Chapter 131

"I heard that he now lives in Xicheng. It is the place where the poor live. It is very dirty and filthy, but with his status, it is very suitable to live there."

Being picked up by the imperial envoy all the way to the imperial palace, Qin Feng continued speaking, mocking Qin Chen extremely.

Everyone was stunned and shocked.

With such a strong hostility, even an idiot can see that a large family in the Qin family, who had a great power in Qi country, did not expect Xiao Qiang to cause disaster.

Fighting in the same room is shocking.

There were also people who doubted that Qin Feng was stationed outside all the year round and fought with Qin Batian. Now what he said also represented the meaning of Qin.

If it's true.

Doesn't it mean that Elder Qin is also dissatisfied with Qin Chen's illegitimate grandson?

"When I see your Majesty's return, I will personally meet my brother Chen. I haven't seen him for a few years. Where did the courage to act like this and even his second brother dared to hurt his second brother. Do you want to be cleaned up?!"

Qin Feng proudly spoke again and again, showing an attitude.

Everyone was shaking, knowing that Wang would face a storm.

"Hehe, this kid Qin Chen is going to be unlucky. He abolished Qin Fen. How could Qin Feng ignore him as Qin Fen's elder brother."

"Qin Feng was known as the first genius in my king's capital in his early years. He broke through the prefecture level at the age of fourteen. He is unparalleled in the world. If he wants to do something, there is no one among his peers, except the four princes. Strong, not the enemy of Qin Feng's tricks."

"The difference is too much, the two are not at the same level at all."

Wei Zhen and others sneered, wishing Qin Chen would be taught by Qin Feng.

"It's just a few years, what's so great."

"How can Chen Shao be afraid of him."

Lin Tian and Zhang Ying were very angry.

But soon it was submerged without a trace.

Foreign soldiers will return to the royal capital. First, they must report to the Ministry of War. Qin Feng has a special status and was specially summoned by His Majesty Zhao Gao.

In the main hall, Qin Feng no longer speaks, but respectfully, reporting on border issues over the years.

Zhao happily replied and laughed: "Qin Feng, you have been outside these years and have made great contributions to our great Qi country. Not too long ago, he defeated Wei Wei with tens of thousands of cavalry. The slain Wei soldiers retreated more than 300 miles, hiding Enter the Yin Mountain, let's talk, what reward do you want?"

Qin Feng knelt on one knee, with his head drooping: "My Majesty, throwing his head and sprinkling blood for my great Qi country is what every citizen should do. His ministers just did what an ordinary citizen of the great Qi country should do. Why reward!"

"Haha." Zhao Gao Longyan joyously said with a smile: "Qin Feng, even though this is the case, I have distinct rewards and punishments. You have made great military exploits on the border. If I don't have rewards, how can I convince the crowd?"

After a moment of contemplation, Zhao Gao suddenly said: "Qin Feng, do you know my purpose for recalling you from the border this time?"

Qin Feng said: "Could it be because of the Big Five?"

Zhao Gao said: "It is because of the Great Competition of the Five Nations. In recent years, the Great Wei State has been eager to send troops to our Great Qi State. The wolf's ambition is clearly revealed. This time the Great Competition of the Five Nations gave them a chance to teach. You worked hard at the border and won the championship. This time you are called back to be baptized in the Blood Spirit Pool in the near future, and then participate in the Five Nations Tournament to win glory for my great Qi. Do you have confidence?"

Qin Feng said confidently: "His Majesty, the minister is confident that he will win the first place for the Great Qi in the five-nation contest."

"Okay." Zhao Gao slapped the dragon chair and said, "If you can really win the first place, I can give you a guarantee that when you return, you will be awarded the title of champion, how about?"

"Wow!"

As soon as this was said, the whole court was in an uproar.

The champion Hou turned out to be the champion Hou.

There are many marquis in the great Qi country, but in terms of rank, champion marquis is definitely one of the most special ones.

In history, only young generals who have made great contributions to the Great Qi State will be named champions.

Once you get this honor, it means you can bring the sword into the temple. It is a great honor and a high position.

But now, Qin Feng is just a school lieutenant, not even a general. His Majesty promised a champion, which immediately caused an uproar in the whole court.

This is simply too exaggerated.

You must know that Qin Feng is only twenty years old this year. If he were to be named the champion, he would not only be the youngest champion in the history of Da Qi, but also the first person in the history of Da Qi to be named at 20. .

At that time.

One of the Qin family's goalkeepers appeared a king of martial arts and two masters of marquis. They were really powerful and made a sensation in the great Qi country.

"Your Majesty, is this... a bit sloppy?"

"Yes, your Majesty, the title of champion Hou is extraordinary. Is it a long-term plan?"

A group of civil servants were alarmed and hurriedly moved forward to speak.

Now that King Dingwu has already made great achievements, hasn't his majesty been weakening the power of the Qin family? How suddenly, such a promise was made so that everyone could not understand it.

"Needless to say, my will is determined." Zhao Gao waved his hand and prevented everyone from admonishing.

His Royal Highness, Qin Feng boiled with enthusiasm, and said loudly: "Thank you, Your Majesty, Chen Ding will do his best to win glory for the Great Qi Kingdom, and win the first place in the five countries."

Qin Feng secretly made up his mind as his eyes flickered.

"Okay, then I will be waiting for your good news, Qin Feng, you have been out for a long time and haven't returned home for many years, so I won't keep you much. Go home early to see your parents."

"Yes, your majesty...the minister has one more thing."

"what's up?"

Qin Feng raised his head and said respectfully: "The minister is on the way back to the capital. He heard that his younger minister Qin Chen won the first place in the year-end exam of the Sky Star Academy and obtained the qualification to enter the blood spirit pool. The minister thought that this was absolutely wrong. In order to win the first place in the exam at the end of the year, this son wounded his brother Qin Fen of the same race into a waste. Such ruthless and unrighteous people are eligible to enter the blood spirit pool and represent my great Qi to participate in the Five Nations Grand Tournament. Therefore, The minister begs your majesty to withdraw Qin Chen's chance to enter the blood spirit pool.

As soon as this remark came out, Chaotang was in an uproar again.

What the **** Qin Feng is doing, it is too exaggerated to ask your Majesty to withdraw Qin Chen's blood spirit pool qualifications from the court.

Everyone looked at Zhao Gao, waiting for his answer.

"Qin Chen won the first place in the year-end exam of the Sky Star Academy. It was my promise to participate in the baptism of the Blood Spirit Pool. The so-called golden words, since I have promised, I will not repent. Just like I promised your champion, this matter, in the future No need to mention it." Zhao Gao waved his hand.

Above the court, everyone was puzzled.

Originally thought, His Majesty wanted to stand on the side of Chu Weichen and Lord Kang to get justice for Qin Chen in order to cut off the wings of the Qin family and weaken the power of King Dingwu.

But the promise of champion Hou made everyone lost again.

Now, His Majesty has defended Qin Chen again.

Everyone can't figure out Zhao Gao's true intentions.

Chapter 132 Zhao Feng's Ecstasy

The meeting process was very fast, and after a short while, Qin Feng left the palace and set off for Qin's house.

But what happened above the court, like a gust of wind, spread throughout the entire capital in an instant, causing an uproar.

In particular, Zhao Gao's promise of Qin Feng champion Hou caused a huge shock.

The young man Fenghou, how brilliant this is, can not be shocked.

And Qin Feng's impeachment of Qin Chen to get Zhao Gao to cancel Qin Chen's blood spirit pool baptism qualifications also triggered various discussions.

"What kind of thing is Qin Feng, he dare to impeach Chen Shao."

"Hmph, I still want to be a champion, and I don't want to see my own virtues, he deserves too."

Lin Tian and Zhang Ying were so angry that they repeatedly cursed and wanted to hit the door.

And Li Qingfeng, Wei Zhen and others who were waiting to see the Qin family's jokes before were also dumbfounded and angry.

If Qin Feng were to be crowned the champion, the entire Daqi state court would even change.

At that time, Qin Feng and Qin Yuanhong are two lords, enough to set off a huge storm in the court.

Almost in an instant, the whole king was discussing this matter, and was in an uproar!

Some sneered, some mocked, and some worried.

King Kang Mansion.

Zhao Jing put down his wolf pen, looked towards the palace with a worried look, and sighed: "Brother Wang, why are you doing this?"

