

## Valkyrie 111

### Chapter 111

The next question is even more interesting. The title is: "You are a first-grade alchemist. When you were practicing in the Demon Ancestral Mountains, you were accidentally hurt your arm by the white blade poisonous spider, the poison of the white blade poisonous spider Invading rapidly, your arm quickly loses consciousness, and the toxins are spreading towards your heart at an alarming speed. At this time, you have no other antidote drugs on your body, and the nearest city is also a thousand miles away. , What would you do? Why do you do it?"

Interesting, really interesting!

Seeing these two questions, Qin Chen couldn't help nodding frequently.

The person who made the question is definitely a very thoughtful pharmacist. These two questions seem simple, but in fact they both hide a huge murderous intent.

For example, in the first question, Ambergris is a third-order elixir. As a pharmacist, when you see Ambergris, you will definitely choose to take off Ambergris. Smarter students will write to observe the surroundings carefully and check Is there any danger in the end?

But in fact, these answers are all wrong. Ambergris is the favorite elixir of the third-order monster Huan Luo Beast. It and the Huan Luo Beast exist almost together, and the fragrance of the century-old ambergris can only Passing fifty meters, and you can smell the fragrance, it means that you are already in the confusion of Huan Luo Beast, the only way is to take Po Huan Dan immediately, then turn around and run.

As for the second question, it is also very interesting. The white blade poisonous spider is a highly poisonous monster with a strong toxin. Once it is invaded by the white blade poisonous spider toxin, it must be detoxified in a very short time, otherwise the toxin will be rapid Infiltrate the internal organs of the warrior, causing paralysis and even fall.

This question assesses the ability of a pharmacist to deal with emergencies. After all, to survive in the wild will encounter many problems. Whether a pharmacist has the ability to solve emergencies is extremely critical.

Rustle!

With the pen tip wandering, Qin Chen quickly wrote down the answers to questions.

After half an hour, Qin Chen had already completed the answer to the entire test paper.

After a brief review, Qin Chen stood up after finding that there were no errors or omissions.

"What does this kid want to do? I don't know how to answer. I want to quit?!"

"Hmph, I knew he was writing indiscriminately, now I know it's difficult, I want to give up."

"Withdrawal from the exam midway, this is a very bad thing."

"Definitely will be severely punished."

When the other candidates saw this scene, they all sneered.

Sure enough, Pharmacist Chen Mu was in a bad mood, and when he saw this scene, he immediately shouted angrily.

"Boy, what are you doing, disturbing the discipline of assessment, do you know the consequences?"

When he slapped the table, Chen Mu stood up suddenly, as long as Qin Chen didn't give him a reasonable explanation, he must teach Qin Chen a lesson today.

"Pharmaceutical Chen Mu, I have finished answering and handed in the paper ahead of time. Isn't this also possible?!" Qin Chen frowned.

"Answer... the answer is over..."

Chen Mu was taken aback, dumbfounded.

Ouyang Cheng was also dumbfounded. It was only half the time that he had finished answering? Are you kidding me?

"Hand in your test paper." Chen Mu snorted coldly.

Qin Chen handed in the test paper, and as expected, it was densely packed with answers. Chen Mu had nowhere to be troubled, and his gums were itchy with hate.

This kid must have written some answers at random. Damn it.

If he has a lot of time, he will be able to raise a challenge, but he has written all the answers. He wants to raise a challenge, but he has no chance.

"You go out."

Chen Mu said unhappy.

"When will the assessment results be announced? Start the next round?" Qin Chen asked again.

It's okay for him not to ask, after asking, Chen Mu almost didn't blow up with anger.

You said that you are a random answerer, asking when does it make sense to announce the results? Does it have anything to do with you?

I actually asked the next round of starting time. Only by passing each round of assessment can you enter the next round. You couldn't pass the first round. Where did the next round come from?

"Go out and wait for the result. After the paper is handed in, we will review it. If you pass the first round of assessment, we will naturally notify you. If you fail to notify you, you have failed the assessment. You can go."

After suffocating these few words, Chen Mu was almost out of breath.

Nodding, Qin Chen left the examination room.

"This kid is too lawless. It's okay for him to leave now. If he doesn't leave, I will find that I am answering the questions indiscriminately, depending on how I clean up him, and I want to participate in the next round without looking at my own virtues." Chen Mu was trembling with anger.

"Okay, Brother Chen, calm down, don't we see such people? There are noble pharmacists, and there are not a few people who want to try their luck to become pharmacists. Every one of us will get angry. Where can we be born."

Ouyang Cheng smiled and said: "Come on, anyway, I'm free now, let's review this kid's exam paper."

"I want to review your review. What this kid can write is probably a zero point. Throwing directly into the trash can is the end of this test paper." Chen Mu showed disdain, too lazy to look at Qin Chen's test paper.

Walking out of the examination room, Qin Chen stretched his waist.

The first round of passing is no problem at all. I just hope that the review will end soon and enter the next round.

"Hey, why did you come out in half an hour? The assessment is not over yet, right?"

Guan Wei Luo and Huang Yuling were chatting, and when Qin Chen came out, he was taken aback, and immediately glanced suspiciously at the wall clock above his head.

It is indeed only half an hour past.

"Luo is in charge, you need to ask, it must be because this guy has no confidence in completing the test questions, and gave up on herself." Huang Yuling looked disdainful.

I already knew that this kid was here to attract my attention, and he pretended to test the pharmacist in front of him, haha, now he was exposed, and he was kicked out before half an hour, and he didn't feel ashamed.

Isn't this woman abandoned by the man? Why are you so angry.

Qin Chen glanced at Huang Yuling speechlessly. As soon as he entered the Pill Pavilion, this guy was like a resentful woman, chirping constantly.

Too lazy to bother, Qin Chen found a table in the rest area to sit down and closed his eyes to calm himself.

"You..." Huang Yuling gritted her teeth when Qin Chen ignored her.

"Hmph, this kid is not leaving yet, do you want to wait until the first round of assessment is over to announce the results?"

Manager Luo shook his head and sneered. Now is a good opportunity to leave. Pharmacist Chen Mu and Pharmacist Ouyang Cheng don't have time to pay attention to him. Once the boy wants to leave after handing in the paper, I am afraid it will be too late.

Assessment room.

Ouyang Cheng lazily picked up Qin Chen's test paper, looked at the first question, and was about to cross it casually.

The tip of the pen just fell, but suddenly he froze.

"This....."

He stared at Qin Chen's test paper and quickly glanced at Qin Chen's test paper, his gaze swept randomly, and the more he went down, the amazement in his eyes grew stronger, and his mouth suddenly widened, as if he had seen a ghost.

Chapter 112

"Well, I'll just say that this kid wrote indiscriminately."

Seeing Ouyang Cheng's wide-eyed eyes, Chen Mu sneered.

Ouyang Cheng actually wanted to review that kid's test paper. With this energy, it would be better to sleep. What you need to do without throwing the trash can is pretty good.

"No, Brother Chen, come and see..."

With a shocked face, Ouyang Cheng's lips trembled and he could hardly speak.

"What's so good about this!"

Random writing, can that kid still write flowers?

Chen Mu's face was full of disdain, but when he saw Ouyang Cheng's expression, he was quite curious. Ouyang Cheng has always been extremely stable. How could he be so excited when he saw a test paper destined to be zero?

With his head tilted, his gaze fell on the first question of the test paper, and as he was about to make a mockery, Chen Mu was stunned.

The answer is actually right!

impossible!

Look hurriedly at the next question.

Still right.

The third question.

Correct!

After reading seven or eight questions in a row, they were all right.

"how can that be?!"

Chen Mu was completely dumbfounded.

Obviously this kid is only fifteen or six years old, how can he have such an amazing talent in pharmacy? Every question is actually right, and no mistake can be found.

"He must have cheated just now."

A thought came up, and it was quickly denied.

If Qin Chen really cheated just now, based on his and Ouyang Cheng's perception, would he not be able to find out?

Could that kid be a genius at refining medicine?

Chen Mu was instantly messed up.

Thinking of what he said to Qin Chen just now, his face suddenly felt hot, and his face was beaten too hard.

