

Valiant Life 461

Chapter 461: This...this...

At the children's department of the Citizen's Hospital.

A couple was extremely anxious, "Doctor, what should we do now?"

The main doctor shook his head, "There's nothing you can do. I suggest that you go to Shanghai or Beijing Children's Hospital. We can't treat this disease here."

The couple looked extremely helpless. Their child was five years old. He had been feeling weak every day since a month ago. He slept for almost twenty hours every day and he still felt weak when he woke up. He didn't have the liveliness of a child. As his parents, they didn't notice it for the first few days as they thought that their child might have been too exhausted from playing. However, they realized that there was something wrong.

Then, they quickly brought him to the hospital but the doctor said that it was a rare occurrence. There weren't many cases of this around the world. He had undergone treatment for a few days in Jiangning Citizen's Hospital but there wasn't any improvement. Now, they could only proceed to another hospital.

"What shall we do?" The child's father was anxious. It couldn't continue like this.

"Let's go to a big hospital. We can go to Shanghai Children's Hospital right now," the mother said.

The child's father nodded, "That's the best we can do."

...

Outside the hospital.

Nobody approached Lin Fan and the others. There were quite a number of ambulances that drove to the hospital. However, they only looked at them. The people that entered the hospital didn't even notice their existence.

The people definitely trusted the hospital more.

Lin Fan and Zhao Ming Qing just sat there. Although there weren't any patients, they weren't anxious at all. However, Qiu Jie and Zhang Tong Tong were extremely puzzled. There wasn't a single soul even though half the day had already passed.

Then, Lin Fan said, "Wait for a moment."

A couple walked out of the hospital carrying a child. They looked extremely disappointed. Then, Lin Fan called out to them and asked, "Your child is suffering from something. Why not come here and let us have a look?"

The child's mother had nowhere to go and she regarded Lin Fan as a last resort. However, the child's dad was a little more cautious.

Lin Fan smiled, "You don't have to be anxious. We're from the Chinese Medical Association and we came from Beijing to do some voluntary medical work."

The couple looked at each other, then at Lin Fan. Then, they looked at Zhao Ming Qing. As Zhao Ming Qing looked rather old, they felt that he was reliable and they slowly let down their guard.

"The doctors in the hospital weren't able to treat him. They said that this child's illness is extremely rare and asked us to go to Beijing or Shanghai for treatment," the child's mother said.

Lin Fan nodded and didn't say anything. Then, he looked at the child who was being carried by his dad. "Ming Qing, take a look at him."

Zhao Ming Qing nodded. He used his hand to measure the child's pulse and opened the child's mouth to check his tongue.

"The pulse is stable. However, it beats intensely. His tongue is rather dark. There isn't anything wrong with his body. It isn't a good thing for the pulse to be stable but intense. As for treatment, I will first use acupuncture to test his reaction. If there isn't any reaction, we will use Chinese medicine to treat him."

Qiu Jie said, “Director, could he be suffering from hypersomnia?”

Zhao Ming Qing shook his head, “It’s not hypersomnia. Hypersomnia doesn’t have symptoms like this. It is easy to recognize it. Furthermore, the Citizen’s Hospital isn’t a normal hospital. They should’ve been able to check that.”

“Huh?” Then, the child’s parents looked at Zhao Ming Qing in disbelief. “When we first brought our child to the hospital here, the doctor thought that it was hypersomnia. After he did all the checks, he realized that it wasn’t hypersomnia. How did you know after just one look?”

Zhang Tong Tong said proudly, “This is the director of our academy. His medical skills are top notch. He knows the symptoms just by measuring his pulse.”

Then, people started to gather around. They saw that someone approached this voluntary medical work setup and were curious about what was happening.

Zhao Ming Qing wasn’t bothered by what was happening around them. Then, he asked Lin Fan, “Teacher, if it was hypersomnia, I could treat it with medicine. However, I can’t figure out what is happening. Can you have a look?”

“Okay.” Lin Fan nodded and stretched out his arms, “Pass me the child.”

The couple was stunned. Then, they looked at Zhao Ming Qing. They didn’t know what this young man was doing.

Zhao Ming Qing said, “This is my mentor. His medical skills are a thousand times better than mine. Just let him have a look and he might really treat your child.”

The couple was in disbelief. It was as if they had heard it wrongly. This young man here was the mentor of this elderly man? This... This...

The surrounding crowd started to discuss among themselves in disbelief.

They felt that this was something special.

It was their first time seeing a young man be the mentor of an elderly man.

Lin Fan carried the child and pressed some parts of the child's body. "These few acupuncture points are the most important ones to the body's circulation. It can improve blood circulation greatly. Pass an acupuncture needle to me."

Zhao Ming Qing immediately handed him an acupuncture needle. Qiu Jie and Zhang Tong Tong looked at him attentively so that they wouldn't miss anything.

Qiu Jie immediately recorded down those acupuncture points that Lin Fan had mentioned. As Chinese medical doctors, they had to memorize all the acupuncture points of the human body. There were a lot of them. If they didn't memorize all of them, they might not be able to treat an illness.

Lin Fan raised his head, "Don't be anxious. Inserting an acupuncture needle into an acupoint isn't dangerous. Your child will be healthy soon."

A passer-by interrupted, "Bro, are you kidding? They didn't manage to receive treatment at a big hospital and you say you can treat him?"

Lin Fan smiled and didn't reply. Then, he placed an acupuncture needle into the fenglong acupoint. Suddenly, the child's eyelids twitched.

"Look, his eyelids just twitched. This acupoint can stimulate him. Pass me another needle," Lin Fan said. Then, he looked at the couple. "I will be placing another needle on his head. Don't be anxious or afraid. There won't be anything wrong. Don't make any sudden movements or else I might insert it wrongly and he would be in danger."

The parents were stunned, "He won't be in danger, right?"

Lin Fan smiled, "Don't move and he'll be fine. Don't worry, nothing will go wrong. We aren't here to harm people at the entrance of the hospital. Anyway, you can have a look at our certifications."

The child's parents lowered their heads and looked at the certifications.

Lin Fan quickly placed a needle into the baihui acupoint, the needle was 1.5inch long.

When the child's parents looked up, the needle had already been inserted.

Lin Fan gently swirled the needle and pulled it out. He did it extremely quickly and people didn't even manage to see it clearly. Then, he held onto the child's feet and pressed onto them forcefully with his thumb.

Suddenly, the child started to cry.

Lin Fan placed the child on the ground. The child cried and went towards the couple.

The crowd was stunned when they saw this.

This...this...

Chapter 462: Spreading small-scale

"D*mn, that was amazing."

"That's it? That was so fast."

"Could it just be a show? It isn't uncommon these days."

The surrounding crowd was stunned and they were all discussing it. It looked impossible.

The couple hugged their child in shock. It looked impossible. They had been in the hospital for so long and wasted so much money. How could it be treated so easily here?

However, as they heard the commotion, they took out their medical bills slip, "Look, this is our medical bills slip. We aren't an act. This... We don't even know what to say about this. We just came out of the hospital and we were prepared to go to Shanghai Children's Hospital."

The crowd looked at the slip and were in disbelief.

“That’s impossible. His illness couldn’t even be treated by the Citizen’s Hospital but it was treated in such a short time here. That’s ridiculous.”

“D*mn, I don’t know what to say. If it’s true, then it’s scary.”

...

Qiu Jie and Zhang Tong Tong were ecstatic. They felt that this trip had been worthwhile as they were able to learn knowledge that they wouldn’t have learned from the books.

Lin Fan waved his hand, “It’s not that the hospital can’t treat him. Chinese medicine focuses on treating the specific problems of a particular person. For Western medicine, it is just a little more complicated than Chinese medicine.”

This child’s weird illness wasn’t difficult to treat. He just had to find the vital acupoints. The Encyclopedia had a description of this illness and he could use this method to treat him in a short time. He didn’t even need to use the mystical boost of the Encyclopedia.

If this method of treatment were to be published, it would be another historical breakthrough.

“Thank you.” The child’s parents were full of gratitude. Their child’s illness had made them extremely anxious. Now that it was resolved, it seemed like they weren’t being weighed down by the burden anymore.

Lin Fan waved his hand, “You don’t have to thank me. Don’t let it end here. I will prescribe you with some medicine. Go to a proper Chinese medicine shop to get these medications in the future. Let the child take it twice a day, once in the morning and once at night. You can stop after a week. Don’t worry, the medicine won’t have any side effects. It is used to improve his energy levels.”

“Thank you, godly doctor. Thank you... How much is the prescription? We will pay.” The child’s parents were convinced and Lin Fan had instantly become a godly doctor in their eyes.