Dingwu Palace.

There are lights and festoons everywhere, and it is very lively.

When Qin Feng's motorcade came outside the Qin Mansion, the entire Qin Mansion servants cheered loudly and beaming.

"Look, it's Master Feng."

"Young Master Feng is the son of my Qin family, and sooner or later he will inherit the position of the Qin family's head."

"Have you heard, your Majesty promised Master Feng that as long as the Five Nations Grand Tournament wins first place for the Great Qi Country, he will be awarded the title of Marquis of Champion. This is the Marquis of Champion."

"If so, Master Feng's prestige in the court may be higher than that of Master."

"Shhh, you can't say that."

A group of domestic slaves looked at the front of the motorcade excitedly, and Qin Feng sitting cross-legged on top of the cyan tall horse was extremely excited.

Those maids, their eyes gleaming, their faces flushed.

"Feng'er has seen his father and mother."

Turning over and dismounting, Qin Feng knelt on one knee in front of Qin Yuanhong and Zhao Feng, saluting respectfully.

"Feng'er, get up quickly, you are finally back."

Zhao Fenglian lifted up Qin Feng with a pair of phoenix eyes, his eyes twinkling, extremely excited.

After waiting for so long, she finally waited until Qin Feng returned, and the heart she had been holding these days was finally let go.

The first thing Qin Feng did when he returned home was to worship his ancestors in the ancestral hall, and then to meet the elders and elders of the family in the hall.

These elders, who had heard the rumors, were so happy from ear to ear that they hurriedly stood up and held Qin Feng's salute.

Just kidding, if after the Five Nations Grand Tournament, Qin Feng can really win the title, I am afraid they will rely on Qin Feng's reputation in the future.

How dare you be too arrogant now.

Faced with the attitude of the elders, Qin Feng didn't say anything, and he accepted it naturally.

Then, he came to Qin Yuanzhi's body, and faintly said, "Qin Feng, I have seen my second uncle."

Qin Ying saw that Qin Feng didn't respect her father very much, and she was suddenly dissatisfied, and hummed secretly, "This guy hasn't become a champion yet, what's the point."

"Feng'er needn't be polite."

Qin Yuanzhi didn't care about these false courtesies.

Qin Feng took advantage of the opportunity to withdraw his salute, then glanced at Qin Ying on the side, and suddenly said: "I heard that Yingmei and Qin Chen are walking very close. Qin Chen injured my second brother and betrayed the Qin family. It is my Qin family. The sinner, I hope Yingmei will not interact with this person in the future, so as not to tarnish the reputation of my Qin family."

Qin Ying raised her brows and said angrily: "Qin Feng, what do you mean?"

Qin Yuanzhi frowned, and said: "Feng'er, you are not good at what you said, no matter how Qin Chen is, it is also of my Qin family's blood. As a disciple of the Qin family, how can you say that to him?"

"Second uncle." Qin Feng smiled, with a very indifferent smile: "Qin Chen has already taken the initiative to leave my Qin family, how can he be regarded as a child of my Qin family? What's more, he severely injured Qin Fen because of me. Qin Chen is an enemy, and your second uncle is also my Qin's ancestor. How can you speak for an outsider regardless of right and wrong?"

After all, without waiting for Qin Yuanzhi to say anything, Qin Feng directly said to Zhao Feng: "Mother, I want to see my second brother."

The group left immediately.

"This guy..." Qin Ying was full of anger and gritted her teeth bitterly.

Qin Yuanzhi's face was also very ugly.

In the courtyard where Zhao Feng lives.

"Brother, you must avenge me."

Qin Fen was wrapped in a bandage, and when he saw Qin Feng, he burst into tears immediately.

Seeing Qin Fen, who had no real energy fluctuations in front of him, almost turned into a waste, Qin Feng's eyes became increasingly cold, and he said coldly: "Second brother, don't worry, eldest brother, I will never spare that kid. I will definitely do it for you. revenge."

He squeezed his hands and creaked, and his whole body burst out with a terrifying fighting spirit, like a tiger, roaring and roaring in the room.

"Feng'er, have you already reached the top of the earth level?" Zhao Feng said with a look of excitement.

Qin Feng smiled slightly and condensed his breath: "Mother, the child has already broken through the peak of the earth level more than a year ago."

"hiss!"

On the side, Qin Fen took a breath of air, a look of amazement, his eyes almost stared down.

"Brother, you are only twenty this year."

His head was dizzy and he couldn't believe his ears.

The eldest brother is already at the top of the prefecture level at the age of twenty, and his future achievements will be beyond limit.

"Feng'er, you have to be careful, that Qin Yuechi mother and son are not that simple." Zhao Feng's expression was gloomy: "Qin Yong was also at the top of the prefecture level, but was killed on the spot during the assassination. Although he was helped by the city guards, it is bound to be inseparable from Qin Yuechi mother and son."

Qin Feng showed disdain and convinced himself: "Mother, don't worry, although the child's cultivation is at the pinnacle of the earth level, his true strength is definitely not the case. You may not know the mother. If it were not for the baptism of the blood spirit pool, the child would have been there as early as half a year ago, he was able to hit the realm of the heavenly rank. On the battlefield, there were more than one heavenly rank generals killed by children."

Qin Feng looked proud.

Qin Fen took a breath, almost fainting.

In the realm of the pinnacle of the earth level, kill the generals of the sky level, my God, what is the strength of the big brother?

Under the shock, the excitement in his heart grew stronger and he couldn't help but laugh out loud: "Haha, Qin Chen is bound to die this time, eldest brother, you must teach him well, and you must not let him die so cheaply. "

Zhao Feng also looked shocked and smiled sinisterly: "That's good, mother can rest assured."

"It's just a mere rubbish. Killing him is just a matter of catching him." Qin Feng smiled, and did not take Qin Chen to heart at all: "My goal is to be the first in this five-nation competition."

An intent to fight rushed from him and stayed for a long time.

Chapter 133

Qin Fen excitedly said, "Brother, what are you going to do?"

A cold light flashed in Qin Feng's eyes, and he sneered: "Naturally, he was invited to fight him. If he dares to fight, I will ask him to become a useless person before going to the blood spirit pool and lose the opportunity to enter the blood spirit pool."

After a while.

A piece of news came from the Qin Mansion.

Qin Feng said that three days later, he would challenge Qin Chen at the stage of life and death. If Qin Chen had the courage, he would come to fight.

As soon as this news came out, the entire Great Qi State was instantly shaken.

"Qin Feng does what he wants to do."

"This is the stage of life and death, life and death are up to you, does he want to kill Qin Chen?"

"No matter how Qin Chen is, he is only a human-level powerhouse. Although he is the champion of the year-end exam, he is far from Qin Feng."

"If he dares to play, he will definitely die."

The crowd was in an uproar and couldn't believe it.

The stage of life and death is a famous challenge for the king of Qi. Any warrior who comes to power must sign a life and death contract. There are countless warriors who die on the stage of life and death every year.

If Qin Chen really challenged, it would definitely be an endless ending.

"Qin Feng, this guy is so despicable, he even made an appointment with Zhanchen."

"He doesn't look at his age, he is so much older than Chen Xiao, and he is embarrassed."

Lin Tian and Zhang Ying were furious.

Not only them, but other teenagers in the capital, all have the same idea.

In terms of age, Qin Feng was five years older than Qin Chen, and Qin Feng had already broken through to the prefecture level five years ago, and Qin Chen was only at the human level when he took the exam at the end of the year, and the two were not above the same level at all.

"If you feel unfair, I can let him have both hands and fight a battle."

Soon, Qin Feng spread the word again.

"If you don't agree to this, I can only say that the champion of the year-end exam is just a daredevil. Three days later, I Qin Feng will wait for him at the stage of life and death to see how the genius boy in everyone's eyes is really true. It's a genius, it's just a bullshit."

Let him hold hands?

Everyone was shocked. In other words, Qin Feng made an appointment to fight Qin Chen without using his hands.

The cultivation base of a warrior is generally in his own hands.

Once he didn't use his hands, it could be said that Qin Feng had lost at least eighty to ninety percent of his combat effectiveness.

To fight Qin Chen with a strength of 10 to 20%, from this point of view, Qin Feng's challenge is indeed quite sincere.

