

Valkyrie 1341

[Chapter 1341: Have expressed their opinions](#)

He who came from the Martial Domain had naturally heard of the horror of Wanbao Tower. It was a force standing on the top of the mainland, and its business spread across the entire Tianwu Continent.

Even as the owner of Pavilion Xuansheng, it is impossible for the owner of Zhongzhou City Wanbaolou to make such a decision.

But now Qin Chen actually did it, which touched him greatly.

In the end, with Qin Chen's persuasion, Pavilion Master Xuan Sheng agreed to Qin Chen's request.

Therefore, on the third day before the start of the Dandao Grand Competition, Wanbaolou finally opened the market. As soon as the market opened, the entire Zhongzhou City suddenly became a sensation, and even the entire East Continent region also became a sensation.

"My God, who is this Qin Chen, who actually opened the handicap to become a champion, is this too exaggerated?"

"I have never heard of it before. It is rumored that Wanbaolou is the saint son of Beitianyu. Wanbaolou actually offered an odds of one to ten. Is Wanbaolou crazy?"

"In other words, no matter how much we play, as long as Qin Chen fails to win the championship, Wanbaolou will be compensated ten times. My dear, who is this person?"

"Go, go and have a look."

A few hours after the handicap opened, the entire Wanbao Building had been squeezed by the crowd. Everyone was crowded here, and the water was blocked.

The crowd boiled completely.

The Wuyu Dandao Competition is the most important event in Zhongzhou City. It has already attracted the attention of everyone in Zhongzhou City, and rare gambling such as Wanbao Lou has also attracted countless people in Zhongzhou City. attention.

It can be said that for a grand event like this, whether you are interested in Wuyu Dandao Daobi or not, you will buy some lottery to enrich your life.

It can be said to be a small gambling.

Everyone was used to it, but as soon as Qin Chen's handicap came out, everyone was still stunned, and even Kang Sitong hadn't expected it at first.

In just one day, the passenger flow of Wanbao Building was more than a hundred times higher than normal. Not only was the Wanbao Building crowded with people, but the streets outside Wanbao Building were already flooded.

After learning that Wanbaolou had actually opened such odds, the crowd could no longer remain calm.

"Damn, who is this Qin Chen? Is it so awesome that Wanbaolou can make such a handicap, which means that if Wanbaolou does not go bankrupt, this kid must win the championship. Is it such an exaggeration?"

"Yeah, you see, even Ye Mo, our No. 1 Danzi in the East Continent, has only one to two odds. What kind of background is Qin Chen, more powerful than Master Ye Mo?"

"It's not Wanbao Lou that made a mistake, right?"

"Damn, the odds of this year's Wanbaolou betting seems a bit weird. Look, apart from our master Ye Mo from the East Continent, the Son of the Yan Equator from the South China Region also has an odds of 1:2.5, and Master Ye Mo is almost the same, is it possible?"

"That's all right. There is a person named Qiu Tian in the Western Wilderness Region, and the odds of becoming the champion are also one to two. The Western Wilderness Region has always been only a little bit stronger than the Northern Heaven Region and weaker than the South China Region. At that time, their holy sons all had such high odds? Higher than the South China Region?" "Cut, what is this? Look, what else is there in Beihai Dange Kui Xinyu, who is this guy, I didn't even listen. As I said, the odds are actually one to two, and Yu Sihui from Dange in the Tianmen area is also one to two. The Beihai and Tianmen areas are just small places.

The odds are the same as Master Ye Mo from the East Continent, are you kidding? "

"What's this? What's more abnormal is that Qin Chen. The odds opened by people are all the odds to become the champion. This Qin Chen is good, and he directly opens the odds that he can't become the champion. I think it must be Wanbao Lou. Wrong, it should be that Qin Chen became the champion, is it one to ten?"

The whole Zhongzhou City was full of discussions, and everyone who received the news had only one idea in their minds, that is, Wanbao Lou must have made a mistake.

But when everyone appealed in unison, after the host of Wanbaolou Kong Sitong came out to explain that it was not wrong, everyone was even more confused.

Zhongzhou City Wanbaolou, as the top treasure shop in the East Continent, has strong financial resources and well-informed information. It never loses money. Is this Qin Chen really so awesome that Wanbaolou feels that his probability of winning is as high as 100 Ninety out of it?

How else would such a handicap be opened?

Everyone thought about it, there is only one possibility, and that is cheating.

Unless Qin Chen is the default champion in the Alchemy Competition this time, Wanbaolou will lose money in such a handicap.

After thinking about it this way, everyone was surprised again. Damn, this is a fake match, and it's still a high-sounding fake match. How can this be tolerated?

Some well-informed people immediately sought confirmation from the Dange where their respective areas were located.

At this time, all the major Dan Pavilions could not sit still. Once Wuyu held the Dan Dao Competition and others thought it was a counterfeit match, the reputation of the Dan Pavilion was completely destroyed. So after the emergency meeting, Ye Mo from Dongzhou Region came out to declare that this time the Wuyu Dandao Competition will never be false, although I don't know why Wanbaolou decided that Qin Chen's odds. So high, but for the honor of Dongzhou Yudan Pavilion, for their own reputation,

It is absolutely impossible to release water on top of the Big Bi and definitely go all out to win the championship.

After Ye Mo expressed his stance, Yan Equator of the South China Region also stood up and spoke out, swearing by his reputation as the Dange of the South China Region, that he would defeat Qin Chen above the Dan Dao Grand Competition and be fair.

The other Dange players also all spoke out, and they must go all out.

They are also extremely dissatisfied with Wanbaolou's odds of Qin Chen, which means that in the eyes of Wanbaolou, they are not as good as a player in the Northern Tianyu, so how can they bear it? ?

The statements made by Ye Mo and others immediately caused countless skeptical people to slightly dispel some doubts, but they had not completely dispelled them until the next few news came out.

There are rumors that this time the Great Alchemy Competition is related to a secret realm called Guyu Realm in Wuyu Realm. There are few places in this secret realm. Among the lower four realms, there are very few places, even in Wuyu realm. The geniuses of many forces have also fought badly.

But this time the top three of the Dan Dao Competition, Dan Pavilion headquarters will use the quota of Wu Yu Dan Pavilion to send the three winners to the Guyu Realm. As soon as the news came out, the people in Zhongzhou City came to their senses. Ye Mo and the others were conscious that they might play a counterfeit match. No one would waste such an opportunity for a little bit of real stone. This is a matter of whether each genius will be in the future. To become the Emperor of Wu, even the Emperor of Medicine, everyone will

Go all out. Immediately afterwards, another news came out. It turned out that the one-to-ten market this time was not opened by Wanbaolou itself, but by Beitianyu Dandao City that Wanbaolou was opened, and the North Tianyu Dan Pavilion The resources of Dandao City were mortgaged, and Wanbaolou's approval was obtained.

[Chapter 1342: Very hilarious](#)

The news broke, and the whole Zhongzhou City was in an uproar.

by!

I thought it was Wanbaolou's own behavior, but it turned out to be a handicap made by the Northern Heaven Region Dandao City itself. This self-confidence is too inflated.

All the people in Zhongzhou City were in an uproar, where is the confidence of Beitianyu?

So the people who were still hesitating started to place bets one after another. Doesn't this Northern Skyland Dandao City think that their players will win the championship? Hey, I'll place a bet to see if he can win the championship. If he can't win the championship, I'm sorry, please pay ten times your bet.

In just half a day, Wanbaolou's market sales have exploded, and the money that Qin Chen loses in buying Qin Chen has reached several billion middle-grade real stones in half a day, far exceeding Kong Sitong's initial expectations.

This is only half a day, and it has reached several billions. After two days, how many will the competition begin?

Kong Sitong was even panicked.

As for buying Qin Chen, there were only tens of millions of middle-grade real stones, which was only a fraction of the billions of funds.

why?

Do you need to ask? The odds for Qin Chen not to win the championship are one to ten, and the odds to win the championship are only one to one. In other words, if you vote for 10,000 middle-grade real stones, you will only win 1,000, but you lose 10,000. , Who did it?

