[Chapter 1331: Tong Yuan Zhu](#)

"I didn't put the Wanbaolou black card on me." Qin Chen said lightly.

"Without the black card token, you dare to claim to be a black card VIP?" Kang Sitong sneered, his heart relaxed.

Just kidding, ordinary people like the Wanbaolou black card would naturally be stored in the body, but Qin Chen didn't have it, which further confirmed Kong Sitong's guess.

The other party is just a guy who heard the black card exist and scammed here.

"Old Li, take these two people, I want to see what the origins of these two people come from." Kang Sitong snorted coldly.

If Qin Chen was just making trouble, it would be fine, but he dared to pretend to be a VIP of Wanbaolou's black card. This problem is so serious that it is even higher than the trouble in Wanbaolou. "Wait." Seeing that the old man was about to do it, Qin Chen suddenly sneered, "I didn't carry a black card with me, but any black card VIP has a record in Wanbaolou headquarters. It is absolutely impossible to fake it. You should have the Tong Yuan Zhu bestowed by Wan Bao Lou, just activate Tong Yuan Zhu, one

Try to know. "

Kong Sitong's face changed drastically, and he suddenly raised his head, his eyes gradually tightening.

When Qin Chen spoke of the VIPs of the Black Card, Wei Wei was a little shocked, because even in the Martial Domain, there were not many people who knew that there were VIPs of the Black Card, and it was even more impossible in these four domains.

But it was just shocking. This time Qin Chen mentioned the "Tong Yuanzhu" secret artifact, which really shocked him.

Tongyuan Pearl is a secret refining device secretly refined by Wanbaolou and Qidian to check soul breath. Through various complicated methods, it stores a lot of information in it, and it can also store anyone's soul breath. One correspondence.

Its structure is complex, no one knows, but as long as anyone inputs a certain soul breath, he can open the hidden information and get a certain result. This technique is too bad for the sky, but the flaws are also very huge. Any primordial pearl secret weapon requires a ninth-order refiner to spend a lot of energy in the development. Although it was simplified a lot later, it also needs an eighth-order. The pinnacle refiner can refine it for seven to seven forty-nine days before refining

A simplified version of Tong Yuan Zhu was released, so its price is extremely expensive.

In addition, there are restrictions on the use of each primordial pearl secret device. Once the soul breath is input too many times, it will cause confusion in the formation and make the secret device invalid.

This has also led to the fact that only the top guests of Wanbao Lou can be qualified to inquire information through Tongyuanzhu, and for this so-called top guest, the lowest level is the gold card guest. The black card guest that Qin Chen said can naturally also Find your own confidence in it.

However, because of the rarity of the Tongyuan Pearl Secret Artifact, even in the Wanbao Building, only some elders can equip it to inquire about the information of various VIPs.

And because he was the owner of the Wanbaolou in Zhongzhou City, the closest Wuyu in the East Continent, in order to make things easier, before he came down to take up his post, Wanbaolou also gave him a secret weapon of Yuanzhu, which can inquire about some VIP information. However, the key point is that the Tongyuan Pearl Secret Tool is too important to query the information of many VIPs in Wanbao Building. Therefore, it is top secret in Wanbao Building. Elders who are not at the rank of Emperor Wudi will not know it at all. He also occupied the next four. Only the light closest to the host of Wuyu Wanbao Building can be equipped

Prepared.

But how did Qin Chen, a teenager, know?

Even if he accidentally heard the news about the VIP Black Card, Tong Yuanzhu, who is not the core figure of Wanbaolou, would never know.

At this time, his expression became a little serious, and he immediately transmitted his voice to secretly said: "Who are you? How can you know the secret artifact of the 'Tong Yuan Zhu'?"

Qin Chen smiled slightly, and the same voice transmission said: "I have said that I am your black card VIP in Wanbaolou, do you know that the Tongyuan Pearl Secret Artifact is not normal? If you are in doubt, just secret the Tongyuan Pearl Bring the device, can I just input my breath and check it?"

Kang Sitong looked on one side, thinking about Qin Chen's words in his heart, and began to feel uncertain?

Could it be that the other party's purpose is to **** the Secret Artifact of Tong Yuan Zhu? After all, any Tongyuan Pearl contains information about countless VIPs in Wanbaolou, which is very precious.

But immediately, Kang Sitong shook his head again, because even if Qin Chen snatched the Tong Yuanzhu, without the special techniques and secrets of Wanbao Lou, he would not be able to activate the Tong Yuanzhu and query the many information in it, and this technique and secret Even he didn't know the technique, let alone outsiders.

Or, in other words, Qin Chen is really his VIP guest of Wanbaolou's black card?

As soon as this idea came out, Kong Sitong took a breath. If it was true, the problem would be even more serious. Qin Chen was so young that he could obtain their Wanbaolou black card, so who was he?

The son of the top power in the mainland?

But even the Son of God is generally just a gold card VIP, and there is no mention of the qualifications for a black card VIP?

At this time, Kong Si Tong suddenly fell into hesitation, and the people around him didn't know his appearance. Only seeing that both of them moved their lips slightly, it made Kong Si Tong's face serious. The face of the old man Da Bei was uncertain. He was very curious to know what Qin Chen was talking about. He actually calmed down Kang Sitong, who was still very angry before, and showed such an expression. He couldn't help but glance at Qin Chen as he followed. Qin Chen's time is not long, but no matter what he encounters

What a problem, at any time, this person seems to have the ability to change everything. Seeing his hesitation, Qin Chen burst into laughter suddenly, and said coldly, "We are here. Are you afraid that we won't be able to steal your Tong Yuan Pearl? It's just to use Tong Yuan Pearl to verify my blackness. The identity of the card VIP is only, or to say that my black card VIP you know is true,

Deliberately reluctant to take it out? "

Qin Chen sneered at the corner of his mouth.

Kang Sitong's expression was uncertain, and he made a slight determination. As soon as he raised his hand, a transparent ball appeared in his hand. The ball was held in his hand, and it emitted a misty light, very gorgeous and beautiful.

Kong Sitong cautiously held the ball in one hand, and began to pinch the technique with the other hand. Suddenly, dazzling array rays appeared on the ball, and rays of light drifted out from it.

call!

In the end, the orb emitted a colorful glow and calmed down in front of Kang Sitong.

"please."

Kang Sitong looked at Qin Chen intently, feeling a little nervous and uneasy.

Even he didn't know what he was worried and uneasy about.

Qin Chen stepped forward and calmly came to Kang Sitong, touching the colorful Tong Yuan beads with his right hand slightly. Don't look at Qin Chen's expression very calm, in fact, he was extremely nervous inside, and he was not sure about it.

[Chapter 1332: Really black card](#)

In his previous life, he was indeed a VIP guest of Wanbaolou's black card. There is no doubt about it, but Shangguan Xi'er and Feng Shaoyu also knew about his black card account. Therefore, after his death that year, he was probably taken by Shangguan Xi'er. Wanbaolou is his own.

If he activates now, Wanbaolou will definitely be alarmed, and the current status of Guan Xier and Feng Shaoyu, I am afraid that someone will soon know that someone has activated his black card account, which Qin Chen does not want to see .

So what he is about to activate now is actually another black card account.

Back then, he was in retreat, but because his status was too noble, he also had some friends in the Martial Domain. Naturally, there was also an enshrined elder in the Wanbao Building, just like Ji Family Ji

Wuxue, and his relationship was irreversible. At that time, the other party secretly opened another black card account for him, because everything of Qin Chen in the previous life was handed over to Shangguan Xi'er, and the other party told Qin Chen teasingly that this was where he hid his private money. The activation method of the black card account is different. This private account requires

Special technique.

Qin Chen just laughed it off at the time, he naturally wouldn't hide any private money, so he didn't take it to heart, and naturally he didn't tell Shangguan Xi'er.

And now, what Qin Chen was about to activate was this private black card account.

No one knew about this account except his friend back then, and his friend also said that this account was very safe, no matter what Qin Chen did, even if he opened the account, it was difficult to find it.

Gently stroking the upper Tong Yuanzhu with his right hand, Qin Chen immediately poured in an invisible soul power, and at the same time, using his soul power, secretly used a special technique to gradually open this special account.

Hum!

On the Tongyuan Pearl, the radiance was instantly bright, analyzing the information sent by Qin Chen.

