

Valkyrie 1281

[Chapter 1281: Flying speed](#)

After Qin Chen entered, he entered an extremely dark place, his fingers could not be seen, and after the spiritual power was diffused, it was still a emptiness of darkness.

"This is the Alchemy Room?"

It was the first time that Qin Chen entered the alchemy room, and it was inevitable to be a little curious.

At this moment, hum...

Qin Chen's eyes suddenly lit up, and then a herb appeared in front of him out of thin air.

"Please name the name of the elixir in front of you." A cold voice sounded.

This is the first level, identifying elixir.

Qin Chen said immediately: "Datura grass!"

Huh!

This elixir immediately dimmed, and it was replaced by another elixir.

"Fengyajing!"

"Mu Linghua!"

"Scorpion Tail Bee Wood!"

"Poisonous quicksand!"

"..."

Qin Chen reported more than 20 kinds of elixir in one breath. After that, no new herbs appeared again, but fell into a brief silence.

He knew that he had passed the first level.

Outside, there is a light on the stone tablet, which means that the examiner inside has passed the first level.

"So fast? This is less than a minute, right?"

"After a dozen breaths, I passed the first level. How did you do it?"

Those audiences were not surprised, because everyone knew that the first level was very simple. Normally, a first-grade apothecary would hope to pass, but the alchemists in the pill pavilion couldn't help being surprised.

If you want to pass the first level, you must answer twenty-eight kinds of elixir correctly. Nothing is wrong. These elixir are all basic elixir. It is not difficult to distinguish carefully. It is rare that, like Qin Chen, in ten Within a few breaths, he passed the first pass.

This means that Qin Chen must say the answer within half a breath after seeing each elixir. Basically, as soon as the elixir in front of him appears, he has to say the answer.

Such a speed is not what an average pharmacist can achieve.

"I heard that Qin Chen has read books for ten days in the library of our Dan Pavilion, and it really worked."

"A dozen breaths, passing the first level, breaking a record, right?"

"Even if it's not broken, it's almost the same, but what's the use? The alchemy room assesses not how fast you pass through the levels, but whether you can break through the next few levels. Only the more levels you pass, can you represent the alchemy? The higher the attainments, instead of simply seeing who gets through the barriers faster."

There was a lot of discussion, surprise and disdain.

The three Kang Youming also looked indifferent, with a sneer at the corners of their mouths. It didn't mean anything to go fast. The difficulty was that he could go so fast in the next few levels.

Qin Chen naturally didn't know what the outside world was saying. Before his eyes, the second hurdle had already begun.

Three elixir appeared in front of him at the same time, each of which was similar.

"Choose the fish scale grass!" A cold voice sounded in Qin Chen's ears.

These three elixirs seem to be the same, but in fact there are subtle differences, Qin Chen can naturally distinguish easily, he quickly pointed to one of them.

The three elixir disappeared at the same time, and four more elixir appeared immediately afterwards, which were also extremely similar.

"Choose the clover leaf among them!"

Then there are five, six, seven, and eight. At the same time, there are more and more elixirs, and they are getting more and more similar. It is naturally becoming more and more difficult to pick the correct elixir, but this For Qin Chen, it was not a problem at all.

After twenty-eight times, no new elixir appeared, indicating that Qin Chen had passed another level.

Above the stone stele outside, there was another light.

"Wow!"

At such a speed, it naturally caused noise again.

"So fast!"

"This is too fast, right?"

"The second level is to choose the correct one from a variety of elixir. After many elixirs are very similar, there are only subtle differences. How can he distinguish so quickly?"

"At this speed, it is equivalent to finding the correct elixir with a glance."

The alchemists who knew the situation couldn't help exclaiming.

On the high platform, Pavilion Master Xuan Sheng also raised his eyes. This speed was indeed not the same response, and even he was a little surprised.

As for the three Kang Youming, they were also surprised, but soon calmed down.

Does this guy think it's faster than speed? So fast, it's only funny if a mistake is admitted.

In the alchemy room, three elixirs appeared in front of Qin Chen this time. At first glance, they looked exactly the same.

"Which *Gastrodia elata* plant has reached one hundred years of medicinal age?" The cold voice rang again.

The third hurdle is to distinguish the age of the medicine.

Qin Chen smiled slightly and stretched out his hand.

Huh!

The three elixir disappeared, and then they became four identical elixir.

"Which seven-star sunflower has a medicine age of three hundred years?"

Qin Chen didn't wait for it to finish, and he reached out and pointed out that he was extremely casual, even rushing to answer.

What he didn't understand was the new theories and knowledge that appeared in the past three hundred years. As for the basic knowledge of identifying the age of medicine, Qin Chen's mastery reached a level of nuance.

If he could even make mistakes in this level, he would not become the nine-tier pill emperor in his previous life, the honorary elder of the pill pavilion headquarters.

The assessment continues.

In the beginning, the age difference between the elixir appearing in the alchemy room was relatively large.

For example, one hundred years and one thousand years.

Later, as the number of elixir increased, the distance between them became much smaller.

At the end of the day, the difference between the medicine ages has reached an extremely subtle level, and even among some elixir, the difference in medicine age is only about ten years.

This is almost a great test for a pharmacist.

But to Qin Chen, it was still nothing.

After more than twenty times of identification, Qin Chen passed the pass again.

Hum!

On the stone stele outside, the third light lit up, and it didn't take long until the second light came up.

"Again!"

Everyone has become accustomed to Qin Chen's speed. Normal pharmacists need to spend a quarter of an hour in the assessment, Qin Chen can do it in a quarter of an hour, sometimes not even.

Next is the fourth level.

A hundred elixir appeared in front of Qin Chen.

"Point out two elixir with similar medicinal properties!" The cold voice sounded again.

Qin Chen pointed out easily.

Another hundred elixir appeared.

"Point out two panacea with opposite medicinal properties!"

After clicking it, another hundred elixir appeared.

"Point out the two elixir of drug conflict!"

This pass Qin Chen took a little bit of time, because just to distinguish a hundred kinds of elixir, he needed to sweep them one by one.

But compared to others, Qin Chen's speed is still outrageous.

After a while, Qin Chen passed the fourth pass.

"Damn, it only takes less than a quarter of an hour to pass the fourth pass?"

"Damn it?"

"How did he do it?"

There was an uproar from the pharmacists on the scene, all of them were a little dazed. Is this guy cheating? Otherwise, how could it be possible to pass the fourth level so quickly? Don't you need to think about it?

[Chapter 1282: Sixth pass](#)

The more the pharmacist is, the more he can understand the terrifying speed of Qin Chen, which is equivalent to answering questions at a glance, which is not something ordinary people can do.

By this time, Kang Youming and others' eyes were also serious.

No wonder this kid dared to take up the challenge, indeed there were two times.

Next, the fifth level.

This level is a little more difficult. What appeared in front of Qin Chen was a shredded elixir, and his task was to reassemble these shredded elixir within a specified time. carry out.

Hey, the assessment of this level is a bit difficult, Qin Chen raised his eyebrows.

To complete a pair of scattered elixir stages, there are many things that need to be tested. First, it will test the alchemist's knowledge of elixir.

It is not easy to recognize this scattered elixir, and after recognizing it, it must be combined with the normal physiological form of the elixir. The difficulty is not what ordinary pharmacists can do. Up.

In fact, the same is true. By the fifth level, the difficulty is increased several times. Generally, the highest level of the sixth-level Yaozun may not be able to pass the fifth level of the assessment. Often, nine out of ten are passed, which is the seventh-level. Medicine King.

In other words, those who can pass this fifth level are basically Masters of the Medicine King level.

But for Qin Chen, this level was only a little troublesome, and it was still not difficult.

He danced with his hands, fragments flying around, full of rhythm.

The assessment of the alchemy room is located in the spiritual world, which means that the elixir that appeared before are actually virtual, and the scattered elixir in front of them are naturally virtual elixir.

This also leads to the fact that there are no real constraints, so the speed of splicing depends entirely on the mental acumen of the examiner.

For Qin Chen, it was natural.

Seeing his speed getting faster and faster, a panacea also emerged from scratch, and then slowly became complete. It only took less than one-third of the prescribed time before Qin Chen had finished work smoothly.