What's more, Qin Chen is not Ye Mo, who knows where the ghost came from? Will there be great alchemy geniuses in the North Tianyu? You don't believe it if you kill it.

It is true that the Northern Horizons has been weak for too long. In the entire Tianwu Continent, the Northern Horizons is equivalent to the poor country and remote areas, the kind of places in the countryside. I heard that even high-grade real stones are hard to find in places, how can geniuses appear?

Of course, there are only a few impulsive people, and most of them are relatively savvy. The first time they learn about the handicap, they call various relationships and inquire about Qin Chen's news.

The energy of these people is hard for ordinary people to imagine. In just one day, all the information about Qin Chen has been circulated, and almost Zhongzhou City has one.

Looking at the information in their hands, the people in Zhongzhou City were all taken aback and their faces were astonished.

I have to say that this Qin Chen is really not a nameless person.

Although this person is a member of the Northern Heaven Domain Pill Pavilion, his talent for refining medicine is really awesome.

It is rumored that he was originally just a genius for refining medicine under the Northern Heaven Region, not the Saint Child of the Northern Heaven Region Alchemy City, but not long ago, he challenged the position of the Saint Child in the Alchemy City and caused a big event. The storm, one after another defeated the two deputy chiefs of the Dange City Dange in the Northern Heaven Region.

"hiss!"

Everyone who saw this news sucked in air-conditioning. This Qin Chen was indeed awesome.

It is rumored that the two deputy pavilions of Beitianyu Dandao City are both the medicine kings in the middle stage of the seventh stage, and in the alchemy attainment, even close to the peak of the middle

stage, they have lost one after another in the duel with Qin Chen. Lead to the fall of a deputy pavilion master.

This... I have to say that even people who look down on Bei Tianyu can't help but give Qin Chen a thumbs up.

Rumor has it that in that competition, this Qin Chen also refined a mid-rank seventh-rank Wang Dan. At such an age, he could refine a mid-rank seventh-rank Wang Dan. This pill talent can only be described by one word-strong !

Moreover, Qin Chen was also ranked first in the North Tianyu Dan Pavilion with a score of 90 in the elixir talent test in Fengyun Danyuan. Currently, there are only two people higher than him, one from the East Continent. Master Ye Mo has a score of ninety-four floors, and one is Yan Equator in the South China Region, with a score of 92.

In addition, the other geniuses with great odds in Wanbaolou have unexpectedly consistent results, all on the 90th floor.

This shows Qin Chen's strength and talent.

After everyone was surprised, they started the mode of betting wildly.

What do you ask everyone for? Do you need to ask? Of course, Qin Chen couldn't win.

Qin Chen's results are indeed impressive. He is already the seventh-tier mid-level medicine king at a young age. It can be called the top in any place in the lower four domains. But if you say that you will definitely win the alchemy competition, hehe, think Too much.

What's so great about the middle stage of the seventh stage, let's not say anything else, Master Ye Mo of the East Continent is rumored to have been the king of medicine in the middle stage of the seventh stage four years ago, and he was only 27 years old then, and now he's thirty-one. How strong is Master Ye Mo? Everyone has long been incalculable.

There is also the Yan Equator in the South China Region. It is rumored that he broke through the middle stage of the seventh stage at the age of twenty-eight, but the Yan Equator is now thirty-two. No one knows his elixir skills except for himself. How awesome.

And what about Qin Chen?

It is said that he was the Medicine King who was certified a few months ago. Even if he could refine the middle-stage Wang Dan of the seventh rank, I am afraid he could barely refine it. How could it be compared with Master Ye Mo and Saint Son of Yan Equator?

Therefore, after Qin Chen's many materials were presented, instead of slowing down the rate of increase, the number of purchasers suddenly increased.

On the first day, there were only a few billion middle-grade real stones in funds. By the second day, it had reached more than 30 billion. On the day before the competition, the amount of funds exceeded 80 billion, almost broken. Hundreds of billions.

The people were frightened, the host of Kang Sitong was frightened, and the host of Xuan Sheng was also frightened.

If Qin Chen didn't win the championship, he would lose trillions of Pill City, which was almost the rhythm of emptying the entire Pill City.

If this is the case, the Beitianyu Dange will slowly repay the debt in the next few decades, hundreds of years.

Just when everyone thought that the handicap was about to reach its peak, a few large sums of money entered the market. The top powers in the East Continent got the news and instantly purchased nearly 50 billion of the handicap, and suddenly expanded the amount of funds. To one hundred and forty billion.

Before Wanbaolou could react, a few large sums of money entered the market, and they were still buying wildly.

"Stop selling, stop selling soon."

The host of Kong Sitong who got the news turned pale with fright, and almost rushed out and shouted.

When the employees of Wanbaolou cut off sales for the first time, Qin Chen's total market has already reached nearly 200 billion middle-grade real stones.

puff!

Kang Sitong was so startled that he almost vomited blood and died suddenly.

Two hundred billion...

Once Qin Chen loses the game, they will lose two trillion.

Although there is Beitianyu Dandao City as a mortgage, it is impossible for Beitianyu Dandao City to put out two trillion yuan of funds at a time. At that time, the Wanbao Building that sits in the house will inevitably be paid in advance and will be dragged. Into the debt abyss.

"It's over, why did I agree to that kid?"

Kong Sitong's face turned pale, and he couldn't calm down because of his unwillingness.

What made him even more dumbfounded was that it was still behind. After investigation, it turned out that the few large sums of funds for the last purchase were actually purchased by Dan Pavilions in other regions.

According to their words, even though they are both Dange, this kind of opportunity to make money, why not make money if there is a profit. And everyone is a Dange, so instead of making money for outsiders, it is better to make money for yourself.

[Chapter 1343: Good dog is not in the way](#)

puff!

When this news came out, the host of Kang Sitong and the host of Xuan Sheng vomited blood again, and they finally knew that if they were cruel, it would be nothing more than an outsider.

And the other senior members of the Great Dan Pavilion are all smiling, this money is not made for nothing, right?

What's more, Beitianyu Dandao City opened this handicap, so many people in the lower four areas almost thought that Wuyu Dange was fighting a counterfeit match, and the name of Beitianyu Dange suddenly surpassed theirs. On the head.

How can this be tolerated? In the past, the Northern Horizons Dan Pavilion had no sense of existence in the Four Territories, but now it's better. Everyone who got it thought that the Northern Horizon Dan Pavilion was better than them.

The limelight is so high, how can we not suppress it?

The news broke that the Beitianyu Dange had completely become the laughing stock of the entire Zhongzhou City, and the funds that had originally purchased the handicap that were still a little worried, at this moment, there is no more worry.

Even if I bought other Dange, will there be fakes?

There were even a lot of funds before they could enter the market. When I learned that Wanbaolou had closed the market, I was immediately depressed. I blamed myself for not having any vision and didn't buy it in the first time. I was very upset.

In the boiling of Zhongzhou City, Wuyu Dandao Grand Competition finally ushered in the beginning.

This time, the Wuyu Dandao Competition was placed on the most central square in Zhongzhou City. The steps surrounding the square are divided into 8,864 floors, which are very magnificent and vast enough to accommodate over a million people to watch together. But even so, the supply of seats is in short supply. As the core city of the East Continent, the residents of Zhongzhou City can be counted at 100 million, not to mention that after learning about the Wuyu Dandao Grand Competition, some of the next four regions have status and status. Alchemists have also come one after another, this is also a huge

Flow of people.

In order to limit the flow of people, Zhongzhou City has implemented a ticket system for the visiting martial artists this time. According to the distance and quality of the location, the tickets range from 10,000 middle-grade real stones to 50,000 middle-grade real stones.

But in just two hours, all tickets were sold out.

Tens of thousands of middle-grade real stones are nothing to the warriors of Zhongzhou City.

This made the people stunned. The entire Zhongzhou City has tens of billions in revenue for the ticket alone. Although this revenue needs to be shared equally with Dange and distributors, there are hundreds of them for this event alone. The net profit of 100 million yuan makes people not sigh that money is so profitable.

