forging **** at the time, and he was the ninth heaven of the Hunyuan realm, and his status was higher than that of many powerful people in the co-dao realm.

...

When Ye Chen accepted the exercise, the high martial plane, the land of the blood spirit race.

The old man with a terrifying breath suddenly opened his eyes, and the tyrannical coercion swept thousands of miles around him.

Thousands of disciples of the emperor realm, disciples of the **** realm have spurted blood and thumped to the ground.

The old man spouted a mouthful of blood, his pupils filled with extreme anger, "These wastes are dead again!"

"Wei Wucheng, waste in waste!"

"Kuilong, come and see me quickly!"

Before that, when Wei Wucheng and his group set out to Kunlun Xu, they were secretly penetrated by him.

Now that several of the origins have collapsed, it means that those people have died, and he has naturally been backlashed. Under extreme anger, between the sound transmission world and the earth, he ordered Kuilong, who is responsible for Kunlun Xu, to come!

A middle-aged warrior flew in quickly, kneeling on the ground with great respect, holding his fist and saying: "Old ancestor!"

"Something happened to Kunlun Xu!"

"You immediately send someone to check, Wei Wucheng is almost dead!" The old man's cold voice did not allow any doubt.

The middle-aged man Kui Long was startled, and he knew that Kunlun Xu had an accident before.

What kind of waves can a low-strength plane turn out.

I thought Wei Wucheng could solve it in minutes!

But I didn't expect Wei Wucheng to have an accident too!

This is simply a fantasy!

A place of rubbish, actually suppressed those blood spirit clan powerhouses!

Is Kunlun Xu born a strong man?

"I'm going now!" Kuilong said with a trembling voice.

Just when he was about to leave, the terrifying old man suddenly said, "Stop!"

Kuilong was taken aback, turned around with difficulty, and curiously said: "Ancestor...what else is there to order?"

The old man snorted coldly, pinched his fingers, and forced out a drop of blood, and at the same time a burst of discs flew out!

"Kunlun Xu, a land of ants, has a thin aura and hasn't changed for thousands of years. Why does it happen again and again?"

"There must be a problem here!"

"Now I use my essence and blood to provoke the Heaven-defying Formation, but I want to see what happened to Kunlun Xu!"

"You just wait here! When the results come out, it's not too late to break the Kunlun illusion!"

"I want to see how a group of ants can kill my blood spirit clan powerhouse over and over again!"

Kuilong was startled, and the atmosphere didn't dare to take a breath. He never expected that this respected senior would use his blood to check the situation of a low-strength plane!

...

Kunlun Xu's Ye Chen naturally didn't know that the crisis was approaching step by step.

He is completely immersed in "All Things Forged"!

I don't know how long it took, Ye Chen opened his eyes, and forgot to completely comprehend "The Forge of All Things".

There is also a lot of knowledge and methods for forging various weapons in my mind, and I can't help but ask: "Master, now the Kunlun virtual refining device is almost completely destroyed. The current spiritual weapons are all suitable for everyone. The method is made by yourself."

Build your own weapons.

It is also in line with his own method of use, and the spirit tool is more intimate to himself.

But the power is definitely not as powerful as the spirit weapon forged from "Forge of All Things". Even if it is of the same level, the power of the former is at least one rank lower than the latter. Two warriors with similar differences, using two spirit weapons, must be the latter. Winner!

Furthermore, Ye Chen couldn't always give everyone a refiner.

The materials of the King's Artifacts and Hunyuan Immortal Artifacts have to be found by the Blood Spirit Race.

These materials are basically wood that is more than ten thousand years old, even special Tianxing sand, etc., it will take more than ten thousand years to wait for Kunlun imaginary to occur naturally, and it must be guaranteed not to be damaged during the period. Situation, it is almost impossible to accomplish.

"Pass it to others?"

Chen Anping caressed his chin, without a beard, yet he was a master.

He slowly said: "Yes, you can, but you can only find a few people you can trust and accept them as your disciples. You pass them to them and let them specialize in refining spirit tools and fairy tools!"

"Of course, you can also simplify the large-scale spread of "The Forge of Everything"."

"It's just such a forging technique that people without talent can't understand it!"

"Enough!" Ye Chen's eyes lit up, so Kunlun Xu could spawn some martial artists into the gods.

"Master, I will accept the twelve celestial artifacts outside of you!"

"Take it, these inferior goods are used to prevent some people from making trouble!" Chen Anping didn't care. He was playing with the short knife in his hand. Compared with Nie Baijian and Xue Qiye, they have their own style.

"Thank you, Master!"

"Then I will go to Lord Shendan's side!"

Ye Chen brought the fishing sword, and he really felt that the name was not very good. Waiting for the time to take the time to integrate the Dragon Slashing Sword and the Star Sword into this divine king, and then rename it. After all, he has a fishing sword. Going out to fight, you can't live up to your face.

He could walk out, and he saw a mountain on the opposite side from a distance. It was also on the mountain, but on this mountain, it was nothing more than an ordinary house, but a magnificent palace. In the words of the villagers, this was Tiangong.

In the next moment, Ye Chen came outside the palace of the elixir god.

Take a closer look at The exterior of this palace is made of ten thousand years of gilt iron.

A single pillar was made of a thousand-year-old star stone, and a lot of Yaozu fur was used as a carpet.

"This fur seems to be in the realm of gods!"

"Hey, this piece belongs to the Divine King Realm." Ye Chen looked at the underground carpets as he walked, feeling the aftermath of these monster beast fur carpets, and then judged the monster's combat power during his lifetime.

The fur around is almost hundreds of square meters in size.

It looks like a mink skin, but it can guarantee that it will remain unchanged for thousands of years, and it will not rot for thousands of years, and it is the part of the monster's belly.

A monster is transformed into a prototype, and its abdomen is extremely fragile, so most of the points are condensed with scales as a defense, and a small part is exposed. It is the softest part of the monster and the most suitable part of the carpet. .

What kind of demon clan did the elixir **** kill this hundreds of square meters?

Chapter 1354: Shendan Palace!

Or, is it bought?

After all, he was the top alchemist of Kunlun Xu in ancient times.

The warrior can have no weapons, but he can't have no medicine!

Especially after ordinary people enter the Divine Realm and Divine King Realm, they all need to understand the Tao and perfect themselves.

Hunyuan realm and Hedao realm are probably the power of cultivation laws.

These can only rely on continuous penance for a long time, to avoid hundreds of thousands of years of penance and practice, to buy the medicine.

The **** pill monarch seems to be the one who is the most able to refine pill in Kunlun Xu. Hunyuan pill, hedao pill, and law pill should be able to practice a lot. Doesn't this mean that he is another local tyrant?

The kind that is richer than the forging god!

Ye Chen swallowed, and Nie Baijian saw it, and said, "Boy, don't be jealous, you can control it in the future."

