Chapter 121: Special True Essence Pill

Everyone looked at Qin Chen stupidly, completely dumbfounded.

What exactly is going on?

Not to mention Zhou Tao and others, even Chen Mu, Ouyang Cheng, and even Master Liu Guang were at a loss and couldn't understand.

The refining process of Zhenyuan Pill is very complicated, and the timing and amount of each medicinal material must be precise to the extreme.

In addition to the fryer, the result of randomly adding medicinal materials is failure in refining. There is absolutely no possibility of a third possibility.

But now, Qin Chen actually trained the Zhenyuan Pill abruptly in front of everyone.

This is beyond everyone's imagination.

"I'll take a look."

Liu Guan, Chen Mu, and Ouyang Cheng were confused and involuntarily came to the refining table and picked up the pill in the jade plate.

The three of them shivered almost at the same time.

The twelve pills are plump and round, and the whole body is pure white, like a work of art, flawless, with almost no flaws.

In the hand, it is very smooth, and there is no trace of powder on the fingers.

There is only one possibility for this to happen.

That is the pill in front of him, at least of the upper level.

Pills are just like Gongfa, among the same grades, there are also levels.

For example, the same first-grade true essence pill is divided into four levels: inferior, medium, superior, and perfect according to the completion of the refining and the strength of the effect.

Among them, the first-grade inferior true essence pill represents this true essence pill, which is just barely becoming a pill, and the medicinal properties are not completely integrated. After the martial artist takes it, in addition to extracting the true energy, there are still a lot of impurities remaining.

This has also led to the fact that warriors who take inferior Zhenyuan Pills need to expend energy to get rid of impurities while absorbing Zhen Qi, which not only slows down the absorption rate, but also has a certain impact on the purity of Zhen Qi in the body.

The middle-level true essence pill will be better than the lower-level true essence pill.

The first class is better than the middle class.

As for the perfect-level pill, it represents the medicinal effect of this pill. It is 100% perfectly integrated, and there is no trace of cyan. Once taken, the whole pill will completely turn into pure innocence and blend into the martial artist. The limbs and hundreds of skeletons do not need extra absorption and refinement at all.

And the first-grade True Essence Pill refined by Qin Chen, from the appearance point of view, was at least the first-class level, which made Liu Guang and the others surprised.

You know, the difficulty of refining high-class pills is very high. Even a second-rank pharmacist like Liu Guang who refines a first-rank true essence pill can not reach the upper level every time, only a small part of it is. First class.

Not to mention the achievements of Chen Mu and Ouyang. They came to refine the true essence pills, most of them were medium, and occasionally they appeared to be superior.

Nowadays, a pharmacy apprentice is not even a young man who came to participate in the appraisal of a first-grade pharmacist. He actually refined the first-class True Essence Pill at one time, which is incredible.

"Could it not be true that Qin Chen refined it?" Suddenly, Chen Mu asked in a puzzled manner and suggested a possibility.

Attracted people's contemplation.

"It's very likely." Ouyang Cheng couldn't help but nodded: "A normal first-grade true essence pill, which looks white in its entirety, has a hint of cyan, even if it is a high-end true essence pill, but now Qin Chen refines it. The medicinal pill made is milky white in its entirety, without a trace of cyan. Will it be another pill? After all, in terms of color, it is still somewhat different from the normal First-Rank Zhenyuan Pill."

His words immediately made everyone nod their heads.

Including Master Liu Guang.

Because even he had never seen this kind of pure white essence pill.

If what Qin Chen refined was not a true essence pill, then according to the rules of the assessment, even if the pill was successfully refined, it would not be considered a pass.

Hearing the discussion of the three masters, Zhou Tao's lost heart suddenly rejoiced.

That's right, what the three masters said was right, what Qin Chen had refined was definitely not a true essence pill.

The refining of the Mantra Pill is extraordinary. It can be made by this kid at will. Maybe it is just some kind of extremely ordinary pill, which looks like a pill.

Not all medicinal materials can be called 'elixirs'. There are many other medicinal pills, which can only be regarded as pills. Their efficacy is not comparable to the real first-grade pill, and they are not influential.

"Is it true essence pill, how many people will know after verification?"

Qin Chen touched his nose and said suddenly.

Needless to say, Liu Guang's trio had thought of this. They each took out a thin needle and lightly poked it on the pill that Qin Chen refined, then put it in the mouth and closed their eyes to feel it.

This is called the fine-needle detection method, and it is the most basic method used by pharmacists to verify the pill.

This kind of fine needle is extremely slender, just like a strand of hair, and without sacrificing the effect of the pill, it brings out enough powder for identification by the pharmacist.

The needle entered his mouth, and suddenly, Liu Guang's body shook and the three of them shuddered, their eyes opened suddenly, staring at the pill in their hands, as if they had seen something incredible.

"This... this is not the first-class true essence pill, but... it's the first-class!"

The faces of the three masters flushed, and their eyes almost burst.

The three of them are all powerhouses at the heavenly level. According to the truth, the true qi provided by the first-grade true essence pill cannot improve their cultivation base and enhance their meridians.

But just now, after the trace of medicated powder entered their mouths, it instantly turned into pure innocence and poured into their meridians, without any discomfort at all.

There is only one possibility, that is, the pill that Qin Chen refines, the true qi contained in it is very pure, reaching the extreme point, so that their heavenly zhenqi can be absorbed very naturally.

"Special Zhenyuan Pill, three masters, you can't read it wrong, right?" Zhou Tao couldn't help asking.

As soon as he said this, he regretted it, which was clearly questioning the level of the three masters.

It's just that Liu Guang and the three of them didn't care about Zhou Tao's doubts at all, and said with excitement: "It's definitely a special-grade true essence pill, yes, my God, as a second-grade pharmacist, the first-grade true essence pill has been refined for no less than a hundred furnaces. I have never refined a special true essence pill before, and I did not expect to see a special true essence pill in the rest of my life, and it is still a perfect number of twelve pills, this..."

Liu Guang felt that the shock in his life was not as much as that of today.

"Master Liu Guang, can you announce the result now?"

Seeing the excitement of Liu Guang's trio, Qin Chen looked speechless.

It's just a top-grade first-grade Zhenyuan Pill. I really haven't seen it in the world, making a fuss, thinking that even the eighth-grade top-grade pill, Ben Shao hadn't never refined it.

"Okay, okay! You have passed the third round of assessment, but the assessment is still going on. You will wait for a while to announce the official result."

At this moment, Liu Guang and the three of them looked at Qin Chen with completely different expressions, with dignity, as if they were not looking at a junior, but a master of the same level.

"There is still half an hour before the end of the assessment, everyone hurry up."

With Liu Guang's low drink, Zhou Tao and others suddenly came to their senses from the shock, hurriedly calmed their minds and began to refine.

Only under the influence of Qin Chen, how could the three of Zhou Tao calm down.

Especially Zhou Tao, who was still immersed in the shock of Qin Chen's seven or eight kinds of medicinal materials poured into the pill furnace before, not long after he started refining, a distraction, a chuckle, and a black smoke in the pill furnace. All the medicinal materials were burned and the refining failed.

Had to retreat tragically, with a look of tears.

It was really unlucky. If it weren't for Qin Chen, how could he have made such a low-level mistake, and his heart would have split Qin Chen alive in an instant.

But it's just thinking about it. After passing the assessment, Qin Chen is an official pharmacist. By then, Qin Chen will lose a feather, and it is his own luck.

Not long after Zhou Tao was eliminated, Xu Jing also failed the refining because of a mistake and was eliminated.

But Wang An was a little restless at first.

After seeing Qin Chen's refining, he was frustrated for a moment.

Looking at others, he is not even a pharmacy apprentice. The first time he participated in the assessment, he became an official pharmacist.

Look at yourself again.

After decades of hard training, every time I failed the assessment due to some problems, maybe I really wasn't suitable to be a pharmacist.

Under such thoughts, Wang An's mentality became more relaxed, and he actually went all the way to the end.

In the end, a faint fragrance came out, and the eight grains were quite pitted, and the grayish-brown pill fell from the pill furnace and appeared in the jade plate.

"Six inferior first-grade true essence pills, two waste pills, Wang An passed the third round of assessment!"

Liu Guang frowned for a long time, and finally in a good mood, he gave Wang An a pass.