“It’s okay, we treat illnesses for free here. It’s voluntary medical work. Quickly go and buy the medicine. You can let him take the first serving tonight,” Lin Fan said and waved his hand.

“Okay, okay.” The child’s parents nodded. Then, they quickly brought their child to a Chinese medicine shop to buy the medicine.

...

“Teacher, what is the reasoning behind this?” Zhao Ming Qing asked.

Lin Fan smiled, “Actually, there isn’t any reasoning behind it. It is simple to treat an illness like this. It’s just you guys don’t know about it yet. Thankfully, I’ve done research about this illness before and that’s why I know about it. Lil’ Jie, please record everything that happened today. I will explain it to all of you in the future when we go back.”

Zhao Ming Qing was ecstatic. At the same time, he became even more impressed with his mentor’s medical skills.

Qiu Jie wasn’t sure of some of the symptoms but he still recorded them down. Next time, he could study it and it would definitely be beneficial to him.

The surrounding crowd went forward, “All of you are Chinese medical doctors, what else can you treat?”

This question wasn’t easy for Zhao Ming Qing and the others to answer. Lin Fan smiled, “We have to see the illness before we give our verdict.”

“What about cancer?” A townsfolk asked.

Before Lin Fan replied, someone else answered, “Are you asking for fun? Cancer is an incurable disease. You think they’d be able to treat it?”

The townsfolk replied, “No, did you see the news previously? A godly doctor appeared in the hospitals in several cities and even treated a cancer patient.”

“That’s fake. I heard that it was all faked by the hospitals. Look at those hospitals now, they are booming with patients. It was just an advertisement for the hospitals. If these people here could treat

cancer, why would they be doing voluntary medical work here? I wonder where they would be now.”

“That’s true.”

Lin Fan smiled but didn’t say anything. He didn’t want to answer it as he felt that there wasn’t a need to do so.

Cancer was an incurable disease and it was a fact. However, he had managed to treat it because of the Encyclopedia’s mystical boost. If he had exposed himself, it wouldn’t have been a problem but he would definitely be frustrated with the number of patients.

Therefore, he wanted to take it slow and if he was faced with a cancer patient, he would temporarily keep his identity a secret.

However, if he was exposed, it wouldn’t have been a big problem.

He was a godly doctor that was able to treat cancer patients, so what?

They continued until afternoon and there were two more patients. Initially, Zhao Ming Qing would look at the patients and identify the illness. Then, he would propose something while Lin Fan would add on to his proposal.

This was extremely beneficial to Zhao Ming Qing.

At a certain hospital ward with three people.

A middle-aged man walked to his family member, “It’s weird today. There are a few people who are doing voluntary medical work at the entrance. What do you think of them doing voluntary medical work at the hospital’s entrance?”

The two other patients smiled, “They are stealing business from the hospital.”

“I think so too. However, let’s not talk about that yet. Earlier, there was a child who had been sleeping for extremely long hours and the hospital couldn’t do anything about it. But he was treated

completely after seeing them for a while. I feel like it was an act but at the same time, it didn't seem like one too."

cough A patient on the bed that was furthest inside gently coughed. "Who knows? Anything could happen in this world Anyway, I feel that anything is better than getting sick."

"That's true."

Then, a nurse came in with a medical bills slip. "Wang Xi Zhu, you have to ask your family member to pay the medical bills. You haven't paid about \$10,000."

"Nurse, I know. I have informed them. They'll pay up soon." The patient who was furthest inside was Wang Xi Zhu. He nodded. He had a problem with his lungs and it was a recurring problem. He had to visit the hospital every time it recurred and it was expensive.

Every time he entered the hospital, he had to delay payment as he didn't have the money to pay.

The nurse left.

Wang Xi Zhu sighed, "Sigh, I really don't know what to do. I'd rather die than get this disease."

The middle-aged man said, "Yeah, actually you can go to the hospital entrance to have a look. It is free anyway. Perhaps you might be permanently cured and you won't have to stay here anymore."

Wang Xi Zhu replied, "Does it really work? It might be a scam."

"Even if it was a scam, just go and have a look. I feel like it's not a scam," the middle-aged man said.

Wang Xi Zhu thought about it for a moment and said, "Alright, I'll go then."

...

Chapter 463: Do whatever you want

Wang Xi Zhu left.

The crowd inside the ward started to discuss.

“Hey, Elder Wang’s been miserable. His children didn’t even pay his medical bills and he has to owe the payment.”

“Elder Wang has been hospitalized a lot of times. His life savings have practically all been given to the hospital.”

“Doesn’t Elder Wang have a medical insurance card? Why does he still spend so much?”

“Medical insurance card? That’s rubbish. Elder Wang has been eating imported medicine. These medications aren’t cheap. A small box would cost a few thousand dollars. Who could afford it?”

“Never mind, let’s see if Elder Wang benefits from the setup outside. If it is really useful, he’d benefit so much from it. They dare to give free treatment outside a hospital, I’m pretty sure it isn’t a scam. There are a lot of free treatment avenues online but it depends if Elder Wang could visit them with his current illness.

...

Outside.

Lin Fan didn’t know what to feel. He didn’t expect it to have developed this way. Even those with flu came to visit him. However, he didn’t make a fuss about it since they were there to give free treatment. Flu was an illness too. He just let Zhao Ming Qing attend to them. Although he couldn’t treat them with acupuncture, he could prescribe them with some medicine. However, Lin Fan told him a small trick. Those with cases of flu that weren’t so serious, he could just insert a needle and give them a massage. There was no need for medicine.

Zhao Ming Qing was ecstatic when he heard about the trick. He had gained new knowledge again.

Even Qiu Jie and Zhang Tong Tong were excited too.

Lin Fan shook his head helplessly. He wondered where the essence of Chinese medicine had gone to. This little trick was literally everywhere in the Encyclopedia. But nobody knew about it.

At that moment.

An elderly man in his sixties came. He was wearing typical clothes and he was looking around. He walked over curiously when he saw Lin Fan's setup. He coughed several times and it sounded pretty serious.

Zhao Ming Qing was a little more sensitive to coughs because he used to be like this. Could this person that came over be suffering the same illness as him in the past?

"Lung problem," Lin Fan said when he saw him walking towards them.

It was useless to describe it profoundly. He just had to be straightforward about the person's condition. At the same time, it helped them to be less worried.

When he read the man's fortune, he realized that the man was rather miserable. He was alone in the hospital and his children didn't care about him.

"Can you tell what's wrong with me?" Wang Xi Zhu asked carefully.

It was the first time he had approached a voluntary medical booth like this and he didn't know what to do.

"Yeah, I can tell. Come, have a seat," Lin Fan waved his hand and welcomed him.

Wang Xi Zhu seemed a little unsettled. He asked, "Is the treatment free?"

Lin Fan smiled, "Don't worry, it is free. We don't charge any fees here."

"That's good." Wang Xi Zhu heaved a sigh of relief and sat down.

Zhao Ming Qing asked, "Your lung problem is similar to my past Lung problem. I was suffering from it for a few decades."

Wang Xi Zhu was stunned, "I can't tell that you've had this disease."

Zhao Ming Qing smiled, "It's been cured."

"Congratulations!" Wang Xi Zhu congratulated him in envy. He envied healthy people the most. One could accomplish more with a healthy body. They wouldn't have to lie on the hospital bed like him.

"Ming Qing, come and have a look..." Lin Fan said.

Zhao Ming Qing nodded and began to check on him. He was quite familiar with the procedure. "Teacher, his condition is a little more serious than mine. The problem is not just with his lungs. Other body parts are also problematic. It's just easy to be overlooked because of his lung problem."

"Okay." Lin Fan nodded. Zhao Ming Qing's medical skills were indeed superb. He could tell about his condition after looking at him for a while. This information could be inferred from looking at his face, tongue and pulse.

Wang Xi Zhu wasn't hopeful of having his illness treated. "Can you guys treat my illness?"

If it was in the past, Zhao Ming Qing would've answered with a no. Because he didn't even manage to treat his own condition. However, it was different now. His mentor was there and he could definitely treat him since he had managed to treat Zhao Ming Qing himself successfully.

Lin Fan nodded, "Yes, we can treat it."

Wang Xi Zhu said, "Oh, I knew you wouldn't be able to treat it." But suddenly, he realized what Lin Fan had said and was in disbelief, "What did you just say?"

Lin Fan repeated, "I said, it's curable."

Wang Xi Zhu didn't believe him. Then, Lin Fan said, "Here, pass me your hand."

