

Urban Medical 1601

Chapter 1601: What happened?

News of your own injury must be blocked!

Otherwise, the Soul Palace has suppressed so many forces over the years and will inevitably come to avenge!

The reason why the Soul Palace is able to suppress many forces and even control several medium-sized forces is because the number of deity martial artists and immortal monarchs in the temple are many high-class sects, even comparable to three or five medium-sized ones, but the main force is taken Go, other forces know that the deity is not injured, and still dare not move. If they know, I am afraid the main hall will not be protected!

When the Shenlong family was first recruited, it was almost equivalent to holding a knife on the neck of the soul hall!

Ten Conferred Gods elders and an elder named True God came over in person. The Soul Hall could not refuse, and a large number of masters were transferred away, so that in the past ten years, the Soul Hall's control and penetration of our forces has gradually weakened, causing the North The palace family no longer fears the soul palace!

The sects of Lingwu Continent, regardless of their level, want to suppress their own territory, they must rely on the extremely strong!

If there is no super strong, you need a certain number of top masters!

Like a palace of souls!

During the peak period, ten Conferred Martial Artists, even if they are facing the Ten Thousand Sword Emperor Palace, facing the Lingxian Emperor Palace, they can destroy each other if they want! Even the Hundred Immortals Palace, which has eight or nine Star Aperture Realm's Conferred God Warriors, is not afraid of it!

However, this time the ten Conferred God Warriors, including the Palace Master, were called by the Shenlong Family to leave!

The Soul Palace headquarters now!

If you die, it is equivalent to a small half of the middle sect, and it is even worse. Even if you can notify the palace masters and elders who fend off enemies in the demon realm to come back at a critical moment, it will take time!

When you come back, you can certainly clean up the enemy!

But all the treasures in the headquarters, even the soul sky and the fifty gods of the combined Dao state, I am afraid they have already fallen!

and so!

The news of Huntian's injury, never dared to reveal it, revealing it is seeking death!

"I will understand!"

"Is it necessary to notify Tianbao Pavilion as a witness!"

The most powerful **** asked, he is the great commander of many protectors. He is no less powerful than the strong one in the second layer of the realm of good fortune, and is comparable to the fifth elder of the Beigong family. I also know the importance of this moment!

The enemies of ancient times have appeared!

The five elders suffered heavy losses!

I can't wait to attack. At such a critical moment, even if the lord of the palace wants to come back, it will take a month!

I am afraid that the next month will be the most difficult time for the Soul Palace!

"Notice!"

"Notify Tianbao Pavilion, saying that Ye Chen, this son, covets my soul palace treasures and saints, shamelessly!"

"Attempting to be a flower-picking thief, but the strength is low, the deity is disdainful to do it, and the saint sends an order to reward Ye Chen's life with the soldiers of time and space!" Huntian found a more perfect excuse, and could only silently say sorry to the saint!

Saint!

The fifth daughter of the palace lord, eighteen years old, is now the third heaven of the **** king realm!

In this case, Ye Chen's Divine King Realm's third-tier heaven, it is reasonable to want to be a flower picker!

"Also!"

"You dispatched five law-guards out, pretending to hunt Ye Chen!"

"If you want to kill Ye Chen, I'm afraid you have to make a move in the Good Fortune Realm!" Hun Tian's eyes flashed, and he thought for a while and said: "I will notify the people of the Linghu family to make the move. Then you will cooperate with them. The reward is only superficial, your main force. !"

"Of course, offering a reward will also make some old things tempted!"

"Enough to attract three or five old fellows in the Harmony Realm to kill Ye Chen!"

Can't kill with a reward!

Not necessarily!

Anyway, with both hands prepared, Ye Chen must be killed!

"I'll wait to obey!"

"Yes....."

Immediately, five guardians of the gods of the late Hedao realm stood up and flew towards the distance to rush to the Western Regions to hunt down Ye Chen!

.....

In the Western Regions!

In a giant city under the jurisdiction of the Beigong family, Ye Chen bought an independent yard, arranged a formation around it, and began to count the spoils and select useful items for healing!

He took out dozens of Qiankun rings, slightly regretful, and said: "Unfortunately, there are no palace-like fairy artifacts!"

"If you use it, you don't have to throw all these things into the reincarnation cemetery!"

"Forget it, there are fifty high-grade Qiankun rings, and the middle and low-grade Qiankun rings are about 30,000!"

More than 30,000 rings from the universe!

The warriors in the late emperor realm have the universe ring, and now the universe ring of the seventh rudder of the entire soul race is in his hand!

Ye Chen spent a day picking up his own trophies. I have to say that it is very rich. Even if it is the sum of twenty or thirty inferior sects in the land of heaven and earth, they don't have a deep foundation!

Among the weapons!

There are 80,000 spiritual artifacts and 30,000 fairy artifacts, all of no limit!

Thirty thousand celestial artifacts, most of them belonged to more than ten thousand soul tribe people who were slain by the Azure Sword Immortal Venerable. After those people were killed, their things were stored in the seventh rudder treasure house. , The treasure house was also looted by Ye Chen by the way, and the other immortal artifacts were looted from the martial arts ring in the war!

Ye Chen had seen so many immortal tools for the first time, and it was a great benefit to destroy the faction!

As for the gods and immortals-four thousand three hundred handles!

More than three thousand handles were seized by slaying three thousand warriors of the **** king realm, and the other thousand handles were taken from the treasure house!

Hunyuan fairy artifact, one hundred and ninety handles!

Hedao artifact, seventeen handles, three handles were smashed by lightning and Xiaoyao during the battle!

Space-time soldiers, two handles!

Ye Chen was very excited about such a rich spoils. In fact, if he didn't kill these soul race people with the sky thunder, the harvest would be doubled. The red lightning equivalent to the blow of the sword god, even if it were scattered, would be destroyed. Hundreds of **** artifacts and dozens of Hunyuan artifacts.

"So many weapons!"

"If you use a thousand soldiers to explode, you can destroy the headquarters of a middle-class family!"

"Of course, there are so many Hedao realms that can't be blown up, but under Hedao realm, how many deaths are there!"

Ye Chen calculated the pill, immortal medicine, etc., almost countless, from the emperor level to the co-dao level elixir, and even thousands of bottles of fierce beast essence blood, enough to temper the pill!

In addition, there are some special weapons in this land of soul race!

There are fifteen weapons containing one blow from the immortal, including swords and so on!

"Rich after the first battle!"

"Now ten or so gods of the Affinity Realm come to kill me, and I can explode weapons to death and maimed them!"

Ye Chen couldn't help his tongue. This time he was rich. If he encounters such things as the Soul Race in the future, he can just throw the Divine King Tool to fight.

Even in the He Dao realm, hundreds of divine artifacts are thrown in the past and detonated, they can be destroyed if they are not killed!

In addition, there are two space-time soldiers!

"Apprentice!"

"These corpses, still need to refine war puppets?"

Ice Sword Immortal Venerable's heart was also violently shaken, Ye Chen is now alone, comparable to a martial art!

He looked at the piles of corpses in the Samsara cemetery and then looked at the refining materials all over the floor, the refining of war puppets was definitely not bad.

"Definitely refine the war puppet!"

"I'll do it..." Ye Chen calculated it carefully and entered the corpse of the gods. No, the Azure Sword Xianzun killed the soul clan and entered the gods. About 1,500 in the Divine King Realm, about 70 in the Hunyuan Realm, and 4 in the Hedao Realm!

"A few masters!"

"Help me refine the war puppets, three gods and buddha masters, the Buddhist school should also have a method to refine the war puppets, right?"

"When the refining of these battle puppets is completed, I will be promoted to the Hunyuan realm, the blood spirit race, I will be destroyed!"

"It's just that Ji Lin hasn't woken up yet, and I don't know how this girl came up from Kunlun Xu, and why he was so badly injured."

"Before this, what happened?"

Chapter 1602: Boldness!

Ye Chen glanced at Ji Lin who was still in a coma at the reincarnation cemetery.

His complexion became ruddy a lot.

Although the soul poison had been resolved, it was obviously not that quick to wake up.

The only thing Ye Chen can do right now is to wait carefully.

He must think of the way to go.

Lingxian Imperial Palace, Blood Spirit Race, Soul Palace, these are all troubles.

Fortunately, this time the seventh sub-rudder of the Hall of Exterminating Souls, the gain is comparable to the combination of the Beigong family's extermination of twenty or thirty inferior sects, even if some of the background of the minor sects of the Western Region of the Lingwu Continent, I am afraid Not much better than him!

This time!

Shengzai has obtained a large number of divine king artifacts and Hunyuan fairy artifacts!

And many corpses that can refine war puppets, if there is a war in the future, Ye Chen can be used as a sect alone!

"Masters, please help!"

"He Dao artifacts and space-time weapons, all masters can choose and use by themselves!"