The splicing method he adopted was not to splice through the physical form of the elixir, but to connect each other through the medicinal properties of each scattered elixir.

The same triangle elixir fragment can be placed in any triangle gap, and it doesn't look different, but the medicinal properties between them are different, so there can be no mistakes in any detail.

This elixir had just been spliced, and then a pile of elixir fragments appeared.

Qin Chen looked closely and found that although these fragments seemed to be picked from the same elixir, in fact, they belonged to two plants, but the varieties of elixir were the same.

The subtle difference lies in the year.

This becomes even more difficult. If you change to a pharmacist who usually splices according to the shape, you will definitely be at a loss. But Qin Chen is based on the properties of the elixir. The properties of the elixir are naturally different depending on the year. At most, it is a little tricky, but difficult To Qin Chen, it was nothing.

Therefore, Qin Chen first separated the two elixir fragments of different years, and then it was the same as before.

When the two intact spirit buds appeared, only about one-third of the prescribed time passed.

simple.

Then, a pile of elixir fragments appeared, this time there were three elixir, and the year was more complicated.

But Qin Chen still couldn't help it.

bring it on!

Qin Chen continued to do it, first divided into three piles, and then recovered one by one to get it done.

Next are the fragments of four elixir, and then five, six, and seven. The difficulty is getting higher and higher, and Qin Chen consumes more and more time, but from the time limit, Qin Chen assessed The speed of passage has not slowed down, and a lot of time can be left every time.

Huh?

After Qin Chen completed the splicing of the seven elixir, he still wanted to come again, but he didn't see any new fragments appearing, so he suddenly realized that he had passed the fifth level.

Outside, the fifth light lit up.

"The fifth level is so fast?"

Everyone was really shocked.

As long as anyone who has participated in the examination of the alchemy room knows that after the fifth level, the difficulty of the examination of the alchemy room will be increased geometrically.

Basically, it would be impossible to pass the fifth level if it weren't the medicine king of seven products.

And even if it can pass, the time consumed by more than 70 or 80% of the medicine king is extremely long, and it can almost pass the specified time, but Qin Chen?

Generally, the time stipulated in the fifth level is one hour, and Qin Chen only passed half an hour before passing it. How did he do it?

Everyone looked at each other, completely unable to understand.

"Does he know the questions to be assessed in the alchemy room?"

"Isn't it possible? Every time the question of the assessment in the alchemy room is random, it is manifested by mental power, even the Lord Pavilion can't change it."

"Furthermore, the fifth test is a splicing panacea. Even if you know the subject in advance, it may not be possible to make it in such a short time?"

The complexions of Kang Youming and others suddenly became extremely ugly.

After the fifth pass, it was the sixth pass, and once Qin Chen passed the sixth pass, he could enter the seventh pass, which was considered to have met their requirements, so the next step was their duel with Qin Chen.

Under everyone's eyes, they were going to have a duel with a newly promoted Medicine King. Just thinking about it, their faces were extremely gloomy.

"Don't worry, there is also the sixth level. The sixth level is no better than the previous ones. I don't believe this one can pass so smoothly."

"Although the first five levels are difficult, they are generally difficult in complexity. Starting from the sixth level, the assessment is for real alchemy techniques, and even some ordinary medicine kings can't pass it. If this child wants to pass, it may not be that simple. "

The three comforted each other.

In the alchemy room, Qin Chen took a short break and ushered in the sixth level.

Hum!

A full pill appeared in front of Qin Chen.

"Please tell me the name, formula, and method of refining this pill, as well as the name of the real fire used to make this pill, the intensity of the fire and the duration of the refining." A cold voice sounded, Without a trace of emotion.

Qin Chen was shocked and stared at the pill in front of him.

This is a Ganlin Pill!

And it is a pill in the early seven stages.

No wonder this sixth level, no Yaozun has ever been able to get past it. Ganlin Pill itself is a seventh-class pill. Many Liu-pin Yaozun have never seen it before, so naturally they don't know how to solve the problem.

Even for most medicine kings, it is basically impossible to directly analyze the name, formula, and refining methods through the pill in front of them, and even the real fire name, heat intensity, and refining time.

But this couldn't help Qin Chen. "This pill is called Ganlin Dan. The Wang Dan at the beginning of the seventh stage is made from seven main materials and 36 auxiliary materials, including Ganlin grass, holy spirit spring, and meditation leaf. This pill has a spiral pattern. Turn, the refining method should be the Douluo Fuyun method, the pill is slightly hot and impatient, so the refining real fire is the seventh stage

The blood and spirit fire in the beast's body has a moderate fire intensity, because the medicinal fusion degree of the pill is 83%. According to the volatilization degree of the medicinal substance inside, the refining time is estimated to be three hours and two quarters, the error is one quarter of an hour. within. "Qin Chen watched the pill for a moment carefully and talked freely.

[Chapter 1283: Find bones in eggs](#)

Huh!

The pill in front of him quickly disappeared, and then a new pill appeared.

"This pill is 左xin pill..."

What is Qin Chen's vision? Basically, there are few pill that he hasn't heard of on this continent, and his mental power has reached the eighth rank. With the help of super soul power, it is simple to analyze the information of a pill. In fact, analyzing pill is a basic skill that every pharmacist must learn, and Qin Chen is particularly good at this aspect. Once Wuyu Dange headquarters unearthed many ancient pill, how to analyze a bunch of elders, they can't analyze it. Out of the structure and refining techniques, I still invite Qin Chen over

, Only then had a systematic understanding of the refining techniques of ancient pill.

Now, in Qin Chen's eyes, the topic of the sixth level is almost like pediatrics. Qin Chen dealt with them one by one. When it was the fourth time, the pill that appeared in front of him was not only refined with normal methods, but used a lot of uncommon methods. Some of the pill recipes even deliberately Confuses some elixir and does not follow the most orthodox prescription, which makes people very

It is easy to fall into a trap and make wrong judgments.

This also made Qin Chen sigh, no wonder that many medicine kings could not pass this sixth level. Such a problem is indeed a bit difficult, and it is not something ordinary people can do. It requires a systematic understanding of the various seven-stage pill. It can be considered as exhaustive.

These questions also greatly increased Qin Chen's difficulty, and it took him longer and longer to complete.

But it took him a long time, and the limited time given has actually become longer. Therefore, he still completed all the questions in only about one-third of the time, which seemed to be easy.

An hour later, Qin Chen finally passed the sixth level and entered the seventh level.

When the sixth light on the stele lit up, the audience caused a violent sensation.

"He really passed the sixth level."

"How is this possible? Doesn't it mean that you want to pass the sixth level, only the medicine king of the middle stage of the seventh stage is possible? Is this kid the famous medicine king of the middle stage?"

"Look at the time he passed, only one hour. This... I remember that the time limit for the sixth level is three hours. At the beginning, the three deputy pavilions of the Dan Pavilion all passed two-thirds of the limited time. There is still a long time before the sixth level can be passed, but this Qin Chen..."

"Being ahead of others by exactly twice the time."

"It's a monster!"

Suddenly, there was an uproar on the court, and everyone was stunned and unbelievable.

And the three Kang Youming clenched their fists, their expressions pale.

How could it be that Qin Chen actually reached the seventh level, how did he do it?

But what they now need to consider is not how Qin Chen did it, but what they should consider, next they will compete with Qin Chen.

Qin Chen passed the sixth level and already had the opportunity to compete with them.

Next to him, the three saints, including Wei Jinzhou, had pale faces and ugly eyes.

The seventh pass, this was an achievement that they had never achieved, but now Qin Chen has achieved it. In the minds of many alchemists in Alchemy City, doesn't it mean that he can't even compare to a twenty-year-old boy?

How is this possible?

The audience watching the lively scene did not think too much, but was full of more daydreams.

"You said, this kid can even pass the seventh level and break into the eighth level?"

"The eighth level?"

"how can that be?"

"Absolutely impossible!"

"In our Dandao City's recent decades of history, Pavilion Master Xuansheng has also reached the eighth level. Even if the other three deputy pavilions have not passed, Qin Chen is better than the three deputy pavilions? "

"This is hard to say. I dare to challenge the three deputy pavilions. Obviously he has the confidence to surpass the three deputy pavilions. After all, the assessment of the alchemy room is only an assessment in a specific environment. It does not mean that he has passed the seventh level. Yes, it must be better than never before in refining medicine."