Lin Fan grabbed onto Wang Xi Zhu's hand and pressed onto it, "Do you feel anything?"

Wang Xi Zhu nodded, "Yeah, there's a numbing feeling. It's like I feel a little better now."

"Okay, stand up," Lin Fan said. Then, he grabbed onto Wang Xi Zhu's shoulder with one hand. He placed the other hand on his lung area and pressed onto it. He changed the way he was pressing and asked, "How do you feel? Do you feel like there's a warm feeling being circulated?"

"Yes, yes..." Wang Xi Zhu answered ecstatically.

Lin Fan waved his hand at Zhao Ming Qing to get him to bring the acupuncture needles. Then, he said, "Later, I will be placing a needle there. It will be a little ticklish. Just tell me if you feel anything."

Wang Xi Zhu was extremely happy and when he saw the needles in Lin Fan's hand, he didn't flinch. He was full of anticipation.

Lin Fan inserted it and gently swirled it around. The mystical boost of the Encyclopedia was starting to activate.

This time, without Lin Fan's prompt, Wang Xi Zhu immediately said, "I feel it. I feel the ticklish sensation."

Gradually, people started to gather around.

"Hey, those are acupuncture needles. I've seen them in dramas before. It's a professional Chinese medical tool."

"I didn't expect to see Chinese medical Doctors use it to treat patients. What's wrong with this elderly man?"

"I don't know, but he looks like he's enjoying it."

Some people started to record what was happening with their phones. Although they didn't know what was happening, they felt that it was remarkable.

Lin Fan didn't notice these people. He just smiled, "Not bad, right? It's good that you're feeling this. Later, the needle will be slightly longer, will you be scared? However, it'll still feel good."

Wang Xi Zhu stood there and closed his eyes. "I won't look. Doctor, do whatever you want. I've never felt so good before."

Lin Fan smiled and nodded. It wouldn't be a problem anymore if he closed his eyes. Then, he waved his hand at Zhao Ming Qing. Everyone was a little frightened when they saw the needles of different thicknesses and lengths.

He placed one needle after another.

The treatment was a little complicated. It required multiple insertions of acupuncture needles. Basically, he had to have more than ten needles on his body for the treatment.

The surrounding townsfolk stared at them in shock.

Some of the more timid ones covered their mouths. It was too scary.

It was especially scary when the elderly man's body was covered with a lot of needles.

Zhao Ming Qing wasn't afraid at all while Qiu Jie and Zhang Tong Tong were extremely anxious. They forcefully swallowed their saliva. It was the first time they had seen this.

Then, the townsfolk started to record whatever they were looking at.

Because it was simply too shocking.

At the in-patient ward.

“Why isn’t Elder Wang back? It’s been more than half an hour.”

“I don’t know, maybe he’s wandering outside. It’s hard for him to always be staying in the ward. However, Elder Wang’s kids are too unfilial. They’ve never visited him since the first day he’s been here.”

“Pitiful....”

They were chatting happily in the ward. It was a kind of affinity for them to be together in the same ward. Their relationship with one another was good.

Then, a voice came from outside.

“Elder Wang is back. He’s even humming a song. Looks like he’s in a good mood.”

“It’s good to be cheerful when you’re sick. If your mood isn’t good, it wouldn’t be beneficial to your health.

Wang Xi Zhu entered the ward and greeted the other patients. The crowd didn’t ask him about how it went. They didn’t even have to think about it. His illness was definitely incurable. If it was cured. It’d be a miracle. They didn’t want to ask him about it so that he wouldn’t feel hurt.

He went to his ward and packed his things. He was ecstatic.

“Elder Wang, what are you doing?” The other patients asked.

Wang Xi Zhu smiled, “Packing my stuff to go home.”

The crowd was stunned, “Are you giving up on your treatment? Elder Wang, don’t give up so easily. If your illness is not cured, you can’t live for long.”

Wang Xi Zhu went to a middle-aged man and grabbed his hand. Then, he said sternly, “Thank you so much. If not for you, my illness wouldn’t have been cured. However, I’ll be here often to see you guys.”

The crowd was stunned by Wang Xi Zhu. They didn’t understand what was happening.

“Elder Wang, you...”

Wang Xi Zhu smiled, “There’s a free treatment booth outside the hospital, right? I went to try and he is indeed a godly doctor. I feel so good after it’s been cured. He said that I just have to continue eating my medicine and the root of the illness will be resolved. I think you guys should go and have a try. Perhaps you can be cured of your illnesses too.”

The middle-aged man was stunned. “Elder Wang, are you okay? How is that possible? Go and get a check. You can’t be conned by this man.”

Wang Xi Zhu waved his hand, “There’s no need for a check. I know my own body well enough. Let me show you.”

Then, Wang Xi Zhu started jumping happily. “Look, I’m not even panting from jumping up and down. I’m not coughing at all. You know, the godly doctor’s medical skills are superb. You should go and have a try.”

They were stunned when they saw him jumping. They felt that it was impossible. How could he be treated within such a short time?

Wang Xi Zhu was almost done with packing. “Alright, I will be leaving now. Really, you guys should have a try. Perhaps you’d be cured.”

They didn’t say anything at all and the middle-aged man looked especially stunned. It was as if he had seen a ghost. He was the one who suggested Elder Wang give it a try but he didn’t expect Elder Wang to recover.

Although they didn’t know if Elder Wang was really cured. His expression looked a lot better than before.

After Elder Wang left the ward, the remaining patients looked at each other.

“Could it really be true?”

“I don’t know. Shall we go have a look?”

“That works too.”

“If it’s true, that means we won’t have to stay here anymore.”

...

Outside.

Wang Xi Zhu was preparing the documents to leave the hospital. At the same time, he cleared his hospital bills. He used his retirement funds as he didn’t want to wait for his children anymore. Anyway, he had recovered and he was feeling exceptionally happy.

The nurse said, “Grandpa Wang, you haven’t recovered. Why are you leaving now?”

Wang Xi Zhu smiled, “Who said so? I’ve already recovered. I’ve been in this hospital for so long and I was still the same. The free booth outside the entrance only took half an hour and I’ve been cured. Furthermore, it was free. I’ve spent almost all my life savings on the hospital bills.”

The nurse looked at Grandpa Wang and didn’t know what to say. “Grandpa, you can’t be conned. Your condition is pretty serious. How could you be treated in such a short time? I suggest you stay in the hospital. Don’t give up yet.”

The nurses knew that Grandpa Wang’s children weren’t very good. They’ve been delaying the payment. However, Grandpa Wang paid them off on his own. At the same time, he requested to be discharged. They felt that he was giving up on treatment.

Although they weren’t related to Grandpa Wang, they’ve seen a lot of patients that gave up on their treatments in the hospital even though their situations weren’t entirely hopeless.

Wang Xi Zhu waved his hand, "You guys won't understand if I told you. I'm really healthy now. Alright, quickly settle the paperwork for me. I want to leave here ASAP. I'm sorry to have owed the hospital bills. At the same time, I'm grateful to the nurses for taking care of me."

The nurse looked at Grandpa Wang and sighed helplessly. She could only process the paperwork for him.

...

Outside the hospital.

Lin Fan and the others were patiently waiting.

The surrounding crowd hadn't left yet. They were completely stunned by what they had just seen.

They felt that it had to be extremely painful to be pierced by so many acupuncture needles.

"Where are you from?" The townsfolk asked.

Qiu Jie replied, "We're from Shanghai. We're here to do voluntary medical work. There are no fees involved. As long as we can treat you, we'll attend to you."

Zhang Tong Tong and Qiu Jie were a little emotional. Although they didn't understand the condition of the previous old man, he had been coughing seriously. It didn't seem like a minor condition. However, he recovered almost instantly after Teacher Lin treated him. He actually stopped coughing and his face looked more vibrant. It was totally unexpected.

However, Zhao Ming Qing understood everything except one thing. That is, he knew about the individual functions of the acupuncture points but they produced a different effect when they were treated together. Why was that so?

He looked at the prescription.

His mentor didn't hide anything and he seemed like he wasn't bothered by it.

There were several different medications and some were completely random. It was very different from what his mentor had given him for his condition.

There was too much that he didn't understand. He wanted to ask him about it after returning back.

At the same time, Zhao Ming Qing was ecstatic. Chinese medicine had to be practiced and the key was to master the combinations of multiple Chinese medications. The human body wouldn't deviate too much from its core. Once he could understand the core of the human body, he would be able to resolve a lot of problems easily.

()

Then, Lin Fan looked at the entrance of the hospital.