Tong Yuanzhu, remembers the power of the soul of the warrior. After Qin Chen is reborn, although his body has changed, the power of the soul is still the same as that of the previous life. Although the two souls of the past and the present are merged, he wants to simulate the power of the soul of the previous life. , Still very easy.

He infiltrated a trace of the power of the soul into the Tongyuan Bead, and added the special symbols of the year. Suddenly, black light flickered in the bright Tongyuan Bead, and countless black streamers gathered together and condensed into the transparent bead. A black card.

This card is simple in shape and very complicated. The lines on it are twinkling. In the center, there is a number, but the number is dim at the moment, unable to detect it. Every black card in Wanbaolou has a serial number, which represents a person. Because those who can have a black card on Wanbaolou are all the most distinguished guests of Wanbaolou, their identities are naturally kept secret, as Kang Sitong's Zhongzhou City The identity of the owner of Wanbaolou, the level of Tongyuanzhu he owns and

It is not high, so it can only verify the identity of Qin Chen's black card, but cannot find out the number of Qin Chen's black card.

This is also to protect the identity information of Wanbaolou VIPs. Those who can actually access it unless they are the core elders of the Wanbaolou Martial Domain Headquarters, but they are all powerful martial arts giants, and others are not qualified at all.

"Really...really...black card!"

Gudong!

After swallowing with a sip, Kong Sitong's face suddenly became pale, his legs were soft and some were difficult to maintain, and he felt that he was sweating all over and almost fell to the ground. This is the

second time he has seen a black card VIP in his lifetime. The last time was 30 years ago when he was still working as a buddy in a Wanbao building branch in Wuyu. As a result, a strong man came and showed his black card directly. The owner of Wanbao Lou came out to greet him, respectfully, and introduced him

Guest room.

The black card and the complicated pattern are exactly the same as those shown in the Tong Yuanzhu Zhongzhan. He will never read it wrong, and Tong Yuanzhu will not be wrong.

"This lord, come to my Wanbao Building. Kang has missed a long way to welcome him. Please forgive me."

Kang Sitong's face changed instantly, and the whole person took the first two steps, saluting Qin Chen respectfully, and making a deep bow.

This sudden scene changed the color of everyone on the court, especially Hu Guanshi and Li Gongfeng, their expressions became extremely exciting.

"My Lord..." They muttered dry, with an incredible look on their faces.

"To shut up!"

Snapped!

Kang Sitong yelled, and slapped his backhand on Guanshi Hu's face. He was still awe-inspiring and yelled at Guanshi, but he was flew out like a dead dog. He was in mid-air, but his brain was stunned and he opened his mouth. With blood, his face is swollen like a steamed bun.

"Hu Fei, you are so courageous. Such a distinguished guest came to my Wanbao Lou. You didn't know how to inform the old man. Instead, you are neglecting the guests here and dare to fight the guests. Are you going to die?"

Kong Sitong yelled, shaking all over, he was afraid.

Each of the Wanbaolou black card VIPs is extremely honorable, even if they arrive at the Wanbaolou headquarters, they need at least the core elders to welcome them and respectfully.

Regardless of his majestic presence in this East Continent, he is the so-called Wanbao Building sub-building owner, but once Qin Chen appeals to the Wuyu Wanbao Building headquarters, his sub-building owner will be beaten in minutes and sent to Wanbao Building prison. , Life and death are unpredictable.

Wanbaolou, to do all the business in the world, the most important thing is a service. The dignified black card VIPs encountered injustice in Wanbaolou. It may be a major event in general. If it is found out that it is the fault of Kang Sitong, Wanbaolou headquarters Senior officials will come to apologize.

How much money did he spend in order to win the position of this sub-loud owner? But in the past few years in this Zhongzhou City, he has already earned it back, but if Qin Chen complains, let alone vomit all the food in these years, his life will be threatened.

He also worked in this Wanbaolou for quite a long time. After a while, he will appreciate and be transferred back to the Martial Domain. If it is a trivial matter, how can he not be wronged?

His eyes were cold, he made up his mind, and said to Qin Chen: "This distinguished guest, it was my Wanbao Lou who was negligent before, and please forgive me. I don't know what the distinguished guest asks. Just open your mouth, even if you kill these short-eyed ones. Dog things, the old man will never protect him."

He also gave it up.

"Don't you, Lord Lord, Lord Lord."

With a bang, Guan Shi instantly knelt down, and said in horror: "I also listened to the order of attendant Fan, so I would be disrespectful to this guest. I also ask the hostess to forgive me."

"Servant Fan? What the **** is going on?" Kang Sitong's eyes were cold.

Suddenly, someone told what had happened before.

"Does Fan Jin want to die?" Kang Sitong was furious. It turned out that Qin Chen and Xiaoqian had already understood his identity before. It was Fan Shicong who relied on his relationship and acted without notice without notifying him, which immediately made him furious. Inform him early, how can there be so much trouble?

[Chapter 1333: Ren Sha Ren Yan](#)

"Come here!" He exclaimed, "Bring Fan Jin."

Not long after, Fan Jin was brought in. After seeing the freezing atmosphere on the court, he obviously didn't know what was going on. He just said tremblingly: "Lord Lord, are you looking for me?"

Snapped!

Before his voice fell, a big ear of photon had already been drawn up, and blood spurted out of his mouth.

"From today, you are no longer an old man's attendant. I think you have no credit and hard work. I will not kill you, let you listen to this distinguished guest." Kong Sitong said coldly. With you, you offend the distinguished guests and don't listen to them."

Kang Sitong glanced at Guanshi Hu and others, showing murderous intent, obviously as long as Qin Chen speaks, Thunder will take action and kill everyone.

No one would doubt his determination.

At this moment, everyone on the court looked at Qin Chen in horror, frightened, even Li Zhufeng was a little drumming, he had also moved his hands to Qin Chen before, looking at the posture of Lord Lord, if the young man in front of him ordered to come down, I am afraid the Lord Lord Adults even teach him a lesson.

Panic in my heart for a while, I almost lost my footing.

"Okay, okay, it's just a small matter. Why should the hostess make a fuss? Qin is here to do business, not to make trouble. Let them retreat. It's messy, in what manner." Qin Chen waved his hand.

He came to Wanbaolou because of something, but he didn't get entangled with these guys unrelentingly. Moreover, if the matter should be serious, if the superiors of Wanbaolou investigate and expose his identity, it will not be good. After all, his black card identity, Must not be exposed.

"Thank you, sir, thank you, sir."

Guanshi Hu and others didn't know that their lives were in Qin Chen's hands, and suddenly said excitedly.

"You really don't have to deal with them?" Kong Sitong asked in a way that couldn't believe it. Heika VIP, so easy to talk?

"Why, the hostess has to ask me to deal with a few people, so that you are happy?" Qin Chen glanced at him and said.

"Naturally not." Kang Sitong was also overjoyed. Qin Chen said so, obviously not going to be held accountable here, and immediately said to Guanshi Hu and others: "Don't quit, please reflect on it."

"Yes."

Guanshi Hu and others Lian Cheng retired in fear.

"Xiao Qian, you stay and tell me after listening." Kang Sitong said again.

The beauty of No. 37, Xiaoqian, was still a little frightened at this time. Hearing the host's instructions, she stayed and stood aside respectfully. She gave Qin Chen a shocked glance, but she didn't dare to look more. She hurriedly lowered her head again, fearful. Aroused Qin Chen's anger.

"Two, please sit down."

After everyone went out, Kang Sitong personally arranged Qin Chen and Old Man Da Bei to sit down, and the respectful attitude made Old Man Da Bei tremble.

He looked at Qin Chen in shock, and said in his heart: Damn, what's the matter? What is the identity of this black card VIP? It turned out that the Emperor Wu at the peak of the late stage of the eighth stage was so respectful and respectful, and he was the owner of this Wanbaolou.

The influence of these characters is not only limited by their strength, I am afraid that the entire East Continent region can make him treat them like this, and there are only a handful of them.

The more I had contact with Qin Chen, the more Da Bei old man felt the fear of Qin Chen.

After arranging the two to sit down, Kang Sitong sat down opposite Qin Chen and said, "In the lower Wanbao Building Zhongzhou City branch building, Kang Sitong, don't you know the names of the two distinguished guests?"

After knowing the identity of Qin Chen's black card VIP, Kong Sitong's attitude became more respectful.