"Yeah." The last sentence won the resonance. The evaluation of the alchemy room is not for the high level of cultivation, it must be ranked high. The evaluation of the alchemy room is all aspects of knowledge, and in many cases, it has no direct relationship with the rank. , Otherwise, there is no need for Dan Pavilion headquarters to set up such a Dan Dao room.

Just pick up whose alchemist badge is higher than the level.

"But that's what I said, I personally think it is still impossible for Qin Chen to pass the seventh level."

But in the end, no one would believe that Qin Chen could pass the seventh level. Even the person who asked the question at the beginning couldn't help but smile awkwardly, thinking that his proposal was too whimsical.

In the expectation and curiosity of everyone, Qin Chen began the assessment of the seventh pass.

This time he faced the same pill, but the problem had changed.

"Please point out the three omissions in the refining process of the pill in front of me!" A cold voice sounded.

Point out errors or omissions?

Qin Chen looked at it intently, only to see a Ganlin Pill in front of him, and it was a Ganlin Pill with a pill pattern condensed.

Almost everyone knows that once the pill is condensed into the pill pattern, it means that this pill has at least reached the top of the same level in its rank, and it can be said to be a fairly perfect pill.

But the test of this level is to find three omissions in such a high-class pill.

Doesn't this mean finding bones in eggs?

In fact, the purpose of this level is to let examiners pick bones among the eggs.

As a medicine king, being able to tell the refining method of a pill is very simple, but it is difficult to find out the mistakes and omissions of a high-quality pill. Once you can find out, it means that the person is here. At the level, it has reached the point of reaching the perfect state.

This requires pharmacists to have amazing attainments in all aspects, without any shortcomings.

Changing to a general Seven-Rank Medicine King, even the middle-stage Seven-Rank Medicine King would have a headache when faced with such a problem, but for Qin Chen, who used to refine the Immaculate Pill, this level is not What the hell.

Spiritual power penetrated into the pill, Qin Chen swept slightly, and he had found at least five errors.

"First, this pill is not refined enough, and the medicinal fusion degree has reached 94, and the remaining 6% is not perfectly integrated because of the inadequate heat. This is the first omission."

"Second, the shape of the pill pattern is wrong. The pill pattern of this pill is in the shape of a funnel, indicating that the top-down medicinal power of the pill is not perfectly and evenly dispersed during the process of setting the pill."

"third....."

Qin Chen talked freely, and instantly said a few mistakes.

Huh!

The pill disappeared and a new pill appeared.

This time, the shortcomings of the elixir are more concealed, the pill pattern is more dense, and the grade is obviously higher. It's a pity that in front of Qin Chen, the shortcomings are still invisible.

[Chapter 1284: Stele](#)

At this level, a total of five elixirs were analyzed.

It took only half an hour for Qin Chen to find out the many loopholes in the five pills and instantly entered the eighth level.

It takes half less time than the previous level.

When the seventh ray of light from the outside lighted up, the entire square instantly went crazy.

"Oh my god, this kid actually passed the seventh level."

"how is this possible?"

"How did it do it?"

The crowd was boiling, and Qin Chen's ability to break into the seventh level exceeded everyone's expectations. As for the eighth level, everyone couldn't even think about it.

But now, this miraculous scene has happened, causing many people to beat their hearts wildly, and almost died suddenly on the spot.

Wow!

Pavilion Master Xuan Sheng of the Dan Pavilion could no longer hold back the excitement in his heart, and he suddenly stood up.

"Unbelievable, unbelievable."

The corners of his mouth murmured, his eyes shocked, and his hands even trembled slightly because of his excitement.

As the only person in the entire Dan Pavilion who has reached the eighth level, he clearly knows how difficult the seventh level is. He was lucky enough to pass. The few questions that happened to be assessed are the pill that he is very familiar with.

Ask him to take the test again, but he dare not say that he will pass it.

But now, Qin Chen, a teenager who is only twenty years old, has also reached the eighth level. Isn't this a fantasy?

by! by! by!

At this moment, Pavilion Master Xuan Sheng was so excited that he almost didn't spit out swear words. If he could, he really wanted to curse: This kid is a **** genius.

At this moment, he made a decision in his heart. No matter what the result of the next competition between Qin Chen and the three deputy pavilions, he decided to give Qin Chen the identity of the holy son.

Although I don't know whether Qin Chen can win in the Four Domain Competition, no matter what, he at least sees a glimmer of hope.

If he doesn't seize this opportunity, when does he want to return to Wuyu Dange?

Below, Sylphy Medicine King almost jumped up excitedly.

My God, at the eighth level, Qin Chen has reached the eighth level.

How many years, almost a hundred years, maybe even longer. In addition to the Master Xuan Sheng, there is another pharmacist who has reached the eighth level in the Beitianyu Dan Pavilion, and is this pharmacist special? Only twenty years old.

It's definitely shocking the past.

Even in the history of the Alchemy Room of the Four Regions, Qin Chen could have a place.

"The old man is relieved, even if Qin Shaoxia loses in the competition with the three deputy pavilion masters, the old man is not worried about Qin Shaoxia's safety. Such a genius, the pavilion master will punish him if he is stupid."

Blockbuster!

Although the level of the alchemy room does not mean that the alchemy level must be high, there is also a huge relationship between the two. Otherwise, except for the master Xuansheng, why has no one intruded into the Northern Heavenly Region Alchemy Pavilion for so many years? Passed the eighth level?

Such a genius can't become a saint son, who can become a saint son?

Didn't you see Wei Jinzhou, Xi Aoling, and You Huaqing, the three currently so-called saints, didn't you even get to the seventh pass of the Dan Dao room?

And in the alchemy room, after breaking into the eighth level, Qin Chen also saw the eighth level exam questions.

Presented in front of Qin Chen was a pill of Wangpin's medicine.

And it is also a Wangpin pill of the late seventh stage.

"The elixir in front of you has nine main medicines and forty-five auxiliary medicines. Please replace at least three of them with other elixir, and it cannot change the completeness of the elixir. It is finally refined. The pill must achieve more than 90% of the effect of the original pill." The cold voice sounded.

"Modify the prescription?"

Qin Chen smacked his tongue.

No wonder this eighth level is so difficult that even Pavilion Master Xuan Sheng couldn't get through it.

An elixir of medicine is definitely formed after thousands of tempers. It is difficult to find a perfect substitute for any kind of elixir. If you change one, the entire elixir will be greatly changed.

The knowledge involved runs through the whole refining pharmacy and is very complicated.

If the question of the eighth level is just to change a kind of elixir, it is estimated that many people will be able to answer it. After all, there are so many main medicines and auxiliary medicines, there are always similar substitutes. A slight modification is barely enough. .

But now, it is required to change at least three elixir, and the effect of the medicine remains unchanged, and at least 90% of the original effect is reached, which is difficult.

The change of the three kinds of elixir is equivalent to a change in the entire refining process of the entire pill, which definitely affects the whole body.

Of course, this still couldn't help Qin Chen.

A glance at the prescription, Qin Chen thought of at least several replacement possibilities in his mind for a moment, from changing the least three kinds of elixir to replacing almost half of the pills at the most, no problem.

Qin Chen said the answer casually.

Hum!

The prescription in front of him disappeared, and then a new prescription appeared.

It is also the pill in the later stage of Qipin, but the number of main and auxiliary drugs is much less, which also makes the problem more difficult.

"I choose to quit."

Qin Chen said lightly, since it was the same topic, he didn't bother to continue the assessment.

Anyway, as long as he reaches the seventh level, it means that he has already obtained the opportunity to compete with Kang Youming. If the assessment continues, once he has passed the eighth level, the problem will be serious.

In the eighth level, even Pavilion Master Xuan Sheng failed to pass. If he passed, it would not only be a matter of evildoers, but it would be frightening.

Once it spreads out, it will inevitably attract more attention.

Currently he is still in the stage of keeping a low profile and naturally does not want to attract too much attention.

So Qin Chen wisely chose to withdraw.

"Your Excellency has reached the top ten in this assessment. Leave your name, but it will be imprinted and immortal." In the alchemy room, the cold voice said.