Of course, this is also in a place like Zhongzhou City, and it is absolutely impossible to organize it in Beitianyu.

Moreover, the farthest position of the steps in the square is very far away from the central arena. At least those who are strong above Wu Zun can sit in the last seat and clearly see the competition in the center of the most arena.

Early in the morning, there was a huge crowd on the stage.

Seventeen players who passed the elixir test, including Qin Chen, also came to the competition area under the leadership of the staff.

"Qin Chen, this time, you have to go all out. The future of my Northern Heavenly Domain Pill Pavilion is in your hands." Before entering the competition area, Pavilion Master Xuan Sheng said nervously, cold sweat on his forehead. Up.

This is a debt of two trillion yuan. Once Qin Chen loses, his Northern Heaven Domain Pill Pavilion is completely finished, and he, the pavilion master of the Northern Heaven Domain Pill Pavilion, can be regarded as the end. Severe punishment.

"Pavilion Master, you can rest assured." Qin Chen smiled.

"Don't worry, can I rest assured?" Xuan Sheng was in his heart, but he didn't dare to show it, for fear of affecting Qin Chen's performance.

"Hmph, this Qin Chen is too arrogant. Our Beitianyu Dan Pavilion was miserable this time." Not far away, Wei Jinzhou looked at this place and snorted coldly.

Xi Aoling and You Huaqing also smiled bitterly, but both of them did not respond. They also knew the terrible Qin Chen, everything, see the truth in the arena.

In the competition area on the edge of the central arena, many contestants have gathered, and at a glance, there are actually as many as two to three hundred people.

The faces of Xi Aoling and others are a bit ugly. The players who can come here have passed the elixir talent test. As one of the four domains, they only passed the seventeen people, but they did not expect so many. People passed the talent test.

"Look at it, this is the team of the North Sky Territory."

"Could the leader be that Qin Chen?"

"Sure enough, it looks so young, but it's about twenty, at most in his early twenties."

"Hahaha, just he opened a one to ten handicap? That's a laugh."

"Hehehe, Beitianyu was weak before, but it is considered safe. This time I don't know what kind of wind it has drawn, and I dare to open such a handicap. It is really ugly."

"Haha!"

There were whispering voices everywhere in the competition area, and countless picking fingers pointed at them, making Xi Aoling and the others annoyed, and they were watched like horse monkeys.

Qin Chen didn't care and continued to move forward.

"Slow!" He just took a few steps before being stopped.

He is a saint son of Nanhuayu, named Wang Tai.

"You are Qin Chen?" Wang Tai looked at Qin Chen contemptuously: "Does it look very ordinary? Even if you dare to offer such odds, who do you think you are? Senior Brother Biyan Equator Are all strong?"

"Who are you?" Qin Chen rolled his eyelids, did he know him?

"Who I am, it doesn't matter, I just tell you, a person is worthy of self-knowledge, rubbish, you don't need to jump up and down to show your existence." Wang Tai said proudly, and then looked at Xi Aoling and other Beitianyu players: "I It's not against anyone, I'm talking about all the players in your Northern Skyland."

"you....."

Xi Aoling and the others were so angry, their faces flushed.

unacceptable!

They stared at Qin Chen, after all, Qin Chen was the leader, and everyone was going to step forward after Qin Chen gave an order. Here, who is afraid of whom.

Qin Chen laughed, and said to Wang Tai: "Jump up and down? Are you talking about yourself?"

puff!

Suddenly someone beside him couldn't help but laugh, Wang Tai was so arrogant, he jumped up and down to describe it really appropriately.

"you wanna die."

Wang Tai was so angry that the little Beitianyu disciple dared to say that to him. His aura suddenly rose to the sky, shocking towards Qin Chen. This was to use his aura to crush Qin Chen.

"A good dog is not in the way!"

Qin Chen gave him a white look.

"you....."

Wang Tai was mad at once, wishing to hack Qin Chen to death on the spot, but he had been "you" for a long time, but he still didn't dare to do anything.

where is this place? In the competition area of the Dandao Grand Competition, if he dares to do something, the Wuyu Dange will be furious, and the master will not be able to protect him. The South China Yudange will probably expel him for self-protection. "Are there any personnel from Wuyu Dange?"

Someone in the competition area threatens the contestants, isn't it unattended?" Qin Chenchao asked lightly next to him.

[Chapter 1344: The first round of testing](#)

A staff member suddenly came over, looked at Wang Tai coldly, and said, "Don't let go."

"Yes."

Wang Tai was so ashamed that he didn't dare to refute, so he retreated dingly.

"Thank you." Qin Chen arched his hands and smiled faintly, but then he went to a corner of the competition area and sat down, seemingly fine.

"It's interesting." The top players in all domains all smiled.

On the contrary, Wang Tai, before, became everyone's laughing stock.

There was a turmoil here in Qin Chen, and Pavilion Master Xuan Sheng was even more disturbed.

Xuan Sheng came from the Wuyu Dan Pavilion and naturally knew many people. Although he may not be very familiar with the pavilion owners of the Dan Pavilion such as Dongzhou Region, he has met several times.

In the past, everyone laughed and complimented each other a few words, but this time, everyone's compliment became Xuan Sheng, but the compliment tone made people very uncomfortable.

"Xuan Sheng, it seems that you have found a good seedling in the North Tianyu this time. Tsk, the King of Medicine, who is about 20 years old, is amazing. No wonder you dare to make such a handicap and make a big deal by then. Forget about our brothers."

It was the pavilion master of the Western Wilderness Region who was talking with a smile on his face and teasing expression.

"Yes, I heard that Wanbaolou's handicap is as high as 200 billion. Hiss, such a large amount, really makes people jealous. What a pity, I have no part in the South China Region." The pavilion owner of the South China Region is an old gray Fat old man, a look of loss.

"Pavilion Master Xuan Sheng, when your disciple of the North Tianyu wins the championship, you must remember to set up a banquet so that I can wait and celebrate."

The pavilion masters from all major domains all smiled, just words, how to listen to how hypocritical, but the smiles are very sincere.

Can it be insincere?

The many patrons on the field basically suppressed 5 billion to 10 billion of funds. This is a tenfold increase, and that is 50 billion to 100 billion, which is not a sum of money for pavilions in their major domains. A small sum is a windfall.

"Thank you for your kind words."

Pavilion Master Xuan Sheng laughed, showing no dissatisfaction at all, but he couldn't help but curse in his heart. There is no good person for these old things.

"Qin Chen, you have to fight for your breath, my old face and the rest of my life are all tied to you."
Pavilion Master Xuan Sheng said depressed.

Everyone was waiting, and they didn't know how long it had passed. Booming, a battleship appeared in the sky. From the battleship, a group of extraordinary powerhouses flew out, and they were the powerhouses sent by Wuyu Dange.

The leader among them was an old man with gray beard and hair. His aura was extremely restrained. Once he appeared, he seemed to have become the core of this world. Everyone couldn't help but focus on him.

"Subordinates have seen Master Ouyang Zhengqi."

The pavilion masters of the various domain pill pavilions below stood up, looked respectful, and hurriedly saluted.

The visitor was named Ouyang Zhengqi, who was from the Wuyu Dange headquarters, with noble status, and the cultivation base of Emperor Yao.

The other party can decide their life and death with a word.

"No need to be polite!" Ouyang Zhengqi waved his hand, and then said to many people below: "Thank you all for participating in the lower domain Dandao competition held by our Wuyu Dange. Now the old man announces that the lower domain Dandao competition is official. Let's start, every contestant, please come out..."

After Ouyang Zhengqi took a seat in front of the forefront rostrum, his words were concise and in a few words, and the Dan Dao contest began this year, which was very exciting.

When more than two hundred people came to the central arena, everyone couldn't help taking a breath.

Everyone on the field was wearing a medicine master's robe, and each was the cultivation base of the medicine king. When so many medicine kings stood in front of everyone, the strong shock made everyone extremely excited.