"Thank you Master Liu Guang, Master Chen Mu, and Master Ouyang Cheng." Wang An's excited legs trembled, his voice trembled, and he started to cry.

Although these were tears of happiness and excitement, an old man in his sixties, crying in the examination room, was still very embarrassing.

"This is your first-grade pharmacist badge. With this badge, you can freely enter and exit any pill pavilion in Tianwu Continent in the future, enjoy the treatment of a first-grade pharmacist, and buy medicinal materials and pills in the pill pavilion. A certain discount."

Taking out two badges from his body, Liu Guang handed them to Qin Chen and Wang An.

"Thank you, Master Liu Guang."

Wang An trembled with hands, took the badge, and looked like he was about to cry again.

"Cough cough cough...well, this is the result of your own hard work." Liu Guang patted Wang An's shoulder quickly and comforted.

Aside, Qin Chen was holding the badge, but he was happy.

"Master Liu Guang, after passing the appraisal of the pharmacist, I should be qualified to see the pavilion master, right?" Qin Chen said suddenly, putting away the badge.

After exhausting his pains to pass the appraisal of the pharmacist, Qin Chen's purpose is to be able to see the pavilion master, and now he has finally reached this point.

"You want to see the pavilion master?" Liu Guang was taken aback, and he glanced at Qin Chen suspiciously: "The pavilion master manages everything every day and rarely meets people, even the alchemist in the alchemy pavilion."

"Can't see?"

Qin Chen looked stunned.

He only assessed this first-rank alchemist to meet the pavilion master of Pill Pavilion. If he can't see the pavilion master, wouldn't all his efforts be wasted?

"It's not that you can't see it, but it's nothing important. We won't bother the Lord Pavilion Lord. What's the matter with you?"

If it were an ordinary pharmacist, Liu Guang would naturally not bother to pay attention, but Qin Chen had shown such an amazing talent before, he still asked one more question.

"It is indeed important for me to find him. I am planning to do a business with Dan Ge, and it is more urgent."

Qin Chen explained.

I don't know why, he always felt that Liu Guang, Chen Mu and Ouyang Cheng felt a sense of fear when they talked about the pavilion master.

I should think too much.

He shook his head, Liu Guang was also a second-rank alchemist, an important figure in the Great Qi Kingdom Pill Pavilion, no matter how high the cultivation base of the Pill Pavilion Master was, he wouldn't be afraid of Liu Guang.

With a sigh of relief, Liu Guang laughed: "It turned out to be doing business. You said it earlier. The old man is also the second-grade pharmacist of Dange. If there is any business you want to do, you can tell the old man that he has the ability to take charge. There are still."

I thought it was something, it turned out to be just doing business.

It is estimated that Qin Chen has just passed the appraisal of the pharmacist and wants to buy some materials in the Dan Pavilion.

"Uh, Master Liu Guang, this business is of great importance. I can only talk to the Lord Dan Pavilion." Qin Chen shook his head.

"What business can only be determined by the patron?"

"This kid is too capable of acting hard."

"Thinking that becoming a pharmacist is a big deal?"

Zhou Tao and the others were unhappy. Even if they passed the assessment, Qin Chen was just a first-grade pharmacist. Now that Master Liu Guang spoke up, just talk to Master Liu Guang directly, and only talk to the Lord Pill Pavilion. This kid is too pretending.

If he didn't pass the assessment, he was upset at first, but seeing Qin Chen still talking like this at this time made Zhou Tao even more upset.

"Qin Chen, it's not that I don't tell you, but I have to make it clear to you. You haven't seen the pavilion master, and you don't know the temper of the pavilion master. If there is nothing important, who would dare to disturb the pavilion master, let alone say yes. Newly promoted pharmacist, even an old man, I am afraid it will be difficult to please. Of course, if you have to see the pavilion master, Liu can also inform it for you."

After listening to Qin Chen's words, Liu Guang said condensedly after pondering.

"Master Liu Guang, the pavilion master is in retreat these days. If you disturb the pavilion master, I am afraid..."

"Yeah, what's the matter, will you talk about it in a few days?"

Exclaimed, Chen Mu and Ouyang Cheng looked weird and faintly afraid, as if they were not going to see the pavilion master of Dan Pavilion, but a demon.

"I believe Qin Chen will not be so reckless."

Liu Guang shook his head and said solemnly.

Although the time spent with Qin Chen didn't last long, he also saw that Qin Chen was by no means a sloppy person after passing the assessment of the three levels. Everything he did was targeted.

"Then thank you Master Liu Guang for reporting on your behalf." Qin Chen was overjoyed.

"In that case, Shao Chen, wait for a while, and I will report to the pavilion master, Chen Mu and Ouyang Cheng, you two will help me deal with the affairs here."

"This...Master Liu Guang, I suddenly remembered that there is still one important thing to deal with..."

"Ahem, yes, Master Liu Guang, I also suddenly remembered that there is another urgent matter, isn't it..."

When the two heard that they wanted to invite the pavilion master, their complexions suddenly changed, like avoiding snakes and scorpions.

"Hmph, both of you are one of the examiners for this assessment. It is your responsibility to handle the affairs after the assessment. Leave me wherever there are important things to do."

With a cold snort, Liu Guang looked unhappy, he didn't know what the two people thought.

"Ok."

"Dead, dead!"

Chen Mu and Ouyang Cheng were crying and had to agree.

Chapter 123: Xiao Ya

The Dan Pavilion is magnificent and magnificent. The higher it goes, the more refined the building is, and it has an unspeakable atmosphere.

This is also the unique temperament that Dan Pavilion has a long history of power.

At this moment, Liu Guang hurried to the top of Dan Pavilion and came to an independent office and knocked gently on the door.

Then, he stood trembling, his expression nervous, his palms sweating.

"Who?"

A temptation came out from the door with an elegant voice: "What's the matter?"

The voice was low, obviously a little unpleasant because of being disturbed.

After swallowing, Liu Guang cautiously said: "Pavilion Master, subordinate Liu Guang, today we have been promoted to a pharmacist in the Dange assessment, and he wants to see you."

"The new pharmacist wants to see me, Liu Guang, you should know that this pavilion master has something important recently, is this little thing bothering me?"

Although across the door, Liu Guang's forehead was already oozing cold sweat. He wiped the sweat from his forehead and said nervously: "This person said that there is a business to talk to my Dange, and you must see the pavilion owner."

"Business?" The enchanting voice sneered: "A newly promoted pharmacist, what business can talk to me, you can tell him directly and let him get out. The pavilion owner has been very busy recently and has no time to meet people."

"This one....."

If it was the request of another pharmacist, Liu Guang would have turned around and left, but Qin Chen's request made him hesitate a little, saying: "Pavilion Master, this newly promoted pharmacist is extraordinary, and his subordinates think you I need to see you."

"Oh?"

With a squeak, the door opened, and a woman in a crimson apothecary dress robe came out.

This man has a tall hair bun, three jasper pearl hairpins in his hair, bright eyes, crimson lips, full of temptation, a tall nose, and white skin...

The woman looks about 30 years old, but she reveals an alluring charm that is unique to a mature woman.

She is the patron of this Great Qi Kingdom Dan Pavilion, Xiao Ya.

"Why is this newly promoted pharmacist unusual? Is it because the patriarch of a big family failed? Or is it a certain prince of the Great Qi Kingdom?" Xiao Ya stretched out lazily, her hand covering her mouth, Yawned softly, and his hair was scattered, his sleepy eyes were slightly misty, and he looked at Liu Guang with interest.

She knows Liu Guang very well, if there is someone who makes him feel extraordinary, otherwise she wouldn't say it to herself.

Liu Guang lowered his head, not daring to look directly at Xiao Ya, and said, "Pavilion Master, none of them, just a teenager who seems to be only fifteen or six years old."

"Ok?"

Xiao Ya gave birth to a bit of surprise, "A fifteen or six-year-old boy? Passed the first-grade pharmacist examination?"

"Yes, the pavilion master, and he got a full score in the first round of competition assessment, the second round of fire control assessment, demonstrated the Nine Flames Pagoda Method, and the third round of refining assessment, directly refined the first-class authentic Yuan Dan."

"hiss!"

Xiao Ya took a deep breath, her eyes sparkling again and again, and then she chuckled: "There is such a young man, giggle, it's kind of interesting, but also to see me for business talks, hehe, I'm suddenly not busy, let's go, go Look at the origin of that boy!"

at this time.