"Qin Chen is the champion of the year-end exams. I shouldn't fail to accept such a challenge."

"The other party's clamor is over, as long as it is a man, it will not ignore it."

"If it were me, even if I died, I would never allow my dignity to be damaged."

One by one, voices came from those corners of the royal capital and attracted everyone's attention.

It was all released by Wei Zhen and others.

They sneered again and again, wishing that Qin Chen would accept the challenge and be beheaded by Qin Feng to relieve the hatred in their hearts.

"If there is less dust to challenge, how can this be good?"

"Yeah, Yichenshao's character, once his brain gets hot, he might agree."

Lin Tian and Zhang Ying, who got the news, were worried and extremely nervous.

"No, you must stop the dust, the gentleman takes revenge, it's not too late for ten years."

Anxiously, Lin Tian and Zhang Ying came to Qin Chen's house for the first time and knocked on Qin Chen's door.

"Little dust, you must never agree to Qin Feng's challenge. I heard a friend who met Qin Feng at the gate of the capital city said that the true energy in Qin Feng's body is condensed and not dispersed, at least as strong as the pinnacle of the earth. The winner."

"Yes, even if he doesn't use his hands, with his cultivation base, he can easily kill the strong at the early stage of the earth level. He said that, just to get you to agree."

As soon as they entered the door, Lin Tian and Zhang Ying said nervously, looking anxious.

"What are you two talking about?"

Qin Chen looked at the two with doubts.

"Uh." The two were stunned: "We are talking about Qin Feng."

"Qin Feng? What happened to Qin Feng?" Qin Chen frowned. He has been in retreat these days. Although he knew Qin Feng was back, he didn't take it seriously. Did he do something?

"You don't know Little Dust?" Lin Tian and Zhang Ying stared.

The two of them were so worried there, who knew that Qin Chen didn't care at all, causing them to be greatly injured.

After learning that Qin Feng threatened to invite himself to fight, Qin Chen immediately waved his hand speechlessly: "What should I do? Let him invite him to fight when he invites the fight. I don't have the time to spend time with him."

Now that I am so busy, how can I have time to accompany Qin Feng to invite him to fight.

Lin Tian and Zhang Ying looked at each other and smiled bitterly. They dare to think too much.

Soon the two thought that if Qin Feng knew about his invitation to fight, after Shao Chen hadn't paid attention to it, they might not know what it would look like.

It is estimated to be depressed and want to cry.

From then on, the two people's hearts were completely put down, and after another moment of chatting, they left with satisfaction.

But the external situation has not subsided.

Qin Feng released words from time to time, trying to anger Qin Chen, making him impulsive to invite a fight.

In his opinion, Qin Chen would definitely pay great attention to his every move. Once he heard what he said, even if he was calm, he would inevitably challenge him.

He didn't expect that Qin Chen didn't mind him at all, practicing hard in seclusion.

For the next two days, Qin Chen stayed behind closed doors and concentrated on practicing.

In the middle of the journey, Qin Ying came here. It was also an invitation to fight for Qin Feng. After seeing that Qin Chen was very calm, he left with confidence.

This day was the day Qin Feng invited the battle.

Qin Feng arrived at Wangdu Life and Death Stage early, waiting for Qin Chen's arrival.

Around the whole platform of life and death, a lot of warriors in the capital of the kings who got the wind gradually gathered, waiting for a terrifying battle.

Among them, Wei Zhen, Li Qingfeng, Lian Peng, Ge Zhou and others wanted to see with their own eyes how Qin Chen was repaired.

While everyone was waiting, Qin Chen came to the Pill Pavilion in a hurry.

Because he got the news, Dan Ge had gathered all the materials he needed.

"Little Chen, today is the day when you will show off your majesty. There are many people on the stage of life and death, but there are many people waiting for you to go." Xiao Ya saw Qin Chen's first face, she said with a torturous smile.

She is wearing a light blue long dress, and her beautiful eyes are full of colors.

The affairs of the Qin family, even for outsiders like her, found it quite interesting.

"I have everything I want?"

Qin Chen didn't bother to pay attention to Xiao Ya, he knew that this kind of woman would get more energized the more she paid attention.

"All have been gathered long ago, Liu Guang, bring me the medicinal materials that Shao Chen wants."

After making a pot of tea, Xiao Ya instructed Liu Guang.

Not long after, Liu Guang came in with a lot of medicinal materials.

"Look, there is little dust, there is a mistake." Leaning forward slightly, Xiao Ya put a lot of medicinal materials in front of Qin Chen, and a seductive scent passed into Qin Chen's nose.

Chapter 134 Joint Refining

Qin Chen's heart was overjoyed, his eyes focused on the medicinal materials, and he distinguished them carefully. Every time he saw something, his face showed joy.

Xiao Ya was speechless. This guy was still not a man. Such a lively woman stood in front of him. He didn't even react at all. He just stared at these medicinal materials. Are these medicinal materials more charming than her beauty? ?

Xiao Ya was full of confidence in her appearance and figure. Every man who saw her was fascinated by her, even the patriarchs of the major families.

But the last time Qin Chen saw himself, there was not the slightest fascination on his face.

But these days, Xiao Ya had heard a lot of news about Qin Chen, and became more and more interested in this **** who had left the Qin family.

"Less dust, how about it, right?"

Sakura lips lightly opened, Xiao Ya exuded a charming fragrance, and her enchanting figure was almost close to Qin Chen.

As soon as Qin Chen looked up, he saw a touch of snow-white skin, although it was separated from his clothes, it still looked incredibly sweet.

"Pavilion Master Xiao Ya, I'm still just a child, is it really okay for you to do this?" Qin Chen said with a smile on his nose.

Xiao Ya was taken aback, quite embarrassed.

This guy.....

Sitting back in her place, Xiao Ya said: "Well, I have all the materials you want, Shao Chen, I don't know what pill Shao Chen wants me to refine?"

Many of these materials, Xiao Ya hadn't used it, she had analyzed it several times carefully, but hadn't analyzed it. Qin Chen couldn't help but wonder what kind of medicine Qin Chen wanted to refine.

"What I want to refine is the third-rank explosive body pill, condensing body pill, and body building pill."

"What?" Xiao Ya's pupils shrank and her face was shocked.

She had heard of the explosive body pill, the condensing body pill, and the body building pill. They were three very special three-level pill medicines, all of which were related to the body of the martial artist.

Among them, the explosive body pill is a kind of pill that can improve the cultivation of the martial artist in a short time. However, once this pill is taken, it has serious side effects. fracture.

The body condensing pill is a kind of pill that condenses physical strength. Once taken, the physical strength of the martial artist will increase a lot in a short period of time, which is enough to double the physical strength of the strong.

As for the body building pill, it is a pill for building the physical body of the martial artist. After taking it, it can consolidate the meridian and physical body of the martial artist, and greatly enhance the toughness of the physical body.

These three medicines seem to have similar effects, but in fact they are completely different.

"Little dust, what do you want to make these three kinds of medicine?"

Xiao Ya couldn't understand how Qin Chen could use these three medicines.

Qin Chen said lightly: "You don't need to worry about these, you just need to help refine it."

Xiao Ya shook her head and smiled bitterly: "You let me refining it is no problem. I can give it to you today. However, although I know the pill, I have never refined it before. At least I have to be familiar with it for a while. As for the body building pill, I don't even know the pill, how do you let me do it?"

"With me, don't worry about these, I will guide you to refining together, you only need to prepare a refining room immediately." Qin Chen said calmly.

Xiao Ya and Liu Guang looked dumbfounded.

Instruct her to refine?

Are you joking?

Also let Xiao Ya Pavilion Master not worry.

Can we not worry about this?

What you want to refine is not a first-grade pill, but a third-grade explosive body pill, condensing body pill, and body building pill.

No matter how strong you are in refining medicine, and no matter how great the master behind it is, you are only a first-grade pharmacist.

Can you guide?

The corners of Xiao Ya and Liu Guang's mouth twitched, they were going crazy.

"Little dust, this...isn't it to think about it?"

Stepping forward, Liu Guang couldn't help but remind.

"Don't think about it, don't you go to prepare the refining room?"

Qin Chen frowned and asked them to do something, so why did they just procrastinate?

Liu Guanglian looked at Xiao Ya, but saw Xiao Ya nodded and said, "Just go to my refining room."