"Don't dare, in Xia Qin Chen, it will be better if the Lord Kang's house calls me less dust." Qin Chen said lightly, then glanced at the Lord Kang, and said: "The Lord Kang is a true essence, concentrating and transforming. It's not far, great, great!"

The strength of this Kang Sitong is indeed very tyrannical. It can be seen that the true essence in the body is strong, and even above the pavilion Xuansheng. Among the many powerful people Qin Chen has seen after rebirth, only the palace of the law enforcement hall in the northern sky Master Ji Hongchen is even better.

Kang Sitong hurriedly smiled awkwardly and said: "Don't dare, don't dare, the dust boy is gentle, he is the seventh-order peak martial king, and his future achievements will definitely be easier than the old man."

This is not a complete compliment. Qin Chen is only twenty years old, and he is already terrible here, and he is also a VIP guest of Wanbaolou's black card. It is not difficult to reach his level.

"Xiao Qian, don't hesitate to take out the top tea that I treasure."

Beauty No. 37 hurriedly bowed and stepped back, and soon set up the top-quality tea set, a stream of spring water flowed out, and the fragrance of tea immediately overflowed. "Two, please try my century-old snow mountain white tea. It is produced from the top of the snow mountain in Wuyu. It cannot be purchased with real stone. Only I can get some from Wanbaolou. The old man also tried his best to get it from the superior. Get some, you have less dust, you taste." Kang Si Tonglian introduced, but in his heart

I was heartbroken. If he hadn't offended the other party before and wanted to fawn, how could he be willing to take out such precious tea.

Xiaoqian brought the brewed tea to the people, Qin Chen sipped a sip, nodded, and said: "Good tea, it is a century-old Xueshan white tea. This young man has not tasted such top-quality tea for many years. Lord Kang can really enjoy it!" Kong Sitong smiled and waved his hand: "If you are less than Chen, it will be far behind. The old man is here, just guarding this Wanbao building and barely living his life, right, I don't know. What on earth did Shao Chen come to this time? I heard earlier that Shao Chen wanted to have a real stone of hundreds of millions in Wanbaolou with me.

Business? "

Although the East Continent is extremely wealthy, Wanbao Lou manages the entire East Continent's business, and there are often large-scale transactions with customers, but it is also extremely rare for a real stone to be over 100 million yuan. Qin Chen smiled softly, put the tea cup down, and said leisurely: "In fact, it's nothing. You should also know that Ben Shao is from the Northern Heaven Region Dan Pavilion, Bei Tian Territory, remote, and scarce resources, Ben Shao is in Beitian. Yu, there are still a bunch of people to raise, but I don't have a Wanbao Lou branch in North Tian Yu

, Ben Shao wanted to ask the hostess for a favor, and wanted to receive a batch of real stones worth hundreds of millions of dollars from your Wanbao Lou. "

Quiet, there was a moment of silence.

"when!"

The tea lid in Xiaoqian's hand fell directly to the ground under the loss of her senses, smashing to pieces.

"puff!"

"puff!"

Both Kang Sitong and Dabei old man spewed a sip of tea in an instant, followed by a violent cough, and both of them blushed with the tea and their necks were thick, and they couldn't breathe.

"Little dust, are you... joking?" Kang Sitong's expression turned ugly, and asked nervously. The old man in Dabei is also completely dumbfounded. It turns out that the so-called business of hundreds of millions of high-grade real stones is actually borrowing hundreds of millions from others. Are you doing good deeds when you are a Wanbaolou?

[Chapter 1334: Betting business](#)

"A joke? Mr. Kang, is it like this young man is joking?" Qin Chen smiled. He picked up the teacup and drank it slowly without feeling embarrassed at all.

Kong Sitong's face suddenly changed, and he was secretly angry. Is the other party trying to use today's opportunity to threaten him?

One is to appeal to the Wanbaolou headquarters and let himself be punished, and the other is to borrow hundreds of millions of high-grade real stones from himself. As long as he can't meet his requirements, this kid will have to tear himself up?

It's just that if it's something else, it's fine, but this is a thing of hundreds of millions of high-grade real stones? Once this hole is opened, where can I fill it in?

Although he, as the owner of Wanbaolou, has a lot of money, he can't afford such a big loss. Wanbaolou headquarters must hack him.

"Less dust, don't make jokes when you are old. Kang can't bear it. My Wanbao building has a small business, but I can't stand the toss. If Kang really promises you, I will be superior to Wanbao. Blame it down, I can't afford it." Kong Sitong said with a sad face. Qin Chen laughed: "Did the Lord Kang misunderstand something? Qin only borrowed the resources from the Lord Kang, and it was not that he didn't give money. As the son of the Northern Heavenly Pill Pavilion, he was about to take charge of Pill Dao City. There is also a force in the North Tianyu that manages various treasures, named Chendi Pavilion.

Selling and buying all kinds of medicines and treasures, wouldn't it be possible that a place as big as my dignified North Tianyu can't afford you a mere 100 million high-grade real stones? "

The corners of the old man's mouth twitched, a mere one hundred million, and Chen Shao's words are too domineering, who can bear it.

Kang Sitong also frowned and smiled bitterly. Qin Chen said that he would take charge of the Beitianyu Dan Pavilion in the future. He didn't believe it if he killed him. How would a senior customer with a Wanbaolou black card care about such a small place as Beitianyu? It's just that Qin Chen's words are not good, he can only bear his temper, and smile bitterly: "Shao Chen, don't laugh, so let's have a limited

ability to play. If there is little dust and money, I can personally help him. You have a million top-grade real stones, or something of the same value, no matter how many,

Just Shu Kang was helpless. With the number just now, I was joking with Shao Chen. "

He hesitated for a while, and finally gritted his teeth and decided to send Qin Chen's blackmail away at his own expense. Now he doesn't ask for anything else, just wants to feed Qin Chen so that he can transfer away safely.

The sad old man aside was dumbfounded.

Volunteer to fund a million top-grade real stones? This Kang poster is too domineering. Although according to the ratio of 100 to 1, one million high-grade real stones is actually equivalent to 100 million medium-grade real stones, but that is only the so-called official exchange. In fact, the entire lower four realms are high-grade real stones. Very rare.

Not to mention one to one hundred, even if it is one to five hundred, no one is willing to exchange top-grade real stones for middle-grade real stones. This is simply priceless.

"No joking at all!" Qin Chen said word by word, with a faint smile in his eyes.

Kong Sitong's face sank slightly, his pupils bursting with anger, and the old man of Great Compassion was also dizzy. If the dust has been benefited, he should accept it as soon as he sees it, so he can hardly stand the blackmail.

Seeing that the atmosphere on the court became tense, Qin Chen smiled and said, "Seeing everyone's nervousness." He smiled slightly and said, "Young Master Ben knows how to speak, and it is difficult for the original poster Kang to decide, so let's introduce one to the original poster. For business alone, with this business, the landlord Kang can earn at least billions of middle-grade real stones within half a month, so he can use these billions of middle-grade real stones as collateral. There is no problem.

Right? "

Earn billions of real stones in half a month?

Kang Sitong was startled, and the old man Da Bei also straightened his eyes. As for Xiao Qian, who was trembling, even the teapot was about to be overturned.

The money is not so fast, right?

"Please give me some advice." Kang Sitong stared at Qin Chen suspiciously. If Qin Chen could really make him several billion middle-grade real stones in half a month, let alone 100 million top-grade real stones, he would be willing to have more. The one who feared most was Qin Chen buttoning the glove white wolf.

Da Bei Old Man and Xiao Qian also stared at Qin Chen, wanting to hear what his method was.

"If this young man remembers correctly, in addition to selling and buying rare treasures in the world, Wanbaolou also operates a lottery business, right?" Qin Chen said with a smile.

"That's the case." Kang Sitong frowned, but what did this have to do with Qin Chen? Reminiscing that Qin Chen had previously said that he was the holy son of the Northern Heavenly Pill Pavilion, he couldn't help but said in astonishment: "Shao Chen means that The Four Domain Dandao Competition in the near future?"

He shook his head and said: "Gambling is indeed a very fast business, but it also has risks. Once the position is liquidated, it is easy to incur huge losses. Normally, the bookmaker and the competition will collude with each other. Odds, to make huge profits." "But this time the Wuyu Dandao competition is related to the quota of Guyu Realm, so any player will go all out. It is impossible for Wanbaolou to control the result of the game. , And the Dandao Competition is a major event for Wuyu Dange to select the talents of the Xiayu, and it will never allow anyone to interfere.