Huang Yuling and Luo Guanshi stood outside the assessment room, panicked and at a loss.

Just now from the population who failed the assessment, they had already learned that Qin Chen passed the assessment of the alchemist, and the two wanted to cry without tears at the same time.

In the past few years of working in Dange, I have been trying to curry favor with a pharmacist and have been unable to do so. This time, I finally hoped that a pharmacist came. He was so mean, looked down on people and offended the other party.

Why is it so unlucky? !

Huang Yuling knew the status of a first-grade pharmacist. As long as she was unhappy, it would take minutes for her to fire her.

Thinking that he might be fired from Dange and lose this excellent job, there is an urge to cry in his heart.

No, I must find a way to regain the attention of that boy.

It's a big deal, so I took advantage of his physical advantage and tricked the boy into bed.

A fifteen or six-year-old boy who knows what kind of bed matters, so hesitated, and after eating the marrow and knowing the taste, he still left it at his mercy?

Maybe he would be obedient to himself.

Thinking of this, Huang Yuling couldn't help getting excited, thinking about how to trick Qin Chen into bed.

Huang Yuling's thoughts were on the sidelines, and Guan Shi looked at her dissatisfied.

If it wasn't for this **** to sow discord inside, how could he have such an attitude towards Qin Chen at first.

I'm all right now. I have offended a future master alchemist. How can I mix in the pill pavilion in the future?

He climbed to the position of the appraisal supervisor, it took him a few years and a lot of effort.

If you lost your job just because you offended Qin Chen, you would even have the heart to stab Huang Yuling.

"DaDaDa!"

At this moment, there was a sound of footsteps, Huang Yuling and Luo Guanshi raised their heads at the same time.

"Ge... Your Lord Pavilion!"

Seeing the visitor, the two were shocked and hurriedly saluted respectfully.

Oh my God, why did the Lord Pavilion come to the assessment room? Could it be that Qin Chen came to see that?

Think about it, if it wasn't for the Lord Pavilion Lord, then Qin Chen was only fifteen or six years old, how could he pass the assessment of a first-grade alchemist?

"It's over, it's over!"

In an instant, the hearts of both of them fell to the bottom, and the hearts of both of them were lost.

In the assessment room.

Qin Chen held a cup of blue and white porcelain teacup, pouting his tea, very leisurely.

After a busy day today, I finally got a chance to rest. When the business talks with Dange are over, things that need to be busy are almost the same.

Chen Mu and Ouyang Cheng fidgeted and looked at Qin Chen speechlessly.

This kid really doesn't know that the sky is high and the earth is thick, drinking tea here so leisurely, and when he sees the pavilion master, see if he can continue to be so leisurely.

Just thinking about it, footsteps came from outside.

Later, Xiao Ya and Liu Guang walked in from outside.

Following this, there is a refreshing fragrance, which is by no means an artificial fragrance, but a fragrance unique to women.

Chen Mu and Ouyang Cheng jumped up from their chairs abruptly, as if they had seen a cat and a mouse, they hurriedly saluted and said respectfully: "See the pavilion master."

Waved her hand, her eyes condensed on Qin Chen, Xiao Ya smiled and said, "Are you the newly promoted pharmacist who insists to see me?"

"Qin Chen, this is Xiao Ya, the pavilion owner of our Dan Pavilion, don't hesitate to see you soon." Liu Guang introduced.

"Qin Chen has seen Lord Pavilion Master." Qin Chen took another sip of tea before putting down the teacup and bowing his hands.

Arrogant, too arrogant.

Everyone was dumbfounded when they saw this scene, even Liu Guang was instantly dumbfounded.

No matter how awesome you are, you are the alchemist of the pill pavilion anyway. When you see the pavilion master, it is too arrogant to not even stand up.

Chapter 124

Liu Guang thumped, the secret path was about to suffer.

Lord Pavilion Master's temper, he knew nothing more. With Qin Chen's attitude, once Pavilion Master became angry, he would collapse.

"Ahem, Qin Chen, the lord of the pavilion is a third-grade pharmacist, and also the top pharmacist in my great Qi country, so don't hurry up and salute."

Standing behind Xiao Ya, Liu Guang kept winking at Qin Chen.

"Hehe, no need. Since ancient times, the hero was born a teenager. Your Excellency is already a first-grade apothecary at a young age. It is a bit arrogant, it is natural."

Xiao Ya smiled slightly and stared at Qin Chen.

I saw Qin Chen still sitting there calmly, very calm, with a unique temperament that other teenagers don't have.

She had never seen this kind of temperament even in some princes and Xiaohouye in the capital.

"I heard that you want to do business with my Dange? I don't know what kind of business you want to do. I have to be the owner of this pavilion."

Xiao Ya stepped forward and sat down directly in front of Qin Chen.

She exhaled like a blue, looking at Qin Chen with seductive eyes, with a smile at the corner of her mouth, exuding amazing temptation.

The exquisite face seems to have magical power, which makes people unbearable to look away.

"It's over, it's over."

Chen Mu, Ouyang Cheng and the others hurriedly turned their heads and looked away.

Secretly praying for Qin Chen.

Once the Lord of the Pavilion shows such a charming expression, it is often that someone is going to be unlucky.

"Hehe, talk about business, don't worry about it, Lord Pavilion first, let's take a look at the pill that is refined underneath, Master Liu Guang, please also bring me the first-grade true essence pill that I refined and refined."

Qin Chen turned his head and smiled at Liu Guang.

It was the first time that Xiao Ya saw a man who could keep calm in front of her, and he was still a fifteen or six-year-old boy. At this age, the heart of spring was sprouting. Isn't it the time when he was full of energy?

"Glitter, okay, I'll take a look at the pill that the little brother refines first to see if it is as powerful as Liu Guang said."

Xiao Ya chuckled, and suddenly bloomed like a hundred flowers.

A faint fragrance unique to women poured into Qin Chen's nose. This was not any perfume, but a body fragrance, elegant and delicate, with a refined aftertaste.

"This Dan Pavilion is actually a woman, and such a seductive fairy."

Qin Chen touched his nose.

He didn't expect that the pavilion owner of Daqi Guodan Pavilion would be a woman.

However, he has seen too many beauties in his previous life, and the beauties who want to be his partner can be from Wuyu to the endless sea.

What's more, in terms of appearance alone, Shangguan Xi'er is absolutely against the sky, rare in the world, but is a poisonous heart.

Soon, Qin Chen's first-grade Zhenyuan Pill was taken to Xiao Ya.

The plump and rounded pill exudes a faint fragrance, with a natural mood.

"Sure enough, it's a superb elixir."

As a third-rank pharmacist, Xiao Ya had such a vision, and he could tell at a glance that the pill in front of him was indeed, as Liu Guang said, it was a first-class Zhenyuan Pill.

Glancing at Qin Chen in surprise, she couldn't imagine that this would be made by a fifteen or six-year-old boy.

You must know that if you want to refine a special pill, it is not simply what you can do by simply refining the pill to the extreme, but to understand that kind of pill to reach a level. Kind of the realm of nature.

Only by blending with nature can you refine a special pill.

This has nothing to do with the cultivation base.

In other words, even if she is a third-rank alchemist, she may not be able to refine a special first-rank true essence pill.

"The Lord Pavilion Lord can experience the medicinal effect of this product of Zhenyuan Pill." Qin Chen said with deep meaning.

"Oh?"

Xiao Ya frowned, and two slender fingers picked up a True Essence Pill and gently held it into her cherry lips.

Then close your eyes and perceive carefully.

"In an uproar!"

suddenly.

Xiao Ya stood up abruptly, touched the table beside her, and with a bang, the table fell to the ground, and the kettle and teacup on it fell to the ground, tea overflowing.

"My Lord Pavilion."

"My lord, what's wrong with you?"

Liu Guang and others have changed their colors. Isn't there something wrong with this pill?

"Qin Chen, what have you done to Lord Pavilion Master?"

Chen Mu exuded a strong murderous intent and said sharply.

Liu Guang was also nervous. If there is something wrong with the Lord Pavilion Lord, he will die.

Facing the frightened eyes of everyone, Qin Chen calmly held up the teacup in front of him, took a sip, and said: "Everyone stay calm, Lord Pavilion Lord is fine."