She gave a wry smile in her heart.

Forget it, anyway, these materials are nothing compared to the benefits of True Qi Pill, even if they are all wasted, they are nothing.

The group soon came to Xiao Ya's dedicated refining room.

"Little dust, how are you going to refine it?"

Now that she had decided to do this, Xiao Ya let go and asked directly.

"First sort these materials according to the order on the list, and then take out a certain amount, Liu Guang, you go and move three pill furnaces."

"There is little dust, just one pill furnace is enough, right?"

Liu Guang was taken aback.

"Refining one by one, then when will the three pills be refined together with three furnaces, it will be much faster." Qin Chen said.

"what?"

"Refining together?"

Liu Guang staggered and almost fell into a daze.

Xiao Ya, who was sorting out the medicinal materials, also twitched the corners of her mouth and looked dumbfounded.

What?

Am I wrong?

Are you kidding me to refine the three medicines together?

You should know that the refining process of each pill is extremely cumbersome, and any slight error in one step will lead to the failure of the entire refining.

Although she is a third-rank pharmacist, even if she only refines one third-rank pill, there is no guarantee of success, and she often fails in the refining.

Refining the three at once, without even thinking about it, it is impossible to succeed properly.

"Ahem, do you think about it again?" Xiao Ya said silently.

"I said, just refining a pill, do you need to be so careful? You are still not a third-rank alchemist."

Qin Chen frowned.

However, there are so many problems in refining a pill.

"I didn't say it, but the refining will fail later, don't blame us!"

Xiao Ya was crazy. She was a third-grade pharmacist, and she knew how unrealistic Qin Chen's ideas were. She didn't expect Qin Chen to refuse to persuade him.

Well, you want to refine it, right? Then you refine it. When the time comes, all the medicinal materials are destroyed and nothing is refined. Don't call it there.

With anger in her heart, Xiao Ya quickly sorted all the materials.

"Don't worry, as long as you do what I say, you won't be blamed. But I will speak first. Later, you must strictly implement what I say, without any hesitation. Okay, let's start now. Refining."

"Pavilion Master Xiao Ya, you first turn on the fire gathering array and heat the three pill furnaces."

boom!

The formation was activated, and a thick flame quickly soared into the sky. Xiao Ya was worthy of being a third-rank alchemist. Under her control, the three flames were evenly dispersed to the bottom of the three pill furnaces, licking constantly. The pill furnace in front of you.

"Next, listen to my instructions."

"Master Xiao Ya Pavilion, you put the medicinal materials of Body Explosive Pill, Body Condensation Pill, and Body Building Pill into three pill furnaces, and then control the fire gathering array, closing forty-two, forty-five, and forty-seven respectively. These three formation patterns double the power of the fifty-six, fifty-eight and fifty-nine formation patterns at the same time..."

Chapter 135: Shocked Xiao Ya

Add all the materials at once?

The corner of Xiao Ya's mouth twitched, and she almost didn't spit out a mouthful of blood.

Will Qin Chen concoct medicine? Any pill must be added the same kind of medicinal materials to ensure the purity of the medicinal materials and the order of their fusion.

But now, Qin Chen actually asked her to put all the medicinal materials into the pill furnace together.

So many medicinal materials react instantly in the pill furnace, and the final result is often only one, that is, all medicinal materials are destroyed, and there is no other possibility.

Thinking of her previous promise, Xiao Ya felt unbelievable, but according to Qin Chen's instructions, she put all the medicinal materials into the pill furnace.

At this time, Qin Chen on the side suddenly moved.

call!

He swiftly moved around the formation, making seals with both hands, slapped on the formation, and saw the formation pattern on the fire gathering formation suddenly lit up with different light and dark rays.

In an instant, after the fire controlled by the formation penetrated the three core furnaces, the warmth of the three fires became completely different.

Three flames with completely different temperatures are burning three different pill furnaces.

Not only are the flame temperatures under the three pill furnaces different, but even with one flame, the temperature of each part is very different.

"This...what's going on?"

Xiao Ya, who was operating as Qin Chen ordered, her phoenix eyes froze in an instant, she looked at this scene in amazement, her lips opened, and she muttered: "How can the same formation create three completely different flames? Is it one? Even if there are some differences in the flames released, how can there be such a big gap, how is this possible?"

"Not only are the fire temperatures of the three pill furnaces different, but the flames under each pill furnace are constantly changing. Am I dazzled?"

Liu Guang was even more shocked, his eyes bulging, and he completely fell to the ground.

You know, the first step in any pill refining is to purify the medicinal materials, that is, to extract the medicinal properties of the medicinal materials using flames.

The characteristics of each medicinal material are different, and the temperature required for purification and smelting is also different.

What a pharmacist needs to do is to use his mental power to control the temperature of the flame, so that the pill furnace reaches the temperature he needs.

However, any refining formation is one.

Although through the stimulation formation, it is easier for the alchemist to control the degree of refining heat.

However, the formation method also has a very important characteristic, that is, it has a fixed pattern and it is difficult to separate different temperatures. Therefore, it is often necessary to test the fire control ability of the alchemist.

This is also the reason why Xiao Ya and Liu Guang were so shocked at the beginning of Qin Chen refining three kinds of pills together.

Because you want to smelt these three kinds of pills, the flames required are all different, but the same fire gathering array can't show so many flame types at the same time.

But everything Qin Chen showed now completely subverted Xiao Ya and their cognition.

For a while, their eyes were dull, and the movements of their hands also stopped.

"Pavilion Master Xiao Ya, what are you doing, don't hurry up and control the formation!"

A distraction, the fire gathering array immediately fluctuated, and the three flames under the pill furnace also produced violent fluctuations.

Hearing Qin Chen's anger, Xiao Ya recovered from the shock.

It was just after her mistake.

The medicinal materials put into the pill furnace suddenly became unstable, and the strong medicinal power continued to collide in the pill furnace and became riot. The entire pill furnace was not trembling enough, and seemed to explode at any time.

"not good!"

Xiao Ya was taken aback.

It's over, this time the refining failed.

Her heart sank suddenly, and a look of self-blame appeared in her eyes.

Once the medicinal properties have rioted, the entire refining has basically failed, and it is almost difficult to turn around.

After all, the medicinal materials in each pill furnace range from a dozen to dozens.

It would be okay if all kinds of medicinal materials were added, but before she had added all the medicinal materials at once. Once the medicinal effects were out of balance, so many medicinal materials would react with each other, and it would be almost impossible to turn around again.

"Little dust, sorry, I was careless..."

With a wry smile, Xiao Ya's heart was full of self-blame, and she spoke at the same time.

It's just that before she finished speaking, she heard Qin Chen yell furiously.

"Master Xiao Ya, who told you to stop refining, quickly control medicinal reaction!"

Qin Chen was almost crazy.

What's the matter with Xiao Ya, is it the pavilion master of Dan Pavilion?

There is a dignified third-rank pharmacist who always has problems during the refining process. Is her identity as a third-rank pharmacist deceived? !

"But if you continue to refine it, it's meaningless..."

"Who said it makes no sense?"

If it wasn't for the opponent's refining, Qin Chen couldn't wait to kick Xiao Ya away.

Regardless of what to say, Qin Chen's eyes were like electricity, and his hands suddenly became imprinted when he saw the situation. The mysterious mental powers flowed into the pill furnace like waves.

These mental power techniques were not high in intensity, they were only a first-order level, but as soon as they entered the pill furnace, a magical change occurred immediately.

Under the control and fusion of these mental powers, the elixir that was originally out of balance and about to collapse in the pill furnace has gradually stabilized, and once again entered a state of mutual reaction.

"how can that be?"

Xiao Ya's eyes widened suddenly, who wanted to say something more.

As for Liu Guang, his mouth was open and he could almost stuff an egg.

"What happened just now? Why did the reaction suddenly calm down? Is it my dizziness?"

Xiao Ya was going crazy.

The elixir enters a violent state, which means that the reaction in the pill furnace has developed beyond a collapsed state. If you want to re-enter the refining state, the difficulty is as high as heaven.

But how irritable is Sanpin's pill?

To put it bluntly, even a Profound Grade Alchemist of rank 4, when faced with such a violent state, it is very difficult to recover.

What's more, there were three furnaces of pills that were violent before.