The review of the questions continued, and soon the review of the fifty basic questions ended.

Correct, correct, or correct.

Chen Mu and Ouyang Cheng looked at each other and explained with a stunned look.

These fifty basic questions cover all aspects of refining medicine and are very complicated. Even if you change to them, you may not be able to do all of them if you are not careful.

A fifteen or sixteen-year-old boy actually did everything right, what's the joke?

"Next is a comprehensive question from Master Liu Guang. I wonder how this guy answered?"

When it came to the comprehensive question, Chen Mu's heart moved.

The previous is some basic knowledge. Even a farmer can answer by rote memorization.

However, the comprehensive question is different. It tests the comprehensive quality of a candidate in refining medicine.

In particular, the questions asked by Master Liu Guang are often analyzed from the perspective of a pharmacist. The angle is very tricky. If you don't have enough experience in pharmacy, you can't answer it at all.

This is why every time Master Liu Guang puts out a question, the pass rate of the assessment is so low. The reason why it is difficult is that it is difficult to deal with this comprehensive question.

This first question is exactly that of Ambergris.

I saw Qin Chen wrote: "A hundred-year-old Ambergris is often accompanied by Tier 3 Phantasmal Beasts, and its scent can only spread over 50 meters. The alchemist found that he smelled the scent of Ambergris from a hundred meters away. It shows that he has been confused by the illusion of the third-order Eudemons and is in extreme danger. In this case, he must take out the Pill Breaking Pill as soon as possible to get rid of the illusion and confusion of the Eudemons, and take the fastest Evacuate the Huanshou's environment at a speed..."

"This... actually did it right!"

Seeing this, Chen Mu was dumbfounded.

This question is very tricky, even if he hastily, he may not be able to find out the clue, but Qin Chen did it right.

The answer written by Qin Chen is exactly the standard answer given by Master Liu Guang.

"No, there is still content below this."

Suddenly, Ouyang Cheng whispered, and saw that Qin Chen hadn't finished answering here, and continued to write: "After leaving the illusion area of the Huan Luo Beast, you can find a herb with three purple leaves nearby. , Hold it in your mouth, and then rush into the illusion area to pick ambergris, you can withstand the illusion impact of the phantom within twenty breaths, and leave safely."

Ga, what's the answer?

Chen Mu and Ouyang Cheng were taken aback. The answer behind this was not among Master Liu Guang's standard answers.

"Three purple-leaf herbs, does he mean the three-leaf hydrangea? The three-leaf hydrangea is indeed a herb that can relieve minor illusions, and it is very similar to the growth environment required by ambergris, and the two are often separated It's very close, but the effect of Sanye Ziyang grass is not even as good as the magic pill, and it can't withstand the mental impact of the third-order Huan Luo beast. If you go back, isn't it looking for death?!"

"It's a pity, it's a pity."

"Obviously, I have answered it correctly, so I have to do it again."

"This is really..."

Ouyang Cheng and Chen Mu shook their heads.

Qin Chen's answer to the first half of the answer was quite correct, but he had to superfluously add to it.

Hit a cross, Ouyang Cheng regretted it.

Chen Mu breathed a sigh of relief, and the burning sensation on his face suddenly eased a lot.

That kid is really young and not experienced enough.

Then his eyes fell on the next question.

"I will evacuate for the first time, look for the spider king grass nearby, and then mash the spider king grass, mix it with the blood of the white blade poisonous spider on the weapon, and apply it on the wound. If the white blade poisonous spider has not been injured before If there is no blood of the white blade poisonous spider, pick some young leaves of the birch tree to replace the white blade poisonous spider blood and apply it on the wound. After finishing it, follow the trail of the white blade poisonous spider walking to find its cave , Kill it, remove the demon core of the white blade poisonous spider, crush it and swallow it."

Seeing Qin Chen's answer, Chen Mu and Ouyang Cheng shook their heads again.

Chen Mu even laughed, "Haha, that kid is wrong again. The correct answer should be to seal the three points of Tanzhong, Dovetail, and Xinjue. At the same time, he found the Spider King Grass and swallowed it. Where the spider is, there must be spider king grass, and after the spider king grass is swallowed, it can slow down the spread of toxins by ninety-nine percent, so that even if the nearest city is thousands of miles away, you can still go for treatment. Although this kid thought of Spider King Grass, he was completely wrong."

"Pity."

After hitting a cross, Ouyang Cheng and Chen Mu turned to the third question.

There are ten comprehensive questions, and Qin Chen's answer is slightly different from the correct answer every time.

A few minutes later, the two had reviewed all the questions.

"Seventy minutes."

In the end, the score was calculated, and it was far from passing 90 points.

Chen Mu let out a long breath with a relaxed expression on his face.

He was really frightened just now, thinking that Qin Chen was really a genius of refining medicine, and he was ashamed to find a place to sew it down.

Now it seems that Qin Chen just relied on rote memorization and memorized all the basic knowledge abruptly. When it was his turn to deal with things, he didn't know what to do.

Such a person is just talking on paper, boasting, and there is still a long way to go before becoming a true pharmacist.

Chapter 113

Jingle Bell!

Soon, it was time to hand in the papers.

"The topic this time is so difficult."

"Especially the comprehensive questions at the back, it seems that this time it's out of play."

"God, why am I so unlucky!"

The examiners all frowned, sighed, and handed in the test papers.

"Go out and wait outside. If you pass the assessment, you will be notified of the next round."

After Chen Mu and Ouyang Cheng drove the candidates out, they started to approve the papers separately.

"Wrong, wrong again."

"I didn't get a score for the comprehensive question. Who is this guy who dares to come and participate in the assessment?"

The more they changed, the more they frowned and the more angry they became.

The quality of this batch of assessments is really too bad, even if it is difficult for Master Liu Guang to give the questions, it won't be the answer.

"Chen Mu and Ouyang Cheng, the first round of assessment is over, how many people passed?"

At this moment, a brown-haired old man walked over, wearing a gray-brown medicine alchemist robe, embroidered with a furnace tripod on his chest, with a silver border on it, representing the rank of the second-rank alchemist.

"Master Liu Guang."

The two hurriedly stood up, and the person here was the chief examiner for the appraisal of the pharmacist, the deacon of Pill Pavilion, and the second-rank pharmacist Liu Guang.

"Master Liu Guang, you are here, and how many people can pass the test paper you issued, and can get more than 60 points in the test, even if it is excellent!"

Chen Mu and Ouyang Cheng laughed bitterly.

"Hmph, although my question is a bit tricky, it's not difficult. It only requires careful analysis. Any pharmacist of the first grade can answer the correct answer. As long as the answer is wrong, it is not because of insufficient knowledge or not enough care. If such a person is Passing the assessment will only be a shame to our Dange."

Master Liu Guang sneered.

In addition to strength, the most important thing for a pharmacist is to be careful. After all, refining the pill is too serious. Once there are any mistakes, the refining is still good, and it is a sin to eat the dead.

"Let me see!"

Picking up a stack of test papers at random, Master Liu Guang looked at it, and at this look, he held back a sneer.

"Look at this guy, he can't even tell the difference between sheep chrysanthemum and yang chrysanthemum. One is a medicine that purifies the heart and nourishes the lungs, and the other is a highly toxic substance. If this kind of person passes the examination, he will refine the pill in the future. If you make a mistake, whose responsibility?"

"Also, there are six techniques used in the extraction of the remaining sin fruit. He only wrote down five, but the most important one is missing. He can't even extract the effect of the medicine. How to refine the pill?"

"Huh? This... seventy points, it seems to be a better grade, what? The basic questions are all right!"

After flipping through several test papers, Liu Guang was startled when he saw one.

His score of seventy points was not high enough. What shocked him was that all the basic questions were correct.

"This is written by an arrogant kid. He is not even a pharmacy apprentice. He actually wants to come to test a first-grade pharmacist. If it weren't for the rules of the pill pavilion, I would have driven him out a long time ago, but it was by rote memorization to get the correct answer. Some questions don't make sense for the comprehensive writing in the back."

Chen Mu saw that it was Qin Chen's test paper, and couldn't help mocking.