"Which rank can you rank?" Qin Chen asked.

"Seventh!" the voice replied.

Damn, one higher than the eighth of Pavilion Master Xuan Sheng?

Qin Chen shook his head: "Forget it."

The reason why he ended the assessment early was to keep a low profile. If he let his name fall on the head of Pavilion Master Xuan Sheng, what is the point of his withdrawal?

What's more, he didn't want six people in front of him to press him down.

If he won this time, he is likely to go to the Martial Domain, and he shouldn't have the opportunity to come back for the assessment again. Wouldn't it be that six people will hold him down until the world is gone?

Therefore, Qin Chen decided to give up.

"as you wish."

The icy voice sounded, and Qin Chen only felt his eyes light up, his mental strength returned, and the whole person returned to reality.

What Qin Chen didn't know was that although he did not choose to leave his name on the stone tablet, because his score has reached the top ten, the alchemy room has automatically transmitted his score to the Wuyu Dange headquarters, and, in the Dange Records are left inside.

Just wait for someone to check it, and you will definitely find such an amazing genius.

Naturally, Qin Chen didn't know this. He pushed it casually and squeaked. The door of the alchemy room had already been opened by him. Suddenly, an excitement and noise hitting the sky suddenly reached his ears, deafening.

[Chapter 1285: Competition for fire control](#)

Cheers, excitement.

The entire square is like a landslide and tsunami.

For many years, no one has broken into the eighth level of the alchemy room, and now Qin Chen has finally broken into the eighth level again, making countless people in the alchemy city so excited that they can't help themselves, as if they had broken through themselves. The same after the eighth level.

On the other hand, Wei Jinzhou clenched their fists, their faces were blue, and their bodies were shaking.

Although they are very confident in themselves, at this moment, they have to admit that the teenager in front of them is indeed terrifying, so terrible that they are also shocked.

Pavilion Master Xuan Sheng stared at the stone tablet in front of him, clenching his hands tightly.

He clearly remembered that after he broke into the eighth level, he failed to pass the first question, but was eliminated after successfully replacing two elixir.

But even so, he also became the eighth place in the Dandao City's history in the Dandao room assessment.

What about Qin Chen?

He stared at the black stone tablet in front of him carefully, and after waiting for a while, he was relieved to see that the stone tablet remained unchanged.

"It seems that this kid failed soon after breaking into the eighth level, and he also failed to replace the prescription." Pavilion Master Xuan Sheng relieved his heart.

If Qin Chen can really keep his name on the stone tablet and rank ahead of him, then he really has to suspect that Qin Chen's purpose is coming.

The question of the eighth level is definitely that at least the medicine king at the late stage of the seventh stage can barely carry out the assessment. If Qin Chen can even pass this eighth level, such a genius will not be in the northern sky, but in the martial arts. In the Dan Pavilion, you can also have a place.

How can such a genius go to the North Sky Territory to participate in the competition?

Now that Qin Chen couldn't leave his name on the stone tablet, he finally let Pavilion Master Xuan Sheng's heart slightly relax.

"Okay." He stood up and laughed loudly: "I really didn't expect that such an alchemy genius would appear in my alchemy city. It's really the blessing of my alchemy hall."

Such a genius will inevitably soar into the sky if he only waits for the Four Domains Competition.

"Kang Youming, Jin Shengjie, Qinghong, what else do you three have to say?" Pavilion Master Xuan Sheng smiled and looked at the three.

The trio's expressions were ashen and ugly as never before, and they didn't expect that Qin Chen not only actually broke through the seventh level of the alchemy room, but even reached the eighth level that they could not even reach.

I am afraid that the three of them have now become a joke among many people in Dandao City, right?

"My Lord, since this son can reach the seventh level of the alchemy room, it shows that this son's talent on the alchemy is indeed extraordinary. I will naturally keep the promise and give him a fair chance to become a holy son. "Although the three Kang Youming are no longer dissatisfied, they can only say unwillingly at this time.

Pavilion Master Xuan Sheng sneered, letting a twenty-year-old boy compete with their three major deputy pavilions in an alchemy competition. Is it a fair chance?

But he didn't say broken, but smiled and said, "In this case, Qin Chen, let the three deputy pavilion masters give you pointers? I wonder how you are going to ask the three for advice?"

The expressions of the three Kang Youming suddenly changed. Although they agreed to Qin Chen's challenge request, they did not say what the specific content of the challenge was. The way of the challenge is one way, and the way of the challenge is ever-changing. The meaning of Lord Pavilion's words is clearly I want Qin Chen to choose the challenge method, how can this be? Anxious in their hearts, the three of them hurriedly stepped forward and said: "My Lord, this is not a good move. I think that the competition of alchemy attainments must be fair and just. Since this son wants to be the holy son of my alchemy city, The subordinate thought that the three of us should evaluate each other's skill separately, if it was Qin Chen

If he can meet the requirements of our class, then it is natural for him to serve as the saint son. "

This clearly means that the right to come up with the question is in his own hands.

Other pharmacists suddenly sneered. Qin Chen's performance in the alchemy room has already made many neutral pharmacists respect Qin Chen. Now that Kang Youming's three deputy pavilion masters are so ugly, they naturally despise them extremely.

As a dignified deputy pavilion master, he had to compete with a twenty-year-old boy in the art of alchemy, and he had to secretly perform a trip, which was too small.

"My lord of the pavilion, my subordinates thought it was wrong." King Xuan Yi Yao hurriedly came forward for Qin Chen: "Since King Qin Yao challenged the three deputy pavilions, this topic should naturally be formulated by King Qin Yao, let alone, Qin Yao Wang is only twenty years old, and he should be more responsible for the questions."

"Elder Xuan Yi, this is a bad remark. Although Qin Chen is young, but now he is assessing his ability to give birth to a holy son. Naturally, he should be asked by the three deputy chiefs to assess his true level."

"Yeah, if Qin Chen is really capable, he will naturally not be afraid of the three deputy pavilion masters asking questions. What's more, so many of us are here to testify that Elder Xuan Yi is still afraid that the three deputy pavilion masters will make things difficult for him?"

"Please think twice, Lord Pavilion."

The group of Kang Youming's trio also waved their flags and shouted at this moment.

Pavilion Master Xuan Sheng coldly looked at this group of yelling people, his face was slightly gloomy, unknowingly, Kang Youming and others had gathered such a bunch of elders and stewards, although he rarely interfered in Dan Pavilion matters, but these People don't think too much about themselves, right?

He looked at Qin Chen and said lightly: "Qin Chen, what do you think?"

Qin Chen laughed loudly, but didn't take it seriously: "The juniors will naturally be accompanied by the three deputy pavilions."

To be honest, he is really not afraid of the Kang Youming three, no matter how difficult the other party embarrass him, what problems can they cause?

"Okay, speak quickly."

"Sure enough, there is a general style."

Kang Youming and the three of them cheered, and then they did not wait for Qin Chen to repent. After the three of them looked at each other, the deputy pavilion master Jin Shengjie was the first to walk out and said loudly: "Since your Excellency said so, the old man will do my part. This is your assessment."

"As a pharmacist, fire control is something every pharmacist must master, and at the same time, it is also one of the prerequisites for a pharmacist to refine a high-level pill. Therefore, the old man wants to compete with you-- It's fire control!"

He said proudly, with a trace of coldness passing deep in his eyes.

What, better than fire control?

As soon as this statement came out, everyone present was taken aback.

Fire control competition, although it is also an extremely important matchup in the alchemist duel, but after all, it is too one-sided. In the face of such a major duel, shouldn't the refining competition be carried out? What's more, they all know that when Qin Chen conducted the Medicine King assessment

and refined the Qinghong Pill, he showed the Nine Flames Pagoda Technique and the Wanyan Diversion Technique to the fullest. It can be said that Qin Chen is definitely not weak in fire control. Yes, even stronger than some of the veteran real power elders in Dan Pavilion. How could Jin Shengjie come up with such a competition method?

[Chapter 1286: Shocked](#)

"Well, it's better than controlling fire. I don't know how you are going to compare?" Qin Chen sneered.