"Don't worry, I'm fine."

Opening her eyes, Xiao Ya let out a long sigh, looking at Qin Chen's gaze, it has become completely different.

"My Lord Pavilion should have seen it." Qin Chen smiled.

"how did you do it?"

Xiao Ya's expression was solemn.

The conversation between the two left Liu Guang and others confused.

What happened? Why did the Lord Pavilion Master become so shocked after taking a first-grade true essence pill? Is there any difference between this true essence pill and the normal one?

"It's actually very simple. I just made some changes to the refining technique, and also optimized the prescription ratio." Qin Chen said.

"If you change the refining technique, can you double the true energy contained in this true essence pill? And the efficiency of absorption will also be increased by 50%?" Xiao Ya doubted.

When these words fell, Liu Guang and others were speechless, one by one looked at the Zhenyuan Pill in the jade plate.

The effect of this product of True Essence Pill is actually twice that of the first product of True Essence Pill on the market?

What a joke!

The efficacy of any kind of pill has a specific value, the so-called inferior, medium, superior and special grade, but the purity of the true qi and the efficiency of absorption have changed, but the total amount of true qi is not changing.

But now, the Lord of the Pavilion actually said that the first-grade true essence pill refined by Qin Chen was twice the true energy of the normal true essence pill. How could this be possible?

After all, the materials Qin Chen used for refining just now were all provided by Dan Pavilion, and they were exactly the same as other people's materials.

With the same material, the true strength is doubled, it is impossible to think about it!

"Qin Chen, can we taste this pill?"

Controlling doubts, Liu Guang asked.

"Yes." Qin Chen nodded.

With Qin Chen's permission, Liu Guang, Chen Mu, and Ouyang Cheng couldn't wait to pick up a pill and put it in their mouths.

After a while, the eyes of the three people suddenly rounded.

"This this....."

"It's such a strong true energy, how can there be such a strong true energy pill?"

"Is this still a first-grade true essence pill, at least two on top!"

"And the rate of absorption is so fast, even if it is a special-grade true essence pill, it will not be so fast, right?"

The three of them were all stunned, trembling all over, unable to control themselves.

Is it this business that Qin Chen is talking about?

If this kind of pill can be circulated on the market, it will definitely be a huge revolution, a revolution that will subvert the entire Daqi country pill market.

Chapter 125: Ancient Pill Formula

When testing the medicine earlier, the three of Liu Guang only dipped the powder to understand the effect of the pill, but did not have a complete understanding of the whole pill.

After taking it now, it was suddenly shocked.

"Qin Chen, are you planning to use this pill to let us operate the pill?" Liu Guang said excitedly.

This is simply a revolution in the pill circle, and they can't help but get excited.

"Tell me what you think."

Xiao Ya knew that people like Qin Chen definitely had her own thoughts in her heart.

Nodded, Qin Chen said: "Yes, I am going to hand over this pill to the pill pavilion for operation. I don't know how to make this pill. I will not sell it. I only divide it into five to five cents. You are responsible, and you are responsible for the cost of refining. I only get dividends."

As soon as this remark came out, Liu Guang and others were dumbfounded.

If you don't provide medicinal materials, or even participate in the refining, you have to get 50% of the dividends. This is no cooperation, it is a robbery.

"Your Excellency is too big to speak."

"If you don't do anything, just provide refining methods, you will take away 50% of the profits, what a joke."

"What do you think of our Dan Pavilion?"

Chen Mu and Ouyang Cheng couldn't help yelling, all of them filled with righteous indignation.

"Qin Chen, is this division a bit too late? Although you provided the pill, you are part of the pill pavilion anyway."

Even Liu Guang was somewhat dissatisfied.

"Because I am also a member of Dange, I will get a five-to-five point. Otherwise, it won't be this percentage."

"My Dange has not done any Danfang transactions, but it has always been a buyout. Even if it is divided, it is only a very small part. My Dange has never done anything like yours. What's more, although your first-grade True Essence Pill is special, the profit of the True Essence Pill is very thin. My pill pavilion has to provide both manpower and materials, and 50% of you. Isn't it ridiculous?"

Xiao Ya shook her head. Qin Chen's first-grade True Essence Pill was indeed special, but it was not worth the price that Dan Ge paid.

"Have I said that the transaction is only a first-grade real yuan pill?" Qin Chen said with a light smile.

Her pupils shrank and Xiao Ya frowned, "What do you mean?"

"I also have an ancient pill recipe for the second-grade real yuan pill. The medicinal materials required are 70% of the cost of the normal second-grade real yuan pill, but its efficacy is twice that of the normal second-grade real yuan pill. The difficulty of the system is much lower than that of the normal second-grade real yuan pill on the market. I wonder if the pill pavilion is interested?!"

Qin Chen said with a smile.

"what did you say?"

Xiao Ya, who had recovered her composure, was once again shocked, even more shocked than before: "Do you have a second-grade pill recipe similar to this real-yuan pill?"

Xiao Ya is not calm.

The Second-Rank True Yuan Pill is different from the First-Rank True Yuan Pill. On the market, there are many forces that can refine the First-Rank True Yuan Pill, so the profit is very thin.

Even with Qin Chen's new formula, because Qin Chen had to divide it into half, no matter how much Pill Pavilion was refined, it would only make a lot of money.

But the second product Zhenyuan Dan is different.

The second-grade pill, there are very few forces that can be refined first.

Secondly, its profit is huge, even if half of it is allocated to Qin Chen, as long as it has such an effect, Dan Pavilion can still make a lot of money.

More importantly, as soon as this second-grade true essence pill was put on the shelves, all other true essence pill on the market had to be taken off the shelves, and the sensation was absolutely amazing.

This is a monopoly market. The high profits and huge returns brought about by the monopoly market make people tremble all over when thinking about it.

"This is a pill, and Pavilion Master Xiao Ya can take a look." Qin Chen took a note from his body and handed it up.

The note is very simple, and the handwriting on it seems to have been written not long.

But as soon as Xiao Ya got the prescription, she knew that what was written on it was very likely to be true.

The medicinal materials recorded above are quite different from the real yuan pills on the market, but a delicate balance can be found between different medicinal materials.

The cost of these medicinal materials is indeed only 70% of the second-grade Zhenyuan Pill on the market.

At this moment, Xiao Ya looked at Qin Chen, no longer calm at the beginning, but was deeply shocked.

Who is this son? How could he have such a heaven-defying Dan Fang as a teenager?

"My Lord Pavilion, this pill...is it true?"

Liu Guang and the others also leaned forward, eagerly looking forward to it, and asked carefully.

If the pill is true, then the pill will be bigger.

"There is a 90% or more probability that it is true, and if this kind of pill really has the effect he said, once it is put into production, not only our great Qi country, but even the true essence pills of the five northwestern countries will be impacted without any market. ."

Xiao Ya looked solemn.

"I don't know the conditions I have set, whether the Dange accepts it or not. If the Dange does not accept it, I won't waste time. I believe that a place like Jubaolou will definitely be able to treat these second-grade real yuan pills. Very interested."

Seeing Xiao Ya hadn't spoken yet, Qin Chen stood up and wanted to leave.

"Sir, wait a minute."

Xiao Ya quickly stood up, no longer being calm at the beginning.

She can't help but worry. At the moment, the medicine market in Daqi is divided into two categories. One is the low-end market. The share of the medicine has been divided by other major medicine forces. Ge did not spend too much energy to expand this aspect.

The second category is the high-end market.

The high-end market headed by the second-grade real yuan pills and other medicines is still in the hands of the Dan Pavilion, but other forces all want to infiltrate and plunder the Dan Pavilion market.

Only because the alchemist has the largest number of alchemists, the highest cultivation base, and the existence of technical barriers, the alchemy can still maintain its advantage.

But once Qin Chen's second-grade real yuan pill comes on the market, any force that controls this pill can enter the high-end market as quickly as possible, and firmly occupy the largest share of the cultivation pill market. .

At that time, Dange will not only be unable to open up a new market, but will also lose its original share and be suppressed.

Most importantly, Xiao Ya had a faint feeling that if she had lost the opportunity to cooperate with Qin Chen this time, she would definitely regret it in the near future.

Although she didn't understand where this feeling came from, looking at Qin Chen who was calm before him, the feeling in Xiao Ya's heart became stronger.

