

Valkyrie 1231

[Chapter 1231: One stone stirred up waves](#)

Elder Jiao even shot, shaking away the momentum released by Elder Wang, and said gloomily: "Wang Yongsheng, don't be too arrogant. This is my brother in Xuan Yi's line. He has just been assessed as the King of Medicine, so he naturally has a voice." "En? Your brother?" Elder Wang looked at Zhuo Qingfeng in doubt, his eyes were startled, and he suddenly sneered: "Who am I? Turns out to be the kid with the surname Zhuo, hahaha, you offended the Hall of Law Enforcement back then and were dismissed. Dan Dao City, sent to the frontier, did not expect to dare to come back. Well, you got into trouble back then,

Pulling your Master Xuanyi Medicine King from the position of the deputy pavilion master made my Dandao City face a big loss in the Northern Heaven Territory. You actually used the courage to return to the Dandao City, and your face was thick enough. "

Zhuo Qingfeng's face was ugly. He just learned that after he was reprimanded, Master Xuanyi Medicine King was also implicated, and he was pulled down from the position of deputy pavilion head and became an elder of the Dan pavilion. , Being squeezed out in Dan Pavilion, life is very bad.

Not long ago, the beloved disciple Lu Wencheng, who was carefully cultivated by Master, fell unexpectedly, which caused Master to suffer a severe blow and was devastated.

No wonder that his Zhuo family even mortgaged the mansion.

In recent years, under the pressure of the three deputy pavilions, Master's position in the Dan pavilion is at stake, and he is unable to take care of others.

"Wang Yongsheng, these are old things, so what can I say." Elder Jiao snorted coldly.

"Okay, I don't care about everything else, and I'm too lazy to care about it, but I heard that this son had done something to my deputy pavilion master, Jinzhou Shengzi, and handed over this son, leaving it to this seat to handle other things. , I can forget the past, otherwise, don't blame me for looking forward to Yongsheng's face."

Wang Yongsheng said proudly, aggressively, with a sneer in his heart, as long as Qin Chen was captured by him, he would be tortured by the time, and let the other party prove that Xuan Yi Yao Wang's line deliberately wanted to kill the saint son of their Kang deputy pavilion main line. At that time, Sylphy Medicine King was immortal and disabled.

Jiao Elder's face was pale, would he not know Wang Yongsheng's sinister intentions? Not to mention that Qin Chen is still Zhuo Qingfeng's friend, how can he hand it over?

But in the current situation, their line is indeed small and weak. They can't be compared with Wang Yongsheng's line. If they continue to confront each other, they will only get worse.

But he couldn't think of a better solution.

"Ha! Ha! You all thought you were going to kill me?" Qin Chen said, he strode out, his expression indifferent.

"You are dead today!" Jin Zhou Shengzi said coldly.

What he is best at is to use his identity and various resources in his hands to smash people. Beautiful women will undress him, and Tianjiao will bow his head. And the enemy... naturally there is no place to die. Qin Chen smiled faintly, and said, "Isn't that the identity of a saint son? What a good one! Brother Jiao, please prepare for me. I want to test the Medicine King, according to the iron law of Wuyu Dange 137 According to the eighth sub-category of item two in Article 76, pharmacists have the right

Power certification, enjoy different treatment, am I right? ! "

Hearing Qin Chen calling Elder Jiao his brother, many people spit out their tongues. This young man is really crazy. Don't you know that Elder Jiao is the real power elder of Dan Pavilion. Although his status is not as good as Elder Wang Yongsheng, he is also Dan Pavilion. One of the more powerful elders.

You are a small teenager, even if you have some talent for pill medicine, that is an average pharmacist, and you can't compare with the seventh-grade mid-stage medicine king like Elder Jiao.

Even if you have a high talent, you are expected to become the King of Medicine in the future. It is impossible to catch up with Elder Jiao's cultivation level without a few decades, let alone you have not yet become the King of Medicine. Younger!

Everyone was taken aback when they heard Qin Chen's next sentence.

Dan Ge still has such a rule?

Suddenly someone took out the iron law issued by the Dange headquarters, opened it and looked at it, suddenly stunned, there really is such a one.

"The pharmacist can perform strength certification at any time to obtain the corresponding treatment. No Dange branch or institution must disobey, otherwise, the branch qualification will be stripped, and the party will be severely punished!"

The above is clear, and the content is clearly stated.

"Damn, what kind of brains does this guy remember?"

Everyone fainted, and they all understood the iron rules of Dan Pavilion, but no one had memorized them so clearly. They just memorized some of them in general, but this guy even memorized the paragraphs, articles, items, and subcategories. Live, how did your brain grow? How did they know that this one was discussed by Qin Chen with a group of ninth-rank emperor-level pharmacists when he was the honorary elder of the alchemy headquarters, in order to arouse the enthusiasm of the pharmacists and let every talented pharmacist , Enjoy the treatment that suits you at any time

.

"Okay, prepare the refining room!" Elder Jiao said coldly after seeing this one.

Elder Wang looked a little ugly. Although he did not want Qin Chen to accept the assessment, he also knew that in the alchemy pavilion, no one would be allowed to prevent the alchemist from verifying a higher-level identity, let alone him, even the deputy pavilion master of the alchemy pavilion. It doesn't work, the terms are clearly written.

His face suddenly became extremely gloomy.

"Haha, I'm laughing to death. This is a silly boy. He doesn't have the same hair, so he wants to authenticate the King of Medicine!" Shengzi Jin Zhou laughed coldly with a disdain. If the King of Medicine is so good at certification, the whole Dan Ge will not have only three of them. "Okay, I want to see what tricks you can play. If you can be assessed as the Medicine King, you will naturally receive a fair treatment, but if you fail to pass, it will be more sins, and the old man will definitely take the shot. Beheading, if anyone blocks it, he is the enemy of the Dan Pavilion of the North Heaven Region, the Dan Pavilion's

Rules, but not everyone can use them. If you want to use it, you have to bear the consequences. "

Elder Wang sneered. Since he couldn't change it, he could only recognize it, but he didn't think Qin Chen could really pass the medicine king.

The king of medicine, the king of medicine, how difficult is it? It's by no means anyone can test it casually.

"Then prepare for the assessment." Elder Jiao glanced at Qin Chen with some anxiety, but the matter has reached this point, and there is no way out. He said to several elders with real power, "Prepare the assessment room immediately."

"No, it will be assessed in the hall outside the Dan Pavilion. In such a prosperous world, it is not necessary to cover it up, it is better to let everyone observe it." Elder Wang grinned and said with bad intentions.

Jiao Chang's expression changed even more, and he hurriedly said, "No, the hall is noisy, how could it be possible to succeed in the assessment?"

Elder Wang sneered, and was about to speak, but was interrupted by Qin Chen: "Elder Jiao, no, just check in the hall."

Elder Jiao looked anxious on the side. Isn't this because he is looking for death? Originally, the medicine king's assessment was extremely difficult. In the hall, the flow of people was surging, and the difficulty was at least doubled.

"Brother, just follow Chen Shao's request." At this time, Zhuo Qingfeng smiled and held the elder with a confident expression.

A joke, if Shao Chen couldn't be tested by Medicine King, who could have been tested?

Immediately, the news that Qin Chen was going to test the Medicine King spread through the Pill Pavilion like a gust of wind.

boom!

One stone caused a thousand waves! The whole Dan Pavilion is boiling!

[Chapter 1232: Scale up](#)

The news that a young man offended Saint Jinzhou and wanted to test the King of Medicine instantly spread through the entire Dandao City like a gust of wind.

And I heard that it was going to be publicly assessed in the hall, which immediately caused a huge sensation.

Think about it, how many medicine kings are there in the entire Dandao City? After countless years, although the number of alchemists in the entire Alchemy City was large, all the alchemists from all major forces in the Northern Heaven Region would gather here to make breakthroughs, but the number of Medicine Kings did not exceed three digits.

For the vast majority of pharmacists in the Northern Horizons, being able to become a Medicine King is definitely at the pinnacle of life.

It's just that it's too difficult to become the Medicine King. At least thousands of Sixth-Rank Alchemists work hard in Pill City, and more than 90% of them can't see the hope of breakthrough.

Because the assessment of the medicine king is top secret, few people will see the medicine king's refining with their own eyes. The vast majority of pharmacists work behind closed doors and lack communication. This is the reason why Master Zhao Ruhui will attract so many pharmacists to teach by the queen of medicine. .

But now, there are people who want to conduct the Medicine King assessment publicly under the public, which immediately caused a huge sensation.

