

## Valiant Life 1081

### Chapter 1081: Completely blown up

Wang Mei Tian had been thinking all along that she would definitely draw hate for stepping over Master Lin and Wu You Lan.

But seeing this news, she was a little dazed.

This Master Lin wasn't talking bad about her but he was talking bad Tianshu Milk instead. Had his brain snapped?

This Tianshu Milk wasn't an average company. It was a huge corporation. It wasn't one that anyone could just anger. What was this Master Lin posting?

He had actually said that there was a problem with Tianshu Milk. It was a fatal move that would cause him huge trouble if it didn't turn out well.

"I have a plan," at that moment, Chief Chen cried out. He had thought of a good plan.

Wang Mei Tian looked at Chief Chen curiously. "What plan?"

Chief Chen said with a grin, "We'll immediately support Tianshu. According to my knowledge, Tianshu's ambassador contract has already expired. If we can get that contract, it would be greatly beneficial to your career. After all, this is a type of promotion that you wouldn't be able to get elsewhere. It would greatly increase your exposure."

When Wang Mei Tian heard that, her heart was filled with delight. However, she felt that something wasn't right. "Chief Chen, it's not so easy to get the ambassador contract. I don't have such a big reputation yet, why would they select me as their ambassador just because I support them?"

Chief Chen laughed confidently. "Don't worry, just leave this to me. All you have to do is show them your support. Also, it'd be best if you post a video. While everyone is still in confusion, show your support for Tianshu and also criticize Master Lin at the same time."

“Mmm, okay. That isn’t hard at all.” Wang Mei Tian smiled. This kind of task was easy. There was no difficulty to it at all. And to her, if she could carry this out well, her reward would be exceptional.

Eastern Han Group.

Wang Ming Yang was looking at the songs contently. But when he saw the news on the Internet, he was completely stunned.

What is my brother doing? He just left and he’s already attracting this kind of trouble.

Especially after reading all the contents, he was completely speechless.

If it turned out that what his brother had posted was false, it would really be troublesome. Even if his status in society was even higher, he would still have to bear legal responsibility.

Wang Ming Yang immediately called him.

“What are you doing? What’s going on?” asked Wang Ming Yang in a surprised tone.

Lin Fan: “It’s nothing much. What I said is the truth. Remember, don’t drink Tianshu Milk. But if you aren’t afraid, you can drink it.”

Wang Ming Yang was dazed as he didn’t quite understand the situation. “How did you know? When did you start researching all this?”

“I didn’t research at all. After leaving your place, I went to a small shop to buy a pack of cigarettes and I conveniently bought a bottle of milk as well. But when I drank it, I was surprised that there was a problem with the milk,” said Lin Fan indifferently. It was as if he couldn’t feel how big of a blow these words had on Wang Ming Yang.

Wang Ming Yang was speechless as he held the phone. He hadn’t thought that his brother would say that he could tell just by drinking it.

D\*mn!

This will cause a f\*cking huge problem.

Initially, Wang Ming Yang had wanted to yell at his brother to not be reckless. But now, he just said calmly, “Brother, let’s delete the post. Or you could say that you were hacked. You have no evidence. Lives could be lost over this.”

Lin Fan nodded. “Yeah, I know. That’s why I posted it on Weibo. If I didn’t, who knows when people would start to discover this? Don’t worry. You don’t have to worry about what I do. I drank quite a few mouthfuls. If I wasn’t sure, do you think I would have done this?”

Helpless and at a loss.

Wang Ming Yang had said so many things to Lin Fan with a single intention: To stay calm and don’t be reckless.

But what made Wang Ming Yang feel helpless was that this brother of his wouldn’t listen at all.

In the end, they didn’t say much more before hanging up.

Cloud Street!

Lin Fan shook his head as he chuckled. If he hadn’t been sure, he definitely wouldn’t have spoken on Weibo. However, he understood that such a thing was very hard for others to believe. However, he wasn’t worried. The truth would always be revealed in the end. Right now, all he had to do was to spread this information.

At the supermarket.

A pair of lovers were buying things. When they picked up a box of Tianshu Milk, a passerby said, “You still dare to buy that milk?”

The pair of lovers looked at that person in confusion. “What’s wrong? Is there a problem with this milk?”

The passerby replied, "Take a look at Master Lin's Weibo. Master Lin has said that there's a huge issue with this milk. It has a high-level of carcinogen. It'll harm your health."

"Huh?" The lovers were stunned. They hadn't expected this at all. Then, they quickly took out their phones and took a look. "It's true. Then we shan't buy this anymore. We'll buy another brand."

The boss was standing there and he felt annoyed. "There's no evidence. It might just be a false rumor."

The lovers waved their hands. "Forget it. It's better if we don't buy it for now. Since Master Lin has said it, it might be true. We shan't take the risk."

The boss shook his head at the pair of lovers. How could there be a problem? F\*ck. This is a f\*cking false rumor.

This kind of situation had already happened several times. Initially, he had been confused about what was going on. Later on, he found out about what had happened.

The passerby warned out of goodwill, "Boss, I suggest you quickly return this milk to the distributor. If Master Lin says that there's a problem, there's definitely a problem. Moreover, right now, anyone who has seen Master Lin's Weibo wouldn't buy it."

The boss looked at the passerby with a dumbfounded face. Then, he opened his WeChat app and realized that the people in his profession were saying the same thing.

"D\*mn. What's going on? I can't sell my milk."

"F\*ck. No one is buying my milk. Even if they buy it, they come and ask for a refund a while later. I'm confused."

"What is up with this Master Lin? How could he say such nonsense without any evidence?"

"Enough talk. I'm returning my stock to the distributors. If I can't sell it, it'd just rot in my hands."

Seeing the situation in the group, the boss didn't know what to do. And what he didn't know was that the distributor was also dumbfounded. Everyone was asking for refunds, how could they accept that? Then, the distributor immediately called their agent. If they couldn't sell it, of course they had to send it back to the producers.

The next day!

Lin Fan's Weibo post had spread very quickly. In just one day, it had spread to various big groups.

Forums, social media platforms, etc. Overnight, it seemed as if the whole country knew about it.

And on the Internet, news had already appeared.

'Tianshu Milk contains a 200% excess of aflatoxins. Is this true or false?'

'Master Lin warns netizens not to buy Tianshu Milk.'

'In one day, the country has been thrown into panic. Netizens are against buying Tianshu Milk. Does one man really have that big of an influence?'

'There's no evidence at all. Is it a false rumor? The consequences could be tremendous.'

The appearance of the news had blown the situation up completely. It wasn't an exaggeration to say that it was now known by everyone in the country.

Chapter 1082: We didn't expect this either!

Feiyue Entertainment company.

Wang Mei Tian had done her preparations overnight. She posted a video on Weibo. Upon playing the video, one would see Wang Mei Tian's life at night.

“Tianshu Milk is trustworthy. Drinking a bottle every night will bring great benefits to your body and your sleep. As for what Master Lin said about Tianshu Milk, I believe that it is a false rumor. I hope that everyone will trust Tianshu and I hope that the false rumors will be dealt with legally.”

In the video, Wang Mei Tian took a big gulp of Tianshu Milk. Moreover, she drank it very seductively as the white milk dripped down her lips. This made countless netizens have their eyes glued to the screen. You’re f\*cking seducing us!

The netizens couldn’t sit still.

“I support Mei Tian. How could there be a problem? I’ve been drinking Tianshu for almost ten years and I’ve never gotten any symptoms. Although this Master Lin is worthy of respect, he can’t just slander other people’s business.”

“Yeah. I really want to become that bottle of milk in Mei Tian’s hands.”

“I support Mei Tian unconditionally. The only thing I do every day is look through Mei Tian’s Weibo to see if she has any updates.”