"Okay, I promise you, as long as the pill in your hand is as strong as what you just said, I can directly call the shots. My pill pavilion wants it. It's just a proportion..."

"Five to five points, less than five to five points will not work, I believe such a pill, even if it is five to five points, your pill pavilion can still make money!" Qin Chen shook his head.

Xiao Ya hesitated, gritted her teeth, "Okay, no problem."

She glanced at Qin Chen angrily. This kid looked young, but when negotiating, she couldn't give up.

Chapter 126

Soon, the two parties signed the contract, and Qin Chen also handed over the pill, including the refining method.

"You are not afraid that our Dange will go back after taking the prescription?"

Xiao Ya put away the pill and said with a smile.

She didn't expect Qin Chen to give it so much pleasure, almost without any defense.

"Pavilion Master Xiao Ya, it's just a second-grade pill, it's not a treasure. If your pill pavilion is swallowed, it will only be you who will suffer."

This is not bragging. There are too many treasures in Qin Chen's mind. This second-grade real yuan pill, or the low-level pill that he thought of in order to fit the great Qi country, was too bad. Worse.

If he wanted to, he could come up with ten or dozens of prescriptions that far surpassed this second-grade true essence pill every minute, what a mere second-grade true essence pill.

Liu Guang and the three of them were stunned.

Such a terrifying second-grade real yuan pill is nothing!

Brother, what you said is too exaggerated, right?

This is an elixir that can subvert the real yuan pill market in the five northwestern countries. If it spreads out, the entire refining power of the five northwestern countries will probably have their scalp in their hands.

It's okay for you, it's not a baby to say something directly.

The three Liu Guang felt dizzy.

"I'm just joking. When I work in Dange, I always say that one is one, and that two is two. I will never go back on what I promised."

Xiao Ya only wanted to make a joke to Qin Chen, and wanted to test Qin Chen's reaction, but she didn't expect to get such an answer.

She could feel that what Qin Chen said wasn't forcing her face, but really had such confidence.

What is the backing behind this son?

Xiao Ya couldn't understand.

After all, he is also the pavilion owner of the King Dudan Pavilion of Daqi, the top pharmacist of Daqi.

Even the patriarchs of some big families are trembling and cautious when they see themselves.

As a teenager, he is too confident.

"Pavilion Master Xiao Ya, in addition to the cooperation of this True Essence Pill, I also want Master Xiao Ya to refine a few pills for me. Here are the medicinal materials needed. Please also Master Xiao Ya to prepare them for me. "

This is the main reason why Qin Chen came to the pill pavilion this time: for the trip to the blood spirit pool, he refined some pills to strengthen his body.

After taking the pill, Xiao Ya frowned, and saw that the list was written with some of the rarer medicinal materials on the market, and the quantity was not a few, and it was of great value.

"No problem, I don't know when you want it?"

Xiao Ya accepted, but did not refuse.

No matter how precious these materials are, they can be bought for more than one hundred thousand silver coins. For a business as big as a real yuan pill, more than one hundred thousand silver coins, not even a fraction.

"About ten days, after the collection is complete, you can send someone to notify me. My address is written on the Dange registration form."

After speaking, Qin Chen stood up: "Come here first today, I believe you, Lord Xiao Ya, will have a lot of work to do next."

Xiao Ya didn't hold back either. Just as Qin Chen said, she had too many things to be busy with, especially - the true or false of this Zhenyuan Pill.

He personally sent Qin Chen to the entrance of the Pill Pavilion. After seeing Qin Chen leaving, Xiao Ya hurriedly returned to the Pill Pavilion.

"Chen Mu and Ouyang Cheng, you two will immediately prepare the materials on this pill for me, and then send it to my refining room, Liu Guang, you go to investigate the origin of Qin Chen, he should be registering. The address is recorded on the slip. As long as it is from the capital of the King of Qi, it is easy to investigate the source."

Xiao Ya shouted loudly, vigorously.

Soon, Chen Mu and Ouyang Chengcheng prepared the materials that Qin Chen had given to Danfang and sent them to Xiao Ya.

Xiao Ya, who had obtained the materials, entered the refining room for the first time, and started refining according to the refining method Qin Chen said.

"You said, is the pill given by Qin Chen true or false?"

"It's hard to believe that it has twice the effect of the normal Zhenyuan Pill on the market."

"But since the pavilion master thinks it might be true, then she must have reason."

"Let's wait, with the pavilion master's refining medicine cultivation base, it is estimated that the refining will be completed in about half an hour."

Chen Mu and Ouyang Cheng stood outside the refining room, waiting nervously.

One pot of second-grade pill will generally be refined in half an hour, and it will soon be known whether the effect is as Qin Chen said.

Boom!

While the two were discussing and waiting, the door of the refining room suddenly opened in just a moment, and Xiao Ya was seen walking out of it.

"So fast?"

"It should be because the refining failed?"

Chen Mu and Ouyang Cheng were taken aback, and then angry expressions appeared on their faces.

"I knew, how could there be a true essence pill with such effects in this world!"

"Zhenyuan Pill is a basic pill. After countless years of improvement in Tianwu Continent, it has reached an extreme. Even if the effect is only improved a little, it is extremely difficult, and it is impossible to double it."

"My Lord Pavilion, don't be angry, we will take that kid back immediately, dare to play with our Dan Pavilion, no matter what the origin of this son, we can't make him feel better."

Chen Mu and Ouyang Cheng looked angry, and they were about to rush out while talking.

"Stop." Xiao Ya shouted loudly and shouted to the two of them, with dissatisfaction in her eyes: "Who said I failed in refining?"

"Hey?"

The two stopped in their footsteps, turned their heads in disbelief, with a stunned expression: "Pavilion Master, have you succeeded in refining?"

It's only half an hour, have you succeeded in refining so soon?

how is this possible!

The two of them were almost mad. This is the second-grade pill. How long has it passed? Even the first-grade pill could not be refined so quickly.

"See it for yourself."

With a light throw, two plump and round pills have fallen into the hands of the two.

The strong scent of medicine diffused, and the two of them just smelled the fragrance of the pill, the zhenqi in the body had a tendency to increase.

Swallowed it in one bite.

The two closed their eyes, the expressions on their faces became more and more weird, and more and more shocked. In the end, their eyes almost stared down.

"This this....."

"It's such a strong true spirit, hiss, how could there be such a terrifying true essence pill."

"The speed at which Zhen Qi is absorbed is terrifying. It is much stronger than the True Qi Pill on the market, and the quality of Zhen Qi is very pure."

"It turned out to be true."

The two were incoherent, dancing and dancing, they were almost crazy.

"Uh, Lord Pavilion, haven't you started refining?"

At this moment, Liu Guang hurriedly walked over and saw Xiao Ya. He was taken aback for a moment. Then he saw Chen Mu and Ouyang Cheng on the side. He couldn't help but wonder: "What's the matter with you two? Why are your faces so strange? Eat something bad?"

"Master Liu Guang, it is true, and the pill that Qin Chen gave is true."

Ouyang Cheng grabbed Liu Guang's shoulders, shaking desperately, his face flushed, and the stars sprayed Liu Guang's face.

Chapter 127 Xiao Ya's Guess

"Ouyang Cheng, let me go quickly."

Liu Guang looked disgusted, and hurriedly pushed Ouyang Cheng away, "How do you know that the alchemy given by Qin Chen is true?"

"The Lord of the Pavilion has successfully refined it."

"So fast, are you kidding me?" Liu Guang was angry.

What happened to Ouyang Cheng, he was also his boss, the second-rank alchemist, and he actually joked with himself one after another.

How long did you go? If the half-zhu incense isn't there, the Lord Pavilion Master has refined the second-grade Zhenyuan Pill given by Qin Chen?

"Liu Guang, I have indeed finished refining. This is the second-rank Zhenyuan Pill I refined. Take a look."

At this time, Xiao Ya raised her hand, and a real essence pill had already fallen into Liu Guang's hands.

"It's actually true?"

Looking at the Zhenyuan Pill in his hand, Liu Guang was dumbfounded.

Immediately afterwards, Liu Guang, who had taken this True Essence Pill, was also crazy. The effect of this True Essence Pill was exactly the same as Qin Chen said before, and it was even worse.

There is such a magical true essence pill in this world?

Although he was prepared, Liu Guang couldn't restrain the shock in his heart when this true essence pill really appeared in front of him.