"Alright, please take note. This time, there will be more people here. Get ready to record it down," Lin Fan chuckled.

When Zhao Ming Qing and the others heard it, they turned to the right and got stunned. There were a few patients in their hospital gowns that were walking over. Some of them even needed to be helped over. They looked like they were suffering from serious conditions.

Chapter 465: Things have gotten big

The in-patient department of the hospital sprang to life.

"Did you guys hear about it? There is a godly doctor that is giving free treatment at the entrance of the hospital."

A patient that was suffering from a serious condition and had spent a lot on his hospital bills said, "So what if it's free? Can he cure me?"

“He might really be able to. I just walked past the other ward and someone there was packing his things. He was preparing to be discharged. Furthermore, he really looked like he has recovered.”

“Really?”

“Yeah, I saw it with my own eyes.”

“He is Elder Wang, from that ward. He was the first one to visit the booth. He has been discharged. After that, the others went there too and now they’re preparing to be discharged.”

“Take it slow. Don’t be too anxious. This matter has not been spread around yet. Wait till we’re cured before we spread it to the others.”

Wang Xi Zhu’s friends wanted to just try their luck there. However, after going there, they realized that their health had improved greatly after being treated by the godly doctor. They were way better than before.

The key factor was that one was able to feel the effects almost immediately.

They felt that it seemed incredibly unbelievable.

At the same time, the godly doctor gave them some prescriptions and the medicine prescribed was cheap. As long as they took their medicine regularly, their illnesses would be cured.

...

Things had gotten big this time. Initially, Lin Fan had wanted to be low-key about it. He didn’t want the effects to take place so quickly. However, as he thought about it further, he realized that there was no need to be low-profile.

He wasn’t stealing or snatching anything and he wouldn’t be caught for that.

The Encyclopedia’s mystical boost was insanely powerful. The effects could be seen almost immediately and the patients would feel like their bodies have been changed.

The changes to their bodies only brought joy to them and that was what he ought to do.

Zhao Ming Qing had been in shock since the start. His eyes had not left his mentor. They knew some of the conditions of the patients but these conditions seemed to be no big deal for his mentor. It seemed like they were too easy for him. He cured them of their illnesses in a blink of an eye.

“Teacher, the patient’s condition earlier...” Zhao Ming Qing wanted to say that although the patient didn’t suffer from cancer, it was a condition that had a high death rate. His teacher had managed to use Chinese medicine and cure it within such a short timeframe and then prescribe medicine for the patient. Zhao Ming Qing was shocked.

“Don’t talk about it. Just watch,” Lin Fan knew that they were all amazed.

Zhao Ming Qing nodded. This situation made him wonder if Chinese medicine was a godly skill. He personally was not at that standard. However, his teacher was treating serious illnesses like they were nothing. It was becoming a scary situation.

Qiu Jie sighed, “There are more patients now.”

Zhang Tong Tong nodded, “Yeah, there wasn’t anyone earlier. There are more than ten people now.”

Although the two of them didn’t know what they were doing, they had been recording everything down in their notebooks. They felt that the content that they had written was an invaluable treasure in the world of Chinese medicine.

They were in luck to be able to follow their Director and Teacher Lin.

There were more and more people on the road and a lot of people stopped to see what was happening.

They felt that it was a bizarre situation. The Citizens’ Hospital was just there. But the sick people didn’t go to the hospital to see the doctors there. They were visiting this small booth to seek treatment instead. It didn’t make sense, especially because the voluntary medical workers looked to be Chinese medical doctors.

It wasn't because they looked down on Chinese medicine. They felt that Chinese medicine wasn't as powerful as Western medicine. Treatment of some illnesses was too slow and some were even too painful.

Time passed by slowly.

The news of the godly doctor outside the Citizens' Hospital started to spread in the hospital.

A lot of patients felt that it was unbelievable after hearing about it. Some of them didn't believe it. However, when they saw some of the patients packing up and preparing to be discharged, they were shocked.

The nurses in the hospital realized that a lot of patients were being discharged.

"What's happening today? Why are so many patients being discharged?"

"I don't know. Ward 805's patients have all been discharged. They look much better than before."

"I heard they're spreading rumors of the booth outside the hospital. They're curing illnesses for free and a lot of patients have gone there. Furthermore, when they returned from the booth, they started to process the paperwork for their discharge. They didn't want to stay here anymore."

"That can't be. A godly doctor at the entrance of our hospital? We are the Citizens' Hospital, who could it be?"

"I don't know. The Chief Nurse has already gone to report this to the Director. If this continues, everyone would leave this hospital."

At the Director's office.

The Chief Nurse rushed over, "Director, it's not good. A lot of patients are discharging and we currently don't know what is going on."

The Director was stunned when he heard it, "A lot of patients are discharging? Did something happen in the hospital?"

The Chief Nurse shook her head, “No, I don’t even know what the full situation right now. There are more than ten patients that have discharged. Also, these ten patients suffer from serious conditions.”

The Director remained silent, “Did they give up on treatment and thus decide to leave?”

“I don’t think so. I heard the nurses say that those patients were ecstatic when they were processing the paperwork for their discharge,” the Chief Nurse said.

The Director picked up the phone and called the doctors on duty, “Doctor Li, what’s the situation like over there? Why are the patients being discharged?”

Doctor Li replied, “Director, I was just about to tell you about it. I heard that there is a godly doctor that set up a booth for voluntary medical work at the entrance of our hospital. A lot of patients went there to seek treatment. After that, they came back to the hospital to process their discharge.”

“Rubbish. He can’t be so powerful that everyone got cured immediately. Quickly tell the nurses to keep the emotions of those patients in check. I will go to the entrance now to see who he is. This person dares to scam people at the entrance of a hospital. What are the security guards doing?!” The Director sounded a little angry.

This was the Citizens’ Hospital. How could they tolerate such an incident?

If something were to happen, their hospital would be doomed. Even if it wasn’t their personnel, the rumors would blur things out when they get spread to the public.

At the entrance of the hospital.

Lin Fan wrote down the prescription, “Take it three times a day. Drink one bowl of this with three bowls of water. I think you have to take it for two weeks to be cured completely. If you’re worried, you can come to the hospital every three days for a check-up.”

“No need, no need. Godly doctor, when you helped me with the acupuncture earlier, I felt so good. Initially, I thought everyone was talking rubbish and I didn’t believe them. Now, I believe all of it. I will remember to eat the medicine regularly,” the patient said emotionally.

He had been lying in the hospital for a month and his condition had been fluctuating. He had been extremely anxious.

However, it was different now. He felt that he was cured after seeing this godly doctor.

Of course, these were just the thoughts of the patient. His condition wasn't completely healed yet. He had to consume medicine to improve it.

Lin Fan silently accepted the nickname, 'Godly doctor'. He was indeed one. There was no problem with that.

"What are you doing?" Then, a loud and stern voice came from the right side.

The Director brought some people and went towards them.

He felt the need to stop this situation.

Chapter 466: Starting to take flight

Lin Fan looked at the man before him, then turned to those nurses and doctors behind him. He pointed at the patients in front, "We're treating illnesses."

"Treating illnesses? What illness? Which hospital are you from? Where is your medical certification?" The Director spoke sternly. He felt that these people were scammers. He had seen this kind of situation before and it worked because the patients were desperate.

The nurses persuaded, "Sir, please come back for treatment. This is where you belong. You have to believe that the hospital will be able to treat you."

The patient replied, "I am not going back. He is a godly doctor. A lot of patients have recovered after coming here. They've been discharged. I'm definitely not leaving."

The nurse hurriedly said, "No, their identities are unknown. All of you shouldn't believe in them."

The Director was extremely cautious. He looked at these three young people and the old man beside them. The main thing was that the old man wasn't the one treating the illnesses. How real could it have been?

"This is my medical certificate," Lin Fan took it out.

The Director looked at it closely and realized that it was real. However, he still didn't believe in him. It wasn't that difficult to make a fake certificate that looked real.

"I don't care. I'm going to call the police for them to handle this. I don't care if you guys are real or fake. You can't be harming people. If you delay their treatment time, are you going to be responsible for that?" the Director said sternly.

The patients couldn't stay there and do nothing. The previous patients had been completely healed by this godly doctor and they had witnessed the changes. Now that the Director was there asking him to leave, they couldn't bear to see him go. If this godly doctor really left, where could they go to seek treatment?

"Director, can you guys leave? We are here to seek treatment. You guys don't have a say in this. I spent \$60k on the hospital bills but what is the end result? I'm still hospitalized. You gotta give us some hope."