“No one else has dared to step out to stop Master Lin’s baseless accusation. My Mei Tian is the only one who has done it. We have to support this attitude of hers.”

“There are way too many idiots nowadays. They listen to whatever other people say. Do they think Master Lin is a god? The Quality Inspection Office doesn’t even know about it but he knows? Doesn’t he understand how big of an impact his words have caused? My family is an agent for Tianshu Milk. Because of this incident, we’ve lost a countless amount of money. I feel that Master Lin has to bear responsibility for this.”

“^I can’t stand it when people falsely accuse others. Although this Tianshu is a Japanese company, we’re already past the age of national discrimination. This Tianshu has provided many jobs for people in China. If a problem arises and these people lose their jobs, Master Lin is the one to blame.”

“^What if what Master Lin said is true?”

“That’s not possible. Don’t even think about it. How can that Lin be so powerful and how can the Quality Inspection Office be so stupid? If you ask me, he has messed up this time. Just wait. That

Lin will regret this very soon. When that time comes, he will surely look for all kinds of excuses to push the blame away.”

Many netizens had rushed to Wang Mei Tian’s Weibo to discuss this matter regarding Tianshu Milk.

Wang Mei Tian saw the situation on Weibo and let out a sly grin. Then, she got off her bed and sat on the balcony, holding her phone in her hands. She started typing again. She felt that this time, she was on the side of justice.

Tianshu Milk was a listed company. It was huge. It basically owned 45% of the country’s market share for milk. Besides Mengniu Milk and some other large corporations, no one else dared to compete with them.

Moreover, it was a foreign corporation which had already been in China for a while. It had deep roots in the industry. It wasn’t something that could be suppressed so easily by someone with the surname Lin.

Anyone with eyes could tell that this man with the surname Lin was done for.

He would have to face a lawsuit, pay the compensation, and even spend some time in prison.

Thinking about it, he had asked for death himself.

Liu Xiao Tian was busy working when his phone rang. When he answered the call, his expression changed to one of disbelief.

“It can’t be. Master Lin wouldn’t falsely accuse Tianshu for no reason. I can’t just arrest someone for no reason.” It was a call from his superiors, telling him to bring Master Lin in for investigation. To Liu Xiao Tian, that was not possible.

He would not believe that Master Lin would falsely accuse others for no reason.

“No. Although Master Lin has no evidence, Tianshu Milk has no proof that their milk has no problems either. If the Quality Inspection Office can produce the test reports to prove that Master Lin’s accusations are false, I will take action immediately. Before that, I can’t do anything.”

“I’m not taking anyone’s side. I’m working based on facts. They have to speak with evidence.”

Liu Xiao Tian immediately suppressed the situation. This call wasn’t from Shanghai. It was from Beijing.

“This is troublesome.” After hanging up, Liu Xiao Tian felt a bit of a headache. Then, he pondered for a moment before giving Master Lin a call.

“Master Lin, do you have evidence regarding the incident?” What he wanted to know most right now was whether or not there was evidence. If there wasn’t, he might really have to bring Master Lin in eventually, which he didn’t want to do.

“You do? Then where is it? The impact of this matter is quite big. The higher-ups are starting to get involved.”

“What? You tasted it? That’s not experimental evidence. Sigh. Master Lin, how big of a problem are you trying to cause?”

Liu Xiao Tian was really dazed. He hadn’t expected Master Lin to say that he had tasted the carcinogens. How is that f\*cking possible? Is he playing around?

In his heart, Master Lin was a very reliable person. How was it possible that he would do something like this?

No, I have to do something. No matter what, I can’t just let Master Lin do whatever he wants. Without any evidence, he can’t just fool around like this.

At that moment, Tianshu Milk Company was having a meeting.

\*Clatter!\*

After a middle-aged man entered, he tossed a file onto the table. His expression was so dark that it was scary. “Somebody tell me. Why did nobody say anything about yesterday’s incident until today? Do you know how big of an impact this has on us?”

The people below were at a loss.

“Chief, we didn’t expect this either. We didn’t expect it to develop so much overnight.”

“Yeah. What is that Master Lin thinking? We’ve never offended him.”

Everyone started speaking one by one as they appeared to be very angry. It was as if they had been misunderstood. They hadn’t expected this Master Lin to be so bold to spread a false rumor like that. As for whether or not there was actually a problem with their milk, they had no idea. That was the manufacturing side’s problem.

All they had to do was to sell the manufactured products and also manage some company matters.

However, they had passed all the checks but this Lin was still accusing them. They had to handle this matter strictly.

The middle-aged man barked, “What are you all still sitting here for? Do you need me to teach you what to do?”

When the rest heard this, they immediately nodded and didn’t say more. Of course, they knew what to do about this.

They had to quickly settle this issue. Otherwise, if it were to develop to an irreversible state, it would really be troublesome.

Chapter 1083: This is f\*cked up

Cloud Street!

Lin Fan was sitting in the shop. Naturally, he knew about the situation on the Internet. However, it was really hard to convince the public that he had tasted the problem. Hence, he was pondering about whether he should look for the relevant department to do a test.

Fraud Tian had a dumbfounded look on his face. “Kid, how can you still sit still? Aren’t you going to find a way to resolve this? Your post has only come out for two days and it has already caused such a huge impact. If you don’t resolve this properly, you’ll be in deep trouble.”

Lin Fan smiled as he said, “I’m thinking of a way right now. But this can’t be rushed. I have to take it slow. I’m going to bring the milk for testing. When the test results are out, the problem will be resolved.”

“Then why don’t you hurry up I? I feel that the situation on the Internet is getting out of hand.” Fraud Tian looked at the situation on the Internet and was very anxious. He felt that this kid was playing around with a super huge problem.

Moreover, if the kid didn’t resolve it well, it was very likely that he would get implicated as well.

“What’s the hurry? I’ll go soon.” Lin Fan wasn’t in a hurry at all. Although the situation on the Internet wasn’t too friendly to him, he wasn’t afraid at all. It wasn’t like other people could distort the truth regarding this.

At that moment, the phone rang. It was an unknown number.

“Hello, who is this?” Lin Fan answered. However, he felt that it was probably Tianshu Milk.

“Hello, I am calling from Tianshu Milk’s law department. Right now, our company is going to officially sue you for disseminating false information on the Internet and causing a negative impact on Tianshu Milk Company. We wish that you may delete all your comments on Weibo before the situation further develops to a worse state. Also, we hope that you may send a serious apology on Weibo and bring your personal particulars to give yourself up to the authorities,” the man on the other end of the call spoke calmly.

Lin Fan was taken aback when he heard that. “Wait. You’re from Tianshu Milk’s law department?”

“That’s right. As a public figure on the Internet, you’ve caused a serious impact on our company through your false accusation,” said the man.

Lin Fan: “I think you’re mistaken. Don’t you have an idea of whether there’s a problem on your side? I’d advise you to quickly recall all your distributed products and organize a press meeting to apologize so that you can minimize the impact. If you still carry on stubbornly, it will tremendously affect you. When that happens, it would be too late to regret. This isn’t a small matter after all.”

The man on the other end of the call was silent. It was as if he hadn’t expected Master Lin to say such a thing. After a while, he spoke.

“Are you really not going to repent? This is a serious false accusation. It has been spread to an extensive range of people.”

Lin Fan stopped him. “I think you should investigate the entire situation properly. I’m just someone who drinks milk and I managed to discover the issue when drinking your milk.”

\*Clatter!\*

The opposite party hung up.

Tianshu Milk Law Department.

After the man hung up, his colleagues gathered around him. “How was it? What did Master Lin say? Is he so frightened that he’s going to immediately delete his comments? But it’ll be useless even if he deletes them. This matter has already caused a severe impact.

The man shook his head. “No, he doesn’t know how to repent. He thinks it’s a problem with our company. Alright, since it’s like this, we should get to work and sue him. We’ll sue him for making a false accusation and make him pay the compensation.”