"Oh? Who, who is not even a pharmacy apprentice, also came to test the first-grade pharmacist, but all the basic questions are correct, and the comprehensive questions don't work? Let me see!"

Liu Guang got interested, opened the test paper and looked at the comprehensive question.

"Ok?"

At this look, Liu Guang's eyes were startled and he exclaimed suddenly.

"this is....."

He looked at the first question, his expression excited, his eyes protruding, as if he was going to be seizure.

"Master Liu Guang, you have also seen it. Although this son has analyzed the factors of the phantom beast, he still allows people to take three-leaf hydrangea to pick ambergris again. Isn't this seeking a dead end?" Chen Mu mocked.

"Wonderful, wonderful!"

Unexpectedly, as soon as he spoke, Liu Guang jumped up, his eyes were excited, and his hands trembled, "I actually thought of using the three-leaf hydrangea to enhance the efficacy of the magic pill, resist the attack of the monster beast, and successfully picked ambergris. This answer is even better than the answer I thought of. It's amazing to get out of danger and get ambergris."

Liu Guang was amazed again and again, his face flushed and extremely excited.

"Master Liu Guang, what are you?" Chen Mu and Ouyang Cheng were startled, confused: "Doesn't the trifoliolate hydrangea only relieve minor hallucinations? If he did this, it was tantamount to looking for death, why..."

"What do you know!" Liu Guang scolded and exclaimed: "The effect of Sanye Ziyangcao is indeed to dispel minor hallucinations. The effect is only one-fifth to one-tenth of that of Pohuan Pill, but it can be shortened. The effect of Pill Breaking Pill is increased within a period of time, and the effect of Pill Breaking Pill is more than doubled. The only offensive method of Huan Luo Beast is mental shock, as long as the ambergris is picked within 20 breaths exerted by the effect of Sanye Ziyang Grass. Incense, there will be no danger at all."

"Eh? So, did he get this question right?" Ouyang Cheng said in amazement.

"It's more than doing it right, but it is twice as good as the answer I gave. This is the true standard answer."

"hiss!"

Ouyang Cheng couldn't help taking a breath, and Chen Mu was stunned.

"Let me see the next question."

Liu Guang ignored their expressions and hurriedly looked at the next question. At this look, he was shocked again.

"Mix the blood of the spider king grass and the white blade poisonous spider, or use the tender leaves of the birch tree to replace the blood, smear the wound, and then kill the white blade poisonous spider, this... my god, how did this guy think of such a The way?"

"Master Liu Guang, is this also correct?" Ouyang Cheng's mouth twitched.

"It's more than right, it's perfect." Liu Guang was mad, shocked, and explained: "The blood of the white blade poisonous spider contains highly poisonous, but the spider king grass can neutralize the toxin in the white blade poisonous spider blood. Putting it on the wound will make the white blade poisonous spider toxin invading the body ineffective within a few hours. In addition, the leaves of the birch Ye tree also have this effect, but the time is shorter."

"But this toxin still hasn't been relieved, and what kind of ghost is the demon core that swallows the white-bladed poisonous spider behind? Although the demon core can refine the pill, the energy in it is very mixed and swallowed directly. Isn't this looking for death? "

"You know what a fart." Master Liu Guang scolded, "The strongest thing about the White Bladed Venomous Spider is its poison. As long as it is not afraid of its poison in a short period of time, any human-level warrior can kill It kills, and although the demon core of the white blade poisonous spider has mixed energy, combined with the spider king grass, it can completely eliminate the toxins remaining in the body. That is to say, this person not only clears the toxins, but also kills the white blade poisonous spider If you get the materials on it, you can make a lot of money."

"This answer is almost ten times better than the answer I thought. It's a perfect solution. I'll go. You actually gave a zero point for this answer, pig brain?"

While talking, Liu Guang looked at the third question.

"Pop!" With this look, Liu Guang slapped his thigh suddenly, as if he was crazy.

"Wonderful!"

#### Chapter 114

"When I encounter the flame lion, there is actually this way to get out. This method, when I designed this topic, didn't think of it. It is much easier than the method I set down."

"There is also the question of using Ashweed to decompose the toxin of the silver ring scorpion. How did he come up with it?"

"And this one..."

For a while, Liu Guang was completely shocked by Qin Chen's answer.

In fact, every question he designed has a fixed answer in his mind, and this fixed answer is also the best solution he thinks.

But after he saw the answer given by Qin Chen, he realized that someone had solved the problem he set up with a better method for the problem he designed.

This feeling, like a divine enlightenment, made Liu Guang extremely excited.

If it's a problem, it's okay, but so many problems are solved perfectly, it can be seen that the other party's combination of elixir and various species has reached a level of proficiency, even above him.

"Such an answer, you actually crossed it, and it's really annoying to me."

Picking up the marking pen, Liu Guang quickly corrected it at the place where Chen Mu and Ouyang Cheng marked it.

It was okay if this was not revised. After a revision, the three of them were all startled, their eyes almost falling to the ground, it was incredible.

"How can this be... actually... it's all right?"

There is almost no error in the revised test paper, full marks, all correct!

"Genius, genius!"

Liu Guang trembled with excitement. If it were just an ordinary full score, he might not be so excited, but the other party was sublimated on the basis of his answer, and he actually did it all right, which is incredible.

"Let me see, what is the name of this candidate? Qin Chen, what about the others? Call him in immediately and let him participate in the second round of assessment. I want to see how this person is in actual operation!"

Clenching his fists, Liu Guang trembled all over.

This is a person called Qin Chen, who is so strong in theory, as long as he reaches a general level in practical operation, he can be recruited under his command.

Once such a genius is cultivated, it is not impossible that it will reach its own height in the future.

"not good!"

Hearing Liu Guang's words, Ouyang Cheng's shocked expression suddenly woke up and stood up abruptly.

"what happened?"

"Master Liu Guang, before you came, we had sent someone outside to inform the results of the first round of assessment. Qin Chen had already been eliminated after 70 points of the exam, maybe he has already left."

"What? What did you say?" Liu Guangqi almost slapped and slapped Ouyang Cheng: "You are still not a pharmacist, are you able to test others?"

Such an awesome candidate actually only gave him seventy points, and he was driven away without passing the first round. What happened to Ouyang Cheng and Chen Mu?

"we....."

Ouyang Cheng and Chen Mu blushed, unable to speak for a long time.

They can't say that they didn't show the other side a good face because they were upset at seeing that kid, right?

In this way, one's own medicine ethics will not work in the first place.

But if you say that you correct the error because you don't see the subtlety of the other party's answer, it will be even worse.

Doesn't this mean that he is not as good as a teenager in pharmacy?

Suddenly, the two of them flushed red, hot and painful, and they wanted to pierce through.

"Okay, go out with me right away to see if Qin Chen has left. If he does, I want you to look good."

With a roar, Liu Guang walked ahead and hurried out.

Just as Chen Mu and Ouyang Cheng said, when Liu Guang checked Qin Chen's test paper, a pharmacy apprentice next to Ouyang Cheng had already arrived outside the examination room.

Outside the assessment room, everyone was talking and talking, and it was quite noisy. After seeing the people coming, everyone looked at him.

"It's the medicine boy Wang Jun next to Master Ouyang Cheng."

"This person is also a pharmacy apprentice, but with good luck, he was favored by Master Ouyang Cheng six months ago and studied with him. I heard that after only six months of studying, this person has been promoted from an intermediate apprentice to a senior apprentice."

"It's great to be able to learn from a pharmacist. The speed of improvement is naturally fast."

"Hush, Wang Jun will definitely announce the results when he comes out, everyone is quiet."

"I'm so nervous, I just want to pass the first round."

Everyone talked a lot, and they were all very nervous, looking at the incoming people eagerly.

"Now that the first round of assessment results come out, you are still so calm. After seeing the results of the meeting, can you continue to calm down?"

Huang Yuling looked at the expressionless Qin Chen and couldn't help but smile coldly.

At this time, he was still so calm, the mental quality of this person is really good, oh, in other words, he is really thick-skinned.

As an ordinary person, knowing that he couldn't pass the test at all, how could he sit here with such peace of mind, I have long been ashamed of what to do.