"Yeah, we're not blind. We know if it's real or fake. I am a farmer and I spent all my life savings on your hospital bills. If you're asking us to return to the hospital and give this a miss, are you going to give us free treatment?"

"Hey, godly doctor, ignore them. They are heartless people. Now that the godly doctor is here, they want you to leave. They just want us to stay in the hospital and take all our money. In the end, we won't be cured and we'll only be waiting for death."

Lin Fan was a little helpless. What could he say? If someone were to be hospitalized for a serious condition, the hospital bills would have been sky high.

However, he couldn't say that the Director was unreasonable. If the patients didn't have money to pay, the hospital allowed for delayed payment.

Zhao Ming Qing took out his certificates. "I am Zhao Ming Qing, from the Chinese Medical Association. These are my certifications, you can have a look."

The Director took his certificates and his face changed a little. One certificate was from the Chinese Medical Association and the other one was from Shanghai's First Chinese Medical Academy. It couldn't have been fake.

He spoke with a more neutral tone, "Director Zhao, if you come to our hospital's Chinese medicine department to be a doctor, we'll welcome you. However, if you are to treat patients here at the entrance of the hospital, that would be wrong."

Zhao Ming Qing replied, "Why is it wrong? The hospital treats patients and we're here to treat patients too. It's the same thing. What difference is there?"

Qiu Jie was a young chap and he was a little emotional. He said unhappily, "Our Teacher Lin has treated a lot of patients and he didn't charge any money. You guys saw his certification and we have proven our identities. If you don't want us to stay here, it just shows that you're afraid of the hospital losing money since we'll treat all the patients here."

When he said that, the hospital's Director became furious. He felt that it was too infuriating.

Zhang Tong Tong dragged Qiu Jie aside. She also felt that his words were too harsh.

However, Qiu Jie didn't feel that there was a problem. "I didn't say anything wrong. The hospital is here to save people. We're saving people too. Furthermore, they'd be spending a lot of money and they might not even be cured. We use Chinese medicine to cure them of their diseases. Why do you want us to leave? You're just afraid of losing all your sources of income when we treat all the patients."

"What are you saying?" The male doctor behind the hospital's Director said.

Lin Fan waved his hand, "Alright, stop arguing. Director, tell us what you want us to do then."

The Director said seriously, “You guys are kind-hearted. However, this is a hospital. You guys are affecting the operations of the hospital. At the same time, it will create a negative impact on them. I hope you guys can change locations. Is that okay?”

“That’s reasonable,” Lin Fan nodded. “However, I feel that it’s not possible. Today, I am here to treat everyone. Now, could you guys return to the hospital? Is that okay?”

Zhao Ming Qing and the others remained silent. They left everything to their mentor.

Regardless of anything that happened, they would definitely be on their mentor’s side.

The patients’ family members were anxious, “Can these doctors please return back? The godly doctor is giving us free treatment. We’re not affecting you in any way. Why are you chasing them away? I will record this down and post it online. You’ll see what happens.”

“That’s right. Our situations haven’t improved since we’ve been hospitalized here. Furthermore, our money has been drained like water. Can you please let us be treated here?”

“If you’re not leaving, we’ll all be against you.”

The patients were extremely agitated. It was as if they were going to kill the Director’s team if they didn’t leave.

Lin Fan looked and smiled. “Everyone, I suggest you leave. It’s okay. The hospital is just here and if anything happens, you can still come to the rescue.”

The Director furrowed his brows and turned away.

However, he wasn’t going to let them off like that.

“Go, call the city enforcement officers.” The Director didn’t want to care about it anymore. He wanted the city enforcement team to take over this matter.

...

“Alright, let’s continue,” Lin Fan said.

Zhao Ming Qing and the others weren’t really affected by this. They just did what they needed to do.

They recorded everything that was happening. This information would definitely be beneficial to their learning.

The patients were extremely excited. They finally saw a glimpse of hope.

They had seen at the positive changes of the patients that had already been treated by the godly doctor.

However, not long after, something happened again.

A city enforcement vehicle stopped nearby.

Then, four city enforcement officers alighted. They came over immediately after receiving the call. They received information that people were treating illnesses at the entrance of the hospital. Was that a joke?

However, when they came to the scene, they laughed. There were three young people with an elderly man.

They were definitely going to confiscate their tools and close the booth.

Chapter 467: Too shocking!

“So frustrating.” Lin Fan was treating patients and when he saw the city enforcement vehicle, he knew that the hospital had called it.

Besides them, who else would have called it?

“Teacher, the city enforcement officers are here,” Zhao Ming Qing said.

Lin Fan nodded. “Don’t worry, just record what you have to.” Then, he finished writing a prescription. “Remember, you can take this medicine in slightly larger quantities as your condition is quite serious. Don’t eat spicy food and always keep yourself warm.”

“Okay, I got it, godly doctor.” Initially, the patient was extremely lifeless but now, a significant change had happened. Although he couldn’t be said to be very lively, he was much better than he used to be. Unless you were a blind man, you’d have noticed it.

“Godly doctor, you’re a godly doctor indeed!”

“We just saw his condition earlier. He looked extremely awful. Now, he looks totally different!”

“I wish I had met this godly doctor earlier. Then, we wouldn’t have had to suffer so much.”

“However, it isn’t too late now. At least we have hope for our illnesses.”

...

Lin Fan hadn’t seen a cancer patient yet. However, if he were to meet one, what would he do?

If he really cured it, people would go crazy.

However, they were on a voluntary medical work mission. As long as there was an illness to cure, they’d definitely cure it. They were going to cure all the illnesses. He didn’t want to care about the comments after that.

slam

The leader of the city enforcement team came and slammed the table angrily. “Who allowed you guys to set up a booth here?”

Lin Fan raised his head and gestured towards Zhao Ming Qing. “Pass me four needles.”

Zhao Ming Qing was confused but he still passed the needles to him.

Lin Fan casually moved his hand and pierced the needles into an acupoint of each of the four city enforcement officers. Suddenly, they all froze and didn’t move.

“Sorry, I have to trouble a few of you to move these city enforcement officers away,” Lin Fan said calmly.

The family members were a little afraid of the city enforcement officers. However, they realized that they weren’t moving. Then, they went forward and moved them aside.

“Godly doctor, that was awesome!” The family members exclaimed.

Lin Fan smiled and didn’t say anything.

Zhao Ming Qing was stunned. “Teacher, what did you just do?”

“I used the acupuncture needles to pierce an acupoint. Do you want to learn that?” Lin Fan smiled.

Zhao Ming Qing nodded. That was awesome. He knew that there were acupoints that allowed people to be numbed for a little while. However, it was unbelievable to freeze someone totally. That could only be found in the fables.

“It’s useless even if you want to learn it. You can’t do it with your current ability. You have to learn as much as you can now and perhaps you might master it in the future,” Lin Fan chuckled.

Zhao Ming Qing felt a little sad. He didn’t expect to not be able to learn this. However, his mentor said that he might be able to master it if he continued learning. It was like a glimmer of hope to him.

Qiu Jie and Zhang Tong Tong were stunned when they saw this. They didn't expect Teacher Lin to be so powerful. They wanted to ask if they could learn it too but even Director Zhao couldn't and that meant that they didn't have any hope.

At that moment, the four city enforcement officers were frightened.

They realized that they couldn't move at all even if they wanted to. That was horrifying.

Then, they thought of those wuxia novels which involved the hitting of acupoints. Could it be that their acupoints were hit?

D*mn it.

When they recovered, they had to teach this fella a lesson.

Although the four of them couldn't move, their faces looked extremely angry.

At the hospital.

"Director, the city enforcement officers are here but they're just standing there. They didn't chase them away," a doctor that had been observing the situation reported.

The Director wasn't in a good mood. This matter had infuriated him. When he heard what the doctor said, he was stunned. "What? The city enforcement officers didn't chase them away and are just standing there now? What are they doing?"

"I don't know. They're just standing there. It looks as if they're just looking."

The Director was furious. What was the city enforcement team doing?

The nurse hurried over, "Director, something bad happened. All the hospitalized patients who can move have gone to the entrance of the hospital. Those patients that returned from the booth publicised it to everyone. Therefore, they quickly went there after hearing about it. As of now, there are already twenty patients who have processed their discharge."

“How could that be?” The Director was stunned. What was happening? If this were to continue, what use would the hospital be?

They couldn’t let it continue like this. If the media were to know, they’d laugh their a*s off.

The patients of Jiangning Citizens’ Hospital are all cured by a voluntary medical work team. The uproar that this news would cause was unimaginable.

However, the situation seemed abnormal. The city enforcement officers didn’t do anything even though they were there. What could they do?