The result of the game, even my Wanbaolou will not work. "

"So if Shao Chen wants to earn billions of middle-grade real stones through this bet on the alchemy competition, it is impossible. My Wanbaolou has already decided on the alchemy competition this time. , Is to calculate the odds carefully, just don't lose money, it's hard to make a big profit..."

The real money in gambling is to control the game to upset both sides. Otherwise, it is just a game of probability. Although you can keep a steady profit by being careful, it is impossible to make a big profit.

This time Wanbaolou organized the gambling with the attitude that no fault is merit. Qin Chen smiled, and said: "The original poster Kang is right. This time, the Dan Dao competition is related to the quota of the Guyu Realm. Naturally, the saints of each domain will not cheat in the competition because of some money. Own future, but if Qin knew the result in advance, the original poster Kang would still think so ? "

"Know the result in advance?"

"Yes, the Dan Dao Competition will start in ten days. I want to come to Wanbaolou for the preliminary research work, right? What is Qin's current winning odds?" Kang Sitong suddenly smiled bitterly. Se, Qin Chen's odds? The Northern Horizons is the weakest of the four domains, so the odds for the Northern Horizons players to win the championship have not yet come out, and they won't even come out until the start of the game, because no one will buy the Northern Horizons. Players can win

crown. When Qin Chen asked, Kang Sitong was immediately embarrassed.

[Chapter 1335: Fair enough](#)

For a while, Kong Sitong didn't know how to answer.

He can't say that because your Beitianyu is too rubbish, your odds have not yet come out, and Wanbaolou can't give you the winning odds, right? Qin Chen seemed to know what Kang Sitong was thinking, and he immediately smiled and said, "Don't say I know that the host Kang, I'm afraid that Qin's odds are not there yet? Therefore, my proposal to the host Kang is to open a handicap. , Bet Qin can't win the championship, if Qin can't win the championship, he can

One loses one hundred, how many people think Kang will buy it? "

Lose one hundred?

Kong Sitong was stunned immediately. This is an odds of one hundred, and it is not that Qin Chen can win, but that he cannot win. In other words, as long as Qin Chen can't win the championship, others will bet on a real stone. The Lou will pay a hundred real stones.

Who doesn't want to place such a handicap?

This is a hundred times the return. With normal odds, there can be a loss of five and ten, which is very bad, okay?

With such exaggerated odds, Wanbaolou rarely opens up, because it is too easy to liquidate, as long as someone buys a billion real stones, he will pay out 10 billion. Who can afford it?

Of course, if Qin Chen can really win the championship of the Alchemy Grand Competition, then the profit will be too great. Once such a handicap is opened, it will be appropriate to attract a few billion middle-grade real stones, isn't it? This is what Qin Chen said about the billions of real stones?

"Less dust, you're a big joke." The cold sweat on Kang Sitong's forehead came out, but it was even more perverted than directly borrowing 100 million high-grade real stones from him. Once he loses, he will lose the money in Wanbaolou. How can you withstand the hundreds of billions of real stone?

Just thinking about it, Kong Si Tong's heart is about to burst.

"It seems that the landlord Kang doesn't believe that Qin can win the championship of this Dandao competition?"

"You are joking, Shao Chen, with your talent, it may not be impossible to win the championship, but this is too risky. My Wanbaolou simply can't play, and I dare not play." Kang Sitong's forehead was covered with cold sweat.

But he was speechless, Qin Chen was too courageous. Who would dare to play with him in such a big business? I saw him for the first time today, who knows how strong his alchemy attainments are? I want to die to play this with him.

"The original poster Kang is cautious, and that's normal. In this way, I don't know if Wanbao Lou has a mist flower and a magic curse Jin Jing?" Qin Chen smiled, seemingly disapproving, and asked. Seeing that Qin Chen didn't mention this, Kang Sitong heaved a sigh of relief and said, "As long as it is in the East Continent, my Wanbao Building must have it. Even if the Zhongzhou City Wanbao Building is temporarily out of stock, it can be deployed from other places. However, I am generally not responsible for the list of goods in Wanbaolou, so let me check it.

under. "

He waved his hand and glanced at Xiao Qian, who nodded and walked out.

After Xiao Qian left, Qin Chen immediately smiled and said, "Does the original poster Kang really stop considering Ben Shao's proposal just now?"

Kang Sitong was taken aback, and said in a nonchalant way: "Let's talk and laugh less Chen, so forget it."

"What if I use my Northern Heaven Domain Dandao City to guarantee it?"

"This....."

Kang Sitong hesitated and looked at Qin Chen suspiciously, wondering why Qin Chen was so concerned about it, did he really think he could win the championship of this time? As the host of Wanbaolou, Kong Sitong naturally has some information channels of his own. It is very clear that the Dandao Competition this time is very complicated. On the surface, it is just a competition between the next four domains. In fact, because it is related to the ancient Yu world, As a result, some alchemy forces in the martial arts also focused on this time

Of the four domains.

This Qin Chen can possess Wanbaolou's black card, he must also come from the Martial Domain, would he not know the truth?

The previous proposal made by Qin Chen was too risky, even if it was guaranteed by Pill Dao City, he did not dare to rashly agree.

At this time, Xiaoqian happened to return to the reception room. Kong Sitong breathed a sigh of relief immediately and said, "Xiaoqian, how?"

"Back to the host, Yinkui Wuhua and God Curse Jinjing currently have my Wanbao Lou." Xiao Qian said.

"Since there is, what are you hesitating about, take it over immediately." Kong Sitong waved his hand.

"Yes." Xiao Qian said.

Soon, someone sent these two items over.

"I don't know what Young Chen wants these two things for? The old man doesn't ask, this time I saw less dust, and Kang also saw it right away. These two things will be given to you." Kang Sitong waved his hand proudly. , Handed the two things to Qin Chen.

Seeing this, Xiaoqian hesitated for a while, and said cautiously: "The host, Yin Sunflower Mist Flower and Divine Curse Jin Jing are the eighth-order elixir and treasure, and they are also considered high-level among the eighth elixir..."

The corner of Kong Sitong's mouth twitched. Why didn't you say it earlier? However, he has already spoken, and naturally it is impossible to repent anymore. Besides, the host of his magnificent Wanbaolou can't even give away the treasure of Tier 8?

The current Kang Sitong only wanted to send Qin Chen away, but didn't think about anything else.

"Then I would like to thank the host Kang. I don't know if there is a refining room in the host Kang. Qin just needs to refine something to treat his stubborn illness for his subordinates." Qin Chen said again.

The old man with great compassion on the side suddenly became excited.

"My Wanbao Building also sells elixirs, which are naturally available in the refining room." Kang Sitong glanced suspiciously at the excited old man with great compassion, and smiled, "I will take the two of them over."

Not long after, everyone came to a refining room.

The entire refining room is very atmospheric. In addition to alchemy tools, there are all kinds of refining tools and engraving instruments inside, making it a versatile refining room.

This made Qin Chen more satisfied, or the Wanbao Building was convenient, otherwise, when he returned to Fengyun Pill Garden, where would he find such a convenient refining room?

I saw several areas in the refining room were separated from each other, but at the junction of each other. At the alchemy site, a furnace with a height of approximately nearly ten feet was erected there. There was a barrier around it. Obviously, they were afraid of being disturbed during alchemy.

"This pill furnace is not low-level, so it's OK." Qin Chen nodded.

The original poster Kang heard that he almost vomited blood. What does it mean to make do? The refining room in their Wanbaolou was definitely based on the highest standards. This pill furnace could be used for refining eight-rank emperor pills, and it was of infinite value, but it became improvised in Qin Chen's mouth. "What exactly is this kid going to refine? The eighth-level materials are needed?" Kang Sitong was suspicious. The eighth-level materials can't be used casually, if a pharmacist uses more than his own level. Once the materials cannot be controlled, the consequences will become very serious, and they will be scrapped.

, And even threaten life. Although Qin Chen is the holy son of Beitianyu Dandao City, at this age, he is at most a medicine king at the early stage of the seventh stage. Where does he need to use materials of the eighth stage?