But he was so calm, as if he could really pass.

It's too special to install.

"After the corrections of tutor Ouyang and Master Chen Mu, the results of the first round of written examinations have been released, and I will announce them now." Wang Jun took out a piece of paper and said loudly, "The one who passed the first round of assessment is Lin Yuan, Ninety minutes."

"Ah, it's me, it's me!"

A middle-aged uncle in his thirties and forties jumped up and his eyes flashed with excitement, "Haha, I have taken the test fifteen times. This is the first time I passed, and I passed the test of Master Liu Guang. so amazing."

Everyone around looked at him enviously, with fiery eyes.

Being able to pass the first round of assessment shows that the distance to become a first-grade pharmacist has taken the most solid step. As long as you are lucky, passing the next two rounds is not a big problem.

"Okay, be quiet." Wang Jun frowned and waved, everyone was quiet.

"The second one, Sun Yuan, ninety minutes."

"it's me!"

When the voice fell, a young man who looked like a thin monkey jumped out with surprise on his face, and the corners of his mouth were full of flowers.

"The third one, Xu Jing, ninety minutes."

A woman in her twenties and thirties, with a pretty face, walked out proudly.

She was not as excited as the two before, as if extremely calm, but the expression in her eyes still exposed her inner excitement.

"Fourth, Zhou Tao, ninety-one points."

"Hehe, I know that I will pass the appraisal of the pharmacist this time."

A young man in his early twenties came out with a calm expression and a smile on his mouth. Between his brows, he was full of confidence, as if he had already known he would pass.

"It's Zhou Tao."

"So young, I heard that he is only twenty-five years old this year."

"Hey, if he can pass the exam this time, wouldn't he become a formal pharmacist at the age of twenty-five? It's shameful to be young."

"The future is limitless."

Chapter 115

Everyone talked a lot, looking at Zhou Tao with envy.

Twenty-five-year-old first-grade pharmacists, even in the entire history of Daqi State Pill Pavilion, are rare.

Even Huang Yuling and Guan Shi looked enviously, their eyes bright and colorful.

Seeing that, this is the real genius. If he can see me, then I will be blessed for the rest of my life.

Glancing at Qin Chen disdainfully, Huang Yuling's thoughts are floating, she has already thought about how she would seduce Zhou Tao into bed.

"The fifth one, Wang An, ninety-two points!"

What came out this time was an old man with a gray beard, estimated to be more than sixty, trembling, and his beard trembling with excitement.

"God opened his eyes, and he didn't give up decay."

The old man was crying with tears in his eyes.

When everyone saw this, they sighed.

There are many people who know Wang An, and he is a frequent visitor to the Dan Pavilion. In fact, he has become a senior pharmacy apprentice in his 30s.

In the nearly 30 years since then, this person has to undergo several appraisals of pharmacists every year, and now there are no fewer than a hundred times in total, but he still has not been able to become a first-grade pharmacist.

This is the fifth time he has passed the first round of assessments. No wonder he is so excited.

If you fail the assessment again, your chances will only become smaller and smaller in the future.

"Well, the number of people who passed is only these five. You pack up and prepare to come in with me. Everyone else can go, and come again next time." Wang Jun rolled up the list and turned to leave.

Not far away, Qin Chen was taken aback.

Is this the end?

"Wait, what about me?"

Taking a step forward, Qin Chen couldn't help saying.

He was very clear about his own answer. There was absolutely no problem in passing this first round of assessment.

But now there is no his name in the list, how is this possible?

"You?" Wang Jun turned his head and squinted at Qin Chen, then sneered, "Which green onion are you? Without your name, it means you have not passed the assessment. I don't understand this? I still ask this and that."

He had seen Chen Mu and Ouyang Cheng's attitude towards Qin Chen just now. He knew that the instructor was not busy with this person, so how could his attitude be good.

"Who is it? Asking such a stupid question."

"Let me see, ha, it's actually this guy."

"It turns out it was this kid who handed in the paper in half an hour."

"Hehe, I heard that he is not even a pharmacy apprentice. He also came to participate in the assessment. The key is to participate in the assessment. The paper will be handed in in half an hour. Now he is still asking why he doesn't have his own name."

"God, did he come to be funny on purpose?"

When everyone saw that it was Qin Chen asking questions, they all looked strange and laughed.

"Why don't you have your name, do you still have to ask, you are eliminated, do you understand? Still pretending, what pretend to pretend."

Can't help it anymore, Huang Yuling looked contemptuous.

I'm still pretending to be at this time, so tired!

You are not tired, I am tired.

"Young people, don't be too high-minded, down-to-earth is the kingly way."

Guan Shi couldn't help but complain.

For a while, Qin Chen became a target of public criticism.

With a sneer, Wang Jun turned around and was about to take the five people who passed the first round into the assessment room. With a squeak, the door of the assessment room opened and three figures hurriedly walked out of the assessment room.

"Master Liu Guang, Teacher Ouyang, Master Chen Mu."

Seeing the visitor clearly, Wang Jun was startled and hurriedly saluted respectfully.

"Who is Qin Chen?"

Unexpectedly, Liu Guang didn't even look at him. He roared and said, his eyes flicking back and forth in the hall, extremely anxious.

"What happened?"

With a thump, Huang Yuling and Guan Shi were shocked at the same time.

Seeing the appearance of Master Liu Guang in such a hurry, wouldn't it be Qin Chen who did something inside that angered Master Liu Guang?

When it's over, she brought Qin Chen over. If something really happened, would they punish him.

"Master Liu Guang, he is Qin Chen. This person is not even a pharmacist apprentice. I have to come to participate in the appraisal of a pharmacist. I was forced to bring him here."

"Yes, Master Liu Guang, his subordinates were forced by Dange's rules to let him report his name. Did he do something to anger you, Master?"

Huang Yuling and Guan Shi hurriedly resolved their relationship, and at the same time roared at Qin Chen: "Boy, tell me what you have done to provoke Master Liu Guang so anger, it's not as good as it is."

"Are you Qin Chen?"

Master Liu Guang's eyes fell on Qin Chen, but he was taken aback.

Young, too young.

It is hard to imagine that the test paper just now would have been made by such a young teenager.

At such a young age, his knowledge in refining medicine is so amazing. There is such a genius in this world?

Originally, Master Liu Guang was expecting Qin Chen extremely, but now that he is so young, he is even more excited.

"Haha, it really turned out to be a young hero, good, great."

Liu Guang happily jumped up: "I didn't expect that the person who got a full score of 100 in the first round was such a young boy. I really didn't expect it. It seems that I am Daqiguo Dange, the future is promising."

"what?"

"Full score is one hundred?"

"Master Liu Guang is talking about Qin Chen?"

"How is this possible? It's not a fake, right? One hundred points. This is a good question, and with such a grade, why didn't he have his name just now?"

Everyone was stunned, and the scene exploded like an earthquake.

What a joke, 100 points, they all have done the test questions, knowing how difficult the question this year is, you can see from the other people who have a maximum of 92 points.

But Qin Chen, a fellow who is not a pharmacy apprentice, actually got full marks, which was shocking and crazy.

"Master Liu Guang, how do you want to punish him, just speak up, and I will immediately call the Dange guards." Huang Yuling and Luo Guanshi were still anxious to separate themselves, suddenly their voices stopped, and their eyes went round. It looked like a duck that was pinched, unable to speak for a long time.

Full marks, this Qin Chen?

Huang Yuling and Luo Guanshi instantly flushed, and then they became snowy white, and their souls fell apart.

I've been chattering before, saying that other people don't know how to promote me, and I pretend to be there. I'm not even a pharmacy apprentice, and I want to participate in the refining assessment.

As a result, the opponent directly got a perfect score in the first round of assessment.

If ordinary people say this, they won't believe it at all, but now it is Master Liu Guang who says this, how could it be false.

The two only felt dizzy, and they were going crazy.

The others were also dizzy, and each of their shocked eyeballs almost fell to the ground.

It's really a pitfall. Not only is this kid not a pharmacy apprentice, but he handed in the paper after only half an hour in the first round of assessment.