“This is the Internet age. Anyone can be an author on the Internet. But the stories they tell can’t be blindly written. He has caused a huge problem and he has to be severely dealt with.”

Some of these people knew about Master Lin. Some of them had good impressions of Master Lin. But after this incident, they wondered if there was something abnormal with Master Lin’s brain.

He had actually dared to post something so baseless. Did he not know how severe it was?

Tianshu Milk's official account immediately made a statement on their seriousness towards this matter. At the same time, they stated that they would exercise their rights to make the accuser compensate them. They also stated that Tianshu Milk was manufactured under stringent conditions. It definitely wouldn't contain any problems.

When this statement was released, it naturally drew many people's attention. Some other companies publicly supported them as well. Some television programmes which were sponsored by Tianshu Milk also stated their support and delivered harsh criticism against Master Lin's false accusation.

Fraud Tian said, "Was that call from Tianshu Milk Company?"

Lin Fan nodded. "Yeah, it was from their Law Department. They told me to delete my post and give myself in."

Zhao Zhong Yang looked at Lin Fan in shock. "Brother Lin, let's not play around anymore. If there's evidence, we have to quickly release it. Otherwise, when this situation gets out of hand, we'll be screwed."

Wu You Lan said anxiously, "Brother Lin, look at your Weibo. Your fans are telling you to quickly release the evidence. Otherwise, they'd be worried and anxious about you."

"Mmm, I got it. I'll bring the product for testing later. But actually, I shouldn't have to do it. Someone else should test it," said Lin Fan.

At that moment, noises came from afar.

A group of reporters was charging towards Cloud Street yet again. When Lin Fan saw those figures, he had a dumbfounded look on his face. What are these reporters here for? Isn't the news out already?

They're still coming to interview me? I don't think there's a need for that, is there?

The reporters rushed over hurriedly. They viewed this matter with great importance.

“Master Lin, was your Weibo account hacked?” a reporter yelled. It was as if he was giving Lin Fan a chance to escape. After all, such incidents of hacking were very common. Although some people would likely say that he hadn’t been hacked, most netizens would believe it without a problem.

Lin Fan said, “No, my account wasn’t hacked. I posted it myself.”

“D\*mn...” When the reporter heard that, he felt helpless. He cursed madly in his heart. My dear Master Lin, it was such a good opportunity to escape but you didn’t cherish it. Now, things will get complicated.

Lin Fan lifted up the remaining half a box of milk and headed towards the door. “I’m going out. You guys look after the shop. Don’t worry about this. I have faith in myself. There’s definitely a problem with this milk.”

Fraud Tian and the rest looked at Lin Fan and sighed in their hearts. They really wished that things would turn out that way as well. Otherwise, it would really be f\*cked up.

Chapter 1084: This is just a small matter

A reporter asked, “Master Lin, where are you going?”

As of now, the news had already been released on the Internet. They were here to see what exactly Master Lin had to say. They were already so familiar with Master Lin and they didn’t want anything bad to happen to Master Lin.

But this time, the opposition was quite powerful. Moreover, Master Lin didn’t have any evidence. Wasn’t it the same as banging his head against the wall? Master Lin could have said that it was a misunderstanding. For example, he could have said his account had been hacked.

Regardless of whether other people believed it, they would definitely believe it. They loved Master Lin after all.

Lin Fan smiled as he carried the half a box of milk in his hand. “You want evidence, don’t you? I’ll go and do a test. Once the test results are out, I’ll have evidence.”

The reporters were stunned. “Master Lin, at this stage, you still don’t have evidence. How would you know that there’s a problem with the milk?”

“I do have evidence. I drank many bottles and I could taste it. But even if I say all this, you definitely won’t believe me. That’s why I’m going to do a test now to get the evidence out,” said Lin Fan.

A gust of wind blew past.

The reporters just stood in their original spots, dumbfounded. It was as if they had heard something terrifying.

This was the first time they had heard someone say that he could taste a problem in milk. If that were the case, who would believe him? Even an idiot wouldn’t believe him.

To them, it seemed that Master Lin was going to be in trouble. Moreover, if his words were to be deemed as false rumors, he would definitely have to go to jail.

After all, even if his social status was even higher, it would be useless.

This Tianshu Milk definitely wouldn’t go easy on him. They would definitely bite tightly onto him and not let him off at all. They might even lose their image of an awe-inspiring large corporation in the process.

Lin Fan looked at the reporters standing there stupidly. He shook his head and smiled. “Alright. There’s actually nothing much to interview me about right now. In a short while, the evidence will be released.”

Then, the reporters watched as Master Lin left and they exchanged looks with each other.

“Why do I feel that Master Lin is going to end up tragically this time?”

“Yeah, I feel that too. This situation has already become very severe. Tianshu Milk is already making their move. I’m afraid that he will have to go to court soon. Moreover, this situation is so severe that the police will probably be taking action soon as well.”

“Are you saying that the police will come and capture Master Lin?”

“I think it’s not likely. After all, Master Lin is not an average person. They have to look at the big picture.”

“Do you believe that Master Lin really tasted it? Why do I feel as if this is getting more and more unreal.”

The reporters kept discussing with each other. They felt that this matter had developed to a scary stage. It was really difficult to believe what Master Lin had said.

Moreover, the situation in various parts of the country wasn’t looking good. Many people were protesting. The destructive force of those words posted by Master Lin was enough to scare some people to death.

Countless supermarket owners were grumbling and complaining.

Some people wanted to return their stock but Tianshu Milk didn’t allow it. Their reason was that it was a false rumor. However, even if they didn’t return the milk, they couldn’t sell it.

Then, the crowd of reporters left the area.

Liu Xiao Tian arrived in his car. When he arrived at the shop, he immediately called out, “Master Lin... Master Lin...”

Fraud Tian saw him and said, “He’s not around. He just left.”

Liu Xiao Tian was taken aback and couldn’t help but be anxious. “Where did he go?”

“He’s bringing the milk for testing. Inspector Liu, do you think that this will turn out badly?” asked Fraud Tian.

Liu Xiao Tian’s expression was very grave. “There definitely won’t be a problem if he has appropriate evidence. But without evidence, I’m afraid that this will turn out very badly. Previously, when he didn’t have any evidence, the higher-ups have already given orders to bring Master Lin in for investigation but I defended him. However, if there’s no evidence, I’m afraid that I won’t be able to hold them back for long.”

“It’s that serious?” Fraud Tian was dumbfounded. He hadn’t expected things to develop to such a stage.

Liu Xiao Tian nodded. “Mmm. This is a very serious matter. If it isn’t resolved, he’ll have to go to jail. Sigh...”

After Lin Xiao Tian left, Wu You Lan’s little heart was thumping furiously.

“Dad, Brother Lin won’t be in trouble, will he?”

She was out of her wits. It wasn’t that she didn’t trust Brother Lin but this situation was really quite scary.

Wu Tian He sat there calmly and let out a smile. “It’s fine. Don’t worry.”

Nowadays, when he read the fortunes of the average townsfolk, he would reveal 30% and keep 70% to himself. He was still very powerful. When he had read Lin Fan’s fortune, he couldn’t see how there could be a problem. Therefore, he believed that this matter wouldn’t cause any negative impact on Lin Fan at all.

Wu You Lan heard her father’s words and let out a breath of relief. Perhaps all she needed was a reassurance.

At the testing center.

Lin Fan carried the milk over. The people there saw Lin Fan and immediately went forward. These days, everyone knew about Master Lin. And with the recent news, his popularity had blown up.

A staff member went forward and said, “Master Lin, how can we help you?”

Lin Fan smiled and replied, “I’d like to ask for help in testing this milk.”

The staff member looked at the milk, then said cautiously, “Master Lin, is what you said really true?”