"However, if there is a dangerous moment, I will use some artifacts and space-time weapons to kill the enemy!"

This is the strongest force Ye Chen can burst out at the moment.

Thousands of soldiers exploded so powerful as to hang on.

As long as there are enough weapons, it can be a blow to destroy the world!

Of course, if the master needs these weapons, Ye Chen will naturally give them without hesitation!

He knew very well that without a few masters, it would be impossible for him to get out of the land of the soul race alive!

Even more unable to fight the Heaven and Earth Soul Dragon!

"Disciple, these weapons are all yours, you can lend us to use, we are already very happy!"

Xiaoyao Shenjun and Medicine Master Buddha spoke one after another, staring at Ye Chen, with great approval in their eyes!

The **** of nine dances smiled apologetically and said: "I think back then, a Hedao artifact! We all have to spend decades to get it, especially Chen Anping, a **** who refining Hedao artifacts is almost mass-produced and sold to When we were, we were asking prices!"

"We have to come to Lingwu Continent to earn immortal medicine weapons to exchange for him!"

"Unexpectedly, your method of acquiring weapons is very fast and very effective!"

Can it be effective?

The entire soul clan was destroyed.

Could the things in the sub-rudder belong to Ye Chen?

Changing to the three big gods and three big gods and Buddhas, I really don't have the courage to do it, even if the strength allows, the courage is not allowed!

Ye Chen!

I am afraid that Kunlun Xu has been the one who can earn the most magical artifacts and space-time soldiers within thousands of years!

"More than effective!"

"I want to... hey..."

Divine Lord Zhu Mie covered his face and sighed. He couldn't help shaking his head. He looked at the east, his eyes swept across the tombstones, and sighed: "Looking back at the ancient times, this monarch has advanced to the peak of the Ninth Heaven of Good Fortune Realm. He wants to find a soldier of time and space. For breakthrough!"

"It took two thousand years, but after all, it was not!"

"Chen Anping can't refine the soldiers of time and space, otherwise, I waited for Kunlun Xu to have already produced a dozen immortals of good fortune, how can the blood spirit race be rampant!"

Think about it!

Want to get the soldiers of time and space!

There are only two ways. The first one to join the big family and the big sect, become a pawn, spend thousands of years accumulating meritorious merits, and be extremely loyal to that force, and then it is possible to be rewarded by the soldiers of time and space for breakthroughs, but usually Don't even think about it in ten thousand years!

Furthermore, the power of the Hedao Realm Divine Sovereign Martial Artist that can be recruited by the soldiers of time and space may also have to be a superior sect and a superior family!

The second way!

Going to fight in some Jedi and Jedi, you may have a chance to get the soldiers of time and space, but there is a more than 70% chance of falling in that Jedi!

As for robbing others!

Which immortal in Lingwu Continent has no school? To **** people's space-time soldiers is undoubtedly tantamount to looking for death!

Generally, those who know the rules of Lingwu mainland a little bit will not use this simple and rude method.

Of course, except for Ye Chen.

Ever since, it took two thousand years for the Lord of Death to gather materials worth half of the first-rank time and space soldiers, and he was about to continue to serve some high-end sects in the Eastern Region. He was suddenly notified that Kunlun Xu was attacked. This hurriedly rushed. go back!

But I didn't expect the powerhouse sent by the blood spirit tribe to be so terrifying!

World War I, bloody.

In the end it was suppressed!

After all, the gap between Kunlun Xu and Lingwu mainland is too big!

Two thousand years!

Only got half of the space-time soldiers!

But Ye Chen!

It's only been a month since it came up, the soldier of time and space, two handles!

Hedao artifact, seventeen handles!

There are more than 100 Hunyuan Immortal artifacts, and thousands of Divine King artifacts. With this ability, this effect, there has never been such a powerful person in Kunlun Xu's history!

It's no wonder that the three gods have no face to face Ye Chen, the disciple is too powerful, and the master can't hold his face!

On the contrary, the three gods and Buddhas, although a little embarrassed, but not to the point of shame, honestly provoked the Hedao artifact!

In the end, Medicine Master Buddha chose a four-rank amalgamation artifact, and there is Taoism Buddha light on the long sword! It's suitable.

The Moonlight Buddha and the Sunlight Buddha are both selected three-rank combined Taoist artifacts. The weapons used by the soul clan Qingpao gods, with one sword and one sword, are receiving the cultivation of the Ice Sword Immortal Venerable's transmission technique. They used to be cultivators of Buddhism, and the number of martial arts methods used was to drop the magic pestle, vajra pestle, Zen rod, robes, etc. They still couldn't adapt to the sword and the sword, and there was no corresponding practice!

"Ahem, disciple!"

"I look good on this sword. I will use it first. When you need it, I will pay you back immediately!" Xiaoyao Shenjun took an eighth-grade Hedao artifact long sword from the ground with shame, and muttered while adapting. Said: "The power is not much worse than my Xiaoyao sword!"

"Master of the tomb..."

"As for me, just use ribbons..."

The **** of nine dances was a little embarrassed to get a ribbon, which is also a seven-rank combination of Taoism artifact. It seems to be a weapon used by a goddess of the soul race. It was stored in the treasure house by the soul of death. !

"no problem, no problem!"

"Masters you can take it yourself!" Ye Chen said with a smile, a little bold and priceless, let him be placed on the ground like selling cabbage, letting a few teachers Choose yourself!

This is called spirit!

This is called pride!

Ice Sword Immortal Venerable saw that six gods and gods were choosing weapons and adapting to new weapons and techniques. He couldn't help sighing, "Son of Destiny! The weapons here are already more than eighty adults in the Lingwu Continent. , You can't make a profit after a lifetime!"

"Unexpectedly... I was also shocked today!"

"This space-time soldier is not bad..." Frost Sword Immortal held his five fingers, and a short sword-type space-time soldier appeared in his hand, slightly surprised, and a little sighed, he was also the elder of the Ten Thousand Sword Emperor Palace anyway!

What a scene I have never seen before.

But today I saw that Ye Chen, who was in the Divine King Realm, had control of so many resources that could not be controlled by the Hunyuan Realm powerhouse, and the shock in his heart could not be dissipated for a long time.

Chapter 1603: Relic!

That's it, that's it!

Help your disciples refine the war puppets!

There is just a weapon in hand!

Just as the Ice Sword Immortal Venerable mastered the space-time soldiers, he suddenly noticed something and his face changed slightly.

Even his body became more indifferent, he shook his head helplessly, and sighed, "Disciple, I'm afraid my time is running out..."

"It's time to come."

Ice Sword Immortal Venerable feels that his own divine mind body has begun to weaken, even if it is the divine mind body of a martial artist of the immortal venerable level, it is still strong and weak, and it cannot guarantee that it will remain in the reincarnation cemetery for a long time, let alone take the initiative. Absorb external forces to supplement!

Spiritual body, absorbing external forces to supplement?

I am afraid that it can only be achieved by the divine consciousness body of the saints of the too virtual realm. At least in the inheritance records of Lingwu Continent, there is almost no such divine consciousness body, because it is too powerful and too sky-defying!

Ye Chen also discovered the change of Frost Sword Immortal Venerable.

His expression was a little dim.

Among the many masters in Kunlun Xu, the ones that have the deepest influence on Ye Chen are the Slaughter Daojun and Lin Qingxuan.

And in Lingwu Continent, the person who had the deepest influence on Ye Chen was the Ice Sword Immortal.

He knew that Bingjian Immortal would leave eventually.

I didn't expect it to be so fast!

"Master!"

"How much time?"

Ye Chen asked calmly, he also knew that Bingjian Immortal Venerable was not dead, it was just the divine mind body dissipating!

So far, he has sent away more than a dozen divine mind bodies. Sadness is hard to exist. On the contrary, he feels that he should work harder to improve his strength and save all the masters who have helped him. When the time comes, he will have time to get along without being stuck. Between one day and one month!

"I don't know, it should be a month or two at the latest!"

"Of course, all of this is without using any strength to help you!"

The Ice Sword Immortal paused for a moment, and said: "Originally, when I was resisting the bombardment of the sky thunder, this spirit body would disappear! However, the tomb owner you killed

the heaven and earth soul dragon and absorbed a lot of power. , Resulting in nourishment in the reincarnation cemetery!"

"I can last a while!"

"Of course, even if it dissipates, I am relieved!"

"After all, having them accompany you is just like what Nie Baijian said to me when his spiritual mind disappeared. Each of our spiritual minds will come out to accompany the tomb owner for a while, and wait until our path is gone. When it's over, our duties are over!"

"leftover!"

"Just waiting for you to save us!"

He paced in the reincarnation cemetery, staring at the six great gods, gods and buddhas, especially the three big gods, like pioneers, and said with a little profound meaning: "Actually, my mind body was originally called by you. At that time, I also thought, why should I help you?"