It is simply more popular than people.

They worked so hard to write for an hour, but they didn't pass the assessment, and all of them were senior apprentices.

Compared with Qin Chen in front of him, he was simply scum.

"Well, those who pass the assessment, come in with me and prepare for the second round of assessment."

Master Liu Guang glanced at Qin Chen kindly, with a satisfied expression on his face, and led everyone in.

Only the dizzy people were left, still dumbfounded.

Chapter 116 Fire Control

Ignoring the people who were going crazy outside, Qin Chen came to the examination room again.

On the open space in front of him, there are six medicine refining tables, which are often used by medicine refiners to place pill furnaces, medicinal materials and other items.

But at this moment, on this medicine refining platform, there was nothing, empty, no medicinal materials, and no pill furnace.

"What will be assessed in this second round?"

"I don't know. Looking at this posture, is it necessary to assess the operation? But there are no medicinal materials and pill furnace, how do we test?"

"I hope I will be better at the assessment."

Sun Yuan and others, who passed the first round of assessment, stood in front of the medicine refining table, each with anxious expressions.

This second round is one of the ten operations of refining medicine immediately. It is when observing the real operation ability of a person, as long as it passes this second round, it means that half of the foot has entered the door of the refining medicine master.

"Well, first of all congratulations to you, you have passed the first round. In this second round, you will be assessed for your ability to control fire. You should prepare first and start the assessment in order immediately."

Liu Guangyi waved his hand and said loudly.

"What, it turned out to be a test and control fire."

"It's over, how can I test this item?"

"Let me go, I am the weakest in this item. Wasn't it all about trial drugs or something? In the ten operations, why didn't it have a turn to control fire?"

Hearing the content of this second assessment, everyone was dumbfounded.

The ten operations of refining medicine contain a lot of content, similar to defense medicine, medicine division, hot pot, medicine control, fire control, pill condensation, etc...

Among them, the most familiar one is the defensive medicine, because distinguishing various medicinal materials is the most basic skill to become a pharmacist, and this is the same item that has been tested in the past.

But who knows, today's assessment turned out to be fire control.

Isn't this killing people?

Looking at the scenes of quite a bit of turmoil, Liu Guang coldly shouted: "As we all know, the strength of fire control ability is the prerequisite for whether a pharmacist can refine an excellent pill. If even the detail of fire control is not well done. What about becoming a real pharmacist?"

"You have half a stick of preparation time. Once the time is up, the assessment will begin immediately."

With a big wave of his hand, Liu Guang looked unhappy.

How does he not know what these people think.

The vast majority of pharmacy apprentices are lucky and want to test what they are best at.

But the real pharmacist pays attention to the miscellaneous knowledge and must not have any shortcomings.

Fire control is relatively remote, and its role in early alchemy is not the most important, so many alchemists do not practice specifically.

But because of this, Liu Guang chose this one for the assessment, and only in this way can he assess the true level of refining these people.

Not long after, Banzhuxiang time passed.

"The first one, Lin Yuan, show your fire control ability."

Lin Yuan frowned, came to the refining table and opened the pattern above.

Hum!

The mysterious array pattern bloomed with bright rays of sunlight, and under the pattern, a scorching flame instantly appeared above the refining table.

This is a fire!

There are many types of pill fire, including burst fire, real fire, demon fire, earth fire, sky fire and so on.

Among them, the fire, the demon fire, the earth fire, and the sky fire are all external fires acquired from the day after tomorrow, while the real fire is the flame formed by the alchemist's own true energy, which belongs to the internal fire.

But generally low-level pharmacists, especially pharmacists, have not practiced a special technique, and cannot form a real fire. At this time, they will generally use a fire to replace it.

A true pharmacist must be proficient in stimulating the fire, and at the same time be able to use mental power to make various subtle adjustments to the fire, whether it is temperature, shape, or other. The more detailed the adjustment, the stronger the fire control ability.

Under all eyes, Lin Yuan began to control the formation pattern and control the flame.

Under his control, the flame slowly changed its image, rising to nearly ten feet high for a while, then shrinking to the size of a fist, burning waves, and the temperature was pressing.

"This is your fire control ability?"

Seeing this, Liu Guang snorted coldly: "Controlling the size of the flame is only the first-level ability. You divide the flame in front of you into three, in a ladder shape, and show it to us."

Lin Yuan had a bitter face, gritted his teeth, and urged his mental strength, the flame in front of him suddenly separated.

Manipulating the flames requires a lot of mental power, and the control of mental power is also a great test. After only a short time, he is already tired and sweating.

Under his control, the flames in front of him trembled, and it was about to succeed. With a sudden pop, the flame went out instantly.

"I....."

Looking at the extinguishing flame in front of him, Lin Yuan wanted to cry without tears.

He concentrated on controlling the flame just now, and was unable to use his mental power to control the formation. After a little slack, the formation lost its control and immediately became invalid.

"You can't even do the most basic fire control, so come to test the pharmacist?"

Liu Guang snorted coldly.

On the surface, fire control tests the alchemist's ability to control fire, but the actual test is the meticulousness of the alchemist's mental power.

When a pharmacist refines the pill, he must not only control the formation, but also control the flame, but also the timing and amount of medicinal materials added, as well as the fusion of the elixir in the pill furnace.

This is a very complicated and cumbersome process. Lin Yuan has a very high ability to control his mental power. Lin Yuan can't even do the most basic fire control. Even if he can refine the pill, it is just opportunistic and cannot be regarded as a real man. Alchemist.

"You go down, the second round of assessment failed. Next, Sun Yuan!"

Lin Yuan's face was depressed, but he dared not say a word, just stepped aside, extremely depressed.

The questions given by Master Liu Guang are also too difficult. For general practitioners, it is enough to control the temperature and shape of the flame. To split the flame and form a ladder shape, this is simply an impossible task.

Sun Yuan was also very nervous when he came to the court.

Skilled in initiating the fire, demonstrated the ability to change the warmth and size of the flame, and then began to split the flame according to Liu Guang's previous instructions to Lin Yuan.

Sun Yuan's proficiency was obviously better than Lin Yuan's. The three flames were quickly separated, but when forming a shape, they couldn't complete it. Every three flames approached, they merged together.

Sun Yuan was sweating profusely, tried nearly ten times, and succeeded every time.

"Retreat, too."

Liu Guang's face was gloomy and ugly: "Next, Xu Jing, it's still the same as the request above, with three flames, a ladder-like shape!"

Chen Mu and Ouyang Cheng looked at them, their mouths twitched.

Master Liu Guang's request is too difficult. If this continues, who can pass the assessment?

You must know that when they were admitted to the first-grade alchemist, they might not be able to do this.

If this continues, I am afraid that no one will pass this second round of assessment.

Chapter 117

boom!

The formation on the refining platform was opened again.

Blazing flames, burning and pulsating, blooming heat.

Compared with Lin Yuan and Sun Yuan, Xu Jing is obviously much calmer. Her eyes are sharp, and under the control of her mental power, this flame keeps changing shape. Compared with Lin Yuan and Sun Yuan, she is obviously much more proficient.

"Minute!"

Skillfully manipulated for a while, Xu Jing suddenly whispered, and the flames in front of him suddenly dispersed, suddenly turning into three, floating in the air like a leaping spirit.

"Yes, Not Bad."

Liu Guang nodded, Xu Jing's performance is still so-so, much better than the previous two.

But whether he can pass the test depends on his performance.

Under all eyes, Xu Jing's eyes were solemn, and she saw the three flames slowly fluttering, one on top and two below, gradually becoming ladder-shaped.

Everyone held their breath, motionless, for fear of disturbing her operation.

After a while--

Hum!

The three flames were completely arranged, and they almost failed to fuse several times in the middle, but they were all survived by Xu Jing.

"it is good."

"Finally one is finished."

Chen Mu and Ouyang Cheng were overjoyed, smiling, and exhaling for a long time.

Liu Guang also nodded slightly: "Yes, this second round of assessment, you have passed."

"Thank you Master Liu Guang, Master Chen Mu, and Master Ouyang Cheng."

Xu Jing couldn't hide the excitement on her face, clenched her fists excitedly, and stepped back.