Lin Fan said, “You can just do a quick test. If it’s not true, I’ll have to go to jail again. I haven’t been there in a long time and I do miss it a little.”

“Huh?” The staff member had a stupefied look on his face. This was the first time he had heard someone saying that he missed being in jail. It seemed quite domineering to him.

“How long will the test take?” asked Lin Fan.

The staff member had wanted to say that it would require at least a week. However, he thought that this was Master Lin they were talking about and he really wanted to know the truth behind this too.

“Tomorrow. Master Lin, the results will be out tomorrow.”

Lin Fan nodded his head contently. Tomorrow wouldn’t be too late. Does Tianshu Milk Company really not know about the problem with their own milk?

When the evidence is out, they will know just how severe this matter is.

Then, he came out of the testing center. This wasn’t the Quality Inspection Office but since it was in Shanghai, it was reliable. Testing the milk definitely wouldn’t be a problem.

When Lin Fan came out, a call from Wu Huan Yue came.

“Brother Lin, are you alright?” Wu Huan Yue had been dumbfounded when she found out about the news. She had even stopped practicing her songs temporarily.

Lin Fan smiled. "I'm alright. Have you been practicing your songs?"

Wu Huan Yue said, "Brother Lin, how can I be in the mood to practice songs? I heard from Chief Wang that, if this isn't resolved, you will go to jail."

"Don't listen to his nonsense. I have confidence in myself. Go and practice your songs well. That Wang Mei Tian or whatever even dared to step over me. You have to avenge me."

He wasn't bothered by this milk incident at all. To him, it was just a casual and convenient move.

Chapter 1085: We'll be completely done for

The next day!

The netizens.

"Master Lin is done for. I work in the court of law and I heard that we've already accepted the case. If Master Lin still doesn't provide evidence, he will be in deep trouble."

"It can't be."

"Why can't it be? Master Lin doesn't have any evidence so he'll definitely lose. Moreover, he'll have to go to jail after he loses. Anyway, he's screwed."

"Sigh. What is going on with Master Lin? Why did he say such things on Weibo? Doesn't he know how severe this is? The Quality Inspection Office didn't even say that there was anything wrong with Tianshu Milk, which means that it has passed. I feel like he was asking for his own death."

"Maybe Master Lin felt that his life was too smooth-sailing, so he wanted to add some fun to it. But I think that this won't develop to such a serious stage that he'll have to go to jail. After all, Master Lin is not an average person. He has done so many things. The most he'll have to do is apologize and compensate."

“Right now, many corporations are supporting Tianshu Milk Company. Even some television channels are criticizing Master Lin’s actions. His actions have been deemed as a serious case of spreading false rumors.”

“D\*mn. Hurry up and take a look at Master Lin’s Weibo. That guy is up to something again.”

“What is it?”

At that moment, countless netizens looked at Lin Fan’s Weibo and were completely dumbfounded. It could even be said that they were flabbergasted.

Lin Fan: “Tianshu Milk Company’s product doesn’t meet the requirements. It has already affected my health. Hence, I’ve already filed a lawsuit against them, requesting them to compensate for my health fees...”

“F\*ck. What is Master Lin doing? I really can’t understand him.”

“I’m confused. I really can’t understand his actions at all.”

“Is this still the Master Lin that I know? Why do I feel like Master Lin is suddenly becoming playful? Is he inventing a new type of scam? Milk scam?”

“D\*mn. That could be it.”

Some of the people who were siding with Tianshu Milk Company saw Lin Fan’s Weibo and couldn’t help but burst into laughter. To them, Master Lin was really stubborn. Even at this stage, he still didn’t know the severity of the matter and he still acted pretentiously on the Internet.

They already knew what was going to happen. If this Lin wouldn’t have to bear the consequences, that would really be strange.

Some reporters had very good relationships with Master Lin, so they hadn’t been reporting much recently. However, reporters from outside of Shanghai didn’t care about all this. As long as there was news, they would expose the news to the public.

These words were also reposted by various big Internet celebrities.

Meanwhile, when some netizens saw the situation, they maintained their silence.

“I’m a fan of Master Lin. Regarding this matter, I choose to stay neutral. Before evidence is released, I won’t take sides.”

“Sigh. Why do I feel like Master Lin is still struggling even though he is going to die? This is completely different from the Master Lin that I know.”

“Hey, did you guys notice something? Wang Mei Tian is going to release a new album and Wu Huan Yue is going to release one as well. What’s more, this new album was personally composed by Master Lin. Aren’t you guys excited?”

“Excited my a\*s. Before this matter is resolved, who would be excited about that? If Master Lin is charged with spreading false rumors, I’ll have to stop being his fan. I won’t even pay attention to those songs.”

Feiyue Entertainment Company.

Chief Chen was sitting there and looking at the news as he couldn’t help but laugh. “It turns out that this guy did this to promote the album. But I have to say that this guy’s brain is not normal. Anyone with a brain wouldn’t use this sort of method to hype himself up. He probably screwed himself up with this.”

Wang Mei Tian laughed. “It really gave me a scare. When I saw this Weibo post initially, I didn’t know if I could match up to them. But now, it seems like this Master Lin can’t even defend himself anymore.”

Chief Chen said, “Don’t worry, it’s fine now. He’s just digging his own grave. No one will be able to save him. Oh right, I donated ten thousand boxes of Tianshu Milk to the children in the mountainous areas under your name.”

Wang Mei Tian looked at her phone, then looked around to see that there was no one before giving Chief Chen a kiss on the cheek. "I've seen it. Right now, so many netizens are commenting on my Weibo that I'm kind and they'll definitely support my album."

"Haha," Chief Chen laughed. "Don't worry. This is the best way to attract fans. I've also hired many Internet trolls to start generating momentum for you. Also, we've come to an agreement with Tianshu Milk Company and discussed the terms. This time, you have a big chance of becoming their brand ambassador."

Hearing that, Wang Mei Tian was exhilarated. She hadn't expected herself to rise so quickly. If it turned out to be successful, she would be one step closer to success.

Tianshu Milk.

"This Master Lin doesn't know how to give up. It looks like he'll keep thinking that he can bully us unless we completely resolve this matter." The person-in-charge of public relations had a very scary look on his face.

Ever since this matter had arisen, they had received notices from around the country that sales had stagnated. Citizens were unwilling to purchase their product because of the controversy. This had made them very anxious.

They really couldn't stand this fella.

At Tianshu Milk Company's Quality Inspection Department, an employee was looking at the test data in his hands. His expression had changed drastically as if he couldn't believe it.

"What is it?" Another employee saw this colleague's dumbfounded expression and he was curious. He wondered what had happened.

"This is bad." The employee who was holding the test result sheet had seen the data and his face was filled with terror. It was as if he had seen a ghost. He couldn't understand what was going on. Why was there such data?

"Bad? Sigh, that's true. I don't know what that Master Lin is thinking. He actually said that there's a problem with our milk. We check our products every week and we haven't even found any problems. How could he have found a problem?"

“What are you looking at? What’s so interesting about that sheet?”

That employee saw that his colleague was still looking stunned and he felt helpless. He took the test results over and took a look.

Then, just as he was about to put the sheet of paper away, his hand suddenly stopped. He held the paper up and looked closely again.

He even rubbed his eyes as if he felt like he was seeing things. But the data was plain and clear. The hand that was holding the sheet of paper started to tremble.

“Was there a mistake in the test? How could this be?”

His colleague shook his head. “No. I was curious so I tested last week’s stock again. It’s bad, there really is a problem. We have to let the higher-ups know at once. Otherwise, we’ll be in deep trouble.”

“Then why didn’t we see this last week?”

“That was due to the odds. We only do selective testing. Maybe we were too lucky and we selected a bottle of milk with no problems. Quick, inform the leader. Otherwise, we’ll be completely done for.”

...