If the opponent is really a pharmacist with the strength of the Medicine King, then it is undoubtedly a huge attraction for them to allow each pharmacist to observe a Medicine King's assessment at close range.

For a time, countless alchemists who learned the news in Alchemy City swarmed.

Not to mention that the alchemists were alarmed, even many martial arts families have also sent people to watch, a new medicine king, worthy of attention and winning.

Some well-informed people even heard that the assessment of the Medicine King was related to the struggle between the deputy chief of Dan Pavilion Kang Youming and Xuan Yi Medicine King, and they naturally rushed to it.

In the blink of an eye, there was a crowd of people outside the entire Dan Pavilion, a sensation.

Seeing the countless alchemists and warriors swarming in, Wang Yongsheng and Jiao Elder were also dumbfounded. They did not expect to cause such a sensation.

In less than a quarter of an hour, the hall of the Pill Pavilion was already crowded with countless pharmacists, and outside the Pill Pavilion, countless pharmacists and warriors came, already surrounding the door outside the Pill Pavilion.

How to do this?

Many people in Dan Pavilion are dumbfounded, and if they continue to develop, I am afraid they will cause big trouble.

"Immediately chase away these miscellaneous people." A real power elder frowned and said.

The conflict between Xuan Yi Yao Wang and Kang Youming's deputy pavilion is a matter within the Dan Pavilion. Once it is spread out, it will have a bad impact on the reputation of the Dan Pavilion.

Wang Yongsheng's expression was also very ugly. He put the assessment in the Pill Pavilion Hall just to create obstacles for Qin Chen. What if he really succeeded in refining the Wang Pin Pill? Who knew that things would develop into this way.

In case something goes wrong, and it spreads to the ears of the pavilion master, the problem will be serious.

However, when they wanted to drive away, it was too late.

Once the news spreads ten, ten, hundreds, thousands, and thousands, they are no longer under their control in the blink of an eye. Once they are forced out, it will only cause more trouble.

Pill Pavilion was originally a place for the alchemists to communicate with each other. How could they drive others away for some personal reasons?

But now, the people in the hall obviously can't wait any longer. Is it necessary to cancel the assessment and let the kid go?

"The two elders, you have also seen that things have become out of control now. Why don't we try again at another time?" An elder with real power cautiously said, giving both sides a step. "No!" Wei Jinzhou shook his head, his eyes cold: "Not in the hall, can it be in the square outside? This son humiliated me in the Dan Pavilion, and even beat me up. If this is the case, my Jinzhou son What's his face, since there are so many people here, it's better to be in the square

I don't believe it, this person can really pass the assessment. "

Wei Jinzhou was unwilling to reconcile after being killed, because he didn't believe that a young man like Qin Chen could refine Wangpin's medicine.

Elder Jiao sneered: "Wei Jinzhou, take the test on the square? For what you said, you are also the king of medicine. Don't you know that when a pharmacist is refining medicine, he is most afraid to disturb? With so many people watching, you can refine Wang Pin's pill is here? If there is a mistake at that time, who is it?"

"Hahaha, if you can't refining, you can't refining, what excuses?" Wei Jinzhou dismissed: "As a pharmacist, if he doesn't even have the ability to eliminate distracting thoughts, what qualifications do he have to pass the assessment and become a master? Medicine King?"

"You, it's so arrogant." Jiao Elder's face was pale.

"Okay, let's take the test in the square."

At this moment, Qin Chen suddenly said something, which immediately attracted shocked eyes from everyone.

Anyway, we are preparing for the assessment. Is there a difference between the hall and the square? It may be different to other alchemists, but to him Qin Chen, there is no difference at all.

"Okay, quick talk, kid, this elder admires you a bit, but unfortunately, if you fail the assessment, this elder will be the first person to kill you, and immediately prepare for the assessment." Elder Wang sneered and went out. .

"You, alas..." Elder Jiao looked at Qin Chen and sighed helplessly, but he didn't know what to say about him.

Qin Chen was a sixth-grade pharmacist, he also knew it, but he still did not report any hope for Qin Chen's assessment of the Medicine King.

How much is the gap between the Sixth-Rank Alchemist and the Seventh-Rank Medicine King?

Not Yipin, but Infinity!

Just as the seventh-order Wuwang has a 90% or more probability that he will not be able to enter the Wuhuang realm in his lifetime, the sixth-rank alchemist also has a 90% or more probability that he will not be a medicine king, even more exaggerated than the former.

There are at least thousands of six-rank alchemists in Alchemy City, but the number of Medicine Kings is less than one hundred. This ratio is evident.

But now Qin Chen has already agreed, and naturally can't go back.

After receiving the news that Qin Chen was going to conduct the Medicine King assessment on the large square outside the Dan Pavilion, the entire Dan Dao City was even more sensational, and countless people swarmed.

Half an hour later, the square outside the Dan Pavilion was already crowded with people, and people gathered everywhere on the stands.

This scale has expanded tenfold and a hundredfold.

"boom!"

When Qin Chen and the others walked onto the square, there was a sensation in the audience, the noise of the noise was deafening, and they went straight into the sky.

"Everyone, be quiet." Elder Wang shouted loudly, and the noise on the court instantly quieted. "You should have also heard the news, yes, today, my Dan Pavilion will conduct a special Medicine King assessment here. ."

He looked at Qin Chen and said coldly: "This son, today I was arrogant and domineering in my Dange, and even used despicable means to hurt my Dandao City Jinzhou Saint Son. My Dange is about to punish this person severely, but This son, I want to use the Medicine King assessment to evade." "Although the old man is furious, the Medicine King assessment is the iron law of my Pill Pavilion, which naturally cannot be stopped, so you can see today's scene. At the beginning of the Medicine King assessment, I hope you can recognize the true face of this person."

[Chapter 1233: Certified Elder](#)

The words of Elder Wang caused a huge sensation in the square.

"What, it turned out to be like this?"

The crowd boiled like a frying pan. They only heard that someone was going to take the Medicine King assessment publicly in the Dan Pavilion, but they didn't know the ins and outs of the matter. Now, hearing what the elder said, it was like an explosion.

Someone dared to do something against the holy son of Jinzhou in the Pill Pavilion. Is this... the opposite?

Son, who is that person? It is the symbol of Dange, the top Dandao genius in Dandao City, it can be said that it is the future of Dandao.

Such a person is injured in Dan Pavilion, is there still Wang Fa? Is there any reason?

The crowd was noisy for a while, and everyone was whispering and talking to each other.

"Wang Yongsheng, don't spit blood." Jiao Elder said with a sullen expression.

"Elder Jiao, don't have to talk nonsense with him, looking at Yongsheng, how is so long, can you start the assessment, right?" Qin Chen stepped onto the high platform and said lightly at Wang Yongsheng.

"What? Is this teenager going to be tested?"

"I'm going, this is too young, right?"

"This...I did hear that the examiner seems to be young, but this is not that big and too young? This is only about twenty?"

"A young man in his early twenties who wants to test the Seven-Rank Medicine King, brother, hurry up and hit me. Is it because I am dazzled? Or is it dreaming?"

"Damn, it hurts, not dreaming!"

Seeing Qin Chen on stage, everyone was dumbfounded, one by one was ashamed of the evil, almost fainting here.

I thought, what kind of master would come for the assessment, even if you were young, you would have to be in your forties at least?

Among the pharmacists, they are already very young when they are in their early forties to take the medicine king assessment.

But who knows, it turned out to be just a young man in his early twenties.

This time, he cut his waist in half, making everyone confused and thinking that he was dazzled.

"No, it's definitely impossible. How could it be possible for such a young teenager to assess Medicine King."

"Yes, it should be a mistake. Maybe Dan Ge made a joke with us. That boy should be just Dan Ge's staff."

"It makes sense, brother, I think you are very clever, do you have any idea of mixing with me?"

"Brothers, dozens of people, need to mess with you? Who are you!"

The crowd was restless, and they looked at Wang Yongsheng, wanting him to dispel their own guesses, but unfortunately, what Wang Yongsheng said next instantly dispelled their thoughts.

"Hmph, since you are in a hurry to find death, let's start, the materials are ready for you." Wang Yongsheng sneered and said.

Is it really this young man who is being evaluated?

Everyone was stunned and dumbfounded.

What kind of plane, isn't this playing tricks?

They came here with great pains, and even many people left important things on their hands, not just to witness the demeanor of Yaowang's alchemy.

In their opinion, would those who dare to make public assessments not have two brushes?