"Next, Zhou Tao."

"Is it my turn?"

Zhou Tao smiled, full of confidence, and came to the refining table confidently.

"boom!"

Lightly pushing the real yuan, a burst of fire quickly rose up and burned.

"Fang Yan is just the simplest fire control skill, and it is an essential skill for a pharmacist."

Zhou Tao stood in front of the refining table with his head high, looking at Lin Yuan and Qin Chen, as if a tutor was teaching students.

"Huh!"

With a wave of his hand, the flames in front of him split into three instantly, and with a slight movement of his mental power, the three flames became ladder-shaped, lifelike.

"Everyone has seen it. Actually, the question given by Master Liu Guang is very simple. You only need to control the attributes of the flame, understand the operation of the fire gathering array, and add a little spiritual control to easily complete the second round of assessment. ."

Zhou Tao is like a master, his voice is mellow and unrestrained.

"The so-called three flames are actually just the most basic flame structure, and a true pharmacist, as long as he delves into it with his heart, and with the first-order mental power, it is not difficult to separate five flames."

With a slight smile, Zhou Tao flicked his right hand, and the three flames dispersed again, turning into five, one on top of each other, like a pyramid.

These five flames constantly change in his palm, transforming into various shapes, beautiful and overwhelming.

"hiss."

Lin Yuan and the others all took a breath, their eyes rounded.

Zhou Tao is too abnormal this time, they can't even control three flames, but this week Zhou Tao can actually control five, and they are still so comfortable.

Everyone only felt hot on their faces, as if they had been slapped severely.

Why is the gap between senior apprentices who are also participating in the assessment so big?

"Genius, what a genius!"

Even Chen Mu and Ouyang Cheng were dumbfounded and dumbfounded.

The flames can be divided into five at will, and the control is so freely, even if they want to do this, it is not easy.

This son has such a powerful fire control ability, which is simply against the sky.

Seeing everyone's shocked expressions, Zhou Tao smiled proudly, feeling great in his heart, and looked at Qin Chen provocatively.

In the first round, you didn't get a perfect score. You passed the second round if you were capable.

What is it to memorize all the contents of pharmacy to the extreme? It is useless if it fails the fire control assessment.

"Well, not bad, Zhou Tao passed this round of assessment."

Master Liu Guang nodded in satisfaction, but was not shocked.

What a glance he could see at a glance, Zhou Tao was able to do this, not because of how powerful his mental power was, but because of his physique.

If you read it correctly, this person should be awakened from a fire-type second-grade bloodline, naturally sensitive to fire, and secondly, he cultivates a fire-type technique, and the true qi in his body has its own flame attribute.

This also caused Zhou Tao to control the flame several times more easily than other alchemists.

To do this, it is natural.

The next one to be assessed is Wang An.

Standing in front of the refining stage, Wang An, who was in his sixties, was older than the three masters of refining medicine, which made people sigh.

He was trembling and trembling, carefully controlling the fire.

Decades of assessment, even if his talent is low, he has enough experience in various projects.

In the end, he barely passed the assessment.

"We actually passed three."

I thought that the second round of assessment would be extremely difficult. Unexpectedly, after five people were assessed, three of them passed the assessment, which surprised Chen Mu and others.

The quality of the candidates in this round is not ordinary, especially Zhou Tao, the probability of becoming a pharmacist is extremely high.

Next, Qin Chen played.

The full score in the previous round caused him to receive extra attention, and all the people present were staring at him.

"Hmph, the first round of assessment is only about theory, but the second round of assessment is about practical operations. No matter how high the knowledge of refining medicine is tested, it can only scare people. If you want to become a true pharmacist, you still have to do the operation." Zhou Tao sneered, looking at Qin Chen playfully.

Others have the same thoughts as Zhou Tao.

It is true that Qin Chen is too young. He can reach the extreme in theoretical knowledge, and he has been said to be against the sky, and it is almost impossible to achieve much in operation.

But after suffering the previous face slap, although Chen Mu and Ouyang Cheng doubted in their hearts, they did not dare to show the slightest expression on their faces.

Ignoring everyone's thoughts, Qin Chen came to the refining table and gently urged the formation.

call!

A scorching flame suddenly appeared in Qin Chen's hand.

"what."

Only this moment, Liu Guang stood up suddenly, a surprise came out of his mouth.

"this is....."

"what happened....."

Several other people also noticed the changes on the refining stage and exclaimed.

I saw that the formation pattern on the refining platform was only half activated, and then stopped. It was never fully activated at all. This also caused the flame in Qin Chen's hand to be only half the size of a normal person.

"Haha, even this fire gathering formation can't be activated at all, do you want to pass the fire control assessment?"

Can't help it, Zhou Tao laughed and blurted out.

quite funny.

I just said that this kid is so young, he certainly won't have much knowledge in refining medicine, and now it seems that I still think highly of him.

Chen Mu and others were also dumbfounded, looking strangely at Master Liu Guang, the corners of their mouths twitched.

This is your promising candidate?

This is too shameful...

## Chapter 118

Master Liu Guang's face was strange, and the corners of his mouth twitched.

He was shocked when he saw Qin Chen's written test just now. Although he knew that Qin Chen might not be strong in practice, he still had some expectations in his heart.

But who had expected that Qin Chen's actual operation would be so bad.

The fire gathering formation is the most basic fire formation. The first thing any pharmacist learns to refining is to activate the fire gathering formation to form an formation.

Unexpectedly, Qin Chen couldn't even fully mobilize the gathering fire formation, and immediately disappointed Master Liu Guang.

"Haha, is it Qin Chen? I advise you to just give up the assessment. You can't even activate the gathering fire formation. It is completely impossible to complete the assessment set by Master Liu Guang."

Shaking his head, Zhou Tao seemed to persuade him kindly, but he was actually happy.

What about the full score in the first round of assessment? Master Liu Guang was so optimistic about this kid just now, hum, who is the only genius today, I think Master Liu Guang should know now.

"Qin Chen, go back, only to activate half of the flame formed by the fire gathering array, it is impossible to split the flame into three, let alone... huh?"

Chen Mu seized the opportunity and walked forward, shook his head and said, only half of his words, suddenly choked in his throat, his eyes were about to fall, staring at Qin Chen in front of him, as if he had seen a ghost. .

"Pharmacy Chen Mu, what are you talking about?"

I saw the faint flame in Qin Chen's hand at this time, which had been divided into three, burning quietly, very stable.

"I...I said...cough cough..."

Chen Mu was crying and didn't know what to say for a while.

Make yourself scornful and have to go up and taunt me, now it's okay, get slapped in the face.

Just said that half of the fire gathering flame was activated, and there was no way to split the flame into three, and the flame in Qin Chen's hand was split in the blink of an eye.

This face was fierce and too cruel.

Could this kid be Lao Tzu's nemesis?

"Cough cough cough!" The eyeballs rolled, resisting the urge to find a place to go down, Chen Mu coughed twice, "I mean, only half of the fire formation formed by the fire formation was activated. Weak, even if the flame can be divided into three, it cannot be stacked into a ladder shape, so..."

Before the words fell, Qin Chen gently urged his mental strength, and the three weak flames in his hand moved quickly, up and down, forming a perfect triangular trapezoid.

"I....."

His throat suddenly choked, and Chen Mu's staring eyes were almost falling off, and he was about to cry.

Brother, can you stop playing me like this?

I can't take it anymore.

Just said that such a weak flame could not be divided into three flames, and in the blink of an eye, it was divided into three flames, before saying that it could not form a ladder shape. Before finishing speaking, Qin Chen formed the flame into a ladder shape.

Chen Mu almost had the urge to hit and die here, his face was really too lost.

"It's impossible. How did you do it? You must be cheating."

Zhou Tao looked furious next to him.

"The flame formed by only half of the fire gathering array is very weak, and the amount of flame contained is only half of the normal. How can it be done like this?"

Zhou Tao looked left and right, wondering if Qin Chen had done anything.

This is against common sense.

"Who told you that only half of the flame formed by the fire gathering array can be activated, and this step cannot be achieved?"

Qin Chen asked back.