Chapter 1086: It turns out that Master Lin is so kind

At the testing center.

The employee held the sheet of paper in his hands and looked at it in disbelief. Then, he looked at Master Lin. He was beyond dumbfounded.

He wasn't shocked because there was a problem with Tianshu Milk but he was shocked that Master Lin had managed to discover this problem without the use of any kind of technology.

"Master Lin," the employee spoke.

"Hmm?" Lin Fan answered curiously. Then, he smiled and patted the employee on the shoulder. "Thank you. I've troubled you."

The employee shook his head. "Master Lin, I want to ask you how you found out about this?"

He was already shocked beyond words. He didn't even know what to say. He just felt that it was too unreal. And having seen the situation on the Internet, he wondered if it was truly possible that Master Lin could taste such a thing.

But it didn't make sense. How could someone taste something like that?

Lin Fan smiled calmly. "Didn't I say on the Internet? I drank it and tasted the problem."

"Master Lin, don't lie to me. How can someone be able to sense the problem using one's mouth?" The employee shook his head. He wouldn't believe it even if he was beaten to death.

"Sigh!" Lin Fan sighed helplessly. It really made things hard for him when people didn't believe him.

But things were good now. The test results were out, which meant that he had evidence now. What is up with that Tianshu Milk Company? I've clearly managed to prove the problem but they don't believe me.

Right now, the situation on the Internet had become very intense.

"Master Lin, I shan't ask about that anymore. But if we publicize this, it will be a huge blow to Tianshu Milk Company. It might even cause them to be ruined and many people would lose their jobs. Do you think we should settle this privately?" asked the employee.

He was quite worried about this. After all, it was a large corporation. If such a problem were to arise, it would be a big deal.

Lin Fan looked at the employee in surprise. “Why would you think that way?”

“Huh? Could it be that there’s a problem with my thinking?” The employee was taken aback. He didn’t feel as if there was anything wrong with his thinking. After all, he was considering the well-being of everyone. He didn’t want to see a bad outcome.

“There’s a huge problem.” Lin Fan looked at the sheet of paper and said, “Think about it. Do you think they’re more important or are the lives of countless citizens more important? Tianshu Milk Company’s slogan is ‘Children who drink Tianshu will have strong bodies’. If we don’t expose them, who knows how many children will drink this milk? Do you want those children to develop cancer when they reach twenty-something-years of age?”

When the employee heard that, he hastily waved his hands. “No, how could I have such thoughts?”

Lin Fan smiled. “You’ve done brilliantly. By delivering the test results quickly, you’ve saved even more people. This Tianshu Milk keeps saying that I’m slandering them and spreading false rumors. They’re saying that I’m retarded and I have nothing else to do. Now that the test results are out, let’s see what they have to say.”

Then, Lin Fan exchanged a few more words with the employee before leaving.

He was going to post the results on Weibo immediately for everyone to see.

Meanwhile, over at the Quality Inspection Office, they were busy inspecting as well since something like this had happened.

This matter had caused a huge impact. Tianshu Milk was an established brand. Hence, the Quality Inspection Office trusted their products very much. They would usually just check some of the samples sent by the company.

There had indeed been no problems with these tests but now that Master Lin had said on the Internet that there was a problem, they couldn’t just use the past test results to say that there was no problem.

In the end, they had sent someone to buy the currently-sold products for selective testing.

At that moment, in the testing lab, a group of people was standing rooted to the ground with their jaws dropped. That sheet of paper was placed on the table and none of them dared to pick it up.

Because they couldn't bear the responsibility for this outcome.

"What do we do?" said one of the testers. His face was filled with fear and he was at a loss. They would have to bear full responsibility for this matter.

In the past, when they tested samples from Tianshu Milk, there had been no problems. But now that they had bought a bottle from outside, they discovered a huge problem.

This aflatoxin level had really exceeded the standard by a huge margin. The product had completely failed the requirements.

"How could we have known? It wasn't us who discovered it but it was Master Lin. If this matter is exposed, we will lose our jobs. This is our responsibility." One of the men was about to collapse. His heart was cold and trembling. He even thought of dying right there.

"Publicize it. That's the only way to salvage the situation. If we still hesitate and wait until an irreversible stage, we will really be done for."

This was the head office. If even they didn't know about it, they would surely lose their jobs.

"Publicize it? Are we going to say that there's a problem now?"

At that moment, the leader of the Quality Inspection Office rushed in. He picked up the sheet and took a look. He had an urge to scold someone but he decided to forget about it.

This was their mistake. They had been too trusting towards Tianshu Milk Company's quality and they hadn't taken the job seriously enough.

"Leader, what do we do now?" asked one of the employees.

They were really at a loss. They were the ones who had checked the products. Now that such a problem had occurred, if people were to investigate, they would have to bear the consequences.

The leader remained silent for a moment before saying, "Publicize it. Apologize. It was a lapse in our work and our trust in Tianshu Milk Company that has led to this."

"But leader, if we say that, we will be scolded to death by the netizens."

The leader glared at that employee. "Do you want to avoid getting scolded or do you want to suppress the issue? If we were the ones who discovered this problem first, perhaps we could have settled this privately."

"But now, do you think Master Lin doesn't have evidence?"

The employee said, "If Master Lin has evidence, why hasn't he publicized it?"

"Stupid. You really are stupid. Master Lin is waiting for us to declare our position. We're the Quality Inspection Head Office. If we don't manage to discover it from our tests, what do you think will happen? Will the netizens still trust us? That's why we have to hurry up and publicize it," said the leader impatiently. Then, he sighed. "Although we've never interacted with Master Lin, Master Lin actually thought about us. In the future, when we have the chance, we definitely have to thank him in person."

Hearing that, the employees nodded. So that's what happened. At the same time, they were very grateful to Master Lin. They hadn't expected Master Lin to care about their feelings.

But if Master Lin were to hear this, he would definitely say 'Don't f\*cking overthink things. I was just waiting to get the test results.'

Chapter 1087: Who are you trying to poison?

Tianshu Milk Headquarters.

“You f\*cking...” When the relevant person in charge saw the sheet of paper, his blood rushed to his head and his face turned bright red. His eyes were burning with fury.

The employees were trembling as they didn’t dare to look at the leader. This time, they were f\*cked.

“We didn’t expect this either,” said one of the employees softly. They couldn’t be blamed. If anything, their good luck should be blamed for making them select the good products for testing.

But it didn’t seem possible. There had never been problems in the past. How could there be a problem this time?

Was there a problem in the working process or was there corruption in one of the departments that had led to this change?

“You didn’t expect it? Why didn’t you expect it?” the leader bellowed furiously. He wanted to just swallow these guys whole.

Suddenly, he realized that they were simply digging their own grave.

No, I have to salvage the situation. Otherwise, it will really be too late.

Without caring about the employees, he immediately made a call to Master Lin.

Lin Fan was just using his phone and about to post the test results onto the Internet when his phone rang. He helplessly answered the call.

“Hello, who is it?”

The person on the other end of the call sounded very gentle as if he knew he had done something wrong. “Master Lin, hello. I’m Ma Guo Fu from Tianshu Milk Company. This whole incident was because of us. It was our negligence. Could you just forget about it? I’ll immediately send people to retrieve the goods. Do you think that’s fine?”

Lin Fan instantly started laughing upon hearing that. “I think that’s a very difficult thing.”

Ma Guo Fu was powerless now. But no matter what, he had to stay calm. He couldn’t let the situation collapse. “Master Lin, give us a chance. This mistake was unexpected. Do you think this is okay? We know that you’ve been criticized on the Internet lately. We’re willing to compensate you for that. We just hope that Master Lin will be merciful and let this matter slip.”

“Do you think it’d be okay if we settle this matter ourselves?”

“No,” Lin Fan directly rejected.