"Think about it, you got the knack for forging weapons from this old fellow Chen Anping!"

"I learned the method of refining pill by the Lord God Pill again!"

"Your cultivation level and strength will grow extremely terrifying!"

Nie Baijian said that he was a little envious.

Although he is a powerful person in the Harmony Realm, his previous Harmony Artifacts were all made by the forging **** Chen Anping.

The breakthrough medicine is also related to the Lord Shendan.

This depends on the face of others.

It can even be said that in the ancient times, most of the strong men worked for the forging of the gods and the gods.

Whenever you get a treasure by accident, you will sell the materials and then spend money to ask the two of them, or their apprentices to help, to create a desirable weapon, or to refine a pill with excellent effects.

At this step, Ye Chen walked far farther than him.

...

The luxurious palace, there are still several floors looking up.

The palace plaque depicts a few dragons and phoenix dancing characters-Shendan Palace!

Shendan Palace!

Since it is such a palace, there should be a lot of medicines left behind.

It must be enough to recover Ye Luoer's injury.

Ye Chen came to the gate of the palace and gave a light push. Suddenly, he felt that the fifteen battle puppets in the palace were quickly activated, and they came to kill with all kinds of immortal weapons. !

Fifteen war puppets!

Seven gods enter the third heaven of the gods, and eight gods enter the fourth heaven of the gods!

Such a lineup is placed outside, it is almost difficult to find an opponent, but for the Lord Shendan, I am afraid that it is just one of his many lairs. After all, this place is just one of his many lairs, and the role is the same as forging the Lord. Home.

Besides, in the ancient times, who would dare to attack the territory of his **** pill monarch?

boom! !

Ye Chen fisted and flew a battle puppet who had entered the third-tier heaven of the gods!

The fighting power he now broke out barely resisted.

This is the feedback given by the Devil's Eye after awakening part of the bloodline, and the power is significantly improved.

Whizzing! !

Whoosh! !

The sound of breaking through the sky came out.

The three battle puppets who entered the fourth layer of the God Realm joined forces and flew out in a decisive alliance, blasting Ye Chen tens of meters away.

The other battle puppets also came behind Ye Chen and attacked fiercely. They seemed to be a set of battle puppets. They cooperated with each other in an orderly manner. They sprayed all the blood that Ye Chen had given him for a while. A single battle puppet, Ye Chen was not afraid, but the fifteen battle puppets shot together, Ye Chen was a little hard to deal with.

Bang bang bang! !

Boom! !

Ye Chen was bombarded dozens of times in a row, scarred, and his face pale.

He no longer hesitated, and quickly took out the long sword that the blood spirit race had obtained, slashed it horizontally in the air, and the blood directly skyrocketed, leaving dark traces in the air. The battle puppet of the three-tier sky!

But it didn't work at all!

"This war puppet is not afraid of getting hurt!"

"It's really troublesome if you don't step back!"

Ye Chen dodged and avoided the fist of a war puppet who had entered the fourth-level heaven of the gods, but a big hole was blasted out of the wall on the side.

He slashed down with a sword, faintly splitting the formation, smashing the battle puppet power into the carpet, kicking it away, "Two masters, how are these battle puppets refined?"

"Is it relying on spirit stones as energy for operation?"

"Or is it the ability to absorb the aura of the outside world autonomously?"

Refining war puppets!

There are also two types!

The first is expendable. It completely wipes out the enemy's soul power, destroys the dantian, and changes it to the central area. Puts high-grade spirit stones or even fairy stones as energy sources to support the battle puppets. This kind of war puppets only need the power of the fairy stone. When exhausted, they will also stop.

The other is persistent. The principle is to completely obliterate the power of the enemy's soul, but it will not destroy the body. Part of the power of the soul is divided into it, which is equivalent to the second body, but it is difficult to fight the puppet. Improved, but the flexibility is much higher than the first type. It has the ability to absorb the aura of the outside world and produce blood, but it is not powerful.

The Green Sword Demon King belongs to the second type!

There was a soul of Ye Chen on his body, with a little discernment ability.

"This thing!"

"It's from the door of myself!"

In the reincarnation cemetery, the forging gods looked carefully, and said: "I can see that it was made by a doorman in my line."

"It's a consumable way!"

"Their energy comes from the heart, you just need to take it out!"

"But be careful, don't make a mistake in the middle of the left heart!"

When these battle puppets are refining, a lot of explosive substances are added to their bodies. Once they are destroyed, they can explode and kill the enemy.

If Ye Chen took the wrong spirit stone, the battle puppet would explode directly.

"understood!"

Ye Chen grabbed the war puppet who had been killed in front of him, made five claws with his left hand, pierced the skin and flesh and blood of the war puppet, and grabbed a white stone similar to the 'heart', and then the aura of the war puppet extinguished. Go down and become dead.

The white stone shone with a dazzling luster, and the spiritual energy contained on it far exceeded that of the spiritual stone.

It's a fairy stone!

Generally speaking a piece of fairy stone is enough to allow the strong in the early stage of the gods to practice for a period of time, and it is also divided into low-grade, medium-grade, high-grade, and top-grade grades. Circumstances, the purchase of pills or weapons are all paid for by using Xianshi.

Immortal stone, which is called immortal stone, is actually a stone with aura concentration ten times higher than that of spirit stone.

Generally produced in large-scale mineral veins, but the Kunlun Xu large-scale mineral vein was ransacked by the blood spirit tribe long ago. This thing can only be obtained by the blood spirit tribe, and Kunlun Xu did not produce it.

Ye Chen threw down this battle puppet, shaped like lightning, and flew past seven or eight battle puppets to **** their immortal stone.

He drew his sword and flew two battle puppets, and quickly shot.

Soon, all the core immortal stones of the fifteen battle puppets were held by him!

As for these battle puppets, they are also fighting power anyway, Ye Chen has also received his storage ring, but it has increased the strength of the Palace of Light.

Squeak~~

Chapter 1355: Miles tracking

The palace gate that Ye Chen pushed open was really frugal. There were only two tables and a few stools, but they were all made of high-quality blood jade, and they were extremely luxurious.

When he came to the second floor, he passed a room with some immortal stones in it, but the grade was not high.

As Ye Chen gradually explored upwards, the tombstone symbolizing the **** pill in the reincarnation cemetery became more intense, and even several cracks appeared on the tombstone, which will soon come out.

"God King Realm Battle Puppet!"

Ye Chen stared at the middle-aged man standing at the top of the stairs, and after a closer look, he found that the other party was not moving at all.

He probed again and found that the energy of the immortal stone on the chest of this war puppet had been exhausted, so naturally it was unable to move, but the **** king realm war puppet must be used. It is estimated that the middle-grade immortal stone would be used. It can be used for a short period of time, but not for a long time.