This group of people represents the future of Xiayu alchemists, and is also the best among the many young alchemists in Xiayu. They are all under fifty and the oldest is only more than forty, but each one is a medicine. King status is enough to be respectable.

The most eye-catching ones are naturally Ye Mo from the Eastern Continent and Yan Equator from the Southern China. I have to say that there is indeed a difference between evildoers and geniuses. Although they are both medicine kings, this The group of people just stood on the ring so indifferently, it made people feel the obvious difference.

Ye Mo, Yan Chidao and others are like fireflies in the night, their bodies exuding a unique aura that makes people afraid to approach and look closely.

In fact, the same is true, just like a pair of invisible hands drew a clear distinction. Beside Ye Mo and the others, the other medicine kings couldn't help getting away. Only a few of them stood in the middle of the ring. Already seems to be a winner.

wrong.

A group of people also stood around these people, as if they were not affected by Ye Mo's powerful aura at all.

"Damn, where did these guys come from?"

"You dare to stand beside Master Ye Mo and think who you are."

"Look at the leader, hiss, he is very young, only about twenty?"

"Qin Chen, it's definitely Qin Chen from the North Sky Territory, so arrogant, it's no wonder that he dared to make such a handicap."

"Hey, the master Xuansheng of the Northern Heavenly Domain Dan Pavilion is really brave. He dares to accompany this young man to play so big. Isn't he afraid of ruining the Dan Pavilion and being punished by the Wu Yu Dan Pavilion?"

The crowd boiled, whispering and talking.

When Ouyang Zhengqi heard the discussion, he couldn't help but frown, "What's the matter?"

The Dan Pavilion masters of the other regions on the side listened, and they all laughed and told the opening of the North Heaven Region Dan Pavilion and Wanbao Tower.

"Master Ouyang Zhengqi, Pavilion Master Xuan Sheng is now very prestigious. He has found a genius disciple. I am so impressed by it."

Everyone laughed, but their smiles were very teasing.

"Ten times the odds? Nonsense!" Ouyang Zhengqi coldly looked at Pavilion Master Xuan Sheng, and suddenly a palpable breath filled Pavilion Master Xuan Sheng's forehead with cold sweat.

"Xuan Sheng, after the Alchemy Grand Tournament is over, you will find me to explain the situation. I think you will be stupid if you have been transferred to the North Tianyu for decades." Ouyang Zhengqi snorted.

Pavilion Master Xuan Sheng turned pale, just about to explain, Ouyang Zhengqi waved his hand and said lightly: "Don't explain it, it's more important from the beginning, and you will come back to ask for the crime."

"Yes." Pavilion Master Xuan Sheng had to retreat to the side with an ugly face, while Pavilion Master Dan from other domains had a faint smile on his lips. Ouyang Zhengqi stood up and said: "Since everyone is here, then this year's Dan Dao Competition will officially begin. The old man Ouyang Zhengqi is the chief examiner of this year's competition. It is divided into two rounds of testing. The first round of testing is about fire control."

[Chapter 1345: Such fire control](#)

Fire control?

Many players began to discuss.

This fire control is a skill that all pharmacists must control. A pharmacist who wants to refine a strong pill must be very skillful in controlling fire. The importance of fire control in alchemy is absolutely capable. Ranked to the top.

Therefore, everyone in the first round of assessment is fire control, but there are not many surprises.

It's just that the assessment of fire control can be divided into many forms, such as the flame simulation competition between Qin Chen and Jin Shengjie, a simple hot pot competition, and even a direct flame confrontation.

So what everyone is discussing now is what this round of assessment will be.

Under the gaze of everyone, I saw Master Ouyang Zhengqi violently wave his hand. In an instant, thousands of flames appeared densely in the sky. These flames were divided into nine types, including white, red, dark red, gold, etc., etc. .

Thousands of flames are suspended in the air, magnificent and magnificent, giving people a strong sense of shock. Under everyone's shocking eyes, these flames have fallen in front of every player.

There are nine flames in front of everyone, the same size and the same color.

"Everyone, the flames in front of you are the basic flames specially prepared by our Dan Pavilion. Each type of flame has different attributes, and they mutually reinforce each other."

"And what you need to do is to fuse these flames one by one. The more flames who can fuse, and the greater the power, the higher the final result."

"This question has a total of 100 points. The score is not based on your rankings, but based on the strength of your fusion flame."

"The first round of testing is a knockout. If the final fusion does not reach the three flames, they will be eliminated directly and will not enter the next round."

"Now, I announce that the first round of assessment has officially begun!"

After Ouyang Zhengqi announced the rules of the game, he immediately sat down.

But the entire arena has already caused an uproar.

"This first round of assessment competition is actually Fusion Flame?"

"Awesome. Nearly three thousand flames are divided into nine different attributes. Each player has nine in front of him, and they are exactly the same. I am afraid that only Wuyu Dange can have such unpredictable methods."

"The attributes of flames are very diverse. For example, they are both Geng Fire, Geng Jin Fire and Geng Wood Fire... Nine kinds of flames have completely different attributes and are in harmony with each other. Some flames merge, their power will increase, and some The flames fuse, but the power drops."

"This round of assessment is probably not only the ability of the pharmacists on the field to control the flames, but also the familiarity of each pharmacist with various flames and the fusion of various flames. The prediction of the new flame is extremely difficult, and it is by no means ordinary."

"Awesome, it's worthy of the Dan Dao contest, amazing!"

After understanding the rules, many alchemists who came to watch the battle were shocked and spoke out.

Each of these flames is terrible. It takes a lot of time for the players to refining. After refining, the attributes of the flames must be distinguished and merged. This difficulty is compared to Simple assessment is obviously much more difficult.

Even Qin Chen looked at the flame in front of him and couldn't help nodding slightly.

In fact, it is not difficult to refining the flames in front of you. The aura levels of these flames are all at the peak of Tier 6, and they are less than Tier 7. The alchemist who can participate in the competition, the weakest is also the seventh-tier Medicine King, Refining Nine flames of the sixth-order peak, although not easy, the difficulty will never be too high.

The most difficult part is the fusion of flames. The nine types of flames are combined in pairs. According to the different order, the resulting arrangement is actually very vast. The new flames formed after the fusion of each two kinds of flames will become different. It's time to test the true skills of a pharmacist.

Moreover, the assessment time given was only half an hour, which also increased the difficulty of the assessment for everyone.

It's not easy to just merge the three flames in the first round, and I am afraid that many players will be screened out.

With such a comprehensive assessment, the strength of the pharmacists in fire control will eventually be clear at a glance, and there will never be any mistakes.

call!

Many pharmacists on the field were gearing up, showing their brilliance. At the moment when Master Ouyang Zhengqi announced the start of the competition, they all couldn't wait to refining the flames in front of them.

Qin Chen did not do anything for the first time, but first analyzed the flames in front of him one by one.

Suddenly, a strong hostility came, but it was Wang Tai from the South China Region, looking at him provocatively, with a cold expression from his brows.

Obviously, I was very dissatisfied with being taught by Qin Chen before, and wanted to crush Qin Chen in this big competition and find his own place.

Qin Chen only glanced at him, then withdrew his gaze, without any response.

Wang Tai felt good about himself, but Qin Chen had no plans to compete with each other at all. The two were not at the same level at all, and there was nothing to compare.

But Qin Chen's attitude of not caring about him even angered Wang Tai. A trace of killing intent passed through his eyes quietly, cold and cold.

Buzzing...

At this time, in the arena, every player began to take action, one after another, strong or if mental power rose to the sky, densely packed mental power, in their respective small spaces, one after another descended on the flames in front of them, Begin to analyze the attributes of the flame, and proceed with refining first.

In front of the ring, an hourglass slowly leaked, counting the time.

Every pharmacist knows how to refine flames, but it is not easy to refine nine flames in a short period of time. Moreover, these nine flames have their own different attributes. For the players, each One refining process consumes a lot of energy.

The audience around them opened their eyes wide, wanting to see who would refine the first flame.

Hum!