Although he didn't know what the other party reported, but in terms of alchemy, he really hadn't been afraid of anyone. "Okay, quick talk, the old man appreciates you." Jin Shengjie laughed, but immediately afterwards, his momentum suddenly changed, and he said solemnly: "Fire control competition is nothing more than precision and intensity. We don't bother to engage in those imaginary things. Rules, so let me do a few moves, if you

If you can imitate, even if you win, if you can't, then I win, how? "

Jin Shengjie looked at Qin Chen with a playful expression.

Qin Chen smiled coldly and made a gesture of please.

Jin Shengjie didn't care, and said lightly: "You are optimistic."

The voice fell, and with a bang, a cluster of flames rose from his hands. The flames were very weak, and the whole body was azure blue. When it appeared, it immediately exuded a palpitation.

"Blue flame, what kind of fire is this?"

"It doesn't look warm, but why does it give me a feeling of palpitations?"

"Me too, it seems that the body will be burned just by looking at it."

"What a terrifying flame."

The crowd was suddenly shocked, and many alchemists stared intently and carefully distinguished.

"This is... Bihai listening to the tide!" Suddenly, Pavilion Master Xuan Sheng stood up suddenly, his expression changed, and said in a deep voice.

"What? Is Bihai listening to the tide?"

"Bihai Tingchao is the legendary earth fire. Although it is not very high in the earth fire rankings, it is extremely malleable. It is one of the most desired flames for most alchemists with insufficient mental power."

"What a Jin Shengjie, I don't know when he got the Bihai Tide from the Earth Fire. Do you want to compete with Qin Chen to control the fire? The plasticity of Bihai Tide is the top of all flames."

"Damn, this is too despicable."

The crowd was shocked. After understanding the characteristics of Bihai Tingchao, all of them were dumbfounded and dumbfounded.

Before they could not understand why they knew that Qin Chen was not weak in fire control, and they had to compete with him in fire control. It turned out that they had such a big killer like Bihai Tingchao Dihuo.

How does this compare? First of all, Earth Fire is the most magical flame in the world, second only to Earth Fire. Although Bihai Tingchao ranks not very high in Earth Fire, it is only because Bihai Tingchao's attributes are feminine. The high temperature required by the elixir is not enough, but in terms of accuracy, Bihai listens to the tide.

Right is the top of all earth fires.

The so-called precision is the subtle degree of mental power needed to control the flame.

Generally, pharmacists want to divide the flame into two, so they naturally need mental power to participate in and manipulate them. Different flames require different mental powers, because some flames are violent and some are feminine.

And this Bihai Tingchao is one of the lowest reliance on mental power among all flames.

To put it simply, the same morphing into a shape, the use of Bihai Tingchao definitely consumes more than half of the spiritual power than other flames. What advantage is this?

It can be said that Jin Shengjie, who has obtained the Bihai Listening to the tide, is definitely the strongest of the three deputy pavilions on the way to control the fire, and it is not impossible to compete with Pavilion Master Xuansheng, the peak medicine king of the late seventh stage.

Qin Chen was obviously pitted.

For a while, everyone looked at Qin Chen with pity. In their opinion, no matter how strong Qin Chen was in fire control, he couldn't be Jin Shengjie's opponent.

"That's right, the flame in the hands of the old man is really the earth fire. The fire here is the old man's unintentional acquisition not long ago. The old man also values your Excellency, so he decided on such a competition content." Jin Shengjie smiled inwardly. There was a sneer in the depths.

Does this kid think he is invincible after passing the seventh level of the alchemy room? Today, the old man will let him know that he must not be too arrogant.

"Have you enough nonsense? How is crooked, how can it be compared?" Qin Chen frowned and said lazily, without the slightest change in color due to the appearance of Bihai Tide.

"you....."

Jin Shengjie is anxious, this is Bihai listening to the tide, doesn't this kid know what this means?

His face turned cold, and he said coldly: "Well, if that's the case, then you are optimistic."

He used the true essence to protect the flame, and at the same time the true essence within his body was gradually displayed, and the spiritual power permeated it.

"call!"

I saw that the flames in his palm slowly grew bigger and thinner under the control of True Yuan, and grew longer and longer, as if a small sapling with the size of a thumb began to grow at a speed visible to the naked eye. Arm thickness.

Immediately afterwards, the details of the small tree gradually emerged, and the trunks, branches, and even the blossoming leaves began to slowly grow.

The many pharmacists around and the onlookers gradually widened their eyes, looking at this artistic operation in shock, with an incredible expression. Nangongli, Dabei old man and others are even more stunned. They have also seen pharmacists use real fire. They know that many pharmacists control real fire. They can control the temperature of any place in the flame. Some warriors with fire attributes. , When practicing the fire system,

Try to control the flame more finely.

However, these have always been just continuous improvements in power, and never thought of such a fun control, my God, this is no longer fun, this is simply abnormal!

"God, what did I see?!"

At this moment, the exclamation on the field was one after another, and all the audience were dumbfounded, like a ghost.

Almost everyone present has seen the alchemists refining pill, but those alchemists are nothing more than dividing the flames more and dispersing the refining of the pill furnace. This is the first time that they have seen such a dazzling operation. , All of them were shocked to the heavens.

"How, can you do it?"

There seemed to be a azure-blue tree in his hand, and Jin Shengjie looked at Qin Chen proudly with a look of contempt and disdain.

"That's it?" Qin Chen chuckled.

Jin Shengjie was annoyed. He thought that Qin Chen would be shocked when he saw his god-like operation, and his face was gray. Who knew that Qin Chen's disdainful expression greeted him, and he suddenly became angry and said coldly: "If you have the ability, you first Let's talk about it if it's done."

Qin Chen dismissed it with a smile: "Isn't it just flames evolving trees? I thought it was something extraordinary, look at me."

He stretched out his hand casually, screaming, the cyan flame suddenly spread from his hand, it was the Qinglian Demon Fire.

"I'm optimistic." Qin Chen yelled, and his spiritual energy blended into it. Zhen Yuan suddenly urged, and suddenly the green lotus flame began to change, and it ignited nearly ten feet high. At the same time, the branches and leaves also Then it grew and came to life, and in just a few breaths, it became as luxuriant as the flame trees displayed by Jin Shengjie, swaying with the wind.

[Chapter 1287: Don't be proud](#)

Seeing this scene, everyone was shocked.

Damn, this kid did it too?

Everyone was dumbfounded, and could hardly believe their eyes. Looking carefully, the flame trees in the hands of the two were completely similar, except that one was turquoise blue and the other was turquoise, there was basically no difference.

"Ok?"

Jin Shengjie's expression changed, and he obviously didn't expect Qin Chen to be able to transform the flame into a tree just like himself.

"Sure enough, there are two things."

He sneered, and then remembered that Qin Chen is a guy who can perform the diversion of flames. It is indeed not a particularly difficult task to evolve flames into trees. He really underestimated this guy before and dared to challenge himself. It is indeed capable.

Qin Chen said lightly: "Stop talking nonsense, you just have this skill? If it is, then Ben Shao should be considered a winner, right?"

"Hahaha, I want to beat me, it's still early." Jin Shengjie didn't change his face, and jokingly said: "This is just the beginning, kid, look good, the next step is the focus." He condensed his expression, holding the hand. The flame tree grew again, and in a moment it grew to a height of four or five meters, half a person's hug, and then lines appeared on the trunk, which actually mimicked the bark, and even can clearly see the above. The folds, and the leaves, one after another

On the leaves mimicked by thousands of flames, the veins of the leaves appeared.

"Hey!"

Everyone took a few steps back in shock, and their shocked eyes were about to fall.

day! Is that human being? This is simply a work of God! Even if it is the God of Flame, it is impossible to control the flame to such an extent, right?

"Boy, how are you now?" Jin Shengjie looked at Qin Chen proudly.

Qin Chen sneered, "What's this? I thought I was so capable, look at..."

When his voice fell, the flame trees on his hand also grew up, becoming four or five meters high, and then the delicate bark and leaf veins appeared one by one, clearly audible.

"it is good!"

Sylphy Medicine King stood up suddenly and almost shouted.

His eyes were excited, his body trembled, and the light in his eyes was brilliant and dazzling.

Unbelievably, Qin Chen also did it.