When Ye Chen stepped onto the topmost balcony, a stone tablet suddenly exploded in the reincarnation cemetery.

The spirit of the Lord Shen Dan was released, and a shocking word appeared in Ye Chen's ear, making Ye Chen's figure shocked.

"The world **** pill, do everything in my hands, scorn the world, who can compare with me?"

Ye Chen couldn't help but feel shocked when this sentence reached Ye Chen's ears. His voice was extremely powerful, but with a touch of domineering and imperialism. A phantom gradually appeared in his mind, wearing a crown on his head and covering his body. The lingering emperor of the **** pill!

Lord God Pill!

Do not!

It should be called the emperor of God Pill!

This should be the pinnacle of the Hunyuan realm. If he enters the Hedao realm, it is definitely not an exaggeration to call it a "God Pill Emperor"!

The world **** pill, do his best!

What is God Pill?

Hunyuan Shendan can help comprehend the laws of space!

Hedao Shendan can help comprehend the law of time!

Before reaching the Hedao Realm, you can refine the Hedao Divine Pill that is powerful to the Hedao Realm and is also very useful. Such a divine pill monarch can be called the emperor of the Divine Pill. It is definitely not an exaggeration, even Ye Chen thinks , The word emperor is not enough to compare with each other!

In ancient times, there was no shortage of alchemists in Kunlun Xu.

But in the line of alchemy, alchemy ability is the strongest, the number is the largest, and there is no one who has the most people than the lord of the gods!

Lord of God Pill and Lord of Forging God!

One focuses on alchemy and the other focuses on refining equipment. No wonder the Blood Spirit Race would take the lead on them.

Even more reluctant to kill them, instead imprisoning them in the Heavenly Prison of the Blood Spirit Race, they should be conquered, otherwise such peerless geniuses are probably extremely rare in the Blood Spirit Race.

If the two of them were promoted to the pinnacle of the He Dao realm, they might be able to refine a pill that would be of great benefit to those in the good fortune realm.

In the reincarnation cemetery!

A middle-aged man appeared slowly, wearing a nine-pattern dragon robe, a crown of kings on his head, a long sword on his waist, and glare on his feet.

It is the Lord God Pill.

"Pharaoh, your spiritual thoughts have also come out?"

Chen Anping joked: "Back then, you refined eighteen Hunyuan realm war puppets and seven Hedao realm war puppets, right?"

"Is there anything left in Kunlun?"

"This is the owner of the reincarnation cemetery."

"We need to rely on this person if we want to leave that place."

Shendan Sovereign Wang Qiantian shook his head slightly, looking at all this in front of him in a daze.

Finally, the line of sight fell on Ye Chen.

Not every **** knows the secrets of the reincarnation cemetery.

He said: "Dao Yuan Jing, in charge of Kunlun Xu?"

"Kunlun Xu, is it already weak to this level?"

"No!" Ye Chen said slowly: "The current Kunlun Xu has the peak of the nine-tier emperor realm."

He stretched out his left hand slightly, his arm shook, his skin turned into red gold, and bursts of tyrannical qi and blood bloomed, saying: "Although I am the seventh heaven of Dao Origin Realm, I can fight into the fifth heaven of God Realm, so , Kunlun Xu regards me as his master."

"The qi and blood are good, but too low a level is not enough after all."

"Can you take us out of that place?"

"ridiculous!"

He looked around, closed his eyes, as if feeling something.

I must be getting some information about the reincarnation cemetery.

After not knowing how long, he opened his eyes and said to Ye Chen: "It turns out that part of my origin and spirit was intercepted by this reincarnation cemetery."

"And you are the tomb owner."

"It stands to reason, I should help you!"

"It's just that this monarch is good at alchemy, and is not good at combat. When the real body was still there, and even refining many battle puppets, he can fight at the peak of Hedao realm!" The **** pill lord sighed. , "It's just that the battle puppets were all smashed by the powerful blood spirit clan fortune realm."

"I didn't leave anything behind in Kunlun either!"

"The only thing left is the battle puppets of the Divine King Realm in this palace, which is the only thought of this palace."

"It's just that there are only a few pieces of the middle-grade immortal stone left, and at most it will show the strength of the sixth or seventh level of the gods!"

"This is great!" Ye Chen bluntly said: "The seniors in the reincarnation cemetery are all my masters. Therefore, the seniors are naturally my masters. The Kunlun Xu nowadays, the refining vein is destroyed. Alchemy is half-remaining."

The five great Danzun in Danxu Town.

In fact, some alchemy was obtained in the ruins of ancient times.

But it was not complete, so it was extremely difficult for them to refine the ancient Bailing Pills. They were a bit reluctant to say that they were Taoyuan realm alchemists. The most important thing was that there was no guidance, let alone the direction to move forward, and they completely relied on their own exploration.

If Ye Chen learned the god-level alchemy technique and passed it on to them, he could refine a lot of pills.

"understood!"

The power of the **** pill monarch probed the outside world a little bit, and then nodded: "Since the alchemy vein of the outside world has been wiped out, this lord would also like to see that the Kunlun Xu people no longer take the god-level pill, so he will pass on the alchemy technique to you! "

At the next moment, he raised his arm freely, and a flash of light came from his fingers, which merged into Ye Chen's eyebrows.

Pills of alchemy knowledge came into Ye Chen's mind!

The Banten

Like "The Forge of All Things", it includes the refining methods from the Xuwang Realm pill to the Hedao Realm pill. It is extremely detailed and far more accomplished than the Lingyi Pill and Baiwu Pill.

"Master!"

"This kind of exercise I want to spread it out, after all, I can't make a pill!" Ye Chen said slowly.

"Yes, the first five levels, the content under the Hunyuan Shendan, can be spread out!" The Lord Shendan said: "The refining methods of the Hunyuan Shendan and Hedao Shendan should not be revealed, otherwise it will continue to flow. The strong in the Hunyuan realm and the strong in the combined Dao realm are here to kill and **** the magic!"

Able to refine the magic formula for the elixir of understanding the laws of time and space.

There will definitely be a lot of strong players to **** it.

When the Lord God Pill was at the peak of the Primordial Realm Realm, there were many battle puppets, disciples, and guards under his command, so no strong man dared to pay attention to him, but if he was replaced by Ye Chen, he would be besieged 100%.

"Thank you, Master!"

Ye Chen clasped his fist and said, "In addition, please Master, please teach "Ten Thousand Miles Tracking"?"

Chapter 1356: Identity!

"Do you want to find someone?" Sovereign Pill looked at Ye Chen and nodded slightly: "It's easy to find people with your blood, essence, and blood!"

He raised his arm slightly, and directly transferred the exercise technique to Ye Chen with the power of qi and blood.