At the moment the game started, in front of Yan Equator, a flame moved quietly, and under the traction of Yan Equator, it fell into his palm, emitting surging heat.

"Quite soon, the Yan Equator of the South China Region turned into a flame so quickly."

Everyone was surprised.

How long has this started? One or two breaths, refining a flame? Is this too fast?

Shoo...

The shock of everyone has not yet subsided.

The first flames in front of Ye Mo, Qiu Tian, Kui Xinyu, Yu Sihui and others also fluttered one after another, falling in front of each other, only a breath slower than Yan Equator.

So fast!

Everyone was shocked, the speed was too amazing, the so-called snap of the finger, is it just so?

Hum!

At this time, the second flame in front of Yan Equator also fluttered quietly and was refined by Yan Equator.

"Hiss!" Suddenly, the air-conditioning sounded one after another, resounding through the square.

[Chapter 1346: Natural fire source](#)

Fast, too fast, incredibly fast.

Less than a few breaths before the start of the game, Yan Equator had already refined two flames. At such a speed, even some of the older generation medicine kings were shocked and could not believe it.

Each of these flames is as high as Tier 6 peak. Although the players on the field are all seventh-rank medicine kings, they can refine two flames in such a short period of time, and everyone is greatly shocked.

But more shocking is yet to come.

Following the Yan Equator, buzzing... Ye Mo and others also refined the second one after another. The speed was only a little bit worse than that of Yan Equator. It can be said that there is no substantial difference.

At this time, a dozen or so breaths have passed since the start of the game. Ninety-nine percent of the people have not even refined a single flame, and the five Yan Equators have refined two flames. At this speed, How can people not be surprised?

This speed is too terrifying!

Refining a flame of medicine is not just a matter of suppressing the flame with mental power, but also requires some in-depth communication with the flame, so that you can become very familiar with the flame of refining.

Even many of the top medicine kings, elders, and deputy pavilion masters from various domain pill pavilions were shocked again and again, because when they stepped forward, they did not dare to say that the speed of refining must be faster than Yan Equator.

"Such a method is simply not what an ordinary pharmacist can do."

"Pavilion Master Taiyuan, this Strict Equator is your Alchemist Alchemist in the South China Region. It's amazing. It's your Excellency who stepped forward, right?"

"Pavilion Master Taiyuan is the veteran seventh-stage peak medicine king. Could it be said that Yan Equator also has this kind of cultivation base?"

"Impossible, Yan Chidao, he is only thirty-two years old this year. He is the 32-year-old Pinnacle Medicine King of the late seventh stage, hiss, when will the lower four domains appear such an evildoer?"

"It is rumored that the strength of Master Ye Mo in the Eastern Continent is still above the strict equator, but the speed of this strict equator refining flame is faster than Master Ye Mo."

"Not only Yan Equator, but you see Qiu Tian from the Western Wilds, Kui Xinyu from Beihai, and Yu Sihui from the Tianmen organization, whose refining speed is comparable to Master Ye Mo. When are the geniuses of these forces so terrifying? "

"It's all about Qiu Tian in the Western Wilderness Region. It's also one of the lower four regions. But Beihai and Tianmen are just small regions. Many people have hardly heard of it before. There is such a genius born?"

Everyone talked a lot, and their faces were shocked. Of course, everyone's more attention was focused on Yan Equator's body with a look of wonder.

Because compared with other players, Yan Equator leads too much.

In just five minutes, five of the nine flames in front of him had been refined, while Yan Equator, Kui Xinyu, Qiu Tian, and Yu Sihui all refined four of them. Below, there are even fewer. There are three to one.

Following this trend, Yan Equator will be able to refining all nine flames within ten minutes. The more time left, the more fusion flames will naturally increase.

"These guys have unique methods of refining flames, and they deserve to be the top geniuses in the Dan Pavilion of each domain." Someone was shocked.

Master Ouyang Zhengqi nodded. The normal alchemist refining the flame uses spiritual power to communicate with the flame and subdue it, but in fact, there are various techniques for refining the flame.

Like Ye Mo in the Eastern Continent, his spiritual power is spiral. This should be the method of fusion of spiritual consciousness. Using the penetrating power of spiritual power, it instantly penetrates into the flame, forms a connection with the flame, and then starts from the inside to the outside. Refining.

Another example is Yu Sihui of the Tianmen organization. The palm touches the flame, and uses the vitality in the body to form a connection with the flame and attract each other. This should be the body touch in ancient medicine.

Everyone's methods are different, but the effect is similar, which makes them obviously much ahead of other alchemists.

The most surprising thing is Yan Equator. His refining techniques seem to be nothing special, but any flames under his mental power seem to be attracted invisibly, making everyone look left and right, and they can't see it. Clues.

"What refining technique is Yan Equator using, why can't I see it at all?"

"Indeed, his mental power is very ordinary, he doesn't seem to use any techniques, but why are these flames so easily refined?"

"In terms of the light wheel mental power, Yan Equator's mental power is indeed strong, but it is only in the middle of Master Ye Mo's, and even weaker, but why..."

Everyone was puzzled, confused and could not understand.

But no matter how people asked, the pavilion master Taiyuan of the South China Region just smiled and said nothing, very mysterious.

At this time, Master Ouyang Zhengqi suddenly smiled and said: "Pavilion Master Taiyuan, if the old man guessed right, this Yan Equator should have a special flame constitution, right?"

"Haha." Pavilion Master Taiyuan of the South China Region laughed suddenly and said: "Master Ouyang Zhengqi is really amazing, in one word."

Flame constitution?

Everyone turned their heads and looked carefully.

Sure enough, the aura on Yan Equator's body seemed a little different from other alchemists. Pavilion Master Taiyuan smiled and said: "Yan Equator is the first saint son of my South China region. He has been unique since he was born. He is an extremely rare source of fire. He is naturally close to flames, and ordinary flames are hard to burn. Moreover, the blood of his awakening was also the blood of fire, the control of the flame,

Even the old man has to say that he is convinced. He is still young now. I am afraid that in a few years, even I will bow down. "

While he was talking, the corners of his mouth were full of pride.

Fire source body, bleeding blood?

Damn, how can it be so awesome?

As we all know, everyone's physique is different, and the fire source body is a physique that is naturally very close to flames. People with this physique practice fire system exercises, get twice the result with half the effort, and are naturally very sensitive to flame control.

What's more, Yan Equator's awakening is still **** blood.

With the combination of the fire source body and the bleeding blood, it is no wonder that he refining flames can be so fast. In this first round of testing, who can compare him? Isn't it the default first?

Everyone sighed, and immediately smiled bitterly. Some people are born to be the darling of heaven and earth. This is impossible to force.

At this moment, many people were shocked by Yan Equator's physique. They couldn't help but shook their heads with a wry smile, and their eyes flowed on the court. Suddenly, they couldn't help falling on Qin Chen in the crowd.

This time the Wanbaolou gambling lottery opened, the five people with close odds all showed strength against the sky, and Qin Chen, the most exaggerated of them? How is the result?

At this look, everyone's originally shocked eyes almost didn't come out all of a sudden, and their expressions were dull.

I saw nine flames floating there in front of Qin Chen, none of them being dragged, but Qin Chen himself was completely unaware, turning around the nine flames from time to time, look at this flame, that one. Flame glimpsed, as if he had no plans to shoot. So far, even a flame has not been refined.

[Chapter 1347: None other than](#)

"This kid, even a flame has not been refined until now."

"Isn't he the leader of the Beitianyu Dan Pavilion? How can he not refine a single flame?"

"It's been several minutes, even the worst person has already refined at least one flame, this..."

Everyone was speechless, all dumbfounded, murmured one after another.

Now on the field, even the weakest of the more than 300 players has refined a flame. Only in front of Qin Chen, nine flames are still suspended there, none of them have been refined. The key is Qin. Chen didn't even have any plans to shoot, which surprised everyone.