They had to think of something.

...

The four city enforcement officers stood at the side and they couldn’t feel anything. If one were to stand still for so long, their legs would definitely be numb. They’d been standing there for a rather long time already.

Their angry faces were gone. They just looked dumbfounded

Because they couldn’t move at all, they could only stand there and watch. They realized that those patients who looked awful started to look better after treatment. It was an unbelievable improvement.

Shocking!

There were more and more townsfolk that gathered around.

They weren’t blind and they knew that it was a different situation now. Initially, they thought that they were scammers. However, these people treated the patients completely and there were drastic improvements. Anyone could’ve seen the differences.

“What time is it now?” Lin Fan asked.

“Teacher, it’s already 5 pm,” Zhao Ming Qing said.

Lin Fan looked at those patients and stopped. “It’s so late now. I guess we should go soon. Lil’ Jie, which hospital are we going to tomorrow?”

Qiu Jie said, “Master Lin, we are going to Jiangning Hospital tomorrow.”

“Alright,” Lin Fan nodded. Then, he said, “Everyone, the clinic is closed. Come to Jiangning Hospital tomorrow at 7 am. Alright, we’re tired from treating illnesses for the whole day. Let’s go now.”

The patients couldn’t bear for them to go but since the godly doctor had spoken, they couldn’t do anything about it.

“Godly doctor, we’ll be waiting for you.”

“You have to come.”

Lin Fan packed up and smiled, “Don’t worry, I’ll definitely be there tomorrow.”

He was really satisfied with everything. He even forgot how many patients he had seen.

Sometimes, he would be really satisfied with the sense of achievement that he felt after treating patients.

Then, he looked at the four city enforcement officers and took out the acupuncture needles from their bodies. He turned around and left with Zhao Ming Qing and the others.

“Wait...” then, a city enforcement officer spoke. He looked a little hesitant.

“What is it? You want to arrest me?”

The city enforcement officer shook his head and said, “No, I just wanted to ask something. My mum can’t move both her legs and is bedridden. Can you cure her?”

His eyes were filled with anticipation but he was also fearful. He was afraid that the godly doctor would say it was hopeless or he was still bearing a grudge about what had happened earlier.

“Should be fine. Come to the entrance of Jiangning Hospital tomorrow. I’m tired today. Sorry about making all of you stand still for the entire afternoon too,” Lin Fan said. Then, he waved his hand and didn’t look back. He yawned and massaged his own neck a little before leaving.

Chapter 468: I am Godly Doctor Lin

At night!

At the hotel.

Lin Fan was exhausted but Zhao Ming Qing and the others were still full of energy. They had been sitting there and recording the contents of the diagnoses.

Lin Fan helplessly asked, “Aren’t you guys tired?”

Zhao Ming Qing shook his head, “Not at all. I’m full of energy. Teacher, quick, tell us about what happened today. There are so many parts that I don’t understand.”

They were hungry for new knowledge.

“Alright, I’ll explain then. However, we have to sleep at 11 pm. You guys are so full of energy but I’m exhausted.” Lin Fan yawned. The cases in the day were simple to him but they were extremely difficult for Zhao Ming Qing and the others. If nobody explained it to them, they wouldn’t be able to understand anything.

8 pm.

9 pm.

...

11 pm.

Lin Fan's mouth was getting dry but Zhao Ming Qing and the others were still listening attentively. Their eyes were glimmering and they were ecstatic when they gained new knowledge.

At night.

There was a video being spread online.

It was about what had happened in the day at the Citizens' Hospital.

'Shocking Godly Doctor'

The next day.

Morning came.

The internet wasn't quiet anymore.

On a Jiangning web forum.

"Did you guys see today's news? There was a godly doctor at the Citizens' Hospital of Jiangning yesterday. He was giving free medical treatment."

"D*mn, really?"

“Yeah. I was there yesterday. You guys wouldn’t know about the situation yesterday. Most of the hospitalized patients were discharged after being healed by the godly doctor. It wasn’t because of the hospital’s treatment.”

“F*ck, that’s too unbelievable. Since when did Jiangning have a godly doctor?”

“Look, Jiangning Citizen’s Hospital made an announcement.”

“Yesterday, three men and a woman were doing voluntary medical work at the entrance of the hospital. May all the patients be cautious and not get scammed. Don’t delay treatment. Go to a proper hospital to seek treatment.”

“Rubbish. I was a patient who had been in the hospital for a month. My condition didn’t even improve. The godly doctor merely pierced some acupuncture needles into my body and I recovered instantly.”

“^ are you kidding? Better not be talking rubbish.”

“Rubbish? I’m speaking the truth. I can post a picture of my Hospital bills.”

“D*mn, it’s really true.”

...

At Jiangning Citizen’s Hospital.

The Director was there early in the morning but he didn’t see the people that had come the previous day. Then, he went to the security office.

The security officer immediately greeted the Director when he saw him, “Good morning, Director.”

The Director nodded, “Remember, if the people that came yesterday are to come again today, inform me immediately.”

The security officer replied, “Director, those people won’t be here. I heard that they’ll be going to Jiangning Hospital.”

After hearing that, the Director heaved a sigh of relief. It was as if he felt that if the people still came today, the hospital would lose all its patients. However, when he heard that they were going to Jiangning Hospital, he laughed.

He had finally gotten rid of those people.

They were switching places probably because they were afraid of the patients looking for them after ‘treatment’.

However, since those people had already left, he didn’t want to speak too much about it. He just wanted to secure his own hospital.

At Jiangning Hospital.

Lin Fan and the others wanted to save themselves some trouble and didn’t set up a booth right at the entrance of the hospital. They set up one across the road and even added a poster.

“Voluntary Medical Work. Free Treatment from Shanghai’s First Chinese Medicinal Academy.”

It was an idea thought of by Lin Fan. Zhao Ming Qing was his disciple and he was the Director of the Chinese Medical Academy. The academy wasn’t doing well and he wanted to boost its reputation

It wasn’t easy to be a mentor. He had to treat illnesses and boost the reputation of his disciple. Where else would he find such a good teacher?

He wouldn’t be able to find one anywhere.

“Godly doctor, godly doctor. You’re here!”

“We’ve been waiting for the whole night.”

The patients from the Citizens' Hospital yesterday had been queuing there since the night before. They had been afraid that they'd miss the godly doctor. They heaved a sigh of relief when they finally saw him.

Zhao Ming Qing smiled, "Teacher, your medical skills have convinced everyone."

Lin Fan waved his hand, "Gotta stay low-key."

Zhao Ming Qing nodded. He was excited about what was to come. He understood that his mentor had always been using Chinese medicine to treat illnesses even though he knew some Western medicine. He was raising awareness for Chinese medicine.

Qiu Jie and Zhang Tong Tong were ecstatic. They were feeling even better than yesterday. There were already a lot of patients early in the morning. They felt especially great when the patients called Lin Fan 'Godly doctor'. Although they weren't addressing them, they were addressing their mentor.

After Director Zhao had finished listening to Lin Fan's explanations the night before, they had approached him for more knowledge. They gained a lot of wisdom from that.

At the same time, they could finally accept that Teacher Lin was Director Zhao's mentor.

Teacher Lin had such powerful medical skills and he deserved to be Director Zhao's mentor.

At Jiangning Hospital.

The Director, doctors and nurses didn't even know what was happening at the entrance. They were continuing with their work in the hospital.

At a certain ward.

A few patients were lying motionlessly in their beds. They had been in the hospital for a very long time and their emotions were greatly affected.

Anyone would feel very suppressed if he/she were to stay in the hospital for a long period of time. Because they'd feel like they were nearing death.

At a certain ward.

A young lady was lying there. She was pretty but her eyes were lifeless. However, she was still smiling.

"Dad, Mom, Brother, and Sister, don't cry. I will recover." The lady was suffering from a serious condition but she was consoling her family members. Her eyes made her look like she couldn't bear to leave them.

Her family members were farmers. Her siblings were young but she was already twenty-seven. In Jiangning, she was preparing to have a stable life and improve the lives of her family members. However, the Gods played a prank on her and she caught a serious illness. It was something that couldn't be cured.

"Hui Hui..." Her elderly parents looked at her and started to cry.

Liu Jia Hui was a small actor but she could take hardships. She was willing to do anything and she was sincere. Her attitude had moved the director and she was allowed to be the second female lead in a television drama. She had gradually gained some reputation and she had felt that she was on the right track to fame.

Although she wasn't earning much, it was enough to raise her siblings. At the same time, she could let her parents have a good life.

"Hui Hui..." then, a voice came from outside the ward.