After Ye Chen thanked him, he took away the things from the Shen Dan Palace and returned to the City of Thousand Jues.

Now, the City of Thousands of Wonders has become the base camp of the Palace of Light, and it is already a well-deserved top power in Kunlun!

He ordered: "Ye Lingtian, come to the main and deputy pavilions of the major branches, the elders, etc.! Especially the Lingyi Danzun!"

After that, he walked to the room and deliberately took out a healing pill that he got in Shendan Palace and gave it to Ye Luoer.

Check out new PVP arena battles!

After Ye Luoer took the healing pill, most of his injuries healed. After all, it was a **** king-level pill, and the effect was definitely very good.

"Big Brother Ye!"

Ye Luoer stared at Ye Chen, did not speak for a long time, her face was ruddy, and finally lowered her head, revealing a hint of shame.

When Ye Chen resisted Wei Wucheng's strong blow, part of her blood was awakened.

She vaguely knew something.

She is from the blood spirit race.

When she wondered that she had become the person Ye Big Brother hated most, she naturally had no face to see Ye Chen.

Ye Chen stroked her hair and smiled: "It's okay, I have known your identity a long time ago. Your bloodline is very powerful, at least, far more than Wei Wucheng, but you don't have to worry, no matter what your identity is, I don't mind."

"You will always be my Loer."

"I can't treat you as an enemy."

"Big Brother Ye!" Ye Luoer felt a little inferior, "I'm a blood spirit tribe, do you know?"

She was very worried and thought: If everyone knows that I am a member of the blood spirit race, what should I do?

Although I never hurt them.

But my people are so cruel to them, and they hate the blood spirit people very much. Will this cause trouble for Big Brother Ye?

Should I leave?

"Silly girl, what do you think?"

"The power of your blood, that is, the old antiques know that I will beat them."

"Besides, you may be my secret weapon."

Ye Chen patted Ye Luoer and smiled: "Don't worry, now I am the Lord of Kunlun Void, who would dare to touch you? Besides, even if everyone knows your identity, you have never hurt them. In Kunlun Xu, they will not deliberately embarrass you!"

"After all, there are so many cultivators, if you can't even think about this."

"I killed them directly!"

It is one thing to hate the blood spirit tribe.

It doesn't mean that everyone in the blood spirit tribe must be killed.

If the other blood spirit tribes didn't hurt the Kunlun Xu people, then there was no need to trouble them.

"it is good....."

Ye Luoer thought about it: "Brother Ye, after using my blood, some memories appeared in my mind, including a technique."

"The memory is chaotic, there are only dozens of fragments vaguely, and it is not coherent."

"But that exercise seems to be called "Holy Dragon Jue""

"Shall I give it to Big Brother Ye?"

A group of soul power condensed from the palm of her Bai Zhi, wrapped in the technique, and handed it to Ye Chen.

Ye Chen didn't answer, and said, "No, this is your family's martial arts. I don't have the blood of the sacred dragon, so I probably can't cultivate!"

The real exercises and tactics do not remain literally.

They are all passed on to others by the power of qi and blood, or the power of soul.

At the same time, he knows that the truly top-notch big families can leave the exercises in the minds of their descendants, so that they can practice independently even if no one teaches them.

This situation is similar to the dragon, phoenix, and beasts.

The dragon and phoenix tribes are **** beasts created by nature. They will carry inherited memories from birth and contain various faculties and techniques to ensure that even if there is only one dragon and one phoenix in the world, as long as there is enough time, the two demons can cultivate. The level of the top demon king.

This is also the case for Ye Luoer. Once injured or using the original bloodline, inheritance memory will be triggered and inherited martial arts.

In the reincarnation cemetery, Nie Baijian said: "This girl is not bad!"

"Sacred Dragon Clan's fascinating family inheritance, just gave it to Ye Chen, not bad!"

"I thought that this girl would be a variable, but it seems that there should be no threat to the tomb owner!"

If there is a threat, will you die to save the tomb owner?

Then he gave the family heirloom knowledge to the tomb owner?

Never possible!

Nie Baijian looked at Wang Gantian and Chen Anping, and said with a smile: "Have you never seen this kind of blood spirit tribe?"

"I haven't seen it before, so silly and cute!" Chen Anping said slowly: "Family inheritance is unique, and it is generous enough to give it to others."

"That's true." Wang Gantian was a little worried, his eyes were deep, and he said: "This girl is a member of the Sacred Dragon family. Maybe you haven't seen it before his bloodline is awakened! This family is very powerful, maybe Brings danger to the tomb owner."

The Holy Dragon family is much stronger than the Beigong family.

Even Kunlun Xu in ancient times didn't necessarily dare to provoke him.

"What are you afraid of!"

"If the Sacred Dragon family comes to take people away, maybe it will be fine."

"If you want to hurt the owner of the tomb, the old man will kill them if he fights this magical thought!" Nie Baijian's voice is cold and his body is like a divine sword. Once he is out of the sheath, he will cry the ghosts!

At this moment, Ye Luoer outside thought of something and said:

"Big Brother Ye!"

"My blood is awakened, and I feel that someone is calling me in the dark."

"Maybe my clan member of the Blood Spirit Race found me." Ye Luoer was a little worried and said:
"Maybe, they are coming to take me away, I don't want to leave Big Brother Ye."

Ye Chen's eyes condensed, and he said extremely firmly: "It's okay, if your tribe comes to pick you up, you may wish to follow along, improve your strength, and come back to help me in the future. After all, Kunlun Xu can help me. There are very few."

"If it is malicious!"

"How many they come, how many I kill."

"Okay, go to sleep first, I'll go outside to handle things!" Ye Chen went out of the room and prepared to combine alchemy and refining, select a few inheritors, and adjust the status after finishing. Fan, with the help of the stars in the evening, urge his own blood, looking for Ji Siqing and Xia Ruoxue.

After Ye Chen left, the door was closed, but Ye Luoer's eyes were filled with strange blood.

This blood is cold, even endlessly deep.

Ye Luoer naturally saw herself in the mirror, she closed her eyes, and countless images crashed into her brain!

She is extremely painful!

The face is even a little distorted!

I don't know how long it took, her eyes suddenly opened, terrified!

Because she just saw a picture!

This picture is about the life and death of Brother Ye!

Brother Ye is in danger!

Chapter 1357: Master!

Ye Luoer lost her color in panic, no longer hesitated, and quickly opened the door to chase outside.

Ye Chen hasn't gone far yet.

"Big Brother Ye! Wait a minute!"

Ye Chen's body was startled, he turned around suspiciously, and looked at Ye Luoer: "Luoer, what's wrong, is your body still a little uncomfortable?"

Ye Luoer shook her head like a rattle, and quickly told Ye Chen the intermittent picture she had just seen.

"Brother Ye, in the past month, you promised Luo Er to stay in hiding, okay?"