If you say that Qin Chen is just an ordinary player, it's okay, but he is still the leader of the Northern Heavenly Domain Pill Pavilion this time. The elixir talent crystal column has reached the 90th level. The most important thing is the Northern Heavenly Domain Pill Pavilion. He also cooperated with Wanbaolou to confidently offer a winning odds of one to ten.

This made everyone have strong expectations for Qin Chen, but now this result...

Can only say three words, hehehe!

This kind of strong contrast makes people unbearable.

"How did this guy become the leader of the Northern Heaven Domain Dan Pavilion?"

"Not even a flame can be refined, it's simply a weird thing."

"You said this kid won't become the leader after going through the back door?"

"It's impossible. With ten times the odds, how did the Pavilion Master of the Northern Sky Territory make such a mistake? And it's impossible for the crystal pillar of the spiritual medicine talent to be faked."

"What about the ninety-level talent test? Don't forget, this Qin Chen seems to be only about 20. At his age, he doesn't have to be strong enough to get a good result."

"Could it be that Qin Chen is not even the King of Medicine?" Suddenly someone put forward this argument.

"I remember that Master Ye Mo only became the King of Seven-Rank Medicine at the age of 24, right?"

"Hey, it's really possible. That said, Qin Chen is only the sixth-rank peak now, so it's not an accident that he can't refine these sixth-rank peak flames in a short time."

"Hey, this is a big joke."

The crowd was in an uproar and was completely shocked by this argument.

How strong the martial artist's cultivation base is, in the eyes of some masters, it is clear at a glance, as long as the breath that comes out of the body can be felt.

But the pharmacist was different. If he hadn't taken the initiative to show how high a pharmacist was, outsiders would never know.

Because of the special nature of the Pill Dao Competition, everyone took Qin Chen for granted as the Seventh-Rank Medicine King, but now thinking about it, they couldn't help but doubt other strengths.

If he really wasn't even the Medicine King, then Bei Tianyu's joke this time would be a big deal.

"Hahaha, Pavilion Master Xuansheng, this is the strength of your Northern Heaven Domain Dan Pavilion leader, it's almost six or seven minutes, right? Not even a flame is refined, it's the best."

"You heard that the Beitianyu Dange bet this one and you must win the championship. This... is a big joke."

"Pavilion Master Xuan Sheng is really clever, this vision is admirable by the old."

The Dange pavilions of the Western Wilderness Region, the South China Region, and the East Continent Region laughed and said, and even some people in the small regions were sneered.

Pavilion Master Xuan Sheng ignored the words of the two of them, but his brows were deeply furrowed, his eyes were fixed on Qin Chen, and he was very puzzled. He did not know why Qin Chen had been observing and fiddling with the flames. .

But he believed that Qin Chen definitely had his intention to do this.

But other people would not have his thoughts. It is a rare opportunity to hit Pavilion Master Xuan Sheng, how can he let it go?

Ouyang Zhengqi from the Wuyu Dange, after everyone's discussion, their faces were slightly difficult to look like, Bei Tianyu was indeed a little overdone and presumptuous this time, and they didn't know what they were doing.

Seeing Master Ouyang Zhengqi's face turned ugly, the pavilion master Taiyuan of the South China Region and others naturally mocked them even more.

Huangfu Nan, who was sitting at the back, couldn't help but snorted coldly, "Several patrons, now the game has just begun, and we people in the North Tianyu are not in a hurry. I don't know if you have anything in a hurry. Can I be sure that Qin Chen of my Northern Horizons will not stage a Jedi counterattack in the end?"

Huangfu Nan's words made Tai Yuan and the others almost choked. At this time, the Northern Heaven Territory was still so stubborn.

Several people sneered, and then sneered again and again: "Okay, okay, then let's wait and see, I'll wait and see, this is almost ten minutes, the kid who hasn't even a flame to refining, how will it be performed? The Jedi strikes back..."

At this time, the fastest Yan Equator had almost refined all nine flames, and only the last flame was left. The long time of refining also slowed his speed slightly. As for the other players, they all refined from three to seven.

In less than a minute, Yan Equator will not really be able to completely refine all nine flames in ten minutes, right?

Everyone's eyes fixed on the stage, ten minutes, refining nine sixth-order peak flames, this is definitely a record.

call!

Sure enough, within ten minutes, the last flame floated over and fell into the hands of Yan Equator.

"Ten minutes to refine nine flames."

"Yan Equator really did it."

"It's too strong, how can there be such a terrible pharmacist in this world." The pharmacists were stunned and couldn't believe their eyes. This is the flame of the sixth-order peak. It is them, just if you want to refine a flame, it's impossible in a few hours, but the equator can do it in ten minutes. The gap here is not short.

A few hours, but a lifetime.

call!

After Yan Equator, Ye Mo, Qiu Tian, Yu Sihui, Kui Xinyu all completed all the flames within a quarter of an hour, becoming the first five people to refine the nine flames.

After refining the nine flames, there was no pause. Yan Equator had already started the fusion of the first two flames. He selected two weaker flames from them. Under the impetus of his mental power, the two flames instantly touched together.

Crackling!

The two flames exploded with powerful forces, conflicting and swallowing each other, and the spiritual power of Yan Equator also participated in it at all times, accelerating the process of swallowing the two.

Only three minutes later, the two flames in front had completely merged, and it was visible to the naked eye. After the fusion of the two weak flames, they immediately became a lot thicker, emitting surging heat.

"Awesome, in three minutes, the first two were merged."

"It seems that this time the champion is the strict equator."

"Yan Equator chose the first two flames to be merged, namely Tiankui Flame and Dragon Heart Flame. These two flames are both fierce flames, but they have the closest attributes, so they are the easiest to merge and have the power to flames. , There is also a certain improvement, it is indeed amazing."

"This choice is very subtle, it depends on what flame he chooses to merge in the next moment." Everyone nodded and was amazed.

[Chapter 1348: Make history](#)

After Yan Equator merged the first two flames, Ye Mo and others were not arrogant and started the flame fusion.

Their perception of flame attributes is not as good as the equator of the natural fire source body, but it only took about five minutes to successfully merge the two previous flames.

Five minutes later, Yan Equator refined the third flame.

Seven minutes later, the fourth one.

In less than half an hour, Yan Equator has refined four flames, and the fifth flame has also merged almost half.

"Really, the entire game time is half an hour, that is, an hour. It's less than half of the time. Yan Equator has already merged four flames. Is this the rhythm of integrating all nine flames?"

Everyone was amazed, as if they were participating in the competition, and they were all excited.

If Yan Equator really can not only refine the nine flames, but also fuse the nine flames within half an hour, then he will become a myth of this time.

When the Wuyu Dange held the Dandao Competition, in order to strictly select the strength of the players, the test of the assessment questions will deliberately expand, so that the players cannot complete the final goal at all, so as to make the ranking. Sort.

In the history of Dan Dao Da Bi in the last thousand years, there has never been a situation in which anyone can completely complete the first question. If Yan Equator can do it, he will create a history and his name will always be inscribed in the Four Domain Dan. Daobi's record.

Time passed, and another ten minutes passed in the blink of an eye. At this time, Yan Equator was already fusing the sixth flame. His eyes were cold and focused, and his mental power did not relax at all.

Obviously he also knew what the consequences would be if he could fully complete the assessment. This would be a milestone achievement in the South China Region, so his mental power was very tight and he did not dare to relax at all.

At this time, the competition on the field was suddenly revealed.

Yan Equator led the way, refined to the sixth flame, followed by Ye Mo and Yu Sihui, both with five flames, and then Qiu Tian and Kui Xinyu, with four flames.

Then there were more than three flames, including Wei Jinzhou, Xi Aoling, and You Huaqing, with a total of sixty to seventy people, then two with more than one hundred people, and nearly one hundred without one.

In the end, there were dozens of people who hadn't even refined the nine flames, but almost all of them had refined to the eighth and ninth flames.

The most dumbfounded is still Qin Chen, who hasn't even refined a flame until now, and everyone is speechless.

Even Pavilion Master Xuan Sheng and Huang Funan became nervous, their hands clenched tightly, and their foreheads were covered with cold sweat.