But now, everyone is depressed. A teenager in his twenties came to test the King of Medicine. Isn't that kidding? If she can pass the Medicine King at such a young age, the sow can go to heaven.

"Damn, this Dange is too good at playing tricks, right?"

"What's up?"

"When I received the news, I was refining a key pill. He came over directly when he heard the news. The elixir that I had worked so hard to get was scrapped. Isn't this kidding me?"

The crowd completely exploded. If it weren't for Dan Pavilion's absolute influence in Dan Dao City, I am afraid that the frying pan would have rebelled now.

Huh huh!

At this moment, on the high platform in the middle of the square, nearly ten Dan Pavilion elders stood proudly, sitting in a circle, surrounding Qin Chen in the middle.

These people, including Wang Yongsheng and Jiao, are the top elders with real power in the Dan Pavilion, and each of them is qualified for the assessment of Yaowang.

Under normal circumstances, only three real-power elders are required for the general medicine king assessment, but this time, there are a total of nine.

Because this assessment faces the entire Dandao City, it naturally needs to be strict and strict, and no mistakes can occur.

Among the nine people, there is a refining table, and there are many elixir on the refining table, which are all prepared by the pill pavilion.

For the normal medicine king assessment, the elixir can be brought in or prepared by the Dange. Of course, the assessor needs to spend money to buy it, but this time, considering the huge impact, the materials are directly prepared by the Dange.

"The king of medicine is the king of pharmacists. If you want to pass the examination, it does not mean that you can be awarded a king-grade pill at will."

When Qin Chen walked to the refining platform, one of the elders spoke, his voice rumbling, sitting among the nine people, in terms of status, it seemed that he was not much better than the elder Jiao and Wang Yongsheng, and he was obviously the top in the altar. character. "Old man Huangfu Nan, Dange and other level certified elders, young people, there are seven seventh-level elixir, 96 sixth-level elixir, and 168 adjuvants in front of you. In order to verify your cultivation In order to reach the level of Medicine King, you need to find the only one that can be refined from these elixir

A successful Seventh-Rank King-level pill and prescription will be considered as a pass, otherwise it will be considered as a failure. "

"Now, let's start!"

When the old man finished speaking, he closed his mouth and stopped talking.

As soon as the rules came out, the audience was silent.

Damn, it's so hard?

Although few pharmacists on the field have a medicine king, most of them are low-level pharmacists, but they also know well about the audit of pharmacists.

Under normal circumstances, shouldn't it be enough to only need to refining a pot of formulated pill at will? How can it be like this, where you need to find the only elixir of refining from so many elixir, and then refine it?

Who knows what kind of Wang Pin pill your pill pavilion produces, there are so many Wang Pin pill prescriptions, if the other party has never heard of your prescription, wouldn't it just fail the assessment?

This is simply a problem for the other party.

On the high platform, Elder Jiao was nervous and his face was ugly.

This question was asked by the certified elder. It was such a big event that the other party would naturally have to be notified. After the certified elder learned the news, he set this question, which is almost the most difficult one in the appraisal of the alchemist.

In the opinion of the certified elder, Qin Chen had caused such a big disturbance in the Dange. No matter who was right or wrong, the cause and effect, since Qin Chen had caused such a big trouble, he must be prepared to bear the consequences.

To this end, Elder Jiao has nothing to do.

Qin Chen nodded indifferently and came to the refining table.

All kinds of elixir came into his eyes instantly, and then he chuckled lightly: "Do you want me to refine Qinghong Pill?"

In fact, in Qin Chen's eyes, the Wang Pin pill that so many elixir can refine is not the kind that the certified elder said.

But at the level of the Northern Heavenly Pill Pavilion, if the other party said that there was only one type, then it could only be the Qinghong Pill of Wang Pin.

"Huh!" The certified elder Huangfu was surprised in the south, and Qin Chen recognized the pill they wanted him to refine at a glance.

[Chapter 1234: Start refining](#)

Not only Huangfu Nan, but other elders also showed shock.

If it wasn't that they were discussing with each other and avoiding Elder Jiao and others, there would be no possibility of leakage, they even thought that Qin Chen knew the answer.

You must know that the main medicine, secondary medicine, and auxiliary medicine are counted on the long refining table, but there are hundreds of elixir, and you must find the only Wangpin pill among them. , It may not be found out all at once.

Seeing the expressions of many elders, the audience on the stage was taken aback.

Did Qin Chen get it right?

Damn, this kid was really lucky, and he guessed the question of Dan Pavilion right at once.

"Maybe there are not many main medicines in it, so it's easier!" Many people guessed like this.

Only a few very powerful pharmacists can see that it is absolutely not the case. The combinations of the elixir on the stage are varied, and there are even many traps. If they go up to them, they will not recognize it at all.

If this boy was not fooled by luck, then it is very likely that the other party does have real knowledge.

"Elder Huangfu, Qinghong Pill is one of the most difficult types of medicines in the early stage of the king's stage. The difficulty of refining is extraordinary. Even some newly promoted kings of seven-stage medicine may not be able to refine them all at once. Is it too difficult for you to set this topic?" Elder Jiao said nervously from the side

.

Qinghong Pill is definitely one of the most difficult to refining among the many medicines in the early stage of the king product.

Under normal circumstances, a newly promoted Seventh-Rank Medicine King needs a period of familiarization and refining before being able to master it, but now Elder Huangfunan is actually using it to assess Qin Chen, how does this make Jialiang Jialiang? Not urgent.

"Elder Jiao, are you questioning the decision of Elder Huangfu?" Wang Yongsheng sneered.

But my heart is so happy.

Elder Huangfu's position in the Dan Pavilion is relatively detached. He was delegated to the Martial Domain, and had a good relationship with the three deputy pavilions, but he did not join any camp. At first, he was worried that the problem of Elder Huangfu was not difficult enough. Who knew it was. Asking the opponent to refine Qinghong Pill, he breathed a sigh of relief.

As for Wei Jinzhou, he was even more excited. The corner of his mouth outlines a grinning ambition. He also knows the difficulty of Qinghong Pill. Even if he is, he may not be able to refine it in one go. Just the kid Qin Chen? Wouldn't it be defeated? Huangfu Nan said indifferently: "Since this son has the confidence to make public refining, naturally he can't use simple pill to make him refining, otherwise it will affect the reputation of the pill pavilion. Although the Qinghong Pill is difficult, it is very comprehensive. , Which covers various problems encountered during the refining of Wang Pin Pills. If he fails to refining, it can only mean that he has not fully mastered various techniques in the refining of Wang Pin Pills. How can he convince everyone? On the contrary, as long as he can refine the Qinghong Pill this time, it means that he has mastered most of the refining techniques of the early king grade pill, and has given him the name of King of Medicine.

It is well deserved. "

For fear of misunderstanding, Elder Huangfu Nanjiao and others specially explained it.

"Elder Huangfu is fair and wise, I will naturally rest assured." Elder Wang laughed.

And their conversations also passed out, so that many audiences around heard them, whispering one by one, and even more shocked, looking at Qin Chen's eyes with pity.

Although this kid guessed the subject correctly, he guessed it right and guessed it right, but he might not be able to do it if he wants to refine it successfully.

"Qinghong Dan?"

Qin Chen smiled softly, could this stump him?

Ignoring the noisy whispers from the outside world, Qin Chen's mood was immersed in an instant, and at the same time he walked to the refining table, his hands moved quickly.

Huh!

As if a phantom flashed by, Qin Chen had already started operations.

The first step is to sort the elixir.

Sort out the materials for refining Qinghong Dan from the many materials on the refining table.

Qinghong Lingxin is the main medicine, followed by various auxiliary medicines. The whole process usually takes about a quarter of an hour.

Don't underestimate the process of sorting elixir. Although many elixir are easy to identify, if you want to refine a perfect elixir, you must find the most active and most suitable elixir from the same elixir. That one or several.

This is a very huge test for the pharmacist. Normally, a pot of Seven-Rank King Pill can be sorted and refined within a quarter of an hour, which is already considered fast.

But Qin Chen's speed shocked everyone. He controlled it like running clouds and flowing water. After just a dozen breaths, a pile of elixir appeared on the refining platform in front of him, and the remaining elixir had been placed by him. Arrived aside, staring at the alchemists in the square.

This is too fast.

"This kid isn't picking it up, right?" someone murmured.

In fact, many people have the same thoughts, thinking that Qin Chen knew that he could not refine and gave up on himself.