"Of course, your talent, your talents are part of the reason why I help you!"

"I cherish talent, and you are a peerless genius. Even in the outside world, or in other places, even if my true body has really fallen, I will pity you when I see a genius like you. In addition, you have a decent character. I will also pass on my Taoism to you!"

"However, not all reasons and support!"

The Ice Sword Immortal exhaled and said meaningfully: "On the contrary, I feel that this is more like an opportunity, and even an opportunity!"

He spread his hands and gestured to the six great gods, gods and buddhas, and said: "Our true body may have fallen or been imprisoned, but after our spiritual body has recovered from you and helped you, you must be grateful to us and help you. Our true body!"

"For us, the help of a spirit body can be exchanged for the relief of the true body!"

"This is a worthwhile sale!"

"Of course, the biggest reason and reason why I help you is not this, but, it has been more than a month since I saw you. What you have done these days makes me believe that you can achieve what I could not achieve. High, and we will definitely do our best to help you and protect you!"

With a mind body!

In exchange for real relief!

Is it worth it?

It's too cost-effective. Without this opportunity, God knows how long their real bodies will be trapped?

a thousand years? One hundred thousand years? Still a million years?

Their longevity is endless, maybe they will be trapped to the end of time, maybe because they have been trapped for too long, their minds will collapse, and they will be automatically resolved!

The reincarnation cemetery is an opportunity, a great opportunity, and the only opportunity for the real body to get out of trouble!

At least, for now!

Therefore, this deal is worthwhile, and besides, there are many talented disciples. In the eyes of Bingjian Immortal Venerable, Ye Chen is the most likely existence to become the overlord of Lingwu Continent for thousands of years!

"That's true!"

"Without the reincarnation cemetery, without Ye Chen, we are still gone!"

"No, it's dead!" The three gods and Buddha looked at each other, and they all nodded. At this moment, the Buddha's light is overflowing, and it looks more peaceful and sacred!

Suddenly!

In the bodies of the three gods and Buddhas, a relic of gleaming colorful holy light emerged from all kinds, which is the essence of their cultivation!

The original weapon body has been completely smelted into a physical body, and in addition to being promoted to the Hedao realm, relics will naturally be produced!

"The tomb owner!"

"These three relics are our origin!"

"The relics are here, we are!" The Medicine Master Buddha held three relics in both hands, handed them to Ye Chen, and said cautiously: "From now on, you will be our presiding officer. Please also ask the abbot to keep our relics. One day we become demons, or betray the owner of the tomb!"

"Please also ask the tomb owner to directly destroy our relics!"

"By then, we will disappear between heaven and earth, and there will be no possibility of rebirth!"

This move!

It is tantamount to pinning all the safety of oneself on Ye Chen's body!

It also expresses allegiance to Ye Chen, respect and trust to Ye Chen!

Relic!

The root of the Buddhist gods and Buddhas is the treasure of heaven. After being absorbed, the skill will increase greatly, but that **** and Buddha will die!

Similarly, if you don't absorb it and squeeze it directly, if the **** or Buddha is not dead, it will also burst and die!

"it is good!"

"I have the right to help the three keep the relics!"

"As long as the relics are at three masters, three gods and Buddhas, don't worry!" Ye Chen solemnly received the relics. As long as the relics are still there, even if the three gods and Buddhas died in battle, There is still a glimmer of hope of resurrection!

Keep the relics by yourself!

Even if one day encounters an overwhelming enemy, three masters fall!

After Ye Chen escaped, he could also use the power of the relic to resurrect the divine mind body in it, and build his body, just like before, resurrecting the three gods and Buddhas!

"it is good!"

"I will definitely be loyal to the host!"

"I will obey the orders of the presiding officer!"

The three gods and Buddhas united their hands together, bowed their heads slightly, their eyes filled with respect!

Chapter 1604: Torture!

The three gods looked at this scene with complex and thoughtful eyes. Although they felt the emotions of Bingjian Xianzun and others, they still remained silent because they didn't know Ye Chen for a long time and didn't have much feeling!

"All right!"

"Master Ice Sword, don't worry, it doesn't take a year or two!"

"I must rescue your real body!" Ye Chen gestured with a fist, and immediately came to Ji Lin's body, staring at Ji Lin who was wrapped in the light group in mid-air, feeling a little, and saying, "I still need it. Six days!"

"Ji Lin, this girl, came to Lingwu Continent and didn't notify me!"

"You have suffered a lot..."

"When I am strong, I will avenge her by destroying the Soul Palace!"

"There are also girls outside who are in the same situation as Ji Lin, and it's time to get them out of torture."

You know, the ten girls, including Ji Lin, are all like the daughters of Tianjiao!

As long as they are allowed to grow and cultivate, they will be in the He Dao state for a hundred years. If Ye Chen's help, if they are promoted to the Good Fortune State in ten years' time, it will be impossible. Anyway, it was Ye Chen who rescued them. Ye Chen!

By then, as Ji Lin's bodyguard, it has never been impossible!

Ye Chen meditated cross-legged in the reincarnation cemetery to heal his injuries. After the seven masters adapted to the weapon, they all began to help Ye Chen build the battle puppet!

One thousand and five hundred battle puppets in the kingdom of God!

Seventy Hunyuan realm war puppets!

The four battle puppets in the combined Dao state are not a small number, and it takes a certain amount of time to refine. In five or six days, the seven people made all-out efforts, and at most they could only refine three to five hundred divine king stage battle puppets, but the victory was because of the large number of corpses, which could be tempered all the time, as Ye Chen's trump card!

Just when Ye Chen was healing!

While the great powers in the reincarnation cemetery are refining the war puppets, the situation in the north is completely different in the distance!

...

Northern Territory!

Within the Sacred Dragon Family, an extremely vast plain stands tall and unattainable palaces!

In one of the black palaces, an iron chain made of Hunyuan red gold and iron locks a young girl. The girl is wearing a fire-red robe, with a faint fire dragon air floating out, but she is being confused. Yuan Chijin's chain is locked and can't move!

The young girl was covered in scars, her complexion was haggard, and her lips were chapped, as if she had never drunk water or eaten for decades!

But the guards standing outside knew at a glance that she had consumed her spiritual power, her source was damaged and severely injured, and she was half-dead, but with her tyrannical blood and body, she couldn't die anyway!

And this young girl!

It was Ye Luoer!

"Eh, Dragon Four!"

"Why is this little girl in there so received the 'care' of the Patriarch?"

"Look at the breath, look indifferent, it seems that it is also our clansman..." a Huobao scarfaced guard said slowly, staring at Ye Luoer in the palace with a look of surprise and a sigh at the same time!

"I don't know..."

"However, it is probably her parents and mother who offended the Patriarch!"

"Otherwise, the Patriarch would use the seventh-level ban to send the thirty-eighth elder back and personally press her in our Black Iron Profound Palace?" Another tall and thin guard said coldly, "Our guards In the Black Iron Profound Palace, all generations of people who have been sentenced to death have stayed there!"

Black Iron Profound Palace!

The people detained in the past dynasties are all tribesmen who were sentenced to death by the head of the family or the elders!

As a result, the two guards guarding them are both gods of the same Dao state, so they can prevent the prisoners from escaping!

"A clansman in the emperor state!"

"We actually arranged our two gods, and there were even more than a dozen guards to guard her in shifts!"

"She really has the face!" The Scarfaced guard snorted coldly, leaning on the outer wall of the palace, looking at the group of soldiers coming across from the distance, and asked with a smile: "Ah, today's people are here, today is still Old rules, draw her a hundred whips?"

"Correct!"

A guard at the peak of the Ninth Level of the Hunyuan Realm nodded slightly, and took the black dragon whip in his hand. The whip made of black dragon tendons is an undead person, but every whip can make people feel painful. Bone marrow, even in the depths of the soul, this kind of pain, once suffered, will never be forgotten in a lifetime!

He took a long breath, looked at Ye Luoer inside through the window, and said: "This dead girl, I don't know how to offend the Patriarch. A hundred black dragon whips every day, but the next day, he will be healed. , It's weird..."

"This healing power!"

"There should only be people with the main line!"

"Shhh!" a guard on the side whispered: "Captain, silence, it was heard by the elders, but it's not good!"

"That's true!" The captain of the guard shrugged and looked at the pitiful Ye Luoer. He couldn't help pursing his lips, and said with a lewd smile: "It's also a pity, this little girl should be a place, if it's like normal The death row prisoner is fine, let us brothers play slowly..."

"such a pity!"

"The elder ordered not to touch her...or else, I will treat her every day..."

boom! ! !

A flying sword suddenly flew!

I directly penetrated the guardian captain, and quickly ignited blue fireworks at the wound, which quickly burned him to ashes!