Liu Jia Hui looked out and smiled, "Why are you guys here?"

They were all her good friends and her colleagues. They had always wanted to become famous celebrities but they always depended on their own abilities and hard work to reach the top.

Liu Jia Hui smiled, "Why are you guys crying? I'm doing well!"

They shook their heads, “We heard from Auntie that you went to the Chinese medical doctor yesterday. Did the acupuncture needles hurt a lot?” They began to cry as they spoke.

They were all young and beautiful. They felt heartbroken whenever they thought of Jia Hui’s plight.

Liu Jia Hui smiled, “No, it wasn’t painful at all. You guys still have work. Hurry up and head back.”

“It’s okay. The director allowed us to come here. Also, the director and other team members will be coming tonight. You have to fight on! We’re right by you,” her good friends said.

However, they knew that her illness had no cure and it was hopeless.

“Sister Wang...” then, a middle-aged woman waved at Liu Jia Hui’s Mom.

Liu Jia Hui looked at her and nodded, “Auntie.”

It was the cleaner whom she had met after staying at the hospital. She had been talking to her.

“Quickly come over here for a moment.” The cleaner auntie was a little anxious. It was as if she wanted to say something that wasn’t pleasant to be said in the hospital.

Liu Jia Hui’s mum consoled her daughter, then went to over to the cleaner auntie.

“Sister Wang, I want to tell you something. Don’t tell anyone about this yet. There is a godly doctor outside the hospital’s entrance. He’s doing voluntary medical work and I heard his medical skills are superb. If possible, bring Jia Hui there and perhaps he can do something about it,” the cleaner said.

When Sister Wang heard it, she was a little emotional but the excitement soon vanished. “How could it be useful? Even the hospital can’t do anything about it.”

“Listen to me. I heard from my good friends over at the Citizens’ Hospital. The godly doctor was there yesterday and he cured a lot of patients. This matter had been reported online too but it hasn’t been spread yet. Listen to me and bring Jia Hui there. What if it works? Furthermore, if this matter

were to be made known to everyone, there would be even more people there. There aren't a lot of people now. Hurry up and go there," the cleaner said.

"Really?" Sister Wang was in disbelief.

"Yeah, do you think I'm lying to you? You should know about Jia Hui's condition. She could leave anytime and she's in so much pain. There's a chance for her to recover now, why aren't you taking it?" The cleaner knew about this but didn't tell anyone besides Jia Hui's mother. She felt that Jia Hui was pitiful.

She had come to Jiangning alone to look for a job and stayed in the basements before. She hadn't been able to live comfortably. Now that she was finally achieving something, she got ill. The only hope of the family was gone. Who would be able to handle that?

"Quickly go there. If more people were to find out about it, you might lose your spot," the cleaner said.

Sister Wang thought about it. "Alright, I'll bring Jia Hui there now."

"Okay."

...

Chapter 469: Do you want to be treated, or not?

In the ward.

"Mom, what did she say to you?" Liu Jia Hui tried to fake a smile and asked.

Aunt Wang shook her head and said, "Nothing much. Jia Hui, let me bring you out for a walk. Okay?"

“Okay.” Liu Jia Hui nodded. She didn’t like the feeling of being in the ward. She felt that she wasn’t going to live for much longer. She wanted to see the world more and breathe in some fresh air.

“Auntie, we’ll follow you along,” her friends said.

Aunt Wang nodded. Liu Jia Hui smiled. To Aunt Wang, she didn’t know how the outcome would be. However, it was her only hope and she didn’t want to give up on it.

Outside the hospital.

Lin Fan was giving his everything in order to complete the Encyclopedia’s task. He knew that completing the task would create a huge impact but he wasn’t bothered by it. If the impact was going to be huge, then let it be huge.

He was very capable and he wasn’t afraid of the consequences.

“Godly doctor.” The city enforcement officer came with his elderly mother.

Lin Fan raised his head and smiled. “Please queue up. It’ll be your turn very quickly.” Then, he lowered his head and helped to treat the patients. Zhao Ming Qing was observing the situation and Qiu Jie was recording what was happening.

The day might have been passing extremely quickly to them but they were going to reap great rewards. They were learning from practical treatment. It was the fastest way to help them improve their medical skills.

The city enforcement officer lowered his head, “Mom, is it cold?”

“No.”

Then, he said, “Mom, later on, when the godly doctor treats you, your legs will recover.”

He looked at the young chap that was treating the patients sternly. He suddenly thought of what had happened that day. He felt a little guilty. He thought of the modern doctors who claimed to be able

to cure diseases even though they had no idea how to do it. In the end, they'd be unable to treat any illnesses. He had encountered a lot of situations like this before. He was a low-ranking city enforcement officer and his salary wasn't high. He had almost emptied his life-savings to treat his mum's illness.

Initially, he had already given up on it. However, he didn't expect to meet a godly doctor which made him decide to try again.

Even if the godly doctor didn't accept his request the previous day, he would've begged for forgiveness no matter what. However, he didn't expect the godly doctor to agree with a smile after just one look at him. That smile still remained in his memory.

When he thought of his smile, he felt more comfortable.

"Thank you, godly doctor." The patient clearly felt better after being treated and the joy emanated from within.

"Take care of your medicine. Remember to take it regularly. Your illness isn't very serious but it's the kind that would be easily triggered. If you do not wish to suffer from a relapse, eat your medicine regularly," Lin Fan said.

"Next."

...

The city enforcement officer looked at Lin Fan, "Godly doctor, she is my mum."

Lin Fan looked at the person sitting in the wheelchair and looked at the city enforcement officer. "Actually, I wasn't going to treat her at first. However, I saw that you are a filial child. You should know what to do in the future."

The city enforcement officer was a little nervous after hearing his words. When he continued listening to him, he heaved a sigh of relief. Then, he nodded, "Godly doctor, I understand. I will definitely change and improve."

The city enforcement officer didn't have a good attitude like Liu Xiao Tian. He was a little violent.

Lin Fan read his fortune and saw that there were good and bad sides to him. He was also really filial to his mum, which was the reason why Lin Fan agreed to his request. If it wasn't for that, he wouldn't have agreed to it.

Zhao Ming Qing looked at her legs and said, "Teacher, is this situation like those of the children in the welfare institute?"

Lin Fan shook his head, "It's not the same. This was caused by old age. It is not as serious as those in the welfare institute."

The townsfolk were discussing amongst themselves.

"The godly doctor can heal someone like that?"

"It's hard to tell. She can't even walk. Do you think he can really cure her?"

Some townsfolk were broadcasting it live.

They immediately posted the video.

"Look, the godly doctor is about to treat a handicapped person."

In an instant, the people in the broadcasting room went crazy.

"Really? Where is this godly doctor?"

"Jiangning Hospital. If any of you have an illness, come here quickly. If you miss this opportunity, there won't be another time."

The matter attracted a lot of attention online.

However, it wasn't a big piece of news and it didn't cause a huge impact.

Lin Fan looked at her for a moment and thought of the treatment plan. "I am going to insert some needles. It might be a little painful but this is normal. Don't be too anxious."

He wanted to tell the patients what he was going to do before he did it to prevent them from being nervous.

The city enforcement officer said nervously, "Godly doctor, can my mum's illness be cured?"

Lin Fan nodded, "Of course. Just stand aside and watch."

The city enforcement officer nodded. He was extremely anxious. If his mum's legs were really curable, it would be a joyous occasion for him.

At the same time, he felt extremely lucky to have met a godly doctor.

"Baizhong acupoint, Xiyan acupoint, Qianchengshan acupoint, these few acupoints can stimulate movement in the legs," Lin Fan said as he continued treating her. Zhao Ming Qing just nodded.

Although he was an elderly Chinese medical doctor, to his mentor, he was like a baby that was learning how to crawl. His mentor's medical skills and treatment methods were extraordinary. If he hadn't seen it with his own eyes, he wouldn't have believed it.

Especially when he didn't know most of the treatment methods that he was using.

If he was the one that was treating the current patient, he wouldn't have been confident of executing the plan perfectly. However, he realized that the new treatment plan that his mentor was using was totally foreign to him.

"The five viscera and six bowels of the human body are linked. If the lungs have a problem, you might not need to look at the lungs. If the legs have a problem, you might not need to look at the legs too. The human body is extremely well connected. If one area has a problem, it might be affected by another area," Lin Fan said.

Perhaps the surrounding townsfolk didn't understand anything but Zhao Ming Qing understood it.

Zhao Ming Qing said, “Teacher, I understand.”

Qiu Jie and Zhang Tong Tong tried to understand it and remembered his words.