However, Huangfu Nan and the others' eyes suddenly condensed, showing a look of shock. Because of the distance, they could not completely tell whether the elixir Qin Chen picked was perfect, but judging from some of the elixir that could be seen, the other party must be not random picking, but targeted.

What shocked them even more was Qin Chen's movements, which were as fast as lightning, and dazzling, almost like art.

As the real power elders of Dan Pavilion, they discovered for the first time that the original sorting materials can be so elegant and even full of beauty.

Among the crowd, Zhuo Qingfeng flushed with excitement and his face was proud.

"You pretentious fellows, let you see and see, and be extraordinary!"

He was full of confidence, and his body trembled with excitement.

Although Wei Jinzhou is also the King of Medicine, he can't see much. He just sneered. There are also many young sixth-rank alchemists in Pill Dao City, and they have been constantly hitting the threshold of the King of Medicine over the years, but in the end, No one can cross the past, why?

This step is too difficult and too difficult!

It is so naive that a twenty-year-old boy wants to succeed too!

However, he was still a little shocked by Qin Chen's technique, because he was also a genius in the Alchemy Dao, Qin Chen's technique was too sophisticated, and even he was extremely shocked. He was dazzled, and he felt ashamed.

There used to be some noise in the square, but at this moment, it became silent, watching Qin Chen quietly. The flavor caused them to resonate strongly, as if something was about to surge out of their bodies. Like.

After sorting the materials, Qin Chen took out the pill furnace in an instant, and with a boom, the Qinglian Demon Fire was released directly.

When the dense flame burst out, everyone was shocked again. What kind of flame is this? The flames in their bodies trembled, what kind of **** fire was it? This flame is absolutely above the flame in their bodies.

[Chapter 1235: Flame Shunt](#)

"This fire is too strong, and it makes me feel palpitations. Is it some kind of earth fire? But why is it that above this flame, it gives me a strong sense of life, like a **** fire, but What kind of blood spirit fire has such a terrifying aura, will the blood spirit fire in the blood beast of the Emperor rank?

It's the blood spirit fire in the general imperial-level blood beast, and there won't be any breath that makes my heart palpitating, right?" Huangfu Nan's eyes were solemn, shocked in his heart.

Originally, after he heard about the conflict between Wei Jinzhou and Qin Chen, he didn't take it seriously, and even had some dissatisfaction with Qin Chen.

He is in the same line as the deputy chief of Kang Youming, where Wei Jinzhou is located. Although they don't have too many personal relationships, the other party is after all the deputy chief of the Dan Pavilion. Wei Jinzhou is also one of the three saints of the Dan Pavilion. Can a pharmacist insult?

Not to mention that the other party also disturbed his penance, Huangfu Nan was naturally a little dissatisfied with Qin Chen, otherwise there would be no such problem.

But now, his senses towards Qin Chen immediately became unusual.

Whether it was recognizing the pill prescription, sorting the elixir, and now using the different fire, it gave him a strong shock and made him full of expectation and curiosity for Qin Chen for a moment.

I couldn't wait to see Qin Chen's next refining. "Hmph, I didn't expect this kid to have such a powerful flame on him. However, having a different fire may not mean anything. There are many alchemists who have a different fire in Alchemy City, but there are very few who can truly become the Master of Medicine King. Very few, the flame is only an auxiliary, the real test of the alchemist is the flame

Otherwise, it would be useless if there is only a strong flame and cannot be controlled." Wei Jinzhou sneered, but excited in his heart.

He was quite moved by the flames Qin Chen displayed, and only waited for Qin Chen to fail the examination and be killed by the elder Wang, he would collect the flames from the opponent.

"Hey, this flame looks pretty good, and it can be regarded as a little compensation for this son." Wei Jinzhou smiled coldly, full of confidence.

Because he did not believe that Qin Chen could control such a powerful flame.

But the next second, his expression froze.

Qin Chen's hand shook, and under the constant slashing, flames flew out of the cyan refining demon fire. The original cluster of flames like green lotus instantly turned into nine clusters of small flames. An inverted pagoda is formed, licking at the bottom of the furnace.

The general flames of this pagoda are layered, row upon row, licking the walls of the pill furnace, and quickly heating the cauldron.

"This is... Nine Flames Pagoda Method?"

"The Nine Flame Pagoda Method is the strongest basic method in flame control. It can freely adjust the temperature, the location and intensity of the burning pill furnace, and at the same time it will improve the quality of the pill, and it will also be of great help to the integration of the medicinal properties. "

"It's no wonder that this child has such confidence, and the flame of the pagoda is formed between waving his hands. There are indeed two attacks."

"Unfortunately, the Wangpin pill can not be successfully refined with a simple flame control. It is very early for this child to refine the Qinghong Pill."

On the high platform in the center of the square, several elders in real power all laughed and talked.

They belong to different branches, and the conflict between the line of Xuan Yi Yao Wang and the deputy chief of Kang Youming is naturally a happy one. Watch the excitement. Although the Nine Flames Pagoda technique is the most difficult one of the basic fire techniques, for them like medicine kings, it belongs to the basic technique after all. Naturally, it is not surprising that, let alone basic fire techniques, even some special fire techniques, They have one of these medicine kings more or less

Some dabble.

Who can become the King of Medicine and serve as the elder of Pill Pavilion Real Power, who doesn't have half a brush in his hand?

Among the crowd, only Huangfu Nan's gaze condensed, staring at the flame pagoda above Qin Chen's palm, with an incredible look in his eyes, and said in shock: "No, this is not the Nine Flames Pagoda method, but the diversion of flames. Surgery!"

He screamed in horror, clasping the handrail beside him with both hands, almost sitting unsteadily in shock.

Suddenly everyone was greeted with suspicious eyes, and he said in amazement: "Elder Huangfu? Ten thousand flames diversion technique? What kind of flame technique is that? Isn't this clearly the Nine Flames Pagoda technique?"

The Nine Flames Pagoda method, the flames are divided into nine, in the shape of a pagoda, exactly the same as the flame in front of Qin Chen, would they admit their mistakes?

But the other party is Huangfu elder, but they have to pay attention.

Elder Huangfu's position in the Dan Pavilion is extremely detached. As a certified elder, he assesses all certification matters in the North Tianyu Dan Pavilion, and comes from the Wuyu Dan Pavilion. Naturally, they are beyond their reach.

And they also heard that the relationship between the elders of Huangfu and the pavilion master was also extraordinary. In the entire Dan pavilion, the only one who could easily see the pavilion master was the elder Huangfu, which naturally made them pay attention.

But at this moment, they were still puzzled, because the elder Huangfu said that the Wanyan Diversion Technique, they hadn't heard anything wrong.

"The 10,000 flame diversion technique is an ancient fire control technique. Yes, it is the 10,000 flame diversion technique. I can never read it wrong. If you don't believe it, look at the inside of every flame in that kid's hand." Elder Huangfu said in a deep voice. Road, eyes narrowed.

"Look inside the flame?"

Elder Jiao and the others looked at them intently. At first, they didn't feel anything, but after looking carefully, they were all shocked, and their faces looked like hell.

I saw that the flames were divided into nine flames. Inside each flame, they were divided into nine flames, but the nine flames were almost stuck together, making it just one flame at first glance.

In other words, on the surface, Qin Chen divided the previous flame into nine, but in fact, it was divided into ninety-nine and eighty-one subtle flames, each of which forms a complete flame. These nine flames constitute a flame pagoda.

hiss!

Suddenly inhaling the air-conditioning one after another, everyone only felt a chill rushing from the soles of their feet, straight to the spine.

This Nima... is too abnormal!

Flame splitting is an operation that extremely tests the mental power and control of the pharmacist.

Normally, a pharmacist can divide the flame into nine, which is extremely abnormal, because this means that when the opponent is refining the pill, he needs to control the nine flames at the same time, and perform temperature control and operation to make the pill refining. At that time, there are no accidents.

But now, the little boy in front of him has actually divided his doubts into ninety-nine-nine-eighty-one flowers. What kind of abnormal spiritual control is this?

Even if the opponent had a certain technique and technique, the control of eighty-one flames at the same time was beyond the limit of the average alchemist. Let alone other pharmacists, even the elders of the top ten powerful medicine kings on the field, dare not say that they can definitely do it.

[Chapter 1236: Almost falling asleep](#)

At this moment, everyone looked at Qin Chen's face changed.

If Qin Chen recognized the elixir and sorted the elixir in an artistic way, it was only a time when they were a little surprised at Qin Chen.

But now, everyone's attitude towards Qin Chen has become solemn.

Here, he dared to openly conduct the Yaowang assessment, not arrogant, but capable.