A middle-aged elder in a blue robe in the sky slowly descended, looking at the guards with horrified eyes, and said: "You shouldn't think about it, you shouldn't do it, it's better not to say, sometimes the death penalty is self-inflicted!"

He pointed to Ye Luoer in the palace, and said: "This elder tells you that this is the person the family wants you to look forward to. It is not allowed to be exposed, let alone hit her body. If her Yin Yuan is gone, Patriarch Destroy your whole family!"

"Even the Nine Clan will be finished!"

"Anyway, you are just sideline humble people. It doesn't matter how many deaths you have!"

The cold words are full of murderous aura!

The guards were so scared that they all knelt on their knees and screamed, "Elder!"

"We dare not We must be honest!"

"We absolutely dare not have any greed for this girl!"

"We were wrong..."

"We shouldn't..."

...

"get out!"

The thirty-eight elders waved them into the air, and then walked alone into the Black Iron Profound Palace, staring at Ye Luoer, he was a little relieved, and said: "Luo Er? Long Luo Er, you are also the lord anyway. Family, you should know what is the situation now, what is your situation, and you should be clear!"

"Your blood!"

"Of course it was given by the former Patriarch and the three princesses of Baixian Palace!"

"But they have fallen. Your only chance now is to serve the Patriarch obediently and surrender your Yin Yuan. I believe that the combination of your bloodline and Patriarch's bloodline will improve the Patriarch's bloodline and you can also earn one. As a concubine, why suffer here!"

Chapter 1605: wake

"Get off, old stuff!" Ye Luoer shouted with all the strength of her body: "You old stuff, and that Long Hongtian, he is a beast!"

Snapped! !

Elder Thirty-eight slapped Ye Luoer's face and said: "Pay attention to your words! Patriarch is your uncle. It is your glory to wait for you to sleep and sleep with you. If not, Force yourself, how can you still be alive!"

With a cold expression on his face, he held the black dragon whip, stared at Ye Luoer, and said: "A hundred whip a day, it is absolutely uncomfortable. With your blood, you can recover on your own, but why bother to suffer from this pain? I don't know how many goddesses and princesses have climbed onto the bed of the master. You girl, if you don't know how to seize the opportunity, you should fight!"

The black dragon whip quickly fell, and the whip shadow automatically formed a black dragon, flying out, and began to eat Ye Luoer's body!

The one-foot-sized black dragon was as swift as a spirit snake. Soon Ye Luoer was wounded all over his body again, blood was everywhere, and the pain was so painful that he almost lost his feeling, and even had no strength to look at Elder 38 again!

However, if you observe carefully, Ye Luoer's injury is recovering bit by bit.

This is the horror of her blood!

"You girl..."

"I don't know how to live or die, and I don't know how to seize the opportunity. You don't want the opportunity to become a phoenix when you fly on a branch, and you dare to refuse!"

"It's a jerk!"

Elder Thirty-eight was tired and sat on a chair to rest. With his cultivation at the pinnacle of good fortune, he personally twitched the black dragon pump and fainted Ye Luoer several times. After the break, he said, "I warn you. , One year later, the Patriarch will come back again!"

"You better think about it as soon as possible!"

"This caning, the sooner you agree, the less easy it will be!"

"Even if you agree right away, immediately I will respectfully untie the Hunyuan Red Gold Chain for you, then take you out as the concubine of the Patriarch, and personally bow and apologize to you, but if you still don't repent within a year, don't Blame Patriarch will kill you when he comes back!"

Elder Thirty-eight was also full of anger, just finished playing Ye Luoer!

Ye Luoer was wounded all over his body, but it didn't take long before the blood in his body was stimulated, and the blood flowed out. The injuries he suffered were healed extremely quickly, and even less than half an hour, it had been healed for most!

This scene made the thirty-eight elders extremely envious!

This is the bloodline ability unique to the main line clan!

Even if the physical body is called two stages, it can recover instantly!

Long Luoer, no, Ye Luoer!

If it were not for a low level, the black dragon whipped her body, I am afraid that it had just fallen in the first second, and the injury would have healed in the next second!

"I tell you!"

"You recover quickly, it's okay!"

"I will beat you a hundred whips every day. It doesn't matter if your body is impassable. I see how long your mind and soul can withstand!" Elder Thirty-eight threw his hand directly out of the Black Iron Profound Palace!

Ye Luoer gasped and stared at the thirty-eight elders who left, gritted his teeth and said, "Vision!"

"You bastards, these shameless people, still call my people!"

"What kind of top big family are you!"

"Big Brother Ye will definitely come to save me!" She expended great effort to lean her body against the wall, relying on the power of the blood in her body to heal her injuries as much as possible, but the pain in her mind was caused by the black dragon whip which made it impossible to disappear. Make her hate the Holy Dragon family even more!

She muttered to herself: "I believe Big Brother Ye!"

"Big Brother Ye will definitely come to save me!"

"As for you, it won't be long before you all die in the hands of Big Brother Ye..."

"Big Brother Ye... I miss you so much..."

"leaf....."

Gradually, Ye Luoer fell asleep, and almost every day she fell asleep—being beaten—and then fell asleep again and again!

Think about it half a month ago!

The Patriarch of the Northern Territory Linghu family personally dispatched, and it took a great deal of effort to capture Ye Luoer back! Of course, the Linghu family of the Northern Territory and the Linghu family of the Western Region are not the same, just the same name!

Long Hongtian stayed in the family and waited. He heard the news that Ye Luoer had been captured. Regardless of the situation in the Demon Realm, he personally interrogated Ye Luoer and determined that Ye Luoer's blood was between the first-class bloodline and the second-stream bloodline. The top bloodline between!

The power of this bloodline is extremely special!

Ye Luoer can use these bloodlines to cultivate to the semi-sacred realm, which is the peak of the Ninth Heaven in the Sealed Door Realm, which is comparable to the oldest ancestor of the three top families!

At the same time, the power of this bloodline can also be over-given to the opposite **** by having fun with the opposite sex!

Especially Long Hongtian, his body is a second-rate bloodline. If he can live with Ye Luoer, he is very likely to have a first-class bloodline, but Ye Luoer's blood is too weird, and he needs Ye Luoer to live with fish and water. Self-help consent, if it is held forcibly, it will cause blood pressure, and then you will get nothing!

Long Hongtian persuaded Ye Luoer to serve him!

Unexpectedly, Ye Luoer was unwilling to learn that his parents had died in Long Hongtian's hands!

Entangled for more than two days!

In the Demon Realm, a large group of beasts attacked the residence of the Holy Dragon family, so that the thirteen elders of the immortal and the three elders of the conferred gods fell!

Long Hongtian had to rush back to take control of the overall situation and dispatch his martial artists to counterattack. At the same time, he was trapped in the predicament of fighting with the fierce beasts and monsters of the demon realm. Not a year or a half would not be able to return!

Therefore, before leaving, he explained that the confidants who were still in the clan, the thirty-eighth elder of the inner door, the ninth-level heaven of good fortune, personally imprisoned Ye Luoer, and tortured Ye Luoer all the time, forcing Ye Luoer agree!

Of course, the evil beasts of the Demon Territory attacked the residence of the Holy Dragon family, and the Taishang elders also made their own moves. Almost all of the Taishang elders were composed of the sealed door realm powers of the titled true gods. Power is not in the clan!

Otherwise, the supreme elder who supported Ye Luoer's father as the head of the family, how could he watch Ye Luoer's torture and say nothing!

Not for not helping!

It's not that it's not saved!

I don't know!

The huge sacred dragon family all the attention is in the Demon Realm. The elders above the Immortal Venerable prepare for battle. Who cares about the small actions of Long Hongtian in private? Who will take care of a marginal elder? Elder Thirty-eight, the numbers are all so far, who cares about him!

Ever since!

Elder Thirty-eight actually ordered people to torture Ye Luoer, and almost no one knew the situation!

...

In the Western Regions, five or six days have passed!

The seven great powers helped refine the battle puppets, and finally refined five hundred **** king stage battle puppets, and the other battle puppets are still working overtime to refine!

Ye Chen also woke up from his wounds, and went into seclusion for several days. He finally recovered more than half of his injuries, and his body was also repaired by 90%!

During this period, the other nine girls were all recovered by him.

Because in the world, only he can save these people.

Chapter 1606: Congenital poison!

He looked at the ten light clusters in mid-air. The brilliance became weaker and weaker, but the girls among them were filled with immortal energy and a touch of aura. It seemed that the soul poison in their bodies had disappeared ninety-nine percent and they were using ten thousand The residual power of Nian Soul Dragon Grass heals!

Two hours passed!

A light group collapsed, and a bright and clear girl landed slowly, looked at Ye Chen in surprise, at the reincarnation cemetery, and asked: "This big brother, who are you?"

"Me? Why are you here?"