But Qin Chen only used some mental power with only first-order strength to pull the refining that was about to collapse from the edge of the cliff, which completely subverted their cognition.

"These mental strength techniques are too clever. Although the strength is only one level, it is difficult for me to see the mystery clearly. What kind of techniques are these? It's incredible!"

Xiao Ya's body shook wildly and her chest was shaking.

Her eyes widened, she shot a horror, and the stormy sea rolled up in her heart.

"Qin Chen, what happened just now, how could this... and the flame..."

The doubts on her face were condensed, her brows furrowed, she was maddened if she didn't understand why.

Chapter 136

At this moment.

Xiao Ya felt as if there were thousands of ants scratching in her heart, which was extremely uncomfortable.

"Stop thinking about it, it's actually very simple..."

Seeing Xiao Ya's face in disbelief, and even losing her peace of continuing to refine the pill, Qin Chen immediately snorted.

Simple?

Xiao Ya and Liu Guang almost vomited a mouthful of old blood.

The two of them couldn't understand something, but you came to a very simple sentence!

Let people live?

Qin Chen ignored the thoughts in the two of them and explained: "The medicinal materials enter a violent state. It is an excessive reaction caused by the loss of balance in the process of fusion of various medicinal effects. Once this reaction occurs, it will immediately be controlled. It will cause a chain reaction, making the entire refining process out of control."

"In this case, what we need to do is not to use mental power to reverse the entire process, but to guide the situation and use the characteristics of various medicinal materials to return them to the route of integration. This is more than forcibly reversing the refining process. Much easier."

"Of course, in order to achieve this, two points are very important. First, the understanding of various medicinal properties must be extremely thorough, and second, the manipulation of mental power must be so subtle and complete. At this point, it is not difficult to reverse the violent state."

"As for the previous temperature control, it is even more simple. Any refining formation is composed of 108 basic formations, including 36 main formations and 72 auxiliary formations. These The basic formations merge with each other to form a complete refining formation. By manipulating 72 auxiliary formations, the flame temperature, size, and temperature of any part of the formation can be adjusted."

"Of course, in order to achieve this, you also need to have a very deep understanding of the Juhuo Array, as well as the subtle control of the formation method, neither of which is indispensable."

"After all, the seventy-two array patterns are combined with each other, and there are too many combinations, and the effects of different combinations will be completely different."

"Although one of you is a third-rank pharmacist and the other is a second-rank pharmacist, your mental strength is enough, but the manipulation of mental power and true qi is too rough, against the essence of the battle method and the process principle of pill refining, I haven't understood it thoroughly yet. Although it is already extremely good in the Great Qi State, it is not even a beginner's level when it is put outside."

"Okay, I have already explained what should be explained. Next, you will refine it carefully for me. If you have any questions, I will answer you when the refining is over."

After saying all this, Qin Chen no longer cares about the reaction of the two of them, and concentrates on the refining.

Although his current mental strength has reached the peak of Tier 1, what he is refining at this moment is after all three third-class pill, even with the help of Xiao Ya, he dare not be careless.

"So that's it?"

"There is no need to reverse the refining process, but take the lead and use the reaction between the effects of the medicine to resolve it. This..."

"A fire gathering formation can use the control of the formation pattern to make the flame temperature in the whole formation different, my god!"

"Is this the essence of a pharmacist?"

The pupils opened wide, and Xiao Ya and Liu Guang's faces were shocked and inconceivable.

As the high-level members of the Great Qi Kingdom Pill Pavilion, they thought they had achieved extremely high levels of refining medicine.

But after listening to Qin Chen's words at this moment, he suddenly realized that he was actually extremely small.

Qin Chen's theory is like a ray of light suddenly shot from the endless darkness, instantly illuminating their path on the way of refining medicine.

A brand new door slowly opened before their eyes.

Only then did they know how crude their previous refining was. Relying on strong mental power and forcibly participating in the response of medicinal materials, it is no wonder that the success rate is so low. Even if the refining is successful, the rate of fine products is not very high.

"A true pharmacist must rely on a thorough understanding of medicinal materials, and use subtle mental power to integrate into the refining process. Spiritual power is only a lubricant when various medicinal materials are fused, and is used to guide the reaction, rather than force interference. ."

"Moreover, when refining, every trace of mental power must be used on the blade. Any powerful alchemist must learn to use the least mental power and participate in the most reactions."

Qin Chen's faint voice came, and he explained and guided the two of them to operate, only to see that the various medicinal materials in the three pill furnaces seemed to be attracted to each other, and they were integrated, and there was no need for excessive control.

This is completely different from their previous refining.

If their previous refining was a war with a spirit medicine, then Qin Chen's refining at the moment was an exchange with a spirit medicine, a kind of art.

At this moment, Qin Chen just stood in front of Xiao Ya, like a huge giant, making her look up involuntarily, shocking her heart.

What is the origin of this son?

Why is his knowledge in refining medicine so terrible!

Xiao Ya had never heard of these theories even in the mouth of her former master.

As Qin Chen explained, sweat was gradually oozing out of his forehead, and his face was slightly pale.

After all, his spiritual power is only the first-order peak. With his current cultivation base, it is indeed very difficult to refine three furnaces and three-grade pills at the same time.

Fortunately, his understanding of medicinal properties has reached a level that is against the sky, and with the help of Xiao Ya and the others, the whole process can seem like a fish in water.

With continuous refining, the reaction in the pill furnace became more and more intense.

About half an hour later.

"Condensation!"

Qin Chen shouted, and a tyrannical mental force swept into the pill furnace.

boom!

The three pill furnaces above the fire made a roar at the same time, the furnace lid was opened, dozens of streams of different colors suddenly rose up from the pill furnace, and the strong fragrance and medicine instantly filled the entire refining room. .

Tricky!

A furnace of nine, a total of twenty-seven rounded elixir shining brightly in the air, bursting out with bright light, and then steadily falling into the pill plate on the side.

"Huhu..."

Xiao Ya panted heavily, her temples soaked in fragrant sweat, and she was panting.

Tired, too tired.

She had never been so tired after refining, but after breathing, her gaze fell on the pill plate in front of her for the first time, looking at the full and round pill, her eyes were full of excitement.

"Explosive Body Pill, Condensation Pill, and Body Building Pill, I actually succeeded in refining it?" Xiao Ya's eyes widened, staring at the pill in front of her with shock and disbelief.

Refining three third-class pill at one time, it was really successful, isn't you dreaming?

At this moment, Xiao Ya couldn't believe her eyes.

Chapter 137: Purification

"Three furnaces of different three-grade pills can be successfully refined at the same time, a miracle, this is simply a miracle!"

On the side, trembling all over, Liu Guang was so excited that he was going crazy.

This round of refining by Qin Chen caused an unprecedented shock to his heart. He never knew that a pharmacist could refine three furnaces of pill at the same time and successfully refined it.

That kind of strong shock instantly subverted his refining concept for decades.

He never thought that refining medicine could still be like this.

In the past few decades, I really lived on a dog.

At this moment.

Xiao Ya and Liu Guang had already exhausted their mental powers, but the whole people were extremely excited and didn't feel tired at all, as if they could refine them ten times or eight times.

"Just refining these garbage, you are embarrassed to call it? The purity is so low, it is no different from waste."

When he came to the pill pan, Qin Chen swept the pill in front of him, frowned and sighed slightly.

"No, isn't it pure purity."

Xiao Ya and Liu Guang's eyes jumped, a little disbelief, they hurriedly stepped forward and stared intently.

The previous refining, although there were some surprises in the middle, the whole was perfect, especially at the last moment when the pill was released, the Danxia was immersed, the radiance was bright, and the strong medicinal fragrance was scattered everywhere, how did it not look like a waste pill. .

Under the nervousness, the two of them stared at it, their eyes protruding from this look, and they took a long breath.

"Little dust, are you wrong? These twenty-odd pills are full and round, the fragrance is fresh and soft, and there are even pill patterns appearing. The medicinal properties are at least 80% fusion, and they are all first-class. "

These medicinal pills in front of me are clearly unprecedented high-quality medicinal pills. Where are the waste products? They almost frightened them to death.

"What about the first-class pill?"

Qin Chen shook his head with a look of dissatisfaction, "The highest degree of medicinal fusion of these pills is only 89%, and the lowest is only 80%. There is not even a special grade. I will sweep all the medicine into the trash can."

puff!