"Damn, no matter how bad Qin Chen is, he won't even be unable to refine a flame, right?"

"What the **** is he doing?"

Everyone was also puzzled and felt something was wrong, even if Qin Chen's cultivation on the alchemy was only the sixth-rank pinnacle, it wouldn't be more than half an hour past, and even a little flame could not be refined. There was definitely something wrong. But no matter what the problem, the weakest one on the field now has been refined to the eighth flame, but Qin Chen has not refined even one. At this time, almost no one wants to pay attention to Qin Chen anymore, and For other players, Qin Chen is like rubbish, not worth their time.

Just when everyone was about to turn their heads.

Qin Chen, who hadn't done anything before, suddenly moved.

Snapped!

He took a step forward, and the clear footsteps were particularly eye-catching on the silent ring.

Qin Chen squeezed out the weird tactics one by one with his hands, and his hands flicked on the flame in front of him.

Buzzing...

The flames that were lit by Qin Chen were like magic tricks. The moment Qin Chen flicked his fingers, they were instantly attracted, and then surrounded Qin Chen.

In just a dozen breaths, Qin Chen actually refined all nine flames instantly.

"This is impossible!"

Many screams of exclamation sounded, and many alchemists who saw this scene suddenly stood up, all of them dumbfounded.

what happened?

what happened?

The other audiences who could not see it for the first time also turned their heads, and immediately saw this shocking scene. Before, the nine flames in front of Qin Chen were naturally suspended there, but the next moment, These nine flames have already revolved around Qin Chen.

"how is this possible?"

On the rostrum, Elder Taiyuan and others also watched over, each exclaiming.

In shock, he almost didn't squeeze off the armrest at hand.

How did he refine nine sixth-rank peak flames in the blink of an eye?

But the scene before him shocked Taiyuan and the others. This is absolutely true.

"No, this child didn't completely refine the nine flames, but just used spiritual power to absorb the nine flames to his side for traction."

Suddenly, a voice came from my ear, it was Master Ouyang Zhengqi.

How could he miss such a shocking scene.

At the beginning, he was also taken aback by Qin Chen's actions, thinking that he had refined nine flames in an instant, but after carefully returning to his senses, he realized that it was wrong.

"To pull?" Taiyuan and others were puzzled. "That's right." Ouyang Zhengqi nodded: "You look at the nine flames. Although they revolve around Qin Chen, everything is only because Qin Chen has formed a

certain connection between himself and the flame. The flame is not completely refined. This kind of pull is very weak and can only enter the flame.

Simple manipulation can not be done like an arm drive. "

Ouyang Zhengqi saw what a clue.

"Damn, scare me."

"It turned out that it was just pulling with mental power, which made me think that he refined nine flames at once."

"This kid seems to be anxious too, haha, he can form a connection with nine flames in an instant. It can be seen that the strength of this kid is pretty good, but it's too late to start refining at this time?"

"It's just pulling, not refining, what should he do next with his flame fusion?"

"Huh, if you don't refine the flames, you won't be able to control the flames as if driven by an arm. Naturally, you won't be able to participate too much in the process of flame fusion. In this case, I can guarantee that Qin Chen will fuse even a flame. No more."

"This can't be so arbitrary. There are close to 20 minutes left in the assessment. Maybe Qin Chen made a strong comeback under his great power, and luckily refined so many two flowers?"

"Puff, hahaha."

Taiyuan and others couldn't help laughing.

"Hey, look, what are you Qin Chen doing?" At this moment, a sound of surprise sounded, attracting everyone's eyes.

At this glance, everyone's eyes could not be removed at all, each of them was dumbfounded and their expressions were dull.

I saw that after Qin Chen formed a connection with the nine flames, he was about to gather the nine flames in front of him again, and then let the nine flames merge forcibly.

What about this operation? Everyone was completely dumbfounded.

[Chapter 1349: Test power](#)

The fusion of flames is more than just letting a few flames merge by themselves.

There are nine flames on the field, each of which has different attributes and strengths. This time, the assessment is not only to let the flames fuse, but also to compare the strength of the fused flames.

Although Qin Chen did this, although it was very likely that one or two would be successfully merged, it was more likely that the flames would conflict with each other, and eventually both would be annihilated, and nothing would be left.

Even so many flames exploded when they collided with each other, enough to wipe out a Wu Wang.

This is not fusing flames, but playing with fire and self-immolation.

However, what shocked everyone was that the flame in front of Qin Chen really began to merge, and it was still very stable.

how is this possible?

"Teng!"

Many medicine kings on the field stood up one after another. It was the first time they saw such a scene. They saw nine flames, merging with each other. Although they were fighting against each other, they were slowly fusing at the same time. .

This made everyone unbelievable. Qin Chen did not refine all the nine flames at all. His control over the nine flames was only the most basic spiritual control. How could these nine flames merge with each other without conflict? ?

"What exactly is going on?"

"What happened? Then Qin Chen didn't refining flames at all. Why didn't these flames explode when they were not under control?"

"How did he do it?"

The crowd was shocked and completely unable to believe it. This was beyond their ability to understand.

If flame fusion is really that simple, then what did Yan Equator do so hard to refining flames before? Just let these flames directly merge with each other.

But they knew very well that this was absolutely impossible. There must be a reason why Qin Chen could do this.

Even Master Ouyang Zhengqi stood up suddenly, his eyes burning, staring at the scene in front of him, his heart shocked.

Under the shocking gazes of everyone, the flames in front of Qin Chen kept clashing back and forth. You came and went, continued to merge, and the speed was far surpassing the Yan Equator and others who had merged in advance.

Crackling!

Yan Jidao and the others were also attracted by the shock of the surroundings. They couldn't help but glance at them. At this look, their hearts trembled, and the fusion flames in their hands shook for a while, almost failing.

All of a sudden, they turned their heads again, concentrating on the flames in front of them, but the shock in my heart couldn't be suppressed, as if a heavy rock was pressed inside.

Yan Equator has a strong cultivation base and can recover in time. The other players are not so lucky. They can only hear bangs, and more than a dozen really well-integrated players saw this scene and were surprised. His mind collapsed, and the fusion flame in his hand burst suddenly, disappearing in smoke.

Their faces turned pale suddenly, and they were suddenly ashes. Seeing that the game was about to end, they had to work so hard to get to this point. They are now completely ruined.

Among them was Wang Tai, who had previously provoked Qin Chen. He had already successfully merged the three flames. No matter what, it was safe to enter the next round, but who knew that he was completely dumbfounded in shock, and he was originally fused. The flame also dissipated completely.

Although there are five unfused flames in front of him, these are the remaining flames that are more difficult to fuse, and now there are only more than ten minutes left before the end of the game. He wants to successfully fuse three flames in such a short time. , It's as hard as climbing.

His great alchemy comparison was completely destroyed because of Qin Chen.

"Ah, this **** it." Wang Tai was almost out of madness, wishing to rush to kill Qin Chen on the spot.

Time passed, and there were only ten minutes left before the end of the assessment.

Wow!

Suddenly there was a tsunami-like uproar on the court.

The rest of the players trembled their hands, and at a glance, they saw that Qin Chen's original nine flames had completely disappeared, and in the end only one extremely deep flame remained, floating in front of him, emitting astonishing heat.

Damn, this kid really succeeded.

Everyone was stunned. Qin Chen, who they had not been optimistic about before, suddenly became angry and completely integrated all the nine flames in less than half an hour. At this moment, the other Strict Equator, which is the fastest fusion, has just It started to fuse the ninth flame.

"impossible."

"How did he do it?"

Everyone couldn't understand, the corners of their mouths whispered and their expressions were dull.

Until now, these so-called alchemy giants had not been able to see how Qin Chen did all this, and all of this completely exceeded their understanding and common sense.

On the other side, Yan Equator was still frantically fusing the last flame, but the more anxious he was, the more difficult it was to merge.

when!

When the hourglass was over and the end bell rang on the court, Yan Equator still failed to complete the fusion of the ninth flame.

His face was sullen, showing bitterness.