"Otherwise you are really in danger!"

"This is a danger that Luo Er has never seen before!"

"Top powerhouse!"

Ye Chen's eyes condensed, although he didn't know where Ye Luoer's basis came from, but after thinking about it, I am afraid that Wei Wucheng hurt himself badly that day, and Ye Luoer's heart still has lingering fears.

His fate is uncontrollable, what qualifications does Ye Luoer have to predict?

In order not to worry Ye Luoer, Ye Chen smiled and said: "Okay, I promise you, I will hide when I find Ruoxue and Siqing."

After speaking, Ye Chen touched Ye Luoer's head and turned and left.

Ye Luoer looked at Ye Chen's leaving back and bit her lip lightly: "Big Brother Ye doesn't believe it...what should I do?"

In the next second, she thought of something and rushed directly to the room.

Right now, since she has awakened something, the most important thing is cultivation!

Only practice can save that disaster!

She must become stronger!

...

nowadays!

The former Qianjue Square is gone, replaced by the huge Guangming Palace!

The magnificent palace is like an imperial palace in the ancient times, surrounded by spiritual energy, and various elixir plantings. The speed of cultivation here is several times faster than that of the outside world.

In the hall, the principal and deputy pavilion masters of the fifteenth pavilion, plus the Lingyi Danzun, Baiwu Danzun, and Ye Feng, are all seventy or eighty people!

When they saw Ye Chen coming, they clasped their fists and bowed, shouting, "Welcome to the Lord of the Palace!"

Ye Chen nodded, his gaze swept away, and the ancestors who had taken the immortal weapon seemed to have begun to break through and did not come here!

He then said: "Everyone, I have obtained the more advanced techniques for refining tools and alchemy!"

"Refining artifacts, you can refine fairy artifacts, divine king artifacts, and even Hunyuan artifacts!"

"Alchemy can refine Daoyuan level, emperor level, immortal level, **** level, and **** king level."

"I will select three people from each of the two channels of alchemy and refining. As the inheritors, I will pass on to them the exercises of the two channels and let them refine the alchemy. Of course, they can collect disciples and refine the two channels of alchemy. Return to the heyday of the ancient times!"

"Thank you, the Lord!"

The expressions of everyone were extremely excited, and the two pulses of refining alchemy were passed down, and the current situation could definitely be greatly improved!

At least, there will be twenty or thirty people entering the **** realm, and the eight or nine layers of the other emperor realm, the faster the cultivation speed will be, and the prosperous world will come.

Ye Chen's gaze swept over these subordinates, and he said: "Ling Yi Dan Zun, Bai Wu Dan Zun!"

"Subordinates are here!"

"Subordinates are here!"

The two Danzun immediately took a step forward, clasping their fists, their pupils filled with fiery eyes!

Hall Master, is this to teach our top alchemy method?

Long ago, the alchemy attainments of the lord of the palace were above us, and even far surpassing us.

Now, the hall master has found a higher-level alchemy method. If it is passed to us, I am afraid that it will not take long before we can refine the emperor-level pill, right?

Do not! What an emperor!

The exercises bestowed by the palace master are god-level pill and king-level pill, we can also refine it!

Ye Chen spread his hands slightly, his palms swirled and burst out with an icy blue luster, swimming around like a dragon and snake, and gradually condensed into two spiritual beads, which contained the first five chapters of "Wandan Jue", which were refined. The pill of Xuwang, Daoyuan, Emperor, God and God King.

Lingzhu is formed by the power of the soul.

The top techniques are all inherited by the power of the soul, which cannot be literal and greatly reduces the possibility of outflow!

"This exercise is "Wandan Jue""

"I am a disciple of Lord Shen Dan in ancient times."

Ye Chen's gaze was full of majesty, and he said slowly: "Now, I pass it on to you two. From then on, you two are in the same line as the **** pill monarch. At the same time, they are also my fellow juniors. you guys!"

"The exercises inside are enough for you to refine the king-level pill!"

His gaze scanned many of his subordinates, and he said: "From now on, whoever dares to covet this technique in Kunlun Xu, you wait to kill it! Of course, after they refine the elixir, they will first provide you with it. You step into the divine realm!"

"I'll wait to obey!"

"The order of the palace master, the Kunlun Xu people must remember!"

Ye Feng, Ye Wudi, Blood Qi and others all clasped their fists to respond, the heat in the pupils was beyond words!

Pills!

God-level pill and king-level pill, we also have it!

We can refine it too!

Finally, we also have a way to rise, and we have obtained so many immortal artifacts. We believe that the future palace master will definitely lead us to attack the blood spirit race and win!

Ye Chen's gaze fell on the two Danzun again, and then threw the two spirit beads away.

He: "Don't forget, expand my line of Shendanmen!"

"After you understand the technique, you must not be too greedy for money and things, let alone deliberately increase the price of the medicine!"

"Furthermore, you are looking for five talented and extremely suitable geniuses to pass on the refining methods of the god-level pill!"

"Let them grow into god-level alchemists as soon as possible, and you are specifically responsible for refining god-king-level pills!"

Kunlun's weakness is not that it cannot move forward.

But the road ahead was cut off. Now Ye Chen reconnects the road ahead and brings back the refining method of the elixir above the **** level. After that, the martial artist in the divine realm can take the elixir without being like an emperor. Like the realm, if you want to improve your realm, you can only slowly improve it over time.

"Hall Master!"

The two Danzun hurriedly knelt down, clasped his fists and said, "No, Master!"

"The hall master teaches me to wait for the cultivation technique, and I wait for the master, and I can't wait for the master's junior!"

What kind of person is the Lord of the Palace?

Master Geshixiong!

If you pass on my cultivation technique, I will treat myself as an apprentice of the Lord of the Palace. The grace of inheritance will never be forgotten for thousands of years!

As long as you are alive for one day, you will be the Lord of the Palace and do your best for the Palace of Light!

"Okay!" Ye Chen nodded slightly, and after seeing the two Dan Zun beginning to comprehend the Wandan Judgment, he asked them to go to the independent practice room to comprehend.

In the Blood Spirit Secret Realm, if the elixir brought by the Sect Master and the Holy Grass Temple is enough to refine several batches of God-level pill, Kunlun Xu will definitely produce a lot of divine realm warriors within a year or a half.

"Next!"

"The Lord of the Hall, choose the person who inherits the refining line!"

Ye Chen's words were plain: "I got the ancient method of forging gods "A Thousand Soldiers Forging Decision""

"I will also find the right person, pass it on, and everyone will refine it."

"It's just that the accomplishments are not high, who is willing to be in charge of refining tools?"

Chapter 1358: Dare to move our disciples!

"Hallmaster, I am willing!" The master of the blood contract knelt immediately and said: "My foundation is damaged, and it will be difficult to enter the gods in decades! So, I apply for a special refiner!"