Xiao Ya and Liu Guang listened and vomited blood instantly.

Nima, as long as it is not a special-grade pill, it will be swept into the trash can. Are you kidding me?

This is a third-class pill, not a second-class pill, let alone a first-class pill.

What is the concept of a premium elixir? You know, some pharmacists, who refining medicine throughout their lives, may not be able to refining a furnace of special-grade pill. The difficulty is astonishing.

If you were a fourth-rank Xuan-level pharmacist, it would be perfect if he could refine the superior.

You are a first-grade pharmacist, and you can refining three furnaces of first-class one at a time, and it's not too bad.

The two were almost crazy.

I really want to say that, what is the pill they refined before? Is it **** in rubbish?

"Forget it, you won't have this material and time for another refining. Besides, it won't be better than this refining. It's better to just refine it."

After watching these pills for a long time, Qin Chen was still a little dissatisfied, patted the table with his right hand, swish, and more than twenty pills flew up into the sky in an instant.

Squeezing his hand, Qin Chen urged the fire-gathering formation, bursting flames into the air, billowing and burning the more than twenty pills.

"Purification... purification... isn't it that only medicinal materials can be purified? Now that the pill is formed, can it be purified?"

Suddenly, Xiao Ya and Liu Guang were dumbfounded, their brains almost crashed, and they watched Qin Chen squeeze the hand tactics dumbly, and their mental energy merged into the fire and participated in the reaction.

"This technique...this is..."

Xiao Ya was shocked suddenly, and saw that every handprint of Qin Chen was not very complicated, but it gave people a sense of simplicity, but they couldn't see clearly.

The feeling that she wanted to catch but couldn't catch it made her feel uncomfortable, just staring at Qin Chen.

Whoosh!

After a while, Qin Chen suddenly stopped the fire, and more than 20 pills of medicine fell into the pill plate one after another. As they whirled, a richer fragrance diffused in the refining room.

"Dan... Dan Wen... the medicinal fusion degree has really improved."

Suddenly heard the sound of air-conditioning.

Xiao Ya and Liu Guang looked at the pill in front of them in amazement. They saw some pill patterns that had no pill pattern before, and now all pill patterns appeared on the surface. Although it was not particularly obvious, it was a big difference compared to before. The difference between places.

How did he do it?

Xiao Ya and Liu Guang were completely shocked. Just using the flames to burn them can increase the original 80% of the medicinal fusion to more than 90%. Once it spreads out, the entire Northwest The world of pharmacists in the five countries will suffer from earthquakes.

In the unclear rules of the pharmacist world, the pill can only be purified in the fusion stage. Once the refining is completed, it has been completely formed and it is impossible to purify it at all.

How did Qin Chen do it?

"With my current mental strength, I can only refine it to this point. Although there is still a gap with the special-grade pill, it is better than just now, so carefree."

Too lazy to pay attention to Xiao Ya and Liu Guang, Qin Chen shook his head and sighed, as if he was still a little dissatisfied with the purity of the medicine in front of him.

"Puff!"

When Xiao Ya and Liu Guang heard this, they fell directly and were completely unable to complain.

"Pavilion Master Xiao Ya, lend me a training room."

Now that the pill has been refined, Qin Chen also wanted to try the effect, and he was going to try it directly in the pill pavilion.

"Liu Guang, take Shao Chen to my private practice room."

Xiao Ya looked at Qin Chen at this time, she hadn't been casual at first, and there was a hint of respect in her eyes.

The three soon came to Xiao Ya's training room.

"Less dust, this is my training room. Just use it, don't worry about anyone disturbing you."

There was everything in Xiao Ya's training room, Qin Chen thanked him and walked in.

Boom!

The door to the training room was closed tightly.

"let's start."

Looking at the pill in his hand, Qin Chen sat cross-legged, picked up a body exploding pill, swallowed it in one mouthful...

But when Qin Chen started practicing in the Pill Pavilion, there was already an uproar in front of the King's Life and Death Stage.

In order to witness the confrontation between Shuangqin and Qin, many warriors gathered here early in the morning.

But Qin Chen never appeared.

At the beginning, everyone was patient, talking and laughing while waiting.

But as time passed, Qin Chen didn't even show any signs. Gradually, everyone became irritable.

"What is going on with Qin Chen? It's almost noon now, and it hasn't appeared yet?"

"He won't stop coming?"

"It is unlikely that Qin Feng is so provocative with him. As long as it is a man, it is impossible not to show up."

"Yes, even if you don't agree to the challenge, you can't pay no attention."

People said, affirming the thoughts in their hearts.

Chapter 138

On the ring, Qin Feng's face was calm, and he was there calmly cross-legged, not in the least surprised by the opinions of everyone in the world.

In fact, he and everyone else have the same idea.

If he provoked Qin Chen so much, if Qin Chen was really a man, he wouldn't be able to ignore it. No matter what, he would come to the scene to take a look.

By then, I only need to provoke a few words, and I will be confident enough to make Qin Chen furious.
by that time.....

"Humph!"

A sneer was drawn at the corner of Qin Feng's mouth, and a cold glow appeared in his eyes.

With this mentality, Qin Feng waited patiently.

The sun is scorching.

The sun scorches the earth.

In the blink of an eye, Qin Chen still did not appear.

"Qin Chen won't stop coming, right?"

"Send someone to Qin Chen's house to have a look."

"It's not a solution for us to wait like this."

Someone gradually couldn't help but said loudly.

If you wait like this, when will you have to wait?

Even Qin Feng couldn't sit still gradually.

Others still have chairs to sit on in the stands, and there is a place to shade them. He sits on the arena like this, with nothing around him, and being directly exposed by the hot sun, so tired, okay?

"Send a few people to take a look. If you wait like this, when will you have to wait."

Wei Zhen and the others were sitting in the corner, their mouths bubbled, and they were anxious.

Soon, many warriors left the stage of life and death and went to the West City.

Since the night attack by Qin Yong, Qin Chen's residence has long been exposed.

A group of warriors came to the outside of Qin Chen's residence.

"Whoever dares to trespass here, return to me."

Before they shouted the door outside, a sudden anger sounded, and then a group of heavily armed city guards rushed out from all around and stopped everyone outside the mansion.

The leader is Zuo Li.

"It turned out to be Zuo Li in command."

Someone knew Zuo Li and immediately walked out of the crowd, clasped his hands and smiled: "Leader Zuo Li doesn't need to be nervous, we just came here to see Qin Chen. There is no other meaning."

This person is also a family disciple of the royal capital. He has met Zuo Li several times and thinks he is very familiar.

"I don't care what you mean, please step back. This place is a private house. No one is allowed to approach without permission!"

With a drawing of his sword, Zuo Li pointed the knife at the opponent, shouting coldly, with cold light in his eyes.

The person didn't expect Zuo Li to be so disrespectful. In fright, his footsteps choked backwards, and he almost fell to the ground without a butt, suddenly becoming angry.

"Zuo Li, what do you mean?"

This person had an ugly face and prided himself on his extraordinary status. Unexpectedly, Zuo Li didn't give any face, which made him lose such a big face in front of everyone.

"Zuo Li, you are a good deputy commander of the city guard, but we have not violated the law. It seems inappropriate for you to do this?"

A young man snorted coldly.

He is also a child of a big family in the royal capital, with a prominent status, and in the past he was able to sit on an equal footing with ordinary Xiaohouye, which was extraordinary.

"I don't care if you are appropriate. If you don't believe me, you can come and try."

Cang!

The sword drew a line on the ground.

"Whoever dares to cross this line, Lao Tzu can take it all no matter who he is." Zuo Li sneered.

"Dare you Zuo Li."

"It's just a small deputy commander of the Xicheng City Guards. It's lawless to return."

"There are so many of us, did you catch it?"

"I don't believe it, this Zuo Li has the courage to do something with us?"

The people were furious, and the two of them stepped forward, even more sneered, and took a step forward with a look of disdain.

They are all the kings who have a face and a face, and a deputy commander of the West City Guards is standing on the left, but a small official in the royal capital dares to attack so many of them?

"You are looking for death by yourself."

Seeing someone ignoring his own rules, Zuo Li let out a sudden shout, and jumped up, with a huge palm, directly grabbing the leader.

Qiang Qiang!