"I, why can't I remember?"

The girl looked very cute, about the size of Ji Lin like a porcelain doll!

Ye Chen smiled slightly. He erased the girls' memories of being imprisoned by the Soul Race. It was a painful memory, so it's better not to keep it!

Ten girls, including Ji Lin, must have suffered extremely severe torture when they were in the Soul Race!

In order to prevent them from having a heart demon in the future, Ye Chen learned the technique of erasing memories from the Golden Light Buddha, and erased all ten of them in the soul race memory!

"My name is Ye Chen! You can also call me Big Brother Ye."

Ye Chen smiled and said slowly: "Before, you were captured by the soul race, and I saved you!"

"Thank you Big Brother Ye!" The girl nodded very obediently, and immediately bowed to Ye Chen with a fist in a very decent manner. It seems that she should come from the declining martial arts family. The ten-year-old girl actually has the cultivation base of the three levels of heaven. !

Not weak anymore!

"What's your name?" Ye Chen asked, watching Ji Lin and the other eight girls at the same time.

"my name....."

"My family has fallen, and my parents have been killed. As for my name, don't mention it..." The girl was very mature and continued: "Since I was saved by Big Brother Ye, I have to follow Big Brother Ye and ask seniors to give me a name. !"

Ye Chen smiled slightly, stroked his forehead, and thought: "Since you want me to give a name, I think you are very smart, so let's call it Lingshui. Later, your other nine sisters are all treated for their injuries and are willing to go home. Yes, I will let someone **** you back!"

"If you don't want to, you can follow me!"

Ten years old, into the third heaven of God!

By the time they are fifteen or sixteen years old, they will be at least the second and third layers of the God King Realm, and they will have a complete five-bleed bloodline!

In terms of talent and blood, it is not inferior to Beigong Ziyu!

It's just that the birth is not so good, and the luck is not good, otherwise it won't be reduced to the point where the soul race is caught as a sacrifice!

Soon, the other eight girls fell from the light group, as if reborn, they all looked at Ye Chen curiously, and Ling Shui answered them one by one, but they were born extremely hard.

Or the daughter of a ruined family!

Either the family was destroyed by the enemy and left on the streets!

Either he was confiscated by the family, turned into a slave, and then captured by the soul clan, almost no home!

Ye Chen stayed them and gave them a new name, using the surname "Ling" and the name of the nine characters "Jinmu, water, fire, earth, heaven and earth, wind and thunder". There are nine girls, half of which belong to the eighty or nine layers of the emperor realm, and half are entering the three levels of the gods, all have a complete bloodline of more than six streams, they are all rare geniuses!

At this moment, three phantoms floated out.

"Ahem!"

"Disciple, although these are your subordinates!"

"However, they are extremely talented, so let us accept one or two disciples and be a successor too!"
Xiaoyao Shenjun said slowly!

The other two gods also thought the same way. First, the nine girls are extremely talented, and they are almost absolutely top in Kunlun Xu. They are also at the upper level in the Lingwu Continent. They are taught by the three gods, and they will be combined within a hundred years. Dao, blood and talent are much better than the three gods!

Besides!

Although Ye Chen is their disciple, they are after all a common disciple. Everyone teaches together and can't show their respective teaching standards!

Therefore, the three great gods all have the idea of accepting nine girls as disciples, and by the way they compete with their respective teaching standards!

The nine girls who are mainly Lingshui looked at the phantom of the three great gods with some timidity, and hesitated for a while!

"do not worry!"

"Go, all three of them are good people!"

"Find the master you like so that you can cultivate!"

Ye Chen asked the nine girls to go to the three great gods, but he stared at the light group that wrapped Ji Lin. He couldn't help frowning, thinking: "What's the matter? There are not many soul poisons in Ji Lin, so it is. Haven't awakened now?"

Ji Lin, the least soul poison!

He was also the first person to take Ten Thousand Years Soul Dragon Herb!

How could it be that I haven't regained consciousness up to now, but instead a bunch of toxins have been produced outside the light group?

"toxin!"

"This kind of poison seems to be a congenital poison!"

"Something's wrong, when did Ji Lin get the congenital poison?"

Ye Chen was puzzled. He couldn't help but directly took the light group down, placed it on the ground, and explored it with the power of the soul. The result was shocked. Ji Lin's body was actually covered with innate poison!

What is innate poison?

It is an extremely poisonous toxin, and even the innate poison of the Divine King Realm, which can poison the Hunyuan Realm Venerable and the weak Hedao Realm Divine Sovereign!

Ji Lin was poisoned by innate?

"what happened!"

"My power can't get in!"

"It's the congenital poison, but it doesn't erode Ji Lin's body, but is nourishing Ji Lin's body?"

Ye Chen was a little puzzled. This situation, logically speaking, was either being attacked by a beast that is good at toxins and caught by a beast of toxins. The human body was poisoned, and he did not die immediately and was not immediately corroded by the toxins. On the contrary, the toxins were nourishing the human body. !

Are you accumulating for the devouring of beasts?

When did the fierce beast start?

Why didn't I find out?

"Hahaha!"

"Tomb owner, don't worry!"

"This is a good thing!" Ice Sword Immortal Venerable walked slowly, his arm lightly dropped on Ji Lin's neck, and three venomous meridians appeared on the back of his neck, and he also showed a gentle smile. He said: "It's not poisoning, Ji Lin, this kid, it's because the blood is stimulated!"

"Huge poisonous blood?" Ye Chen was taken aback, and asked, "Are there poisonous blood?"

"It's not a poisonous bloodline, but her bloodline and body contain the power of the ancestors. She suffered the impact of soul poison before, and some of the power has to be released, but it is blocked by the soul poison!"

Bingjian Xianzun slowly explained: "Now that the soul poison has been removed, that power is naturally surging out!"

He looked at the skinny Ji Lin, took a long breath, and said, "If I read it right, this should be a congenital poison. That is to say, it is difficult for others to obtain, and has even disappeared for thousands of years and tens of thousands of years. Poison She can call it at will!"

"Other people's innate poisons are made from thousands of toxins, including soul poison!"

"But Ji Lin's innate poison is equivalent to blood, and it is inexhaustible!"

"Besides, Ji Lin has awakened the innate poison body, and since then, the poison will not invade. If he cooperates with a poison skill to become a generation of innate poison masters, he will be an innate evil **** and innate poison god, it is not impossible!"

Congenital poison!

Congenital poison!

This is probably the most coveted divine body for practicing poison in Lingwu Continent!

With this divine body, all poisons in the world are not afraid, and it can even cross one big realm to poison the enemy, and cross two big realms to poison the enemy into serious injuries. This kind of power against the sky is really rare!

"but!"

"Her body is undergoing a qualitative change, and while awakening, there seems to be a little problem!"
Bingjian Immortal Venerable frowned slightly.

Chapter 1607: 0 Poison Lord

Congenital poison!

Ye Chen was slightly startled when he heard the words of Bingjian Immortal Venerable.

In his memory, Ji Lin was just an eccentric little girl, how could it be related to this rare physique on the Lingwu continent.

However, on second thought, Ji Lin's sister Ji Siqing was favored by Lingyun and forcibly accepted as an apprentice, isn't it because of Ji Siqing's talent and blood.

The elder sister is so terrible, she is not weak as her biological sister.

Ye Chen couldn't help feeling that the Kunlun Xuji family was probably not an ordinary family in the ancient times.

From the meaning of Bingjian Xianzun!

Ji Lin's physique is enough to shake the five regions of Lingwu Continent, among which dozens or hundreds of poison refining gates will come to seek Ji Lin as a disciple!

Why?

Because Ji Lin is a congenital poison!

She can refine the poison that others can't refine, as long as a little bit of the innate poison in her body is used, and the poison is ten times stronger and more fierce, more than a hundred times!

Ji Lin is not afraid of the poison that others fear!

There are some powerful strange poisons and the poison of the soul, even a master of refining poison, the gods do not dare to touch them!

But Ji Lin is not afraid, innate body, not afraid of any poison in the world, even the body is the source of poison, meaning it is the source of all poisons, the true source of poison, and the power of poison has unique capital!

"This little girl turned out to be a congenital poison!"

"The congenital poison, not to mention the congenital poison, is the slightly inferior acquired poison, it is extremely violent!" The Lord Zhu Mie found something wrong, as if thinking of something, his eyes flickered and said: "In the past years, I worked in the Phoenix family, and I also led a pair of venerables to the Raksha Sea on the seaside of the stars to find the Kunlun sacred tree to refine the combined Taoist artifact!"

"Look at that time!"

"Lakshahai was born because of the semi-holy demon holy secret realm, which attracted thousands of sages and thousands of gods to gather!"

"It just so happened that I ran into a **** who was good at poison art. He used one person's power to fight against a hundred gods. When the acquired poison in his hand bloomed, it was like smoke in the sky, and it drifted a hundred thousand miles away in an instant!"