At this time, several Wuyu Dange powerhouses under Ouyang Zhengqi stepped into the ring and began to count their results. In the end, the results were released. Qin Chen completely integrated the nine flames in less than half an hour, temporarily ranking first, Yan Equator integrated eight flames,

temporarily ranking second, and then Qiu Tian, Ye Mo, and Kui Xin Yu and Yu Sihui merged with seven flames to temporarily rank third. As for the rest, they are in the sixth place.

Duo and one are not equal.

"In this first round of testing, preliminary assessment, there are 267 people who have completed the three flame assessments. After this round of testing, 72 people have not merged the three flames and eliminated this Dan Dao competition. ."

The faces of those seventy-two people suddenly showed bitterness, and more than ten of them looked at Qin Chen fiercely. Among them, Wang Tai was the most depressed.

It's not that the dozen or so of them failed the assessment, but because Qin Chen attracted attention, and eventually failed the assessment, one can imagine the depression in their hearts.

"Here, congratulations to the two hundred and sixty-seven people who passed the first round. But next, you will be tested on the fusion flames. The number of fusion flames is just the most basic assessment. The final score will be It's your flame strength."

"We started the test with the flame of the last one."

call!

An instrument appeared in the hands of Na Dan Pavilion powerhouse, and the instrument was gently put down, and it instantly fell into the middle of the ring. At the same time, the last flame that fused the three flames was moved into the instrument with a wave.

Di di di di!

The flame instrument suddenly lit up, and at the same time the value began to increase rapidly, and finally fell to the value of two hundred and three.

Two hundred and three, is it strong or weak?

The faces of everyone were suspicious. While recording, the strong man of Dan Pavilion said: "This instrument is designed to test the power of the sixth-order peak flame. The sixth-order peak flame starts from one hundred and is capped by one thousand. If it exceeds one thousand, it is a seventh-level flame. Three flames, two hundred and three, are weaker."

[Chapter 1350: Amon](#)

Two hundred and three are weaker?

Everyone nodded their heads, thoughtfully, according to this person, the flames of the sixth-order peak all started from one hundred, that is to say, the nine flames released before, although strong and weak, should all be The highest value of one hundred or one hundred is never more than two hundred.

And this person merged three flames, but in the end only reached the value of two hundred and three, and it is normal to be called a difference.

This obviously shows that the opponent's fusion process caused a large part of the flame power to dissipate. Otherwise, theoretically, if the three flames are fused, the final result should be four hundred to be considered normal.

In this way, if all nine flames can be integrated, then the highest score should be infinitely close to one thousand. As for whether it can exceed one thousand, it depends on the specific situation.

Sure enough, in the next test, when the flames entered the instrument for testing, the indices were all expected.

"Two hundred and twenty-seven!"

"Two hundred fifty-three!"

"Three hundred and nine!"

"Two hundred and eighty-two!"

At the beginning, the index of dozens of people only changed between two and three hundred. After that, they began to increase to four hundred, but they were all between 400 and 600.

There are only a handful of people who can reach nearly six hundred, and the best one is only around five hundred and seventy-two.

And at this moment, there are fewer than 30 people who have not completed the test on the field, and these people are almost all masters who have refined six flames.

The first one, five hundred and ninety-eight!

The second one, six hundred and five, finally reached six hundred points, and that person's face suddenly showed surprise, which seemed a bit arrogant!

It is already an extremely glorious thing to be able to enter the top 30 among more than 300 players, not to mention his results, it is very likely to be even ahead.

The next one is You Huaqing from Beitianyu.

Di di di di!

When You Huaqing's flame entered the instrument, the instrument instantly lit up, a number flashed quickly, and finally froze.

Six hundred fifty three!

Damn, everyone's calm expressions were suddenly shocked. Who is this kid? The players currently tested are basically people who have refined six flames. In theory, the highest score is only 700, but You Huaqing's flame value is as high as 653, which means that in the process of fusion, the power of the flame to escape is ten

It's rare, and the blend is perfect.

"This guy is from Beitianyu, right?"

"When did Beitianyu have such a genius?"

"I remember this person named You Huaqing, who is said to be one of the holy sons of Beitianyu. There are four great sons of Beitianyu participating in the competition this time. Qin Chen belongs to the team leader. The three others are You Huaqing, I heard that Wei Jinzhou and Xi Aoling were both old-brand saints, but were later surpassed by Qin Chen."

After everyone was discussing it, they were shocked to discover that in addition to Qin Chen, there are other Saints in the North Tianyu.

It is true that Qin Chen's limelight was too high before, and the ten-fold handicap made him in the limelight for a while, and even Ye Mo and others were thrown off. In addition, Beitianyu was too remote, so that everyone didn't take it. The remaining three people are watching.

But now, all the talents suddenly realized that there were other pretty good refining geniuses in Beitianyu.

"Look, in addition to You Huaqing, the other two saints of the Northern Skyland, Wei Jinzhou and Xi Aoling, have also merged six flames, and the speed is still higher than that of You Huaqing. I don't know how they performed."

"Should not be stronger than You Hua Qing?"

"It's very likely, after all, that You Huaqing's results are already strong enough."

"In the top 30 players, Beitianyu occupies four places. This result is not bad?" "It can only be said to be so-so, but if it is good, it is far from it. Beitianyu is also the top four. One of the domains, at least five or six places in the top 30 can be considered good, and there must be two people who can break into the top ten, otherwise one of the four domains in the lower domain to the north is still bad far."

"Someone sneered.

During the discussion, the test continued.

"Six hundred thirty eight!"

"Six hundred forty one!"

"Six hundred seventeen!"

After testing seven or eight people, it was Xi Aoling's turn.

"Six hundred and sixty nine!"

"hiss!"

Everyone sucked in air-conditioning. Damn, what happened to the Northern Skyland today? There is another current highest score?

Xi Aoling's fusion of flames only had six, and he was able to achieve a score of six hundred and sixty-nine. What kind of result is this?

Such a value, not to mention the top ten, at least the top fifteen is not a problem.

Next, five more people took the test. Except for one with up to 672, Xi Aoling still ranked second. At this moment, fewer than fifteen people have not tested.

Next one, Wei Jinzhou.

Quietly glanced at Qin Chen, Wei Jinzhou's eyes showed a hint of pride, and the flames fused in front of him were placed in the instrument.

Di di di di!

The instrument screamed, and the final value stayed at six hundred and eighty three!

puff!

Many viewers almost spurted blood on the spot, which is the highest value? And it's still from the Northern Horizons, everyone is fainting, when did the Northern Horizons become so strong? His subordinates set new records one after another?

"Qin Chen, thanks to you, if it weren't for you, I wouldn't have been eager to be strong. In these short months, we will improve our alchemy cultivation base."

The three of Wei Jinzhou all looked at Qin Chen, with a sense of war in their eyes. After being stimulated by Qin Chen, the three of them retired and practiced hard, and finally each made a breakthrough, which was long before Amon.

In the next test, only two of them surpassed Wei Jinzhou, and all the players who combined the six flames have all tested.

The next one is Yu Sihui, a fusion of seven flames.

Her score directly exceeded 700, reaching as high as 789.

The next Kui Xinyu, but only seven hundred and eighty-two.

In the next Qiu Tian, the value soared to 796.

Then Ye Mo.

Eight hundred fifty three!

Wow!

Everything was shocked to stand up. Ye Mo had only seven fusion flames, no more than Qiu Tian and others, but the results were far above those of them, and it was as high as 853. How did he do it? ?

The faces of Kui Xinyu and others who had just finished the test suddenly became extremely ugly.

"Not bad." Grandmaster Ouyang Zhengqi couldn't help but exclaimed: "This son can make his own flames rise to a level while fusing. These methods are worthy of the name of a genius in the East Continent."

In the anticipation of everyone, it was finally Yan Equator's turn.

When the flame of the strict equator was placed in the instrument, the whole screamed loudly, and the value soared at an astonishing speed.

Beep!

Nine hundred and thirty-one! In the end, his results were fixed at this number, becoming the first in this competition.