[Chapter 1336: Kong Si Tong](#)

When Kang Sitong was suspicious, Qin Chen beside him had already moved.

Hum!

He took a palm shot, his hands were like phantoms, and dozens of palms were shot on the pill furnace in an instant, and countless palm shadows were transformed, beautiful, and fascinating.

The whole pill furnace trembles rapidly and roars, but the roar is not annoying at all. On the contrary, it makes people feel happy, and the pill furnace is still that pill furnace, but in Kangsi Tong felt as if he had come to life.

This is... Xingding?

Kong Sitong's eyes suddenly rounded.

In the Tianwu Continent, it is rumored that some powerful alchemists need to wake the cauldron before refining the pill. The so-called wake cauldron means that the pill furnace is in a state of deep sleep before refining, and wake cauldron After that, the pill furnace can quickly reach its peak state.

It's just that this kind of technique is rare even in Wuyu, how could it be shown in Qin Chen?

Who is this Qin Chen?

Kong Sitong became more and more shocked. At least, in this Zhongzhou city, there are only a handful of people who can wake up. As for whether there is any, Kong Sitong is not sure whether he has seen it anyway.

Qin Chen looked calm, and while waking up quickly, he took out a large amount of elixir from the storage ring.

All kinds of elixir were placed one by one, and nearly a hundred elixir were taken out at once, and the grade of these elixir was basically as high as level seven.

With so many Tier 7 spiritual medicines, what exactly does Qin Chen want to refine?

Kang Sitong was surprised again, with goose bumps all over his body and his cold hair standing upright.

In shock, he saw Qin Chen's eyes condensed, and between his eyebrows, a group of blue flames burst out, and it was Qinglian Demon Fire.

call!

The cyan lotus blooms, gorgeous and colorful, and instantly wraps the pill furnace in front of him, and quickly heats the pot.

At the same time, his powerful mental power was released, carefully controlling the flame, and the bright flame licked the bottom of the furnace, carefully conducting the heat to every part of the pill furnace.

This step of heating the cauldron is also very complicated. Under Qin Chen's urging, layers of flames filled the cauldron, and the original black cauldron had turned reddish in a moment.

"What? Only ten breaths have been completed?" Kang Sitong's eyes widened, his face was horrified, and he looked overwhelmed.

Knowing that he once needed a pill at the pinnacle of the seventh stage, please invite a medicine king who is at the peak of the late stage of the seventh stage. The opponent took 30 breaths to complete the heat. At that time, the medicine king was still amazed in his refining room. The pill furnace is very advanced, allowing him to finish in more than thirty breaths.

But now, Qin Chen has finished his ten breaths. Could it be that Qin Chen is stronger than the Seventh-Rank Peak Medicine King he invited?

If this is the case, what exactly has Qin Chen's alchemy cultivation reached?

At this time, Kang Sitong looked at Qin Chen's eyes with a strange color, his eyes flickered, and he didn't know how many times his mind turned.

At the same time, he also remembered Qin Chen's previous betting advice. Could it be that Qin Chen was so sure that he could win the championship? If so, it is indeed an opportunity to make a fortune.

Da Bei old man looked expectant, he was full of hope for Qin Chen.

The end of the hot pot is the formal process of alchemy, refining the elixir.

Qin Chen put the many materials he had prepared in front of him into the pill furnace one after another, the speed was dazzling.

"Damn, is he crazy?" Kang Sitong was taken aback.

When refining any kind of pill, there is a refining sequence. That's because different elixir takes different time to be refined in the pill furnace. At the same time, the time and time involved in the process of refining the pill is different. The order is also different.

But now Qin Chen has continuously poured more than one hundred elixir into the Dao Pill Furnace, with a very short interval. In such a short time, can these elixir be refined in the first time? What's more, Kang Sitong knows very well that pharmacists like to slowly put the elixir into the pill furnace in order, and there is another purpose, that is, if the elixir in the pill furnace is refined in a short time, there will be many elixir breaths. It becomes extremely difficult to control between fusions, resulting in the probability of fryer

It will be a geometric increase.

"This kid doesn't know this, right?" Kong Sitong took a breath of air and concentrated his mental strength. Once so many Tier 7 elixir reacted and the fryer occurred, even with his cultivation base, he did not dare to be careless. .

But what made Kang Sitong couldn't believe was that after many elixir was put into the pill furnace by Qin Chen, nothing unexpected happened. The pill furnace was still steadily refining, extremely calm.

"How is this possible?" Kang Sitong couldn't understand why.

As for the old man with great compassion, he clenched his hands. He didn't think about it as much as Kang Sitong. When he was in Pill City, Qin Chen had already shown his alchemy talent. At this moment, the old man with great compassion had only one thought in his mind. , That is expectation.

Looking forward to the moment when the pill is formed.

After many pills were put into the furnace, Qin Chen immediately began refining.

I saw that his hands were constantly intertwined with complex handprints, and the green lotus fire below the pill furnace was constantly changing its shape, the temperature was high and low, sometimes the fire burned wildly, and sometimes the small fire cooked the cauldron.

In the process of alchemy, the mastery of heat is also extremely important. Any small mistake in the details will lead to failure in alchemy.

Qin Chen's mental power was concentrated, the eighth-tier mental power was energized to the extreme, and with his powerful soul power, he closely monitored the changes of the pill in the pill furnace, his techniques were extremely skillful, and his movements were like a master of art.

In the previous life, Qin Chen was able to become a ninth-rank emperor-level pharmacist and honorary elder of the pill pavilion with the cultivation base of the eighth-rank martial emperor. He definitely has a talent for refining alchemy.

In this life, although his cultivation is only at the peak of the seventh order, his spiritual power has already reached the middle of the eighth stage, and it is not difficult to control the many seventh-order elixir in the pill furnace.

"Who is this son?" If Kong Sitong hadn't noticed that Qin Chen had completely controlled the rhythm of alchemy at this time, it would be impossible for him to become the host of Wanbaolou.

Before the pill furnace, Qin Chen had completely controlled the refining rhythm, and the many elixir in the pill furnace had entered a peaceful fusion stage under his control.

"Huh! I can finally breathe a sigh of relief. With so many elixir added in such a short period of time, it is still a bit difficult for me now."

Qin Chen secretly breathed a sigh of relief, "However, now that the refining has entered a gentle stage, it is time for the next step."

His eyes immediately turned to the refinery area.

"Huh, what is this Qin Chen doing?" Kang Sitong was suspicious, dare to be distracted while refining the pill? Suspiciously, Qin Chen took the first two steps and actually came to the middle of the pill refining area and the refining area. Then, his left hand controlled the pill furnace and the Qinglian demon fire to the left, and his right hand faced the refining area. The battlefield snapped.

[Chapter 1337: One mind and two purposes](#)

Buzzing!

The array in the refining area suddenly lit up, and the array that had been silent for a long time emitted a dazzling white light and was suddenly activated.

Qin Chen divided the eighth rank mental power into two strands, one controlling the pill furnace, and the other instantly blending into the formation, controlling the formation of the refining area.

"Damn, is this kid crazy?" Kang Sitong's eyes were almost bursting, and he felt that the shock in this life was not as much as today.

While refining the pill, while activating the formation in the refining area, he is doing two things with one heart, is he serious? This is nothing short of death.

If Qin Chen was only refining some ordinary pill of rank 5 and 6, Kang Sitong might not be so surprised, but he was refining at least the 7th rank Wang Dan, is it so big?

Qin Chen naturally ignored Kang Sitong's shock. After the formation was activated, some purple-black crystal sand suddenly appeared in his hand, and it lightly threw it towards the formation in the refining area.

Dozens of purple-black crystal sand fell on the battlefield like a dense cloth of stars.

"Six awns refining formation, success!"

With the condensed handprint on his right hand, Qin Chen gave a low drink, and saw that the original complicated formation instantly turned into a six-pointed star pattern. The powerful refining power

released by the six-pointed star instantly shattered the purple-black crystal sand and turned it into powder.

Qin Chen's right hand was again a condensed handprint, and the powder suddenly seemed weightless, floating about an inch above the formation.

Then, Qin Chen took out the curse Jin Jing previously obtained in Wanbao Lou, flicked his fingers, swish, and the fist-sized curse Jin Jing instantly fell on the center of the formation, wrapped in a lot of crystal sand powder.