Pavilion Master Xuan Sheng was expressionless on the side, but he couldn't help yelling out in his heart. Being able to control the flame to this level not only represented Qin Chen's strong mental power, but also represented his delicate control of the flame. In terms of degree, he has an innate talent.

This is an extremely terrifying ability for alchemists.

A pharmacist can only control his own real fire extremely delicately. When refining the pill, he can give various sensitive feedbacks to the fused elixir according to the reaction in the pill furnace. This is almost a must-have skill for a high-level alchemist.

And now, Qin Chen has done it.

This guy is a **** genius!

The complexion of Deputy Pavilion Master Jin Shengjie suddenly changed. Obviously, he didn't expect Qin Chen to simulate such fine flame performance.

"Boy, don't be proud, there will be more next."

As soon as he gritted his teeth, his face was blue, but his eyes gradually became dignified, and he took a deep breath, apparently beginning to use his full strength, and his attention was concentrated.

After a long while, he gave a low voice and said, "Get up."

With a sudden lifting of his right hand, the flame tree suddenly fell to the ground and took root in the square. Immediately afterwards, Jin Shengjie squeezed the technique with both hands, and saw a hurricane blow by, crashing, on the tree, the leaves were whirling and stroking, and suddenly a bird chirping sounded, and from the leaves, a sudden flying out A little blue bird, flying happily among the leaves, and making a cry of autumn

The sound, on the little wings, fluff appeared, fluttering, lifelike.

"hiss!"

Everyone was shocked and couldn't help gasping for air.

how can that be? I saw the little bird flying happily, and Jin Shengjie's expression was extremely serious, his body was tight, and he obviously showed his full strength, a trace of mental power, to maintain the blue flame bird flying around. Look here. , Look over there, if not everyone knows that this is a fire control competition,

Some people even thought the blue bird was real.

"How about it, can you do it?" Jin Shengjie said in a deep voice. It can be seen that his mental power is highly tense, but the arrogance between his eyebrows is becoming more and more obvious.

Transmigrating a tree, it looks similar to an animated bird, but in reality there is a fundamental difference. One remains unmoved and only needs to be finely carved, but the other requires mental power to participate in its changes all the time to make the bird's The movements become vivid and very lifelike.

If he hadn't gotten the earth fire and blue sea listening to the tide, he would not dare to carry out such manipulation.

The expressions of Xuan Yi Yao Wang and others were completely gloomy, and their hearts were desperate.

Flame mimics, any medicine king can do it, but if it is so realistic, even a flying flame bird will come out, even those medicine kings at the peak of the seventh stage cannot guarantee that they will be able to do it. .

But can Qin Chen be a teenager who is only ten or twenty years old?

At this moment, everyone's eyes fell on Qin Chen's face, trying to see the look in his eyes, but unfortunately, they were all disappointed.

Qin Chen's expression remained indifferent, as if nothing could make him change.

He sneered, and said, "Little Eagle Eagle, can't you?"

When the voice fell, Qin Chen threw it away, and the turquoise flame tree fell to the ground in an instant. Then, Zhen Yuan stirred the strong wind to blow, and the leaves all over the sky suddenly fluttered.

"Fantastic."

He snorted, opened his mouth, and snorted. Among the leaves, a bird also flew out, Qiuqiu chirping, very smart.

What, actually did it?

Everyone shook violently, as if he had seen a ghost, and their eyes were almost bursting.

How did this kid do it?

Countless pairs of eyes stared over, wanting to see if Qin Chen used any cheating methods, but they couldn't see any clues at all, especially the flame bird, very smart, no more than the bird evolved by Jin Sheng Dumb.

"How...how did you do it, it's impossible!"

The cold sweat on Jin Shengjie's forehead came down in an instant. This was already the limit of his mental power. If he hadn't had the Bihai Listening Wave, he would never have evolved, but this kid, how could He De, have done it?

Qin Chen sneered, disdain to look over, and said: "What's impossible in this, Deputy Pavilion Master Jin, is it only for you to do it, but not me? You have been performing before, now it's my turn. See if you can control the fire like me."

When the voice fell, Qin Chen urged his mental power again.

I saw a large number of calls suddenly sounded among the leaves. All kinds of birds flew out one after another, around the huge flame trees, chasing and playing among the branches, forming a shocking picture!

There was a moment of silence on the court, everyone was completely petrified, and a needle fell from the silence of the entire square, all clearly audible. stunned!

[Chapter 1288: next](#)

This kind of scene completely shocked everyone's mind.

Is this still fire control?

Vulcan can't do this level, right? Oh my god, am I dreaming? Numerous pharmacists watched a flame-like bird flew by, and both eyeballs fell out.

Qin Chen maintained the sky full of firebirds and looked at Jin Shengjie with a sneer, the abuse in his eyes was very obvious. Jin Shengjie's forehead was already covered with cold sweat. When he gritted his teeth, his mental energy was violently urged, and the flame leaves swayed. There were also a large number of flame birds flying out from the branches, but these birds were very fuzzy, let alone Like Qin Chen's feathers, eyes, and even form

It can only stay in the shape of a bird, but cannot do more.

He tried his best to simulate these firebirds more clearly, but he missed the other. The one side is clear, the other side is blurred, and even some firebirds suddenly become fluttering flames, even the shape of the firebirds. maintain.

Jin Shengjie suddenly became anxious.

What can a young man do, how could he fail to do it?

After only a few attempts, he could only shake his head sullenly, his face pale and pale.

Dozens of birds, each playing back and forth, made him feel an unprecedented pressure. He can barely keep dozens of flames flying like birds, but he wants to be more clear, but fundamentally Can't do it.

Wow!

At this moment, there was already an uproar on the field.

"Deputy Pavilion Master Jin can't do it at all."

"The same is Firebird, the gap is too big."

"How did Qin Chen do it?"

"With so many things transformed at the same time, what exactly has this control of the flame reached?"

Everyone's discussion made Deputy Pavilion Master Jin want to find a place to sew and drill down.

"It seems that the deputy pavilion master Jin is a bit overwhelmed, but it's not over yet, everyone has your eyes wide open!" Qin Chen looked at Jin Shengjie with a cold smile and said: "If you can do what I will evolve next, I will give in on the spot. !"

Gosh, this is not over yet?

The people on the court were stunned.

And the elders under Jin Shengjie's deputy pavilion almost fainted, and they all shouted in their hearts: "It's over, it's over, it's over!"

Jin Shengjie is also dumbfounded. He maintains dozens of firebirds and has reached the limit. Some of them lose sight of each other. This is still the Bihai listening tide he is proud of, but now Otto's most proud skill is in Qin Chen's. Before the performance, he was overshadowed.

At this moment, all his pride and confidence completely collapsed, and he muttered to himself numbly: "It's not over yet..."

Qin Chen took a deep breath, and his face instantly paled, "Since the birds return to the forest, how can I do without the bird king?!"

There was a trace of sorrow in his eyes, and he was sure to win this competition, because no matter how strong Jin Shengjie was, it was impossible to match him in fire control.

"Undead Huofeng, Ning!"

He gave a low cry, and the sound of a phoenix roaring from the endless void, everyone in the entire square was suddenly startled and looked around in dismay.

A huge fire phoenix phantom flew out from the flames, like a rebirth from the ashes, with a terrifying aura that burned everything, flying on the tree of flames, and dozens of firebirds around it surrounded the huge The fire and phoenix and the stars hold the moon, forming a shocking scene of a hundred birds returning to the forest.

This fire phoenix is vivid, and the terrifying aura exuding from his body is like a real blood beast, making it difficult to distinguish between true and false.

"It's still a bit worse. It seems that my cultivation level is too low. In my previous life, I can truly form a fire phoenix while waving my hands, soaring for nine days!" Qin Chen shook his head slightly. Birds face the phoenix, the scene is more than a hundred times more spectacular than it is now.

In this life, the cultivation base is still lower.

He sighed softly and waved his right hand, all the flames disappeared, and the whole square suddenly cooled down.

He suddenly felt a throbbing sensation. The mental power that had already entered the eighth rank had actually been refined again.

"Heh, has the mental power broken through?"

Feeling the breakthrough of his mental power, Qin Chen faintly smiled, but he was not very proud. Although his mental power cultivation speed was fast, it was far from his goal.