The first thing Qin Chen performed was to heat the cauldron to cast the Wanyan Diversion Art, raising the pill furnace to a state most suitable for refining.

After about ten breaths, Qin Chen started the formal refining after heating the cauldron.

Hum!

His hands shook quickly, and he saw that the strains of elixir flew into the pill furnace like a hundred geese. The speed was so fast that everyone was dazzled. Only one phantom passed by. The elixir had already entered the pill furnace one after another, completely unable to respond.

After the pill enters the furnace, the next step is to purify the medicinal power. Naturally, everyone who saw that amazing technique was taken aback. Several people exclaimed.

Stunning medicinal gas emitted from the pores beside the pill furnace, and some impurities were continuously divided, flowing out a faint white residue, and then burned to ashes under the powerful flame.

A faint medicinal gas barrier was even formed around the pill furnace. This was a manifestation of the medicinal power being refined to the extreme, and it caused another exclamation.

Only a moment later, all the elixir had been purified, and then the most important part, alchemy was about to enter.

This speed naturally drew people's exclamation. When a normal pharmacist refining the Wangpin pill, from sorting the elixir to the completion of the purification, it would not be possible to make it within half an hour.

But Qin Chen poured it all right, and the time before half a stick of incense was all over, at least several times faster than the normal medicine king, making everyone stunned and shocked.

However, the previous can only be regarded as preparation work, and the most important thing is alchemy.

No matter how pleasing you choose the materials, no matter how wonderful the fire control is, no matter how subtle the power of purifying the medicine is, if you can't refine the medicine, everything is empty.

Qin Chen concentrated and calmed his mind, his whole body became more serious, the real power in his body was violently urged, poured into the green lotus demon fire.

Boom, the originally mild flames rushed up. If you look closely, the burning speed of the nine large flames has increased more than ten times, and the terrifying heat escapes, which is enough to burn an ordinary seventh-order martial king into ashes instantly.

The flames are raging, and the fire is soaring.

"Isn't it? There was such a fierce fire from the beginning, are you afraid that you can't control it?"

"Yeah, it's a blast in minutes."

Immediately many people shook their heads and couldn't help being dumbfounded. Qin Chen's accomplishments in sorting materials, fire control ability, and purification made them all sigh that they were unbelievable, but the level of alchemy, alas, it was a bit miserable!

If you urge the flames so fiercely all at once, wouldn't it ruin the medicinal power inside? The pill's response should be gradual. Even a low-level pharmacist who understands this principle is evaluated here. Qin Chen did not follow this routine.

Can the other party really pass the assessment of Medicine King? Isn't it fun?

The ten powerful elders on the field were still staring at Qin Chen carefully, wanting to see Qin Chen's attainments in alchemy, but at this moment, his eyes showed disappointment.

I thought that Qin Chen was aggressive and confident, but he really thought he was a little sure, but he didn't expect it to be just brave.

Hey, the other party is just a young man, so how come you have confidence in him somehow?

It's so funny!

"Hahaha." Wei Jinzhou grinned even more with a smile. He was really taken aback just now, but he didn't expect it to be revealed so quickly.

The fire was still strong, and the terrifying heat made the surrounding ten powerful elders sweat on their foreheads, and the air above the furnace was distorted by transpiration.

One stick of incense, two sticks of incense, and three sticks of incense, time flies quickly.

"Hey, how long has passed since, why haven't the furnaces exploded?"

"Yeah, it's been at least three hours, should it explode?"

"Is there any hope of success?"

"Impossible! I guess the reaction inside must have been messed up, but it hasn't reached the critical point. Sooner or later, the furnace will explode. Now I am holding on, but I don't want to admit defeat!"

"Hey, hey, don't be so messy!"

Everyone talked a lot, but Wei Jinzhou simply laughed, is Wang Pin's pill so good? Didn't you see that the medicine gas of the pill furnace could not be transmitted? It must have been Qin Chen's failure a long time ago, but he refused to admit defeat and was unwilling to give up.

Another stick of incense passed.

"Elder Huangfu, what should I do?" Someone asked Huangfu Nan for instructions.

"What should I do, certified Medicine King, refining Wangpin Pills, which can be refined for one day and one night, and now it's only a short while later, you ask the old man what to do? Is it impossible to stop him?" Huangfu Nan snorted.

The man chuckled, thinking that everyone knows that Qin Chen has failed, so why waste everyone's feelings?

Everyone also yawned again and again. In their opinion, Qin Chen must have failed. Didn't he see that there was no reaction in the pill furnace for so long?

Wangpin pill, that is already an extremely terrifying pill. During the refining, various medicinal powers dissipated, enough to form relatively huge fluctuations, how could there be no movement at all like now?

"Procrastinate, continue to procrastinate, but no matter how much you procrastinate, you will not escape death." Wei Jinzhou squinted his eyes and his heart became colder.

Not only him, but more than 90% of the pharmacists on the field have already determined that Qin Chen's refining has failed.

A stick of incense!

Two sticks of incense!

Qin Chen was still refining medicine, and many people were already asleep.

But Qin Chen continued to refine, as if the refinement had not failed.

"This kid is too capable of pretending, right?"

Everyone was speechless, and the idiots could see that there was no reaction in the pill furnace. He continued to refining in a fake appearance. Is it really going to be a day and a night?

If you didn't want to see Qin Chen's final fate, I am afraid that most people have already left.

But at this moment, Qin Chen, who had been refining, finally changed his posture, hum, he turned to the pill furnace, and the real energy between heaven and earth was immediately introduced into the pill furnace, as if a whale was absorbing water, and countless condensed. The true energy of the world, which has become a white wave, is continuously absorbed by the pores of the Dan furnace.

This is clearly a kind of stimulus to the true energy of heaven and earth when the powerful pill is formed, and it enhances the performance of the internal medicine of the pill.

Use the essence of heaven and earth to neutralize the medicinal power in various elixir, and finally form an amazing effect.

And this kind of scene is generally only used when refining the more heaven-defying Wangpin pills.

therefore. Seeing these true Qi movements and Qin Chen's skillful and graceful techniques, all the alchemists woke up one after another, their scalp numb in shock. This young man... really needs to refine the Wangpin Pill!

[Chapter 1237: No deficiency medicine](#)

I strangled!

Moreover, it has been a long time since the furnace has not exploded. Instead, the divine essence in the medicinal materials has been refined, which has triggered the most essential vision of heaven and earth, and the true energy has been poured back. This shows that Qin Chen has been smooth until now. successful.

This is really amazing.

Is it really successful?

There are no counts in everyone's hearts. Refining the pill can be described as a hundred miles, half and ninety. No one can be sure of success until the final moment of Dancheng, any mistake in any link will cause a fatal failure.

What's more, they all aroused the phenomenon of heaven and earth, indicating that the integration of the medicine is perfect, but because of perfection, all materials have the most suitable interaction and resonance. It seems that it is about to succeed, but in fact, it is a mistake and it is lost.

But at this step, Qin Chen was rather relaxed.

He is the emperor of Alchemy, what level is his previous life? Emperor class! Timing as the honorary elder of the alchemy, the top alchemy genius in the martial arts, the alchemy master, when it comes to triggering the vision of heaven and earth, he is basically stable.

Over 90% of pharmacists may make a mistake at this step, but on Qin Chen's side, the probability is zero.

He did it at his fingertips, his ten fingers are as smart as playing the piano, which is called easy, and that is called smooth.

But he was not casual, but more ethereal, and the whole person was completely integrated into the formation of the pill.

He even closed his eyes directly.

He faintly throbbed in his heart, as if he had caught something. In his previous life, he was an emperor-level pharmacist, and he could not be easier to refine the seventh grade of Wang Dan. But at this moment, as a human being, his heart was even more touched, as if he had obtained it. Some kind of sublimation.

In the previous life, he made alchemy for the sake of alchemy. In this life, he faintly felt that the pill actually had spirit. The so-called alchemy was actually letting the spirit in the elixir blend with each other.

He used to make alchemy by forcibly controlling the properties of the elixir and forcibly blending them, but now, he has been initiating and awakened.

Medicinal refining is actually a process of going with the flow, conforming to the way of heaven. The role played by the pharmacist is not to lead, but to guide and guide all kinds of medicinal properties, so that they can be combined into one. This will naturally lead to heaven and earth. Vision.

This is the resonance of heaven and earth, and heaven and earth are participating in the response of the pill.

boom!

In Qin Chen's mind, a bright light rose to the sky, and a smile was drawn at the corner of his mouth.