"This....."

Zhou Tao is going crazy, can anyone tell this? It's the most basic common sense.

"The fire gathering array is only half activated, and the flame formed is not stable at all, and naturally it cannot be formed, let alone split or stack. This is common knowledge that any alchemist knows."

Zhou Tao snorted angrily.

"What common sense is this?" Silently shook his head, Qin Chen said: "Then you know, how many formations are there on the fire gathering array in front of us?"

"I'm not an array mage, how do I know."

A pharmacist has too much knowledge to learn, and he doesn't even have time to learn the knowledge of refining medicine, so there is no time to learn what formations.

"You don't even know how many array patterns there are in the Fire Gathering Array. How do you know that only half of the array is activated and you can't do this?"

Hearing Zhou Tao's words, Qin Chen was speechless: "Let me tell you, the fire gathering formation on the refining stage in front of us belongs to the first-order fire gathering formation, which consists of 108 formation patterns. Thirty-six main array patterns and 72 sub-array patterns."

"Among them, the main pattern controls the formation of the flame, and the secondary pattern controls the temperature and shape of the flame."

"In other words, when a pharmacist refines the pill, he only needs to activate thirty-six main formation patterns to form a stable flame. At the same time, he can adjust the flame temperature and the flame temperature according to how many secondary patterns are activated. Form control."

"In this way, the spiritual power of the pharmacist is greatly liberated, so that when a pharmacist is refining the pill, he does not need to spend a lot of spiritual power in controlling the temperature and shape of the flame. He only needs to choose how many formation patterns to activate. Up."

"And the fire gathering formation in front of me has activated 36 main formation patterns and 18 secondary formation patterns. In this case, the fire formation is extremely stable and very suitable for flame separation. The reason for only activating so many patterns."

"You don't even know this, come to laugh at me? Don't you think it's a bit ridiculous?"

Qin Chen shook his head speechlessly, looking at Zhou Tao as if looking at a fool.

"It's just nonsense. I have studied fire control by Zhou Tao for so long. I have never heard of such a theory. It is ridiculous to control the temperature and shape of the flame by how many patterns are activated. What do pharmacists do when they cultivate spiritual power."

"Three masters, are you saying that Qin Chen is talking nonsense?" Zhou Tao said angrily.

Qin Chen was simply questioning the truth that the pharmacist had always been. He did so only to cover up his cheating methods.

"This....."

Chen Mu and Ouyang Cheng looked at each other, and to be honest, they had never heard Qin Chen's theory.

Even Liu Guang looked suspicious.

By activating the number of patterns to control the temperature and shape of the flame, this... is indeed a new concept.

There is no such record in any medicine books they have studied.

"It's easy to talk nonsense. The three masters only need to try it by themselves."

Too lazy to talk nonsense with this guy, Qin Chen said lightly.

At the same time, Qin Chen once again complained about the medicine refining system of the Great Qi Kingdom. Even the three-year-old child in the Wuyu Dan Pagoda knew nothing about the three official pharmacists present, and they were too ignorant.

"it is good!"

Liu Guang and the three looked at each other, and at the same time they came to the other refining table to activate the fire gathering formation above.

boom!

According to Qin Chen's theory, they only activated the 36 main formation patterns above.

A ball of flame appeared in front of the three at the same time.

"It actually activated the flame, and...very stable."

This flame is very weak, the color is darker, and the warmth is low, but it has to be admitted that its structure is very stable, even if it is not controlled by mental power, it does not appear to collapse at all.

Chapter 119 True Essence Pill

"How can this be possible? We didn't even know it before?"

The three of them looked at each other, and all of them were shocked.

Activating thirty-six formation patterns can successfully form a fire. After trying, it is indeed the case, but they, the official alchemists, don't even know such a function.

It's fine if you don't know. After all, there is no such saying in the whole alchemy system of the Great Qi State, and it is justified.

But now it happened that Qin Chen, a young man who was not even a pharmacy apprentice, made it clear.

The three people just felt hot on their faces.

A teenager who is not a pharmacy apprentice knows the truth, but the two official pharmacists of them don't know it, cough cough, this is indeed a bit embarrassing.

"In the case of eighteen sub-array patterns, the control effect of the flame splitting is the best. Not to mention the three flames, even if the flames are divided into five... nine... it can be done easily, compared to Activate all the formation patterns and split the flames in this case, which will save most of the energy consumption of the alchemist."

Qin Chen continued to disperse the flames in his hand while talking, changing from three to five, and from five to nine.

In the end, nine flames, like a pyramid, layered on top of Qin Chen's palm, appeared like a magnificent flame pagoda.

"The flame is divided into nine flowers. Could this be the legendary Nine Flame Pagoda method?"

Seeing this scene, Chen Mu and Ouyang Cheng were trembling with excitement and went crazy.

The legendary Nine Flames Pagoda method is the strongest basic method in flame control. In this case, the alchemy flame can freely adjust the temperature, burn the location and intensity of the pill furnace, and it is amazing to improve the quality of the pill. The efficacy.

It's just this kind of technique that has always been in the legend, the entire Great Qi Kingdom Dan Pavilion, even the strongest pavilion master, could not do it.

Who knew he saw this technique in a teenager.

"Yes, what I am using now is the flame pagoda method. You can control the activation of the secondary formation pattern to the level of eighteen. Try again, and there is a certain probability that you can complete it." Qin Chen smiled.

"Can we do it too?"

The three of them glanced at each other, breathed back, and their eyes gleamed.

Immediately after--

Huhuhu...

The flames in Liu Guang's hands were divided into nine at the same time.

"It turned out to be a success."

Chen Mu and Ouyang Cheng took a breath, almost unable to believe their eyes.

In the case of activating all the array patterns, the two of them could separate the most flames, only about seven. I didn't expect that they were divided into nine so easily now.

And just as Qin Chen said, after the flames are divided into nine, their mental energy consumption at this moment is not even as much as the usual consumption of six flames.

Holding their breath, the three slowly formed the nine flames into a pagoda shape.

At this moment, they only have one feeling, and that is ease.

It's much easier than when the fire gathering array patterns are all activated.

But even so, the Nine Flames Pagoda method is still too subtle, Chen Mu and Ouyang Chengdu in the final step of forming, snorted and failed, only Liu Guang made it to the end.

Nine flames burned tremblingly in his hands, forming the appearance of a pagoda.

Although not as stable as the flame in Qin Chen's hand, it was barely formed.

"I succeeded, I have successfully performed the Nine Flames Pagoda method."

A kind of control over flames came to mind, Liu Guang was so excited that he couldn't help but scream up to the sky.

When the legendary technique is displayed by myself, the excitement can hardly be expressed in words.

"Three masters, have my second round of assessment passed?"

Extinguish the formation pattern, let the flame dissipate in his hands, Qin Chen asked with a smile.

"This....."

The three Liu Guang looked at each other, embarrassment in their eyes.

"Ahem." After coughing twice, Liu Guang said silently: "Pass, of course pass. Who dares to say no?"

Chen Mu and Ouyang Cheng shrank their necks next to each other, and they were very low-key, afraid to say a word.

Nima, can you say no?

Even the Nine Flames Pagoda method that they couldn't do was displayed by Qin Chen. If they said they didn't pass, who could pass it?

I am afraid that even they themselves will be expelled.

At this moment, everyone in the hall looked at Qin Chen as if looking at a monster.

Where did this kid learn the knowledge?

Not to mention the full score in the first round of assessment, but in the second round of fire control, he actually did better than the three masters.

He even gave a good lesson to the three masters.

If this spreads out, the three masters will lose their faces.

"Well, in this second round of assessment, a total of four people passed, Xu Jing, Zhou Tao, Wang An, and...Qin Chen, now the third round of assessment will begin immediately. You only need to be able to refine our Dange regulations. If you specify a first-grade pill and pass our verification, you will become a true alchemist!"

Upon hearing this, Wang An's group recovered from their shock, and they were extremely excited.

Only in the last round, they can become a real alchemist.

"What you are going to refine this round is the first-grade true essence pill. Now, the various materials needed to refine the true essence pill have been placed in front of you, and the refining methods and processes are also written in On the prescription on the side, each of you only has one chance, let's get started."