Even if they didn’t understand, they wanted to remember it. When they have the right amount of knowledge, they would understand the meaning behind his words.

Time passed quickly.

Lin Fan put the needles down, “The treatment has been completed. Your mum can feel her legs now. She should be able to raise them gently. However, she can’t walk yet. I will prescribe you with medicine. Just help to wash her legs with it every morning and night. At the same time, I will tell you an acupoint that you should massage. Help to massage it every morning and night too for a week. Then, she should be able to walk.”

The city enforcement officer was ecstatic when he heard that, “Godly doctor, thank you so much.”

Lin Fan waved his hand, “No problem. Alright, next.”

“Nobody left?” Lin Fan raised his head in disbelief. Then, he realized that it was another lady who was sitting in a wheelchair. Then, the lady was discussing with the others behind her. She looked a little doubtful.

Liu Jia Hui was a little puzzled. She didn’t know why her mum brought her here.

“Do you want to be treated, or not?” Lin Fan asked.

Aunt Wang immediately went forward, “Yes, yes...”

Chapter 470: You will regret this

Aunt Wang introduced, “Doctor, this is my daughter. My daughter...”

Lin Fan interrupted her and looked at Liu Jia Hui. “I know, you don’t have to say it.”

Then, Lin Fan frowned. It wasn’t because he didn’t expect to see a cancer patient. He just didn’t expect to see one today.

He just took a glance at her and he knew what was wrong.

Uterus cancer.

However, she was only in her twenties. How did she contract this illness?

This illness had a few different possible causes.

Firstly, it could be due to old age. This illness usually happens when a lady is forty and above. Secondly, it could be due to a stressful lifestyle. Thirdly, it could also be caused by smoking.

Liu Jia Hui realized that this young chap had been looking at her and she started to smile.

Her good friends looked at Lin Fan doubtfully and whispered, “Auntie, you are...”

Aunt Wang whispered, “I know what you want to say. However, all of you should know how Jia Hui’s situation is like. The hospital can’t help her. They said he is a godly doctor. I have to try it out no matter what. I just hope that Jia Hui can recover.”

Her good friends didn’t reply. They knew Jia Hui’s condition. It was a common and deadly illness among women. After contracting it, one would basically be unable to recover from it.

Especially since Jia Hui delayed treatment for some time. There weren’t any symptoms during the early stages of uterus cancer. However, when the illness progressed to a certain level, she experienced abdominal pain and blood flow. Initially, Jia Hui thought that it was an irregular menstrual cycle. Hence, she didn’t think too much about it.

However, the situation became worse. When she had found out about it, it was too late.

“Stretch out your hand, I’m going to measure your pulse,” Lin Fan said.

“Daughter, listen to the doctor. Let him have a look at you,” Aunt Wang said.

Liu Jia Hui looked at her mum and sighed. Since she was already there, she had to give in. She knew that she didn’t have much time left and she didn’t want her mum to be regretful. Hence, she stretched out her hand.

Lin Fan placed his hand on her wrist to measure her pulse.

He knew that it was cancer. If he was able to cure it, it would definitely cause an uproar. However, he couldn’t just leave her alone. A voluntary medical worker had to be fearless.

“Doctor, my daughter’s illness...” Aunt Wang started to speak. She wanted to tell him about her daughter’s situation but was interrupted by Lin Fan.

“You don’t have to say it. I know what it is,” Lin Fan said.

Aunt Wang and the others were stunned.

Zhao Ming Qing was obviously not at the level where he could just tell about someone’s illness just by looking at the person. He had to make some measurements and deductions before confirming it.

“Teacher, is there a problem?” Zhao Ming Qing asked cautiously after looking at his mentor’s stern expression.

Lin Fan whispered, “Uterus cancer.”

“Huh?” Zhao Ming Qing was stunned. It was as if he was in disbelief. It wasn’t because he didn’t believe that this lady had uterus cancer. He was shocked that his teacher looked like he was going to treat the illness.

“Teacher, can it be treated?” Zhao Ming Qing asked carefully.

It wasn’t a minor disease or a weird disease. It was cancer.

If his mentor could cure it, they might really run into trouble in the future.

That didn’t mean it was anything bad. They were probably going to be extremely busy in the future.

Lin Fan nodded and didn’t say much. It was obvious that he meant that he could cure it.

Zhao Ming Qing looked at his mentor in shock. Then, he looked at the patient and her family member. Lin Fan was a young doctor and he couldn’t just let her die. However, he knew that if he were to save her, things would be extremely complicated next time.

“Teacher...” Zhao Ming Qing wanted to tell him to not heal her yet. They could arrange for another time with her family members and treat it separately. However, before he said anything, Lin Fan waved his hand. “Alright, you don’t have to record this down. Your current abilities cannot reach this level.”

“Okay.” Zhao Ming Qing nodded.

Lin Fan was a little hesitant. Then, he realized that he didn’t have to be worried. He was really that capable and he wasn’t afraid of anything. Everyone would be amazed by him.

“What are you doing?” Then, a middle-aged doctor in a white robe came. He was Liu Jia Hui’s main doctor. He had gone to the ward and realized that she wasn’t there. Then, he began to search everywhere for her. When he found out that she had left the hospital, he came to look for her personally.

He was unhappy when he saw that her family member brought Jia Hui to seek treatment from another doctor. At the same time, he felt that these people were diving into something that they didn’t know anything about.

“Director Shen,” Aunt Wang greeted politely when she saw who it was.

He was the main doctor of her daughter. The one that had been responsible for her daughter's condition. Although it wasn't improving, they obviously didn't want to offend the doctor.

"What are you doing?" Doctor Shen asked. Then, he looked at Lin Fan. "Who are you? Which hospital are you from? Why are you here to treat patients?"

Lin Fan was a little p*ssed. What was going on? He had admitted his mistake for setting up a booth outside the hospital yesterday. However, he was across the road today. The doctors weren't even involved in this.

"Treating an illness," Lin Fan said casually. "Do you guys want to continue?"

Aunt Wang was a little hesitant. The main doctor was here and if she said she was going to continue, it would definitely anger the main doctor and perhaps he wouldn't try his best anymore in the future. Hence, she was hesitant and didn't know what to say.

"Treating an illness?" Show everyone your medical certificate. Did you guys find the wrong place?" Doctor Shen said sternly. "Also, you guys are Chinese medical doctors?"

Lin Fan nodded, "Yeah. What's wrong with that?"

Doctor Shen laughed disdainfully as if he looked down on Chinese medical doctors.

"Mum..." Then, Liu Jia Hui's forehead was filled with cold sweat. Her face turned pale and she raised an arm, trying to grab onto her mum's hand.

Aunt Wang was anxious, "Daughter, what's wrong?"

The pain was excruciating for Liu Jia Hui. She could only consume medicine to reduce the pain. However, it was extremely expensive as it was imported. However, Aunt Wang didn't want her daughter to suffer like that. She had to buy it no matter what.

However, Liu Jia Hui skipped the medicine sometimes. To her, she didn't want to waste money on medicine since she felt that she was already going to die.

Liu Jia Hui's good friends were all stunned. They didn't know what to do and looked at the doctor.

The townsfolk were shocked when they saw it. "Godly doctor, quick, take a look at her."

"It's relapsing," Lin Fan said.

Doctor Shen said, "Quick, send her to the hospital and inject some painkillers."

Then, the townsfolk said, "You need at least ten minutes to get to the hospital. The godly doctor is here. You should let him see her. She doesn't have to travel so far."

"Yeah."

"Godly doctor, look at how pitiful this lady is. Quickly have a look at her."

The townsfolk were passionate. When they saw the lady in pain, they would've charged forward if they were capable of saving her.

Lin Fan shook his head and stretched out his hand to press onto her abdomen.

Doctor Shen immediately went forward trying to stop him, "What are you doing?"

However, he couldn't have stopped Lin Fan. "You're so strong..."

The city enforcement officer was tall and muscular and he shoved Doctor Shen aside. "Get lost. You're wasting time. Don't interfere with the godly doctor's work. Since you guys can't treat her illness, let the godly doctor do it."

"Why are you still standing here? If you're not going to leave, I'll beat you up."

The city enforcement officer looked at him angrily. It was as if he was going to punch him if he continued to stay there.

cough Lin Fan coughed gently.

“Godly doctor, I was just scaring him,” the city enforcement officer chuckled. The godly doctor was his benefactor and he didn’t dare to go against him. Then, he glared at Doctor Shen, “Get lost!”

Doctor Shen furrowed his brows, “You... you... You will regret this.”