Originally, this was just an ordinary Medicine King certification, but unexpectedly, it gave Qin Chen a deeper understanding of the pill way and gave him a spiritual display.

He sat cross-legged, his hands moving with the wind, as if he had stopped refining, and it seemed to merge with refining.

"Hey, hey, my eyes are blurred, why did I seem to see him closing his eyes just now?"

"Hey, I saw it too!"

"Wa, is this guy a freak, so carelessly refining Wangpin pills?"

"Damn, I actually sit down straight now."

"Big brother, you are refining the Wangpin pill, and at the most critical moment, why did you suddenly rest."

Everyone exclaimed again and again, really frightened.

But Qin Chen turned a deaf ear to it, completely integrated into it, his dazzling movements were less, and the whole person was more simple and natural.

Wei Jinzhou's face was gloomy, and the feeling in his heart was getting worse, doubting whether Qin Chen could really succeed in refining.

Twenty-year-old Medicine King, this is terrible too!

Finally, another half hour passed.

boom!

A cloud of spirit suddenly appeared in the clear sky, without warning, a large amount of true energy poured down from the heavens and the earth, covering the pill furnace in front of Qin Chen with a bang.

this is.....

Elder Huangfu finally couldn't help but stood up.

This is the true energy of the heavens and the earth, which clearly represents the pill that Qin Chen has refined, which has been recognized by the heavens and the earth, and has produced a heaven and earth vision.

He from the Wuyu Pill Pavilion knew very well that under normal circumstances, only the eighth-rank emperor-level pill could produce the phenomena of heaven and earth, but now, when Qin Chen was refining the Qinghong Pill, he also caused the phenomena. Elephant, how amazing is this?

As long as he can withstand the true energy of the heavens and the earth, the pill that Qin Chen has refined is definitely the pinnacle of the Qinghong Pill.

"Snapped!"

Suddenly a detonation sound rang, and the pill furnace couldn't bear it under the influx of a lot of heaven and earth's true energy, and suddenly burst into pieces.

"Failed?" Everyone was fascinated by the sight, and was shocked when the pill furnace suddenly exploded.

Elder Jiao and others are even more anxious.

Finally, the refining is about to be successful, and when things come to an end, they fall short?

"Okay!" Wei Jinzhou squeezed his fist in excitement and yelled. There was cold sweat on his body, but he was ecstatic at the moment.

At the same time, a hundred and twenty cautions rose in his heart, and he must get rid of Qin Chen as soon as possible, otherwise, once he becomes the king of medicine, he will not lose his tail.

However, everyone's expressions changed in the next second.

Although the pill furnace was broken, three pills of pill rose up from the broken pill furnace, and the glow was so bright that they seemed to have their wings inserted and were about to escape.

The rays of sunshine bloomed, forming an amazing scene.

Success, success!

Everyone was shocked, which was really unexpected, and the faces of Wei Jinzhou's people suddenly became extremely ugly.

They realized that there would be a terrible opponent.

Qin Chen grabbed the three flying pills, and suddenly stopped in the palm of his hand as his true essence surged. With a smile on his face, he threw the pill to Elder Huangfu, and said lightly: "Please check Elder Huangfu."

"Huh!"

Suddenly, many medicine kings surrounded him.

"It is indeed the Qinghong Pill, it was actually made by this kid."

"What kind of refining, look at the pill, all of them are pill patterns, not only are they refined, but they are absolutely superb!"

"Hi, twenty-year-old Medicine King, is this possible?"

"When did our Pill City actually have such a talented alchemist?"

All the medicine kings were all in shock, and the expressions on their faces were like hell.

Qin Chen not only refined the Qinghong Pill, but also had pill patterns all over it, clearly at least reaching a superior level, and it was very likely to be a special class.

The twenty-year-old pharmacist directly refined the special-grade Qinghong Pill, my god, is this still a human?

"No, it's not a special class, it's perfect!" The elder Huangfu looked at the pill in his hand in shock, and his eyes suddenly burst into light?

No shortage of?

"Yes." Elder Huangfu nodded: "As we all know, the same medicinal pill is divided into four levels: inferior, medium, superior, and special class according to the degree of medicinal fusion, but in fact, there is a realm above the special class. There is no shortage."

He looked solemnly, and said: "The so-called incompleteness means that all the medicinal properties in the elixir are fully used to form a perfect alchemy pattern. This is a kind of alchemy limit, as far as I know, even if it is a royal alchemist. It's basically impossible to refine Wang Dan of seventh grade."

"What?" Everyone was even more surprised, no shortage of pills?

[Chapter 1238: Can't help](#)

Qin Chen also nodded. Above the special class, there is indeed a realm of Wuxia, but this realm is too small, and a pharmacist may not be able to refine a furnace of Wuxia pill throughout his life. Therefore, at this level, Few people know.

In fact, even Qin Chen, as a ninth-rank emperor-level pharmacist in his previous life, has refined the perfect pill for only a handful of times.

Previously, if he hadn't been transformed and sublimated in the process of refining, he might not be able to refine an indispensable pill.

"Elder Huangfu, I don't know if my Medicine King assessment has passed?" Qin Chen said flatly, interrupting Huangfu Nan's shock.

Has it passed?

Huangfu Nan smiled bitterly. If he dared to say that Qin Chen had not passed, once he passed it out, he, the certified elder of the alchemy pavilion, would be beaten every minute. If a pharmacist who could refine the perfect blue rainbow pills could not pass the medicine king test, Then who can pass?

"Naturally pass." Huangfu Nan nodded, then looked at the other elders in real power: "What do you think?"

In fact, Huangfu Nan, as a certified elder, is enough to certify a medicine king alone, but there are so many powerful elders on the field, and the necessary forms still have to go.

"Successfully refined the Qinghong Pill and passed naturally."

"The old man thinks it should be passed."

"He doesn't pass, how can he pass?"

All the real power elders said one after another, joking, even Elder Huangfu spoke up. If they say no, isn't this beating Elder Huangfu in the face?

What's more, Qin Chen's previous performance really amazed them, making them still in shock and unable to recall.

Hearing what the crowd said, Elder Wang Yongsheng's face was pale. At this time, even if he wanted to raise an objection, it was useless. What's more, if he really dared to raise it, he would immediately be suspected of professional ethics, and eventually he could only nod his head.

"From now on, your Excellency will be my new medicine king in Dandao City."

It wasn't until Huangfu Nan awarded Qin Chen the Medicine King badge that the people on the field reacted with a loud bang, and the noise went straight into the sky.

They even witnessed the birth of a new medicine king, which was unprecedented.

This is nothing. The most important thing is that this new medicine king, who is clearly in his early twenties, has broken the unprecedented record of Dandao City.

This is a moment to witness history.

All over the square, blood boiled immediately.

Twenty-year-old Medicine King, where will his future grow? Everyone can't imagine, even more than the three saints are worth looking forward to.

"Haha."

Asked the elder to laugh in excitement, rushed up instantly, smiled at Qin Chen, his mouth reached the base of his ears, and he almost hugged Qin Chen and cheered.

Zhuo Qingfeng and Nangong Li were also very excited. They rushed up, Zhao Ruhui was also very excited. Damn, the medicine king in his twenties, although he has just broken through the medicine king, compared with Qin Chen, he is simply scum what.

"This son turned out to be a real success, where did the freak come out?" The old man Da Bei also murmured, his face full of excitement.

When Qin Chen's refining failed just now, his heart was about to jump to his throat. Once Qin Chen's refining failed, he could only flee to the North Tianyu, and would never want to mix in Pill City again, but now...

It's really a twist.

"This son said earlier that it can treat my problems, is it true?" His eyes flashed, and his heart was even more excited, and there was even a layer of fine goose bumps all over his body.

A young man told him that he could heal his injuries, even if the other person looked extraordinary, the old man Da Bei was full of suspicion.

But a twenty-year-old King of Medicine said that he could treat his injuries, but it would give people a feeling that the other party could really do it, out of ten.

Even if you can't do it now, what about ten years from now? What about in twenty years?

He was stuck in the middle of the eighth stage and couldn't break through. He also found many Medicine Kings in Dandao City, but no one could say that he could be treated. Now he finally saw a glimmer of hope, can he not be excited?

"Hey, it seems that I have a blessing for the old man in Great Compassion, good luck, and a wave of waves!" The old man in Great Compassion was so excited that he didn't open his eyes and laughed, so he almost hummed.

Only Elder Wang and the others had pale faces and extremely ugly eyes.