Xiao Ya solemnly said: "I didn't expect that the difficulty of refining the True Essence Pill given by Qin Chen would be so low, and the speed would be so fast. According to my estimate, it will take you a quarter of an hour to refine it. , It can be refined."

"This is real?"

"Do I have to lie to you?"

Refining a furnace of second-grade real yuan pill in a quarter of an hour...

Liu Guang fainted and almost fell to the ground.

He used to refine the fastest second-grade pill, and it took half an hour. Now the pavilion owner said that he could refine such a second-grade true essence pill in a quarter of an hour, and he could hardly imagine .

"Then Qin Chen's origin, have you investigated it?" Xiao Ya asked.

Liu Guang hurriedly said: "Pavilion Master, I have already investigated. I came here just to tell you about this. That Qin Chen turned out to be the grandson of King Dingwu, the champion of the year-end entrance examination of the Tianxing Academy, and this son once I have never awakened the bloodline, until not long ago, I was awakened in one fell swoop, and at the same time showed terrifying strength, just like changing a person..."

What kind of status is the Dan Pavilion, you only need to search for it with your heart, and you can easily find Qin Chen's information. Liu Guangdang told Xiao Ya the information about Guan Qinchen he was about to find.

"A rubbish, he has been reborn in just half a month. It seems that the person behind him is really extraordinary..." Xiao Ya smiled meaningfully.

The three of Liu Guang were startled, "My Lord, what do you mean?"

Xiao Ya smiled slightly and squinted her beautiful eyes: "You don't think he would have such a treasured ancient pill as a young man? Behind him, there must be an extremely powerful person standing."

"You mean King Dingwu?"

"No, although King Dingwu is strong, it is only limited to the Great Qi State, and the person behind Qin Chen not only solved the problem of his bloodline, but also gave him such a terrifying knowledge of refining medicine. What Qi can possess, and even the five northwestern countries, it is difficult to find such a person." Xiao Ya's face was solemn, "this person's knowledge in medicine refining is at least several times better than me."

"hiss!"

The three of Liu Guang couldn't help but breathe in air.

Is it possible that a refining expert who is several times stronger than the master of the pavilion is a fourth-rank mysterious pharmacist? Or is it... more terrifying than the Fourth Stage Alchemist?

Just thinking about it, the three of Liu Guang were shocked.

And listening to Lord Pavilion's opinion, the strong behind Qin Chen might even come from other regions of the mainland.

Rumor has it that in Tianwu Continent, strong people have emerged in large numbers, and the five northwestern countries are just a very remote corner of the mainland. They can't even imagine how strong the strong outsiders are.

But, if there is such a strong person, why would you find Qin Chen? But not the others?

As if understanding their thoughts, Xiao Ya suddenly smiled: "Are you thinking, why would such a strong person find someone like Qin Chen? I didn't understand at first, but after thinking about it carefully, I figured out the reason. Qin Chen's mother, Qin Yuechi, have you heard of it?"

"That's the one who rejected the current majesty's edict, ran away from home, and later brought back to Qin Chen, Qin Yuechi, who was known as the number one beauty in the great Qi country back then?" Liu Guang and others were taken aback, how did this happen to Qin Yuechi? Relationship?

"Although I haven't seen a woman like Qin Yuechi, I also know that this woman is definitely a very talented woman who can reject the current edict of your majesty." Xiao Ya smiled and said, "You know, Emperor Zhao Gao of the Great Qi Kingdom. When he was young, he was not a mediocre person, but a talented, resourceful person with a handsome appearance. He could be called a romantic and suave. Qin Yuechi ran away from home in order to repent of his marriage, but he lost his life with Qin Chen outside. Do you think the men in the lower Qin Yuechi are ordinary people?"

"But no one from the outside world said that Qin Yuechi was caught outside..." Chen Mu suddenly wondered at this moment.

"Shut up." Xiao Ya's face sank, her phoenix eyes sharp: "Chen Mu, do you know what you are doing? In this case, I don't want to hear from you again."

"Yes."

Chen Mu was startled, trembling, cold sweat on his forehead.

Xiao Ya looked at him displeased: "This kind of nonsense is just what some jealous people say, and you actually believe it. What's more, now Qin Chen is cooperating with my Dange. After returning, I will write a review immediately. Hand it in, and close it tightly for ten days, and refining 30 pots of one-grade pill can be released."

Chen Mu was crying, wishing to shave himself two ears to make his mouth feel cheap. This is all right, and he is locked up.

Refining thirty furnaces of one-grade pill in ten days, this is simply deadly.

But in front of Xiao Ya, he didn't dare to refute, he just nodded and couldn't help admitting his mistake.

Liu Guang wondered: "Pavilion Master, the subordinates understand what you mean, but they have a doubt, that is, since there is such an expert around Qin Chen, why do you want the Pavilion Master to collect materials for him? What about refined pills?"

Xiao Yaxiu frowned, and thought a little: "This is what I have been unable to figure out, but these things, I will talk about them later, after all, this is just a guess of mine. What we have to do next is to make this second product true as soon as possible. Yuan Dan is on sale."

"and also....."

"Liu Guang, the matter of collecting materials is left to you. No matter how much you pay, you must collect all the materials before the time limit given by Qin Chen."

Liu Guang nodded hurriedly: "Yes."

"Okay, let's do everything."

Looking at the few second-grade real yuan pills left in front of her, Xiao Ya's eyes flickered. She could already imagine that when the pill pavilion puts such a cross-epoch pill on the shelves, it will be in the whole country of Qi. What a huge sensation caused by the pill market.

Chapter 128

Qin Chen, the initiator of the incident, didn't know Xiao Ya's guess at this time, and he returned home for the first time.

From a distance, I saw Qin Yuechi standing at the gate of the mansion.

Seeing Qin Chen's figure, Qin Yuechi's face suddenly overflowed with a soft smile.

"Chen'er, you fellow, tell me in the morning, why did you come back so late? If you don't come back again, your mother will ask Deputy Commander Zuo Li to go out and look for you."

Just after being assassinated last night, Qin Tian disappeared for a whole day. Can you not worry Qin Yuechi?

"Mother, don't worry, in the royal capital, nothing will happen unless Qin Yuanhong doesn't want to live anymore." Qin Chen smiled.

"Then you should also pay attention to safety." Qin Yuechi touched Qin Chen's face with a gentle look, and immediately snorted coldly: "Qin Yuanhong sent someone to deal with our mother and son, Chen'er, I have written to inform your grandpa Now, this matter, my mother will never let it go."

Walking into the courtyard, a group of city guards are repairing houses. The house that was damaged last night, after a day of repairs and cleaning, has been intact, with almost no traces visible.

"Miss Qin, Shao Chen, wait a while, it's almost a bit, the mansion will be completely restored immediately."

Zuo Li smiled and walked up.

"Thank you, Deputy Commander Zuo." Qin Yuechi said gratefully.

"Miss Qin is polite, this is a matter of the next minute, but Lord Kang asked his subordinates to tell the two, if possible, the two should move near the Dongcheng Palace, where it is safer."

When it comes to Dingwu Palace, Zuo Li is not very confident, at least last night that Qin Yong, he almost failed to win.

If it were not for the last moment Qin Chen made a move, he would most likely be broken here, and the consequences would be disastrous.

"Thank you, Lord Kang, for your kindness, but no need." Qin Yuechi shook his head.

"Also, if Miss Qin has any needs, just give her orders." Zuo Li didn't force it.

"Leader Zuo, after the meeting is over, please come over." Qin Chen suddenly said.

Although Zuo Li didn't know what Qin Chen wanted to do, he still agreed.

After a while, the entire house was repaired, and a large number of city guards left the mansion one after another.

"Little dust, are you looking for something to do with me?"

When he came to Qin Chen's room, Zuo Li said respectfully.

Although he is the deputy commander of the city guards, he also knows that the large amount of troubles that these heavenly kings have been alarmed are all caused by this young man.

Coupled with the strength Qin Chen showed yesterday, he didn't dare to underestimate the other party.

"Remember, what I said to you last night." Qin Chen smiled slightly.

"You mean... about my meridian..."

Hearing this, Zuo Li instantly became excited, his face full of flushing.

Qin Chen pointed out the damage to the meridians on his body last night and said that he would take the time to solve it, but he didn't tell him the specific time. For the whole day today, he was confused and didn't know how to speak.