The city guards at the rear also drew their swords and formed a circle.

"This Zuo Li, really doesn't cry without seeing the coffin."

Seeing Zuo Li grabbing them with big hands, the two young men couldn't help but snorted and banged, their bodies exploded, two terrible vigor swept through them, their hands folded into palms, and they patted at the same time.

Roar!

The strong energy turned into a dragon and tiger in the void, surrounded and stood to the left, making people change their color.

The two of them, their cultivation bases are all at the prefecture level, have been accustomed to rampage, and their strength is amazing when they join hands.

They all knew Zuo Li's cultivation base. The two of them could already imagine the scene of Zuo Li returning without success under their palm.

However, the next moment, when Zuo Li's attack arrived, their faces suddenly changed.

A force that was so powerful that the two of them could hardly imagine, struck violently and instantly shattered their true energy.

"how?"

In shock, the two hurriedly wanted to retreat, but it was too late.

Boom!

The two flew out at the same time, spouting a mouthful of blood, and fell heavily to the ground, the true qi in the body was agitated and the meridians were broken.

"what?"

This shocking scene stunned other people at the same time.

Both Chen Feng and Qu Zhao Xiu were in the middle of the prefecture level. Under their joint efforts, their power nearly doubled, and they were actually repelled by Zuo Li within one move. How could this be possible?

"Dare to offend the city guards and take it for me."

With a loud shout, Zuo Li stepped forward and grabbed Chen Fenghe Qu Zhao, who was frightened.

"Leader Zuo, give Laogu a face, how about letting them go?"

An old man gave a low cry, walked out of the crowd, and stood to the left.

His true energy was agitated, and his vigorous true energy swept through him. He was actually a strong man at the pinnacle of the later stage of the earth, and his cultivation was not even under Qin Yong.

"What kind of thing are you worthy of me to give face?"

Zuo Li sneered, secretly angry in his heart, how he didn't know the purpose of this group of people, it must be for the sake of less dust, dare to calculate the dust, the king of heaven and Lao Tzu would not give the face.

boom!

The zhenqi in his body was urged to the extreme, and Zuo Li patted it with a palm. The old man's originally calm face suddenly changed, and a strong and extreme qi suddenly poured into his body, and the whole person flew upside down in an instant. Spit a mouthful of blood.

"Heaven... Heavenly..."

The old man was horrified and cried out.

"what?"

"Heavenly level?"

"Doesn't this Zuo Li mean that he was pregnant with a dark illness and could not break through for a lifetime? Why..."

Everyone was stunned, one by one looked to the left in amazement.

It seems that there is only a slight difference between the heaven and the earth, but in fact it is a world of difference.

In Daqi King's capital.

The warriors at the prefecture level can only be regarded as masters.

But the heavenly rank, but it can be called a strong one.

The reason why Zuo Li was not seen by anyone before was only because he had broken through to the peak of the late pre-level stage many years ago, and then never broke through.

Rumor has it that he is suffering from a dark illness and can no longer break through.

Even as time goes by, the cultivation base will continue to regress.

Because of this, he was transferred to Xicheng as a deputy commander.

But now, Zuo Li actually broke through.

A heavenly powerhouse in his thirties...

At this moment, everyone took a breath of air, shocked in their hearts.

Chapter 139 Qin Feng who vomits blood

"Old Hu, are you sure you read it right? Commander Zuo Li really broke through the heavens?"

In the crowd, I don't know who it is, and he said softly. Until now, many people are quite unbelievable.

The old man's face was solemn, and he said in a deep voice: "It's more than just breaking through the sky level. If it is not for the old man, the current cultivation base of Zuo Li has reached the peak of the initial stage of the sky. I am afraid it is only one step away from the middle of the sky level. ."

"hiss!"

The words of Mr. Hu evoked bursts of air-conditioning.

Everyone's eyes were about to burst, and everyone felt like a stormy sea rolled up in their hearts.

Zuo Li's breakthrough into the heavenly rank was already surprising enough, but he did not expect that he was still at the peak of the early days of the heavenly rank.

What is this concept?

Heavenly powerhouses in their thirties are very rare in themselves, and belong to the most elite level in the Great Qi State.

But the 30-something-year-old peak powerhouse in the early days of the heavenly ranks is even more terrifying. After searching the entire Daqi king, I am afraid that there are not a few.

Such a strong person may not be considered the top person now, but the future prospects are bound to be limitless.

"Leader Zuo Li, we didn't intend to offend before, so please lead Zuo Li to calm down."

"Yeah, I just offended Commander Zuo Li, and I also ask Mr. Zuo Li to lead a lot, don't take it to heart."

"Leader Zuo Li, I am the third elder of the Li family. I have not done anything before. My Li family has always abided by the law and discipline. How can I violate the law enforcement of the city guard? This is a serious crime."

The people who had been ridiculing Zuo Li before, couldn't calm down one by one at this time, and explained hurriedly in fear.

There are even people with not particularly deep backgrounds, almost kneeling in fright, almost crying.

Do you want this...

We just came here to beat soy sauce, and we actually offended a promising celestial powerhouse.

The heart that was almost smashed to death is gone.

"Leading Zuo Li, misunderstanding, everything is a misunderstanding."

Chen Feng and Qu Zhao were no longer arrogant at first, vomiting blood, lying on the ground, and said to Zuo Li in fear.

A land-level powerhouse with no future, their family may not care at all, but a heaven-level powerhouse with a promising future, their family will never offend them for their sake. I'm afraid they know what's happening here, and they can't wait to break their legs directly. .

"get out."

Seeing the two men begging for mercy in fear, Zuo Li frowned in disgust and scolded.

Taking such a person back would only pollute the dungeon of the city guard.

"Yes, yes, let's get out, get out now."

The two crawled around and hid in the crowd.

You Zuo Li is here to guard. They want to break in and find Qin Chen. It is simply an impossible task.

And no one has the courage and courage to do so.

"The purpose of your coming, I know very well, it is for Qin Feng's challenge. If it is because of this, you can leave. Shao Chen is not at the mansion today, and has already left early in the morning."

Seeing the hesitation of these people, Zuo Li didn't bother to talk nonsense with these people anymore and turned away with his subordinates.

"Leave... left..."

Everyone was stunned.

Soon, the news was like a gust of wind, and it reached the stage of life and death in an instant.

Everyone, including Qin Feng, almost vomited blood, all dumbfounded, almost crazy.

Nima, what's this kidding?

This group of people waited foolishly from morning to afternoon in the life and death stage, just wanting to watch a wonderful life and death battle.

He even sent people to Qin Chen's home to try to lead Qin Chen out.

Who knew Qin Chen was not at home at all, he had already left early in the morning, and he didn't know where he went.

If they dare to wait for so long for nothing, Qin Chen didn't even plan to come over and agree to the challenge.

The crowd was in an uproar and almost exploded.

This is too deceptive.

Faced with this situation, who is willing to wait.

I'm afraid Qin Chen won't come over at night.

In almost an instant, a large group of people left.

The remaining people also left one after another.

Only Qin Feng and a few people who were extremely hostile to Qin Chen remained here.

"Shao Feng, Qin Chen doesn't dare to come over, and it doesn't make sense to continue to stay. Should we also leave..." Some people hesitated.

"Continue to wait." Qin Feng was itchy with bitterness, his fists clenched, and his eyes were cold: "Even if I wait to the end, I have to wait. You spread the news to me that Qin Chen is a fool and afraid of me. , He didn't even dare to challenge, and he didn't deserve to enter the blood spirit pool."

"Yes!"

A group of Qin Feng's men quickly left.

Only Qin Feng was still sitting on the stage of life and death, burned by the scorching sun, with an angry expression on his face.

After a while.

The news that Qin Chen did not dare to fight quickly spread in the royal capital.

Qin Feng had already prepared, almost instantaneously, rumors flowed out from all the streets and alleys of the Royal Capital.

"Uh, this Qin Feng is still on the stage of life and death."

Even Xiao Ya and Liu Guang in the Dan Pavilion heard this rumor.

The two of them looked weird when they thought of Qin Chen practicing in their own training room.

"Pavilion Master, should we inform Shao Chen of this news?" Liu Guang hesitated.

"No, Young Chen didn't take this matter to heart at all. Then Qin Feng has to wait, so let him continue to wait."