Ma Guo Fu was taken aback. “Master Lin, you’re a public figure and we’re a large corporation. We’ll likely interact with each other again in the future. There’s no need to be like this, is there?”

“There is. There really is a need. Also, I’m not a public figure. I’m just a shop owner. I just know more people than the average person,” said Lin Fan.

“You...” Ma Guo Fu didn’t know what to say anymore. But right now, his fate was in Master Lin’s hands. He couldn’t possibly refute.

“Tell us. What do you want to do?”

Lin Fan pondered for a moment. “I don’t want to do anything. I have to be responsible for the masses. I have to publicize the test results. Oh right, I can’t talk to you anymore. I feel that talking to you is just a waste of time. Who knows how many people have drunk your milk during this time that we’ve been talking? I’m hanging up.”

\*Clatter!\*

Ma Guo Fu heard the beeping sound from the phone. At that moment, he just stood there stupidly.

The Quality Inspection Head Office had just released the test results and they also included a deep reflection.

When the netizens saw this, they were completely stunned as if they had seen a ghost.

The Quality Inspection Head Office's leader was looking at the situation on the Internet as well. When he saw Master Lin post the test results shortly after them, he heaved a sigh of relief. He thought that it was just as they had thought. Master Lin had indeed been waiting for them.

Touched. Grateful.

He didn't even know how to thank Master Lin. Master Lin was completely taking care of them.

When Lin Fan saw the situation on the Internet, he was startled. It was really fast. He hadn't expected the Quality Inspection Head Office to release the test results so quickly.

Netizens.

Initially, they had been discussing this matter on the Internet. After all, this was a very severe matter. Moreover, there hadn't been any evidence at all and they had no idea who to believe.

"D\*mn! Hurry up and take a look at the Quality Inspection Head Office's Weibo. They've released the test results!"

"Master Lin has posted it too. They've done it one after the other."

"D\*mn! It can't be. There really is a problem with Tianshu Milk. I've drunk it for a few days."

"Sh\*t. I suggest that you go to the hospital to clean your intestines quickly. Otherwise, you'll get cancer."

"F\*ck off. Who are you trying to scare? My intestines have terrible absorption. It'll be excreted soon. I won't absorb the toxins."

"666..."

When Ma Guo Fu saw the Quality Inspection Head Office's public statement, he was stunned. Right now, he only had one thought in his mind. They were really in deep trouble. Moreover, they were probably beyond hope.

And when he saw Master Lin's Weibo post, it was as if a ball of fire was about to burst out of his heart.

"F\*ck your mom..."

He was really enraged. If it hadn't been for this Master Lin, things wouldn't have turned out this way.

Wang Mei Tian was at home, drinking some milk. At the same time, she scrolled through Weibo. She was filled with confidence for her future. Tianshu Milk wanted her to be their brand ambassador. And when she looked at her Weibo comments, they were all supporting her.

This made her feel as if she was about to reach the pinnacle of life.

"Hey, what's this?" At that moment, Wang Mei Tian saw a Weibo post that was being reposted maniacally.

"Test results reveal that Tianshu Milk contains a 200% excess of aflatoxins. The evidence is clear. The Quality Inspection Head Office has apologized publicly."

\*Pfft!\*

She had just taken a mouthful of milk but before she swallowed it, she spat it all out. Her snow-white face turned green.

"An excess of carcinogens?" Wang Mei Tian looked at the delicious bottle of milk in her hand and was completely dumbfounded. Then, as if she had seen a ghost, she threw the bottle into the dustbin.

"How is this possible? How did things turn out this way? It can't be!"

She didn't dare to believe what had happened. How could there have been an excess of carcinogens? There must have been a mistake.

But when she saw the Weibo comments, she was completely dazed.

“Hahaha. Do you feel good, Wang Mei Tian? Do you feel happy drinking that toxic milk?”

“F\*ck. You f\*cking donated ten thousand boxes to the mountainous areas. Are you trying to poison all those children? You monster.”

“Master Lin already said that it was toxic but you were so f\*cking stubborn. Why are you just so stubborn?”

“You’re screwed. When this incident started, you tried so hard to suck up to Tianshu Milk Company, causing people to trust Tianshu Milk. Now that the truth is out, what will you do?”

“And you want us to support your album? Keep dreaming.”

“D\*mn. I actually didn’t trust Master Lin. I regret it so much.”

At that moment, Wang Mei Tian looked at the situation on Weibo and was completely stupefied.

Chapter 1088: Do you want me to die from drinking?

Cloud Street!

Lin Fan returned and Fraud Tian and the rest immediately crowded around him.

“D\*mn, Brother Lin, you’re way too awesome. You really managed to taste the toxins?” Zhao Zhong Yang was in such admiration that he wanted to prostrate himself. He even wanted to kneel down and worship Lin Fan.

He really didn’t dare to believe that someone could taste such a problem. What kind of mouth must he have? It was such an incredible power.

Lin Fan waved his hand calmly. “It was just alright. There’s no need to be so excited. It was just a small matter. I don’t request much from you all but just don’t doubt me so easily next time.”

“Of course, of course.” I’ll never dare to doubt you ever again.” Zhao Zhong Yang nodded immediately. He now understood how dumb he had been to doubt Brother Lin. He really shouldn’t have done that.

Wu You Lan heaved a sigh of relief after seeing the situation. But thinking about it, she felt helpless. “Brother Lin, why do you think such a big enterprise like Tianshu Milk would produce milk that doesn’t meet the requirements? And it even managed to enter the market.

Lin Fan chuckled. “Who knows? Let’s not think too much about things out of our control. Anyway, now that the truth is out, naturally, someone will take care of it.”

The shop owners gathered around as well. They were looking at Lin Fan in a different light now. It was as if they were looking at a god.

“Little Boss, you’re way too f\*cking awesome.”

“Yeah! It actually turned out to be true. But this is good. I firmly trust in Little Boss, so I’ve been boycotting Tianshu Milk.”

“Hahaha. I saw that many people were still doubting Little Boss on the Internet and some didn’t even heed your warning and they continued purchasing Tianshu Milk. They’re really unwise.”

“Little Boss, you should drink more milk when you’re free in the future to see if there are any other brands that don’t meet the standards. We’ll put them all up on the Internet.”

“That’s right.”

When Lin Fan heard that, he couldn’t help but laugh. He felt that this idea was very good. However, there were so many brands of milk on the market. Did they want him to die from drinking?

“Alright, alright. Don’t you all have to work? Don’t you have to look after your shops? Go on and disperse.” Lin Fan waved his hand. This had always been a small matter to him.

Now, the Quality Inspection Head Office had gotten involved. This Tianshu Milk Company would definitely be strictly investigated.

Looking at the situation on Weibo, it appeared that the Quality Inspection Head Office had intervened. And Tianshu Milk Company had immediately posted a public notice.

They were recalling all those products.

Meanwhile, the netizens kept flaming them. They hadn’t expected that there really was a problem with Tianshu Milk. It had damaged their faith in Tianshu Milk.

To the people of Tianshu Milk Company, Master Lin was probably their number one enemy now.

But it didn’t matter to Lin Fan. They could hate him if they wanted. Anyway, he had not done anything wrong regarding this matter.

\*Ding ding\*

A call came from Wang Ming Yang. Lin Fan answered.

“What is it, Ming Yang?” asked Lin Fan.

On the other end of the call, Wang Ming Yang was silent for a moment before he said, “Brother, I misunderstood you. I actually didn’t believe you. I really... Sigh...”

Lin Fan laughed. “Are you retarded? You called me just because of this stupid thing? But what do you think? Is my mouth powerful or what?”

“You’re powerful, you’re powerful. I prostrate myself in admiration,” said Wang Ming Yang.

Lin Fan chatted with Wang Ming Yang casually for a while before hanging up.

This company was a listed company. It had deep roots in China. But the occurrence of such an incident was a good wake up call for them.