On the side of , Ye Lingtian also clasped his fists and said: "Hall Master, Ling Tian's strength is difficult to improve in a short time!"

He thought about it: "So, I want to reopen the refining device line, specifically for my Guangming Hall, and even Kunlun Xu, to create fairy tools!"

"Hallmaster..."

"Hallmaster..."

"Hall Master, I..."

For a time, more than ten pavilions and ancestors of the eighth-tier emperor realm applied to refining tools.

Check out new PVP arena battles!

Maybe, they are really interested in refining tools.

Ye Chen thought for a while, and said: "Ye Lingtian, Blood Deed, Blood River, hand over the refining vein to the three of you!"

Three more spiritual beads condensed in his hand, and he said: "I am a disciple of forging the gods. The forging of the past has been destroyed, and now I re-established the sect, called the "sacred pavilion". Ye Lingtian is the pavilion master, and the other two are the deputy pavilion masters. , Xueye Pavilion elects another elder to replace the pavilion master!"

After said, he drove three spirit beads into the minds of the three!

Then!

He took out twelve fairy artifacts.

They were given to twelve powerhouses such as Han Yun, Ye Feng, Ye Wudi, Bloody Night Gate Ancestor, Baizhan, etc. Now the elder of Baizhan has also entered the emperor realm and was given an

elixir by Ye Chen. The path progressed rapidly, reaching the peak of the nine-tier heaven of the Emperor Realm in one day.

Twelve top powerhouses use twelve absolutely tyrannical weapons to break through!

The breakthrough time is between half a month and two months!

Two months later, at least seven or eight people will enter the fourth-level heaven of the gods, and several will enter the fifth-level heaven of the gods!

Each of them has an extremely profound background, accumulated for thousands of years, and even nine-rank immortal implements and eight-rank immortal implements help to make breakthroughs. The conditions are many times better than those of Wei Wucheng who do not know. Naturally, once they break through, they can be comparable to Wei Wucheng, and even To exceed a lot.

Wei Wucheng and the other blood spirit tribe have all accepted the pain.

It is a pity that there is no reliable information from the two.

Ye Chen killed them with a punch. At night, he came to the star-gazing platform at the highest point of the Palace of Light. "Using Wanli tracking to find Ji Siqing and the others, you need to use the power of blood, blood and stars. Now the conditions are complete. !"

Why borrow the power of the stars?

Only at night, when thousands of stars appear, can you use your blood to urge power to each star, and produce an effect similar to that of a Chinese satellite. Use these stars to search the entire Kunlun Void, so that you can find people.

"It's twelve o'clock at night!"

Ye Chen whispered: "When the stars are at their peak, you can start!"

Ye Chen's arm was lingering bloodshot, and a blood-red pupil appeared on the center of his brow, it was the eye of the devil!

The blood of reincarnation in his body is gradually awakening. Although only a part of the blood is awakened, it is enough.

The next moment, as a burst of vitality and blood exploded, the bloodshot eyes on his arm turned into purple filaments, gathering like a spirit snake between the palm of his left hand, and a purple ball appeared, like a transparent ball. You can see the scenery ahead.

Then, Ye Chen mobilized the blood on his body, condensing a few drops of essence and blood.

Seven drops of blood, suspended in mid-air, exudes powerful pressure, and faintly trembles in the void. Such blood, even if no one controls it, is enough to smash Dao Source Realm, even individual weak Emperor Realm can kill. !

Blood can smash the weak emperor realm!

Currently, Ye Chen has not yet advanced to the Emperor Realm!

With such a powerful combat power, if one advances to the Emperor Realm, or even enters the Divine Realm, one can fight against the Divine King Realm.

"fusion!"

"Essence, blood, fusion!"

Ye Chen gave a low voice, like an emperor, his voice is low but has the power to shock the heavens!

He controlled seven drops of essence and blood with his right hand, and then took out a long sword used by Ji Siqing and jewelry used by Xia Ruoxue, absorbed the breath, and drove it into the purple ball.

Show all things tracking!

There are a few hard requirements!

The first one, there needs to be something that is contaminated with the breath of the person being sought. Anything will do.

Second, the caster must have strong blood and strong blood to scan the world to find people. If the blood is not strong enough, it will not only fail to do this, but will be hit hard!

The third one requires the use of stars as the medium.

The stars are all over the sky, surrounding the Kunlun Xu and the land of China. With the stars as the medium, it is naturally easy to find!

"Searching!"

Ye Chen let out a low voice, and the purple ball burst out with a very powerful aura. In an instant, it rushed into all directions, and the aftermath shocked the surrounding martial artists to retreat!

Even the Blood Deed and Ye Lingtian, who had just left the customs, were shocked.

Ye Lingtian looked at Ye Chen on the stargazing platform in shock, and whispered slightly: "Hall Master, what is this going to do?"

"Such a shocking technique, I haven't seen the Lord use it before!"

"The combination of the blood and blood is to kill a powerful enemy?"

"Blood spirits are here again?"

"No!" The Master of the Blood Qi shook his head slightly, his eyes were deep, and he said: "I can feel that the next wave of Blood Spirits should not come yet. The Master, I should be looking for someone."

He thought, "After all, it's been two days since the news of looking for the two young ladies, Ji Siqing and Xia Ruoxue."

"In the past few days, hundreds of emperors under our command have almost turned Kunlun Xu and Huaxia several times."

"None of the two ladies were found, and I don't know where they went!"

"The lord should have launched the Heaven-defying Technique, let's find someone!"

Just now, the Hall Master's Qi machine was shocked into the divine realm.

Now Kunlun Xu, there are other gods besides our light palace?

absolutely not!

So, the lord should be looking for people!

In the reincarnation cemetery, the Lord Shen Dan nodded slightly, his eyes filled with satisfaction, "Yes, excellent talent, so proficient in the first use, this level of maturity is almost catching up with me."

"Really?" Forging God's words said: "Ye Chen is now the seventh layer of the Dao Source Realm. Will he be injured if he uses this technique?"

He stroked his chin, and thought: "Your Wanli Tracking Decision, as long as your blood is strong, anyone can track it, but you have to scan the entire world. If you make a mistake in the middle, you will be injured. Even if you find it in the end, it will probably consume A lot of blood, right?"

The forging **** knows that Wanli Tracking Jue is indeed powerful against the sky.

But the same backlash is definitely not small. Ye Chen can only use this situation, because he is the overlord in charge of Kunlun Xu. His breath scans the world. No one dares to resist, and no one has the strength to break him. breath.

But if you change to a powerful place, just come to an old monster, and directly smash the breath, Ye Chen will be hit hard!

"It's okay!"

"Aren't we still here, which old monster dares to move our disciple!"