"Welcome your Excellency to join my Beitianyu Dan Pavilion." Huangfu Nan smiled slightly and warmly invited Qin Chen: "If your Excellency is willing to join my Beitianyu Dan Pavilion, you can guarantee that you will be given the position of elder inside affairs first."

This is a new star, put it in the Martial Domain, I am afraid that the major Dange branches will also compete, and Huangfu Nan will naturally not miss it.

"by!"

"It's the elder insider directly?"

"This is too exaggerated!"

Everyone was shocked.

The elders of the North Heaven Domain Dan Pavilion are also divided into various levels.

The lowest level is the foreign affairs elder. Basically, a pharmacist like Zhao Ruhui, as long as he breaks through the medicine king, he can become the foreign affairs elder of the Northern Heaven Domain Pill Pavilion.

The foreign affairs elders actually don't have much real power, so they usually receive the resources and benefits of the Dandao City, and maintain the reputation of the Northern Heavenly Pill Pavilion, and refine some pills for the Pill Pavilion when the Pill Pavilion needs it.

Belongs to mutual benefit.

Most of the alchemists in Alchemy City would have such a name for the Queen of Breakthrough Medicine.

This is also normal practice.

But now the elder Huangfunan directly gave Qin Chen an insider elder, but everyone had to be surprised.

The elders of the inside affairs already belong to the core of the Dan Pavilion, and can handle some forces in the Dan Pavilion and have some power.

Above the internal affairs elders is the real power elder, and the real power elder is often the medicine king in the middle stage of the seventh stage.

As for the actual power elders, there are actual elders like Huang Funan. The so-called actual position is responsible for a certain specialized business. For example, Huang Funan is a certified elder and is responsible for certification.

Others include penalty elders, logistics elders, personnel elders, etc...

Now Huangfu Nan suddenly agreed to give Qin Chen an internal affairs elder, so that everyone was not shocked, that is to say, as long as Qin Chen became the middle-stage medicine king of the seventh stage, he would immediately have a real power elder.

"Wait!"

At this moment, Wei Jinzhou suddenly stepped forward with a hideous face. "Elder Huangfu, although this son broke through to become the Medicine King, he had fought in the Pill Pavilion and wounded this Saint Son. Shouldn't he be punished? How could it be revealed just because he is a Medicine King? Ever? And was granted the position of elder of inside affairs all at once? Also invited elder Huangfu as his disciple

Call the shots. "Wei Jinzhou said loudly.

Huangfu Nan frowned suddenly.

Everyone also started talking.

Everyone was shocked by the news that Qin Chen passed the Medicine King's assessment, and they completely forgot the purpose of the Medicine King's assessment, which was to resolve the conflict between Qin Chen and Wei Jinzhou.

Although Qin Chen had amazing talents, he was just an ordinary pharmacist before, but he dared to fight against the Saint Child of Pill Road City. Such behavior had to say that it had a very bad effect on everyone.

Yes, he is highly talented, but before this person became the Medicine King, he dared to do something to the saint son. Now once he becomes the elder of the inside affairs, wouldn't he be lawless, even the real power elder dare to fight? This flame must not be fostered!

[Chapter 1239: Injustice](#)

"Qin Chen, is there such a thing?" Huangfu Nan frowned and looked.

As a Dange certified elder, he must handle matters impartially.

If Qin Chen had done something against the Saint Jinzhou for no reason before, if he directly canonized Qin Chen as the elder of the inside affairs and passed it out, it would indeed have a bad influence on Dan Pavilion.

Qin Chen smiled faintly, and said, "Hui Huangfu Elder, nothing happened at all."

Wei Jinzhou suddenly laughed: "Boy, you dare not admit it now? Even if you don't admit it, it's okay. There are many people who have seen this scene before, and I don't believe you can buy everyone."

Wei Jinzhou sneered. He knew that it was impossible to kill Qin Chen now, but he absolutely couldn't let the other party become the elder of the inside affairs, and he had to leave an arrogant impression in everyone's mind before he could treat himself. The most beneficial.

"Buy someone else?" Qin Chen sneered, "I, Qin, will not do such things, but your Excellency, as a holy son, insults ordinary pharmacists, and does not have Dan De, does everything without compromise, reverses black and white. I don't know how a person like Your Excellency became the Saint Child of Dandao City."

"What nonsense are you talking about?" Wei Jinzhou's expression turned gloomy.

Wang Yongsheng also said coldly: "Boy, you just need to quibble. Wangmou clearly saw the aggressive scene when you wounded the son of Jinzhou in the lecture hall. There are countless people who can testify. How can you quibble? It was a waste of effort."

"Really?" Qin Chen smiled strangely. "Elder Huangfu, you elders, Qin knows that words are useless, but Qin happened to record the situation at that time, and asked the elders Huangfu and all the elders in

real power to return Qin to justice!" Qin Chen said loudly, and then he slammed his hands. A crystal ball appeared, what happened before in the lecture hall

The scene suddenly appeared clearly in front of everyone in the square.

What happened in the lecture hall at that time was immediately shown clearly.

For example, when Zhao Ruhui failed to refining at the beginning, Wei Jinzhou first helped him "kindly", but when he realized that his reaction was uncontrollable and the furnace was about to explode, he threw down the scene of everyone fleeing.

And after Qin Chen's treatment was over, Wei Jinzhou came with a high profile, and wanted Qin Chen to surrender to him and be his subordinate. Qin Chen disagreed, showing a hideous face to the convenience and letting his subordinates take action against Qin Chen.

In the crystal ball picture, Wei Jinzhou's arrogant and arrogant posture was unobstructed. The arrogance of those who obeyed prospering and those who rebelled died made everyone's face pale.

Qin Chen sneered and said, "Holy Son of Jinzhou, is this what you called Qin's crime of beating your Excellency regardless of your alchemist status?" He took a step forward, and a chill appeared on his body, and said coldly: "I think Ask the King of Jinzhou, Master Zhao Ruhui is the new king of medicine in the pill pavilion. Although he has not yet served as an elder, he is also the medicine king of my pill pavilion. Is he being so insulted by your Excellency? Must Qin surrender

, Qin did not follow, you fought, and wanted to kill Qin, if it weren't for Qin to be protected by the old man with great compassion, I am afraid that you would have been beheaded in the lecture hall long ago? "

"Your Excellency, after losing to Qin, started a relationship and brought in Elder Wang and others under your master's command to put pressure on Qin. Just ask, is this the style of the Northern Heavenly Pill Pavilion Saint Son?"

"You participate in Master Zhao Ruhui's teaching, not to solve the problem of alchemy for the master, but to show the limelight for yourself and defeat the teaching of Master Zhao Ruhui. This is unkind."

"As the King of Medicine, you know the consequences of the failure of the refining of Feixue Pills and the explosion of the pill furnace, but when the danger comes, it is unrighteous to escape by yourself and ignore the life and death of many alchemists on the field."

"When you see Qin's extraordinary strength, you will forcibly solicit. If the solicitation fails, you have to punish Qin, regardless of the interests of the Northern Heavenly Domain Pill Pavilion. This is unfaithful."

"Master Zhao Ruhui, as the king of pill pavilion medicine, has made many contributions to pill pavilion, and he has the world in his heart. He lectures publicly in the lecture hall, but you are insulting because of your own desires. This is unfilial."

"Just ask a person who is unfaithful, unfilial, and unrighteous like you, what qualifications do you have to be the holy son of Alchemy City?"

Qin Chen sternly asked, pointing directly at his heart.

"You..." The cold sweat on Wei Jinzhou's forehead suddenly burst out, and he rushed to Qin Chen angrily: "Boy, you dare to frame me."

boom! Qin Chen sneered, waved his backhand, and instantly flew Wei Jinzhou away, and then sneered: "Framed you? You deserve to be framed by Ben Shao? Elder Huangfu, everyone, everyone has seen it, why Qin did it before. , All because Wei Jinzhou wanted to kill his disciple, although Qin

I haven't passed the assessment of the Medicine King, but he is also a sixth-rank alchemist. Looking at this person's expression, this kind of thing has been more than once. Is it such a place for the dignified Beitianyu Dan Pavilion? "

Qin Chen said loudly, filled with righteous indignation, and looked at Wei Jinzhou with disdain and contempt.

Everyone talked about it one after another. Everything recorded in the crystal ball also made everyone understand the ins and outs of the matter, and they all looked at Wei Jinzhou with dissatisfaction.

Indeed, this time Wei Jinzhou did it too much, because of his status as a holy son, he did not put other alchemists in his eyes.