"Within 100,000 miles, the islands, caves, and sects are all transformed into a dead zone!"

"The seas are full of the carcasses of fish, sea monsters, and beasts. The azure seawater of Rakshasa turns into dead black water. There are thousands of carcasses of sea monsters. At the same time, the islands are full of various factions. The corpses of the elite veterans, even the Hunyuan realm, Hedao realm fairy beasts, and beasts soaring in the sky touched the poison of the acquired poison, and all of them were poisoned and died, and they all fell down!"

"Take a closer look..."

Divine Lord Zhu Mie was a little frightened, and couldn't help but breathe, his eyes were a little nervous, "Fortunately, the team led by the Phoenix family in that battle was not within the attack range of the Poison Master God. I was lucky enough to escape, but that The sky is full of death, and all the creatures are turned into ashes. I will never forget it for the rest of my life!"

Doing things for the Phoenix family, one of the three top families, can indeed save your life sometimes!

At least ordinary gods, or ruthless people without absolute background, will not attack them!

It is precisely because of this that the Lord Zhu Mie escaped that disaster!

"The acquired poison!"

"It's more than a hundred times worse than the innate poison, but do you know how many living things the tomb master killed by the acquired poison?" God Jie Mie said cautiously, as he could still see the fear in his eyes. !

Divine Sovereign Extinction at the peak of the Ninth Heaven in the Hedao Realm!

After five thousand years of escape, it is still vivid in retrospect.

"How many?"

Ye Chen took a breath of cold air and trembled in his heart. It looked like a poisonous power in the world. It was really strong after using it well!

Lord Zhu Mie stretched out three fingers.

The **** of Xiaoyao on the side was a little puzzled, and asked: "Thirty thousand?"

Zhu Mie Shenjun shook his head!

"Three hundred thousand?"

Still shook his head!

"Three million?" Xiaoyao Shenjun's complexion was no longer stretched, and when he reported this number, he was a little trembling.

"It's thirty million!" The Lord Zhu Mie took a deep breath, and said lightly: "Based on the statistics of the Phoenix Family Immortal Venerable elders after the war, the conclusion is that the monsters in the sea, the birds in the sky, and the human warriors, total More than 32 million have fallen!"

"There are 25 million creatures in the emperor realm!"

"There are more than five million souls in the gods!"

"Divine King Realm creatures are probably hundreds of thousands."

"Hunyuan realm creatures, found 18,000 dead bodies!"

"Hedao realm creatures... almost 137 corpses can be found, which is equivalent to the two races of humans and beasts. Within one hundred thousand miles, 137 gods have fallen. Most of these gods are different. The elders of various factions, and even those young disciples of various factions who came to participate in the Semi-Holy Secret Realm, are all dead!"

"Except for the three top families!"

"No other family survived!"

Within one hundred thousand miles!

The poisonous smoke of the day after tomorrow is released, slaughtering 30 million lives!

The vast majority of them are in the emperor state and the **** state! Regardless of these two realms, it used to sound so profound, like a god, but in fact it is equivalent to ordinary people in China, but the creatures living in this area were all poisoned by the poisonous **** !

Ye Chen couldn't help swallowing, then looked at Ji Lin who was unconscious, and said, "It's terrible!"

ruthless!

Too ruthless, thirty million creatures!

Once the poisonous smoke was released, all fell, and even the gods of the same level could not stop the poison!

It is the good fortune realm Xianzun who has gone, I am afraid that he will be seriously injured!

It's just an acquired poison!

And now Ji Lin is a congenital poison!

If Ji Lin completely awakens the innate poisonous body and uses it!

Future achievements are definitely not weaker than Lingyun!

Not even weaker than those on the Lingwu Continent!

Ye Chen subconsciously hugged Ji Lin in his arms His heart trembled a little, and this innate poison body, who was inborn poison in his arms, would release the innate poison if he cultivated to the realm of Harmony. Wouldn't it be able to poison 30 million, no, 300 million creatures?

300 million!

Three hundred million creatures!

This data, placed in China, is definitely the data that shocks the ancient and the present, even if it is placed in Kunlun Xu, it is enough to shock the world's warriors!

But on the Lingwu Continent, this world with hundreds of billions of people, plus fairy beasts, monsters, etc., may have hundreds of billions of creatures! It doesn't seem to be much, but if you think about it, it can make people restless!

"and so!"

"Master of the tomb, this woman is very important to your future achievements. Don't look at her still young. If she grows up, it will definitely be a great help. You must cultivate it!"

"The **** who releases poisonous mist seems to be named Thousand Poison God Lord, and he is an acquired poisonous body, just like Ji Lin, but the physical body is one level different from the poison!"

Zhu Mie Shenjun seemed to recall more and couldn't help asking Said: "Tomb Lord, do you know what happened to the Thousand Poison God Sovereign and the Semi-Holy Secret Realm behind?"

Chapter 1608: Horrible blood

"What's wrong?" Ye Chen was also interested!

Half holy!

It is equivalent to the peak of the ninth level of the Star Aperture Realm, no, it is more powerful, and it is equivalent to a peerless existence with half of the foot entering the threshold of the Supreme Void Realm!

The blooming of this mighty mysterious realm must have caused an unparalleled storm five thousand years ago?

If the God of Thousand Poisons is still alive, you may not be able to find him, let Ji Lin learn from his acquired poison, and cooperate with Ji Lin's own innate poison. I am afraid that the three top powers will not dare to provoke Ji Lin. Got it!

Therefore, the warriors who have refined poison from ancient times to the present are the most lethal and least-known group of warriors, so that Ye Chen is very curious about the future of this thousand poison god!

Such a vicious and arrogant Thousand Poison God Lord!

The semi-mysterious realm opened up, which attracted the arrival of all the five sects and forces in the Lingwu Continent, and the first wave of people who came was just led by the gods, or venerables, and led some disciples over to meet the world. There were no real big figures. To!

As a result, this thousand poisonous gods directly poisoned!

Poisoned 30 million creatures and killed all martial arts and martial artists except for the three top forces!

How can it be ruthless to act like this?

He is a man of the day, if he can cultivate to the realm of the titled true god, he will also be the leader of the magic way!

"Thousand Poison God Lord! After slaying thousands of sect family members, the half-mysterious realm is full of acquired poison within 100,000 miles!"

"Even if the Immortal Venerable enters, it will be poisoned after a long time, and there is even the risk of injury to the source, serious injury, and dying, so the thousand poison gods directly entered the secret realm!"

An Jue, the king of the God of Death, can only be regarded as a cruel generation!

But on the cruelty of a thousand poisonous gods!

He is far behind!

Zhu Mie Shenjun's eyes flickered with complicated, and he continued to say faintly: "After the Thousand Poison Gods entered, the soul hall, the Hundred Immortal Palace, the Wanjian Emperor's Palace, the Central Ouyang family, the Changshi family, etc., the immortals and the confiscated warriors successively Come here, and after breaking through the acquired poisonous fog, I want to kill the **** of thousand poisons in the sea!"

"Unexpectedly, God Sovereign Thousand Poison has entered the Secret Realm of Conferred Saint!"

"Many immortals and conferred warriors can't enter, but they are stuck in the secret realm. Finally, after waiting for more than a hundred years, Thousand Poison God Sovereign breaks through the realm to become a Thousand Poison Evil God, possessing the combat power of the three-tier sky in the Star Aperture Realm. The inheritance of that semi-sage great demon!"

"A Thousand Poison Evil God and Baipai Immortal Venerable, Conferred God Warrior Fighting for more than seven days and nights!"

"On the way, he released the semi-innate poison that he refined after years of accumulation!"

"Half congenital poison?" Ye Chen was taken aback, and asked, "What do you say?"

The Lord of Death was thinking about one side, staring at Ji Lin, and said: "The difference between the innate poison and the acquired poison is only one word, and the tomb owner can use the blood of different physical realms to proportion!"

"For example, the tomb owner, your sixth-order physical body in the incorporeal phase, with a drop of blood, can kill the warriors who entered the early stage of the gods!"

Ye Chen nodded, his physical body was tempered to the extreme, comparable to the elementary gods of the combined Dao realm, and a drop of blood was enough to kill a warrior who entered the third layer of the gods!

"Tomb owner, your blood is assumed to be equivalent to innate poison."

"And the poison of the acquired day is like the blood of the third-order in the transformation phase, a drop can only kill the fifth or sixth level of the emperor!"

"As for the semi-innate poison!" Zhu Mie Shenjun thought for a while, and then said: "It is like the blood of the ninth rank in the transformation stage, which can bombard the warriors at the peak of the nine levels of the emperor realm!"

"Although the gap between these is complicated and mysterious, you can use this scope to understand!"