"This kid actually took out the magic curse Jin Jing. Does he want to refine this magic curse Jin Jing?" Kang Sitong looked incredible.

The curse Jinjing is an eighth-level imperial material. What is an imperial material? That is to say, only the general eighth-order imperial refiner can control the refining materials, and this kid actually wants to refine this magical gold crystal on his own, what is the difference between this dream? At this moment, Qin Chen's eyes suddenly became dignified, as if there was a divine light blooming in it, Qiang, he took out the mysterious rust sword, and under the instillation of the true essence, he smashed down toward the magical curse Jin Jing in the center of the formation, a The sword energy condensed into substance fell, with a thud, and the curse Jin Jing was booming

The sound was instantly broken into countless small pieces.

A ray of light flashed across the center of the eyebrows, an invisible power of blood flowed out, sneer, sneer, the magical curse gold crystal around it seemed like thunder light surged, under the influence of the thunder light, the magical gold crystal fragments and purple-black crystal sand powder Melt into one, constantly beating under the refining of the formation.

The trembling process was slow at first, and gradually became faster. In the end, the frequency was almost indistinguishable by the naked eye. I saw a trail of impurities escaped during the beating process, and then was dragged outside by the formation to form waste.

But the magical gold crystal and purple black crystal sand in the center of the formation became brighter and brighter. After removing the impurities, they became more crystal clear and shining brightly under the radiance of the array of light.

If a master refiner saw this scene, he would be shocked by the five-body throwing to the ground. Whether it was activating the formation, refining impurities, or fusing materials, Qin Chen's technique was completely different from that of the ordinary refiner, and it was hard to understand.

Qin Chen's rich experience in his previous life made up for the lack of his current cultivation level. Originally, only the imperial refiner could refine things, but he also refined it handily with the cultivation base of the seventh-order king-level refiner.

Of course, this is nothing to Qin Chen. In his previous life, his cultivation was only at the peak of Martial Emperor, but he was able to refine Tier Nine Divine Weapon, which was originally a myth in the Martial Domain.

A large amount of crystalline powder was constantly being refined, and Qin Chen then poured some materials into it, including heavenly pond water, ancient mandala heart, ghost ghost fog, etc., all of which were extremely rare and high-end materials.

Many materials were refined one by one and merged into the center of the formation, finally forming a purple-gold liquid sphere, crystal clear, as if there is a hazy cloud of smoke flowing in it, beautiful, colorful, and even more mysterious.

"This kid, actually refined the magic spell Jinjing?"

Gudong!

His throat rolled, and a mouthful of water was swallowed fiercely. The host of Kong Sitong only felt that his brain was not enough. Some common sense he knew before was broken one after another, but he was like an idiot.

call! call! call!

The light flashes continuously. Every second, it flashes twelve times. The impurities in the purple-gold solid liquid are gradually dispersed, becoming more and more crystal clear, and more and more clear, and the sweat on Qin Chen's forehead, The more came, the body even trembled slightly.

After about half a stick of incense, Qin Chen took a deep breath and suddenly drank in a low voice.

"Condensation!"

It bursts down.

call out! call out! call out!

The purple-gold solid liquid was pulled by an invisible force, and the right hand was suddenly lifted. Suddenly, the light burst, and the purple-gold liquid burst instantly, from the center of the sphere, bursting in all directions, turning into bright liquid needles. body.

These liquid needles quickly solidified into real objects in the process of flying, and were finally dragged in front of him by Qin Chen, and saw seven or forty-nine purple-golden needles floating in the air, reflecting the colorful rays of light, so beautiful.

Qin Chen took a copy with his right hand and instantly put away the forty-nine magic needles. He was too lazy to take a look, and hurriedly returned to the medicine refining area next door.

Empty empty...

Under Qin Chen's single mind and two use, the pill furnace trembled sharply, especially at the last moment when Qin Chen refined the divine needle, it consumed a lot of his energy, causing the medicinal gas in the pill furnace to be almost uncontrollable.

"town!"

He yelled, the terrifying mental power suddenly calmed down along with the powerful soul power, and the pill furnace, which had been frantically rioting, suddenly quieted down, like a tamed fold-eared cat, extremely docile and well-behaved.

Qin Chen didn't care to wipe off the cold sweat on his forehead, secretly heaved a sigh of relief, and secretly said: "With my current cultivation base, I want to refining two kinds of heaven-defying things with one heart and two purposes. It's still a bit too big. Fortunately, the support was timely."

He let out a long breath, and his eyes gradually became cold again. The Yin Sunflower Mist Flower he had just obtained had already appeared in his hands and was thrown into the furnace by him.

"Damn, this is a Tier 8 elixir, what kind of pill is this kid refining?!"

The host of Kong Sitong was stunned, almost spitting out swear words, and his heart could hardly stand it, almost bursting.

Boom boom boom! As soon as the cloudy sunflower mist flower entered the refining furnace, the whole furnace shook violently, banging, violent noises in the furnace, and the furnace lid trembling constantly, there was a kind of suppression that could not help but want to explode. The precursor of the horror, an extremely dangerous atmosphere filled the air.

[Chapter 1338: Dodan](#)

not good!

The host of Kang Sitong was shocked. He hurriedly urged the formation of the refining room, and the entire refining room was suddenly enveloped by a huge array of light. After doing this, he was not at ease enough, and the invisible Martial Emperor realm spread out again. Enveloping the entire refining room, this was a sigh of relief.

Qin Chen's gaze also became more solemn, sweat on his forehead dripped continuously, his hands turned into phantoms, and every second, several kinds of handprints were pinched, and a large amount of mental energy was formed into runes and merged into the pill furnace.

Under Qin Chen's control, the pill furnace, which was constantly trembling and seemed to explode at any time, gradually became stable.

At the same time, a strong medicinal fragrance gradually diffused out, which meant that the pill was almost to be successfully refined.

"Impossible, the refining of the eighth-order panacea is not easy, not to mention the integration of each other, how did this son merge the eighth-order panacea with the seventh-order panacea?" The host of Kang was shocked.

But the old man of Great Compassion was very excited. Just smelling the fragrance of medicine, the true essence in his body was already ready to move, as if a beggar who had been hungry for a few days saw a seat full of delicious food, unable to restrain the commotion.

He looked excited: "Is Shao Chen really refining medicinal pills for me?"

At this moment, Qin Chen has become the hope in the heart of the old man of Great Compassion, like a beacon.

Qin Chen couldn't take into account the excitement of the old man in Great Compassion. At this moment, the refinement of the pill had reached the most critical moment. He took a deep breath, slapped the pill furnace with both hands, and shouted: "Neng!"

Rumble!

In the sky, a colorful vision suddenly appeared.

"Heaven and Earth Anomaly, is this the elixir of the emperor grade?" The original poster Kang was shocked.

It's just that the vision, which only appeared for a moment, then dissipated into the air again, and a large amount of true energy merged into the pill furnace. With a bang, the furnace cover burst, a powerful heat pouring out, and several bright rays of light burst into the sky. Up.

Followed by a few fascinating medicinal fragrances refreshing and intoxicating.

Tricky!

Several pills fell into Qin Chen's hands. The grains were full and round, with pill patterns appearing, and exuding a strong medicinal fragrance. What shocked Kang Sitong was that the colors and shapes of these pills were different, obviously not The same kind of medicine.

His eyes widened suddenly, thinking he was dazzled, and rubbed his eyes vigorously.

Yes, it is indeed different.

"One pot of Dan?"

Gudong!

The landlord Kang swallowed deeply, only to feel shocked in his life, not as much as one day today.

Especially at the most central moment, it exudes a fascinating aura, and even the true essence in his body is ready to move, which obviously has a huge effect on him.

What kind of medicine is this?

Qin Chen also looked at the several pills in his hand, and let out a long sigh of relief, his tense nerves completely relaxed, "Finally succeeded!"

Refining a few pills at a time, and separately refining them in the pill furnace, consumed a huge amount of his mind, and even he felt extremely tired and a little unable to hold on.

This is not continuous refining, but together refining, the difficulty of which is unimaginable for outsiders.

But Qin Chen had to do this again. He wanted to treat the injury of the old man with great compassion. With his current cultivation base, he had to do so, and one of the main pill must be taken within the half-pillar incense that has been refined. , Otherwise the efficacy of the medicine will be greatly reduced, and he has no choice.