But everyone on the court looked at Qin Chen with ghostly eyes, and the gaze revealed endless shock.

"Vice Lord Jin Shengjie, now it's your turn." Qin Chen put away his emotions and looked at Jin Shengjie.

"I....."

His face was embarrassed and his head was sweating, but after all he didn't want to admit defeat directly, he shouted, and his mental energy swept out.

boom!

A big fire flew out of the flame trees, but it couldn't be condensed into the shape of a phoenix, but it was constantly twisting there.

"What? Can't do it?"

Jin Shengjie's heart became more anxious, and only the fire phoenix was left in his mind at this moment, but the more anxious, the more impossible it was. With a puff, he immediately spewed a mouthful of blood from his heart, and the firebird evolved in front of him. He Dashu collapsed instantly and disappeared without a trace.

The crowd was completely silent. Everyone knew that Qin Chen had won and defeated Jin Shengjie, the deputy chief of the Dan Pavilion, in controlling the fire.

"Okay!" Pavilion Master Xuan Sheng stood up suddenly and exclaimed in excitement: "Qin Chen brought you a wonderful performance. This time, Qin Chen won the competition. Don't you have any opinions?"

He looked at Qin Chen with a smile, and the appreciation in his eyes became more intense.

This son is definitely a gem.

"Congratulations to King Qin Yao."

"The Lord of the Pavilion is wise."

Countless cheers rang out in unison, and at this moment, no matter what attitude the people had toward Qin Chen before, they all showed admiration at this moment.

Qin Chen used his own strength to conquer them.

As a loser, Jin Shengjie had long been forgotten in the corner, his face was pale and desolate.

The deputy pavilion master of the dignified Dange was lost to a young man who was only twenty years old. An unprecedented shame would inevitably be nailed to the wall of shame in Dandao City.

"Who is next?" With a smile on his face, the master of Pavilion Xuan Sheng looked at Alchemy Master Qinghong and Deputy Pavilion Master Kang Youming.

"I come."

Alchemy Master Qinghong couldn't wait to take a step forward, his face showed a strong fighting spirit, and his body was boiling.

He was excited.

As the most immersed in alchemy among the three deputy pavilions, Master Qinghong's pursuit of alchemy is far stronger than that of Kang Youming and Jin Shengjie.

Originally, this competition seemed to him to be a joke, but after seeing Qin Chen's fire control skills, he was excited.

Can't wait to fight Qin Chen! The appearance of Alchemist Qinghong also made everyone's eyes focused. Although Qin Chen defeated the deputy pavilion master Jin Shengjie on fire control, would he be the opponent of Alchemy Qinghong?

[Chapter 1289: Runmaidan](#)

Everyone is thinking.

If it were changed to an hour before, their answer would be yes, how could Qin Chen, a young man, be Qinghong's opponent?

But now, everyone hesitated.

This is a young man who can create miracles. Before the results come out, no one can be certain that he will lose.

The previous passage through the alchemy chamber and the fire control competition with the deputy pavilion master Jin Shengjie made Qin Chen instantly become extremely tall in everyone's minds, and no longer an unknown boy.

"Qinghong, what do you want to test with Qin Chen?" Pavilion Master Xuan Sheng looked at it with concentration.

Alchemy Qinghong is the one who is most obsessed with the alchemy of the three major deputy pavilions of the alchemy, so in terms of the cultivation of the alchemy, it can also be said to be the most immersed one.

In the eyes of Pavilion Master Xuan Sheng, it is very likely that Kang Youming will be the second player on the field, because many people know that the Alchemy Master Qinghong, who is also the deputy chief of the Pill Pavilion, has to be superior to the other two. Above.

But who had thought that the second appearance was actually Qing Hong.

Alchemy Master Qinghong looked at Qin Chen, his eyes bursting with a strong sense of war, and said: "My Lord, I want to compete with Qin Chen for alchemy!" He said with a cold face: "To a pharmacist. In other words, the control of fire, the hot pot, the distinguishing of elixir, etc. are all false. The evaluation of whether a pharmacist is really strong or not is whether he can refine a powerful pill, so I want to interact with Qin Chen. The competition is alchemy, and this speculation is also avoided

Chance of trickery. "

"Opportunity?"

Qin Chen stunned, it seemed that the Qinghong Alchemy Master thought he was able to defeat Kang Youming in fire control because of speculation.

The master Xuan Sheng's eyes condensed and said: "Competing alchemy, Qinghong, you are the deputy master of my alchemy pavilion, the mid-level 7 peak medicine king, competing with a young man in alchemy, a little bullying, right?"

No matter how genius Qin Chen was, he was only twenty years old. Although he had produced an indispensable Qinghong Pill in the Medicine King assessment, he was too young, at best, he was only close to the middle stage of the seventh rank.

But Master Qinghong wanted to compete directly with Qin Chen to refine the pill, how could Qin Chen win?

As long as Alchemy Master Qinghong competes with Qin, the pill that Qin Chen has refined is high, no matter how talented the alchemy is, Qin Chen can't compare with Alchemy Qinghong.

"Pavilion Master, don't mind, since Master Qinghong wants to compete with his disciple for alchemy, then the disciple should compete with him for alchemy." Qin Chen smiled faintly. It was only the peak medicine king in the middle of the seventh rank. Know who is strong and who is weak.

"Okay." Pill Master Qinghong shouted, and then said to Pavilion Master Xuan Sheng: "Master Pavilion, I Qing Hong does not bother to bully a young man. The topic I set is to refine the Runmai Pill together. The Runmai Pill refined by Qin Chen surpassed the old man in grade, and the old man recognized his position as a holy son."

He looked proud.

Runmaidan?

Everyone was stunned, this Qinghong Alchemy Master was really not too much.

Although Runmai Pill is the middle seventh-rank pill, it is one of the simplest middle seventh-rank pill. With the strength of Qin Chen's refined green rainbow pill, the middle seventh-rank Runmai pill is refined. There are really some possibilities.

If Master Qinghong directly asked to compete with someone who had a higher level of pill medicine, then Qin Chen would definitely lose.

However, this does not mean that Qin Chen has the hope of winning.

As the medicine king at the pinnacle of the middle seventh-rank alchemy, Alchemist Qinghong refines the simpler Runmai Pill among the middle-stage seventh-rank pill. Even if he is casual, he will at least refine a high-rank pill.

But if Qin Chen wants to win him, he must refine at least the first-class Runmai Pill, which for a twenty-year-old boy is tantamount to a fantasy.

"Qin Chen, what do you think?" Pavilion Master Xuan Sheng looked over.

"Since Alchemy Master Qinghong has decided, let's start as soon as possible." Qin Chen said.

Pavilion Master Xuan Sheng glanced at Qin Chen deeply and said: "Come here, immediately prepare to refine the Qinghong Pill materials."

Where is the Beitianyu Dan Pavilion? After Pavilion Master Xuan Sheng ordered, two refining tables appeared on the high platform for a short while, and on the refining tables were placed an identical pill furnace. At the same time, many materials for refining Runmai Pill were prepared. .

"Boy, the refining time is one hour, within one hour, no matter whether the Runmai Pill can be refined, the test will be over." Master Qinghong pill said, and then took the lead to the first refining platform.

call!

His eyes condensed, and a group of hot flames suddenly appeared in his hands, starting the preliminary heat trip.

"This is... Qingyang Fire, ranked ninety-three on the Earth Fire Ranking." The knowledgeable alchemist in the crowd exclaimed.

"Master Qinghong actually took out the Qingyang Fire. It seems that his victory in this competition is a certainty."

"This is the top 100 Earth Fire on the Earth Fire List. Tianwu Continent has many earth fires, countless, and the ones that can rank in the top 100 are all the most heaven-defying earth fires. Compete with this Qin Chen to refine the pill, Qinghong Alchemist You were too careful to show off the Qingyang Fire, right?"

"That's called the lion fight the rabbit, and send it all out, what do you kid know."

There was a burst of noise from the crowd in the square. Some warriors who didn't understand what Qingyang Fire represented, slapped the sound at the people on the side, and after inquiring about the result, their faces were all exposed. There were bursts of horror.