It reminded this Japanese corporation that the citizens would support them if they manufactured their products well. But if there were problems, no one would support them.

When some of the large milk corporations in the country saw the news, they were taken aback. They hadn't expected that there really was a problem with Tianshu Milk. Although this incident hadn't happened to them, they felt that there were definitely implications.

The occurrence of such an incident would create feelings of distrust among the citizens towards milk products. The public would feel as if there were no safe milk brands anymore.

They had to view this matter with great importance.

The next day!

Lin Fan came to Cloud Street as usual. He didn't care about the situation on the Internet anymore. Meanwhile, he was thinking about how Wu Huan Yue's song recording was going.

As for that Wang Mei Tian, he wasn't bothered by her at all. After such an incident, she had probably been scolded to death.

Fraud Tian sat at the entrance, smoking his cigarette, when he suddenly saw a group of people in the distance. He instantly cried out, "It's bad. The reporters are here again!"

"What's going on?" When Lin Fan heard that, he was dumbfounded. He had no idea what was going on. Why are the reporters here again? Isn't the matter resolved already?

"Master Lin..." in the distance, the reporters were yelling.

Lin Fan came to the shop entrance and looked into the distance. The reporters were carrying their cameras as they ran over. There were also some people by the reporters' sides. These people were

carrying milk and they were running like the wind. They had excited expressions on their faces as if they were looking forward to something.

Sigh. Lin Fan was already helpless against these reporters. After all, it wasn't good to appear on the news so frequently.

At that moment, the reporters arrived in front of Lin Fan with thrilled looks on their faces. "Master Lin."

Lin Fan said helplessly, "Are you guys unable to find news every day? Even though we're familiar with each other, you can't just come and interview me every day."

The reporters said with smiles on their faces, "Master Lin, this time, we're not the ones who are looking for you."

Lin Fan was taken aback. "What do you mean by that?"

The reporters smiled proudly. "We were pleaded by the netizens to come and look for you. The netizens really value healthy milk, so this time, even various milk companies have come with their own products. They're here to let Master Lin try them and see if these brands of milk pass."

"Huh?" Lin Fan was stunned. He couldn't understand it. What the f\*ck is this?

At that moment, a middle-aged man carried a box of milk over.

"Hello, Master Lin. I'm the Shanghai representative for Mengniu Milk. I bought this milk from a random supermarket under the witness of the reporters. Now, I've brought it over for Master Lin to try and see how our milk is. Also, this will be put on the Internet."

Another lady appeared. "Master Lin, I'm the representative for Yili Milk. This is also randomly picked from a supermarket. It definitely isn't deliberately prepared. Our company would like to invite Master Lin to be our milk tester. In the future, we will send our milk to Master Lin at fixed intervals of time. If you can taste any problems, you can tag us on Weibo and we will check it immediately."

“Wait a minute.” Lin Fan was getting more confused as he listened. “If you want to test your milk, why don’t you just look for a specialized organization? Why are you looking for me?”

The reporters shouted in reply, “Because the netizens only trust you now. They don’t trust anyone else.”

Lin Fan: “...”

Chapter 1089: Shouldn’t I charge them an ambassador fee?

He hadn’t expected such a thing to happen.

Milk tester?

They only trust me? And they want me to taste their milk?

That’s rather complicated. Do they want me to just drink milk in my shop all day and critique them on the Internet? If that’s the case, then something isn’t right.

Lin Fan looked at the crowd. “This is...”

\*Tear\*

At that moment, the representative from Mengniu Milk tore open the box of milk and took out a bottle. He stuck a straw into the bottle opening and placed it in front of Lin Fan. “Master Lin, please try it. Our milk is produced from specially-cultivated cows. We are a morally upright Chinese milk company.”

Lin Fan looked at the representative’s expression. It seemed as if he would be hurt if Lin Fan didn’t drink it.

In the end, Lin Fan had no choice but to pick it up and drink a mouthful of milk.

The man looked eagerly at Master Lin. “How is it? It definitely doesn’t have a problem, does it? The grass fed to our cows are all stringently selected. We definitely won’t add any harmful substances.”

“Mmm, it’s not bad indeed. There are no problems.” Lin Fan nodded and confirmed that he had indeed tried it.

“Phew!” the representative from Mengniu let out a breath of air. “I told you. We’re not like Tianshu Milk. We are a morally upright enterprise.”

The reporters recorded this scene.

Although they didn’t know how exactly Master Lin’s mouth could identify toxins, they really believed the Tianshu Milk incident.

Yili’s representative quickly tore opened their box of milk as well and she passed it to Master Lin.

Lin Fan stood there dumbfoundedly. Then, he drank it and nodded. “Mmm. No problems.”

The lady smiled. “I told you. Our product definitely won’t have any problems either. Master Lin, could you become our exclusive tester? You won’t have to go to work, we’ll just send you some newly-produced milk samples regularly. If there are any problems, you can say so on Weibo. We are very willing to accept criticism.”

Lin Fan looked at her and felt like things were getting a little out of hand. “Is there such a need?”

The lady immediately nodded. “There is. The headquarters feel this way as well. Our headquarters have exceptional trust in Master Lin’s testing abilities.”

Lin Fan blinked several times as he felt that this was f\*cking mystical. It had all started with a single sip of milk. Now, things had gotten to a point that he had not expected at all.

“It’s our turn now.”

“Me too.”

The sales representatives at the back shouted eagerly. It was as if their milk wouldn't be trusted by others if Master Lin didn't taste it first.

The reporters were recording this from the side. This was the first time they had seen something like this. They felt that it was really f\*cking mystical to the point that they couldn't believe it.

But thinking about it, it made sense. Since Master Lin was such a f\*cking awesome person, something like this was perfectly normal.

They just stood silently at the side, recording this whole scene.

The surrounding shop owners gathered around as well.

"D\*mn. Little Boss will have lots of milk from now on."

"Yeah. In the future, if we want to drink milk, we can just get some from Master Lin."

"Our Cloud Street is getting more and more popular. I wonder if you all have noticed this."

"I realized that a long time ago. There have been more and more guests that come here. And it seems like many of them aren't from around here. I heard that our Cloud Street has already been named as one of the must-see places when people visit Shanghai."

"A while ago, someone offered \$600,000 a year to rent my shop. I rejected the offer. Even if the price is higher, I wouldn't agree."

"Our Cloud Street has become so popular all thanks to Master Lin. If Master Lin wasn't here, our Cloud Street wouldn't be this popular for sure."

The shop owners discussed amongst themselves. They were now very content with their lives.

After all, they had a god next to them, protecting them.

It even made them feel as if they must've saved the world in their past lives, leading to them being able to become neighbors of Master Lin on Cloud Street.

After some time, the reporters left. Those sales representatives left as well.

What they left behind were several tens of boxes of milk.

Looking at all this milk, Lin Fan was a little dazed. He had no idea what to do with all this milk.

He couldn't possibly sell the milk.

Fraud Tian laughed. He appeared to be in a delightful mood. "It seems like we'll have as much milk as we want to drink next time."

Zhao Zhong Yang was broadcasting. The netizens in the broadcast room were flabbergasted. They had never seen something like this before and they were spamming 6666...

After all, that was the only way to release the shock in their hearts.

Lin Fan felt that he had to do something about all this milk. Then, he turned to the surrounding crowd and said, "If any of you want milk, hurry up and grab some. How long would I take to finish all this?"

The shop owners burst into laughter. "Little Boss, you're really too awesome."

"Yeah. I've lived to such an age but I've never seen anything like this."

Lin Fan looked at the crowd and grumbled in his heart. Even I've never seen anything like this.

The next day!

The news was released.

The netizens started discussing it.

“Mengniu is safe. Everyone can drink it without worrying.”

“Yili is safe too.”