"Lord Kang, do you have a big wooden barrel in Wanbao Building?" Qin Chen turned his head, "Lord Kang, please prepare and pour boiling water into the wooden barrel."

"Barrel?"

Kang Sitong woke up suddenly, although he didn't know what Qin Chen was going to do, he instinctively told him to go on.

In just a moment of effort, a large wooden barrel was moved in, which was full of boiling water.

"Little dust..." The old man Da Bei shouted nervously.

"Don't talk first, adjust your state right away, and I will let you enter the barrel later. You only need to stick to your origin and your heart will not die. You don't have to worry about anything else, and everything will be natural." Qin Chen interrupted The words of the old man with great compassion, said seriously.

"Yes."

The old man of Great Compassion took a deep breath, did not dare to say anything, and hurriedly held his breath, urged the true essence of his body to the extreme, and his whole state was restored to its peak.

The dream of decades is about to begin, and the old man in Dabei is nervous and sweaty. Qin Chen took out a black pill from the several refining pill, gently placed it in the boiling water, and saw that the boiling water suddenly bubbled up, and a strong fragrance of medicine permeated. The transparent boiling water turned milky in an instant, and people have to sigh the magic of this pill

.

"Old man, go in quickly, remember, relax yourself and absorb the medicine."

Qin Chen gave an order, the old man Da Bei did not hesitate, and gently jumped into the barrel, letting the liquid in the barrel soak his body, the old man Da Bei's body suddenly began to heat up in the water mist, only feeling numb. The itch is difficult, and there is a continuous erosion of medicinal power.

"Swallow these pills one by one."

Then Qin Chen handed the refined pill to Old Man Da Bei, swallowing them one by one, leaving only the most special pill.

The old man Dabei followed suit one by one, and suddenly a violent medicinal power spread in his body.

"what!"

He suddenly screamed, severe pain hit his mind, and the terrifying power spread to his limbs. The skin on his body suddenly turned crimson at a speed visible to the naked eye, and there were even traces of black and red blood from the skin. Ooze.

"What is it called? I can't bear such a pain. What can I do?" Qin Chen snorted and shouted sharply.

When the old man Dabei heard this, his face suddenly became determined. He gritted his teeth and remained silent, but because of the pain, the expressions on his face became extremely distorted and almost squeezed together.

Kang Sitong took a breath of air, and made a martial emperor at the mid-tier eighth peak, his face distorted in pain, what exactly would Qin Chen do, and why did this old man endure such pain?

Kong Sitong didn't know the ins and outs of the matter, and he was extremely confused and unable to understand.

"Gudong Gudong."

The milky-white boiling water was still boiling, but the color gradually faded, and at the same time there was a slight click sound. When Kang Sitong listened carefully, his hair was suddenly horrified. This was the sound of the broken meridians in the old man with great compassion. .

"Ah, less dust, I can't stand it anymore, it's too painful, why are all the meridians in my body broken! No!"

The old man Dabei opened his eyes suddenly, shooting crazy and ferocious, and roaring, how is this healing? He was clearly tortured, and the terrifying power of the medicine shredded the meridians in his body bit by bit, and he had no ability to resist at all.

Not only the meridians, but also his internal organs, musculoskeletal and musculoskeletal organs, all seemed to be pierced by a needle, and they were so hot and painful. Moreover, if the meridians are broken, how can his condition get better, it will only get worse.

[Chapter 1339: Great Compassionate Breakthrough](#)

If it weren't for Qin Chen's trust, and knowing that Qin Chen didn't have any need to harm him, the old man in Da Bei would even think that Qin Chen was deliberately slaying himself. With his disorientation, his eyes naturally showed resentment and killing intent. Everything in front of me was cut and cut.

"Huh, keep your mind."

Qin Chen screamed and rushed into the mind of the old man of great compassion.

"Wow!"

The old man Da Bei couldn't bear the impact, and a mouthful of dirty blood spewed out. The blood was actually purple and black, with a stench, but after the blood was spit out, the old man Da Bei's breath was still crazily weakening.

Kong Sitong is going crazy looking aside, what are these two guys doing? Do you die? After the meridians are broken, the cultivation base is scattered. How can anyone do this?

The old man Da Bei also kept screaming, he couldn't bear it anymore.

"What is it called, break and then stand, don't you understand this truth?"

Qin Chen snorted coldly, his eyes suddenly became extremely solemn, "almost."

Li Mang suddenly exploded in his eyes, and when he raised his hand, the last pill was shot into the mind of Old Man Dabei. At the same time, he patted the Baihui acupoint on the head of Old Man Dabei directly.

boom!

A beam of thunder light rushed into the body of the old man of great compassion, awakening his disorganized sanity suddenly.

Then, Qin Chen suddenly appeared seven or seventy-nine purple gold needles in his hand. He lifted his hand and shook his head. Forty-nine magic needles pierced into the forty-nine large acupuncture points on the whole body of the old man of great compassion. The big cave connects every broken meridian in his body.

The old man of Great Compassion no longer feels pain at all, only feels that a force of force is piercing the meridians along the skin, not only is there no pain, but it is extremely comfortable.

Chi Chi Chi Chi!

Forty-nine divine needles drew the power of heaven and earth, and along with the pill that the old man of Great Compassion swallowed into his body, the broken meridians in the body of the old man of Great Compassion actually grew new tender meridians one after another. His originally broken meridians merged together again.

An unprecedented sense of power filled the body of the old man with great compassion. I don't know how long time has passed. The meridians in the body of the old man of Great Compassion are completely re-opened and shaped. The whole person is like a reborn, and an uncontrollable force continues to rush left and right in his body. Awakened his aptitude that had been sleeping for decades

.

"Roar!"

The old man Da Bei only felt unable to restrain his own strength and let out a roar like a long howling.

"boom!"

There was a muffled sound in the body, all the meridians blasted open instantly, the true essence flowed to the limbs and hundreds of skeletons, the sea of qi suddenly expanded, and a force that was many times stronger than before, burst out of his body.

"boom!"

The wooden barrel full of boiling water burst, and the powerful energy swept through, shocking the nine heavens and ten places, and under the poor blue and yellow springs, the old man of great compassion suddenly opened his eyes and clicked, like an electric light wandering in the air, raising his hands and feet, and escaping out. An earth-shaking power.

"Later Wuhuang of the eighth stage?"

The strong breath surprised Kang Sitong and couldn't help but exclaim. As the peak Martial Sovereign of the late eighth stage, Kang Sitong is so sensitive to power. At this moment, the Martial Sovereign who was originally the peak of the mid-eighth stage in front of him actually conflicted with how many martial emperors dreamed of the late eighth stage realm in an instant. And, it has reached the peak of the late eighth stage, directly

Approaching the peak realm of the late eighth stage.

If the old Dabei old man was strong, but in Kang Sitong's feeling, he could easily obliterate the suppression, then the old Dabei at this moment actually gave him a faint sense of threat, and this feeling is even very strong.

Of course, this is not to say that the old man Da Bei can kill him, which is more powerful than him, but the momentum that he has suppressed for decades and breaks through in an instant makes Kang Sitong feel a serious threat.

This is a strong man enough to harm him.

"I... actually broke through the late eighth stage, hahaha, my injury really healed, decades, decades of anticipation..."

The old man Da Bei stood wet in the refining room, his hands stretched out, feeling the surging power in his body, and couldn't help feeling agitated.

"Hahaha!"

He looked up to the sky and screamed, and the rumbling roar echoed in this refining room, causing the light here to tremble constantly and burst at any time.

Kang Sitong was taken aback and hurried to stop him. If he continues to let the old man of great compassion scream, he will definitely not be able to adhere to the formation of Wanbaolou, I am afraid the entire Wanbaolou will be destroyed. Just before he could take action, he heard a dissatisfied hum, "What is the name of the ghost, it makes people's ears deaf, but it has broken through the late stage of the eighth stage, just like becoming the nine-day martial emperor, it is so awkward. Huh? In the martial arts, the Emperor Wu is just the beginning, your martial arts path has just begun

It's just a step. "

But it was Qin Chen with a look of disdain, looking at the old man Da Bei with contempt.

Kong Sitong was speechless, but in the eyes of this kid, Emperor Wu was just a start in martial arts? How big is this kid?

But when Qin Chen drank like this, the old man in Da Bei stopped howling. He looked at Qin Chen awkwardly, and there were two lines of clear tears falling in his old eyes.