However, after Alchemy Qinghong in the center of the square displayed the Qingyang Fire, his originally slightly indifferent expression became calm at this moment. His eyes looked at all the materials in front of him without joy and sadness. In his mind , There is only the elixir in front of him.

A series of procedures that need to be refined next were quickly browsed in his mind. The spiritual power of the eighth rank quickly radiated to the refining platform in front of him, and the powerful spiritual power raged in the center of the square, full of Domineering breath.

Suddenly, a cloud of fine glow burst out of his eyes, and then his right hand moved like lightning, and he quickly tapped a potion on the refining table.

Wherever he went, the whole elixir broke apart as if cut by a sharp blade, the cuts were neat and clean.

"This is... the phantom plunderer."

Xuan Yi Yao Wang's eyes condensed suddenly, and his pupils suddenly shrank.

As soon as the so-called expert makes a move, he will know if there is any. This phantom plundering medicine hand is an extremely advanced method of cutting elixir that is circulated among alchemists.

The elixir contained in each segment of any material is different, and the efficacy of each segment is also different. Once the magical plundering medicine hand is released, it can instantly base a elixir on it. How much is the content of the internal ingredients, divided into equal parts you want. Ordinary people seem to cut the elixir with their fingers, but in fact, the alchemist must first analyze the elixir with mental power, and finally spit out the true essence from the finger to cut the elixir when the finger touches the elixir. Without damaging the internal structure of the elixir, this requires the alchemist's control of spiritual power and true essence to reach a very high level.

[Chapter 1290: Give up](#)

It can be seen from the master Qinghong's skillful movements that the phantom plundering medicine hand of this master Qinghong has reached an extremely high level. The alchemists who knew the goods underneath also showed bursts of exclamation. However, the Alchemist Qinghong in the middle of the square did not have the slightest discoloration on his face, and he was still quickly processing everything in front of him. The elixir, he has been completely integrated into the refining, everything around

He couldn't even disturb him.

It seems that this is not a simple game, but a major refining related to his future, and the whole person is completely immersed in it.

Qin Chen's eyes narrowed, no wonder this Qinghong Alchemy Master was known as a medicine obsessed, and he liked to lead other alchemists. This person's obsession with the alchemy was indeed extraordinary.

"Dragon and phoenix dancing!"

"Dual Zhenyuan Manipulation Method!"

"Vortex countercurrent technique!"

"Nine Spinning Hot Ding Method!"

"..."

One by one, the superb alchemy skills are constantly displayed from the hands of Alchemy Master Qinghong, quickly handling a large number of elixir in front of them, and the movements give people a pleasing feeling, which provokes the crowd below. There were bursts of exclamation.

These skills are all advanced refining techniques that all the pharmacists on the mainland want to learn. They are usually extremely difficult to see, but at this moment, I saw several kinds of them in Alchemy Master Qinghong.

Even Pavilion Master Xuan Sheng couldn't help but sigh.

As the deputy head of the Northern Heaven Domain Pill Pavilion, Qinghong Alchemy Master, a strong man who has received orthodox pill Taoism education, is not like an ordinary pharmacist who is a monk in the wild. He has been trained by the Dange system since he was a child, and he has mastered a variety

of Dandao secret techniques that are hard to reach by ordinary people. In addition to his amazing talent, his family is also an aristocratic family in Dandao City. This is a blockbuster. One of the three deputy chiefs of the Dange, even at the Dandao level,

There is a faint feeling of being the head of the three current deputy pavilions, much like the position of Sylphy Medicine King in the deputy pavilion.

This is the medicine king who has the most hope to break through to the late seventh stage among the three current deputy pavilions.

Not trivial!

At this moment, all the alchemists present on the square were all screaming, their eyes were red, and they were shaking with excitement.

Almost all the alchemists had their eyes widened at this moment, staring at Master Qinghong's preparations for an instant, and could see the refining of masters such as Qinghong's alchemist. That is undoubtedly an extremely rare learning experience.

"It's interesting!" Qin Chen on the side also made a smile at the corner of his mouth.

"By the way, has Qin Chen started refining? Where is it?"

Suddenly, someone seemed to have thought of something, and suddenly turned his head to look at Qin Chen, and then saw the weird smile on the corner of Qin Chen's mouth.

Suddenly they were speechless.

If Qin Chen doesn't start refining, why is he smirking while standing there?

They rubbed their eyes unbelievably, yes, they were laughing.

Could it be that Qin Chen was scared stupid? Probably!

Think about it, too, the refining techniques displayed by Master Qinghong are really terrifying. As long as one of these tricks can be achieved by a pharmacist, it is enough to be called a master of alchemy, and Qinghong The alchemist had cultivated every move to the realm of great achievement.

If you were to compete with Alchemy Master Qinghong, I am afraid that you are already paralyzed by fear, right?

However, these thoughts just flicked through their minds. Then, their eyes all focused on Alchemy Qinghong again. They really didn't want to miss any details of the refinement of Alchemy Qinghong. .

If at the beginning, there were some alchemists who were lucky enough to win Qin Chen's victory, then when everyone saw Alchemy Qinghong's magical refining, they had all lost to Qin Chen. confidence.

Alchemist Qinghong deserves to be the name of the first deputy chief of his alchemy pavilion. Any step of refinement is full of artistic beauty. He is completely immersed in his refinement, his eyes are blurred and focused, and his hands are dexterous. And stable.

Every step of refining is perfect, heating the pot, dividing the medicine, refining, purifying, removing impurities, fusing and even condensing pills. It is like an extremely precise machine, with no flaws in sight.

The powerful eighth-order mental power is crisscrossing the center of the square, but when it is integrated into the pill furnace, it is extremely meticulous and soft. A trace of true essence is constantly entering into the fusion through the transparent black pill furnace. Participating in the reaction between the elixir.

Every elixir was added at the right time, whether it was the timing of adding or the amount of elixir, it was extremely precise, and it was as perfect as a textbook.

"It's incredible." In the square, a master alchemy muttered to himself.

"This refining is so perfect, it definitely reaches the meticulous level of pill refining." An old man's eyes beamed.

"The first deputy chief, the first deputy chief, is worthy of the name, worthy of the name!"

There were constant groans from the crowd. These speakers were all the powerful elders in the alchemy pavilion. Even the Xuanyi Medicine King looked at the refinement of Alchemy Master Qinghong, frowning and thinking, sometimes stretching his forehead.

As a pharmacist at the pinnacle of the middle stage of the seventh stage, the refining of Alchemist Qinghong can also bring him a lot of inspiration.

As time passed, the pill refining in front of Master Qinghong also came to an end. After the pill furnace in front of him was added with the last elixir, the reaction suddenly became violent, and the air kept raging violent spirits. Medicinal breath.

Alchemy Qinghong's always calm brow wrinkled tightly at this moment, his eyes filled with solemnity.

boom!

Finally, the originally violent pill furnace gradually calmed down, and a strong pill scent suddenly escaped in the square.

All those who breathed this scent felt refreshed in their minds and extremely comfortable in their bodies.

"Get up!"

Alchemy Master Qinghong gave a low drink, and in an instant, ten plump and rounded pills rose into the sky from the furnace, and instantly fell into his hands.

"Everyone, fortunately to live up to the mission!"

Alchemy Master Qinghong smiled faintly, and put the ten pills on the refining table. Everyone looked at them. The ten pills were full and round, and there were clear patterns on them, which were clearly superior moisturizing veins. Dan!

Master Qinghong Alchemy is worthy of being Master Qinghong, and when he shot it, there were ten top-grade Runmai Pills, which was shocking.

After the refining was completed, Alchemy Qinghong turned his head to look at Qin Chen, obviously also wanting to see how far Qin Chen had refined.

When he saw this, he couldn't help being taken aback.

Because Qin Chen hasn't started refining even now.

"This....."

Pill Master Qinghong couldn't help being dumbfounded. The total refining time was only one hour, and now it has been more than half an hour. Qin Chen didn't even start refining. It seemed that he could not finish it.

Suddenly sneered: "Boy, I thought you were so good. It seems that you don't even know how to refine the Runmai Pill? If that's the case, why waste any time and give up!"

He said proudly, his face full of disdain and contempt. I thought that Qin Chen had some amazing performance, so he took the initiative and ranked second in the competition. Who knew that it was so unbearable and disappointed in his heart.