Xiao Ya touched her chin and looked at the practice room where Qin Chen was in, showing a weird look:
"Really an interesting person."

Just as Xiao Ya expected, Qin Chen at this moment, where has the time to manage Qin Feng's challenge.

As soon as the body exploding pill entered his abdomen, a terrifying medicinal effect immediately exploded in his body, causing him to let out a painful grunt.

An unprecedented flow of heat, like scorching magma, quickly spread throughout his internal organs.

"Humph!"

With a painful grunt, Qin Chen's face was distorted, big beads of sweat appeared on his forehead, and his whole body convulsed involuntarily.

The third-rank explosive body pill is generally taken by the sky-level powerhouse at the moment of life and death. It can improve the cultivation base of the sky-level warrior in a short period of time, but its side effects are also terrible, and it can even cause the bloodline of the sky-level powerhouse to burst.

What kind of effect would such a violent medicinal effect have on Qin Chen, a warrior who was only the pinnacle of the human level?

In his body, burning like a flame, intense pain, passed, Qin Chen's whole body skin instantly turned into a crimson color, traces of blood oozing from the pores, almost instant effort, it has been transformed into A blood man.

Ordinary warriors could not bear this kind of pain, but Qin Chen gritted his teeth and persisted, let out a roar, and tried to refine the power of the Nine Star God Emperor.

But he had just run infuriating, a pain that was so intense that he couldn't bear it, and it instantly rushed into his mind.

Puff!

Qin Chen couldn't stand it anymore, and a mouthful of blood came out outrageously.

Chapter 140

"what!"

There was a scream in his mouth at the same time.

Pain, too painful, Qin Chen had never felt it before, and taking the body bursting pills turned out to be such a painful thing.

The hot medicinal power is like a steel needle with a handle, churning wildly in every corner of his body, constantly penetrating his meridians, over and over again.

The intense pain caused Qin Chen's whole body to convulse involuntarily.

What made Qin Chen even more shocked was that the medicinal power released by this explosive body pill was really terrifying. In just a moment, his meridians felt a sense of incomparable fullness. Gradually, this fullness became fullness. The pain seemed to burst his meridians.

Qin Chen's eyes were wide open, there were bloodshot eyes, bleeding from his gums, and he insisted.

Then, he quickly took out a condensing pill and threw it into his mouth like lightning.

The rounded pill entered into the abdomen, and a strong medicinal power instantly diffused in Qin Chen's body. The effect of the condensing pill spread rapidly, and Qin Chen's physical strength was greatly increased wherever he passed.

The third grade body condensing pill is a kind of pill that can double the physical strength of the strong sky in a short time.

But after acting on Qin Chen, a human-level pinnacle warrior, the efficacy of the medicine was even more terrifying.

The strength of Qin Chen's physical body skyrocketed, and the pain caused by the original body explosion pill quickly weakened.

Feeling the change in his body, Qin Chen took out the body building pill again and swallowed it quickly.

The third grade body building pill can improve the toughness of the martial artist's body and meridians.

Under the dual effects of the body-building pill and the body-condensing pill, the side effects of the body-explosive pill were drastically reduced, and Qin Chen's physical strength began to slowly increase in the process of destruction and reorganization.

Before the effect of the first body exploding pill completely disappeared, Qin Chen quickly took out the second body exploding pill and took it on.

boom!

The effects of the two body explosive pills immediately superimposed, and the previously suppressed medicinal effects skyrocketed wildly. The meridians and flesh and blood that had just been healed in Qin Chen's body were torn once again, and severe pain came.

And when he couldn't hold on, Qin Chen would take new body condensing pills and body building pills.

In this way, Qin Chen continued to take these three kinds of pills, using the properties of the three pills to practice.

Every pore on his body oozes blood, and in a moment, he becomes a blood man. No matter the meridians and internal organs, there is no one intact place in his whole body.

If anyone saw Qin Chen's cultivation at this moment, he would definitely be shocked.

Can people really bear this kind of pain?

Even an earth-level pinnacle powerhouse couldn't stand it, but Qin Chen was just a teenager.

The blink of an eye.

Qin Chen took five body exploding pills, body condensing pills and body building pills.

With fifteen pills entering his abdomen, Qin Chen's meridians were about to explode. The terrifying power of the medicine held him up like a balloon, which would explode at any time, and it was impossible to suppress it.

"not good!"

Qin Chen was shocked. He knew that this was the medicinal effect contained in the Body-Explosive Pill. It was already beyond the limit that a peak warrior of the human level could bear. Once his body couldn't bear it, it would inevitably explode. Die, there is no other suspense.

"It's because I was too reckless, so I will temporarily postpone taking the pills."

After Qin Chen was slightly shocked, he immediately slowed down, endured the pain from all over his body, ran the Nine Stars Divine Emperor Art madly, resolved the effects of the medicine, and at the same time practiced a powerful body-refining technique from the previous life-immortality Eucharist!

His eyes were extremely dignified, knowing that if he didn't dissolve and absorb the effects of the explosive pill in time, he would explode and die in a stick of incense.

And as soon as the Unstoppable Holy Physique turned, the pain in Qin Chen's body was even more intense. He was sweating profusely, his face was twisted, his muscles were constantly spasm, the sweat oozing out of his skin was red, and his body was steaming hot. , Completely became a blood man.

Why is this sweating? It is clearly bleeding!

But his gaze was extremely firm, and instead cast a crazy look.

"Haha, cool, cool, this is body training, this is cultivation."

He roared hoarsely while running the Indestructible Eucharist madly, and the pain on his face gradually turned into a kind of invigoration and a kind of conquest.

What is suffering, for the sake of family, for friends, and for returning to the pinnacle of this continent, could it be that Qin Chen can't even bear this bit of suffering?

I think back then, he rose from a humble generation in Wuyu all the way, and has gone through many difficulties, yet he has not become the most dazzling person in the mainland.

In this life, can this bit of pain bring him down?

With the spread of the medicine, the pain in Qin Chen's body became more and more intense, and even a feeling of pain and fainting, if it was an ordinary person, he would even want to hit the wall and directly kill him.

However, Qin Chen's originally distorted face became calmer, full of determination and pride.

Want to be a real strong, what is this pain?

"Shangguan Xi'er, Feng Shaoyu, you are waiting, my Qin Chen's previous life fell into hell, and in this life I will walk out of **** in blood and get back everything I used to."

Qin Chen roared!

At this time, he let go instead.

Swallow the last twelve pills all at once into the abdomen.

boom!

The strong medicinal effect erupted, and Qin Chen almost passed out, making a crackling sound in his body.

"Hahaha, cool, cool!"

Qin Chen laughed up to the sky, vomiting black blood in his mouth, and his skin cracked.

A large amount of congestion was discharged from the body, and inside the congestion, there were even traces of sticky, fishy black impurities discharged.

At this moment, Qin Chen's physical body was rapidly improving, and various tissues and cells were rapidly reorganizing, as if reborn and reborn.

In the beginning, only flesh and skin were transformed.

But gradually, the internal organs have been transformed.

Later, even the bones and bone marrow were constantly undergoing astonishing changes under the infiltration of the three medicinal herbs.

Time passed bit by bit.

I don't know how long it took, Qin Chen's body suddenly heard a series of blasts of bones, making a sound like fried soybeans.

The sound continued to increase, and at the end, it resembled tiger and leopard thunder, echoing in Qin Chen's body, and then gradually weakened, a layer of black dirt leaked from Qin Chen's body surface, emitting a sound Fishy.

This dirt is constantly being discharged. At the end, the discharge is a trace of blood. These blood, at first dark red, obviously contain a lot of impurities, but in the end, it turns into an almost transparent bright red color.

Then the pores shrank for a while, and the entire drainage process was completely over.

"Finally the body refining is successful, the immortal body, breakthrough the first level!"

Qin Chen opened his eyes, a hint of surprise flashed in his eyes.

At this moment, he felt that his whole body was full of power, and there was an urge to move mountains and seas.

When he was pleasantly surprised...

Abruptly--

Qin Chen's sea of qi suddenly swelled, and the real qi in the training room quickly spun, turned into a whirlpool, and rushed into his body.

"This is... a breakthrough in human level!"

Qin Chen was stunned.

He didn't expect that the cultivation base he had always wanted to suppress would break through without warning at this time.