Unexpectedly, Qin Chen took the initiative to mention it.

"Yes, what I promised you, I will do it naturally. You sit here first, let me examine your meridians carefully, and then see how to treat it."

"Yes!"

Zuo Li didn't know how to put his hand anymore, let Qin Chen at the mercy of him, and sat stupidly on the chair.

With a sweep of mental power, Qin Chen's perception swept across Zuo Li's body.

"Dust...less dust, how about..." Zuo Li asked nervously after a moment.

"It's okay, it's just that it's been five years since you hit the Celestial Realm last time, so it will be more or less troublesome."

"Is there any rescue?"

Zuo Li couldn't help but sink.

His injury was five years ago. During this period, he had visited many alchemists and bloodline masters in the capital, but they couldn't solve his physical problems, and even many people couldn't even find out the problem.

In the past five years, he has been practicing hard every day, but he has never made any progress in his cultivation, and he has hardly held any hope.

Now it's hard to see a little hope, so he doesn't expect it.

"Of course there is help, although it is a bit troublesome, but the problem is not big."

Qin Chen took out a jade box from his body, opened the jade box, and placed slender gold needles about a foot long inside.

He bought it casually when he was outside today.

"Sit down, I will treat your injury now."

"Treatment now?" Unexpectedly, after Zuo Li was taken aback, he hurriedly said: "Little dust, I just fought yesterday. I suffered a small injury and I haven't recovered yet. Moreover, I have been busy for another day today. It's not very good, let alone, it's getting so late now, can you change the time, I will come back when you are free when there is less dust?"

"No, things that can be done in minutes, don't have to be so troublesome, and treating the meridians has nothing to do with your injuries." Qin Chen shook his head.

"Things done in minutes?"

Zuo Li was taken aback, dumbfounded, staring at Qin Chen dumbfounded, almost unable to believe his ears.

For the injuries on his body, for so many years, how many methods I have thought of, and how many people I have tried, have not been able to solve it.

It's better now.

It's said that it can be solved in minutes, this...Isn't this what I heard wrong?

At this moment, Zuo Li even wondered if Qin Chen was lying to himself.

"What? Don't you want to be treated? Or you don't believe me?" Qin Chen frowned when Zuo Li was in a daze.

"No, no, how can I not believe in you without dust."

Zuo Li gritted his teeth.

After finally seeing a little hope, how can you give up and give up? The big deal is that the treatment failed. What could be worse than now?

As a warrior, his lifelong cultivation base cannot advance, he can only stay in the realm of the pinnacle of the earth level, and even his cultivation base is still constantly regressing.

Zuo Li didn't want to suffer this kind of pain anymore.

"Less dust, just come on."

As soon as he gritted his teeth, Zuo Li started to take off his armor and clothes while talking.

"Leading Zuo, what are you doing?" Qin Chen couldn't help being dumbfounded when he saw Zuo Li take off his shirt quickly, revealing his chest full of hair.

"Little Chen, aren't you preparing for golden needle acupuncture treatment? How do you puncture if I don't remove my clothes?"

Zuo Li said in doubt, and began to take off his pants.

"Ahem." Qin Chen was full of black lines, "Leader Zuo, I use flying needles to puncture acupuncture points, so I don't need to undress."

"You said earlier, my pants are all off, you told me it was a flying needle..."

Qin Chen: "..."

"Attention."

No more nonsense, Qin Chen's eyes condensed, his index finger and thumb lightly pinched, and he pinched a golden needle, without looking at it, he flicked his finger directly.

"call out!"

With a flash of golden light, Zuo Li only felt a slight tingling in his chest, and a golden needle had already pierced his chest.

Chapter 129

Don't wait for him to react.

Shoo...

A lot of breaking sounds sounded at the same time, and Zuo Li's body was numb at the same time. In the blink of an eye, more than ten golden needles had been inserted into his body, all of which were on his own important acupuncture points.

"Snapped!"

Closing the jade box, Qin Chen stretched out and yawned, "Okay."

Ok... Alright?

Zuo Li was taken aback, so fast? It's only a few seconds, silly?

"Little dust, what else do you have to do next?" Zuo Li stunned.

"No need to do anything, just wait."

"Waiting..."

Zuo Li only felt that he was about to faint. A dozen gold needles stuck him, and that was done. There was nothing to do?

Brother, I have been a stubborn illness for five years!

There are so many pharmacists in the Royal Capital who can't solve the problem. You actually put in a few golden needles and said it is over. This is too bad.

Not to mention that your treatment only took a few seconds. The key is that I damaged the meridians. If you just puncture a few points, what problems can you solve?

Zuo Li almost cried for a while.

Forget it, forget it, it seems to be wishful thinking.

Think about it, no matter how awesome Chen Shao is, he is only a teenager who can see what kind of illness.

I am still too stupid and naive.

"Little dust, thank you for your shot, let's say goodbye."

With a look of disappointment, Zuo Li was about to pull out the golden needle from his body and bid farewell to him, only to find that his body was completely unable to move.

The acupuncture points pierced by more than ten golden needles became numb, and I couldn't get it out with any strength.

"No, my body, what happened to my body..."

He tried his best to pull out the gold needle, but he couldn't even lift his arm, and he was frightened for a while.

What shocked him even more was that after the numbness, the true qi in his body became violent uncontrollably, and a large amount of true qi rushed across his body meridians, and the violent power almost broke through his meridians. The pain was throbbing.

"I...less dust, quickly...pull out the golden needle from my body..."

Zuo Li said these words almost gritted his teeth, his forehead was covered with cold sweat.

He couldn't even move now, so he could only ask Qin Chen.

"Pull it down." Qin Chen glanced at Zuo Li in amazement, frowning slightly, "What are you doing? The true energy in your body is so violent, and if this continues, it is easy for the meridians to rupture and become a useless person."

Zuo Li almost spit out a mouthful of old blood, and his cursing heart was gone.

What am i doing?

I also asked why my anger is so violent?

Nima, this is not all a good thing you did. If you don't have gold needles in my body, you will not be able to move, and cause my true energy to be violent. Will I be like this?

Zuo Li burst into tears, how did he meet such a scam?

"I have locked some of the most important acupuncture points on your body with golden needles, and actively activated your true qi. You only need to arouse the true qi in your body and hit along the line I locked to solve your previous problems. But if you keep waiting so stupidly, once you wait for Zhen Qi to tear the meridians, the problem becomes serious."

"You deliberately aroused the true energy in my body?"

Hearing this, Zuo Li was stunned and dumbfounded.

"Otherwise what do you think?"

At this time, Zuo Li was completely speechless. He hurriedly aroused the violent true energy in his body and rushed along the acupuncture point where the golden needle was located.

boom!

With this stimulus, a large amount of true energy roared in an instant, madly rushing through his meridians, and there was almost no obstacle in it easily.

At the same time, under his control, wherever the powerful Zhen Qi passed, instead of a slight swelling in the meridians, there was a tingling sensation.

In just a moment of effort, all the true energy in the left dimension was instantly aroused, gathered together, and formed an unprecedented force.

How terrifying is Zuo Li's accumulation over the past five years? Under the fusion of these precipitated zhenqi, the power in his body instantly burst, and he walked all over his body in less than a dozen breaths.

Boom!

The power of the peak in the later stage of the earth level instantly climbed to the extreme, and a more powerful force spread to the whole body, as if some shackles in the body were broken.

Between the heaven and the earth, a large amount of pure heaven and earth qi enveloped Zuo Li, causing his lack of strength to rise steadily.

"call!"

I don't know how long it took before this change stopped.

"Puff!"

The golden needle that originally pierced into the left cube instantly shattered, turned into nothingness, and dissipated into the air.

"I actually... broke through the sky level, and reached the peak of the early days of the sky level, I...I..."

Standing up, feeling the true energy surging in his body, Zuo Li looked dumbfounded, almost stupid in shock.

His hands trembled, his eyes excited, and tears lingered in his eyes.

I couldn't speak for a long time trembling.

He originally thought that Qin Chen could heal his injuries, which was already extremely impressive. He did not expect that he broke through in one breath and directly reached the heavenly rank, and it was also the peak of the early heavenly rank.

It's not easy, it's really not easy.