"Great compassion, I have seen Chen Shao, thank you Chen Shao for your help. From now on, as long as Chen Shao gives an order, old man, I will kill you!"

With moist eyes, he took a step forward and knelt down on one knee towards Qin Chen. Although his eyes were filled with excitement, his expression was extremely respectful.

He deeply knew who gave him the opportunity to fulfill his long-cherished wish for decades. It was Qin Chen. Without Qin Chen, he would have stagnated at the mid-level eighth peak in his life and could not make any further progress.

Qin Chen is his benefactor of reconstruction.

"Go go, get up quickly." Qin Chen waved his hand speechlessly, is it necessary to be so exaggerated? "Don't be proud of it too early. Now your wounds have just healed. The reason why you can directly break through is that in addition to the activation effect of my pill, more is your accumulation over the past few decades. And you are not too old. If you are small, if you work hard now, it will not be difficult to become Jiutian Wudi in the future

, But if it is imprisoned, it will be like this in this life, at most it will be the current cultivation base of the landlord Kang, do you know? "

"Yes." Da Bei old man said obediently.

Kang Sitong was sweating violently next to him, and that's what it means. The Martial Emperor at the peak of the late eighth stage, is it rubbish?

He was shot while lying down. However, he also understood that the old man of Da Bei was in physical illness before, and what Qin Chen had done before was to heal his injuries. The old man of Da Bei had been injured for at least several decades, and now he has been healed. Breakthrough naturally, no wonder the other party was so excited at first.

[Chapter 1340: Wuyu Dandao genius](#)

Decades ago, the old man was already the cultivation base of the middle-ranking martial emperor of the eighth stage, which shows that his talent must be terrifying.

And what is even more terrifying is that Qin Chen can cure an old illness of the eighth-tier mid-level peak martial emperor for decades. What cultivation is this?

"This son, really a monster!" Kang Sitong was shocked, staring at Qin Chen in a daze, especially when he recalled Qin Chen's previous refining, the inner vibration could not be suppressed.

At this age, this level of alchemy cultivation, even in the entire martial arts, it is difficult to find such alchemy geniuses, right? Only a few places such as Dange headquarters will occasionally appear.

However, with the status of those people in the Wuyu Dange, how can they come to Zhongzhou City to participate in the so-called Four Regions Competition?

"This time the old man's injury can be healed, thanks to the original poster Kang. If it weren't for the shadow sunflower mist flower and the curse Jin Jing of the original poster Kang, the old man's injury might not be so easy to heal." Qin Chen smiled to Kang Sitong. Hand over.

Kong Sitong waved his hand hurriedly: "Where, where, Kang just did a little effort."

If in the past, Kong Sitong was respectful only because of Qin Chen's status as a black card VIP, then Kong Sitong now respects Qin Chen from the heart.

"I don't know how the hostess Kang feels about Qin's previous betting proposal?" Qin Chen mentioned his previous betting again with a smile.

"This..." Kang Sitong couldn't help hesitating.

I have to say that after seeing Qin Chen's previous refining, Kang Sitong has been tempted by Qin Chen's proposal, but there is still a trace of concern in his heart.

"Do you have any worries about the Lord Kang?" Qin Chen was surprised, could it be that the strength he showed before could not convince Kang Sitong?

Although he is refining here for convenience, but at the same time to make Kong Sitong believe in himself, otherwise, when he is refining, how could he agree to let him watch it.

"You don't know anything about Dust." Kang Sitong smiled bitterly. "As far as Kang knows, in addition to the talented alchemists from the Four Regions Pill Pavilion, in the Martial Domain Some alchemy geniuses have arrived."

"Wuyu Dandao genius?"

Qin Chen was taken aback, frowned, and said: "The original poster Kang meant that this time, some geniuses from the alchemy forces in the Martial Domain came to Zhongzhou City for the quota of Guyu Realm and wanted to participate in the next step. The Dan Dao contest?" "Dust is really smart, and this is the truth." Kang Sitong nodded and said: "As far as I know of Wanbaolou, there are three people, one is the sect of Wuyu Danwangzong, Chou Tian, secretly hidden Identity, joined the Western Wilderness Pill Pavilion, will participate in this competition, there is also a person named Kui Xinyu of Tianyaomen, rumored to be a genius who has never met in Tianyaomen in a century, secretly joined the alchemy organization of Beihai; the third person, Yu Sihui, a member of the Yu family of the ancient alchemy family of Wuyu, loved by the ancestors of the Yu family. The talent of alchemy is the first person in the Yu family today. This person joined the Dan Pavilion in the Tianmen area. In addition, there is me.

Yemo, the first Danzi in the Eastern Continent region, and Yan Equator, the Shengzi in the Southern China region, are all stunning people..."

Speaking of this, Kong Sitong smiled bitterly. The handicap Qin Chen said is that he must get the first place. But with so many geniuses, even though he has seen Qin Chen's defense against the sky, he can say Qin Chen would definitely be the first place, and he couldn't help but hesitate.

After all, powers like the King of Pills, Heavenly Medicine Sect, and the Daoyu Family of Ancient Pills all have the Eighth Stage Medicine Emperor. These people have received the most heaven-defying alchemy training since they were young. No one can predict how talented the alchemy will be. .

That's why Kang Sitong was so hesitant.

"Oh? Interesting."

Qin Chen laughed. He thought that this Dandao competition was just a cutscene, but he didn't expect there to be so many interesting places.

He didn't think Kang Sitong was exaggerating.

As the host of Wanbaolou, Kong Sitong's intelligence is absolutely against the sky, he said that, he must have his channels and grasp.

Moreover, what he said earlier is not impossible, the Guyu Realm places are very precious, even the alchemy power geniuses in the Martial Domain, most of them cannot get the places.

But this time Wuyu Dange decided to give out three places to bestow the winners in the Four Regions Dandao Competition this time. This will inevitably arouse the coveting of these Wuyu Dandao forces and send their disciples down. It was no accident.

Although these people need to spend a lot of energy to enter the Alchemy Power of the Lower Four Realms, it is indeed worth it for them to do so for the quota of the Guyu Realm. "Then this way, I should have watched this young master Kang before. If he loses one hundred, if Wanbao Lou dares not do it, he will lower the odds. If he loses ten, he will bet that he will be able to win the championship with less money. Let me use the North Tianyu Dandao City as a mortgage, so the original poster Kang will not refuse, right?"

Qin Chen looked over with a smile.

"hiss!"

Kang Sitong took a deep breath. After Qin Chen heard the names of these people, he hadn't given up his thoughts. Is he really so confident? In Kang Sitong's view, Qin Chen could never be a genius cultivated in the Northern Heaven Region. He must also come from the Martial Region. He naturally understands the sects of the Dan King Sect. Now I heard that the other party's Zongzi will participate in the Dan Dao Competition. After the news, I didn't even get rid of the idea, still want to drive such a big

Handicap.

This made Kang Sitong had to analyze its meaning, that is to say, even in the face of so many top alchemy geniuses, Chen Shao still has absolute certainty that he will win the first place. Otherwise, the odds of one to ten are not a trouble. For play.

"Okay, I agree. As long as your Excellency allows Beitianyu Dandao City to mortgage, my Wanbaolou will open this market!"

In the end, Kong Si Tong gritted his teeth and made this decision.

It was Qin Chen's previous refinement that shocked him, and Qin Chen's confidence also infected him.

Qin Chen laughed, "Lord Kang, don't worry, after the competition, you will find how wise your decision this time will be. If the cooperation this time goes well, we will have greater cooperation in the future. space."

Qin Chen smiled confidently.

Kang Sitong looked at Qin Chen with an arrogant face, and felt inexplicably in his heart that this cooperation seemed to change his life.

After leaving Wanbao Building, Qin Chen returned to Fengyun Danyuan for the first time and started the work of the master of Pavilion Xuansheng.

If you want to use Dandao City as a mortgage, you have to come forward with Pavilion Master Xuan Sheng. At first, Pavilion Master Xuansheng was surprised when he heard that Qin Chen was going to open such a handicap with Wanbaolou, and he refused, but after listening to Qin Chen's analysis, he saw that the old man Dabei actually broke through Empress Wu. Period, and after Wan Baolou actually agreed to such a handicap, Pavilion Master Xuan Sheng also hesitated.