Chapter 1359: 2 the whereabouts of women

Sovereign Pill disagrees, and then observes Ye Chen's use of tactics.

On the stargazing platform, Ye Chen exploded with blood throughout his body and punched the purple ball.

Huhuhu! !

Huhu! !

The purple sphere burst out with an aftermath, and once again set off many powerful players.

The next moment, the sphere shot out a purple light wave, and when it was close to the sky, it suddenly split into thousands of light waves, and each light wave flew toward each star, quickly turning a star into purple.

It didn't take long for all the stars to be lit, and many stars glowed with a few purple lights each, linking each other with other stars.

Soon, the stars in the sky are connected to each other, looking like a big purple net.

And a breath fell down like a curtain of rain, falling on every place in Huaxia and Kunlun Xu. All the strong men felt a breath of energy sweeping past them, seeming to be wise. Breath, like looking for something.

On the stargazing platform!

Ye Chen stared at the purple orb, and scenes appeared in it, and the scenes changed quickly.

From the land of the Han family, the land of the Huang family, to the City of Thousands of Wonders, Danxu Town, etc., one by one scenes manifested in the purple orb, and he whispered without surprise: "What a powerful technique, looking for scenes everywhere, Every corner is looking for, that is, the place of refining the body and another secret realm that I haven't been to. They are all exploring!"

"No wonder it is called the Wanli Tracking Final!"

"How can it be thousands of miles? As long as I am strong enough, even if people are thousands of miles or hundreds of thousands of miles away, I can track them!"

He is exporting his blood and turning into a purple breath, scanning every place between the sky and the earth.

Gradually, Ye Chen frowned, and said: "No, every scene has been explored twice, and nothing is there."

"Masters, why can't I find their whereabouts?"

"Kunlun Xu and the land of Huaxia, you have searched, obviously not in these two areas!" Lord Shendan's complexion was deep and coldly said: "Ye Chen, the old man is here to show you, the old man wants to see who The woman who dares to touch the old man's apprentice!"

After saying this, Lord Shen Dan made the same behavior as Ye Chen just now.

The difference is that he uses Ye Chen as the medium to finally hit a more powerful force through the purple ball in Ye Chen's palm.

Huhuhu! !

Huhu! !

Suddenly, the world changed color.

The purple sphere burst out with countless dazzling luster, hundreds of millions of light waves flew out, and even communicated with the stars in the deeper, in order to explore the deeper position.

Just now, Ye Chen just hooked and triggered the outermost circle of stars outside of Kunlun Xu and Huaxia, to find Ji Siqing and Xia Ruoxue.

However, when the Lord Shen Dan made his move, he moved several layers of stars in the depths. The number was at least ten times that of Ye Chen. The scope of exploration was even larger, such as the spirit city, locations near the border of the blood spirit race, towns, etc. And so on, I've explored it.

Just as Ye Chen and Lord Shendan were exploring, everyone below was completely at a loss.

Ye Lingtian's eyes widened, looking at Ye Chen who was blooming in purple light on the stargazing platform, he swallowed and said, "Hall Master...Hall Master is the resurrection of Zi Wei Xing? No, Zi Wei Xing is not so strong!"

"With so many purple light waves, I am afraid that if you kill Wei Wucheng, you can die many times in a flash, right?"

"This momentum, it is estimated that it has reached the peak of the gods?"

"Is this looking for people?" He asked in amazement: "Why do I feel like killing someone far away? This aura is too powerful!"

was originally thousands of purple light waves!

It is estimated that every Dao can kill the Saint King Realm, or the people in the Void Return Realm.

But now, there are hundreds of thousands of light waves, each of which has the energy to kill the Void King Realm. How strong is this?

is now that the Lord of the Palace alone challenges all the strong people in Kunlun Xu, it's all right!

Ye Feng, Ye Wudi, Han Yun and other aging stone-level figures are all preparing to break through, and have not yet begun to break through. At this moment, seeing the purple light in the sky, and the source of the purple light is Ye Chen, they are all shocked!

This breath!

Too strong!

is entering the eight or nine layers of the gods, not so powerful, right?

Palace Lord, how powerful is it?

has never been defeated since his practice. No matter how high he is, he has always been invincible, pushing him horizontally. No matter what generation of outstanding talents, even the old antiques and aging stones that survived the ancient times, he is not the opponent of the palace owner!

The stronger the Hallmaster, the more sure we Kunlun Xu will deal with the Blood Spirit Race!

This is a great thing!

Just as everyone was thinking about it, a **** halo burst out in the sky, extinguishing all the purple light.

Ye Chen spurted blood and retreated three steps, shaking his figure, and his eyes were slightly confused, "What's wrong?"

噗!

In the reincarnation cemetery, the Lord Shendan spurted blood and retreated dozens of steps. He was slightly amazed and said: "Ye Chen, don't check it, you can't find it!"

"Master, what was the aperture just now?"

"I feel that the Divine King Realm is not so powerful!" Ye Chen sat cross-legged, healed and asked!

Lord Shen Dan wiped the blood on the corners of his lips and said: "The aperture just now should have been caused by an old monster above the level of the Dao, but it seems that there is no killing intent. Otherwise, you and I will at least be severely injured, even yours. The golden body will burst!"

"But fortunately!"

"That person just cut off my investigation casually, and some aftermath flew over, the natural aperture formed!"

"Old monster?" Ye Chen's expression became cold and said: "Master, do you mean that an old monster has captured Ji Siqing and Xia Ruoxue?"

"It's not necessarily a catch!"

Lord Shen Dan sat on the chair, adjusted his breath for a moment and said: "I feel a little bit, this old guy should be the same level of the guy who defeated us at the beginning, the least good fortune realm, maybe even the star aperture realm! "

"An old monster of this level is not going to catch two women who are in the realm of God."

At this time, Nie Baijian frowned slightly, and said: "I have seen Ji Siqing. He has a high talent. Another Xia Ruoxue should not have a low talent. Maybe it's an old monster who sees them becoming disciples. Take them away!"

"This is the best plan! The worst plan, I am worried that this person took these two people away for what secret!"

Ji Siqing emperor's realm, Xia Ruoxue's realm is even lower.

This kind of female warrior.

For that kind of old monster, his status is never inferior to that of the ancestors. The cultivation base of the good fortune is that the blood spirit race has a large identity and status. There are as many beauties as there are, and it will not be deliberately caught.

Otherwise!

Ji Siqing and Xia Ruoxue must have secrets worthy of his attention.

But if it's a secret, I can't tell the Lord of Hundred Swords, can this old monster be able to see it?

"Accept disciples?"

"Taking away without authorization, this is not an act of accepting disciples!"

Chapter 1360: Lingcheng!

Ye Chen's pupils gradually became cold, no matter who it was, even his woman would dare to move and die!

is the Beigong family, dare to do so, it will be destroyed!