In order to wait for this day, he waited for a full five years. He thought he would never reach it in his lifetime, but he did not expect it to be achieved in one fell swoop today.

And time, only half an hour passed.

How did Xiao Chen do it?

Zuo Li was dizzy, and he felt like he was dreaming now.

"Well, I have relieved your stubborn illness, and in the past five years, you have continued to cultivate, some of the true energy has not dissipated, but accumulated in your body. This will enable you to break through the heavens in one fell swoop. After reaching the initial peak, you only need to consolidate it."

Ignoring Zuo Li's shock, Qin Chen explained to the side.

"Yes, yes, thanks for less dust!"

Zuo Li recovered from the shock. He was full of gratitude to Qin Chen, and he knelt on the ground with a bang: "Little Chen, you are my benefactor. From now on, as long as Chen has nothing, Command, just speak, if I left Li hesitated, I would like to be struck by thunder and die."

"Leader Zuo, what are you doing."

Qin Chen frowned, "I just repay you for your help yesterday."

If it hadn't been for Zuo Li's help yesterday, I'm afraid he and his mother are both in danger, and Qin Chen's grievances are clear, so naturally he would not owe others.

"No, little dust, you don't understand."

Zuo Li shook his head heavily, his tone firm.

Once, he was the most outstanding genius of the Royal City Guards, with a lot of eyes gathered around him, and even rumored that he was expected to be transferred to the Royal Palace Guards as the commander, and he had a promising future.

At that time, Zuo Li was floating and unconscious, and he had offended many people inadvertently. But five years ago, after he failed to hit the sky level, he suddenly fell from the peak to the bottom.

Chapter 130 Qin Feng's Return

From then on, those complacent voices disappeared, and the optimistic eyes disappeared. From a very oily post, he was transferred to the most barren Xicheng District as a deputy commander with little power.

In the past five years, Zuo Li has suffered too many eyes, and he has also seen too many human feelings.

The reason why he obeyed Lord Kang's orders was only because when he was in Xicheng District, Lord Kang had helped him once, which made him remember.

Originally, he thought he could only do this in his life.

But I didn't expect that he would also have a day to break through to heaven.

For a time, Zuo Li tears and feels sad.

This kind of feeling is absolutely incomprehensible to ordinary people for a lifetime.

"Shao Chen is so young that he can heal my injuries. The future achievements will definitely have a bright future. I stand on the left and must follow Chen Shao closely."

Secretly made up his mind.

"What you have to do now is to consolidate your cultivation base. Also, although you have reached the peak of the initial stage of the heavenly stage, you must not go too far and rush to break through the middle stage of the heavenly stage in a short time. The reason why you were injured five years ago, it's because of being too impatient, which leads to damage to the heart and lungs, and the meridians have problems. Tian-level Tian-level, the so-called Tian-level, represents the unity of nature and man. It must be at the same time as the state of mind and true energy. Good thing."

Seeing that Zuo Li could not be persuaded, Qin Chen refused to persuade him, but just ordered.

"Yes, Xiao Chen, I must consolidate my cultivation well, and not rush to make breakthroughs, but how long is the short time that Chen Shao said? Three years or five years?"

Zuo Li was already obedient to Qin Chen now, and wanted to ask for some understanding.

Qin Chen was stunned, unable to cry or laugh: "Whether it takes that long, I'm talking about a short period of time. It's just a recent period. According to your situation, within three months, you don't want to make a breakthrough for the time being. After three months, just do whatever you want. Up."

"Three...three months!"

Zuo Li almost suspected that he had heard it wrong, and murmured, "Is three months enough?"

"What do you think?" Qin Chen said speechlessly: "A martial artist's life, how long is it in total, and you are not too young now. If you don't make a breakthrough for three months, it is already a delay in cultivation."

Hearing this, Zuo Li couldn't help but burst into tears, almost going crazy with excitement.

If you don't break through for three months, it's called delaying your cultivation. Then you can't break through in the previous five years, so what is it called?

Thankful for leaving Qin Chen's room, Zuo Li couldn't wait to share this good news with his wife.

After Zuo Li left, Qin Chen quickly calmed down and began to practice.

After a busy day without practicing, Qin Chen felt a strong sense of urgency.

Fortunately, all the matters have been handled today, and I am waiting for the news from the Dange that the medicinal materials are complete.

In the next few days, Qin Chen stayed at home in retreat, painstakingly practicing mad fighting martial arts.

A week passed in the blink of an eye.

This week, Qin Chen did not go out of the gate, and the two gates did not move forward. Even the confrontation between Dean Chu Weichen, Lord Kang and Qin Mansion had been left behind.

Dedicated to practice mad fighting martial arts.

What Qin Chen didn't expect was that under the stimulation of the Nine Star God Emperor Jue, the frantic combat martial arts that he thought would only take half a month would break through to the second level in one week.

Qin Chen's physical strength has also officially approached 30 horsepower.

Thirty horsepower human-level peak martial artist, this news spread, I am afraid it can shock the entire Great Qi State.

In this week.

Because of Qin Chen's assassination, Chu Weichen and Qin Yuanhong went through several confrontations above the court, without results.

Qin Yuanhong put all the responsibilities on Qin Yong, saying that it was Qin Yong who dealt with Qin Chen privately, not the intention of his Qin family.

Because there is no evidence, coupled with Qin Yuanhong's noble status, his Majesty today has never made a decision.

When the two sides were in a stalemate, a message came out.

Qin's patriarch, Qin Feng, has been recruited by the imperial family of the Kingdom of Qi and has set off from the frontier to the capital to participate in this trip to the blood spirit pool. He will soon return to the capital.

As soon as this news came out, the whole king was in an uproar.

"What happened to your Majesty?"

"Qin Chen, as the first place in the year-end exam of the Star Academy, has already got the chance to enter the blood spirit pool, why has he given Qin Feng another place now?"

"In this way, the Qin family has only two of the eight blood spirit pools, it's absolutely against the sky!"

"And at this critical moment, your Majesty, this is..."

At the same time, some rumors about Qin Feng dispersed in the royal capital.

It is rumored that Qin Feng broke tens of thousands of Wei Tieqi at the border not long ago and made a brilliant battle.

There are also rumors that when Qin Feng returns this time, His Majesty will grant him the post of general.

There are even more rumors that Qin Feng is full of wings outside, and Dingwu King Qin Batian is in control of the majority of the military horses of the Great Qi State. His Majesty is jealous, and this is forcibly called.

Among them, there is also a voice, speaking for Qin Feng.

Someone said: "Your Majesty did this, everything is for the consideration of the empire. When Qin Feng joined the army five years ago, he was already a prefecture-level powerhouse. Now five years later, he has experienced a military career and has become a great Qi country. The best of the younger generation, as long as he can represent the Great Qi country and experience the baptism of the blood spirit pool, this year's Five Nations Grand Tournament, the Great Qi country will surely emerge."

Various rumors have been mixed and spread.

"Qin Feng?"

When Qin Chen heard the news, a sneer appeared at the corner of his mouth.

"It seems that Zhao Feng can't bear it anymore, and is anxious to summon Qin Feng back. Is he trying to do something to me during his trip to the Blood Spirit Pool?"

Qin Chen sneered, not paying attention.

No matter how talented Qin Feng was, in Qin Chen's eyes, he was just an ordinary person in a remote place in the Great Qi State.

Now he has so many things to deal with, how can he put his mind on a little kid.

In this atmosphere, Qin Feng's team finally returned to the royal capital two days later.

The mighty iron cavalry drove into the royal capital, causing a major sensation.

On this day, the city was full of empty alleys. Everyone wanted to see how far this former king's first genius had grown.

In front of the cavalry team, a handsome young man of about twenty years old caught everyone's eyes and attracted waves of admiration.

I have to say that after five years of iron-blooded career, Qin Feng can't see the slightest aura of aristocratic children, and some is just a tyrannical iron-blooded gas, which rises into the sky and shocks the world.

"Didn't my good brother come to greet me?"

Qin Feng entered the city, the first sentence was this.

Caused a sensation.

"Hmph, I heard that he made some noise in the capital city and injured brother Fen. I, the eldest brother, would like to clean up the door and teach the Qin family what manners are needed!"

He said proudly, his eyes staring and dismissive.

Everyone is shaking.

Qin Feng called Qin Chen as soon as he came up. Is this asking brothers to kill each other?