The whole is equivalent to this:

In the sixth stage of the incorporeal stage, a drop of blood can crash into the third layer of the gods (congenital poison)

In the ninth stage of the Huagang stage, a drop of blood can kill the nine layers of the emperor realm (half congenital poison)

In the third stage of the transformation phase, a drop of blood can kill the fifth layer of the emperor realm (the poison of the acquired day!)

It is equivalent to such a comparison method, just a drop of venom, which cannot be compared completely according to the power of blood. Venom is more toxic to different martial artists, such as the gods who are good at the way of the soul, and the gods who are good at the way of the flesh, like Ye Chen, are less toxic!

Hearing Zhu Mie Shenjun's words, Ye Chen suddenly felt that Ji Lin in his arms was a hot potato!

Thousands of poisonous gods, with acquired poison, can poison and kill more than 100 gods of the same realm in the Hedao realm!

If Ji Lin in his arms was in the He Dao realm, wouldn't it mean that he would kill three to five hundred gods of the same realm with innate poison?

This is the most fundamental power level gap!

It is enough to prove that Ji Lin's potential and future strength!

"That battle, semi-innate poison..."

"I'm terribly scared, I also listened to the elders of the Phoenix family, and I never saw it personally!"
There was some yearning in the eyes of God Jie Mie!

"If you see it with your own eyes, you can't be here!" Xiaoyao Shenjun said slightly jokingly: "You participated in that battle, and you were 100% dead!"

"That's true!" Immortal Bingjian nodded, the poisonous **** with such a strong Poison Art Toxin, even if Divine Slayer is a half-step immortal, facing him is a dead end, there is no possibility of fluke!

The other two gods and three gods and Buddhas!

Even nine girls, when they heard Lord Zhu Mie talk about things thousands of years ago, and it was about Ji Lin, they couldn't help but come over, wanting to hear about the Thousand Poison God Lord and Thousand Poison Evil God, the final result What is it.

"Finally, half-innate poison!"

"Poison killed the three Conferred God Supreme Elders of the Changshi Family in the Central Region, as well as the various factions of the Central Region, a total of seven Conferred God Warriors. Of course, there are also 21 Immortal Venerables who died in the semi-innate poison. Above, the other four domains were originally led by the Middle Domain to strangle the Thousand Poison Evil Gods, so only one or two Conferred God Warriors and a few Immortal Venerables of Good Fortune Realm had fallen!"

"As for the Thousand Poison Evil God!"

"Finally he felt that he could not escape because it was the ancestor of the titled true **** of the Long History family who came forward!"

"So before he exploded, he left his own poisonous skills and the inheritance of the semi-holy great demon, scattered in the endless sea of the Raksha Sea! Of course, the Thousand Poison Evil God blew himself up and almost killed the titled True God. Old ancestor, make him hit hard!"

Zhu Mie Shenjun suddenly smiled and said: "The ancestor of the Changshi family is estimated to be no more than 30,000 or 50,000 years. It is not to recover. With bad luck, he broke the half-sacred road. It took 200,000 years to recover. Yeah!"

He laughed!

To be a human being and step into martial arts, be like a thousand poisonous evil gods!

Facing the siege of a hundred factions and thousands of families, he almost killed an ancestor named True God before his death, and killed eight Conferred God Warriors of the same realm, as well as twenty-three Immortal Venerables, behave like him!

"and so!"

"Tomb owner, you should know how powerful the innate poison and innate body are on Ji Lin!"

Chapter 1609: 0 ginseng

"This matter must not be spread, otherwise the warriors of various factions fell in the hands of the Thousand Poison Evil God, although they have already killed the Thousand Poison Evil God, it has only been five thousand years, and it has not yet reached the point where everyone can forget it. If you don't keep the balance, they will think that Ji Lin is the inheritor of the Thousand Poison Evil God, and attack you and Ji Lin!

Ye Chen frowned slightly.

Right now, the inheritance left by the Thousand Poison Evil God is undoubtedly the most suitable for Ji Lin.

It seems that there is a chance to take Ji Lin to the Raksha Sea and the endless sea.

If by chance, Ji Lin gets the inheritance of the Thousand Poison Evil God, I am afraid the Soul Palace would not dare to fight Ji Lin's idea again.

Even Ji Lin can avenge himself!

Suddenly, Ye Chen thought of something and looked at Bingjian Xianzun with scorching eyes: "By the way, Master, you just said that Ji Lin has some problems with his body...what happened?"

Ice Sword Immortal Sovereign shook his head, looked at the Lord Zhu Mie, and said: "The Lord Zhu Mie may know Ji Lin's body better than I, so let him speak."

Zhu Mie Shenjun nodded, gently placed his left hand on Ji Lin's forehead, and after probing for a long time, he said: "It is because the congenital poisonous body is not completely perfected, causing some meridian blockages. The most important thing is that her blood and body are both the first generation. It is a naturally occurring innate poison, not like the inherited acquired poison of the Thousand Poison God, so you need to find some highly toxic drugs, or extremely powerful poison materials to fight poison with poison!"

"Fighting with poison?"

"Is it the dantian that dredges Ji Lin's bloodline?"

Ye Chen asked. He released his spiritual power and entered Ji Lin's body. He clearly felt that Ji Lin's meridians were blocked, and everywhere was filled with poison. If you want to change to another warrior, I am afraid that he will die now!

On the contrary, Ji Lin, besides being unable to sober, his body is getting stronger and stronger!

The realm is getting better and better!

Originally, Ji Lin was only in the early stage of Emperor Zun realm. He was nourished by blood and venom at this moment. Instead, he stepped into the third level of God Realm. The promotion speed is much faster than Ye Chen. I am afraid that after the innate poison body is perfected, the cultivation level will be better. Furthermore, arriving at the late stage of God Realm is no problem!

"Correct!"

"Because Ji Lin is a congenital poison, he is not afraid of any poison in the world!"

"But the venom in her body, let's put it this way, there is a lot of venom, it seems that it cannot be completely digested, so it is blocked at the meridians and dantian!" Zhu Mie Shenjun took a closer look and said: "So, Some highly toxic substances are needed to attack!"

"Break away the venom that blocked the meridians!"

"Then the two venoms converge to complete Ji Lin's innate poison!"

"If you don't do this, the long-term backlog will continue and the consequences will be disastrous!"

"The key may not be able to wake up for a lifetime!"

Ye Chen's face changed slightly.

He promised Ji Siqing to protect Ji Lin, and naturally he couldn't let Ji Lin get into trouble.

But now, how to fight poison with poison?

All kinds of poisons began to appear in his mind, some of them were naturally grown poisons, and some were full of poisons!

These poisonous monsters, their venoms are not too strong for the warriors!

Does it need to be combined and given to Ji Lin after extracting the purity?

Ye Chen went to check various books that recorded poisons. Those books happened to have been copied from the treasure house of the Soul Palace, and they recorded a lot of poisons. As he looked through it, he was nervous to the extreme.

I thought Ji Lin would recover after breaking the line.

Unexpectedly, Ji Lin's innate poison body was awakened instead!

"Wait!"

"Disciple!" Frost Sword Immortal Venerable suddenly thought of something, frowned slightly, and said: "The congenital poison body is imperfect, and you can't make up for it with ordinary poison! I'm afraid, it needs the poison of the thousand poisonous evil gods. Row!"

Hearing these words, the book in Ye Chen's hand fell to the ground, and he frowned: "That is to say, I must go to the Raksha Sea and the endless sea now?"

"My current strength will undoubtedly die there."

"Is there really no way?"

"However, if this is the only way to save Jilin, no matter how difficult it is, I am willing to give it a try!"

Ice Sword Immortal Venerable walked slowly, and said lightly: "I just talked with Lord Zhu Mie!"

"It was discovered that although the Thousand Poison God God blew himself up in the past, he did not know whether he was alive or dead, and he did not know whether he was dying or not. His poisonous power and the poison he carried were all left in the Raksha Sea! You don't need to go to the Raksha Sea now. Knowing, Dugu family, Agni cultivator, etc., who also participated in that battle back then, should bring back a lot of poison!"

"Look for them!"

"Exchange some special poisons and come back!"

"It's best to nourish with poisons that are extremely toxic, or even better if they are contaminated with acquired poison!"

There is a level difference between the innate poison and the acquired poison!

The powers of the two are not comparable, but at least they are much stronger than other poisons. Ji Lin wants to perfect the innate poison, and it is best to use the acquired poison to make up!

"and many more!"

"We remembered!"

Moonlight Buddha walked slowly with his hands folded and said: "We also know the five thousand years of battle!"

"It's just that our Golden Buddha Tantric Sect was not qualified to participate!"

"But the Beigong family, the Dugu family, and other ten middle-level forces in the Western Regions, each have two good fortune realm immortals attacking. Two thousand years ago, the Dugu family brought back a plant of Thousand Demon Ginseng from Raksha Sea. Things used by God to blend semi-innate poison!"