In fact, those who are confident to come to participate in the assessment have once more or less refined a first-grade pill, so I naturally hope that the test is the pill that they have refined.

At this time, listening to Master Liu Guang said that the assessment was a first-grade real yuan pill, everyone was relieved.

The first-grade true essence pill is an extremely common one among many first-grade pill. After taking it, it can increase the true qi in the warrior's body and improve the warrior's own cultivation.

They all have more or less understanding.

Of course, if you have understood it, you may not necessarily be able to refine it. No pharmacist can guarantee that he will succeed in every refinement.

"This time, I must pass the assessment and become a true pharmacist."

Make up their minds, Zhou Tao and several people secretly swear in their hearts, adjust their state, and carefully figure out every step in the refining of the true essence pill.

There is only one chance, and you must be foolproof before you can do it.

Is analyzing.

"call!"

Suddenly a scorching breath came, and he looked at Qin Chen, directly activated the fire gathering formation, set the pill furnace on the top of the fire gathering formation, and started to heat the cauldron.

"This kid started refining so soon?"

Zhou Tao and the others were all taken aback.

Before any pharmacist refines the pill, he needs to carefully figure out the process and steps of the refining, so that he can be foolproof and become extremely proficient in the whole process before he starts refining.

After all, the reaction between the medicinal materials is extremely rapid. If you forget something in the middle and have a slight hesitation, the entire refining process will immediately fail.

This is also the reason why a few of them have been so slow to start.

Who knows Qin Chen, he just started refining without even observing.

It's too hasty!

Chapter 120

Not only Zhou Tao were surprised.

Even Chen Mu, Ouyang Cheng and Liu Guang were shocked.

Especially Chen Mu and Ouyang Cheng, both have weird faces.

The process of refining medicine is complex and ever-changing, and requires extreme care. The preliminary preparations must be so meticulous that they can't be more meticulous before starting work.

Although the First Grade Zhenyuan Pill is a relatively common pill, the refining process is not simple at all.

Even a formal pharmacist like them who wants to refine a product of true essence pill needs to prepare well beforehand, clarify the order of various medicinal materials before daring to start.

This Qin Chen was good, and began to refine as soon as he came up.

It would be weird if the true essence pill could be refined.

This kid won't go through two rounds of assessments in a row, is he arrogant?

"Reckless, too reckless."

Next to him, Liu Guang shook his head repeatedly with regret.

He also felt that Qin Chen started refining so quickly, it was a bit reckless, a genius with such an amazing talent for refining medicine, it would be a pity if he failed the test because of recklessness.

"Haha, the more arrogant this kid, the better, he won't pass the test by then, see if he still has such a strong confidence."

Previously, Qin Chen had robbed himself of the limelight, making Zhou Tao extremely jealous, wishing that he failed the assessment and was embarrassed.

"By the way, it's still a long time anyway. With this Qin Chen leading the charge, I'm just watching and observing how to refining to achieve absolute success."

An idea came out, and Zhou Tao looked over.

The process of heating the cauldron was very rapid, and soon it was time to add medicinal materials.

"According to the refining process of the True Essence Pill, the first thing to be put in should be the first-order True Heart Grass. The True Heart Grass contains a lot of True Essence Qi, which is the energy source of the True Essence Pill, but the attributes of the True Heart Grass are slightly manic. Under the burning of flames, the effect of the medicine is easy to lose. Therefore, moonlight leaves must be added in time. Moonlight leaves are gentle and gentle, which can slow down the loss of true herbal effects. After adding more than ten breaths of moonlight leaves, wait until true When the grass and moonlight leaves merge with each other, add Punan fruit in time..."

Watching Qin Chen's operations and comparing the prescriptions, Zhou Tao kept showing the operation process one by one, preparing to verify Qin Chen's refining.

"Okay, the time has come. When the fire burns for about 20 breaths, it is the best time to join True Heart Grass. Qin Chen really picked up the medicinal materials...what? Gah!"

I was thinking about it, seeing Qin Chen's operation, Zhou Tao's eyes widened, his mouth seemed to be stuffed into an egg, and he couldn't close it.

I saw Qin Chen quickly picked up several medicinal materials on the refining table, and poured all his brain into the furnace.

Why first add True Heart Grass, then add Moonlight Leaf, and then add Punan Fruit...

There was no such process at all, but seven or eight materials for refining the true essence pill were picked up and poured into the pill furnace.

"This....."

After the consternation, Zhou Tao could not laugh or cry.

Does Qin Chen think that refining pill medicine is cooking? Pour all the ingredients and condiments into the pot, and just fry them.

Even if it is a stir-fry, if you want to stir-fry a dish well, you have to be particular about the order of adding ingredients and condiments, right?

This kid was so good, but all of a sudden fell down.

Shaking his head, Zhou Tao didn't bother to look at Qin Chen again.

I thought this guy was a person, but in the second round, all the three masters were shocked, but he didn't expect to be a fool at all.

In vain, he still regarded him as an opponent, which is too high for this kid.

"Puff!"

Chen Mu and Ouyang Chengzheng were drinking tea, and when they saw Qin Chen's refining, they spouted a sip of water and sprinkled them all.

"Cough cough cough..."

Coughing violently, the two of them flushed red, and they had the same thoughts as Zhou Tao.

This is where it is refining, it is simply nonsense.

Are you afraid of the fryer with so many herbs?

"Master Liu Guang, have you seen Qin Chen's refining method before?" Chen Mu and Ouyang Cheng asked with weird faces.

Liu Guang twitched the corner of his mouth, which was also a black line.

Have seen your sister.

I'm so angry, Qin Chen is too speechless, he can't make medicine at all.

He might be the most sad examiner. He originally thought he had encountered a genius who was against the sky. Now it seems that this genius does have some advantages, but he is completely an idiot in the real medicine.

However, although there were no tears in his heart, Liu Guang's spirit was instantly lifted, staring at the furnace in Qin Chen's hands.

So many medicinal materials are put in at once, once the power of the medicine fails to merge, it is very likely that the pill furnace will explode. He must participate in the refining for the first time to prevent the explosion.

His mental strength locked onto the pill furnace in Qin Chen's hand, and Liu Guang waited nervously.

One breath!

Three breaths!

Five breaths!

Soon ten breaths passed, and the pill furnace in front of Qin Chen was very calm, and no medicinal power disorder occurred at all.

"what happened?"

A suspicion suddenly appeared in Liu Guang's mind.

Not in line with common sense.

Was wondering...

Suddenly a strong medicinal scent poured into the nasal cavity, and the strong scent shocked everyone present.

"Where does the medicinal fragrance come from?"

Everyone was agitated, and after inquiring, they saw Qin Chen's hands forming seals, and his mental energy was constantly pouring into the pill furnace. Diffuse out.

The pure green pill furnace rotates slightly above Qin Chen's formation, and every time it rotates, an astonishing medicinal gas diffuses.

In front of him, the marks made by Qin Chen's hands kept accelerating, like a phantom, dazzling.

A large amount of mental power and true energy poured into the pill furnace to participate in the medicinal material reaction.

Could it be...

A thought came up in everyone's minds before it could fall.

"Come!"

Just listen to Qin Chen shouting loudly, his hands slammed on the pill furnace, and with a bang, the furnace cover exploded, twelve white lights rose into the sky, and instantly fell into Qin Chen's hands.

I saw twelve pill pills that were full and round, spinning in Qin Chen's hands. Qin Chen's right hand shook lightly, and these twelve pill pills fell into the jade plate on the side, all white. Immaculate.

"Three masters, the true essence pill has been refined, please let the three masters identify it."

Extinguishing the fire gathering formation, Qin Chen stood in front of the jade plate, and said calmly.

"Kang Dang."

"Snapped!"

The tea cups in Chen Mu and Ouyang Cheng's hands broke, Zhou Tao shook, and the pill furnace in their hands smashed into their feet, and screamed.

But no one paid attention to him anymore.

Everyone looked dumbly at Qin Chen standing there, with a dull expression.

This... Is this refining successful?

The entire refining hall was instantly silent.

Silent!