"Wei Jinzhou, what else do you have to say?" Huangfunan's face was pale and he looked at Wei Jinzhou coldly.

"Elder Huangfu." Wang Yongsheng hurriedly said: "There must be some misunderstanding in this."

But in his heart he scolded Wei Jinzhou with blood. Wei Jinzhou didn't even know that Qin Chen had secretly recorded the crystal ball. Was his brain flooded?

"Elder Wang, you are also related to this matter." Huangfu Nan snorted coldly, "I will report this matter to Lord Pavilion Master. Then, you will think about how to explain it to Lord Pavilion Master."

Elder Wang's face suddenly became very ugly. Once Lord Pavilion Master knew about this, then Wei Jinzhou's position in Lord Pavilion Master's mind would definitely plummet.

Dan Dao City is not the only son of Wei Jinzhou. In addition to Wei Jinzhou, there are also You Huaqing and Xi Aoling. Both have a deputy pavilion owner behind them. Once Wei Jinzhou loses power, the two will definitely take advantage of the victory. Wei Jinzhou can't knock down the world.

"Qin Yaowang, my Dange will naturally handle this matter. Since it is not Qin Yaowang's fault, I don't know if Qin Yaowang accepts the position of internal affairs elder?" Huangfu Nan looked over.

Everyone looked enviously, Huangfu Nan repeatedly raised this inside affairs elder, showing that he was really optimistic about Qin Chen, and it also made many alchemists on the court envious.

Elder insider, this is a lifetime dream of most alchemists. "Sorry, I forgive Qin for not accepting the position of internal affairs elder." Qin Chen refused without hesitation.

[Chapter 1240: I want to be a son](#)

"Damn, just refused?"

"This is the elder inside."

"Is this kid crazy?"

Everyone was dumbfounded and couldn't believe what they heard.

"Are you sure?" Huang Funan asked with an ugly face and squinted his eyes.

He gave the other party the position of an insider elder, which was already his limit. The position of a powerful elder could not be given by him as a certified elder alone. It was either bestowed by the pavilion master himself or held a presbytery meeting.

I thought Qin Chen would accept it happily, but who would have thought that he would refuse so simply.

This simply doesn't give him face!

"No matter how talented this child is, and he doesn't want to join my Dan Pavilion, why should the old man give him face?" Huangfu Nan snorted, feeling very dissatisfied.

Qin Chen was clearly not a member of the Beitianyu Pill Pavilion, but he ran to his Pill City, first fought Wei Jinzhou in the Pill Pavilion, and later successfully advanced to the Medicine King in front of so many people, and beat the pill city Wei Jinzhou Shengzi In the end, he was unwilling to join Dandao City.

Even if Huangfu Nan had a good temper, anger rose in his heart at this moment.

He fancied Qin Chen and was dissatisfied with Wei Jinzhou because of Qin Chen's amazing talent, but if Qin Chen was unwilling to join his Northern Heaven Domain Pill Pavilion, why should he be so aspiring to destroy his prestige.

Elder Jiao became anxious on the side. He could see that Elder Huangfunan was really angry.

But Wang Yongsheng and Wei Jinzhou were overjoyed. This Qin is simply too arrogant. Everyone knows that Huangfu Nan is an extremely short-term person. If Qin Chen agrees to join the Northern Heavenly Pill Pavilion, he might even give Qin Chen his head. Who ever thought that Qin Chen actually rejected him?

This is simply doing it by yourself.

Facing the weird atmosphere on the court, Qin Chen smiled slightly: "Elder Huangfu, Qin does not want the position of elder inside affairs, but Qin wants to ask elder Huangfu for another position."

"Another position?" Huangfu Nan, who was about to announce, was taken aback: "What position?"

Qin Chen said word by word: "I want to be a holy son!"

boom!

As soon as this statement was made, the entire square was completely uproar.

Damn, it's no wonder that this kid was unwilling to accept the post of elder inside affairs, because he originally wanted to be the holy son of Dandao City.

This is very ambitious.

Regardless of the prestige and prestige of the house elders, he can still control some things in the Dan Pavilion, but the promotion space of the house elders is to transfer to the real power elders and post elders, and they may become the deputy pavilion master of Dan Dao City in the future.

It looks awe-inspiring, but compared to the Son, it is still a bit worse.

why?

you still need to ask?

Son Son, what is Son Son? It was cultivated in the direction of the heirs of Dandao City. Once it stands out, it is hoped that in the future, he will sit in Dandao City and become the master of Dandao City.

This is more prestigious than any elder insider.

I didn't look at the son of Wei Jinzhou, he was nothing, and he was not responsible for business in the Dange, but he dared to scold a medicine king like Zhao Ruhui and future foreign affairs elders at will? On what basis? Relying on the identity of the Son.

Even if the fight for the only saint child fails in the future, it will be easy to directly serve as a powerful elder by then.

Can you see how powerful the Son of God is?

Does such a reputation mean that you can be it if you want to be?

If someone else said that, they would have been sprayed to death by countless pharmacists on the field, even if they couldn't spray, everyone would drown and drown with a spit.

But Qin Chen said that instead of dissatisfaction, everyone felt well-deserved.

why? Strong strength.

The three saints such as Wei Jinzhou, all breakthrough medicine kings in their thirties, can all become the saint sons of Pill Dao City. Qin Chen is now only twenty, and he is already the seventh medicine king, so who is such a rigid requirement? Can it be compared?

Huangfu Nan was also fainted. He originally thought that the other party didn't look down on his Northern Heavenly Pill Pavilion, but who knew that the other party's ambition was even greater and he wanted to be the heir of his Pill City.

"Elder Huangfu, don't do it. The origin of this son is unknown. How can he be the saint son of my Dan Pavilion at will."

Wang Yongsheng jumped out directly and said in anger.

If Qin Chen really became the Son of God, wouldn't Wei Jinzhou's competition pressure be even greater? No, we must never let this happen.

The other elders who had not spoken before also all spoke out.

"Elder Huangfu, the matter of the saint son is very important, I am afraid you can't increase or decrease it at will?"

"Yes, Saint Son is the future heir of my Dandao City. Not only is he talented, he must be reliable. How can he appoint and dismiss it at will?"

"Also ask Elder Huangfu to think twice."

Everyone, you say, I say, the overall meaning is one, I don't want Qin Chen to be a holy son.

As for the reason, it is very simple. They, the powerful elders of the Dan Pavilion, have basically taken their positions by now, and everyone has at least supported a holy son in secret.

If Qin Chen was added, wouldn't it make the Shengzi they support one more competitor?

Huangfu Nan didn't speak, but stared at Qin Chen for a long time, and said solemnly: "Your Excellency, are you sure you want to be the saint son of my Dandao City?"

"I'm sure, I don't want any other positions except Saint Son." "Okay." Huangfu Nan yelled, showing appreciation: "I know your request, but the Saint Son is of great importance. With the status of the old man, you cannot be canonized as a holy son, but what happened today, the old man will personally inform the Lord Pavilion Lord, no matter what the outcome, old man

Someone will be sent to inform you. "

"No problem." Qin Chen smiled lightly.

"I don't know where your Excellency currently lives? How can the old man inform you?" Huangfu Nan asked.

In fact, with Huangfu Nan's position, there is no difficulty in finding Qin Chen in Alchemy City. He said that, obviously placing Qin Chen in a position equal to himself.

After all, a genius like Qin Chen would definitely not want his whereabouts to be monitored by the people of Pill Pavilion.

"Qin came with Zhuo Qingfeng Medicine King of Guidan Pavilion this time, Huangfu elders only need to inform King Zhuo Yao to find Qin." Qin Chen said.

Zhuo Yao Wang? Huangfu Nan looked over in confusion.

"The junior Zhuo Qingfeng is a disciple of Xuanyi Medicine King, and Elder Jialiang Jialiang is Senior Brother Zhuo. Zhuo was previously released to the North Tianyu by Your Excellency Dan. This time he broke through the Medicine King and came back for certification. I also met Master Zhuo by the way." Hastily bowed to salute.

"Are you a disciple of Xuan Yi? Zhuo Qingfeng, I remember, it seems that there is such a number one, you were because of..." Huangfu Nan seemed to think of something, his voice stopped abruptly, and he laughed: "Okay. I understand."

Originally, I thought that Qin Chen's coming was inexplicable, but he didn't expect to have something to do with Xuan Yi Yao Wang, so it would be even better.

"Then ask Qin Yaowang to wait for the news of the old man." Elder Huangfu didn't talk nonsense, and left the square directly, apparently going to report.