"Master!"

"Have you found some news, where did they go?"

"In addition, you should have been to the Blood Spirit Race in the past? Do you know which old monster it is?" Ye Chen asked eagerly, ignoring the constant calling of his men from outside, and his mind was in the reincarnation cemetery at this moment!

The Lord God Pill frowned, thought for a while, and said: "I will explore again!"

Immediately, he used Ye Chen's body as a medium to perform the Wanli Tracking Decision again, but this time he was extremely careful.

This kind of injury, he doesn't want to take it again.

Ye Chen's mind and thinking are all communicating with the forging **** and Nie Baijian.

Forging God Jun said: "Boy, you don't have to worry, people who can hurt Pharaoh are very powerful!"

"As far as I know, there is at least one ancestor of the Blood Spirit Race in the Good Fortune Realm!"

"The Star Aperture Realm is in the Blood Spirit Race, at least one overlord, and there is absolutely no shortage of beautiful women. Don't worry about this!"

Nie Baijian also said: "Ji Siqing's talent is extremely good, even better than Qingjian, Heiyao, and Ruohan. He will be placed in the blood spirit race and will enter the seven or eight levels of the gods in a few years. If you have good resources, it is not impossible to break into the Divine King Realm!"

"Boy, feel more at ease!"

"Don't worry, let the old man check it out!"

After saying this, Nie Baijian hesitated.

Fortune Realm and Star Aperture Realm, they didn't reach this realm back then, of course they didn't have a long time to cultivate.

In Kunlun Xu, the **** of hundred swords, the **** of pill, and the forging god.

They can all be called ancestors of a school, or even a peerless powerhouse who has climbed the peak, but in the blood spirit race, at most, they can only be regarded as middle-aged warriors, or the young generation. After all, after entering the realm of gods, their lifespan has greatly increased. Hunyuan realm even has one hundred thousand years of life, and Hedao realm has several hundred thousand years of life.

In contrast, it is understandable that the forging gods and their defeat in the battle.

After all, they are only a few thousand years old, and they don't have the top talents, but they are attacked by a group of tens of thousands of years old, even more than one hundred thousand years old.

"Huhuhu!"

"Detected it!" The Lord Shen Dan withdrew his strength, took a long breath, and said: "I know who took them away!"

"Is a veteran female strong, the name is Lingyun Xianzun!"

"This old witch is powerful, but she also left a trace!"

"Lingyun Xianzun?"

"The Immortal Venerable!" Ye Chen's pupils became hot, the Immortal Venerable, the person who can be called the Immortal Venerable, must be an extremely powerful generation!

Whenever a warrior steps into the realm of the gods, he will create his own name and act on his name, and he will also take the name very seriously!

is like Nie Baijian, known as the lord of the hundred swords!

Wang Qiantian, Lord Shendan!

Chen Anping, Forge God!

Blood Qiye, Qiye God!

Anyone who has a title is a giant of one party, so they only use the name of the 'sovereign' and the 'sovereign', but the Lingyun Xianzun dares to be named as the Xianzun, which is really powerful!

What is Xianzun?

The Lord of Ten Thousands of Immortals, above the Ten Thousands of Immortals, a truly worthy power!

Those who dare to rob me of the strong will kill me sooner or later and beat her to kneel to beg for mercy!

The Lord Shendan seemed to see Ye Chen's mind, and said: "This Lingyun Immortal Venerable is an extraterritorial powerhouse who can travel many low- and middle-strength planes, but comes from high-strength planes. , And come from the Spirit Immortal Palace of the Blood Spirit Race!"

"Once, Lingyun Xianzun came to the earth once five thousand years ago!"

He recalled and said: "At that time, this monarch was only in the realm of God, and was fortunate to have met her once, so I remember her breath!"

"Otherwise, I don't know who she is!"

"It's just that the monarch remembers Lingyun Xianzun, who used his benevolence and righteousness, and taught many Kunlun Xu people. Although they were accepted as disciples, at least one tenth of the many monarchs who participated in the war in the ancient wars were inspired by her. ."

"She doesn't seem to be the murderous person or the Beigong family!"

"So, your two little lovers, there should be no problem!"

Lingyun Xianzun should have traveled to the earth.

After all, this old man often travels to various places. It is said that the bottleneck of the realm has not been broken, so it is so.

Besides, in the past, Lingyun Xianzun never harmed Kunlun Xu people, there is no need to let Ye Chen provoke the Lingxian Imperial Palace!

"Lingxian Emperor Palace!"

"Lingyun Immortal Venerable!" Ye Chen clenched his fist and said: "Without saying a word, I took away my person!"

"Blood Spirit Race, Spirit Immortal Palace, I will definitely go!"

"Where did the last breath break?"

"Ling City!" The Lord Shen Dan's eyes flickered, and he sighed: "Unexpectedly, the Ling City, which was a transit city back then, is actually full of warriors from all sides. Ye Chen, if you want to go to the blood spirit clan, you can only walk the spirit. The road to the city!"

He recovered most of his injuries, got up and said:

"And Lingcheng is the most mysterious place in Kunlun Xu."

"The space teleportation array leading to the blood spirit race is in the spirit city!"

"The light wave I explored was in Lingcheng, and I found the last traces of Xia Ruoxue and Ji Siqing, which seemed to have been left a few days ago."

Ye Chen nodded, and said: "Ling City, yes, I will definitely go, taking the Ling City as a transit, I will go to the Blood Spirit Race!"

Spirit City!

is different from the land of body refining, blood spirit secret realm, blood demon mountain, and even the surrounding city and land attached to the Kunlun Void.

is an absolutely closed city.

Ye Chen also knows this place just to enter that place, it is really difficult.

Need to enter the spirit card!

This thing is left by the ancient power.

The entire Kunlun Xu has only three pieces, and the other forces in the small planes near the Kunlun Xu also only have one or two pieces each.

is something to be used as a companion!

After all, Kunlun has a lot of planes and influences.

all want to go to this outer realm to seek opportunities, and even enter the higher planes of the blood spirit race, or other higher planes to practice.

The opportunity to travel to other planes and outer realms is extremely longing for any Tianjiao.

Just look at the people of the Huang Family and Ye Family. As long as you leave the Outland, there are treasures everywhere, high-level exercises and various immortal tools everywhere, as long as you have the strength, you can win the great exercises and wealth.

For improving strength, it is simply a great way to the sky.

However, in order to prevent most geniuses from going to other planes, in ancient times, there were many powerful forces to block the spirit city of the storage space teleportation array, and created some

tokens outside, stipulating a certain time, Only then can someone hold a spirit card and take the space teleportation array to go to other planes.

"Senior!"

"Can there be people with spirit cards in Kunlun?"

"This is very important to me!"

"I must go to Kunlun Xu's Spirit City!"