“Mmm. If Master Lin says it’s safe, there definitely aren’t any problems. F\*ck. This has really given me a scare.”

Mengniu’s official Weibo’s description changed as well.

“Even Master Lin says it’s safe. You can drink our milk with no worries.”

Yili: “We are a morally upright enterprise. Even Master Lin says our milk is good. There definitely aren’t any problems.”

When the netizens saw this situation, they were dazed.

“Why do I suddenly feel as if Master Lin has been bought over by them?”

“Yeah. These companies are too cunning.”

“But I can tell that these companies are very resolute. I support our local companies and I’ll only be drinking Mengniu from now on. I shan’t drink Tianshu Milk for now.”

Cloud Street.

Zhao Zhong Yang saw the news on Weibo and started laughing loudly. “Brother Lin, look at this. You’ve become a brand ambassador for so many milk companies all of a sudden. This is something that many people would be envious of.”

Lin Fan looked at the situation on Weibo and scratched his head. He didn’t know what to say.

“Then shouldn’t I charge them a fee for this?”

Zhao Zhong Yang nodded. “Mmm. If you say the word, they would definitely have to pay you.”

Fraud Tian said, “But aren’t they already sending you boxes of milk every month? Isn’t that their payment already?”

“D\*mn. How can someone as great as Brother Lin be paid with just a few boxes of milk?” Zhao Zhong Yang said.

Lin Fan shook his head and stopped thinking about this. Right now, his stomach was filled with milk and he even had a slight urge to puke.

I’ll never drink milk again.

Chapter 1090: I can’t face the association

What happened afterward didn’t require Lin Fan anymore. The incident involving Tianshu Milk would be taken care of by the national departments and they would also handle the outcome of this matter.

However, Lin Fan could tell that Tianshu Milk would definitely lose their skin even if they didn’t die. After all, it was a large enterprise with deep roots in the country. It had a big place in the citizens’ hearts. Now that this had suddenly happened, it definitely caused a big impact.

Local milk producers, this master can only help you this much. The rest will be up to you.

Those local milk companies wanted him to taste their products. No one could force him to do it if he didn’t want to but he decided to just do his part for the local produce.

However, he hadn’t expected to end up almost puking. He really felt like puking. If he hadn’t steadied himself, he would have spewed out all the milk.

When Wang Mei Tian saw the situation, she was completely stunned. Her first thought was that her position as the brand ambassador was probably useless now.

Now that this had happened to Tianshu Milk Company, how could they still bother about her?

When she called Chief Chen, Wang Mei Tian was dumbfounded. Chief Chen's tone sounded helpless. It was as if he felt that this situation could no longer be saved and he just told her to record her album properly.

At the same time, she could hear a hidden meaning that Chief Chen no longer had hope in her battle against Wu Huan Yue.

"No. How can I, Wang Mei Tian, lose to Wu Huan Yue?" A flame lit up in Wang Mei Tian's heart. Then, she started posting comments on Weibo. However, these comments were met with merciless attacks.

Wang Mei Tian: "The album is in the process of recording. Everyone, please support me. I love you all very much."

Instantly, netizens commented below.

"Stop that. We won't support you."

"You tried to harm the little children from the mountainous areas. You're worse than a monster."

"Did you think that you could compare to Master Lin's personally composed songs? And Wu Huan Yue's voice has always been great. Needless to say, she'll completely crush you."

Wang Mei Tian saw these comments and nearly puked out blood. But when she continued looking at the comment below, she couldn't help but start smiling. There were still people supporting her. But then, when she saw the next line, she could no longer hold her temper.

"^You bunch of scum. Mei Tian is such a good girl. How can you say that? Don't worry, Mei Tian, I won't just support your album, I will give you my full support. You're such an excellent singer and

an excellent lady. How could we not support you? Don't worry. When the songs come out, I'll download the pirated version immediately. As for that Wu Huan Yue, I'll purchase the official version. Don't worry, I'll definitely support you."

\*Spit!\*

Wang Mei Tian was furious. She even had an urge to smash her phone into pieces. She clenched onto her phone with both hands as her eyes gleamed with fury.

"Master Lin, Wu Huan Yue, we're not finished."

But these words just came from the contempt in her heart. As for making those two pay, she could dream on. It was basically impossible.

Of course, Lin Fan didn't bother about this kind of matter at all. Although he felt that he didn't have many enemies since he was so friendly, if he were to count them, he would realize that he had an exceptionally large number of enemies. It was such a large number that it was scary.

Cloud Street.

Lin Fan received a call. It was from President Niu of the Shanghai Martial Arts Association, Elder Niu.

"President Lin, have you been good lately?" President Niu's voice came from the phone.

Hearing that voice, Lin Fan felt a little embarrassed. Since becoming the Vice-President of the Shanghai Martial Arts Association, it seemed as if he hadn't gone there at all. He had just taken the title as well as the salary.

Moreover, he had even received something from them during the new year.

Sigh. Thinking about this, this dashing young face became even more embarrassed.

"President Niu, I'm fine. Why did you decide to call me?" Lin Fan laughed embarrassedly. It had really been wrong of him. He should have found some time to visit the association.

President Niu smiled. "It's nothing much. It's just that there will be a martial arts exchange meet at the Kunlun Mountain range the day after tomorrow. There will be people coming from all over. Our Shanghai Martial Arts Association will be sending people over as well. However, I'm old and I can't move about anymore. That's why I hope that President Lin can lead a team of youngsters to go and gain some experience."

When Lin Fan heard this, he pondered for a moment. He didn't really want travel but since President Niu had personally called and he didn't really have much to do, it wouldn't be nice to reject.

"Alright. As a member of the association, naturally, I have to contribute. But will I have to go on stage?" asked Lin Fan.

President Niu: "There's no need. We are just guests going for a visit. There'll be no need to go on stage."

Lin Fan nodded. It was good that he wouldn't have to go on stage. After all, if he goes on stage, he would be bullying others. It wouldn't be nice.

However, he was grumbling in his heart. Which fella organized this? Couldn't he have picked a place besides Kunlun Mountain? F\*ck, that's far. And it's cold too. I'm going to be suffering.

"President Niu, don't worry. I'll take this on. I'll bring the youngsters out to see the world. No problem at all," said Lin Fan.

President Niu: "Alright then. I'll have to trouble President Lin with this then. But please do come back for a visit when you're free. Everyone misses you, especially Chairman Wang, Wang Yun Jie. He really misses you."

"Wang Yun Jie? Who is that?" Lin Fan was taken aback. He didn't remember such a person.

President Niu laughed. "He's the one who had a conflict with you and got beaten up by you in the past. Chairman of the Yang Tai Chi committee, Wang Yun Jie."

"Oh, him..." Lin Fan recalled now. He's the guy who bullied the kids I was teaching back then.

“He’s still in the association?”

President Niu said with a smile, “He just came back a while ago. After being suspended and enduring some hardship, he has deeply recognized his mistakes. Initially, he wanted to look for you at Cloud Street but he was afraid because he has been beaten up by you once. I just hope that he will be able to give you a sincere apology.”

Lin Fan smiled. “It’s fine, it’s fine. It’s better to squash enmity than to keep it alive. The matter has already passed. If he has really changed, I forgive him. After all, I’m not a petty person, am I?”

“Right. How could President Lin be a petty person?” said President Niu.

Then, the two chatted for a while more before hanging up. As for this Kunlun trip, he would treat it like sightseeing.

Over at the association.

President Niu looked at Wang Yun Jie, who was next to him. “Heard that? Master Lin isn’t holding a grudge.”

Wang Yun Jie heaved a sigh of relief. “Thank you, President Niu. I’ve already recognized my mistake and turned over a new leaf.”

“That’s good. Martial arts practitioners can have explosive tempers but you have to have guts as well,” President Niu preached.

“Yes, yes.”