"just....."

"For nearly ten thousand years, don't talk about congenital poison, congenital poison!"

"It is the acquired poison and the acquired poison body is only the Thousand Poison Sword God, the Thousand Demon Ginseng brought by Linghu Patriarch is extremely poisonous, so no warrior in the Dugu family can use it. Two thousand years ago, Once an auction was jointly held by the Dugu Family, the Beigong Family and Feiyu Pavilion, during which they wanted to auction this Thousand Demon Ginseng just..."

Moonlight Buddha smiled helplessly and said: "The Western Regions are barren, not a place where the magical way is prosperous. It is a kind of poison refining. Most of them are gathered in the jurisdiction of the Fire Sect, the Baili family and the Duanmu family. Besides, the poisonous sects, Did not come to the auction!"

"No client even came to photograph Thousand Demon Ginseng!"

"It may be because Qianmo Ginseng is extremely toxic, so they can't use it!"

"Therefore, this Thousand Devil Ginseng should still be in the Dugu family, and the owner of the tomb can take it over and perfect the innate poison for Miss Ji Lin!"

Dugu family!

One of the top ten middle-class families, in contrast, is slightly inferior to the Beigong family!

But it is also a rare family!

What's more, the Western Regions are different from the other four regions. There are no superior sects and families directly under them. Instead, they are governed by ten middle-level clans. The ten powers have maintained each other for 100,000 years. Although the Dugu family is at the end of the ten powers, But the strength is definitely not bad!

Chapter 1610: Thunder Tribulation

"The Dugu Family!"

"Dugu Fengchen!"

Ye Chen remembered that it was the first time he went to the Soul Clan and killed some people himself!

He seemed to be the fifth son of the Dugu family, Dugu Fengchen, 18 years old, a genius from the fourth level of the Divine King realm, and the other six people and two Hunyuan realm guards were all beheaded by him. I will go to the Dugu family now. Buying Thousand Demon Ginseng is not easy!

"You have to find a way to get Thousand Demon Ginseng from the Dugu Family!"

"Ask for Beigong Hongtian's help?" Ye Chen was slightly anxious, and said to himself: "The great elders behind Beigong Hongtian are all like human beings. If they knew that I bought Qianmo Ginseng!"

"Of course I would agree!"

"Even so happy to help me buy it!"

"However, they will definitely guess the role of Thousand Demon Ginseng!"

Many venerables and gods in the poison refining class have not purchased Thousand Demon Ginseng!

Why?

It's not because it's expensive, and it's not because it can't be bought.

But because I bought it, I can't use it. There is no considerable level of poison masters. I bought Thousand Demon Ginseng. There is a slight difference, and it may have poisoned their own poison refining!

poison!

Of course, it can poison the enemy, but if you don't use it well, you can destroy yourself!

Therefore, the poison refining of the Western Regions is not at all concerned with Thousand Devils!

But Ye Chen suddenly went to buy Thousand Demon Ginseng! It will definitely be discovered by some people.

After all, when Ye Chen came to Lingwu Continent, he had never used poison, let alone killed other people! Suddenly buying this kind of poisonous artifact, saying that he wants to practice poisoning skills, probably few people will believe that no masters of poisoning skills dare to use it, let alone Ye Chen.

"The Beigong Family!"

"If you can't find it, it's better not to find it!"

"Can't trust them! Maybe when the Soul Palace master kills back, he will hear from them about me!"

Ye Chen knew very well that once he approached the Beigong family to buy Thousand Demon Ginseng on his behalf, the Beigong family would definitely think of Ji Lin through some clues.

At that time, I am afraid it will be a fire.

Once this news spreads, the tragedies of five thousand years ago have not been forgotten by all factions!

It's not a good thing to attract various factions to attack him and Ji Lin at that time!

The battle five thousand years ago!

Although all factions in Lingwu Continent lost some disciples and gods, they eventually killed Thousand Poison Evil God.

Thousand Poison Evil God also overestimated himself, perhaps overestimating the semi-holy secret realm. He originally thought that poisonously kill the deities and creatures of the surrounding factions.

After entering the semi-holy secret realm, he can be named the true god. After he comes out, unless the top powers make a move, Otherwise, no one can touch him!

unfortunately!

A hundred years later, he came out of the secret realm. It was only the third level of the Star Aperture Realm. His death was the early stage of the Conferment of God. He had not yet reached the middle stage of the Conferred God. Faced with more than a dozen Conferred Martial Artists who wanted to kill him to seize the secret realm inheritance. Choose to blew up!

Before blew up!

The inheritance of his own poisonous skills and the few remaining poisons, as well as the inheritance of the semi-holy secret realm, have been thrown into the endless Raksha Sea. In recent years, the major forces have sent people to the Raksha Sea to search for the thousand people of the year. The relic of the evil god!

The Dugu family found a Thousand Demon Ginseng!

It's just a pity that the Thousand Demon Ginseng is full of acquired poison, enough to kill dozens of the gods of the Affinity Realm, that is, the Immortal Venerable of the Dugu family, the fifth elder of the Supreme Supreme, the old monster of the fifth heaven of good fortune, find The Thousand Demon Ginseng was brought back carefully, but it was still invaded by the acquired poison and had to cultivate for two thousand years. I heard that the poisonous injury is still not healed!

So back then, the Dugu family wanted to sell the Thousand Demon Ginseng, at least for a few time and space soldiers, no matter how good it is, let's change some Hedao artifacts!

The auction ended!

Unexpectedly, no one bids on Qianmo Ginseng at all!

Treasures that can poison the immortal Venerable of the Good Fortune Realm, the warriors below the Good Fortune Realm dare not think at all. Above the Good Fortune Realm, there are almost no warriors who specialize in poisoning arts. Even if they dabble, they are not acquired poisonous bodies, and it is difficult to use a thousand demons. Ginseng!

Therefore, Thousand Demon Ginseng has always been stored in the Dugu Family!

"auctions!"

"You have to find a reason to let the Dugu Family hold another auction!"

"I personally went to shoot, and after I got the Thousand Demon Ginseng, I just flee!" Ye Chen's eyes flickered, and he also knew that if the cultivation base is not in place and the status is not high enough, it will definitely cause others to covet it. You don't want to come out again. A thousand poisonous evil gods, destroyed them!

For the fear of Thousand Poison God!

The most serious is the warrior under the good fortune realm!

It is expected that when the Thousand Poison Evil God was still in the God Sovereign Combination Realm, he had already poisoned 30 million creatures. If another Thousand Poison Evil God came out, it would be a storm of blood and blood. This is a situation that many sects do not want to see. , So Ye Chen only needs to buy Thousand Demon Ginseng without much background, so he will be attacked and killed!

You must prepare in advance!

"Wait, tomb owner!"

"After the Thousand Demon Ginseng arrives, it blends into Ji Lin's body!"

"Of course, the innate body can be improved, but there are records in the ancient books, and there may be some problems!" Bingjian Xianzun recalled: "When I was free, I would go and check the ancient books of Wanjian Emperor's Palace. Record things about the mainland!"

"I vaguely remember!"

"Three hundred thousand years ago, it was the ancient times, before the ancient war started!"

"Ancient Heavenly Demon God of War, a semi-holy existence with the same Blood Demon Dragon God, there used to be an enemy of life and death, known as the Congenital Poison God, who seemed to possess the Congenital Poison Body, and used the cultivation base of the Five Heavens in the Sealing Realm to fight in the ancient times. Before the war, he used his own power to poison the Sky Demon clan. Of course, except for the Sky Demon God of War, that one is not dead!"

"The Sky Demon Clan hundreds of millions of creatures died tragically in the hands of this Innate Poison God, and the Innate Poison God was killed by the Sky Demon God of War before the ancient war began. Before dying, the Sky Demon God of War Ask him, how can we cultivate creatures with innate poison bodies?"

"I remember that there was a sentence in the ancient book, the words left by the Innate Poison God."

"To become a congenital poisonous body, you need to be nourished by the day after tomorrow, and then go through the calamity of the thunder. The heaven and the earth do not exist, and you want to be born unless God's will allows!"

Ice Sword Immortal Venerable glanced at Ji Lin complicatedly, and continued: "That sentence, I understand a little bit now! It needs to be nourished, not what everyone thinks, it needs to grow up and continue to nourish it!"

"After all, there were demon gods in the ancient times who wanted to cultivate an innate poison body, but they wanted to poison humans!"

"But without exception, they all failed!"

"And I now think that the innate poison may need the first generation to form naturally, and then the blood of an acquired poison, or a large amount of acquired poison, as a nourishment. As a result, people with innate poison, such as Ji Lin, the meridian dantian is unobstructed and he can wake up!"
